Durable Medical Equipment (DME)

17.1	Enrollment	4
-------------	-------------------------	----------

17.1.1	Custom DME Requirements	4
17.2	Program Overview and Guidelines	5
17.2.1	Custom DME	5
17.2.2	Standard DME	5
17.2.3	Program Guidelines	6
17.3	Benefits, Limitations, and Authorization Requirements	7
17.3.1	Adaptive Strollers	7
17.3.1.1	Authorization Requirements	7
17.3.2	Ambulation Aids	8
17.3.2.1	Crutches, Walkers, Gait and Ambulation Belts, and Canes	8
17.3.3	Breast Prosthesis	8
17.3.3.1	Breast Prosthesis Prior Authorization Requirements	8
17.3.3.1.1	<i>Prior Authorization for Medically Necessary Prostheses Beyond Set Limitations</i>	9
17.3.3.1.2	<i>Prior Authorization for Procedure Codes L8035 and L8039</i>	9
17.3.4	Burn Care Garments	9
17.3.5	Cochlear Implant Device	9
17.3.6	Continuous Passive Motion (CPM) Device	10
17.3.7	Enuresis Alarms	10
17.3.7.1	Prior Authorization Requirements	10
17.3.8	Gait Trainers (Supported or Sling Walkers)	10
17.3.8.1	Authorization Requirements	10
17.3.9	Hospital Beds (Manual and Electric)	10
17.3.9.1	Authorization and Prior Authorization Requirements	11
17.3.9.2	Pressure Reducing Pads	11
17.3.9.3	Positional Pillows and Cushions	12
17.3.9.4	Hospital Cribs and Enclosed Beds	12
17.3.9.4.1	<i>Prior Authorization Requirements</i>	12
17.3.10	Hygiene Equipment	12
17.3.10.1	Bath or Shower Chair	13
17.3.10.1.1	<i>Levels of Design</i>	13
17.3.10.2	Authorization Requirements	14
17.3.10.3	Adaptive Feeder Seats	14
17.3.10.4	Commode Chair	14
17.3.10.4.1	<i>Prior Authorization Requirements for Level 1: Stationary Commode Chair</i>	14
17.3.10.4.2	<i>Prior Authorization Requirements for Level 2: Mobile Commode Chair</i>	15
17.3.10.4.3	<i>Prior Authorization Requirements for Level 3: Custom Commode Chair</i>	15
17.3.10.4.4	<i>Authorization Requirements for Extra-wide and Heavy-Duty Commode Chair</i>	15
17.3.10.4.5	<i>Authorization Requirements for Foot Rest</i>	15
17.3.10.4.6	<i>Authorization Requirements for Replacement Commode Pail or Pan</i>	15
17.3.10.5	Commode Chair with Integrated Seat Lifts	15
17.3.10.6	Commode Seat Lift Mechanism	16
17.3.11	Infusion Pumps	17
17.3.12	Portable Paraffin Units	17
17.3.13	Seat Lift Mechanism	17
17.3.14	Special Needs Car Seats and Travel Restraints	18
17.3.14.1	Car Seats	18

17.3.14.1.1	<i>Prior Authorization Requirement for Car Seats</i>	18
17.3.14.2	Travel Restraints	19
17.3.15	Standers, Prone or Supine	19
17.3.15.1	Authorization Requirements	20
17.3.16	TENS Units	20
17.3.17	Transfer Boards.....	20
17.3.18	Travel Chairs	20
17.3.18.1	Prior Authorization Requirements	20
17.3.19	Wheelchairs	20
17.3.19.1	Wheelchair Authorization Requirements	21
17.3.19.2	Manual Wheelchairs	22
17.3.19.3	Custom Manual Wheelchairs	23
17.3.19.4	Power Wheelchairs	23
17.3.19.5	Approval Criteria for Power Wheelchairs.....	23

Federally Qualified Health Centers (FQHC) and Rural Health

Clinics (RHC)

19.1	Enrollment	3
19.2	Benefits, Limitations and Authorization Requirements	3
19.2.1	General Medical Services	3
19.2.2	Preventive Care Medical Checkups	4
19.2.3	Telecommunication Services	4
19.2.4	Behavioral Health Services	5
19.2.5	Dental Services	5
19.2.6	Vision Services	6
19.3	Claims Filing	6
19.4	Reimbursement	6
19.5	TMHP-CSHCN Services Program Contact Center	7

Hearing Services

20.1	Enrollment	4
20.1.1	Non-Implantable Hearing Aid Devices and Services	4
20.1.2	Implantable Hearing Aid Devices and Services	4
20.2	Benefits, Limitations, and Authorization Requirements – Non-Implantable Devices and Services	4
20.2.1	Hearing Screening	5
20.2.2	Abnormal Hearing Screens	5
20.2.3	Hearing Testing, Examination, and Evaluation Services	6
20.2.3.1	Audiometric Testing	6
20.2.3.2	Otological Examination	6
20.2.3.3	Vestibular Evaluations	6
20.2.3.4	Authorization/Documentation Requirements	6
20.2.3.5	Limitations	7
20.2.4	Hearing Aid Devices and Accessories	8
20.2.4.1	Documentation Requirements	10
20.2.4.2	Prior Authorization Requirements	10
20.2.4.3	Limitations	11
20.2.5	Hearing Aid Services	12
20.2.5.1	Documentation Requirements	12
20.2.5.2	Prior Authorization Requirements	13
20.2.5.3	Limitations	13
20.3	Benefits, Limitations, and Authorization Requirements – Implantable Devices and Services	13
20.3.1	Bone-Anchored Hearing Aid (BAHA)	13
20.3.1.1	Electromagnetic Bone Conduction Hearing Device	14
20.3.1.2	Prior Authorization Requirements	14
20.3.1.3	Limitations	14
20.3.2	Cochlear Implants	14
20.3.2.1	Device, Implantation and Supplies	15
20.3.2.2	Auditory Rehabilitation	15
20.3.2.3	Frequency Modulation (FM) Systems	15
20.3.2.4	Authorization Requirements	15

20.3.2.5	Limitations	16
20.3.2.6	Sound Processor Replacement Guidelines	17
20.4	Claims Information.....	17
20.4.1	Claims Filing for Non-Implantable Hearing Devices and Services	18
20.4.1.1	Claims Filing for Non-implantable Hearing Aid Devices	18
20.4.2	Claims Filing for Implantable Hearing Devices and Services	18
20.5	Reimbursement.....	18
20.5.1	Reimbursement for Hearing Tests	18
20.5.2	Reimbursement for Non-Implantable Hearing Devices and Services	18
20.5.3	Reimbursement for Implantable Hearing Devices and Services.....	19

Outpatient Behavioral Health

29.1	Enrollment	3
29.1.1	Provisionally Licensed Psychologist (PLP)	3
29.2	Benefits, Limitations, and Authorization Requirements	3
29.2.1	Authorization Requirements	4
29.2.2	Documentation Requirements	4
29.2.3	Pharmacological Management Services Documentation	5
29.2.4	Reimbursement—The 12-Hour System Limitation	5
29.2.5	Procedure Codes Included in the 12-Hour System Limitation	6
29.2.6	Psychological Testing, Neuropsychological Testing, and Neurobehavioral Status Exams	7
29.2.7	Psychotherapy and Counseling	7
29.2.7.1	Treatment for Alzheimer’s and Dementia	8
29.2.8	Psychiatric Diagnostic Evaluations	9
29.2.9	Noncovered Services	9
29.2.10	National Correct Coding Initiative (NCCI) Guidelines	9
29.3	Claims Information	10
29.4	Reimbursement	10
29.5	TMHP-CSHCN Services Program Contact Center	10

Physical Medicine and Rehabilitation

30.1	Enrollment	3
30.2	Benefits, Limitations, and Authorization Requirements	3
30.2.1	Osteopathic Manipulative Treatment (OMT)	3
30.2.2	Physical Therapy (PT), and Occupational Therapy (OT)	4
30.2.3	Method for Counting Minutes for Timed Procedure Codes in 15-Minute Units	6
30.2.4	Group Therapy	6
30.2.4.1	Group Therapy Guidelines	6
30.2.4.2	Group Therapy Documentation Requirements	7
30.2.5	Noncovered Services	7
30.2.6	Authorization Requirements	7
30.2.6.1	Initial Prior Authorization Requests	8
30.2.6.2	Extension of Services Requests	9
30.2.6.3	Discontinuation of Therapy or Change of Provider	9
30.3	Coordination with the Public School System	10
30.4	Claims Information	10
30.5	Reimbursement	11
30.6	TMHP-CSHCN Services Program Contact Center	11

Physician

31.1	Enrollment	8
31.1.1	Group Practices	9
31.1.2	Changes in Provider Enrollment	9

31.1.3	Substitute Physician	9
31.2	Benefits, Limitations, and Authorization Requirements	9
31.2.1	Authorization and Prior Authorization Requirements	10
31.2.2	Aerosol Treatments/Inhalation Therapy	11
31.2.3	Allergy Services	29
31.2.3.1	Collagen Skin Tests	29
31.2.3.2	Prior Authorization Requirements	29
31.2.4	Ambulatory Blood Pressure Monitoring	30
31.2.5	Anesthesia Services	31
31.2.5.1	Medical Direction	31
31.2.5.2	Monitored Anesthesia Care	33
31.2.5.3	Anesthesia Modifiers	33
31.2.5.3.1	<i>State-Defined Modifiers</i>	33
31.2.5.3.2	<i>Anesthesiologist Services and Modifier Combinations</i>	33
31.2.5.3.3	<i>CRNA or AA Services and Modifier Combinations</i>	35
31.2.5.3.4	<i>Monitored Anesthesia Care</i>	35
31.2.5.4	Dental General Anesthesia	35
31.2.5.5	Reimbursement	35
31.2.5.6	Conversion Factor	36
31.2.5.7	Time-Based Fees	36
31.2.6	Audiometry/Hearing Services	36
31.2.7	Augmentative Communication Devices (ACDs)	36
31.2.8	Biofeedback Services	36
31.2.8.1	Medical Record Documentation	37
31.2.8.2	Provider Certification	37
31.2.8.3	Authorization Requirements	37
31.2.8.4	Noncovered Services	38
31.2.9	Blood Factor Products	38
31.2.10	Bone Growth Stimulators	39
31.2.10.1	Prior Authorization Requirements for Bone Growth Stimulators	40
31.2.10.1.1	<i>Low-Intensity Ultrasound Bone Growth Stimulators</i>	40
31.2.10.1.2	<i>Non-Invasive Bone Growth Stimulators</i>	41
31.2.10.1.3	<i>Invasive Bone Growth Stimulators</i>	41
31.2.10.2	Authorization Requirements for Bone Growth Stimulation	41
31.2.11	Casting	42
31.2.12	Chemotherapy	43
31.2.13	Clinician-Directed Care Coordination Services	44
31.2.13.1	Face-to-Face Clinician-Directed Care Coordination Services	45
31.2.13.2	Non-Face-to-Face Clinician-Directed Care Coordination Services	45
31.2.13.2.1	<i>Care Plan Oversight</i>	47
31.2.13.2.2	<i>Medical Team Conference</i>	47
31.2.13.2.3	<i>Non-Face-to-Face Specialist or Subspecialist Telephone Consultations</i> ..	48
31.2.13.2.4	<i>Non-Face-to-Face Prolonged Services</i>	48
31.2.13.2.5	<i>Authorization for Non-Face-to-Face Clinician-Directed Care Coordination Services</i>	49
31.2.14	Cochlear Implants	50
31.2.15	Colorectal Cancer Screening	50
31.2.16	Critical Care Services	51
31.2.16.1	General Limitations	51
31.2.16.2	Critical Care Services	52
31.2.16.3	Pediatric Critical Care	53

31.2.16.4	Neonatal Critical Care	53
31.2.16.5	Intensive Care (Noncritical) Services	53
31.2.16.6	Newborn Resuscitation	54
31.2.17	Echoencephalography	54
31.2.17.1	Ambulatory Electroencephalogram	84
31.2.18	Evaluation and Management (E/M) Services	86
31.2.18.1	New or Established Patient Visits	86
31.2.18.2	Inpatient Professional Services	87
31.2.18.2.1	<i>Initial and Subsequent Hospital Care (Nonintensive Care)</i>	87
31.2.18.2.2	<i>Hospital Discharge Day Management</i>	87
31.2.18.2.3	<i>Concurrent Inpatient Care</i>	88
31.2.18.3	Emergency Services	88
31.2.18.3.1	<i>Hospital-Based Emergency Department Professional Services</i>	88
31.2.18.4	Consultations	89
31.2.18.5	Services Outside of Business Hours	89
31.2.18.6	Prolonged Physician Services	90
31.2.18.7	Observation Room Services	90
31.2.18.8	Preventive Care Services	91
31.2.18.9	Preventive Care Medical Checkups and Developmental Testing	92
31.2.18.9.1	<i>Laboratory Tests</i>	92
31.2.18.9.2	<i>Medical Checkup Follow-up Visit</i>	92
31.2.18.9.3	<i>Denied Medical Checkups</i>	93
31.2.18.9.4	<i>Developmental Screening and Testing</i>	93
31.2.18.9.5	<i>Developmental Screening</i>	93
31.2.18.9.6	<i>Developmental Testing</i>	94
31.2.18.10	Preventive Care Medical Checkup Components	95
31.2.18.10.1	<i>Oral Evaluation and Fluoride Varnish in the Medical Home (OEFV)</i>	95
31.2.18.10.2	<i>Mental Health Screening</i>	96
31.2.18.10.3	<i>Sensory Screening</i>	96
31.2.18.11	Teaching Physicians	96
31.2.19	Evoked Response Tests and Neuromuscular Procedures	96
31.2.19.1	Autonomic Function Tests	97
31.2.19.2	Electromyography and Nerve Conduction Studies	97
31.2.19.2.1	<i>EMG</i>	130
31.2.19.2.2	<i>NCS</i>	130
31.2.19.3	Evoked Potential Procedures	131
31.2.19.3.1	<i>Intraoperative Neurophysiology Monitoring</i>	132
31.2.19.4	Motion Analysis Studies	132
31.2.19.5	Prior Authorization for Unlisted Procedure Code 95999	133
31.2.20	Extracorporeal Shock Wave Lithotripsy (ESWL)	133
31.2.21	Gastrostomy Devices	133
31.2.22	Genetics	134
31.2.22.1	Family History	134
31.2.22.2	Genetic Tests	135
31.2.22.3	Laboratory Practices	135
31.2.22.4	Genetic Counselors	135
31.2.23	Hyperbaric Oxygen Therapy (HBOT)	136
31.2.23.1	Prior Authorization Requirements	136
31.2.24	Immunizations (Vaccines and Toxoids)	139
31.2.24.1	Texas Vaccines for Children (TVFC) Program	140
31.2.24.2	Reporting	140

31.2.24.2.1	<i>DSHS</i>	140
31.2.24.2.2	<i>Vaccine Adverse Event Reporting System (VAERS)</i>	140
31.2.24.3	Assessment	140
31.2.24.4	Vaccine Information Statement	140
31.2.24.5	Authorization Requirements	141
31.2.24.6	Immunizations During an Office Visit	141
31.2.24.7	Administration Fee	141
31.2.24.8	Administration Fee Billing Examples.....	141
31.2.24.8.1	<i>Administration With Counseling</i>	141
31.2.24.8.2	<i>Administration Without Counseling</i>	142
31.2.24.9	Vaccine and Toxoid Procedure Codes	143
31.2.24.10	Reimbursement for Vaccines and Toxoids	144
31.2.24.11	Bacille Calmette-Guerin (BCG) Vaccine.....	144
31.2.24.12	Botulinum Antitoxin	144
31.2.24.13	Hepatitis B Vaccine	146
31.2.24.14	Rabies Postexposure Prophylaxis.....	146
31.2.24.15	Respiratory Syncytial Virus (RSV) Prophylaxis	146
31.2.25	Injections and Oral Medications.....	147
31.2.25.1	Injection Administration Billed by a Physician.....	147
31.2.25.2	Unit Calculations for Billing Drugs	148
31.2.25.3	Injection Procedure Codes	148
31.2.25.4	Adalimumab	150
31.2.25.5	Ado-Trastuzumab Emtansine	152
31.2.25.6	Bevacizumab	152
31.2.25.7	Botulinum Toxin (Type A and Type B).....	154
31.2.25.7.1	<i>Prior Authorization Requirements</i>	170
31.2.25.7.2	<i>Reimbursement</i>	170
31.2.25.8	Denileukin Diftitox.....	171
31.2.25.9	Epirubicin Hydrochloride	171
31.2.25.10	Erythropoietin Alfa (EPO) and Darbepoetin	172
31.2.25.11	Growth Hormone.....	193
31.2.25.11.1	<i>Prior Authorization Requirements</i>	193
31.2.25.12	Immune Globulins.....	194
31.2.25.12.1	<i>Authorization Requirements</i>	195
31.2.25.13	Infliximab	195
31.2.25.14	Leuprolide Acetate Injection	197
31.2.25.15	Monoclonal Antibodies - Asthma and Chronic Idiopathic Urticaria.....	197
31.2.25.15.1	<i>Omalizumab</i>	197
31.2.25.15.2	<i>Mepolizumab</i>	197
31.2.25.15.3	<i>Reslizumab</i>	198
31.2.25.15.4	<i>Prior Authorization Requirements</i>	198
31.2.25.15.5	<i>Chronic Idiopathic Urticaria</i>	198
31.2.25.15.6	<i>Asthma Moderate to Severe (Omalizumab) and Severe (Mepolizumab and Reslizumab)</i>	198
31.2.25.15.7	<i>Reslizumab</i>	199
31.2.25.15.8	<i>Omalizumab</i>	199
31.2.25.15.9	<i>Mepolizumab</i>	199
31.2.25.15.10	<i>Requirements for Continuation of Therapy</i>	200
31.2.25.16	Trastuzumab	200
31.2.26	Intracranial Pressure Monitoring	201
31.2.27	Laboratory Services.....	201

31.2.27.1	Clinical Pathology Services and Pathology Consultations	201
31.2.27.2	Claims Filing for Laboratory Tests	201
31.2.27.3	Reimbursement	202
31.2.27.4	Cytopathology Studies (Gynecological, Pap Smears)	202
31.2.27.5	Cytogenetics Testing	202
31.2.27.6	Helicobacter pylori (H. pylori)	202
31.2.27.7	CLIA Requirement	202
31.2.28	Magnetoencephalography (MEG)	202
31.2.28.1	Authorization Requirements	203
31.2.28.2	Documentation Requirements	203
31.2.28.3	Exclusions	203
31.2.29	Neurostimulator Devices and Supplies	203
31.2.30	Ophthalmological Services	204
31.2.30.1	Intraocular Lenses (IOL)	204
31.2.30.2	Vitrasert Ganciclovir Implant	204
31.2.31	Osteopathic Manipulative Treatment (OMT)	204
31.2.32	Physical Medicine and Physical Therapy (PT) Services	204
31.2.33	Podiatry	204
31.2.34	Psychological Testing	205
31.2.35	Sign Language Interpreting Services	206
31.2.36	Skin Therapy	207
31.2.37	Sleep Studies	210
31.2.37.1	Polysomnography	210

CSHCN SERVICES PROGRAM PROVIDER MANUAL

JULY 2017

INTRODUCTION

Table of Contents

- 1.1 Program History3
- 1.2 About the Provider Manual3
- 1.3 Feedback4
- 1.4 TMHP-CSHCN Services Program Contact Center5
- 1.5 Copyright Acknowledgments5

1.1 Program History

The Children with Special Health Care Needs (CSHCN) Services Program is the oldest governmentally-administered continuous medical assistance program in Texas for low-income children with special health-care needs and people of any age with cystic fibrosis. In 1933, state legislative action initiated funding two years in advance of the first federal initiative, Title V of the *Social Security Act*.

The program currently receives part of its funding from Title V, and aligns its services with Title V objectives, such as:

- Promoting partnerships between families and providers.
- Ensuring that all children get services in the context of the medical home.
- Organizing services so that they are easy for families to access.
- Promoting the provision of services that help youth transition to adulthood.

1.2 About the Provider Manual

The *CSHCN Services Program Provider Manual* contains policy information about the program. This edition of the *CSHCN Services Program Provider Manual* supersedes all previous editions. Read this manual carefully.

The *CSHCN Services Program Provider Manual* is intended primarily for those providers who submit claims to the Texas Medicaid & Healthcare Partnership (TMHP); however, information is also provided for services reimbursed by the Vendor Drug Program and the Medical Transportation Program.

The *CSHCN Services Program Provider Manual* contains information to help providers submit and correct first-time claims in the Computerized Medicaid Claims Processing Assessment System, COMPASS21. This will help providers minimize resubmissions and appeals and help conserve their own and the Program's resources.

The TMHP website at www.tmhp.com supplements the information in this manual. The website contains:

- Enrollment information.
- Forums, polls, and questionnaires.
- Complete instructions for setting up a Provider Administrator account.
- Publications (e.g., manuals and bulletins).
- Directory of regional provider relations representatives.
- TexMedConnect.
- Provider education information (e.g., computer-based training, live workshops, radio broadcasts, webinars).

Advanced features are available for those who create a provider administrator account. All enrolled providers are eligible for this free account. Once an account is activated, providers will have access to:

- Online provider enrollment.
- Online Fee Lookup (OFL).
- Claim status inquiries (CSIs).
- Eligibility verification.
- Electronic Remittance and Status Reports.
- Claim and appeal submissions.

- Payment amounts search, view, and print capabilities.
- Notification of an invalid address on file for any Texas Provider Identifier (TPI) associated with a provider's National Provider Identifier (NPI).
- Notification of pending payments because of inaccurate or incomplete provider information.

Important: *Natural disasters, such as floods or hurricanes, can impact the delivery of health care to CSHCN Services Program clients. When disaster strikes, providers should monitor the TMHP website for special instructions.*

New provider services continue to be added to the website. Visit the TMHP website at www.tmhp.com or call the Electronic Data Interchange (EDI) Help Desk at 1-888-863-3638 for the latest information about online services.

The CSHCN Services Program Provider Manual is the providers' principal source of information about the CSHCN Services Program. The manual is regularly updated to reflect the most recent policy and procedure changes. Updates are generally available the month following the effective date of the change. For advanced notification of upcoming changes, providers should monitor banner messages, which appear at the beginning of their Remittance and Status (R&S) reports, and the corresponding website articles published on the TMHP website at www.tmhp.com.

According to the CSHCN Services Program Agreement, providers must be thoroughly familiar with the contents of the *CSHCN Services Program Provider Manual*, the provider bulletins, and the messages contained in the R&S Reports as they apply to the CSHCN Services Program.

Providers must also comply with the following:

- CSHCN Services Program policies
- Policy notification letters
- Provider manuals
- Statutes
- Rules
- Regulations

This manual includes information about correct coding for claims. The CSHCN Services Program regrets that, due to copyright limitations, *Current Procedural Terminology (CPT)*, *Current Dental Terminology (CDT)*, and Healthcare Common Procedure Coding System (HCPCS) code descriptions cannot be published in CSHCN Services Program publications. Consult reference manuals published or authorized by the American Medical Association (AMA), the American Dental Association (ADA), and the Centers for Medicare & Medicaid Services (CMS) for code descriptions.

Specific procedure or diagnosis codes related to program benefits and coverage are included in the manual to provide helpful information, but should not be considered all-inclusive. From time to time, codes are added, deleted, or revised.

1.3 Feedback

The CSHCN Services Program and TMHP welcome provider comments and suggestions concerning this publication. Providers can mail them to:

Texas Medicaid & Healthcare Partnership
Attn: Publications
PO Box 204270
Austin, TX 78720-4270

1.4 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday, from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

1.5 Copyright Acknowledgments

1.1.3 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

1.1.4 TMHP-CSHCN Services Program Automated Inquiry System (AIS)

Dial 1-800-568-2413 (toll-free) to access the TMHP-CSHCN Services Program AIS. The call is answered automatically. Providers should follow the directions to access AIS and use the automated features to obtain information and services.

The TMHP-CSHCN Services Program AIS provides the following information and services through the use of a touch-tone telephone: claim status, client eligibility, current weekly payment amount, faxed forms, and claim appeals.

The TMHP-CSHCN Services Program AIS eligibility and claim status information is available 23 hours a day, 7 days a week with scheduled down time between 3 a.m. and 4 a.m., Central Time. All other AIS information is available Monday through Friday from 7 a.m. until 7 p.m., Central Time. AIS offers 15 transactions per call.

Note: Pressing Star then Pound (#) repeats any information given. Pressing Star then Star (**) begins again if an error was made. Pressing Zero then Pound (0#) at any time repeats the main menu.*

Full instructions on the use and benefits of the TMHP-CSHCN Services Program AIS can be found by clicking on the Reference Material link on the left-hand side of the CSHCN Services Program webpage on the TMHP website at www.tmhp.com, or by calling the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413, Monday through Friday from 7 a.m. to 7 p.m., Central Time.

Note: All users who access www.tmhp.com are required to accept the American Medical Association (AMA) End-user Agreement on the use of Current Procedural Terminology (CPT). For each computer that accesses the TMHP website, the agreement must be accepted every 30 days from the last date on which the agreement was accepted by the user. If the end-user agreement is not accepted on a particular computer every 30 days, no user will be able to enter the website from that computer. For additional information about the AMA and CPT, refer to www.ama-assn.org/ama/pub/category/3113.html.

1.1.5 TMHP Regional Representatives

The TMHP Provider Relations Department comprises a staff of Austin-based and field-based provider relations representatives who serve the health-care community by furnishing a variety of services and activities designed to inform and educate health-care providers about the CSHCN Services Program policies and claims filing procedures.

Provider Relations activities include the following:

- *Provider education through planned events.* Provider representatives conduct a planned program of educational workshops, webinars, computer-based training (CBT), in-services, and training sessions designed to keep all actively-enrolled providers informed of the latest policies, claim processing procedures, and federal and state regulations affecting CSHCN Services Program. Technical support and training are also provided to TexMedConnect software users.
- *Problem identification and resolution.* A staff of research coordinators is available to assist providers with clarification of Medicaid policies and assist with in-depth problem claim submission issues after initial inquiries are made with the CSHCN Contact Center. Coordinators work closely with field-based regional representatives to coordinate the educational needs of the community.
- *Relationship with professional health-care organizations.* To ensure that Texas associations that represent health-care professions have up-to-date information about the requirements for participation in the CSHCN Services Program, the Provider Relations Department maintains a working relationship with these organizations. Also, the Provider Relations Department participates in several events sponsored by Texas health-care associations, such as conventions and conferences.

Providers must call the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 to speak to a representative who can answer questions.

If the Contact Center representative determines that an inquiry can best be handled by the TMHP Provider Relations department, the inquiry will be forwarded to Provider Relations. For example, providers who want to talk to their Provider Relations representative about a visit, in-service, or training, can call the Contact Center, and the Contact Center will forward the request to Provider Relations.

Provider relations representatives, the area they serve and additional information, including a regional listing by county and workshop information, is available on the TMHP website at www.tmhp.com/Pages/SupportServices/PSS_Reg_Support.aspx.

1.2 TMHP Website Information

The TMHP website at www.tmhp.com is a valuable resource that provides:

- Information and registration for upcoming provider education and training sessions.
- A file library of publications, such as bulletins, banner messages, and provider manuals.
- Announcements of current and upcoming program changes and other important information.

Additional advanced features are available for providers that create an account. There is no charge for creating an account on the TMHP website. All enrolled providers are eligible for this service. Once an account has been created, providers have access to:

- Texas Medicaid and the CSHCN Services Program enrollment information.
- Claim Status Inquiry (CSI).
- Eligibility verification (EV).
- Electronic Remittance and Status (ER&S) Report download option.
- Complete instructions for setting up a Provider Administrator account and the use of online CSI, EV, and ER&S Reports.
- E-mail the TMHP-CSHCN Services Program Contact Center.
- Workshop registration.
- Claim submission.
- Claim appeals.
- View the new provider welcome.

New services continue to be added to the website. Visit the TMHP website at www.tmhp.com or call the Electronic Data Interchange (EDI) Help Desk at 1-888-863-3638 for the latest information about online services.

Referto: The TMHP website at www.tmhp.com for further details and instructions on how to submit claims on the website.

1.2.1 Publications

All providers have access to the publications available on the TMHP website, including:

- Banner messages—a weekly history of banner messages.
- Bulletins—the *CSHCN Services Program Provider Bulletin*, the *Long Term Care Provider Bulletin*, and the *Texas Medicaid Bulletin*.
- CSHCN Services Program Newsletter for Families.
- EDI reference and connectivity guides.
- Fee schedules.
- Provider manuals.

These publications are available in the TMHP File Library. Use the following steps to access the TMHP File Library:

- 1) Access the homepage of the TMHP website at www.tmhp.com.

Click on the “Providers” tab at the top of the homepage. Click on “CSHCN” on the tabs at the top of the provider homepage.

Click on “Reference Material” on the left-hand side navigation bar to access provider manuals, bulletins, and other important reference materials.

1.2.1.1 Search Capabilities for the CSHCN Services Program Provider Manual

The online version of the *CSHCN Services Program Provider Manual* is available in portable document format (PDF), which can be viewed in Adobe® Acrobat® or Reader®. The Bookmarks window located on the left side of the screen provides a link to each heading within the manual. Click on the heading or link to quickly access the topic of interest.

Providers can use the following instructions to search the online version of the manual by a keyword or phrase:

- 2) Click the **Search** icon (binoculars) in the toolbar located at the top of the page. The Acrobat Find window opens.

In the Find What window, enter a keyword or phrase. Choose one of the following options, if applicable to the search:

- Whole word only
- Case-Sensitive
- Include Bookmarks
- Include Comments

Click **Search**. The cursor moves to the first place within the manual where the word or phrase appears. Instances found are listed in the Results window.

To search for a different keyword or term, click the **New Search** icon and type in the keyword or term and click **Search**.

1.3 CSHCN Services Program Central and Regional Offices

1.3.1 Central Office

The central and regional offices of the CSHCN Services Program are administratively located within the Division for Family & Community Health Services, Specialized Health Services Section, Specialty Health Care Services, at the Health and Human Services Commission (HHSC). Regular office hours are Monday through Friday from 8 a.m. to 5 p.m., Central Time.

TMHP is the claims administrator, and questions concerning provider enrollment, benefits or coverage, claims processing, and authorizations or prior authorizations should be directed to TMHP. DSHS-CSHCN Services Program welcomes provider comments and suggestions.

Providers can contact the CSHCN Services Program using the following information:

- Telephone toll-free at 1-800-252-8023 (may be used only in Texas) or the Austin local number at 1-512-776-7355
- Fax to CSHCN Services Program toll-free at 1-800-441-5133 or the Austin local number at 1-512-776-7565
- Send e-mail to cshcn@dshs.state.tx.us

Mail to the following address:

CSHCN Services Program—Provider Enrollment
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133

Deliveries and overnight mail to the following address:

CSHCN Services Program—Provider Enrollment
Specialty Health Care Services, MC-1938
Health and Human Services Commission-Moretton Building
1100 West 49th Street
Austin, TX 78756-3179
Fax: 1-800-441-5133

Additional information about the CSHCN Services Program is available online at www.dshs.texas.gov/cshcn.

1.3.2 Regional Offices

Case management and client eligibility services are provided by a statewide network of regionally-based social service program consultants and include the following activities:

- Coordination of medical services
- Linkage to available resources
- Acting as a liaison among the client, family, and caregivers
- Management of institutional services, insurance carriers, and other services required for the improved well-being of the client and family

Referto: “Appendix A: Acronyms and Initialisms Dictionary” for definitions of the abbreviated academic degrees listed in the following tables.

2.1 Provider Enrollment

Providers must be actively enrolled as a Texas Medicaid provider as a prerequisite to enrolling as a CSHCN Services Program provider. For information about Texas Medicaid enrollment requirements, or to complete an online enrollment, visit the TMHP website at www.tmhp.com. Providers can call the TMHP Contact Center at 1-800-925-9126 for additional information about Texas Medicaid enrollment, and call the TMHP CSHCN Services Program Contact Center at 1-800-568-2413 for additional information about CSHCN Services Program enrollment.

Providers of services not covered by Medicaid are not required to enroll as Medicaid providers, such as, family support providers for respite care, home and vehicle modifications, medical foods, and hospice services.

Referto: Section 26.3, "Medical Foods" in Chapter 26, "Medical Nutrition Services."

Chapter 39, "Transportation of Deceased Clients."

To enroll in the CSHCN Services Program, a provider must complete the required CSHCN Services Program Provider Enrollment Application and enter into a written Provider Agreement with the CSHCN Services Program. The physical address, National Provider Identifier (NPI), and Tax ID on the CSHCN Services Program application must correspond to the Medicaid provider enrollment. The taxonomy code can be different from the taxonomy code selected for the Medicaid enrollment. Forms are available for download from the TMHP website at www.tmhp.com.

Current Texas Medicaid providers that want to enroll with the CSHCN Services Program can use the CSHCN Services Program Expedited Enrollment Application found on the TMHP website at www.tmhp.com.

Providers that choose to complete the expedited enrollment application can also submit the following optional items if applicable:

- Electronic Funds Transfer (EFT) Notification
- Rehabilitation Engineering and Assistive Technology Society of North American (RESNA) certification for custom DME enrollment

Providers may also enroll online by logging into Provider Enrollment on the Portal (PEP).

Online enrollment has the following advantages:

- Updated on-screen instructions make the online application process more efficient and user-friendly.
- Applications are validated immediately to ensure that all fields have been completed.
- Most of the application can be completed online so that only a few forms need to be printed, completed, and mailed to TMHP. Forms that must be mailed are identified in the online application.
- Applicants can view incomplete and complete applications that have been submitted online.
- Some form fields are automatically completed, reducing the amount of information that has to be entered.
- Providers can complete the Provider Information Change (PIC) Form online.
- Providers will receive e-mail notifications when messages or deficiency notices about their applications are posted online. Providers may opt out of e-mail communication and receive messages or deficiency letters by mail.
- Providers can create templates, which makes it easier to submit multiple enrollment applications.

- Providers enrolling as groups (either new groups or group providers adding an additional Texas Provider Identifier [TPI] suffix) can assign portions of the application to performing providers to complete. The performing provider assignment functionality will not exist if the group is already enrolled when attempting to add a performing provider to the group.
- Performing providers can complete their portion of a group application by logging into Provider Enrollment on the Portal (PEP) with their unique user name and password.
- Providers can navigate to completed sections of the application without having to click through all pages of the application.
- Information that is on file for owners and subcontractors of the applying provider is auto-populated in the application.
- Before submitting an application to TMHP for processing, providers are required to review a portable document format (PDF) copy of the application and verify it is complete.
- Providers can edit submitted applications to correct identified deficiencies.

Providers can edit the information on the Application Services page and the Provider Type identification page. These functions are available for all new applications and for previously saved templates.

After a provider makes a change to the information on one of these pages, the provider must select **Continue/Save** through the entire application to ensure that all required fields are completed.

After an application has been accepted and a TPI generated for that application, any changes made to the template will not be reflected for that TPI; however, they will be reflected on subsequent TPIs rendered from the same application. Providers can update their demographic information online through the Provider Information Management System (PIMS) for existing TPIs. Providers can log into the PIMS system by going to the TMHP home page and selecting "Log in to My Account" on the top-right corner of the page.

Exceptions:

- The editing functions in PEP do not apply to Medical Transportation Program (MTP) applications.
- Performing provider applications created as part of a group application cannot change the group's Application Services page.

If not completed online, the enrollment application and other completed forms must be sent to TMHP Provider Enrollment at the following address:

Texas Medicaid & Healthcare Partnership
Attn: Provider Enrollment
PO Box 200795
Austin, TX 78720-0795
Fax: 1-512-514-4214

For assistance with the application process or to obtain enrollment forms, call the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413, which is available Monday through Friday, from 7 a.m. to 7 p.m., Central Time.

A CSHCN Services Program provider identifier is issued when all required forms and documentation have been received and the application process is completed. The provider identifier is a unique number assigned to each provider. A provider *cannot* be enrolled if his or her license is due to expire within 30 days of the date of application. TMHP verifies license information provided with the enrollment application.

If a license or certification is required by law to practice in the State of Texas, the provider must maintain the required license or certification and practice within the scope of the license, certification, registration, and any other applicable requirements. Current license information must be on file with the

program or its payment contractor. If the license was submitted when enrolling with Medicaid, it does not need to be duplicated. If there are additional enrollment requirements for a specific provider type, the requirements are described in the specific provider section of this manual.

The provider's enrollment effective date will be 6 months before the date the enrollment application is received or the traditional Medicaid enrollment effective date, whichever is more current.

2.1.1 Affordable Care Act of 2010 (ACA) Enrollment Requirements

All providers must comply with the provisions of the Affordable Care Act of 2010 (ACA). CSHCN Services Program providers who have fulfilled the ACA requirements through their Texas Medicaid enrollment are considered ACA-compliant.

Exception: *Medical foods providers and hospice providers are not required to enroll in Texas Medicaid as a prerequisite for CSHCN Services Program enrollment and are not required to pay a provider application fee to enroll in the CSHCN Services Program.*

Referto: The TMHP website at www.tmhp.com for additional information about ACA requirements including provider types that are required to pay the application fee.

2.1.1.1 Medical Foods and Hospice Providers

CSHCN Services Program medical foods providers and hospice providers that submit a provider enrollment application for new enrollment, a new practice location, or other type of enrollment or re-enrollment will be subject to the following ACA requirements:

- Provider screening according to the provider's level of risk as determined by DSHS.
- Enrollment revalidation at least every five years during which time the provider screening will be completed.

Providers can enroll or re-enroll using one of the following methods:

- The online Provider Enrollment on the Portal (PEP)
- The current paper version of the CSHCN Services Program Provider Enrollment Application available for download on the TMHP website from the TMHP Forms web page.

2.1.1.2 Enrollment for Ordering and Referring-Only Providers

Providers who are not currently enrolled in the CSHCN Services Program but who order or refer services and supplies for CSHCN Services Program clients are required to enroll in Texas Medicaid as ordering or referring-only providers.

Ordering and referring providers do not submit claims to TMHP for rendered services. Although ordering and referring providers do not submit claims for reimbursement, the ordering and referring provider's National Provider Identifier (NPI) is required on claims that are submitted by the providers that render the supplies or services.

Providers can search for ordering/referring-only providers on the Online Provider Lookup (OPL) search page to help with verification of the provider that ordered or referred services is enrolled in Texas Medicaid. The search can be done by using the Basic Provider or Advanced Provider Search.

2.1.2 Changes in Enrollment

When one of the following changes, a new enrollment application must be completed and submitted to the address above so that a new provider identifier can be assigned:

- Ownership—The new owner must take the following actions:
 - Obtain recertification as a Title XVIII (Medicare) facility under the new ownership.

- Complete a Texas Medicaid Provider Enrollment Application and obtain a Texas Medicaid provider identifier. The provider must have a Texas Medicaid provider identifier on file before applying with the CSHCN Services Program.
- Complete the CSHCN Services Program Provider Enrollment Application.
- Provide TMHP with a copy of the Contract of Sale (specifically, a signed agreement that includes the identification of previous and current owners in language that specifies who is liable for overpayments that were identified subsequent to the change of ownership, that includes dates of service before the change of ownership).
- Supply a listing of all of the provider identifiers affected by the change of ownership.
- Providers who join a new group or enroll as an individual must complete and submit a CSHCN Services Program Provider Enrollment Application to request enrollment in the new group.

Note: *Providers leaving group practices must notify TMHP, in writing, within 10 days of the date of termination. A letter that includes the provider identifier, effective date of termination, and the group's provider identifier must be signed by an authorized representative of the group or the individual provider leaving the group, and mailed to TMHP at the address shown above. Failure to provide this information may lead to administrative action by the Department of State Health Services (DSHS).*

- Physical address—Providers must enroll with Texas Medicaid and obtain a Texas Medicaid provider identifier before applying with the CSHCN Services Program to enroll a new location or provider type. Alternate addresses may be added to an existing enrollment using the Provider Information Change (PIC) form.
- Provider type—Providers must submit a separate CSHCN Services Program Provider Enrollment Application for each provider enrollment type requested. For example, a hospital may want to enroll as an ambulatory surgical center. A second application to enroll in the CSHCN Services Program as an ambulatory surgical center would be required.

New enrollment applications may be completed online or mailed to the address shown above.

2.1.3 Claim Filing

New providers must follow all claims filing procedures while completing the enrollment process. This is particularly important when providing services to CSHCN Services Program clients *before* receiving a CSHCN Services Program provider identifier.

Claims should be submitted without a provider identifier until notified by TMHP of the final enrollment determination. TMHP must receive all claims for services rendered to CSHCN Services Program-eligible clients within the required filing deadlines, regardless of enrollment status. Claims filed while waiting to receive a provider identifier are denied; however, having met the claim filing deadline, a provider can *resubmit* or *appeal* the claims for payment after the CSHCN Services Program provider identifier is assigned. The resubmitted claim may be considered for payment if TMHP receives it within 120 days from the date of the denial and if services were rendered on or after the provider enrollment effective date.

Claims for group providers must include the identifiers for the performing provider as well as for the group. To be eligible for reimbursement, both the group and the performing provider must be enrolled in the CSHCN Services Program.

When a provider renders services to a CSHCN Services Program client before receiving a provider identifier and has questions about this requirement or enrollment, the provider may call the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413.

Referto: Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement."

2.1.3.1 Provider Identifiers Terminated After 24 Months of No Claim Activity

Payment denial codes are applied to a Texas Provider Identifier (TPI) that has had no claim activity for a period of 24 months. The provider identifier will be considered inactive and cannot be used to submit claims.

A courtesy letter will be sent to providers whenever a TPI goes 18 months without claims activity. The letter will inform providers that if they want to keep their provider identifier active, they must submit a claim within 6 months of the date of the letter using the TPI referenced in the letter. TMHP will apply a payment denial code to any provider identifier that has had no claims activity within 6 months of the date of the courtesy letter and will notify the provider that the provider identifier has been terminated because the provider has not submitted claims using the TPI for a period of 24 months or more.

If a provider is enrolled in both Medicaid and the CSHCN Services Program, the provider identifiers for both programs will be examined to determine whether any claims activity has occurred. When a provider's TPI is terminated for Traditional Medicaid, the corresponding TPIs for all other Texas state health-care programs will also be terminated.

To have the payment denial code removed from a provider identifier, providers must submit a completed application for the state health-care program in which they wish to enroll, and the application must be approved. The information on this application must match exactly the information currently on the provider's file for the payment denial code to be removed. If the provider has moved to a different address or joined a different group, the payment denial code will not be removed from the old provider identifier. Instead, a new TPI will be issued for the new address or group.

2.1.4 Provider Enrollment Determinations

The CSHCN Services Program may approve, deny, modify, suspend, or terminate a provider's enrollment for the reasons listed in the *Texas Administrative Code* (TAC), CSHCN Services Program Rules 25§38.6(b)(1) through (2) at www.sos.state.tx.us/tac. Before taking action to deny, modify, suspend, or terminate enrollment, the CSHCN Services Program shall give the provider written notice of an opportunity to request an administrative review of the proposed action within 30 days of the notice. If the provider does not respond in writing within the 30-day period, the provider is presumed to have waived the administrative review as well as access to a fair hearing, and the CSHCN Services Program's action is final. If the provider so requests, the CSHCN Services Program will conduct an administrative review of the circumstances of the proposed denial, modification, suspension, or termination of provider program participation is based and give the provider written notice of the program decision and the supporting reasons within 30 days of receipt of the request for administrative review.

In addition, a fair hearing is available to any provider for the resolution of conflict between the CSHCN Services Program and the provider if the fair hearing is requested within 20 days of receipt of the administrative review decision.

Referto: Chapter 7, "Appeals and Administrative Review."

Providers excluded or terminated by Medicaid will be excluded or terminated by the CSHCN Services Program.

Providers must maintain active enrollment in Medicaid to remain enrolled in the CSHCN Services Program. "Actively enrolled" providers are those that have filed claims for clients of the CSHCN Services Program or Texas Medicaid within the past 24 months, and that do not have any type of payment holds on their enrollment status.

Descriptions of required enrollment forms are provided in the following sections. Forms are available on the TMHP website at www.tmhp.com.

2.1.5 Provider Enrollment Application

2.1.5.1 Types of Providers

There are four types of enrollment for providers in the CSHCN Services Program, as follows:

- *Individual.* This type of enrollment applies to an individual health-care professional who is licensed or certified in Texas, and who is seeking enrollment under the name and social security or federal tax identification number of the individual.
- *Group.* This type of enrollment applies to health-care services provided under the auspices of a legal entity, such as a partnership, corporation, limited liability company, or professional association, where the individuals providing health-care services are required to be certified or licensed in Texas. The enrollment is under the name and federal tax identification number of the legal entity.

Note: For any group enrollment application, there must also be at least one enrolling performing provider.

- *Performing provider.* This type of enrollment applies to an individual health-care professional who is licensed or certified in Texas, and who is seeking enrollment under a group. The enrollment is under the federal tax identification number of the group, and payment is made to the group.
- *Facility.* This type of enrollment applies to situations in which licensure or certification applies to the entity. Although individuals working for, or with, the entity may be licensed or certified in their individual capacity, the enrollment is based on the licensure or certification of the entity. For this reason, facility enrollment does not require enrollment of performing providers. Examples of facilities include hospitals, independent diagnostic testing facilities, ambulatory surgical centers, renal dialysis facilities, and hospices.

2.1.5.2 Provider Information Form (PIF-1), Principal Information Form (PIF-2), and Disclosure of Ownership Form

The following forms must be completed by all providers or the owner, officer, director, or principal applying for CSHCN Services Program enrollment more than one year from their Texas Medicaid enrollment date. A PIF-1 must be completed by all providers enrolling in the CSHCN Services Program. A separate PIF-2 must be completed by each principal of the provider enrolling in the CSHCN Services Program. Principals of the provider include all of the following:

- An owner with a direct or indirect ownership or control interest of five percent or more
- Corporate officers and directors
- Limited or nonlimited partners
- Shareholders of a professional corporation, professional association, limited liability company, or other legally designated entity
- Any employee of the provider who exercises operational or managerial control over the entity, or who directly or indirectly conducts the day-to-day operations of the entity

The Disclosure of Ownership form is submitted by all providers, excluding the performing providers of a group. This form provides the appropriate information to enroll the provider as a sole proprietor, corporation, partnership, or nonprofit organization.

These forms were designed across multiple state agencies to help meet the requirements set forth by the 75th Legislature's Senate Bill (S.B.) 30 to enhance the enrollment requirements for potential providers, meet federal requirements for enrollment, and improve the integrity of Texas State healthcare programs.

2.1.5.3 Provider Agreement

To participate in the CSHCN Services Program, all providers must complete a Provider Agreement with DSHS. The Provider Agreement must be signed by the provider applying for enrollment. If applying as a group, the Provider Agreement must be signed by an owner, officer, director, or principal. If the provider is unable to sign, a letter showing Power of Attorney must be attached to the Provider Enrollment Application. By signing the Provider Agreement, the provider agrees to abide by CSHCN Services Program rules, policies, and procedures as a condition for participation. This form is included in the enrollment application.

2.1.5.4 Request for Taxpayer Identification Number and Certification

The Internal Revenue Service (IRS) W-9 form is completed and submitted by all providers, excluding performing providers of a group.

2.1.5.5 Franchise Tax Account Status Page

When enrolling as a “Corporation” type of entity, providers must submit a Franchise Tax Account Status Page. This information can be obtained from the Texas State Comptroller’s Office website at <http://comptroller.texas.gov/taxinfo/coasintr.html>.

Providers who have a 501(c)(3) Internal Revenue Exemption are not required to submit the Franchise Tax Account Status Page.

2.1.5.6 Clinical Laboratory Improvement Amendments (CLIA) of 1988

To be eligible for reimbursement by the CSHCN Services Program, all providers performing laboratory tests must be CLIA certified.

Referto: Section 25.1.1, “Clinical Laboratory Improvement Amendments (CLIA) of 1988” in Chapter 25, “Laboratory Services.”

2.1.5.7 Provider’s License

Evidence of current licensure or certification is required to participate in the CSHCN Services Program. Not abiding by this license and certification requirement will adversely impact a provider’s qualification for continued participation in the CSHCN Services Program.

An enrolling provider submits professional license information in the enrollment form. A copy of the license does not need to be sent with the enrollment application for those providers licensed by one of the boards listed below, unless the licensing board experiences technical difficulties and cannot provide the license information to TMHP. TMHP verifies this information with the appropriate licensing board. A provider cannot be enrolled if his or her license is due to expire within 30 days of the date of application.

Once enrolled in the CSHCN Services Program, a reminder letter will be automatically generated and sent to providers whose license will expire in 60 days. The letter will notify providers that they must keep their licensure current to continue their enrollment with Texas state health-care programs. When the license is renewed, providers licensed by the boards listed below will not need to contact TMHP with renewal information as TMHP receives licensure information from these licensing boards.

- Texas Medical Board
- Texas State Board of Dental Examiners

Only licenses for registered nurses (RNs) are auto-renewed. Certified registered nurse anesthetists (CRNAs) must submit a paper copy of their license when it is renewed to maintain a current record.

Providers cannot enroll in the CSHCN Services Program if their license is due to expire within 30 days. During the enrollment process, TMHP verifies licensure using available resources. If TMHP cannot verify a license at the time of enrollment, it is the provider's responsibility to provide a copy of the active license to TMHP. Psychologists and facilities must submit a copy of their license since these licenses cannot be verified online.

TMHP will notify the provider by letter if a copy has not been submitted and the license cannot be verified.

Once a provider is enrolled in the CSHCN Services Program the license or certification must be kept current. A reminder letter for renewal will be sent to the provider 60 days before the provider's license expires.

TMHP directly obtains licensure information from the following licensing boards:

- Texas Medical Board (TMB) (for physicians only)
- Texas Board of Nursing (BON) (for RNs only, not APRNs)
- Texas State Board of Dental Examiners (TSBDE)

If the licensing board experiences technical difficulties and cannot provide the license information to TMHP, the provider must submit proof of license renewal to TMHP.

All other licenses and certifications that are not issued by TMB, BON, or TSBDE must be submitted to TMHP upon renewal.

Referto: Section 14.2.5.10, "Dental Anesthesia" in Chapter 14, "Dental" for information about dental anesthesia permit levels.

Copies of licenses or certifications should be sent to:

TMHP
Attn: Provider Enrollment
PO Box 200795
Austin, TX 78720-0795
Fax: 1-512-514-4214

If a provider's license has expired, a termination letter will be sent to the provider, and all claims filed on or after the expiration date will be denied. To have claim payments resumed, providers must renew their licenses, and if necessary, provide proof of the renewal to TMHP. Payment will be considered for dates of service on or after the date of return to active license status.

2.1.6 Federally Qualified Health Centers (FQHCs) and Rural Health Clinics (RHCs)

Federally qualified health centers (FQHCs), their satellite offices, FQHC look-alikes, and rural health clinics (RHC) can enroll as providers for the Children with Special Health Care Needs (CSHCN) Services Program.

Referto: Chapter 19, "Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC)."

2.1.7 Transplant Specialty Centers

Facilities enrolled in the CSHCN Services Program that perform stem cell or kidney transplants must also be a designated specialty transplant center.

A stem cell transplant facility must be a Texas facility that is a designated Children's Hospital or a facility in compliance with the criteria set forth by the Organ Procurement and Transplantation Network (OPTN), the United Network for Organ Sharing (UNOS), or the National Marrow Donor Program (NMDP). The program or its designee will maintain a current listing of all approved centers.

All renal transplants must be done in a Medicaid-approved, CSHCN Services Program-enrolled transplant center facility that is certified by United Network of Organ Sharing (UNOS). For more information about how to obtain Medicaid approval as a transplant center, contact TMHP at 1-800-925-9126. The Centers for Medicare & Medicaid Services (CMS) maintains the list of certified and approved transplant facilities on the [CMS website](#).

2.1.8 Pharmacy Enrollment

The CSHCN Services Program reimburses pharmacies for medications as prescribed by a practitioner licensed to do so if the medication is included in the CSHCN formulary, and if the dispensing pharmacy is an active provider with the Vendor Drug Program (VDP). VDP reimburses pharmacies providing medications to CSHCN clients with the exception of hemophilia blood factor products, which are reimbursed by TMHP. Claims for medications must be submitted to VDP. Pharmacies are reimbursed the same drug costs and dispensing fees allowed by VDP.

Pharmacies must enroll as durable medical equipment (DME) providers to provide expendable medical supplies, standard wheelchairs and other equipment.

Referto: Chapter 17, "Durable Medical Equipment (DME)" and Chapter 18, "Expendable Medical Supplies" for more information.

2.1.8.1 Blood Factor Products

Blood factor products may be a benefit of the CSHCN Services Program and may be provided by a pharmacy enrolled as a DME or supplier of hemophilia blood factor products (HF). Before enrolling with CSHCN, the provider must first be enrolled in Texas Medicaid through VDP or TMHP.

Note: *Claims for blood factor products must be submitted to TMHP.*

Referto: Section 31.2.9, "Blood Factor Products" in Chapter 31, "Physician" for more information on blood factor products.

2.1.8.2 Immunizations

The administration of immunizations may be a benefit of the CSHCN Services Program and may be provided by a pharmacy or pharmacist. A pharmacist must obtain and provide proof of certification by the American Council on Pharmaceutical Education (ACPE) through the ACPE Certificate Program in Pharmacy-Based Immunization Delivery to enroll in the CSHCN Services Program. The Certificate must be accompanied by written proof of the awardee's current certification in Cardiopulmonary Resuscitation (CPR) or Basic Cardiac Life Support (BCLS). All providers who enroll in the CSHCN Services Program must first be enrolled in Texas Medicaid.

A pharmacy that is certified to administer immunizations and has at least one pharmacist as a performing provider can enroll in the CSHCN Services Program as a group provider.

Referto: Section 31.2.24, "Immunizations (Vaccines and Toxoids)" in Chapter 31, "Physician" for more information.

2.1.9 Out-of-State Providers

CSHCN Services Program policies and procedures apply for providers who care for program clients outside of Texas. This includes the requirement that providers maintain a corresponding enrollment as Medicaid providers. Out-of-state provider's licensure must be maintained if it is required in the respective state(s). Providers located in Arkansas, Louisiana, New Mexico, or Oklahoma, within 50 miles from the Texas border must be enrolled and are considered in-state providers.

Note: *This section applies only in circumstances requiring the client to travel out-of-state to receive health-care services. The limitations listed below do not apply to out-of-state providers of selected items who deliver their products to a client in Texas and for which the client does not have to travel out of state to receive the products or services (such as medical foods, augmen-*

tative communication devices, hearing amplification devices, DME supplies, reference lab services, mail order pharmacies, out-of-state interpretations of imaging, electrocardiograms, or other services provided to the client in Texas but sent out-of-state for interpretation).

Requests for medical services provided by an out-of-state provider more than 50 miles from the Texas state border must be submitted to TMHP at the address provided in Section 2.1, “Provider Enrollment” in this chapter.

In unique circumstances, the CSHCN Services Program may approve coverage of services if they are within the scope of the program. The CSHCN Services Program may agree that:

- The out-of-state provider is the provider of choice for quality care.
- The same treatment or another treatment of equal benefit or cost is not available from CSHCN Services Program providers in Texas.
- The out-of-state treatment should result in a decrease in the total projected CSHCN Services Program cost of the client’s treatment.
- Medical literature indicates that the out-of-state treatment is accepted medical practice and is expected to improve the client’s quality of life.

Referto: Section 3.1.4, “Services Provided Outside of Texas” in Chapter 3, “Client Benefits and Eligibility.”

Section 5.1.8, “Claims Filing Deadlines” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement.”

2.1.10 Substitute Physician

Reimbursement may be made to a physician for CSHCN Services Program-covered services that are provided by another physician who is acting as his or her substitute. Such a substitution arrangement may be either an informal reciprocal arrangement of 14 days or fewer, or a long-term arrangement (up to 90 days) involving per diem or fee-for-time compensation. The arrangement may be extended for a continuous period longer than 90 days if the billing physician’s absence is due to being called or ordered to active duty as a member of a reserve component of the Armed Forces.

Substitute physicians are required to enroll with the CSHCN Services Program.

Substitute physicians are also required to enroll with Texas Medicaid before enrolling in the CSHCN Services Program and cannot be on the Texas Medicaid provider exclusion list.

Referto: Section 31.1.3, “Substitute Physician” in Chapter 31, “Physician.”

2.1.11 Providers of Family Support Services

Providers of Family Support Services (e.g., respite care, home and vehicle modification) are enrolled and reimbursed by the CSHCN Services Program. Enrollment applications are available on the CSHCN Services Program website at www.dshs.texas.gov/cshcn. Mail completed enrollment applications to:

CSHCN Services Program—Provider Enrollment
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133
or 1-512-776-7238

2.2 Provider Complaints Process

The CSHCN Services Program takes each provider complaint seriously. Depending on the level and nature of the complaint, the CSHCN Services Program works with the provider to resolve the issue.

The CSHCN Services Program provides due process for resolving all provider complaints. A complaint is defined as any dissatisfaction expressed by telephone or in writing by a provider, or on behalf of a provider, concerning the CSHCN Services Program. The definition of complaint does not include a misunderstanding or a problem of misinformation that is resolved promptly by clearing up the misunderstanding or supplying the appropriate information to the provider's satisfaction. The definition also does not include a provider's oral or written dissatisfaction with an adverse determination or appeals regarding claim payments and denials.

Procedures governing the provider complaint process are designed to identify and resolve provider complaints in a timely and satisfactory manner. Most complaints are resolved within 30 calendar days. If the complaint cannot be resolved within 30 calendar days, the provider is notified in writing of the status of the complaint. Referrals to other departments, such as Provider Relations or Medical Affairs, are made when appropriate.

The TMHP Complaints Resolution Department handles all provider complaints for the CSHCN Services Program. Providers may submit their complaints by telephone, mail, or fax. Providers will receive an acknowledgment letter from TMHP within 5 business days of receipt of the complaint.

Provide the following information when reporting the complaint:

- Point of contact name and phone number or email address
- Provider name
- Provider NPI and TPI, if available
- Description of the complaint situation
- Client name
- Client PCN
- Date of service

Providers and clients can report complaints by calling the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413, by fax at 1-888-236-8399, or by submitting a written complaint to:

TMHP
Complaints Resolution Department
PO Box 204270
Austin, TX 78720-4270

Questions regarding the complaint process or the status of a complaint should be directed to the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413.

Providers who believe they did not receive due process regarding the complaint from TMHP may submit a request for an administrative review to the CSHCN Services Program in writing or by fax to:

CSHCN Services Program
ATTN: Administrative Review
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133 or 512-776-7162

The appeals and administrative review processes are covered in greater detail in the following sections of this manual:

- Chapter 4, "Prior Authorizations and Authorizations"
- Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement"
- Chapter 7, "Appeals and Administrative Review"

- Section 2.1.4, “Provider Enrollment Determinations” in this chapter.

2.3 Provider Responsibilities

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are responsible not only for knowledge of the adopted CSHCN Services Program agency rules published in 25 TAC, Part 1, Chapter 38, but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371. TAC rules can be found at www.sos.state.tx.us/tac.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to clients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC, Part 1, §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to clients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

2.3.1 Information Change Requests

Providers must promptly advise TMHP Provider Enrollment of address changes (office or accounting), name changes, and federal tax identification number changes. Change information may be communicated in writing to TMHP on the [Provider Information Change Form](#), which is available on the TMHP website. A W-9 is required if the provider is changing the mailing or accounting address by written communication sent to TMHP.

CSHCN Services Program providers are able to make information changes using the Online Provider Lookup (OPL) while logged into the TMHP portal.

The OPL is used primarily by clients to search for providers.

The following functions are available in the OPL:

- Clients are able to search for providers in up to five counties in a single search.
- Doing business as (DBA) names appear for providers or provider groups.
- The default ZIP code radius for provider search is ten miles.
- Providers can indicate practice limitations, such as gender and age of patient.
- Providers can indicate whether or not they are accepting new patients.

The Medicaid and CSHCN Services Program provider agreements require providers to keep their correct physical address on file with TMHP. The physical address is also displayed in the OPL so that clients can locate providers. Providers who practice at multiple locations are required to enroll each location at which health-care services will be rendered. It is important that each location’s correct physical address and telephone number are available on the OPL.

Providers should verify that the physical address for their provider identifier is correct on the OPL. Providers can confirm and update the address and other demographic information on the TMHP website at www.tmhp.com. To locate the OPL information, providers can sign into the My Account page and choose the option to Change/verify address information.

Providers who have an e-mail address on file with TMHP will receive a confirmation e-mail from TMHP when a physical address has been updated. Providers can make other demographic changes online; however, the form must be printed, signed, and mailed to TMHP, as indicated on the printed copy.

Physical address changes may also be communicated in writing to TMHP on the [Provider Information Change Form](#) as noted below.

2.3.2 Required Updates

Certain providers are required to verify and update key demographic information every six months to ensure that their information is correct in the OPL. Affected provider types include physicians, nurses, dentists, and durable medical equipment (DME) providers.

If more than six months have elapsed since the required demographic information in the OPL was verified, access to the secure provider portal will be blocked until the verification takes place. Upon logging into their accounts, users with administrative rights will see a list of provider numbers that require verification and update. After addressing each provider number listed on the page, users will be able to access all of the functions of the secure provider portal.

2.3.3 General Medical Record Documentation Requirements

TMHP routinely performs a retrospective review of all providers. This review may include comparing services billed to the client’s clinical record. The following requirements are general requirements for all providers. Any mandatory requirement not present in the client’s medical record subjects the associated services to recoupment.

Note: This list is not all-inclusive. Additional and more specific requirements may apply to special services areas.

Requirement	Mandatory/Desirable
All entries are legible to individuals other than the author, dated (month, day, and year), and signed by the performing provider.	Mandatory
Each page of the medical record documents the client’s name and CSHCN Services Program client identification number.	Mandatory
Allergies and adverse reactions (including immunization reactions) are prominently noted in the record.	Mandatory
The selection of evaluation and management codes (levels of service) is supported by the client’s clinical record documentation. Providers must follow either the 1995 or 1997 Documentation Guidelines for Evaluation and Management Services published by CMS, when selecting the level of service provided.	Mandatory
Necessary follow-up visits specify the time of return by at least the week or month.	Mandatory
The history and physical documents the presenting complaint with appropriate subjective and objective information, e.g., medical and surgical history, current medications and supplements, family history, social history, diet, pertinent physical examination measurements and findings, etc.	Mandatory
The services provided are clearly documented in the medical record with all pertinent information regarding the client’s condition to substantiate the need for the services.	Mandatory
Medically necessary diagnostic lab and X-ray results are included in the medical record, and abnormal findings include an explicit notation of follow-up plans.	Mandatory
Unresolved problems are noted in the record.	Mandatory

Requirement	Mandatory/ Desirable
Immunizations are noted in the record as complete or up-to-date.	Mandatory
Personal data includes the parent, guardian, or caretaker’s address, employer, home and work telephone numbers, sex, marital status, and emergency contacts.	Desirable

2.3.4 Retention of Records

The provider must maintain and retain all necessary records and claims to fully document the services and supplies provided to a client, for full disclosure to the CSHCN Services Program or its designee. These records and claims must be retained for a period of 5 years from the date of service, until the client’s 21st birthday, or until all audit questions, appeal hearings, investigations, or court cases are resolved, whichever occurs last.

Upon request, these records must be made available promptly by submitting copies of such records, at no cost, to TMHP and representatives of the Office of Inspector General (OIG) or DSHS.

If the provider places the required information in records that are in the custody of another legal entity, such as a hospital, the provider is responsible for obtaining a copy of such records at no cost, for use by TMHP and representatives of the Office of Inspector General (OIG) or DSHS during any investigation or study of the appropriateness of the claims submitted by the provider.

2.3.5 Utilization Review: General Provisions

Utilization review activities required by the CSHCN Services Program are accomplished through a series of monitoring systems developed to ensure that services are necessary and of the optimum quality and quantity. Both clients and providers are subject to utilization review monitoring. Utilization review procedures safeguard against unnecessary care and services, monitor quality, and ensure that payments are appropriate according to the payment standards defined by the CSHCN Services Program.

One goal of utilization review is to identify the provider whose practice patterns are not consistent with the CSHCN Services Program requirements and the scope of benefits.

Educating the provider is the principal approach to resolution of inappropriate use. This education must include either a provider representative visit or letter to assist with the technical aspects of the program or a physician visit, telephone call, or letter to explain program guidelines relative to medical necessity, intensity of service, and the appropriateness of the service. The purpose of the letter or the visit is to discuss the inappropriate practices so that the provider may institute measures to remedy the problem.

Depending on the intensity of the identified problem, the letter or visit may result in review of claims before payment. Medical staff develops parameters for prepayment review according to the identified problem. The purpose of the review is to provide additional information enabling the provider to understand the scope of benefits by correlating billing practices and medical policy as billing occurs. As part of the prepayment review process, providers may be required to submit documentation. The documentation is used to ascertain the medical necessity of the services rendered. Prepayment review occurs for a minimum of 6 months. Services not consistent with medical policy are adjudicated in accordance with the established policies.

Recoupment of excess payments for intensity of service not supported by the medical documentation may occur at any phase in the review process.

A provider is removed from prepayment review after achieving compliance with the established medical policy. A follow-up review is performed to monitor continued appropriate utilization of resources.

When the provider is consistently noncompliant with policies, the provider history is provided to the CSHCN Services Program for possible administrative sanctions.

2.3.6 Release of Confidential Information

The *Health Insurance Portability and Accountability Act* (HIPAA) Privacy Regulations are intended to protect individually identifiable health information by restricting disclosure of protected health information (PHI).

Information concerning the diagnosis, evaluation, or treatment of a client by a person licensed or certified to perform the diagnosis, evaluation, or treatment of any medical disorder is normally confidential information that the provider must disclose only to authorized persons. The client's signature is not required on the claim form for payment of a claim; however, TMHP strongly recommends that the provider obtain written authorization from the client before releasing confidential medical information. The client's authorization for release of such information is not required when the release is requested by and made to the CSHCN Services Program or TMHP.

2.3.7 Waste, Abuse, and Fraud

DSHS is responsible for minimizing the opportunity for provider fraud and abuse. DSHS takes appropriate action to protect clients and the CSHCN Services Program when providers of services are suspected of committing waste, abuse, and fraud. DSHS is responsible for establishing criteria to identify cases of possible waste, abuse, and fraud and recouping all overpayments to a provider. Some circumstances may result in referring a provider for legal evaluation and possible prosecution while other circumstances may result in administrative sanctions.

Providers are responsible for the delivery of health-care items and services to CSHCN Services Program clients in full accordance with all applicable licensure and certification requirements, and in full accordance with accepted medical community standards and standards that govern occupations. Such standards include, without limitation, those related to medical record and claims filing practices, documentation requirements, and records maintenance. The requirement to follow all such standards in the CSHCN Services Program is incorporated by reference to the program's requirements, in 1 TAC section 371.1659.

Accepted medical community standards and standards that govern occupations include standards for coding and billing. CSHCN Services Program providers must follow the coding and billing requirements in the *CSHCN Services Program Provider Manual*. However, if coding and billing requirements for the particular service are not addressed in the provider manual, and if coding and billing requirements are not otherwise specified in program policy (such as in the provider bulletins or banner messages), then providers must follow the most current coding guidelines. These include the following:

- Current Procedural Terminology (CPT) as set forth in the American Medical Association's (AMA) most recently published CPT books, *CPT Assistant* monthly newsletters, and other publications resulting from the collaborative efforts of the AMA with medical societies.
- Healthcare Common Procedure Coding System (HCPCS) as developed and maintained by the federal government.
- National Correct Coding Initiative (NCCI), as set forth by CMS, and as explained in the NCCI Policy and Medicare Claims Processing Manuals. NCCI consists of procedure code combinations (pairs of procedure codes) that a provider must not bill together. One of the codes in the pair is considered a part of the primary procedure and not reimbursable to the same provider on the same date of service.

Exception: *NCCI outlines the use of modifiers, some of which are not currently recognized by the CSHCN Services Program.*

Referto: Section 5.6.2.6, "Modifiers" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement."

- *Current Dental Terminology* (CDT) as published by the American Dental Association (ADA).
- *International Classification of Diseases, Tenth Revision, Clinical Modification* (ICD-10-CM)

- *Current Diagnostic and Statistical Manual of Mental Disorders.*

To the extent that the above authorities do not conflict with any specific requirement stated in CSHCN Services Program policy, the requirements of these authorities are incorporated by reference into CSHCN Services Program policy. Failure to comply with these authorities may result in a provider or person being found to have engaged in one or more program violations, as identified in this section and also set forth in 1 TAC, Chapter 371.

2.3.8 Provider Certification/Assignment

Providers of the CSHCN Services Program are required to certify compliance with, or agreement to, various provisions of state laws and regulations. Upon submitting a signed claim to TMHP, the provider certifies that the following provisions were upheld:

- Services were personally rendered by the *billing provider* or under the personal supervision of the billing provider.

Exception: *As allowed under substitute physician and telemedicine services rulings.*

Referto: Section 38.2.2, “Telemedicine Services” in Chapter 38, “Telecommunication Services.”
Section 31.1.3, “Substitute Physician” in Chapter 31, “Physician.”

- The information contained on the claim form is true, accurate, and complete.
- All services, supplies, or items billed were medically necessary for the diagnosis or treatment of the client.
- Medical records document all services billed.
- All billed charges are usual and customary for the services provided. The charges must not be higher than the fees that are charged to private pay clients.
- Services were provided without regard to race, color, sex, national origin, age, disability, political beliefs, or religion.
- Before providing services, providers should always discuss with, and inform clients and their families of their liability for services not a benefit of the CSHCN Services Program.
- The provider of medical care and services files a claim with the CSHCN Services Program, agreeing to accept CSHCN Services Program reimbursement as payment in full for services that are a benefit of the CSHCN Services Program. The CSHCN Services Program client, or others on the client’s behalf, must not be billed for amounts above the amount the CSHCN Services Program paid on allowed services, or for services denied or reduced as a result of errors made in claims filing, claims preparation, missed filing deadlines, or failure to follow the appropriate appeal process. The client may be billed for services that are not a CSHCN Services Program benefit.
- The provider understands that endorsing or depositing a CSHCN Services Program check is accepting money from state or federal funds and that any falsification or concealment of material fact related to payment may be grounds for prosecution under state or federal laws.

Payment for services is made on behalf of clients to the provider of the service by TMHP in accordance with the limitations and procedures of the program.

If the claim is prepared by a billing service or printed by data processing equipment physically removed from the provider’s office, it is permissible to print “Signature on File” in place of the provider’s signature. The billing service must obtain and retain a letter on file signed by the provider authorizing the submission of his or her claims. Providers delegating signatory authority to a member of the office staff or to a billing service remain responsible for the accuracy of all information on a claim submitted for payment.

2.3.9 Billing Clients

CSHCN Services Program clients, parents, or guardians of children eligible for CSHCN Services Program benefits must not be billed for CSHCN Services Program covered services. CSHCN Services Program providers must agree to accept the CSHCN Services Program allowed amount of payment (regardless of payer) as payment in full for covered services provide to CSHCN Services Program clients. Providers may collect allowable insurance or health maintenance organization co-payment, in accordance with those plan provisions.

CSHCN Services Program providers must agree to accept the CSHCN Services Program allowed amount of payment (regardless of payer) as payment in full for covered services provided to CSHCN Services Program clients. A provider must not require a down payment, bill, or take recourse against an eligible client for a denied or reduced claim for services that are within the amount, duration, and scope of benefits of the CSHCN Services Program when the action is the result of any of the following provider errors:

- Failure to submit a claim, including claims not received by TMHP.
- Failure to submit a complete authorization or prior authorization request, on a program-approved form, within the established deadlines.
- Failure to submit a claim within the 95-day filing deadline.
- Filing an incorrect claim.
- Failure to resubmit a corrected claim or to appeal a claim within the 120-day correction and resubmission period.
- Errors made in claims preparation, claims submission, or in the correction and resubmission (appeal) process.
- Failure to submit a request for Administrative Review to the CSHCN Services Program within 30 days of the date of the resubmission (appeal) denial.

A provider attempting to bill or recover money from a client is in violation of the above conditions and may be subject to termination from the CSHCN Services Program.

A provider may bill the client for:

- Any service that is not a benefit of the CSHCN Services Program, such as obstetrical care.
- All services incurred on noncovered days due to eligibility or inpatient hospital or inpatient rehabilitation day-limitations. Total client liability must be determined by reviewing the itemized statement and identifying specific charges incurred on the noncovered day.

Each provider must furnish services to eligible CSHCN Services Program clients in the same manner, to the same extent, and of the same quality as services provided to other clients. Services made available to other clients must be made available to CSHCN Services Program clients when the services are benefits of the CSHCN Services Program.

Clients must not be billed for the completion of a claim form, even when it is a provider's office policy to do so.

Referto: Chapter 4, "Prior Authorizations and Authorizations."

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement."

Chapter 7, "Appeals and Administrative Review."

2.3.10 Texas Family Code Compliance

2.3.10.1 Child Support

The *Texas Family Code*, §231.006, places certain restrictions on child support obligors. *Texas Family Code* §231.006(d) requires a person who applies for, bids on, or contracts for state funds to submit a statement that the person is not delinquent in paying child support. This law applies to an individual whose business is a sole proprietorship, partnership, or corporation in which the individual has an ownership interest of at least 25 percent of the business entity. This law does not apply to contracts or agreements with governmental entities or nonprofit corporations.

The law also requires that payments be stopped when notified that the contractor or provider is more than 30 days delinquent in paying child support. CSHCN Services Program payments are placed on hold upon notification that a provider is delinquent in child support payments. A provider application may also be denied or a provider agreement terminated when the provider is delinquent in paying child support.

2.3.10.2 Abuse and Neglect Reporting Requirements

DSHS and the CSHCN Services Program expect providers to comply with the provisions of state law as set forth in Chapter 261, *Texas Family Code*, related to the reporting of child abuse and neglect.

Note: A professional may not delegate to or rely on another person to make the report of abuse or neglect.

2.4 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

3.1 Client Benefits

The CSHCN Services Program is a comprehensive health-care program. Clients must see providers who are enrolled in the CSHCN Services Program, and they can go to specialists without a referral. Benefits include, but are not limited to, the items in the list below. Consult the specific chapter or section for more details about coverage and authorization requirements.

- Ambulance
- Ambulatory or day surgery
- Augmentative communication devices (ACDs)
- Behavioral health
- Dental and orthodontia
- Drug copayments (except Children's Health Insurance Program [CHIP] drug copayments)
- Durable medical equipment and expendable medical supplies
- Eye prostheses
- Gastrostomy devices
- Genetic services
- Hearing services
- Hemophilia blood factor products
- Home health services
- Hospice care
- Inpatient services
- Laboratory services
- Insurance Premium Payment Assistance (IPPA) (reimburses health insurance premiums)
- Medical foods and nutritional services
- Orthotics and prosthetics
- Outpatient services
- Physical and occupational therapy (outpatient only)
- Physical medicine
- Prescription drugs
- Primary and preventive care
- Physician services, including services performed by advanced practice registered nurses (APRNs)
- Podiatry
- Prescription shoes
- Radiology and radiation therapy services
- Rehabilitation (inpatient and outpatient)
- Renal dialysis
- Renal transplants
- Respiratory care and equipment

- Speech-language pathology (outpatient only)
- Sleep studies
- Stem cell transplants (\$200,000 maximum)
- Surgery
- Telemedicine
- Vision care

3.1.1 Prescription Drug Benefits

The Vendor Drug Program (VDP) processes all of the prescription drug claims for CSHCN Services Program clients. Claims for the following drugs and products may be submitted for reimbursement:

- Aerosolized tobramycin (TOBI)*
- Growth hormone products
- Human immunodeficiency virus (HIV)/acquired immunodeficiency syndrome (AIDS) drugs
- Insulin/insulin syringes
- Medications for home use (including vitamins)
- Pulmozyme*
- Palivizumab (Synagis)**

*Prior authorization is required for these drugs.

** Requests for prior authorization of all the drugs listed above with the exception of Palivizumab (Synagis), must be submitted to VDP. Prior authorization requirements for Palivizumab (Synagis) are detailed in Section 3.1.2, “Respiratory Syncytial Virus (RSV) Prophylaxis” in this chapter.

For VDP prior authorization requirements, providers may contact VDP at 1-800-435-4165 or online at www.txvendordrug.com/dur/prior-approval.shtml.

An approved prescribing physician must submit a completed and signed Pulmozyme and TOBI Medical Information Form annually to certify that the CSHCN Services Program client continues to require either of these medications. The Pulmozyme and TOBI Medical Information Form is available through VDP.

Note: *HIV/AIDS drugs are a benefit for CSHCN Services Program clients for 60 days. A denial from the Texas HIV Medicaid program and any third-party payer, if applicable, must be submitted to extend coverage for those drugs beyond 60 days.*

The CSHCN Services Program does not reimburse providers for drug waste.

3.1.2 Respiratory Syncytial Virus (RSV) Prophylaxis

Prior authorization for the RSV prophylaxis drug Palivizumab (Synagis) must be obtained through the CSHCN Services Program.

To request prior authorization, a completed Children with Special Health Care Needs (CSHCN) Services Program Synagis® (Palivizumab) Prior Authorization Request & Prescription Form 2013 must be faxed to the CSHCN Services Program at (512-776-7238).

Providers may refer to the Texas Health and Human Services Commission Texas Medicaid/CHIP Vendor Drug Program website at www.txvendordrug.com/pa/rsv for a copy of the prior authorization form and more information about obtaining palivizumab for CSHCN Services Program clients.

For additional information about RSV criteria, refer to Section 31.2.24.15, “Respiratory Syncytial Virus (RSV) Prophylaxis” in Chapter 31, “Physician.”

3.1.3 Medical Transportation Program (MTP) Benefits

The MTP makes travel arrangements for CSHCN Services Program clients to get to their medical or dental appointments, or to the pharmacy. Clients must call MTP in advance to request travel assistance. To contact MTP, call 1-877-633-8747.

3.1.4 Services Provided Outside of Texas

CSHCN Services Program policies and procedures apply to all enrolled providers outside of the state of Texas. Out-of-state providers must be enrolled and remain enrolled as Title XIX Medicaid providers for to claims to be considered for reimbursement by the CSHCN Services Program.

Referto: Section 2.1.9, “Out-of-State Providers” in Chapter 2, “Provider Enrollment and Responsibilities.”

3.1.5 CSHCN Services Program Services and Supplies Limitations and Exclusions

The following are not CSHCN Services Program benefits (this list is not all-inclusive):

- Abortions
- Allergy treatment services, except antibiotic desensitization
- Ambulatory blood pressure monitoring
- Attendant care services
- Augmentation mammoplasty or breast reconstruction (except following a medically necessary mastectomy)
- Autopsies
- Neurofeedback (i.e., EEG biofeedback)
- Care and treatment related to any condition for which benefits are provided or available under worker’s compensation laws
- Chemolase injection (chymodiactin and chymopapain)
- Chiropractic treatment
- Circumcisions (routine)
- Color vision and dark adaption exams
- Craniotomy for lobotomy
- Custodial care
- Dermabrasion or chemical peels
- Donor search for kidney transplants
- Donor search for stem cell transplants
- Dressings and supplies billed in physician’s office
- Ear piercing or repair of ear piercing
- Experimental or investigational procedures
- Extracorporeal membrane oxygenation (ECMO)
- Extracorporeal photophoresis
- Fees for completing or filing a CSHCN Services Program claim form, [CSHCN Services Program Physician/Dentist Assessment Form](#), or other documentation

- Fertility services
- Fetal medical and surgical services
- Implantation of antiesophageal reflux device
- More than 60 days of inpatient hospitalization per calendar year
 - Note: An additional 60-day hospital stay begins on the date of hospital admission for an approved stem cell transplant (refer to Section 24.3.1.6, “Transplants - Nonsolid Organ” in Chapter 24, “Hospital”).*
- Inpatient rehabilitation of more than 90 days per calendar year
- Intermittent positive pressure breathing (IPPB) (physician services)
- Intersex surgery (except to repair or treat congenital defects)
- Intestinal bypass surgery and gastric stapling for the treatment of morbid obesity
- Lipectomies and rhytidectomies
- Manipulation of chest wall, including percussion
- Newborn services (routine)
- Obsolete diagnostic tests
- Obstetrical tests
- Outpatient cardiac rehabilitation
- Penile plethysmography or nocturnal tumescence test
- Peripheral and thermal angioplasty
- Portable X-ray services
- Prostate treatment (massage and surgery)
- Recreational therapy
- Routine blood drawing for specimens
- Salivary gland and duct diversion or ligation
- Services or supplies:
 - For which benefits are available under any other contract, policy, or insurance
 - For which claims were not submitted within the filing deadline
 - That are not reasonable and necessary for diagnosis or treatment
 - That are not specifically a benefit of the CSHCN Services Program
 - Provided before or after the eligibility time period of the client
 - Provided to clients on the CSHCN Services Program waiting list
 - Provided to a client after a finding was made during utilization review procedures that these services or supplies were not medically necessary
 - Payable by any health, accident, or other insurance coverage; by any private or other governmental benefit system; or by any legally liable third party
 - Provided by ineligible, suspended, or excluded providers
- Silicone or collagen injections (cosmetic)

- Single photon emission computerized tomography (SPECT) imaging
- Social and educational counseling
- Speech prosthesis insertion
- Sterilizations, sterilization reversals, infertility, obstetrics, and family-planning services
- Substance abuse treatment
- Tattooing
- Telephone calls, computer calculations, reports, and medical testimony
- Transplants of the heart, intestines, liver, lung or pancreas
- Travel allowance for specimen collection for homebound clients

3.2 Client Eligibility

3.2.1 CSHCN Services Program Application Criteria

Applicants who may be eligible for coverage under Medicare, Medicaid, Medicaid Buy-In (MBI), Medicaid Buy-In for Children (MBIC), or CHIP by reason of citizenship, residency status, age, or medical condition must apply for coverage. A written Medicaid and CHIP determination must be sent with the application for the CSHCN Services Program. Applicants who are not citizens or legal residents of the United States or who are currently enrolled in CHIP or Texas Medicaid are exempt from this requirement. Proof of exempt status must be sent with the application for the CSHCN Services Program.

If the CSHCN Services Program does not receive the Medicaid or CHIP determination or evidence of exemption from this requirement with the application, the applicant is given 60 days to submit the requested information. During this 60-day period, the applicant may send in any additional information that the CSHCN Services Program requires to process the application. If all information is received before the end of the 60 days, the CSHCN Services Program may grant eligibility for CSHCN Services Program health-care benefits or place the client on the waiting list, the eligibility effective date will be established as the date the application was made complete.

If the client or applicant has submitted all of the documentation required to approve his or her case for CSHCN Services Program health-care benefits except for the Medicaid and CHIP determinations, the program may approve the case for 60 days until the Medicaid and CHIP determinations are received. Services are suspended if the Medicaid or CHIP determinations are not received on or before the end of 60 days. The suspension remains until the requested information is received. Once all of the required information is received, eligibility is granted. Eligibility is suspended between the 60-day cutoff date and the date on which the requested information is received.

An extension of 30 days may be granted for exceptional circumstances when requested.

The CSHCN Services Program does not pay for any services until the client's application is approved and the client is eligible to receive CSHCN Services Program health-care benefits.

If the CSHCN Services Program denies eligibility to a program applicant, the program shall give the applicant written notice of the denial and of the applicant's right to request an administrative review of the denial within 30 days of the date of the notification.

If the CSHCN Services Program proposes to modify, suspend, or terminate a client's eligibility for health-care benefits (unless such program actions are authorized by the CSHCN Services Program Rules Title 25 Part I TAC §38.16 relating to Procedures to Address Program Budget Alignment), the CSHCN Services Program shall give the client written notice of the proposed action and of the client's right to request an administrative review of the proposed action within 30 days of the date of notification.

Any questions concerning a client's eligibility for benefits of the CSHCN Services Program must be directed to the CSHCN Services Program Central Office at 1-800-252-8023.

3.2.2 Eligibility Criteria

A person may be eligible for health-care benefits under the CSHCN Services Program if the following conditions are met:

- The applicant must be a Texas resident.
- The applicant is 20 years of age or younger. Persons diagnosed with cystic fibrosis are exempt from this requirement.
- The applicant's family meets the CSHCN Services Program financial eligibility criteria.
- The applicant's physician or dentist attests to the program's medical certification definition and provides a diagnosis that meets the definition on the [CSHCN Services Program Physician/Dentist Assessment Form](#) located in the CSHCN Services Program Application.

The applicant must be eligible for medical assistance at the time the service is provided. Having an application for CSHCN Services Program eligibility in process is not a guarantee that the applicant can become eligible. Services and supplies are not paid by the CSHCN Services Program if they are provided to a client before the effective date of his or her eligibility or after the effective date of his or her denial of eligibility.

3.2.3 Prematurity

Applicants who meet the definition of prematurity are not medically eligible for CSHCN Services Program health care benefits until they have been discharged from the hospital and remain out of the hospital for at least 14 consecutive days.

3.2.4 Program Applicants and Clients Residing in Long-Term Care

Applicants and clients who are residing in skilled nursing facilities (SNF), intermediate care facilities for individuals with intellectual disabilities (ICF/IID), state hospitals (court-ordered and not considered a public institution), or community group homes may apply for CSHCN Services Program health care benefits.

Long-term care services provided by the facilities described above are not a covered health care benefit. If an ongoing CSHCN Services Program client is admitted to any of the above-mentioned facilities, his or her eligibility for covered health care benefits remains unchanged; however, the client may qualify for Medicaid or CHIP services and must maintain that coverage to continue eligibility for covered CSHCN Services Program health care benefits.

3.2.5 Program Applicants and Clients That Are Incarcerated

If an applicant or client meets the financial, medical, age, residency, and other criteria for eligibility for CSHCN Services Program health care benefits, eligibility may be granted; however, the applicant or client is not eligible for CSHCN Services Program health care benefits until released from custody. Services provided while the client is in the custody of, or incarcerated by, any municipal, county, state, or federal governmental entity are not covered.

Exception: *Case management or prior-approved FSS not provided by the governmental entity, that are needed during the time when a client is making a transition from custody or incarceration into a community-living setting, may be covered*

3.2.6 Sporadic Medicaid, MBIC, MBI, or CHIP Coverage

If the CSHCN Services Program client loses Medicaid coverage for longer than one month, reapplication to Medicaid is required. The client is notified that reapplication is required and is given 60 days to submit the Medicaid determination. CSHCN Services Program coverage for health care benefits may be granted during the 60 day period. If the determination is not received within the 60 day period the client's eligibility may be suspended. The CSHCN Services Program may grant a 30-day extension, at the client's request, to obtain the determination for Medicaid.

If a client is disenrolled by MBIC or MBI during the coverage period, the client or family must submit written notification to the CSHCN Services Program stating the reason for disenrollment.

Acceptable reasons to end MBIC or MBI coverage include, but are not limited to:

- Age limitations
- Has Medicaid coverage
- Lost private insurance coverage
- Found not to be a U. S. citizen

3.2.7 Eligibility Date for Program Health Care Benefits

The effective date of eligibility for CSHCN Services Program health care benefits is the date of receipt of the application, except in the following circumstances:

- *Newborn.* The effective date of eligibility for newborns that are not born prematurely is the date of birth. Newborn means a child 30 days old or younger.
- *Spenddown.* The effective date of eligibility for applicants with spenddown is the day after the earliest DOS on which the cumulative bills are sufficient to meet the spenddown amount. Only medical bills having a DOS within the 12 months prior to the date of receipt of the application denial date may be included to satisfy spenddown requirements. Medical bills from any member of the household for which the applicant, parents, guardian, or managing conservator of the applicant is responsible and that are not payable by another entity may be included. All spenddown documentation must be received within 60 days of receipt of the application denial. Medical bills that are used to meet spenddown are not payable by the CSHCN Services Program.
- *Waiting List Exception.* If an ongoing client (not on the waiting list) reapplies on or before the day that CSHCN Services Program financial and medical eligibility expires and the income is over scale, his or her name is not placed on the waiting list. Eligibility is denied until bills are received that are sufficient to meet spenddown. Eligibility then begins according to the spenddown criteria above.
- *Prematurity.* The effective date of eligibility for an applicant that is born prematurely is the day after the applicant has been out of the hospital for 14 consecutive days.
- *Trauma.* The effective date of eligibility following traumatic injury is the day after the acute phase of the treatment ends, the date of transfer to the rehabilitation facility, or the date discharged to home
- The Trauma and Accident Section of the CSHCN Services Program Physician and Dentist Assessment Form in the CSHCN Services Program Application must be completed for all first time applicants. Applicants who are currently ongoing clients and are reapplying to establish continuing eligibility, or applicants who have had CSHCN Services Program eligibility in the past are exempt from this requirement. This exemption pertains even if the returning applicant has sustained a traumatic injury or accident during any time following the submission of an original application that included this information.
- The received date is the date the application is received by the CSHCN Services Program.

3.2.8 Financial Eligibility Criteria

Prospective CSHCN Services Program clients must meet financial eligibility requirements. Additional information about CSHCN Services Program financial eligibility is available at the toll free CSHCN Services Program Inquiry Line at 1-800-252-8023 or online at www.dshs.texas.gov. CSHCN Services Program inquiries may also be mailed to:

CSHCN Services Program
Specialty Health Care Services, MC 1938
P.O. Box 149347
Austin, TX 78714-9347

Important: *All client eligibility information must be kept up to date. CSHCN Services Program financial eligibility must be updated annually. Medical eligibility must be updated annually; however, medical information may be updated whenever there is a change in the client's condition.*

3.2.9 Medical Eligibility Criteria and the Physician/Dentist Assessment Form (PAF)

An important element of determining client eligibility is the [CSHCN Services Program Physician/Dentist Assessment Form](#) (PAF). The PAF provides the CSHCN Services Program with vital information about the client's medical condition, qualifies the client as medically eligible for benefits, and is used when clients are considered for removal from the waiting list. The PAF also provides a medical certification for a diagnosis that meets the CSHCN Services Program's definition of a child with special health-care needs and also allows for identification and explanation of an urgent need for medical care.

CSHCN Services Program applicants and clients are required to submit proof of their medical condition with the initial application, notify the CSHCN Services Program of any changes in the client's condition, and certify at least once annually that the client is medically eligible. This information is completed and submitted on the [CSHCN Services Program Physician/Dentist Assessment Form](#).

Copies of the form are included with the application packet, and clients or their families must ensure that a physician or dentist provides the information necessary to meet the medical eligibility requirements of the CSHCN Services Program.

3.2.9.1 Medical Certification Definition

The CSHCN Services Program rules state that the following medical criteria should be used when referring clients to the program:

- A chronic developmental condition must include physical manifest and may not be solely a delay in intellectual, mental, behavioral, or emotional development.

CSHCN Services Program rules state the following for a chronic physical condition:

- Such a condition may exist with accompanying developmental, mental, behavioral, or emotional conditions, but is not solely a delay in intellectual development or solely a mental, behavioral, or emotional condition.

A diagnosis of intellectual disability, autism, or attention deficit hyperactivity disorder (ADHD) does not indicate a physical disability by itself. If the client also has cerebral palsy or another condition causing physical disability, use that diagnosis on the PAF to expedite the processing of the application.

The physician or dentist who completes the PAF must also certify that the applicant meets the CSHCN Services Program's definition of a person with special health-care needs outlined below:

- 21 years of age or younger
- Must have a chronic physical or developmental condition that will last or is expected to last for at least 12 months and may result in limits to one or more major life activities or result in death if not treated

- Must have a chronic physical or developmental condition that requires health and related services of a type or amount beyond those generally required by children
- Must have a physical (body, bodily tissue, or organ) manifestation
- May have an accompanying developmental, mental, behavioral, or emotional condition(s) that is not solely a delay in intellectual development or solely a mental, behavioral, or emotional condition
- A person of any age who has cystic fibrosis

3.2.9.2 Primary and Secondary Diagnoses

The CSHCN Services Program is not diagnosis-restricted; however, a valid *International Classification of Diseases*, Tenth Revision, Clinical Modification (ICD-10-CM) code that indicates an applicant's chronic physical condition is required on the PAF. This information is important for program data purposes and to ensure that the applicant meets the program's definition of a child with special health-care needs.

The primary diagnosis on the PAF must be medical in nature and meet CSHCN Services Program criteria. Any additional diagnoses may be listed in the Other Diagnoses section located below the Primary Diagnosis line.

For example, if a CSHCN Services Program client has a diagnosis of autism and cerebral palsy, use cerebral palsy as the primary diagnosis because it indicates a physical disability, and autism does not.

To facilitate applications to the CSHCN Services Program for certain applicants, the CSHCN Services Program medical director may accept written documentation of medical criteria certification submitted by a physician or dentist who is licensed to practice in a state or jurisdiction of the United States of America other than Texas.

The CSHCN Services Program does not reimburse providers for written documentation of medical criteria certification. In addition, providers may not request or accept payment from the client or applicant, or the client or applicant's family, for completing any CSHCN Services Program forms.

3.2.9.3 Important Considerations When Completing the PAF

- Use as the primary diagnosis, a medical diagnosis that indicates the client's chronic condition that meets the CSHCN Services Program's definition of a child with special health-care needs, and/or identifies the urgent need for care.
- Use the full diagnosis code, including any suffixes (e.g., "D51.2" rather than "D51").
- If YES is noted in the Determination of Urgent Need for Services section, an explanation must be entered to justify the YES answer. If this section is incomplete, the PAF will be rejected.
- A physician or dentist must complete the Physician/Dentist Data section of the form, sign it, and date it. The signature must be an original signature. Electronic or stamped signatures are not accepted. The form can only be signed by a physician (doctor of medicine [MD], doctor of osteopathy [DO], doctor of dental surgery [DDS], or doctor of dental medicine [DMD]) who has seen the client in the previous 12 months.
- An original signature is required. Electronic or stamped signatures are not accepted.
- Instructions for updating the PAF are also available on the TMHP website.

Referto: [Physician/Dentist Assessment Form Instructions](#)

Tip: Providers can photocopy this form, but should retain the original for future use. The instructions and form are available on the TMHP website at www.tmhp.com.

3.3 CSHCN Services Program Notice of Eligibility Form

The CSHCN Services Program Notice of Eligibility Form gives clients, parents, and providers a quick way to verify CSHCN Services Program eligibility. The form is designed to convey all of the information necessary to document identification information. Medicaid or other insurance information (including CHIP) listed on the form at the time of application is valid and must be verified independently.

Referto: Section 3.3.2, “CSHCN Services Program Notice of Eligibility Form Sample” in this chapter.

CSHCN Services Program Notice of Eligibility Forms are valid for a 12-month coverage period. Clients must reapply for CSHCN Services Program health-care benefits annually. A new application and all proof of financial eligibility must be submitted each time a client reapplies for the CSHCN Services Program. This form is one way to verify client eligibility.

The client eligibility form shows:

- The client’s case number (also called the client ID number). The case number for the CSHCN Services Program will always begin with a 9 and end with 00.
- The client’s name, date of birth, and sex.
- The 12 months of the client’s eligibility.
- Information about any other insurance the client may have had at the time of application. This is indicated by the text “Medicaid/Insurance” below the client’s date of birth. More about what to do when a client has other insurance coverage is in Section 3.5, “Clients Eligible for CHIP and CSHCN Services Program Benefits” in this chapter and Section 3.7, “Medically Needy Program (MNP)” in this chapter.

Providers should ask for the form when scheduling a client for an appointment. Under certain circumstances, the form may not be valid at the time the provider sees the client.

Providers can also verify client eligibility by using the following options:

- CSHCN Services Program Automated Inquiry System (AIS) at 1-800-568-2413.
- CSHCN Services Program at 1-800-252-8023.
- TMHP Electronic Data Interchange (EDI) Gateway.
- TMHP website at www.tmhp.com.

If the client is not eligible when they arrive for an appointment, the provider must advise the client that they are being accepted as a private-pay client at the time the service is provided. The client will be responsible for paying for all services received. Providers are encouraged to ensure that the client signs written notification indicating that the client is being accepted as a private-pay client.

Referto: The “Client Eligibility” computer-based training on www.tmhp.com.

The CSHCN Services Program Notice of Eligibility Form provides the reapplication deadlines that are specific to each client. It identifies the date on which they can start the reapplication process and lets them know that they must submit a renewal application before their eligibility ends.

Approximately 60 days before the eligibility renewal date, the CSHCN Services Program mails a letter and a reapplication packet containing the CSHCN Services Program Application (T-3) to clients. Clients who have not received the packet within 30 days prior to the renewal date can request one from their local CSHCN Services Program Regional Office (refer to the listing in Section 1.3.2, “Regional Offices” in Chapter 1, “TMHP and HHSC Contact Information” of this manual), or by calling the CSHCN Services Program Central Office at 1-800-252-8023, or downloading the booklet from the CSHCN Services Program website at www.dshs.texas.gov/cshcn/clapplforms.shtm.

3.3.1 Eligibility Restrictions

Under certain circumstances, the client eligibility form may not be valid at the time of the client's appointment. For example, restrictions are sometimes placed on clients' cases after they receive their eligibility form. Some reasons for restrictions are:

- The CSHCN Services Program needs a Medicaid or CHIP determination.
- The client or family has moved.
- The family circumstances have changed, possibly making the client ineligible for the CSHCN Services Program.
- The client or family must apply to the Medically Needy Program.

The restriction period usually lasts 60 days. A 30-day extension may be granted when requested.

The client can continue to receive CSHCN Services Program benefits while there is a pending restriction on the case. However, there are a few important conditions to keep in mind.

- If the CSHCN Services Program receives the requested information or documentation before the end of the 60-day restriction period, the restriction ends, and there is no lapse in the client's eligibility.
- If the CSHCN Services Program receives the information or documentation after the end of the 60-day period (and the added 30-day extension, if requested), but before the end of the client's eligibility, their eligibility will lapse from the time the restriction period deadline until the time the CSHCN Services Program received the information.
- If the CSHCN Services Program receives the information after the client's eligibility expires, the client's name is placed on the program's waiting list. Clients on the waiting list are not eligible for health benefits.

Client Case Number:

Children with Special Health Care Needs (CSHCN) Services Program
Notice of Eligibility

This CSHCN Services Program Notice of Eligibility (NOE) can only be used for services between the current approval periods: **9/30/2016 - 9/29/2017**. You are eligible for benefits as shown below.

Category	Approved?	Benefit Start Date	Benefit End Date
Drugs	Yes	9/30/2016	9/29/2017
Family Support Services (FSS)	Yes	9/30/2016	9/29/2017
Medical	Yes	9/30/2016	9/29/2017
Medical Transportation	Yes	9/30/2016	9/29/2017
Insurance Premium Payment Assistance (IPPA)	No	9/30/2016	N.A.

This is your Notice of Eligibility (NOE). If you already have an NOE, throw away the old one. Take this with you when you visit your CSHCN Services Program providers. Service providers can copy this for their files. Do not loan this NOE to other people. If you lose this NOE, call CSHCN Services Program Eligibility Services. Whenever you call or write to CSHCN Services Program, use the Client Case Number shown above.

To stay on the CSHCN Services Program after this document runs out, you must fill out a new CSHCN Services Program application and send it to the CSHCN Services Program on or after **7/31/2017**. However, your application must be received in CSHCN Services Program no later than **9/29/2017**. To get a new CSHCN Services Program application or to contact Eligibility Services, call 1-800-252-8023.

3.4 Clients Eligible for Medicaid and CSHCN Services Program Benefits

The CSHCN Services Program requires all applicants to apply for Medicaid and include the determination or exemption letter in their program application. The CSHCN Services Program will not pay for services until the client's Medicaid eligibility is determined. The CSHCN Services Program also does not pay for services provided to children who are also eligible for Medicaid, with the exception of the transportation of a deceased client's body.

Information about Medicaid is printed on the CSHCN Services Program Notice of Eligibility Form. The coverage is indicated by the word Medicaid, below the date of birth in the CSHCN Services Program Client Number block. This information is obtained at the time of application, and it must be verified at the time the service is provided.

If the CSHCN Services Program pays benefits that also were paid by Medicaid, providers are responsible for refunding the full CSHCN Services Program payment. Providers must make the refund check payable to TMHP and send it to the attention of the TMHP Financial Unit. Send the refund check along with the [CSHCN Services Program Refund Information Form](#) to the following address:

Texas Medicaid & Healthcare Partnership
Attn: Financial Unit
12357B Riata Trace Parkway, Suite 100
Austin, TX 78727

Include the following information:

- Client name and CSHCN Services Program client number
- Copies of the Remittance and Status (R&S) Reports from both Texas Medicaid and the CSHCN Services Program that show the claims were paid
- Date of service
- Provider name
- Provider identifiers

Note: *If the Medicaid claims administrator (TMHP) denies a claim with the explanation of benefits (EOB) code 00182 (client not eligible), but the family has evidence that the client is eligible for Medicaid, providers must appeal or resubmit the claim to TMHP. Client Medicaid eligibility information may not have been available at the time of the first claim submission.*

3.5 Clients Eligible for CHIP and CSHCN Services Program Benefits

CHIP offers comprehensive health-care coverage to thousands of Texas children who are uninsured. CHIP provides services such as physician care, medications, medical equipment, therapies, hospitalization, and much more.

Many children in the CSHCN Services Program are eligible for CHIP. Children may receive CHIP and CSHCN Services Program benefits at the same time. The CSHCN Services Program may pay for meals, transportation, lodging, other services not available from CHIP, or services beyond the CHIP maximum benefit. The CSHCN Services Program is the payer of last resort for medical services.

CHIP benefits apply to all children in the family, including the child who is also eligible for the CSHCN Services Program. For more information about CHIP (children and perinatal coverage), contact CHIP/Children's Medicaid at 1-877-KIDS-NOW (1-877-543-7669) or visit the CHIP website at www.chipmedicaid.com.

3.6 Clients Eligible for Medicaid and Comprehensive Care Program (CCP) Benefits

The Texas Comprehensive Care Program (CCP) and Texas Medicaid (Title XIX) Home Health Services cover medically necessary services for enrolled clients who are 20 years of age or younger.

The CSHCN Services Program does not pay claims for its clients who are eligible for CCP and whose claims were denied by Medicaid for any reason, including late filing, limited client, duplicate services, incorrect claim form, or additional information required.

Additional information about CCP is available toll free at 1-800-846-7470, Monday through Friday, from 7 a.m. to 7 p.m, Central Time.

3.7 Medically Needy Program (MNP)

MNP provides access to Medicaid benefits for children who are 18 years of age or younger and whose family income exceeds the eligibility limits under Temporary Assistance to Needy Families (TANF) or one of the medical-assistance-only programs for children, but whose income and assets are not sufficient to meet their medical expenses.

The CSHCN Services Program requires all applicants to include a Medicaid determination or exemption along with their application. No services are paid by the CSHCN Services Program until Medicaid eligibility is determined.

Once eligibility is established, the client can receive the same care and services available to all other Medicaid clients.

The CSHCN Services Program may ask clients to apply to MNP if \$2,000 or more in medical bills were paid or are expected to be paid by the CSHCN Services Program. Clients are given 60 days to apply to MNP and send the determination to the CSHCN Services Program.

CSHCN Services Program client benefits are not limited during this 60-day period; however, the Program will suspend a client's eligibility if he or she does not comply with the request to apply to MNP.

3.7.1 MNP Spend Down Processing

MNP applicants must meet basic TANF eligibility requirements. Eligibility may be determined with or without spend down (the difference between the applicant's net income and the MNP income limits). When the applicant is eligible without spend down (income is below MNP income limits), the applicant is certified to be Medicaid-eligible.

Prospective MNP clients who do not qualify for Medicaid must participate in the "Spend Down" program which is based on income and health-care expenses. The spend down amount and duration of Medicaid coverage is determined by HHSC. The client is issued a Medical Bills Transmittal (Form H1120 or H1122) that indicates the spend down amount and the months of potential coverage (limited to the month of application and any of the 3 months before the application month).

During spend down, program participants are responsible for paying a portion of their health-care bills and submitting those bills or completed claim forms, also referred to as invoices, to the Medically Needy Clearinghouse (MNC). All medical bills (for all family members) must be submitted to the TMHP-MNC, along with the Form H1120 or H1122 for application toward the spend down amount.

Texas Medicaid & Healthcare Partnership Medically Needy Clearinghouse
PO Box 202947
Austin, TX 78720-2947

Charges from the bills are applied in date-of-service order to the spend down amount. The spend down is met when the accumulated charges equal the spend down amount.

Once the client has met the total spend down amount and becomes eligible for Medicaid, MNC will return the invoices to the client, and the client will receive a Medicaid Identification form. Spend down program participants are required to notify their providers once their Medicaid eligibility has been established. Providers are expected to submit claims to Medicaid for those clients after that time. MNC will also mail notification letters to providers who have not yet submitted claims for clients who have become eligible for Medicaid by meeting their spend down amount.

Note: *Providers must include the CSHCN Services Program client number and the CSHCN Services Program client name on all of the documentation sent to the CSHCN Services Program or TMHP-MNC.*

The CSHCN Services Program can assist with the submission of medical bills to apply for Medicaid coverage through the spend down process. TMHP MNC accepts paid or unpaid medical bills from the CSHCN Services Program for application toward the spend down amount regardless of the date of service. This process enables TMHP MNC to expedite the conclusion of the case and inform DSHS when the spend down is met.

When the spend down is met and the client is certified as Medicaid-eligible, the CSHCN Services Program may consider whether any of the services used to meet the spend down amount (client liability) may be considered for CSHCN Services Program health-care benefits coverage.

3.7.2 Provider Assistance to Clients with Spend Down

Providers may assist clients in meeting their spend-down amount by:

- Submitting bills to TMHP MNC for the CSHCN Services Program client that are not payable by the program.
- Submitting bills to TMHP MNC for services provided to any other member of the family.
- Providing clients and families with current itemized statements.
- Encouraging clients to submit all of the medical bills they incurred from all of their providers.

Only medical bills having a date of service (DOS) within the 12 months preceding the date of receipt of the application denial date may be included to satisfy spenddown requirements. Medical bills from any member of the household for which the applicant, parents, foster parents, guardian, or managing conservator of the CSHCN Services Program applicant is responsible and which are not payable by another entity may be included. All spenddown documentation must be received within 60 days of receipt of the application denial. Medical bills used to meet spenddown are not payable by the CSHCN Services Program.

Submitted bills must be itemized and must show the provider's name, client's name, CSHCN Services Program client number, MNP client number, dates of service, services provided, charge for each service, total charges, amounts of payments, dates of payments, and total due.

Bills for past accounts must be itemized statements dated in the last 60 days from the provider and must verify the outstanding status of the account and the current balance due. Accounts with payments made by an insurance carrier, including Medicare, must be accompanied by the carrier's EOB or a Medicare Summary Notice (formerly known as a Medicare Explanation of Benefits) that shows the specific services covered and amounts paid.

When additional information is requested by TMHP MNC, the applicant has 30 days from the date of the letter to respond. The provider may assist the client by furnishing the additional information to the applicant or sending it directly to TMHP MNC in a timely manner.

Note: *TMHP MNC does not pay bills; it only applies the charges toward the spend-down amount. The provider must file a Medicaid claim after the client's Medicaid eligibility is established so that Medicaid can consider the claim. During the spend-down period, the client does not have Medicaid coverage, and providers cannot send claims to Medicaid. Any claim filed at that time is denied due to client ineligibility.*

Providers may make inquiries regarding status, months of potential eligibility, Medicaid or case number, and general client information by contacting the TMHP Contact Center at 1-800-925-9126, from 7 a.m. to 7 p.m., Central Time, Monday through Friday.

3.7.3 Claims Filing Involving a Medicaid Spend Down

TMHP MNC will mail notification letters to providers whenever clients meet spend down and TMHP has not yet received any claim for the client's bills. The notification letter will state that an invoice was submitted for the spend down and that the provider should submit claims for any bills that fall within the indicated spend down month.

Clients are also responsible for informing their medical providers of their Medicaid eligibility and making arrangements to pay the charges used to meet the spend down amount. For CSHCN Services Program clients, the CSHCN Services Program may consider paying the charges used to meet the spend down for covered services.

TMHP MNC notifies the client of:

- Bills or charges that were used to meet the spend down.
- Bills or charges that the client is financially responsible to pay.
- Bills or charges that the provider should submit to Texas Medicaid for consideration of payment.

Bills or charges not applied toward spend down or not previously submitted to the CSHCN Services Program, must be received by TMHP for Medicaid consideration. These claims must be received within 95 days from the date the client's eligibility was added to the TMHP file (add date) and must be on the appropriate claim form (such as CMS-1500 and UB-04 CMS-1450).

The client's payment responsibilities are as follows:

- When a portion of the entire bill was used to meet spend down, the client is responsible for the payment of the specific portion or the entire bill. For CSHCN Services Program clients, submit the bill to the CSHCN Services Program for payment consideration.

Claims are subject to the following:

- The claim must show the total billed amount for the services provided. Charges for ineligible days or spend down amounts must not be deducted or included on the claim.
- A client's payment toward spend down must not be reflected on the claim submitted to TMHP.

Note: *Payments made by the client for services that were not used in the spend down but that were incurred during an eligible period must be reimbursed to the client before the provider files a claim with TMHP.*

Once eligibility is established, the client is eligible to receive the same care and services available to all other Medicaid clients.

3.8 Renal Dialysis

Eligibility for clients needing renal dialysis begins with the initial date of eligibility or the first dialysis treatment date, whichever is later, and may continue for a period of three months. All CSHCN Services Program clients who need dialysis due to end-stage renal disease (ESRD) are referred to the Kidney Health Care (KHC) program and to Medicare for coverage. These clients are notified that they must apply to KHC and Medicare and are given 60 days to submit the determinations to the CSHCN Services Program. Coverage for health care benefits continues for ongoing clients and waiting list clients may receive eligibility during the 60-day period. A 30-day extension may be granted to obtain the determinations. If the client is not eligible for KHC or Medicare, eligibility for CSHCN Services Program coverage continues.

3.9 Waiting List Information

The CSHCN Services Program may establish a waiting list when budgetary limitations exist. The waiting list is maintained continually from one fiscal year to the next.

Clients are placed on the waiting list for one of two reasons:

- 1) They are new applicants to the program.
- 2) They are current clients who did not renew on time.

Clients placed on the waiting list are notified of their status. The CSHCN Services Program periodically contacts waiting list clients to confirm their eligibility for CSHCN Services Program services.

Clients on the waiting list do not receive a CSHCN Services Program Notice of Eligibility Form. The CSHCN Services Program sends information about the waiting list process to adult clients, the parent, guardian, caretaker, or managing conservator of a minor child, the DSHS Regional Office, and the client's physician or dentist. Applicants are not placed on the waiting list until it is determined that they meet all of the eligibility criteria for the program.

If all of the documentation necessary to complete the application has been received except the Medicaid or CHIP determinations, the client is placed on the waiting list. The Medicaid or CHIP determinations must be received before the client is removed from the waiting list.

Each month the CSHCN Services Program reviews its funds to see if it can take people off the list. The Program can only take a group of clients off the list and does not take one person off at a time. Clients are removed from the list when funds become available.

Funding decisions concerning the waiting list are based both on the amount of program funds available and the anticipated amounts required to provide health-care benefits. The order in which clients are removed is not purely sequential; it depends on a combination of factors, including the urgent medical need of the condition as reported by a physician or dentist on the [CSHCN Services Program Physician/Dentist Assessment Form](#), the availability of other health insurance, the client's age, and the date and time of the latest uninterrupted eligibility period.

When a client is removed from the waiting list, the client receives a new program approval letter and a CSHCN Services Program Notice of Eligibility Form with the active eligibility dates and information regarding the range of services. If there is a change in the client's condition, the client's medical information must be updated. It is important that all client eligibility information is current.

Clients' placement on the waiting list is also based on the date and time their application is processed and approved for the program. Clients must maintain program eligibility to remain on the waiting list. A lapse in eligibility changes their placement on the waiting list.

Waiting list clients who wish to remain eligible to be considered for program health-care benefits must reapply for eligibility before their eligibility is scheduled to end. The eligibility coverage period is 12 months (i.e., 365 days from the first day of the client's current eligibility period, or 366 days during a

Leap Year). Clients are notified of program deadlines to re-establish eligibility. Within 60 days of the client's eligibility end date, the CSHCN Services Program mails the client a CSHCN Services Program Application and a letter advising that it is time to reapply.

If a waiting list client submits an application without all of the required documentation, the application is considered incomplete, and the client is given 60 days to complete it. If the reapplication process is not completed within the 60-day period, the client's place on the waiting list is forfeited. When the CSHCN Services Program receives a complete reapplication after the 60-day period, the client is placed at the end of the waiting list according to the approval date of his or her complete application.

3.10 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

4.1 General Information

Some services require authorization or prior authorization as a condition for reimbursement. Authorization or prior authorization is not a guarantee of payment.

- Authorization must be obtained no later than 95 days after the date of service.
- Prior authorization must be obtained before the service is provided.

TMHP sends a notification to providers and clients when it approves, denies, or modifies an authorization or prior authorization request. It is strongly recommended that providers maintain a list that details the authorizations, including:

- Client name
- CSHCN Services Program client number
- Date of service
- Provider number
- Items submitted

Providers will need this information if they request an administrative review after an authorization or prior authorization is denied. In addition, providers should keep a copy of the request for authorization and the response received from TMHP.

Referto: [2015 Authorization and Filing Deadline Calendar](#)

[2016 Authorization and Filing Deadline Calendar](#)

4.1.1 Extension of Filing Deadlines for Holidays

For holidays that extend the filing deadline, please refer to Section 5.1.8, “Claims Filing Deadlines” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement.”

4.1.2 Limitations

Authorization and prior authorization requests will be denied if the provider is not actively enrolled with the CSHCN Services Program. “Actively enrolled” providers are those that have filed claims for clients of the CSHCN Services Program or Texas Medicaid within the past 24 months, and that do not have any type of payment holds on their enrollment status.

Referto: Chapter 2, “Provider Enrollment and Responsibilities” for more information on becoming a CSHCN Services Program provider.

- Providers are responsible for verifying client eligibility before providing services. If the client is not eligible at the time of the authorization or prior authorization request, the request will be denied. If the client becomes eligible at a later date, providers can submit a new authorization or prior authorization request form.
- Any services provided beyond the limitations of the CSHCN Services Program are not reimbursed.

4.1.3 Signature Requirements

Authorization and prior authorization request forms submitted to TMHP must be signed and dated by the client’s medical provider, dental provider, or medical supplier. If indicated on the form, an authorized representative’s signature is acceptable.

4.1.3.1 Electronic Signatures

4.1.3.1.1 Authority and Definitions

Texas Government Code §531.0055(m) requires the Health and Human Services Commission (HHSC) to establish standards for the use of electronic signatures in accordance with the Uniform Electronic Transactions Act (Chapter 322, Business and Commerce Code), with respect to any transaction, as defined by Section 322.003, Business and Commerce Code, in connection with the administration of health and human services programs.

The following definitions apply for the policy information outlined in this section:

Term	Definition
Asymmetric cryptosystem	A computer-based system that employs two different but mathematically related keys with the following characteristics: <ul style="list-style-type: none"> • One key encrypts a given message; • One key decrypts a given message; and • The keys have the property that, knowing one key, it is computationally infeasible to discover the other key.
Certificate	A message, as defined in 1 TAC §203.1(2), which: <ul style="list-style-type: none"> • Identifies the certification authority issuing it; • Names or identifies its subscriber; • Contains the subscriber’s public key; • Identifies its operational period; • Is digitally signed by the certification authority issuing it; and • Conforms to ISO X.509 Version 3 standards.
Certification authority	A person who issues a certificate.
Digital signature	An electronic identifier intended by the person using it to have the same force and effect as the use of a manual signature, and that complies with the requirements of 1 TAC §203.23.
Digitized signature	An image of pen-to-paper.
Electronic record	A record created, generated, sent, communicated, received, or stored by electronic means.
Electronic signature	An electronic sound, symbol, or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.
Prior authorization	A request submitted to the program, or its designated contractor, to provide a service the program ultimately considers for reimbursement. (Prior authorization must be obtained before the delivery or date of service.)
Program	The Children with Special Health Care Needs Services Program.
Public key	The public part of an asymmetric key pair that is used to verify signatures or encrypt data.
Texas Administrative Code (TAC)	A compilation of all state agency rules in Texas.

4.1.3.1.2 Electronic Signature Requirements

The CSHCN Services Program complies with 1 TAC, Chapter 203, Guidelines for the Management of Electronic Transactions and Signed Records, which details the requirements for state agencies that send and accept electronic records and electronic signatures or otherwise create, generate, communicate, store, process, use, or rely upon electronic records and electronic signatures.

The program, or its designated contractor, may accept electronic signatures on authorization or prior authorization requests and supporting documentation transmitted by mail, fax, or through the online prior authorization portal, if the electronic signature technology meets all applicable federal and state statutes and administrative rules.

Electronic signatures, also known as digital signatures, that comply with the Texas Department of Information Resources (DIR) rules at 1 TAC §203.24 will be considered to have the same legal effect as a handwritten signature.

Electronic signatures that are generated through an electronic medical record (EMR) or electronic health record (EHR) system that complies with applicable federal and state statutes and rules are acceptable.

Electronically-signed documents must have an electronic date on the same page as the signature.

Providers that utilize electronic signatures must provide a certification that the electronic signature technology that they use complies with all applicable federal and state statutes and administrative rules.

Electronically-signed transactions and electronically-signed documents must be kept in the client's medical record, and a paper copy must be available upon request.

All fax transmissions must reflect the date, time, and fax number of origination, and the original document must be maintained by the provider.

All documentation submitted with a handwritten provider's signature must have a handwritten date next to the signature and must be kept in the client's medical record.

Any signature (electronic or handwritten) on a submitted document certifies, to the best of the provider's knowledge, that the information in the document is true, accurate, and complete.

The provider understands and agrees that both the provider and the provider's representative whose signature is on an electronic signature method have the responsibility for the authenticity of the information being certified for which the authentication is provided.

The provider must exercise reasonable care to retain control of their electronic signature and prevent its disclosure to any person not authorized to create the electronic signature, as described in 1 TAC §203.24(c)(3).

The provider and the provider's representative understand and agree that systems and software products must include protections against modification and bear responsibility for ensuring administrative safeguards are in place.

Stamped signatures and signatures that have been typed in a document without using an electronic identifier will not be accepted.

Digitized signatures will not be accepted. (Examples include scanned images of handwritten signatures or signatures on a signature pad. Handwritten signatures on faxed documents are not digitized signatures.)

4.1.4 Requests for Procedures That Are Pending a Rate Hearing

Some procedure codes that require authorization or prior authorization may be pending a rate hearing. In these cases, providers must follow the established authorization or prior authorization processes for these procedure codes and must not wait until the procedure codes have gone through the rate hearing process to request authorization or prior authorization.

Providers are responsible for meeting all filing deadlines and for ensuring that the authorization or prior authorization number appears on the claim the first time it is submitted.

TMHP will deny the affected procedure codes as pending a rate hearing until the rates are adopted and implemented. Once the rates are adopted and implemented, TMHP will automatically reprocess the claims. However, if the required authorization or prior authorization number is not on the claim at the time of reprocessing, the claim will be denied as lacking authorization or prior authorization.

4.1.5 Requests for Procedures That Are Manually Priced

Certain procedure codes do not have an established fee and must be priced manually by the TMHP-CSHCN Services Program medical staff. The medical staff determines the reimbursement amount by comparing the services to other services that require a similar amount of skill and resources.

If an item requires manual pricing, providers must submit with the prior authorization request or the claim the appropriate procedure codes and documentation of one of the following, as applicable:

- The manufacturer's suggested retail price (MSRP) or average wholesale price (AWP)
- The provider's documented invoice cost if a published MSRP or AWP is not available

Note: The AWP is for nutritional products only.

For appropriate processing and payment, providers should bill the applicable MSRP or AWP rate instead of the calculated manual pricing rate. The calculated rate or the Pay Price that is indicated on the authorization letter for prior authorized services should not be billed on the claim.

4.1.6 Clients with Third Party Resources

If a client has other coverage from a third-party resource (TPR), prior authorization and authorization requests will be approved or denied according to the CSHCN Services Program prior authorization and authorization guidelines. The approved services will be considered for payment:

- If the TPR does not pay because of co-insurance or deductible amounts.
- When the total amount paid (including all payers) to the provider does not exceed the amount allowed by the program for the covered service.
- If the provider submits an explanation of benefits (EOB) from the TPR with a valid claim.

If clients have dual coverage with the Children's Health Insurance Program (CHIP), prior authorization and authorization requests will be approved or denied according to CSHCN Services Program prior authorization and authorization guidelines. The approved services will be considered for payment as follows:

- Dental services and durable medical equipment may be reimbursed after the CHIP cap has been met.
- Orthodontic services not covered under the CHIP medical plan may be reimbursed.
- Other covered program benefits specifically excluded from or capped by the CHIP benefit plan may be reimbursed.
- The provider submits an explanation of benefits (EOB) from the TPR with a valid claim.

4.2 Authorizations

Providers must submit authorization requests on a CSHCN Services Program-approved form. Requests with insufficient information will be denied and providers will receive notification of the reason for denial. If a form is not available for a specific service, providers must submit the request using the [CSHCN Services Program Authorization and Prior Authorization Request form](#) and follow the guidelines and requirements listed in the chapter for that service.

Authorization requests must be submitted and approved no later than 95 days after the date of service and may be submitted before the service is provided. If the service has already been provided, the authorization form may be submitted before the claim, or attached to the paper claim form. Claims for services requiring authorization are denied if the authorization number is not indicated on the claim or if the authorization and all required documentation is not attached to the claim.

The 95-day deadline applies to all services requiring authorization, including extensions and emergency situations. Fax transmittal confirmations and postal registered mail receipts are not accepted as proof of timely authorization submission. Authorization requests are reconsidered only when resubmitted, received, and approved within 95-days of the date of service.

Important: *No extensions beyond the 95-day initial deadline are given.*

Providers can correct and resubmit requests for authorization. Questions, concerns, or requests for clarification may be included in authorization resubmissions. The TMHP-CSHCN Services Program Authorization Department will respond to questions, concerns, or requests for clarification by phone, fax, or mail. Corrected requests must meet authorization and prior authorization submission deadlines. Requests that do not meet the deadlines will be denied.

Providers must mail or fax written authorization requests and all other applicable documentation to the following address:

Texas Medicaid & Healthcare Partnership
 TMHP-CSHCN Services Program Authorization Department
 12357-B Riata Trace Parkway, Suite 100
 Austin, TX 78727
 Fax: 1-512-514-4222

4.2.1 Services that Require Authorization

The following is a list of many of the services that require authorization. The list below is not all-inclusive. Information about specific authorization requirements for each of the services that is a benefit of the CSHCN Services Program is included in the chapter for each service.

Most outpatient surgery services no longer require authorization or prior authorization unless otherwise indicated in the specific sections of the Children with Special Health Care Needs (CSHCN) Services Program Provider Manual. All requests for prior authorizations or authorizations must be submitted in writing on the CSHCN Services Program-approved authorization and prior authorization forms. Forms are available on [Forms](#) page of the TMHP website. This form must be used when indicated for procedures as outlined in specific sections of the CSHCN Services Program Provider Manual.

Refer to the specific provider sections in this manual or call TMHP at 1-800-568-2413 for more information.

Blood Pressure Devices, In Specific Instances	
Refer to:	Chapter 11, "Ambulatory Blood Pressure Monitoring and Devices"
Use:	The CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME)

Botulinum Toxin (Type A and B)	
Refer to:	Section 31.2.25.7, "Botulinum Toxin (Type A and Type B)" in Chapter 31, "Physician"
Use:	The CSHCN Services Program Prior Authorization Request for Outpatient Surgery—For Outpatient Facilities and Surgeons Form and Instructions

Clinician-Directed Care Coordination Services	
Refer to:	Section 31.2.13, "Clinician-Directed Care Coordination Services" in Chapter 31, "Physician"
Use:	The CSHCN Services Program Authorization Request for Non-Face-to-Face Clinician-Directed Care Coordination Services form

Durable Medical Equipment (DME)	
Refer to:	Chapter 17, "Durable Medical Equipment (DME)"
Use:	The CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME)
Exception:	Custom DME and more complex equipment requires prior authorization.

Hemophilia Blood Factor Products	
Refer to:	Section 31.2.9, "Blood Factor Products" in Chapter 31, "Physician"
Use:	The CSHCN Services Program Authorization and Prior Authorization Request for Hemophilia Blood Factor Products

Home Health (Skilled Nursing Only) Up to 200 Hours Per Calendar Year	
Refer to:	Chapter 22, "Home Health (Skilled Nursing) Care"
Use:	The CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form

Nebulizers, In Specific Instances	
Refer to:	Section 36.2.5, "Nebulizers" in Chapter 36, "Respiratory Equipment and Supplies"
Use:	The CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME)

Outpatient Dental Surgical Procedures	
Refer to:	Section 14.2.6, "Dental Treatment in Hospitals and ASCs" in Chapter 14, "Dental"
Use:	The CSHCN Services Program Prior Authorization Request for Outpatient Surgery—For Outpatient Facilities and Surgeons Form and Instructions
Use:	The CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services
Use:	The CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia

Telecommunication Services	
Refer to:	Section 38.2.4, "Telemonitoring Services" in Chapter 38, "Telecommunication Services"
Use:	The Home Telemonitoring Services Prior Authorization Request Form

4.2.2 How To Submit an Authorization Request

Providers must mail or fax written authorization requests and all applicable documentation to the following address:

Texas Medicaid & Healthcare Partnership
TMHP-CSHCN Services Program Authorization Department
12357-B Riata Trace Parkway, Suite 100
Austin, TX 78727
Fax: 1-512-514-4222

4.3 Prior Authorizations

Providers must submit prior authorization requests on a CSHCN Services Program-approved form. If a form is not available for a specific service, providers must submit the request using the [CSHCN Services Program Authorization and Prior Authorization Request form](#) and follow the guidelines and requirements listed in the chapter for that service. Only complete prior authorization requests will be considered. Incomplete requests are denied.

Prior authorization requests must be submitted and approved before the service is provided. However, if the service is provided after business hours (business hours are Monday through Friday, from 8 a.m. to 5 p.m., Central Time), on a weekend, or on a holiday then the prior authorization request may be submitted on the next business day.

Referto: Section 5.1.8, “Claims Filing Deadlines” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement.”

Providers should allow three business days to receive a response to an authorization or prior authorization request.

The TMHP Contact Center receives calls from CSHCN Services Program providers with inquiries related to prior authorization. Contact Center agents make every attempt to answer the provider’s questions and/or resolve the provider’s concerns. If a provider requires a call back from a Prior Authorization (PA) clinician and the request for call back is not related to urgent/emergent services, the provider should submit a call back request via fax to 1-512-514-4222.

All inpatient admissions must be prior authorized. The [CSHCN Services Program Prior Authorization Request for Inpatient Hospital Admission—For Use by Facilities Only](#) must be submitted to the claims contractor for review and approval before the date of service, or the entire hospital stay will be denied.

Note: *Partial approvals for a hospital stay will not be granted.*

Requests for emergency hospital admissions must be received by the next working day after admission date for the coverage of the entire hospital stay. Requests for emergency admissions received after the next business day will be denied for the entire hospital stay.

If the initial prior authorization request meets the deadline requirements and is denied for incomplete or inaccurate information, the provider may correct and resubmit the prior authorization request. The corrected request must be received by the next business day following the denial of the initial request. Corrected requests received after the next business day following the initial denial will be denied for the entire hospital stay.

If a client requires a service that exceeds policy limitations, providers may request prior authorization with documentation of medical necessity.

If a client requires a service that has diagnosis restrictions, providers may request prior authorization with documentation of medical necessity for diagnoses not listed in the policy.

Claims submissions must include the prior authorization number in the appropriate field.

Referto: Section 5.7, “Claims Filing Instructions” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for claims filing instruction details.

Important: *The Program does not grant extensions to these deadlines to allow providers to complete or correct and resubmit their prior authorization requests.*

4.3.1 Services that Require Prior Authorization

The following is a list of many of the services that require prior authorization. The list below is not all-inclusive. Information about specific prior authorization requirements for each service that is a benefit of the CSHCN Services Program is included in the chapter for each service.

Most outpatient surgery services no longer require authorization or prior authorization unless otherwise indicated in the specific sections of the Children with Special Health Care Needs (CSHCN) Services Program Provider Manual. All requests for prior authorizations or authorizations must be submitted in writing on the CSHCN Services Program-approved authorization and prior authorization forms. Forms are located on the [Forms](#) page of the TMHP website. This form must be used when indicated for procedures as outlined in specific sections of the CSHCN Services Program Provider Manual.

Refer to the specific provider sections in this manual or call TMHP at 1-800-568-2413 for more information.

Augmentative Communication Devices (ACDs)	
Refer to:	Chapter 10, "Augmentative Communication Devices (ACDs)"
Use:	The CSHCN Services Program Prior Authorization Request for Augmentative Communication Devices (ACDs)

Stem Cell Transplants (initial and one subsequent transplant)	
Refer to:	Section 31.2.41.2, “Transplants - Nonsolid Organ” in Chapter 31, “Physician”
Use:	The CSHCN Services Program Prior Authorization Request for Stem Cell or Renal Transplant

Certified Respiratory Care Practitioner	
Refer to:	Chapter 13, "Certified Respiratory Care Practitioner (CRCP)"
Use:	The CSHCN Services Program Prior Authorization Request for Respiratory Care—Certified Respiratory Care Practitioner (CRCP)

Cleft/Craniofacial Surgical Procedures	
Refer to:	Section 31.2.38.11, “Cleft/Craniofacial Procedures” in Chapter 31, “Physician”
Use:	The CSHCN Services Program Prior Authorization Request for Inpatient Surgery—For Surgeons Only
Use:	The CSHCN Services Program Prior Authorization Request for Outpatient Surgery—For Outpatient Facilities and Surgeons Form and Instructions

Cranial Molding Devices (Dynamic Orthotic Cranioplasty [DOC™] only)	
Refer to:	Section 28.2.2, “Orthoses and Prostheses (Not All-Inclusive)” in Chapter 28, “Orthotic and Prosthetic Devices”
Use:	The CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME)

Dental Procedures (some), Including Inpatient Admissions for Dental Surgical Procedures	
Refer to:	Chapter 14, "Dental"
Use:	The CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services
Use:	The CSHCN Services Program Prior Authorization Request for Inpatient Hospital Admission—For Use by Facilities Only

Diapers, Liners, and Pull-ups (or any combinations of these supplies)	
Require prior authorization for quantities that exceed 240 per month.	
Refer to:	Chapter 18, "Expendable Medical Supplies"
Use:	The CSHCN Services Program Prior Authorization Request for Diapers, Pull-ups, Briefs, or Liners

Home Health (Skilled Nursing) Services Over 200 Hours per Calendar Year	
Refer to:	Chapter 22, "Home Health (Skilled Nursing) Care"
Use:	The CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form

Home Health Services	
Refer to:	Chapter 21, "Home Health Services"
Use:	The CSHCN Services Program Authorization and Prior Authorization Request

Hospice Services	
Refer to:	Chapter 23, "Hospice"
Use:	The CSHCN Services Program Prior Authorization Request for Hospice Services

Inpatient Admissions	
Refer to:	Section 24.3, "Inpatient Services" in Chapter 24, "Hospital"
Use:	The CSHCN Services Program Prior Authorization Request for Inpatient Hospital Admission—For Use by Facilities Only

Inpatient Rehabilitation Admissions	
Refer to:	Section 24.3.1.4, "Inpatient Rehabilitation Services" in Chapter 24, "Hospital"
Use:	The CSHCN Services Program Prior Authorization Request for Inpatient Rehabilitation Admission

Medical Foods, In Specific Instances	
Refer to:	Section 26.3, "Medical Foods" in Chapter 26, "Medical Nutrition Services"
Use:	The CSHCN Services Program Prior Authorization Request for Medical Foods

More Than One Hour (Four Units) of Nutritional Assessments and Intervention per Rolling Year and More Than Two Nutritional Counseling Visits per Rolling Year	
Refer to:	Section 26.4, "Medical Nutritional Counseling Services" in Chapter 26, "Medical Nutrition Services"

More Than One Hour (Four Units) of Nutritional Assessments and Intervention per Rolling Year and More Than Two Nutritional Counseling Visits per Rolling Year	
Use:	The CSHCN Services Program Prior Authorization Request for Medical Nutritional Services

Non-Emergency Ambulance Transports	
Refer to:	Section 9.4, “Non-Emergency Ambulance Transports” in Chapter 9, “Ambulance”
Use:	<p>The Non-emergency Ambulance Prior Authorization Request</p> <p>The Texas Medicaid and CSHCN Services Program Nonemergency Exception Form and Instructions</p> <p><i>Note: CSHCN Services Program providers must not complete any portion of the Non-emergency Ambulance Prior Authorization Request form to ensure the integrity of the request form. Prior Authorization must be obtained by the facility or the physician’s staff for all non-emergency transports. The Non-emergency Ambulance Prior Authorization Request form must be filled out and faxed or mailed to TMHP by the facility or the physician’s staff that is most familiar with the client’s condition. The CSHCN Services Program ambulance provider must not assist in completing or submitting any portion of this form.</i></p>

Orthodontia (except for the initial orthodontic visit)	
Refer to:	Section 14.2.3, “Orthodontia Services” in Chapter 14, “Dental”
Use:	The CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services

Orthotics and Prosthetics	
Refer to:	Chapter 28, "Orthotic and Prosthetic Devices"
Use:	The CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME)

Outpatient Physical Therapy and Occupational Therapy Services	
Refer to:	Section 30.2.2, “Physical Therapy (PT), and Occupational Therapy (OT)” in Chapter 30, “Physical Medicine and Rehabilitation”
Use:	The CSHCN Services Program Prior Authorization Request for Initial Outpatient Therapy (TP1)
Use:	The CSHCN Services Program Prior Authorization Request for Extension of Outpatient Therapy (TP2)

Outpatient Speech-Language Pathology Services (all services except initial evaluations)	
Refer to:	Chapter 37, "Speech-Language Pathology (SLP) Services"
Use:	The CSHCN Services Program Prior Authorization Request for Initial Outpatient Therapy (TP1)
Use:	The CSHCN Services Program Prior Authorization Request for Extension of Outpatient Therapy (TP2)

Pediatric Hospital Cribs and Tops	
Refer to:	Section 17.3.9, “Hospital Beds (Manual and Electric)” in Chapter 17, “Durable Medical Equipment (DME)”

Pediatric Hospital Cribs and Tops	
Use:	The CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME)

Prescription Shoes	
Refer to:	Section 28.3.7.2, "Prescription Shoes" in Chapter 28, "Orthotic and Prosthetic Devices"
Use:	The CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME)

Radiation Therapy Services (some), Including Proton- or Neutron-Beam Treatment Delivery, Intensity Modulated Radiation Therapy, and Stereotactic Radiosurgery	
Refer to:	Chapter 34, "Radiation Therapy Services"
Use:	The CSHCN Services Program Prior Authorization Request for Outpatient Surgery—For Outpatient Facilities and Surgeons Form and Instructions

Reduction Mammoplasties	
Refer to:	Section 31.2.39, "Diagnostic and Surgical/Reconstructive Breast Therapies" in Chapter 31, "Physician".
Use:	The CSHCN Services Program Prior Authorization Request for Inpatient Surgery—For Surgeons Only

Renal Dialysis	
Refer to:	Chapter 35, "Renal Dialysis"
Use:	The CSHCN Services Program Prior Authorization Request for Renal Dialysis Treatment

Renal Transplants	
Refer to:	Section 31.2.41, "Transplants" in Chapter 31, "Physician"
Use:	The CSHCN Services Program Prior Authorization Request for Stem Cell or Renal Transplant

Rhizotomies	
Refer to:	Section 31.2.39.8, "Rhizotomy" in Chapter 31, "Physician"
Use:	The CSHCN Services Program Prior Authorization Request for Inpatient Surgery—For Surgeons Only

Total Parental Nutrition (TPN)	
Refer to:	Section 26.6, "Total Parenteral Nutrition (TPN)" in Chapter 26, "Medical Nutrition Services"
Use:	The CSHCN Services Program Authorization and Prior Authorization Request

Ultrasonic Nebulizers, In Specific Instances	
Refer to:	Section 36.2.5, "Nebulizers" in Chapter 36, "Respiratory Equipment and Supplies"
Use:	The CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME)

Wheelchair Purchases (custom manual and standard or custom power) and Custom Seating Systems	
Refer to:	Section 17.3.19, “Wheelchairs” in Chapter 17, “Durable Medical Equipment (DME)”
Use:	The CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME)
Use:	The CSHCN Services Program Wheelchair Seating Evaluation Form

4.3.2 Prior Authorization for Inpatient Admission After Business Hours

Tip: Photocopy these forms and retain the originals for future use.

For prior authorization of an inpatient admission after business hours in an emergency or when required medical services cannot be delayed, submit requests the next business day by completing the [CSHCN Services Program Prior Authorization Request for Inpatient Hospital Admission—For Use by Facilities Only](#).

Requests for emergency admissions received after the next business day will be denied for the entire hospital stay.

Both the facility and the attending physician, surgeon, or supplier must be enrolled in the CSHCN Services Program for inpatient claims to be considered for payment.

Referto: Section 24.3.1.1, “Initial Inpatient Prior Authorization Requests” in Chapter 24, “Hospital” for additional information.

4.3.3 Specialty Team or Center Services

In addition to requiring prior authorization, the following services have additional requirements for physicians or facilities:

- For stem cell transplant services, the facility must attest on the PA form that it is a Texas facility that is a designated Children’s Hospital or a facility in compliance with the criteria set forth by the Organ Procurement and Transplantation Network (OPTN), the United Network for Organ Sharing (UNOS), or the National Marrow Donor Program (NMDP). Prior authorization must be obtained by both the facility and the physician.
- For cleft/craniofacial surgical procedures, the surgeon must be a member of a comprehensive cleft/craniofacial team.

If the specialty team or center requirements are not met, all services related to the procedure are denied.

Note: *Anesthesiologists and assistant surgeons are not required to be enrolled as a specialty team or specialty center. An anesthesiologist may be paid if all enrollment and filing deadlines are met. However, when a procedure or admission is denied by the CSHCN Services Program because the primary surgeon or hospital is not appropriately specialty team- or center-enrolled, the assistant surgeon’s claims also are denied.*

Referto: Section 2.1.7, “Transplant Specialty Centers” in Chapter 2, “Provider Enrollment and Responsibilities” for more information about transplant specialty centers enrollment.

4.3.4 Retroactive Prior Authorizations

Retroactive prior authorizations will be considered for clients who are eligible for the CSHCN Services Program when all of the following conditions are met:

- The service is a benefit of the CSHCN Services Program.
- A Medicaid prior authorization has been approved and issued for the requested service(s) but the client is no longer eligible for Medicaid on the date of service.
- The CSHCN Services Program prior authorization or authorization requirements have been met.

- All other billing requirements are met.

The retroactive CSHCN Services Program prior authorization request must include documentation that indicates approval of the Medicaid prior authorization request. The provider will be issued a new prior authorization number for the CSHCN Services Program prior authorization.

Note: The CSHCN Services Program prior authorization request must contain the same information that was submitted to Medicaid.

After a prior authorization has been approved by the CSHCN Services Program, the provider must resubmit the claim with the CSHCN Services Program client ID number and the approved CSHCN Services Program prior authorization number.

4.3.5 How to Submit a Prior Authorization Request

Providers must complete all essential fields on prior authorization forms submitted to TMHP to initiate the prior authorization process.

If any essential field on a prior authorization request is missing, incomplete, or completed with illegible information, TMHP will return the original request to the provider with the following message:

TMHP Prior Authorization could not process this request because the request form submitted has missing, incorrect, or illegible information in one or more essential fields. Please resubmit the request with all essential fields completed with accurate information for processing by TMHP within 14 business days from the request receipt date.

TMHP will use the date that the complete and accurate request form is received to determine the start date for services. Previous submission dates of incomplete forms returned will not be considered when determining the start date of service.

Providers have 14 business days from the request receipt date to respond to an incomplete prior authorization request. Incomplete prior authorization requests are requests received by TMHP with missing, incomplete, or illegible information.

Prior to denying an incomplete request, TMHP's Prior Authorization (PA) department will continue to communicate with the requesting provider in an effort to obtain the required additional information. A minimum of three attempts will be made to contact the requesting provider before a letter is sent to the client regarding the status of the request and the need for additional information.

If the additional information needed to make a prior authorization determination is not received within 14 business days from the request receipt date, the request will be denied as "incomplete." To ensure timely processing, providers should respond to requests for missing or incomplete information as quickly as possible.

CSHCN Services Program requests that do not appear to meet CSHCN medical policy, the TMHP PA Nurse will refer those requests to CSHCN Services Program for review and determination. CSHCN Services Program will complete the review within three business days of receipt of the completed prior authorization request.

Note: Providers may re-submit a new, complete request after receiving an incomplete denial; however, submission requirements related to timeliness will apply.

TMHP requires information in the essential fields. Essential fields contain information needed to process a prior authorization request and include the following:

- Client name
- Client CSHCN Services Program number
- Client date of birth
- Provider name

- CSHCN Texas Provider Identifier (TPI)
- National Provider Identifier (NPI)
- Current Procedural Terminology (CPT) or Healthcare Common Procedure Coding System (HCPCS) procedure code
- Quantity of service units requested based on the CPT or HCPCS code requested

4.3.6 Prior Authorization Electronic Submissions through the TMHP Prior Authorization (PA) on the Portal

Beginning June 6, 2016, the TMHP Prior Authorization on the Portal (PA on the Portal) is available for CSHCN Services Program providers to submit CSHCN Services Program prior authorization requests to TMHP for consideration. The benefits of using the TMHP PA on the Portal are as follows:

- Real-time submissions.
- Robust status information available throughout the processing of the request, including the ability to quickly view and respond to pending action from providers.
- Electronic attachment capability. Providers can upload ALL information related to a request and submit online. Providers will receive immediate confirmation of receipt of information.
- The ability to save requests as a draft and update and submit at a later date.
- The ability to create templates which saves time when requesting similar prior authorizations frequently.
- Greater search capability including additional information provided in the search results and the ability to update existing requests with corrections, revisions or extensions.
- Portal availability using a variety of modern browsers.
- Pre-populated forms using information entered at the start of the request.
- Correct deficiencies or make revisions through the portal. No more mailing or faxing.

Providers can access the TMHP PA on the Portal from the TMHP Prior Authorization web page at http://www.tmhp.com/Pages/Prior_Auth/Prior_Auth_home.aspx, which can also be accessed from a button on the left navigation bar of the TMHP Provider Home Page. Providers will click on PA on the Portal and log on to the TMHP secure portal using their UserID and password obtained when the provider's account was activated.

Referto: The [TMHP Portal Security Provider Training Manual](#) available on the TMHP website for information about creating an account, obtaining a UserID and password, and granting permissions.

Important: *To submit CSHCN Services Program prior authorization requests to TMHP, the requesting provider must be enrolled as a CSHCN Services Program provider, and must have registered his or her CSHCN Services Program NPI and benefit code in an active TMHP portal account. The client ID submitted in the request must be the client's CSHCN Services Program client ID and the client must be currently enrolled in the CSHCN Services Program.*

The following Authorization Areas and Submission Types are available for CSHCN Services Program prior authorizations submitted through the TMHP PA on the Portal:

Authorization Area	Submission Type
All CSHCN Services Program	Ambulance Prior Authorization Dental or Orthodontia Services Durable Medical Equipment and Supplies Home Health, Hospice, and/or Telemonitoring Hospital, Surgery, and/or Medical Services Outpatient Therapy (PT, OT, ST)

The provider will enter his or her provider, client, and authorization information including service details in the required fields of the Client Eligibility Pre-check screen and the Authorization Request – Service Details screen. All necessary documents, including, but not limited to, the TMHP fillable PDF of the authorization or prior authorization form, can then be electronically attached to the online authorization or prior authorization request.

The required authorization and prior authorization forms are available on the Authorization Request–Attachments screen in PA on the Portal along with a list of additional required documentation that the provider must upload as attachments. For prior authorization forms downloaded from the Authorization Request–Attachments screen in PA on the Portal, certain fields including, but not limited to, client name and client ID, will be automatically populated based on the information entered in the Client Eligibility Pre-Check and Service Details screens.

***Note:** Authorization and prior authorization forms are also available on the [TMHP Prior Authorization CSHCN PA Forms](#) web page as fillable forms into which providers can type the required information and e-sign the forms using available software. Certain fields will only be pre-populated if the prior authorization form is downloaded from the Authorization Request–Attachments screen in PA on the Portal. Forms that are downloaded from the [TMHP Prior Authorization CSHCN PA Forms](#) web page are fillable, but fields will not be pre-populated. Providers can choose to use the pre-populated forms generated from PA on the Portal or the fillable forms available on the new TMHP Prior Authorization web page.*

Providers must submit to TMHP all pages of the prior authorization form, including the Prior Authorization Request Submitter Certification Statement page with “We Agree” checked, and the authorization pages completed and signed as applicable. The only pages that are not required to be submitted to TMHP are the instruction pages. Requests will be pended if the Prior Authorization Request Submitter Certification Statement page with the “We Agree” checked is not included with the submitted documents. Providers will be required to submit the Prior Authorization Request Submitter Certification Statement page, with “We Agree” checked, to TMHP before the request can be processed.

Once a prior authorization request has been submitted through PA on the Portal, providers will be able to submit corrections, revisions, and extensions to applicable prior authorization requests through PA on the Portal.

Providers can also save drafts and create templates to be used regularly as follows:

- Drafts can be saved with all uploaded attachments. Drafts created in PA on the Portal, but not submitted, will be deleted after 90 calendar days if the draft has not been submitted to TMHP. Up to 200 drafts can be saved per provider NPI and taxonomy combination.
- Attachments will not be saved as part of templates on PA on the Portal. Templates will be retained for up to 365 calendar days from the time the template was last used or modified. Up to 200 templates can be created and saved per provider NPI and taxonomy combination.

Providers can refer to the [TMHP Prior Authorization \(PA\) on the Portal Submission Guide](#) which is available on the [TMHP Prior Authorization web page](#) for detailed instructions about using the TMHP PA on the Portal.

4.3.7 Browser Compatibility and System Requirements

TMHP's PA on the Portal is compatible with Internet Explorer® (IE) 11.0, Chrome®, and Mozilla Firefox®.

Providers must use Adobe Reader® Version 11.0 or higher to download and complete the authorization and prior authorization forms from PA on the Portal or from the new TMHP Prior Authorization web page.

Reminder: *Providers can continue to download the forms and complete them by hand if the applicable version of Adobe Reader® is not available. (Adobe Reader® is free software that can be downloaded onto the provider's computer.)*

4.3.8 Electronic Attachments

TMHP's PA on the Portal will accept electronic attachments. Providers can submit the authorization or prior authorization forms as well as any other required forms or documentation as electronic attachments.

Up to ten files can be uploaded per authorization or prior authorization request, and each file cannot exceed 50 megabytes. PA on the Portal will accept electronic attachments in the following formats:

- Portable Document Format (PDF)
- Images with the following file extensions: JPG, TIF, PNG, GIF
- Microsoft (MS) Word
- MS Excel
- Rich Text Format (RTF)

Electronic attachments must be completed and electronically signed before they are uploaded to the PA on the Portal. Providers must use their own software to electronically sign forms, and those signatures must be added to the forms before they are uploaded to the PA on the Portal request. Submitters will not be able to electronically sign required forms once they are uploaded to the PA on the Portal request. Providers will be required to:

- 1) Download the authorization or prior authorization form, and save the downloaded form to their desktop or other folder.
- 2) Complete the form by typing into the fillable fields, and adding the appropriate signatures (providers can electronically sign the forms using the software of their choice).
- 3) Upload the form to the PA on the Portal request.

Important: *The PA on the Portal will always display the most current form that is available on the TMHP Prior Authorization web page to be used for the authorization or prior authorization request. Forms previously downloaded and saved to the providers desktop or folder may not reflect changes made to the form since the last submission. Provider should ensure the submitted form is the most recent.*

4.3.9 Maintaining Complete Documentation

To best maintain accurate client and provider documentation, all forms and documentation completed electronically and e-signed must be kept in the client's medical record, including:

- Prior authorizations submitted to TMHP.
- Documents completed but not submitted to TMHP as a prior authorization request.

- A hard copy of electronic transactions and signed documents must be available upon request.

4.3.10 Sending Prior Authorization Requests via Fax

Providers must include specific information when sending prior authorization requests via fax. The following information is required:

- A working fax number to receive faxed responses or correspondence from TMHP
- The last four digits of the client's CSHCN Services Program Identification number on the fax coversheet

***Note:** This requirement applies to submissions of new prior authorization requests, re-submissions, and additional information needed to complete a request. The fax number listed on the prior authorization form is the fax number used to send faxed responses or correspondences from TMHP.*

Providers must mail or fax written prior authorization requests and all other applicable documentation to the following address:

Texas Medicaid & Healthcare Partnership
TMHP-CSHCN Services Program Authorization Department
12357-B Riata Trace Parkway, Suite 100
Austin, TX 78727
Fax: 1-512-514-4222

4.4 Authorization and Prior Authorization Denials

Authorization and prior authorization requests will be denied if they:

- Do not contain all of the information necessary for the Program to make a determination,
- Do not meet medical necessity criteria, or
- Exceed the benefit limitation.

Some of the most common reasons for the denial of authorizations and prior authorizations are because the request:

- Is incomplete,
- Is submitted on the wrong form,
- Lacks the necessary documentation,
- Contains inaccurate information,
- Fails to meet the submission deadline,
- Is for an ineligible client, benefit, or provider, or
- Is for a client that does not qualify for the health-care benefit requested.

Denied authorization and prior authorization requests may be corrected and resubmitted. Any alterations to the original denied request form must be made by using a single line strike-through so the original content is still legible, and the author of the alteration must initial and date the revision. Corrected requests must meet authorization and prior authorization submission deadlines to be considered.

Providers can also submit questions or requests for clarification of a denied authorization or prior authorization by fax. The TMHP-CSHCN Services Program Authorization Department will respond by phone, fax, or mail. The department will not respond by e-mail in order to comply with *Health Insurance Portability and Accountability Act (HIPAA)* of 1996 requirements.

Providers dissatisfied with TMHP's decision to deny authorization and prior authorization of services may submit a request for an administrative review to the CSHCN Services Program.

Referto: Section 7.3.5, "Administrative Review for Claims" in Chapter 7, "Appeals and Administrative Review" for information about the administrative review process.

4.4.1 Denied Authorization and Prior Authorization Requests Resubmission

Providers can correct and resubmit requests for authorization and prior authorization, and can include questions, concerns, or requests for clarification. The TMHP-CSHCN Services Program Authorization Department will respond to questions, concerns, or requests for clarification by phone, fax, or mail.

To correct a denied request, the provider must strike through the error with a single line. The original content and the corrected information must be legible. The provider must initial and date the alteration.

Resubmitted requests must meet submission deadlines to be considered for approval. Requests that do not meet the deadlines will be denied.

Requests for services requiring authorization or prior authorization as a condition for reimbursement must be submitted on a CSHCN Services Program-approved form and contain all of the information that is necessary for the Program to make a decision. Requests submitted with insufficient information will be denied and providers will receive notification of the reason for denial.

4.4.2 Administrative Review for Authorization and Prior Authorization Denials

Clients and providers will receive written notice of denied authorization and prior authorization requests within 30 days of the date of the notification. A provider or a client who has received a denied authorization or prior authorization to TMHP may submit a request for an administrative review to the CSHCN Services Program if they are dissatisfied with TMHP's decision to deny the authorization or prior authorization. A client or provider may not request an administrative review of the program's denial of a prior authorization or authorization request for program services or provider reimbursement amounts that are in accordance with established fee schedules and budget alignment methodologies authorized by the CSHCN Services Program Rules Title 25 Part 1 TAC §38.16.

All clients and providers must submit requests for an administrative review within 30 days of the date TMHP denied the authorization or prior authorization. Requests for an administrative review and all supporting documentation must be submitted by mail or fax to:

CSHCN Services Program—Administrative Review
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133

Additional information requested by the CSHCN Services Program must be returned to the Program within 30 calendar days of the date of the letter from the CSHCN Services Program. If the information is not received within 30 calendar days, the case is closed.

4.4.3 Fair Hearing

After an administrative review, providers may request a fair hearing if they are dissatisfied with the CSHCN Services Program's decision and the supporting reason.

The fair hearing is the final appeal process and is described in the *Texas Administrative Code* (TAC) Title 25, Part 1, Chapter 1, Subchapter C (www.sos.state.tx.us). The fair hearing process is conducted by the Office of General Counsel at the Department of State Health Services (DSHS).

Providers may choose to represent themselves or have legal counsel or another spokesperson at the hearing. If providers are unable to attend the hearing in person, they may request arrangements to attend by teleconference.

Fair hearing requests must be submitted in writing to the CSHCN Services Program within 20 days of the date of the administrative review decision notice. The request should state the reasons for the disagreement and include any documents or other proof that help support those reasons. Providers who fail to request a fair hearing within the 20-day period are presumed to have waived their right to request a fair hearing, and the CSHCN Services Program will take final action.

Mail or fax fair hearing requests to:

CSHCN Services Program—Fair Hearing
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133 or 1-512-776-7162 (in Austin)

Referto: Section 7.2.2, “Fair Hearing Requests for Authorizations or Prior Authorizations” in Chapter 7, “Appeals and Administrative Review.”

4.5 TMHP-CSHCN Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

5.1 TMHP Claims Information

5.1.1 Claims Processed by TMHP

COMPASS21 (C21) is the claims and encounters processing system currently used by the Texas Medicaid & Healthcare Partnership (TMHP) to process Children with Special Health Care Needs (CSHCN) Services Program claims. C21 is an advanced Medicaid Management Information System (MMIS) that incorporates the latest claims processing methods and offers access to data and flexibility for future program changes.

There are two ways to submit claims to C21. Providers can submit claims to TMHP through TexMed-Connect or a third party vendor. Electronic filing is the most efficient and effective way to submit claims. TMHP also accepts paper claims. Providers that file paper claims are encouraged to switch to electronic submission.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)."

A listing of the providers and services that are paid by TMHP can be found in Chapter 3, "Client Benefits and Eligibility" of this manual.

All claims sent by mail to TMHP for the first time must be addressed to:

Texas Medicaid & Healthcare Partnership
Attn: CSHCN Services Program Claims
PO Box 200855
Austin, TX 78720-0855

Claim corrections and appeals sent by mail to TMHP must be addressed to:

Texas Medicaid & Healthcare Partnership
Attn: CSHCN Services Program Appeals
12357-B Riata Trace Parkway, Suite 100
Austin, TX 78727

All other correspondence sent by mail must be directed to a specific department or individual at the following address:

Texas Medicaid & Healthcare Partnership
Attn: *(Department)*
12357-B Riata Trace Parkway, Suite 100
Austin, TX 78727

5.1.2 Claims Processed by the CSHCN Services Program

Family Support Services (FSS) can help families care for clients with special health-care needs. FSS can also help a client be more independent and able to take part in family life and community activities.

FSS includes, but is not limited to:

- Respite care to allow caretakers a short break from caring for their child.
- Specialized childcare costs above and beyond the cost for typical childcare and related to the child's disability or medical condition.
- Vehicle modifications, such as wheelchair lifts and related modifications such as wheelchair tie-downs, a raised roof, and hand controls.
- Home modifications, such as ramps, roll-in showers, or wider doorways.
- Special equipment that is not listed as a possible benefit in the child's health insurance plan, such as porch lifts or stair lifts, positioning equipment, or bath aids.

CSHCN Services Program case managers assist clients and their families with obtaining FSS. A list of DSHS Regional Health Service offices and contact information is provided in Chapter 1, "TMHP and HHSC Contact Information."

5.1.3 CPT and HCPCS Claims Auditing Guidelines

Claims with dates of service on or after October 1, 2010, Claims must be filed in accordance with Current Procedural Terminology (CPT) and Healthcare Common Procedure Coding System (HCPCS) guidelines as defined in the American Medical Association (AMA) and Centers for Medicare & Medicaid Services (CMS) coding manuals. Claims that are not filed in accordance with CPT and HCPCS guidelines may be denied, including claims for services that were prior authorized or authorized based on documentation of medical necessity.

If a rendered service does not comply with CPT or HCPCS guidelines, medical necessity documentation may be submitted with the claim for the service to be considered for reimbursement; however, medical necessity documentation does not guarantee payment for the service.

Important: *Prior authorization and authorization based on documentation of medical necessity is a condition for reimbursement; it is not a guarantee of payment.*

5.1.4 CMS NCCI and MUE Guidelines for All Claims

All claims must be filed in accordance with the Centers for Medicare & Medicaid Services (CMS) National Correct Coding Initiative (NCCI) and Mutually Exclusive Edit (MUE) guidelines, including claims for services that have been prior authorized or authorized with medical necessity documentation.

The CMS NCCI and MUE guidelines can be found in the NCCI Policy and Medicare Claims Processing manuals, which are available on the [CMS NCCI website](#).

Note: *Providers are required to comply with NCCI and MUE guidelines as well as the guidelines that are published in this manual, all currently-published website articles, fee schedules, and all other applicable information published on the TMHP website.*

5.1.5 TMHP Processing Procedures

The provider who performed the service must file an assigned claim and agree to accept the allowable charge as full payment.

Regulations prohibit providers from charging clients or TMHP a fee for completing or filing claim forms. The cost of claims filing is considered a part of the usual and customary charges for services provided to all CSHCN Services Program clients.

Claims filed with TMHP for reimbursement by the CSHCN Services Program are subject to the following procedures:

- TMHP verifies that all required information is present on the claim form.
- The claim is processed using clerical and automated procedures. Claims requiring special consideration are reviewed by medical professionals.
- All claims from the same provider that are ready for disposition at the end of each week are paid by a single check or electronic funds transfer (EFT) sent to the provider with an explanation of each payment or denial. This explanation is called the Remittance and Status (R&S) Report. If no payment is made to the provider, an R&S Report identifying denied or pending claims is sent to the provider. If there is no claim action during that time period, the provider does not receive an R&S Report that week.

Referto: Chapter 6, "Remittance and Status (R&S) Reports."

5.1.6 Claims Processed by Date of Service

Some services, such as DME, inpatient behavioral health, and outpatient mental health services, have limits to what the CSHCN Services Program can pay. The CSHCN Services Program uses the date of service to determine whether to pay, deny, or recoup claims for services that have benefit limitations for providers.

The CSHCN Services Program may recoup claims that have been submitted and paid if a new claim with an earlier date of service is submitted, depending on the benefit limitations for the services rendered. Services that have been authorized for an extension of the benefit limitation will not be recouped.

Providers can submit an appeal with medical documentation if the claim has been denied. This rule also applies to NCCI/Medically Unlikely Edit (MUE) editing.

5.1.7 Inactive Provider Termination

Providers are required to attest their National Provider Identifier (NPI) for each of their enrolled Texas Provider Identifiers (TPIs); any claim that is submitted to TMHP without an attested NPI will be rejected. Additionally, at least one claim must be submitted to TMHP every 24 months in order for the provider to remain an “active provider” in the CSHCN Services Program. If a provider is enrolled in both Medicaid and the CSHCN Services Program, the provider identifiers for both programs will be examined to determine whether any claims activity has occurred.

TMHP will send a courtesy letter to providers when 18 months have passed with no claims activity for the provider’s TPI. The letter will inform providers that if they want to keep TPIs active, they must submit a claim within 6 months of the date of the letter using one of the TPIs referenced in the letter. TMHP will apply a payment denial code to any TPI that has had no claims activity following 6 months of the date of the courtesy letter and will notify the provider that the TPI has been inactivated because the provider has not submitted claims using the TPI for a period of 24 months or more.

To have the payment denial code removed from a provider identifier, providers must submit a completed application for the Medicaid and CSHCN Services Program. The information on this application must match exactly the information currently on the provider’s file for the payment denial code to be removed. If the provider has moved to a different address or joined a different group, the payment denial code will not be removed from the old TPI(s). Instead, new TPI(s) will be issued for the new address or group.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for additional information.

5.1.8 Claims Filing Deadlines

For claims payment to be considered, providers must adhere to the following time limits. Claims received after the following time limits are not payable because the CSHCN Services Program does not provide coverage for late claims.

- Inpatient claims filed by a hospital must be submitted to TMHP within 95 days from the discharge date. Hospitals may submit interim claims before discharge. These claims must be submitted to TMHP within 95 days from the last date of service on the claim.
- Outpatient hospital services must be submitted to TMHP within 95 days from the date of service.
- For clients receiving retroactive eligibility, TMHP must receive claims within 95 days from the date the eligibility was added to the TMHP eligibility file (add date).
- Claims for clients with other group or private health insurance coverage must be received by the CSHCN Services Program within 95 days of the date of disposition by the other third-party resource (TPR) and no later than 365 from the date of service. A copy of the disposition must be submitted with the claim and mailed to TMHP.
- TMHP must receive claims from out-of-state providers within 365 days of the date of service.

- All other claims must be submitted to TMHP within 95 days from each date of service.
- When a service is a benefit of Medicare, Medicaid, and the CSHCN Services Program, and the client is covered by all programs, the claim must be filed with Medicare first, then with Medicaid. If a Medicaid claim is denied or recouped for client ineligibility, the claim may be submitted to the CSHCN Services Program within 95 days from the date of Medicaid disposition.

When a filing deadline falls on a weekend or holiday, the filing deadline is extended to the next business day following the weekend or holiday. Holidays that may extend the deadlines in 2016 and 2017 are:

Date	Holiday
January 1, 2016	New Year's Day
January 18, 2016	Martin Luther King, Jr. Day
February 15, 2016	Presidents Day
May 30, 2016	Memorial Day
July 4, 2016	Independence Day
September 5, 2016	Labor Day
October 10, 2016*	Columbus Day
November 11, 2016	Veterans Day
November 24, 2016	Thanksgiving Day
November 25, 2016	Day after Thanksgiving
December 26, 2016	Day after Christmas
January 2, 2017*	New Year's Day
January 16, 2017	Martin Luther King, Jr. Day
February 20, 2017	Presidents' Day
May 29, 2017	Memorial Day
July 4, 2017	Independence Day
September 4, 2017	Labor Day
November 23, 2017	Thanksgiving Day
November 24, 2017	Day after Thanksgiving
December 25, 2017	Christmas Day
December 26, 2017	Day after Christmas

* Federal holiday, but not a state holiday. The claims filing deadline will be extended for providers because the Post Office will not be operating on this day.

Referto: [2016 Filing Deadline Calendar](#)

[2017 Filing Deadline Calendar](#)

After filing a claim to TMHP, providers should review the weekly R&S Report. If within 30 days the claim does not appear in the Claims In Process section, or if it does not appear as a paid, denied, or incomplete claim, the provider should resubmit it to TMHP within 95 days of the DOS.

Electronic billers should notify TMHP about missing claims when:

- An accepted claim does not appear on the R&S Report within ten workdays of the file submittal.
- A claim or file does not appear on a TMHP Electronic Claims Submission Report within ten days of the file submission.

5.1.9 Exception to Claim Filing Deadline

The DSHS manager with responsibility for oversight of the CSHCN Services Program, or his or her designee, considers a provider's request for an exception to the 95-day claims filing deadline and the 120-day correction and resubmission deadline, if the delay is due to one of the following reasons and is received by the program within 18 months from the date of service:

- Damage to or destruction of the provider's business office or records by a catastrophic event or natural disaster; including, but not limited to fire, flood, or earthquake that substantially interferes with normal business operations of the provider. The request for an exception to the filing deadline must include:
 - An affidavit or statement from a person with personal knowledge of the facts detailing the requested exception.
 - The cause for the delay.
 - Verification that the delay was not caused by neglect, indifference, or lack of diligence of the provider or the provider's current employee or agent.
 - Any additional information requested by the CSHCN Services Program, including independent evidence of insurable loss; medical, accident or death records and a police or fire department report substantiating the damage or destruction.
- Damage or destruction of the provider's business office or records caused by intentional acts of an employee or agent of the provider, only if the employment or agency relationship was terminated and the provider filed criminal charges against the former employee or agent. The request for an exception to the filing deadline must include:
 - An affidavit or statement from a person with personal knowledge of the facts detailing the requested exception.
 - The cause for the delay.
 - Verification that the delay was not caused by neglect, indifference, or lack of diligence of the provider or the provider's employee or agent.
 - Any additional information requested by the program, including a police or fire report substantiating the damage or destruction caused by the former employee or agent's criminal activity.
- Delay, error, or constraint imposed by the program in the eligibility determination of a client and/or in claims processing, or delay due to erroneous written information from the program, its designee, or another state agency. The request for an exception to the filing deadline must include:
 - An affidavit or statement from a person with personal knowledge of the facts detailing the requested exception.
 - The cause for the delay.
 - Verification that the delay was not caused by neglect, indifference, or lack of diligence of the provider or the provider's employee or agent.
 - Any additional information requested by the program, including written documentation from the program, its designee, or another state agency containing the erroneous information or explanation of the delay, error, and/or constraint.
- Delay due to problems with the provider's electronic claims system or other documented and verifiable problems with claims submission. The request for an exception to the filing deadline must include:
 - An affidavit or statement from a person with personal knowledge of the facts detailing the requested exception.

- The cause for the delay.
- Verification that the delay was not caused by neglect, indifference, or lack of diligence of the provider or the provider's employee or agent.
- Any additional information requested by the CSHCN Services Program, including a written repair statement or invoice; a computer or modem-generated error report indicating attempts to transmit the data failed for reasons outside the control of the provider, or an explanation for the system implementation or other claim submission programs; a detailed, written statement by the person making the repairs or installing the system concerning the relationship and impact of the computer problem or system implementation to delayed claims submission; and the reason alternative billing procedures were not initiated after the problems became known.

The DSHS manager of the unit with responsibility for oversight of the CSHCN Services Program, or his or her designee(s), considers a provider's request for an exception to claims receipt deadlines due to delays caused by entities other than the provider and the program only if the following criteria are met:

- All claims that are to be considered for the same exception accompany the request (only the claims that are attached are considered).
- The exception request is received by the program within 18 months from the date of service.
- The exception request includes an affidavit or statement from a representative of an original payer, a third-party payer, or a person who has personal knowledge of the facts, stating the requested exception, documenting the cause for the delay, and providing verification that the delay was caused by another entity and not the neglect, indifference, or lack of diligence of the provider or the provider's employees or agents.

Send requests for exceptions to claim filing deadlines to:

CSHCN Services Program
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133

Note: Correspondence greater than ten pages must be mailed.

5.1.10 Fiscal Agent Payment Deadline

The CSHCN Services Program fiscal agent is required to finalize all claims, including appeals or adjustments, within 24 months.

- Provider claims—CSHCN Services Program payments cannot be made after 24 months from the date of service or discharge date on inpatient claims.
- Retroactive SSI eligibility claims—The payment deadline is derived from the client's eligibility add date to allow 24 months from the add date for the retroactive SSI-eligible client.

Payment deadlines should not be confused with the claims filing deadlines that are in place for claim submissions and appeals.

5.2 Third-Party Resource (TPR)

Federal and state laws require that the CSHCN Services Program use program funds for the payment of most medical services only after all reasonable measures were taken to use a client's TPR.

A TPR is a source of payment (other than payment from the CSHCN Services Program) for medical services. TPR includes payment from any of the following sources:

- Private health insurance

- Dental insurance plan
- Health maintenance organization (HMO)
- Home, automobile, or other liability insurance
- Preferred provider organization (PPO)
- Cause of action (lawsuit)
- Medicare
- Health-care plans of the U.S. Department of Defense or the U.S. Department of Veterans Affairs (also known as TRICARE)
- Employee welfare plan
- Union health plan
- Children's Health Insurance Program (CHIP)
- Prescription drug card
- Vision insurance plan

Even though Texas Medicaid is considered a non-TPR source, when the client is eligible for both the CSHCN Services Program and Texas Medicaid, Medicaid must be billed before billing the CSHCN Services Program. The CSHCN Services Program does not pay a provider for any services that could have been reimbursed by Texas Medicaid.

If Texas Medicaid denies or recoups a claim for client ineligibility, a copy of the Medicaid R&S Report must be submitted with the claim and received at TMHP within 95 days from the date of disposition.

A provider who furnishes services and is participating in the CSHCN Services Program must not refuse to furnish services to an eligible client because of a third party's potential liability for payment of the services.

Eligible clients must not be held responsible for billed charges in excess of the TPR payment for services that are a benefit of the CSHCN Services Program. When the TPR pays less than the program allowable amount for services that are a benefit, the provider may submit a claim to TMHP for any additional allowable amount. The program does not reimburse providers for copays or provider discounts deducted from TPR payments.

When the client has other third-party coverage, the CSHCN Services Program may pay the deductible or coinsurance for the client as long as the combination of insurance and program payment does not exceed CSHCN Services Programs fee schedule in use at the time of service.

Exception: *By law, the CSHCN Services Program cannot reimburse for CHIP deductibles or coinsurance.*

The CSHCN Services Program may pay for covered health-care benefits during CHIP or other health insurance enrollment waiting periods. During these periods, providers may file claims directly with the CSHCN Services Program without evidence of denial by the other insurer.

5.2.1 Health Maintenance Organization (HMO)

The CSHCN Services Program does not reimburse providers for client copays.

The CSHCN Services Program considers payment for services specifically excluded or limited by HMOs, but a benefit of the CSHCN Services Program. An explanation of benefits (EOB) is required from the HMO. Payment of those services must not exceed the CSHCN Services Programs maximum allowable fees for those services.

The CSHCN Services Program does not provide assistance for:

- Supplement of payment made by HMOs to their providers, unlike other insurance.

- Services that are available through an HMO and were not provided by an HMO approved provider.
- Authorization and payment for services available through an HMO.
- Copayments to providers for services available through an HMO.

Providers may collect copays for CSHCN Services Program clients with private insurance. The CSHCN Services Program reimburses clients for medication copays only. Clients should call the TMHP-CSHCN Services Program Contact Center Client Line at 1-877-888-2350, which is available Monday through Friday, from 7 a.m. to 7 p.m., Central Time for additional information.

5.2.2 CSHCN Services Program Notice of Eligibility Form

Insurance coverage is indicated by the word “Insurance” below the date of birth in the CSHCN Services Program Notice of Eligibility forms case number block. Refer to Section 3.3.2, “CSHCN Services Program Notice of Eligibility Form Sample” in Chapter 3, “Client Benefits and Eligibility” for a sample copy of the form. The information is obtained at the time of the application and must be verified at the time services are rendered.

If a provider is aware that a client has other health insurance but the word “Insurance” is not displayed on the CSHCN Services Program Notice of Eligibility Form, the provider must notify TMHP of the details concerning the type of policy and scope of benefits.

To report other insurance information, providers can call the TMHP Third-Party Resource (TPR) Unit at 1-800-846-7307, which is available Monday through Friday, from 7 a.m. to 7 p.m., Central Time for additional information or write to the following address:

TMHP TPR Unit
PO Box 202948
Austin, TX 78720-2948

5.2.3 Claims Filing Involving a TPR

When a CSHCN Services Program client has other health insurance, that resource must be billed and providers must receive a disposition from the insurance company before submitting a claim for consideration of payment by the CSHCN Services Program. All claims for clients with other insurance coverage must reference the following information:

- Name of the other insurance resource
- Address of the other insurance resource
- Policy (identification) number and group number
- Policyholder
- Effective date, if available
- Date of disposition by other insurance resource
- Payment or specific denial information

Claims must be submitted on paper with the EOB attached.

Referto: Claims Information section at the end of each chapter of this manual for more information.

5.2.4 Verbal Denials by a TPR

When a claim is denied by TMHP because of the client’s other coverage, information identifying the TPR appears on the provider’s R&S Report.

A statement from the client or family member indicating that they no longer have this resource is not sufficient documentation to reprocess the claim. Providers may call the third-party insurance resource and receive a verbal denial. In these situations, the provider must indicate the following information on the R&S Report:

- Date of the telephone call
- Name and telephone number of the insurance company
- Name of the person with whom they spoke
- Policyholder and group information
- Specific reason for the denial (include client's *type of coverage* to enhance the accuracy of claims processing; for example, a policy that covers only inpatient services or only physician services)

When a provider is advised by a TPR that benefits were paid to the client, the provider must include that information on the claim with the date and amount of payment made to the client, if available. If a denial was sent to the client, refer to the information listed in this section. This information enables TMHP to consider the claim for payment.

5.2.5 Filing Deadlines Involving a TPR

Any health insurance, including CHIP or Medicaid, that provides coverage to a CSHCN Services Program eligible client must be used before the program can consider the services for reimbursement. Claims must be received by the program or the payment contractor within 95 days of the date of the disposition by the other TPR and no later than 365 days from the date of service.

If the claim is denied, the provider may submit a claim for consideration to the program. The letter of denial must accompany the claim, or the provider must include the following information with the claim for consideration:

- Date the claim was filed with the insurance company
- Reason for the denial
- Name and telephone number of the insurance company
- Policy (identification) number
- Name of the policy holder and identification numbers for each policy covering the client
- Name of the insurance company contact who provided the denial information
- Date of the contact with the insurance company

Claims involving a TPR have the following deadlines applied:

- Claims with a valid disposition must be submitted to TMHP within 95 days from the disposition (payment or denial) date.
- In addition to the above, there is a 365-day filing deadline from the date of service. *This means that a fully documented claim must be received by TMHP within 365 days of the date of service.* However, when a TPR recoups a payment made in error on a claim, and that claim was never submitted to TMHP, the provider must send the claim for special handling to the attention of the Third-Party Resources Unit at TMHP within 95 days of the TPR action, if the 365-day filing period was exceeded.

Texas Medicaid & Healthcare Partnership
Third-Party Resources Unit
PO Box 202948
Austin, TX 78720-2948

Claims denied by the TPR on the basis of late filing are not considered for payment by the CSHCN Services Program.

TMHP does not have the authority to waive state or federal mandates, such as filing deadlines.

Note: *Providers may request an administrative review of any claim denied by the CSHCN Services Program payment contractor. Refer to Section 7.3.5, “Administrative Review for Claims” in Chapter 7, “Appeals and Administrative Review” for more information.*

5.2.6 Blue Cross Blue Shield (BCBS) Nonparticipating Physicians

BCBS currently has procedures in place to pay assigned claims directly to nonparticipating providers. A nonparticipating provider is eligible to receive direct reimbursement from BCBS, when assignment is accepted. However, only payment dispositions are sent to the provider. An EOB regarding denials is sent only to the client.

Be aware that by accepting assignment on a claim when the client also has the CSHCN Services Program coverage, providers are agreeing to accept payment made by insurance carriers and the CSHCN Services Program, when appropriate, as payment in full. *The CSHCN Services Program client must not be held liable for any balance related to CSHCN Services Program-covered services.*

Physicians who treat CSHCN Services Program clients with BCBS private insurance and who are nonparticipating with BCBS must follow the instructions and procedures as follows:

- Do not provide the CSHCN Services Program client with a bill or anything the client could use as a bill. An informational statement may be given. To avoid confusion, write “Information only” clearly on the copy of the statement.
- Bill BCBS directly, accepting assignment. When payment from BCBS is received, the claim may be filed with TMHP to seek additional payment up to the CSHCN Services Program allowable amount.

A claim must be filed with TMHP-CSHCN Services Program within 365 days of the date of service.

5.2.7 Refunds

The TMHP Cash Reimbursement Unit is responsible for processing financial adjustments that are a result of overpayment, duplicate payment, payment to incorrect providers, returned equipment, and overpayments due to overlapping payments by the CSHCN Services Program and another source. An overpayment must be refunded to the CSHCN Services Program.

Providers must reimburse the CSHCN Services Program refund account by lump sum payment. At the discretion of the Program, refunds may be made in monthly installments or out of current claims due to be paid the provider. To process refunds accurately, refund checks should be accompanied by a [CSHCN Services Program Refund Information Form](#) and include the following information:

- Refunding provider’s name and provider identifier
- Client’s name and client number
- The date on which the medical service was rendered
- A copy of the R&S Report that shows the claim to which the refund is being applied
- The specific reason for the refund
- Private insurance paid on the claim. The provider must refund the lower of the amount paid by the primary insurance or CSHCN Services Program. The provider should include the exact amount paid and the insurance company’s name, address, policy number, and group number.

Refund requests must be submitted to:

Texas Medicaid & Healthcare Partnership
Financial Department
12357-B Riata Trace Parkway, Suite 100
Austin, TX 78727

5.2.8 Refunds to TMHP Resulting From Other Insurance

If the CSHCN Services Program makes payment for a claim and payment is received from another resource for the same services, the provider must refund the CSHCN Services Program the lesser of the amount paid by the TPR or the amount paid by the program. These refunds must not be held until the end of an accounting year. Providers must accept assignment; therefore, they must accept the CSHCN Services Program payment as payment in full for services that are a benefit and must not use payment by another TPR to make up the difference between the amount billed and the CSHCN Services Program payment.

Providers must use the following guidelines to determine the amount to be refunded to the CSHCN Services Program:

- When the CSHCN Services Program pays more than the other resource pays, the amount of the other payment is due as a refund to the CSHCN Services Program. For example:

Total billed	\$300
CSHCN Services Program payment	\$200
Other resource payment	\$150
Amount to be refunded to TMHP	\$150

- When the CSHCN Services Program pays less than the other resource, the amount paid by the Program is due as a refund. For example:

Total billed	\$300
CSHCN Services Program payment	\$200
Other resource payment	\$250
Amount to be refunded to TMHP	\$200

5.2.9 Accident-Related Claims

TMHP monitors all accident claims to determine whether another resource may be liable for the medical expenses of the CSHCN Services Program clients. Providers are required to ask clients whether the medical services are necessary because of accident-related injuries. If the claim is the result of an accident, providers must indicate this information in the appropriate fields on the electronic claim form, in Block 10 of the CMS-1500 paper claim form, or Blocks 31 through 34 on the UB-04 CMS-1450 paper claim form.

If payment is available from a known third party, such as personal injury protection automobile insurance, that responsible party must be billed before the CSHCN Services Program. If the third-party payment is substantially delayed due to contested liability or unresolved legal action, a claim may be submitted to TMHP for consideration of payment. TMHP processes the liability-related claim and pursues reimbursement directly from the potentially liable party on a postpayment basis.

The following information must be included on these claims:

- Name and address of the TPR
- Description of the accident including location, date, time, and alleged cause
- Reason for delayed payment by the TPR

5.2.9.1 Accident Resources and Refunds Involving Claims for Accidents

Acting on behalf of the CSHCN Services Program, TMHP has the authority to recover payments from any settlement, court judgment, or other resources awarded to a CSHCN Services Program client. In most cases, TMHP works directly with the attorneys, courts, and insurance companies to seek reimbursement for program payments. If a provider receives a portion of a settlement for which the program has made payment, the provider must refund the CSHCN Services Program. Any provider filing a lien for the entire billed amount must contact the Third-Party Resources Unit at TMHP to coordinate program postpayment activities. Providers may contact the TMHP Tort Contact Center by calling 1-800-846-7307, which is available Monday through Friday, from 8 a.m. to 5 p.m., Central Time.

A provider who receives an attorney's request for an itemized statement, claim copies, or both, should contact the TMHP Third-Party Resources Unit, if the CSHCN Services Program was billed for any services relating to the request. The provider must furnish TMHP with the client's name and CSHCN Services Program ID number, dates of service involved, and the name and address of the attorney or casualty insurance company. This information enables TMHP to pursue reimbursement from any settlement.

5.2.9.2 Third-Party Liability for Claims Involving Accidents

DSHS contracts with TMHP to administer third-party liability cases. To ensure that the CSHCN Services Program is the payer of last resort, TMHP performs postpayment investigations of potential casualty and liability cases.

TMHP also identifies and recovers CSHCN Services Program expenditures in casualty cases involving CSHCN Services Program clients.

Investigations are a result of referrals from many sources, including attorneys, insurance companies, health-care providers, CSHCN Services Program clients, and state agencies.

Referrals should be submitted on the [Tort Response Form](#) to the following address:

TMHP Tort Department
PO Box 202948
Austin, TX, 78720-2948
Fax: 1-512-514-4225

TMHP releases CSHCN Services Program claims information when a [Department of State Health Services Form to Release CSHCN Services Program Claims History](#) is submitted. This form is available in both [English](#) and [Spanish](#). The form must be signed by the CSHCN Services Program client, parent, or guardian. Referrals are processed within ten business days.

An attorney or other person who represents a CSHCN Services Program client in a third-party claim or action for damages for personal injuries must send written notice of representation to the TMHP Tort department at the address listed above. The written notice must be submitted within 45 days of the date on which the attorney or representative undertakes representation of the CSHCN Services Program client or from the date on which a potential third party is identified.

The following information must be included:

- The CSHCN Services Program client's name, address, and identifying information
- The name and address of any third party or third-party health insurer against whom a third-party claim is, or may be, filed for injuries to the CSHCN Services Program client
- The name and address of any health-care provider that has asserted a claim for payment for medical services provided to the CSHCN Services Program client for which a third party may be liable for payment, whether or not the claim was submitted to, or paid by, TMHP

Providers should indicate when information is unknown when the initial notice is filed. Revisions must be submitted when the information becomes available.

If the attorney or representative requests claim information about the CSHCN Services Program client, an authorization form must be included as part of the notice and must be signed by the CSHCN Services Program client, parent, or guardian. The [Department of State Health Services Form to Release CSHCN Services Program Claims History](#) must be used. This form is available in both [English](#) and [Spanish](#).

DSHS must approve all trusts before any proceeds from a third party are placed into a trust.

For additional information, providers may contact the TMHP Tort Contact Center at 1-800-846-7307, which is available Monday through Friday, from 8 a.m. to 5 p.m., Central Time.

5.3 Multipage Claim Forms

Professional (CMS-1500)

The approved electronic professional claim format is designed to list 50 line items.

The total number of details allowed for a professional claim by the TMHP claims processing system (C21) is 28. If the services provided exceed 28 line items on an approved electronic claims format or 28 line items on paper claims, the provider must submit another claim for the additional line items.

The CMS-1500 paper claim form is designed to list six line items in Block 24. If more than six line items are billed, a provider may attach additional forms (pages) totaling no more than 28 line items. The first page of a multipage claim must contain all the required billing information. On subsequent pages of the multipage claim, the provider should identify the client's name, diagnosis, information required for services in Block 24, and the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the form and indicate "continued" in Block 28. The combined total charges for all pages should be listed on the last page in Block 28.

Institutional (UB-04 CMS-1450)

An approved electronic format of the UB-04 CMS-1450 is designed to list 61 lines in Block 43 or its electronic equivalent. C21 merges like revenue codes together to reduce the lines to 28 or less.

If the services exceed the 28 lines, the provider may submit another claim for the additional lines or merge codes. When splitting a claim, all pages must contain the required information. Usually, there are logical breaks to a claim. For example, the provider may submit the surgery charges in one claim and the subsequent recovery days in the next claim. Hospitals are required to submit all charges.

The UB-04 CMS-1450 paper claim form is designed to list 23 lines in Block 43. If services exceed the 23-line limitation, the provider may attach additional pages. The first page of a multipage claim must contain all required billing information. On subsequent pages, the provider identifies the client's name, diagnosis, all information required in Block 43, and the page number of the attachment (e.g., page 2 of 3) in the top right-hand corner of the form and indicate "continued" on Line 23 of Block 47. The combined total charges for all pages should be listed on the last page on Line 23 of Block 47.

The total number of details allowed for an institutional claim by the TMHP claims processing system (C21) is 28. C21 merges like revenue codes together to reduce the lines to 28 or less. If the C21 merge function is unable to reduce the lines to 28 or less, the claim will be denied, and the provider will need to reduce the number of details and resubmit the claim.

Note: Revenue codes must be submitted on the UB-04 CMS-1450 institutional paper claim form or electronic equivalent in accordance with the National Uniform Billing Committee (NUBC) standards for all inpatient and outpatient institutional claims. Providers can refer to the NUBC website at www.nubc.org.

Revenue Codes

Per the NUBC, revenue codes are defined as codes that identify specific accommodations, ancillary services, or unique billing calculations or arrangements. Revenue codes are four-digit codes that must be entered on claims as follows:

- Providers submitting claims through TexMedConnect will be required to enter four-digit revenue codes, including the leading zero (where appropriate) for inpatient and outpatient claim submissions.
- Providers submitting institutional claims in the 837I electronic format should continue to use four-digit revenue codes in Loop 2400, Segment SV201, to enter revenue codes.

Providers are required to adhere to national billing standards, including NUBC guidelines defining data submission requirements.

Providers may refer to the National Uniform Billing Committee website for further information.

Type of Bill

Type of bill (TOB) values must be submitted on the UB-04 CMS-1450 claim form or electronic equivalent in accordance with the National Uniform Billing Committee (NUBC).

Per NUBC, TOB is defined as a code indicating the specific type of bill (e.g., hospital inpatient, outpatient, replacement, voids, etc.), with the last digit defining the frequency of the bill.

Providers that submit institutional claims in the 837I electronic format may use Loop 2300, Segment CLM05-1 through CLM05-3 to enter TOBs.

5.4 Tips on Expediting Paper Claims

Use the following guidelines to enhance the accuracy and timeliness of paper claims processing.

5.4.1 General requirements

- Use original claim forms. Don't use copies of claim forms.
- Detach claims at perforated lines before mailing.
- Use 10 x 13 inch envelopes to mail claims. Don't fold claim forms, appeals, or correspondence.
- Don't use labels, stickers, or stamps on the claim form.
- Don't send duplicate copies of information.
- Use 8 ½ x 11 inch paper. Don't use paper smaller or larger than 8 ½ x 11 inches.
- Don't mail claims with correspondence for other departments.

5.4.2 Data Fields

- Print claim data within defined boxes on the claim form.
- Use black ink, but not a black marker. Don't use red ink or highlighters.
- Use all capital letters.
- Print using 12 point Courier font only. Don't use fonts smaller or larger than 12 points. No other font will be accepted.
- Use a laser printer for best results. Don't use a dot matrix printer, if possible.
- Use eight digits to indicate the date (e.g., 01012013). Don't use dashes or slashes in date fields.

5.4.3 Attachments

- Use paper clips on claims or appeals if they include attachments. Don't use glue, tape, or staples.
- Place the claim form on top when sending new claims, followed by any medical records or other attachments.

- Number the pages when sending when sending attachments or multiple claims for the same client (e.g., 1 of 2, 2 of 2).
- Don't total the billed amount on each claim form when submitting multiple claims for the same client.
- Submit claim forms with R&S Reports.

5.5 Correction and Resubmission (Appeal) Time Limits

All correction and resubmission (appeals) of denied claims and requests for adjustments on paid claims must be received by TMHP within 120 days from the date of disposition of the claim (the date of the R&S Report on which the claim appears).

Referto: [2015 Filing Deadline Calendar](#)

[2016 Filing Deadline Calendar](#)

5.5.1 Claims with Incomplete Information

Claims lacking the information necessary for processing are listed on the R&S Report with an EOB code requesting the missing information. Providers must resubmit a signed, completed, and corrected claim with a copy of the R&S Report on which the claim appears to TMHP within 120 days from the date on the R&S Report to be considered for payment. Hospitals are not required to resubmit itemized inpatient charges if those charges were included with the original submission.

5.5.2 Other Insurance Appeals

Providers appealing a claim denial due to other insurance coverage must submit to TMHP the complete other-insurance information, including all EOBs with disposition dates. The disposition date is the date on which the other insurance company processed the payment or denial. If a provider submits other-insurance EOBs without disposition dates, the appeal will be denied.

5.5.3 Resubmission of TMHP EDI Rejections

Providers that receive TMHP EDI rejections may resubmit an electronic claim within 95 days of the DOS. A paper appeal may also be submitted with a copy of the rejection report within 120 days of the rejection report to meet the filing deadline. A copy of the rejection report with the EDI batch ID must accompany each corrected claim that is submitted on paper.

5.5.3.1 TMHP EDI Batch Numbers, Julian Dates

All electronic transactions are assigned an eight-character Batch ID immediately upon receipt by the TMHP Electronic Data Interchange (EDI) Gateway. The batch ID format allows electronic submitters to determine the exact day and year that a batch was received. The batch ID format is JJJYSSSS, where each character is defined as follows:

- JJJ—Julian date. The three J characters represent the Julian date that the file was received by the TMHP EDI Gateway. The first character (J) is displayed as a letter, where I = 0, J = 1, K = 2, and L = 3. The last two characters (JJ) are displayed as numbers. All three characters (JJJ) together represent the Julian date. For example, a Julian date of 143 would be J43.
- Y—Year. The Y character represents the last digit of the calendar year when the TMHP EDI Gateway receives the file. For example, a "3" in this position indicates the year 2013.
- SSSS—The unique 4-character sequence number assigned by EDI to the claim filed.

Referto: Section 7.3.1.3, "Electronic Rejections" in Chapter 7, "Appeals and Administrative Review" for more information on electronic appeals.

5.6 Coding

5.6.1 Diagnosis Coding

The *only* diagnosis coding structure accepted by the CSHCN Services Program is the *International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM)*. The CSHCN Services Program requires providers to provide diagnosis codes on their claims. Diagnosis codes must correspond to the highest level of specificity available. A written description of the diagnosis is not required.

If the diagnosis code submitted is a valid three- to seven-digit code, do not add additional zeroes. Claims submitted with an invalid diagnosis code are denied.

Specific diagnosis codes related to program benefits are listed in chapters that follow. These listings are intended to provide helpful information, but should not be considered all-inclusive. From time to time, diagnosis codes are added, deleted, or revised.

5.6.2 Procedure Coding

5.6.2.1 Healthcare Common Procedure Coding System (HCPCS)

The procedure coding system used by the CSHCN Services Program is called the Healthcare Common Procedure Coding System (HCPCS). HCPCS is a common coding structure for determining reimbursement made available to health-care providers and third-party payers.

HCPCS is designed around a five-character numeric or alphanumeric base for all procedure codes, and is divided into two principal subsystems, referred to as level I and level II:

- **Level I:** Level I procedure codes are created by the [American Medical Associations \(AMA\)](#), and are published in the Current Procedural Terminology (CPT®) manual. CPT procedure codes are numeric codes consisting of 5-digits. Maintenance of CPT is the responsibility of the AMA (AMA updates on a yearly basis) and coordinated with CMS before distribution of modifications to third-party payers.

Note: Claims for anesthesia must list the CPT anesthesia procedure codes. Use of narrative descriptions or CPT surgical codes result in claim denial.

- **Level II:** Level II procedure codes are created by CMS, and are published in the HCPCS manual. HCPCS procedure codes are alpha-numeric codes consisting of a single alpha character (A–V) followed by four numeric digits; the codes are for physician and nonphysician services that are not contained in CPT (such as ambulance, durable medical equipment [DME], prostheses, and some medical codes). Updating of HCPCS codes is the responsibility of the CMS Maintenance Task Force.

Level I CPT and Level II HCPCS procedure codes are used by all the CSHCN Services Program providers to identify the procedures they perform.

Exception: Inpatient facility charges submitted on a UB-04 CMS-1450 paper claim form or equivalent electronic claim format must be billed using revenue codes.

To ensure an up-to-date coding structure, HCPCS is updated annually using the latest edition of the CPT manual (i.e., Level I coding) and nationally established CMS codes (i.e., Level II coding). The coding systems comply with *Health Insurance Portability and Accountability Act (HIPAA)* requirements.

Most added procedure codes that are not directly replacing a discontinued procedure code must go through the Texas Medicaid rate hearing process, as required by Chapter 32 of the Human Resources Code, §32.0282, and Title 1 of the Texas Administrative Code, §355.201, which require public hearings to receive comments on Texas Medicaid payment rates.

Referto: Section 5.6.2.3, “Determining Reimbursement Rates for New HCPCS Procedure Codes” in this chapter for additional information about the rate hearing process as well as claims filing and prior authorization requirements for affected procedure codes.

Specific procedure codes related to program benefits are listed in chapters that follow. These listings are intended to provide helpful information, but should not be considered all-inclusive. From time to time, procedure codes are added, deleted, or revised. Benefit and coding information is updated in the *CSHCN Services Program Provider Bulletin*.

The CSHCN Services Program does not reimburse for deleted procedure codes.

Authorization and prior authorization requests must be submitted to update HCPCS procedure codes for services.

Referto: [The Centers for Medicare & Medicaid Services HCPCS web page](#).

5.6.2.2 National Correct Coding Initiative (NCCI) Guidelines

The *Patient Protection and Affordable Care Act* (PPACA) mandates that all claims submitted on or after October 1, 2010, must be filed in accordance with the NCCI guidelines. NCCI was developed by CMS to promote the correct coding of health-care services by providers. The purpose of the NCCI edits is to prevent improper payment when incorrect code combinations are reported.

NCCI consists of two types of edits:

- NCCI procedure-to-procedure edits that define pairs of procedure codes that should not be reported together for a variety of reasons.
- MUE are units-of-service edits that define the number of units of service beyond which the reported number of units of service is unlikely to be correct.

Each NCCI code pair edit is associated with a policy as defined in the *National Correct Coding Initiative Policy Manual*. Effective dates apply to code pairs in NCCI and represent the date when CMS added the code pair combination to the NCCI edits. Code combinations are processed based on this effective date. Termination dates also apply to code pairs in NCCI. This date represents the date when CMS removed the code pair combination from the NCCI edits. Code combinations are refreshed quarterly.

NCCI edits are applied to services that are performed by the same provider on the same date of service only. Providers may refer to the [CMS NCCI website](#) for the *NCCI Policy* and *Medicare Claims Processing* manuals that contain the NCCI rules, relationships, and general information.

Providers are encouraged to monitor CMS for updates to the NCCI rules and guidelines. A link to the CMS NCCI website is also available through the TMHP website at www.tmhp.com on the Code Updates - NCCI Compliance web page. In instances where the CSHCN Services Program implements exceptions to the NCCI relationships, providers will be informed through the standard provider notification process.

The HCPCS and CPT codes included in the *Children with Special Health Care Needs Services Program Provider Manual* and the *CSHCN Services Program Provider Bulletins* are subject to NCCI relationships, which supersede any exceptions to NCCI code relationships that may be noted in the manuals and bulletins. In instances when CSHCN Services Program medical policy is more restrictive than NCCI MUE guidance, CSHCN Services Program medical policy prevails.

NCCI Appeals

Claims or procedure codes that have been denied based on NCCI guidelines may be appealed with an appropriate modifier or documentation of medical necessity. If the submitted procedure code is denied because NCCI guidelines indicate the code is included in another procedure, the claim may be appealed with a modifier if applicable. If a modifier does not apply but medical necessity can be proven, the provider must submit documentation of medical necessity that indicates both services were necessary on the same date of service. For guideline exceptions that may be appealed, providers may refer to the

CMS website at www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNProducts/downloads/MCRP_Booklet.pdf. Providers must follow the current standard appeals process when appealing claims to TMHP.

Referto: Section 7.3, “Claim Appeals” in Chapter 7, “Appeals and Administrative Review” for additional information about appealing claims.

5.6.2.3 Determining Reimbursement Rates for New HCPCS Procedure Codes

The CSHCN Services Program adopts the new codes that are direct replacements of discontinued codes at the discontinued codes reimbursement rate. The new HCPCS procedure codes that are not directly replacing discontinued codes require a rate hearing to determine an appropriate Texas Medicaid reimbursement rate. The Health and Human Services Commission (HHSC) conducts public rate hearings to provide an opportunity for the provider community to comment on the Medicaid proposed payment rate. After the rate hearings are complete for each procedure code, the CSHCN Services Program makes the determination to adopt the Texas Medicaid rate established through the rate hearing process or to adopt the rate of a similar discontinued code.

As indicated in the *HCPCS Special Bulletin* that is published at the beginning of each year, claims for procedure codes that require a rate hearing must be submitted within the initial 95 day filing deadline. The most appropriate procedure code for the service provided must be submitted. Services provided are denied as pending a rate hearing (EOB 02008) until the applicable reimbursement rate is adopted.

Once the Medicaid reimbursement rate has been determined through the rate hearing process, the CSHCN Services Program will evaluate the proposed rate to determine whether alignment with the Medicaid rate is fiscally feasible. Once reimbursement rates are established in the rate hearing, evaluated by the CSHCN Services Program, and applied, TMHP will reprocess the claim. No action on the part of the provider is necessary. Providers are notified of the implementation date and reprocessing efforts. The client cannot be billed for these services.

For those procedures that require authorization or prior authorization, providers must follow the processes detailed in Chapter 4, “Prior Authorizations and Authorizations” of the current *CSHCN Services Program Provider Manual*. Providers must not wait until new codes have completed the rate hearing process to request an authorization or prior authorization.

5.6.2.4 National Drug Codes (NDC)

All CSHCN Services Program providers must submit an NDC for professional or outpatient electronic and paper claims submitted with physician-administered prescription drug procedure codes.

N4 must be entered before the NDC on claims. The NDC is an 11-digit number on the package or container from which the medication is administered.

National Drug Unit of Measure: The submitted unit of measure should reflect the volume measurement administered. Refer to the NDC Package Measure column on the Texas NDC-to-HCPCS Crosswalk.

The valid units of measurement codes are:

- F2—International unit
- GR—Gram
- ME—Milligram
- ML—Milliliter
- UN—Unit

Note: *Unit quantities must be submitted, and are required.*

5.6.2.4.1 **Paper Claim Submissions**

Depending on the claim type, the NDC information must be submitted as indicated below for paper claims, or the equivalent electronic field:

UB-04 CMS-1450

Block No.	Description	Guidelines
43	Revenue codes and description	<p>This block should include the following elements in the following order:</p> <ul style="list-style-type: none"> • NDC qualifier of N4 (e.g., N4) • The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter hyphens or spaces within this number (e.g., 00409231231) • The unit of measurement code. There are 5 allowed values: F2, GR, ML, UN or ME. (e.g., GR) • The unit quantity with a floating decimal for fractional units (limited to 3 digits). (e.g., 0.025) <p>Example: N400409231231GR0.025</p>

CMS-1500

Block No.	Description	Guidelines
24A	Date(s) of service	<p>In the shaded area, enter :</p> <ul style="list-style-type: none"> • NDC qualifier N4 (e.g., N4) • The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter spaces or hyphens within this number. (e.g., 00409231231) <p>Example: N400409231231</p>
24D	Procedures, services, or supplies	<p>In the shaded area, enter NDC quantity of units administered (up to 12 digits including the decimal point). A decimal point must be used for fractions of a unit (e.g., 0.025).</p>
24G	Days or units	<p>In the shaded area, enter the NDC unit of measurement code (e.g., GR).</p> <p>There are 5 allowed values: F2, GR, ML, UN or ME.</p>

2017 Claim Form

Block No.	Description	Guidelines
32A	Date(s) of service	<p>In the shaded area, enter :</p> <ul style="list-style-type: none"> • NDC qualifier N4 (e.g., N4) • The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter spaces or hyphens within this number. (e.g., 00409231231) <p>Example: N400409231231</p>

Block No.	Description	Guidelines
32D	Procedures, services, or supplies Current Procedural Terminology (CPT)/ Healthcare Common Procedure Coding System (HCPCS) Modifier	In the shaded area, enter the NDC quantity of units administered (up to 12 digits including the decimal point). A decimal point must be used for fractions of a unit (e.g., 0.025).
32F	Days or units	In the shaded area, enter the NDC unit of measurement code (e.g., GR). There are 5 allowed values: F2, GR, ML, UN or ME.

National Drug Unit: Claims will be edited for the value submitted in the NDC quantity field. In order to convert the HCPCS units submitted into the NDC quantity; use the Texas NDC-to-HCPCS Crosswalk to review the “HCPCS Description” and the “NDC Label” description to identify the quantity.

The Texas NDC-to-HCPCS Crosswalk identifies relationships between HCPCS codes and National Drug Codes (NDC). The Texas file is published at least quarterly. The Texas NDC-to-HCPCS Crosswalk can be found at www.txvendordrug.com/formulary/clinician-administered-drugs.shtml. Clinician-administered drugs that do not have an appropriate NDC to HCPCS combination for the procedure code that is submitted are not payable.

Texas Supplemental NDC File lists those physician-administered multiple-source drugs that the U.S. Secretary of Health and Human Services has determined to have the highest dollar volume of physician-administered drugs that are dispensed through Medicaid. The Texas supplemental NDC file is available on the NDC webpage under topics on the TMHP website at www.tmhp.com.

5.6.2.5 Drug Rebate Program

The CSHCN Services Program will reimburse providers only for clinician-administered drugs and biologicals whose manufacturers participate in the CMS Drug Rebate Program and that show as active on the CMS list for the date of service the drug is administered.

CMS maintains a list of participating manufacturers and their rebate-eligible drug products, which is updated quarterly on the [CMS website](#). TMHP will republish this list quarterly in a more accessible format. Providers will be notified when the first formatted file from TMHP is available.

When providers submit claims for clinician-administered drug procedure codes, they must include the National Drug Code (NDC) of the administered drug as indicated on the drug packaging.

TMHP will deny claims for drug procedure codes under the following circumstances:

- The NDC submitted with the drug procedure code is not on the CMS drug rebate list that was current on the date of service.
- The NDC submitted with the drug procedure code has been terminated.
- The drug procedure code is submitted with a missing or invalid NDC.

To avoid claim denials, providers must speak with the pharmacy or wholesaler with whom they work to ensure the product purchased is on the current CMS list of participating manufacturers and their drugs.

Vitamins and minerals procedure codes will be listed on a separate tab of the supplemental file.

TMHP has created a Rebateable National Drug Codes web page to display the quarterly lists published by CMS. Every quarter, after CMS publishes an updated list of rebateable NDCs, TMHP will produce a formatted list with the unnecessary details removed and will add the new list to the web page.

Note: CSHCN Services Program does not pay for drug wastage.

5.6.2.6 Modifiers

Modifiers further describe and qualify services provided. A modifier is placed after the five-digit procedure code. Refer to the service-specific sections for additional modifier requirements. Providers must maintain documentation in the client's medical record that supports the medical necessity of the services that are billed using a modifier. Acceptable documentation includes, but is not limited to, progress notes, operative reports, laboratory reports, and hospital records. On a case-by-case basis, providers may be required to submit additional documentation that supports the medical necessity of services before the claim will be reimbursed. Modifiers and their descriptions are available in current issues of CPT and HCPCS coding resources.

Note: Retrospective review may be performed to ensure that the submitted documentation supports the medical necessity of a service and any modifier used to bill the claim.

5.6.2.7 Modifier U8 and the Federal 340B Drug Pricing Program

All eligible organizations and covered entities that are enrolled in the federal 340B Drug Pricing Program to purchase 340B discounted drugs must use modifier U8 when submitting claims for 340B clinician-administered drugs.

Non-compliance with this new requirement to use modifier U8 on all claims submitted for 340B clinician-administered drugs may jeopardize a covered entity's 340B status with the U.S. Department of Health and Human Services Health Resources and Services Administration (HRSA).

Note: Providers can refer to the HRSA website at www.hrsa.gov/opa/index.html for more information about the 340B Drug Pricing Program.

5.6.2.8 Type of Services (TOS)

The TOS identifies the specific field or specialty of services provided. TOS codes are not required for billing, but they do appear on the provider's Remittance and Status (R&S) Reports.

For procedure codes that require a modifier to assign a TOS, providers can refer to the appropriate specific section for information on modifier requirements for claim submissions.

TOS	Description
0	Blood
1	Medical Services
2	Surgery
3	Consultations
4	Radiology (total component)
5	Laboratory (total component)
6	Radiation Therapy (total component)
7	Anesthesia
8	Assistant surgery
9	Other medical items or services
C	Home health services
E	Eyeglasses
F	Ambulatory surgical center (ASC)/hospital-based ambulatory surgical center (HASC)
G	Genetics
I	Professional component for radiology, laboratory, or radiation therapy
J	DME purchase new
L	DME rental

TOS	Description
R	Hearing aid
T	Technical component for radiology, laboratory, or radiation therapy
W	Dental

5.6.2.9 Place of Service (POS) Coding

The POS identifies where services are performed. Indicate the POS by using the appropriate numeric code for each service listed on the claim. The following POS codes must be used:

Place of Service	Two-Digit Numeric Codes (Electronic Billers)	One-Digit Numeric Codes (Paper Billers)
Office	11, 15, 17, 20, 49, 50, 60, 65, 71, 72	1
Home	12	2
Inpatient hospital	21, 51, 52, 55, 56, 61	3
Outpatient hospital	19, 22, 23, 24, 62	5
Other location	01, 03, 04, 05, 06, 07, 08, 16, 18, 26, 34, 41, 42, 53, 57, 99	9
Independent lab	81	6
Destination of ambulance	Indicate destination using above codes	Indicate destination using above codes

5.6.3 Benefit Code

A benefit code is an additional data element used to identify state programs. Providers participating in the CSHCN Services Program must use benefit code CSN and DM3 when submitting claims and authorizations to TMHP. Additional codes may be added as necessary.

Benefit Code	Program
CSN	CSHCN Services Program
DM3	CSHCN Services Program home health DME services

Important: The appropriate benefit code must be included on each CSHCN Services Program claim that is submitted to TMHP. Because each software developer is different, location of fields may vary. Contact the software developer or vendor for this information. Direct questions about TexMedConnect to the TMHP EDI Help Desk at 1-888-863-3638.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for more information about electronic billing.

5.7 Claims Filing Instructions

Providers must read the instructions in this section carefully and supply all the requested information on the claim form.

Claims must contain the billing provider's complete name, address, provider identifier, and signature of the provider or an authorized representative, or a "signature on file" statement. Claims prepared by computer billing services may have "Signature on File" printed in the signature block if the billing service retains a letter on file from the provider authorizing the service. A claim without the provider's complete name, address, provider identifier, signature, or "signature on file" statement cannot be processed. The

Patient Protection and Affordable Care Act (PPACA) mandates that all claims submitted to TMHP must be filed in accordance with NCCI guidelines. The guidelines can be found in the NCCI Policy and *Medicare Claims Processing Manuals*, which are available on the CMS website.

5.7.1 Claim Details

The maximum number of units on a claim detail can not exceed 9,999 units. Providers who submit a claim with more than 9,999 units must bill 9,999 units on the first detail of the claim and any additional units on separate details.

5.7.2 Provider Types and Selection of Claim Forms

5.7.2.1 Providers and Services Billable on CMS-1500

Claims for the following provider types or services must be billed on a CMS-1500 paper claim form or approved electronic format when requesting payment for medical services and supplies under the CSHCN Services Program:

- Advanced practice registered nurse (APRN), such as pediatric nurse practitioner (PNP), clinical nurse specialist (CNS), and family nurse practitioner (FNP)
- Ambulance
- Anesthesiologist assistants
- Augmentative communication devices (ACDs)
- Certified respiratory care practitioner (CRCP)
- Certified registered nurse anesthetists (CRNA)
- Durable medical equipment (DME)
- Freestanding ambulatory surgery center
- Gastrostomy devices
- Genetic services
- Independent laboratory, radiology, and radiation therapy
- Medical foods
- Medical nutritional products and services
- Orthosis and prosthesis
- Outpatient behavioral health services
- Outpatient therapy (physical therapy [PT], occupational therapy [OT], and speech-language pathology [SLP])
- Pharmacy
- Physician (doctor of medicine [MD] and doctor of osteopathy [DO])
- Podiatry
- Total parenteral nutrition (TPN)
- Vision services
- Any other authorized provider of medical services and supplies not specifically required to use a different claim form when submitting claims to TMHP

Referto: The [Professional Paper Claim Form \(CMS-1500\) page](#) of the CMS website at www.cms.gov for more information about the CMS-1500 paper claim form. Providers can purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

5.7.2.2 CMS-1500 Claim Form Provider Definitions

CMS-1500 Claim Form Provider Definitions

The following definitions apply to the provider terms used on the CMS-1500 Claim Form:

Referring Provider

The Referring Provider is the individual who directed the patient for care to the provider rendering the services being submitted on the claim form.

Examples include, but are not limited to, a primary care provider referring to a specialist; an orthodontist referring to an oral and maxillofacial surgeon; a physician referring to a physical therapist; and a provider referring to a home health agency.

Ordering Provider

The Ordering Provider is the individual who requested the services or items listed in Block D of the CMS-1500 claim form.

Examples include, but are not limited to, a provider ordering diagnostic tests and medical equipment or supplies.

Rendering Provider

The Rendering Provider is the individual who provided the care to the client. In the case where a substitute provider was used, that individual is considered the Rendering Provider.

An individual such as a lab technician or radiology technician who performs services in a support role is not considered a rendering provider.

Supervising Provider

The Supervising Provider is the individual who provided oversight of the Rendering Provider and the services listed on the CMS-1500 claim form.

An example would be the supervision of a resident physician.

Purchased Service Provider

A Purchased Service Provider is an individual or entity that performs a service on a contractual or reassignment basis.

Examples of services include:

- Processing a laboratory specimen
- Grinding eyeglass lenses to the specifications of the Referring Provider
- Performing diagnostic testing services (excluding clinical laboratory testing) subject to Medicare's anti-markup rule.

In the case where a substitute provider is used, that individual is not considered a Purchased Service Provider.

5.7.2.3 CMS-1500 Electronic Billing

Electronic billers must submit CMS-1500 claim forms with TexMedConnect or approved vendor software that uses the ANSI ASC X12 837P 5010 format. Specifications are available to providers developing in-house systems, software developers, and vendors on the TMHP website at www.tmhp.com/Pages/EDI/EDI_Home.aspx.

Because each software developer is different, location of fields may vary. Contact the software developer or vendor for this information. Direct questions and development requirements to the TMHP EDI Help Desk at 1-888-863-3638.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for more information about electronic billing. All CSHCN Services Program claims must be submitted with the appropriate benefit code.

Section 5.6.3, "Benefit Code" in this chapter for information about using the appropriate benefit code to file CSHCN Services Program electronic claims.

5.7.2.4 CMS-1500 Paper Claim Form Instructions

The following instructions describe the information that must be entered in each of the block numbers of the CMS-1500 paper claim form. Block numbers not referenced in the table may be left blank. They are not required for claim processing by TMHP.

Referto: The [Professional Paper Claim Form \(CMS-1500\) page](http://www.cms.gov) of the CMS website at www.cms.gov for more information about the CMS-1500 paper claim form. Providers can purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

Block No.	Description	Guidelines
1a	Insured's ID No. (for program checked above, include all letters)	Enter the client's nine-digit CSHCN Services Program client number. For Other Property & Casualty Claims: Enter the Federal Tax ID or SSN of the insured person or entity.
2	Patient's name	Enter the client's last name, first name, and middle initial as printed on the CSHCN Services Program identification form. If the insured uses a last name suffix (e.g., Jr., Sr.) enter it after the last name and before the first name.
3	Patient's date of birth Patient's sex	Enter numerically the month, day, and year (MM/DD/YYYY) the client was born. Indicate the client's sex by checking the appropriate box. Only one box can be marked.
5	Patient's address	Enter the client's complete address as described (street, city, state, and ZIP+4 Code).
9	Other insured's name	For special situations, use this space to provide additional information such as: <ul style="list-style-type: none"> If the client is deceased, enter "DOD" in block 9 and the time of death in 9a if the services were rendered on the date of death. Enter the date of death in block 9b.

Block No.	Description	Guidelines
10a 10b 10c	Is the patient's condition related to: a) Employment (current or previous)? b) Auto accident? c) Other accident?	Check the appropriate box. If other insurance is available, enter appropriate information in Blocks 11, 11a, and 11b.
11 11a 11b	Other health insurance coverage	<ul style="list-style-type: none"> • If another insurance resource has made payment or denied a claim, enter the name and information of the insurance company. The other insurance EOB or denial letter must be attached to the claim form. • If the client is enrolled in Medicare attach a copy of the Medicare Remittance Notice to the claim form. • For Workers' Compensation and Other Property & Casualty Claims: Required if known. Enter Workers' Compensation or Property & Casualty Claim Number assigned by the payer.
11c	Insurance plan or program name	Enter the benefit code, if applicable, for the billing or performing provider.
12	Patient's or authorized person's signature	Enter "Signature on File," "SOF," or legal signature. When legal signature is entered, enter the date signed in eight digit format (MMDDYYYY). TMHP will process the claim without the signature of the client.
14	Date of current	If the client has chronic renal disease, enter the date of onset of dialysis treatments. Indicate the date of treatments for PT and OT.

Block No.	Description	Guidelines
17 17b	Name of referring physician or other source	<p>Enter the name (First Name, Middle Initial, Last Name) and credentials of the professional who referred, ordered or supervised the service(s) or supplies on the claim. If multiple providers are involved, enter one provider using the following priority order:</p> <ul style="list-style-type: none"> • Referring Provider • Ordering Provider • Supervising Provider <p>Do not use periods or commas within the name. A hyphen can be used for hyphenated names. Enter the applicable qualifier to identify which provider is being reported.</p> <p>DN = Referring Provider DK = Ordering Provider DQ = Supervising Provider</p> <p>The NPI must be entered in block 17b.</p> <p>Supervising Physician for Referring Physicians: If there is a Supervising Physician for the referring or ordering provider that is listed in Block 17, the name and NPI of the supervising provider must go in Block 19.</p>
19	Additional claim information	<p>Ambulance transfers of multiple clients If the claim is part of a multiple transfer, indicate the other client’s complete name and CSHCN Services Program number, or indicate "Not a CSHCN Services Program client."</p> <p>Ambulance Hospital-to-Hospital Transfers Indicate the services required from the second facility and unavailable at the first facility</p> <p>Supervising Physician for Referring Physicians If there is a Supervising Physician for the referring or ordering provider that is listed in Block 17, the name and NPI of the supervising provider must go in Block 19.</p>
20	Outside lab?	<p>Check the appropriate box. The information may be requested for retrospective review.</p> <p>If “yes,” enter the name and address or provider identifier of the facility that performed the service in Block 32.</p> <p><i>Note: The CSHCN Services Program regulations require a provider bill only for those laboratory services that he or she actually performed. Any services performed outside of the provider’s office must be billed by the performing laboratory or radiology center.</i></p>

Block No.	Description	Guidelines
21	Diagnosis or nature of illness or injury	<p>Enter the applicable ICD indicator to identify which version of ICD codes is being reported.</p> <p>9 = ICD-9-CM 0 = ICD-10-CM</p> <p>Reminder: For dates of discharge on or before September 30, 2015, use ICD-9-CM diagnosis codes. For dates of discharge on or after October 1, 2015, use ICD-10-CM diagnosis codes.</p> <p>Enter the patient’s diagnosis and/or condition codes. List no more than 12 diagnosis codes.</p> <p>Relate lines A-L to the lines of service in 24E by the letter of the line. Use the highest level of specificity.</p> <p>Do not provide narrative description in this field.</p>
23	Prior authorization number	<p>Enter the PAN issued by TMHP, if applicable.</p> <p>For Workers’ Compensation and Other Property & Casualty Claims: Required when prior authorization, referral, concurrent review, or voluntary certification was received.</p>
24	(Various)	<p>General notes for Blocks 24a through 24j:</p> <ul style="list-style-type: none"> • Unless otherwise specified, all required information should be entered in the unshaded portion. • If more than 6-line items are billed for the entire claim, a provider must attach additional claim forms with no more than 28-line items for the entire claim. • For multipage claim forms, indicate the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the claim form.
24a	Date(s) of service	<p>Enter the date of service for each procedure provided in a MM/DD/YYYY format.</p> <p>Grouping is allowed only for services on consecutive days. The number of days must correspond to the number of units in 24g.</p> <p>If grouping services, the place of service, procedure code, charges, and individual provider for each line must be identical for that service line.</p> <p>National Drug Code (NDC)</p> <p>In the shaded area, enter:</p> <ul style="list-style-type: none"> • NDC qualifier N4 (e.g., N4) • The 11-digit NDC number on the package or vial from which the medication was administered. Do not enter spaces or hyphens within this number (e.g., 00409231231) <p>Example: N400409231231</p> <p>Referto: Section 5.6.2.4, “National Drug Codes (NDC)” in this chapter.</p>

Block No.	Description	Guidelines
24b	Place of service	Select the appropriate POS code for each service from the table under Section 5.6.2.9, "Place of Service (POS) Coding" in this chapter.
24d	Fully describe procedures, medical services, or supplies furnished for each date given	<p>Enter the appropriate procedure codes and modifier for all services billed. If a procedure code is not available, enter a concise description.</p> <p>Note: ASC providers should enter only one CPT procedure code for the inclusive global fee.</p> <p>In the shaded area, enter an NDC quantity of units administered, up to 12 digits including the decimal point (e.g., 0.025).</p> <p>Referto: Section 5.6.2.4, "National Drug Codes (NDC)" in this chapter.</p>
24e	Diagnosis pointer	<p>In 24 E, enter the diagnosis code reference letter (pointer) as shown in Form Field 21 to relate the date of service and the procedures performed to the primary diagnosis. When multiple services are performed, the primary reference number for each service should be listed first, other applicable services should follow.</p> <p>The reference letter(s) should be A-L or multiple letters as applicable.</p> <p>Diagnosis codes must be entered in Form Field 21 only. Do not enter diagnosis codes in Form Field 24E.</p>
24f	Charges	Indicate the usual and customary charges for each service listed. Charges must not be higher than fees charged to private-pay clients.
24g	Days or units	<p>If multiple services are performed on the same day, enter the number of services performed (such as the quantity billed).</p> <p>Note: The maximum number of units per detail is 9,999.</p> <p>In the shaded area, enter the NDC unit of measurement code (e.g., GR).</p> <p>There are 5 allowed values: F2, GR, ML, UN or ME.</p> <p>Referto: Section 5.6.2.4, "National Drug Codes (NDC)" in this chapter.</p> <p>Enter the number of blood factor units provided.</p>
24j	Rendering provider ID # (performing)	<p>Enter the provider identifier of the individual rendering services unless otherwise indicated in the provider specific section of this manual. Do not enter the performing identifier in Block 33.</p> <p>Enter the TPI in the shaded area of the field.</p> <p>Enter the NPI in the unshaded area of the field.</p>
26	Patient's account number	<p>Optional</p> <p>Any alphanumeric characters (up to 15) in this block are referenced on the Remittance and Status (R&S) Report.</p>
27	Accept assignment	<p>Required</p> <p>All providers of the CSHCN Services Program Services must accept assignment to receive payment by checking Yes.</p>

Block No.	Description	Guidelines
28	Total charge	Enter the total charges. For multi-page claims enter “continue” on initial and subsequent claim forms. Indicate the total of all charges on the last claim. <i>Note:</i> Indicate the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the form.
29	Amount paid	Enter any amount paid by an insurance company or other sources known at the time of submission of the claim. Identify the source of each payment and date in Block 11. If the client makes a payment, the reason for the payment must be indicated in Block 11.
30	Balance due	If appropriate, subtract Block 29 from Block 28 and enter the balance.
31	Signature of physician or supplier	The physician, supplier or an authorized representative must sign and date the claim. Billing services may print “Signature on File” in place of the provider’s signature if the billing service obtains and retains on file a letter signed by the provider authorizing this practice. <i>Referto:</i> Section 5.7, “Claims Filing Instructions” in this chapter
32	Service facility location information	If services were provided in a place other than the client’s home or the provider’s facility, enter name, address, and ZIP+4 Code of the facility where the service was provided.
32A	NPI	Enter the NPI of the service facility location.
33	Billing provider info & PH #	Enter the billing provider’s name, street, city, state, ZIP+4 Code, and telephone number.
33A	NPI	Enter the NPI of the billing provider.
33B	Other ID #	Enter the TPI of the billing provider.

5.7.2.5 UB-04 CMS-1450 Paper Claim Form Instructions

The following services must be billed using the UB-04 CMS-1450 paper claim form or electronic claim format when requesting payment:

- Hospital ambulatory surgical center (HASC)
- Home health (skilled nursing service)
- Hospice services
- Inpatient hospital
- Inpatient rehabilitation
- Outpatient hospital
- Renal dialysis facility

Referto: The [Institutional paper claim form \(CMS-1450\)](#) CMS website at www.cms.gov for more information about the CMS-1450 paper claim form. Providers can purchase CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

5.7.2.6 UB-04 CMS-1450 Electronic Billing

Electronic billers must submit UB-04 CMS-1450 claims with TexMedConnect or approved vendor software that uses the ANSI ASC X12 837I 5010 format. Specifications are available to providers developing in-house systems and software developers and vendors. Because each software package is different, field locations may vary. Contact the software developer or vendor for this information. Direct questions and development requirements to the TMHP EDI Help Desk at 1-888-863-3638.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for more information about electronic billing.

5.7.2.7 Instructions for Completing the UB-04 CMS-1450 Paper Claim Form

These instructions describe the information that must be entered in each of the block numbers of the UB-04 CMS-1450 paper claim form. *Block numbers not referenced in the table may be left blank. They are not required for claim processing by TMHP.*

Block No.	Description	Guidelines
1	Unlabeled	Enter the hospital name, street, city, state, ZIP+4 Code, and telephone number.
3a	Patient control number	Optional Any alphanumeric character (limit 16) entered in this block is referenced on the R&S Report.
3b	Medical record number	Enter the client's medical record number (limited to ten digits) assigned by the hospital.

Block No.	Description	Guidelines
4	Type of bill (TOB)	<p>Enter a TOB code.</p> <p>First Digit—Type of Facility:</p> <ul style="list-style-type: none"> 1 Hospital 3 Home health agency 7 Clinic (rural health clinic [RHC], federally qualified health center [FQHC]) 8 Special facility <p>Second Digit—Bill Classification (except clinics and special facilities):</p> <ul style="list-style-type: none"> 1 Inpatient (including Medicare Part A) 2 Inpatient (Medicare Part B only) 3 Outpatient 4 Other (for hospital-referenced diagnostic services, for example, laboratories and X-rays) <p>Third Digit—Frequency:</p> <ul style="list-style-type: none"> 0 Nonpayment/zero claim 1 Admit through discharge 2 Interim-first claim 3 Interim-continuing claim 4 Interim-last claim 5 Late charges-only claim 6 Adjustment of prior claim 7 Replacement of prior claim
6	Statement covers period	Enter the beginning and ending dates of service billed.
8a	Patient identifier	<p>Optional</p> <p>Enter the client identification number if it is different than the Subscriber and insured’s identification number.</p>
8b	Patient name	Enter the client’s last name, first name, and middle initial.
9a-9b	Patient address	Starting in 9a, enter the client’s complete address as described (street, city, state, and ZIP+4 Code).
10	Birthdate	Enter the client’s date of birth (MM/DD/YYYY).
11	Sex	Indicate the client’s sex by entering an “M” or “F.”
12	Admission date	Enter the numerical date (MM/DD/YYYY) of admission for inpatient claims; date of service (DOS) for outpatient claims; or start of care (SOC) for home health claims.
13	Admission hour	Use military time (00 to 23) for the time of admission for inpatient claims or time of treatment for outpatient claims.

Block No.	Description	Guidelines
14	Type of admission	Enter the appropriate type of admission code for inpatient claims: 1 Emergency 2 Urgent 3 Elective 4 Newborn (This code requires the use of special source of admission code in Block 15.) 5 Trauma center
15	Source of admission	Enter the appropriate source of admission code for inpatient claims. For type of admission 1, 2, 3, or 5: 1 Physician referral 2 Clinic referral 3 Health maintenance organization (HMO) referral 4 Transfer from a hospital 5 Transfer from skilled nursing facility (SNF) 6 Transfer from another health-care facility 7 Emergency room 8 Court/law enforcement 9 Information not available For type of admission 4 (newborn): 1 Normal delivery 2 Premature delivery 3 Sick baby 4 Extramural birth 5 Information not available
16	Discharge hour	For inpatient claims, enter the hour of discharge or death. Use military time (00 to 23) to express the hour of discharge. If this is an interim bill (client status of "30"), leave the block blank.
17	Patient Status	For inpatient claims, enter the appropriate two-digit code to indicate the client's status as of the statement "through" date. Referto: Section 5.7.2.8, "Client Status (for block 17)" in this chapter.
18-28	Condition codes	Enter the two-digit condition code "05" to indicate that a legal claim was filed for recovery of funds potentially due to a client.
29	ACDT state	Optional Accident state.
31-34	Occurrence codes and dates	Enter the appropriate occurrence code(s) and date(s). Blocks 54, 61, 62, and 80 must also be completed as required. Referto: Section 5.7.2.9, "Occurrence Codes (for blocks 31 through 34)" in this chapter.

Block No.	Description	Guidelines
35-36	Occurrence span codes and dates	For inpatient claims, enter code “71” if this hospital admission is a readmission within 7 days of a previous stay. Enter the dates of the previous stay.
39-41	Value codes	<p>Accident hour—For inpatient claims, if the client was admitted as the result of an accident, enter value code 45 with the time of the accident using military time (00 to 23). Use code 99 if the time is unknown.</p> <p>For inpatient claims, enter value code 80 and the total days represented on this claim that are to be covered. Usually, this is the difference between the admission and discharge dates. In all circumstances, the number in this block is equal to the number of covered accommodation days listed in Block 46.</p> <p>For inpatient claims, enter value code 81 and the total days represented on this claim that are not covered. The sum of Blocks 39-41 must equal the total days billed as reflected in Block 6.</p>
42-43	Revenue codes and description	<p>For inpatient hospital services, enter the description and revenue code for the total charges and each accommodation and ancillary provided.</p> <p>List accommodations in the order of occurrence.</p> <p>List ancillaries in ascending order. The space to the right of the dotted line is used for the accommodation rate.</p> <p>National Drug Code</p> <p>Enter N4</p> <p>Enter the 11-digit NDC number (number on package or container from which medication was administered). Do not enter hyphens or spaces within this number (e.g., 00409231231).</p> <p>The unit of measurement code and the unit quantity with a floating decimal for fractional units (limited to 3 digits) must also be submitted (e.g., 0.025).</p> <p>Example: N400409231231GR0.025</p> <p>Referto: Section 5.6.2.4, “National Drug Codes (NDC)” in this chapter.</p>

Block No.	Description	Guidelines
44	HCPCS/rates	<p>Inpatient</p> <p>Enter the accommodation rate per day.</p> <p>Match the appropriate diagnoses listed in Blocks 67A through 67Q corresponding to each procedure. If a procedure corresponds to more than one diagnosis, enter the primary diagnosis.</p> <p>Each service and supply must be itemized on the claim form.</p> <p>Outpatient</p> <p>Outpatient claims must have the appropriate Healthcare Common Procedure Coding System (HCPCS) code.</p> <p>Each service, except for medical/surgical and intravenous (IV) supplies and medication, must be itemized on the claim form or an attached statement.</p> <p>Note: <i>The UB-04 CMS-1450 claim form is limited to 28 items per outpatient claim. This limitation includes surgical procedures from Blocks 74 and 74a-e.</i></p> <p>If necessary, combine IV supplies and central supplies on the charge detail and consider them to be single items with the appropriate quantities and total charges by dates of service. Multiple dates of service may not be combined on outpatient claims.</p> <p>Note: <i>HASC providers should enter only one CPT procedure code for the inclusive global fee.</i></p>
45	Service date	Enter the numerical date of service that corresponds to each procedure for outpatient claims. Multiple dates of service may not be combined on outpatient claims.
45 (line 23)	Creation date	Enter the date the bill was submitted.
46	Serv. units	<p>Provide units of service, if applicable.</p> <p>For inpatient services, enter the number of days for each accommodation listed. If applicable, enter the number of pints of blood.</p> <p>When billing for observation room services, the units indicated in this block should always represent hours spent in observation.</p> <p>Enter the number of blood factor units provided.</p>
47	Total charges	Enter the total charges for each service provided.
47 (line 23)	Totals	<p>Enter the total charges for the entire claim.</p> <p>Note: <i>For multi-page claims enter "continue" on initial and subsequent claim forms. Indicate the total of all charges on the last claim. Indicate the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the form.</i></p>

Block No.	Description	Guidelines
48	Noncovered charges	Enter the amount of the total noncovered charges.
50	Payer Name	Enter the health plan name.
51	Health Plan ID	Enter the health plan identification number.
54	Prior payments	Enter amounts paid by any TPR, and complete Blocks 31, 61, 62, and 80 as required.
56	NPI	Enter the NPI of the billing provider. HASC facilities should use the HASC provider identifier for scheduled outpatient day surgeries. Claims for emergency, unscheduled outpatient surgical procedures should be using the hospital's outpatient provider identifier.
57	Other identification (ID) number	Enter the CSHCN Services Program TPI number (non-NPI number) of the billing provider.
58	Insured's name	If other health insurance is involved, enter the insured's name.
60	Insured's Unique ID	Enter the client's nine-digit CSHCN Services Program identification number.
61	Insured group name	Enter the name and address of the other health insurance.
62	Insurance group number	Enter the policy number or group number of the other health insurance.
63	Treatment authorization code	Enter the prior authorization number if one was issued.
65	Employer name	Enter the name of the client's employer if health care might be provided.
66	Diagnosis/Procedure Code Qualifier	Enter the applicable ICD indicator to identify which version of ICD codes is being reported: 9 = ICD-9-CM 0 = ICD-10-CM
67	Principal diagnosis (DX) code and present on admission (POA) indicator	Enter the diagnosis code in the unshaded area for the principal diagnosis to the highest level of specificity available. Reminder: For dates of discharge on or before September 30, 2015, use ICD-9-CM diagnosis codes. For dates of discharge on or after October 1, 2015, use ICD-10-CM diagnosis codes. Required POA Indicator—Enter the applicable POA indicator in the shaded area for inpatient claims. HASC providers are not required to enter a diagnosis code. Referto: Section 5.7.2.10, "POA Indicators (for blocks 67 and 72)" in this chapter.

Block No.	Description	Guidelines
67A-67Q	Other DX codes and POA indicator	<p>Enter the diagnosis code in the unshaded area to the highest level of specificity available for each additional diagnosis.</p> <p>Reminder: For dates of discharge on or before September 30, 2015, use ICD-9-CM diagnosis codes. For dates of discharge on or after October 1, 2015, use ICD-10-CM diagnosis codes.</p> <p>Enter one diagnosis per block, using Blocks A through J only. A diagnosis is not required for clinical laboratory services provided for nonpatients (TOB “141”).</p> <p>Exception: A diagnosis is required when billing for estrogen receptor assays, plasmapheresis, and cancer antigen CA 125, immunofluorescent studies, surgical pathology, and alphafetoprotein.</p> <p>Note: Diagnosis codes entered in 67K-67Q are not required for systematic claims processing.</p> <p>Required</p> <p>POA indicator-Enter the applicable POA indicator in the shaded area for inpatient claims.</p> <p>Referto: Section 5.7.2.10, “POA Indicators (for blocks 67 and 72)” in this chapter.</p>
69	Admit DX code	<p>Enter the diagnosis code indicating the cause of admission or include a narrative.</p> <p>Reminder: For dates of discharge on or before September 30, 2015, use ICD-9-CM diagnosis codes. For dates of discharge on or after October 1, 2015, use ICD-10-CM diagnosis codes.</p> <p>Note: The admitting diagnosis is only for inpatient claims.</p>
70a-70c	Patient’s reason DX	<p>Optional</p> <p>New block indicating the client’s reason for visit on unscheduled outpatient claims.</p>
71	Prospective Payment System (PPS) code	<p>Optional</p> <p>The PPS code is assigned to the claim to identify the DRG based on the grouper software called for under contract with the primary payer.</p>

Block No.	Description	Guidelines
72a-72c	External cause of injury (ECI) and POA indicator	<p>Required</p> <p>Enter the diagnosis code in the unshaded area to the highest level of specificity available for each additional diagnosis.</p> <p>Reminder: For dates of discharge on or before September 30, 2015, use ICD-9-CM diagnosis codes. For dates of discharge on or after October 1, 2015, use ICD-10-CM diagnosis codes.</p> <p>POA indicator—Enter the applicable POA indicator in the shaded area for inpatient claims.</p> <p>Referto: Section 5.7.2.10, “POA Indicators (for blocks 67 and 72)” in this chapter.</p>
74	Principal procedure code and date	<p>Enter the HCPCS procedure code for each surgical procedure and the date (MM/DD/YYYY) each was performed.</p> <p>Note: HASC providers enter only one CPT procedure code for the inclusive global fee.</p>
74a-74e	Other procedure codes and dates	<p>Enter the HCPCS procedure code for each surgical procedure and the date (MM/DD/YYYY) each was performed.</p>
76	Attending provider	<p>Enter the attending provider name and identifiers.</p> <p>NPI number of the attending provider.</p> <p>For inpatient claims enter the NPI of the provider who perform the service or procedure or is responsible for the treatment and plan of care (POC).</p> <p>For outpatient claims enter the NPI of the physician who referred the client to the hospital.</p>
77	Operating	<p>Enter name (last name and first name) and NPI number of the operating provider (the individual with the primary responsibility for performing the surgical procedures).</p> <p>Required when a surgical procedure codes is listed on the claim.</p>
78-79	Other provider	<p>Other provider’s name (last name and first name) and NPI.</p> <p>Other operating physician—An individual performing a secondary surgical procedure or assisting the operating physician. Required when another operating physician is involved.</p> <p>Designated physician—For a limited client when the physician performed or authorized nonemergency care.</p> <p>Rendering provider—The health-care professional who performed, delivered, or completed a particular medical service or nonsurgical procedure.</p> <p>Note: If the referring physician is a resident, Blocks 76 through 79 must identify the physician who is supervising the resident.</p>

Block No.	Description	Guidelines
80	Remarks	<p>This block is used to explain special situations such as the following:</p> <ul style="list-style-type: none"> • The home health agency must document in writing the number of Medicare visits used in the nursing plan of care and also in this block. • If a client stays beyond dismissal time, indicate the medical reason if additional charge is made. • If billing for a private room, the medical necessity must be indicated, signed, and dated by the physician. • If services are the result of an accident, the cause and location of the accident must be entered in this block. The time must be entered in Block 39. • If laboratory work is sent out, the name and address or the provider identifier of the facility where the work was forwarded must be entered in this block. • If the services resulted from a family planning provider's referral, write "family planning referral." • If services were provided at another facility, indicate the name and address of the facility where the services were rendered.
81A-81D	Code code (CC)	<p>Optional</p> <p>Area to capture additional information necessary to adjudicate the claims. Required when, in the judgment of the provider, the information is needed to substantiate the medical treatment and is not supported elsewhere on the claim data set.</p>

5.7.2.8 Client Status (for block 17)

Code	Description
1	Routine discharge
2	Discharged to another short-term general hospital
3	Discharged to SNF
4	Discharged to intermediate care facility (ICF)
5	Discharged to another type of institution
6	Discharged to care of home health service organization
7	Left against medical advice
8	Discharged or transferred to home under care of a Home IV provider
9	Admitted as an inpatient to this hospital (only for use on Medicare outpatient hospital claims)
20	Expired
30	Still client (To be used only when the client has been in the facility for 30 consecutive days and payment is based on diagnosis-related group [DRG])
40	Expired at home (hospice use only)
41	Expired in a medical facility (hospice use only)

Code	Description
42	Expired - place unknown (hospice use only)
43	Discharged or transferred to a federal hospital (such as a Veterans Administration [VA] hospital)
50	Hospice-Home
51	Hospice-Medical facility
61	Discharged or transferred within this institution to a hospital-based Medicare approved swing bed
62	Discharged or transferred to an inpatient rehabilitation facility (IRF), including rehabilitation distinct part units of a hospital
63	Discharged/transferred to a Medicare-certified long-term care hospital (LTCH)
64	Discharged or transferred to a nursing facility certified under Medicaid, but not certified under Medicare
65	Discharged or transferred to a psychiatric hospital or psychiatric distinct part unit of a hospital
66	Discharged or transferred to a critical access hospital (CAH)
71	Discharged to another institution of outpatient (OP) services
72	Discharged to another institution

5.7.2.9 Occurrence Codes (for blocks 31 through 34)

Providers can refer to the National Uniform Billing Code website at www.nubc.org for the current list of occurrence codes.

5.7.2.10 POA Indicators (for blocks 67 and 72)

Code	Description	Guidelines
Y	Yes	Diagnosis was present at the time of admission.
N	No	Diagnosis was not present at the time of admission.
U	Unknown	Documentation is insufficient to determine if condition is present at time of inpatient admission.
W	Clinically undetermined	Provider is unable to clinically determine whether condition was present at time of inpatient admission.
Blank	Unreported/Not used	Exempt from POA reporting.

5.7.2.11 Dental Claim Filing

Dental and orthodontia services must be billed using the 2012 American Dental Association (ADA) Dental Paper Claim Form or equivalent electronic format when requesting payment.

Providers are responsible for obtaining these forms from a supplier of their choice.

Referto: The ADA website at www.ada.org for a sample of the ADA Dental Claim Form.

5.7.2.12 2012 ADA Dental Claim Electronic Billing

Electronic billers must submit dental claims using TexMedConnect or an approved vendor software that uses the ANSI ASC X12 837D 5010 format. Specifications are available to providers developing in-house systems and software developers and vendors. Because each software package is different, block locations may vary. Contact the software developer or vendor for this information. Direct questions and development requirements to the TMHP EDI Help Desk at 1-888-863-3638.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for more information about electronic billing.

5.7.2.13 Instructions for Completing the Paper ADA Dental Claim Form

The instructions describe the information that must be entered in each of the block numbers of the paper 2012 ADA Dental Claim Form. Thoroughly complete the dental claim form according to the instructions below to facilitate prompt and accurate reimbursement and reduce follow-up inquiries.

Block No.	ADA Description	Instructions
1	Type of Transaction (Mark all applicable boxes)	For the CSHCN Services Program, check Statement of Actual Services Box. The other two boxes are not applicable.
2	Predetermination/Preauthorization Number	Enter PAN if assigned by the CSHCN Services Program.
3	Company/Plan Name, Address, City, State, ZIP Code	Enter name and address of CSHCN Services Program Contractor payer where the claim is to be sent.
4	Other Dental or Medical Coverage	Check "No" if no other dental or medical coverage (skip blocks 5-11). Check "Yes" if dental or medical coverage is available other than CSHCN Services Program coverage, and complete Blocks 5-11.
5	Name of Policyholder/Subscriber in #4	This line refers to the insured and is not necessarily the client. May be a parent or legal guardian of the client receiving treatment.
6	Date of Birth (MM/DD/CCYY)	Enter insureds eight-digit date of birth (MM/DD/CCYY). This line refers to the insured and is not necessarily the client. May be a parent or legal guardian of the client receiving treatment.
7	Gender	Check insureds correct gender. This line refers to the insured and is not necessarily the client. May be parent or legal guardian of client receiving treatment.
8	Policyholder/Subscriber ID (SSN or ID#)	Enter insureds subscriber identifier. This line refers to the insured and is not necessarily the client. May be a parent or legal guardian of the client receiving treatment.
9	Plan/Group Number	Enter insureds plan/group number. This line refers to the insured and is not necessarily the client. May be a parent or legal guardian of the client receiving treatment.
10	Client's Relationship to Person Named in #5	Enter insureds relationship to primary subscriber. This line refers to the insured and is not necessarily the client. May be a parent or legal guardian of the client receiving treatment.
11	Other Insurance Company/ Dental Benefit Plan Name, Address, City, State, ZIP Code	Information on other insurance carrier, if applicable.
12	Policyholder/Subscriber Name (Last, First, Middle Initial, Suffix), Address, City, State, ZIP Code	Enter client's last name, first name, and middle initial exactly as written on the CSHCN Services Program Eligibility Form.
13	Date of Birth (MM/DD/CCYY)	Enter client's eight-digit date of birth (MM/DD/CCYY).
14	Gender	Check client's gender.
15	Policyholder/Subscriber ID (SSN or ID#)	Enter client's CSHCN Services Program number.

Block No.	ADA Description	Instructions
16	Plan/Group Number	Enter the benefit code, if applicable, of the billing or performing provider.
17	Employer Name	Not applicable for the CSHCN Services Program.
18	Relationship to Policyholder/Subscriber in #12 Above	Not applicable for the CSHCN Services Program.
19	Reserved for Local Use	Leave blank and skip to Item 20. (Field was previously used to report "Student Status".)
20	Name (Last, First, Middle Initial, Suffix), Address, City, State, ZIP Code	Must put client name information, same as in Block 12.
21	Date of Birth (MM/DD/CCYY)	Must put client's eight-digit date of birth information, same as in Block 13.
22	Gender	Must put client gender information, same as in Block 14.
23	Client ID/Account # (Assigned by Dentist)	Optional —Used by dental office to identify internal client account number. This block is not required to process the claim.
24	Procedure Date (MM/DD/CCYY)	Enter eight-digit date of service (MM/DD/CCYY).
25	Area of Oral Cavity	Not applicable for the CSHCN Services Program.
26	Tooth System	Not applicable for the CSHCN Services Program.
27	Tooth Number(s) or Letter(s)	Enter the Tooth ID as required for procedure code. Select the appropriate tooth number for permanent teeth (01–32 or the appropriate letter for primary teeth 0A through 0T).
28	Tooth Surface	Enter the Surface ID as required for procedure code using M (Mesial); F (Facial); B (Buccal or Labial); O (Occlusal); L (Lingual or Cingulum); D (Distal); and/or I (Incisal).
29	Procedure Code	Use appropriate <i>Current Dental Terminology</i> (CDT) procedure code.
29a	Diagnosis Code Pointer	Enter the letter(s) from Box 34 that identified the diagnosis code(s) applicable to the dental procedure. List the primary diagnosis pointer first.
29b	Procedure Quantity	Enter the number of times (01-99) the procedure identified in Item 29 is delivered to the patient on the date of service shown in item 24. The default value is "01."
30	Description	Provide a brief description of the service provided (e.g., abbreviation of the procedure code's nomenclature). Field length reduced by 8 characters to provide space for added items 29a and 29b.
31	Fee	Enter usual and customary charges for each line of service used. Charges must not be higher than the fees charged to private pay clients.

Block No.	ADA Description	Instructions
31a	Other Fee(s)	When other charges applicable to dental services provided must be reported, enter the amount here. Charges may include state tax and other charges imposed by regulatory bodies. Identify the source of each payment date in Block 11. If the client makes a payment, the reason for the payment must be identified in Block 11. Field number changed to enable addition of added items 34 and 34a.
32	Total Fee	Enter the sum of all fees in Block 31. For multipage claims, enter "continue" on initial and subsequent claim forms. Indicate the total of all charges on the last claim. Note: Indicate the page number of the attachment (for example, page 2 of 3) in the top right-hand corner of the form. Field number change to enable addition of added items 34 and 34a.
33	Missing Teeth Information	Mark an "X" on the number of the missing tooth. (For identifying missing permanent dentition only.) Report missing teeth when pertinent to periodontal, prosthodontic (fixed and removable), or implant services procedures on a particular claim. Field number changed to enable addition of added items 34 and 34a. Field size shortened to indicate the reporting of missing teeth is now limited to permanent dentition.
34	Diagnosis Code List Qualifier	Enter the appropriate code to identify the diagnosis code source: B= ICD-9-CM (for dates of service on or before September 30, 2015) AB= ICD-10 (for dates of service on or after October 1, 2015)
34a	Diagnosis Code(s)	Enter up to four applicable diagnosis codes after each letter (A-D). The primary diagnosis code is entered adjacent to the letter "A".
35	Remarks	Use the Remarks space for local orthodontia codes, a narrative explanation for exception to periodicity (Block 19), a facility name, address, and NPI if the place of treatment (Block 38) is not a provider's office, an emergency narrative (Block 45), or additional information, such as reports for 999 codes or multiple supernumerary teeth, or remarks codes.
36	Client/Guardian signature	Not applicable for the CSHCN Services Program.
37	Subscriber signature	Not applicable for the CSHCN Services Program.

Block No.	ADA Description	Instructions
38	Place of Treatment	<p>Enter the 2-digit place of service (POS) code for professional claims, which is a <i>Health Insurance Portability and Accountability Act</i> (HIPAA) standard.</p> <p>Frequently used POS codes include the following:</p> <ul style="list-style-type: none"> • 11=Office • 12=Home • 21=Inpatient hospital • 22= Outpatient hospital • 31=Skilled nursing facility • 32= Nursing facility <p>Field was changed to enable more accurate location identification using the HIPAA standard code set for place of service.</p> <p>Note: All current POS codes are available online from the Centers for Medicare & Medicaid Services (CMS).</p>
39	Enclosures	<p>Enter a “Y” or “N” to indicate whether there are enclosures of any type included with the claim submission (e.g., radiographs, oral images, models).</p> <p>Field changed to report Yes/No instead of types and quantities of enclosures.</p>
40	Is Treatment For Orthodontics?	Check Yes or No as appropriate.
41	Date Appliance Placed (MM/DD/CCYY)	Not applicable for the CSHCN Services Program.
42	Months of Treatment Remaining	Not applicable for the CSHCN Services Program.
43	Replacement of Prosthesis?	Not applicable for the CSHCN Services Program.
44	Date Prior Placement (MM/DD/CCYY)	Not applicable for the CSHCN Services Program.
45	Treatment Resulting from	Providers are required to check Other Accident box for emergency claim reimbursement. If Other Accident box is checked, information about the emergency must be provided in Block 35.
46	Date of Accident (MM/DD/CCYY)	Not applicable for the CSHCN Services Program.
47	Auto Accident State	Not applicable for the CSHCN Services Program.
48	Name, Address, City, State, ZIP Code	Name and address of the billing group or individual provider (not the name and address of a provider employed within a group).
49	NPI	Enter required billing dentist’s NPI for a group or an individual (not the NPI for a provider employed within a group).
50	License Number	Not applicable for the CSHCN Services Program.
51	SSN or TIN	Not applicable for the CSHCN Services Program.

Block No.	ADA Description	Instructions
52	Telephone Number	Enter area code and telephone number of billing group or individual (not the telephone number of a provider employed within a group).
52A	Additional Provider ID	Enter the TPI assigned to the billing dentist or dental entity (not the CSHCN Services Program employed within a group).
53	Signed (Treating Dentist)	Required signature of treating dentist or authorized personnel.
54	NPI	Enter the performing dentist's (provider who treated the client).
55	License Number	Not applicable for the CSHCN Services Program.
56	Address, City, State, ZIP Code	Not applicable for the CSHCN Services Program.
56A	Provider Speciality Code	This block is optional.
57	Telephone Number	Not applicable for the CSHCN Services Program.
58	Additional Provider ID	Required information—must enter nine-character TPI for the performing dentist (provider who treated the client) TPI.

5.7.2.14 Electronic Claims Submission

TMHP uses the HIPAA-compliant ANSI ASC X12 5010 file format through secure socket layer (SSL) and virtual private networking (VPN) connections for maximum security.

Claims may be submitted electronically to TMHP through TexMedConnect on the TMHP website at www.tmhp.com or through billing agents who interface directly with the TMHP Electronic Data Interchange (EDI) Gateway. Files that are submitted using EDI version 5010 are limited to a maximum of 5,000 transactions per file. Files that have more than 5,000 transactions will be rejected.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for more information about electronic claims submission.

5.7.2.15 Taxonomy Codes

Billing providers that are not associated with a group are required to submit a taxonomy code on all electronic claims. TMHP will reject claims for non-group billing providers (individuals and facilities) that are submitted without a taxonomy code.

Group billing providers are no longer required to submit the taxonomy code on electronic claims. Group billing providers can submit the taxonomy code to assist with the NPI crosswalk.

5.7.2.16 Dates on Claims

All dates (such as date of birth and date of service) entered on the claim (electronic and paper) must be eight digits in MMDDYYYY format.

Example: August 6, 2013, is entered as 08062013.

5.7.2.17 Span Dates

Providers currently submitting paper claims and that have provided services on consecutive days may bill multiple consecutive days per claim detail as long as the dates are in the same month and year. Providers must indicate (in the quantity billed) the number of dates they are billing.

Example: Services were provided each day from August 6, 2013, to August 16, 2013. When submitting the paper claim, enter the from date of service as 08062013 and the to date of service as 08162013. The quantity is 11.

Note: Claims submitted with a quantity billed not equal to the number of days indicated in the date of service blocks are denied. When the claim is processed, the system creates multiple details consisting of four consecutive days each so that the claim appears on the provider's R&S Report with one detail for each 4 days billed. Using the example above, there are three details as illustrated below.

If the number of details created during this process is greater than 28, the claim is denied for exceeding the maximum details per claim, and the provider must resubmit the claim, dividing the dates of service into multiple claims, to convey complete billing information.

Detail	From DOS	To DOS	Qty Billed
1	08062013	08092013	4
2	08102013	08132013	4
3	08142013	08162013	3

5.7.2.18 Hospital Billing

Hospitals submitting inpatient claims on paper may submit up to 61 service lines per claim. When the claim is submitted, the system performs a merge function that combines like revenue codes to reduce the number of service lines to 28 or less. Because of the merge function, it is important to understand that when the claim appears on the R&S Report the provider does not see the 61 service lines submitted, but rather the results of merged details. If the merge function is unable to merge the number of service lines to 28, the claim is denied for exceeding the maximum details per claim, and the claim needs to be subdivided and resubmitted as multiple claims.

For more information on electronic claim submission, contact the TMHP EDI Help Desk at 1-888-863-3638, which is available Monday through Friday, from 7 a.m. to 7 p.m., Central Time.

5.7.2.19 Group Billing

Providers billing as a group must give the provider identifier of the individual rendering the services on their claims as well as the group provider identifier. To be eligible for reimbursement, both the group and the performing provider must be enrolled in the CSHCN Services Program.

5.7.3 Supervising Physician Provider Number Required on Some Claims

The supervising physician provider number will be required on some claims for services that are ordered or referred by one provider at the direction of or under the supervision of another provider, and the referral or order is based on the supervised provider's evaluation of the client.

If a referral or order for services is based on a client evaluation that was performed by the supervised provider, the claim from the performing provider must include the names and National Provider Identifiers (NPIs) of both the ordering provider and the supervising provider for Children with Special Health Care Needs (CSHCN) Services Program clients. The performing provider will need to obtain all of the required information from the ordering or referring provider before submitting the claim to TMHP.

Note: Pharmacy claims are currently excluded from this requirement.

5.7.4 Ordering/Referring Provider NPI

All CSHCN Services Program claims for services that require a physician order or referral must include the ordering or referring provider's NPI:

- If the ordering or referring provider is enrolled in the CSHCN Services Program as a billing or performing provider, the billing or performing provider NPI can be used.

- If the ordering or referring provider is not currently enrolled in the CSHCN Services Program as a billing or performing provider, the provider can enroll to receive an ordering or referring-only Texas Provider Identifier (TPI). The provider will receive one TPI that can be used for orders and referrals for both Texas Medicaid clients and CSHCN Services Program clients.

Note: The billing provider will be responsible for confirming that the ordering or referring provider is enrolled as an ordering or referring-only provider.

Claims that are submitted without the ordering or referring provider's NPI may be subject to retrospective review and denial if the NPI is not included on the claim.

5.8 Reimbursement

CSHCN Services Program reimbursements are available to all actively enrolled providers either by check or electronic funds transfer (EFT). Through EFT, TMHP deposits reimbursements directly into a provider's bank account. Active providers do not have any type of payment holds on their enrollment status.

The CSHCN Services Program reimburses hospitals, physicians, and other suppliers of service. Each section of this manual gives more detail concerning the methods used to reimburse each provider specialty for claims processed by TMHP. The following information is provided as an overview of the CSHCN Services Program reimbursement methodology.

The CSHCN Services Program implemented rate reductions for certain services. The Online Fee Lookup (OFL) includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

5.8.1 Electronic Funds Transfer (EFT)

EFT is a method for directly depositing funds into a designated bank account. When providers enroll, TMHP deposits funds from their approved claims directly into their designated bank account. Transactions transmitted through EFT contain descriptive information to help providers reconcile their bank accounts.

5.8.1.1 Advantages of EFT

The advantages of EFT are:

- Stop payments are no longer necessary because no paper is involved in the transaction process.
- Payment theft is less likely to occur because the process is handled electronically rather than by paper.
- Deposited funds are available for withdrawal within a few days after completion of the TMHP financial cycle.
- Upon deposit, the bank considers the transaction immediately collected. No float is attached to EFT deposits for CSHCN Services Program funds.
- TMHP includes provider and R&S Report numbers with each transaction submitted. If the banks processing software captures and displays the information, both numbers would appear on the banking statement.

5.8.1.2 Enrollment Procedures

Providers are strongly encouraged to participate in EFT. EFT does not require special software, and providers can enroll immediately. To enroll in EFT, complete the [Electronic Funds Transfer \(EFT\) Notification](#). Complete the EFT form, include a deposit slip or canceled check, and mail or fax the items to:

Texas Medicaid & Healthcare Partnership
Attn: Provider Enrollment
PO Box 200795
Austin, TX 78720-0765
Fax: 1-512-514-4214

The EFT form allows the entry of up to eight TPI numbers. Additional EFT forms may be submitted when a provider needs to list more than eight TPI numbers. Each form must include a provider signature.

TMHP issues a prenotification transaction during the next cycle directly to the provider's bank account. This transaction serves as a checkpoint to verify EFT is working correctly.

If the bank returns the prenotification without errors, the provider begins to receive EFT transactions with the third cycle following the enrollment form processing. The provider continues to receive paper checks until they begin to receive EFT transactions.

If the provider changes bank accounts, the provider must submit a new EFT Agreement to the TMHP Provider Enrollment department. The prenotification process is repeated and, once completed, the EFT transaction is deposited to the new bank account.

5.8.1.3 Payment Window Reimbursement Guidelines for Services Preceding an Inpatient Admission

According to the three-day and one-day payment window reimbursement guidelines, most professional and outpatient diagnostic and nondiagnostic services that are rendered within the designated timeframe of an inpatient hospital stay and are related to the inpatient hospital admission will not be reimbursed separately from the inpatient hospital stay if the services are rendered by the hospital or an entity that is wholly owned or operated by the hospital.

These reimbursement guidelines do not apply in the following circumstances:

- The professional services are rendered in the inpatient hospital setting.
- The hospital and the physician office or other entity are both owned by a third party, such as a health system.
- The hospital is not the sole or 100-percent owner of the entity.

Referto: Section 24.3.7, "Payment Window Reimbursement Guidelines" in Chapter 24, "Hospital" for additional information about the payment window reimbursement guidelines for inpatient admission.

5.8.2 Texas Medicaid Reimbursement Methodology (TMRM)

The CSHCN Services Program reimburses physicians based on the TMRM. This methodology is used to reimburse the following services and tests:

- Physician services
- Services incidental to physician's services
- Diagnostic tests (other than clinical laboratory)
- Radiology services

TMRM is based on Medicare's resource-based relative value scale (RBRVS) with Medicaid modifications.

Refer to individual provider chapters for specific information about reimbursement.

5.8.3 Maximum Allowable Fee Schedule

Physicians/supplier services that are not reimbursed according to TMRM or reasonable charge may be reimbursed according to a maximum fee schedule. Maximum fee schedules are determined by state and federal regulations.

5.8.4 Manual Pricing

Certain procedure codes do not have an established fee and must be priced manually by the TMHP-CSHCN Services Program medical staff. The medical staff determines the reimbursement amount by comparing the services to other services that require a similar amount of skill and resources. If an item requires manual pricing, providers must submit with the prior authorization request or the claim, the appropriate procedure codes and documentation of one of the following, as applicable:

- The manufacturer's suggested retail price (MSRP) or average wholesale price (AWP)
- The provider's documented invoice cost if a published MSRP or AWP is not available

Note: The AWP is for nutritional products only. For appropriate processing and payment, providers should bill the applicable MSRP or AWP rate instead of the calculated manual pricing rate. The calculated rate or the Pay Price that is indicated on the authorization letter for prior authorized services should not be billed on the claim.

5.8.5 Physician Services in Hospital Outpatient Setting

Section 104 of the *Tax Equity and Fiscal Responsibility Act* of 1982 (TEFRA) requires the CSHCN Services Program to limit reimbursement of physician services furnished in a hospital outpatient setting that are also ordinarily furnished in a physician's office. The limit for each service is determined by establishing a charge base for each professional service and multiplying the charge base by 0.60. The charge base for a service is the TMRM fee for similar services furnished in the office.

This provision applies to those procedures performed in the outpatient department of the hospital, such as in clinics and emergency departments. When the eligible client is seen in the outpatient department of the hospital in an emergency situation, the condition that created the emergency must be documented on the claim form.

The following services are excluded from this limitation:

- Surgical services that are covered by ambulatory surgical center (ASC) services
- Anesthesiology and radiology services
- Emergency services provided in a hospital emergency room after the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain), such that the absence of immediate medical attention may be reasonably expected to result in one of the following outcomes:
 - Serious jeopardy to the client's health
 - Serious impairment to bodily functions
 - Serious dysfunction of any body organ or part

5.8.6 Inpatient Hospital Reimbursement

The reimbursement methodology for many CSHCN Services Program facilities that are reimbursed based on the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) has changed to the prospective payment methodology based on All Patient Refined Diagnosis Related Groups (APR-DRG) payment system.

Hospitals that are enrolled in the CSHCN Services program must first be enrolled in Texas Medicaid. The CSHCN Services Program reimbursement methodology has changed from TEFRA to APR-DRG. The reimbursement methodology for hospitals that are reimbursed by Texas Medicaid using APR-DRG also applies for the CSHCN Services Program. This reimbursement methodology applies to all hospitals except for state-owned teaching hospitals and inpatient psychiatric facilities.

The reimbursement method will not affect inpatient benefits and limitations. Inpatient admissions will continue to require prior authorization.

Note: *The 20-percent payment reduction that is currently applied to inpatient claims by the CSHCN Services Program will remain in effect.*

Referto: Section 24.3.2, “Hospital Reimbursement” in Chapter 24, “Hospital” for more information about hospital reimbursement.

Prospective Payment Methodology

The prospective payment methodology is based on a DRG payment system. Reimbursement based on DRG includes all facility charges (e.g., laboratory, radiology, and pathology). Hospital-based laboratories and laboratory providers who deliver referred services outside the hospital setting must obtain reimbursement for the technical portion from the hospital. The technical portion includes the handling of specimens and the automated or technician-generated reading and reporting of results. Claims may not be submitted for technical services.

The CSHCN Services Program does not distinguish types of beds or units within the same acute care facility for the same inpatient stay (e.g., psychiatric or rehabilitation). Because all inpatient hospitalizations are included in the DRG database that determines the DRG payment schedule, psychiatric and rehabilitation admissions are not excluded from the DRG payment methodology. To ensure accurate payment, providers may submit only one claim for each inpatient stay. The claim must include appropriate diagnosis and procedure code sequencing. The discharge and admission hours (military time) are required on the UB-04 CMS-1450 paper claim form or electronic equivalent, to be considered for payment.

The number of days of care charged for a client for inpatient hospital services is always in units of full days. A day begins at midnight and ends 24 hours later. The midnight-to-midnight method is to be used in counting days of care for reporting purposes even if the hospital uses a different definition of day for statistical or other purposes.

A part of a day, including the day of admission and day on which a client returns from leave of absence, counts as a full day. However, the day of discharge, death, or a day on which a client begins a leave of absence is not counted as a day unless discharge or death occur on the day of admission.

If admission and discharge or death occur on the same day, the day is considered a day of admission and counts as one inpatient day.

Reimbursement to acute care hospitals for inpatient services is limited to \$200,000 per client, per benefit year (January 1 through December 31) for clients who are 21 years of age and older. Claims may be subject to retrospective review, which may result in recoupment.

5.8.7 Fees

Providers can now access the online fee lookup (OFL) function on the TMHP website at www.tmhp.com and do the following:

- Retrieve fee schedule information in real time
- Search for procedure code reimbursement rates individually, in a list, or in a range
- Search and review their contracted rates
- Retrieve up to 24 months of history for a procedure code by searching for specific dates of service within that 2-year period
- Perform an online, interactive search of benefit information that has been published within the past 18 months for up to ten procedure codes.

5.8.7.1 Provider-Specific Rates for Procedure Codes with Modifiers and Age-Range Criteria

Providers with contracted rates may also use the OFL on the TMHP website to view provider-specific rates for procedure codes that have modifiers and age range criteria.

Providers may view their provider-specific rates for procedure codes with modifiers and age range criteria by completing the following steps:

- 1) Access the secure portion of the TMHP website at www.tmhp.com
- 2) Click **Fee Schedules**
- 3) Click **Fee Search**
- 4) Click **Contracted Rate Search**
- 5) Select or Enter the following:
 - a) NPA/API/Taxonomy/Address/ZIP+4/ Benefit Code
 - b) Program Code
 - c) Procedure Code
 - d) Date of Service
 - e) Modifier 1 (if applicable)
 - f) Modifier 2 (if applicable)
 - g) Modifier 3 (if applicable)
 - h) Modifier 4 (if applicable)
 - i) From Age, in years (if applicable)
 - j) To Age, in years (if applicable)

- 6) Click **Submit**

The Contracted Rate Search results page features a display of contracted rate search criteria and additional columns and rows to display search results. The Contracted Rate Search results page displays the following:

- Rate Type
- Rate
- Start Date
- End Date (if end-dated)
- Modifiers (if applicable)
- Client From and To Age (if applicable)

5.8.8 CSHCN Services Program Reimbursement Information for Clients

The CSHCN Services Program may reimburse clients for drug copays and transportation of remains when there is an accompanying parent or other responsible person.

Clients may call TMHP at 1-877-888-2350, Monday through Friday, from 7 a.m. to 7 p.m., Central Time, for additional information.

Clients may also receive reimbursement for insurance premiums through the Insurance Premium Payment Assistance (IPPA) program. For additional information, clients may call the TMHP-IPPA toll-free client help line at 1-800-440-0493, Monday through Friday, from 7 a.m. to 7 p.m., Central Time.

5.9 CSHCN Services Program Accounts Receivables (Using Medicaid Funds to Satisfy the AR)

A service that is rendered to a CSHCN Services Program client who receives retroactive Medicaid eligibility may be reimbursed by the CSHCN Services Program or by Medicaid, but not by both.

The CSHCN Services Program is the payer of last resort. The CSHCN Services Program does not supplement a client's Medicaid benefits. However, services that are not a benefit of Medicaid may be covered by the CSHCN Services Program. If dual Medicaid and CSHCN Services Program eligibility is determined, claims that have already been paid by the CSHCN Services Program will be reprocessed under the appropriate program.

An accounts receivable (AR) is created for each CSHCN Services Program claim that is reprocessed and subsequently reimbursed under Medicaid so that the amount the CSHCN Services Program originally reimbursed can be returned to the CSHCN Services Program.

If the CSHCN Services Program payout during the week's financial cycle in which the claim was reprocessed is not sufficient to satisfy the AR, the provider's Medicaid claim payouts will be used to satisfy the CSHCN Services Program AR.

Note: The deduction from Medicaid claim payouts will not exceed the amount Medicaid reimbursed the provider when the CSHCN Services Program claim was reprocessed.

If the CSHCN Services Program AR is not satisfied within 45 days, TMHP will send the provider a notice that requests repayment to the CSHCN Services Program for the remaining AR balance.

5.10 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

6.1 R&S Report Information

The R&S Report provides information on pending, paid, denied, adjusted, and incomplete claims. TMHP provides R&S Reports to give providers detailed information about the status of claims submitted to TMHP. The R&S Report also identifies receivables resulting from inappropriate payments. These receivables are recouped from payments of subsequent claim submissions.

Providers receive an R&S Report for each 9-digit provider identifier with claim activity.

Providers can determine the program associated with the R&S Report by looking at the top center of the R&S Report. The line below Texas Medicaid & Healthcare Partnership identifies the program associated with the R&S Report.

Online R&S Reports are available as a PDF every Monday morning at 6 a.m., Central Time, following the claims processing cycle. Providers must have a provider administrator account on the TMHP website at www.tmhp.com to receive online R&S Reports.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic billing.

Providers must retain copies of all R&S Reports for a minimum of 5 years. Do not send original R&S Reports back to TMHP; instead, submit copies of the R&S Reports when submitting a corrected claim or when resubmitting a previously incomplete claim.

Samples of the R&S Report are provided at the end of this chapter. The R&S Report provides information using the following general formatting guidelines:

- Information is displayed in rows rather than columns
- Incomplete claims appear in the "Claims — Paid or Denied" section
- Explanation of benefits (EOB) and explanation of pending status (EOPS) codes are five characters in length (up to four messages can be displayed at the claim level and up to five at the detail level)
- Descriptions of EOBs and EOPS are in an appendix at the end of the R&S Report
- Financial transactions appear in one of the following categories: accounts receivable, Internal Revenue Service (IRS) levies, claim refunds, payouts (system and manual), claim reissues, and claim voids
- The internal control number (ICN) is 24 digits
- The primary diagnosis submitted on the claim appears with the claim header information

6.1.1 Electronic Remittance and Status (ER&S) Reports

Using *Health Information Portability and Accountability Act (HIPAA)*-compliant Electronic Data Interchange (EDI) standards, the ER&S Report can be downloaded through the TMHP-EDI Gateway using TexMedConnect or third-party software. ER&S Reports contain the same information as a paper R&S Report and can be downloaded in any format.

ER&S Reports are available on the Monday following the weekly claims processing cycle. To obtain an ER&S Report, providers must complete and submit an ER&S Agreement. The ER&S Agreement is located in the Forms section of the EDI page on the TMHP Provider home page at www.tmhp.com and can be submitted to the TMHP-EDI help desk by mail or by fax to 1-512-514-4228.

Additional information about ER&S Reports can be accessed via the EDI companion guide ANSI ASC X12N 835. Companion guides are available in the Technical Information section of the EDI Provider home page on the TMHP website.

6.1.2 Banner Pages

Banner pages are used to inform providers of changes in policies, claims, and procedures. The title pages include the following information:

- TMHP address for submitting paper copies of corrected and resubmitted claims
- Provider's name, address, and telephone number
- Unique R&S Report number specific to each report
- Provider identifiers
- Report sequence number (a cumulative number of R&S Reports the provider has received for the calendar year)
- Date of the week reported on the R&S Report
- Federal tax identification number
- Page number (the R&S Report begins with page 1)
- Automated Inquiry System (AIS) telephone number for AIS inquiry calls
- Taxonomy code
- Benefit code

6.1.3 Explanation of R&S Report Row Headings

Row Heading/Section	Explanation
Patient name	Lists the client's last name and first name as indicated on the provider's claim. This field is truncated to display 13 characters.

Row Heading/Section	Explanation
Claim number	<p>The 24-digit ICN assigned by TMHP for a specific claim. The format for the TMHP claim number is PPCCMMYYJJBBBBSS.</p> <p>PPP: COMPASS21 Program 400: CSHCN Services Program Code CCC: Claim Type 020: Physician supplier/Genetics 021: Dental 023: Outpatient hospital/Home Health Agency (HHA) 040: Inpatient hospital 060: Medical Transportation Program MMM: Media Source (Region) 010: Paper 011: Paper adjustment 020: TDHconnect 021: TDHconnect adjustment 030: Electronic (including TexMedConnect) 031: Electronic adjustment (including TexMedConnect) 041: AIS adjustment 051: Mass adjustment 071: Retroactive eligibility adjustment 080: State action request 081: State action request adjustment 110: Postal mail 990: Default media type 991: Default/summary for all adjustments 999: Default/summary for all media regions YYYY: Year in which the claim was received JJJ: Julian date on which the claim was received BBBBB: TMHP internal batch number SSS: TMHP internal claim sequence within the batch</p>
Benefit code	These codes are submitted by the provider to identify state programs.
CSHCN number	The client's CSHCN Services Program number.
Medical record number	If a medical record number is used on the provider's claim, that number appears here.
EOB	Any EOB code that applies to the entire claim (header level) prints here. Up to four EOB codes display at the header level.
Diagnosis	The primary diagnosis listed on the provider's claim.
Patient account number	If a client's account number is used on the provider's claim, that number appears here.
Service dates	Format MMDDYYYY (month, day, year) in <i>From</i> and <i>To</i> dates of service.
Type of Service (TOS)/ Procedure/Accommodation Code	Indicates by code the specific service provided to the client. The two-digit TOS appears first, followed by a Healthcare Common Procedure Coding System (HCPCS) procedure code. A three-digit code represents a hospital accommodation or ancillary revenue code.

Row Heading/Section	Explanation
Billed quantity	Indicates the quantity billed per claim detail.
Billed charge	Indicates the charge billed per claim detail.
Allowed quantity	Indicates the quantity allowed per claim detail.
Allowed charge	Indicates the charges allowed per claim detail.
Place of service (POS) column	Includes the POS to the left of the Paid Amount. A two-digit numeric code identifying the POS is indicated in this field.
Paid amount	The final amount allowed for payment per claim detail. Also appearing in this field is the amount paid by another insurance resource. The other insurance (OI) amount is preceded by a minus (-) symbol, and this amount is subtracted from the total of the paid amounts appearing in this field. The total paid amount for the claim appears on the claim total line.
EOB codes	These codes explain the payment or denial of the provider's claim. EOB codes are printed next to and directly below the claim. An explanation of all EOBs appearing on the R&S Report are printed in the appendix at the end of the R&S Report.
EOPS code	The EOPS codes appear only in the "Claims In Process" section of the R&S Report. The codes explain the status of pending claims and are not an actual denial or final disposition.
MOD	Modifiers describe and qualify the services that were provided. For dental services, two modifiers are printed. The first is the tooth identification (TID) and the second is the surface identification (SID).

6.1.4 Explanation of R&S Report Section Headings

6.1.4.1 Claims—Paid or Denied

The title, "Claims — Paid or Denied," is centered on the top of each page in this section. Claims in this section are finalized the week before preparation of the R&S Report. The claims are listed by claim status, claim type, and in client name order. The reported status of each claim does not change unless the provider, CSHCN Services Program, or TMHP initiates further action. TMHP *cannot* process incomplete claims.

Only paper claims are denied as incomplete. Incomplete claims may be submitted as original claims only if the resubmission is received by TMHP within the original filing deadline. Otherwise, the claim must be received within 120 days of the date on the R&S Report.

If a provider determines that a claim cannot be appealed electronically or through the Automated Inquiry System (AIS), the claim may be appealed on paper by completing the following steps:

- Submit a copy of the R&S Report page on which the claim is paid or denied. A copy of any other official notification from TMHP may also be submitted.
- Submit one copy of the R&S Report for each claim appealed.
- Circle only one claim per R&S Report page.
- Identify the reason for the appeal.
- If applicable, indicate the incorrect information and provide the correct information that should be used to appeal the claim.
- Attach a copy of any supporting medical documentation that is required or has been requested by TMHP. Supporting documentation must be on a separate page and not copied on the opposite side of the R&S Report.

Referto: Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement."

Chapter 7, "Appeals and Administrative Review."

Claims filed electronically without required information are *rejected*. Users are required to retrieve the response file to determine the reason for rejections. Providers receiving TMHP EDI rejections may resubmit an electronic claim within 95 days from the date of service.

A paper appeal may also be submitted with a copy of the rejection report. Appeals must be received by TMHP within 120 days of the rejection report date to be considered. A copy of the rejection report must accompany each corrected claim submitted on paper.

6.1.4.2 Adjustments to Claims

The title, "Adjustments to Claims," is centered at the top of each page in this section. Adjustments are listed by claim type, client name, and CSHCN Services Program client number. Media types 011, 021, 031, 041, 051, 071, and 081 appear in this section. An adjustment is printed in the same format as a paid or denied claim.

The adjusted claim is listed first on the R&S Report. EOB 00123, "This is an adjustment to previous claim XXXXXXXXXXXXXXXXXXXXXXXXXXXX which appears on R&S Report dated XX/XX/XX" follows this claim. The dollar amounts on the original claim are followed by a minus (-) symbol indicating the original payment is voided.

The net adjustment amount is the difference between the claim total for the original claim and the claim total for the adjusted claim. If the total amount of money to be recouped is not available on the current R&S Report, it is taken from future payments.

EOB 00601 prints the following message below the claim indicating the amount is to be recouped later: "A receivable has been established in the amount of the original payment: \$_____. Future payments will be withheld or reduced until such amount is paid in full."

When an adjustment is set up (EOB 00601) and enough money is available on the next R&S Report, EOB 00097 prints, "Payment adjusted on following client." The original ICN and R&S Report date appears. The dollar amount to be recouped is listed in the Original Amount column. The amount changes until all money is recouped.

In the "Adjustments to Claims" section, the amount identifying the net difference (difference between the original claim payment and the adjusted claim payment) appears below the prior claim payment. If the net difference is a positive amount, the amount is added to the amount of the current check. If the net difference is a negative amount, a minus sign appears before the dollar amount, and that amount is deducted from the amount of the current check.

6.1.4.3 Financial Transactions

All accounts receivables, IRS levies, payouts, refunds, reissues, and voids appear in this section of the R&S Report. The financial transactions section does not use the R&S Report form column headings. Additional subheadings are printed to identify the financial transactions. References to fiscal year end (FYE) represent the provider's FYE based on cost report information and does not apply to all providers. The following are descriptions of the six types of financial transactions.

6.1.4.3.1 Accounts Receivable

Accounts receivable identifies money that was subtracted from the provider's current payment because it is owed to the CSHCN Services Program. Specific claim data is not given on the R&S Report unless the accounts receivable setup is claim-specific. An accounts receivable control number is provided that should be referenced when corresponding with TMHP. If the withholding amount is related to a specific

claim and not an EOB 00601 (as described in Section 6.1.4.2, “Adjustments to Claims” in this chapter), a separate letter with this information is sent to the provider. Accounts receivable appears on the R&S Report in the following format:

Row Heading/Section	Explanation
Control number	A control number that should be referenced when corresponding with TMHP.
Recoupment rate	The percentage of the provider’s payment withheld each week unless the provider elects to have a specific amount withheld each week.
Maximum periodic recoupment amount	The amount to be withheld each week or month. This field is blank if the provider elects to have a percentage withheld each week or month.
Original date	The date the financial transaction was originally processed.
Original amount	The total amount owed to the CSHCN Services Program.
Prior date	The date the last transaction on the accounts receivable occurred.
Prior balance	The amount owed from a previous R&S Report.
Applied amount	The amount subtracted from the current R&S Report.
FYE	The fiscal year end for cost reports.
EOB	The EOB code that corresponds to the reason code for the accounts receivable.
Patient name	If the accounts receivable is claim specific, the name of the client listed on the claim.
Claim number	If the accounts receivable is claim specific, the ICN of the original claim.
Balance	Indicates the total outstanding accounts receivable (AR) balance that remains due.

6.1.4.3.2 IRS Levies

If TMHP receives a notice from the IRS of a levy against a provider, payments will be withheld from the provider’s payment. These are displayed in the IRS Levies section of the R&S Report. Payments are withheld until the levy is satisfied or released. Although the current payment amount is lowered by the amount of the levy payment, the provider’s 1099 earnings are not lowered. IRS levies are reported in the following format:

Row Heading/Section	Explanation
Control number	Control number to reference when corresponding with TMHP.
Maximum recoupment rate	The percentage of the provider’s payment withheld each week unless the provider elects to have a specific amount withheld each week.
Maximum recoupment amount	The amount to be withheld on a periodic basis. This field is blank if the provider elects to have a percentage withheld each week.
Original date	The date the levy was originally set up.
Original amount	The total amount owed to the CSHCN Services Program.
Prior balance	The amount owed from a previous R&S Report.
Prior update	The date the last transaction on the levy occurred.
Current amount	The amount subtracted from the current R&S Report.
Remaining balance	The amount still owed on the levy (this amount becomes the previous balance on the next R&S Report).

6.1.4.3.3 Payouts

Payouts are dollar amounts owed to the provider. TMHP processes two types of payouts: system payouts that increase the weekly payment amount and manual payouts or refunds that result in a separate payment issued to the provider. Specific claim data is not given on the R&S Report for payouts. If the payout is claim-related, a separate letter with this information is sent to the provider. A control number is given that should be referenced when corresponding with TMHP.

Payouts appear on the R&S Report in the following format:

Row Heading/Section	Explanation
Payout control number	Control number to reference when corresponding with TMHP.
Payout amount	Amount of the payout.
FYE	The fiscal year for which this refund is applicable.
EOB	The EOB code that corresponds to the reason code assigned.
Refund check number	The number of the refund check issued by TMHP.
Refund check amount	The amount of the refund check mailed to the provider.
Patient name	The name of the client (if available).
PCN	The CSHCN Services Program number of the client (if available).
DOS	The date of service (if available).

6.1.4.3.4 Claim Reissues

Claim reissues are identified by EOB 00122, “This claim is a reissue of a previous claim.” For example, EOB 00122 is used if a check is lost in the mail and must be reissued to the provider. The message follows each claim that was reissued. Every claim paid on the original check is reprinted in the financial section. The claims appear on the R&S Report in the following format:

Row Heading/Section	Explanation
Check number	The number of the original check.
Check amount	The amount of the original check.
R&S number	The number of the original R&S Report.
R&S date	The date of the original R&S Report.

6.1.4.3.5 Claim Voids

Claim voids are identified by EOB 00134, “Voided claims – this amount has been credited to your net IRS liability.” This occurs when the TMHP check has been returned and voided. Claims originally paid on the check are listed and the amounts credited to the provider’s 1099. Claim voids are printed in the same format as claim reissues.

6.1.4.3.6 Claim Refunds

Claim refunds are identified by EOB 00124, “Thank you for your refund; your 1099 liability has been credited.” This message verifies that money refunded to the CSHCN Services Program for incorrect payments was received and posted. The provider’s check number and the date of the check are printed on the R&S Report. Claim refunds appear on the R&S Report in the following format:

Row Heading/Section	Explanation
ICN	The claim number of the claim to which the refund was applied this cycle.
Patient name	The client’s first name, middle initial, and last name on the applicable claim.

Row Heading/Section	Explanation
CSHCN number	The client's CSHCN Services Program number.
Date of service	The format MMDDYYYY (month, day, year) in <i>From</i> date of service.
Total billed	The total billed amount of the refunded claim.
Amount applied this cycle	The refund amount applied to the claim.
EOB	The EOB code that corresponds to the reason code assigned.

6.1.4.4 Financial Transactions/Void and Stop—"Stale-Dated Checks"

Stale-dated checks (i.e., checks older than 180 days) that have not been cashed are voided and applied to either IRS levies or outstanding accounts receivable. Once a check has been voided, the associated claims may not be payable, and the transaction will be finalized after 24 months. Providers may submit a voided check appeal to TMHP Cash Financial at the following address:

Texas Medicaid & Healthcare Partnership
Attn: Cash Financial
12357B Riata Trace Parkway
Austin, TX 78727

The CSHCN Services Program encourages providers to receive payment via electronic funds transfer (EFT) to eliminate stale-dating issues. EFT ensures that providers receive payments via direct deposit in a bank account of their designation. To enroll in EFT, use the [Electronic Funds Transfer \(EFT\) Notification](#) or call the TMHP Contact Center at 1-800-568-2413, Monday through Friday from 7 a.m. to 7 p.m., Central Time, and select Option 2.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)."

6.1.5 Claims Payment Summary

This section summarizes payments, adjustments, and financial transactions listed on the R&S Report. The section has two categories: one for the current weeks totals and one for the year-to-date totals.

Example: *If the provider is receiving a payment on this particular R&S Report, the following information is given: "Payment summary for check number (check #) or (directly deposited by EFT) in the amount of (\$amount). Note that items marked with an asterisk (*) do not affect your 1099 earnings." The check number is also printed on the check that accompanies the R&S Report.*

The Claims Payment Summary appears on the R&S Report in the following format:

Heading	Explanation
Claims paid	The number of claims processed for the week, as well as the year-to-date total.
System payouts	The total amount of system payouts issued to the provider by TMHP.
Manual payouts	The total amount of manual payouts issued to the provider by TMHP (remitted by a separate check or EFT).
Amount paid to IRS for levies	The amount remitted to the IRS and withheld from the provider's payment due to an IRS levy.
Amounts paid to IRS for backup withholding	The amount paid to the IRS for backup withholding.
Accounts receivable recoupment	The total amount withheld from the provider's payment for accounts receivable.

Heading	Explanation
Amounts stopped or voided	The total amount of the payment that was voided or stopped with no reissuance of payment.
System reissues	The amount of the reissued payment.
Claims related refunds	The net amount allowed for the week’s payment. If there are no adjustments recouping money showing negative paid amounts, the claim’s amount is the total of all paid amounts on the individual claims. If there are adjustments showing negative paid amounts, the claim’s amount is the total paid amount minus the total amount of claim-related refunds applied during the weekly cycle.
Nonclaim-related refunds	The total amount of nonclaim-related refunds applied during the weekly cycle.
Amount affecting 1099 earnings	The amount added for this week to the provider’s earnings. This figure is the claim’s amount minus any withheld or credit amounts. This column also shows weekly and year-to-date totals. The year-to-date IRS amount is the net total of reportable payments for tax purposes.
Held amount	The total amount withheld from the provider’s payment.
Payment amount	Amount of the payout
Pending claims	The total amount billed for claims in process beginning with the cutoff date for the report.

6.1.5.1 Claims In Process

Claims that are in process appear in the section titled “The Following Claims are Being Processed.” The R&S Report may list up to five EOPS messages per claim. The claims listed in this section are in process and *cannot* be resubmitted for any reason until they appear in either the “Claims - Paid or Denied,” or “Adjustments - Paid or Denied” sections of the R&S Report. TMHP lists the pending status of these claims only for informational purposes. The pending messages should not be interpreted as a final claim disposition.

All claims and claims resubmitted for reconsideration that TMHP has in process are listed on the R&S report weekly. TMHP provides the following information on the R&S Report:

- Client name
- Claim number
- EOPS
- *International Classification of Diseases*, Tenth Revision, Clinical Modification (ICD-10-CM) number
- Initial date of service
- Billed charge (total billed)

6.1.5.2 EOB and EOPS Codes Section

The “Explanation of Benefits Codes Messages” section lists the descriptions of all EOBs and EOPS that appeared on the R&S Report. EOBs and EOPS appear in numerical order.

Electronic Data Interchange ANSI X12 5010 835 files will display the appropriate Claims Adjustment Reason Code (CARC), Claims Adjustment Group Code (CAGC), and Remittance Advice Remarks Code (RARC) explanation codes that are associated with EOB denials.

The 835 file will include the CARC, CAGC, and RARC explanation codes that are associated with the highest priority detail EOB to provide a clearer explanation for the denial.

6.1.6 R&S Report Examples

The following pages provide examples of R&S Reports.

- 7.4 Provider Enrollment Appeals 10**
- 7.5 TMHP-CSHCN Services Program Contact Center 10**
- 7.6 Authorization and Filing Deadline Calendars 10**

7.1 Appeals

An appeal is a request for reconsideration of a previous denial.

Providers may request an appeal if a denial is received for any of the following:

- Authorization or prior authorizations
- Claims
- Provider enrollment

Referto: Chapter 4, "Prior Authorizations and Authorizations" for additional information regarding the appeals process for authorization and prior authorization denials.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for additional information.

Section 2.1.4, "Provider Enrollment Determinations" in Chapter 2, "Provider Enrollment and Responsibilities" for additional information.

7.2 Authorization and Prior Authorization Denials

Authorization or prior authorization requests that do not contain all of the information necessary for the program to make a determination are denied.

Referto: Section 4.4, "Authorization and Prior Authorization Denials" in Chapter 4, "Prior Authorizations and Authorizations" for information about reasons for denials.

7.2.1 Administrative Review for Authorization or Prior Authorization Denials

A provider or client who has received a denied authorization or prior authorization may submit a request for an administrative review to the CSHCN Services Program if they are dissatisfied with TMHP's decision to deny the authorization or prior authorization.

All providers and clients must submit requests for an administrative review within 30 days of the date TMHP denied the authorization or prior authorization. Requests for an administrative review and all supporting documentation must be submitted by mail or fax to:

CSHCN Services Program—Administrative Review
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133

Additional information requested by the CSHCN Services Program must be returned to the Program within 30 calendar days of the date of the letter from the CSHCN Services Program. If the information is not received within 30 calendar days, the case is closed.

7.2.2 Fair Hearing Requests for Authorizations or Prior Authorizations

After an administrative review, providers or clients may request a fair hearing if they are dissatisfied with the CSHCN Services Program's decision and the supporting reason.

The fair hearing is the final appeal process and is described in the *Texas Administrative Code* (TAC) Title 25, Part 1, Chapter 1, Subchapter C (www.sos.state.tx.us). The fair hearing process is conducted by the Office of General Counsel at DSHS.

Providers or clients may choose to represent themselves, or have legal counsel or another spokesperson, at the hearing. If providers or clients are unable to attend the hearing in person, they may request arrangements to attend by teleconference.

Fair hearing requests must be submitted in writing to the CSHCN Services Program within 20 days of the date of the administrative review decision notice. The request should state the reasons for the disagreement and include any documents or other proof that help support those reasons. Providers and clients who fail to request a fair hearing within the 20-day period are presumed to have waived their right to request a fair hearing, and the CSHCN Services Program will take final action.

Mail or fax fair hearing requests to:

CSHCN Services Program-Fair Hearing
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133 or 1-512-776-7162 (in Austin)

7.3 Claim Appeals

Providers may use three methods to appeal claims to TMHP:

- Automated Inquiry System (AIS)
- Electronic
- Paper

TMHP must receive all appeals of denied claims and requests for adjustments on paid claims within 120 days of the date of disposition of the Remittance and Status (R&S) Report on which that claim appears. If the 120-day appeal deadline falls on a weekend or holiday, the deadline is extended to the next business day.

Referto: [2016 Filing Deadline Calendar](#)

[2017 Filing Deadline Calendar](#)

All appeals must be sent to TMHP as a first-level appeal. A first-level appeal is a provider's initial appeal of a claim that has been denied or adjusted by TMHP. This appeal is submitted by the provider directly to TMHP for adjudication and must contain all required information to be considered.

7.3.1 Electronic Appeal Submission

Providers can use TexMedConnect or vendor software to submit files directly to TMHP or they may use a billing agent (i.e., billing companies or clearinghouses) that submits files on the provider's behalf.

TMHP Electronic Data Interchange (EDI) accepts the *Health Insurance Portability and Accountability Act* (HIPAA) standard American National Standards Institute (ANSI) ASC X12 837 format.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for additional information regarding electronic transactions.

Zero-paid claims that appear in the "Claims - Paid or Denied" section of the R&S Report and the allowed charge and the paid amount are \$0, may be resubmitted as electronic appeals. Zero-paid claims that are still within the 95-day filing deadline should be submitted as new day claims, which process faster than appeals.

For more information, contact the TMHP EDI Help Desk at 1-888-863-3638, which is available Monday through Friday, from 7 a.m. to 7 p.m., Central Time.

7.3.1.1 Advantages of Electronic Appeal Submission

- Increased accuracy potentially improves cash flow
- Audit trails can be maintained through print and download capabilities

- Appeal submission fields can be automatically filled in with Electronic Remittance and Status (ER&S) Report information, reducing data entry time
- Acceptance or rejection reports received for appeals submissions

7.3.1.2 Disallowed Electronic Appeals

The following claims may not be appealed electronically, and providers must appeal these denials on paper:

- Claims that require supporting documentation (e.g., operative report, medical records)
- Claims listed as *pending* or in *process* with explanation of pending status (EOPS) messages
- Claims denied as past *filing deadline*, except when retroactive eligibility deadlines apply
- Claims denied as past the *payment deadline*
- Inpatient Hospital claims that require supporting documentation
- Third-party resource (TPR) and other insurance
- Claims billed for additional days or units not included in the original claim

7.3.1.3 Electronic Rejections

TMHP EDI transactions that fail HIPAA edits are rejected, and the submitter receives a 277CA claim response file which replaced the TMHP EDI Rejected Transaction Report. The 277CA claims response file lists activity by submitter, provider, and payer.

The 277CA claims response file includes member identifier, patient last name and first initial, patient control number (PCN), type of bill or place of service, charge, transaction from and to dates, receipt date, rejection code, and rejection description.

Providers must send the batch ID, PCN, date of service, transaction from and to dates, receipt date, and rejection codes from the 277CA claims response file to TMHP when appealing denied claims.

The batch ID is located in the file name of the returned 277CA claims response, and not within the file. Providers must include the batch ID in all electronic response files submitted to TMHP for appeals to denied claims. Handwritten batch IDs are not acceptable for submission to TMHP. Providers who cannot identify or retrieve the batch ID from the 277CA claims response file name should contact the clearinghouse or vendor to have the filename included in the response document. If not, the provider must request a copy of the response file that contains the filename from the clearinghouse.

Providers who receive a rejection on the 277CA claims response file may resubmit an electronic claim within 95 days of the date of service.

A paper appeal may also be submitted with a copy of the response document within 120 days of the 277CA claims response file rejection to meet the filing deadline. A copy of the electronic response file rejection to include the batch ID must accompany each corrected claim that is submitted on paper.

7.3.2 AIS Claim Correction and Resubmission (Appeals)

Telephone resubmissions or appeals may be entered through AIS using the keypad of a touch tone telephone. Providers may submit up to 3 field corrections per claim and 15 appeals per call. If invalid information is entered three times during any step, the call is transferred to a contact center representative for assistance.

For more information about how to correct and resubmit claims using AIS, providers may obtain a CSHCN Services Program AIS User Guide online at www.tmhp.com or by calling 1-800-568-2413.

Providers may submit appeals through AIS to correct claims that were denied for the following:

- Beginning date of service

- Billing, performing, or referring provider identification numbers
- Client number
- Date of birth
- Date of onset
- Ending date of service
- Place of service (POS)
- Prior authorization number (PAN)
- Quantity billed
- X-ray date
- Type of service (TOS)

The following may not be appealed through AIS, and providers must appeal these denied claims on paper:

- Incomplete claims listed on the R&S Report in the “Claims - Paid or Denied” section
- Claims listed on the R&S Report with \$0 allowed and \$0 paid
- Claims that require supporting documentation (e.g., operative report, medical records)
- Procedure code, modifier, or diagnosis code
- Claims listed as *pending* or *in process* with Explanation of Pending Status (EOPS) messages
- Claims denied as *past filing deadline* except when retroactive eligibility deadlines apply
- Claims denied as *past the payment deadline*
- Inpatient hospital claims that require supporting documentation
- Third-Party Liability (TPL) and other insurance

7.3.3 Paper Appeals

If a claim cannot be appealed electronically or by using AIS, providers may appeal the claim on paper by completing the following:

- 1) Submit a copy of the R&S page on which the claim is paid or denied or other official notification from TMHP (i.e., TMHP letters attached to returned claims).
- 2) Submit one copy of the R&S Report page for each claim appealed.
- 3) Circle only one claim per R&S page.
- 4) Indicate the reason for the appeal.
- 5) If applicable, indicate the incorrect information and provide the correct information that should be used to appeal the claim.
- 6) Attach a copy of any supporting documentation that is necessary or requested by TMHP. Supporting documentation must be on a separate page.

Note: *Completed claim forms are not required to be submitted with paper appeals. Providers who submit paper appeals must clearly document on the R&S Report what information is being appealed and must identify the claim being appealed.*

Reminder: *Do not copy supporting documentation on the opposite side of the R&S Report.*

Paper appeals must be submitted to the following address:

Texas Medicaid & Healthcare Partnership
Attn: CSHCN Services Program Appeals, MC-A11
12357-B Riata Trace Parkway, Suite 100
Austin, TX 78727

Providers may not request reconsideration or appeal of the following:

- Claims appearing in the “Pending Claims” section of the R&S Report. Providers cannot resubmit or appeal a claim that has not appeared as a paid or denied claim.
- Incomplete claims appearing in the “Claims - Paid or Denied” section of the R&S Report. Incomplete claims appear with one or more EOB code(s). Providers must correct the information and submit a new claim with the R&S Report within 120 days of the date on the R&S Report.

Important: *It is strongly recommended that providers who submit paper appeals retain a copy of the documentation they send. It also is recommended that paper documentation be sent by certified mail with a return receipt requested. This documentation and a detailed list of the claims that were enclosed provides proof that the claims were received by TMHP. This is particularly important if it is necessary to prove that the 120-day appeals deadline has been met. If a certified receipt is provided as proof, the certified receipt number must be indicated on the detailed list. The provider may need to keep such proof for all claims submissions, if their CSHCN Services Program provider identifier is pending.*

7.3.3.1 Total Billed Amount Changes

Appeals must be submitted on paper if the total billed amount is changed. Electronic appeals of this kind will be denied for timely filing if it is submitted more than 95 days after the original date of service.

To resubmit a claim with a new total billed amount, the claim may be submitted electronically as a new day claim. The new day claim must be within 95 days of the filing deadline. If a claim is submitted after the 95-day filing deadline, it will be denied for timely filing.

7.3.4 Appeals Submitted Incorrectly

If an incomplete appeal is received, it is returned to the sender with further appeal instructions and a request for more information. Documentation (either by letter or fax) that does not clearly indicate the reason for submission is returned to the sender for clarification.

If TMHP identifies a pattern of ineffective use of the appeals process, the provider may be referred to a provider relations representative for assistance.

The provider may also initiate contact with a provider relations representative for assistance.

Referto: Section 1.1.5, “TMHP Regional Representatives” in Chapter 1, “TMHP and HHSC Contact Information” for contact information.

7.3.5 Administrative Review for Claims

To complete the TMHP appeals process:

- a) The claim must have been denied or adjusted by TMHP, and
- b) The claim must have been appealed as a first-level appeal to TMHP, and
- c) The first level appeal must have been denied again for the same reasons by TMHP.

After the TMHP appeals process has been exhausted, the provider must submit a request for administrative review within 30 days of the date TMHP denied the appeal in order for the claim to be considered for payment.

Requests for an administrative review and all supporting documentation must be submitted by mail or fax to:

CSHCN Services Program–Administrative Review
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133
or 1-512-776-7162

TMHP may be required to gather information related to the original claim and the first-level appeal. The CSHCN Services Program is the sole adjudicator of the administrative review.

Referto: Section 4.4.2, “Administrative Review for Authorization and Prior Authorization Denials” in Chapter 4, “Prior Authorizations and Authorizations.”

7.3.5.1 Administrative Review Requirements

An administrative review is a request for a review as defined in 25 TAC §38.10 and §38.13.

An administrative review must be:

- Submitted in writing to CSHCN Services Program Administrative Review by the provider who delivered the service or received claim reimbursement or claim denial for the service.
- Received by CSHCN Services Program Administrative Review after the appeals process with TMHP has been exhausted, and must contain evidence of appeal dispositions from TMHP:
 - All correspondence and documentation from the provider to TMHP, including copies of supporting documentation that was submitted during the appeal process.
 - All correspondence from TMHP to the provider.
- Received by CSHCN Services Program within 30 days of the date of disposition by TMHP as evidenced by the R&S sent to provider.
- Complete and contain all of the information necessary for consideration and determination by CSHCN Services Program Administrative Review, including:
 - A written explanation that specifies the reason for the request for review.
 - Supporting documentation for the request.
 - All R&S Reports that identify the claims and services in question.
 - Identification of the incorrect information and the corrected information used to appeal the claim.
 - A copy of the original claim, if it is available. Claim copies are helpful when the administrative review involves medical policy or procedure coding issues.
 - A corrected, signed claim.
 - A copy of supporting medical documentation requested by TMHP.
 - Provider’s internal notes and logs, when pertinent (cannot be used as proof of timely filing).
 - Memos from the state or TMHP indicating any problems, policy changes, or claims processing discrepancies that may be relevant to the review.
 - Other documents, such as receipts (e.g., certified mail along with a detailed listing of the claims enclosed), in-service notes, minutes from meetings, etc., if relevant. Receipts can be helpful when late filing is an issue.

Providers that have submitted their claims electronically can provide proof of timely filing by submitting a copy of an electronic claims report that includes the following information:

- Client name or CSHCN Services Program client identification number (patient control number [PCN])
- DOS
- Total charges
- Batch identification number (Batch ID) (in correct format)

Note: *Only reports that were accepted or rejected by TMHP will be honored. The claim filed (client name or PCN, DOS, and total charges) should match the information on the batch report.*

Providers must adhere to all filing and appeal deadlines for an administrative review to be considered by the CSHCN Services Program. The filing and appeal deadlines are described in 25 TAC §38.10 and §38.13 and in this manual.

Referto: Section 5.1.8, “Claims Filing Deadlines” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for additional information.

Additional information requested by the CSHCN Services Program must be returned to the Program within 30 calendar days of the date of the letter from the CSHCN Services Program. If the information is not received within 30 calendar days, the case is closed.

7.3.6 Fair Hearing for Claims

After an administrative review, providers may request a fair hearing if they are dissatisfied with the CSHCN Services Program’s decision and the supporting reason.

The fair hearing is the final appeal process and is described in the 25 TAC, Part 1, Chapter 1, Subchapter C (www.sos.state.tx.us). The fair hearing process is conducted by the Office of General Counsel at DSHS.

Providers may choose to represent themselves or have legal counsel or another spokesperson at the hearing. If providers are unable to attend the hearing in person, they may request arrangements to attend by teleconference.

Fair hearing requests must be submitted in writing to the CSHCN Services Program within 20 calendar days of the date of the administrative review decision notice. The request should state the reasons for the disagreement and include any documents or other proof that help support those reasons. Providers who fail to request a fair hearing within the 20-day period are presumed to have waived their right to a fair hearing, and the CSHCN Services Program will take final action.

Mail or fax fair hearing requests to:

CSHCN Services Program–Fair Hearing
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133 or 1-512-776-7162 (in Austin)

Note: *Weekends and holidays must be included in the count to determine the 20-day deadline.*

7.3.7 National Correct Coding Initiative (NCCI) Claims Appeals

Claims or procedure codes that have been denied based on NCCI guidelines may be appealed with an appropriate modifier or documentation of medical necessity. If the submitted procedure code is denied because NCCI guidelines indicate the code is included in another procedure, the claim may be appealed with a modifier if applicable. If a modifier does not apply but medical necessity can be proven, the provider must submit documentation of medical necessity that indicates both services were necessary on the same date of service. For guideline exceptions that may be appealed, providers may refer to the

Centers for Medicare & Medicaid Services (CMS) website at www.cms.gov/Outreach-and-Education/Medicare-Learning-Network-MLN/MLNProducts/downloads/MCRP_Booklet.pdf. Providers must follow the current standard appeals process when appealing claims to TMHP.

7.4 Provider Enrollment Appeals

The CSHCN Services Program may deny, modify, suspend, or terminate a provider's approval to participate for the reasons listed in the CSHCN Services Program Rules in 25 TAC §38.6(b)(1) through (2) at www.sos.state.tx.us/tac.

Before taking action to deny, modify, suspend, or terminate the approval of a provider, the CSHCN Services Program shall give the provider written notice of an opportunity to request an administrative review of the proposed action.

The administrative review process is outlined in the notice sent to the provider. A written request for an administrative review must be received within 30 calendar days of the date of the notice. If a written request for an administrative review is not received by the CSHCN Services Program by this date, the program's decision is final and cannot be appealed.

Requests for an administrative review and all supporting documentation must be submitted by mail or fax to:

CSHCN Services Program -Administrative Review
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133 or 1-512-776-7162

In addition, a fair hearing is available to any provider for the resolution of conflict between the CSHCN Services Program and the provider.

Fair hearing requests must be submitted in writing to the CSHCN Services Program within 20 days of the date of the administrative review decision notice. The request should state the reasons for the disagreement and include any documents or other proof that help support those reasons. Providers who fail to request a fair hearing within the 20-day period are presumed to have waived their right to a fair hearing, and the CSHCN Services Program will take final action.

Mail or fax fair hearing requests to:

CSHCN Services Program–Fair Hearing
Specialty Health Care Services, MC-1938
PO Box 149347
Austin, TX 78714-9347
Fax: 1-800-441-5133 or 1-512-776-7162 (in Austin)

7.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday, from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

 - 8.2.1 Authorization Requirements 4
- 8.3 Claims Information.....4**
- 8.4 Reimbursement.....4**
- 8.5 TMHP-CSHCN Services Program Contact Center5**

8.1 Enrollment

To enroll in the CSHCN Services Program, an advanced practice registered nurse (APRN) (e.g., nurse practitioner [NP], clinical nurse specialist [CNS]) must be actively enrolled in Texas Medicaid, licensed as a registered nurse, and recognized as an APRN by the Texas Board of Nursing (BON). APRNs may enroll as a CSHCN Services Program provider by completing the provider enrollment application available through the TMHP-CSHCN Services Program. Out-of-state APRNs must meet all these conditions and be located in the United States within 50 miles of the Texas state border.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program enrollment procedures.

Certified registered nurse anesthetists (CRNAs) should refer to Chapter 12, “Certified Registered Nurse Anesthetist (CRNA)” for information specific to their practice.

8.2 Benefits, Limitations, and Authorization Requirements

Services provided by APRNs are benefits if the services are:

- Within the scope of practice for APRNs, as defined by Texas state law.
- Consistent with rules and regulations promulgated by the Texas BON or other appropriate state licensing authority.
- Benefits of the CSHCN Services Program when provided by a licensed physician (doctor of medicine [MD] or doctor of osteopathy [DO]).
- Reasonable and medically necessary as determined by DSHS or its designee.

APRNs who are employed or paid by a physician, hospital, facility, or other provider must not bill the CSHCN Services Program for their services, if the billing results in duplicate payment for the same services.

Physicians who submit a claim using the physician’s own provider identifier for services provided by an APRN must submit modifier SA on each claim detail if the physician does not make a decision regarding the client’s care or treatment on the same date of service as the billable medical visit.

All limitations applicable to physicians for the same service will also be applied to the APRN.

8.2.1 Authorization Requirements

Authorization and prior authorization requirements are listed in individual sections of this manual. Authorization requirements applied to services provided by physicians (MD or DO) also apply to services provided by APRNs.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for detailed information about authorization and prior authorization requirements.

Section 31.2.13, "Clinician-Directed Care Coordination Services" in Chapter 31, "Physician" for information and prior authorization requirements for clinician-directed care coordination services.

8.3 Claims Information

APRN services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

8.4 Reimbursement

APRNs may be reimbursed the lower of the billed amount or 92 percent of the amount allowed by Texas Medicaid for the same service provided by a physician. Physicians may be reimbursed 92 percent of the established reimbursement rate for services provided by an APRN if the physician does not make a decision regarding the client's care or treatment on the same date of service as the billable medical visit. Exceptions to the 92 percent reimbursement methodology for APRNs and physicians include injections, laboratory services, radiology services, and immunizations.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

8.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

9.1 Enrollment

To enroll in the CSHCN Services Program, ambulance providers must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Providers may enroll online or download enrollment forms at www.tmhp.com.

A hospital-operated ambulance provider must enroll as an ambulance provider and submit claims using the ambulance provider identifier, not the hospital provider identifier.

Out-of-state ambulance and air ambulance providers must meet all these conditions and be located in the United States within 50 miles of the Texas state border.

Ambulance and air ambulance providers must submit a copy of their permit or license from the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession or their facility, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

9.2 General Information

The CSHCN Services Program may reimburse emergency and non-emergency ambulance transports (ground, air, or specialized emergency medical services vehicle) when the client meets the definition of emergency medical condition or meets the requirements for non-emergency transport.

The following ambulance services procedure codes are a benefit of the CSHCN Services Program:

Procedure Codes					
A0382	A0398	A0420	A0422	A0424	A0425
A0426	A0427	A0428	A0429	A0430	A0431
A0433	A0434	A0435	A0436	A0999	

Procedure codes A0398, A0433, A0434 and A0999 may be reimbursed as emergency or nonemergency services.

- Claims for emergency services must be submitted with the ET modifier.
- Nonemergency services must be prior authorized.

Ground and air mileage (procedure codes A0425, A0435, and A0436) is reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

The inpatient hospital stay benefit includes medically necessary emergency and non-emergency ambulance transportation of the client during an inpatient hospital stay.

Ambulance transport during a client’s inpatient hospital stay will not be reimbursed to the ambulance provider. One time ambulance transports that occur immediately after the client’s discharge may be considered for reimbursement.

9.2.1 Origin and Destination Modifiers

The following are the origin and destination codes accepted by the CSHCN Services Program:

Origin and Destination Code	Description
D	Diagnostic or therapeutic site, or freestanding facility (e.g., radiation therapy center) other than H or P
E	Residential, domiciliary, or custodial facility (unskilled facility)
G	Hospital-based dialysis facility (hospital or hospital-related)
H	Hospital (inpatient or outpatient)
I	Site of transfer (e.g., airport or helicopter pad) between modes of ambulance transport
J	Nonhospital-based dialysis facility
N	Skilled nursing facility
P	Physician’s office
R	Residence (client’s home or any residence)
S	Scene of accident or acute event
X	Intermediate stop at physician’s office en route to the hospital (destination code only)

All ambulance claims must include the origin and destination modifiers on each procedure code submitted. Any procedure code submitted without the origin and destination modifiers will be denied.

9.2.2 Place of Service

All claims submitted must include a Place of Service (POS) code in block 24b of the CMS-1500 paper claim form.

The POS identifies where services are performed. Indicate the POS by using the appropriate numeric code for each service listed on the claim. The following POS codes must be used:

Place of Service	Two-Digit Numeric Codes (Electronic Billers)	One-Digit Numeric Codes (Paper Billers)
Office	11, 65, 71, 72	1
Home	12	2
Inpatient hospital	21, 51, 52, 55, 56, 61	3
Outpatient hospital	22, 23, 24, 62	5
Other location	26, 34, 53, 99	9

Place of Service	Two-Digit Numeric Codes (Electronic Billers)	One-Digit Numeric Codes (Paper Billers)
Independent lab	81	6
Destination of ambulance	Indicate destination using above codes	Indicate destination using above codes

9.2.3 Diagnosis Coding

Medical necessity and coverage of ambulance transport services are not based solely on the presence of a specific diagnosis. The CSHCN Services Program reimbursement for ambulance transports may be made only for those clients whose condition at the time of transport is such that ambulance transport is medically necessary. For example, it is insufficient that a client merely has a diagnosis such as pneumonia, stroke, or fracture to justify ambulance transport. In each of those instances, the condition of the client must be such that transport by any other means is medically contraindicated. In the case of ambulance transport, the condition necessitating transport is often that an accident or injury has occurred that gives rise to a clinical suspicion that a specific condition exists (for instance, fractures may be strongly suspected based on clinical examination and history of a specific injury).

It is the requesting provider's (facility, physician, or ambulance) responsibility to supply the CSHCN Services Program contract administrator with information that describes the condition of the client that necessitated the ambulance transport. Because many ambulance personnel have only a limited ability to establish a diagnosis, the CSHCN Services Program recognizes that coding of a client's condition using International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) diagnosis codes by ambulance transport services may be less specific than those determined by other health-care providers.

Ambulance services providers who submit ICD-10-CM diagnosis codes should choose the code that best describes the client's condition at the time of transport. When a diagnosis is not confirmed, it is better to use a symptom, finding, or injury code. Providers of ambulance services should avoid using ICD-10-CM codes to report "rule out" or "suspected" diagnoses.

When there are two responders to an emergency, the company that transports the client will be reimbursed for their services. The CSHCN Services Program does not reimburse for the return trip of an empty ambulance.

The ambulance provider does not have to submit the run sheet with the claim. This documentation may be requested upon retrospective review. A Medicare ambulance claim that has been denied must go through the appropriate Medicare claims appeal process with a decision by the administrative law judge before TMHP will process the ambulance claim.

9.2.4 General Documentation Requirements

Supporting documentation is required to be maintained by both the ambulance provider and the requesting provider, including a physician, health-care provider, or other responsible party.

An ambulance provider is required to maintain documentation that represents the client's medical conditions and other clinical information to substantiate medical necessity and the level of service and mode of transportation requested. This supporting documentation is limited to documents that are developed or maintained by the ambulance provider.

Physicians, health-care providers, or other responsible parties who request ambulance transport are required to maintain physician orders and the Nonemergency Ambulance Prior Authorization Request form in the client's medical record. Requesting providers must also maintain documentation of medical necessity for the ambulance transport.

9.3 Emergency Ambulance Transports

Emergency transports are to be to the nearest medical facility. An appropriate facility includes the equipment, personnel, and capability to provide the services necessary to support the required medical care. When an emergency transport is made to a facility other than the nearest appropriate facility and the type of transport is medically necessary, reimbursement for mileage is limited to the amount that would be reimbursed to transport to the nearest appropriate facility.

Facility-to-facility transports may be considered an emergency if the emergency treatment is not available at the first facility. All other facility-to-facility transports are considered nonemergent and prior authorization will be required.

The CSHCN Services Program coverage for emergency air ambulance transport services is limited to instances in which the client's pickup point is inaccessible by ground transport or when great distance interferes with the immediate admission to a medical treatment facility appropriate for their condition.

Claims for emergency transport services, must include the following:

- ET modifier for each procedure code.
- One or more emergency medical condition codes in the Emergency Medical Condition Code table below.

Claims for emergency ambulance transport services that are submitted without an emergency medical condition code may be appealed with documentation of medical necessity that supports the definition of an emergency medical condition.

An emergency ambulance transport that is denied will not be accepted on appeal as a nonemergency transport.

9.3.1 Emergency Prior Authorization

Emergency transports within the state of Texas do not require authorization. Transports within 50 miles of the Texas state border do not require authorization.

The inpatient hospital stay benefit includes medically necessary emergency and non-emergency ambulance transport of the client during an inpatient hospital stay. Ambulance transports during an inpatient hospital stay will not be authorized unless the transport is immediately after the client's discharge from the hospital.

Out-of-state (air, ground, and water) emergency transports require authorization. All out-of-state emergency transport requests will be reviewed by the CSHCN Services Program Medical Director.

9.3.2 Levels of Service

Ambulance services for basic life support and advanced life support are benefits of the CSHCN Services Program. The following CMS and the Texas Health and Safety Code definitions apply for basic and advanced levels of service:

- Basic life support (BLS) is emergency care that uses noninvasive medical acts, and if allowed by the licensing jurisdiction, may include the establishment of a peripheral intravenous (IV) line.
- Advanced life support, level 1 (ALS 1) is emergency care that uses invasive medical acts that include an ALS assessment or at least one ALS intervention.
- Advanced life support, level 2 (ALS 2) is emergency care that uses invasive medical acts including one of the following:
 - At least three separate administrations of one or more medications (excluding crystalloid fluids) by intravenous push/bolus or by continuous infusion

- At least one of the ALS 2 procedures: manual defibrillation/cardioversion, endotracheal intubation, central venous line, cardiac pacing, chest decompression, surgical airway, or intraosseous line.

9.3.3 Emergency Medical Conditions

An emergency is defined as a medical condition that manifests acute symptoms of sufficient severity (including severe pain) such that a prudent layperson with an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in one of the following:

- Placing the client’s health in serious jeopardy
- Serious impairment to bodily functions
- Serious dysfunction of any bodily organ or part

An emergency behavioral health condition is defined as any condition that, in the opinion of a prudent layperson with an average knowledge of health and medicine, requires immediate intervention or medical attention regardless of the nature, without which the client would present an immediate danger to themselves or others or that renders the client incapable of controlling, knowing, or understanding the consequences of their actions.

The following table includes the valid emergency medical condition codes for emergency ambulance services:

Emergency Medical Condition Codes				
B9689	B999	E869	F068	F10929
F19939	F29	G4489	G8929	H579

9.4 Non-Emergency Ambulance Transports

Nonemergency transports are provided by an ambulance provider for a client to or from a scheduled medical appointment, to or from another licensed facility for treatment, or to the client’s home after discharge from a hospital. Nonemergency ambulance transports may be considered a benefit of CSHCN Services Program when alternate means of transport is contraindicated due to the client’s medical or mental health condition.

Note: *In this circumstance, contraindicated means that the client cannot be transported by any other means from the origin to the destination without endangering the individual’s health.*

Medical necessity must be established through prior authorization for all nonemergency ambulance transports.

Nonemergency transports of clients with conditions that do not meet medical necessity criteria are not a benefit of the CSHCN Services Program. Transports must be limited to trips in which the client not only meets the medical necessity requirements, but the transport of the client is the least costly service available.

A provider may appeal denied prior authorization requests by submitting a request for an administrative review to the CSHCN Services Program.

Providers may appeal denied payment for services when prior authorization was not obtained before the service was provided by submitting a request for an administrative review to the CSHCN Services Program.

A provider that is denied payment for rendered ambulance transport services is entitled to payment from the health-care provider or other responsible party that requested the services if:

- Payment is denied because the requesting provider did not obtain prior authorization.
- The performing provider submits a copy of the bill for which payment was denied to the health-care provider or other responsible party for payment.

Clients and/or providers may contact the Medical Transportation Program (MTP) for assistance when non-emergent transports are not approved. MTP may be contacted toll free at 1-877-633-8747 to request transportation services.

9.4.1 Nonemergency Prior Authorizations

Prior authorization will be required for all nonemergency ambulance transports, regardless of the type of transport (e.g., air or specialized emergency medical services vehicle). To obtain prior authorization, a completed [Nonemergency Ambulance Prior Authorization Request Form](#) must be submitted. The [Nonemergency Ambulance Prior Authorization Request Form](#) must not be modified (i.e., changing of the sequence). If altered in any way, the request may be denied.

The following nonemergency transports require prior authorization:

- Hospital to hospital
- Hospital to outpatient facilities
- Round-trip transport from the client's home to a scheduled medical appointment

A physician, health-care provider, or facility must obtain prior authorization from the TMHP/CSHCN Services Program Ambulance Department or a person authorized to act on behalf of the prior authorization department on the same day or the next business day following the day of transport when an ambulance is used to transport a client in circumstances not involving an emergency, and the request is for the authorization of the provision of transportation for only one day. If transportation occurs over the weekend or a holiday, the responsible party must obtain authorization on the following business day.

If the request is for the provision of transportation for more than one day, the prior authorization department shall require a physician, health-care provider, or other responsible party to obtain a single prior authorization before an ambulance is used to transport a client in circumstances that do not involve an emergency. The [Nonemergency Ambulance Prior Authorization Request](#) must be filled out by the facility or the physician's staff that is most familiar with the client's condition. The ambulance provider must not assist in completing any portion of this form. The following rules apply to all nonemergency transports:

- Authorization must be evaluated based on the client's medical needs and may be granted for a length of time appropriate to the client's medical condition.
- A response to a request for authorization will be made no later than 48 hours after receipt of the request.

- A request for authorization will be immediately granted and will be effective for a period of not more than 60 days from the date of issuance if the request includes a written statement from a physician that includes both of the following:
 - A statement that alternative means of transporting the client are contraindicated.
 - A submission date that is no earlier than 60 days before the requested date of service.

Authorization can be obtained by telephone at 1-800-540-0694 for hospital-to-hospital or hospital-to-outpatient-facilities transports. Telephone requests will be accepted only from the transferring facility. Hospital-to-hospital or hospital-to-outpatient-facilities transport information and prior authorization requests may also be faxed or mailed. The requesting hospital should fax or mail supporting documentation to the TMHP/CSHCN Ambulance Unit when requested, to assist in determining medical necessity. Requests may be faxed or mailed to:

Texas Medicaid & Healthcare Partnership
Ambulance Prior Authorizations
PO Box 200735
Austin, TX 78727-0735
Fax: 1-512-514-4205

The requesting provider must select from the following prior authorization periods on the [Nonemergency Ambulance Prior Authorization Request](#):

- **One-time, nonrepeating (1 day).** One-time requests are for those clients who require only a one-time transport.
 - The request must be signed and dated by a physician, physician assistant (PA), nurse practitioner (NP), clinical nurse specialist (CNS), or discharge planner with knowledge of the client's condition. Stamped signatures and dates are not accepted. Without a signature and date, the form will be considered incomplete.
- **Recurring (up to 60 days).** Prior authorization requests are reserved for recurring transports are for those clients whose transportation needs are anticipated to last as long as 60 days.
 - The request must be signed and dated by a physician, PA, NP, or CNS. Stamped signatures and dates are not accepted. Without a signature and date, the form will be considered incomplete.
 - The request must include the approximate number of visits needed for the repetitive transport (i.e. dialysis, radiation therapy).
 - If a prior authorization request has been approved and additional procedure codes are needed because the client's condition has deteriorated or the need for equipment has changed, the requesting provider must submit a new Nonemergency Ambulance Prior Authorization Request form.

The TMHP Ambulance Unit no longer issues nonemergency long-term (61-180 day) approvals effective February 15, 2013. Existing prior authorization approvals by the CSHCN Services Program are not affected by this change.

Long-term prior authorization requests submitted after February 15, 2013 are still processed; however, the approval criteria is issued for only up to 60 days if the client meets the criteria.

The prior authorization department will render a decision within 48 hours for prior authorization requests that are 60 days duration or less. If for any reason, the client's condition deteriorates or the need for equipment changes requiring additional procedure codes to be submitted for the transport after a previous prior authorization request has been approved, the requesting provider must submit a new [Nonemergency Ambulance Prior Authorization Request](#).

9.4.2 Nonemergency Ambulance Exception Request

Clients whose physician has documented a debilitating condition and require recurring trips that will extend longer than 60 days may qualify for an exception to the 60 day prior authorization request.

To request an exception, the provider must submit all the following documentation:

- A completed [Nonemergency Ambulance Exception form](#) that is signed and dated by a physician.
Note: Stamped signatures and dates are not accepted. Without a physician's signature and date, the form is considered incomplete.
- A completed [Nonemergency Ambulance Prior Authorization Request](#)
- Medical records that support the client's debilitating condition which may include, but not limited to:
 - Discharge information
 - Diagnostic images (i.e. MRI, CT, X-rays)
 - Care Plan

Note: Documentation submitted with the statement "client has a debilitating condition" is insufficient.

9.4.3 Documentation of Medical Necessity

Providers may be asked to supply additional documentation to support the client's condition. Retrospective review may be performed to ensure documentation supports the medical necessity of the transport.

Providers must document whether the client is currently an inpatient in a hospital when requesting prior authorization. Prior authorization will not be approved if the provider indicates the client is currently an inpatient in a hospital except for one time transports immediately after the client's discharge from the hospital.

The requesting provider which may include a physician, healthcare provider, or other responsible party is required to maintain the supporting documentation, physician's orders, the Nonemergency Ambulance Prior Authorization Request form and, if applicable, the Nonemergency Ambulance Exception form.

Documentation supporting medical necessity must include either:

- The client is bed-confined before, during and after the trip and alternate means of transport is medically contraindicated and would endanger the client's health (i.e. injury, surgery, or use of respiratory equipment); or
- The client's functional physical and/or mental limitations that have rendered him/her bed-confined must be documented.
Note: Bed-confined is defined as a client who is unable to stand, ambulate, and sit in a chair or wheelchair.
- The client's medical or mental health condition is such that alternate means of the transport is medically contraindicated and would endanger the client's health (i.e., injury, surgery, or the use of respiratory equipment); or
- The client is a direct threat to his/her self or others requiring the use of restraints (chemical or physical) or trained medical personnel during transport for client and staff safety (i.e., suicidal)

When physical restraints are needed, documentation must include, but not limited to:

- Type of restraint

- Time frame of use of the restraint
- Client's condition

Note: The standard straps used in ambulance transport are not considered a restraint.

9.4.3.1 Run Sheets

The run sheet is used as a medical record for ambulance services and may serve as a legal document to verify the care provided, if necessary. The ambulance provider does not have to submit the run sheet with the claim.

The ambulance provider must have documentation to support the claim. Without documentation that would establish the medical necessity of a non-emergency ambulance transport, the transport may not be covered by the CSHCN Services Program.

It is the responsibility of the ambulance provider to maintain (and to furnish to the CSHCN Services Program upon request) concise and accurate documentation. The run sheet must include the client's physical assessment that explains why the client requires ambulance transportation and cannot be safely transported by an alternate mode of transport.

Coverage will not be allowed if the trip record contains an insufficient description of the client's condition at the time of transfer for the CSHCN Services Program to reasonably determine that other means of transportation are contraindicated. Coverage will not be allowed if the description of the client's condition is limited to statements and/or opinions, such as the following:

- "Patient is non-ambulatory."
- "Patient moved by drawsheet."
- "Patient could only be moved by stretcher."
- "Patient is bed-confined."
- "Patient is unable to sit, stand, or walk."

The run sheet should detail the client's condition and must be consistent with documentation found in other supporting medical record documentation (including the nonemergency prior authorization request).

Note: The ambulance provider may decline the transport if the client's medical or mental health condition does not meet the medical necessity requirements.

9.5 Types of Transport

9.5.1 Multiple Client Transport

Multiple client transports are those in which more than one client is transported in the same vehicle at the same time. Claims for CSHCN Services Program clients must be submitted with the transport procedure code and the mileage procedure code with the GM modifier that indicates multiple client transport. Claims must include the names and CSHCN Services Program numbers of other CSHCN Services Program clients who shared the transfer or must indicate "Not a CSHCN Services Program client."

Payment for multiple client transports are adjusted to 80-percent reimbursement of the allowable base rate for the transport for each claim and mileage is divided equally among the clients who share the ambulance.

9.5.2 Specialty Care Transport

Specialty care transport (SCT) is the interfacility transportation of a critically injured or ill client by a ground ambulance vehicle, including the provision of medically necessary supplies and services, at a level of service beyond the scope of the emergency medical technician (EMT) paramedic. SCT is

necessary when a client's condition requires ongoing care that must be furnished by one or more health-care professionals in an appropriate specialty area, for example, emergency or critical care nursing, emergency medicine, respiratory care, cardiovascular care, or a paramedic with additional training.

9.5.3 Air or Water Specialized Medical Services Vehicle Transport

Helicopter, fixed-wing aircraft, or specialized emergency medical services vehicle ambulance transport services (procedure codes A0430, A0431, A0435, A0436, and A0999) will be reviewed by the CSHCN Services Program Medical Director and may be reimbursed if one or more of the following conditions are met:

- The client's medical condition requires immediate and rapid ambulance transport that could not have been provided by ground ambulance.
- The point of client pick-up is inaccessible by ground vehicle.
- Great distance or other obstacles are involved in transporting the client to the nearest appropriate facility.

Emergency air or specialized emergency medical services vehicle transports that do not meet the emergency air criteria, but do meet the ground criteria, will be reimbursed at the appropriate ground rate.

Prior authorization is required for all non-emergency ambulance transports, regardless of the type of transport (e.g., air or specialized emergency medical services vehicle). All ambulance transport services that include helicopter, fixed-wing aircraft, or specialized emergency medical services vehicles will be reviewed by the Medical Director. Claims for specialized emergency medical services vehicles (i.e., boat or airboat) must be submitted using procedure code A0999.

All air ambulance transports (procedure codes A0430 and A0431) must be billed with the corresponding air mileage procedure code A0435 or A0436.

9.5.4 Out-of- Locality Transport

Out-of-locality transports may be reimbursed if a local facility is not adequately equipped to treat the condition. "Out-of-locality" refers to one-way transfers of 50 or more miles from point of pickup to point of destination.

9.5.5 Extra Attendant

The use of an additional attendant must be related to extraordinary circumstances that prevent the basic crew from transporting a client safely. The extra attendant must be certified by the Department of State Health Services (DSHS) to provide emergency medical services.

Reasons an extra attendant may be required beyond the basic crew include, but are not limited to the following:

- Necessity of additional special medical equipment or treatment en route to destination (Providers must describe what special treatment and equipment is required and why it requires an attendant.)
- Client behavior that may be a danger to the client or ambulance crew or requires or may require restraints
- Extreme obesity (Providers must specify the client's weight and functional limitations.)

The CSHCN Services Program does not reimburse for an extra attendant based solely on an ambulance provider's internal policy.

The use of an extra attendant for air transport is not a benefit of the CSHCN Services Program. Reimbursement for an extra attendant (procedure code A0424) will be denied if billed with air transport (procedure codes A0430 or A0431).

9.5.5.1 Extra Attendant - Emergency Ambulance Transports

Emergency transports that use an extra attendant do not require prior authorization.

The billing provider's medical documentation must clearly indicate the services the attendant performed along with rationale for the services to indicate medical necessity of the attendant. The information that supports medical necessity must be kept in the billing provider's medical record and is subject to retrospective review.

When more than one client is transported at the same time in the same vehicle, the use of an extra attendant may be required when each client being transported requires medical attention and close monitoring.

9.5.5.2 Extra Attendant - Nonemergency Ambulance Transports

Prior authorization is required when an extra attendant is needed for any nonemergency transport. When an extra attendant is needed for subsequent transports, the prior authorization must be updated.

The requesting provider must prove medical necessity on the prior authorization request by identifying attendant services that could not be provided by the basic crew. The information that supports medical necessity must be kept in the requesting provider's medical record and is subject to retrospective review.

9.5.6 Oxygen

Reimbursement for oxygen (procedure code A0422) is limited to one procedure code per transport.

Oxygen (procedure code A0422) is reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

9.5.7 Ambulance Disposable Supplies

Ambulance disposable supplies are included in the global fee for SCT transports and must not be billed separately.

Reimbursement for BLS and ALS disposable supplies (procedure codes A0382 or A0398) is separate from the established fee for BLS and ALS ambulance transports and is limited to one billable procedure code per transport.

Claims submitted for BLS or ALS supplies will be denied unless a corresponding ALS or BLS transport is billed on the same claim.

9.5.8 Mileage

The CSHCN Services Program does not reimburse air or ground mileage when the client is not on board the ambulance.

Providers must calculate the number of miles traveled by using the ambulance vehicle odometer reading or an internet mapping tool. Mileage reported on the claim must be the actual number of miles traveled.

Claims for ground ambulance transports procedure codes A0426, A0427, A0428, A0429, A0433, A0434 and A0999 must be submitted with mileage procedure code A0425.

A transport and mileage procedure code must be billed on the same claim to be considered for reimbursement. Transport and mileage procedure codes should never be reported as stand-alone services.

Note: *Ambulance transport claims with a billed mileage amount of \$0.00 may be reimbursed. To qualify for reimbursement, the transport claim must include a mileage quantity that is greater than zero.*

Providers may not include a mileage charge as part of the transport charge or in any other charges on the claim.

9.5.9 Waiting Time

Waiting time (procedure code A0420) is reimbursed up to one hour and may be submitted when it is the general billing practice of local ambulance companies to charge for unusual waiting time (over 30 minutes) based on the following:

- Separate charges must be billed for unusual wait times.
- The circumstances that necessitate a wait time and the exact time involved must be documented.

The amount charged for waiting time must not exceed the charge for a one-way transfer.

9.6 Relation of Service to Time of Death

The CSHCN Services Program may reimburse an ambulance provider in the following circumstances related to a deceased client:

- The client dies in the ambulance while en route to the destination.
- The ambulance services to the point of pickup for the client who is pronounced dead by the physician after the ambulance is called.

9.7 Ambulance Transport Services That Are Not Benefits

The CSHCN Services Program does not reimburse providers for the following:

- Services that do not result in a transport to a facility, regardless of any medical care rendered. Transport is only a benefit when the client is on board the ambulance.
- An extra charge for a night call.
- Ambulance services performed in the skilled nursing facility (SNF), intermediate care facility (ICF), or extended care facility settings.

9.8 Claims Filing and Reimbursement

9.8.1 Claims Filing

Ambulance claims must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Ambulance claims must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

Run sheets, medical records, or emergency room records are not required to be submitted with the claim submission. If, however, documentation is submitted with the claim, an emergency medical technicians signature is required on all of the documents.

Note: *Providers must maintain any documentation that substantiates the medical need for the transport and must ensure that the documentation is available to the CSHCN Services Program or its designee upon request.*

The ambulance provider is responsible for the integrity of the information about the client's condition necessitating the transport and the medical necessity of the transport. The ambulance provider may be sanctioned, including exclusion from the CSHCN Services Program, for completing or signing a claim form that includes a false or misleading representation of the client's condition or of the medical necessity of the transport.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information on electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

All claims submitted on paper or electronically must include the 2-letter origin and destination codes on every line detail. The origin is the first letter, and the destination is the second letter. For example, modifiers HR would indicate a hospital origin with a residence destination.

Providers must not bill CSHCN Services Program clients for ambulance services.

9.8.1.1 Emergency Ambulance Claims

Emergency air ambulance claims must include the appropriate procedure code(s) and all of the following additional information to be considered for reimbursement:

- Distance of transport
- Time of transport
- Acuity of client, origin or destination modifier, and relevant vital signs

Ambulance providers must use an appropriate ICD-10-CM diagnosis code in Block 21 of the CMS-1500 paper claim form or electronic equivalent to document the client's condition and the reason for the transport. If a diagnosis is not known at the time of the transport, providers must use the diagnosis code that most closely represents the client's physical signs and symptoms at the time of the transport. If the above documentation does not indicate an emergency, the claim is denied.

Providers billing electronically can enter the data supporting the necessity for the emergency transport in the Comments field or the Purpose of Stretcher field of the electronic claim. Providers using the CMS-1500 paper claim form can enter relevant vital signs and detailed narrative in Block 19 or 21 of the claim form. For ambulance transfers where the destination is a hospital, enter the name and address of the facility in Block 32.

9.8.1.2 Non-emergency Ambulance Claims

All nonemergency ambulance claims must include the appropriate procedure codes and all of the following additional information to be considered for reimbursement:

- Detailed description of the client's medical condition necessitating the transport
- Distance of transport
- Time of transport
- Acuity of client, origin and destination modifier, and relevant vital signs

Providers billing electronically can enter the data supporting the necessity for the nonemergency transport in the Comments field or the Purpose of Stretcher field of the electronic claim. Providers using the CMS-1500 paper claim form can enter relevant vital signs and detailed narrative in Block 19 or 21 of

the claim form. For ambulance transfers where the destination is a hospital, enter the name and address of the facility in Block 32. For transfers from hospital-to-hospital, indicate in Block 19 the services needed at the second facility that were unavailable at the first facility.

9.8.1.3 Billing Mileage with \$0.00

If the appropriate transport procedure code is submitted for reimbursement, claims with a billed mileage amount of \$0.00 may be reimbursed. To qualify for reimbursement, the transport claim must include a mileage quantity that is greater than zero.

9.8.1.4 National Correct Coding Initiative (NCCI) Guidelines

The HCPCS/CPT codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the CMS NCCI web page at www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI MUE guidance, medical policy prevails.

9.8.2 Reimbursement

Ambulance procedure codes are reimbursed at a reasonable charge, which is the lesser of the billed amount or the amount allowed by Texas Medicaid.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

9.8.2.1 One-day Payment Window Reimbursement Guidelines

The one-day payment window reimbursement guidelines do not apply for ambulance services.

Referto: Section 24.3.7, "Payment Window Reimbursement Guidelines" in Chapter 24, "Hospital" for additional information about the one-day payment window reimbursement guidelines for services related to an inpatient hospital stay.

9.9 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

10.1 Enrollment

To enroll in the CSHCN Services Program, ACD providers must be actively enrolled in Texas Medicaid, have a valid CSHCN Services Program Provider Agreement, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state ACD providers may enroll and must meet all these conditions and be approved by the Department of State Health Services (DSHS).

ACD providers may enroll as a CSHCN Services Program provider by completing the provider enrollment application available through the TMHP website at www.tmhp.com.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

Section 3.1.4, “Services Provided Outside of Texas” in Chapter 3, “Client Benefits and Eligibility” for more detailed information.

10.2 Benefits, Limitations, and Authorization Requirements

An ACD system is also known as an augmentative and alternative communication (AAC) device system. Benefits are limited to the purchase, rental, replacement, modification, and repair of ACDs that function independently of any other technology (i.e., may not rely on a computer in any way) for program-eligible clients when a documented need exists.

The following procedure codes must be used to request prior authorization or file claims for the purchase or rental of ACDs:

Procedure Codes				
E2500	E2502	E2504	E2506	E2508
E2510	E2512	E2599		

Claims for the purchase of a carrying case (procedure code E2599) must be submitted with modifier U1. The prior authorization request for a carrying case must include the make, model, and purchase date of the ACD system.

Items that are included in the reimbursement for an ACD system and are not reimbursed separately include, but are not limited to, the following:

- Applicable software (except for software purchased specifically to enable a client-owned computer or a personal digital assistant [PDA] to function as an ACD system)
- Batteries
- Battery charger
- Power supplies
- Interface cables
- Interconnects
- Sensors
- Moisture guard
- A/C or other electrical adapters
- Adequate memory to allow for system expansion within a 3-year time frame
- Access device when necessary
- Mounting device when necessary
- All training necessary to instruct the client, family, and caregivers in the use of the ACD system
- Any extended warranty

Prior authorization is mandatory for:

- All ACD rentals or purchases.
- ACD modifications.
- All accessories, including a carrying case.
- Replacement of ACDs or components.
- Repairs.

ACDs may be prior-authorized if the following criteria are met:

- They are prescribed by the client's treating physician.
- Clinical documentation supports medical necessity and appropriateness (refer to individual sections in this chapter for specific documentation requirements).

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

The [CSHCN Services Program Prior Authorization Request for Augmentative Communication Devices \(ACDs\) form](#).

10.2.1 Purchases or Rentals

Requests for ACD purchases should take into account all projected changes in the client's communication abilities for a minimum of 2 years. An ACD is not approved for purchase unless the client has used the requested ACD for a trial period of at least 30 days but not more than 60 days. Prior authorization may be obtained for rental (if feasible) during the trial period. If an ACD is unavailable for rental, a waiver may be granted with supporting documentation. All components, accessories, and switches, including mounting devices and lap trays necessary for use, must be used during the trial period before a decision to purchase can be approved. ACD systems and equipment that have been purchased are anticipated to last a minimum of 3 years.

Referto: Chapter 37, "Speech-Language Pathology (SLP) Services" for procedure codes related to therapy or training for use of an ACD during the trial period.

Requests for accessories that were unavailable at the time of the initial prescription may be considered once every 2 years with adequate supporting documentation. ACDs may be replaced every 3 years when one of the following occurs:

- They are lost or irreparably damaged.
- Three years have passed since the initial prescription and the ACD is no longer functional.
- Documentation supports medical necessity and appropriateness for replacing the current ACD.

10.2.1.1 Prior Authorization Requirements for Purchase or Rental

Prior authorization requests must include all of the following information or documentation:

- The medical diagnosis and how it relates to the client's communication needs
- Any significant medical information pertinent to the use of the ACD
- The limitations of the client's current communication abilities, system, and devices
- A statement as to why the prescribed ACD is the most effective, with a comparison of benefits versus alternative options
- A complete description of the ACD with all accessories, components, mounting devices, and modifications necessary for client use (must include the manufacturer's name, model number, and retail price)
- Documentation that the client is mentally, emotionally, and physically capable of operating and using the requested ACD
- A professional assessment must be conducted by a licensed speech-language pathologist in conjunction with other disciplines, such as physical or occupational therapy. This assessment must be completed before the ACD is prescribed by the physician. The prescribing physician should base the prescription on the professional assessment. The professional assessment by a licensed speech-language pathologist must include the following information:
 - Communication status and limitations
 - Speech and language skills assessment, including prognosis for speech or written communication
 - A description of the client's cognitive readiness
 - A description of the client's interactional, behavioral, or social abilities
 - A description of the client's capabilities, including intellectual, postural, physical, and sensory (visual and auditory)
 - A description of the client's motivation to communicate
 - A description of the client's residential, vocational, and educational setting
 - A description of how the ACD will be implemented or integrated into environments
 - A description of alternative ACDs considered, including a comparison of capabilities
 - A description of the ability of the ACD to meet the projected communication needs and growth potential of the client and how long the ACD will meet the client's needs
 - A detailing of any anticipated changes, modifications, or upgrades and projected time frames (short and long term)
 - A detailed training plan (who, what, when, and where)

- Specifications of the ACD, all of the component accessories that are necessary for the proper use of the ACD, and documentation of all necessary therapies and training

It is recommended that the preliminary evaluation for an ACD include the involvement of an occupational or physical therapist to assess the client's seating and postural needs and the motor skills required to use the ACD

10.2.2 Modifications

Modifications may be prior authorized with adequate supporting documentation of medical necessity and appropriateness when one of the following occurs:

- The client's needs have changed.
- A capability of or potential for communication develops that could not have been anticipated.

ACD modifications and requests for accessories that were unavailable at the time of the initial prescription may be considered once every 2 years with adequate supporting documentation.

10.2.2.1 Prior Authorization Requirements for Modifications

Documentation required for modifications of ACDs must include:

- A re-evaluation by a licensed speech-language pathologist.
- A prescription from the treating physician.
- Documentation that significant changes have occurred in the client's environment, physical abilities, or linguistic abilities and that such changes impair or affect the client's ability to benefit from the ACD currently in use.
- Documentation that the prescribed modification provides the client with the potential for an increased level of functional communication with significant reduction of disability.

10.2.3 Repairs

All repairs require prior authorization. Nonwarranty repairs of an ACD system may be considered for prior authorization with documentation from the manufacturer explaining why the repair is not covered by warranty and with documentation of medical necessity.

Providers must use procedure code K0739 when billing nonwarranty repairs.

The CSHCN Services Program does not pay shipping and handling charges.

10.2.3.1 Prior Authorization Requirements for ACD Repairs

Documentation required for repairs of ACDs must include:

- A prescription from the treating physician.
- A statement that describes the needed repair.
- Justification of medical necessity.
- The estimated cost of repairs.

10.2.4 Replacement

Replacement of ACDs or components is considered in the following circumstances:

- When loss or irreparable damage has occurred
- It has been 3 years since the initial prescription, and the ACD is no longer functional
- Documentation supports medical necessity or appropriateness of replacing the current ACD

10.2.4.1 Prior Authorization Requirements for Replacement

Prior authorization requests must include a joint statement from the prescribing physician and a licensed speech-language pathologist that includes:

- The cause of loss or damage and what measures have been taken to prevent reoccurrences.
- Information stating the client's abilities or communication needs are unchanged, or no other ACDS currently available are better suited to the client's needs.
- A new evaluation or assessment if requesting a different ACD from one that has been lost or damaged.

10.2.5 Excluded Items

Excluded items that are not related to the ACD system and software components that are not necessary to operate the system are not a benefit of the CSHCN Services Program. Excluded items include, but are not limited to:

- Printers.
- Wireless internet access devices.
- Voice prosthetics or artificial larynxes.
- Speech generating software programs for personal computers or PDAs (procedure code E2511).

10.3 Claims Information

The [CSHCN Services Program Documentation of Receipt form](#) is required and must be completed before reimbursement can be made for any equipment delivered to a client. The certification form is available in both [English](#) and [Spanish](#), and must include the name of the item, the date the client received the DME, and the signatures of the provider and the client or primary caregiver. Documentation of delivery must include one of the following:

- A delivery slip or invoice signed and dated by client or caregiver. The delivery slip or invoice must contain the client's full name, the address to which the supplies were delivered, the item description, and the numerical quantities that were delivered to the client.
- A dated carrier tracking document with shipping date and delivery date. The dated carrier tracking document must be attached to the delivery slip or invoice. The dated delivery slip or invoice must include an itemized list of goods that includes the descriptions and numerical quantities of the supplies that were delivered to the client. This document could also include prices, shipping weights, shipping charges, and any other description.

The date of delivery on the form is the date of service (DOS) that should appear on the claim. Providers must retain individual delivery slips or invoices for each DOS that document the date of delivery for all supplies provided to a client and must disclose them to HHSC or its designee upon request. This information is not filed with the claim. It must be retained for the life of the piece of equipment or until the equipment is authorized for replacement.

ACD services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information on electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

Home health DME providers must use benefit code DM3 on all claims and authorization requests. All other providers must use benefit code CSN on all claims and authorization requests.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

10.4 Reimbursement

ACDs may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid. Reimbursement for the purchase or rental of ACDs is as follows:

- Rental will be reimbursed for short term use of the item (less than one year). When the rental period is expected to exceed 10 months, purchase must be considered.
- Purchase of an ACD is justified when the estimated duration of need multiplied by the rental rate exceeds the purchase price of the equipment.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

10.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

11.1 Enrollment

To enroll in the CSHCN Services Program, durable medical equipment (DME) providers must be actively enrolled in Texas Medicaid, have a valid CSHCN Services Program Provider Agreement, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out of state DME (noncustom DME) providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border, and approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

Section 3.1.4, “Services Provided Outside of Texas” in Chapter 3, “Client Benefits and Eligibility” for more detailed information.

11.2 Benefits, Limitations, and Authorization Requirements

11.2.1 Blood Pressure Devices

Ambulatory blood pressure monitoring (ABPM) is a benefit of CSHCN Services Program when used as a diagnostic tool to assist a physician in diagnosing hypertension in individuals whose blood pressure is either elevated, or inconclusive when evaluated in the office alone.

Blood pressure devices and components are benefits of the CSHCN Services Program only in the home setting for self-monitoring when the equipment is prescribed by a physician.

Providers must maintain documentation, including the diagnosis, that supports medical necessity of the requested equipment in the client’s medical record and is subject to retrospective review.

11.2.1.1 Ambulatory Blood Pressure Monitoring

Ambulatory Blood Pressure Monitoring (ABPM) is indicated for the evaluation of one of the following conditions:

- White coat hypertension that is defined as:

- A clinic or office blood pressure greater than 140/90mm HG on at least three separate clinic or office visits with two separate measurements at each visit.
- At least two documented separate blood pressure measurements taken outside the clinic or office, which are less than 140/90mm Hg.
- No evidence of end-organ damage
- Resistant hypertension
- Hypotensive symptoms as a response to hypertension medications
- Nocturnal angina
- Episodic hypertension
- Syncope

Ambulatory blood pressure monitoring is indicated for diagnostic purposes only and should not be used for maintenance monitoring.

11.2.1.2 Manual and Automated Blood Pressure Devices

Manual blood pressure devices (procedure code A4660) require manual cuff inflation with real-time visualization of the results displayed on the manometer. Automated blood pressure devices (procedure code A4670) inflate the cuff manually or automatically and display the blood pressure results on a small screen.

The purchase of manual or automated blood pressure devices may be considered when submitted with one of the following diagnosis codes:

Diagnosis Code	Descriptions
I10	Essential (primary) hypertension
I110	Hypertensive heart disease with heart failure
I119	Hypertensive heart disease without heart failure
I120	Hypertensive chronic kidney disease with stage 5 chronic kidney disease or end stage renal disease
I129	Hypertensive chronic kidney disease with stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease
I130	Hypertensive heart and chronic kidney disease with heart failure and stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease
I1310	Hypertensive heart and chronic kidney disease without heart failure, with stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease
I1311	Hypertensive heart and chronic kidney disease without heart failure, with stage 5 chronic kidney disease, or end stage renal disease
I132	Hypertensive heart and chronic kidney disease with heart failure and with stage 5 chronic kidney disease, or end stage renal disease
I150	Renovascular hypertension
I151	Hypertension secondary to other renal disorders
I152	Hypertension secondary to endocrine disorders
I158	Other secondary hypertension
I159	Secondary hypertension, unspecified
I160	Hypertensive urgency
I161	Hypertensive emergency

Diagnosis Code	Descriptions
I169	Hypertensive crisis, unspecified
I2541	Coronary artery aneurysm
I2582	Chronic total occlusion of coronary artery
I2601	Septic pulmonary embolism with acute cor pulmonale
I2602	Saddle embolus of pulmonary artery with acute cor pulmonale
I2609	Other pulmonary embolism with acute cor pulmonale
I2690	Septic pulmonary embolism without acute cor pulmonale
I2692	Saddle embolus of pulmonary artery without acute cor pulmonale
I2699	Other pulmonary embolism without acute cor pulmonale
I270	Primary pulmonary hypertension
I271	Kyphoscoliotic heart disease
I2781	Cor pulmonale (chronic)
I2782	Chronic pulmonary embolism
I2789	Other specified pulmonary heart diseases
I279	Pulmonary heart disease, unspecified
I340	Nonrheumatic mitral (valve) insufficiency
I341	Nonrheumatic mitral (valve) prolapse
I342	Nonrheumatic mitral (valve) stenosis
I348	Other nonrheumatic mitral valve disorders
I349	Nonrheumatic mitral valve disorder, unspecified
I350	Nonrheumatic aortic (valve) stenosis
I351	Nonrheumatic aortic (valve) insufficiency
I352	Nonrheumatic aortic (valve) stenosis with insufficiency
I358	Other nonrheumatic aortic valve disorders
I359	Nonrheumatic aortic valve disorder, unspecified
I360	Nonrheumatic tricuspid (valve) stenosis
I361	Nonrheumatic tricuspid (valve) insufficiency
I362	Nonrheumatic tricuspid (valve) stenosis with insufficiency
I368	Other nonrheumatic tricuspid valve disorders
I369	Nonrheumatic tricuspid valve disorder, unspecified
I370	Nonrheumatic pulmonary valve stenosis
I371	Nonrheumatic pulmonary valve insufficiency
I372	Nonrheumatic pulmonary valve stenosis with insufficiency
I378	Other nonrheumatic pulmonary valve disorders
I379	Nonrheumatic pulmonary valve disorder, unspecified
I38	Endocarditis, valve unspecified
I39	Endocarditis and heart valve disorders in diseases classified elsewhere
I421	Obstructive hypertrophic cardiomyopathy
I422	Other hypertrophic cardiomyopathy

Diagnosis Code	Descriptions
I423	Endomyocardial (eosinophilic) disease
I424	Endocardial fibroelastosis
I425	Other restrictive cardiomyopathy
I428	Other cardiomyopathies
I440	Atrioventricular block, first degree
I441	Atrioventricular block, second degree
I442	Atrioventricular block, complete
I4430	Unspecified atrioventricular block
I4439	Other atrioventricular block
I444	Left anterior fascicular block
I445	Left posterior fascicular block
I4460	Unspecified fascicular block
I4469	Other fascicular block
I447	Left bundle-branch block, unspecified
I450	Right fascicular block
I4510	Unspecified right bundle-branch block
I4519	Other right bundle-branch block
I452	Bifascicular block
I454	Nonspecific intraventricular block
I455	Other specified heart block
I456	Pre-excitation syndrome
I4589	Other specified conduction disorders
I459	Conduction disorder, unspecified
I471	Supraventricular tachycardia
I472	Ventricular tachycardia
I479	Paroxysmal tachycardia, unspecified
I480	Paroxysmal atrial fibrillation
I481	Persistent atrial fibrillation
I482	Chronic atrial fibrillation
I483	Typical atrial flutter
I484	Atypical atrial flutter
I4891	Unspecified atrial fibrillation
I4892	Unspecified atrial flutter
I495	Sick sinus syndrome
I501	Left ventricular failure
I5020	Unspecified systolic (congestive) heart failure
I5021	Acute systolic (congestive) heart failure
I5022	Chronic systolic (congestive) heart failure
I5023	Acute on chronic systolic (congestive) heart failure

Diagnosis Code	Descriptions
I5030	Unspecified diastolic (congestive) heart failure
I5031	Acute diastolic (congestive) heart failure
I5032	Chronic diastolic (congestive) heart failure
I5033	Acute on chronic diastolic (congestive) heart failure
I5040	Unspecified combined systolic (congestive) and diastolic (congestive) heart failure
I5041	Acute combined systolic (congestive) and diastolic (congestive) heart failure
I5042	Chronic combined systolic (congestive) and diastolic (congestive) heart failure
I5043	Acute on chronic combined systolic (congestive) and diastolic (congestive) heart failure
I509	Heart failure, unspecified
I950	Idiopathic hypotension
I951	Orthostatic hypotension
I952	Hypotension due to drugs
I953	Hypotension of hemodialysis
I9581	Postprocedural hypotension
I9589	Other hypotension
I959	Hypotension, unspecified
N000	Acute nephritic syndrome with minor glomerular abnormality
N001	Acute nephritic syndrome with focal and segmental glomerular lesions
N002	Acute nephritic syndrome with diffuse membranous glomerulonephritis
N003	Acute nephritic syndrome with diffuse mesangial proliferative glomerulonephritis
N004	Acute nephritic syndrome with diffuse endocapillary proliferative glomerulonephritis
N005	Acute nephritic syndrome with diffuse mesangiocapillary glomerulonephritis
N006	Acute nephritic syndrome with dense deposit disease
N007	Acute nephritic syndrome with diffuse crescentic glomerulonephritis
N008	Acute nephritic syndrome with other morphologic changes
N009	Acute nephritic syndrome with unspecified morphologic changes
N010	Rapidly progressive nephritic syndrome with minor glomerular abnormality
N011	Rapidly progressive nephritic syndrome with focal and segmental glomerular lesions
N012	Rapidly progressive nephritic syndrome with diffuse membranous glomerulonephritis
N013	Rapidly progressive nephritic syndrome with diffuse mesangial proliferative glomerulonephritis
N014	Rapidly progressive nephritic syndrome with diffuse endocapillary proliferative glomerulonephritis
N015	Rapidly progressive nephritic syndrome with diffuse mesangiocapillary glomerulonephritis
N016	Rapidly progressive nephritic syndrome with dense deposit disease
N017	Rapidly progressive nephritic syndrome with diffuse crescentic glomerulonephritis
N018	Rapidly progressive nephritic syndrome with other morphologic changes
N019	Rapidly progressive nephritic syndrome with unspecified morphologic changes
N030	Chronic nephritic syndrome with minor glomerular abnormality

Diagnosis Code	Descriptions
N031	Chronic nephritic syndrome with focal and segmental glomerular lesions
N032	Chronic nephritic syndrome with diffuse membranous glomerulonephritis
N033	Chronic nephritic syndrome with diffuse mesangial proliferative glomerulonephritis
N034	Chronic nephritic syndrome with diffuse endocapillary proliferative glomerulonephritis
N035	Chronic nephritic syndrome with diffuse mesangiocapillary glomerulonephritis
N036	Chronic nephritic syndrome with dense deposit disease
N037	Chronic nephritic syndrome with diffuse crescentic glomerulonephritis
N038	Chronic nephritic syndrome with other morphologic changes
N039	Chronic nephritic syndrome with unspecified morphologic changes
N040	Nephrotic syndrome with minor glomerular abnormality
N041	Nephrotic syndrome with focal and segmental glomerular lesions
N042	Nephrotic syndrome with diffuse membranous glomerulonephritis
N043	Nephrotic syndrome with diffuse mesangial proliferative glomerulonephritis
N044	Nephrotic syndrome with diffuse endocapillary proliferative glomerulonephritis
N045	Nephrotic syndrome with diffuse mesangiocapillary glomerulonephritis
N046	Nephrotic syndrome with dense deposit disease
N047	Nephrotic syndrome with diffuse crescentic glomerulonephritis
N048	Nephrotic syndrome with other morphologic changes
N049	Nephrotic syndrome with unspecified morphologic changes
N050	Unspecified nephritic syndrome with minor glomerular abnormality
N051	Unspecified nephritic syndrome with focal and segmental glomerular lesions
N052	Unspecified nephritic syndrome with diffuse membranous glomerulonephritis
N053	Unspecified nephritic syndrome with diffuse mesangial proliferative glomerulonephritis
N054	Unspecified nephritic syndrome with diffuse endocapillary proliferative glomerulonephritis
N055	Unspecified nephritic syndrome with diffuse mesangiocapillary glomerulonephritis
N056	Unspecified nephritic syndrome with dense deposit disease
N057	Unspecified nephritic syndrome with diffuse crescentic glomerulonephritis
N058	Unspecified nephritic syndrome with other morphologic changes
N059	Unspecified nephritic syndrome with unspecified morphologic changes
N08	Glomerular disorders in diseases classified elsewhere
N170	Acute kidney failure with tubular necrosis
N171	Acute kidney failure with acute cortical necrosis
N172	Acute kidney failure with medullary necrosis
N178	Other acute kidney failure
N179	Acute kidney failure, unspecified
N181	Chronic kidney disease, stage 1
N182	Chronic kidney disease, stage 2 (mild)

Diagnosis Code	Descriptions
N183	Chronic kidney disease, stage 3 (moderate)
N184	Chronic kidney disease, stage 4 (severe)
N185	Chronic kidney disease, stage 5
N186	End stage renal disease
N189	Chronic kidney disease, unspecified
N19	Unspecified kidney failure
N250	Renal osteodystrophy
N251	Nephrogenic diabetes insipidus
N2581	Secondary hyperparathyroidism of renal origin
N2589	Other disorders resulting from impaired renal tubular function
N259	Disorder resulting from impaired renal tubular function, unspecified
N269	Renal sclerosis, unspecified
N270	Small kidney, unilateral
N271	Small kidney, bilateral
Q208	Other congenital malformations of cardiac chambers and connections
Q211	Atrial septal defect
Q212	Atrioventricular septal defect
R001	Bradycardia, unspecified

Manual and automated blood pressure devices that have been purchased are anticipated to last a minimum of 1 year and may be considered for replacement when 1 year has passed or when the equipment is not functional and not repairable.

11.2.1.3 Hospital-Grade Blood Pressure Devices

The rental or purchase of a hospital-grade blood pressure device (procedure code A9279 with modifier U1) may be considered when documentation from the physician supports medical necessity and explains why the client could not use a standard automatic blood pressure device.

A hospital-grade blood pressure device, as defined by the CSHCN Services Program, includes memory for continuous recording, has an alarm system to notify the caregiver of abnormal readings, and is capable of frequent or continuous automatic blood pressure and heart rate monitoring with correction of motion artifact.

The following indications are recognized by the CSHCN Services Program for hospital-grade blood pressure devices:

- Hypotension
- Essential hypertension
- Hypertensive heart disease
- Hypertensive renal disease
- Acute pulmonary heart disease
- Chronic pulmonary heart disease
- Cardiomyopathy
- Conduction disorders

- Cardiac dysrhythmias
- Heart failure
- Acute kidney failure
- Chronic kidney disease
- Hydronephrosis
- Vesicoureteral reflux with neuropathy
- Bulbus cordis anomalies and anomalies of cardiac septal closure

Hospital-grade blood pressure devices that have been purchased are anticipated to last a minimum of 3 years and may be considered for replacement when 3 years have passed or when the equipment is not functional and not repairable.

For clients who are birth through 11 months of age, the rental or purchase of a hospital-grade blood pressure device is a benefit when documentation supports medical necessity and includes an explanation of why the client cannot use a standard automated blood pressure device.

For clients who are 12 months of age or older, the rental or purchase of a hospital-grade blood pressure device is a benefit on a case-by-case basis. Supporting documentation of medical necessity must be provided.

11.2.1.4 Blood Pressure Device Components Repair or Replacement

Replacement of blood pressure cuffs (procedure code A4663) or replacement of other components (procedure code A9900) may be considered when submitted with documentation of medical necessity explaining why a blood pressure cuff or other component(s) needs to be replaced.

Repair of equipment (procedure code A9900) will be considered after the factory warranty has expired.

11.2.2 Authorization Requirements

Providers must submit the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\)](#) for services that require prior authorization.

To facilitate determination of medical necessity and avoid unnecessary denials, the physician must provide correct and complete information, including documentation of medical necessity for the equipment or supplies requested. The physician must maintain documentation of medical necessity in the client's medical record. The requesting provider may be asked for additional information to clarify or complete a request for a hospital-grade blood pressure monitor.

11.2.2.1 Ambulatory Blood Pressure Monitoring

ABPM does not require authorization or prior authorization.

Providers must document that the ABPM was performed for at least 24 hours.

11.2.2.2 Manual and Automated Blood Pressure Devices

Prior authorization is not required for manual (procedure code A4660) and automated (procedure code A4670) blood pressure devices if the client's diagnosis is listed in Section 11.2.1.2, "Manual and Automated Blood Pressure Devices" in this chapter. Providers must maintain documentation to support medical necessity in the medical record.

Prior authorization is required for all other diagnoses and requires medical review of written documentation of the medical need for a manual and automatic blood pressure device. Documentation should include the diagnosis and the rationale for monitoring blood pressure in the home.

11.2.2.3 Hospital-Grade Blood Pressure Devices

Prior authorization is required for the rental or purchase of the hospital-grade blood pressure device. Documentation must support medical necessity for the hospital-grade blood pressure device, support the client's need for self-monitoring, and explain why the client could not use an automated blood pressure device. The documentation must include:

- All pertinent diagnoses.
- Initial evaluation.
- Symptoms.
- Duration of symptoms.
- Any recent hospitalizations (within the past 12 months).
- Comorbid conditions.
- How frequent or continuous BP monitoring will affect treatment.
- All pertinent laboratory and radiology results.
- Client's weight.
- A family or caregiver(s) who has an understanding of cause and effect, awareness of the client's condition, and who has agreed to accept the responsibility to be trained to use the hospital-grade monitor.

11.2.2.3.1 Rental

Prior authorization may be granted for a 6-month rental. The request must be submitted with documentation of medical necessity as outlined above that supports the client's need for self-monitoring and addressing why an automated blood pressure device will not meet the client's needs. The rental of the device may be reimbursed once every calendar month for a maximum of 6 months.

Recertification for one additional 6-month period may be considered when the physician provides current documentation that supports the ongoing medical necessity of self-monitoring and that confirms the client or family is compliant with its use.

Rental of equipment includes all necessary supplies, adjustments, repairs, and replacement parts.

ABPM is limited to two services per lifetime, any provider.

ABPM over two services may be considered when documentation of medical necessity is submitted with the claim.

11.2.2.3.2 Purchase

Purchase of a hospital-grade blood pressure device will not be considered for prior authorization until the client has completed a 6-month trial period.

Purchase of a hospital-grade blood pressure device may be prior authorized when all of the following criteria are met:

- The client is 12 months of age or older.
- Documentation of medical necessity supports the client's need for ongoing self-monitoring and addresses why an automated blood pressure device will not meet the client's needs.

All rental costs of the hospital-grade blood pressure device apply toward the purchase price.

11.2.2.4 Blood Pressure Device Components Repair or Replacement

Replacement of blood pressure cuffs or replacement of other components may be considered for purchase with prior authorization when submitted with documentation of medical necessity explaining why the blood pressure cuff or other component(s) need to be replaced.

Repair of equipment will be considered for prior authorization after the factory warranty has expired.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for more information about authorizations and prior authorizations.

Chapter 17, "Durable Medical Equipment (DME)" for more information about DME service.

Providers must use the following procedure codes for ABPM:

Procedure Code	Description
93784	Ambulatory blood pressure monitoring, utilizing a system such as magnetic tape and/or computer disk, for 24 hours or longer; including recording, scanning analysis, interpretation and report.
93786	Ambulatory blood pressure monitoring, utilizing a system such as magnetic tape and/or computer disk, for 24 hours or longer; recording only.
93788	Ambulatory blood pressure monitoring, utilizing a system such as magnetic tape and/or computer disk, for 24 hours or longer; scanning analysis with report.
93790	Ambulatory blood pressure monitoring, utilizing a system such as magnetic tape and/or computer disk, for 24 hours or longer; review with interpretation and report.

11.3 Documentation of Receipt

When the equipment is delivered, providers must complete the [CSHCN Services Program Documentation of Receipt form](#). The date of delivery on the form is the date of service that should appear on the claim. The provider must request a signature at the time of delivery from the client or client’s representative. The provider should retain this form and not submit it with the claim.

Providers must maintain a copy of this form in their files for the life of the piece of equipment or until the equipment is authorized for replacement.

The documentation of receipt form is available in both [English](#) and [Spanish](#).

11.4 Claims Information

Modifier RR must be used for DME rental equipment, and modifier NU must be used for the purchase of new DME equipment. Home health DME providers must use the DM3 benefit code when submitting claims and authorization.

DME services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills or itemized statements are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [Centers for Medicare & Medicaid Services \(CMS\) NCCI web](#)

[page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information on electronic claims submissions.

11.5 Reimbursement

DME may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid. Items or services that do not have a maximum fee determined by the Health and Human Services Commission (HHSC) are manually priced. If an item is manually priced, the manufacturer's suggested retail price (MSRP) must be submitted for consideration of rental or purchase with the appropriate procedure codes. Manually priced items are considered for reimbursement at the MSRP minus a discount as determined by HHSC.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

Important: *The provider must agree to accept the CSHCN Services Programs reimbursement as payment in full.*

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

11.6 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

CERTIFIED REGISTERED NURSE ANESTHETIST (CRNA)

CERTIFIED REGISTERED NURSE ANESTHETIST (CRNA)

Table of Contents

- 12.1 Enrollment3
- 12.2 Benefits, Limitations, and Authorization Requirements.....3
 - 12.2.1 Authorization Requirements 4
- 12.3 Claims Information.....4
- 12.4 Reimbursement.....5
- 12.5 TMHP-CSHCN Services Program Contact Center5

12.1 Enrollment

To enroll in the CSHCN Services Program, a certified registered nurse anesthetist (CRNA) must be a registered nurse (RN) approved by the Texas Board of Nursing (BON) to practice as an advanced practice registered nurse (APRN). They must be currently certified by the Council on Certification of Nurse Anesthetists or the Council on Recertification of Nurse Anesthetists. They must be actively enrolled in Texas Medicaid. Each CRNA must be enrolled individually. Out-of-state CRNA providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

12.2 Benefits, Limitations, and Authorization Requirements

Services provided by CRNAs must be within the scope of practice for the APRN as defined by Texas State law and prescribed and supervised by a physician (doctor of medicine [MD] or doctor of osteopathy [DO]) who must be licensed in the state in which they practice. CRNA services are a benefit for the same covered services that are provided by a physician. All limitations applied to physicians for the same service will also be applied to the CRNA. Services provided by a CRNA are a benefit of the CSHCN Services Program if provided under one of the following conditions:

- No physician anesthesiologist is on the medical staff of the facility where the services are provided (e.g., rural settings).
- No physician anesthesiologist is available to provide the services.
- The physician performing the procedure requiring the services or the eligible client requiring the services specifically requests the services of a CRNA.
- The CRNA is scheduled or assigned to provide the services in accordance with policies of the facility in which the services are provided.
- The services are provided by the CRNA in connection with a medical emergency.

The CSHCN Services Program will not reimburse the CRNA for equipment, drugs, or supplies. These are the responsibility of the facility where the CRNA services are provided and are included in the facility reimbursement. The CRNA may be directly reimbursed for professional services.

Referto: Section 31.2.5, “Anesthesia Services” in Chapter 31, “Physician” for additional information about services provided by CRNAs.

12.2.1 Authorization Requirements

Anesthesia services are exempt from authorization requirements.

12.3 Claims Information

All CRNA services must be billed with a CRNA individual provider number, even if the CRNA is part of a group. Claims for anesthesia services provided by CRNAs must include the following:

- Appropriate Current Procedural Terminology (CPT) anesthesia procedure code for all procedures billed. If the anesthesia is given for more than one procedure, identify all procedures performed and indicate what is considered the major procedure. A breakdown of charges is not necessary.
- One of the following modifier combinations:
 - QX and U2—Services provided with medical direction of an anesthesiologist. (Must be submitted by a CRNA who provided services under the medical direction of an anesthesiologist.)
 - QZ and U1—Services provided without medical direction of an anesthesiologist; with direction by the physician. (Must be submitted when a CRNA has personally performed the anesthesia services, is not medically directed by the anesthesiologist, and is directed by the physician.)
- Anesthesia time in minutes.
- Provider’s usual and customary charges for services being billed.

Modifiers U1 (indicating one anesthesia claim is expected) and U2 (indicating two anesthesia claims are expected) are state-defined modifiers that may be billed by an anesthesiologist or CRNA.

Modifier U1, indicating that only one claim will be submitted, cannot be billed by two providers for the same procedure, client, and date of service. Modifier U2, indicating that two claims will be submitted, can only be billed by two providers for the same procedure, client, and date of service if one of the providers was medically directed by the other. Denied claims may be appealed with supporting documentation of any unusual circumstances.

CRNA services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/CPT codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information on electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

12.4 Reimbursement

CRNAs may be reimbursed the lower of the billed amount or 92 percent of the amount allowed by Texas Medicaid for the same service provided by a physician anesthesiologist.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

Referto: Section 31.2.5, "Anesthesia Services" in Chapter 31, "Physician" for detailed information about the reimbursement methodology for anesthesiology services.

Time units are based on the total time in minutes indicated on the claim divided by 15 minute increments. Providers billing anesthesia time must refer to the *Current Procedural Terminology (CPT) Manual*, Time Reporting Section, definition of time: "Anesthesia time begins when the anesthesiologist begins to prepare the patient for the induction of anesthesia in the operating room or in an equivalent area and ends when the anesthesiologist is no longer in personal attendance, that is, when the patient may be safely placed under postoperative supervision."

12.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

13.1 Enrollment

To enroll in the CSHCN Services Program, a provider must be licensed in the State of Texas as a CRCP and actively enrolled in Texas Medicaid. A provider must be enrolled individually and assigned a provider identifier by the CSHCN Services Program, whether practicing independently or contracting with a home health agency or other outpatient organization.

CRCPs may enroll as a CSHCN Services Program provider by completing the provider enrollment application available through the TMHP-CSHCN Services Program. Out-of-state CRCPs must be located in the United States, within 50 miles of the Texas state border.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program enrollment procedures.

13.2 Benefits, Limitations, and Authorization Requirements

Services performed by CRCPs are a benefit of the CSHCN Services Program if the client meets one of the following criteria:

- Has a respiratory or cardiorespiratory diagnosis requiring CRCP services
- Requires mechanical ventilation or depends on other medical technology to aid respiration

If a client meets the criteria listed above, the client may receive up to 30 visits for respiratory care services provided by a CRCP, per calendar year.

Services that are a benefit include, but are not limited to:

- CRCP services and treatments prescribed by a physician.
- Educating the client or appropriate family members about the in-home respiratory care.

Procedure codes 99503 and 99504 must be used when requesting prior authorization or billing for services. Procedure code 99503 is limited to once per day, per provider.

Expendable supplies are not a benefit for CRCPs.

Referto: Chapter 36, “Respiratory Equipment and Supplies” for more information about obtaining supplies.

13.2.1 Prior Authorization Requirements

CRCP services must be prior authorized. Before services are performed, requests for CRCP services must be submitted in writing using the [CSHCN Services Program Prior Authorization Request for Respiratory Care—Certified Respiratory Care Practitioner \(CRCP\)](#). Services may be prior authorized for a maximum of 2 months at a time.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

13.3 Claims Information

All CRCP services must be billed with the CRCP’s individual provider identifier whether practicing independently or contracting with a home health agency or other outpatient organization. Claims for CRCP services must include pertinent diagnosis codes.

CRCP services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, “TMHP Electronic Data Interchange (EDI)” for information about electronic claims submissions.

Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for general information about claims filing.

Section 5.7.2.4, “CMS-1500 Paper Claim Form Instructions” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

13.4 Reimbursement

CRCPs may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

13.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

14.1 Enrollment

To enroll in the CSHCN Services Program, dental providers must be actively enrolled in Texas Medicaid, maintain an active license status with the Texas State Board of Dental Examiners (TSBDE), have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state dental providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border.

To be eligible to receive reimbursement for dental anesthesia providers must have the following information on file with TMHP:

- Current anesthesia permit level issued by the TSBDE (applies to all dental providers)
- Portability permit from the TSBDE (required to be reimbursed for anesthesia provided in a location other than the provider's office or satellite office), if applicable
- Proof of an anesthesiology residency recognized by the American Dental Board of Anesthesiology (required to be reimbursed at the enhanced rate for procedure code D9223), if applicable

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, "Provider Enrollment" in Chapter 2, "Provider Enrollment and Responsibilities" for more detailed information about CSHCN Services Program provider enrollment procedures.

14.2 Benefits, Limitations, and Authorization Requirements

Diagnostic, therapeutic, and preventive dental services are a benefit of the CSHCN Services Program. Orthodontic services, medically necessary dental rehabilitation and restoration services, care of dental emergencies, and medically necessary services provided by doctors of dental surgery (DDS) or doctors of dental medicine (DMD) including, but not limited to, cleft-craniofacial surgery are also a benefit of the CSHCN Services Program.

14.2.1 Prior Authorization Requirements

Prior authorization is required for all orthodontia services and selected dental services.

All requests for prior authorization must be submitted using the [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#). The TMHP-CSHCN Services Program may require the submission of X-rays, models, etc., for specific prior-authorized services. All prior authorization requests must include specific rationale for the requested service, including documentation of medical necessity and appropriateness of the recommended treatment. Additional documentation, including current periapical radiographs, must be maintained in the client's medical or dental record and submitted to the CSHCN Services Program on request.

Authorization and prior authorization request forms submitted to TMHP must be signed and dated by the dental provider treating the client. If indicated on the form, an authorized representative's signature is acceptable. All signatures and dates must be current. Stamped signatures are not permitted. Alterations to dates and signatures, such as cross-outs or white-outs, are not allowed. Submitted forms without an original hand-written signature and date will be rejected. Providers must keep the original, signed forms in the client's medical record as documentation.

Important: Refer to each individual section under Benefits and Limitations for specific information about prior authorization requirements.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

Tip: Photocopy this form and retain the original for future use.

Note: Fax transmittal confirmations are not accepted as proof of timely prior authorization submission.

14.2.2 Diagnostic Services

The CSHCN Services Program may reimburse the following diagnostic dental services for CSHCN Services Program eligible clients:

- Clinical oral evaluations
- Radiographs or diagnostic imaging
- Tests or examinations, including oral pathology procedures

Based on the American Academy of Pediatric Dentistry's (AAPD) definition of a dental home, the CSHCN Services Program defines a dental home as the dental provider who supports an ongoing relationship with the client that is inclusive of all aspects of oral health care delivered in a comprehensive, continuously accessible, coordinated, compassionate, culturally competent, and family-centered way. Establishment of a client's dental home begins no later than 12 months of age and includes referral to dental specialists when appropriate.

In providing a dental home for a client, the dentist enhances the ability to assist children and their parents in the quest for optimum oral health care. A First Dental Home (FDH) visit can be initiated as early as 6 months of age and is billed using procedure code D0145. The FDH visit includes, but is not limited to:

- Oral examination.
- Oral hygiene instruction.
- Dental prophylaxis, if appropriate.
- Topical fluoride application using fluoride varnish, if appropriate.
- Caries risk assessment.
- Dental anticipatory guidance.

Diagnostic services should be performed for all clients, preferably starting within the first 6 months of the eruption of the first primary tooth, but no later than 1 year of age. Dental home providers should record the oral and physical health history, perform a caries assessment, develop an appropriate preventive oral health regimen, and communicate with and counsel the client's parent, legal guardian, or primary caregiver.

Caries susceptibility tests (procedure code D0425) are used to analyze the acidic level of the oral cavity using acid or alkali sensitive materials to ascertain the client's likelihood of developing caries. Caries susceptibility tests are considered part of all other dental procedures and are not separately reimbursed.

Requesting providers must retain in the client's medical record all documentation to support the diagnosis and treatment of trauma.

14.2.2.1 Prior Authorization Requirements

Prior authorization is required for cone-beam imaging (procedure code D0367) and for diagnostic services not adequately described by more specific procedure codes where an unspecified procedure code (D0999) is necessary.

To obtain prior authorization, a [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#) must be submitted along with documentation supporting medical necessity and appropriateness. Documentation required includes, but is not limited to:

- Presenting condition(s).
- Medical necessity.
- The status of the client's treatment.

Prior authorization is not required for any other diagnostic service.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

Section 14.2.2.3, "Cone-Beam Imaging" in this chapter.

14.2.2.2 Clinical Oral Evaluations

Documentation supporting medical necessity for procedure codes D0140, D0160, D0170, and D0180 must be maintained by the provider in the client's medical record and must include:

- The client complaint supporting medical necessity for the examination.
- The area of the mouth that was examined or the tooth involved.
- A description of what was done during the treatment.
- Supporting documentation of medical necessity, including, but not limited to, radiographs or photographs.

The following clinical oral evaluation procedure codes may be considered for reimbursement:

Procedure Code	Comments and Limitations
D0120	<ul style="list-style-type: none"> • Used for periodic and comprehensive oral evaluations • Limited to once every 6 months by the same provider • Procedure code D8660 will deny when billed for the same date of service by the same provider • Age limitation = NA

Procedure Code	Comments and Limitations
D0140	<ul style="list-style-type: none"> • Used only for the initial emergency examination of a specific tooth or area of the mouth • Limited to once per day by the same provider and twice per day for any provider • Provider must document the medical necessity and the specific tooth or area of the mouth on the claim • Denied when billed with procedure code D0160 for the same date of service by the same provider • May be paid in addition to a comprehensive oral examination (procedure code D0150) or a periodic oral examination (procedure code D0120) when billed within a 6-month period • Age limitation = NA
D0145	<ul style="list-style-type: none"> • Age limitation = 6 months through 35 months of age
D0150	<ul style="list-style-type: none"> • Used for a comprehensive oral evaluation; limited to one service every three years by the same provider; procedure code D8660 will deny when billed for the same date of service by the same provider • Age limitation = NA
D0160	<ul style="list-style-type: none"> • Used for a problem-focused, detailed, and extensive oral evaluation; provider must document the medical necessity and the specific tooth or area of the mouth on the claim • May be paid in addition to a comprehensive oral examination (procedure code D0150) or a periodic oral examination (procedure code D0120) when billed within a 6-month period • Limited to once per day by the same provider • Age limitation = 1 year of age or older
D0170	<ul style="list-style-type: none"> • Used as a follow up to a problem-focused evaluation; provider must document the medical necessity and the specific tooth or area of the mouth on the claim • Denied when billed with procedure code D0140 or D0160 on the same date of service by the same provider • Limited to once per day by any provider • Age limitation = NA
D0180	<ul style="list-style-type: none"> • Used for extensive periodontal evaluation of pain or problems • Denied when billed on the same date of service as procedure code D0120, D0140, D0145, D0150, D0160, or D0170 by the same provider • May be paid in addition to a comprehensive oral examination (procedure code D0150) or a periodic oral examination (procedure code D0120) when billed within a 6-month period • Age limitation = 13 years of age or older

A caries risk assessment procedure code (D0601, D0602, or D0603) will be required on the same claim when dental examination procedure code D0120, D0145, or D0150 is submitted for reimbursement. The client's dental condition(s) that justifies the risk assessment classification submitted with the claim must be clearly documented and maintained by the provider in the client's medical record.

Professionally developed caries risk assessment tools are available at:

- American Dental Association (ADA)
- American Academy of Pediatric Dentistry (AAPD)
- Department of State Health Services (DSHS), Oral Health Program

14.2.2.3 Cone-Beam Imaging

Cone-beam imaging is used to determine the best course of treatment for cleft palate repair, skeletal anomalies, post-trauma, implanted or fixed prosthodontics, and orthodontic or orthognathic procedures. Cone-beam imaging is limited to initial treatment planning, surgery, and post-surgical follow-up.

Procedure code D0367 must be prior authorized by the TMHP Dental Director.

Procedure code D0367 is limited to a combined maximum of three services per calendar year. Additional services may be considered by the TMHP Dental Director with documentation of medical necessity.

14.2.2.4 First Dental Home

Based on the American Academy of Pediatric Dentistry's definition, the CSHCN Services Program defines a dental home as the dental provider who supports an ongoing relationship with the client that includes all aspects of oral health care delivered in a comprehensive, continuously accessible, coordinated, and family-centered way.

In providing a dental home for a client, the dental provider enhances the ability to assist clients and their parents in obtaining optimum oral health care. The first dental home visit can be initiated as early as 6 months of age and must include, but is not limited to, the following:

- Comprehensive oral examination
- Oral hygiene instruction with primary caregiver
- Dental prophylaxis, if appropriate
- Topical fluoride varnish application when teeth are present
- Caries risk assessment
- Dental anticipatory guidance

The dental home provider must keep supporting documentation for procedure code D0145 in the client's medical record. The supporting documentation must include, but is not limited to, the following:

- Oral and physical health history review
- Dental history review
- Primary caregiver's oral health
- Oral evaluation
- An appropriate preventive oral health regimen
- Caries risk assessment
- Dental prophylaxis, which may include a toothbrush prophylaxis
- Oral hygiene instruction with parent or caregiver
- Anticipatory guidance communicated to the client's parent, legal guardian, or primary caregiver, to include the following:
 - Oral health and home care
 - Oral health of primary caregiver or other family members

- Development of mouth and teeth
- Oral habits
- Diet, nutrition, and food choices
- Fluoride needs
- Injury prevention
- Medications and oral health
- Fluoride varnish application
- Any referrals, including dental specialist's name

Procedure codes D0120, D0150, D0160, D0170, D0180, D1120, D1206, D1208, and D8660 will be denied when billed on the same date of service, for any provider as D0145.

A First Dental Home examination is limited to ten services per client lifetime with at least 60 days between visits by any provider.

Reimbursement for procedure code D0145 is limited to dentists certified by the Texas Department of State Health Services (DSHS). Providers can complete a free continuing education course online or attend classroom training to be certified to provide First Dental Home services. For information about training, refer to the Department of State Health Services (DSHS) Oral Health Program web page at www.dshs.texas.gov/dental/firstdentalhometraining.shtm.

14.2.2.5 Radiographs or Diagnostic Imaging

The number of radiograph films required for a complete intraoral series is dependent on the age of the client. An intraoral series requires at least eight films. Adults and children older than 12 years of age require 12 to 20 films to be considered an intraoral series. A panoramic radiographic image (procedure code D0330) plus a minimum of four bitewing radiographic images (procedure code D0274) may be considered equivalent to a complete intraoral series including radiographic images (procedure code D0210).

Supporting documentation must be kept in the client's dental record when medical necessity is not evident on radiographs.

The following radiographs or diagnostic imaging procedure codes may be considered for reimbursement:

Procedure Code	Limitations
D0210	<ul style="list-style-type: none"> • Denied when submitted on an emergency claim • Age limitation = 2 years or older
D0220	<ul style="list-style-type: none"> • Limited to one per day by the same provider • Age limitation = 1 year of age or older
D0230	<ul style="list-style-type: none"> • Age limitation = 1 year of age or older
D0240	<ul style="list-style-type: none"> • Limited to two per day by the same provider • Age limitation = NA
D0250	<ul style="list-style-type: none"> • Limited to one per day by the same provider • Age limitation = 1 year of age or older
D0270	<ul style="list-style-type: none"> • Limited to one per day by the same provider • Age limitation = 1 year of age or older

Procedure Code	Limitations
D0272	<ul style="list-style-type: none"> Denied when billed with procedure code D0210 same day, by the same provider Limited to one per day by the same provider Age limitation = 1 year of age or older
D0273	<ul style="list-style-type: none"> Denied when billed with procedure code D0210 same day, by the same provider Limited to one per day by the same provider Age limitation = 1 year of age or older
D0274	<ul style="list-style-type: none"> Denied when billed with procedure code D0210 same day, by the same provider Limited to one per day by the same provider Age limitation = 2 years of age or older
D0277	<ul style="list-style-type: none"> Denied when billed with procedure code D0210 same day, by the same provider Denied when billed with procedure code D0330 same day, by the same provider Limited to one per day by the same provider Age limitation = 2 years of age or older
D0310	<ul style="list-style-type: none"> Age limitation = 1 year of age or older
D0320	<ul style="list-style-type: none"> Age limitation = 1 year of age or older
D0321	<ul style="list-style-type: none"> Age limitation = 1 year of age or older
D0322	<ul style="list-style-type: none"> Age limitation = 1 year of age or older
D0330	<ul style="list-style-type: none"> Limited to one per day by any provider Limited to one service every 3 years by the same provider Age limitation = 3 years of age or older
D0340	<ul style="list-style-type: none"> Denied when billed with procedure code D8050 or D8080 Limited to one per day by the same provider Age limitation = 1 year of age or older
D0350	<ul style="list-style-type: none"> Must be used when billing for photographs Accepted only when diagnostic quality radiographs cannot be taken Documentation of medical necessity must be submitted with the claim Limited to one per day by the same provider Age limitation = NA
D0367	<ul style="list-style-type: none"> Age limitation = NA

14.2.2.6 Tests and Oral Pathology Procedures

The following procedure codes may be considered for reimbursement and are limited to clients who are 1 year of age or older:

Procedure Codes			
D0415	D0460	D0470	D0502

Procedure code D0460:

- Includes multiple teeth and contralateral comparisons based on medical necessity.
- Is considered part of any endodontic procedure and is not separately reimbursed when billed on the same date of service as any endodontic procedure.
- Is not payable when billed for primary teeth.
- Is limited to one service per day by the same provider.

Referto: Section 14.2.5, “Therapeutic Services” in this chapter for additional information about endodontic procedures.

When billing for diagnostic procedures not adequately described by other procedure codes, providers should use procedure code D0999.

Only one emergency or trauma claim per client, per day may be submitted. Separate services may be submitted for the same client on the same date of service, one for emergency or trauma and one for nonemergency or routine care.

When billing electronically for emergency or trauma-related dental services, use the ET modifier to indicate emergency.

14.2.3 Orthodontia Services

Orthodontia services are benefits of the CSHCN Services Program for clients with prior authorization and an appropriate diagnosis code that indicates cleft lip, cleft palate, congenital anomalies of skull and face bones, dentofacial functional abnormalities, or major anomalies of jaw size.

Orthodontia for cosmetic purposes only is not a benefit of the CSHCN Services Program. All removable or fixed orthodontic appliances must be billed with procedure codes D8210 or D8220.

14.2.3.1 Prior Authorization Requirements

Prior authorization is required for all orthodontic services except for the initial orthodontic visit. Prior authorization is only approved for a complete orthodontic treatment plan, and all active orthodontic treatments must be completed within 36 months. Prior authorization is not transferable to another dentist. The new provider must request prior authorization to complete the orthodontic treatment initiated by the previous provider.

Extensions on allowed time frames may be considered no sooner than 60 days before the authorization expires. Extra monthly adjustments (procedure code D8670) do not require prior authorization, but the time frame may be considered for extension not to exceed 36 months of actual treatment.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

14.2.3.2 Required Documentation

To obtain prior authorization, the provider must submit the [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#).

The following documentation must accompany the form, and must include the date of service the documentation was obtained:

- A complete orthodontia treatment plan including all the procedures required to complete full treatment such as:
 - Extractions
 - Orthognathic surgery
 - Upper and lower appliances

- Monthly adjustments
- Appliance removal (if needed)
- Special appliances
- All diagnostic models
- A cephalometric radiograph with tracing
- Facial photographs
- A full series of radiographs or a panoramic radiograph

Note: *Diagnostic models, radiographs, and any other paper diagnostic tools submitted to TMHP will be returned to the submitting provider. Requests submitted with damaged diagnostic models will be returned to the provider as an incomplete request.*

A prior authorization request for orthodontia services must include one of the following indications:

- Cleft lip
- Cleft palate
- Congenital anomalies of skull and face bones
- Dentofacial functional abnormalities
- Major anomalies of jaw size

A prior authorization request for comprehensive orthodontic treatment or crossbite therapy submitted without the [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#), diagnostic model, radiographs (X-rays), and any other necessary supporting documentation will not be considered and will be returned to the provider as incomplete.

The following information must be provided in the case of a transfer of care from one provider to another:

- A request for prior authorization as outlined above
- Explanation of why the client left the previous provider
- Explanation of the client's treatment status

14.2.3.3 Submitting Local Codes for Orthodontic Procedures

To ensure appropriate claims processing, the local code reflecting the specific service is required on the claim.

For electronic submissions other than TexMedConnect submissions, providers must follow the steps below to ensure the correct local code is accurately applied to the appropriate claim detail:

- 1) Submit the DPC prefix in the first three bytes of NTE02 at the 2400 loop. Submit the DPC prefix only once.
- 2) Submit the remark code (local code) in bytes 4–8, based on the order of the claim detail. Do not enter any spaces or punctuation between remark codes, unless to designate that the detail is not billed with D8210 or D8220.

Example: *For a claim with three details, where details 1 and 3 are submitted with procedure code W-D8210 and detail 2 is not, enter the following information in the NTE02 at the 2400 loop:*

DPC1014D 1046D
(The space shows that detail 2 needs no local code.)

Example: If all three details require a local code, enter DPC and the appropriate local codes in sequence without any spaces between the codes:

DPC1024D1055D1056D

(The absence of spaces indicates that local codes are needed for all three details.)

To submit using TexMedConnect, enter the local code into the Remarks Code field, located under the Details header. The Remarks Code field is the field following the Procedure Code field. TexMedConnect submitters are not required to enter the DPC prefix, because it is automatically placed in the appropriate field on the TexMedConnect electronic claim.

For paper claim submissions, providers must enter the local code in the Remarks section of the claim form.

Failure to follow the above steps does not cause the claim to deny; however, manual intervention is required to process the claim and a delay of payment may be the result.

Orthodontic procedure codes that were local codes used for prior authorization and reimbursement have been converted to CDT (national) procedure codes.

The following procedures are not included in comprehensive treatment:

CDT Procedure Code	Remarks Code	Description
D8660	Z2009	Initial orthodontic visit
D8670	Z2013	Orthodontic adjustments, per month
D7997*	Z2016	Premature appliance removal, per arch
*May only be paid to a provider not billing for comprehensive treatment.		

Procedure code D8080 is a comprehensive code and includes a diagnostic workup as well as all upper and lower orthodontic appliances (braces) necessary to treat the client.

CDT Procedure Code	Remarks Code	Description
D8080	Z2009	Diagnostic workup, approved
	<i>or</i>	<i>or</i>
	Z2011	Orthodontic appliance, upper (braces)
	<i>or</i>	<i>or</i>
	Z2012	Orthodontic appliance, lower (braces)

When a diagnostic workup is not approved, individual components may be considered for separate reimbursement. Use the following procedure codes:

CDT Procedure Code	Remarks Code	Description
D0330	Z2010	Diagnostic workup, not approved
D0340		
D0350		
D0470		

Procedure code D8680 includes all retainers necessary to treat the client. Use the following remarks codes according to the services provided:

Remarks Code	Description
1033D	Mandibular, fixed, 2x4 retainer
1034D	Mandibular, fixed, 3x3 retainer

Remarks Code	Description
1035D	Mandibular, fixed, 4x4 retainer
Z2014	Orthodontic retainer, upper
Z2015	Orthodontic retainer, lower

Procedure code D8050 includes a crossbite workup and removable appliance. Use the following remarks codes according to the services provided:

Remarks Code	Description
8110D	Crossbite therapy, removable appliance
Z2018	Crossbite, workup

Procedure code D8060 includes a crossbite workup and the fixed appliance. Use the following remarks codes according to the services provided:

Remarks Code	Description
8120D	Crossbite therapy, fixed appliance
Z2018	Crossbite, workup

The orthodontic diagnostic work up procedures are considered inclusive procedures. Procedure codes D0330, D0340, D0350, and D0470 are denied when billed with a diagnostic work up procedure.

The following tables display the special fixed and removable orthodontic appliances. Under the current provisions of the *Health Insurance Portability and Accountability Act (HIPAA)*, all fixed appliances are designated as procedure code D8220, and all removable appliances are designated as procedure code D8210. These are entered as a line item on the paper American Dental Association (ADA) Dental Claim Form with the appropriate fee. However, the remarks codes (former local procedure codes), as appropriate and listed below, also need to be entered on the authorization request form and in the Remarks field of the dental claim form (paper and electronic) to ensure correct authorization, accurate records, and reimbursement. *Failure to bill the correct procedure codes may result in claim processing delays.*

Note: *Prior authorization must be requested using both the CDT procedure code and the remarks codes for orthodontia services.*

Use the following remarks codes in the Remarks field for fixed appliances (procedure code D8220):

Remarks Code	Fixed Appliances Description
1000D	Appliance for horizontal projections
1001D	Appliance for recurved springs
1002D	Arch wires for crossbite correction, for total treatment
1003D	Banded maxillary expansion appliance
1008D	Bonded expansion device
1012D	Crib
1015D	Distalizing appliance with springs
1016D	Expansion device
1018D	Fixed expansion device
1019D	Fixed lingual arch
1020D	Fixed mandibular holding arch
1021D	Fixed rapid palatal expander

Remarks Code	Fixed Appliances Description
1025D	Herbst appliance, fixed or removable
1026D	Interocclusal cast cap surgical splints
1028D	Jasper jumpers
1029D	Lingual appliance with hooks
1030D	Mandibular anterior bridge
1031D	Mandibular bihelix, similar to a quad helix for mandibular expansion to attempt nonextraction treatment
1036D	Mandibular lingual, 6x6, arch wire
1042D	Maxillary lingual arch with spurs
1043D	Maxillary and mandibular distalizing appliance
1044D	Maxillary quad helix with finger springs
1045D	Maxillary and mandibular retainer with pontics
1049D	Modified quad helix appliance
1050D	Modified quad helix appliance, with appliance
1051D	Nance stent
1052D	Nasal stent
1057D	Palatal bar
1058D	Post surgical retainer
1059D	Quad helix appliance held with transpalatal arch horizontal projections
1060D	Quad helix maintainer
1061D	Rapid palatal expander (RPE), i.e., quad helix, haas, or menne
1068D	Stapled palatal expansion appliance
1072D	Thumb sucking appliance, requires submission of models
1076D	Transpalatal arch
1077D	Two bands with transpalatal arch and horizontal projections forward
1078D	W-appliance

Use the following remarks codes in the Remarks field for removable appliances (procedure code D8210):

Remarks Code	Removable Appliances Description
1004D	Bite plate/bite plane
1005D	Bionator
1006D	Bite block
1007D	Bite plate with push springs
1010D	Chateau appliance (face mask, palatal expander, and hawley)
1011D	Coffin spring appliance
1013D	Dental obturator, definitive (obturator)
1014D	Dental obturator, surgical (obturator, surgical stayplate, immediate temporary obturator)
1017D	Face mask (protraction mask)
1022D	Frankel appliance
1023D	Functional appliance for reduction of anterior open bite and crossbite

Remarks Code	Removable Appliances Description
1024D	Head gear (face bow)
1027D	Intrusion arch
1032D	Mandibular lip bumper
1037D	Mandibular removable expander with bite plane (crozat)
1038D	Mandibular ricketts rest position splint
1039D	Mandibular splint
1040D	Maxillary anterior bridge
1041D	Maxillary bite-opening appliance with anterior springs
1046D	Maxillary Schwarz
1047D	Maxillary splint
1048D	Mobile intraoral arch (MIA), similar to a bihelix for nonextraction treatment
1053D	Occlusal orthotic device
1054D	Orthopedic appliance
1055D	Other mandibular utilities
1056D	Other maxillary utilities
1062D	Removable bite plane
1063D	Removable mandibular retainer
1064D	Removable maxillary retainer
1065D	Removable prosthesis
1066D	Sagittal appliance, 2-way
1067D	Sagittal appliance, 3-way
1069D	Surgical arch wires
1070D	Surgical splints (surgical stent/wafer)
1071D	Surgical stabilizing appliance
1073D	Tongue thrust appliance, requires submission of models
1074D	Tooth positioner, full maxillary and mandibular
1075D	Tooth positioner with arch

The following procedure codes are used to bill orthodontic services:

ADA Procedure Codes				
D5951	D5952	D5953	D5954	D5955
D5958	D5959	D5960	D7280	D7997
D8050	D8060	D8080	D8210	D8220
D8660	D8670	D8680	D8690	D8693
D8999				

The procedure codes in the table above are not reimbursed to orthodontists or oral maxillofacial surgeons. These providers may be reimbursed by the CSHCN Services Program as a dentist or dentistry group provider type by using the appropriate provider identifier when billing claims.

The rebonding or recementing (procedure code D8693) is limited to one per arch, per lifetime. Procedure code D8693 is limited to clients who are 6 years of age or older.

14.2.4 Preventive Services

The following dental preventive services are benefits of the CSHCN Services Program:

- Oral hygiene instruction
- Dental prophylaxis and topical fluoride treatment
- Dental sealants
- Space maintainers, including recementation and removal

14.2.4.1 Authorization Requirements

Authorization or prior authorization is not required for preventive dental services.

14.2.4.2 Oral Hygiene Instruction

Procedure code D1330 may be considered for reimbursement for clients who are 1 year of age or older when the services are above and beyond the routine brushing and flossing instructions included in the prophylaxis procedure codes and when additional time and expertise is directed toward the client's care. Procedure code D1330 is limited to once per year by any provider and is denied when billed on the same day as procedure codes D1110, D1120, D1206, or D1208 by any provider.

Procedure code D1330 is not reimbursed to orthodontists or oral maxillofacial surgeons. These providers may be reimbursed by the CSHCN Services Program as a dentist or dentistry group provider type by using the appropriate provider identifier when billing claims.

14.2.4.3 Dental Prophylaxis and Topical Fluoride Treatment

When performing fluoride treatments, procedure code D1120 and D1208 or procedure code D1110 and D1208 must be billed on the same date of service.

Procedure codes D1110 and D1120 include oral health instructions, and are limited to one prophylaxis per 6 calendar months, by any provider. Procedure codes D1110 and D1120 will be denied when submitted on an emergency claim.

The following procedure codes may be considered for reimbursement but are not payable on the same date of service as any D4000 series (periodontal) procedure codes:

Procedure Code	Age Limitation
D1110	13 years of age or older
D1120	6 months through 12 years of age
D1206	NA
D1208	NA

The procedure codes in the table above are not reimbursed to orthodontists or oral maxillofacial surgeons. These providers may be reimbursed by the CSHCN Services Program as a dentist or dentistry group provider type by using the appropriate provider identifier when billing claims.

14.2.4.4 Dental Sealants

Dental sealants may be considered for reimbursement when applied to the deciduous (baby or primary) teeth or permanent teeth for clients who are 1 year of age or older. Dental sealants may be applied by a dentist or dental hygienist.

Sealants may be applied to the occlusal, buccal, and lingual pits and fissures of any tooth. The tooth must be at risk for dental decay and be free of proximal caries and restorations on the surface to be sealed. Each tooth must be billed separately using procedure code D1351. Reimbursement is on a per tooth basis, regardless of the number of surfaces sealed. Tooth numbers and surfaces must be indicated on the claim form.

Dental sealants and replacement sealants are limited to one every 3 years, per tooth, for the same provider. Procedure code D1351 is not payable on the same date of service as any of D4000 series (periodontal) procedure codes. During claims processing or retrospective review, if the claim, narrative, documentation, or charting by a provider includes language, terms, or acronyms indicating a preventative resin was applied, the procedure will be reimbursed as a dental sealant, not as a restorative procedure.

Procedure code D1351 is not reimbursed to orthodontists or oral maxillofacial surgeons. These providers may be reimbursed by the CSHCN Services Program as a dentist or dentistry group provider type by using the appropriate provider identifier when billing claims.

Procedure code D1352 may be reimbursed for posterior permanent teeth only to clients who are 5 years of age or older.

Procedure code D1352 will be denied if a caries risk assessment (procedure code D0602 or D0603) has not been submitted, by any provider, within 180 days prior to procedure code D1352.

14.2.4.5 Space Maintainers

One space maintainer per tooth ID may be reimbursed per lifetime, per client. Replacement space maintainers may be considered on appeal with documentation supporting medical or dental necessity.

Space maintainers may be reimbursed with procedure codes D1510, D1515, D1520, D1525, and D1575.

When procedure codes D1510 or D1515 have been previously reimbursed, the recementation of space maintainers may be considered for reimbursement to either the same or a different CSHCN Services Program dental provider when billed with procedure code D1550.

Procedure codes D1510, D1515, D1520, D1525, D1550, and D1575 may be reimbursed for clients who are 1 year of age or older. These procedure codes are not reimbursed to orthodontists or oral maxillofacial surgeons. These providers may be reimbursed by the CSHCN Services Program as a dentist or dentistry group provider type by using the appropriate provider identifier when billing claims.

Procedure code D1555 may be considered for reimbursement for the removal of a space maintainer. This procedure code is denied to the provider or group practice that originally placed the appliance.

Space maintainers are designed to prevent tooth movement and are a benefit in the following situations:

- After premature loss of a deciduous or primary tooth first or second molar(s) (tooth identification) (TID): A, B, I, J, K, L, S, and T for clients who are 1 through 12 years of age.
- After loss of a permanent first molar(s) (TID: 3, 14, 19, and 30) for clients who are 3 years of age or older.
- After premature loss of a deciduous/primary second molar (TID: A, J, K, and T) for clients who are 3 through 7 years of age billed with (procedure code D1575).

Space maintainers submitted with procedure code D1575 are limited to one per tooth ID, per client.

14.2.4.6 Noncovered Counseling Services

14.2.4.6.1 Dental Nutrition Counseling

Procedure code D1310 is not a benefit of the CSHCN Services Program as a separate procedure. Dental nutrition counseling is included as part of all preventive, therapeutic, and diagnostic dental procedures. A client requiring more involved nutrition counseling may be referred to their primary care physician. The provider can refer the client to a CSHCN Services Program-enrolled licensed dietitian for further nutrition counseling.

14.2.4.6.2 Tobacco Counseling

Procedure code D1320 is not a benefit of the CSHCN Services Program as a separate procedure. Tobacco counseling may be reimbursed as a part of all preventive, therapeutic, and diagnostic dental procedures.

14.2.5 Therapeutic Services

The following therapeutic dental services are benefits of the CSHCN Services Program:

- Restorations
- Endodontics
- Periodontics
- Prosthodontics, both fixed and removable
- Maxillofacial prosthetics
- Implants
- Oral and maxillofacial surgery
- Adjunctive general services, including, but not limited to:
 - Dental anesthesia
 - Dental hospital call
 - Desensitizing medicaments
 - Dental behavior management
 - Internal bleaching of discolored tooth
 - Occlusal adjustments

14.2.5.1 Prior Authorization Requirements

Prior authorization requirements for specific procedures are contained within each section below. Prior authorization for therapeutic services is valid up to 90 days (this does not apply to orthodontic services). To obtain prior authorization, the following must be submitted:

- The [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#)
- Provider documentation supporting the medical necessity and appropriateness of the recommended treatment

Additional documentation, including current periapical radiographs, must be maintained in the client's medical record and submitted to the CSHCN Services Program on request.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

14.2.5.2 Anesthesia Requirements for Clients who are Six Years of Age or Younger

For clients who are six years of age or younger, the following will apply:

- All Level 4 sedation/general anesthesia services provided by a dentist (procedure code D9223) must be prior authorized.
- Any anesthesia services provided by an anesthesiologist (M.D./D.O.) or certified registered nurse anesthetist (CRNA) to be provided in conjunction with dental therapeutic services (procedure code 00170 with modifier EP) must be prior authorized.
- The dentist performing the therapeutic dental procedure is responsible for obtaining prior authorization from TMHP and is responsible for providing the anesthesia prior authorization information to the anesthesiology provider.

- The current process of scoring 22 points on the Criteria for Dental Therapy Under General Anesthesia form does not guarantee authorization or reimbursement for clients who are six years of age and younger.

Procedure code 00170 with modifier EP, and procedure code D9223 is limited to once per six calendar months by any provider.

Requests for prior authorization must include, but is not limited to, the following client-specific documents and information:

- A completed CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia form
- A completed CSHCN Services Program Prior Authorization Request for Dental of Orthodontia Services form
- The location of where the procedure(s) will be performed (office, inpatient hospital, or outpatient hospital)
- Name of the group providing the Level 4 anesthesia services
- A narrative unique to the client, detailing the reasons for the proposed level of anesthesia (indicate procedure code D9223 or 00170). The narrative must include a history of prior treatment, information about failed attempts at other levels of sedation, behavior in the dental chair, proposed restorative treatment (tooth ID and surfaces), urgent need to provide comprehensive dental treatment based on extent of diagnosed dental caries, and any relevant medical condition(s).
- Diagnostic quality radiographs or photographs
 - When appropriate radiographs or photographs cannot be taken prior to general anesthesia. The narrative must support the reasons for an inability to perform diagnostic services. For special cases that receive authorization, diagnostic quality radiographs or photographs will be required for payment and will be reviewed by the TMHP dental director.

***Note:** In cases of an emergency medical condition, accident, or trauma, prior authorization is not necessary. However, a narrative and appropriate pre- and post-treatment radiographs or photographs must be submitted with the claim, which will be reviewed by the TMHP dental director.*

14.2.5.3 Interrupted Treatment Plan

Prior authorization for an incomplete treatment plan is not transferable to the new provider. The new provider must obtain prior authorization to complete the treatment plan initiated by the original provider.

14.2.5.4 Restorations

Restorations do not require prior authorization except for inlay or onlay restorations and crowns (single restorations only) in excess of four in a lifetime by any provider. Procedure code D2999 requires prior authorization.

Gold foil restoration (procedure codes D2410, D2420, and D2430) and inlay or onlay (procedure codes D2610, D2620, D2630, D2642, D2643, and D2644) require prior authorization with documentation of medical necessity.

Consideration of restoration reimbursement is contingent on compliance with the following limitations:

- Restorations on primary teeth and permanent posterior teeth may be reimbursed on the basis of the surface or surfaces restored and are paid as a total maximum fee per tooth.
- More than one restoration on a single surface is considered a single restoration. A multiple surface restoration cannot be billed as two or more separate one-surface restorations.

- The restorations must show definite crossing of the plane of each surface listed for primary and permanent tooth restoration completed to be considered for reimbursement as a multiple surface restoration.
- All reimbursement for tooth restorations include local anesthesia and pulp protection media, where indicated, without additional charges. These services will deny as part of another service if billed separately.
- The CSHCN Services Program may reimburse restorations and therapeutic care based on medical necessity. Therapeutic procedures are not reimbursed for preventive purposes.

Inlay or onlay restorations and crowns—single restorations only may be reimbursed a maximum fee when performed on permanent teeth. This fee includes the actual inlay or onlay or crown, any provisional crown, and any preparatory work before the seating of the permanent crown.

Single restoration only crown procedure codes are limited to CSHCN Services Program clients who are 13 years of age or older.

Procedure code D2799 is denied as part of the global fee for a crown.

Use the following procedure codes for restoration services:

Procedure Codes	Limitations
Amalgam Restorations	
D2140	A = NA
D2150	A = NA
D2160	A = 1 year of age or older
D2161	A = 1 year of age or older
Resin-Based Composite Restorations	
D2330	A = NA
D2331	A = NA

D2791	A = 13 years of age or older
D2792	A = 13 years of age or older
D2794	A = 13 years of age or older
D2910	A = 13 years of age or older
D2915	A = 6 years of age or older
D2920	A = 1 year of age or older, payable to any CSHCN Services Program dental provider, including the same provider that performed the original crown cementation
D2930	A = NA
D2931	A = 6 years of age or older
D2932	A = 1 year of age or older
D2933	A = NA
D2934	A = NA
D2940	A = NA
A = Age limitation	

Procedure Codes	Limitations
D2950	A = 6 years of age or older
D2951	A = 6 years of age or older
D2952	A = 13 years of age or older; procedure codes D3110 and D3120 may not be reimbursed when billed with procedure code D2952 for the same tooth, for the same date of service, by the same provider
D2953	A = 13 years of age or older; procedure codes D3110 and D3120 may not be reimbursed when billed with procedure code D2953 for the same tooth, for the same date of service, by the same provider
D2954	A = 13 years of age or older; procedure codes D3110 and D3120 may not be reimbursed when billed with procedure code D2954 for the same tooth, for the same date of service, by the same provider
D2955	A = 4 years of age or older; procedure codes D3110 and D3120 may not be reimbursed when billed with procedure code D2955 for the same tooth, for the same date of service, by the same provider
D2957	A = 13 years of age or older; procedure codes D3110 and D3120 may not be reimbursed when billed with procedure code D2957 for the same tooth, for the same date of service, by the same provider
D2960	A = 13 years of age or older
D2961	A = 13 years of age or older
D2962	A = 13 years of age or older
D2971	A = 13 years of age or older, limited to four services per lifetime for each tooth by any provider
D2980	A = 1 year of age or older; procedure codes D3110 and D3120 may not be reimbursed when billed with procedure code D2980 for the same tooth, for the same date of service, by the same provider
D2999	A = 1 year of age or older; procedure codes D3110 and D3120 may not be reimbursed when billed with procedure code D2999 for the same tooth, for the same date of service, by the same provider, prior authorization
A = Age limitation	

14.2.5.5 Endodontics

The following procedures are limited to four permanent teeth without prior authorization:

- Initial endodontic therapy (procedure codes D3310, D3320, and D3330)
- Retreatment of previous root canal therapy (procedure codes D3346, D3347, and D3348)

Procedure code D3221 is considered part of all endodontic procedures and will not be reimbursed separately.

14.2.5.5.1 Prior Authorization

Prior authorization is required for root canal therapy and retreatment of previous root canal therapy (procedure codes D3346, D3347, and D3348) in excess of four root canals. To obtain prior authorization, the [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#) must be submitted with documentation of medical necessity.

Documentation supporting medical necessity must be maintained in the client's dental record and include the following:

- The medical necessity before treatment, during treatment, and post treatment
- Periapical radiographs

- The final size of the file to which the canal was enlarged and the type of filling material used
- Any reason that the root canal may appear radiographically unacceptable must be documented in the client's dental record

Prior authorization is required for procedure code D3460. Documentation of medical necessity must include the following:

- The client is 16 years of age or older.
- Regular treatment failed.
- The client's anatomy is such that no other fixed or removable prosthodontic alternatives are available, including, but not limited to anodontia, a result of trauma, or birth defect.

Prior authorization is required for an unspecified endodontic procedure, procedure code D3999.

Referto: Section 14.2.5.1, "Prior Authorization Requirements" in this chapter for more information about prior authorization requirements.

Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

14.2.5.5.2 Pulp Caps and Pulpotomy

Procedure Code	Limitations
D3110	A = 1 year and older
D3120	A = 1 year and older
D3220	<ul style="list-style-type: none"> • A = NA. • Limited to once per lifetime, per primary tooth (TID A through T) • Will be denied when performed within 6 months of pulpal therapy (procedure codes D3230 and D3240) on the same primary TID, by the same provider • Will be denied when performed within 6 months of root canal therapy (procedure codes D3310, D3320, and D3330) on the same permanent TID by the same provider
D3230	A = 1 year and older
D3240	A = 1 year and older
A = Age limitation	

Direct pulp caps (procedure code D3110) may be reimbursed separately from any final tooth restoration performed on the same tooth, on the same date of service, by the same provider.

Procedure code D3110 may be reimbursed when billed with the following procedure codes for the same tooth, on the same date of service, by the same provider:

Procedure Code				
D2140	D2150	D2160	D2161	D2330
D2331	D2332	D2335	D2390	D2391
D2392	D2393	D2394	D2410	D2420
D2430	D2510	D2520	D2530	D2542
D2543	D2544	D2610	D2620	D2630
D2642	D2643	D2644	D2650	D2651
D2652	D2662	D2663	D2664	D2710

Procedure Code				
D2712	D2720	D2721	D2722	D2740
D2750	D2751	D2752	D2780	D2781
D2782	D2783	D2790	D2791	D2792
D2794	D2799	D2910	D2915	D2920
D2930	D2931	D2932	D2933	D2934
D2940	D2950	D2951		

Procedure codes D3110 and D3120 will be denied when billed with the following procedure codes for the same tooth, for the same date of service, by the same provider.

Procedure Code				
D2952	D2953	D2954	D2955	D2957
D2980	D2999	D3220	D3230	D3240
D3310	D3320	D3330		

Procedure code D3221 is considered part of all endodontic procedures and will not be reimbursed separately.

14.2.5.5.3 Root Canals

Root canals may only be reimbursed when performed on permanent teeth.

Reimbursement for endodontic therapy (procedure codes D3310, D3320, and D3330), or retreatment of a previous root canal (procedure codes D3346, D3347, and D3348) includes all appointments, radiographs, and procedures necessary to complete the treatment, including, but not limited to:

- Pulpotomy
- Radiographs performed pre-, intra-, and postoperatively

Re-treatment claims for an incomplete pulpotomy performed by a dentist not associated with the original treating dentist or dental group will be considered for reimbursement upon appeal.

Documentation of medical necessity and the incomplete initial pulpotomy must be submitted with the appeal. The appeal must also include a written narrative and pre- and post-treatment X-rays, which will be reviewed by a Texas licensed dentist.

Note: *The identified, original treating dentist or dental group will not be considered for reimbursement.*

The following services are not considered part of the endodontic therapy procedures or the retreatment procedures of a previous root canal and may be reimbursed separately:

- Diagnostic evaluation
- Radiographs performed at the initial, periodic, or emergency service visits

Root canal therapy not carried to completion with a final filling should not be billed using a root canal therapy procedure code. It must be billed using procedure code D3999. Providers must file the claim with a narrative description of the procedures that were completed.

The date of service for a root canal is the date when the service was initiated.

Procedure codes D3220, D3351, D3352, and D3353 performed on a tooth within the 6 months preceding a root canal is considered part of the root canal. The total amount reimbursed will not exceed the total dollar amount allowed for procedure codes D3310, D3320, and D3330, or D3346, D3347, and D3348.

Apicoectomy (procedure codes D3410, D3421, D3425, and D3426) billed after root canal therapy or retreatment of a previous root canal may be reimbursed separately.

Refer to the following table for additional limitations for endodontic services:

Procedure Codes	Limitations
D3110	A = 1 year of age or older, refer to Section 14.2.5.4, “Restorations” in this chapter for additional limitations
D3120	A = 1 year of age or older
D3220	A = NA; see additional restrictions in Section 14.2.5.5.2, “Pulp Caps and Pulpotomy” in this chapter
D3230	A = 1 year of age or older
D3240	A = 1 year of age or older
D3310	A = 6 years of age or older, limited to 4 teeth without prior authorization, #1–32 only
D3320	A = 6 years of age or older, limited to 4 teeth without prior authorization, #1–32 only
D3330	A = 6 years of age or older, limited to 4 teeth without prior authorization, #1–32 only
D3346	A = 6 years of age or older, limited to 4 teeth without prior authorization, #1–32 only
D3347	A = 6 years of age or older, limited to 4 teeth without prior authorization, #1–32 only
D3348	A = 6 years of age or older, limited to 4 teeth without prior authorization, #1–32 only
D3351	A = 6 years of age or older
D3352	A = 6 years of age or older
D3353	A = 6 years of age or older
D3410	A = 6 years of age or older
D3421	A = 6 years of age or older
D3425	A = 6 years of age or older
D3426	A = 6 years of age or older
D3430	A = 6 years of age or older
D3450	A = 6 years of age or older
D3460	A = 16 years of age or older, prior authorization
D3470	A = 6 years of age or older
D3910	A = 1 years of age or older
D3920	A = 6 years of age or older
D3950	A = 6 years of age or older
D3999	A = 1 year of age or older, prior authorization
A = Age limitation	

14.2.5.6 Periodontics

Medical necessity for *third-molar* sites includes, but is not limited to:

- Medical or dental history documenting need due to inadequate healing of bone following third-molar extraction, including date of third-molar extraction.

- Secondary procedure several months postextraction.
- Position of the third molar preoperatively.
- Postextraction probing depths to document continuing bony defect.
- Postextraction radiographs documenting continuing bony defect.
- Bone graft and barrier material used.

Medical necessity for *other than third-molar* sites, includes, but is not limited to:

- Medical or dental history documenting comorbid condition (e.g., juvenile diabetes, cleft palate, avulsed tooth or teeth, traumatic oral injury).
- Intra- or extra-oral radiographs of treatment sites.
- If medical necessity is not radiographically evident, intraoral photographs would be appropriate to request; otherwise, intraoral photographs would be optional unless requested preoperatively by the Health and Human Services Commission (HHSC) or its agent.
- Periodontal probing depths.
- Number of intact walls associated with an angular bony defect.
- Bone graft and barrier material used.

The preventive dental procedure codes D1110, D1120, D1206, D1208, D1351, and D1352 will be denied when billed on the same date of service as any D4000 series periodontal procedure code.

Procedure code D4341 will not be reimbursed within 21 days of procedure code D4355.

Periodontal scaling and root planing (procedure codes D4341 and D4342) will be denied when submitted for the same date of service as other D4000 series codes, except D4341 and D4342, any provider.

Full mouth debridement (procedure code D4355) will be denied when submitted for the same date of service as the following procedure codes by any provider:

Procedure Codes									
D4210	D4211	D4230	D4231	D4240	D4241	D4245	D4249	D4260	D4261
D4266	D4267	D4270	D4273	D4274	D4275	D4276	D4277	D4278	D4283
D4285	D4320	D4321	D4381	D4910	D4920	D4999			

Periodontal medicaments (procedure code D4381) must be applied to all affected teeth at the same visit to be effective, and are limited to one service per client per year for clients who are 13 years of age or older.

Periodontal maintenance (procedure code D4910) may be reimbursed only if one of the following occurs:

- A periodontal surgery or nonsurgical periodontal service (procedure code (D4240, D4241, D4260, or D4261) is billed for the same client by any provider.
- There is documented evidence of periodontal therapy while the client was not CSHCN Services Program eligible in the client's dental record within 90 days before the periodontal maintenance.

Periodontal maintenance may be reimbursed no more than 3 times within this 90-day period for the same client, by any provider.

The periodontic procedure codes in the following table that are limited to clients who are 13 years of age or older may also be considered for younger clients based on the medical condition with supporting documentation of medical necessity.

Procedure Codes	Limitations
D4210	A = 13 years of age or older, DOC, PP1
D4211	A = 13 years of age or older, DOC, PP1
D4230	A = 13 years of age or older
D4231	A = 13 years of age or older
D4240	A = 13 years of age or older, DOC, PP2
D4241	A = 13 years of age or older, DOC, PP2
D4245	A = 13 years of age or older, prior authorization, DOC, PP2
D4249	A = 13 years of age or older, prior authorization
D4260	A = 13 years of age or older
D4261	A = 13 years of age or older
D4266	A = 13 years of age or older, prior authorization, DOC, PP2
D4267	A = 13 years of age or older, prior authorization, DOC, PP2
D4270	A = 13 years of age or older, prior authorization, DOC, PP1
D4273	A = 13 years of age or older, prior authorization, DOC, PP1
D4274	A = 13 years of age or older, prior authorization
D4275	A = 13 years of age or older, DOC, PP1
D4276	A = 13 years of age or older, prior authorization, DOC, PP1
D4277	A = 13 years of age or older, prior authorization, DOC, PP1
D4278	A = 13 years of age or older, prior authorization, DOC, PP1; procedure code D4278 must be billed on the same date of service as procedure code D4277 or it will be denied
D4283	A = 13 years of age or older, limited to three teeth per site, DOC, PP1; procedure code D4283 must be billed with primary procedure code D4273
D4285	A = 13 years of age or older, limited to three teeth per site, DOC, PP1; procedure code D4285 must be billed with primary procedure code D4275
D4320	A = 1 year of age or older
D4321	A = 1 year of age or older
D4341	A = 13 years of age or older, prior authorization, denied if billed within 21 days of procedure code D4355; Current periodontal charting, a current full mouth radiograph, and a narrative describing the periodontal diagnosis must be submitted with the prior authorization request to determine medical necessity.
D4342	A = 13 years of age or older, prior authorization; Current periodontal charting, a current full mouth radiograph, and a narrative describing the periodontal diagnosis must be submitted with the prior authorization request to determine medical necessity.
D4355	A = 13 years of age or older, DOC, PP1
D4381	A = 13 years of age or older, limited to one service per client, per year
D4910	A = 13 years of age or older, denied if billed within 90 days after a full mouth debridement, additional limitations, DOC, PP1
<p>A = Age limitation. Photo = photographs are required when medical necessity is not evident on the radiographs. DOC = Documentation is required when medical necessity is not evident on radiographs. PP1 = Pre- and postoperative photographs are required, pre- and postoperative. PP2 = Pre- and postoperative photographs are required when medical necessity is not evident on the radiographs.</p>	

Procedure Codes	Limitations
D4920	A = 13 years of age or older
D4999	A = 13 years of age or older, prior authorization
A = Age limitation. Photo = photographs are required when medical necessity is not evident on the radiographs. DOC = Documentation is required when medical necessity is not evident on radiographs. PP1 = Pre- and postoperative photographs are required, pre- and postoperative. PP2 = Pre- and postoperative photographs are required when medical necessity is not evident on the radiographs.	

Referto: Section 14.2.5.1, “Prior Authorization Requirements” in this chapter.

14.2.5.7 Prosthodontics (Removable) and Maxillofacial Prosthetics

Local anesthesia is denied as part of removable prosthodontics procedures.

Denture relines are allowed if the relines make the denture serviceable. Denture relines are denied if billed within 1 year of a complete or partial denture.

- Maxillary relines and rebase procedure codes D5710, D5720, D5730, D5740, D5750, and D5760 are denied as part of complete or partial maxillary denture procedures D5110, D5130, D5211, and D5213.
- Mandibular relines and rebase procedure codes D5711, D5721, D5731, D5741, D5751, and D5761 are denied as part of complete or partial mandibular denture procedures D5120, D5140, D5212, and D5214.

Repairs to partial maxillary dentures (procedure code D5670) are denied as part of maxillary procedure codes D5211, D5213, D5281, and D5640.

Repairs to partial mandibular dentures (procedure code D5671) are denied as part of mandibular procedure codes D5212, D5214, D5281, and D5640.

The cost of repairs cannot exceed replacement costs.

Procedure codes D5867 and D5875 are denied as part of any repair or modification of any removable prosthetic.

Use the following procedure codes for prosthodontic (removable) services:

Procedure Codes	Limitations
D5110	A = 1 year of age or older, prior authorization
D5120	A = 1 year of age or older, prior authorization
D5130	A = 3 years of age or older, prior authorization
D5140	A = 3 years of age or older, prior authorization
D5211	A = 6 years of age or older, prior authorization
D5212	A = 6 years of age or older, prior authorization
D5213	A = 6 years of age or older, prior authorization
D5214	A = 6 years of age or older, prior authorization
D5281	A = 6 years of age or older, prior authorization
D5410	A = 1 year of age or older
D5411	A = 1 year of age or older
D5421	A = 6 years of age or older
A = Age limitation and NA = Not applicable	

Procedure Codes	Limitations
D5422	A = 6 years of age or older
D5510	A = 1 year of age or older, prior authorization
D5520	A = 3 years of age or older, prior authorization
D5610	A = 3 years of age or older
D5620	A = 6 years of age or older
D5630	A = 6 years of age or older
D5640	A = 6 years of age or older
D5650	A = 6 years of age or older
D5660	A = 6 years of age or older
D5670	A = 6 years of age or older
D5671	A = 6 years of age or older
D5710	A = 1 year of age or older, refer to previously listed limitations, prior authorization
D5711	A = 1 year of age or older, refer to previously listed limitations, prior authorization
D5720	A = 6 years of age or older, refer to previously listed limitations, prior authorization
D5721	A = 6 years of age or older, refer to previously listed limitations, prior authorization
D5730	A = 1 year of age or older, refer to previously listed limitations
D5731	A = 1 year of age or older, refer to previously listed limitations
D5740	A = 6 years of age or older, refer to previously listed limitations
D5741	A = 6 years of age or older, refer to previously listed limitations
D5750	A = 1 year of age or older, refer to previously listed limitations
D5751	A = 1 year of age or older, refer to previously listed limitations
D5760	A = 6 years of age or older, refer to previously listed limitations
D5761	A = 6 years of age or older, refer to previously listed limitations
D5810	A = 1 year of age or older, prior authorization
D5811	A = 1 year of age or older, prior authorization
D5820	A = 6 years of age or older, prior authorization
D5821	A = 6 years of age or older, prior authorization
D5850	A = 1 year of age or older, prior authorization
D5851	A = 1 year of age or older, prior authorization
D5862	A = 13 years of age or older, prior authorization
D5863	A = 6 years of age or older, prior authorization
D5864	A = 6 years of age or older, prior authorization
D5865	A = 6 years of age or older, prior authorization
D5866	A = 6 years of age or older, prior authorization
D5899	A = 1 year of age or older, prior authorization
A = Age limitation and NA = Not applicable	

Referto: Section 14.2.5.1, “Prior Authorization Requirements” in this chapter.

14.2.5.7.1 Maxillofacial Prosthetics

Use the following procedure codes for maxillofacial prosthetic services:

Procedure Codes	Limitations
D5911	A = NA, prior authorization
D5912	A = NA, prior authorization
D5913	A = NA, prior authorization
D5914	A = NA, prior authorization
D5915	A = NA, prior authorization
D5916	A = NA, prior authorization
D5919	A = NA, prior authorization
D5922	A = NA, prior authorization
D5923	A = NA, prior authorization
D5924	A = NA, prior authorization
D5925	A = NA, prior authorization
D5926	A = NA, prior authorization
D5927	A = NA, prior authorization
D5928	A = 1 year of age or older, prior authorization
D5929	A = 1 year of age or older, prior authorization
D5931	A = 1 year of age or older, prior authorization
D5932	A = NA, prior authorization
D5933	A = NA, prior authorization
D5934	A = 1 year of age or older, prior authorization
D5935	A = 1 year of age or older, prior authorization
D5936	A = 1 year of age or older, prior authorization
D5937	A = NA, prior authorization
D5951	A = NA, prior authorization
D5952	A = birth through 12 years of age, prior authorization
D5953	A = 13 years of age or older, prior authorization
D5954	A = NA, prior authorization
D5955	A = 13 years of age or older, prior authorization
D5958	A = NA, prior authorization
D5959	A = NA, prior authorization
D5960	A = NA, prior authorization
D5982	A = NA, prior authorization
D5983	A = NA, prior authorization
D5984	A = NA, prior authorization
D5985	A = NA, prior authorization
D5986	A = NA, prior authorization
D5987	A = NA, prior authorization
A = Age limitation and NA = Not applicable	

Procedure Codes	Limitations
D5988	A = NA, prior authorization
D5999	A = NA, prior authorization
A = Age limitation and NA = Not applicable	

Referto: Section 14.2.5.1, “Prior Authorization Requirements” in this chapter.

14.2.5.7.2 Implants

Implants require prior authorization.

Use the following procedure codes for implant services:

Procedure Codes	Limitations
D6010	A = 16 years of age or older, prior authorization
D6040	A = 16 years of age or older, prior authorization
D6050	A = 16 years of age or older, prior authorization
D6055	A = 16 years of age or older, prior authorization
D6056	A = 16 years of age or older, prior authorization
D6057	A = 16 years of age or older, prior authorization
D6080	A = 16 years of age or older, prior authorization
D6090	A = 16 years of age or older, prior authorization
D6092	A = 16 years of age or older, prior authorization, limited to one service per tooth, once per calendar year, by any provider
D6093	A = 16 years of age or older, prior authorization, limited to one service per tooth, once per calendar year, by any provider
D6095	A = 16 years of age or older, prior authorization
D6100	A = 16 years of age or older, prior authorization
D6199	A = 16 years of age or older, prior authorization
A = Age limitation	

Referto: Section 14.2.5.1, “Prior Authorization Requirements” in this chapter for more information about prior authorization requirements.

14.2.5.7.3 Fixed Prosthodontics

Prior authorization is required for fixed prosthodontics. Fixed prosthodontics are limited to CSHCN Services Program clients who are 16 years of age or older, as the client must be old enough to have mature teeth and minimal jaw growth remaining.

Required documentation for prior authorization includes, but is not limited to:

- The [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#).
- Documentation of medical necessity for the requested procedure includes, but is not limited to:
 - Documentation supporting that the mouth is free of disease; no untreated periodontal, endodontic disease, or rampant caries.
 - Documentation supporting only one virgin abutment tooth; at least one tooth must require a crown, except when a Maryland bridge is placed.
 - Tooth Identification (TID) System noting only permanent teeth.

- Documentation supporting that a removable partial is not a viable option to fill the space between the teeth.
- Appropriate pretreatment radiographs of each involved tooth, such as periapical views must be maintained in the client's medical record and submitted to the CSHCN Services Program on request. Panoramic films are inadequate to detect caries or tooth structure necessary to evaluate the request.

Prior authorization will not be given when:

- Films show two good abutment teeth, except when a Maryland bridge will be replaced.
- There is untreated periodontal or the presence of endodontic disease, or rampant caries which would contraindicate the treatment.

Referto: Section 14.2.5.1, "Prior Authorization Requirements" in this chapter.

The following fixed prosthetics (pontics, retainers, and abutments), may be reimbursed with a maximum fee and include any preparatory work before placement of the fixed prosthetic.

Procedure Codes				
D6210	D6211	D6212	D6240	D6241
D6242	D6245	D6250	D6251	D6252
D6545	D6548	D6549	D6720	D6721
D6722	D6740	D6750	D6751	D6752
D6780	D6781	D6782	D6783	D6790
D6791	D6792			

Each abutment and each pontic constitutes a unit in a fixed partial-denture bridge (bridgework).

The following procedure codes are considered part of any other service and are not reimbursed separately:

Procedure Codes				
D6600	D6601	D6602	D6603	D6604
D6605	D6606	D6607	D6608	D6609
D6610	D6611	D6612	D6613	D6614
D6615				

Use the following procedure codes for fixed prosthodontics services. These codes require prior authorization:

Procedure Codes	Limitations			
Fixed Partial Denture Pontics				
D6210	D6211	D6212	D6240	D6241
D6242	D6245	D6250	D6251	D6252
Fixed Partial Denture Retainers—Inlays or Onlays				
D6545	D6548	D6549		
Fixed Partial Denture Retainers—Crowns				
D6720	D6721	D6722	D6740	D6750
D6751	D6752	D6780	D6781	D6782
D6783	D6790	D6791	D6792	

Procedure Codes		Limitations		
Other Fixed Partial Denture Services				
D6920	D6930	D6940	D6950	D6980
D6999				

14.2.5.8 Oral and Maxillofacial Surgery

Prior authorization is required for most oral and maxillofacial surgery, including, but not limited to, invasive procedures for clients with cleft lip, cleft palate, or craniofacial anomalies, which must be performed by a cleft and craniofacial team or a coordinated multidisciplinary team.

All oral surgery procedures include local anesthesia and visits for routine postoperative care.

Use the following table for oral and maxillofacial surgery procedure codes and prior authorization requirements.

Procedure Codes	Limitations
D7111	A = NA
D7140	A = NA
D7210	A = NA
D7220	A = NA
D7230	A = NA
D7240	A = NA
D7241	A = 1 year of age or older
D7250	A = 1 year of age or older
D7260	A = NA, prior authorization
D7261	A = NA, prior authorization
D7270	A = NA
D7272	A = 1 year of age or older, prior authorization
D7280	A = 1 year of age or older
D7282	A = 1 year of age or older
D7283	A = 1 year of age or older
D7285	A = NA, prior authorization
D7286	A = NA, prior authorization
D7290	A = NA, prior authorization
D7291	A = 1 year of age or older, prior authorization
D7310	A = 1 year of age or older, prior authorization
D7320	A = 1 year of age or older, prior authorization
D7340	A = 1 year of age or older, prior authorization
D7350	A = 1 year of age or older, prior authorization
D7410	A = NA, prior authorization
D7411	A = NA, prior authorization
D7413	A = NA, prior authorization
D7414	A = NA, prior authorization
D7440	A = NA, prior authorization
A = Age limitation and NA = Not applicable	

Procedure Codes	Limitations
D7441	A = NA, prior authorization
D7450	A = NA, prior authorization
D7451	A = NA, prior authorization
D7460	A = NA, prior authorization
D7461	A = NA, prior authorization
D7465	A = NA, prior authorization
D7471	A = NA, prior authorization
D7472	A = NA, prior authorization
D7510	A = NA
D7520	A = NA
D7530	A = NA, prior authorization
D7540	A = NA, prior authorization
D7550	A = NA, prior authorization
D7560	A = NA, prior authorization
D7670	A = NA
D7820	A = NA, prior authorization
D7880	A = NA, prior authorization
D7899	A = 1 year of age or older, prior authorization
D7910	A = NA
D7911	A = NA
D7912	A = NA
D7955	A = NA, prior authorization
D7960	A = NA, prior authorization
D7970	A = NA, prior authorization
D7971	A = NA, prior authorization
D7972	A = 1 year of age or older, prior authorization
D7980	A = NA, prior authorization
D7983	A = NA, prior authorization
D7997	A = NA, prior authorization
D7999	A = NA, prior authorization
A = Age limitation and NA = Not applicable	

Referto: Section 14.2.5.1, “Prior Authorization Requirements” in this chapter.

14.2.5.9 Adjunctive General Services

Refer to individual procedure codes in the following table for prior authorization requirements:

Procedure Code	Limitations
D9110	A = NA, see additional benefit information listed below table
D9120	A = 13 years of age or older, prior authorization
D9210	A = NA, denied when billed for the same date of service as procedure code D9248
A = Age limitation, NA = Not applicable, and DOC = Documentation required	

Procedure Code	Limitations
D9211	A = NA, denied when billed for the same date of service as procedure code D9248
D9212	A = NA, denied when billed for the same date of service as procedure code D9248
D9223	A = NA, prior authorization, DOC, limited to three hours per day, denied when billed for the same date of service as procedure code D9248
D9230	A = NA, denied when billed for the same date of service as procedure code D9248
D9243	A = NA, denied when billed for the same date of service as procedure code D9248
D9248	A = NA, DOC, limited to one service per day and two services per 12 months, refer to Section 14.2.5.10, "Dental Anesthesia" in this chapter. Denied when billed for the same date of service as procedure code D9420, any provider.
D9310	A = NA, prior authorization
D9420	A = NA, prior authorization, DOC, refer to Section 14.2.6.1, "Dental Hospital Calls" in this chapter.
D9430	A = NA
D9440	A = NA
D9610	A = NA, prior authorization, limited to once per client per day, DOC
D9612	A = NA, prior authorization, limited to once per client per day, DOC
D9630	A = NA, prior authorization, DOC
D9910	A = NA, limited to once per year, not to be used for bases, liners, or adhesives
D9920	A = 1 year of age or older, prior authorization, denied when billed on the same day as procedure code D9223, D9230, D9243, or D9248 or with an evaluation, prophylactic treatment, or radiographic procedure, DOC; claim must include diagnosis of intellectual disability, refer to Section 14.2.5.11, "Dental Behavior Management" in this chapter.
D9930	A = NA
D9940	A = NA, prior authorization
D9950	A = 13 years of age or older, prior authorization
D9951	A = 13 years of age or older, prior authorization, may be reimbursed once per year per client, considered full-mouth procedure
D9952	A = 13 years of age or older, prior authorization, may be reimbursed once per lifetime per provider, considered full-mouth procedure
D9970	A = NA, one service per day, any provider
D9974	A = 13 years of age or older, DOC, refer to Section 14.2.5.12, "Internal Bleaching of Discolored Tooth" in this chapter
D9999	A = NA, prior authorization, DOC
A = Age limitation, NA = Not applicable, and DOC = Documentation required	

Note: For those procedures requiring prior authorization, the prior authorization is valid up to 90 days from the date it is issued.

Referto: Section 14.2.5.1, "Prior Authorization Requirements" in this chapter for more information about prior authorization requirements.

Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

14.2.5.9.1 Emergency Dental Treatment Services

Procedure code D9110 is an emergency service only. The type of treatment rendered and tooth identification must be indicated. It must be for a service other than a prescription or topical medication. The reason for the emergency and a narrative of the procedure actually performed must be documented and the appropriate block for emergency must be checked on the claim form.

Procedure code D9110 is a benefit for the following:

- Sedative or periodontal dressing
- Starting root canal procedure; (i.e., open and drain tooth or re-medication of previously opened tooth)
- Smoothing fractured tooth that is cutting lips or cheek
- Debridement or curettage of wound
- Excision of operculum over an erupting tooth
- Limited gingivectomy
- Suture removal by dentist other than the dentist who placed suture(s)
- Placement of a temporary crown by other than the patient's regular dentist and one who is not in the process, has not previously, or does not in the future intend to perform an acrylic, polycarbonate, stainless steel or cast crown on this same tooth
- Tissue conditioning of a full or partial denture
- Removal of spontaneously or post-surgically sequestered bone spicule
- Spot or limited scaling and root planing
- Procedures necessary to treat a dry socket
- Procedures necessary to control bleeding
- Non-surgical reduction of TMJ dislocation
- Procedures necessary to relieve pain associated with pericoronitis, particularly third molars

Procedure code D9110 is not a benefit for the following:

- Prescription written
- Medication given or administered
- Application of topical medication to teeth or gums
- Occlusal adjustments
- Oral hygiene instructions

14.2.5.10 Dental Anesthesia

All dental providers must comply with the American Academy of Pediatric Dentistry (AAPD) guidelines and TSBDE rules and regulations, including the standards for documentation and record maintenance for dental anesthesia.

Providers must have a portability permit from TSBDE to perform anesthesia in a location other than their office or satellite office. If the provider does not have a permit, the services will be denied.

Providers must have a level 4 permit, a TSBDE portability permit, and an anesthesiology residency recognized by the American Dental Board of Anesthesiology to receive an enhanced rate for procedure code D9223.

All levels of sedation must have clinical documentation and a narrative in the client's dental record to support medical necessity of the service. The client's dental record must be available for review by representatives of HHSC or its designee.

14.2.5.10.1 Anesthesia Permit Levels

The following table shows the levels of anesthesia permits that are issued by the TSBDE:

Permit Level	Description of Level	Permit Privileges
Nitrous oxide/oxygen inhalation conscious sedation		Stand-alone permit
Level 1	Minimal sedation	Stand-alone permit
Level 2	Moderate enteral	Automatically qualifies for Level 1 and Level 2 permit privileges
Level 3	Moderate parenteral	Automatically qualifies for Level 1, Level 2, and Level 3 permit privileges
Level 4	Deep sedation/general anesthesia	Automatically qualifies for Level 1, Level 2, Level 3, and Level 4 permit privileges

Providers will be reimbursed only for those procedure codes that are covered by their anesthesia permit level. The following procedure codes may be used to bill dental anesthesia and indicates the minimum anesthesia permit level to be reimbursed for these procedure codes:

Procedure Codes	Level of Sedation
D9211	Level 3
D9212	Level 3
D9223	Level 4
D9230	Level 1
D9243	Level 3
D9248	Level 2

Dental anesthesia is not age-restricted.

Local anesthesia in conjunction with operative or surgical services (procedure code D9215) is all inclusive with any other dental service and is not reimbursed separately.

Procedure code D9243 is limited to one and one-half hours (6 units) per day.

Reimbursement of procedure code D9248 is limited to one service per client per day. Procedure code D9248 is limited to two times per year, per client.

If more than two nonintravenous (IV) conscious sedation services are required by the same provider in a 12 month period, prior authorization is required.

Any dentist providing nonintravenous (IV) conscious sedation must comply with all TSBDE Rules and American Academy of Pediatric Dentistry (AAPD) Guidelines, including maintaining a current permit to provide non-IV conscious sedation. Claims must include a provider statement indicating that the procedure was provided in full compliance with these guidelines. Documentation supporting medical necessity and appropriateness for the use of non-IV conscious sedation must be maintained in the client's records and is subject to retrospective review.

Supporting documentation includes, but is not limited to the following:

- Narrative addressing the reason non-IV conscious sedation was necessary

- Medications used to provide the non-IV conscious sedation
- The duration of the non-IV conscious sedation, including the start and end times
- Monitored statistics, such as vital signs and oxygen saturation levels
- Any resuscitative measures that may have been necessary

The following procedure codes are denied when billed for the same date of service as procedure code D9248:

Procedure Codes				
D9210	D9211	D9212	D9215	D9223
D9230	D9243	D9920		

Referto: Section 14.2.6.3, “Dental General Anesthesia Provided in the Inpatient or Outpatient Setting (Medically Necessary Dental Rehabilitation or Restoration Services)” in this chapter.

14.2.5.10.2 Method for Counting Minutes for Timed Procedure Codes

All claims for reimbursement of procedure codes paid in 15-minute increments are based on the actual amount of billable time associated with the service. For those services for which the unit of service is 15 minutes (1 unit = 15 minutes), partial units should be rounded up or down to the nearest quarter hour.

Time intervals for 1 through 12 units are as follows:

Units	Number of Minutes
0 units	0 minutes through 7 minutes
1 unit	8 minutes through 22 minutes
2 units	23 minutes through 37 minutes
3 units	38 minutes through 52 minutes
4 units	53 minutes through 67 minutes
5 units	68 minutes through 82 minutes
6 units	83 minutes through 97 minutes
7 units	98 minutes through 112 minutes
8 units	113 minutes through 127 minutes
9 units	128 minutes through 142 minutes
10 units	143 minutes through 157 minutes
11 units	158 minutes through 172 minutes
12 units	173 minutes through 187 minutes

All levels of sedation must have clinical documentation and a narrative in the client's dental record to support the necessity of the service. Documentation must include the sedation record that indicates sedation start and end times in accordance with the American Academy of Pediatric Dentistry (AAPD) guidelines. The client's dental record must be available for review by representatives of HHSC or its designee.

14.2.5.11 Dental Behavior Management

Procedure code D9920 is considered for prior authorization in addition to therapeutic procedures when provided in the office and when the client has a diagnosis of an intellectual disability described as mild, moderate, severe, profound, or unspecified.

Documentation supporting the medical necessity and appropriateness of dental behavior management must be retained in the client's chart and is subject to retrospective review.

Supporting documentation includes, but is not limited to, the following:

- A current physician statement addressing the intellectual disability, signed and dated within 1 year before the dental behavior management
- The client's diagnosis of intellectual disability
- A description of the service performed, including the specific problem and the behavior management technique applied
- Personnel and supplies required to provide the behavioral management
- The duration of the behavior management, including the start and end times

Dental behavior management is not reimbursed with an evaluation, prophylactic treatment, or radiographic procedure.

Except for those procedures requiring prior authorization, admission to an outpatient or freestanding ambulatory surgical center (ASC) for the purpose of performing dentistry services must be authorized.

Referto: Section 24.5.1, "Benefits, Limitations, and Authorization Requirements" in Chapter 24, "Hospital" for more information about prior authorization in an ASC.

14.2.5.12 Internal Bleaching of Discolored Tooth

Internal bleaching of a discolored tooth is an accepted endodontic treatment for clients who are 13 years of age or older. It is intended to remove and change the organic material in the enamel of an infected or traumatized tooth. It is considered medically necessary when chemical change of the contents in the interior of the tooth is judged necessary to complete an endodontic treatment to the tooth for therapeutic, not cosmetic purposes. Prior authorization is not required. Procedure code D9974 may be considered for reimbursement when the claim is filed with documentation supporting medical necessity. Claims that are filed without documentation supporting medical necessity are denied as incomplete.

14.2.5.13 Noncovered Services

The following therapeutic services are not benefits of the CSHCN Services Program.

Procedure Codes				
D3331	D3332	D3333	D6058	D6059
D6060	D6061	D6062	D6063	D6064
D6065	D6066	D6067	D6068	D6069
D6070	D6071	D6072	D6073	D6074
D6075	D6076	D6077	D6094	D6194
D7412	D7671	D7771	D7830	D9972
D9973				

14.2.6 Dental Treatment in Hospitals and ASCs

Dental rehabilitation and restoration services requiring general anesthesia may be performed in the inpatient or outpatient setting.

14.2.6.1 Dental Hospital Calls

Dental hospital calls may be reimbursed for clients of any age that require medically necessary general anesthesia or dental treatment in the inpatient or outpatient hospital setting. Providers may bill procedure code D9420 in addition to the dental services performed in the inpatient or outpatient setting.

Documentation supporting the medical necessity of the dental hospital call must be retained in the client's dental record and is subject to retrospective review. Procedure code D9420 is limited to twice per rolling year, per client, any provider.

Referto: Chapter 24, "Hospital" for more information about requirements for inpatient and outpatient services.

14.2.6.2 Authorization and Prior Authorization Requirements

All inpatient hospital admissions for dental services require prior authorization. Except for those specific procedures that require prior authorization, admission to freestanding ASCs or outpatient hospital ambulatory surgical centers (HASCs) for the purpose of performing dentistry services require authorization.

The [CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia](#) must be submitted to the TMHP-CSHCN Services Program with supporting documentation of medical necessity.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for additional information.
Chapter 24, "Hospital."

[CSHCN Services Program Prior Authorization Request for Inpatient Hospital Admission—For Use by Facilities Only form](#)

[CSHCN Services Program Prior Authorization Request for Inpatient Surgery—For Surgeons Only form.](#)

14.2.6.3 Dental General Anesthesia Provided in the Inpatient or Outpatient Setting (Medically Necessary Dental Rehabilitation or Restoration Services)

Dental rehabilitation or restoration services requiring general anesthesia may be performed in the inpatient or outpatient setting.

CSHCN Services Program dental services should be billed using the following Current Procedural Terminology (CPT) procedure codes and modifier where appropriate:

- Anesthesia services for general dental anesthesia, procedure code 00170 with modifier EP
- ASC or HASC dental rehabilitation or restoration, procedure code 41899 with modifier U3
- Physical examinations before dental restorations under anesthesia, procedure codes 99202, 99222, and 99282
- Restorations under anesthesia, procedure codes 99222 and 99282

Supporting documentation must be retained in the client's chart and must reflect compliance with the CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia and the CSHCN Services Program Policy About the Criteria for Dental Therapy Under General Anesthesia, Attachment 1. Dental general anesthesia may be reimbursed once every 6 months per client any provider.

All supporting documentation must be maintained in the client's medical record. The client's record must be available for review by representatives of the CSHCN Services Program, the Department of State Health Services (DSHS), the CSHCN Services Program claims contractor, and HHSC. The dental provider is required to maintain the following documentation in the client's dental record:

- The medical evaluation justifying the need for anesthesia
- Description of relevant behavior and reference scale
- Other relevant narrative justifying the need for general anesthesia
- Client's demographics, including date of birth

- Relevant dental and medical history
- Dental radiographs, intraora or perioral photography, or diagram of dental pathology
- Proposed dental plan of care
- Consent signed by parent or guardian giving permission for the proposed dental treatment and acknowledging that the reason for the use of IV sedation or general anesthesia for dental care has been explained
- Completed [CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia form](#)
- The parent or guardian dated signature on the Criteria for Dental Therapy Under General Anesthesia form attesting that the parent or guardian understands and agrees with the dentist's assessment of their child's behavior
- Dentist's attestation statement and signature, which is put on the bottom of the CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia form or included in the client's dental record as a separate form

Hospital and outpatient facility admissions are subject to medical necessity review.

14.2.7 Doctor of Dentistry Services as a Limited Physician

The CSHCN Services Program covers services provided by a DDS or DMD if the services are a benefit and furnished within the dentist's scope of practice as defined by Texas state law. To participate in the CSHCN Services Program as a dentist practicing as a limited physician, a dentist (DDS or DMD) must be enrolled separately as a dentist practicing as a limited physician.

The CSHCN Services Program recognizes the standards of care needed to appropriately address the repair of cleft and craniofacial anomalies as outlined in the guidelines prepared by the American Cleft Palate - Craniofacial Association (www.acpa-cpf.org).

A comprehensive, multidisciplinary approach is medically necessary to meet all of the needs of clients with complex medical conditions who require treatment by a broad range of medical specialists. Standard of care for the comprehensive repair or reconstruction of craniofacial anomalies for CSHCN Services Program clients requires a team approach either by a C/C team or by an equivalent coordinated multidisciplinary team. The following exceptions may be considered to this requirement:

- A C/C or equivalent multidisciplinary team is not available in the area and the client is unable to travel. (Medical record documentation must explain the reasons the client is unable to travel.)
- A C/C or equivalent multidisciplinary team is not available in the area, or the team approach cannot be coordinated over multiple locations. (Medical record documentation must describe attempts to coordinate a team approach.)
- A C/C or equivalent multidisciplinary team is available but the client or the client's parent/ guardian refuses to receive care from the team. (Medical record documentation must explain the reason for the refusal of the care offered by the team.)

Referto: Section 31.2.38.11, "Cleft/Craniofacial Procedures" in Chapter 31, "Physician" for more detailed information.

If a client has third-party insurance coverage available that requires reconstructive facial surgery involving the bony skeleton of the face (including midface osteotomies and cleft lip and palate repairs performed by a physician), the CSHCN Services Program cannot consider a claim for payment unless all third-party payer requirements are met.

14.2.7.1 Authorization Requirements

The following procedure codes require prior authorization and may be considered with medical review of documentation of medical necessity. These procedures may be considered cosmetic and are not a benefit except when the procedure is performed as a result of trauma or injury to reconstruct tissues or body structures, or to repair damaged tissues.

Procedure Codes				
11950	11951	11952	11954	15630
15780	15781	15788	15789	15876

Documentation of medical necessity indication that the procedure was performed due to trauma or injury must be submitted with the authorization request.

Unless otherwise noted in the following tables, all other procedure codes in this section do not require authorization or prior authorization.

14.2.7.2 Surgery

The following surgery CPT procedure codes are payable to a dentist enrolled in the CSHCN Services Program as a dentist physician:

Procedure Codes									
10060	10061	10140	10160	10180	11000	11010	11011	11012	11042

*If performed as part of a repair or reconstruction of cleft lip, cleft palate, or craniofacial anomaly, must be prior authorized and performed by a CSHCN Services Program provider that is a member of, or affiliated with, an approved cleft/craniofacial team or an equivalent coordinated multidisciplinary team.									
** Authorization is required and may be considered with medical review of documentation of medical necessity. These procedure may be considered cosmetic and are not a benefit when the procedure is performed as a result of trauma or injury to reconstruct tissues or body structures, or to repair damaged tissues.									

Procedure Codes

J0561

*If performed as part of a repair or reconstruction of cleft lip, cleft palate, or craniofacial anomaly, must be prior authorized and performed by a CSHCN Services Program provider that is a member of, or affiliated with, an approved cleft/craniofacial team or an equivalent coordinated multidisciplinary team.

** Authorization is required and may be considered with medical review of documentation of medical necessity. These procedure may be considered cosmetic and are not a benefit when the procedure is performed as a result of trauma or injury to reconstruct tissues or body structures, or to repair damaged tissues.

14.2.7.3 Cleft/Craniofacial Surgery by a Dentist Physician

The following additional codes may be reimbursed to a provider enrolled as a cleft/craniofacial surgeon. Prior authorization is required.

Procedure Codes

30540	30545	30560	61550	61552
61556	61557	61558	62115	62117

Septoplasty (procedure code 30520) for nonrelated repair or reconstruction of cleft lip, cleft palate, or craniofacial anomalies may be prior authorized with documentation to support medical necessity.

14.2.7.4 Evaluation and Management or Consultation

The following evaluation and management or consultation service procedure codes are payable to a dentist physician:

Procedure Codes

99201	99202	99203	99204	99205
99211	99212	99213	99214	99215
99218	99219	99220	99221	99222
99223	99231	99232	99233	99238
99241	99242	99243	99244	99245
99251	99252	99253	99254	99255
99281	99282	99283	99284	99285

Evaluation and management codes for home services are not reimbursed to dentists or dentistry groups.

14.2.7.5 Radiology and Laboratory Procedures

The following diagnostic radiology and laboratory procedure codes are payable to a dentist physician:

Procedure Codes

70100	70110	70120	70130	70140
70150	70160	70170	70190	70200
70250	70260	70300	70310	70320
70328	70330	70332	70336	70350
70355	70370	70371	70380	70390
73100	76942	88305	88331	88332

Referto: The CMS website at www.cms.gov/CLIA/10_Categorization_of_Tests.asp for information about procedure codes and modifier QW requirements. The CSHCN Services Program follows the Medicare categorization of tests for CLIA certificate-holders.

The following additional CPT procedure codes are payable to a dentist enrolled in the CSHCN Services Program as a dentist physician:

Procedure Codes									
90284	92511	96369	96370	96372	96374	J0290	J0295	J0330	J0558
J0561	J0690	J0692	J0694	J0696	J0697	J0698	J0702	J0715	J0720
J0744	J1020	J1030	J1040	J1100	J1165	J1170	J1200	J1364	J1580
J1631	J1720	J1790	J1810	J1840	J1850	J1885	J1940	J2010	J2060
J2400	J2510	J2540	J2560	J2700	J2770	J2920	J2930	J3000	J3260
J3300	J3301	J3303	J3370	J3430	J3480	J3490			

Procedure codes 90284, J1459, J1561, J1568, J1569, and J1572 will be denied if billed with the same date of service by any provider as the following procedure codes (unless otherwise indicated):

Procedure Codes				
90284	J1459*	J1460	J1560	J1561*
J1566	J1568*	J1569*	J1572*	J7504
J7511				
*These procedure codes may be billed more than once per day but will not be reimbursed if billed in combination with any other procedure code in this table.				

14.2.7.6 Anesthesia by Dentist Physician

In addition to the procedure codes discussed under "Benefits and Limitations" in this chapter, the following anesthesia CPT procedure codes are payable to a dentist physician:

Procedure Codes				
00100	00102	00160	00162	00164
00170	00190	00192	00300	99100
99116	99135	99140		

14.3 Claims Information

Dental services must be submitted to TMHP in an approved electronic format or on a paper ADA Dental Claim Form (Copyright 2012, American Dental Association). Providers can obtain copies of this form by contacting the ADA at 1-800-947-4746 or ordering online from the ADA website at www.ada.org. TMHP does not supply the forms. Any paper dental claim submitted using any other version of the dental claim form is not processed and is returned to the submitter.

When completing a paper ADA Dental Claim Form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Providers billing electronically must submit dental claims in American National Standards Institute (ANSI) ASC X12 837D format. Specifications are available to providers developing in-house systems, software developers, and vendors. Because each software package is different, field locations may vary. Providers should contact the software developer or vendor for information about their software. Providers or software vendors may direct questions about development requirements to the TMHP EDI Help Desk at 1-888-863-3638.

Claims must contain the billing provider's full name, address, and provider identifier. The billing provider's full name and address must be entered in Block 48 of the paper ADA Dental Claim Form, and the ten-digit NPI must be entered in Block 49. *A claim without a provider name, address, and NPI cannot be processed.*

The Healthcare Common Procedure Coding System (HCPCS)/CPT codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information on electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.13, "Instructions for Completing the Paper ADA Dental Claim Form" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing and may be left blank.

14.3.1 Dental Emergency Claims

The Emergency Indicator field has been removed from the HIPAA-approved 837D electronic transaction. Dental providers submitting electronic claims in the 837D format must use modifier *ET* to report emergency services. Modifier *ET* must be placed in the SVC01 section of the 837D format.

Additionally, the Comments field should be used to document the specific nature of the emergency. The Comments field in the HIPAA-approved 837D electronic transaction is 80 bytes long.

To indicate a dental emergency on a paper claim submission (ADA Dental Claim Form), check Block 45, Treatment Resulting From (check the applicable box), and check the Other Accident box for emergency claim reimbursement. If the Other Accident box is checked, information about the emergency must be provided in Block 35, Remarks.

Only one emergency or trauma claim per client, per day may be submitted. Separate services (one for emergency or trauma and one for nonemergency or routine) may be submitted for the same client on the same day, any provider, for separate services and procedure codes.

14.3.2 Tooth Identification (TID) and Surface Identification (SID) Systems

Claims are denied if the procedure code is not compatible with TID or SID. Use the alpha characters to describe tooth surfaces or any combination of surfaces. Anterior teeth have facial and incisal surfaces only. Posterior teeth have buccal and occlusal surfaces only.

SID	SID	SID	SID
Buccal	DB	DFI	DLIF
Distal	DF	DFL	DOLB
Facial	DI	DFM	MIDF
Incisal	DL	DIL	MIDL
Lingual	DO	DLB	MIDLF
Mesial	IL	DLM	MIFL
Occlusal	MB	DOB	MLBD
	MI	DOL	MLDF
	ML	ILF	MODB
	MO	MBD	MODL
	OB	MID	MODLB
	OL	MIF	MOLB
		MLB	
		MLF	
		MLI	
		MOB	
		MOD	
		MOL	
		OBL	

14.3.3 Supernumerary Tooth Identification

Each identified permanent tooth and each identified primary tooth has its own identifiable supernumerary number. This developed system can be found in the 2007–2008 CDT published by the ADA.

The TID for each identified supernumerary tooth is used for paper and electronic claims and can only be billed with the following codes:

- For primary teeth only: D7111
- For both primary and permanent teeth the following codes are billable: D7140, D7210, D7220, D7230, D7240, D7241, D7250, D7285, D7286, and D7510

Permanent Teeth Upper Arch																
Tooth #	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Super #	51	52	53	54	55	56	57	58	59	60	61	62	63	64	65	66

Permanent Teeth Lower Arch																
Tooth #	32	31	30	29	28	27	26	25	24	23	22	21	20	19	18	17

Primary Teeth Upper Arch										
Tooth #	A	B	C	D	E	F	G	H	I	J
Super #	AS	BS	CS	DS	ES	FS	GS	HS	IS	JS

Primary Teeth Lower Arch										
Tooth #	T	S	R	Q	P	O	N	M	L	K
Super #	TS	SS	RS	QS	PS	OS	NS	MS	LS	KS

14.4 Reimbursement

Dental services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

14.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

15.4	Claims Information	24
15.5	Reimbursement	24
15.6	TMHP-CSHCN Services Program Contact Center	25

15.1 Enrollment

To enroll in the CSHCN Services Program, providers of diabetic equipment and supplies must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state diabetic equipment and supplies providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border, and approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

15.2 Benefits, Limitations, and Authorization Requirements

Diabetic equipment and supplies including glucose monitors, testing supplies, insulin and insulin syringes, and external insulin pumps and supplies may be reimbursed by the CSHCN Services Program.

15.2.1 Glucose Monitor and Supplies

Blood testing supplies may be reimbursed without prior authorization when submitted with one of the following diagnoses:

Diagnosis Code	Description
E0800	Diabetes mellitus due to underlying condition with hyperosmolarity without nonketotic hyperglycemic-hyperosmolar coma (NKHHC)
E0801	Diabetes mellitus due to underlying condition with hyperosmolarity with coma
E0810	Diabetes mellitus due to underlying condition with ketoacidosis without coma
E0811	Diabetes mellitus due to underlying condition with ketoacidosis with coma
E0821	Diabetes mellitus due to underlying condition with diabetic nephropathy
E0822	Diabetes mellitus due to underlying condition with diabetic chronic kidney disease
E0829	Diabetes mellitus due to underlying condition with other diabetic kidney complication

Diagnosis Code	Description
E08311	Diabetes mellitus due to underlying condition with unspecified diabetic retinopathy with macular edema
E08319	Diabetes mellitus due to underlying condition with unspecified diabetic retinopathy without macular edema
E083211	Diabetes mellitus due to underlying condition with mild nonproliferative diabetic retinopathy with macular edema, right eye
E083212	Diabetes mellitus due to underlying condition with mild nonproliferative diabetic retinopathy with macular edema, left eye
E083213	Diabetes mellitus due to underlying condition with mild nonproliferative diabetic retinopathy with macular edema, bilateral
E083219	Diabetes mellitus due to underlying condition with mild nonproliferative diabetic retinopathy with macular edema, unspecified eye
E083291	Diabetes mellitus due to underlying condition with mild nonproliferative diabetic retinopathy without macular edema, right eye
E083292	Diabetes mellitus due to underlying condition with mild nonproliferative diabetic retinopathy without macular edema, left eye
E083293	Diabetes mellitus due to underlying condition with mild nonproliferative diabetic retinopathy without macular edema, bilateral
E083299	Diabetes mellitus due to underlying condition with mild nonproliferative diabetic retinopathy without macular edema, unspecified eye
E083311	Diabetes mellitus due to underlying condition with moderate nonproliferative diabetic retinopathy with macular edema, right eye
E083312	Diabetes mellitus due to underlying condition with moderate nonproliferative diabetic retinopathy with macular edema, left eye
E083313	Diabetes mellitus due to underlying condition with moderate nonproliferative diabetic retinopathy with macular edema, bilateral
E083319	Diabetes mellitus due to underlying condition with moderate nonproliferative diabetic retinopathy with macular edema, unspecified eye
E083391	Diabetes mellitus due to underlying condition with moderate nonproliferative diabetic retinopathy without macular edema, right eye
E083392	Diabetes mellitus due to underlying condition with moderate nonproliferative diabetic retinopathy without macular edema, left eye
E083393	Diabetes mellitus due to underlying condition with moderate nonproliferative diabetic retinopathy without macular edema, bilateral
E083399	Diabetes mellitus due to underlying condition with moderate nonproliferative diabetic retinopathy without macular edema, unspecified eye
E083411	Diabetes mellitus due to underlying condition with severe nonproliferative diabetic retinopathy with macular edema, right eye
E083412	Diabetes mellitus due to underlying condition with severe nonproliferative diabetic retinopathy with macular edema, left eye
E083413	Diabetes mellitus due to underlying condition with severe nonproliferative diabetic retinopathy with macular edema, bilateral
E083419	Diabetes mellitus due to underlying condition with severe nonproliferative diabetic retinopathy with macular edema, unspecified eye
E083491	Diabetes mellitus due to underlying condition with severe nonproliferative diabetic retinopathy without macular edema, right eye
E083492	Diabetes mellitus due to underlying condition with severe nonproliferative diabetic retinopathy without macular edema, left eye

Diagnosis Code	Description
E083493	Diabetes mellitus due to underlying condition with severe nonproliferative diabetic retinopathy without macular edema, bilateral
E083499	Diabetes mellitus due to underlying condition with severe nonproliferative diabetic retinopathy without macular edema, unspecified eye
E083511	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with macular edema, right eye
E083512	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with macular edema, left eye
E083513	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with macular edema, bilateral
E083519	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with macular edema, unspecified eye
E083521	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with traction retinal detachment involving the macula, right eye
E083522	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with traction retinal detachment involving the macula, left eye
E083523	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with traction retinal detachment involving the macula, bilateral
E083529	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with traction retinal detachment involving the macula, unspecified eye
E083531	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, right eye
E083532	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, left eye
E083533	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, bilateral
E083539	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, unspecified eye
E083541	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, right eye
E083542	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, left eye
E083543	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, bilateral
E083549	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, unspecified eye
E083551	Diabetes mellitus due to underlying condition with stable proliferative diabetic retinopathy, right eye
E083552	Diabetes mellitus due to underlying condition with stable proliferative diabetic retinopathy, left eye
E083553	Diabetes mellitus due to underlying condition with stable proliferative diabetic retinopathy, bilateral

Diagnosis Code	Description
E083559	Diabetes mellitus due to underlying condition with stable proliferative diabetic retinopathy, unspecified eye
E083591	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy without macular edema, right eye
E083592	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy without macular edema, left eye
E083593	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy without macular edema, bilateral
E083599	Diabetes mellitus due to underlying condition with proliferative diabetic retinopathy without macular edema, unspecified eye
E0836	Diabetes mellitus due to underlying condition with diabetic cataract
E0837X1	Diabetes mellitus due to underlying condition with diabetic macular edema, resolved following treatment, right eye
E0837X2	Diabetes mellitus due to underlying condition with diabetic macular edema, resolved following treatment, left eye
E0837X3	Diabetes mellitus due to underlying condition with diabetic macular edema, resolved following treatment, bilateral
E0837X9	Diabetes mellitus due to underlying condition with diabetic macular edema, resolved following treatment, unspecified eye
E0839	Diabetes mellitus due to underlying condition with other diabetic ophthalmic complication
E0840	Diabetes mellitus due to underlying condition with diabetic neuropathy, unspecified
E0841	Diabetes mellitus due to underlying condition with diabetic mononeuropathy
E0842	Diabetes mellitus due to underlying condition with diabetic polyneuropathy
E0843	Diabetes mellitus due to underlying condition with diabetic autonomic (poly)neuropathy
E0844	Diabetes mellitus due to underlying condition with diabetic amyotrophy
E0849	Diabetes mellitus due to underlying condition with other diabetic neurological complication
E0851	Diabetes mellitus due to underlying condition with diabetic peripheral angiopathy without gangrene
E0852	Diabetes mellitus due to underlying condition with diabetic peripheral angiopathy with gangrene
E0859	Diabetes mellitus due to underlying condition with other circulatory complications
E08610	Diabetes mellitus due to underlying condition with diabetic neuropathic arthropathy
E08618	Diabetes mellitus due to underlying condition with other diabetic arthropathy
E08620	Diabetes mellitus due to underlying condition with diabetic dermatitis
E08621	Diabetes mellitus due to underlying condition with foot ulcer
E08622	Diabetes mellitus due to underlying condition with other skin ulcer
E08628	Diabetes mellitus due to underlying condition with other skin complications
E08630	Diabetes mellitus due to underlying condition with periodontal disease
E08638	Diabetes mellitus due to underlying condition with other oral complications

Diagnosis Code	Description
E08641	Diabetes mellitus due to underlying condition with hypoglycemia with coma
E08649	Diabetes mellitus due to underlying condition with hypoglycemia without coma
E0865	Diabetes mellitus due to underlying condition with hyperglycemia
E0869	Diabetes mellitus due to underlying condition with other specified complication
E088	Diabetes mellitus due to underlying condition with unspecified complications
E089	Diabetes mellitus due to underlying condition without complications
E0900	Drug or chemical induced diabetes mellitus with hyperosmolarity without nonketotic hyperglycemic-hyperosmolar coma (NKHHC)
E0901	Drug or chemical induced diabetes mellitus with hyperosmolarity with coma
E0910	Drug or chemical induced diabetes mellitus with ketoacidosis without coma
E0911	Drug or chemical induced diabetes mellitus with ketoacidosis with coma
E0921	Drug or chemical induced diabetes mellitus with diabetic nephropathy
E0922	Drug or chemical induced diabetes mellitus with diabetic chronic kidney disease
E0929	Drug or chemical induced diabetes mellitus with other diabetic kidney complication
E09311	Drug or chemical induced diabetes mellitus with unspecified diabetic retinopathy with macular edema
E09319	Drug or chemical induced diabetes mellitus with unspecified diabetic retinopathy without macular edema
E093211	Drug or chemical induced diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, right eye
E093212	Drug or chemical induced diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, left eye
E093213	Drug or chemical induced diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, bilateral
E093219	Drug or chemical induced diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, unspecified eye
E093291	Drug or chemical induced diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, right eye
E093292	Drug or chemical induced diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, left eye
E093293	Drug or chemical induced diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, bilateral
E093299	Drug or chemical induced diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, unspecified eye
E093311	Drug or chemical induced diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, right eye
E093312	Drug or chemical induced diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, left eye
E093313	Drug or chemical induced diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, bilateral
E093319	Drug or chemical induced diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, unspecified eye
E093391	Drug or chemical induced diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, right eye

Diagnosis Code	Description
E093392	Drug or chemical induced diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, left eye
E093393	Drug or chemical induced diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, bilateral
E093399	Drug or chemical induced diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, unspecified eye
E093411	Drug or chemical induced diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, right eye
E093412	Drug or chemical induced diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, left eye
E093413	Drug or chemical induced diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, bilateral
E093419	Drug or chemical induced diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, unspecified eye
E093491	Drug or chemical induced diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, right eye
E093492	Drug or chemical induced diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, left eye
E093493	Drug or chemical induced diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, bilateral
E093499	Drug or chemical induced diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, unspecified eye
E093511	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with macular edema, right eye
E093512	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with macular edema, left eye
E093513	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with macular edema, bilateral
E093519	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with macular edema, unspecified eye
E093521	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, right eye
E093522	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, left eye
E093523	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, bilateral
E093529	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, unspecified eye
E093531	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, right eye
E093532	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, left eye
E093533	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, bilateral
E093539	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, unspecified eye

Diagnosis Code	Description
E093541	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, right eye
E093542	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, left eye
E093543	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, bilateral
E093549	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, unspecified eye
E093551	Drug or chemical induced diabetes mellitus with stable proliferative diabetic retinopathy, right eye
E093552	Drug or chemical induced diabetes mellitus with stable proliferative diabetic retinopathy, left eye
E093553	Drug or chemical induced diabetes mellitus with stable proliferative diabetic retinopathy, bilateral
E093559	Drug or chemical induced diabetes mellitus with stable proliferative diabetic retinopathy, unspecified eye
E093591	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy without macular edema, right eye
E093592	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy without macular edema, left eye
E093593	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy without macular edema, bilateral
E093599	Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy without macular edema, unspecified eye
E0936	Drug or chemical induced diabetes mellitus with diabetic cataract
E0937X1	Drug or chemical induced diabetes mellitus with diabetic macular edema, resolved following treatment, right eye
E0937X2	Drug or chemical induced diabetes mellitus with diabetic macular edema, resolved following treatment, left eye
E0937X3	Drug or chemical induced diabetes mellitus with diabetic macular edema, resolved following treatment, bilateral
E0937X9	Drug or chemical induced diabetes mellitus with diabetic macular edema, resolved following treatment, unspecified eye
E0939	Drug or chemical induced diabetes mellitus with other diabetic ophthalmic complication
E0940	Drug or chemical induced diabetes mellitus with neurological complications with diabetic neuropathy, unspecified
E0941	Drug or chemical induced diabetes mellitus with neurological complications with diabetic mononeuropathy
E0942	Drug or chemical induced diabetes mellitus with neurological complications with diabetic polyneuropathy
E0943	Drug or chemical induced diabetes mellitus with neurological complications with diabetic autonomic (poly)neuropathy

Diagnosis Code	Description
E0944	Drug or chemical induced diabetes mellitus with neurological complications with diabetic amyotrophy
E0949	Drug or chemical induced diabetes mellitus with neurological complications with other diabetic neurological complication
E0951	Drug or chemical induced diabetes mellitus with diabetic peripheral angiopathy without gangrene
E0952	Drug or chemical induced diabetes mellitus with diabetic peripheral angiopathy with gangrene
E0959	Drug or chemical induced diabetes mellitus with other circulatory complications
E09610	Drug or chemical induced diabetes mellitus with diabetic neuropathic arthropathy
E09618	Drug or chemical induced diabetes mellitus with other diabetic arthropathy
E09620	Drug or chemical induced diabetes mellitus with diabetic dermatitis
E09621	Drug or chemical induced diabetes mellitus with foot ulcer
E09622	Drug or chemical induced diabetes mellitus with other skin ulcer
E09628	Drug or chemical induced diabetes mellitus with other skin complications
E09630	Drug or chemical induced diabetes mellitus with periodontal disease
E09638	Drug or chemical induced diabetes mellitus with other oral complications
E09641	Drug or chemical induced diabetes mellitus with hypoglycemia with coma
E09649	Drug or chemical induced diabetes mellitus with hypoglycemia without coma
E0965	Drug or chemical induced diabetes mellitus with hyperglycemia
E0969	Drug or chemical induced diabetes mellitus with other specified complication
E098	Drug or chemical induced diabetes mellitus with unspecified complications
E099	Drug or chemical induced diabetes mellitus without complications
E1010	Type 1 diabetes mellitus with ketoacidosis without coma
E1011	Type 1 diabetes mellitus with ketoacidosis with coma
E1021	Type 1 diabetes mellitus with diabetic nephropathy
E1022	Type 1 diabetes mellitus with diabetic chronic kidney disease
E1029	Type 1 diabetes mellitus with other diabetic kidney complication
E10311	Type 1 diabetes mellitus with unspecified diabetic retinopathy with macular edema
E10319	Type 1 diabetes mellitus with unspecified diabetic retinopathy without macular edema
E103211	Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, right eye
E103212	Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, left eye
E103213	Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, bilateral
E103219	Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, unspecified eye
E103291	Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, right eye

Diagnosis Code	Description
E103292	Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, left eye
E103293	Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, bilateral
E103299	Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, unspecified eye
E103311	Type 1 diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, right eye
E103312	Type 1 diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, left eye
E103313	Type 1 diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, bilateral
E103319	Type 1 diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, unspecified eye
E103391	Type 1 diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, right eye
E103392	Type 1 diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, left eye
E103393	Type 1 diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, bilateral
E103399	Type 1 diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, unspecified eye
E103411	Type 1 diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, right eye
E103412	Type 1 diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, left eye
E103413	Type 1 diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, bilateral
E103419	Type 1 diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, unspecified eye
E103491	Type 1 diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, right eye
E103492	Type 1 diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, left eye
E103493	Type 1 diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, bilateral
E103499	Type 1 diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, unspecified eye
E103511	Type 1 diabetes mellitus with proliferative diabetic retinopathy with macular edema, right eye
E103512	Type 1 diabetes mellitus with proliferative diabetic retinopathy with macular edema, left eye
E103513	Type 1 diabetes mellitus with proliferative diabetic retinopathy with macular edema, bilateral
E103519	Type 1 diabetes mellitus with proliferative diabetic retinopathy with macular edema, unspecified eye
E103521	Type 1 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, right eye

Diagnosis Code	Description
E103522	Type 1 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, left eye
E103523	Type 1 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, bilateral
E103529	Type 1 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, unspecified eye
E103531	Type 1 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, right eye
E103532	Type 1 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, left eye
E103533	Type 1 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, bilateral
E103539	Type 1 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, unspecified eye
E103541	Type 1 diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, right eye
E103542	Type 1 diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, left eye
E103543	Type 1 diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, bilateral
E103549	Type 1 diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, unspecified eye
E103551	Type 1 diabetes mellitus with stable proliferative diabetic retinopathy, right eye
E103552	Type 1 diabetes mellitus with stable proliferative diabetic retinopathy, left eye
E103553	Type 1 diabetes mellitus with stable proliferative diabetic retinopathy, bilateral
E103559	Type 1 diabetes mellitus with stable proliferative diabetic retinopathy, unspecified eye
E103591	Type 1 diabetes mellitus with proliferative diabetic retinopathy without macular edema, right eye
E103592	Type 1 diabetes mellitus with proliferative diabetic retinopathy without macular edema, left eye
E103593	Type 1 diabetes mellitus with proliferative diabetic retinopathy without macular edema, bilateral
E103599	Type 1 diabetes mellitus with proliferative diabetic retinopathy without macular edema, unspecified eye
E1036	Type 1 diabetes mellitus with diabetic cataract
E1037X1	Type 1 diabetes mellitus with diabetic macular edema, resolved following treatment, right eye
E1037X2	Type 1 diabetes mellitus with diabetic macular edema, resolved following treatment, left eye
E1037X3	Type 1 diabetes mellitus with diabetic macular edema, resolved following treatment, bilateral
E1037X9	Type 1 diabetes mellitus with diabetic macular edema, resolved following treatment, unspecified eye
E1039	Type 1 diabetes mellitus with other diabetic ophthalmic complication
E1040	Type 1 diabetes mellitus with diabetic neuropathy, unspecified

Diagnosis Code	Description
E1041	Type 1 diabetes mellitus with diabetic mononeuropathy
E1042	Type 1 diabetes mellitus with diabetic polyneuropathy
E1043	Type 1 diabetes mellitus with diabetic autonomic (poly)neuropathy
E1044	Type 1 diabetes mellitus with diabetic amyotrophy
E1049	Type 1 diabetes mellitus with other diabetic neurological complication
E1051	Type 1 diabetes mellitus with diabetic peripheral angiopathy without gangrene
E1052	Type 1 diabetes mellitus with diabetic peripheral angiopathy with gangrene
E1059	Type 1 diabetes mellitus with other circulatory complications
E10610	Type 1 diabetes mellitus with diabetic neuropathic arthropathy
E10618	Type 1 diabetes mellitus with other diabetic arthropathy
E10620	Type 1 diabetes mellitus with diabetic dermatitis
E10621	Type 1 diabetes mellitus with foot ulcer
E10622	Type 1 diabetes mellitus with other skin ulcer
E10628	Type 1 diabetes mellitus with other skin complications
E10630	Type 1 diabetes mellitus with periodontal disease
E10638	Type 1 diabetes mellitus with other oral complications
E10641	Type 1 diabetes mellitus with hypoglycemia with coma
E10649	Type 1 diabetes mellitus with hypoglycemia without coma
E1065	Type 1 diabetes mellitus with hyperglycemia
E1069	Type 1 diabetes mellitus with other specified complication
E108	Type 1 diabetes mellitus with unspecified complications
E109	Type 1 diabetes mellitus without complications
E1100	Type 2 diabetes mellitus with hyperosmolarity without nonketotic hyperglycemic-hyperosmolar coma (NKHHC)
E1101	Type 2 diabetes mellitus with hyperosmolarity with coma
E1121	Type 2 diabetes mellitus with diabetic nephropathy
E1122	Type 2 diabetes mellitus with diabetic chronic kidney disease
E1129	Type 2 diabetes mellitus with other diabetic kidney complication
E11311	Type 2 diabetes mellitus with unspecified diabetic retinopathy with macular edema
E11319	Type 2 diabetes mellitus with unspecified diabetic retinopathy without macular edema
E113211	Type 2 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, right eye
E113212	Type 2 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, left eye
E113213	Type 2 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, bilateral
E113219	Type 2 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, unspecified eye
E113291	Type 2 diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, right eye

Diagnosis Code	Description
E113292	Type 2 diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, left eye
E113293	Type 2 diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, bilateral
E113299	Type 2 diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, unspecified eye
E113311	Type 2 diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, right eye
E113312	Type 2 diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, left eye
E113313	Type 2 diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, bilateral
E113319	Type 2 diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, unspecified eye
E113391	Type 2 diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, right eye
E113392	Type 2 diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, left eye
E113393	Type 2 diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, bilateral
E113399	Type 2 diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, unspecified eye
E113411	Type 2 diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, right eye
E113412	Type 2 diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, left eye
E113413	Type 2 diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, bilateral
E113419	Type 2 diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, unspecified eye
E113491	Type 2 diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, right eye
E113492	Type 2 diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, left eye
E113493	Type 2 diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, bilateral
E113499	Type 2 diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, unspecified eye
E113511	Type 2 diabetes mellitus with proliferative diabetic retinopathy with macular edema, right eye
E113512	Type 2 diabetes mellitus with proliferative diabetic retinopathy with macular edema, left eye
E113513	Type 2 diabetes mellitus with proliferative diabetic retinopathy with macular edema, bilateral
E113519	Type 2 diabetes mellitus with proliferative diabetic retinopathy with macular edema, unspecified eye
E113521	Type 2 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, right eye

Diagnosis Code	Description
E113522	Type 2 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, left eye
E113523	Type 2 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, bilateral
E113529	Type 2 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, unspecified eye
E113531	Type 2 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, right eye
E113532	Type 2 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, left eye
E113533	Type 2 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, bilateral
E113539	Type 2 diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, unspecified eye
E113541	Type 2 diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, right eye
E113542	Type 2 diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, left eye
E113543	Type 2 diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, bilateral
E113549	Type 2 diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, unspecified eye
E113551	Type 2 diabetes mellitus with stable proliferative diabetic retinopathy, right eye
E113552	Type 2 diabetes mellitus with stable proliferative diabetic retinopathy, left eye
E113553	Type 2 diabetes mellitus with stable proliferative diabetic retinopathy, bilateral
E113559	Type 2 diabetes mellitus with stable proliferative diabetic retinopathy, unspecified eye
E113591	Type 2 diabetes mellitus with proliferative diabetic retinopathy without macular edema, right eye
E113592	Type 2 diabetes mellitus with proliferative diabetic retinopathy without macular edema, left eye
E113593	Type 2 diabetes mellitus with proliferative diabetic retinopathy without macular edema, bilateral
E113599	Type 2 diabetes mellitus with proliferative diabetic retinopathy without macular edema, unspecified eye
E1136	Type 2 diabetes mellitus with diabetic cataract
E1137X1	Type 2 diabetes mellitus with diabetic macular edema, resolved following treatment, right eye
E1137X2	Type 2 diabetes mellitus with diabetic macular edema, resolved following treatment, left eye
E1137X3	Type 2 diabetes mellitus with diabetic macular edema, resolved following treatment, bilateral
E1137X9	Type 2 diabetes mellitus with diabetic macular edema, resolved following treatment, unspecified eye
E1139	Type 2 diabetes mellitus with other diabetic ophthalmic complication
E1140	Type 2 diabetes mellitus with diabetic neuropathy, unspecified

Diagnosis Code	Description
E1141	Type 2 diabetes mellitus with diabetic mononeuropathy
E1142	Type 2 diabetes mellitus with diabetic polyneuropathy
E1143	Type 2 diabetes mellitus with diabetic autonomic (poly)neuropathy
E1144	Type 2 diabetes mellitus with diabetic amyotrophy
E1149	Type 2 diabetes mellitus with other diabetic neurological complication
E1151	Type 2 diabetes mellitus with diabetic peripheral angiopathy without gangrene
E1152	Type 2 diabetes mellitus with diabetic peripheral angiopathy with gangrene
E1159	Type 2 diabetes mellitus with other circulatory complications
E11610	Type 2 diabetes mellitus with diabetic neuropathic arthropathy
E11618	Type 2 diabetes mellitus with other diabetic arthropathy
E11620	Type 2 diabetes mellitus with diabetic dermatitis
E11621	Type 2 diabetes mellitus with foot ulcer
E11622	Type 2 diabetes mellitus with other skin ulcer
E11628	Type 2 diabetes mellitus with other skin complications
E11630	Type 2 diabetes mellitus with periodontal disease
E11638	Type 2 diabetes mellitus with other oral complications
E11641	Type 2 diabetes mellitus with hypoglycemia with coma
E11649	Type 2 diabetes mellitus with hypoglycemia without coma
E1165	Type 2 diabetes mellitus with hyperglycemia
E1169	Type 2 diabetes mellitus with other specified complication
E118	Type 2 diabetes mellitus with unspecified complications
E119	Type 2 diabetes mellitus without complications
E1300	Other specified diabetes mellitus with hyperosmolarity without nonketotic hyperglycemic-hyperosmolar coma (NKHHC)
E1301	Other specified diabetes mellitus with hyperosmolarity with coma
E1310	Other specified diabetes mellitus with ketoacidosis without coma
E1311	Other specified diabetes mellitus with ketoacidosis with coma
E1321	Other specified diabetes mellitus with diabetic nephropathy
E1322	Other specified diabetes mellitus with diabetic chronic kidney disease
E1329	Other specified diabetes mellitus with other diabetic kidney complication
E13311	Other specified diabetes mellitus with unspecified diabetic retinopathy with macular edema
E13319	Other specified diabetes mellitus with unspecified diabetic retinopathy without macular edema
E133211	Other specified diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, right eye
E133212	Other specified diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, left eye
E133213	Other specified diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, bilateral
E133219	Other specified diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, unspecified eye

Diagnosis Code	Description
E133291	Other specified diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, right eye
E133292	Other specified diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, left eye
E133293	Other specified diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, bilateral
E133299	Other specified diabetes mellitus with mild nonproliferative diabetic retinopathy without macular edema, unspecified eye
E133311	Other specified diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, right eye
E133312	Other specified diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, left eye
E133313	Other specified diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, bilateral
E133319	Other specified diabetes mellitus with moderate nonproliferative diabetic retinopathy with macular edema, unspecified eye
E133391	Other specified diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, right eye
E133392	Other specified diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, left eye
E133393	Other specified diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, bilateral
E133399	Other specified diabetes mellitus with moderate nonproliferative diabetic retinopathy without macular edema, unspecified eye
E133411	Other specified diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, right eye
E133412	Other specified diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, left eye
E133413	Other specified diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, bilateral
E133419	Other specified diabetes mellitus with severe nonproliferative diabetic retinopathy with macular edema, unspecified eye
E133491	Other specified diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, right eye
E133492	Other specified diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, left eye
E133493	Other specified diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, bilateral
E133499	Other specified diabetes mellitus with severe nonproliferative diabetic retinopathy without macular edema, unspecified eye
E133511	Other specified diabetes mellitus with proliferative diabetic retinopathy with macular edema, right eye
E133512	Other specified diabetes mellitus with proliferative diabetic retinopathy with macular edema, left eye
E133513	Other specified diabetes mellitus with proliferative diabetic retinopathy with macular edema, bilateral
E133519	Other specified diabetes mellitus with proliferative diabetic retinopathy with macular edema, unspecified eye

Diagnosis Code	Description
E133521	Other specified diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, right eye
E133522	Other specified diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, left eye
E133523	Other specified diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, bilateral
E133529	Other specified diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment involving the macula, unspecified eye
E133531	Other specified diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, right eye
E133532	Other specified diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, left eye
E133533	Other specified diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, bilateral
E133539	Other specified diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, unspecified eye
E133541	Other specified diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, right eye
E133542	Other specified diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, left eye
E133543	Other specified diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, bilateral
E133549	Other specified diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, unspecified eye
E133551	Other specified diabetes mellitus with stable proliferative diabetic retinopathy, right eye
E133552	Other specified diabetes mellitus with stable proliferative diabetic retinopathy, left eye
E133553	Other specified diabetes mellitus with stable proliferative diabetic retinopathy, bilateral
E133559	Other specified diabetes mellitus with stable proliferative diabetic retinopathy, unspecified eye
E133591	Other specified diabetes mellitus with proliferative diabetic retinopathy without macular edema, right eye
E133592	Other specified diabetes mellitus with proliferative diabetic retinopathy without macular edema, left eye
E133593	Other specified diabetes mellitus with proliferative diabetic retinopathy without macular edema, bilateral
E133599	Other specified diabetes mellitus with proliferative diabetic retinopathy without macular edema, unspecified eye
E1336	Other specified diabetes mellitus with diabetic cataract
E1337X1	Other specified diabetes mellitus with diabetic macular edema, resolved following treatment, right eye

Diagnosis Code	Description
E1337X2	Other specified diabetes mellitus with diabetic macular edema, resolved following treatment, left eye
E1337X3	Other specified diabetes mellitus with diabetic macular edema, resolved following treatment, bilateral
E1337X9	Other specified diabetes mellitus with diabetic macular edema, resolved following treatment, unspecified eye
E1339	Other specified diabetes mellitus with other diabetic ophthalmic complication
E1340	Other specified diabetes mellitus with diabetic neuropathy, unspecified
E1341	Other specified diabetes mellitus with diabetic mononeuropathy
E1342	Other specified diabetes mellitus with diabetic polyneuropathy
E1343	Other specified diabetes mellitus with diabetic autonomic (poly)neuropathy
E1344	Other specified diabetes mellitus with diabetic amyotrophy
E1349	Other specified diabetes mellitus with other diabetic neurological complication
E1351	Other specified diabetes mellitus with diabetic peripheral angiopathy without gangrene
E1352	Other specified diabetes mellitus with diabetic peripheral angiopathy with gangrene
E1359	Other specified diabetes mellitus with other circulatory complications
E13610	Other specified diabetes mellitus with diabetic neuropathic arthropathy
E13620	Other specified diabetes mellitus with diabetic dermatitis
E13621	Other specified diabetes mellitus with foot ulcer
E13622	Other specified diabetes mellitus with other skin ulcer
E13628	Other specified diabetes mellitus with other skin complications
E13630	Other specified diabetes mellitus with periodontal disease
E13638	Other specified diabetes mellitus with other oral complications
E13641	Other specified diabetes mellitus with hypoglycemia with coma
E13649	Other specified diabetes mellitus with hypoglycemia without coma
E1365	Other specified diabetes mellitus with hyperglycemia
E1369	Other specified diabetes mellitus with other specified complication
E138	Other specified diabetes mellitus with unspecified complications
E139	Other specified diabetes mellitus without complications
P702	Neonatal diabetes mellitus
Z7984	Long term (current) use of oral hypoglycemic drugs

15.2.1.1 Non Diabetic Diagnosis Codes

Diagnosis Code	Description
E161	Other hypoglycemia
E162	Hypoglycemia, unspecified
E71111	3-methylglutaconic aciduria
E71310	Long chain/very long chain acyl CoA dehydrogenase deficiency

Diagnosis Code	Description
E71311	Medium chain acyl CoA dehydrogenase deficiency
E71312	Short chain acyl CoA dehydrogenase deficiency
E71313	Glutaric aciduria type II
E71314	Muscle carnitine palmitoyltransferase deficiency
E71318	Other disorders of fatty-acid oxidation
E7132	Disorders of ketone metabolism
E7420	Disorders of galactose metabolism, unspecified
E7421	Galactosemia
E7429	Other disorders of galactose metabolism
E8881	Metabolic syndrome
K911	Postgastric surgery syndromes
R7303	Prediabetes
R7309	Other abnormal glucose
R81	Glycosuria

Diagnoses not listed may be considered for prior authorization with supporting documentation of medical necessity.

15.2.1.2 Glucose Monitor

The purchase of a blood glucose monitor may be reimbursed once every three years using the following procedure codes:

Procedure Code	Limitation
E2100	1 per 3 years with prior authorization
E2101	1 per 3 years with prior authorization

Blood glucose monitors with integrated voice synthesizers (procedure code E2100) and blood glucose monitors with integrated lancing blood sample (procedure code E2101) may be considered for prior authorization with documentation of medical necessity.

Prior authorization is required for blood glucose monitors with special features (procedure codes E2100 and E2101). The following documentation supporting medical necessity of the special feature requested must be submitted with the prior authorization request:

- *Integrated voice synthesizer.* Supporting documentation for procedure code E2100 must include an additional diagnosis such as significant visual impairment and must include a statement from the physician that indicates that the client is unable to use a regular monitor and that the additional diagnosis or condition is not correctable.
- *Integrated lancing/blood sample.* Supporting documentation for procedure code E2101 must include a diagnosis of diabetes and significant manual dexterity impairment related, but not limited to, neuropathy, seizure activity, cerebral palsy, or Parkinson's. The documentation must include a statement from the physician indicating that the client is unable to use a regular monitor and has a significant manual dexterity impairment that is not correctable.

Standard home glucose monitors (procedure code E0607) are not a benefit of the CSHCN Services Program.

15.2.1.3 Glucose Testing Supplies

The following procedure codes may be reimbursed for glucose testing supplies when billed with one of the diagnosis codes listed in the Section 15.2.1, “Glucose Monitor and Supplies” in this chapter:

Procedure Code	Limitation
A4233	1 per 6 months
A4234	1 per 6 months
A4235	1 per 6 months
A4236	1 per 6 months
A4250	1 box per 6 months
A4252	10 strips per month
A4256	2 per year
A4258	2 per year

15.2.1.3.1 Insulin-Dependent Clients

The following procedure codes for diabetic supplies do not require authorization up to the quantities listed when they are provided to an insulin-dependent client with a valid diagnosis. If the client is insulin-dependent, providers must submit claims for these procedure codes with modifier U9:

Procedure Code	Limitation
A4253*	2 boxes per month
A4259	1 box per month
A9275*	2 per month
* A client may receive a combined total of two per calendar month of procedure codes A4253 and A9275, either two of one procedure code or one of each procedure code.	

15.2.1.3.2 Non-Insulin-Dependent Clients

The following procedure codes for diabetic supplies do not require authorization up to the quantities listed when provided to a non-insulin-dependent client with an approved diagnosis:

Procedure Code	Limitation
A4253*	1 box per month
A4259	1 box every 2 months
A9275*	1 per month
* A client may receive only one per calendar month of either procedure code A4253 or A9275.	

Blood testing supplies for diagnoses other than those listed in the Section 15.2.1, “Glucose Monitor and Supplies” in this chapter may be considered for prior authorization with documentation of medical necessity.

For items that do not require prior authorization, the provider must indicate on a completed, signed prescription how many times a day the client is required to test blood glucose or ketone levels when applicable (not all supplies are related to testing glucose or urine, e.g., batteries).

15.2.1.4 Glucose Tabs and Gel

Procedure code A9150 may be reimbursed for glucose tablets or gel with prior authorization. Documentation of medical necessity and one of the diagnosis codes listed in the Section 15.2.1, “Glucose Monitor and Supplies” in this chapter must be included with the prior authorization request. Procedure code A9150 may be prior authorized with a quantity of 1 every 6 months as determined with prior authorization.

15.2.1.5 Prior Authorization Requirements

Diabetic supplies and related testing equipment do not require prior authorization unless otherwise specified in the specific sections of this chapter. Prior authorization is required when documentation of medical necessity supports additional quantities that exceed specified limits.

To avoid unnecessary denials, the physician must provide correct and complete information, including documentation of medical necessity for the requested equipment or supplies. The physician must maintain documentation of medical necessity in the client’s medical record. The requesting provider may be asked for additional information to clarify or complete a request for the diabetic equipment or supplies.

15.2.2 Insulin Pump

An external insulin pump may be considered for rental or purchase with prior authorization and documentation of medical necessity. The following procedure codes may be reimbursed with prior authorization for the external insulin pump:

Procedure Code	Limitation
E0784	1 per month (rental) 1 per 3 years (purchase)
A9900	As needed for the replacement bag

External insulin pump supplies do not require prior authorization up to the maximum quantities allowed. The following procedure codes may be reimbursed for the external insulin pump supplies:

Procedure Code	Limitation
A4224	4 per month
A4225	15 per month
A4230	10 per month
A4231	15 per month
A4232	10 per month
A4601	1 per 6 months
A4602	1 per 6 months
A6257	15 per month
A6258	15 per month
A6259	15 per month
K0604	1 per 6 months
K0605	1 per 6 months

Additional quantities may be considered with documentation of medical necessity and prior authorization.

Note: *Tubeless insulin delivery systems and their supplies are not benefits of the CSHCN Services Program.*

An external insulin pump must be ordered by, and the client's follow-up care must be managed by, a prescribing provider with experience managing clients with insulin pumps and who is knowledgeable in the use of insulin pumps.

15.2.2.1 Prior Authorization Requirements

Prior authorization requests for the rental and purchase of the external insulin pumps (procedure code E0784) must be submitted on the [CSHCN Services Program Prior Authorization Request for External Insulin Pump form](#). Supporting medical necessity documentation must include past and current blood glucose levels and the most recent glycosylated hemoglobin level (Hb/A1C).

The rental of an external insulin pump may be considered for prior authorization with submission of clinical documentation that indicates one of the following:

- A client with a diagnosis of type 1 or 2 diabetes must meet at least 2 of the following criteria while on multiple daily injections of insulin:
 - Elevated glycosylated hemoglobin level (HbA1c) greater than 7.0 percent
 - History of dawn phenomenon with fasting blood sugars frequently exceeding 200 mg/dl
 - History of severe glycemic excursions with wide fluctuations in blood glucose
 - History of recurring hypoglycemia (less than 60 mg/dL) with or without hypoglycemic unawareness

In addition to the clinical documentation, the provider must submit the [CSHCN Services Program Prior Authorization Request for External Insulin Pump form](#) and include documentation that the client or caregiver possess the following competencies:

- The cognitive and physical abilities to use the recommended insulin pump treatment regimen
- An understanding of cause and effect
- The willingness to support the use of the external insulin pump

The prior authorization request form must also include documentation that the prescribing provider has attested to the following:

- A training/education plan will be completed prior to initiation of pump therapy.
- The client or caregiver will be given face-to-face education and instruction and will be able to demonstrate proficiency in integrating insulin pump therapy with their current treatment regimen for ambient glucose control.

Note: Providers may bill with procedure code A9900 for the replacement of alkaline batteries for the external ambulatory infusion pump during the rental period.

The purchase of an external insulin pump may be considered for prior authorization after it has been rented for a three-month trial period and all of the following documentation is provided:

- The training/education plan has been completed.
- The pump is the appropriate equipment for the specific client.
- The client is compliant with the use of the pump.

Rental of an external insulin pump may be reimbursed for a 3-month trial, which must occur before purchase can be authorized.

In order for the external insulin pump to be considered for purchase, the physician must provide documentation that it is the appropriate equipment for the client and the client is compliant with use.

Replacement leg bag (procedure code A9900) must be prior authorized with documentation supporting medical necessity.

An internal insulin pump will not be prior authorized because the pump is included in the reimbursement for the surgery to place the pump.

15.2.3 Insulin and Insulin Syringes

Insulin and insulin syringes are available through the Texas Medicaid Vendor Drug Program.

Referto: Section 3.1.1, “Prescription Drug Benefits” in Chapter 3, “Client Benefits and Eligibility” for more information.

15.3 Documentation of Receipt

When the equipment is delivered, providers must complete the [CSHCN Services Program Documentation of Receipt form](#). The date of delivery on the form is the date of service that should appear on the claim. The provider must request a signature from the client or client’s representative at the time of delivery. The provider should retain this form and not submit it with the claim.

Providers must maintain a copy of this form in their files for the life of the piece of equipment or until the equipment is authorized for replacement.

The documentation of receipt form is available in both [English](#) and [Spanish](#).

15.4 Claims Information

Diabetic equipment and supplies must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills or itemized statements are not accepted as claim supplements.

Home health DME providers must use benefit code DM3 on all claims and authorization requests. All other providers must use benefit code CSN on all claims and authorization requests.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [Centers for Medicare & Medicaid Services \(CMS\) NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, “TMHP Electronic Data Interchange (EDI)” for information on electronic claims submissions.

Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for general information about claims filing.

Section 5.7.2.4, “CMS-1500 Paper Claim Form Instructions” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

15.5 Reimbursement

Diabetic equipment and supplies are reimbursed the lower of the billed amount, the amount allowed by CMS when available, or the amount allowed by Texas Medicaid.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

15.6 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

16.1 Enrollment

To enroll and be reimbursed for services in the CSHCN Services Program, diagnostic radiology services providers must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state and federal laws and requirements. Out-of-state radiology providers must meet all of the above conditions and be located in the United States within 50 miles of the Texas state border.

Physicians, dentists, advanced practice registered nurses (APRNs), physician assistants, hospitals, and radiological laboratories are eligible to enroll in Texas Medicaid and to receive reimbursement for CSHCN Services Program diagnostic radiology services that are within the scope of their practice to render.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

16.2 Benefits, Limitations, and Authorization Requirements

16.2.1 Diagnostic Radiology Services Provided by Hospitals

When submitting claims for services provided in an inpatient or outpatient hospital setting, radiologists may be reimbursed only for the interpretation. All medically necessary diagnostic radiology services provided to hospital inpatients must be ordered by the client’s attending or consulting physician. Additionally, the medical necessity must be documented in the client’s medical record.

16.2.2 Diagnostic Radiology Services Provided by Physicians, Advanced Practice Registered Nurses (APRNs), Physician Assistants, and Clinics

In compliance with Health and Human Services (HHS) regulations, physicians, APRNs, physician assistants, and clinics may not submit claims for diagnostic radiology services provided outside of their offices. These services must be submitted directly by the facility or provider that performs the service. This regulation does not affect services performed by the physician or others under his or her personal supervision in the physician’s office.

For services provided by physicians in their offices or clinics, providers may submit total or technical components, as applicable, for procedures that were performed using equipment owned by that physician and located in that physician's office. The technical component is denied when submitted by a physician in the inpatient or outpatient hospital setting. If the physician is a member of a clinic that owns and operates radiology facilities, the physician may submit these services. However, if the physician practices independently and shares space in a medical complex where radiology facilities are located, the physician may not submit these services even if he or she owns or shares ownership of the facility unless he or she personally supervises and is responsible for the daily operation of the facilities.

If a physician owns equipment and performs studies in his or her office, but has a radiologist come to the office to perform the interpretations, the physician may submit all services connected with the study and may reimburse the radiologist for an interpretation or the physician may submit the technical component and allow the interpreting physician to submit the interpretation separately. A separate charge for radiology interpretation submitted by the attending or consulting physician is not allowed concurrently with that of the radiologist. Interpretations are considered part of the attending or consulting physician's overall work-up and treatment of the client. Providers who perform the technical service and interpretation must submit the total component. Providers who perform only the technical service must submit the technical component. Providers who perform only the interpretation must submit the interpretation component. Claims filed in excess of the amount allowed for the total component for the same procedure submitted with the same date of service, for the same client, any provider, are denied.

Claims are considered for reimbursement based on the order in which they are received. For example, if a claim is received for the total component and TMHP has already made payment for the technical or interpretation component for the same procedure submitted with the same dates of service for the same client by any provider, the claim for the total component is denied. The same is true if a total component has already been paid and claims are received for the individual components.

Providers other than radiologists are sometimes under agreement with facilities to provide interpretations in specific instances. Those specialties may be reimbursed if a radiologist is not submitting the interpretation component of radiology procedures.

If duplicate submissions are found between a radiologist and other specialties, the radiologist's claim is considered for reimbursement and the other providers' claims are denied.

Note: For the purposes of this chapter, "APRN" includes nurse practitioner and clinical nurse specialist providers only.

16.2.3 Cardiac Blood Pool Imaging

Procedure codes 78472, 78473, 78481, 78483, 78494, and 78496 for cardiac blood pool imaging services are benefits of the CSHCN Services Program.

16.2.4 Computed Tomography (CT) Scan

CT imaging may be reimbursed by the CSHCN Services Program using the following procedure codes:

Procedure Codes					
70450	70460	70470	70480	70481	70482
70486	70487	70488	70490	70491	70492
70496	70498	71250	71260	71270	71275
72125	72126	72127	72128	72129	72130
72131	72132	72133	72191	72192	72193
72194	73200	73201	73202	73206	73700
73701	73702	73706	74150	74160	74170
74174	74175	74176	74177	74178	75571

Procedure Codes					
75572	75573	75574	75635	76376	76377
76380	77011				

Prior authorization is not required for up to four CT imaging procedures per year.

Prior authorization will be considered for any additional CT procedures with documentation of a severe or life-threatening medical condition that requires close monitoring with CT imaging to determine appropriate treatment, and that without such monitoring and treatment, the condition could progress to severe disability or death.

Prior authorization requests for CT scans that exceed four per client, per rolling year must be submitted on the [CSHCN Services Program Authorization and Prior Authorization Request form](#) and must include documentation of medical necessity for the procedure.

Medical necessity for CT scans includes, but is not limited to, clients with any of the following:

- Ventriculoperitoneal shunt
- Routine postoperative follow-up of ventriculoperitoneal shunt
- Congenital anomaly or deformity
- Suspected fracture when plain film is inconclusive
- Hydrocephalus
- Epilepsy
- Other neurological symptoms
- Craniofacial malformation
- Primary or metastatic cancer
- Known or suspected primary tumor (malignant or nonmalignant)
- Tumor staging
- Progressively severe symptoms despite conservative management

Note: The American College of Radiology Practice Guidelines for CT scans may be used as a reference for specific indications.

Documentation of medical necessity, including the specific rationale for the requested procedure, must be maintained in the client's medical record.

CT scan procedure codes are subject to National Correct Coding Initiative (NCCI) relationships with the following exceptions.

The procedure codes in Column A of the following table will be denied if they are billed with the procedure codes in Column B:

Column A (Denied)	Column B
70450	70460
70450, 70460	70470
70480	70481
70480, 70481	70482
70486	70487
70486, 70487	70488

Column A (Denied)	Column B
70490	70491
70490, 70491	70492
76376, 76377	70496, 70498, 71275, 72191, 73206, 73706, 74175
71250, 76380	71260
71250, 71260	71270
72125	72126
72125, 72126	72127
72128	72129
72128, 72129	72130
72131	72132
72131, 72132	72133
72192	72193
72192, 72193	72194
73200	73201
73200, 73201	73202
73700	73701
73700, 73701	73702
76380	74150
74150, 76380	74160
74150, 74160, 76380	74170
76376	76377
76380	77011
70480, 70481, 70482	70450, 70460, 70470

16.2.5 Contrast Material

Radiological procedures that specify *with contrast* include payment for high osmolar, low osmolar, and paramagnetic contrast material. No additional payment is made for contrast material.

16.2.6 Magnetic Resonance Angiography (MRA)

MRA procedures of the head and neck, chest, abdomen, pelvis, and the lower extremities are benefits for CSHCN Services Program clients. The use of MRA in some areas of the body (spinal canal and upper extremities) is considered investigational and is not a benefit of the CSHCN Services Program. The CSHCN Services Program may reimburse either an MRA or a conventional angiography but not both in the same day without documentation of medical necessity for both tests.

Region	Procedure Code(s)	Benefits and Limitations
Head or Neck	70544, 70545, 70546, 70547, 70548, 70549	An MRA of the head or neck is a benefit when indicated and used to visualize or rule out cerebrovascular disease, subarachnoid and intracerebral hemorrhage, and occlusion or stenosis of intracranial vessels.

Region	Procedure Code(s)	Benefits and Limitations
Chest	71555	<p>An MRA of the chest is a benefit when performed to evaluate coronary artery disease or anomalous arteriopulmonary systems and to identify thoracic aneurysms or pulmonary embolisms in cases when contrast material is contraindicated. MRAs are also benefits for evaluating the coronary vessels in coronary artery disease, vasculitis, or vessel patency postoperatively.</p> <p>An MRA of the chest is a benefit when used to diagnose a pulmonary embolism only when the client has a documented allergy to iodinated contrast material.</p>
Abdomen	74185	An MRA of the abdomen is a benefit when used to assess the main renal arteries for the evaluation of renal artery stenosis, abdominal aortic aneurysm or dissection, and associated occlusive disease.
Pelvis	72198	An MRA of the pelvis is a benefit when performed to evaluate pelvic arteries for stenosis and for the detection, grading, and differentiation of renovascular disease.
Lower Extremities	73725	An MRA of the lower extremities is a benefit when indicated for the evaluation of peripheral vascular disease related to the lower extremities, such as hemangioma, atherosclerosis, arterial embolism and thrombosis, and arterial anomalies.

If an MRA and a conventional angiography are performed on the same day, the documentation of medical necessity must indicate that a conventional angiography did not identify a viable run off vessel for bypass, that MRA results were inconclusive, or other medical necessity documentation.

16.2.6.1 MRA Authorization Requirements

Authorization is not required for MRA services.

16.2.7 Magnetic Resonance Imaging (MRI)

MRI, including functional MRI and intraoperative MRI, is a benefit of the CSHCN Services Program.

The CSHCN Services Program considers functional MRI (fMRI) medically necessary when it is being used as a part of a preoperative evaluation for a planned craniotomy and is required for localization of eloquent areas of the brain, such as those responsible for speech, language, motor function, and senses, and which might potentially be put at risk during the proposed surgery.

Indications for intracranial neurosurgical procedures using intraoperative MRI (iMRI) include, but are not limited to, the following:

- Oncologic neurosurgical procedures
- Epilepsy
- Chiari surgery
- Deep-brain stimulators

The following procedure codes may be used to bill MRI procedures:

Procedure Codes				
70336	70540	70542	70543	70551
70552	70553	70554	70555	70557
70558	70559	71550	71551	71552

Procedure Codes				
72141	72142	72146	72147	72148
72149	72156	72157	72158	72195
72196	72197	73218	73219	73220
73221	73222	73223	73718	73719
73720	73721	73722	73723	74181
74182	74183	75557	75559	75561
75563	75565	76376	76377	77058
77059	77084			

16.2.7.1 MRI Authorization Requirements

Authorization is not required for up to four MRI procedures per rolling year.

Prior authorization will be considered for any additional MRI procedures with documentation of a severe or life-threatening medical condition that:

- Requires close monitoring with MRI to determine appropriate treatment.
- Could progress to severe disability or death without such monitoring or treatment.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

16.2.7.2 MRI Benefits and Limitations

Procedure codes 75559 or 75563 must be billed in conjunction with stress testing procedure codes 93015, 93016, 93017, or 93018.

MRI procedure codes are subject to NCCI relationships with the following exceptions.

The following procedure codes in Column A will be denied when billed with the same date of service by the same provider as the procedure codes in Column B:

Column A (Denied)	Column B
01922, 76350, 77021	70557
01922, 36000, 36005, 36406, 36410, 70557, 76000, 76350, 76942, 77002, 77021, 96360, 96365, 96372, 96374, 96375	70558
01922, 36000, 36005, 36406, 36410, 70557, 70558, 76000, 76350, 76942, 77002, 77021, 96360, 96365, 96372, 96374, 96375	70559
01922, 76350	71550, 74181
01922, 36000, 36005, 36011, 36406, 36410, 71550, 71551, 76000, 76350, 76942, 77002, 96360, 96365, 96372, 96374, 96375	71552
01922, 36000, 36005, 36011, 36406, 36410, 74181, 76000, 76350, 76942, 77002, 96360, 96365, 96372, 96374, 96375	74182
01922, 36000, 36005, 36011, 36406, 36410, 74181, 74182, 76000, 76350, 76942, 77002, 96360, 96365, 96372, 96374, 96375	74183

16.2.8 Mammography Certification

DSHS issues mammography certification to providers who render mammography services. Providers can submit this certification to the TMHP Provider Enrollment Department in lieu of certification issued by the Food and Drug Administration (FDA) because the FDA recognizes the DSHS certification. TMHP will continue to accept mammography certification issued by the FDA.

Providers are reminded to check the expiration date of their certification and submit an updated mammography certification prior to its expiration date. Mail or fax certifications to:

Texas Medicaid & Healthcare Partnership
 Provider Enrollment
 PO Box 200795
 Austin, TX 78720-0795
 Fax: 1-512-514-4214

16.2.9 Positron Emission Tomography (PET)

The CSHCN Services Program may reimburse for PET scans (procedure codes 78608, 78811, 78812, 78813, 78815, and 78816) in the office, inpatient hospital, or outpatient hospital setting when they are used to map an epileptogenic focus prior to surgical treatment of a seizure disorder.

Procedure code 78608 must be submitted with one of the following diagnosis codes:

Diagnosis Code	Description
G249	Dystonia, unspecified
G40201	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, not intractable, with status epilepticus
G40209	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, not intractable, without status epilepticus
G40211	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable, with status epilepticus
G40219	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable, without status epilepticus
R569	Unspecified convulsions

Procedure codes 78811, 78812, 78813, 78815, and 78816 must be submitted with one of the following diagnosis codes:

Diagnosis Code	Description
C000	Malignant neoplasm of external upper lip
C001	Malignant neoplasm of external lower lip
C003	Malignant neoplasm of upper lip, inner aspect
C004	Malignant neoplasm of lower lip, inner aspect
C005	Malignant neoplasm of lip, unspecified, inner aspect
C006	Malignant neoplasm of commissure of lip, unspecified
C008	Malignant neoplasm of overlapping sites of lip
C430	Malignant melanoma of lip
C4311	Malignant melanoma of right eyelid, including canthus
C4312	Malignant melanoma of left eyelid, including canthus
C4321	Malignant melanoma of right ear and external auricular canal
C4322	Malignant melanoma of left ear and external auricular canal

Diagnosis Code	Description
C4330	Malignant melanoma of unspecified part of face
C4331	Malignant melanoma of nose
C4339	Malignant melanoma of other parts of face
C434	Malignant melanoma of scalp and neck
C4351	Malignant melanoma of anal skin
C4352	Malignant melanoma of skin of breast
C4359	Malignant melanoma of other part of trunk
C4361	Malignant melanoma of right upper limb, including shoulder
C4362	Malignant melanoma of left upper limb, including shoulder
C4371	Malignant melanoma of right lower limb, including hip
C4372	Malignant melanoma of left lower limb, including hip
C438	Malignant melanoma of overlapping sites of skin
C439	Malignant melanoma of skin, unspecified
C4400	Unspecified malignant neoplasm of skin of lip
C4409	Other specified malignant neoplasm of skin of lip
C44102	Unspecified malignant neoplasm of skin of right eyelid, including canthus
C44109	Unspecified malignant neoplasm of skin of left eyelid, including canthus
C44112	Basal cell carcinoma of skin of right eyelid, including canthus
C44119	Basal cell carcinoma of skin of left eyelid, including canthus
C44122	Squamous cell carcinoma of skin of right eyelid, including canthus
C44129	Squamous cell carcinoma of skin of left eyelid, including canthus
C44192	Other specified malignant neoplasm of skin of right eyelid, including canthus
C44199	Other specified malignant neoplasm of skin of left eyelid, including canthus
C44202	Unspecified malignant neoplasm of skin of right ear and external auricular canal
C44209	Unspecified malignant neoplasm of skin of left ear and external auricular canal
C44292	Other specified malignant neoplasm of skin of right ear and external auricular canal
C44299	Other specified malignant neoplasm of skin of left ear and external auricular canal
C44301	Unspecified malignant neoplasm of skin of nose
C44309	Unspecified malignant neoplasm of skin of other parts of face
C44390	Other specified malignant neoplasm of skin of unspecified parts of face
C44391	Other specified malignant neoplasm of skin of nose
C44399	Other specified malignant neoplasm of skin of other parts of face
C4440	Unspecified malignant neoplasm of skin of scalp and neck
C4449	Other specified malignant neoplasm of skin of scalp and neck
C44500	Unspecified malignant neoplasm of anal skin
C44501	Unspecified malignant neoplasm of skin of breast
C44509	Unspecified malignant neoplasm of skin of other part of trunk
C44590	Other specified malignant neoplasm of anal skin
C44591	Other specified malignant neoplasm of skin of breast

Diagnosis Code	Description
C44599	Other specified malignant neoplasm of skin of other part of trunk
C44602	Unspecified malignant neoplasm of skin of right upper limb, including shoulder
C44609	Unspecified malignant neoplasm of skin of left upper limb, including shoulder
C44692	Other specified malignant neoplasm of skin of right upper limb, including shoulder
C44699	Other specified malignant neoplasm of skin of left upper limb, including shoulder
C44702	Unspecified malignant neoplasm of skin of right lower limb, including hip
C44709	Unspecified malignant neoplasm of skin of left lower limb, including hip
C44792	Other specified malignant neoplasm of skin of right lower limb, including hip
C44799	Other specified malignant neoplasm of skin of left lower limb, including hip
C4480	Unspecified malignant neoplasm of overlapping sites of skin
C4489	Other specified malignant neoplasm of overlapping sites of skin
C4490	Unspecified malignant neoplasm of skin, unspecified
C4499	Other specified malignant neoplasm of skin, unspecified
C518	Malignant neoplasm of overlapping sites of vulva
C6201	Malignant neoplasm of undescended right testis
C6202	Malignant neoplasm of undescended left testis
C6210	Malignant neoplasm of unspecified descended testis
C6291	Malignant neoplasm of right testis, unspecified whether descended or undescended
C6292	Malignant neoplasm of left testis, unspecified whether descended or undescended
C710	Malignant neoplasm of cerebrum, except lobes and ventricles
C711	Malignant neoplasm of frontal lobe
C712	Malignant neoplasm of temporal lobe
C713	Malignant neoplasm of parietal lobe
C714	Malignant neoplasm of occipital lobe
C715	Malignant neoplasm of cerebral ventricle
C716	Malignant neoplasm of cerebellum
C717	Malignant neoplasm of brain stem
C718	Malignant neoplasm of overlapping sites of brain
C719	Malignant neoplasm of brain, unspecified
C7641	Malignant neoplasm of right upper limb
C7642	Malignant neoplasm of left upper limb
C792	Secondary malignant neoplasm of skin
C7931	Secondary malignant neoplasm of brain
D030	Melanoma in situ of lip
D0311	Melanoma in situ of right eyelid, including canthus
D0312	Melanoma in situ of left eyelid, including canthus
D0321	Melanoma in situ of right ear and external auricular canal
D0322	Melanoma in situ of left ear and external auricular canal
D0330	Melanoma in situ of unspecified part of face
D0339	Melanoma in situ of other parts of face

Diagnosis Code	Description
D034	Melanoma in situ of scalp and neck
D0351	Melanoma in situ of anal skin
D0352	Melanoma in situ of breast (skin) (soft tissue)
D0359	Melanoma in situ of other part of trunk
D0361	Melanoma in situ of right upper limb, including shoulder
D0362	Melanoma in situ of left upper limb, including shoulder
D0371	Melanoma in situ of right lower limb, including hip
D0372	Melanoma in situ of left lower limb, including hip
D038	Melanoma in situ of other sites
D039	Melanoma in situ, unspecified
D4011	Neoplasm of uncertain behavior of right testis
D4012	Neoplasm of uncertain behavior of left testis
D430	Neoplasm of uncertain behavior of brain, supratentorial
D431	Neoplasm of uncertain behavior of brain, infratentorial
D432	Neoplasm of uncertain behavior of brain, unspecified

In addition to the diagnosis codes listed above, procedure codes 78813 and 78815 may also be considered for reimbursement with the following diagnosis codes:

Diagnosis Code	Description
C4000	Malignant neoplasm of scapula and long bones of unspecified upper limb
C4001	Malignant neoplasm of scapula and long bones of right upper limb
C4002	Malignant neoplasm of scapula and long bones of left upper limb
C4010	Malignant neoplasm of short bones of unspecified upper limb
C4011	Malignant neoplasm of short bones of right upper limb
C4012	Malignant neoplasm of short bones of left upper limb
C4020	Malignant neoplasm of long bones of unspecified lower limb
C4021	Malignant neoplasm of long bones of right lower limb
C4022	Malignant neoplasm of long bones of left lower limb
C4030	Malignant neoplasm of short bones of unspecified lower limb
C4031	Malignant neoplasm of short bones of right lower limb
C4032	Malignant neoplasm of short bones of left lower limb
C4080	Malignant neoplasm of overlapping sites of bone and articular cartilage of unspec-
C4081	Malignant neoplasm of overlapping sites of bone and articular cartilage of right
C4082	Malignant neoplasm of overlapping sites of bone and articular cartilage of left limb
C4090	Malignant neoplasm of unspecified bones and articular cartilage of unspecified
C4091	Malignant neoplasm of unspecified bones and articular cartilage of right limb
C4092	Malignant neoplasm of unspecified bones and articular cartilage of left limb

Diagnosis Code	Description
C410	Malignant neoplasm of bones of skull and face
C411	Malignant neoplasm of mandible
C412	Malignant neoplasm of vertebral column
C413	Malignant neoplasm of ribs, sternum and clavicle
C414	Malignant neoplasm of pelvic bones, sacrum and coccyx
C419	Malignant neoplasm of bone and articular cartilage, unspecified

Note: Other diagnoses may be considered on a case-by-case basis through prior authorization after review by the CSHCN Services Program Medical Director or a designee.

16.2.10 X-ray and Ultrasound Procedures

Radiology services include, but are not limited to, diagnostic imaging and interventional radiological procedures.

16.2.10.1 Diagnostic Imaging

The following procedure codes for diagnostic imaging may be considered for reimbursement by the CSHCN Services Program:

Procedure Codes				
70030	76831	76881	76882	93980

The following procedure codes for contrast material may be considered for reimbursement when used during an echocardiography.

Procedure Codes		
Q9950	Q9956	Q9957

Procedure codes Q9950, Q9956, or Q9957 must be billed in conjunction with procedure code 93306.

16.2.10.2 Interventional Radiological Procedures

Interventional radiological procedures employ image guidance methods to gain access to deep soft tissue and organs.

The following procedure codes for interventional radiological procedures may be considered for reimbursement by the CSHCN Services Program:

Procedure Codes				
74235	75956	75957	75958	75959
76930	76937			

Physicians may be reimbursed for only the professional interpretation component of procedure codes 75956, 75957, 75958, and 75959.

Procedure code 75956 may be reimbursed when it is billed in conjunction with procedure code 33880.

Procedure code 75957 may be reimbursed when it is billed in conjunction with procedure code 33881.

Procedure code 75958 may be reimbursed when it is billed in conjunction with procedure code 33883.

Note: Procedure code 33884 may be reimbursed when it is billed in conjunction with procedure code 33883. Therefore, if procedure code 75958 is rendered with procedure code 33884, procedure codes 33884 and 33883 must be billed to prevent denial of the claim.

Procedure code 75959 may be reimbursed when it is billed in conjunction with procedure code 33886.

Procedure code 76937 may be reimbursed when it is billed in conjunction with one of the following procedure codes:

Procedure Codes				
36555	36556	36557	36558	36560
36561	36563	36565	36566	36568
36569	36570	36571	36575	36576
36578	36580	36581	36582	36583
36584	36585	36589	36590	36593
36595	36596	36597	36598	

16.2.10.3 Abdominal Flat Plates (AFPs) and Kidney, Ureter, and Bladder (KUB)

The following procedure codes for AFPs and KUB procedures are included in the cost of the more complicated X-ray and will not be reimbursed separately:

Procedure Codes		
74000	74010	74020

Exception: The AFP and KUB procedures may be reimbursed separately if documentation is submitted with the claim that indicates that the results of these X-rays required more complicated X-rays.

16.2.10.4 Reimbursement Information

The CSHCN Services Program may reimburse the facility/provider that performs the X-ray or ultrasound service. Physicians, group practices, and clinics are not reimbursed for radiology services that are provided outside their offices.

Physicians may be reimbursed for the total component for radiology and ultrasound services that are rendered in the office using equipment owned by the physician.

Separate charges for injectable radioactive materials may be reimbursed.

X-ray and ultrasound procedure codes are subject to NCCI relationships with the following exceptions. The procedure codes in Column A of the following table will be denied if they are billed with the same date of service by the same provider as the procedure codes in Column B:

Column A (Denied)	Column B
75958	75956, 75957

16.2.10.5 X-ray and Ultrasound Prior Authorization Requirements

Procedure code 93980 requires prior authorization.

Documentation for procedure code 93980 must include at least one of the following:

- An occurrence of trauma
- Signs and symptoms of a vascular occlusion, which includes, but is not limited to, pain, discoloration, or abnormal visualization of penile area

- Evaluation success of surgical treatment of Peyronie's disease

16.2.11 Noncovered Services

The following services are included in other services and will not be reimbursed separately by the CSHCN Services Program:

- Intraoperative ultrasonic guidance is considered a part of a surgical procedure and will not be reimbursed separately.
- The attending or consulting physician will not be reimbursed for an interpretation that is billed with the same date of service for the same client as an interpretation that is billed by the radiologist. The attending or consulting physician's interpretation is included in the reimbursement for the client workup and will not be reimbursed separately.
- Oral preparations for X-rays are included in the charge for the X-ray and will not be reimbursed separately.

The following services are not benefits of the CSHCN Services Program:

- Portable X-ray services
- Baseline screening and comparison studies
- Infertility and obstetrical services

16.3 Claims Information

Claims for diagnostic radiology services must include the referring provider. Radiologists are required to identify the referring provider by full name and address or CSHCN Services Program provider identifier in Block 17 of the CMS-1500 paper claim form.

Diagnostic radiology services must be submitted to TMHP in an approved electronic format on the CMS-1500 paper claim form or the UB-04 CMS-1450 paper claim form. Providers may purchase CMS-1500 paper claim forms and UB-04 CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form or a UB-04 CMS-1450 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [Centers for Medicare & Medicaid Services \(CMS\) NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper CMS-1500 claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

Section 5.7.2.7, "Instructions for Completing the UB-04 CMS-1450 Paper Claim Form" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper UB-04 CMS-1450 claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

If the client is admitted as an inpatient within 24 hours of treatment in the emergency room or clinic, the emergency room or clinic charges must be billed on the UB-04 CMS-1450 paper claim form as an ancillary charge. Hospitals are not required to submit itemized charge tickets with their UB-04 CMS-1450 paper claim forms for inpatient stays, but a description including the location and the number of views must be provided or the applicable HCPCS code may be provided.

Professional services provided by a physician must be billed separately by the physician. The NPI of the ordering physician must be in Block 78-79. The itemized charges must be retained by the facility for at least 5 years from the date of service.

16.4 Reimbursement

Physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

APRN and physician assistant providers may be reimbursed for the technical component for radiology and ultrasound services that are rendered in the office setting using equipment owned by the APRN or physician assistant provider at the lower of the billed amount or 85 percent of the amount reimbursed to physicians for the same service by Texas Medicaid.

When submitting claims for services provided in an inpatient or outpatient hospital setting, radiologists may be reimbursed only for the interpretation.

Hospital inpatient services may be reimbursed at 80 percent of the rate authorized by *Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA)*, which is equivalent to the hospital's Medicaid interim rate.

Outpatient imaging services rendered by outpatient hospital providers may be reimbursed at a flat fee that is based on the procedure code submitted on the same line item as the imaging revenue code.

Reimbursement of the separate technical and interpretation components cannot exceed reimbursement for the total component.

For MRA, MRI, and PET imaging services, providers may be reimbursed according to the following reimbursement methodology:

- MRA services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.
- For MRI services, both professional and radiological services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.
- For PET services, physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid, and outpatient facilities may be reimbursed at a flat fee that is based on the procedure code submitted on the same line item as the imaging revenue code.

For X-ray and ultrasound services, providers may be reimbursed according to the following reimbursement methodology:

- Physicians may be reimbursed at the lower of the billed amount or the amount allowed by Texas Medicaid.
- APRN and physician assistant providers may be reimbursed at the lower of the billed amount or 85 percent of the amount reimbursed to physicians for the same service by Texas Medicaid.
- Outpatient facilities are reimbursed at a flat fee that is based on the procedure code submitted on the same line item as the imaging revenue code.

Referto: Section 24.6.2.1, “Revenue Code and Procedure Code Requirements for All Outpatient Services” in Chapter 24, “Hospital” for information about the revenue code and procedure code claim requirements for outpatient services.

- Inpatient facilities are reimbursed at 80 percent of the rate allowed by TEFRA. Reimbursement of the separate components, technical and interpretation, will not exceed the reimbursement for the total component.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

16.4.1 One-day Payment Window Reimbursement Guidelines

According to the one-day payment window reimbursement guidelines, most professional and outpatient diagnostic and nondiagnostic services that are rendered within 1 day of an inpatient hospital stay and are related to the inpatient hospital admission will not be reimbursed separately from the inpatient hospital stay if the services are rendered by the hospital or an entity that is wholly owned or operated by the hospital.

The one-day payment window reimbursement guidelines do not apply for professional services that are rendered in the inpatient hospital setting.

Referto: Section 24.3.7, “Payment Window Reimbursement Guidelines” in Chapter 24, “Hospital” for additional information about the one-day payment window reimbursement guidelines.

16.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

17.1 Enrollment

To enroll in the CSHCN Services Program, DME providers must be actively enrolled in Texas Medicaid, have a valid CSHCN Services Program Provider Agreement, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state DME (noncustom DME) providers must meet all these conditions, be located in the United States within 50 miles of the Texas state border and be approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

Section 3.1.4, “Services Provided Outside of Texas” in Chapter 3, “Client Benefits and Eligibility” for more detailed information.

17.1.1 Custom DME Requirements

Providers who wish to enroll with the CSHCN Services Program as customized DME providers must complete the CSHCN Services Program Provider Enrollment Application as specified in Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities.” Additionally, applicants must either provide evidence of having current certification from the Rehabilitation Engineering and Assistive Technology Society of North America (RESNA) as an assistive technology supplier and/or assistive technology practitioner, or provide three separate letters of recommendation from practicing occupational therapists (OTs) or physical therapists (PTs) serving a pediatric population. These letters must include the name, address, and telephone number of the recommending therapist, place of therapist’s employment, and number of years the therapist has worked with the specific custom DME applicant in providing custom DME. The CSHCN Services Program requires that PTs and OTs writing letters of recommendation are not employed by the applicant nor receive any form of compensation for the letters of recommendation.

Providers must send the completed documentation to:

Texas Medicaid & Health Partnership
Attn: Provider Enrollment
PO Box 200795
Austin, TX 78720-0795
1-800-568-2413

Additional information and provider enrollment forms are available on the TMHP website at www.tmhp.com.

17.2 Program Overview and Guidelines

The CSHCN Services Program considers requests for coverage of the following types of DME and services when they are medically necessary and appropriate:

- *Rehabilitative equipment*: purchase, rental, modification, and repair items such as ambulation aids, wheelchairs (manual and power), standers, hospital beds, hygiene equipment, etc.
- *Miscellaneous equipment*: items such as paraffin units, enuresis alarms, and special needs car seats

All DME must be prescribed by a licensed physician. This equipment is primarily and customarily used to serve a medical purpose and is generally not useful to a person in the absence of illness, injury, or disability. DME is appropriate for use in the home or community setting. Unique or novel DME that is a benefit of the CSHCN Services Program must have a well-established history or efficacy. The DME must have valid and peer-reviewed evidence that the equipment corrects or ameliorates a covered medical condition or functional disability.

There is no single authority, such as a federal agency, that confers the official status of “DME” on any device or product. Therefore, the CSHCN Services Program within the Department of State Health Services (DSHS), retains the right to determine which DME devices or products are benefits of the CSHCN Services Program. To be considered for reimbursement, DME must be a benefit of the CSHCN Services Program and must be authorized or prior authorized, if required, as indicated in the sections below. Requests for authorization or prior authorization must be submitted in writing. Requests for equipment that requires *prior* authorization must be completed and received before the requested date of service.

The CSHCN Services Program may reimburse providers for both custom and standard (noncustom) DME.

17.2.1 Custom DME

Custom DME is medical equipment that is made or modified specifically to address the *individual* client’s needs. After it is issued, customized equipment is the client’s property. Examples of covered custom DME include:

- Adaptive strollers.
- Custom-fitted wheelchairs (manual and power) and positioning components.
- Gait trainers.
- Hospital crib or enclosed bed.
- Portable wheelchair ramps.
- Scooters.
- Special needs car seats.
- Standers (prone and supine).
- Travel chair.

17.2.2 Standard DME

Noncustom DME is medical equipment that can be obtained from a store or a mail-order company and does not require adaptation or modification for the client’s use. Examples of covered noncustom DME include:

- Adaptive feeder seats.

- Ambulation aids.
- Feeding equipment (parenteral and enteral).
- Hospital beds.
- Hygiene equipment.
- Portable paraffin units.
- Standard wheelchairs.
- Transcutaneous electrical nerve stimulator (TENS) units.
- Transfer boards.

17.2.3 Program Guidelines

All DME providers must adhere to the following program guidelines concerning the products and services they provide:

- Provide new equipment—not used, reconditioned, or damaged equipment or parts.
- Ensure that clients are measured and that the equipment is assembled and fitted by knowledgeable staff.
- Request authorization or prior authorization for equipment based on the recommendations of a team that includes the client, physician, therapist, and vendor, whenever possible.
- Ensure that staff experienced in the fitting of DME delivers the equipment with all accessories directly to the person specified in the delivery instructions. The parent, client, or guardian must sign the [CSHCN Services Program Documentation of Receipt form](#) only at the time of delivery, and only when the item with all accessories meets the satisfaction of the parent, client, or guardian.
- Provide instruction to the family, client, or guardian about the proper use and maintenance of the equipment.
- Provide free inspection, adjustments, and maintenance between the fourth and the fifth months after delivery of a power chair.
- Lend a medically appropriate item to the client, at no charge, if the prescribing physician determines immediate need from the time the vendor receives authorization and until the prescribed item is delivered.
- Do not purchase accessories, inserts, or other positioning devices shop-built by a vendor unless specifically approved after review of medical justification submitted from the prescribing physician, OT, or PT. Detailed cost justification is also required.
- Never reclaim an item delivered to a client when the CSHCN Services Program Documentation of Receipt form has been signed by the parent, client, or guardian, even if the CSHCN Services Program denies vendor payment for failure to comply with claims processing deadlines.
- Use objective OTs or PTs to perform the wheelchair and equipment evaluations and to make equipment recommendations for CSHCN Services Program clients. An objective therapist is one who is not hired or paid by the DME provider or company to perform these evaluations.

Any evidence of noncompliance with items above may be grounds for removing the provider from the CSHCN Services Program provider list or other sanctions as agreed upon by the medical reviewers.

17.3 Benefits, Limitations, and Authorization Requirements

The CSHCN Services Program must authorize all requests for both standard and custom DME. Requests must be submitted on the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) form](#).

Note: *The physician's signature is only required on page 1 of the form in the Statement of Medical Necessity section. Providers must submit page 1 of the form to TMHP. Pages 2 through 5 are only required for certain DME requests. Refer to the text under the form title to determine which of these pages must be submitted in addition to page 1.*

Custom DME and more complex equipment requires prior authorization; all other and standard DME must be authorized. The sections below identify the equipment that requires authorization and the equipment that requires prior authorization. Authorization requests and prior authorization requests should be submitted on a [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) form](#).

The custom DME prior authorization period is no more than 75 days from the date of approval. If the client's eligibility is due to end before the 75 days, providers will still receive a 75-day authorization from the date of the approval.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for more information about authorizations and prior authorizations.

17.3.1 Adaptive Strollers

Adaptive strollers may be noncustom DME, or they may be custom DME if they are in any way customized to the individual client's needs.

Adaptive strollers are mobility devices that resemble regular strollers purchased for healthy infants and toddlers. Adaptive strollers have a limited range of accessories that allow some positioning for clients with minor postural problems.

17.3.1.1 Authorization Requirements

Adaptive strollers may be authorized only when medically necessary and when all of the following conditions are met:

- The stroller has a firm back and seat, or insert.
- A stroller (rather than a wheelchair) is specifically recommended by the licensed therapist completing the wheelchair evaluation.
- The requested stroller meets *all* recommendations made in the wheelchair evaluation.
- The client is not expected to develop motor skills necessary for self-propulsion and is not expected to need a travel chair or wheelchair within 2 years of the request date, *or* the client is expected to be ambulatory within 1 year of the request date.

Authorization requests for clients older than 2 years of age must meet the above criteria, and there must be medical documentation of the need for a stroller versus a wheelchair. Medical documentation should indicate that a stroller allows adequate support for a client's particular condition, stature, and need for positioning (completion of the [CSHCN Services Program Wheelchair Seating Evaluation Form](#) serves as medical documentation).

The following criteria must be met for the level of stroller requested:

- *Level 1: Basic stroller.* The client meets the criteria for a stroller.
- *Level 2: Stroller with tray for oxygen and/or ventilator.* The client meets the criteria for a Level 1 stroller and is oxygen- or ventilator-dependent.

- *Level 3: Stroller with positioning inserts.* The client meets the criteria for a Level 1 or Level 2 stroller and requires additional positioning support.

Providers should use the following procedure codes and modifiers to submit claims for strollers. Levels 2 and 3 require the addition of a modifier:

Description	Procedure Code and Modifier (As Applicable)
Level 1: Basic Stroller	E1035
Level 2: Stroller with tray for oxygen and/or ventilator	E1035 with TF modifier
Level 3: Stroller with positioning inserts	E1035 with TG modifier

17.3.2 Ambulation Aids

17.3.2.1 Crutches, Walkers, Gait and Ambulation Belts, and Canes

Ambulation aids may be noncustom DME, or they may be custom DME if they are in any way customized to the individual client's needs.

Crutches, walkers, gait and ambulation belts, and canes may be authorized for any condition resulting in limited functional ambulation. Any enrolled DME provider may be reimbursed for nonspecialized equipment at Medicare-allowable rates. The provider is required to submit authorization requests and claims with the appropriate procedure codes. Ambulation aids may be rented if the need is short term. The anticipated total rental cost must be less than the purchased price.

17.3.3 Breast Prosthesis

The following procedure codes for external breast prostheses are benefits of the CSHCN Services Program when provided by a licensed prosthetist or licensed orthotist to clients with a history of a medically necessary mastectomy procedure:

Procedure Code	Limitations
L8000	4 per rolling year
L8001	4 per rolling year, per modifier Modifier LT or RT required.
L8002	4 per rolling year
L8010	8 per rolling year
L8015	2 per rolling year
L8020	1 per 6 rolling months
L8030	1 per 2 rolling years
L8031	1 per 2 rolling years
L8032	8 per rolling year, same procedure, any provider
L8035	Requires prior authorization
L8039	Requires prior authorization

Referto: Section 31.2.39, "Diagnostic and Surgical/Reconstructive Breast Therapies" in Chapter 31, "Physician" for information about mastectomy procedures and related services.

17.3.3.1 Breast Prosthesis Prior Authorization Requirements

Prior authorization is required for the following:

- Medically necessary prostheses beyond set limitations outlined in the table above.
- Procedure codes L8035 and L8039.

Prior authorization must be requested using the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#).

17.3.3.1.1 Prior Authorization for Medically Necessary Protheses Beyond Set Limitations

Medically necessary protheses beyond set limitations may be prior authorized if any of the following is met for procedure codes L8000, L8001, L8002, L8010, L8015, L8020, L8030, L8031, and L8032:

- Loss or irreparable damage. If the external breast prosthesis is lost or irreparably damaged, prior authorization for a replacement of the same type may be considered for coverage at any time.
- Change in the client’s condition. If a different external breast prosthesis is needed due to a change in the client’s medical condition, prior authorization for prosthesis of a different type will be considered for coverage at any time.

17.3.3.1.2 Prior Authorization for Procedure Codes L8035 and L8039

Prior authorization requests for external breast prosthesis procedure codes L8035 or L8039 must include documentation of medical necessity for the requested device.

The prior authorization request for procedure codes L8035 and L8039 must include the following information:

- The client’s diagnosis
- Prior treatment for the diagnosis
- Medical necessity of the requested prosthesis
- A clear, concise description of the prosthesis requested

The prior authorization request for procedure code L8039 must also include the following information:

- Reason for recommending this particular prosthesis
- A procedure code that is comparable to the prosthesis requested
- Documentation that indicates this prosthesis is not investigational or experimental
- The setting in which the service is to be rendered
- The physician’s intended fee for this prosthesis

The physician must maintain documentation of medical necessity in the client’s medical record. Services are subject to retrospective review.

17.3.4 Burn Care Garments

The CSHCN Services Program may reimburse providers for burn care products. The burn must be second or third degree with hypertrophic scarring, and the garment must be specific to the location of the burn. Burn care management garments may also be considered for reimbursement for other conditions (e.g., large hemangiomas or lymphangiomas), with documentation from the physician regarding medical necessity. Providers must use the following procedure codes when submitting claims for burn care services:

Procedure Codes				
A6501	A6502	A6503	A6504	A6505
A6506	A6507	A6508	A6509	A6510
A6511	A6512			

17.3.5 Cochlear Implant Device

Referto: Chapter 20, "Hearing Services" for more information about cochlear implant benefits and limitations.

17.3.6 Continuous Passive Motion (CPM) Device

A CPM may be authorized for rental only for no more than a 2-week period after knee surgery. Recertification for additional services may be considered with documentation of medical necessity.

17.3.7 Enuresis Alarms

Enuresis alarms used for the treatment of primary nocturnal enuresis may be considered for purchase using procedure code S8270 with documentation of medical necessity.

17.3.7.1 Prior Authorization Requirements

The CSHCN Services Program may consider prior authorization for a once in a lifetime purchase of an enuresis alarm if the client meets all of the following criteria:

- Is 5 to 20 years of age
- Has experienced bedwetting a minimum of three nights a week in the previous month or at least one bedwetting episode weekly for 1 year
- Has no daytime bedwetting
- Has been examined by a physician, and physical or organic causes for nocturnal enuresis (e.g., renal disease, neurological disease, infection, etc.) have been ruled out

17.3.8 Gait Trainers (Supported or Sling Walkers)

Gait trainers may be noncustom DME, or they may be custom DME if they are in any way customized to the individual client's needs.

The gait trainer should be needed at home as well as school or the therapy clinic. The CSHCN Services Program does not cover equipment for use solely in schools or clinics.

17.3.8.1 Authorization Requirements

The following documentation must be included with an authorization request for gait trainers:

- Client's condition, functional level, height, and weight
- Whether the client is expected to be ambulatory, and if so, when
- The time, frequency, and location where the gait trainer is used
- The length of time the gait trainer is expected to be needed (should be a minimum of 6 months)
- The plan for training the school and home caregivers in the correct and safe use of the equipment

17.3.9 Hospital Beds (Manual and Electric)

The rental or purchase of the following beds and cribs may be reimbursed:

- Manual or an electric hospital bed with or without a mattress
- Hospital crib
- Enclosed bed
- Accessories (e.g., safety enclosure frame or canopy)

A rental may be approved if the need is short-term (e.g., postsurgery or life expectancy of 6 months or less as certified by the prescribing physician). The anticipated total rental cost must be less than the purchase price.

A purchase may be approved for the long-term care of clients whose conditions have progressed to the point that they are severely neurologically or orthopedically limited, etc.

17.3.9.1 Authorization and Prior Authorization Requirements

To request authorization for manual or electric hospital beds, the provider must submit documentation of medical necessity and a completed [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#).

The following documentation must be included with the request for authorization or with the first claim:

- Client’s diagnosis
- Client’s age
- Client’s height and weight
- Limitations of the caregiver
- Explanation addressing why a standard bed or crib will not meet the client’s needs

Electric hospital beds may be considered for prior authorization as a purchase (long-term use) or as a rental (short-term use) if any of the following conditions exist:

- Client is able to assist with his or her personal care and can physically operate the controls
- Caregiver is physically limited and cannot crank a manual bed
- Caregiver needs to be able to adjust the bed quickly to assist with the client’s personal care

All requests for the purchase of an electric hospital bed with or without a mattress require medical review.

The following procedure codes may be used to request authorization and to submit claims for reimbursement of rental or purchase of equipment:

Procedure Codes				
E0250	E0251*	E0255	E0256*	E0260
E0261*	E0265	E0266*	E0271*	E0272*
E0277	E0290*	E0303	E0304	E0305
E0310	E0315*			
*For purchase only.				

The purchase of a hospital bed without a mattress may be considered for reimbursement only if a custom mattress or bed positioning system is also authorized due to medical necessity.

17.3.9.2 Pressure Reducing Pads

Pressure-reducing pads for beds may be a benefit of the CSHCN Services Program.

Most pressure-reducing pads do not require prior authorization up to the approved limitations.

The following pressure-reducing pads procedure codes require prior authorization and the provider must submit with documentation of medical necessity and appropriateness:

Procedure Codes				
E0184	E0185	E0186	E0371	E0372
E0373				

To request authorization for pressure-reducing pads, the provider must submit documentation of medical necessity and a completed [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#).

Pressure relief beds are not benefits of the CSHCN Services Program.

17.3.9.3 Positional Pillows and Cushions

Procedure code E0190 must be billed with modifier UD for the purchase of reflex wedges and positional devices (positional pillows and cushions).

17.3.9.4 Hospital Cribs and Enclosed Beds

Hospital cribs and enclosed beds must be prior authorized. Hospital cribs or enclosed beds are considered custom equipment.

17.3.9.4.1 Prior Authorization Requirements

Documentation supporting medical necessity must be submitted with the prior authorization request form. Prior authorization is not granted when the documentation indicates strictly a behavioral control need. A diagnosis alone without documentation of medical necessity and functional skills is insufficient information to approve a hospital crib or enclosed bed. Documentation must include all of the following:

- Client's diagnosis, medical needs, developmental level, and functional skills
- Age, length or height, and weight of client
- Description of any other less-restrictive devices that have been used, the length of time used, and why they were ineffective
- Description of why a regular child's crib, regular bed, or standard hospital bed cannot be used
- Name of manufacturer and the manufacturer's suggested retail price (MSRP)

Accessories may include safety enclosure frame or canopy. The protective crib top may also be prior authorized based on the criteria previously listed.

Providers must use procedure codes E0300, E0328, and E0329 to bill for hospital cribs. Providers must use procedure code E0316 when requesting a safety enclosure or canopy for a hospital bed or crib. Requests must be made to the CSHCN Services Program using the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#).

17.3.10 Hygiene Equipment

Hygiene equipment may be noncustom DME, or may be custom DME if it is in any way customized to the individual client's needs.

Hygiene equipment should be rented if the need is for short-term use and if renting is more cost-effective. The anticipated total rental cost must be less than the purchased price. Documentation of the client's anticipated independence with the equipment is required for rental and purchase. Additionally, equipment may be authorized for clients who are nonambulatory in order to assist the parents and enhance safety in the care of clients with spina bifida, cerebral palsy, and other paralytic conditions.

The following hygiene equipment may be authorized:

- Tub rails (not wall mounted or permanently attached)
- Manual or hydraulic bathtub lifts
- Commodes or potty chairs
- Commode chair with integrated seat lift
- Commode seat lift mechanism
- Hygiene adaptations (e.g., raised toilet seats)
- Patient lifts

- Bath seats or chairs

Note: Bath seats may be covered for clients when the medical condition indicates the need for support when bathing. Bath chairs will not be purchased for clients who are younger than 1 year of age or who weigh less than 30 pounds.

17.3.10.1 Bath or Shower Chair

A bath or shower chair (procedure code E0240), bathtub stool or bench, or bathtub transfer bench may be considered for those clients who cannot safely utilize a regular bath tub or shower.

A bath or shower chair may be prior authorized for clients who meet the Level 1, 2, or 3 criteria.

A Level 3 custom bath or shower chair may be prior authorized only if the client does not also have any type of commode chair. The client must have a shower that is adapted for rolling equipment. Ramps will not be prior authorized for access to showers.

A custom bath or shower chair may be considered for prior authorization only if the client does not also have any type of commode chair.

17.3.10.1.1 Levels of Design

- A **level 1 device** may be considered if the client:
 - Is either unable to stand independently or is unstable while standing, or
 - Is unable to independently enter or exit the shower or bathtub due to limited functional use of the upper or lower extremities, and
 - Maintains the ability to ambulate short distances (with or without) assistive device), or
 - Has a condition that is defined as a short-term disability without a concomitant long-term disability (including, but not limited to postoperative status).
- A **level 2 device** may be considered if the client:
 - Has good upper body stability, and
 - Has impaired functional ambulation, including, but not limited to lower body paralysis, osteoarthritis, or
 - Is nonambulatory
 - The client must have a shower that is adapted for rolling equipment; access ramps for showers will not be considered for prior authorization.
- A **level 3 device** may be considered if the client requires:
 - Trunk and/or head or neck support, or
 - Positioning to accommodate conditions, including, but not limited to spasticity, or frequent/uncontrolled seizures.

A tub stool or bench may be considered for prior authorization for clients who meet the Level 1 criteria.

A tub transfer bench may be considered for prior authorization for clients who meet the Level 1 or 2 criteria.

A heavy-duty tub transfer bench may be considered for prior authorization for clients who meet the Level 1 or 2 criteria and who weigh more than 200 pounds.

The purchase of a bath or shower chair is limited to one every five years.

Providers may be reimbursed for procedure code E0240 using the following modifiers:

Level	Modifier
Level 1	No modifier
Level 2	TF
Level 3	TG

17.3.10.2 Authorization Requirements

Noncustom hygiene equipment must be authorized. The following documentation should be included with the authorization request for any custom and noncustom hygiene equipment:

- Client's condition, height, weight, age, and functional level
- Anticipated length of time the client will need the equipment
- Description of postural condition of the child including tone, head control, trunk control, upper extremity, and lower extremity
- Transfer status

Note: Custom hygiene equipment must be prior authorized.

17.3.10.3 Adaptive Feeder Seats

Adaptive feeder seats may be authorized for any condition resulting in postural insecurity, including cerebral palsy and spina bifida. Documentation of medical necessity must be submitted with the claim.

17.3.10.4 Commode Chair

The following limitations apply to commode chair and accessory procedure codes:

Procedure Code	Limitation
E0163	1 per 3 years
E0163-TG	1 per 3 years
E0165	1 per 3 years
E0165-TG	1 per 3 years
E0167	1 per 3 years
E0168	1 per 3 years
E0168-TF	1 per 3 years
E0168-TG	1 per 3 years
E0170	1 per 3 years
E0171	1 per 3 years
E0172	1 per 3 years
E0175	1 per 3 years

17.3.10.4.1 Prior Authorization Requirements for Level 1: Stationary Commode Chair

A stationary commode chair with fixed or removable arms may be considered for prior authorization when the client has a medical condition that results in an inability to ambulate to the bathroom safely (with or without mobility aids).

For stationary commode chairs to be considered for reimbursement, providers should use commode chair procedure codes without a modifier.

17.3.10.4.2 Prior Authorization Requirements for Level 2: Mobile Commode Chair

A mobile commode chair with fixed or removable arms may be considered for prior authorization when the following criteria are met:

- Client meets the criteria for a Level 1 commode chair
- Client is on a bowel program and requires a combination commode and bath chair for performing the bowel program and then bathing
- Client does not have any type of bath chair

For mobile commode chairs to be considered for reimbursement, providers should use commode chair procedure codes with modifier TF.

17.3.10.4.3 Prior Authorization Requirements for Level 3: Custom Commode Chair

A custom stationary or mobile commode chair with fixed or removable arms and head, neck, and/or trunk support attachments may be considered for prior authorization when the following criteria are met:

- Client meets the criteria for a Level 1 or 2 commode chair
- Client has a medical condition that results in an inability to support their head, neck, and/or trunk without assistance
- Client does not have any type of bath chair

For custom stationary commode chairs to be considered for reimbursement, providers should use commode chair procedure codes with modifier TG.

17.3.10.4.4 Authorization Requirements for Extra-wide and Heavy-Duty Commode Chair

An extra-wide/heavy-duty commode chair is defined as one with a width greater than or equal to 23 inches and capable of supporting a patient who weighs 300 pounds or more. The client must meet the criteria for a Level 1, 2, or 3 commode chair and weigh 300 pounds or more.

Providers should use a heavy-duty commode chair procedure code with modifier TF or TG for an extra-wide or heavy-duty commode chair. Modifier TF should be used for a mobile extra-wide heavy-duty commode chair. Modifier TG should be used for a custom extra-wide heavy-duty commode chair.

17.3.10.4.5 Authorization Requirements for Foot Rest

A foot rest is used to support the feet during use of the commode chair and may be considered for prior authorization when the client meets the criteria for a Level 1, 2, or 3 commode chair, and the foot rest is necessary to support contractures of the lower extremities for a client who is paraplegic or quadriplegic.

17.3.10.4.6 Authorization Requirements for Replacement Commode Pail or Pan

Replacement commode pails or pans may be prior authorized once per year. With documentation of medical necessity, additional quantities may be considered for prior authorization.

17.3.10.5 Commode Chair with Integrated Seat Lifts

A commode chair with an integrated seat lift mechanism for the top of the commode (procedure codes E0170 and E0171) must be prior authorized for clients who meet all of the following criteria:

- The client must have severe arthritis of the hip or knee or have a severe neuromuscular disease.
- The commode chair with integrated seat lift must be a part of the physician's course of treatment and be prescribed to correct or ameliorate the client's condition.
- Once standing, the client must have the ability to ambulate.
- The client must be completely incapable of standing up from a regular armchair or any chair in their home.

The fact that a client has difficulty or is even incapable of getting up from a chair, particularly a low chair, is not sufficient justification for a seat lift mechanism. Almost all clients who are capable of ambulating can get out of an ordinary chair if the seat height is appropriate and the chair has arms.

The submitted documentation must include an assessment completed by a physician, physical or occupational therapist that includes:

- A description of the client's current level of function without the device.
- An explanation for why a nonmechanical commode elevation device, such as commode rails or elevated commode seat, will not meet the client's needs.
- Documentation identifying how the commode seat lift will improve the client's function.
- What mobility-related activities of daily living (MRADLs) the client will be able to perform with the commode chair with integrated seat lift that he or she is unable to perform without the commode seat lift and how this will increase independence.
- The client's goals for use of the commode chair with integrated seat lifts.

A commode chair with an integrated seat lift mechanism option will not be authorized for the convenience of a caregiver, or if the device will not allow the client to become independent with MRADLs.

Documentation confirming that all appropriate therapeutic modalities, such as medication and physical therapy, have been tried but have failed to enable the client to transfer from a chair to a standing position must be kept in the client's medical record.

Prior authorization will be given for only mechanical or powered commode assist devices, not both. If a client already owns one or more mechanical commode assist devices, a powered commode seat lift will not be prior authorized unless there has been a documented change in the client's condition such that the client can no longer use the mechanical equipment.

A seat lift mechanism is limited to those types which operate smoothly, can be controlled by the client, and effectively assist a patient in standing up and sitting down without other assistance. A commode seat lift operated by a spring release mechanism with a sudden, catapult-like motion and jolts the client from a seated to a standing position is not a benefit of the CSHCN Services Program.

17.3.10.6 Commode Seat Lift Mechanism

A commode seat lift mechanism for the top of the commode (procedure code E0172) must be prior authorized for clients who meet all of the following criteria:

- The client must have severe arthritis of the hip or knee or have a severe neuromuscular disease.
- The seat lift mechanism must be a part of the physician's course of treatment and be prescribed to correct or ameliorate the client's condition.
- Once standing, the client must have the ability to ambulate.
- The client must be completely incapable of standing up from a regular armchair or any chair in their home.

The fact that a client has difficulty or is even incapable of getting up from a chair, particularly a low chair, is not sufficient justification for a seat lift mechanism. Almost all clients who are capable of ambulating can get out of an ordinary chair if the seat height is appropriate and the chair has arms.

The submitted documentation must include an assessment completed by a physician, physical or occupational therapist that includes:

- A description of the client's current level of function without the device.
- An explanation for why a nonmechanical commode elevation device, such as commode rails or elevated commode seat, will not meet the client's needs.

- Documentation identifying how the commode seat lift mechanism will improve the clients function.
- What MRADLs the client will be able to perform with the commode seat lift mechanism that he or she is unable to perform without the seat lift mechanism and how this will increase independence.
- The client's goals for use of the commode seat lift mechanism.

A commode seat lift mechanism option will not be authorized for the convenience of a caregiver, or if the device will not allow the client to become independent with MRADLs.

Documentation confirming that all appropriate therapeutic modalities, such as medication and physical therapy, have been tried but have failed to enable the client to transfer from a chair to a standing position must be kept in the client's medical record.

Prior authorization will be given for only mechanical or powered commode assist devices, not both. If a client already owns one or more mechanical toilet assist devices, a seat lift mechanism will not be prior authorized unless there has been a documented change in the client's condition such that the client can no longer use the mechanical equipment.

Seat lift mechanisms are limited to those types which operate smoothly, can be controlled by the client, and effectively assist a patient in standing up and sitting down without other assistance. A seat lift mechanism operated by a spring release mechanism with a sudden, catapult-like motion and jolts the client from a seated to a standing position is not a benefit of the CSHCN Services Program.

17.3.11 Infusion Pumps

The CSHCN Services Program may reimburse providers for an external ambulatory infusion pump, when it is prescribed by a physician and authorized by the program. Requests must be submitted to the CSHCN Services Program using the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#).

17.3.12 Portable Paraffin Units

Portable paraffin units (procedure code E0235) may be authorized for clients with juvenile rheumatoid arthritis or similar conditions resulting in decreased range of motion and joint pain. Documentation of a home program developed and monitored by an OT or PT or the client's physician must be submitted with the authorization request. Only one portable paraffin unit may be authorized in a 3-year period without documentation of medical necessity for the second unit.

17.3.13 Seat Lift Mechanism

A medically necessary seat lift mechanism is one that operates smoothly, can be controlled by the client, and effectively assist the client in standing up and sitting down without other assistance.

A seat lift mechanism (procedure codes E0627 and E0629) may be prior authorized for clients who meet all of the following criteria:

- The client must have severe arthritis of the hip or knee or have a severe neuromuscular disease.
- The seat lift mechanism must be a part of the physician's course of treatment and be prescribed to correct or ameliorate the client's condition.
- Once standing, the client must have the ability to ambulate.
- The client must be completely incapable of standing up from a regular armchair or any chair in their home.

The fact that a client has difficulty or is even incapable of getting up from a chair, particularly a low chair, is not sufficient justification for a seat lift mechanism. Almost all clients who are capable of ambulating can get out of an ordinary chair if the seat height is appropriate and the chair has arms.

The submitted documentation must include an assessment completed by a physician, physical or occupational therapist that includes:

- A description of the client's current level of function without the device.
- The duration of time the client is alone during the day without assistance.
- Documentation identifying how the seat lift mechanism will improve the client's function.
- What MRADLs the client will be able to perform with the seat lift mechanism that he or she is unable to perform without the seat lift mechanism and how this will increase independence.
- The client's goals for use of the seat lift mechanism.

A seat lift mechanism option will not be authorized for the convenience of a caregiver, or if the device will not allow the client to become independent with MRADLs.

Documentation confirming that all appropriate therapeutic modalities, such as medication and physical therapy, have been tried but have failed to enable the client to transfer from a chair to a standing position must be kept in the client's medical record.

Seat lift mechanisms are limited to those types that operate smoothly, can be controlled by the client, and effectively assist a client in standing up and sitting down without other assistance. A seat lift mechanism operated by a spring release mechanism with a sudden, catapult-like motion and jolts the client from a seated to a standing position is not a benefit of the CSHCN Services Program.

17.3.14 Special Needs Car Seats and Travel Restraints

The CSHCN Services Program may reimburse providers for special needs car seats and travel restraints when they are medically necessary and appropriate. Services and equipment must be authorized and must be provided by a trained provider who is certified in car seat installation.

The CSHCN Services Program reimburses providers for special-needs car seats and travel restraints using the same methodology as custom manual rehabilitative equipment.

17.3.14.1 Car Seats

All children must be transported as safely as possible. Children with breathing disorders, casts, neuromuscular deficits, or other health-care needs may need to use special needs car seats or travel restraints.

Providers supplying special-needs car seats must be CSHCN Services Program custom DME providers and must have received approved training from the manufacturer of the product requested. The comprehensive training must include correct use of car seats for children with special needs, and the proper installation of top tethers. Providers must demonstrate proficiency in the installation of the top tethers during this training. Installation of the top tether is essential for proper use of the car seat and is included in the reimbursement of the car seat.

Providers must keep a statement on record that is signed and dated by the child's parent or guardian and the provider stating:

- A manufacturer-trained provider has installed the top tether in the automobile in which the child will be transported.
- A manufacturer-trained provider has trained the client's parent(s) or guardian(s) in the correct use of the car seat.
- The client's parent(s) or guardian(s) has demonstrated the correct use of the car seat to a manufacturer-trained provider.

17.3.14.1.1 Prior Authorization Requirement for Car Seats

Requests for authorization of special-needs car seats must be submitted for medical review using procedure code E1399 (rental or purchase) and must include the following written documentation:

- Providers must include the child's weight and height (if the child weighs 40 pounds or is more than 40 inches in height, the actual height and weight must be provided).
- Providers must include a description of the child's postural condition, specifically including head and trunk control.
- Providers must include the child's expected long-term need for the car seat.
- A photocopy of the training certification of the individual installing the car seat must accompany each request for authorization to be considered for reimbursement by the CSHCN Services Program. Authorizations are not given to a provider until training is completed and the CSHCN Services Program claims contractor receives a copy of the training certificate.
- Providers must include the name of the individual installing the car seat on the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) form](#) or providers must include documentation with the form indicating that the top tether was factory installed by the vehicle's manufacturer before vehicle purchase.
- Installation of the top tether is essential for proper use of the car seat and is included in reimbursement for the car seat. Providers may not bill the CSHCN Services Program for the installation of the top tether.
- Providers must keep a statement on record that is signed and dated by the child's parent or guardian and the provider stating that a top tether was installed by a manufacturer-trained provider in the automobile used to transport the child; parent training in the correct use of the car seat was provided by a manufacturer-trained provider; and the parent demonstrated the correct use of the car seat to a manufacturer-trained provider.

The manufacturer's weight limitation should be carefully considered when fitting the child for a car seat and should allow for at least 12 months of anticipated growth.

The CSHCN Services Program considers replacement after 7 years (normal useful life) or if a car is involved in an accident. (Some manufacturers may replace car seats at no cost following an accident, if a police report from the accident is provided.)

Car seat accessories for correct positioning, available from the manufacturers, may be authorized when medically necessary. Only car seat modifications and accessories that have been crash-tested with the car seat and provided by the manufacturer of the car seat may be authorized.

17.3.14.2 Travel Restraints

The CSHCN Services Program may reimburse providers for travel restraints used in a family vehicle to restrain a child whose medical condition requires him or her to be transported in a supine position.

Requests for authorization of a travel restraint must document the medical necessity of transporting the child in a supine position.

Procedure code E0700 may be used to submit claims for travel restraints.

17.3.15 Standers, Prone or Supine

Prone or supine standers (procedure codes E0638, E0641, and E0642) may be considered for reimbursement when prescribed by a practitioner licensed to do so for clients with diagnoses such as cerebral palsy, spina bifida, paraplegia, or other conditions resulting in paralysis of both lower extremities. The medical condition must indicate the need for a standing program that must specifically be provided in the home environment. As many clients receive standing programs at school, the home standing program should coordinate with the school plan.

Standers provided by the CSHCN Services Program are for use *only* in the client's home environment. Schools and therapy providers must provide their own equipment for standing programs in settings outside the client's home. The equipment provided for home use does *not* need to be identical to the

equipment used in the school setting because they have to accommodate a variety of changing postural issues, and they require more heavy-duty equipment due to increased use and wear and tear on the equipment. DME providers supplying standers must be enrolled in the CSHCN Services Program as custom DME providers.

17.3.15.1 Authorization Requirements

The following documentation must be included with an authorization request:

- Client's condition, functional level, height, and weight
- Frequency and amount of time of client's standing program (e.g., 45 minutes, three times daily)
- The anticipated medical benefits expected from the stander
- Name of the therapist coordinating school and home standing programs or monitoring the home standing program
- Plan for training the school and home caregivers in the correct and safe use of the equipment

17.3.16 TENS Units

When prescribed by a physician or other provider authorized to do so, a TENS unit may be authorized for rental or purchase for the management of pain. Medical review is required. Reimbursement is at Medicare-allowable rates. Replacement electrodes may be authorized as a supply item if a TENS unit was previously purchased by the CSHCN Services Program.

Documentation of a home program developed and monitored by an OT or PT or the client's physician must be submitted with the authorization request. No more than one TENS unit may be authorized in a 2-year period without documentation of medical necessity for the second unit.

Referto: Chapter 27, "Neurostimulators and Neuromuscular Stimulators."

17.3.17 Transfer Boards

Transfer boards (procedure code E0705) may be approved for any covered condition that results in paralysis or significant weakness of both lower extremities. This item *cannot* be considered for rental. Documentation of medical necessity must be submitted with the claim.

17.3.18 Travel Chairs

Travel chairs may be noncustom DME, or they may be custom DME if they are in any way customized to the individual client's needs. Travel chairs are generally lighter in weight than noncustom manual wheelchairs and are designed to be pushed with ease by attendants or caretakers rather than being self-propelled. Travel chairs have little flexibility for customization.

17.3.18.1 Prior Authorization Requirements

Travel chairs may be prior authorized using the same guidelines as manual wheelchair prior authorizations for clients who are unable to self-propel a manual wheelchair and who are not appropriate for a power wheelchair due to cognitive issues, inaccessibility of the home, types of diagnoses, or levels of physical function.

17.3.19 Wheelchairs

The CSHCN Services Program may authorize a standard manual wheelchair. All other wheelchair requests for custom manual or power wheelchair, seating system, or modification of a wheelchair must be prior authorized. The CSHCN Services Program does not reimburse providers for wheelchairs for children who are residents of nursing facilities or intermediate care facilities for individuals with intellectual disabilities (ICF/IID). Providing wheelchairs for these children is the responsibility of the facility licensed to care for them.

17.3.19.1 Wheelchair Authorization Requirements

Written requests for prior authorization and authorization of all wheelchairs must include the following two forms:

- [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form.](#)

Note: The physician's signature is only required on page 1 of the form in the Statement of Medical Necessity section. Providers must submit page 1 of the form to TMHP. Pages 2 through 5 are only required for certain DME requests. Refer to the text under the form title to determine which of these pages must be submitted in addition to page 1.

- [CSHCN Services Program Wheelchair Seating Evaluation Form.](#)

A PT or an OT who is not employed by the DME provider must complete the evaluation and the CSHCN Services Program Wheelchair Seating Evaluation Form.

Authorization for wheelchair modifications or repairs for an existing seating system also require the wheelchair seating evaluation.

CSHCN Services Program-approved custom DME providers are required to submit these assessments with their requests for the wheelchairs. Therapists must use the [CSHCN Services Program Wheelchair Seating Evaluation Form](#).

The initial purchase of all manual wheelchairs and wheeled mobility systems must include the wheelchair base or frame, and the following standard components, which will not be prior authorized separately:

- Complete set of standard propulsion and caster wheels, including all of the following:
 - Propulsion or caster tires of any size, made of solid rubber or plastic
 - Standard hand rims
 - Complete wheel lock assembly
 - Bearings
- Standard footrest assembly (fixed, detachable, or swing away), including standard footplates, calf rests/pads, and ratchet assembly
- Standard armrests (fixed non-adjustable or detachable non-adjustable), including standard foam or plastic arm pads
- Standard seat and back upholstery

Medically necessary non-standard components may be considered for prior authorization with documentation of medical necessity for the requested component. Such components include, but are not limited to, the following:

- Flat-free inserts
- Foam filled propulsion or caster tires
- Pneumatic propulsion or caster tires
- Non-standard hand rims (including ergonomic and contoured)
- Non-standard length footrests
- Custom footrests
- Elevating footrests
- Angle adjustable footplates

- Adjustable height fixed armrests
- Adjustable height detachable armrests
- Custom size arm pads
- Gel arm pads
- Arm troughs
- Elevating leg rests

Each power motorized device must include all of the following basic components that may not be prior authorized separately:

- Lap belt or safety belt (This does not include multiple-attachment-point positioning belts or padded belts.)
- Battery charger, single mode
- Batteries (initial)
- Complete set of tires and casters, any type
- Leg rests
- Foot rests or foot platform
- Arm rests
- Any weight-specific components (braces, bars, upholstery, brackets, motors, gears, etc.) as required by client weight capacity
- Controller and input device

Wheelchairs, components, and accessories must be billed using the most appropriate procedure code that describes the item.

17.3.19.2 Manual Wheelchairs

Manual wheelchairs may be noncustom DME, or they may be custom DME if they are modified or in any way customized to the individual client's needs.

The CSHCN Services Program may reimburse providers for a manual wheelchair when the equipment is medically necessary. The physician or therapist is responsible for maintaining documentation indicating nonfunctional ambulation, situations where ambulation is contraindicated, or when ambulation is not adequate for independently accessing the community. Conditions that may debilitate a client to the point that ambulation would be detrimental to the client's health (e.g., cancer, cystic fibrosis, cardiac conditions, etc.) may also be considered.

Eligible clients may receive a manual wheelchair in addition to a power wheelchair or travel chair. The manual chair is purchased as a backup; therefore, cost and accessories should be minimal. Aside from having a manual wheelchair backup for a power wheelchair, the CSHCN Services Program does not authorize purchase of more than one form of mobility equipment per eligible client.

No more than one manual wheelchair may be authorized in a 3-year period without documentation of medical necessity for a second or replacement wheelchair. If the wheelchair is stolen or damaged in an accident before it is scheduled to be replaced, a police report must be submitted with the authorization request form to justify replacing it.

Rental must be considered for short-term needs when the total rental cost is expected to be less than the purchase price. If public funds were used to pay for a wheelchair within the last 3 years, specific justification is required to prior authorize a new chair.

If an immediate need for a wheelchair is indicated in the [CSHCN Services Program Wheelchair Seating Evaluation Form](#) and the CSHCN Services Program has approved a wheelchair, DME providers are required to provide a loaner wheelchair free of charge until the approved equipment is delivered to the client.

17.3.19.3 Custom Manual Wheelchairs

When any custom wheelchair or seating system is requested, the CSHCN Services Program requires an assessment utilizing the CSHCN Services Program Wheelchair Seating Evaluation Form to be submitted by a PT or OT not employed by a DME provider. Assessments are also required when an existing seating system is being modified. CSHCN Services Program-approved custom DME providers are required to submit these forms with their requests for prior authorization.

Requests for customized manual wheelchairs must include a complete description of the specific base, any attached seating system components, and any attached accessories not included in the base price. Requests must also include the MSRPs for the individual components, including justification for components that would be considered part of the wheelchair. The CSHCN Services Program requires that the manufacturers' price sheets be submitted along with price quotes at the time of submission for authorization. If a price change occurs after the authorization has been granted, the provider must submit new price sheets with the claim to document the price changes so that the price discrepancy between the authorization and the claim can be manually reviewed.

17.3.19.4 Power Wheelchairs

Model-specific power wheelchairs, including three-wheelers and scooters, must be prior authorized. Eligible children may receive, or already have, a manual wheelchair or travel chair in addition to the power wheelchair. No more than one electric wheelchair may be authorized in a 5-year period without documentation of medical necessity for a second or replacement wheelchair. If public funds were used for payment of a power wheelchair within the last 5 years, medical justification is required to give authorization for a new power wheelchair. If the wheelchair is stolen or damaged in an accident before it is scheduled to be replaced, a police report must be submitted with the authorization request form to justify replacing the equipment.

Requests for customized power wheelchairs must include a complete description of the specific base, any attached seating system components, and any attached accessories not included in the base price. Requests must also include the MSRPs for the individual components, including justification for components that would be considered part of the wheelchair. The CSHCN Services Program requires that the manufacturers' price sheets be submitted along with price quotes at the time of submission for authorization. If a price change occurs after the authorization has been granted, the provider must submit new price sheets with the claim to document the price changes so that the price discrepancy between the authorization and the claim can be manually reviewed.

17.3.19.5 Approval Criteria for Power Wheelchairs

Written requests for prior authorization of power wheelchairs should be submitted on a [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#). A CSHCN Services Program Wheelchair Seating Evaluation Form completed by an OT or PT not employed by the DME provider requesting the equipment modification must be submitted with the authorization request.

***Note:** The physician's signature is only required on page 1 of the form in the Statement of Medical Necessity section. Providers must submit page 1 of the form to TMHP. Pages 2 through 5 are only required for certain DME requests. Refer to the text under the form title to determine which of these pages must be submitted in addition to page 1.*

17.3.19.5.1 Age

Power wheelchairs can be approved for clients who are 18 months to 21 years of age (the normally developing child begins to walk and explore between 18 months to 2 years of age). The CSHCN Services Program supports providing power wheelchairs to match normal developmental milestones.

17.3.19.5.2 Level of Physical Function

The child must have control of some body part to operate a power wheelchair. The child's level of function must be defined by one of the following:

- The child is unable to self-propel a manual wheelchair, even if adapted
- Self-propulsion is possible, but activity is extremely labored leaving the child exhausted at the necessary destination, such as classroom or school bathroom
- Self-propulsion is possible, but contrary to treatment regimen. Examples include joint protection, energy conservation, and preservation of cardiovascular or respiratory function

17.3.19.5.3 Cognitive Level

The child must be able to receive and follow directions related to driving or controlling the wheelchair in a safe manner.

The client's level of judgment and impulse control must be such that the wheelchair will be used appropriately with minimal risk of either accidental or intentional injury to self or others.

17.3.19.5.4 Environmental Assessment

The therapist assessing the client is required to ask pertinent questions found on the [CSHCN Services Program Wheelchair Seating Evaluation Form](#) to ensure safe use and selection of the appropriate power wheelchair that will best serve the client.

17.3.19.6 Wheelchair Battery

A battery charger and initial batteries are included as part of the purchase price of a power wheelchair.

Replacement batteries and/or a replacement battery charger for a power wheelchair require prior authorization. The provider must submit the date of purchase and serial number of the client's currently owned wheelchair as well as the reason for the replacement batteries and/or the replacement battery charger. Documentation must include why the batteries and or battery charger no longer meets the client's needs.

17.3.19.7 Wheelchair Positioning Equipment

Wheelchair positioning equipment includes, but is not limited to, tilt-in-space options, solid backs and seats, abductors, cushions, and footrests. The equipment may be authorized based on the individual client's seating or positioning needs as detailed in the [CSHCN Services Program Wheelchair Seating Evaluation Form](#).

17.3.19.8 Wheelchair Power Elevating Leg Lifts

Power elevating leg lifts (procedure code E1010) may be prior authorized for clients who have compromised upper extremity function that limits the client's ability to use manual elevating leg rests. The client must meet criteria for a power wheelchair with a reclining back and one of the following:

- A musculoskeletal condition such as flexion contractures of the knees and legs or the placement of a cast or brace that prevents 90 degree flexion at the knee
- Significant edema of the lower extremities that requires having an elevating leg rest
- Hypotensive episodes that require frequent positioning changes
- Required to maintain anatomically correct positioning and reduce exposure to skin shear in clients needing power tilt and recline

The submitted documentation must include an assessment completed by a physician, physical, or occupational therapist that includes:

- A description of the client's current level of function without the device.
- Documentation identifying how the power elevating leg lifts will improve the client's function.
- What MRADLs the client will be able to perform with the power elevating leg lifts that he or she is unable to perform without the seat lift mechanism and how this will increase independence.
- The client's goals for use of the power elevating leg lifts.
- A power elevating leg lifts option will not be authorized for the convenience of a caregiver, or if the device will not allow the client to become independent with MRADLs.

17.3.19.9 Wheelchair Power Seat Elevation System

Use of a power seat elevation system will:

- Facilitate independent transfers, particularly uphill transfers, to and from the wheelchair with less upper arm strain.
- Augment the client's reach to facilitate independent performance of MRADLs in the home, school, or community.

A power seat elevation system may be prior authorized to promote independence in a client who meets both of these criteria:

- Does not have the ability to stand and pivot transfer independently.
- Has limited reach or range of motion in the shoulder or hand that prohibits independent performance of MRADLs, (such as bathing, dressing, feeding, grooming, hygiene, meal preparation, and toileting).

The submitted documentation must include an assessment completed by a physician, physical, or occupational therapist that includes:

- A description of the client's current level of function without the device.
- The duration of time the client is alone during the day without assistance.
- Documentation identifying how the seat lift will improve the client's function.
- What MRADLs the client will be able to perform with the seat lift that he or she is unable to perform without the commode seat lift and how this will increase independence.
- The client's goals for use of the power seat elevation system.

A power seat elevation system option will not be authorized for the convenience of a caregiver, or if the device will not allow the client to become independent with MRADLs and transfers.

17.3.20 Portable Wheelchair Ramps

Providers must submit documentation of medical necessity with the request for authorization form. The CSHCN Services Program may authorize and reimburse portable or threshold ramps only. A portable ramp is defined as a ramp that is not physically attached to the dwelling, that may be moved (disassembly may be required, such as in the case of a modular ramp), and that meets the standards as set by the *Americans with Disabilities Act*.

Portable wheelchair ramps that allow access to the client's home may be authorized if the need is documented. The CSHCN Services Program may approve requests for ramps to allow access to two entrances to the client's home. Once two accessible entrances are provided, the client or family is not

expected to require another ramp or a replacement ramp. Requests for a replacement ramp require medical review and documentation of need, including an explanation of what happened to the previous ramp.

The ramp is expected to go with the client if he or she changes residential locations. The CSHCN Services Program does *not* replace portable ramps due to a client's relocation. Ramps may need to be modified to fit a different dwelling if the client moves. The CSHCN Services Program considers the required modifications for reimbursement rather than the purchase of a replacement ramp.

17.3.21 Noncovered Rehabilitative and Therapeutic DME

Noncovered rehabilitative and therapeutic DME includes, but is not limited to:

- Adaptive furniture, bolsters, and wedges.
- Corner chairs and floor sitters.
- Creepers.
- Home modifications, including ramps (except portable ramps for wheelchairs).
- Hydrocollators.
- Parallel bars.
- Powered equipment, including ceiling or track lifts (except powered wheelchairs and electric beds).
- Pressure relief beds.
- Vehicle modifications.
- Vocational, educational, and recreational equipment, even when adapted.

Other miscellaneous DME may be authorized based on review of documentation of medical necessity. This documentation must be submitted with the authorization request form.

17.3.22 Repairs and Modifications

The term *repair* is used to describe replacing existing parts or accessories. The term *modification* is used to describe adding or changing parts or accessories. If the item was purchased by the program or through another source, and is a CSHCN Services Program-approved item (e.g., hospital bed, stander, or wheelchair), the item may be authorized. All manufacturers' warranties must be upheld. Providers must submit the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#) for repairs or modifications.

Powered equipment (electronics) may be repaired only by DME vendors who are authorized by the specific manufacturer to repair electronics.

Authorization requests for wheelchair repairs or modifications for an existing seat system must be submitted with an assessment and completed [CSHCN Services Program Wheelchair Seating Evaluation Form](#).

For repairs to be considered for reimbursement, repairing the equipment must be more cost-effective than purchasing a new piece of equipment. For the repairs to be authorized, the age of the current equipment must be considered, including the amount of time that remains before the equipment may be replaced (e.g., every 3 years for a manual wheelchair and every 5 years for a power wheelchair). Providers must use procedure code K0739 when requesting authorization and submitting a claim for reimbursement of repairs.

17.4 Documentation of Receipt

When the equipment is delivered, providers must complete the [CSHCN Services Program Documentation of Receipt form](#). The documentation of receipt form is required and must be completed before reimbursement can be made for any DME delivered to a client. The certification form must include the name of the item, the date the client received the DME, and the signatures of the provider and the client or primary caregiver.

The documentation of receipt form is available in both [English](#) and [Spanish](#).

Providers must retain individual delivery slips or invoices for each DOS that document the date of delivery for all supplies provided to a client and must disclose them to HHSC or its designee upon request. Documentation of delivery must include one of the following:

- Delivery slip or invoice signed and dated by client or caregiver. The delivery slip or invoice must contain the client's full name and address to which the supplies were delivered, the item description, and the numerical quantities that were delivered to the client.
- A dated carrier tracking document with shipping date and delivery date. The dated carrier tracking document must be attached to the delivery slip or invoice. The dated delivery slip or invoice must include an itemized list of goods that includes the descriptions and numerical quantities of the supplies delivered to the client. This document could also include prices, shipping weights, shipping charges, and any other description.

Providers must maintain a copy of this form in their files for the life of the piece of equipment or until the equipment is authorized for replacement.

The CSHCN Services Program does not reimburse providers separately for shipping and handling or freight charges, except when power equipment must be sent to a location other than to the vendor for repair.

17.5 Rental of Equipment

Rental of equipment includes all necessary accessories, supplies, adjustments, repairs, and replacement parts.

17.6 Claims Information

Modifier RR must be used for DME rental equipment, and modifier NU must be used for the purchase of new DME equipment. Home health DME providers must use the DM3 benefit code when submitting claims and authorization requests.

DME services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Note: *The CSHCN Services Program reimburses prior authorized custom DME even if the client is no longer eligible to receive services when the equipment is delivered. Claims must be submitted with a valid authorization number for the custom DME procedure code.*

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information on electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

The provider must submit the delivery date as the date of service along with the appropriate procedure codes when requesting authorization and when submitting claims.

The CSHCN Services Program requires that manufacturers' price sheets be submitted along with price quotes at the time of submission for authorization. If a price change occurs after authorization, the provider must submit new price sheets with the claim to document the price changes so the price discrepancy between the authorization and claim can be manually reviewed.

All claims and authorization requests submitted by CSHCN Services Program home health DME providers must be submitted with benefit code DM3.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

17.7 Reimbursement

Items or services addressed in this chapter are reimbursed by the lessor or one of the following:

- The provider's billed charges.
- A maximum fee determined by CSHCN.
- Manual pricing based on the retail price minus a discount as determined by CSHCN.

Note: *Manual pricing is based on the manufacturer's suggested retail price (MSRP) less 18 percent or average wholesale price (AWP) less 10.5 percent whichever is applicable or the provider's documented invoice cost. The MSRP, AWP, or the documented invoice cost must be submitted with the appropriate procedure code to be considered for reimbursement.*
- *Noncustomized.* The lessor of the billed amount or the maximum fee allowed by the CSHCN Services Program.
- *Customized, nonpowered equipment (e.g., manual wheelchairs).* The lower of the billed amount or the MSRP less 18 percent.
- *Power wheelchairs.* The lower of the billed amount or the MSRP less 18 percent.
- *Other.* When no MSRP is published, the lower of the billed amount or the dealer's cost plus 25 percent.
- *Delayed delivery penalty.* A claim submitted for customized DME delivered to the client more than 75 days after the authorization date shall be reduced by 10 percent.

- *Repairs and modifications.* Providers may be reimbursed for repairs and modifications at the MSRP of the part minus 18 percent, plus labor time for all equipment or wheelchairs including standard or custom and powered or nonpowered. Actual shipping costs may be reimbursed if the component is serviced at a regional center. Replacement versus repair costs must be considered.
- *Replacement batteries and/or replacement battery chargers.* Replacement batteries and/or replacement battery chargers may be considered for reimbursement if no longer under warranty. Batteries and battery chargers will not be considered for replacement within the first six months of delivery to the client. Batteries and battery chargers within the six months after delivery are considered part of the purchase price. A maximum of one hour of labor may be prior authorized to install new batteries. Labor will not be prior authorized for a new power wheelchair or for replacement battery chargers.
- *Battery disposal fees, taxes, and other associated DME charges.* The CSHCN Services Program does not reimburse providers separately for associated DME charges including, but not limited to, battery disposal fees or state taxes. Reimbursement for associated charges is included in the reimbursement for the specific piece of equipment.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

Important: *The provider must agree to accept the CSHCN Services Programs reimbursement as payment in full.*

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

17.8 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

18.1 Enrollment

To enroll in the CSHCN Services Program, providers of expendable medical supplies must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state expendable medical supplies providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border. Providers located more than 50 miles from the Texas border will be considered for approval by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

18.2 Benefits, Limitations, and Authorization Requirements

The CSHCN Services Program provides benefits for expendable medical supplies for eligible clients. An expendable medical supply is defined as an item necessary to carry out a medical procedure or to maintain the client’s health at home.

Expendable is defined as being intended for single or short-term use before being discarded. Most supplies are not reusable and will be discarded after use. Some supplies, including, but not limited to, straight catheters, may be cleaned and reused. Supplies are a benefit only for those clients residing at home.

Expendable medical supplies are limited to a quantity used by the typical client.

Prior authorization is required with documentation of medical necessity that supports additional quantities greater than maximum limitations listed in the tables below for a client with exceptional needs. The following tables provide listings of these supplies and limitation amounts.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about authorization requirements.

18.2.1 Incontinence Supplies

18.2.3 Examples of Covered Supplies

The following categories of medical supplies are a benefit of the CSHCN Services Program. This list is not all-inclusive:

- *Incontinence supplies*, including, but not limited to, diapers, briefs, pull-ups, liners, urinary catheters, gloves, lubricants, skin disinfectants, ostomy and catheterization supplies, pouches, wafers, cleaning solutions, catheters, and syringes.
- *Feeding supplies*, including, but not limited to, feeding bags for pumps, tubing, nasogastric tubes, syringes, nonobturated gastrostomy tubes, and low profile nonobturated gastrostomy devices (also known as gastrostomy button). Nonobturated gastrostomy tubes and nonobturated low profile gastrostomy devices are limited to two per year. (Enteral feeding pumps are considered durable medical equipment [DME].)
- *Wound care supplies*, including, but not limited to, dressings, tape, bandages, masks, eye patches, and ace wraps.
- *Diabetic care*, such as testing supplies and lancets. (Glucose monitors are considered DME.)
- *Miscellaneous supplies* used in the treatment of a medical condition.

Referto: Chapter 15, "Diabetic Equipment and Supplies" for more detailed information.

Chapter 17, "Durable Medical Equipment (DME)" for more detailed information.

Chapter 36, "Respiratory Equipment and Supplies" for more detailed information.

Articles of daily living are not a benefit of the CSHCN Services Program.

18.2.4 Diapers, Briefs, Pull-ups, and Liners

Diapers, briefs, pull-ups, or liners in any combination may be covered for clients who are 4 years of age and older who are incontinent as a direct result of a medical condition. Diapers, briefs, pull-ups, or liners do not require prior authorization up to a combined total of 240 items per month when the client has one of the diagnoses listed in the Appendix at the end of this chapter.

Referto: "Appendix A. Diagnosis Codes for Diapers, Briefs, Pull-Ups, and Liners" in this chapter.

Fax transmittal confirmations are not accepted as proof of timely prior authorization submissions.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

18.2.4.1 Gastrostomy Devices

The CSHCN Services Program may reimburse providers for nonobtured or obtured gastrostomy devices when prescribed by a physician.

18.2.4.1.1 Authorization Requirements

Two obtured gastrostomy devices per client, per rolling year, are a benefit only when provided by a physician. Documentation supporting medical necessity must be submitted with the claim for gastrostomy devices. Documentation supporting medical necessity includes but is not limited to the presence of a gastrostomy.

More than two obtured or nonobtured gastrostomy devices may be authorized if documentation supporting medical necessity is submitted with the claim. Documentation supporting medical necessity includes, but is not limited to, failure of device or infection at gastrostomy site.

The following procedure codes must be used to submit claims for gastrostomy devices:

Procedure Codes				
B4034	B4035	B4036	B4081	B4082
B4083	B4087	B4088		

Procedure code B4035 is limited to a maximum of 31 per month by any provider. Providers may not bill a quantity greater than the number of days in the month for which they are submitting a claim. Claims with a quantity greater than the number of days in that month may be subject to a recoupment.

Procedure codes B4087 and B4088 are limited to two per rolling year.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about authorization requirements.

[CSHCN Services Program Prior Authorization Request for Diapers, Pull-ups, Briefs, or Liners Form and Instructions.](#)

18.2.4.1.2 Nonobtured Gastrostomy Devices

Nonobtured gastrostomy kits may be reimbursed to physicians, pharmacies, medical suppliers, and home health DME providers. Two devices are considered for reimbursement per year, per client. Additional devices may be considered for reimbursement if the documentation submitted with the claim indicates medical necessity (e.g., failure of the device or infection at the gastrostomy site).

18.2.4.1.3 Obtured Gastrostomy Devices

Obtured gastrostomy devices may be reimbursed only to physicians. Two devices may be considered for reimbursement per year, per client.

Referto: Section 31.2.21, "Gastrostomy Devices" in Chapter 31, "Physician" for information related to gastrostomy tube devices.

18.3 Claims Information

Expendable medical supplies must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

Home health DME providers must use benefit code DM3 on all claims and authorization and prior authorization requests. All other providers must use benefit code CSN on all claims and authorization and prior authorization requests.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) [NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information on electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

18.4 Reimbursement

Expendable medical supplies may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid. Supplies may be reimbursed using the appropriate HCPCS codes. The CSHCN Services Program requires the provider to submit an itemized claim form for supplies for reimbursement.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

18.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

APPENDIX A. DIAGNOSIS CODES FOR DIAPERS, BRIEFS, PULL-UPS, AND LINERS

Diapers, briefs, pull-ups, or liners in any combination may be covered for clients who are 4 years of age and older who are incontinent as a direct result of a medical condition. Diapers, briefs, pull-ups, or liners do not require prior authorization up to a combined total of 240 items per month when the client has one of the diagnoses listed below.

Diagnosis Code	Description
B20	Human immunodeficiency virus [HIV] disease
B91	Sequelae of poliomyelitis
C641	Malignant neoplasm of right kidney, except renal pelvis
C642	Malignant neoplasm of left kidney, except renal pelvis
C651	Malignant neoplasm of right renal pelvis
C652	Malignant neoplasm of left renal pelvis
C661	Malignant neoplasm of right ureter
C662	Malignant neoplasm of left ureter
C670	Malignant neoplasm of trigone of bladder
C671	Malignant neoplasm of dome of bladder
C672	Malignant neoplasm of lateral wall of bladder
C673	Malignant neoplasm of anterior wall of bladder
C674	Malignant neoplasm of posterior wall of bladder
C675	Malignant neoplasm of bladder neck
C676	Malignant neoplasm of ureteric orifice
C677	Malignant neoplasm of urachus
C678	Malignant neoplasm of overlapping sites of bladder
C679	Malignant neoplasm of bladder, unspecified
C680	Malignant neoplasm of urethra
C681	Malignant neoplasm of paraurethral glands
C688	Malignant neoplasm of overlapping sites of urinary organs
C689	Malignant neoplasm of urinary organ, unspecified
C700	Malignant neoplasm of cerebral meninges
C701	Malignant neoplasm of spinal meninges
C710	Malignant neoplasm of cerebrum, except lobes and ventricles
C711	Malignant neoplasm of frontal lobe
C712	Malignant neoplasm of temporal lobe
C713	Malignant neoplasm of parietal lobe
C714	Malignant neoplasm of occipital lobe
C715	Malignant neoplasm of cerebral ventricle
C716	Malignant neoplasm of cerebellum
C717	Malignant neoplasm of brain stem
C718	Malignant neoplasm of overlapping sites of brain

Diagnosis Code	Description
C719	Malignant neoplasm of brain, unspecified
C720	Malignant neoplasm of spinal cord
C721	Malignant neoplasm of cauda equina
C7221	Malignant neoplasm of right olfactory nerve
C7222	Malignant neoplasm of left olfactory nerve
C7231	Malignant neoplasm of right optic nerve
C7232	Malignant neoplasm of left optic nerve
C7241	Malignant neoplasm of right acoustic nerve
C7242	Malignant neoplasm of left acoustic nerve
C729	Malignant neoplasm of central nervous system, unspecified
C7901	Secondary malignant neoplasm of right kidney and renal pelvis
C7902	Secondary malignant neoplasm of left kidney and renal pelvis
C7919	Secondary malignant neoplasm of other urinary organs
C7931	Secondary malignant neoplasm of brain
C7932	Secondary malignant neoplasm of cerebral meninges
C7940	Secondary malignant neoplasm of unspecified part of nervous system
C7949	Secondary malignant neoplasm of other parts of nervous system
C7A026	Malignant carcinoid tumor of the rectum
D320	Benign neoplasm of cerebral meninges
D321	Benign neoplasm of spinal meninges
D330	Benign neoplasm of brain, supratentorial
D331	Benign neoplasm of brain, infratentorial
D333	Benign neoplasm of cranial nerves
D334	Benign neoplasm of spinal cord
D337	Benign neoplasm of other specified parts of central nervous system
D339	Benign neoplasm of central nervous system, unspecified
D433	Neoplasm of uncertain behavior of cranial nerves
E250	Congenital adrenogenital disorders associated with enzyme deficiency
E258	Other adrenogenital disorders
E259	Adrenogenital disorder, unspecified
G14	Postpolio syndrome
G241	Genetic torsion dystonia
G242	Idiopathic nonfamilial dystonia
G248	Other dystonia
G249	Dystonia, unspecified
G253	Myoclonus
G40001	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, not intractable, with status epilepticus
G40009	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, not intractable, without status epilepticus

Diagnosis Code	Description
G40011	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, intractable, with status epilepticus
G40019	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, intractable, without status epilepticus
G40101	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, not intractable, with status epilepticus
G40109	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, not intractable, without status epilepticus
G40111	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, intractable, with status epilepticus
G40119	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, intractable, without status epilepticus
G40201	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, not intractable, with status epilepticus
G40209	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, not intractable, without status epilepticus
G40211	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable, with status epilepticus
G40219	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable, without status epilepticus
G40301	Generalized idiopathic epilepsy and epileptic syndromes, not intractable, with status epilepticus
G40309	Generalized idiopathic epilepsy and epileptic syndromes, not intractable, without status epilepticus
G40311	Generalized idiopathic epilepsy and epileptic syndromes, intractable, with status epilepticus
G40319	Generalized idiopathic epilepsy and epileptic syndromes, intractable, without status epilepticus
G40401	Other generalized epilepsy and epileptic syndromes, not intractable, with status epilepticus
G40409	Other generalized epilepsy and epileptic syndromes, not intractable, without status epilepticus
G40411	Other generalized epilepsy and epileptic syndromes, intractable, with status epilepticus
G40419	Other generalized epilepsy and epileptic syndromes, intractable, without status epilepticus
G40501	Epileptic seizures related to external causes, not intractable, with status epilepticus
G40509	Epileptic seizures related to external causes, not intractable, without status epilepticus
G40801	Other epilepsy, not intractable, with status epilepticus
G40802	Other epilepsy, not intractable, without status epilepticus
G40803	Other epilepsy, intractable, with status epilepticus
G40804	Other epilepsy, intractable, without status epilepticus
G40811	Lennox-Gastaut syndrome, not intractable, with status epilepticus
G40812	Lennox-Gastaut syndrome, not intractable, without status epilepticus
G40813	Lennox-Gastaut syndrome, intractable, with status epilepticus

Diagnosis Code	Description
G40814	Lennox-Gastaut syndrome, intractable, without status epilepticus
G40821	Epileptic spasms, not intractable, with status epilepticus
G40822	Epileptic spasms, not intractable, without status epilepticus
G40823	Epileptic spasms, intractable, with status epilepticus
G40824	Epileptic spasms, intractable, without status epilepticus
G4089	Other seizures
G40901	Epilepsy, unspecified, not intractable, with status epilepticus
G40909	Epilepsy, unspecified, not intractable, without status epilepticus
G40911	Epilepsy, unspecified, intractable, with status epilepticus
G40919	Epilepsy, unspecified, intractable, without status epilepticus
G40A01	Absence epileptic syndrome, not intractable, with status epilepticus
G40A09	Absence epileptic syndrome, not intractable, without status epilepticus
G40A11	Absence epileptic syndrome, intractable, with status epilepticus
G40A19	Absence epileptic syndrome, intractable, without status epilepticus
G40B01	Juvenile myoclonic epilepsy, not intractable, with status epilepticus
G40B09	Juvenile myoclonic epilepsy, not intractable, without status epilepticus
G40B11	Juvenile myoclonic epilepsy, intractable, with status epilepticus
G40B19	Juvenile myoclonic epilepsy, intractable, without status epilepticus
G710	Muscular dystrophy
G7111	Myotonic muscular dystrophy
G712	Congenital myopathies
G800	Spastic quadriplegic cerebral palsy
G801	Spastic diplegic cerebral palsy
G802	Spastic hemiplegic cerebral palsy
G803	Athetoid cerebral palsy
G804	Ataxic cerebral palsy
G808	Other cerebral palsy
G809	Cerebral palsy, unspecified
G8221	Paraplegia, complete
G8222	Paraplegia, incomplete
G834	Cauda equina syndrome
G835	Locked-in state
G8381	Brown-Sequard syndrome
G8382	Anterior cord syndrome
G8383	Posterior cord syndrome
G8384	Todd's paralysis (postepileptic)
G8389	Other specified paralytic syndromes
G910	Communicating hydrocephalus
G911	Obstructive hydrocephalus

Diagnosis Code	Description
G950	Syringomyelia and syringobulbia
I6782	Cerebral ischemia
I6789	Other cerebrovascular disease
I680	Cerebral amyloid angiopathy
I6900	Unspecified sequelae of nontraumatic subarachnoid hemorrhage
I69031	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69032	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69033	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69034	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69039	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting unspecified side
I69041	Monoplegia of lower limb following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69042	Monoplegia of lower limb following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69043	Monoplegia of lower limb following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69044	Monoplegia of lower limb following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69049	Monoplegia of lower limb following nontraumatic subarachnoid hemorrhage affecting unspecified side
I69051	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69052	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69053	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69054	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69059	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting unspecified side
I69061	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69062	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69063	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69064	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69065	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage, bilateral

Diagnosis Code	Description
I69069	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage affecting unspecified side
I69090	Apraxia following nontraumatic subarachnoid hemorrhage
I69091	Dysphagia following nontraumatic subarachnoid hemorrhage
I69098	Other sequelae following nontraumatic subarachnoid hemorrhage
I6910	Unspecified sequelae of nontraumatic intracerebral hemorrhage
I69131	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting right dominant side
I69132	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting left dominant side
I69133	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69134	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69139	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting unspecified side
I69141	Monoplegia of lower limb following nontraumatic intracerebral hemorrhage affecting right dominant side
I69142	Monoplegia of lower limb following nontraumatic intracerebral hemorrhage affecting left dominant side
I69143	Monoplegia of lower limb following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69144	Monoplegia of lower limb following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69149	Monoplegia of lower limb following nontraumatic intracerebral hemorrhage affecting unspecified side
I69151	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting right dominant side
I69152	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting left dominant side
I69153	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69154	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69159	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting unspecified side
I69161	Other paralytic syndrome following nontraumatic intracerebral hemorrhage affecting right dominant side
I69162	Other paralytic syndrome following nontraumatic intracerebral hemorrhage affecting left dominant side
I69163	Other paralytic syndrome following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69164	Other paralytic syndrome following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69165	Other paralytic syndrome following nontraumatic intracerebral hemorrhage, bilateral

Diagnosis Code	Description
I69169	Other paralytic syndrome following nontraumatic intracerebral hemorrhage affecting unspecified side
I69190	Apraxia following nontraumatic intracerebral hemorrhage
I69191	Dysphagia following nontraumatic intracerebral hemorrhage
I69198	Other sequelae of nontraumatic intracerebral hemorrhage
I6920	Unspecified sequelae of other nontraumatic intracranial hemorrhage
I69231	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting right dominant side
I69232	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting left dominant side
I69233	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69234	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69239	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting unspecified side
I69241	Monoplegia of lower limb following other nontraumatic intracranial hemorrhage affecting right dominant side
I69242	Monoplegia of lower limb following other nontraumatic intracranial hemorrhage affecting left dominant side
I69243	Monoplegia of lower limb following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69244	Monoplegia of lower limb following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69249	Monoplegia of lower limb following other nontraumatic intracranial hemorrhage affecting unspecified side
I69251	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting right dominant side
I69252	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting left dominant side
I69253	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69254	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69259	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting unspecified side
I69261	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting right dominant side
I69262	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting left dominant side
I69263	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69264	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69265	Other paralytic syndrome following other nontraumatic intracranial hemorrhage, bilateral

Diagnosis Code	Description
I69269	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting unspecified side
I69290	Apraxia following other nontraumatic intracranial hemorrhage
I69291	Dysphagia following other nontraumatic intracranial hemorrhage
I69298	Other sequelae of other nontraumatic intracranial hemorrhage
I6930	Unspecified sequelae of cerebral infarction
I69331	Monoplegia of upper limb following cerebral infarction affecting right dominant side
I69332	Monoplegia of upper limb following cerebral infarction affecting left dominant side
I69333	Monoplegia of upper limb following cerebral infarction affecting right non-dominant side
I69334	Monoplegia of upper limb following cerebral infarction affecting left non-dominant side
I69339	Monoplegia of upper limb following cerebral infarction affecting unspecified side
I69341	Monoplegia of lower limb following cerebral infarction affecting right dominant side
I69342	Monoplegia of lower limb following cerebral infarction affecting left dominant side
I69343	Monoplegia of lower limb following cerebral infarction affecting right non-dominant side
I69344	Monoplegia of lower limb following cerebral infarction affecting left non-dominant side
I69349	Monoplegia of lower limb following cerebral infarction affecting unspecified side
I69351	Hemiplegia and hemiparesis following cerebral infarction affecting right dominant side
I69352	Hemiplegia and hemiparesis following cerebral infarction affecting left dominant side
I69353	Hemiplegia and hemiparesis following cerebral infarction affecting right non-dominant side
I69354	Hemiplegia and hemiparesis following cerebral infarction affecting left non-dominant side
I69359	Hemiplegia and hemiparesis following cerebral infarction affecting unspecified side
I69361	Other paralytic syndrome following cerebral infarction affecting right dominant side
I69362	Other paralytic syndrome following cerebral infarction affecting left dominant side
I69363	Other paralytic syndrome following cerebral infarction affecting right non-dominant side
I69364	Other paralytic syndrome following cerebral infarction affecting left non-dominant side
I69365	Other paralytic syndrome following cerebral infarction, bilateral
I69369	Other paralytic syndrome following cerebral infarction affecting unspecified side
I69390	Apraxia following cerebral infarction
I69391	Dysphagia following cerebral infarction
I69398	Other sequelae of cerebral infarction
I6980	Unspecified sequelae of other cerebrovascular disease
I69831	Monoplegia of upper limb following other cerebrovascular disease affecting right dominant side

Diagnosis Code	Description
I69832	Monoplegia of upper limb following other cerebrovascular disease affecting left dominant side
I69833	Monoplegia of upper limb following other cerebrovascular disease affecting right non-dominant side
I69834	Monoplegia of upper limb following other cerebrovascular disease affecting left non-dominant side
I69839	Monoplegia of upper limb following other cerebrovascular disease affecting unspecified side
I69841	Monoplegia of lower limb following other cerebrovascular disease affecting right dominant side
I69842	Monoplegia of lower limb following other cerebrovascular disease affecting left dominant side
I69843	Monoplegia of lower limb following other cerebrovascular disease affecting right non-dominant side
I69844	Monoplegia of lower limb following other cerebrovascular disease affecting left non-dominant side
I69849	Monoplegia of lower limb following other cerebrovascular disease affecting unspecified side
I69851	Hemiplegia and hemiparesis following other cerebrovascular disease affecting right dominant side
I69852	Hemiplegia and hemiparesis following other cerebrovascular disease affecting left dominant side
I69853	Hemiplegia and hemiparesis following other cerebrovascular disease affecting right non-dominant side
I69854	Hemiplegia and hemiparesis following other cerebrovascular disease affecting left non-dominant side
I69859	Hemiplegia and hemiparesis following other cerebrovascular disease affecting unspecified side
I69861	Other paralytic syndrome following other cerebrovascular disease affecting right dominant side
I69862	Other paralytic syndrome following other cerebrovascular disease affecting left dominant side
I69863	Other paralytic syndrome following other cerebrovascular disease affecting right non-dominant side
I69864	Other paralytic syndrome following other cerebrovascular disease affecting left non-dominant side
I69865	Other paralytic syndrome following other cerebrovascular disease, bilateral
I69869	Other paralytic syndrome following other cerebrovascular disease affecting unspecified side
I69890	Apraxia following other cerebrovascular disease
I69891	Dysphagia following other cerebrovascular disease
I69898	Other sequelae of other cerebrovascular disease
I6990	Unspecified sequelae of unspecified cerebrovascular disease
I69928	Other speech and language deficits following unspecified cerebrovascular disease
I69931	Monoplegia of upper limb following unspecified cerebrovascular disease affecting right dominant side

Diagnosis Code	Description
I69932	Monoplegia of upper limb following unspecified cerebrovascular disease affecting left dominant side
I69933	Monoplegia of upper limb following unspecified cerebrovascular disease affecting right non-dominant side
I69934	Monoplegia of upper limb following unspecified cerebrovascular disease affecting left non-dominant side
I69939	Monoplegia of upper limb following unspecified cerebrovascular disease affecting unspecified side
I69941	Monoplegia of lower limb following unspecified cerebrovascular disease affecting right dominant side
I69942	Monoplegia of lower limb following unspecified cerebrovascular disease affecting left dominant side
I69943	Monoplegia of lower limb following unspecified cerebrovascular disease affecting right non-dominant side
I69944	Monoplegia of lower limb following unspecified cerebrovascular disease affecting left non-dominant side
I69949	Monoplegia of lower limb following unspecified cerebrovascular disease affecting unspecified side
I69952	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting left dominant side
I69953	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting right non-dominant side
I69954	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting left non-dominant side
I69959	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting unspecified side
I69961	Other paralytic syndrome following unspecified cerebrovascular disease affecting right dominant side
I69962	Other paralytic syndrome following unspecified cerebrovascular disease affecting left dominant side
I69963	Other paralytic syndrome following unspecified cerebrovascular disease affecting right non-dominant side
I69964	Other paralytic syndrome following unspecified cerebrovascular disease affecting left non-dominant side
I69965	Other paralytic syndrome following unspecified cerebrovascular disease, bilateral
I69969	Other paralytic syndrome following unspecified cerebrovascular disease affecting unspecified side
I69990	Apraxia following unspecified cerebrovascular disease
I69991	Dysphagia following unspecified cerebrovascular disease
I69998	Other sequelae following unspecified cerebrovascular disease
N130	Hydronephrosis with ureteropelvic junction obstruction
N131	Hydronephrosis with ureteral stricture, not elsewhere classified
N132	Hydronephrosis with renal and ureteral calculus obstruction
N1330	Unspecified hydronephrosis
N1339	Other hydronephrosis

Diagnosis Code	Description
N35010	Post-traumatic urethral stricture, male, meatal
N35011	Post-traumatic bulbous urethral stricture
N35012	Post-traumatic membranous urethral stricture
N35013	Post-traumatic anterior urethral stricture
N35014	Post-traumatic urethral stricture, male, unspecified
N35028	Other post-traumatic urethral stricture, female
N35111	Postinfective urethral stricture, not elsewhere classified, male, meatal
N35112	Postinfective bulbous urethral stricture, not elsewhere classified
N35113	Postinfective membranous urethral stricture, not elsewhere classified
N35114	Postinfective anterior urethral stricture, not elsewhere classified
N35119	Postinfective urethral stricture, not elsewhere classified, male, unspecified
N3512	Postinfective urethral stricture, not elsewhere classified, female
N358	Other urethral stricture
N359	Urethral stricture, unspecified
N360	Urethral fistula
N365	Urethral false passage
N37	Urethral disorders in diseases classified elsewhere
N99110	Postprocedural urethral stricture, male, meatal
N99111	Postprocedural bulbous urethral stricture
N99112	Postprocedural membranous urethral stricture
N99113	Postprocedural anterior bulbous urethral stricture
N99114	Postprocedural urethral stricture, male, unspecified
N99115	Postprocedural fossa navicularis urethral stricture
N9912	Postprocedural urethral stricture, female
N99523	Herniation of incontinent stoma of urinary tract
N99524	Stenosis of incontinent stoma of urinary tract
N99533	Herniation of continent stoma of urinary tract
N99534	Stenosis of continent stoma of urinary tract
N99840	Postprocedural hematoma of a genitourinary system organ or structure following a genitourinary system procedure
N99841	Postprocedural hematoma of a genitourinary system organ or structure following other procedure
N99842	Postprocedural seroma of a genitourinary system organ or structure following a genitourinary system procedure
N99843	Postprocedural seroma of a genitourinary system organ or structure following other procedure
P115	Birth injury to spine and spinal cord
Q010	Frontal encephalocele
Q011	Nasofrontal encephalocele
Q012	Occipital encephalocele
Q018	Encephalocele of other sites

Diagnosis Code	Description
Q030	Malformations of aqueduct of Sylvius
Q031	Atresia of foramina of Magendie and Luschka
Q038	Other congenital hydrocephalus
Q039	Congenital hydrocephalus, unspecified
Q041	Arhinencephaly
Q042	Holoprosencephaly
Q043	Other reduction deformities of brain
Q045	Megalencephaly
Q046	Congenital cerebral cysts
Q048	Other specified congenital malformations of brain
Q050	Cervical spina bifida with hydrocephalus
Q051	Thoracic spina bifida with hydrocephalus
Q052	Lumbar spina bifida with hydrocephalus
Q054	Unspecified spina bifida with hydrocephalus
Q058	Sacral spina bifida without hydrocephalus
Q060	Amyelia
Q061	Hypoplasia and dysplasia of spinal cord
Q062	Diastatomyelia
Q063	Other congenital cauda equina malformations
Q064	Hydromyelia
Q068	Other specified congenital malformations of spinal cord
Q0701	Arnold-Chiari syndrome with spina bifida
Q0702	Arnold-Chiari syndrome with hydrocephalus
Q0703	Arnold-Chiari syndrome with spina bifida and hydrocephalus
Q410	Congenital absence, atresia and stenosis of duodenum
Q411	Congenital absence, atresia and stenosis of jejunum
Q412	Congenital absence, atresia and stenosis of ileum
Q419	Congenital absence, atresia and stenosis of small intestine, part unspecified
Q420	Congenital absence, atresia and stenosis of rectum with fistula
Q421	Congenital absence, atresia and stenosis of rectum without fistula
Q422	Congenital absence, atresia and stenosis of anus with fistula
Q423	Congenital absence, atresia and stenosis of anus without fistula
Q428	Congenital absence, atresia and stenosis of other parts of large intestine
Q431	Hirschsprung's disease
Q432	Other congenital functional disorders of colon
Q433	Congenital malformations of intestinal fixation
Q434	Duplication of intestine
Q435	Ectopic anus
Q437	Persistent cloaca

Diagnosis Code	Description
Q438	Other specified congenital malformations of intestine
Q6211	Congenital occlusion of ureteropelvic junction
Q6212	Congenital occlusion of ureterovesical orifice
Q622	Congenital megaureter
Q6231	Congenital ureterocele, orthotopic
Q6232	Cecoureterocele
Q6239	Other obstructive defects of renal pelvis and ureter
Q624	Agenesis of ureter
Q625	Duplication of ureter
Q6261	Deviation of ureter
Q6262	Displacement of ureter
Q6263	Anomalous implantation of ureter
Q628	Other congenital malformations of ureter
Q630	Accessory kidney
Q631	Lobulated, fused and horseshoe kidney
Q632	Ectopic kidney
Q633	Hyperplastic and giant kidney
Q638	Other specified congenital malformations of kidney
Q6410	Exstrophy of urinary bladder, unspecified
Q6411	Supravesical fissure of urinary bladder
Q6412	Cloacal extrophy of urinary bladder
Q6419	Other exstrophy of urinary bladder
Q642	Congenital posterior urethral valves
Q6431	Congenital bladder neck obstruction
Q6432	Congenital stricture of urethra
Q6433	Congenital stricture of urinary meatus
Q644	Malformation of urachus
Q645	Congenital absence of bladder and urethra
Q646	Congenital diverticulum of bladder
Q6471	Congenital prolapse of urethra
Q6472	Congenital prolapse of urinary meatus
Q6473	Congenital urethrorectal fistula
Q6474	Double urethra
Q6475	Double urinary meatus
Q6479	Other congenital malformations of bladder and urethra
Q792	Exomphalos
Q793	Gastroschisis
Q794	Prune belly syndrome
Q7959	Other congenital malformations of abdominal wall

Diagnosis Code	Description
Q8500	Neurofibromatosis, unspecified
R301	Vesical tenesmus
R392	Extrarenal uremia
R3982	Chronic bladder pain
R3989	Other symptoms and signs involving the genitourinary system
R532	Functional quadriplegia
S12000A	Unspecified displaced fracture of first cervical vertebra, initial encounter for closed fracture
S12000B	Unspecified displaced fracture of first cervical vertebra, initial encounter for open fracture
S12000D	Unspecified displaced fracture of first cervical vertebra, subsequent encounter for fracture with routine healing
S12000G	Unspecified displaced fracture of first cervical vertebra, subsequent encounter for fracture with delayed healing

S12030S	Displaced posterior arch fracture of first cervical vertebra, sequela
S12031A	Nondisplaced posterior arch fracture of first cervical vertebra, initial encounter for closed fracture
S12031B	Nondisplaced posterior arch fracture of first cervical vertebra, initial encounter for open fracture
S12031D	Nondisplaced posterior arch fracture of first cervical vertebra, subsequent encounter for fracture with routine healing
S12031G	Nondisplaced posterior arch fracture of first cervical vertebra, subsequent encounter for fracture with delayed healing
S12031K	Nondisplaced posterior arch fracture of first cervical vertebra, subsequent encounter for fracture with nonunion
S12031S	Nondisplaced posterior arch fracture of first cervical vertebra, sequela
S12040A	Displaced lateral mass fracture of first cervical vertebra, initial encounter for closed fracture
S12040B	Displaced lateral mass fracture of first cervical vertebra, initial encounter for open fracture
S12040D	Displaced lateral mass fracture of first cervical vertebra, subsequent encounter for fracture with routine healing
S12040G	Displaced lateral mass fracture of first cervical vertebra, subsequent encounter for fracture with delayed healing
S12040K	Displaced lateral mass fracture of first cervical vertebra, subsequent encounter for fracture with nonunion
S12040S	Displaced lateral mass fracture of first cervical vertebra, sequela
S12041A	Nondisplaced lateral mass fracture of first cervical vertebra, initial encounter for closed fracture
S12041B	Nondisplaced lateral mass fracture of first cervical vertebra, initial encounter for open fracture
S12041D	Nondisplaced lateral mass fracture of first cervical vertebra, subsequent encounter for fracture with routine healing
S12041G	Nondisplaced lateral mass fracture of first cervical vertebra, subsequent encounter for fracture with delayed healing
S12041K	Nondisplaced lateral mass fracture of first cervical vertebra, subsequent encounter for fracture with nonunion

Diagnosis Code	Description
S12041S	Nondisplaced lateral mass fracture of first cervical vertebra, sequela
S12090A	Other displaced fracture of first cervical vertebra, initial encounter for closed fracture
S12090B	Other displaced fracture of first cervical vertebra, initial encounter for open fracture
S12090D	Other displaced fracture of first cervical vertebra, subsequent encounter for fracture with routine healing
S12090G	Other displaced fracture of first cervical vertebra, subsequent encounter for fracture with delayed healing
S12090K	Other displaced fracture of first cervical vertebra, subsequent encounter for fracture with nonunion
S12090S	Other displaced fracture of first cervical vertebra, sequela
S12091A	Other nondisplaced fracture of first cervical vertebra, initial encounter for closed fracture
S12091B	Other nondisplaced fracture of first cervical vertebra, initial encounter for open fracture
S12091D	Other nondisplaced fracture of first cervical vertebra, subsequent encounter for fracture with routine healing
S12091G	Other nondisplaced fracture of first cervical vertebra, subsequent encounter for fracture with delayed healing
S12091K	Other nondisplaced fracture of first cervical vertebra, subsequent encounter for fracture with nonunion
S12091S	Other nondisplaced fracture of first cervical vertebra, sequela
S12100A	Unspecified displaced fracture of second cervical vertebra, initial encounter for closed fracture
S12100B	Unspecified displaced fracture of second cervical vertebra, initial encounter for open fracture
S12100D	Unspecified displaced fracture of second cervical vertebra, subsequent encounter for fracture with routine healing
S12100G	Unspecified displaced fracture of second cervical vertebra, subsequent encounter for fracture with delayed healing
S12100K	Unspecified displaced fracture of second cervical vertebra, subsequent encounter for fracture with nonunion
S12100S	Unspecified displaced fracture of second cervical vertebra, sequela
S12101A	Unspecified nondisplaced fracture of second cervical vertebra, initial encounter for closed fracture
S12101B	Unspecified nondisplaced fracture of second cervical vertebra, initial encounter for open fracture
S12101D	Unspecified nondisplaced fracture of second cervical vertebra, subsequent encounter for fracture with routine healing
S12101G	Unspecified nondisplaced fracture of second cervical vertebra, subsequent encounter for fracture with delayed healing
S12101K	Unspecified nondisplaced fracture of second cervical vertebra, subsequent encounter for fracture with nonunion
S12101S	Unspecified nondisplaced fracture of second cervical vertebra, sequela
S12110A	Anterior displaced Type II dens fracture, initial encounter for closed fracture
S12110B	Anterior displaced Type II dens fracture, initial encounter for open fracture

Diagnosis Code	Description
S12110D	Anterior displaced Type II dens fracture, subsequent encounter for fracture with routine healing
S12110G	Anterior displaced Type II dens fracture, subsequent encounter for fracture with delayed healing
S12110K	Anterior displaced Type II dens fracture, subsequent encounter for fracture with nonunion
S12110S	Anterior displaced Type II dens fracture, sequela
S12111A	Posterior displaced Type II dens fracture, initial encounter for closed fracture
S12111B	Posterior displaced Type II dens fracture, initial encounter for open fracture
S12111D	Posterior displaced Type II dens fracture, subsequent encounter for fracture with routine healing
S12111G	Posterior displaced Type II dens fracture, subsequent encounter for fracture with delayed healing
S12111K	Posterior displaced Type II dens fracture, subsequent encounter for fracture with nonunion
S12111S	Posterior displaced Type II dens fracture, sequela
S12112A	Nondisplaced Type II dens fracture, initial encounter for closed fracture
S12112B	Nondisplaced Type II dens fracture, initial encounter for open fracture
S12112D	Nondisplaced Type II dens fracture, subsequent encounter for fracture with routine healing
S12112G	Nondisplaced Type II dens fracture, subsequent encounter for fracture with delayed healing
S12112K	Nondisplaced Type II dens fracture, subsequent encounter for fracture with nonunion
S12112S	Nondisplaced Type II dens fracture, sequela
S12120A	Other displaced dens fracture, initial encounter for closed fracture
S12120B	Other displaced dens fracture, initial encounter for open fracture
S12120D	Other displaced dens fracture, subsequent encounter for fracture with routine healing
S12120G	Other displaced dens fracture, subsequent encounter for fracture with delayed healing
S12120K	Other displaced dens fracture, subsequent encounter for fracture with nonunion
S12120S	Other displaced dens fracture, sequela
S12121A	Other nondisplaced dens fracture, initial encounter for closed fracture
S12121B	Other nondisplaced dens fracture, initial encounter for open fracture
S12121D	Other nondisplaced dens fracture, subsequent encounter for fracture with routine healing
S12121G	Other nondisplaced dens fracture, subsequent encounter for fracture with delayed healing
S12121K	Other nondisplaced dens fracture, subsequent encounter for fracture with nonunion
S12121S	Other nondisplaced dens fracture, sequela
S12130A	Unspecified traumatic displaced spondylolisthesis of second cervical vertebra, initial encounter for closed fracture
S12130B	Unspecified traumatic displaced spondylolisthesis of second cervical vertebra, initial encounter for open fracture

Diagnosis Code	Description
S12130D	Unspecified traumatic displaced spondylolisthesis of second cervical vertebra, subsequent encounter for fracture with routine healing
S12130G	Unspecified traumatic displaced spondylolisthesis of second cervical vertebra, subsequent encounter for fracture with delayed healing
S12130K	Unspecified traumatic displaced spondylolisthesis of second cervical vertebra, subsequent encounter for fracture with nonunion
S12130S	Unspecified traumatic displaced spondylolisthesis of second cervical vertebra, sequela
S12131A	Unspecified traumatic nondisplaced spondylolisthesis of second cervical vertebra, initial encounter for closed fracture

S12391S	Other nondisplaced fracture of fourth cervical vertebra, sequela
S12400A	Unspecified displaced fracture of fifth cervical vertebra, initial encounter for closed fracture

Diagnosis Code	Description
S12400B	Unspecified displaced fracture of fifth cervical vertebra, initial encounter for open fracture
S12400D	Unspecified displaced fracture of fifth cervical vertebra, subsequent encounter for fracture with routine healing
S12400G	Unspecified displaced fracture of fifth cervical vertebra, subsequent encounter for fracture with delayed healing
S12400K	Unspecified displaced fracture of fifth cervical vertebra, subsequent encounter for fracture with nonunion
S12400S	Unspecified displaced fracture of fifth cervical vertebra, sequela
S12401A	Unspecified nondisplaced fracture of fifth cervical vertebra, initial encounter for closed fracture
S12401B	Unspecified nondisplaced fracture of fifth cervical vertebra, initial encounter for open fracture
S12401D	Unspecified nondisplaced fracture of fifth cervical vertebra, subsequent encounter for fracture with routine healing
S12401G	Unspecified nondisplaced fracture of fifth cervical vertebra, subsequent encounter for fracture with delayed healing
S12401K	Unspecified nondisplaced fracture of fifth cervical vertebra, subsequent encounter for fracture with nonunion
S12401S	Unspecified nondisplaced fracture of fifth cervical vertebra, sequela
S12430A	Unspecified traumatic displaced spondylolisthesis of fifth cervical vertebra, initial encounter for closed fracture
S12430B	Unspecified traumatic displaced spondylolisthesis of fifth cervical vertebra, initial encounter for open fracture
S12430D	Unspecified traumatic displaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with routine healing
S12430G	Unspecified traumatic displaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with delayed healing
S12430K	Unspecified traumatic displaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with nonunion
S12430S	Unspecified traumatic displaced spondylolisthesis of fifth cervical vertebra, sequela
S12431A	Unspecified traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, initial encounter for closed fracture
S12431B	Unspecified traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, initial encounter for open fracture
S12431D	Unspecified traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with routine healing
S12431G	Unspecified traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with delayed healing
S12431K	Unspecified traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with nonunion
S12431S	Unspecified traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, sequela
S1244XA	Type III traumatic spondylolisthesis of fifth cervical vertebra, initial encounter for closed fracture

Diagnosis Code	Description
S1244XB	Type III traumatic spondylolisthesis of fifth cervical vertebra, initial encounter for open fracture
S1244XD	Type III traumatic spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with routine healing
S1244XG	Type III traumatic spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with delayed healing
S1244XK	Type III traumatic spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with nonunion
S1244XS	Type III traumatic spondylolisthesis of fifth cervical vertebra, sequela
S12450A	Other traumatic displaced spondylolisthesis of fifth cervical vertebra, initial encounter for closed fracture
S12450B	Other traumatic displaced spondylolisthesis of fifth cervical vertebra, initial encounter for open fracture
S12450D	Other traumatic displaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with routine healing
S12450G	Other traumatic displaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with delayed healing
S12450K	Other traumatic displaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with nonunion
S12450S	Other traumatic displaced spondylolisthesis of fifth cervical vertebra, sequela
S12451A	Other traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, initial encounter for closed fracture
S12451B	Other traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, initial encounter for open fracture
S12451D	Other traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with routine healing
S12451G	Other traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with delayed healing
S12451K	Other traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, subsequent encounter for fracture with nonunion
S12451S	Other traumatic nondisplaced spondylolisthesis of fifth cervical vertebra, sequela
S12490A	Other displaced fracture of fifth cervical vertebra, initial encounter for closed fracture
S12490B	Other displaced fracture of fifth cervical vertebra, initial encounter for open fracture
S12490D	Other displaced fracture of fifth cervical vertebra, subsequent encounter for fracture with routine healing
S12490G	Other displaced fracture of fifth cervical vertebra, subsequent encounter for fracture with delayed healing
S12490K	Other displaced fracture of fifth cervical vertebra, subsequent encounter for fracture with nonunion
S12490S	Other displaced fracture of fifth cervical vertebra, sequela
S12491A	Other nondisplaced fracture of fifth cervical vertebra, initial encounter for closed fracture
S12491B	Other nondisplaced fracture of fifth cervical vertebra, initial encounter for open fracture
S12491D	Other nondisplaced fracture of fifth cervical vertebra, subsequent encounter for fracture with routine healing

Diagnosis Code	Description
S12491G	Other nondisplaced fracture of fifth cervical vertebra, subsequent encounter for fracture with delayed healing
S12491K	Other nondisplaced fracture of fifth cervical vertebra, subsequent encounter for fracture with nonunion
S12491S	Other nondisplaced fracture of fifth cervical vertebra, sequela
S12500A	Unspecified displaced fracture of sixth cervical vertebra, initial encounter for closed fracture
S12500B	Unspecified displaced fracture of sixth cervical vertebra, initial encounter for open fracture
S12500D	Unspecified displaced fracture of sixth cervical vertebra, subsequent encounter for fracture with routine healing
S12500G	Unspecified displaced fracture of sixth cervical vertebra, subsequent encounter for fracture with delayed healing
S12500K	Unspecified displaced fracture of sixth cervical vertebra, subsequent encounter for fracture with nonunion
S12500S	Unspecified displaced fracture of sixth cervical vertebra, sequela
S12501A	Unspecified nondisplaced fracture of sixth cervical vertebra, initial encounter for closed fracture
S12501B	Unspecified nondisplaced fracture of sixth cervical vertebra, initial encounter for open fracture
S12501D	Unspecified nondisplaced fracture of sixth cervical vertebra, subsequent encounter for fracture with routine healing
S12501G	Unspecified nondisplaced fracture of sixth cervical vertebra, subsequent encounter for fracture with delayed healing
S12501K	Unspecified nondisplaced fracture of sixth cervical vertebra, subsequent encounter for fracture with nonunion
S12501S	Unspecified nondisplaced fracture of sixth cervical vertebra, sequela
S12530A	Unspecified traumatic displaced spondylolisthesis of sixth cervical vertebra, initial encounter for closed fracture
S12530B	Unspecified traumatic displaced spondylolisthesis of sixth cervical vertebra, initial encounter for open fracture
S12530D	Unspecified traumatic displaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with routine healing
S12530G	Unspecified traumatic displaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with delayed healing
S12530K	Unspecified traumatic displaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with nonunion
S12530S	Unspecified traumatic displaced spondylolisthesis of sixth cervical vertebra, sequela
S12531A	Unspecified traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, initial encounter for closed fracture
S12531B	Unspecified traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, initial encounter for open fracture
S12531D	Unspecified traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with routine healing
S12531G	Unspecified traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with delayed healing

Diagnosis Code	Description
S12531K	Unspecified traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with nonunion
S12531S	Unspecified traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, sequela
S1254XA	Type III traumatic spondylolisthesis of sixth cervical vertebra, initial encounter for closed fracture
S1254XB	Type III traumatic spondylolisthesis of sixth cervical vertebra, initial encounter for open fracture
S1254XD	Type III traumatic spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with routine healing
S1254XG	Type III traumatic spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with delayed healing
S1254XK	Type III traumatic spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with nonunion
S1254XS	Type III traumatic spondylolisthesis of sixth cervical vertebra, sequela
S12550A	Other traumatic displaced spondylolisthesis of sixth cervical vertebra, initial encounter for closed fracture
S12550B	Other traumatic displaced spondylolisthesis of sixth cervical vertebra, initial encounter for open fracture
S12550D	Other traumatic displaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with routine healing
S12550G	Other traumatic displaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with delayed healing
S12550K	Other traumatic displaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with nonunion
S12550S	Other traumatic displaced spondylolisthesis of sixth cervical vertebra, sequela
S12551A	Other traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, initial encounter for closed fracture
S12551B	Other traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, initial encounter for open fracture
S12551D	Other traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with routine healing
S12551G	Other traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with delayed healing
S12551K	Other traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, subsequent encounter for fracture with nonunion
S12551S	Other traumatic nondisplaced spondylolisthesis of sixth cervical vertebra, sequela
S12590A	Other displaced fracture of sixth cervical vertebra, initial encounter for closed fracture
S12590B	Other displaced fracture of sixth cervical vertebra, initial encounter for open fracture
S12590D	Other displaced fracture of sixth cervical vertebra, subsequent encounter for fracture with routine healing
S12590G	Other displaced fracture of sixth cervical vertebra, subsequent encounter for fracture with delayed healing
S12590K	Other displaced fracture of sixth cervical vertebra, subsequent encounter for fracture with nonunion
S12590S	Other displaced fracture of sixth cervical vertebra, sequela

Diagnosis Code	Description
S12591A	Other nondisplaced fracture of sixth cervical vertebra, initial encounter for closed fracture
S12591B	Other nondisplaced fracture of sixth cervical vertebra, initial encounter for open fracture
S12591D	Other nondisplaced fracture of sixth cervical vertebra, subsequent encounter for fracture with routine healing
S12591G	Other nondisplaced fracture of sixth cervical vertebra, subsequent encounter for fracture with delayed healing
S12591K	Other nondisplaced fracture of sixth cervical vertebra, subsequent encounter for fracture with nonunion
S12591S	Other nondisplaced fracture of sixth cervical vertebra, sequela
S12600A	Unspecified displaced fracture of seventh cervical vertebra, initial encounter for closed fracture
S12600B	Unspecified displaced fracture of seventh cervical vertebra, initial encounter for open fracture
S12600D	Unspecified displaced fracture of seventh cervical vertebra, subsequent encounter for fracture with routine healing
S12600G	Unspecified displaced fracture of seventh cervical vertebra, subsequent encounter for fracture with delayed healing
S12600K	Unspecified displaced fracture of seventh cervical vertebra, subsequent encounter for fracture with nonunion
S12600S	Unspecified displaced fracture of seventh cervical vertebra, sequela
S12601A	Unspecified nondisplaced fracture of seventh cervical vertebra, initial encounter for closed fracture
S12601B	Unspecified nondisplaced fracture of seventh cervical vertebra, initial encounter for open fracture
S12601D	Unspecified nondisplaced fracture of seventh cervical vertebra, subsequent encounter for fracture with routine healing
S12601G	Unspecified nondisplaced fracture of seventh cervical vertebra, subsequent encounter for fracture with delayed healing
S12601K	Unspecified nondisplaced fracture of seventh cervical vertebra, subsequent encounter for fracture with nonunion
S12601S	Unspecified nondisplaced fracture of seventh cervical vertebra, sequela
S12630A	Unspecified traumatic displaced spondylolisthesis of seventh cervical vertebra, initial encounter for closed fracture
S12630B	Unspecified traumatic displaced spondylolisthesis of seventh cervical vertebra, initial encounter for open fracture
S12630D	Unspecified traumatic displaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with routine healing
S12630G	Unspecified traumatic displaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with delayed healing
S12630K	Unspecified traumatic displaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with nonunion
S12630S	Unspecified traumatic displaced spondylolisthesis of seventh cervical vertebra, sequela

Diagnosis Code	Description
S12631A	Unspecified traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, initial encounter for closed fracture
S12631B	Unspecified traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, initial encounter for open fracture
S12631D	Unspecified traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with routine healing
S12631G	Unspecified traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with delayed healing
S12631K	Unspecified traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with nonunion
S12631S	Unspecified traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, sequela
S1264XA	Type III traumatic spondylolisthesis of seventh cervical vertebra, initial encounter for closed fracture
S1264XB	Type III traumatic spondylolisthesis of seventh cervical vertebra, initial encounter for open fracture
S1264XD	Type III traumatic spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with routine healing
S1264XG	Type III traumatic spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with delayed healing
S1264XK	Type III traumatic spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with nonunion
S1264XS	Type III traumatic spondylolisthesis of seventh cervical vertebra, sequela
S12650A	Other traumatic displaced spondylolisthesis of seventh cervical vertebra, initial encounter for closed fracture
S12650B	Other traumatic displaced spondylolisthesis of seventh cervical vertebra, initial encounter for open fracture
S12650D	Other traumatic displaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with routine healing
S12650G	Other traumatic displaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with delayed healing
S12650K	Other traumatic displaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with nonunion
S12650S	Other traumatic displaced spondylolisthesis of seventh cervical vertebra, sequela
S12651A	Other traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, initial encounter for closed fracture
S12651B	Other traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, initial encounter for open fracture
S12651D	Other traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with routine healing
S12651G	Other traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with delayed healing
S12651K	Other traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, subsequent encounter for fracture with nonunion
S12651S	Other traumatic nondisplaced spondylolisthesis of seventh cervical vertebra, sequela

Diagnosis Code	Description
S12690A	Other displaced fracture of seventh cervical vertebra, initial encounter for closed fracture
S12690B	Other displaced fracture of seventh cervical vertebra, initial encounter for open fracture
S12690D	Other displaced fracture of seventh cervical vertebra, subsequent encounter for fracture with routine healing
S12690G	Other displaced fracture of seventh cervical vertebra, subsequent encounter for fracture with delayed healing
S12690K	Other displaced fracture of seventh cervical vertebra, subsequent encounter for fracture with nonunion
S12690S	Other displaced fracture of seventh cervical vertebra, sequela
S12691A	Other nondisplaced fracture of seventh cervical vertebra, initial encounter for closed fracture
S12691B	Other nondisplaced fracture of seventh cervical vertebra, initial encounter for open fracture
S12691D	Other nondisplaced fracture of seventh cervical vertebra, subsequent encounter for fracture with routine healing
S12691G	Other nondisplaced fracture of seventh cervical vertebra, subsequent encounter for fracture with delayed healing
S12691K	Other nondisplaced fracture of seventh cervical vertebra, subsequent encounter for fracture with nonunion
S12691S	Other nondisplaced fracture of seventh cervical vertebra, sequela
S128XXA	Fracture of other parts of neck, initial encounter
S128XXD	Fracture of other parts of neck, subsequent encounter
S128XXS	Fracture of other parts of neck, sequela
S129XXA	Fracture of neck, unspecified, initial encounter
S129XXD	Fracture of neck, unspecified, subsequent encounter
S129XXS	Fracture of neck, unspecified, sequela
S14101A	Unspecified injury at C1 level of cervical spinal cord, initial encounter
S14101D	Unspecified injury at C1 level of cervical spinal cord, subsequent encounter
S14101S	Unspecified injury at C1 level of cervical spinal cord, sequela
S14102A	Unspecified injury at C2 level of cervical spinal cord, initial encounter
S14102D	Unspecified injury at C2 level of cervical spinal cord, subsequent encounter
S14102S	Unspecified injury at C2 level of cervical spinal cord, sequela
S14103A	Unspecified injury at C3 level of cervical spinal cord, initial encounter
S14103D	Unspecified injury at C3 level of cervical spinal cord, subsequent encounter
S14103S	Unspecified injury at C3 level of cervical spinal cord, sequela
S14104A	Unspecified injury at C4 level of cervical spinal cord, initial encounter
S14104D	Unspecified injury at C4 level of cervical spinal cord, subsequent encounter
S14104S	Unspecified injury at C4 level of cervical spinal cord, sequela
S14105A	Unspecified injury at C5 level of cervical spinal cord, initial encounter
S14105D	Unspecified injury at C5 level of cervical spinal cord, subsequent encounter
S14105S	Unspecified injury at C5 level of cervical spinal cord, sequela

Diagnosis Code	Description
S14106A	Unspecified injury at C6 level of cervical spinal cord, initial encounter
S14106D	Unspecified injury at C6 level of cervical spinal cord, subsequent encounter
S14106S	Unspecified injury at C6 level of cervical spinal cord, sequela
S14107A	Unspecified injury at C7 level of cervical spinal cord, initial encounter
S14107D	Unspecified injury at C7 level of cervical spinal cord, subsequent encounter
S14107S	Unspecified injury at C7 level of cervical spinal cord, sequela
S14108A	Unspecified injury at C8 level of cervical spinal cord, initial encounter
S14108D	Unspecified injury at C8 level of cervical spinal cord, subsequent encounter
S14108S	Unspecified injury at C8 level of cervical spinal cord, sequela
S14111A	Complete lesion at C1 level of cervical spinal cord, initial encounter
S14111D	Complete lesion at C1 level of cervical spinal cord, subsequent encounter
S14111S	Complete lesion at C1 level of cervical spinal cord, sequela
S14112A	Complete lesion at C2 level of cervical spinal cord, initial encounter
S14112D	Complete lesion at C2 level of cervical spinal cord, subsequent encounter
S14112S	Complete lesion at C2 level of cervical spinal cord, sequela
S14113A	Complete lesion at C3 level of cervical spinal cord, initial encounter
S14113D	Complete lesion at C3 level of cervical spinal cord, subsequent encounter
S14113S	Complete lesion at C3 level of cervical spinal cord, sequela
S14114A	Complete lesion at C4 level of cervical spinal cord, initial encounter
S14114D	Complete lesion at C4 level of cervical spinal cord, subsequent encounter
S14114S	Complete lesion at C4 level of cervical spinal cord, sequela
S14115A	Complete lesion at C5 level of cervical spinal cord, initial encounter
S14115D	Complete lesion at C5 level of cervical spinal cord, subsequent encounter
S14115S	Complete lesion at C5 level of cervical spinal cord, sequela
S14116A	Complete lesion at C6 level of cervical spinal cord, initial encounter
S14116D	Complete lesion at C6 level of cervical spinal cord, subsequent encounter
S14116S	Complete lesion at C6 level of cervical spinal cord, sequela
S14117A	Complete lesion at C7 level of cervical spinal cord, initial encounter
S14117D	Complete lesion at C7 level of cervical spinal cord, subsequent encounter
S14117S	Complete lesion at C7 level of cervical spinal cord, sequela
S14118A	Complete lesion at C8 level of cervical spinal cord, initial encounter
S14118D	Complete lesion at C8 level of cervical spinal cord, subsequent encounter
S14118S	Complete lesion at C8 level of cervical spinal cord, sequela
S14121A	Central cord syndrome at C1 level of cervical spinal cord, initial encounter
S14121D	Central cord syndrome at C1 level of cervical spinal cord, subsequent encounter
S14121S	Central cord syndrome at C1 level of cervical spinal cord, sequela
S14122A	Central cord syndrome at C2 level of cervical spinal cord, initial encounter
S14122D	Central cord syndrome at C2 level of cervical spinal cord, subsequent encounter
S14122S	Central cord syndrome at C2 level of cervical spinal cord, sequela

Diagnosis Code	Description
S14123A	Central cord syndrome at C3 level of cervical spinal cord, initial encounter
S14123D	Central cord syndrome at C3 level of cervical spinal cord, subsequent encounter
S14123S	Central cord syndrome at C3 level of cervical spinal cord, sequela
S14124A	Central cord syndrome at C4 level of cervical spinal cord, initial encounter
S14124D	Central cord syndrome at C4 level of cervical spinal cord, subsequent encounter
S14124S	Central cord syndrome at C4 level of cervical spinal cord, sequela
S14125A	Central cord syndrome at C5 level of cervical spinal cord, initial encounter
S14125D	Central cord syndrome at C5 level of cervical spinal cord, subsequent encounter
S14125S	Central cord syndrome at C5 level of cervical spinal cord, sequela
S14126A	Central cord syndrome at C6 level of cervical spinal cord, initial encounter
S14126D	Central cord syndrome at C6 level of cervical spinal cord, subsequent encounter
S14126S	Central cord syndrome at C6 level of cervical spinal cord, sequela
S14127A	Central cord syndrome at C7 level of cervical spinal cord, initial encounter
S14127D	Central cord syndrome at C7 level of cervical spinal cord, subsequent encounter
S14127S	Central cord syndrome at C7 level of cervical spinal cord, sequela
S14128A	Central cord syndrome at C8 level of cervical spinal cord, initial encounter
S14128D	Central cord syndrome at C8 level of cervical spinal cord, subsequent encounter
S14128S	Central cord syndrome at C8 level of cervical spinal cord, sequela
S14131A	Anterior cord syndrome at C1 level of cervical spinal cord, initial encounter
S14131D	Anterior cord syndrome at C1 level of cervical spinal cord, subsequent encounter
S14131S	Anterior cord syndrome at C1 level of cervical spinal cord, sequela
S14132A	Anterior cord syndrome at C2 level of cervical spinal cord, initial encounter
S14132D	Anterior cord syndrome at C2 level of cervical spinal cord, subsequent encounter
S14132S	Anterior cord syndrome at C2 level of cervical spinal cord, sequela
S14133A	Anterior cord syndrome at C3 level of cervical spinal cord, initial encounter
S14133D	Anterior cord syndrome at C3 level of cervical spinal cord, subsequent encounter
S14133S	Anterior cord syndrome at C3 level of cervical spinal cord, sequela
S14134A	Anterior cord syndrome at C4 level of cervical spinal cord, initial encounter
S14134D	Anterior cord syndrome at C4 level of cervical spinal cord, subsequent encounter
S14134S	Anterior cord syndrome at C4 level of cervical spinal cord, sequela
S14135A	Anterior cord syndrome at C5 level of cervical spinal cord, initial encounter
S14135D	Anterior cord syndrome at C5 level of cervical spinal cord, subsequent encounter
S14135S	Anterior cord syndrome at C5 level of cervical spinal cord, sequela
S14136A	Anterior cord syndrome at C6 level of cervical spinal cord, initial encounter
S14136D	Anterior cord syndrome at C6 level of cervical spinal cord, subsequent encounter
S14136S	Anterior cord syndrome at C6 level of cervical spinal cord, sequela
S14137A	Anterior cord syndrome at C7 level of cervical spinal cord, initial encounter
S14137D	Anterior cord syndrome at C7 level of cervical spinal cord, subsequent encounter
S14137S	Anterior cord syndrome at C7 level of cervical spinal cord, sequela

Diagnosis Code	Description
S14138A	Anterior cord syndrome at C8 level of cervical spinal cord, initial encounter
S14138D	Anterior cord syndrome at C8 level of cervical spinal cord, subsequent encounter
S14138S	Anterior cord syndrome at C8 level of cervical spinal cord, sequela
S14141A	Brown-Sequard syndrome at C1 level of cervical spinal cord, initial encounter
S14141D	Brown-Sequard syndrome at C1 level of cervical spinal cord, subsequent encounter
S14141S	Brown-Sequard syndrome at C1 level of cervical spinal cord, sequela
S14142A	Brown-Sequard syndrome at C2 level of cervical spinal cord, initial encounter
S14142D	Brown-Sequard syndrome at C2 level of cervical spinal cord, subsequent encounter
S14142S	Brown-Sequard syndrome at C2 level of cervical spinal cord, sequela
S14143A	Brown-Sequard syndrome at C3 level of cervical spinal cord, initial encounter
S14143D	Brown-Sequard syndrome at C3 level of cervical spinal cord, subsequent encounter
S14143S	Brown-Sequard syndrome at C3 level of cervical spinal cord, sequela
S14144A	Brown-Sequard syndrome at C4 level of cervical spinal cord, initial encounter
S14144D	Brown-Sequard syndrome at C4 level of cervical spinal cord, subsequent encounter
S14144S	Brown-Sequard syndrome at C4 level of cervical spinal cord, sequela
S14145A	Brown-Sequard syndrome at C5 level of cervical spinal cord, initial encounter
S14145D	Brown-Sequard syndrome at C5 level of cervical spinal cord, subsequent encounter
S14145S	Brown-Sequard syndrome at C5 level of cervical spinal cord, sequela
S14146A	Brown-Sequard syndrome at C6 level of cervical spinal cord, initial encounter
S14146D	Brown-Sequard syndrome at C6 level of cervical spinal cord, subsequent encounter
S14146S	Brown-Sequard syndrome at C6 level of cervical spinal cord, sequela
S14147A	Brown-Sequard syndrome at C7 level of cervical spinal cord, initial encounter
S14147D	Brown-Sequard syndrome at C7 level of cervical spinal cord, subsequent encounter
S14147S	Brown-Sequard syndrome at C7 level of cervical spinal cord, sequela
S14151A	Other incomplete lesion at C1 level of cervical spinal cord, initial encounter
S14151D	Other incomplete lesion at C1 level of cervical spinal cord, subsequent encounter
S14151S	Other incomplete lesion at C1 level of cervical spinal cord, sequela
S14152A	Other incomplete lesion at C2 level of cervical spinal cord, initial encounter
S14152D	Other incomplete lesion at C2 level of cervical spinal cord, subsequent encounter
S14152S	Other incomplete lesion at C2 level of cervical spinal cord, sequela
S14153A	Other incomplete lesion at C3 level of cervical spinal cord, initial encounter
S14153D	Other incomplete lesion at C3 level of cervical spinal cord, subsequent encounter
S14153S	Other incomplete lesion at C3 level of cervical spinal cord, sequela
S14154A	Other incomplete lesion at C4 level of cervical spinal cord, initial encounter
S14154D	Other incomplete lesion at C4 level of cervical spinal cord, subsequent encounter
S14154S	Other incomplete lesion at C4 level of cervical spinal cord, sequela
S14155A	Other incomplete lesion at C5 level of cervical spinal cord, initial encounter
S14155D	Other incomplete lesion at C5 level of cervical spinal cord, subsequent encounter
S14155S	Other incomplete lesion at C5 level of cervical spinal cord, sequela

Diagnosis Code	Description
S14156A	Other incomplete lesion at C6 level of cervical spinal cord, initial encounter
S14156D	Other incomplete lesion at C6 level of cervical spinal cord, subsequent encounter
S14156S	Other incomplete lesion at C6 level of cervical spinal cord, sequela
S14157A	Other incomplete lesion at C7 level of cervical spinal cord, initial encounter
S14157D	Other incomplete lesion at C7 level of cervical spinal cord, subsequent encounter
S14157S	Other incomplete lesion at C7 level of cervical spinal cord, sequela
S14158A	Other incomplete lesion at C8 level of cervical spinal cord, initial encounter
S14158D	Other incomplete lesion at C8 level of cervical spinal cord, subsequent encounter
S14158S	Other incomplete lesion at C8 level of cervical spinal cord, sequela
S22000A	Wedge compression fracture of unspecified thoracic vertebra, initial encounter for closed fracture
S22000B	Wedge compression fracture of unspecified thoracic vertebra, initial encounter for open fracture
S22000D	Wedge compression fracture of unspecified thoracic vertebra, subsequent encounter for fracture with routine healing
S22000G	Wedge compression fracture of unspecified thoracic vertebra, subsequent encounter for fracture with delayed healing
S22000K	Wedge compression fracture of unspecified thoracic vertebra, subsequent encounter for fracture with nonunion
S22000S	Wedge compression fracture of unspecified thoracic vertebra, sequela
S22001A	Stable burst fracture of unspecified thoracic vertebra, initial encounter for closed fracture
S22001B	Stable burst fracture of unspecified thoracic vertebra, initial encounter for open fracture
S22001D	Stable burst fracture of unspecified thoracic vertebra, subsequent encounter for fracture with routine healing
S22001G	Stable burst fracture of unspecified thoracic vertebra, subsequent encounter for fracture with delayed healing
S22001K	Stable burst fracture of unspecified thoracic vertebra, subsequent encounter for fracture with nonunion
S22001S	Stable burst fracture of unspecified thoracic vertebra, sequela
S22002A	Unstable burst fracture of unspecified thoracic vertebra, initial encounter for closed fracture
S22002B	Unstable burst fracture of unspecified thoracic vertebra, initial encounter for open fracture
S22002D	Unstable burst fracture of unspecified thoracic vertebra, subsequent encounter for fracture with routine healing
S22002G	Unstable burst fracture of unspecified thoracic vertebra, subsequent encounter for fracture with delayed healing
S22002K	Unstable burst fracture of unspecified thoracic vertebra, subsequent encounter for fracture with nonunion
S22002S	Unstable burst fracture of unspecified thoracic vertebra, sequela
S22008A	Other fracture of unspecified thoracic vertebra, initial encounter for closed fracture
S22008B	Other fracture of unspecified thoracic vertebra, initial encounter for open fracture

Diagnosis Code	Description
S22008D	Other fracture of unspecified thoracic vertebra, subsequent encounter for fracture with routine healing
S22008G	Other fracture of unspecified thoracic vertebra, subsequent encounter for fracture with delayed healing
S22008K	Other fracture of unspecified thoracic vertebra, subsequent encounter for fracture with nonunion
S22008S	Other fracture of unspecified thoracic vertebra, sequela
S22009A	Unspecified fracture of unspecified thoracic vertebra, initial encounter for closed fracture
S22009B	Unspecified fracture of unspecified thoracic vertebra, initial encounter for open fracture
S22009D	Unspecified fracture of unspecified thoracic vertebra, subsequent encounter for fracture with routine healing
S22009G	Unspecified fracture of unspecified thoracic vertebra, subsequent encounter for fracture with delayed healing
S22009K	Unspecified fracture of unspecified thoracic vertebra, subsequent encounter for fracture with nonunion
S22009S	Unspecified fracture of unspecified thoracic vertebra, sequela
S22010A	Wedge compression fracture of first thoracic vertebra, initial encounter for closed fracture
S22010B	Wedge compression fracture of first thoracic vertebra, initial encounter for open fracture
S22010D	Wedge compression fracture of first thoracic vertebra, subsequent encounter for fracture with routine healing
S22010G	Wedge compression fracture of first thoracic vertebra, subsequent encounter for fracture with delayed healing
S22010K	Wedge compression fracture of first thoracic vertebra, subsequent encounter for fracture with nonunion
S22010S	Wedge compression fracture of first thoracic vertebra, sequela
S22011A	Stable burst fracture of first thoracic vertebra, initial encounter for closed fracture
S22011B	Stable burst fracture of first thoracic vertebra, initial encounter for open fracture
S22011D	Stable burst fracture of first thoracic vertebra, subsequent encounter for fracture with routine healing
S22011G	Stable burst fracture of first thoracic vertebra, subsequent encounter for fracture with delayed healing
S22011K	Stable burst fracture of first thoracic vertebra, subsequent encounter for fracture with nonunion

S22019K	Unspecified fracture of first thoracic vertebra, subsequent encounter for fracture with nonunion
S22019S	Unspecified fracture of first thoracic vertebra, sequela
S22020A	Wedge compression fracture of second thoracic vertebra, initial encounter for closed fracture
S22020B	Wedge compression fracture of second thoracic vertebra, initial encounter for open fracture
S22020D	Wedge compression fracture of second thoracic vertebra, subsequent encounter for fracture with routine healing
S22020G	Wedge compression fracture of second thoracic vertebra, subsequent encounter for fracture with delayed healing
S22020K	Wedge compression fracture of second thoracic vertebra, subsequent encounter for fracture with nonunion
S22020S	Wedge compression fracture of second thoracic vertebra, sequela
S22021A	Stable burst fracture of second thoracic vertebra, initial encounter for closed fracture
S22021B	Stable burst fracture of second thoracic vertebra, initial encounter for open fracture
S22021D	Stable burst fracture of second thoracic vertebra, subsequent encounter for fracture with routine healing
S22021G	Stable burst fracture of second thoracic vertebra, subsequent encounter for fracture with delayed healing
S22021K	Stable burst fracture of second thoracic vertebra, subsequent encounter for fracture with nonunion
S22021S	Stable burst fracture of second thoracic vertebra, sequela
S22022A	Unstable burst fracture of second thoracic vertebra, initial encounter for closed fracture
S22022B	Unstable burst fracture of second thoracic vertebra, initial encounter for open fracture

Diagnosis Code	Description
S22022D	Unstable burst fracture of second thoracic vertebra, subsequent encounter for fracture with routine healing
S22022G	Unstable burst fracture of second thoracic vertebra, subsequent encounter for fracture with delayed healing
S22022K	Unstable burst fracture of second thoracic vertebra, subsequent encounter for fracture with nonunion
S22022S	Unstable burst fracture of second thoracic vertebra, sequela
S22028A	Other fracture of second thoracic vertebra, initial encounter for closed fracture
S22028B	Other fracture of second thoracic vertebra, initial encounter for open fracture
S22028D	Other fracture of second thoracic vertebra, subsequent encounter for fracture with routine healing
S22028G	Other fracture of second thoracic vertebra, subsequent encounter for fracture with delayed healing
S22028K	Other fracture of second thoracic vertebra, subsequent encounter for fracture with nonunion
S22028S	Other fracture of second thoracic vertebra, sequela
S22029A	Unspecified fracture of second thoracic vertebra, initial encounter for closed fracture
S22029B	Unspecified fracture of second thoracic vertebra, initial encounter for open fracture
S22029D	Unspecified fracture of second thoracic vertebra, subsequent encounter for fracture with routine healing
S22029G	Unspecified fracture of second thoracic vertebra, subsequent encounter for fracture with delayed healing
S22029K	Unspecified fracture of second thoracic vertebra, subsequent encounter for fracture with nonunion
S22029S	Unspecified fracture of second thoracic vertebra, sequela
S22030A	Wedge compression fracture of third thoracic vertebra, initial encounter for closed fracture
S22030B	Wedge compression fracture of third thoracic vertebra, initial encounter for open fracture
S22030D	Wedge compression fracture of third thoracic vertebra, subsequent encounter for fracture with routine healing
S22030G	Wedge compression fracture of third thoracic vertebra, subsequent encounter for fracture with delayed healing
S22030K	Wedge compression fracture of third thoracic vertebra, subsequent encounter for fracture with nonunion
S22030S	Wedge compression fracture of third thoracic vertebra, sequela
S22031A	Stable burst fracture of third thoracic vertebra, initial encounter for closed fracture
S22031B	Stable burst fracture of third thoracic vertebra, initial encounter for open fracture
S22031D	Stable burst fracture of third thoracic vertebra, subsequent encounter for fracture with routine healing
S22031G	Stable burst fracture of third thoracic vertebra, subsequent encounter for fracture with delayed healing
S22031K	Stable burst fracture of third thoracic vertebra, subsequent encounter for fracture with nonunion
S22031S	Stable burst fracture of third thoracic vertebra, sequela

Diagnosis Code	Description
S22032A	Unstable burst fracture of third thoracic vertebra, initial encounter for closed fracture
S22032B	Unstable burst fracture of third thoracic vertebra, initial encounter for open fracture
S22032D	Unstable burst fracture of third thoracic vertebra, subsequent encounter for fracture with routine healing
S22032G	Unstable burst fracture of third thoracic vertebra, subsequent encounter for fracture with delayed healing
S22032K	Unstable burst fracture of third thoracic vertebra, subsequent encounter for fracture with nonunion
S22032S	Unstable burst fracture of third thoracic vertebra, sequela
S22038A	Other fracture of third thoracic vertebra, initial encounter for closed fracture
S22038B	Other fracture of third thoracic vertebra, initial encounter for open fracture
S22038D	Other fracture of third thoracic vertebra, subsequent encounter for fracture with routine healing
S22038G	Other fracture of third thoracic vertebra, subsequent encounter for fracture with delayed healing
S22038K	Other fracture of third thoracic vertebra, subsequent encounter for fracture with nonunion
S22038S	Other fracture of third thoracic vertebra, sequela
S22039A	Unspecified fracture of third thoracic vertebra, initial encounter for closed fracture
S22039B	Unspecified fracture of third thoracic vertebra, initial encounter for open fracture
S22039D	Unspecified fracture of third thoracic vertebra, subsequent encounter for fracture with routine healing
S22039G	Unspecified fracture of third thoracic vertebra, subsequent encounter for fracture with delayed healing
S22039K	Unspecified fracture of third thoracic vertebra, subsequent encounter for fracture with nonunion
S22039S	Unspecified fracture of third thoracic vertebra, sequela
S22040A	Wedge compression fracture of fourth thoracic vertebra, initial encounter for closed fracture
S22040B	Wedge compression fracture of fourth thoracic vertebra, initial encounter for open fracture
S22040D	Wedge compression fracture of fourth thoracic vertebra, subsequent encounter for fracture with routine healing
S22040G	Wedge compression fracture of fourth thoracic vertebra, subsequent encounter for fracture with delayed healing
S22040K	Wedge compression fracture of fourth thoracic vertebra, subsequent encounter for fracture with nonunion
S22040S	Wedge compression fracture of fourth thoracic vertebra, sequela
S22041A	Stable burst fracture of fourth thoracic vertebra, initial encounter for closed fracture
S22041B	Stable burst fracture of fourth thoracic vertebra, initial encounter for open fracture
S22041D	Stable burst fracture of fourth thoracic vertebra, subsequent encounter for fracture with routine healing
S22041G	Stable burst fracture of fourth thoracic vertebra, subsequent encounter for fracture with delayed healing

Diagnosis Code	Description
S22041K	Stable burst fracture of fourth thoracic vertebra, subsequent encounter for fracture with nonunion
S22041S	Stable burst fracture of fourth thoracic vertebra, sequela
S22042A	Unstable burst fracture of fourth thoracic vertebra, initial encounter for closed fracture
S22042B	Unstable burst fracture of fourth thoracic vertebra, initial encounter for open fracture
S22042D	Unstable burst fracture of fourth thoracic vertebra, subsequent encounter for fracture with routine healing
S22042G	Unstable burst fracture of fourth thoracic vertebra, subsequent encounter for fracture with delayed healing
S22042K	Unstable burst fracture of fourth thoracic vertebra, subsequent encounter for fracture with nonunion
S22042S	Unstable burst fracture of fourth thoracic vertebra, sequela
S22048A	Other fracture of fourth thoracic vertebra, initial encounter for closed fracture
S22048B	Other fracture of fourth thoracic vertebra, initial encounter for open fracture

S22089G	Unspecified fracture of T11-T12 vertebra, subsequent encounter for fracture with delayed healing
S22089K	Unspecified fracture of T11-T12 vertebra, subsequent encounter for fracture with nonunion
S22089S	Unspecified fracture of T11-T12 vertebra, sequela
S24101A	Unspecified injury at T1 level of thoracic spinal cord, initial encounter
S24101D	Unspecified injury at T1 level of thoracic spinal cord, subsequent encounter
S24101S	Unspecified injury at T1 level of thoracic spinal cord, sequela
S24102A	Unspecified injury at T2-T6 level of thoracic spinal cord, initial encounter
S24102D	Unspecified injury at T2-T6 level of thoracic spinal cord, subsequent encounter
S24102S	Unspecified injury at T2-T6 level of thoracic spinal cord, sequela
S24103A	Unspecified injury at T7-T10 level of thoracic spinal cord, initial encounter
S24103D	Unspecified injury at T7-T10 level of thoracic spinal cord, subsequent encounter
S24103S	Unspecified injury at T7-T10 level of thoracic spinal cord, sequela
S24104A	Unspecified injury at T11-T12 level of thoracic spinal cord, initial encounter

Diagnosis Code	Description
S24104D	Unspecified injury at T11-T12 level of thoracic spinal cord, subsequent encounter
S24104S	Unspecified injury at T11-T12 level of thoracic spinal cord, sequela
S24111A	Complete lesion at T1 level of thoracic spinal cord, initial encounter
S24111D	Complete lesion at T1 level of thoracic spinal cord, subsequent encounter
S24111S	Complete lesion at T1 level of thoracic spinal cord, sequela
S24112A	Complete lesion at T2-T6 level of thoracic spinal cord, initial encounter
S24112D	Complete lesion at T2-T6 level of thoracic spinal cord, subsequent encounter
S24112S	Complete lesion at T2-T6 level of thoracic spinal cord, sequela
S24113A	Complete lesion at T7-T10 level of thoracic spinal cord, initial encounter
S24113D	Complete lesion at T7-T10 level of thoracic spinal cord, subsequent encounter
S24113S	Complete lesion at T7-T10 level of thoracic spinal cord, sequela
S24114A	Complete lesion at T11-T12 level of thoracic spinal cord, initial encounter
S24114D	Complete lesion at T11-T12 level of thoracic spinal cord, subsequent encounter
S24114S	Complete lesion at T11-T12 level of thoracic spinal cord, sequela
S24131A	Anterior cord syndrome at T1 level of thoracic spinal cord, initial encounter
S24131D	Anterior cord syndrome at T1 level of thoracic spinal cord, subsequent encounter
S24131S	Anterior cord syndrome at T1 level of thoracic spinal cord, sequela
S24132A	Anterior cord syndrome at T2-T6 level of thoracic spinal cord, initial encounter
S24132D	Anterior cord syndrome at T2-T6 level of thoracic spinal cord, subsequent encounter
S24132S	Anterior cord syndrome at T2-T6 level of thoracic spinal cord, sequela
S24133A	Anterior cord syndrome at T7-T10 level of thoracic spinal cord, initial encounter
S24133D	Anterior cord syndrome at T7-T10 level of thoracic spinal cord, subsequent encounter
S24133S	Anterior cord syndrome at T7-T10 level of thoracic spinal cord, sequela
S24134A	Anterior cord syndrome at T11-T12 level of thoracic spinal cord, initial encounter
S24134D	Anterior cord syndrome at T11-T12 level of thoracic spinal cord, subsequent encounter
S24134S	Anterior cord syndrome at T11-T12 level of thoracic spinal cord, sequela
S24141A	Brown-Sequard syndrome at T1 level of thoracic spinal cord, initial encounter
S24141D	Brown-Sequard syndrome at T1 level of thoracic spinal cord, subsequent encounter
S24141S	Brown-Sequard syndrome at T1 level of thoracic spinal cord, sequela
S24142A	Brown-Sequard syndrome at T2-T6 level of thoracic spinal cord, initial encounter
S24142D	Brown-Sequard syndrome at T2-T6 level of thoracic spinal cord, subsequent encounter
S24142S	Brown-Sequard syndrome at T2-T6 level of thoracic spinal cord, sequela
S24143A	Brown-Sequard syndrome at T7-T10 level of thoracic spinal cord, initial encounter
S24143D	Brown-Sequard syndrome at T7-T10 level of thoracic spinal cord, subsequent encounter
S24143S	Brown-Sequard syndrome at T7-T10 level of thoracic spinal cord, sequela
S24144A	Brown-Sequard syndrome at T11-T12 level of thoracic spinal cord, initial encounter
S24144D	Brown-Sequard syndrome at T11-T12 level of thoracic spinal cord, subsequent encounter

Diagnosis Code	Description
S24144S	Brown-Sequard syndrome at T11-T12 level of thoracic spinal cord, sequela
S24151A	Other incomplete lesion at T1 level of thoracic spinal cord, initial encounter
S24151D	Other incomplete lesion at T1 level of thoracic spinal cord, subsequent encounter
S24151S	Other incomplete lesion at T1 level of thoracic spinal cord, sequela
S24152A	Other incomplete lesion at T2-T6 level of thoracic spinal cord, initial encounter
S24152D	Other incomplete lesion at T2-T6 level of thoracic spinal cord, subsequent encounter
S24152S	Other incomplete lesion at T2-T6 level of thoracic spinal cord, sequela
S24153A	Other incomplete lesion at T7-T10 level of thoracic spinal cord, initial encounter
S24153D	Other incomplete lesion at T7-T10 level of thoracic spinal cord, subsequent encounter
S24153S	Other incomplete lesion at T7-T10 level of thoracic spinal cord, sequela
S24154A	Other incomplete lesion at T11-T12 level of thoracic spinal cord, initial encounter
S24154D	Other incomplete lesion at T11-T12 level of thoracic spinal cord, subsequent encounter
S24154S	Other incomplete lesion at T11-T12 level of thoracic spinal cord, sequela
S32009A	Unspecified fracture of unspecified lumbar vertebra, initial encounter for closed fracture
S32009B	Unspecified fracture of unspecified lumbar vertebra, initial encounter for open fracture
S32009D	Unspecified fracture of unspecified lumbar vertebra, subsequent encounter for fracture with routine healing
S32009G	Unspecified fracture of unspecified lumbar vertebra, subsequent encounter for fracture with delayed healing
S32009K	Unspecified fracture of unspecified lumbar vertebra, subsequent encounter for fracture with nonunion
S32009S	Unspecified fracture of unspecified lumbar vertebra, sequela
S32010A	Wedge compression fracture of first lumbar vertebra, initial encounter for closed fracture
S32010B	Wedge compression fracture of first lumbar vertebra, initial encounter for open fracture
S32010D	Wedge compression fracture of first lumbar vertebra, subsequent encounter for fracture with routine healing
S32010G	Wedge compression fracture of first lumbar vertebra, subsequent encounter for fracture with delayed healing
S32010K	Wedge compression fracture of first lumbar vertebra, subsequent encounter for fracture with nonunion
S32010S	Wedge compression fracture of first lumbar vertebra, sequela
S32011A	Stable burst fracture of first lumbar vertebra, initial encounter for closed fracture
S32011B	Stable burst fracture of first lumbar vertebra, initial encounter for open fracture
S32011D	Stable burst fracture of first lumbar vertebra, subsequent encounter for fracture with routine healing
S32011G	Stable burst fracture of first lumbar vertebra, subsequent encounter for fracture with delayed healing
S32011K	Stable burst fracture of first lumbar vertebra, subsequent encounter for fracture with nonunion

Diagnosis Code	Description
S32011S	Stable burst fracture of first lumbar vertebra, sequela
S32012A	Unstable burst fracture of first lumbar vertebra, initial encounter for closed fracture
S32012B	Unstable burst fracture of first lumbar vertebra, initial encounter for open fracture
S32012D	Unstable burst fracture of first lumbar vertebra, subsequent encounter for fracture with routine healing
S32012G	Unstable burst fracture of first lumbar vertebra, subsequent encounter for fracture with delayed healing
S32012K	Unstable burst fracture of first lumbar vertebra, subsequent encounter for fracture with nonunion
S32012S	Unstable burst fracture of first lumbar vertebra, sequela
S32018A	Other fracture of first lumbar vertebra, initial encounter for closed fracture
S32018B	Other fracture of first lumbar vertebra, initial encounter for open fracture
S32018D	Other fracture of first lumbar vertebra, subsequent encounter for fracture with routine healing
S32018G	Other fracture of first lumbar vertebra, subsequent encounter for fracture with delayed healing
S32018K	Other fracture of first lumbar vertebra, subsequent encounter for fracture with nonunion
S32018S	Other fracture of first lumbar vertebra, sequela
S32020A	Wedge compression fracture of second lumbar vertebra, initial encounter for closed fracture
S32020B	Wedge compression fracture of second lumbar vertebra, initial encounter for open fracture
S32020D	Wedge compression fracture of second lumbar vertebra, subsequent encounter for fracture with routine healing
S32020G	Wedge compression fracture of second lumbar vertebra, subsequent encounter for fracture with delayed healing
S32020K	Wedge compression fracture of second lumbar vertebra, subsequent encounter for fracture with nonunion
S32020S	Wedge compression fracture of second lumbar vertebra, sequela
S32021A	Stable burst fracture of second lumbar vertebra, initial encounter for closed fracture
S32021B	Stable burst fracture of second lumbar vertebra, initial encounter for open fracture
S32021D	Stable burst fracture of second lumbar vertebra, subsequent encounter for fracture with routine healing
S32021G	Stable burst fracture of second lumbar vertebra, subsequent encounter for fracture with delayed healing
S32021K	Stable burst fracture of second lumbar vertebra, subsequent encounter for fracture with nonunion
S32021S	Stable burst fracture of second lumbar vertebra, sequela
S32022A	Unstable burst fracture of second lumbar vertebra, initial encounter for closed fracture
S32022B	Unstable burst fracture of second lumbar vertebra, initial encounter for open fracture
S32022D	Unstable burst fracture of second lumbar vertebra, subsequent encounter for fracture with routine healing

Diagnosis Code	Description
S32022G	Unstable burst fracture of second lumbar vertebra, subsequent encounter for fracture with delayed healing
S32022K	Unstable burst fracture of second lumbar vertebra, subsequent encounter for fracture with nonunion
S32022S	Unstable burst fracture of second lumbar vertebra, sequela
S32028A	Other fracture of second lumbar vertebra, initial encounter for closed fracture
S32028B	Other fracture of second lumbar vertebra, initial encounter for open fracture
S32028D	Other fracture of second lumbar vertebra, subsequent encounter for fracture with routine healing
S32028G	Other fracture of second lumbar vertebra, subsequent encounter for fracture with delayed healing
S32028K	Other fracture of second lumbar vertebra, subsequent encounter for fracture with nonunion
S32028S	Other fracture of second lumbar vertebra, sequela
S32030A	Wedge compression fracture of third lumbar vertebra, initial encounter for closed fracture
S32030B	Wedge compression fracture of third lumbar vertebra, initial encounter for open fracture
S32030D	Wedge compression fracture of third lumbar vertebra, subsequent encounter for fracture with routine healing
S32030G	Wedge compression fracture of third lumbar vertebra, subsequent encounter for fracture with delayed healing
S32030K	Wedge compression fracture of third lumbar vertebra, subsequent encounter for fracture with nonunion
S32030S	Wedge compression fracture of third lumbar vertebra, sequela
S32031A	Stable burst fracture of third lumbar vertebra, initial encounter for closed fracture
S32031B	Stable burst fracture of third lumbar vertebra, initial encounter for open fracture
S32031D	Stable burst fracture of third lumbar vertebra, subsequent encounter for fracture with routine healing
S32031G	Stable burst fracture of third lumbar vertebra, subsequent encounter for fracture with delayed healing
S32031K	Stable burst fracture of third lumbar vertebra, subsequent encounter for fracture with nonunion
S32031S	Stable burst fracture of third lumbar vertebra, sequela
S32032A	Unstable burst fracture of third lumbar vertebra, initial encounter for closed fracture
S32032B	Unstable burst fracture of third lumbar vertebra, initial encounter for open fracture
S32032D	Unstable burst fracture of third lumbar vertebra, subsequent encounter for fracture with routine healing
S32032G	Unstable burst fracture of third lumbar vertebra, subsequent encounter for fracture with delayed healing
S32032K	Unstable burst fracture of third lumbar vertebra, subsequent encounter for fracture with nonunion
S32032S	Unstable burst fracture of third lumbar vertebra, sequela
S32038A	Other fracture of third lumbar vertebra, initial encounter for closed fracture

Diagnosis Code	Description
S32038B	Other fracture of third lumbar vertebra, initial encounter for open fracture
S32038D	Other fracture of third lumbar vertebra, subsequent encounter for fracture with routine healing
S32038G	Other fracture of third lumbar vertebra, subsequent encounter for fracture with delayed healing
S32038K	Other fracture of third lumbar vertebra, subsequent encounter for fracture with nonunion
S32038S	Other fracture of third lumbar vertebra, sequela
S32040A	Wedge compression fracture of fourth lumbar vertebra, initial encounter for closed fracture
S32040B	Wedge compression fracture of fourth lumbar vertebra, initial encounter for open fracture
S32040D	Wedge compression fracture of fourth lumbar vertebra, subsequent encounter for fracture with routine healing
S32040G	Wedge compression fracture of fourth lumbar vertebra, subsequent encounter for fracture with delayed healing
S32040K	Wedge compression fracture of fourth lumbar vertebra, subsequent encounter for fracture with nonunion
S32040S	Wedge compression fracture of fourth lumbar vertebra, sequela
S32041A	Stable burst fracture of fourth lumbar vertebra, initial encounter for closed fracture
S32041B	Stable burst fracture of fourth lumbar vertebra, initial encounter for open fracture
S32041D	Stable burst fracture of fourth lumbar vertebra, subsequent encounter for fracture with routine healing
S32041G	Stable burst fracture of fourth lumbar vertebra, subsequent encounter for fracture with delayed healing
S32041K	Stable burst fracture of fourth lumbar vertebra, subsequent encounter for fracture with nonunion
S32041S	Stable burst fracture of fourth lumbar vertebra, sequela
S32042A	Unstable burst fracture of fourth lumbar vertebra, initial encounter for closed fracture
S32042B	Unstable burst fracture of fourth lumbar vertebra, initial encounter for open fracture
S32042D	Unstable burst fracture of fourth lumbar vertebra, subsequent encounter for fracture with routine healing
S32042G	Unstable burst fracture of fourth lumbar vertebra, subsequent encounter for fracture with delayed healing
S32042K	Unstable burst fracture of fourth lumbar vertebra, subsequent encounter for fracture with nonunion
S32042S	Unstable burst fracture of fourth lumbar vertebra, sequela
S32048A	Other fracture of fourth lumbar vertebra, initial encounter for closed fracture
S32048B	Other fracture of fourth lumbar vertebra, initial encounter for open fracture
S32048D	Other fracture of fourth lumbar vertebra, subsequent encounter for fracture with routine healing
S32048G	Other fracture of fourth lumbar vertebra, subsequent encounter for fracture with delayed healing
S32048K	Other fracture of fourth lumbar vertebra, subsequent encounter for fracture with nonunion

Diagnosis Code	Description
S32048S	Other fracture of fourth lumbar vertebra, sequela
S32050A	Wedge compression fracture of fifth lumbar vertebra, initial encounter for closed fracture
S32050B	Wedge compression fracture of fifth lumbar vertebra, initial encounter for open fracture
S32050D	Wedge compression fracture of fifth lumbar vertebra, subsequent encounter for fracture with routine healing
S32050G	Wedge compression fracture of fifth lumbar vertebra, subsequent encounter for fracture with delayed healing
S32050K	Wedge compression fracture of fifth lumbar vertebra, subsequent encounter for fracture with nonunion
S32050S	Wedge compression fracture of fifth lumbar vertebra, sequela
S32051A	Stable burst fracture of fifth lumbar vertebra, initial encounter for closed fracture
S32051B	Stable burst fracture of fifth lumbar vertebra, initial encounter for open fracture
S32051D	Stable burst fracture of fifth lumbar vertebra, subsequent encounter for fracture with routine healing
S32051G	Stable burst fracture of fifth lumbar vertebra, subsequent encounter for fracture with delayed healing
S32051K	Stable burst fracture of fifth lumbar vertebra, subsequent encounter for fracture with nonunion
S32051S	Stable burst fracture of fifth lumbar vertebra, sequela
S32052A	Unstable burst fracture of fifth lumbar vertebra, initial encounter for closed fracture
S32052B	Unstable burst fracture of fifth lumbar vertebra, initial encounter for open fracture
S32052D	Unstable burst fracture of fifth lumbar vertebra, subsequent encounter for fracture with routine healing
S32052G	Unstable burst fracture of fifth lumbar vertebra, subsequent encounter for fracture with delayed healing
S32052K	Unstable burst fracture of fifth lumbar vertebra, subsequent encounter for fracture with nonunion
S32052S	Unstable burst fracture of fifth lumbar vertebra, sequela
S32058A	Other fracture of fifth lumbar vertebra, initial encounter for closed fracture
S32058B	Other fracture of fifth lumbar vertebra, initial encounter for open fracture
S32058D	Other fracture of fifth lumbar vertebra, subsequent encounter for fracture with routine healing
S32058G	Other fracture of fifth lumbar vertebra, subsequent encounter for fracture with delayed healing
S32058K	Other fracture of fifth lumbar vertebra, subsequent encounter for fracture with nonunion
S32058S	Other fracture of fifth lumbar vertebra, sequela
S32110A	Nondisplaced Zone I fracture of sacrum, initial encounter for closed fracture
S32110B	Nondisplaced Zone I fracture of sacrum, initial encounter for open fracture
S32110D	Nondisplaced Zone I fracture of sacrum, subsequent encounter for fracture with routine healing

Diagnosis Code	Description
S32110G	Nondisplaced Zone I fracture of sacrum, subsequent encounter for fracture with delayed healing
S32110K	Nondisplaced Zone I fracture of sacrum, subsequent encounter for fracture with nonunion
S32110S	Nondisplaced Zone I fracture of sacrum, sequela
S32111A	Minimally displaced Zone I fracture of sacrum, initial encounter for closed fracture
S32111B	Minimally displaced Zone I fracture of sacrum, initial encounter for open fracture
S32111D	Minimally displaced Zone I fracture of sacrum, subsequent encounter for fracture with routine healing
S32111G	Minimally displaced Zone I fracture of sacrum, subsequent encounter for fracture with delayed healing
S32111K	Minimally displaced Zone I fracture of sacrum, subsequent encounter for fracture with nonunion
S32111S	Minimally displaced Zone I fracture of sacrum, sequela
S32112A	Severely displaced Zone I fracture of sacrum, initial encounter for closed fracture
S32112B	Severely displaced Zone I fracture of sacrum, initial encounter for open fracture
S32112D	Severely displaced Zone I fracture of sacrum, subsequent encounter for fracture with routine healing
S32112G	Severely displaced Zone I fracture of sacrum, subsequent encounter for fracture with delayed healing
S32112K	Severely displaced Zone I fracture of sacrum, subsequent encounter for fracture with nonunion
S32112S	Severely displaced Zone I fracture of sacrum, sequela
S32120A	Nondisplaced Zone II fracture of sacrum, initial encounter for closed fracture
S32120B	Nondisplaced Zone II fracture of sacrum, initial encounter for open fracture
S32120D	Nondisplaced Zone II fracture of sacrum, subsequent encounter for fracture with routine healing
S32120G	Nondisplaced Zone II fracture of sacrum, subsequent encounter for fracture with delayed healing
S32120K	Nondisplaced Zone II fracture of sacrum, subsequent encounter for fracture with nonunion
S32120S	Nondisplaced Zone II fracture of sacrum, sequela
S32121A	Minimally displaced Zone II fracture of sacrum, initial encounter for closed fracture
S32121B	Minimally displaced Zone II fracture of sacrum, initial encounter for open fracture
S32121D	Minimally displaced Zone II fracture of sacrum, subsequent encounter for fracture with routine healing
S32121G	Minimally displaced Zone II fracture of sacrum, subsequent encounter for fracture with delayed healing
S32121K	Minimally displaced Zone II fracture of sacrum, subsequent encounter for fracture with nonunion
S32121S	Minimally displaced Zone II fracture of sacrum, sequela
S32122A	Severely displaced Zone II fracture of sacrum, initial encounter for closed fracture
S32122B	Severely displaced Zone II fracture of sacrum, initial encounter for open fracture

Diagnosis Code	Description
S32122D	Severely displaced Zone II fracture of sacrum, subsequent encounter for fracture with routine healing
S32122G	Severely displaced Zone II fracture of sacrum, subsequent encounter for fracture with delayed healing
S32122K	Severely displaced Zone II fracture of sacrum, subsequent encounter for fracture with nonunion
S32122S	Severely displaced Zone II fracture of sacrum, sequela
S32130A	Nondisplaced Zone III fracture of sacrum, initial encounter for closed fracture
S32130B	Nondisplaced Zone III fracture of sacrum, initial encounter for open fracture
S32130D	Nondisplaced Zone III fracture of sacrum, subsequent encounter for fracture with routine healing
S32130G	Nondisplaced Zone III fracture of sacrum, subsequent encounter for fracture with delayed healing
S32130K	Nondisplaced Zone III fracture of sacrum, subsequent encounter for fracture with nonunion
S32130S	Nondisplaced Zone III fracture of sacrum, sequela
S32131A	Minimally displaced Zone III fracture of sacrum, initial encounter for closed fracture
S32131B	Minimally displaced Zone III fracture of sacrum, initial encounter for open fracture
S32131D	Minimally displaced Zone III fracture of sacrum, subsequent encounter for fracture with routine healing
S32131G	Minimally displaced Zone III fracture of sacrum, subsequent encounter for fracture with delayed healing
S32131K	Minimally displaced Zone III fracture of sacrum, subsequent encounter for fracture with nonunion
S32131S	Minimally displaced Zone III fracture of sacrum, sequela
S32132A	Severely displaced Zone III fracture of sacrum, initial encounter for closed fracture
S32132B	Severely displaced Zone III fracture of sacrum, initial encounter for open fracture
S32132D	Severely displaced Zone III fracture of sacrum, subsequent encounter for fracture with routine healing
S32132G	Severely displaced Zone III fracture of sacrum, subsequent encounter for fracture with delayed healing
S32132K	Severely displaced Zone III fracture of sacrum, subsequent encounter for fracture with nonunion
S32132S	Severely displaced Zone III fracture of sacrum, sequela
S3214XA	Type 1 fracture of sacrum, initial encounter for closed fracture
S3214XB	Type 1 fracture of sacrum, initial encounter for open fracture
S3214XD	Type 1 fracture of sacrum, subsequent encounter for fracture with routine healing
S3214XG	Type 1 fracture of sacrum, subsequent encounter for fracture with delayed healing
S3214XK	Type 1 fracture of sacrum, subsequent encounter for fracture with nonunion
S3214XS	Type 1 fracture of sacrum, sequela
S3215XA	Type 2 fracture of sacrum, initial encounter for closed fracture
S3215XB	Type 2 fracture of sacrum, initial encounter for open fracture
S3215XD	Type 2 fracture of sacrum, subsequent encounter for fracture with routine healing

Diagnosis Code	Description
S3215XG	Type 2 fracture of sacrum, subsequent encounter for fracture with delayed healing
S3215XK	Type 2 fracture of sacrum, subsequent encounter for fracture with nonunion
S3215XS	Type 2 fracture of sacrum, sequela
S3216XA	Type 3 fracture of sacrum, initial encounter for closed fracture
S3216XB	Type 3 fracture of sacrum, initial encounter for open fracture
S3216XD	Type 3 fracture of sacrum, subsequent encounter for fracture with routine healing
S3216XG	Type 3 fracture of sacrum, subsequent encounter for fracture with delayed healing
S3216XK	Type 3 fracture of sacrum, subsequent encounter for fracture with nonunion
S3216XS	Type 3 fracture of sacrum, sequela
S3217XA	Type 4 fracture of sacrum, initial encounter for closed fracture
S3217XB	Type 4 fracture of sacrum, initial encounter for open fracture
S3217XD	Type 4 fracture of sacrum, subsequent encounter for fracture with routine healing
S3217XG	Type 4 fracture of sacrum, subsequent encounter for fracture with delayed healing
S3217XK	Type 4 fracture of sacrum, subsequent encounter for fracture with nonunion
S3217XS	Type 4 fracture of sacrum, sequela
S3219XA	Other fracture of sacrum, initial encounter for closed fracture
S3219XB	Other fracture of sacrum, initial encounter for open fracture
S3219XD	Other fracture of sacrum, subsequent encounter for fracture with routine healing
S3219XG	Other fracture of sacrum, subsequent encounter for fracture with delayed healing
S3219XK	Other fracture of sacrum, subsequent encounter for fracture with nonunion
S3219XS	Other fracture of sacrum, sequela
S322XXA	Fracture of coccyx, initial encounter for closed fracture
S322XXB	Fracture of coccyx, initial encounter for open fracture
S322XXD	Fracture of coccyx, subsequent encounter for fracture with routine healing
S322XXG	Fracture of coccyx, subsequent encounter for fracture with delayed healing
S322XXK	Fracture of coccyx, subsequent encounter for fracture with nonunion
S322XXS	Fracture of coccyx, sequela
T83011A	Breakdown (mechanical) of indwelling urethral catheter, initial encounter
T83011D	Breakdown (mechanical) of indwelling urethral catheter, subsequent encounter
T83011S	Breakdown (mechanical) of indwelling urethral catheter, sequela
T83021A	Displacement of indwelling urethral catheter, initial encounter
T83021D	Displacement of indwelling urethral catheter, subsequent encounter
T83021S	Displacement of indwelling urethral catheter, sequela
T83031A	Leakage of indwelling urethral catheter, initial encounter
T83031D	Leakage of indwelling urethral catheter, subsequent encounter
T83031S	Leakage of indwelling urethral catheter, sequela
T83032A	Leakage of nephrostomy catheter, initial encounter
T83032D	Leakage of nephrostomy catheter, subsequent encounter
T83032S	Leakage of nephrostomy catheter, sequela

Diagnosis Code	Description
T83091A	Other mechanical complication of indwelling urethral catheter, initial encounter
T83091D	Other mechanical complication of indwelling urethral catheter, subsequent encounter
T83091S	Other mechanical complication of indwelling urethral catheter, sequela
T83092A	Other mechanical complication of nephrostomy catheter, initial encounter
T83092D	Other mechanical complication of nephrostomy catheter, subsequent encounter
T83092S	Other mechanical complication of nephrostomy catheter, sequela
T83511A	Infection and inflammatory reaction due to indwelling urethral catheter, initial encounter
T83511D	Infection and inflammatory reaction due to indwelling urethral catheter, subsequent encounter
T83511S	Infection and inflammatory reaction due to indwelling urethral catheter, sequela
T83518A	Infection and inflammatory reaction due to other urinary catheter, initial encounter
T83518D	Infection and inflammatory reaction due to other urinary catheter, subsequent encounter
T83518S	Infection and inflammatory reaction due to other urinary catheter, sequela

FEDERALLY QUALIFIED HEALTH CENTERS (FQHC) AND RURAL HEALTH CLINICS (RHC)

CSHCN SERVICES PROGRAM PROVIDER MANUAL

JULY 2017

FEDERALLY QUALIFIED HEALTH CENTERS (FQHC) AND RURAL HEALTH CLINICS (RHC)

Table of Contents

19.1	Enrollment	3
19.2	Benefits, Limitations and Authorization Requirements	3
19.2.1	General Medical Services	3
19.2.2	Preventive Care Medical Checkups	4
19.2.3	Telecommunication Services	4
19.2.4	Behavioral Health Services	5
19.2.5	Dental Services	5
19.2.6	Vision Services	6
19.3	Claims Filing	6
19.4	Reimbursement	6
19.5	TMHP-CSHCN Services Program Contact Center	7

19.1 Enrollment

Rural health clinics (RHCs), federally qualified health centers (FQHCs), federally qualified look-alikes (FQL), federally qualified satellites (FQS) and rural health clinics can enroll as providers for the Children with Special Health Care Needs (CSHCN) Services Program.

To enroll in the CSHCN Services Program, FQHC and RHC providers must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the TMHP-CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements.

Out-of-state FQHC and RHC providers must meet all these conditions and be located in the United States within 50 miles of the Texas state border.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1).

Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program enrollment procedures.

19.2 Benefits, Limitations and Authorization Requirements

19.2.1 General Medical Services

The procedure codes in the following table are a benefit of the CSHCN Services Program when they are provided by FQHC providers and billed with a general services modifier:

General Medical Services						
T1015	96160	96161	99381	99382	99383	99384
99385	99386	99387	99391	99392	99393	99394
99395	99396	99397				
General medical services must be billed with one of the appropriate modifiers: AH, AJ, AM, SA, TD, TE, or U7.						

Note: *Procedure codes 96160 and 96161 are benefits of the CSHCN Services Program for clients who are 12 through 18 years of age and are limited to once per lifetime.*

Referto: Section 31.2.18.10, “Preventive Care Medical Checkup Components” in Chapter 31, “Physician” in the Physician chapter for more specific information about guidelines and requirements for procedure codes 96160 and 96161.

The general medical services modifiers are defined as follows:

Modifier	Services Performed
AH	Services Performed By Psychologist
AJ	Services Performed By Social Worker
AM	Services Performed By Physician, Team Member Services
SA	Services Performed By Nurse Practitioner In Collaboration With Physician
TD	Services Performed By Registered Nurs
TE	Services Performed By Lpn Or Lvn
U7	Services Performed By Physician Assistant Other Than For Assisant At Surgery

All services provided during an RHC encounter must be submitted using procedure code T1015. The total submitted amount should be the combined charges for all services provided during that encounter.

One of the following modifiers must be reported with procedure code T1015 to designate the health-care professional providing the services: AH, AJ, AM, SA, TD, TE, or U7.

19.2.2 Preventive Care Medical Checkups

The procedure codes in the following table are a benefit of the CSHCN Services Program when they are provided by FQHC providers and billed with one of the general services modifiers above:

Preventive Care Medical Checkups									
96160	96161	99385	99386	99387	99395	99396	99397	99381	99382
99383	99384	99385	99395	99391					

Note: Procedure codes 96160 and 96161 are benefits of the CSHCN Services Program for clients who are 12 through 18 years of age and are limited to once per lifetime.

Referto: Section 31.2.18.10, “Preventive Care Medical Checkup Components” in Chapter 31, “Physician” in the Physician chapter for more specific information about guidelines and requirements for procedure codes 96160 and 96161.

Adult preventive care must be billed with diagnosis code Z0000 or Z0001. Pediatric preventive care must be billed with diagnosis code Z00121 or Z00129. The provider cannot submit modifier EP for pediatric services.

19.2.3 Telecommunication Services

The procedure codes in the following table are a benefit of the CSHCN Services Program when they are provided by FQHC providers for telemedicine services at a distant site location:

Procedure Codes									
99201	99202	99203	99204	99205	99211	99212	99213	99214	99215

Referto: Section 38.2.2, “Telemedicine Services” in Chapter 38, “Telecommunication Services” for more detailed information about telemedicine services.

19.2.4 Behavioral Health Services

The procedure codes in the following table are a benefit of the CSHCN Services Program when they are provided by FQHC or RHC providers are billed with a general services modifier:

Behavioral Health Services				
90847	90853	90865	96101	96118

Mental health services must be billed using one of the appropriate general services modifiers as listed and defined below:

Modifier	Services performed
AH	Services performed by psychologist
AJ	Services performed by social worker
AM	Services performed by physician, team member services
U1	Services performed by licensed professional counselor
U2	Services performed by licensed marriage and family therapist
U7	Services performed by physician assistant other than for assistant at surgery

19.2.5 Dental Services

The procedure codes in the following table are a benefit of the CSHCN Services Program when they are provided by FQHC or RHC providers:

Procedure Codes						
D0120	D0140	D0145	D0150	D0160	D0170	D0180
D0330	D0340	D0350	D0470	D1110	D1120	D1206
D1351	D1510	D1515	D1520	D1525	D1555	D2140
D2150	D2160	D2161	D2330	D2331	D2332	D2335
D2390	D2391	D2392	D2393	D2394	D2750	D2751
D2791	D2792	D2930	D2931	D2932	D2933	D2934

S0621									

19.3 Claims Filing

All services require documentation to support the medical necessity of the service rendered. All services provided are subject to retrospective review and recoupment if documentation does not support the service that was submitted for reimbursement.

FQHC and RHC services must be submitted to TMHP in an approved electronic format or on the following paper claim forms:

For FQHC:

Services	Claim Form
Medical services	UB-04 CMS-1450 or CMS-1500 paper claim form
Dental services	American Dental Association (ADA) Dental Claim Form

For RHC:

Services	Claim Form
Medical services	UB-04 CMS-1450 paper claim form

When completing a paper claim form, the provider must include all required information on the claim because information is not keyed from attachments. Super bills or itemized statements are not accepted as claim supplements.

19.4 Reimbursement

CSHCN FQHCs are reimbursed the lower of the billed amount or the Texas Medicaid provider-specific prospective payment system encounter rates.

CSHCN freestanding and hospital-based RHCs are reimbursed the lower of the billed amount or the Texas Medicaid provider-specific per visit rates.

19.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

20.6 TMHP-CSHCN Services Program Contact Center19

20.1 Enrollment

Appropriately-licensed providers may enroll as CSHCN Services Program providers by completing the provider enrollment application available through the TMHP-CSHCN Services Program. Providers must be actively enrolled as Texas Medicaid providers before enrolling in the CSHCN Services Program. Out-of-state providers must meet all applicable enrollment requirements, and be located in the United States, within 50 miles of the Texas state border.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

20.1.1 Non-Implantable Hearing Aid Devices and Services

A provider of hearing aid fitting and dispensing services must be licensed by the Texas State Committee of Examiners for Speech, Language, Pathology, and Audiology.

Audiologists may enroll with the CSHCN Services Program as individuals or as groups. Hearing aid fitters and dispensers may enroll with the CSHCN Services Program as individuals or as facilities.

Audiologists may enroll as both audiologists and as hearing aid fitters and dispensers by completing an enrollment application for each type of provider (i.e., select “Audiologist” on one application and “Hearing Aid” on the other application).

20.1.2 Implantable Hearing Aid Devices and Services

To enroll in the CSHCN Services Program, hearing services professionals who provide implantable hearing devices and services must be appropriately enrolled according to their licensure and scope of practice.

20.2 Benefits, Limitations, and Authorization Requirements – Non-Implantable Devices and Services

The CSHCN Services Program hearing services benefit includes those services that are medically necessary for clients of any age who have suspected or identified hearing loss that can be improved or ameliorated using a hearing aid device.

Such services may be reimbursed to audiologists or hearing aid fitters and dispensers as follows:

- Audiologist and physician providers may be reimbursed for audiology and audiometry evaluation and diagnostic services for suspected and confirmed hearing loss including, but not limited to, the following:
 - Hearing screening
 - Audiometric testing
 - Otological examination
 - Vestibular evaluation
 - Hearing aid evaluation
- Hearing aid fitters and dispensers may be reimbursed for hearing aid devices and accessories, fitting and dispensing visits, and revisits including, but not limited to, the following:
 - Ear molds
 - Hearing aid device
 - Hearing aid fitting
 - Follow-up visits at 30 days (first follow-up) and 60 days (second follow-up)
 - Hearing aid repair
 - Refit and evaluation after repair
 - Hearing aid batteries and supplies

***Note:** Hearing-related services that are medically necessary because of a medical condition that cannot be improved or ameliorated using a non-implantable hearing aid device are not considered part of the CSHCN Services Program hearing services benefit. Providers may refer to the other CSHCN Services Program Provider Manual chapters for benefit and limitation information about other hearing-related services.*

All services provided to CSHCN Services Program clients must be medically necessary. Unless otherwise specified, services may be reimbursed without prior authorization within the set limitations noted in this chapter. Providers must request prior authorization for medically necessary services that exceed benefit limitations and for those services for which prior authorization is required.

***Note:** CSHCN Services Program clients who are 17 years of age or older who are legal residents of the state of Texas, and who are employable, may be eligible for assistance from the Department of Assistive and Rehabilitative Services (DARS). The CSHCN Services Program may request that clients who meet these requirements apply to DARS, as the CSHCN Services Program is the payor of last resort.*

20.2.1 Hearing Screening

A hearing screening that is provided due to client concern, or at the provider's discretion, is a benefit for clients of any age when the client is referred by a CSHCN Services Program-enrolled physician, and the screening is provided by a CSHCN Services Program-enrolled provider that is licensed to perform these services.

20.2.2 Abnormal Hearing Screens

Clients with abnormal hearing screens must be referred to a CSHCN Services Program-enrolled licensed audiologist or physician that provides audiology services.

Clients who are birth through 35 months of age with suspected or confirmed hearing loss must be referred to Early Childhood Intervention (ECI) as soon as possible but no longer than 7 days after identification, even if the client is also referred to an appropriate provider for further testing.

20.2.3 Hearing Testing, Examination, and Evaluation Services

20.2.3.1 Audiometric Testing

A basic comprehensive audiometry survey is a benefit of the CSHCN Services Program and includes the following tests:

- Tympanometry and reflex threshold measurements
- Screening test, pure tone, air only
- Pure tone audiometry
- Speech audiometry threshold
- Comprehensive audiometry threshold evaluation and speech recognition

The following procedure codes may be reimbursed for a basic comprehensive audiometry survey:

Procedure Codes						
92550	92551	92552	92553	92555	92556	92557

The following additional audiometric tests may also be reimbursed by the CSHCN Services Program:

Procedure Codes						
92558	92563	92564	92565	92567	92568	92570
92571	92572	92575	92576	92577	92579	92582
92583	92584	92585	92586	92587	92588	

20.2.3.2 Otological Examination

An otological examination is a benefit of the CSHCN Services Program when it is medically necessary and provided by a CSHCN Services Program-enrolled physician licensed to perform this service.

Procedure codes 92502 and 92504 may be reimbursed for otological examination.

An otological examination may also include physician evaluation and management services that are provided to diagnose or treat medical conditions.

Referto: Section 31.2.18, “Evaluation and Management (E/M) Services” in Chapter 31, “Physician” for more information about medically necessary physician evaluation and management services.

20.2.3.3 Vestibular Evaluations

A vestibular evaluation is a benefit of the CSHCN Services Program when it is medically necessary and provided by a CSHCN Services Program-enrolled physician, and the screening is provided by a CSHCN Services Program-enrolled provider licensed to perform these services.

The following procedure codes may be reimbursed for vestibular evaluations:

Procedure Codes						
92531	92532	92533	92534	92537	92538	92540
92541	92542	92544	92545	92546	92547	

20.2.3.4 Authorization/Documentation Requirements

Authorization is not required for hearing services for the evaluation and diagnosis of hearing loss. Documentation of medical necessity must be maintained by the provider in the client’s medical record. Retrospective review may be performed to ensure that the documentation supports medical necessity for the service.

20.2.3.5 Limitations

Procedure codes 92553 and 92556 are not reimbursed on the same day by the same provider. If these procedure codes are billed for the same date of service, they are denied with instructions to bill with the more appropriate, comprehensive audiometry procedure code 92557.

Procedure codes 92551, 92552, and 92553 for pure tone audiometry are limited to one of any of these procedure codes per day, any provider.

Evoked response testing (procedure codes 92558, 92585, 92586, 92587, and 92588) is considered a bilateral procedure. If separate charges are billed for left- and right-sided tests of the same type, the tests are combined and reimbursed as a quantity of one.

Procedure code 92547 is an add-on code, and must be billed with the primary procedure code (92541, 92542, 92544, 92545, or 92546) with the same date of service by the same provider in order to be considered for reimbursement.

Procedure codes 92620, 92621, and 92625 may be reimbursed by the CSHCN Services Program.

Tympanometry (impedance testing) procedure code 92567 may be reimbursed as an objective diagnostic test of middle ear disease and is limited to three services per rolling year by any provider.

Acoustic reflex testing procedure code 92568 is limited to the following diagnosis codes:

Diagnosis Codes				
D333	G510	G511	G518	G519
H8001	H8002	H8003	H8011	H8012

H93212	H93213	H93221	H93222	H93223
H93231	H93232	H93233	H93241	H93242
H93243	H93291	H93292	H93293	H933X1
H933X2	H933X3	H933X9	Q179	R42

Procedure code 92591 may be reimbursed for a hearing screening or other hearing aid examination.

Two hearing aid revisits may be reimbursed per calendar year. Procedure code 92592 may be reimbursed for the first and second revisits for monaural hearing aid fittings. Procedure code 92593 may be reimbursed for the first and second revisits for binaural hearing aid fittings. Testing and evaluation procedure codes are subject to National Correct Coding Initiative (NCCI) relationships with the following exceptions.

20.2.4 Hearing Aid Devices and Accessories

Nonimplantable hearing aid devices and accessories are benefits of the CSHCN Services Program.

Important: *TMHP does not supply the hearing aid devices, supplies, and accessories. Providers must purchase equipment directly from the manufacturers of their choice and submit claims to TMHP for reimbursement using the appropriate procedure codes.*

The CSHCN Services Program may reimburse hearing aid fitters and dispensers for the following services:

Service	Limitation
Hearing aid devices	<p>Limitation: 1 per ear every 5 years. One of the following may be reimbursed:</p> <ul style="list-style-type: none"> • If only one ear requires a hearing aid device, one monaural hearing aid procedure code with the appropriate modifier LT or RT may be reimbursed without prior authorization once every 5 years from the dispensing date of the initial services. • If within the same 5-year period, the other ear requires a hearing aid device, a second monaural hearing aid device procedure code with the appropriate modifier LT or RT may be reimbursed without prior authorization and a separate 5-year period will begin for the second device. • If both ears require a hearing aid device at the same time, one binaural hearing aid procedure code may be reimbursed once every 5 years from the dispensing date of the initial services without prior authorization. For binaural procedure codes, bill a quantity of 1. <p>Replacement hearing aid devices that are required within the same 5-year period must be prior authorized.</p> <p>Repairs or modifications may be reimbursed once per year after the 1-year warranty period has lapsed if the requested repair or modification is a better alternative than a new purchase. If repairs are required more than once per year, additional repairs or modifications may be reimbursed with prior authorization if medical necessity can be demonstrated.</p> <p>Procedure codes: See below for monaural and binaural procedure codes. Procedure code V5014 may be reimbursed for repairs and modifications.</p> <p>Date of service: The date of service for the initial hearing aid device is the date the client successfully completes the 30-day trial period and accepts the hearing aid device.</p> <p>The date of service for the repair or modification is the date the client receives the repaired or modified hearing aid device.</p> <p>Warranty note: During the warranty period, the CSHCN Services Program may reimburse providers for a replacement hearing aid and replacement hearing aid batteries. The CSHCN Services Program will not reimburse hearing aid repairs or modifications that are rendered during the 12-month manufacturer’s warranty period. Providers must follow the manufacturer’s repair process as outlined in their warranty contract.</p>

Service	Limitation
Hearing aid accessories	<p>Limitation: As often as is medically necessary with prior authorization.</p> <p><i>Note: Hearing aid accessories that are not part of the hearing aid package include, but are not limited to, chin straps, clips, boots, and headbands. The items are not supplied by TMHP; the accessories must be purchased from a vendor of the provider's choice.</i></p> <p>Procedure code: V5267</p> <p>Date of service: The date of service is the date the client successfully completes the 30-day trial period and accepts the hearing aid device, or the date the client receives the replacement accessory item.</p>
Ear impression	<p>Limitation: 1 each per hearing aid device as follows:</p> <ul style="list-style-type: none"> • For monaural procedure codes, bill a quantity of 1. • For binaural procedure codes, bill a quantity of 2. <p>Replacement ear molds may be reimbursed as often as is medically necessary.</p> <p>Procedure codes: V5275</p> <p>Date of service: The date of service for the ear impression is the date the ear impression is taken.</p>
Ear molds	<p>Limitation: For clients who are 20 years of age or younger - as medically necessary. (Documentation that supports medical necessity must be maintained in the client's medical record.)</p> <p>For clients who are 21 years of age or older - custom ear molds are limited to 3 ear molds per ear, per rolling year, any provider; disposable ear molds are limited to 4 ear molds per ear, per rolling month, any provider.</p> <p>Procedure codes: V5264 and V5265 (billed with modifier LT or RT)</p> <p>Date of service: The date of service for the ear mold is the date the ear mold was taken.</p>
Batteries (replacement only)	<p>Limitation: Replacement batteries may be reimbursed as often as is medically necessary when a hearing aid device has been previously reimbursed by the CSHCN Services Program. If a hearing aid has not been reimbursed by the CSHCN Services Program in the last 5 years, the replacement batteries may be reimbursed on appeal with a statement that documents medical necessity.</p> <p>Procedure code: V5266</p> <p>Date of service: The date of service is the date the client receives the replacement batteries.</p> <p>Warranty note: Replacement batteries that are supplied as part of the manufacturer's warranty will not be reimbursed separately by the CSHCN Services Program.</p>

The following monaural procedure codes may be reimbursed for medically necessary hearing aid devices and replacements when they are billed with the appropriate modifier LT or RT to indicate for which ear the hearing aid device was purchased and fitted:

Procedure Codes				
V5030	V5040	V5170	V5180	V5244
V5245	V5246	V5247	V5254	V5255
V5256	V5257	V5298		

The following binaural procedure codes may be reimbursed for medically necessary hearing aid devices and replacements:

Procedure Codes				
V5100	V5210	V5220	V5249	V5250
V5251	V5252	V5253	V5258	V5259
V5260	V5261	V5298		

20.2.4.1 Documentation Requirements

Monaural hearing aids may be reimbursed for clients who have no medical contraindication for using a hearing aid and who have documentation of medical necessity. The following documentation of medical necessity must be maintained in the client's medical record:

- Hearing loss in the better ear of 35 dBHL or greater for the pure tone average of 500, 1000, and 2000 Hz.
- A spondee threshold in the better ear of 35 dBHL or greater when pure tone thresholds cannot be established.
- Hearing loss in each ear is less than 35 dBHL at the frequencies below 2000 Hz and thresholds in each ear are greater than 40 dBHL at 2000 Hz and higher.
- Documentation of communication need and a statement that the patient is alert and oriented and able to use the device appropriately by themselves or with assistance.

Clients meet the criteria for binaural aids if they meet the conditions for a monaural hearing aid and have at least a 35-dBHL hearing loss in both ears.

Providers must also include the model number, serial number, and warranty dates of the purchased hearing aid device in the client's medical record.

20.2.4.2 Prior Authorization Requirements

Prior authorization is not required for medically necessary hearing aid devices and supplies that are provided within the limitations outlined in the previous table.

Prior authorization is required for the following:

- Replacement hearing aid devices that are required within the same 5-year period
 - A replacement hearing aid device may be considered for prior authorization when loss or irreparable damage has occurred. Replacements will not be authorized when the equipment has been abused or neglected by the client, the client's family, or the caregiver.
- Hearing aid accessories that are not part of the hearing aid package including, but not limited to, chin straps, clips, boots, and headbands
 - Requests for prior authorization for hearing aid accessories including, but not limited to, chin straps, clips, boots, and headbands will be considered when the requests are submitted with documentation that shows that the requested supply is medically necessary for the proper use or functioning of the hearing aid device.
- Hearing aid devices that are not currently a benefit of the CSHCN Services Program but that are medically necessary.

The prior authorization request must include:

- The medical necessity for the requested hearing aid device.
- The name of the manufacturer.

- The manufacturer's suggested retail price (MSRP) or the provider's documented invoice cost if the MSRP is not available.
- The model number, serial number, and the dates that the warranty is in effect for the requested hearing aid.
- For additional repairs or modifications, requests for prior authorization must include documentation that supports the need for the requested repair or modification.

For services that require prior authorization, prior authorization must be obtained before the services are rendered. The prior authorization number must be included on the claim form when the claim is submitted to TMHP.

Prior authorization requests must be submitted to the TMHP-CSHCN Services Program Authorization Department using the [CSHCN Services Program Authorization and Prior Authorization Request Form](#). Documentation that supports medical necessity for the requested device, service, or supply must be included with the form. See Chapter 4, "Prior Authorizations and Authorizations" for more information about the authorizations and claims filing processes.

20.2.4.3 Limitations

A hearing aid dispensed through the CSHCN Services Program must meet the following criteria:

- Be a new and current model
- Meet the performance specifications indicated by the manufacturer
- Include, at minimum, a standard 12-month warranty that begins on the dispensing date of the hearing aid.
- Meet the needs of the individual client that receives the device

Providers must dispense each hearing aid reimbursed through the CSHCN Services Program with all necessary hearing aid accessories and supplies, including a 1-month supply of batteries. The reimbursement for monaural and binaural procedure codes includes the required hearing aid package as follows, and no separate reimbursement will be made for these items:

- Acquisition cost of the hearing aid (the actual cost or net cost of the hearing aid after any discounts have been deducted)
- Manufacturer's postage and handling charges
- All necessary hearing aid accessories or supplies
- Instructions for care and use
- A 1-month supply of batteries

Note: *The client, client's family, or caregiver(s) must agree to accept the responsibility for, and be trained in, the proper use of the hearing aid device.*

Procedure code V5298 may be reimbursed with prior authorization for hearing aid devices that are not currently a benefit of the CSHCN Services Program but that are medically necessary.

Procedure code V5251 may be reimbursed with prior authorization.

A monaural hearing aid device procedure code and a binaural hearing aid device procedure code will not be reimbursed within the same 5-year period.

20.2.5 Hearing Aid Services

The CSHCN Services Program may reimburse hearing aid fitters and dispensers for the following services:

Service	Limitation
Hearing aid examination and evaluation	<p>Limitation: As often as is medically necessary.</p> <p>Procedure code: 92590, 92591, 92594, and 92595</p> <p>Date of service: The date of service is the date the service is rendered to the client.</p>
Hearing aid assessment	<p>Limitation: As often as is medically necessary.</p> <p>Procedure code: V5010</p> <p>Date of service: The date of service is the date the service is rendered to the client.</p>
Fitting and dispensing visits	<p>Limitation: 1 fitting per hearing aid procedure code, regardless of the number of times a device is returned as unacceptable during a 30-day trial period.</p> <p>Procedure code: V5011</p> <p>Date of service: The date of service for the fitting, orientation, and checking visit is the date the client successfully completes the 30-day trial period and accepts the hearing aid device.</p> <p>The post-fitting check of the hearing aid must be performed within 5 weeks of the initial fitting, and is included in the reimbursement for the dispensing procedure. No separate reimbursement will be made.</p> <p>Limitation: 1 dispensing fee each time a hearing aid is dispensed and a new 30-day trial period begins.</p> <p>Procedure codes: V5090, V5110, V5160, V5200, V5240, and V5241</p> <p>Date of service: The date of service for the dispensing visit is the date the client receives the hearing aid device and a new 30-day trial period begins.</p> <p>The dispensing fee may be reimbursed separately from the fitting of the hearing aid.</p>
Revisit(s)	<p>Limitation: 2 per calendar year when billed by any provider.</p> <p>Procedure codes: 92592 (first and second revisits for monaural fittings) and 92593 (first and second revisits for binaural fittings)</p> <p>Date of service: The date of service is the date the service is rendered to the client.</p>

20.2.5.1 Documentation Requirements

Client Acknowledgment Statement (created by the provider)-To confirm that the client was evaluated and offered an appropriate hearing aid that meets the client's hearing need, the client must sign an acknowledgment statement before the provider dispenses the hearing aid device and supplies. The statement must be maintained in the client's medical record. Retrospective review may be performed to ensure that the documentation supports the medical necessity of the device, service, or supply.

30-Day Trial Period Certification Statement (created by the provider)-To confirm that the client was allowed a 30-consecutive-day trial period that began with the dispensing date, the hearing aid fitter/dispenser must provide the client with a written agreement that includes the beginning and ending dates of the 30-day trial period. The contract agreement must include all charges and fees associated with the trial period as well as the name, address, and telephone number of the State Board of Examiners for Speech-Language Pathology and Audiology. The client must receive a copy of this agreement and a copy must also be maintained in the client's medical record.

A new certification statement must be provided each time a new trial period begins.

The fitter/dispenser must allow 30 days to elapse from the hearing aid dispensing date before completing the 30-day trial period certification statement, which indicates that the client has completed the trial period and has accepted the dispensed hearing aid. The certification statement must be maintained by the provider in the client’s medical record.

For hearing aids that are dispensed in a provider’s office, if a client fails to return by the end date of the trial period, the provider must contact the client. After 3 attempts have been made, if the client does not return to the provider’s office, the provider must document all contact attempts with the client and maintain this documentation in the client’s file. Retrospective review may be performed to ensure documentation supports the contact attempts and the client’s failure to return to the provider’s office.

20.2.5.2 Prior Authorization Requirements

Prior authorization is not required for fitting and dispensing visits and revisits.

20.2.5.3 Limitations

The following hearing aid visits may be reimbursed by the CSHCN Services Program:

- The fitting and dispensing visits that encompass a 30-day trial period and include a post-fitting check 5 weeks after the trial period has been successfully completed
- A first revisit as needed after the post-fitting check
- A second revisit as needed after the first revisit

The fitting visit includes the fitting, dispensing, and post-fitting check of the hearing aid.

After the hearing aid has been dispensed, the client must be allowed a 30-consecutive-day trial period that begins with the dispensing date to determine satisfaction with a purchased hearing aid. During the 30-day trial period, if the client is not satisfied with the purchased hearing aid or if hearing is not improved with the use of the purchased hearing aid, the client may return it to the provider. Providers may dispense additional hearing aids as medically necessary until the client is satisfied with the results of a hearing aid or until the provider determines that the client cannot benefit from the dispensing of an additional hearing aid. A new trial period begins with the dispensing date of each hearing aid.

The hearing aid provider must use the appropriate fitting and dispensing procedure code for services rendered during the trial period. No additional fees may be charged to the client or to the CSHCN Services Program during this period.

The licensed audiologist or fitter/dispenser must perform a post-fitting check of the hearing aid within 5 weeks of the initial fitting.

20.3 Benefits, Limitations, and Authorization Requirements – Implantable Devices and Services

Implantable hearing devices, including the cochlear implant device, the auditory brainstem implant (ABI), and the bone-anchored hearing aid (BAHA), are benefits of the CSHCN Services Program for clients of all ages.

20.3.1 Bone-Anchored Hearing Aid (BAHA)

A bone-anchored hearing aid (BAHA) may be reimbursed by the CSHCN Services Program for clients who are five years of age or older and who meet the medical necessity criteria. The following procedure codes may be reimbursed with prior authorization for the BAHA and related components:

Procedure Codes				
L8690	L8691	L8692	L8693	69711
69714	69715	69717	69718	V5266

20.3.1.1 Electromagnetic Bone Conduction Hearing Device

Removal or repair of an electromagnetic bone conduction hearing device may be reimbursed using procedure code 69711. This service is limited to two procedures per lifetime when billed by any provider.

The implantation or replacement of an electromagnetic bone conduction hearing device is not a benefit.

20.3.1.2 Prior Authorization Requirements

Prior authorization is required and may be granted if the client is five years of age or older and all of the following documentation is provided:

- Previous attempts at hearing aids and why these devices are inadequate or have failed.
- Scores on hearing tests for bone conduction thresholds and on maximum speech discrimination.
- Audiological testing showing good inner ear function.
- Assessment that shows the client is motivated, is able to follow given instructions, and is willing to participate in follow-up therapy.
- Appropriate indication that may be causing hearing impairment. Indications include, but are not limited to, one of the following:
 - Acquired deformities of auricle or pinna
 - Congenital anomalies of the external ear canal, middle ear or skull and face bones
 - Malignant neoplasm, benign neoplasm or carcinoma of the external ear canal and/or tympanic cavity
 - Otosclerosis in clients who cannot undergo stapedectomy
 - Severe chronic conductive or sensorineural hearing loss (i.e. otitis media, malformations of the inner ear)

20.3.1.3 Limitations

Replacement batteries for the BAHA may be reimbursed without prior authorization as follows:

- Using procedure code V5266
- Limited to clients with a previously-paid BAHA device

Replacement batteries for clients who did not receive the hearing device through the CSHCN Services Program may be reimbursed on appeal with a physician’s statement documenting medical necessity.

The BAHA is Food and Drug Administration (FDA)-approved for clients who are 5 years of age or older. Clients who are younger than 5 years of age do not have sufficient bone density for implantation of the device.

BAHA procedure codes are subject to NCCI relationships with the following exceptions. The procedure codes in Column A of the following table will be denied if they are billed with the same date of service by the same provider as procedure codes in Column B:

Column A (Denied)	Column B
L8691, L8692, L8693	L8690

20.3.2 Cochlear Implants

Cochlear implants, auditory brain implants (ABIs), and auditory rehabilitation are benefits of the CSHCN Services Program.

20.3.2.1 Device, Implantation and Supplies

Procedure codes 69930 and S2235 may be reimbursed for the cochlear implant and the ABI devices and implantation.

The following procedure codes may be reimbursed for equipment and batteries:

Procedure Codes				
L7368	L8499	L8614	L8615	L8616
L8617	L8618	L8619	L8621	L8622
L8623	L8624	L8627	L8628	L8629

Procedure codes 92601, 92602, 92603, and 92604 may be reimbursed for diagnostic analysis and subsequent programming of the implant.

20.3.2.2 Auditory Rehabilitation

Auditory rehabilitation may be a benefit of the CSHCN Services Program when medically necessary for clients who have received a surgically implanted hearing device, or clients who have prelingual or postlingual hearing loss if the treating physician has determined that auditory rehabilitation would be beneficial.

The following procedure codes may be reimbursed for auditory rehabilitation services:

Procedure Codes			
92626	92627	92630	92633

Procedure code 92627 is an add-on procedure and must be billed with primary procedure code 92626 in order to be considered for reimbursement

The benefit for auditory rehabilitation is one evaluation and 12 visits per six rolling month period, without prior authorization. Additional therapy services may be available through the speech therapy benefit.

Referto: Chapter 37, "Speech-Language Pathology (SLP) Services" for additional information about the CSHCN Services Program speech therapy benefit.

20.3.2.3 Frequency Modulation (FM) Systems

An FM system may be a benefit of the CSHCN Services Program for clients who are 12 months of age and older when it is needed as an assistive listening device for use with a cochlear implant and the following criteria are met:

- At least three months have elapsed since the surgical implantation of the cochlear device
- The client is unable to obtain the FM device through any other source

The assistive listening device (FM system) for use with a cochlear implant may be reimbursed with prior authorization using procedure code V5273.

Replacement or repair of an FM system will not be considered for coverage during the manufacturer's warranty period.

20.3.2.4 Authorization Requirements

All implants must be prior authorized. The following information must accompany the request for prior authorization:

- Documentation from the audiologist and otolaryngologist that indicates the client is a good candidate for the procedure and meets the requirements outlined earlier in this chapter.

- Documentation that a referral to an appropriate auditory rehabilitation provider is in place.
- Documentation from the client's primary physician, neurologist, or school diagnostician that the client has the cognitive ability to use the implant.

The prior authorization request will not be granted if one or more of the following situations exist:

- The client has an active ear infection.
- The client is deaf due to lesions of the acoustic nerve or central auditory pathways.
- There is radiological documentation of absent cochlear development.
- The client or the client's parents lack the cognitive ability or willingness to complete auditory rehabilitation.

Replacement of rechargeable AA batteries must be prior authorized. A total of 12 replacement rechargeable AA batteries may be prior authorized per year.

The purchase, replacement, or repair of an assistive listening device (FM system) for use with a cochlear implant must be prior authorized.

Auditory rehabilitation services beyond the limit of 12 visits per six-month period must be prior authorized and will be considered for clients who are 12 months of age through 20 years of age with documentation that supports the medical necessity of continued services.

20.3.2.5 Limitations

Clients must meet the following criteria:

- The client is 12 months of age or older.
- The client has a profound, bilateral, sensorineural hearing loss.
- The client who requests the cochlear implant has had limited or no benefit from a trial with appropriately fitted hearing aids. A trial of three to six months is required for clients who do not have previous experience with hearing aids unless there is a documented reason that hearing aids will not work for that particular client.
- The client has the cognitive ability to use auditory cues.
- The client or parents are willing and able to comply with auditory rehabilitation.
- The client is assessed by both an audiologist and an otolaryngologist experienced in the implantation of cochlear implants or ABIs and who indicate that the client is a good candidate for the procedure.

ABI is an adaptation of a cochlear implant and may be reimbursed for services rendered to clients who are 12 years of age or older when submitted with diagnosis code Q8502.

The cochlear implant or ABI device must be approved by the FDA and must be age-appropriate for the client.

The device and separate components include the following:

- Cochlear device
- Headpiece or headset
- Microphone
- Transmitting coil
- Transmitter cable
- External speech processor

- Zinc air batteries
- Alkaline AA batteries
- Recharger units
- Rechargeable AA batteries.

Replacement equipment and components are also a benefit of the CSHCN Services Program. Replacement equipment includes batteries, sound processors, cables, coils, headsets, and microphones.

Up to a maximum of 15 zinc air or a maximum of 31 alkaline batteries may be reimbursed per month without prior authorization.

Prior authorization is required for replacement of external sound processors and rechargeable AA batteries for a cochlear implant or ABI device.

20.3.2.6 Sound Processor Replacement Guidelines

Unless ordered by a physician, a processor must be used for 12 months before the replacement of a unit is considered for reimbursement. The replacement of a sound processor requires prior authorization with adjustment to reimbursement based on the manufacturer's trade-in policy. The physician must submit documentation of medical necessity when requesting prior authorization for the replacement of the sound processor.

20.4 Claims Information

Hearing services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements. To avoid claim denials, providers billing as a group must use the performing provider identifier number on their claims.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicaid-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

20.4.1 Claims Filing for Non-Implantable Hearing Devices and Services

Audiology services must be billed using the audiology provider number and benefit code (for electronic claims only) as indicated on the provider enrollment letter that indicates “Audiologist.” Hearing aid fitting and dispensing services must be billed with the hearing aid provider number and benefit code (for electronic claims only) as indicated on the provider enrollment letter that indicates “Hearing Aid.”

20.4.1.1 Claims Filing for Non-implantable Hearing Aid Devices

To be reimbursed for a non-implantable hearing aid device, providers must submit paper claims with documentation that shows the provider’s cost for the hearing aid device. The documentation submitted with the claim must be a manufacturer invoice that shows the net acquisition cost of the non-implantable hearing aid device.

An invoice printed from an email or the Internet will not be accepted and should not be submitted with the claim as documentation to show the net acquisition cost of the hearing aid device unless the invoice shows the actual price the provider paid for the hearing aid device.

Providers are required to submit non-implantable hearing aid claims using the CMS-1500 paper claim form because electronic claim submission does not allow for the submission of attachments.

As the amount billed on a claim, providers must use the net acquisition cost, which is the actual price the provider paid for the device, including the wholesale cost plus sales tax, shipping and handling, and any reductions resulting from discounts or rebates. Providers must not use usual and customary fees as the amount billed.

Note: The requirement to submit the net acquisition cost of the hearing aid device applies only to non-implantable monaural and binaural hearing aid devices including, but not limited to, procedure code V5298.

20.4.2 Claims Filing for Implantable Hearing Devices and Services

Claims for implantable hearing devices must be billed using the appropriate provider number and benefit code (for electronic claims only, if applicable).

20.5 Reimbursement

For fee information, providers can refer to the OFL on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

20.5.1 Reimbursement for Hearing Tests

The CSHCN Services Program may reimburse physicians or audiologists who provide hearing tests to clients whose hearing is found to be suspect on the routine screening, whether or not hearing is found to be impaired. Services are reimbursed at the lesser of the billed charges or the amount allowed by Texas Medicaid.

20.5.2 Reimbursement for Non-Implantable Hearing Devices and Services

The CSHCN Services Program may reimburse hearing aid devices the lesser of the following:

- The invoice cost of the hearing aid device
- The acquisition cost of the hearing aid device

- The maximum allowable Texas Medicaid fee for the hearing aid device procedure code

Procedure code V5267 is manually priced and may be reimbursed the lower of the billed amount or the MSRP less 18 percent when purchased.

20.5.3 Reimbursement for Implantable Hearing Devices and Services

Cochlear implants or ABIs may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

BAHA devices and services may be reimbursed as follows:

- Noncustom durable medical equipment (DME) may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.
- Expendable medical supplies may be reimbursed the lower of the billed amount or the amount allowed by CMS, when available, or Texas Medicaid.
- Ambulatory surgical centers (ASCs) may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid based on ASC groupings approved by CMS.
- Inpatient hospital care may be reimbursed at 80 percent of the All Patient Refined Diagnosis Related Groups (APR-DRG) payment.
- Orthotics and prosthetics may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.
- Physicians and audiologists may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

20.6 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

21.1 Enrollment

To enroll in the CSHCN Services Program, home health agencies providing home health services must be actively enrolled in Texas Medicaid, have a valid provider agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, be a licensed and certified home and community services support agency (HCSSA), and comply with all applicable state laws and requirements. Out-of-state home health providers must meet all these conditions, be located in the United States, within 50 miles of the Texas state border, and be approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

21.2 Benefits, Limitations, and Authorization Requirements

Home health services are a benefit of the CSHCN Services Program for clients requiring services for an acute condition or an acute exacerbation of a chronic condition that can be met on an intermittent or part-time basis.

Home health services are considered medically necessary for a client who:

- Requires skillful observations and judgment to improve health status, skilled assessment, or skilled treatments and procedures
- Requires individualized, intermittent, or part-time acute skilled care.
- Requires skilled interventions to improve health status, and if skilled intervention is delayed, it is expected to result in:
 - Deterioration of a chronic condition.
 - Loss of function.
 - Imminent risk to health status due to medical fragility or risk of death.

Providers must be a licensed and certified home health agency enrolled in the CSHCN Services Program and must comply with all applicable federal, state, and local laws and regulations and CSHCN Services Program policies and procedures.

A parent or guardian, primary caregiver, or alternate caregiver may not be reimbursed for skilled nursing (SN) services even if he or she is employed by an enrolled provider.

21.2.1 Prior Authorization Requirements for Home Health Services

Home health services require prior authorization. Prior authorization requests must be submitted on the [CSHCN Services Program Authorization and Prior Authorization Request Form](#).

21.2.1.1 Authorization Requirements

Prior authorization of home health services is required. Medical necessity documentation must be submitted along with the prior authorization request. Requests may be submitted by any approved method to the claims administrator.

Verbal orders will not be accepted. All prior authorization requests must be signed and dated by the ordering practitioner.

Prior authorization must be obtained before the start of care however, if the service is medically necessary, provided after hours or on a recognized holiday or weekend, services may be authorized when the request is submitted on the next business day. A completed [CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form](#) and all other required documentation must be received within these deadlines for prior authorization to be considered. Extensions to these deadlines are not given by the CSHCN Services Program for providers to correct incomplete prior authorization requests.

***Note:** An advanced practice registered nurse (APRN) or a physician assistant (PA) may sign and date all documentation related to the provision of SN, HHA, or extended skilled nursing services on behalf of the client's physician when the physician delegates this authority to the APRN or PA.*

SN services or HHA services (procedure codes G0156, G0299, and G0300) will not be authorized during the same period of time as extended SN services (S9123 and S9124).

- SN Services or HHA Services (procedure codes G0156, G0299, and G0300) will not be considered for authorization during the same period that the client is receiving extended SN services (procedure codes S9123 and S9124). The request for SN or HHA Services, when extended SN services are already authorized will be reviewed by the CSHCN Services Program Medical Director before a denial is issued.
- Extended SN Services (procedure codes S9123 and S9124) will not be considered for prior authorization during the same period that the client is receiving SN or HHA services (procedure codes G0156, G0299, and G0300). The request for extended SN services, when SN or HHA services are already authorized will be reviewed by the CSHCN Services Program Medical Director before a denial is issued.

The initial nursing assessment is used to establish the POC and must support the medical necessity for the client to receive SN services, HHA services, extended SN services, PT services, OT services, social work services, speech-language pathology services, or medical nutritional counseling services. The provider must have an RN perform an initial client assessment or reassessment in the client's home. For initial prior authorization, providers must obtain prior authorization before the start of care (SOC). Initial prior authorization period may not exceed 60 calendar days.

***Note:** The initial RN assessment is an administrative cost and will not be reimbursed.*

The initial nursing assessment/reassessments must include, but are not limited to the following:

- Complexity and intensity of the client's care;
- Stability and predictability of the client's condition;
- Frequency of the client's need for SN care;
- Identified medical needs and goals;

- Description of wounds, if present;
- Comprehension level of the client or parent, guardian or caregiver.
- Receptivity to training and ability level of the client or parent, guardian or caregiver.

The initial assessment and any reassessments are performed by an RN. The initial assessment must be completed no earlier than three business days before the client's SOC. Reassessments are required when changes in the client's condition occur during the course of the prior authorization period and revision of the plan of care is needed. Revisions to the POC must be submitted as soon as the need is identified but no later than 3 business days from the date of the revision.

If there is no change in the client's condition, the reassessment must document medical necessity, as defined in the Statement of Benefits, to support continued and ongoing acute, intermittent, part-time SN or HHA visits services beyond the initial 60 calendar day prior authorization period. Requests received after the three business days allowed will be denied for dates of service that occurred before the revision is approved.

For extension of acute intermittent, part-time SN or HHA services, providers must obtain prior authorization on the [CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form](#) before the end of the current prior authorization period. A new client assessment and a current POC must also be submitted. Extension requests that are received after the current prior authorization expires will be denied for dates of service that occur before the extension request is approved.

21.2.1.2 Plan of Care (POC)

A copy of the home health provider's POC must be submitted for documentation of the required information. The POC must be signed by the practitioner who is ordering home health services and who will provide ongoing supervision of the POC. The POC must be signed and dated no earlier than 30 days prior to the start of care, reviewed and signed every 60 days at a minimum by the ordering practitioner or sooner if the client's condition changes and a reassessment and revision of the plan of care is needed.

Providers must obtain prior authorization no earlier than three business days before the start of care (SOC) for an initial authorization. The initial prior authorization period may not exceed 60 calendar days. For extensions, providers must obtain prior authorization within seven business days before the end of the authorization period.

Providers are required to deliver the requested services from the SOC date, which is the date agreed to by the ordering practitioner, registered nurse (RN), home health agency, client, parent or guardian. The SOC must be documented on the POC.

A provider requesting prior authorization for SN and HHA services must submit all of the following documentation:

- A completed client assessment.
- A completed POC that is signed and dated by the assessing RN and signed and dated by the ordering practitioner.
- Home health providers may submit a client assessment and a POC on forms developed by the home health agency along with the prior authorization request. Home health agency forms must contain all criteria specified.
- A completed [CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form](#)

The POC must be initiated and written in a clear and legible format by the assessing RN and include the following:

- The client's CSHCN number
- The ordering practitioner's license number

-
- The provider's CSHCN Services Program Texas Provider Identifier (TPI) number and NPI number.
 - Date the client was last seen by the ordering practitioner
 - The start of care (SOC) date for home health services
 - All pertinent diagnoses
 - The client's mental status
 - The prognosis
 - The types of service requested, including the number of visits and amount, duration, and frequency with measurable goals and objectives for each service provided
 - The equipment and/or supplies required
 - Rehabilitation potential
 - Prior and current functional limitations
 - Activities permitted
 - Nutritional requirements
 - Medications, including the dose, route and frequency
 - Treatments, including amount and frequency
 - Wound care orders and measurements
 - Safety measures to protect against injury
 - Instructions for timely discharge or referral

Requests must be based on the medical needs of the client. Documentation must support the quantity and frequency of intermittent or part-time SN or HHA visits or extended SN visits that will safely meet the client's needs. The amount and duration of SN, extended SN, or HHA visits requested will be evaluated by the claims administrator.

The home health agency must ensure the requested services are supported by the client assessment, POC, and signed and dated orders.

Physician orders must be submitted on the [CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form](#) and include but are not limited to the following:

- Client name, date of birth, gender, and CSHCN Services Program Identification number
- Ordering practitioner name, address, contact information and TPI/NPI numbers
- Date last seen by the ordering practitioner
- Diagnoses and description of current medical condition
- Prognosis
- Mental status
- Documentation of medical necessity that the client requires part-time intermittent skilled nursing or ongoing extended skilled nursing services
- Nursing services required, i.e., RN, LVN, HHA
- Medication administration (dose/route/frequency), if applicable
- Treatments ordered
- Wound care if applicable

- Other therapies if required
- Dietary and nutritional needs
- Activity level
- Other services as needed
- Functional status
- Safety measures
- Equipment/supplies needed
- Rehab potential

If a provider or client discontinues SN or HHA visits, or extended services, during an existing prior authorized period and the client requests services through a new provider, the new provider must submit all of the following:

- A new [CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form](#). A physician, APRN, or PA signature is required on the form.
- A new client assessment and a current POC,
- A change of provider letter signed and dated by the client, parent, guardian or caregiver documenting:
 - The date the client ended SN or HHA visits, or extended SN services, (effective date of change) with the previous provider,
 - The names of previous and new providers,
 - An explanation why providers were changed.

Providers who terminate services must give reasonable notice to the client and must maintain documentation of the reason in the client's medical record.

Concurrent services for telemonitoring are allowed for distinctly different medical reasons. Duplication of services by any provider will not be prior authorized.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for additional information about authorization and prior authorization requirements.

21.3 Home Health Aide (HHA) Services

HHA visits (procedure code G0156) must be provided by a qualified HHA under the supervision of a qualified licensed individual (registered nurse [RN], physical therapist, occupational therapist) who is employed by the home health agency.

HHA services may include, but are not limited to, the following:

- Obtaining and recording the client's vital signs
- Observation, reporting, and documentation of the client's status and the care or service furnished
- Hygiene and grooming including, but not limited to:
 - Sponge, tub, or shower bath
 - Shampoo, sink, tub, or bed bath
 - Nail and skin care
 - Oral hygiene
- Toileting and elimination care

- Ambulation
- Exercise
- Range of motion exercises
- Safe transfer
- Positioning
- Assisting with nutrition and fluid intake
- Household services essential to the client's health care at home
- Assisting client with his or her self-administered medication
- Reporting changes in the client's condition and needs
- Completing appropriate documentation

21.3.1 Supervision of Home Health Aides

When HHA services have been ordered, an RN or therapist (PT or OT) must provide the HHA written instructions and supervision for the tasks delegated to the HHA.

The requirements for HHA supervision are as follows:

- When HHA services are provided in addition to an SN service, an RN must make a supervisory visit to the client's residence at least once every two weeks. The supervisory visit must occur when the HHA is present and providing care to the client.
- When HHA services are provided in addition to PT or OT services, the appropriate therapist may make the supervisory visit at least every two weeks in place of an RN. The supervisory visit must occur when the HHA is present and providing care to the client.
- Documentation of HHA supervision must be maintained in the client's medical record.

21.3.2 Skilled Nursing and Home Health Aide Services

The following definitions apply to CSHCN Services Program home health skilled nursing (SN) and home health aide (HHA) services:

- **Acute** is defined as a condition or exacerbation that is anticipated to improve and reach resolution within 60 days.
- **Part-time** is defined as SN or HHA visits less than eight hours per day for any number of days per week. Part-time visits may be delivered in interval visits up to 2.5 hours (10 units) per visit, not to exceed a combined total of three visits per day (7.5 hours [30 units]).
- **Intermittent** is defined as SN or HHA visits provided for less than eight hours per visit and less frequently than daily. Daily visits may be considered for a short-term period (7 to 10 days) when medically necessary. Examples might include a new diabetic who is blind or may have cognitive difficulties. Intermittent visits are not to exceed a combined total of three visits per day (7.5 hours total [30 units]).

SN visits are nursing services ordered by a physician, included in the [CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form](#), and provided by a registered nurse (RN) or licensed vocational nurse (LVN) under the supervision of a licensed RN. SN visits may be considered when a client requires nursing services for an acute condition or an acute exacerbation of a chronic condition that can be met on an intermittent or part-time basis and typically is expected to resolve in less than 60 calendar days.

***Note:** Providers must bill procedure codes G0156, G0299, or G0300 for conditions which are expected to resolve in 60 calendar days or less.*

HHA visits are services ordered by the physician, included on the [CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form](#), and are services the HHA is permitted to perform under State law. HHA visits may be considered when a client requires assistance with activities of daily living for an acute condition or an acute exacerbation of a chronic condition that can be met on an intermittent or part-time basis and typically is expected to resolve in less than 60 calendar days. HHA visits will not be considered unless the client also requires SN or therapy services. HHA visits may be provided on consecutive days.

***Note:** An advanced practice registered nurse (APRN) or a physician assistant (PA) may sign and date all documentation related to the provision of SN and HHA services on behalf of the client's physician when the physician delegates this authority to the APRN or PA.*

21.3.2.1 Medical Necessity

SN and HHA Services are considered medically necessary for a client who:

- Requires the skills of a nurse to perform observations and judgments to improve health status, skilled nursing assessments, or skilled treatment or procedures;
- Requires individualized, intermittent, or part-time acute skilled care;
- Requires skilled interventions to improve health status, and if skilled intervention is delayed, it is expected to result in:
 - Deterioration of a chronic condition
 - Loss of function, or
 - Imminent risk to health status due to medically fragility, or risk of death

Home health extended SN services are medically necessary when a client is medically fragile and has a disability, or chronic condition that requires ongoing skilled nursing beyond the level of intermittent part-time acute care. Medical necessity is defined by the following criteria:

- The client must require ongoing skilled nursing services provided by a RN or LVN
- The client must have a serious, chronic condition or disability that requires ongoing and complex SN interventions and monitoring beyond the level of intermittent part-time acute skilled care
- The client's care requires the routine use of a medical device or assistive technology to compensate for the loss of a body function needed to participate in activities of daily living
- The client lives with an ongoing threat to his or her continued well-being, deterioration of his or her condition and risk of death.

21.3.3 Skilled Nursing Services

Home health SN services are a benefit of the CSHCN Services Program when a client requires nursing services for an acute condition or an acute exacerbation of a chronic condition that can be met on an intermittent or part-time basis. SN services are intended to provide SN care to promote independence and support the client living at home.

SN services are limited to SN procedures performed by a registered nurse (RN) or licensed vocational nurse (LVN) licensed to perform these services under the *Texas Nursing Practice Act* and include the following:

- Direct SN care and parent, guardian, or caregiver training and education
- SN observation, assessment, and evaluation by an RN, provided that the ordering practitioner specifically requests that the nurse visit the client for this purpose and the signed and dated orders reflect the medical necessity for the visit.

Supervision of delegated services provided by an HHA or others over whom the RN is administratively or professionally responsible.

Skilled nursing visits (procedure codes G0299 and G0300) are limited to procedures performed by an RN or licensed vocational nurse (LVN) licensed to perform these services under the *Texas Nursing Practice Act* and 42 Code of Federal Regulations §§ 409.32, 409.33, and 409.44. These services include the following:

- Direct skilled nursing care, training, and education for parents, guardians, and caregivers
- Skilled nursing observation, assessment, and evaluation by an RN (if a physician specifically requests that a nurse visit the client for this purpose and the physician's order reflects the medical necessity of the visit)

Determining whether a service requires the skill of an RN or LVN is based on the inherent complexity of the service, the condition of the client, and the accepted standards of medical and nursing practice.

If the service can be safely and effectively performed by an average nonclinician without the direct supervision of an RN or LVN, the service is not considered skilled nursing. A service that could be performed by an average nonclinician is not skilled nursing even if there is no competent person to perform it.

Some services are classified as skilled nursing on the basis of complexity alone (e.g., intravenous and intramuscular injections or insertion of catheters). If these services are reasonable and necessary to the treatment of the client's illness or injury, they may be covered. In some cases, the client's condition may require a service that is ordinarily considered unskilled and falls outside the scope of skilled nursing. This would occur when the client's condition necessitates an RN or LVN to perform the service safely and effectively.

A service that, by its nature, requires the skills of a nurse to be provided safely and effectively continues to be considered skilled nursing even if it is taught to the client, the client's family, or other caregivers. When the client needs the skilled nursing care and there is no one trained, able, and willing to provide it, the services of a nurse may be considered reasonable and necessary.

Skilled nursing must be reasonable and necessary to the diagnosis and treatment of the client's illness or injury within the context of the client's unique medical condition. To be considered reasonable and necessary for the diagnosis or treatment of the client's illness or injury, the services must be consistent with the nature and severity of the illness or injury, the client's particular medical needs, and within accepted standards of medical and nursing practice. A client's overall medical condition is a valid factor in deciding whether skilled nursing is needed. A client's diagnosis should never be the sole factor in deciding whether the service the client needs is skilled nursing or not.

The determination of whether the services are reasonable and necessary should be made in consideration of the physician's determination that the services ordered are reasonable and necessary. The services must, therefore, be viewed from the perspective of the condition of the client when the services were ordered, and what was, at that time, reasonably expected to be appropriate treatment for the illness or injury throughout the certification period.

21.3.3.1 Limitations for Skilled Nursing Services

Skilled nursing must be provided on a part-time or intermittent basis.

If medically necessary, SN and HHA visits are limited to a maximum of 30 units (7.5 hours) per day. SN or HHA visits may be provided on consecutive days.

SN Services will not be prior authorized when the client is receiving extended SN services.

Skilled nursing visits to obtain routine laboratory specimens may be reimbursed when the only alternative to obtain the specimen is to transport the client by ambulance. Collection of the laboratory specimen is considered part of the visit.

Skilled nursing visits requested primarily to provide the following services will not be prior authorized:

- Respite care
- Child care
- Activities of daily living for the client
- Housekeeping services
- Individualized, comprehensive case management beyond the service coordination required by the *Texas Nursing Practice Act*

A parent, guardian, primary caregiver, or alternate caregiver may not be reimbursed for skilled nursing, even if he or she is employed by an enrolled provider.

Total parenteral nutrition (TPN) is not a benefit through home health services.

Referto: Section 26.6, “Total Parenteral Nutrition (TPN)” in Chapter 26, “Medical Nutrition Services” for more detailed information.

21.3.3.2 Extended Skilled Nursing Services

Extended SN services may be a benefit of the CSHCN Services Program for medically fragile clients who meet the medical necessity criteria. Clients must require ongoing skilled nursing services provided by an RN or LVN.

Medically fragile clients are those who have a serious, chronic condition that requires extended and complex skilled nursing interventions and monitoring. Their care requires the routine use of a medical device or assistive technology to compensate for the loss of a body function needed to participate in activities of daily living. These individuals live with an ongoing threat to their continued well-being, deterioration of their condition, and risk of death.

Providers must bill S9123 and S9124 for medically fragile clients requiring extended and complex skilled nursing care.

Medically fragile conditions include, but are not limited to:

- Cerebral palsy
- Cystic fibrosis
- Muscular dystrophy
- Other diagnoses which may be considered on a case by case basis with documentation of medical necessity

Services may include, but are not limited to:

- Skilled nursing assessment;
- Administration of medications, including IV medications and chemotherapy;
- Sterile catheter insertion;
- Medical treatments that require the skill of a licensed nurse; and
- Education of the client or parent, guardian, or caregiver.

Services must be delivered according to the following criteria:

- Services must be medically necessary and appropriate;
- Services must be prescribed by a physician, APRN, or PA;
- Services must be provided according to an established Plan of Care (POC) which is reviewed, signed, at minimum by the ordering practitioner every 60 days.

Extended SN services are limited to 200 hours per client per calendar year. Up to 200 additional hours of services per client per calendar year may be approved with documented justification of need and cost effectiveness.

Note: Extended SN services may not exceed 400 hours per client per calendar year.

21.3.4 Occupational Therapy (OT), Physical Therapy (PT), and Speech-Language Pathology (SLP) Services

OT (procedure code G0152), PT (procedure code G0151), and SLP (procedure code G0153) services are benefits of the CSHCN Services Program for clients with acute or chronic medical conditions when documentation from the prescribing physician and the treating therapist indicates there is or will be progress made toward goals.

Therapy evaluations and treatments must be ordered or prescribed by the client's physician, advanced practice registered nurse (APRN), or physician assistant (PA) and based on medical necessity.

Therapy goals for acute or chronic medical conditions include, but are not limited to; improving function, maintaining function, or slowing the deterioration of function.

Therapy services may be a benefit of the CSHCN Services Program under any of the following conditions:

- The client has a disability, has sustained a traumatic injury, or is experiencing the late effects of a traumatic injury and requires therapy to improve or maintain function, range of motion, strength, or to prevent or decrease the risk of deformity or osteoporosis.
- The client has an exacerbation of chronic illness or condition (e.g., juvenile rheumatoid arthritis, hemophilia, or sickle cell crisis).
- The client requires short-term therapy related to surgery or casting.
- The client or family requires training in the use of equipment, orthotics, or prosthetics.
- The client or family requires instruction in activities for daily living specific to their home environment.
- The client requires an assessment for appropriate equipment, seating braces, orthotics, or prosthetics.
- The client experiences speech-language difficulty because of a disease or trauma, developmental delay, oral motor problem, or congenital anomaly.

A client may receive any combination of physical, occupational, or speech therapy in the office, home, or outpatient setting, up to one hour per day for each type of therapy.

Clients may receive therapy from both the CSHCN Services Program and other sources (such as school districts) only when the therapy provided by the CSHCN Services Program addresses different client needs. Therapy provided by the CSHCN Services Program is not intended to duplicate, supplement, or replace services that are the legal responsibility of other entities or institutions. The CSHCN Services Program encourages the private therapist to coordinate with other therapy providers to avoid treatment plans that might compromise the client's ability to progress.

21.3.4.1 Prior Authorization for Occupational Therapy (OT), Physical Therapy (PT), and Speech-Language Pathology (SLP) Services

Evaluations or re-evaluations do not require prior authorization. Therapy treatment services require prior authorization.

Prior authorization for therapy services will be considered when all of the following criteria are met:

- The client has acute or chronic medical conditions resulting in a significant decrease in functional ability that will benefit from therapy services in an office, home or outpatient setting.

- Documentation must support treatment goals and outcomes for the specific therapy disciplines requested.
- Services do not duplicate those provided concurrently by any other therapy.
- Services are provided within the provider's scope of practice as defined by state law.

Documentation supporting the medical need for therapy services includes:

- A completed CSHCN Services Program Prior Authorization Request form:
 - Initial Outpatient Therapy (TP1) Form for initial therapy treatment services, or
 - Extension of Outpatient Therapy (TP2) Form for extension of on-going therapy treatment services.

Note: The request form must be signed and dated by the ordering physician, APRN, or PA and therapy provider(s). A request form that is missing required information is considered incomplete.

- A current evaluation or re-evaluation for each therapy service requested and comprehensive treatment plan with the following:
 - Date of the evaluation
 - Diagnosis(es)
 - Client's medical history and background
 - Client's current and prior functional level, to include current standardized assessment scores or criterion-referenced scores as appropriate for the client's condition
 - Date of onset of the illness, injury, or exacerbation requiring the therapy services
 - Short- and long-term treatment goals, including prior treatment goals, for the therapy discipline and associated disciplines requested, related to the client's individual needs
 - A description of the specific treatment modalities being prescribed and the recommended amount, frequency and duration of services
 - Prognosis for improvement
 - Requested dates of service
 - Date and signature of the licensed therapist

21.3.4.2 Limitations for Occupational Therapy (OT) and Physical Therapy (PT)

The following outpatient OT or PT treatment procedure codes will be denied if billed on the same date of service as procedure codes G0152 or G0151 respectively, by any provider:

Procedure Codes							
97012	97016	97018	97022	97024	97026	97028	97032
97033	97034	97035	97036	97039	97110	97112	97113
97116	97124	97140	97150	97530	97535	97537	97542
97550	97755	97760	97761	97762			

Procedure codes 97545 and 97546 are not a benefit of the CSHCN Services Program.

21.3.4.3 Limitations for Speech-Language Pathology (SLP)

Outpatient speech therapy treatments will deny if billed on the same date of service as procedure code G0153 by any provider.

21.3.5 Medical Nutritional Counseling Services

Medical nutritional counseling services (procedure codes 97802, 97803, and S9470) are a benefit of the CSHCN Services Program when provided in the home by a licensed dietician.

Referto: Section 26.4.2, “Benefits, Limitations, and Authorization Requirements” in Chapter 26, “Medical Nutrition Services” for additional information about medical nutritional counseling services.

21.3.5.1 Prior Authorization for Medical Nutritional Counseling Services

Prior authorization is required for medical nutritional counseling services.

Providers are responsible for maintaining documentation to support medical necessity of nutritional counseling services in the clinical record.

21.3.6 Social Work Services

Social work services (procedure code G0155) that are provided by a qualified medical social worker or a social work assistant under the supervision of a qualified medical social worker are a benefit when the client meets the qualifying criteria:

- The services of these professionals are necessary to resolve social or emotional problems that are expected to be an impediment to the effective treatment of the client’s medical condition or rate of recovery.
- The POC indicates why the required services need the skills of a qualified social worker to be performed safely and effectively.

The services provided by the social worker may include, but are not limited to, the following:

- Assessment of the social and emotional factors related to the client’s illness, need for care, response to treatment, and adjustment to care
- Assessment of the relationship of the client’s medical and nursing requirements to the client’s home situation, financial resources, and availability of community resources
- Appropriate action to obtain available community resources to assist in resolving the client’s problem
- Counseling services that are required by the client
- Medical social services furnished to the client’s family member or caregiver on a short-term basis when the HHA can demonstrate that a brief intervention (i.e., two or three visits) by a medical social worker is necessary to remove a clear and direct impediment to the effective treatment of the client’s medical condition or to the client’s rate of recovery (to be considered “clear and direct,” the behavior or actions of the family member or caregiver must plainly obstruct, contravene, or prevent the client’s medical treatment or rate of recovery)

21.3.6.1 Prior Authorization for Social Work Services

Prior authorization is required for social work services.

The following services are not benefits:

- Medical social services to address general problems that do not clearly and directly impede treatment or recovery
- Long-term social services furnished to family members, such as ongoing alcohol counseling

21.4 Claims Information

Home health services claims must be submitted to TMHP in an approved electronic format or on a UB-04 CMS-1450 paper claim form. Providers may purchase UB-04 CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a UB-04 CMS-1450 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills or itemized statements are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) [NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.7, "Instructions for Completing the UB-04 CMS-1450 Paper Claim Form" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

Services and supplies that exceed the 28-items-per-page limitation must be submitted on separate UB-04 CMS-1450 paper claim forms.

21.5 Reimbursement

Skilled nursing visits provided by home health agencies enrolled in the CSHCN Services Program must be billed in 15-minute increments.

One practicing registered nurse skilled nursing visit may be reimbursed every 30 days outside of the prior authorized visits when skilled nursing visits have been authorized for the particular client.

Skilled nursing provided in the day care or school setting will not be reimbursed.

All claims for reimbursement of procedure codes G0156 (HHA services), G0299 (RN services), and G0300 (LVN services) are based on the actual amount of billable time associated with the service. For those services in which the unit of service is 15 minutes (1 unit = 15 minutes), partial units should be rounded up or down to the nearest quarter hour.

To calculate billing units, count the total number of billable minutes for the calendar day for the client, and divide by 15 to convert to billable units of service. If the total billable minutes are not divisible by 15, the minutes are converted to one unit of service if they are greater than seven, and converted to 0 units of service if they are seven or fewer minutes.

For example: 68 total billable minutes/15 = 4 units + 8 minutes. Since the 8 minutes are more than 7 minutes, those 8 minutes are converted to one unit. Therefore, 68 total billable minutes = 5 units of service.

Time intervals for 1 through 8 units are as follows:

Units	Number of Minutes
0 units	0 minutes through 7 minutes

Units	Number of Minutes
1 unit	8 minutes through 22 minutes
2 units	23 minutes through 37 minutes
3 units	38 minutes through 52 minutes
4 units	53 minutes through 67 minutes
5 units	68 minutes through 82 minutes
6 units	83 minutes through 97 minutes
7 units	98 minutes through 112 minutes
8 units	113 minutes through 127 minutes

Procedure codes G0156, G0299, and G0300 will be limited to 30 units per day, for any procedure, any provider. All services are reimbursed hourly.

Procedure codes S9123 and S9124 must be used when billing for extended SN services. The unit of service is hour increments.

Note: *These codes cannot be billed in conjunction with G0156 (Home Health Aide), G0299 (RN services), and G0300 (LVN Services) on the same day unless approved by the CSHCN Medical Director. If approved, procedure codes G0156, G0299, and G0300 will not be reimbursed on the same day.*

All claims for reimbursement of these procedure codes are based on the actual amount of billable time associated with the service. For those services in which the unit of service is 1 hour (1 unit = 1 hour), partial units should be rounded up or down to the nearest tenth of an hour.

Two medical nutritional counseling visits (procedure code S9470) may be reimbursed per rolling calendar year.

Reimbursement for mileage is not a benefit of the CSHCN Services Program.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

21.6 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

22.1 Enrollment

To enroll in the CSHCN Services Program, home health agencies providing skilled nursing services must be actively enrolled in Texas Medicaid, have a valid provider agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, be a licensed and certified home and community services support agency (HCSSA), and comply with all applicable state laws and requirements. Out-of-state home health skilled nursing providers must meet all these conditions, be located in the United States, within 50 miles of the Texas state border, and be approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

22.2 Benefits, Limitations, and Authorization Requirements

The CSHCN Services Program may cover up to 200 hours per client, per year of part-time, intermittent skilled nursing services (procedure codes S9123 and S9124). These services must be provided in the home by an HCSSA-registered nurse (RN) or licensed vocational nurse (LVN) enrolled in the CSHCN Services Program.

The admission visit performed by the agency RN may be reimbursed at the same rate as the home visit and counts toward the 200 hours per year. RN visits to perform assessments that are required to complete the plan of care may be reimbursed at the same rate as the home visit and will count toward the 200 hours per year limit.

Skilled nursing services must meet the following conditions for reimbursement by the CSHCN Services Program:

- Prescribed by a physician
- Medically necessary and appropriate
- Provided according to an established plan of care which is reviewed, at a minimum, by the prescribing physician every 60 days
- Authorized

Skilled nursing can include, but is not limited to:

- Periodic nursing assessment of a client.
- Visits for administering medications, including intravenous (IV) medications and chemotherapy.
- Visits for acute illness, postsurgical, and sterile wound care.
- Education of the primary caregiver and client about the illness process and the skills required to care for the client's medical needs.
- Medical treatments that require the skills of a licensed nurse.
- Transition from an inpatient to a community-based home setting.

The CSHCN Services Program covers other services, therapies, supplies, and equipment that may be provided in the home. Refer to Chapter 21, "Home Health Services" for guidelines.

Skilled nursing services do not include respite care. Families should be referred to the DSHS regional office in their area for respite care services.

Referto: Chapter 1, "TMHP and HHSC Contact Information" for a list of DSHS regional offices.

Nursing services are not reimbursed if provided in conjunction with the administration of total parenteral nutrition (TPN). The reimbursement for TPN is an all-inclusive fee.

Referto: Section 26.6, "Total Parenteral Nutrition (TPN)" in Chapter 26, "Medical Nutrition Services" for more detailed information.

Skilled nursing for in-home administration of blood or blood products is not a benefit.

22.2.1 Authorization Requirements

Skilled nursing services must be authorized. The number of skilled nursing hours that may be authorized or reimbursed is limited to 200 hours per calendar year per client.

Requests for skilled nursing hours must be submitted in writing to TMHP within 95 days of the date of service using the [CSHCN Services Program Home Health Skilled Nursing Request and Plan of Care Form](#).

Note: *Fax transmittal confirmations are not accepted as proof of timely authorization submissions.*

An additional 200 hours of service per client, per calendar year may be prior authorized with documented justification of medical necessity.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for additional information about authorization and prior authorization requirements.

22.3 Claims Information

Home health services claims must be submitted to TMHP in an approved electronic format or on a UB-04 CMS-1450 paper claim form. Providers may purchase UB-04 CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a UB-04 CMS-1450 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Data-and-Systems/

[National-Correct-Coding-Initiative.html](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.7, "Instructions for Completing the UB-04 CMS-1450 Paper Claim Form" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

Services and supplies that exceed the 28-items-per-page limitation must be submitted on separate UB-04 CMS-1450 paper claim forms.

22.4 Reimbursement

Skilled nursing care may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

22.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

23.1 Enrollment

The Children with Special Health Care Needs (CSHCN) Services Program enrolls hospice organizations and home health agencies licensed to provide hospice services. These agencies are not required to be actively enrolled in Texas Medicaid. However, they must be licensed by the Department of Aging and Disability Services (DADS), have a valid provider agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state hospice providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

23.2 Benefits, Limitations, and Authorization Requirements

Hospice services are benefits of the CSHCN Services Program. Hospice care includes palliative care for clients with a prognosis of 6 months or less.

Services must be related to palliative care for the terminal diagnosis and may include any or all of the following services: direct care, respite, durable medical equipment (DME), supplies, and medications prescribed for the terminal illness.

Direct care services may include:

- Skilled nursing services.
- Social work services.
- Home health aide services.
- Pastoral care services.
- Medical supervision by the hospice medical director.
- Physical therapy and occupational therapy.
- Speech therapy.
- Dietitian services.

The hospice benefit does not cover curative care for the terminal diagnosis.

Coverage for conditions unrelated to the terminal illness is unaffected.

If nutritional supplements are the client's sole source of nutrition, the supplements are included in the per diem rate.

Total parenteral nutrition (TPN) provided to a client on hospice services may be reimbursed separately.

Referto: Section 26.6.2, "Benefits, Limitations, and Authorization Requirements" in Chapter 26, "Medical Nutrition Services" for TPN benefits, limitations, and authorization requirements.

Hospice and home health services may not be reimbursed on the same date of service, with the exception of the initial date of service when the client is being discharged from home health service and admitted to hospice service.

23.2.1 Prior Authorization Requirements

Prior authorization is required for hospice services. The TMHP-CSHCN Services Program medical review staff review requests for hospice services. Hospice services may be prior authorized up to a maximum of 6 months per request.

Providers must submit the [CSHCN Services Program Prior Authorization Request for Hospice Services Form](#) or the provider's plan of care (POC) if it includes the same information as the [CSHCN Services Program Prior Authorization Request for Hospice Services Form](#) and the provider and physician signatures. All of the fields on the prior authorization form must be completed. A copy of the POC, signed and dated by a physician, must be maintained by the physician and hospice provider in the client's medical record.

The [CSHCN Services Program Prior Authorization Request for Hospice Services Form](#) must include the client's demographic information, the requested services, and required provider information and signature as follows:

23.2.1.1 The client's demographic information

- First and last name
- CSHCN Services Program number/client identifier
- Date of birth
- Hospice diagnosis codes
- Address

23.2.1.2 The requested services

- Start of care and end of care dates
- Type of hospice care to be delivered (i.e., routine home care, continuous home care, inpatient hospice care, or respite care)
- The criteria used to assess appropriateness of hospice for this client
- A specific description of all direct care to be provided, durable medical equipment, supplies, and medications anticipated for the care of the client

23.2.1.3 Required provider information and signature

- Provider name
- CSHCN Services Program Texas and National Provider Identifiers (TPI and NPI)
- Taxonomy and benefit codes

- Telephone and fax numbers
- Address
- Dated signature

If the client requires hospice care beyond the initial 6-month period, authorization for additional 6-month periods may be considered with a new request that includes the following documentation:

- An updated [CSHCN Services Program Prior Authorization Request for Hospice Services Form](#) or a POC that includes the same information as the [CSHCN Services Program Prior Authorization Request for Hospice Services Form](#).
- A current date with the hospice provider and the attending physician.
- An updated description of all direct care, DME, supplies, and medications anticipated for the client's care.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

23.3 Claims Information

Claims for hospice services must be billed using the following revenue codes:

Revenue Code	Description
651	Hospice services—home care
652	Hospice services—continuous home care - ½ (at least 8 but less than 16 hrs care)
655	Hospice services—inpatient respite care
656	Hospice services—general inpatient care/non-respite

Hospice services must be submitted to TMHP in an approved electronic format or on the UB-04 CMS-1450 paper claim form. Providers may purchase UB-04 CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a UB-04 CMS-1450 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.7, "Instructions for Completing the UB-04 CMS-1450 Paper Claim Form" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

23.4 Reimbursement

Hospice services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid up to the maximum allowed per diem rate. The per diem rate does not cover care for conditions or illnesses unrelated to the terminal diagnosis.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

23.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

24.1 Enrollment

To enroll in the CSHCN Services Program, a hospital must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the TMHP-CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state hospitals must meet all of these conditions and be located in New Mexico, Oklahoma, Arkansas, or Louisiana within 50 miles of the Texas state border. Hospital providers must be Medicare-certified.

Freestanding ambulatory surgical centers (ASCs) and hospital ambulatory surgical centers (HASCs) are subject to the same enrollment requirements as hospitals. HASCs must enroll separately from the hospitals in which they are based.

To be eligible for participation in the CSHCN Services Program, a psychiatric hospital or facility must be enrolled in Texas Medicaid as a freestanding inpatient psychiatric facility. Out-of-state psychiatric hospitals or facilities must meet all of these conditions and be located in the United States, within 50 miles of the Texas state border.

All providers of laboratory services must comply with the rules and regulations of the *Clinical Laboratory Improvement Amendments (CLIA)* of 1988.

Referto: Section 25.1.1, “Clinical Laboratory Improvement Amendments (CLIA) of 1988” in Chapter 25, “Laboratory Services” for more information.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession or facility standards, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

24.1.1 Continuity of Hospital Eligibility Through Change of Ownership

When a hospital changes ownership, the new owner must take the following actions:

- Obtain recertification as a Medicare facility under the new ownership.
- Complete a Texas Medicaid Provider Enrollment Application and obtain a Texas Medicaid provider identifier. The provider must have a Texas Medicaid provider identifier on file before applying with the CSHCN Services Program.

- Provide TMHP with a copy of the Contract of Sale (specifically, a signed agreement that includes the identification of previous and current owners in a language that specifies who is liable for overpayments that were identified subsequent to the change of ownership, that includes dates of service before the change of ownership).
- Supply a listing of all the providers identified by the change of ownership.

24.1.2 Specialty Team or Center

In addition to requiring prior authorization, the following services require that the physicians or facilities be approved by the TMHP-CSHCN Services Program as specialty team or center providers:

- For kidney transplant services, the facility must be specialty center-approved.
- Stem cell transplant services must be provided in a Texas facility that is a designated Children's Hospital or a facility in compliance with the criteria set forth by the Organ Procurement and Transplantation Network (OPTN), the United Network for Organ Sharing (UNOS), or the National Marrow Donor Program (NMDP). The provider must attest to compliance with the required criteria when the prior authorization form is completed and submitted. TMHP maintains a current list of approved centers.

Referto: Section 2.1.7, "Transplant Specialty Centers" in Chapter 2, "Provider Enrollment and Responsibilities" for more information about stem cell and kidney transplant facility designation.

24.2 Inpatient/Outpatient Benefits, Limitations, and Authorization Requirements

Facilities are responsible for knowing which services require authorization or prior authorization and whether they are a benefit in the inpatient or outpatient setting. The services listed below are not all-inclusive. Refer to the appropriate sections of the provider manual for specific benefit information.

The benefits, limitations, and authorization requirements in this section apply to both inpatient and outpatient services. Additional information specific to inpatient services can be found in Section 24.3, "Inpatient Services" in this chapter. Additional information specific to outpatient services can be found in Section 24.4, "Outpatient Services" in this chapter and information on ASCs can be found in Section 24.5, "Ambulatory Surgical Centers" in this chapter.

Take-home drugs and supplies are not a benefit of the CSHCN Services Program.

Some procedures require prior authorization or specialty team or center approval. If prior authorization is not obtained as required, the procedures or hospital stay are denied. Authorization is a condition of reimbursement; it is not a guarantee of payment. Faxed transmittal confirmations are not accepted as proof of timely authorization submission.

Authorization or prior authorization is not given if the client is not eligible for the CSHCN Services Program benefits when the request is received by the TMHP-CSHCN Services Program. All claims for these services must meet the 95-day filing deadline.

Providers can fax or mail their written requests along with all other applicable documentation to the following address:

Texas Medicaid & Healthcare Partnership
TMHP-CSHCN Services Program Authorization Department
12357-B Riata Trace Parkway, Suite 100
Austin, TX 78727
Fax: 1-512-514-4222

Referto: Chapter 4, "Prior Authorizations and Authorizations" for more information, including deadlines and appeal procedures.

24.2.1 Chemotherapy

Inpatient and outpatient hospitals must use revenue code 636 for reimbursement of the technical component. The appropriate chemotherapy procedure code must be listed on the claim.

Referto: Section 31.2.12, “Chemotherapy” in Chapter 31, “Physician” for additional information.

24.2.2 Cochlear Implants

Cochlear implant devices are payable to the facility where the cochlear implantation surgery takes place. Hospitals must submit procedure code L8614 when billing for cochlear implant devices. ASCs and HASCs must submit procedure code L8614 with modifier NU when billing for cochlear implant devices.

Referto: Section 20.3.2, “Cochlear Implants” in Chapter 20, “Hearing Services” for additional information.

24.2.3 Electrodiagnostic Testing (Electromyography and Nerve Conduction Studies)

Electromyography (EMG) and nerve conduction studies (NCS) are benefits of the CSHCN Services Program when medically indicated. EMG and NCS are diagnosis restricted and may require prior authorization.

Referto: Section 31.2.18, “Evaluation and Management (E/M) Services” in Chapter 31, “Physician.”

24.2.4 Fluocinolone Acetonide Intravitreal Implant (*Retisert*)

Fluocinolone acetonide intravitreal implant is a corticosteroid indicated for the treatment of chronic noninfectious uveitis affecting the posterior segment of the eye. The surgical implant is designed to release fluocinolone acetonide over approximately 30 months.

Procedure code J7311 is a benefit for the CSHCN Services Program for clients 12 years of age or older in a hospital, HASC, or ASC setting. Procedure code J7311 is only considered for reimbursement with a posterior uveitis diagnosis of more than 6 months in duration and only when the condition has been unresponsive to oral or systemic medication treatment. Prior authorization is required.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information on prior authorization requirements.

24.2.5 Laboratory Services

Hospital laboratory services are a benefit for inpatient, outpatient, and nonpatient clients. A hospital nonpatient is one who is not registered as an inpatient or an outpatient, but whose laboratory services are performed by the hospital.

All clinical laboratory services may be reimbursed at a percentage of the Medicare rate set by the Centers for Medicare and Medicaid Services (CMS), except for those hospitals that have been identified by Medicare as sole community hospitals. These hospitals may be reimbursed at 103.35 percent of the clinical lab rate.

Outpatient and nonpatient claims for laboratory services must only reflect tests actually performed by the hospital laboratory; however, hospital laboratories may bill for all of the tests performed on a specimen even if a portion of the tests are done by another laboratory on referral from the hospital submitting the claim.

Hospitals may bill a handling fee (procedure code 99001) for collecting and forwarding a specimen collected by venipuncture or catheterization and sent to a receiving laboratory. Only one handling fee may be charged per day, per client, unless specimens are sent to two or more different laboratories. In order to bill a handling fee, the receiving laboratory’s name and address and unique Texas provider identifier (TPI) number must be included on the claim in Blocks 17 and 17B.

To be eligible for reimbursement by the CSHCN Services Program, all laboratories must be certified according to the Clinical Laboratory Improvement Amendments (CLIA) regulations.

Referto: Section 25.1, “Enrollment” in Chapter 25, “Laboratory Services.”

24.2.6 Magnetoencephalography (MEG) Services

Inpatient and outpatient hospitals must use revenue code 860 or 861 for reimbursement of magnetoencephalography (MEG) services. The appropriate MEG procedure code must be listed on the claim.

Note: *Reimbursement to an outpatient hospital will be based on the submitted procedure code.*

Referto: Section 31.2.28, “Magnetoencephalography (MEG)” in Chapter 31, “Physician” for additional information.

24.3 Inpatient Services

24.3.1 Benefits, Limitations, and Authorization Requirements

Inpatient hospital services include medically necessary items and services ordinarily furnished by a CSHCN Services Program hospital or by an approved, enrolled, out-of-state hospital under the direction of a physician for the care and treatment of inpatient clients. Hospital services must be medically necessary, prior authorized, and are subject to the utilization review requirements of the CSHCN Services Program.

Reimbursement to hospitals for inpatient services is limited to 60 days per calendar year and may accrue intermittently or consecutively. Once 60 days of inpatient care are provided, reimbursement for additional inpatient care is not considered until the next calendar year, except as noted below.

Exception: *A benefit of up to 60 additional inpatient days may be granted to a client, to begin on the date of hospital admission, for an approved stem cell transplant.*

Inpatient hospital services include the following items and services:

- Room and board in semiprivate accommodations or in an intensive care or coronary care unit, including meals, special diets, and general nursing services. Room and board in private accommodations, including meals, special diets, and general nursing services may be reimbursed up to the hospital’s charge for the most prevalent semiprivate accommodations. Private accommodations are not subject to the semiprivate rate if they are documented by the physician as medically necessary. The hospital must keep this documentation in the client’s record and document the information on the claim.
- Whole blood and packed red blood cells that are reasonable and necessary for the treatment of illness or injury provided they are not available without cost.
- All medically necessary ancillary services and supplies ordered by a physician.
- Medically necessary emergency and non-emergency ambulance transportation of the client during the inpatient stay.

Note: *Items for personal comfort or convenience, such as a telephone or television, are not a benefit of the CSHCN Services Program and are not reimbursed, even if they are ordered by a physician.*

24.3.1.1 Initial Inpatient Prior Authorization Requests

All inpatient admissions must be prior authorized before the date of service or the entire hospital stay will be denied. Partial approvals for a hospital stay will not be approved. Friday and weekend admissions may be authorized when an emergency exists or when the required medical services will not be delayed due to the timing of the admission. The [CSHCN Services Program Prior Authorization Request for Inpatient Hospital Admission—For Use by Facilities Only](#) must be completed and submitted to obtain authorization.

All prior authorization request forms must be complete and must include either the surgeon's or the attending physician's name and provider identifier on the authorization request form. These physicians and the hospital must be actively enrolled in the CSHCN Services Program to obtain authorization.

If an initial request for prior authorization of an inpatient hospitalization is received for a CSHCN Services Program-enrolled client from a nonenrolled provider, the request is denied. If that provider subsequently enrolls as a CSHCN Services Program provider and submits a claim for these previously denied services within the 95-day claims filing deadline, then the claim may be considered for reimbursement based on the medical necessity of the services. If a provider does not complete the request, or if an initial request for prior authorization was not received from an enrolled provider, then the claim(s) cannot be considered for payment and are denied. All providers must be enrolled in order to receive reimbursement.

24.3.1.2 Emergency Inpatient Hospital Admissions

All inpatient admissions must be prior authorized. The CSHCN Services Program Prior Authorization Request for Inpatient Hospital Admissions - For Use by Facilities Only Form must be submitted to the claims contractor for review and approval before the date of service, or the entire hospital stay will be denied. Partial approvals for a hospital stay will no longer be reimbursed.

Requests for emergency hospital admissions must be received by the next working day after admission date for the coverage of the entire hospital stay. Requests for emergency admissions received after the next business day will be denied for the entire hospital stay.

Note: Partial approvals for a hospital stay will not be granted.

If the initial prior authorization request meets the deadline requirements and is denied for incomplete or inaccurate information, the provider may correct and resubmit the prior authorization request. The corrected request must be received by the next business day following the denial of the initial request. Corrected requests received after the next business day following the initial denial will be denied for the entire hospital stay.

All applicable information must accompany the request documenting the emergent conditions that necessitated the inpatient admission.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for detailed information about authorization and prior authorization requirements.

24.3.1.3 Inpatient Behavioral Health

The intent in providing inpatient services is to provide resources for behavioral health crisis stabilization while efforts are made to transfer the clients to a more appropriate outpatient program where they may receive the necessary psychiatric/psychological treatment required. Benefits are limited to inpatient assessment and crisis stabilization and must be followed by referral to the Texas Department of State Health Services (DSHS) or other appropriate behavioral health programs. Inpatient behavioral health services are limited to five days per calendar year, which count toward the inpatient hospital limitation of 60 days per calendar year.

Revenue code 124 may be a benefit of the CSHCN Services Program for inpatient behavioral health services.

24.3.1.3.1 Inpatient Behavioral Health Prior Authorization Requirements

Inpatient admissions for behavioral health crisis stabilization must be prior authorized. A completed [CSHCN Services Program Prior Authorization Request for Inpatient Pyschiatric Care Form](#) must be submitted. Requests must be received by the TMHP-CSHCN Services Program before or on the day of the client's admission, unless the admission is after 5 p.m., or on a holiday, or a weekend. In these cases, the TMHP-CSHCN Services Program must receive it by 5 p.m. on the next business day following admission. The TMHP-CSHCN Services Program will notify the provider of the decision in writing by fax. There may be no extensions to the 5-day limit.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information on prior authorization requirements.

Chapter 29, “Outpatient Behavioral Health” for more information about behavioral health services.

Inpatient psychiatric hospitals may be reimbursed at 80 percent of the TEFRA rate for CSHCN services.

24.3.1.4 Inpatient Rehabilitation Services

Inpatient rehabilitation programs must include medical management, two or more therapies (e.g., respiratory therapy, speech-language pathology [SLP] services, physical therapy [PT], occupational therapy [OT]), and rehabilitation nursing. The CSHCN Services Program may reimburse inpatient rehabilitation services if the client meets one of the following criteria:

- The client is 5 years of age or older, sufficiently alert to respond to interventions and to participate with the rehabilitation team in setting treatment goals, and is an active participant in therapeutic activities.
- The client is 4 years of age or younger, sufficiently alert to respond to interventions and to participate with the rehabilitation team, and the parent or caregiver can actively participate in setting treatment goals and learning therapeutic management.

In addition, at least one of the following criteria must be met for the client to be eligible for reimbursement of inpatient rehabilitation services:

- The client developed a recent onset of illness or trauma (within the last 12 months) without previous comprehensive rehabilitation efforts.
- There is no documentation of previous inpatient comprehensive rehabilitation effort.
- The client experienced a loss of previous level of functional independence through complications or recurrent illness, and the recovery of functional independence is feasible.

The following are examples of conditions that may be considered for coverage of inpatient rehabilitation:

- Spinal cord injuries
- Traumatic amputation of upper or lower extremities
- Rheumatoid arthritis and other inflammatory polyarthropathies
- Burns
- Postpolio syndrome
- Neoplasms
- Head or brain injuries
- Late effects of infections (i.e., Guillain-Barré syndrome)
- Cerebrovascular diseases
- Congenital conditions (e.g., spina bifida and cerebral palsy) may be considered when there is a recent change in medical and functional status, such as postspinal surgery

24.3.1.4.1 Inpatient Rehabilitation Prior Authorization Requirements

Prior authorization is required for inpatient rehabilitation services. An inpatient rehabilitation provider must be enrolled in the CSHCN Services Program as an inpatient rehabilitation facility or unit before a prior authorization may be approved.

Prior authorization may be approved in 14-day increments, not to exceed a maximum of 90 days per calendar year. Requests must be submitted in writing with documentation of medical necessity, including the diagnosis or condition of the client and progress toward goals (request for additional days) along with a copy of the treatment plan. The [CSHCN Services Program Prior Authorization Request for Inpatient Rehabilitation Admission](#) must be submitted for the initial request and each extension. Providers must include all supporting documentation showing medical necessity for the extended inpatient stay.

A statement explaining the medical necessity of inpatient versus outpatient rehabilitation services must be included with the documentation submitted for prior authorization. The justification must state the client's current condition and why inpatient rehabilitation, as opposed to outpatient therapy, is required for optimal care. The client's need for daily, intense, focused, team-directed therapy must be substantiated by the circumstances of the case.

If the prior authorization request for additional days documents that the client has made progress toward treatment goals, an additional 14 days may be approved up to a maximum of 90 days per calendar year.

Requests for additional days must be received for prior authorization before the last inpatient rehabilitation day previously prior authorized.

Requests for extensions are *not* approved if one of the following conditions applies:

- The client has met treatment goals, as determined by the rehabilitation team or the CSHCN Services Program medical director or designee.
- The client has failed to make progress toward remaining treatment goals during the currently authorized period.
- The client no longer requires inpatient rehabilitation, and therapeutic goals can be met on an outpatient basis.
- The request was received after the last prior authorized inpatient day.
- The 90-day calendar maximum is exhausted.

24.3.1.4.2 Treatment for **Acute Medical Episodes**

If a client has been admitted for inpatient rehabilitation and develops an acute medical condition that prevents participation in rehabilitation program activities, then the CSHCN Services Program must not be billed for inpatient rehabilitation services. Acute care services (whether inpatient or outpatient) that are a benefit of the CSHCN Services Program may require authorization or prior authorization and must be billed as acute care services.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information on prior authorization requirements.

24.3.1.5 **Renal (Kidney) Transplants**

Renal transplants will only be approved for reimbursement when performed in a Medicaid-approved, CSHCN Services Program-enrolled transplant facility by a Medicaid-approved, CSHCN-enrolled transplant team. All transplant facilities who wish to perform transplants for CSHCN Services Program clients must have current certification and be in continuous compliance with the criteria set forth by the Organ Procurement and Transportation Network (OPTN). The Centers for Medicare & Medicaid Services maintains a list of certified and approved Texas transplant facilities (www.cms.hhs.gov/ApprovedTransplantCenters).

The CSHCN Services Program may reimburse renal transplants when the projected costs of the transplant and follow-up care is less than continuing dialysis treatments. The estimated cost of the renal transplant over a 1-year period versus the cost of renal dialysis for 1 year at the requesting facility must

be both documented and reviewed. Clients who have not previously applied for Medicare and Kidney Health Care coverage and are anticipating the need for a renal transplant must apply for Medicare and Kidney Health Care coverage.

For any client who is 18 years of age or older, the transplant team must also provide a plan of care to be implemented after the client reaches 21 years of age and is no longer eligible for services through the CSHCN Services Program.

Renal transplants must be prior authorized, and approval is subject to the availability of funds. Only one initial and one subsequent renal transplant may be reimbursed per lifetime.

Some renal transplant procedure codes are subject to a global surgical period of 90 days, with postoperative care included in the reimbursement of the surgical fee.

Referto: Section 31.2.38.6, “Global Fees” in Chapter 31, “Physician.”

If the transplant is not prior authorized, services directly related to the transplant within 3 days preoperative and during the 6-week postoperative period will be denied for the surgeon, assistant surgeon, and facility. The anesthesiologist may be reimbursed.

24.3.1.5.1 Reimbursement for Renal Transplants

A maximum amount of \$200,000 per client may be reimbursed for a renal transplant hospitalization. Hospitals may be reimbursed 80 percent of the All Patient Refined Diagnosis Related Groups (APR-DRG) payment rate, up to the maximum of \$200,000. All hospital charges, including donor costs, are included in the \$200,000 limit.

Reimbursement for renal transplants includes:

- The cost of the transplant services.
- One of the following:
 - The cost of the procurement of a cadaveric organ and services associated with the organ procurement, when the organ is obtained from an organ procurement organization designated by the U.S. Department of Health and Human Services. Documentation validating the organ’s source must accompany the claim.
 - The cost associated with living donors. The donor costs must be included on the client’s inpatient hospital claim and may be reimbursed only if another source of payment is not available. Donor costs for CSHCN Services Program clients who also have Medicaid benefits are not reimbursed.

The costs related to the donor-matching process will not be reimbursed.

If the cost related to a living donor will be paid by the client’s other insurance carrier, the Other Insurance information must be completed on the claim form. If these costs will be paid by the donor’s insurance carrier, the claim must be submitted using a paper claim form with attachments documenting the donor’s insurance information.

Referto: Section 5.7.2.7, “Instructions for Completing the UB-04 CMS-1450 Paper Claim Form” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement.”

Renal transplant recipients are eligible for follow-up care (outside the \$200,000 limit) immediately following hospital discharge for the renal transplant.

24.3.1.5.2 Renal Transplant Authorization Requirements

Prior authorization must be obtained by both the facility and the physician.

Documentation supporting the transplant prior authorization request must include:

- The CSHCN Services Program Prior Authorization Request for Stem Cell or Renal Transplant form

- A recent and complete history and physical.
- A statement of the client's status, including why a transplant is being recommended at this time.
- Documentation of the cost effectiveness of the transplant vs. continued dialysis.

Nationally, stays for renal transplants in hospital are 5 to 10 days followed by outpatient follow-up; therefore, no additional hospital days beyond the 60 per year allowed by the CSHCN Services Program are authorized without an appeal documenting medical necessity.

24.3.1.6 Transplants - Nonsolid Organ

The CSHCN Services Program may cover only autologous and matched related and matched nonrelated allogenic transplants.

Stem cell transplants include the initial transplant and one subsequent retransplant. This allows a total of two transplants per lifetime regardless of payer. The subsequent transplant must be prior authorized separately from the initial transplant.

Indications for re-transplantation will include the following:

- Relapse of disease
- Failure to engraft or poor graft function
- Graft rejection

Services must be provided in a Texas facility that is a designated Children's Hospital or a facility in compliance with the criteria set forth by the Organ Procurement and Transplantation Network (OPTN), the United Network for Organ Sharing (UNOS), or the National Marrow Donor Program (NMDP). TMHP maintains a current list of approved centers.

If a stem cell transplant has been prior authorized, a maximum of 60 days of inpatient hospital services may be a benefit beginning with the actual first day of the transplant. Any days remaining from the standard 60 inpatient day limit may be added to the 60 days for the transplant if the \$200,000 limit for the transplant maximum amount has not been exceeded. This 60-day period is considered a separate inpatient hospital admission for reimbursement purposes.

A maximum amount of \$200,000 per client may be reimbursed for a stem cell transplant hospitalization. All hospital charges for patient care and donor costs (inpatient hospital only) during the time of the hospital stay are applied to the \$200,000 limit. Donor costs must be included on the client's inpatient hospital claim for the transplant. Donor costs will not be considered by the CSHCN Services Program when another third-party resource is available to reimburse the transplant.

When a second stem cell transplant is prior authorized an additional maximum of \$200,000 may be reimbursed for the second prior authorization period. All hospital charges for patient care and donor cost (inpatient hospital only) will be applied to the additional \$200,000 limit. Donor cost must be included on the client's inpatient hospital claim for the transplant. Donor cost will not be considered by the CSHCN Services Program when another third-party resource is available to reimburse the transplant.

If a second cell transplant has been prior authorized, a maximum of 60 days of inpatient hospital services may be a benefit beginning with the actual first day of the second transplant.

Claims are accumulated systematically and payments that exceed \$200,000 are cut back, denied, or recouped.

Clients receiving a stem cell transplant are eligible for follow-up care (outside the \$200,000 limit) immediately following hospital discharge for the stem cell transplant event. This includes reimbursement for anti-rejection drugs.

24.3.1.6.1 Stem Cell Transplant Prior Authorization Requirements

Prior authorization is required for all stem cell transplants and must be obtained by both the facility and the physician.

Referto: Section 31.2.41.2, “Transplants - Nonsolid Organ” in Chapter 31, “Physician” for additional benefit information.

24.3.2 Hospital Reimbursement

The reimbursement methodology for many CSHCN Services Program facilities that are reimbursed based on the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) has changed to the prospective payment methodology based on All Patient Refined Diagnosis Related Groups (APR-DRG) payment system.

Hospitals that are enrolled in the CSHCN Services Program must first be enrolled in Texas Medicaid. The CSHCN Services Program reimbursement methodology has changed from TEFRA to APR-DRG. The reimbursement methodology for hospitals that are reimbursed by Texas Medicaid using APR-DRG also applies for the CSHCN Service Program.

The reimbursement method will not affect inpatient benefits and limitations. Inpatient admissions will continue to require prior authorization.

Note: *The 20 percent payment reduction that is currently applied to inpatient claims by the CSHCN Services Program will remain in effect.*

24.3.3 Prospective Payment Methodology

The prospective payment methodology is based on a diagnosis related groups (DRG) payment system. Reimbursement based on DRG includes all facility charges (e.g., laboratory, radiology, and pathology). Hospital-based laboratories and laboratory providers who deliver referred services outside the hospital setting must obtain reimbursement for the technical portion from the hospital. The technical portion includes the handling of specimens and the automated or technician-generated reading and reporting of results. Claims may not be submitted for technical services.

The CSHCN Services Program does not distinguish types of beds or units within the same acute care facility for the same inpatient stay (e.g., psychiatric or rehabilitation). Because all inpatient hospitalizations are included in the DRG database that determines the DRG payment schedule, psychiatric and rehabilitation admissions are not excluded from the DRG payment methodology. To ensure accurate payment, providers may submit only one claim for each inpatient stay. The claim must include appropriate diagnosis and procedure code sequencing. The discharge and admission hours (military time) are required on the UB-04 CMS-1450 claim form or electronic equivalent, to be considered for payment.

The number of days of care charged for a client for inpatient hospital services is always in units of full days. A day begins at midnight and ends 24 hours later. The midnight-to-midnight method is to be used in counting days of care for reporting purposes even if the hospital uses a different definition of day for statistical or other purposes.

A part of a day, including the day of admission and day on which a client returns from leave of absence, counts as a full day. However, the day of discharge, death, or day on which a client begins a leave of absence is not counted as a day unless discharge or death occur on the day of admission.

If admission and discharge or death occur on the same day, the day is considered a day of admission and counts as one inpatient day.

Reimbursement to acute care hospitals for inpatient services is limited to \$200,000 per client, per benefit year (January 1 through December 31) for clients who are 21 years of age and older. Claims may be subject to retrospective review, which may result in recoupment. Hospital reimbursement is made in accordance with TAC §38.10 (6).

24.3.4 Client Transfers

24.3.4.1 Admission Dates

To ensure correct payor identification, providers that receive transfer patients from another hospital must enter the actual date on which the client was admitted into each facility in Block 12 on the UB-04 CMS-1450.

24.3.4.2 Continuous Stays - Client Transfers and Readmissions

Client transfers within the same facility are considered one continuous stay and receive only one DRG payment. The CSHCN Services Program does not recognize specialty units within the same hospital as separate entities; therefore, these transfers must be submitted as one admission under the provider identifier. Readmissions to the same facility within 24 hours of a previous acute hospital or facility discharge are also considered one continuous stay and receive only one DRG payment.

Readmissions are considered a continuous stay regardless of the original or readmission diagnosis. Admissions submitted inappropriately are identified and denied during the UR process and may result in intensified review.

When more than one hospital provides care for the same client, the hospital providing the most significant amount of care receives consideration for a full DRG payment. The other hospitals are paid a per diem rate based on the lesser of either the mean length of stay for the DRG or the eligible days in the facility. The DRG modifier, PT, on the R&S Report indicated per diem pricing related to a client transfer. Services must be medically necessary and are subject to the CSHCN Services Program's UR requirements.

The claims contractor performs a postpayment review to determine if the hospital providing the most significant amount of care received the full DRG. If the review reveals that the hospital providing the most significant amount of care did not receive the full DRG, an adjustment is initiated.

To ensure correct payor identification, providers that receive transfer patients from another hospital must enter the actual date that the client was admitted into each facility in Block 12 on the UB-04 CMS-1450. Inpatient authorization requirements are based on the requirements that are specified by the program in which the client is enrolled on the date of the original admission. Providers must adhere to the authorization requirements for claims to be considered for reimbursement. Providers are reimbursed at the rate in effect on the date of admission.

24.3.5 Observation Status to Inpatient Admission

When a client's status changes from observation to inpatient admission, the date of the inpatient admission is the date the client was placed on observation status. This rule always applies regardless of the length of time the client was in observation (less than 48 hours) or whether the date of inpatient admission is the following day. All charges including the observation room are submitted on the inpatient claim (TOB 111).

24.3.6 Outlier Adjustments

TMHP makes outlier payment adjustments to DRG hospitals for admissions that meet the criteria for exceptionally high costs or exceptionally long lengths of stay for clients who are 21 years of age or younger as of the date of the inpatient admission. If a client's admission qualifies for both a day and a cost outlier, the outlier resulting in the higher payment to the hospital is paid.

Providers can view their day and cost outlier payment information for inpatient hospital claims on the Electronic Remittance and Status (ER&S) Report. The ER&S Report reflects the outlier reimbursement payment and defines the type of outlier paid. To view the day and cost outlier payment information, providers, facilities, and third party vendors may need to update their 835 electronic file format. For information about how to update the 835 electronic file format, refer to the revised electronic data exchange (EDI) companion guide (ANSI ASC X12N 835 Healthcare Claim Payment/Advice-Acute Care Companion Guide) on this website.

24.3.6.1 24.3.5.1 Day Outliers

The following criteria must be met to qualify for a day outlier payment:

- Inpatient days must exceed the DRG day threshold for the specific DRG.
- Additional payment is based on inpatient days that exceed the DRG day threshold multiplied by 60 percent of the per diem amount of a full DRG payment.
- The per diem amount is established by dividing the full DRG payment amount by the arithmetic mean length to stay for the DRG.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

24.3.7 Payment Window Reimbursement Guidelines

The following payment window reimbursement guidelines apply to services that are rendered by the hospital or an entity that is wholly owned or operated by the hospital.

CSHCN Services Program inpatient hospital providers must submit, as part of the client's inpatient hospital claim, all related professional and outpatient services that were rendered on the date of the client's inpatient admission or one of the following dates immediately before the client's inpatient admission:

- Within three calendar days before the client's inpatient admission for hospitals that receive DRG reimbursement
- Within one calendar day before the client's inpatient admission for hospitals that receive reimbursement other than DRG

Professional and outpatient services that must be submitted as part of the inpatient hospital claim include the following services if they are rendered by the hospital or an entity that is wholly owned or operated by the hospital:

- **Diagnostic services.** Diagnostic services include outpatient laboratory and radiology services that are related to the inpatient admission and submitted by physician and outpatient hospital providers. Affected services will include the total and technical components. The professional interpretation component will not be included in the payment windows identified above.
- **Non-diagnostic services.** Non-diagnostic services include surgeries and other non-diagnostic procedures and services that are related to the inpatient admission and submitted by physician, outpatient hospital, or other providers.

Important: *Related professional and outpatient services that were rendered within one day of the inpatient admission and related to the inpatient admission must be submitted on the inpatient hospital claim and not on an outpatient hospital claim. An outpatient hospital claim for these services will be denied as part of the payment for the inpatient hospital stay.*

24.3.7.1 Exceptions

The following services are excluded from the payment window and may be submitted and reimbursed separately from the inpatient admission:

- Services rendered by federally qualified health center (FQHC) providers
- Services rendered by rural health center (RHC) providers
- Professional services that are rendered in the inpatient hospital setting (place of service 3)
- Non-emergency and emergency ambulance services

The outpatient emergency and maintenance renal dialysis procedure codes in the tables below are also exceptions to the one-day payment window reimbursement guidelines:

Emergency Renal Dialysis Services Procedure Codes							
G0257							

Maintenance Renal Dialysis Services Procedure Codes

36591	36593	49421	93040	93041			

24.3.7.2 Professional and Outpatient Claims for Services Related to the Inpatient Admission

Professional and outpatient services that are rendered on the date of admission or within one calendar day of the admission date by the hospital, or an entity that is wholly owned or operated by the hospital, are considered part of the inpatient stay. Professional and outpatient claims submitted for services that are related to the inpatient admission will be denied or recouped if they are submitted with the specified payment window.

When modifier PD is appended to a professional or outpatient service, the modifier indicates that the service is related to the inpatient admission. The total and technical components for professional and outpatient services that are related to the inpatient admission will be denied when submitted with modifier PD.

Note: The professional interpretation component for professional and outpatient services that are related to the inpatient stay may be reimbursed separately even if accompanied by PD modifier.

24.3.7.3 Professional and Outpatient Claims for Services Unrelated to the Inpatient Admission

Professional and outpatient services that are rendered within the specified timeframe by the hospital or an entity that is wholly owned or operated by the hospital may be reimbursed if they are identified as unrelated to the inpatient admission as follows:

- Professional and outpatient claims for diagnostic services that are unrelated to the inpatient admission must be submitted with modifier U4, which indicates the service is unrelated to the inpatient admission.
- Professional claims for non-diagnostic services that are unrelated to the inpatient admission will be identified by comparing the referenced diagnosis code that is on the professional claim to the principal inpatient diagnosis. Professional services must be submitted with modifier U4 if the services are unrelated and the referenced professional diagnosis is a three- to seven-digit match to the principal inpatient diagnosis.
- Outpatient claims for non-diagnostic services that are unrelated to the inpatient admission will be identified by comparing the referenced diagnosis code that is on the outpatient claim to the principal inpatient diagnosis. The outpatient services must be submitted with condition code 51 if the services are unrelated and the referenced outpatient diagnosis is a three- to seven-digit match to the principal inpatient diagnosis.

Unrelated services that are denied as part of the inpatient admission can be appealed with modifier U4 or condition code 51, which indicates that the service is unrelated to the inpatient admission.

Note: Claims that are submitted with modifier U4 or condition code 51 will be subject to retrospective review and may be recouped if there is not sufficient documentation to indicate the service was unrelated to the inpatient admission.

These benefit changes do not impact services rendered by providers that are not wholly owned or operated by the hospital.

24.4 Outpatient Services

24.4.1 Benefits, Limitations, and Authorization Requirements

Outpatient services are ambulatory services provided to an individual who is in a hospital, but not admitted for inpatient care. Benefits include those diagnostic, therapeutic, rehabilitative, or palliative items or services provided on an outpatient basis that are deemed medically necessary and are provided by a CSHCN Services Program hospital or under the direction of a physician. Supplies provided by a hospital supply room for use in physician's offices in the treatment of clients are not reimbursable as outpatient services.

24.4.1.1 Blood Factor Products

Authorization of hemophilia blood factor products is not required.

When submitting claims, products must be identified by the National Drug Code (NDC), and the following procedure codes must be used:

Procedure Codes					
J7180	J7181	J7183	J7185	J7186	J7187
J7188	J7189	J7190	J7192	J7193	J7194
J7195	J7198	J7200	J7201	J7205	

- Procedure codes J7201 and J7205 are a benefit with diagnosis codes D66, D682, D688, and D689.
- Procedure codes J7180, J7181, and J7200 are a benefit with diagnosis codes D682, D688, and D689.

- Procedure code J7183 is a benefit with diagnosis code D680.
- Procedure codes J7186 and J7187 are a benefit with diagnosis codes D66 and D680.
- Procedure codes code J7189 is a benefit with diagnosis codes D66, D67, D682, D68311, D684, D688, D689, and Z1402.
- Procedure codes J7185, J7188, J7190, J7192, and J7198 are benefits with diagnosis codes D66, D67, D681, D682, D68311, D688, and D689.
- Procedure codes J7193, J7194, and J7195 are benefits with diagnosis code D67.

The following table lists the descriptions for the above mentioned diagnosis codes:

Diagnosis Code	Description
D66	Hereditary factor VIII deficiency
D67	Hereditary factor IX deficiency
D680	Von Willebrand's disease
D681	Hereditary factor XI deficiency
D682	Hereditary deficiency of other clotting factors
D68311	Acquired hemophilia
D684	Acquired coagulation factor deficiency
D688	Other specified coagulation defects
D689	Coagulation defect, unspecified
Z1402	Symptomatic hemophilia A carrier

Exceptions to the diagnosis codes indicated above will be considered with medical review. Medical review is conducted on all authorization requests that include a diagnosis code other than one listed above.

Medical review is required for approval of blood factor products for any diagnosis other than those listed above.

Claims must be submitted with the quantity and number of units of blood factor products that were provided.

- On electronic claims, enter the following information
 - Quantity Billed field - Enter a quantity of 1 for the blood factor procedure code.
 - NDC QTY field - Indicate the number of units provided.
- On paper CMS-1450 claim forms, enter the number of blood factor units in Box 46.

Outpatient hospitals are reimbursed a percentage of the amount billed.

Referto: Section 31.2.9, "Blood Factor Products" in Chapter 31, "Physician" for additional information.

24.4.1.2 Hospital-Based Outpatient Behavioral Health Services

Outpatient behavioral health services are limited to no more than 30 encounters by all providers per eligible client per calendar year. Laboratory and radiological services do not count toward the 30 outpatient encounters. The CSHCN Services Program does not provide outpatient behavioral health benefits for clients who are also enrolled in the Texas Medicaid, the Medicaid Comprehensive Care Program (CCP), or Children's Health Insurance Program (CHIP).

Hospitals may be reimbursed for psychological testing (procedure code 96101) and neuropsychological testing (procedure code 96118) in the outpatient setting. Psychological and neuropsychological testing is limited to a total of 4 hours per day and 8 hours per calendar year, per client, by any provider. Interpretation and documentation time, including time to document test results in the client's medical record, is included in procedure code 96101 or 96118, and is not reimbursed separately. Procedure code 96101 will be denied if performed on the same day as procedure code 96118.

Authorization is not required.

Referto: Chapter 29, "Outpatient Behavioral Health."

24.4.1.3 Hospital-Based Emergency Services Department

The CSHCN Services Program may cover emergency room visits for program eligible clients when provided in a CSHCN-enrolled facility. An emergency department is defined as an organized hospital-based facility for the provision of unscheduled episodic services to patients who present for immediate medical attention. The facility must be available 24 hours a day, 7 days a week.

According to the federal *Emergency Medical Transportation and Labor Act* (EMTALA), if any individual presents at the hospital emergency department requesting an examination or treatment the hospital must provide for an appropriate medical screening examination and stabilization services within the capability of the hospital's emergency department, including ancillary services routinely available to the emergency department, to determine whether or not an emergency medical condition exists.

An emergency medical condition is defined as a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain), such that the absence of immediate medical attention could reasonably be expected to result in placing an individual's health in serious jeopardy, serious impairment to bodily functions, or serious dysfunction of any bodily organ or part.

The medical records must reflect continued monitoring according to the client's needs and must continue until the client is discharged, stabilized, or appropriately transferred.

EMTALA medical screening revenue code 451 may be considered for reimbursement when billed as a stand alone service and provided by a qualified medical professional as designated by the facility. Ancillary, professional, or facility services will not be considered for separate reimbursement when billed with revenue code 451. Services beyond screening can be billed with the appropriate corresponding emergency services revenue code 450, 456, 459, 761, or 762.

24.4.1.3.1 Hospital-Based Emergency Services Authorization

Authorization is not required for emergency medical services. Emergency department services are subject to retroactive review.

24.4.1.4 Outpatient Observation

Outpatient observation services are a benefit of the CSHCN Services Program and do not require prior authorization. Observation care is defined by the Centers for Medicare & Medicaid Services (CMS) as "a well-defined set of specific, clinically appropriate services, which include ongoing short term treatment, assessment, and reassessment, that are furnished while a decision is being made regarding whether clients will require further treatment as hospital inpatients or if they are able to be discharged from the hospital."

Outpatient observation services are usually ordered for clients who present to the emergency department and who then require a significant period of treatment or monitoring in order to make a decision about their admission or discharge. The admitting practitioner anticipates that the client will require observation care for a minimum of eight hours. The decision whether to discharge a client from the hospital following resolution of the reason for the observation care or to admit the client as an inpatient can be made in less than 48 hours, usually in less than 24 hours.

Outpatient observation services require the use of a hospital bed and periodic monitoring by the hospital's nursing or other ancillary staff to evaluate the client's condition and to determine the need for an inpatient admission. Outpatient observation services can be provided anywhere in the hospital. The level of care, not the physical location of the bed, dictates the observation status.

Outpatient observation services are a benefit only when medically necessary and when provided under a practitioner's order or under the order of another person who is authorized by state licensure law and hospital bylaws to admit clients to the hospital and to order outpatient services.

Outpatient observation services are considered medically necessary if the following conditions are met (this list is not all-inclusive):

- The client is clinically unstable for discharge and one of the following additional conditions apply:
 - Laboratory, radiology, or other testing is necessary to assess the client's need for an inpatient admission.
 - The treatment plan is not established or, based on the client's condition, is anticipated to be completed within a period not to exceed 48 hours.
 - The client had a significant adverse response to therapeutic services, invasive diagnostic testing, or outpatient surgery and requires short-term monitoring or evaluation.
 - The medical necessity for inpatient treatment is unclear, that is:
 - The client's medical condition requires monitoring and evaluation, or treatment to confirm or refute a diagnosis in order to determine whether an inpatient admission is necessary.
 - There is a delayed or slow progression of the client's signs and symptoms that makes diagnosis difficult and the monitoring or treatment does not meet the criteria for an inpatient level of care.
 - The client is undergoing treatment for a diagnosed condition, and continued monitoring of clinical response to therapy may prevent an inpatient admission.

Medically necessary services that do not meet the definition of observation care should be submitted separately or included as part of the emergency department or clinic visit, and are not reimbursed as observation care.

Outpatient observation services are not a substitute for a medically appropriate inpatient admission.

The determination of an inpatient or outpatient status for any given client is specifically reserved to the admitting practitioner. The decision must be based on the practitioner's expectation of the care that the client will require.

24.4.1.4.1 Direct Outpatient Observation Admission

A client may be directly admitted to outpatient observation from the evaluating practitioner's office without being seen in the emergency room by a hospital-based practitioner. The practitioner's order should clearly specify that the practitioner wants the client to be admitted to outpatient observation status. An order for "direct admission" will be considered an inpatient admission unless otherwise specified by the practitioner's orders.

Brief observation periods following an office visit or at the direction of an off-site practitioner that involve a simple procedure (e.g., a breathing treatment) would be more appropriately coded as a treatment room visit.

24.4.1.4.2 Observation Following Emergency Room

A client may be admitted to outpatient observation through the emergency room if the client presents to the facility with an unstable medical condition and the evaluating practitioner determines that outpatient observation is medically necessary to determine a definitive treatment plan. An unstable medical condition is defined as one of the following:

- A variance in laboratory values from what is considered the generally accepted, safe values for the individual client.
- Clinical signs and symptoms that are above or below those of normal range and that require extended monitoring and further evaluation.
- Changes in the client's medical condition are anticipated, and further evaluation is necessary.

If a client is admitted to observation status from the emergency room, the hospital is reimbursed only for the observation room charges. The emergency room charges are not reimbursed separately, but must be submitted on a separate detail on the same claim as the observation room charges.

Brief observation periods following an emergency room evaluation will not be reimbursed if the service would normally have been provided within the time frames and facilities of an emergency room visit

24.4.1.4.3 Observation Following Outpatient Day Surgery

If a medical condition or complication of a scheduled day surgery requires additional care beyond the routine recovery period, the client may be placed in outpatient observation. The observation period should be submitted as an outpatient claim.

Reimbursement for outpatient observation after a scheduled day surgery is limited to situations in which the client exhibits an unusual reaction to the surgical procedure and requires monitoring or treatment beyond what is normally provided in the immediate post-operative period. Examples include, but are not limited to:

- Difficulty in awakening from anesthesia.
- A drug reaction.
- Other post-surgical complications.

24.4.1.4.4 Observation Following Outpatient Diagnostic Testing or Therapeutic Services

A client may be admitted to outpatient observation if the client develops a significant adverse reaction to a scheduled outpatient diagnostic test or to a therapeutic service, such as chemotherapy, that requires further monitoring. Observation services begin when the reaction occurred and end when the practitioner determines that the client is stable for discharge, or that an inpatient admission is appropriate.

24.4.1.4.5 Documentation Requirements for Outpatient Observation

Documentation that supports the medical necessity of the outpatient observation services must be maintained by the facility in the client's medical record. Documentation must include:

- The order of the ordering practitioner for admission to observation care, which must be dated and timed.
- The practitioner's admission and progress notes, which must be dated and timed, confirm the need for observation care, and outline the client's condition, treatment, and response to treatment.
- Nurse's notes, which must be dated and timed, reflect the time at which the client was admitted to the observation bed, and the reason for the observation stay.
- All supporting diagnostic and ancillary testing reports, including orders for the testing or any preadmission testing.
- Procedure notes and operative notes that address any complication that would support admission to observation status and must be dated and timed.
- Anesthesia and recovery room/post anesthesia care unit notes from the practitioner and the nurse, which must be dated and timed and detail orders and any complications that require admission to observation status.

- Documentation related to an outpatient clinic visit or critical care service that was provided on the same date of service as the observation service. The documentation must address any need for observation services and be dated and timed.
- All of the client education that was provided during the observation stay.
- The order for discharge from observation care, which must be signed, dated, and timed.
- The discharge notes, including nurse's notes that reflect the date and time at which the client was discharged from observation.

The client must be in the care of a practitioner during the period of observation, as documented in the medical record by admission, discharge, and other appropriate progress notes that are dated, timed, written, and signed by the practitioner.

Claims submitted for outpatient procedures in which the original intention was to keep the client for an extended period of time, such as overnight or for a 24-hour period, will be denied unless significant medical necessity is documented.

Retrospective review may be performed to ensure that the documentation supports the medical necessity of the outpatient observation services. Medical records will be evaluated to determine whether the practitioner's order (practitioner intent) and the services that were actually provided were consistent.

The medical records must clearly support the medical necessity of the outpatient observation services and must include a timed order for observation services that will support the number of hours that the client was under observation care and the hours that were submitted for payment.

24.4.1.4.6 Reporting Hours of Observation

Providers must submit the number of observation hours the client was under observation care.

Observation time begins at the clock time documented in the client's medical record. This time should coincide with the time that the client is placed in a bed for the purpose of initiating observation care in accordance with the practitioner's order.

Observation time ends when all medically necessary services related to observation care are completed. The end time of observation services may coincide with the time the client is actually discharged from the hospital or is admitted as an inpatient.

Hospitals should round clock times for the beginning and end of observation to the nearest hour and submit the total number of hours for the observation stay on the claim. For the purposes of submitting claims for observation services, one unit equals one hour. Partial units or hours should be rounded up or down to the nearest hour. Claims submitted with observation room units exceeding 48 hours will be denied.

Any service that was ordered within the observation period may be included on the outpatient claim if a practitioner's order for the service was made within the observation period time frame but hospital scheduling limitations prevented the service from being performed before the 48 hours expired. Any services ordered after 48 hours must not be included on the outpatient claim nor billed to the client. If a period of observation spans more than one calendar day (i.e., extends past midnight), all of the hours for the entire period of observation must be included on a single line, and the date of service for that line is the date on which the observation care began.

Observation time may include medically necessary services and follow-up care that is provided after the time the practitioner writes the discharge order, but before the client is discharged. Reported observation time does not include the time the client remains in the observation area after treatment is completed for reasons such as waiting for transportation home.

Observation services must not be submitted concurrently with diagnostic or therapeutic services for which active monitoring is part of the procedure. Time spent for the diagnostic or therapeutic procedure must not be included in the total amount of observation time submitted on the claim.

Recovery room hours that are associated with an outpatient procedure must not be submitted simultaneously with hours of observation time.

Revenue code 761 will be denied if it is submitted for the same date of service by the same provider as revenue code 760, 762, or 769.

24.4.1.4.7 Client Status Change

If a practitioner determines that a client in observation status meets criteria for an inpatient admission, the observation service becomes part of the inpatient stay and is not separately reimbursed.

Both the outpatient observation service (revenue code 760) and the inpatient admission must be submitted as separate details on the same inpatient claim. When a client's status changes from observation to inpatient admission, the date of the inpatient admission is the date the client was placed on observation status. The practitioner's order for a change in client status from outpatient observation to inpatient admission must be written, dated, and timed before the outpatient observation claim is submitted for reimbursement.

When a client is admitted to the hospital as an inpatient and a subsequent internal utilization review (UR) determines that the services did not meet inpatient criteria, the hospital may change the client's status from inpatient to outpatient observation. The order to change from an inpatient to outpatient observation admission is effective for the same date and time as the inpatient order. This practice is acceptable under the CSHCN Services Program if all of the following conditions are met:

- The change in client status is made before the claim is submitted.
- The hospital has not submitted a claim for the inpatient admission.
- The practitioner responsible for the care of the client concurs with the hospital UR determination to change to outpatient status.
- The practitioner's concurrence with the UR determination is documented in the client's medical record.

When the hospital has determined that it may submit an outpatient claim according to the conditions described above, the entire episode of care should be submitted as an outpatient episode of care.

24.4.1.4.8 Outpatient Observation Authorization

Authorization is not required for outpatient observation services. Prior authorization is required in the following situations:

- An outpatient observation stay is converted to an inpatient hospitalization.
- A completed CSHCN Services Program Authorization Request for Inpatient Hospital Admission - For Use by Facilities Only form must be completed and submitted to the CSHCN claims contractor.
- Documentation supporting the medical necessity of the outpatient observation services must be submitted with the request for the inpatient hospital admission and must include the beginning and end times of the outpatient observation services.
- For the practitioner's professional services related to a diagnostic, therapeutic, or surgical procedure performed during the time the client is in observation status.

24.4.1.4.9 Observation Services that are Not a Benefit

Outpatient observation services that are not medically necessary or appropriate are not benefits of the CSHCN Services Program, including, but not limited to, services provided under the following circumstances:

- As a substitute for an inpatient admission.
- Without a practitioner's order, including services ordered as inpatient services by the ordering practitioner, but submitted as outpatient by the billing office.
- For clients awaiting transfer to another facility.
- For clients with lack of or delay in transportation.
- As a convenience to the client, client's family, the practitioner, hospital, or hospital staff.
- For routine preparation before, or recovery after, outpatient diagnostic or surgical services.
- When an overnight stay is planned before diagnostic testing.
- To medically stable clients who need diagnostic testing or outpatient procedures that are routinely provided in an outpatient setting.
- Following an uncomplicated treatment or procedure.
- As standing orders for observation following outpatient surgery.
- For postoperative monitoring during a standard recovery period of four to six hours, which is considered part of the recovery room service.
- For outpatient blood or chemotherapy administration and concurrent services.
- For services that would normally require an inpatient admission.
- Beyond 48 hours from the time of the observation admission.

24.4.1.4.10 Outpatient Observation Authorization

Authorization is not required for outpatient observation services.

Important: *All inpatient admissions require prior authorization. Providers must submit the prior authorization request immediately upon determining that the patient's status is changing from observation to inpatient.*

24.4.1.5 Sleep Studies

Polysomnography, multiple sleep latency tests, and pediatric pneumograms may be a benefit of the CSHCN Services Program.

Sleep facilities that perform services for CSHCN Services Program clients must be accredited with the American Academy of Sleep Medicine (AASM) or the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). Documentation of accreditation must be maintained in the facility and be available for review. Sleep facilities must also follow current AASM practice parameters and clinical guidelines. Providers may refer to the AASM website at www.aasmnet.org for AASM facility certification requirements or to the JCAHO website at www.jointcommission.org for JCAHO facility accreditation information.

Sleep facility technicians and technologists must demonstrate that they have the skills, competencies, education, and experience that are set forth by their certifying agencies and AASM as necessary for advancement in the profession.

The sleep facility must have one or more supervision physicians who are responsible for the direct and ongoing oversight of the quality of the testing performed, the proper operation and calibration of the equipment used to perform the tests, and the qualifications of the non-physician staff who use the equipment.

Referto: Section 31.2.37, "Sleep Studies" in Chapter 31, "Physician."

24.4.1.6 Hyperbaric Oxygen Therapy (HBOT)

Hyperbaric oxygen therapy services may be a benefit of the CSHCN Services Program when reimbursed in the outpatient setting to hospital providers when using procedure code G0277. Procedure code G0277 requires prior authorization.

Claims for procedure code G0277 must be submitted with revenue code 413 on the same claim. Claims that are submitted without revenue code 413 will be denied.

The number of billable units that may be submitted for procedure code G0277 will be based on the length of time during which the patient receives treatment with hyperbaric oxygen.

The number of billable units of procedure code G0277 is based upon the time that the patient receives treatment with hyperbaric oxygen. In calculating how many 30-minute intervals to report, hospitals should take into consideration the time spent under pressure during descent, airbrakes and ascent, (in minutes), as follows:

- The first unit is for the time spent in the chamber receiving hyperbaric oxygen and must be for a minimum of 16 minutes.
- To bill for a second (or subsequent unit), all previous units of time must have been for the full 30 minutes, and the last unit must be for 16-30 minutes.

Referto: Section 31.2.23, “Hyperbaric Oxygen Therapy (HBOT)” in Chapter 31, “Physician” for more information on benefit and prior authorization criteria.

24.4.2 Reimbursement Information

Outpatient hospital services may be reimbursed 72 percent of the billed amount multiplied by the hospital’s Medicaid interim rate. The CSHCN Services Program does not have a separate cost settlement process.

Nonemergent and nonurgent evaluation and management (E/M) services rendered in the emergency room may be reimbursed 125 percent of the adult, physician office visit fee for procedure code 99202.

Imaging services rendered by outpatient hospital providers are reimbursed at the flat fee that is based on the procedure code submitted on the same line item as the imaging revenue code. Rural hospitals are eligible for a different rate for outpatient imaging. The CSHCN Services Program Online Fee Lookup (OFL) will display imaging rates for rural outpatient hospitals with a note code of “RH.”

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

Referto: Section 24.4.1.1, “Blood Factor Products” in this chapter for more information on blood factor products.

24.4.2.1 Hospital-Based Emergency Services Department

Hospital-based emergency departments may be reimbursed for services based on a reasonable cost, based on the hospital’s most recent tentative Texas Medicaid cost settlement report. The reasonable cost is reduced by a percentage determined by the state.

24.4.2.2 One-day Payment Window Reimbursement Guidelines

According to the one-day payment window reimbursement guidelines, most professional and outpatient diagnostic and nondiagnostic services that are rendered within 1 day of an inpatient hospital stay and are related to the inpatient hospital admission will not be reimbursed separately from the inpatient hospital stay if the services are rendered by the hospital or an entity that is wholly owned or operated by the hospital.

Referto: Section 24.3.7, “Payment Window Reimbursement Guidelines” in this chapter for additional information about the one-day payment window reimbursement guidelines.

24.5 Ambulatory Surgical Centers

24.5.1 Benefits, Limitations, and Authorization Requirements

Covered services in a freestanding surgical center (ASC) or a hospital ambulatory surgical center (HASC) are billed as one inclusive charge. It is not appropriate to bill separately for any supplies or other services related to the surgery. Routine X-ray and laboratory services directly related to the surgical procedure are not reimbursed separately. All nonroutine laboratory and X-ray services should be billed separately using the hospital's full care provider identifier.

Day surgery payment represents a global payment. Physician services must be billed separately.

Day surgery services include prosthetic devices, such as an intraocular lens (IOL), when supplied by the day surgery facility and implanted, inserted, or otherwise applied during a surgical procedure that is a benefit. Certain devices, such as cochlear implants and neurostimulator devices, may be reimbursed separately from the global rate.

24.5.1.1 Freestanding Surgical Centers

To be considered for payment, all surgeries performed in a freestanding surgical center must meet the following requirements:

- Child must be 24 months of age or older.
- The client's current state of health, using the American Society of Anesthesiologists (ASA) physical state classification, must be Level I or II:
 - ASA I or P1: a normal health patient.
 - ASA II or P2: a patient with mild systemic disease.

Services for a client with physical status P3, P4, P5, or P6 cannot be authorized in a freestanding surgical center.

ASA Designation	Physical Status Modifier
ASA I	P1
ASA II	P2
ASA III	P3
ASA IV	P4
ASA V	P5
ASA VI	P6

Documentation of the client's physical status must be on the surgery authorization request form.

A CSHCN Services Program-enrolled provider must perform the surgical procedure.

24.5.2 Reimbursement Information

Reimbursement of ASC procedures, whether HASC or free-standing, is based on the Centers for Medicare & Medicaid Services (CMS)-approved Ambulatory Surgical Code Groupings (Groups 1 through 9 per CMS and group 10 per the Texas Health and Human Services Commission [HHSC]) payment schedule. ASC and HASC procedure code group information can be obtained from the fee schedules on the TMHP website at www.tmhp.com. When two or more procedures are performed at the same surgical event, reimbursement is based on the procedure with the highest group payment.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

24.6 Claims Information

Inpatient, outpatient, and HASC claims must be submitted to TMHP in an approved electronic format or on a UB-04-CMS-1450 paper claim form. Freestanding ASC claims must be submitted to TMHP in an approved electronic format or on a CMS-1500 paper claim form. Providers may purchase UB-04 CMS-1450 or CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

The total number of details allowed for a UB-04 CMS-1450 paper claim form is 28. The TMHP claims processing system accepts a total of 71 details, and merges like revenue codes together to reduce the lines to 28 or less. If the merge function is unable to reduce the lines to 28 or less, the claim will be denied, and the provider will need to reduce the number of details and resubmit the claim.

All claims that require prior authorization must include the prior authorization number.

When completing the claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [CMS NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for additional information about claims filing.

Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims filing.

Important: All CSHCN Services Program paper hospital claims must include benefit code CSN.

24.6.1 Inpatient Claims

Hospitals are not required to submit itemized charge tickets with their UB-04 CMS-1450 paper claim forms for inpatient stays. The itemized charges must be retained by the facility for a period of at least 5 years from the date of service.

Medical or surgical supplies (e.g., infusion pumps, traction setups, and crutches only for inpatient use) must be itemized on Block 42-43 of the UB-04 CMS-1450 paper claim form. If provided to all admitted clients, admission kits should be billed using revenue code 270. If laboratory work is sent out, the name and address or provider identifier of the laboratory where the work was forwarded must be entered in Block 80 of the UB-04 CMS-1450 paper claim form or in Block 32 of the CMS-1500 paper claim form.

The date of admission must reflect the date that the client was admitted to the hospital as an inpatient.

The from date of service must reflect the date that the client first presented at the hospital for services including but not limited to, emergency room, observation, labor and delivery, or inpatient services.

If services that are rendered before the inpatient admission must be submitted on the inpatient claim, the number of pre-admission days that are related to the inpatient admission cannot exceed the days allowed for the rendered services:

Services	Days Allowed	Units
Emergency Room (ER) services	One day (24 hours) before the inpatient admission	Submitted per day

Services	Days Allowed	Units
Observation Services	Up to two days (48 hours) before the inpatient admission	Submitted in hours
Labor and Delivery	Up to three days before the inpatient admission	Submitted per day

Diagnosis-Related Group (DRG) hospital claims allow for a total of three days of pre-admit services. Non-DRG hospital claims are allowed one day of pre-admit services and a second day if additional observations hours occurred.

24.6.2 Outpatient Claims

Medical or surgical supplies (e.g., infusion pumps and traction setups) must be itemized on Block 42-43 of the UB-04 CMS-1450 paper claim form. If provided to all admitted clients, admission kits should be billed using revenue code 270. If laboratory work is sent out, the name and address or provider identifier of the laboratory where the work was forwarded must be entered in Block 80 of the UB-04 CMS-1450 paper claim form or in Block 32 of the CMS-1500 paper claim form.

Emergency department services by facilities for the room charges may be billed using the following revenue codes:

Revenue Code	Description
450	Emergency room
451	Emergency room - EMTALA
456	Emergency room, urgent care
459	Emergency room, other
761	Treatment or observation room, treatment room
762	Treatment or observation room, observation room

Emergency room ancillary services by facilities include laboratory services, radiology services, respiratory therapy services, and diagnostic studies such as electrocardiogram (EKG), computed tomography (CT) scans, and supplies. Facilities billing outpatient claims (claim type 023) bill for ancillary services must use the appropriate procedure code such as the CPT code or the HCPCS code that indicates the procedure or service performed.

If the client visits the emergency room more than once in a day, the time must be given for each visit. The time of the first visit must be identified in Block 18 of the UB-04 CMS-1450 paper claim form, using 00 to 23 hours military time (e.g., 1350 for 1:50 p.m.). Indicate other times on the same line as the procedure code.

Drugs administered in the outpatient setting must be billed with modifier SH. The drug description must include the name, strength, and quantity of the drug. Take home drugs and supplies are not a benefit of the CSHCN Services Program.

24.6.2.1 Revenue Code and Procedure Code Requirements for All Outpatient Services

The *Health Insurance Portability and Accountability Act* (HIPAA) of 1996, requires that a revenue code be billed for outpatient services that are submitted on the CMS-1450 UB-04 paper claim form or electronic equivalent. All revenue codes (except for those in the table below) must be billed with the most appropriate corresponding procedure code.

Claims must be submitted with the revenue code in Block 42 and the corresponding procedure code in Block 44 for each line item submitted. The revenue code and corresponding procedure code must be on the same line for the claim to process correctly. The procedure code and revenue code combination that is submitted on the claim must reflect the services that were provided to the client. All claims are subject to retrospective review.

24.6.2.1.1 Revenue Codes That Require a Procedure Code

The following revenue codes must be billed with an applicable procedure code:

Revenue Codes That Require Procedure Code							
220	278	279	300	301	302	303	304
305	306	307	309	310	311	312	314
319	320	321	322	323	324	329	330
331	332	333	335	339	340	341	342
349	350	351	352	359	380	381	382
383	384	385	386	387	389	400	401
402	403	404	409	413	419	420	421
422	423	424	429	430	431	432	433
434	439	440	441	442	443	444	449
450*	452*	456*	459*	460	469	470	471
472	479	480	481	482	483	489	540
550	551	552	559	560	561	562	569
570	571	572	579	580	581	582	589
610	611	612	619	620	630	631	632
633	634	635	636	730	731	732	739
740	749	770	771	779	780	789	860
861	880	920	921	922	923	924	925
929	943						

* For revenue codes 450, 452, 456, and 459, refer to Section 5.8.5, "Physician Services in Hospital Outpatient Setting" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for additional information about the 40-percent reduction for non-emergent and non-urgent services rendered in the emergency room.

Claims that are submitted with a revenue code in the above table will be priced based on the procedure code pricing methodology. All limitations, guidelines, and pricing that apply to the procedure code will be applied to the line item. If the procedure code is not a benefit when rendered by outpatient hospital providers, the line item will be denied. The procedure code must be a benefit when rendered by outpatient hospital providers, and the provider must follow the benefit guidelines and restrictions for the procedure code in order to be reimbursed.

The following list provides examples of claim submissions and appropriate processing:

- Example 1: If the provider bills a revenue code from the above table and chooses a procedure code that requires a modifier, the appropriate modifier must be billed with the revenue code/procedure code combination.
- Example 2: If the provider bills a revenue code from the above table and chooses a procedure code that is not a benefit when rendered by outpatient hospital providers, the line item will be denied.
- Example 3: If the provider bills a revenue code from the above table and chooses a procedure code that must be submitted to the client's other insurance, the line item will be denied with an indication that the other insurance must be billed first.

- Example 4: If the provider bills a revenue code from the above table and chooses a procedure code with a CMS MUE limitation, the line item will be processed to determine whether the limitation for the procedure code has been exceeded.

Referto: Section 24.4.1.1, “Blood Factor Products” in this chapter for more information on blood factor products.

The following revenue codes are the only codes that providers can submit without a corresponding procedure code:

Revenue Codes Exceptions List					
250	251	252	254	255	257
258	259	260	261	262	263
264	269	270	271	272	275
276	280	289	360	361	369
370	371	372	374	379	390
410	412	413	451	510	511
512	513	514	515	516	517
519	520	523	526	529	621
622	623	650	651	652	655

24.6.2.1.2 Clarification for Non-Hospital Facility Claims

Claims that are submitted on the CMS-1450 UB-04 paper claim form or electronic equivalent by non-hospital facility or other non-hospital providers must be submitted with a revenue code for correct processing. The following guidelines apply to determine reimbursement based on the information submitted on the claim.

Claims submitted with one of the following revenue codes on the same detail line as the procedure code will be reimbursed based on the submitted procedure code:

Revenue Codes that Require a Procedure Code							
278	279	300	301	302	303	304	305
306	307	309	310	311	312	314	319
320	321	322	323	324	329	330	331
332	333	335	339	340	341	342	349
350	351	352	359	380	381	382	383
403	404	409	419	420	421	422	423
424	429	430	431	432	433	434	439
440	441	442	443	444	449	460	469
470	471	472	479	480	481	482	483
489	550	551	552	559	560	561	562
569	570	571	572	579	580	581	582
589	610	611	612	619	620	630	631

Revenue Codes that Require a Procedure Code							
632	633	634	635	636	730	731	732
739	740	749	770	771	779	920	921
922	923	924	925	929	943		

Claims that are submitted with a revenue code in the above table will be processed and priced based on the procedure code processing guidelines and pricing methodology. The reimbursement for the line item will not reflect the submitted revenue code even though the revenue code is required for correct claims processing. All limitations, guidelines, and pricing that apply to the procedure code will be applied to the line item.

For all revenue codes that are not in the above table, the following reimbursement guidelines will apply:

- If the revenue code is submitted without a procedure code, the claim will process using the limitations, guidelines, and pricing for the submitted revenue code.
- If the revenue code is submitted with a procedure code (i.e., on the same line item as the revenue code), the claim will process using the limitations, guidelines, and pricing for the submitted procedure code.

Note: *If the submitted procedure code is not a benefit when rendered by the provider that submits the claim, the line item will be denied. The procedure code must be a benefit when rendered by the provider that submits the claim, and the provider must follow the benefit guidelines and restrictions for the procedure code in order to be reimbursed.*

Referto: The Online Fee Lookup (OFL) on this website to determine whether a procedure code is a benefit when rendered by the provider that submits the claim.

24.6.3 HASC Claims

All surgical procedures performed in an ASC or HASC must be billed using the appropriate national procedure code. Day surgery payment represents a global payment. Physician services must be billed separately.

Claims for scheduled outpatient day surgeries performed in an HASC must be filed using the HASC provider identifier and type of bill (TOB) 131 for outpatient hospitals in Block 4 of the UB-04 CMS-1450 paper claim form. Surgical procedures performed in the hospital's outpatient departments (emergency room, treatment rooms) are to be billed under the hospital's provider identifier and not under the ASC provider identifier.

Claims for emergency, unscheduled outpatient surgical procedures should be filed with separate charges for all services using TOB 131 and the hospital's outpatient provider identifier. If a client is admitted for a day surgery procedure, whether scheduled or emergency, and has either an ASA Classification of Physical Status of III, IV, or V or Classification of Heart Disease IV, the surgical procedure must be considered an inpatient procedure and billed on an inpatient claim (TOB 111) using the full care provider identifier. The reason for the surgery (principal diagnosis), any additional substantiated conditions, and the surgical procedure must be included on one inpatient claim.

Referto: Section 24.6.2.1, "Revenue Code and Procedure Code Requirements for All Outpatient Services" in this chapter for more information about the revenue code and procedure code claim requirements for outpatient services.

24.6.4 Inpatient Stays Following Scheduled Day Surgeries

If a client suffers a complication following an elective day surgery procedure and requires an inpatient admission, the surgery must be billed as an outpatient service. All inpatient charges must be submitted on a second claim as inpatient services. The diagnosis on the inpatient claim must be the complication that resulted in the admission. The ambulatory surgical procedure must not be listed on the inpatient claim. All inpatient admissions require prior authorization.

Providers must bill the scheduled day surgery using the ASC or HASC provider identifier. If a condition of the scheduled day surgery requires additional care beyond the recovery period, the patient may be placed in outpatient observation (stay less than 24 hours). This outpatient observation stay must be billed using the hospital provider identifier. Care required beyond the outpatient observation period (stay of 24 hours or more) must be billed as an inpatient stay. The admission date for the inpatient claim is the date the client was placed in observation. All charges for services provided from the time of observation placement must be included on the claim. The principal diagnosis to be used is the complication of surgery that necessitated the extended stay.

24.6.5 Inpatient Stays Following Unscheduled (Emergency) Day Surgeries

Providers must bill the unscheduled day surgery as an outpatient claim using the hospital's provider identifier. If a complication occurs, the same guidelines presented in Section 24.6.4, "Inpatient Stays Following Scheduled Day Surgeries" in this chapter must be followed with the following exception: the date of admission on the outpatient claim must reflect the date of first contact with the client.

Take-home drugs and supplies are not a benefit of the CSHCN Services Program. Drugs administered in the outpatient setting must be billed with modifier SH. The drug description must include the name, strength, and quantity.

24.7 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

25.1 Enrollment

To enroll in the CSHCN Services Program, laboratories must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, be certified according to the Clinical Laboratory Improvement Amendments (CLIA) of 1988, and comply with all applicable state laws and requirements. Out-of-state laboratory providers must meet all of these conditions and be located in the United States within 50 miles of the Texas state border.

The following laboratories are eligible for enrollment in the CSHCN Services Program:

- A physician's office
 - Meets staff, equipment, and testing capability standards for certification by the Department of State Health Services (DSHS)
 - Medicare-certified and enrolled as a Medicaid provider
 - Providers must also submit a current copy of their permit or license and a copy of the approval letter from DSHS

Note: *If a physician performs more than 100 laboratory tests per year for other providers in their laboratory, the laboratory must be certified by Medicare, and the provider must enroll as an independent laboratory with TMHP.*

- A hospital laboratory for inpatient, outpatient, and nonpatient client claims (a hospital nonpatient is one who is not registered as an inpatient or an outpatient but whose laboratory services are performed by the hospital laboratory)
 - Meets staff, equipment, and testing capability standards for certification by the Department of State Health Services (DSHS)
 - Medicare-certified and enrolled as a Medicaid provider
 - Providers must also submit a current copy of their permit or license and a copy of the approval letter from DSHS
- An independent (freestanding) laboratory
 - An independent (freestanding) laboratory enrolled in the CSHCN Services Program is defined as a facility that meets all of the following criteria:
 - Facility independent from a physician's office, ASC, or hospital
 - Meets staff, equipment, and testing capability standards for certification by the Department of State Health Services (DSHS)
 - Medicare-certified and enrolled as a Medicaid provider
 - Providers must also submit a current copy of their permit or license and a copy of the approval letter from DSHS

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: The CMS website at www.cms.gov/CLIA/10_Categorization_of_Tests.asp for information about procedure codes and modifier QW requirements. The CSHCN Services Program follows the Medicare categorization of tests for CLIA certificate-holders.

Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

25.1.1 Clinical Laboratory Improvement Amendments (CLIA) of 1988

To be eligible for reimbursement by the CSHCN Services Program, all providers performing laboratory tests must:

- Enroll with the Centers for Medicare & Medicaid Services (CMS).
- Receive a CLIA registration and certification number by contacting DSHS at 1-512-834-6792 or access CLIA information at www.dshs.texas.gov/facilities/clia.aspx or at www.cms.hhs.gov/clia.

Submit CLIA applications to the following address:

Texas Department of State Health Services
Patient Quality Care, MC-1979/E 30000
1100 West 49th Street
Austin, TX 78756

Notify TMHP of the assigned CLIA number by fax at 1-512-514-4214 or by mail at the following address:

Texas Medicaid & Healthcare Partnership
Attn: Provider Enrollment
PO Box 200795
Austin, TX 78720-0795

CMS implemented CLIA. The CLIA regulations were published in the February 28, 1992, *Federal Register* and have been amended several times since.

Copies of the CLIA rules and regulations are located at the CMS website at www.cms.hhs.gov. These regulations concern all laboratory testing used for the assessment of human health or the diagnosis, prevention, or treatment of disease. CLIA regulations set standards designed to improve quality in all laboratory testing and include specifications for quality control (QC), quality assurance (QA), patient test management, personnel, and proficiency testing. Under CLIA 88, all clinical laboratories (including those located in physician’s offices), regardless of location, size, or type of laboratory must meet standards based on the complexity of the test(s) they perform.

Important: The CSHCN Services Program monitors claims submitted by clinical laboratories for CLIA numbers. Claims submitted for laboratory services are denied if there is not a CLIA number on file with the CSHCN Services Program.

Referto: The CMS website at www.cms.gov/CLIA/10_Categorization_of_Tests.asp for information about procedure codes and modifier QW requirements. The CSHCN Services Program follows the Medicare categorization of tests for CLIA certificate-holders.

25.1.1.1 Waiver and Physician-Performed Microscopy Procedure (PPMP) Certificates

Providers are responsible for practicing within the limits of their certificates and maintaining awareness of the most current information regarding enforcement of CLIA provisions.

Note: Providers may refer to the CMS website at www.cms.gov/CLIA/10_Categorization_of_Tests.asp for a list of waived test and provider-performed microscopy procedures (PPMP) procedure codes.

CSHCN Services Program bills must accurately reflect only those services authorized by CLIA regulations.

25.2 Benefits, Limitations, and Authorization Requirements

Authorization is not required for laboratory services.

The CSHCN Services Program may reimburse the following laboratories for services when the laboratory is certified according to the CLIA regulations and enrolled in the CSHCN Services Program:

- A hospital laboratory for outpatient and nonpatient client claims
- A physician's office
- An independent laboratory

Providers must bill the most specific diagnosis and procedure codes that describes the services provided.

Laboratory tests generally performed as a panel and performed on the same day by the same provider, must be billed as a panel, regardless of the method used to perform the tests (automated or manual).

The CSHCN Services Program pays only the amount allowed for the total component for the same procedure, same client, same date of service, and any provider.

- Providers who perform both the technical service and interpretation must bill for the total component.
- Providers who perform only the technical service must bill for the technical component.
- Providers who perform only the interpretation must bill for the interpretation component.

Claims filed in excess of the amount allowed for the total component for the same procedure, same dates of service, same client, any provider, are denied.

Claims are paid based on the order in which they are received. For example, if a claim is received for the total component, and if payment has been made for the technical and interpretation component for the same procedure, same dates of service, same client, from any provider, the claim for the total component is denied as previously paid to another provider. The same is true if a total component is paid and subsequent claims are received for the individual components.

25.2.1 Hospital Laboratory Services

Hospital laboratory services are a benefit for inpatient, outpatient, and nonpatient clients. A hospital nonpatient is one who is not registered as an inpatient or an outpatient but whose laboratory services are performed by the hospital laboratory.

Outpatient and nonpatient claims for laboratory services must reflect only tests actually performed by the hospital laboratory. However, hospital laboratories may bill for all of the tests performed on a specimen even if a portion of the tests are done by another laboratory on referral from the hospital

submitting the claim. If the specimen is collected by venipuncture or catheterization, hospitals may bill procedure code 99001 for collecting and forwarding a specimen to a receiving laboratory. Only one handling fee may be charged per day, per client, unless specimens are sent to two or more laboratories.

In order to bill a handling fee, the receiving laboratory's name and address and unique Texas provider identifier (TPI) number must be included on the claim in Blocks 17 and 17B.

In order to bill nonpatient claims for laboratory services, the complete name and address and unique TPI of the attending, ordering, designated, or performing (freestanding ASCs only) provider must be included on the claim in Blocks 17 and 17B.

25.2.2 Independent Laboratory Services

Independent laboratories that provide laboratory tests to clients registered as hospital inpatients or hospital outpatients are not directly reimbursed. Reimbursement must be obtained from the hospital.

An independent laboratory that forwards a specimen to another laboratory without performing any tests on that specimen may not bill for laboratory tests. An independent laboratory may bill the CSHCN Services Program for tests referred to another laboratory (independent or hospital) only if the independent laboratory performs at least one test and forwards a portion of the same specimen to another laboratory to have one or more tests performed. In this instance, the referring laboratory may bill for tests it performs and all tests the receiving laboratory performs on the specimen. In both instances, an independent laboratory that forwards a specimen to another laboratory may bill a handling fee (procedure code 99001) for collection and forwarding the specimen if the specimen is collected by venipuncture or catheterization.

In order to bill a handling fee, the receiving laboratory's name and address and unique TPI number must be included on the claim in Blocks 17 and 17B.

The CSHCN Services Program covers professional and technical services that an independent laboratory is certified by Medicare to perform.

25.2.3 Physician-Owned Laboratory Services

The CSHCN Services Program reimburses laboratory services ordered by a physician and provided under the provider's personal supervision in a setting other than an inpatient or outpatient hospital.

25.2.3.1 Other Physician Laboratory-Related Services

Physicians may only bill for those laboratory tests that are actually performed in their offices. Clinical laboratory services performed in a physician's office may be reimbursed at 60 percent of the prevailing charge levels. A laboratory handling fee (procedure code 99000) may be billed if the specimen is obtained by venipuncture or catheterization and sent to an outside laboratory. Only one lab handling fee per day, per client, may be billed, unless multiple specimens are obtained and sent to different laboratories.

In order to bill a handling fee, the receiving laboratory's name and address and unique TPI number must be included on the claim in Blocks 17 and 17B.

Laboratory services must be documented in clients' medical records as medically necessary and reference an appropriate diagnosis.

Laboratory tests generally performed as a panel (chemistries, complete blood counts [CBCs], or urinalyses [UAs]) and performed on the same day by the same provider must be billed as a panel regardless of the method used to perform the test.

Interpretation of laboratory tests for the physician's patients in the hospital, office, or emergency rooms are considered part of the physician's professional services and should not be billed separately.

25.2.4 Clinical Pathology Services

Clinical pathology consultations are a benefit when performed by a clinical pathologist or geneticist. A geneticist may submit claims for procedure codes 80500 and 80502 using their physician provider identifier.

Independent laboratories may submit claims for procedure codes 80500 and 80502 when services are performed in the independent laboratory setting.

Routine conversations between a consultant and an attending physician about test orders or results are not considered consultations.

The service does not qualify as a consultation if the information could ordinarily be furnished by a non-physician laboratory specialist.

Claims for clinical pathology consultations must be submitted with the following documentation:

- The name and address, or the CSHCN Services Program provider identifier for the physician requesting the consultation, must be included on the claim. The NPI of the physician requesting the consultation should also be included, if known.
- A copy of the written narrative report describing the consultation findings.
- Documented interaction that clearly outlines that the consultant interpreted the test results and made specific recommendations to the ordering physician.

Important: *If the claim does not include all of this information, the clinical pathology consultation will be denied.*

25.2.5 Other Laboratory Procedures

Procedure Codes			
1 per lifetime			
S3840	S3841	S3842	S3846

25.2.5.1 Drug Testing and Therapeutic Drug Assays

The following procedure codes for drug testing and therapeutic drug assays are benefits of the CSHCN Services Program:

Procedure Codes									
Drug Testing									
80305	80306	80307	80320	80321	80322	80323	80324	80325	80326
80327	80328	80329	80330	80331	80332	80333	80334	80335	80336
80337	80338	80339	80340	80341	80342	80343	80344	80345	80346
80347	80348	80349	80350	80351	80352	80353	80354	80355	80356
80357	80358	80359	80360	80361	80362	80363	80364	80365	80366
80367	80368	80369	80370	80371	80372	80373	80374	80375	80376
80377	G0480	G0481	G0482	G0483	G0659				
Therapeutic Drug Assays									
80150	80155	80156	80157	80158	80159	80162	80163	80164	80165
80168	80169	80170	80171	80173	80175	80176	80177	80178*	80180
80183	80184	80185	80186	80188	80190	80192	80194	80195	80197
* CLIA Waved test									

Procedure Codes						
80198	80199	80200	80201	80202	80203	80299
* CLIA Waved test						

Note: The procedure codes above do not require prior authorization.

Procedure codes G0480, G0481, G0482, G0483, and G0659 are limited to once per day by any provider.

The following CPT drug assay procedure codes will deny when billed on the same date of service, by the same provider with the corresponding HCPCS drug assay procedure codes identified by an "X" in the following table:

CPT Drug Assay Procedure Codes to HCPCS Procedure Codes limitations					
	G0480	G0481	G0482	G0483	G0659
80305					X
80306	X		X	X	X
80307					X
80320	X		X	X	X
80321	X	X	X	X	
80323	X	X	X	X	X
80324	X	X	X	X	
80325	X				
80326	X	X	X	X	X
80327	X				
80328	X				
80329	X		X	X	X
80330				X	
80332	X		X	X	X
80333				X	
80335	X				
80336	X				
80337	X		X	X	X
80338					X
80339					X
80342					X
80345					X
80358					X
80363					X
80365					X
80368					X
80369					X
80370					X
X - The "8000" CPT procedure code will be denied if billed with the HCPCS "G" procedure code indicated with an "X".					

CPT Drug Assay Procedure Codes to HCPCS Procedure Codes limitations					
80375					X
80377					X

X - The "8000" CPT procedure code will be denied if billed with the HCPCS "G" procedure code indicated with an "X".

25.2.5.2 Cytogenetics Testing

When billed with an appropriate diagnosis code, cytogenetics testing procedure codes have the following limitations:

Procedure Code	Quantity Allowed
Tissue Culture	
88230	1 per day, any provider
88233	1 per day, any provider
88235	1 per day, any provider
88237	1 per day, any provider
88239	1 per day, any provider
88240	1 per day, any provider
88241	1 per day, any provider
Chromosome Analysis	
88245	1 per day, any provider
88248	1 per day, any provider
88249	1 per day, any provider
88261	1 per day, any provider
88262	1 per day, any provider
88263	1 per day, any provider
88264	1 per day, any provider
88280	5 per day, any provider
88283	1 per day, any provider
88285	1 per day, any provider
88289	1 per day, any provider
Molecular Cytogenetics	
88271	16 per provider, per day
88272	10 per provider, per day
88273	10 per provider, per day
88274	5 per provider, per day
88275	10 per provider, per day

Providers must bill procedure code 88291 for the interpretation and report of cytogenetics testing. Reimbursement for cytogenetics testing is limited to the following diagnosis codes:

Diagnosis Code	Description
C8280	Other types of follicular lymphoma, unspecified site
C8281	Other types of follicular lymphoma, lymph nodes of head, face, and neck

Diagnosis Code	Description
C8282	Other types of follicular lymphoma, intrathoracic lymph nodes
C8283	Other types of follicular lymphoma, intra-abdominal lymph nodes
C8284	Other types of follicular lymphoma, lymph nodes of axilla and upper limb
C8285	Other types of follicular lymphoma, lymph nodes of inguinal region and lower limb
C8286	Other types of follicular lymphoma, intrapelvic lymph nodes
C8287	Other types of follicular lymphoma, spleen
C8288	Other types of follicular lymphoma, lymph nodes of multiple sites
C8289	Other types of follicular lymphoma, extranodal and solid organ sites
C8291	Follicular lymphoma, unspecified, lymph nodes of head, face, and neck
C8292	Follicular lymphoma, unspecified, intrathoracic lymph nodes
C8293	Follicular lymphoma, unspecified, intra-abdominal lymph nodes
C8294	Follicular lymphoma, unspecified, lymph nodes of axilla and upper limb
C8295	Follicular lymphoma, unspecified, lymph nodes of inguinal region and lower limb
C8296	Follicular lymphoma, unspecified, intrapelvic lymph nodes
C8297	Follicular lymphoma, unspecified, spleen
C8298	Follicular lymphoma, unspecified, lymph nodes of multiple sites
C8299	Follicular lymphoma, unspecified, extranodal and solid organ sites
C8310	Mantle cell lymphoma, unspecified site
C8311	Mantle cell lymphoma, lymph nodes of head, face, and neck
C8312	Mantle cell lymphoma, intrathoracic lymph nodes
C8313	Mantle cell lymphoma, intra-abdominal lymph nodes
C8314	Mantle cell lymphoma, lymph nodes of axilla and upper limb
C8315	Mantle cell lymphoma, lymph nodes of inguinal region and lower limb
C8316	Mantle cell lymphoma, intrapelvic lymph nodes
C8317	Mantle cell lymphoma, spleen
C8318	Mantle cell lymphoma, lymph nodes of multiple sites
C8319	Mantle cell lymphoma, extranodal and solid organ sites
C8380	Other non-follicular lymphoma, unspecified site
C8381	Other non-follicular lymphoma, lymph nodes of head, face, and neck
C8382	Other non-follicular lymphoma, intrathoracic lymph nodes
C8383	Other non-follicular lymphoma, intra-abdominal lymph nodes
C8384	Other non-follicular lymphoma, lymph nodes of axilla and upper limb
C8385	Other non-follicular lymphoma, lymph nodes of inguinal region and lower limb
C8386	Other non-follicular lymphoma, intrapelvic lymph nodes
C8387	Other non-follicular lymphoma, spleen
C8388	Other non-follicular lymphoma, lymph nodes of multiple sites
C8389	Other non-follicular lymphoma, extranodal and solid organ sites
C8440	Peripheral T-cell lymphoma, not classified, unspecified site
C8441	Peripheral T-cell lymphoma, not classified, lymph nodes of head, face, and neck

Diagnosis Code	Description
C8442	Peripheral T-cell lymphoma, not classified, intrathoracic lymph nodes
C8443	Peripheral T-cell lymphoma, not classified, intra-abdominal lymph nodes
C8444	Peripheral T-cell lymphoma, not classified, lymph nodes of axilla and upper limb
C8445	Peripheral T-cell lymphoma, not classified, lymph nodes of inguinal region and lower limb
C8446	Peripheral T-cell lymphoma, not classified, intrapelvic lymph nodes
C8447	Peripheral T-cell lymphoma, not classified, spleen
C8448	Peripheral T-cell lymphoma, not classified, lymph nodes of multiple sites
C8449	Peripheral T-cell lymphoma, not classified, extranodal and solid organ sites
C8461	Anaplastic large cell lymphoma, ALK-positive, lymph nodes of head, face, and neck
C8462	Anaplastic large cell lymphoma, ALK-positive, intrathoracic lymph nodes
C8463	Anaplastic large cell lymphoma, ALK-positive, intra-abdominal lymph nodes
C8464	Anaplastic large cell lymphoma, ALK-positive, lymph nodes of axilla and upper limb
C8465	Anaplastic large cell lymphoma, ALK-positive, lymph nodes of inguinal region and lower limb
C8466	Anaplastic large cell lymphoma, ALK-positive, intrapelvic lymph nodes
C8467	Anaplastic large cell lymphoma, ALK-positive, spleen
C8468	Anaplastic large cell lymphoma, ALK-positive, lymph nodes of multiple sites
C8469	Anaplastic large cell lymphoma, ALK-positive, extranodal and solid organ sites
C8471	Anaplastic large cell lymphoma, ALK-negative, lymph nodes of head, face, and neck
C8472	Anaplastic large cell lymphoma, ALK-negative, intrathoracic lymph nodes
C8473	Anaplastic large cell lymphoma, ALK-negative, intra-abdominal lymph nodes
C8474	Anaplastic large cell lymphoma, ALK-negative, lymph nodes of axilla and upper limb
C8475	Anaplastic large cell lymphoma, ALK-negative, lymph nodes of inguinal region and lower limb
C8476	Anaplastic large cell lymphoma, ALK-negative, intrapelvic lymph nodes
C8477	Anaplastic large cell lymphoma, ALK-negative, spleen
C8478	Anaplastic large cell lymphoma, ALK-negative, lymph nodes of multiple sites
C8479	Anaplastic large cell lymphoma, ALK-negative, extranodal and solid organ sites
C8581	Other specified types of non-Hodgkin lymphoma, lymph nodes of head, face, and neck
C8582	Other specified types of non-Hodgkin lymphoma, intrathoracic lymph nodes
C8584	Other specified types of non-Hodgkin lymphoma, lymph nodes of axilla and upper limb
C8585	Other specified types of non-Hodgkin lymphoma, lymph nodes of inguinal region and lower limb
C8586	Other specified types of non-Hodgkin lymphoma, intrapelvic lymph nodes
C8587	Other specified types of non-Hodgkin lymphoma, spleen
C8588	Other specified types of non-Hodgkin lymphoma, lymph nodes of multiple sites

Diagnosis Code	Description
C8589	Other specified types of non-Hodgkin lymphoma, extranodal and solid organ sites
C884	Extranodal marginal zone B-cell lymphoma of mucosa-associated lymphoid tissue [MALT-lymphoma]
C888	Other malignant immunoproliferative diseases
C9012	Plasma cell leukemia in relapse
C9100	Acute lymphoblastic leukemia not having achieved remission
C9101	Acute lymphoblastic leukemia, in remission
C9102	Acute lymphoblastic leukemia, in relapse
C9110	Chronic lymphocytic leukemia of B-cell type not having achieved remission
C9111	Chronic lymphocytic leukemia of B-cell type in remission
C9112	Chronic lymphocytic leukemia of B-cell type in relapse
C9190	Lymphoid leukemia, unspecified not having achieved remission
C9191	Lymphoid leukemia, unspecified, in remission
C9192	Lymphoid leukemia, unspecified, in relapse
C91Z0	Other lymphoid leukemia not having achieved remission
C91Z1	Other lymphoid leukemia, in remission
C91Z2	Other lymphoid leukemia, in relapse
C9200	Acute myeloblastic leukemia, not having achieved remission
C9201	Acute myeloblastic leukemia, in remission
C9202	Acute myeloblastic leukemia, in relapse
C9210	Chronic myeloid leukemia, BCR/ABL-positive, not having achieved remission
C9211	Chronic myeloid leukemia, BCR/ABL-positive, in remission
C9212	Chronic myeloid leukemia, BCR/ABL-positive, in relapse
C9220	Atypical chronic myeloid leukemia, BCR/ABL-negative, not having achieved remission
C9221	Atypical chronic myeloid leukemia, BCR/ABL-negative, in remission
C9222	Atypical chronic myeloid leukemia, BCR/ABL-negative, in relapse
C9230	Myeloid sarcoma, not having achieved remission
C9231	Myeloid sarcoma, in remission
C9232	Myeloid sarcoma, in relapse
C9240	Acute promyelocytic leukemia, not having achieved remission
C9241	Acute promyelocytic leukemia, in remission
C9242	Acute promyelocytic leukemia, in relapse
C9250	Acute myelomonocytic leukemia, not having achieved remission
C9251	Acute myelomonocytic leukemia, in remission
C9252	Acute myelomonocytic leukemia, in relapse
C9260	Acute myeloid leukemia with 11q23-abnormality not having achieved remission
C9261	Acute myeloid leukemia with 11q23-abnormality in remission
C9262	Acute myeloid leukemia with 11q23-abnormality in relapse
C9290	Myeloid leukemia, unspecified, not having achieved remission

Diagnosis Code	Description
C9291	Myeloid leukemia, unspecified in remission
C9292	Myeloid leukemia, unspecified in relapse
C92A0	Acute myeloid leukemia with multilineage dysplasia, not having achieved remission
C92A1	Acute myeloid leukemia with multilineage dysplasia, in remission
C92A2	Acute myeloid leukemia with multilineage dysplasia, in relapse
C92Z0	Other myeloid leukemia not having achieved remission
C92Z1	Other myeloid leukemia, in remission
C92Z2	Other myeloid leukemia, in relapse
C9300	Acute monoblastic/monocytic leukemia, not having achieved remission
C9301	Acute monoblastic/monocytic leukemia, in remission
C9302	Acute monoblastic/monocytic leukemia, in relapse
C9310	Chronic myelomonocytic leukemia not having achieved remission
C9311	Chronic myelomonocytic leukemia, in remission
C9312	Chronic myelomonocytic leukemia, in relapse
C9330	Juvenile myelomonocytic leukemia, not having achieved remission
C9331	Juvenile myelomonocytic leukemia, in remission
C9390	Monocytic leukemia, unspecified, not having achieved remission
C9391	Monocytic leukemia, unspecified in remission
C9392	Monocytic leukemia, unspecified in relapse
C93Z0	Other monocytic leukemia, not having achieved remission
C93Z1	Other monocytic leukemia, in remission
C93Z2	Other monocytic leukemia, in relapse
C9400	Acute erythroid leukemia, not having achieved remission
C9401	Acute erythroid leukemia, in remission
C9402	Acute erythroid leukemia, in relapse
C9420	Acute megakaryoblastic leukemia not having achieved remission
C9421	Acute megakaryoblastic leukemia, in remission
C9422	Acute megakaryoblastic leukemia, in relapse
C9430	Mast cell leukemia not having achieved remission
C9431	Mast cell leukemia, in remission
C9432	Mast cell leukemia, in relapse
C9480	Other specified leukemias not having achieved remission
C9481	Other specified leukemias, in remission
C9482	Other specified leukemias, in relapse
C9500	Acute leukemia of unspecified cell type not having achieved remission
C9501	Acute leukemia of unspecified cell type, in remission
C9502	Acute leukemia of unspecified cell type, in relapse
C9510	Chronic leukemia of unspecified cell type not having achieved remission
C9511	Chronic leukemia of unspecified cell type, in remission

Diagnosis Code	Description
C9512	Chronic leukemia of unspecified cell type, in relapse
C9590	Leukemia, unspecified not having achieved remission
C9591	Leukemia, unspecified, in remission
C9592	Leukemia, unspecified, in relapse
D45	Polycythemia vera
D821	Di George's syndrome
E230	Hypopituitarism
E291	Testicular hypofunction
E300	Delayed puberty
E343	Short stature due to endocrine disorder
E83110	Hereditary hemochromatosis
E8359	Other disorders of calcium metabolism
F70	Mild intellectual disabilities
F71	Moderate intellectual disabilities
F72	Severe intellectual disabilities
F73	Profound intellectual disabilities
F78	Other intellectual disabilities
F800	Phonological disorder
F801	Expressive language disorder
F802	Mixed receptive-expressive language disorder
F804	Speech and language development delay due to hearing loss
F8089	Other developmental disorders of speech and language
F810	Specific reading disorder
F812	Mathematics disorder
F8181	Disorder of written expression
F8189	Other developmental disorders of scholastic skills
F819	Developmental disorder of scholastic skills, unspecified
F82	Specific developmental disorder of motor function
F840	Autistic disorder
F88	Other disorders of psychological development
F900	Attention-deficit hyperactivity disorder, predominantly inattentive type
F901	Attention-deficit hyperactivity disorder, predominantly hyperactive type
F902	Attention-deficit hyperactivity disorder, combined type
F908	Attention-deficit hyperactivity disorder, other type
H0589	Other disorders of orbit
H9325	Central auditory processing disorder
I77810	Thoracic aortic ectasia
I77811	Abdominal aortic ectasia
I77812	Thoracoabdominal aortic ectasia
I77819	Aortic ectasia, unspecified site

Diagnosis Code	Description
M2600	Unspecified anomaly of jaw size
M2601	Maxillary hyperplasia
M2602	Maxillary hypoplasia
M2603	Mandibular hyperplasia
M2604	Mandibular hypoplasia
M2605	Macrogenia
M2606	Microgenia
M2607	Excessive tuberosity of jaw
M2609	Other specified anomalies of jaw size
N6482	Hypoplasia of breast
P293	Persistent fetal circulation
Q000	Anencephaly
Q001	Craniorachischisis
Q002	Iniencephaly
Q010	Frontal encephalocele
Q011	Nasofrontal encephalocele
Q012	Occipital encephalocele
Q018	Encephalocele of other sites
Q02	Microcephaly
Q030	Malformations of aqueduct of Sylvius
Q031	Atresia of foramina of Magendie and Luschka
Q038	Other congenital hydrocephalus
Q040	Congenital malformations of corpus callosum
Q041	Arhinencephaly
Q042	Holoprosencephaly
Q045	Megalencephaly
Q046	Congenital cerebral cysts
Q048	Other specified congenital malformations of brain
Q050	Cervical spina bifida with hydrocephalus
Q051	Thoracic spina bifida with hydrocephalus
Q052	Lumbar spina bifida with hydrocephalus
Q054	Unspecified spina bifida with hydrocephalus
Q055	Cervical spina bifida without hydrocephalus
Q056	Thoracic spina bifida without hydrocephalus
Q057	Lumbar spina bifida without hydrocephalus
Q058	Sacral spina bifida without hydrocephalus
Q062	Diastatomyelia
Q064	Hydromyelia
Q068	Other specified congenital malformations of spinal cord
Q0701	Arnold-Chiari syndrome with spina bifida

Diagnosis Code	Description
Q0702	Arnold-Chiari syndrome with hydrocephalus
Q0703	Arnold-Chiari syndrome with spina bifida and hydrocephalus
Q078	Other specified congenital malformations of nervous system
Q079	Congenital malformation of nervous system, unspecified
Q100	Congenital ptosis
Q101	Congenital ectropion
Q102	Congenital entropion
Q103	Other congenital malformations of eyelid
Q104	Absence and agenesis of lacrimal apparatus
Q106	Other congenital malformations of lacrimal apparatus
Q107	Congenital malformation of orbit
Q110	Cystic eyeball
Q111	Other anophthalmos
Q112	Microphthalmos
Q113	Macrophthalmos
Q120	Congenital cataract
Q121	Congenital displaced lens
Q123	Congenital aphakia
Q124	Spherophakia
Q128	Other congenital lens malformations
Q129	Congenital lens malformation, unspecified
Q130	Coloboma of iris
Q131	Absence of iris
Q132	Other congenital malformations of iris
Q133	Congenital corneal opacity
Q134	Other congenital corneal malformations
Q135	Blue sclera
Q1381	Rieger's anomaly
Q1389	Other congenital malformations of anterior segment of eye
Q140	Congenital malformation of vitreous humor
Q141	Congenital malformation of retina
Q142	Congenital malformation of optic disc
Q143	Congenital malformation of choroid
Q148	Other congenital malformations of posterior segment of eye
Q150	Congenital glaucoma
Q158	Other specified congenital malformations of eye
Q159	Congenital malformation of eye, unspecified
Q160	Congenital absence of (ear) auricle
Q161	Congenital absence, atresia and stricture of auditory canal (external)
Q162	Absence of eustachian tube

Diagnosis Code	Description
Q163	Congenital malformation of ear ossicles
Q164	Other congenital malformations of middle ear
Q165	Congenital malformation of inner ear
Q169	Congenital malformation of ear causing impairment of hearing, unspecified
Q170	Accessory auricle
Q171	Macrotia
Q172	Microtia
Q173	Other misshapen ear
Q174	Misplaced ear
Q175	Prominent ear
Q178	Other specified congenital malformations of ear
Q179	Congenital malformation of ear, unspecified
Q180	Sinus, fistula and cyst of branchial cleft
Q181	Preauricular sinus and cyst
Q182	Other branchial cleft malformations
Q183	Webbing of neck
Q184	Macrostomia
Q185	Microstomia
Q186	Macrocheilia
Q187	Microcheilia
Q188	Other specified congenital malformations of face and neck
Q189	Congenital malformation of face and neck, unspecified
Q200	Common arterial trunk
Q201	Double outlet right ventricle
Q202	Double outlet left ventricle
Q203	Discordant ventriculoarterial connection
Q204	Double inlet ventricle
Q205	Discordant atrioventricular connection
Q206	Isomerism of atrial appendages
Q208	Other congenital malformations of cardiac chambers and connections
Q209	Congenital malformation of cardiac chambers and connections, unspecified
Q210	Ventricular septal defect
Q211	Atrial septal defect
Q212	Atrioventricular septal defect
Q213	Tetralogy of Fallot
Q214	Aortopulmonary septal defect
Q218	Other congenital malformations of cardiac septa
Q219	Congenital malformation of cardiac septum, unspecified
Q220	Pulmonary valve atresia
Q221	Congenital pulmonary valve stenosis

Diagnosis Code	Description
Q222	Congenital pulmonary valve insufficiency
Q223	Other congenital malformations of pulmonary valve
Q224	Congenital tricuspid stenosis
Q225	Ebstein's anomaly
Q228	Other congenital malformations of tricuspid valve
Q230	Congenital stenosis of aortic valve
Q231	Congenital insufficiency of aortic valve
Q232	Congenital mitral stenosis
Q233	Congenital mitral insufficiency
Q234	Hypoplastic left heart syndrome
Q238	Other congenital malformations of aortic and mitral valves
Q240	Dextrocardia
Q241	Levocardia
Q242	Cor triatriatum
Q243	Pulmonary infundibular stenosis
Q244	Congenital subaortic stenosis
Q245	Malformation of coronary vessels
Q246	Congenital heart block
Q248	Other specified congenital malformations of heart
Q249	Congenital malformation of heart, unspecified
Q250	Patent ductus arteriosus
Q251	Coarctation of aorta
Q2521	Interruption of aortic arch
Q2529	Other atresia of aorta
Q253	Supravalvular aortic stenosis
Q2540	Congenital malformation of aorta unspecified
Q2541	Absence and aplasia of aorta
Q2542	Hypoplasia of aorta
Q2543	Congenital aneurysm of aorta
Q2544	Congenital dilation of aorta
Q2545	Double aortic arch
Q2546	Tortuous aortic arch
Q2547	Right aortic arch
Q2548	Anomalous origin of subclavian artery
Q2549	Other congenital malformations of aorta
Q2572	Congenital pulmonary arteriovenous malformation
Q259	Congenital malformation of great arteries, unspecified
Q260	Congenital stenosis of vena cava
Q261	Persistent left superior vena cava
Q262	Total anomalous pulmonary venous connection

Diagnosis Code	Description
Q263	Partial anomalous pulmonary venous connection
Q265	Anomalous portal venous connection
Q266	Portal vein-hepatic artery fistula
Q268	Other congenital malformations of great veins
Q269	Congenital malformation of great vein, unspecified
Q270	Congenital absence and hypoplasia of umbilical artery
Q271	Congenital renal artery stenosis
Q272	Other congenital malformations of renal artery
Q2730	Arteriovenous malformation, site unspecified
Q2731	Arteriovenous malformation of vessel of upper limb
Q2732	Arteriovenous malformation of vessel of lower limb
Q2733	Arteriovenous malformation of digestive system vessel
Q2734	Arteriovenous malformation of renal vessel
Q274	Congenital phlebectasia
Q278	Other specified congenital malformations of peripheral vascular system
Q279	Congenital malformation of peripheral vascular system, unspecified
Q280	Arteriovenous malformation of precerebral vessels
Q281	Other malformations of precerebral vessels
Q282	Arteriovenous malformation of cerebral vessels
Q283	Other malformations of cerebral vessels
Q288	Other specified congenital malformations of circulatory system
Q289	Congenital malformation of circulatory system, unspecified
Q300	Choanal atresia
Q301	Agenesis and underdevelopment of nose
Q302	Fissured, notched and cleft nose
Q303	Congenital perforated nasal septum
Q308	Other congenital malformations of nose
Q309	Congenital malformation of nose, unspecified
Q310	Web of larynx
Q311	Congenital subglottic stenosis
Q312	Laryngeal hypoplasia
Q313	Laryngocele
Q315	Congenital laryngomalacia
Q318	Other congenital malformations of larynx
Q320	Congenital tracheomalacia
Q321	Other congenital malformations of trachea
Q322	Congenital bronchomalacia
Q323	Congenital stenosis of bronchus
Q324	Other congenital malformations of bronchus
Q330	Congenital cystic lung

Diagnosis Code	Description
Q331	Accessory lobe of lung
Q332	Sequestration of lung
Q333	Agenesis of lung
Q334	Congenital bronchiectasis
Q335	Ectopic tissue in lung
Q336	Congenital hypoplasia and dysplasia of lung
Q338	Other congenital malformations of lung
Q339	Congenital malformation of lung, unspecified
Q348	Other specified congenital malformations of respiratory system
Q349	Congenital malformation of respiratory system, unspecified
Q351	Cleft hard palate
Q353	Cleft soft palate
Q359	Cleft palate, unspecified
Q360	Cleft lip, bilateral
Q369	Cleft lip, unilateral
Q370	Cleft hard palate with bilateral cleft lip
Q371	Cleft hard palate with unilateral cleft lip
Q372	Cleft soft palate with bilateral cleft lip
Q373	Cleft soft palate with unilateral cleft lip
Q374	Cleft hard and soft palate with bilateral cleft lip
Q375	Cleft hard and soft palate with unilateral cleft lip
Q380	Congenital malformations of lips, not elsewhere classified
Q381	Ankyloglossia
Q382	Macroglossia
Q383	Other congenital malformations of tongue
Q384	Congenital malformations of salivary glands and ducts
Q385	Congenital malformations of palate, not elsewhere classified
Q386	Other congenital malformations of mouth
Q387	Congenital pharyngeal pouch
Q388	Other congenital malformations of pharynx
Q391	Atresia of esophagus with tracheo-esophageal fistula
Q392	Congenital tracheo-esophageal fistula without atresia
Q393	Congenital stenosis and stricture of esophagus
Q394	Esophageal web
Q395	Congenital dilatation of esophagus
Q396	Congenital diverticulum of esophagus
Q398	Other congenital malformations of esophagus
Q400	Congenital hypertrophic pyloric stenosis
Q401	Congenital hiatus hernia
Q402	Other specified congenital malformations of stomach

Diagnosis Code	Description
Q408	Other specified congenital malformations of upper alimentary tract
Q409	Congenital malformation of upper alimentary tract, unspecified
Q410	Congenital absence, atresia and stenosis of duodenum
Q411	Congenital absence, atresia and stenosis of jejunum
Q412	Congenital absence, atresia and stenosis of ileum
Q419	Congenital absence, atresia and stenosis of small intestine, part unspecified
Q420	Congenital absence, atresia and stenosis of rectum with fistula
Q421	Congenital absence, atresia and stenosis of rectum without fistula
Q422	Congenital absence, atresia and stenosis of anus with fistula
Q423	Congenital absence, atresia and stenosis of anus without fistula
Q428	Congenital absence, atresia and stenosis of other parts of large intestine
Q430	Meckel's diverticulum (displaced) (hypertrophic)
Q431	Hirschsprung's disease
Q432	Other congenital functional disorders of colon
Q433	Congenital malformations of intestinal fixation
Q434	Duplication of intestine
Q435	Ectopic anus
Q437	Persistent cloaca
Q438	Other specified congenital malformations of intestine
Q440	Agenesis, aplasia and hypoplasia of gallbladder
Q441	Other congenital malformations of gallbladder
Q442	Atresia of bile ducts
Q443	Congenital stenosis and stricture of bile ducts
Q444	Choledochal cyst
Q445	Other congenital malformations of bile ducts
Q446	Cystic disease of liver
Q447	Other congenital malformations of liver
Q450	Agenesis, aplasia and hypoplasia of pancreas
Q451	Annular pancreas
Q452	Congenital pancreatic cyst
Q453	Other congenital malformations of pancreas and pancreatic duct
Q458	Other specified congenital malformations of digestive system
Q459	Congenital malformation of digestive system, unspecified
Q5001	Congenital absence of ovary, unilateral
Q5002	Congenital absence of ovary, bilateral
Q501	Developmental ovarian cyst
Q502	Congenital torsion of ovary
Q5031	Accessory ovary
Q5032	Ovarian streak
Q5039	Other congenital malformation of ovary

Diagnosis Code	Description
Q504	Embryonic cyst of fallopian tube
Q505	Embryonic cyst of broad ligament
Q506	Other congenital malformations of fallopian tube and broad ligament
Q510	Agensis and aplasia of uterus
Q5110	Doubling of uterus with doubling of cervix and vagina without obstruction
Q5111	Doubling of uterus with doubling of cervix and vagina with obstruction
Q512	Other doubling of uterus
Q515	Agensis and aplasia of cervix
Q516	Embryonic cyst of cervix
Q517	Congenital fistulae between uterus and digestive and urinary tracts
Q51811	Hypoplasia of uterus
Q51821	Hypoplasia of cervix
Q51828	Other congenital malformations of cervix
Q520	Congenital absence of vagina
Q5210	Doubling of vagina, unspecified
Q522	Congenital rectovaginal fistula
Q523	Imperforate hymen
Q524	Other congenital malformations of vagina
Q525	Fusion of labia
Q526	Congenital malformation of clitoris
Q5270	Unspecified congenital malformations of vulva
Q5271	Congenital absence of vulva
Q5279	Other congenital malformations of vulva
Q528	Other specified congenital malformations of female genitalia
Q529	Congenital malformation of female genitalia, unspecified
Q5300	Ectopic testis, unspecified
Q5301	Ectopic testis, unilateral
Q5302	Ectopic testes, bilateral
Q5310	Unspecified undescended testicle, unilateral
Q5311	Abdominal testis, unilateral
Q5312	Ectopic perineal testis, unilateral
Q5320	Undescended testicle, unspecified, bilateral
Q5321	Abdominal testis, bilateral
Q5322	Ectopic perineal testis, bilateral
Q539	Undescended testicle, unspecified
Q540	Hypospadias, balanic
Q541	Hypospadias, penile
Q542	Hypospadias, penoscrotal
Q543	Hypospadias, perineal
Q544	Congenital chordee

Diagnosis Code	Description
Q548	Other hypospadias
Q550	Absence and aplasia of testis
Q551	Hypoplasia of testis and scrotum
Q5521	Polyorchism
Q5522	Retractile testis
Q5523	Scrotal transposition
Q5529	Other congenital malformations of testis and scrotum
Q553	Atresia of vas deferens
Q554	Other congenital malformations of vas deferens, epididymis, seminal vesicles and prostate
Q555	Congenital absence and aplasia of penis
Q5561	Curvature of penis (lateral)
Q5562	Hypoplasia of penis
Q5563	Congenital torsion of penis
Q5564	Hidden penis
Q5569	Other congenital malformation of penis
Q558	Other specified congenital malformations of male genital organs
Q559	Congenital malformation of male genital organ, unspecified
Q560	Hermaphroditism, not elsewhere classified
Q561	Male pseudohermaphroditism, not elsewhere classified
Q562	Female pseudohermaphroditism, not elsewhere classified
Q563	Pseudohermaphroditism, unspecified
Q564	Indeterminate sex, unspecified
Q600	Renal agenesis, unilateral
Q601	Renal agenesis, bilateral
Q603	Renal hypoplasia, unilateral
Q604	Renal hypoplasia, bilateral
Q606	Potter's syndrome
Q6101	Congenital single renal cyst
Q6119	Other polycystic kidney, infantile type
Q612	Polycystic kidney, adult type
Q613	Polycystic kidney, unspecified
Q614	Renal dysplasia
Q615	Medullary cystic kidney
Q618	Other cystic kidney diseases
Q619	Cystic kidney disease, unspecified
Q6211	Congenital occlusion of ureteropelvic junction
Q6212	Congenital occlusion of ureterovesical orifice
Q622	Congenital megaureter
Q6231	Congenital ureterocele, orthotopic

Diagnosis Code	Description
Q6239	Other obstructive defects of renal pelvis and ureter
Q624	Agenesis of ureter
Q625	Duplication of ureter
Q6261	Deviation of ureter
Q6262	Displacement of ureter
Q6263	Anomalous implantation of ureter
Q628	Other congenital malformations of ureter
Q630	Accessory kidney
Q631	Lobulated, fused and horseshoe kidney
Q632	Ectopic kidney
Q633	Hyperplastic and giant kidney
Q638	Other specified congenital malformations of kidney
Q640	Epispadias
Q6410	Exstrophy of urinary bladder, unspecified
Q6411	Supravesical fissure of urinary bladder
Q6412	Cloacal extrophy of urinary bladder
Q6419	Other extrophy of urinary bladder
Q642	Congenital posterior urethral valves
Q6431	Congenital bladder neck obstruction
Q6432	Congenital stricture of urethra
Q6433	Congenital stricture of urinary meatus
Q6439	Other atresia and stenosis of urethra and bladder neck
Q644	Malformation of urachus
Q645	Congenital absence of bladder and urethra
Q646	Congenital diverticulum of bladder
Q6471	Congenital prolapse of urethra
Q6472	Congenital prolapse of urinary meatus
Q6473	Congenital urethrorectal fistula
Q6474	Double urethra
Q6475	Double urinary meatus
Q649	Congenital malformation of urinary system, unspecified
Q6501	Congenital dislocation of right hip, unilateral
Q6502	Congenital dislocation of left hip, unilateral
Q651	Congenital dislocation of hip, bilateral
Q6531	Congenital partial dislocation of right hip, unilateral
Q6532	Congenital partial dislocation of left hip, unilateral
Q654	Congenital partial dislocation of hip, bilateral
Q6581	Congenital coxa valga
Q6582	Congenital coxa vara
Q6589	Other specified congenital deformities of hip

Diagnosis Code	Description
Q660	Congenital talipes equinovarus
Q6621	Congenital metatarsus primus varus
Q6622	Congenital metatarsus adductus
Q663	Other congenital varus deformities of feet
Q664	Congenital talipes calcaneovalgus
Q6651	Congenital pes planus, right foot
Q6652	Congenital pes planus, left foot
Q666	Other congenital valgus deformities of feet
Q667	Congenital pes cavus

Q780	Osteogenesis imperfecta
Q781	Polyostotic fibrous dysplasia
Q782	Osteopetrosis
Q783	Progressive diaphyseal dysplasia
Q784	Enchondromatosis
Q788	Other specified osteochondrodysplasias
Q789	Osteochondrodysplasia, unspecified
Q790	Congenital diaphragmatic hernia
Q791	Other congenital malformations of diaphragm
Q792	Exomphalos
Q793	Gastroschisis
Q794	Prune belly syndrome
Q7959	Other congenital malformations of abdominal wall
Q796	Ehlers-Danlos syndrome
Q798	Other congenital malformations of musculoskeletal system
Q799	Congenital malformation of musculoskeletal system, unspecified
Q800	Ichthyosis vulgaris
Q801	X-linked ichthyosis

Diagnosis Code	Description
Q802	Lamellar ichthyosis
Q803	Congenital bullous ichthyosiform erythroderma
Q804	Harlequin fetus
Q808	Other congenital ichthyosis
Q820	Hereditary lymphedema
Q821	Xeroderma pigmentosum
Q822	Mastocytosis
Q823	Incontinentia pigmenti
Q824	Ectodermal dysplasia (anhidrotic)
Q825	Congenital non-neoplastic nevus
Q826	Congenital sacral dimple
Q828	Other specified congenital malformations of skin
Q830	Congenital absence of breast with absent nipple
Q831	Accessory breast
Q832	Absent nipple
Q833	Accessory nipple
Q838	Other congenital malformations of breast
Q840	Congenital alopecia
Q841	Congenital morphological disturbances of hair, not elsewhere classified
Q842	Other congenital malformations of hair
Q843	Anonychia
Q844	Congenital leukonychia
Q845	Enlarged and hypertrophic nails
Q846	Other congenital malformations of nails
Q848	Other specified congenital malformations of integument
Q849	Congenital malformation of integument, unspecified
Q8503	Schwannomatosis
Q851	Tuberous sclerosis
Q858	Other phakomatoses, not elsewhere classified
Q859	Phakomatosis, unspecified
Q870	Congenital malformation syndromes predominantly affecting facial appearance
Q871	Congenital malformation syndromes predominantly associated with short stature
Q87410	Marfan's syndrome with aortic dilation
Q87418	Marfan's syndrome with other cardiovascular manifestations
Q8742	Marfan's syndrome with ocular manifestations
Q8743	Marfan's syndrome with skeletal manifestation
Q8782	Arterial tortuosity syndrome
Q8901	Asplenia (congenital)
Q8909	Congenital malformations of spleen

Diagnosis Code	Description
Q891	Congenital malformations of adrenal gland
Q892	Congenital malformations of other endocrine glands
Q893	Situs inversus
Q894	Conjoined twins
Q897	Multiple congenital malformations, not elsewhere classified
Q898	Other specified congenital malformations
Q899	Congenital malformation, unspecified
Q900	Trisomy 21, nonmosaicism (meiotic nondisjunction)
Q901	Trisomy 21, mosaicism (mitotic nondisjunction)
Q902	Trisomy 21, translocation
Q909	Down syndrome, unspecified
Q910	Trisomy 18, nonmosaicism (meiotic nondisjunction)
Q911	Trisomy 18, mosaicism (mitotic nondisjunction)
Q912	Trisomy 18, translocation
Q913	Trisomy 18, unspecified
Q914	Trisomy 13, nonmosaicism (meiotic nondisjunction)
Q915	Trisomy 13, mosaicism (mitotic nondisjunction)
Q916	Trisomy 13, translocation
Q917	Trisomy 13, unspecified
Q920	Whole chromosome trisomy, nonmosaicism (meiotic nondisjunction)
Q921	Whole chromosome trisomy, mosaicism (mitotic nondisjunction)
Q922	Partial trisomy
Q925	Duplications with other complex rearrangements
Q9261	Marker chromosomes in normal individual
Q9262	Marker chromosomes in abnormal individual
Q927	Triploidy and polyploidy
Q928	Other specified trisomies and partial trisomies of autosomes
Q930	Whole chromosome monosomy, nonmosaicism (meiotic nondisjunction)
Q931	Whole chromosome monosomy, mosaicism (mitotic nondisjunction)
Q932	Chromosome replaced with ring, dicentric or isochromosome
Q933	Deletion of short arm of chromosome 4
Q934	Deletion of short arm of chromosome 5
Q935	Other deletions of part of a chromosome
Q937	Deletions with other complex rearrangements
Q9381	Velo-cardio-facial syndrome
Q9388	Other microdeletions
Q9389	Other deletions from the autosomes
Q950	Balanced translocation and insertion in normal individual
Q952	Balanced autosomal rearrangement in abnormal individual
Q958	Other balanced rearrangements and structural markers

Diagnosis Code	Description
Q960	Karyotype 45, X
Q961	Karyotype 46, X iso (Xq)
Q962	Karyotype 46, X with abnormal sex chromosome, except iso (Xq)
Q963	Mosaicism, 45, X/46, XX or XY
Q964	Mosaicism, 45, X/other cell line(s) with abnormal sex chromosome
Q968	Other variants of Turner's syndrome
Q969	Turner's syndrome, unspecified
Q970	Karyotype 47, XXX
Q971	Female with more than three X chromosomes
Q972	Mosaicism, lines with various numbers of X chromosomes
Q973	Female with 46, XY karyotype
Q978	Other specified sex chromosome abnormalities, female phenotype
Q980	Klinefelter syndrome karyotype 47, XXY
Q981	Klinefelter syndrome, male with more than two X chromosomes
Q984	Klinefelter syndrome, unspecified
Q985	Karyotype 47, XYY
Q986	Male with structurally abnormal sex chromosome
Q987	Male with sex chromosome mosaicism
Q988	Other specified sex chromosome abnormalities, male phenotype
Q990	Chimera 46, XX/46, XY
Q991	46, XX true hermaphrodite
Q992	Fragile X chromosome
Q998	Other specified chromosome abnormalities
Q999	Chromosomal abnormality, unspecified
R480	Dyslexia and alexia
Z31430	Encounter of female for testing for genetic disease carrier status for procreative management
Z31438	Encounter for other genetic testing of female for procreative management
Z315	Encounter for genetic counseling
Z810	Family history of intellectual disabilities
Z8279	Family history of other congenital malformations, deformations and chromosomal abnormalities
Z8482	Family history of sudden infant death syndrome
Z8489	Family history of other specified conditions

25.2.5.3 Genetic Testing for Colorectal Cancer

Genetic testing for colorectal cancer is provided to clients that have a known predisposition (having a first-or-second degree relative) to colorectal cancer. Results of the testing may indicate whether the individual has an increased risk of developing colorectal cancer. A first-degree relative is defined as: sibling, parent, or offspring. A second-degree relative is defined as: uncle, aunt, grandparent, nephew, niece, or half-sibling.

Genetic test results, when informative, may influence clinical management decisions. Documentation in the medical record must reflect that the client and/or family member has been given information on the nature, inheritance, and implications of genetic disorders to help them make informed medical and personal decisions prior to the genetic testing.

Providers must bill the following procedure codes for genetic testing for colorectal cancer:

Procedure Codes				
81201	81202	81203	81210	81275
81288	81292	81293	81294	81295
81296	81297	81298	81299	81300
81301	81317	81318	81319	81327

The provider must order the most appropriate test based on familial medical history and the availability of previous family testing results. Interpretation of gene mutation analysis results is not separately reimbursable. Interpretation is part of the Physical Evaluation and Management (E/M service).

Genetic testing for colorectal cancer is limited to once per lifetime. Additional tests will not be authorized.

25.2.5.3.1 Authorization Requirements

Prior authorization is required for genetic testing for colorectal cancer.

A completed CSHCN Services Program Authorization and Prior Authorization Request form, signed and dated by the referring providers, must be submitted:

- Any provider's signature, including the prescribing provider's, on a submitted document indicates the provider certifies, to the best of the provider's knowledge, the information in the document is true, accurate and complete.
- All documentation submitted with a provider's signature must have a date next to the signature and must be kept in the client's medical record.
- Stamped signatures will not be accepted.

To facilitate a determination of medical necessity and avoid unnecessary denials, the physician must provide correct and complete information, including accurate medical necessity of the services requested. The client's medical record must include documentation of formal pre-test counseling, including assessment of the client's ability to understand the risks and limitations of the test, and the client's informed choice to proceed with the genetic testing for colorectal cancer. The medical record is subject to retrospective review.

Requisition forms from the laboratory are not sufficient documentation for verification of the personal and family history. Medical documentations submitted by the physician must verify the client's diagnosis or family history.

25.2.5.3.2 Familial Adenomatous Polyposis (FAP)

Prior authorization for testing Familial Adenomatous Polyposis (FAP) (procedure codes 81201, 81202, and 81203) may be offered to individuals who have well defined hereditary cancer syndromes and for which either a positive or negative result will change medical care.

Documentation must include one of the following:

- Client with greater than 20 polyps.
- Client with a first-degree relative with FAP and a documented mutation.

- Clients who are seven years of age or younger must have rationale for testing and documentation of medical necessity included in the client’s medical record and submitted with the prior authorization request.

25.2.5.3.3 Hereditary Nonpolyposis Colorectal Cancer (HNPCC)

The following procedure codes require prior authorization for testing Hereditary Nonpolyposis Colorectal Cancer (HNPCC) to determine whether an individual has an increased risk for colorectal cancer or other HNPCC-associated cancers, including Lynch Syndrome:

Procedure Codes				
81292	81293	81294	81295	81296
81297	81298	81299	81300	81301
81317	81318	81319		

Results of the test may influence clinical management decisions.

Documentation of medical necessity must include one of the following:

- Client has three or more family members (one of whom is a first-degree relative) with colorectal cancer and two successive generations are affected and one or more of the colorectal cancers were diagnosed at 50 years of age or younger and FAP has been ruled out.
- A client has had two HNPCC cancers.
- A client has colorectal cancer and a first-degree relative with either colorectal cancer or HNPCC extracolonic cancer at 50 years of age or younger.
- A client has had colorectal cancer or endometrial cancer at 50 years of age or younger.
- A client has had right-sided colorectal cancer with an undifferentiated pattern or histology at 50 years of age or younger.
- A client has had signet-cell type colorectal cancer at 50 years of age or younger.
- A client has had colorectal adenoma at 40 years of age or younger.
- A client is an asymptomatic individual with a first or second-degree relative with a documented HNPCC mutation.
- A client has a family history of malignant neoplasm in the gastrointestinal tract.

Clients who are twenty years of age or younger must have a clear rationale for testing and documentation of medical necessity from the client’s record must be submitted with the prior authorization request.

25.2.5.4 Genetic Testing for Hereditary Breast and Ovarian Cancers

Genetic testing for hereditary breast and ovarian cancers is provided to clients who are at least 18 years of age with an inherited increased risk (having a first-, second- or third-degree relative) for developing breast and certain other cancers.

Genetic testing of mutations in BRCA1 and BRCA2, the genes associated with hereditary breast and ovarian cancer, is based on the National Comprehensive Cancer Network (NCCN) guidelines. These guidelines highly recommend genetic counseling to clients when genetic testing is offered and after test results are disclosed.

Genetic test results, when informative, may influence clinical management decisions. Documentation in the medical record must reflect that the client and/or family member has been given information on the nature, inheritance, and implications of genetic disorders to help them make informed medical and personal decisions prior to the genetic testing.

Providers must bill the following procedure codes genetic testing for hereditary breast and ovarian cancers:

Procedure Codes				
81162	81211	81212	81213	81214
81215	81216	81217		

The provider must order the most appropriate test based on familial medical history and the availability of previous family testing results only if the test results will affect treatment decisions or provide prognostic information. Interpretation of genetic testing results is not separately reimbursable. Interpretation is part of the physician evaluation and management (E/M) service.

BRCA uncommon, large rearrangement testing (procedure code 81213) may be considered for reimbursement with submission of the following evidence:

- The client is at an exceptionally high risk for hereditary breast or ovarian cancers, and
- The client has undergone comprehensive, full sequence analysis of both BRCA1 and BRCA2 and the results of the test (procedure code 81211) are negative.

Genetic testing for hereditary breast and ovarian cancers is limited to once per lifetime. Additional tests will not be authorized.

Genetic testing for hereditary breast and ovarian cancer predisposition is not covered as a screening test in the general population.

25.2.5.4.1 Authorization Requirements

Prior authorization is not required for uncommon, large rearrangement testing of the BRCA1 and BRCA2 genes (procedure code 81213) when submitted with a negative test result for procedure code 81211.

Prior authorization is required for all other BRCA1/BRCA2 genetic testing for susceptibility to breast and ovarian cancer.

A completed CSHCN Services Program Genetic Testing for Hereditary Breast and Ovarian Cancers Prior Authorization Request form, signed and dated by the ordering practitioner, must be submitted and approved prior to the date of service. The form must include:

- The physician’s signature on a submitted document that indicates that the physician certifies, to the best of the physician’s knowledge, the information in the document is true, accurate, and complete.
- All documentation must be submitted with a physician’s signature with a date next to the signature and must be kept in the client’s medical record.
- No stamped signatures will be accepted.

To facilitate a determination of medical necessity and avoid unnecessary denials, the physician must provide correct and complete information, including accurate medical necessity of the service(s) requested. Documentation supporting the medical need for genetic testing of hereditary breast and ovarian cancers must include:

- The client’s diagnosis and prognosis, including the age of onset and the specific location of cancer
- The client’s family history, if applicable, including the specifics about the relationship to the client, cancer site, and the age of cancer diagnosis
- The NCCN criterion met supporting the need for the specific test requested
- Documentation of how the result of the test will directly impact the plan of treatment delivered to the client.

Requisition forms from the laboratory are not sufficient documentation for verification of the personal and family history.

To complete the prior authorization process, the provider must complete and submit the prior authorization request and required documentation to the TMHP CSHCN Services Program Authorization Department.

If the service is medically necessary and is provided after hours or on a recognized holiday or weekend, the service may be authorized when the request is submitted on the next business day. A completed CSHCN Services Program Genetic Testing for Hereditary Breast and Ovarian Cancers Prior Authorization Request form and supporting documentation must be received within these deadlines for prior authorization to be considered. Extensions to these deadlines are not given by the CSHCN Services Program for providers to correct incomplete PA requests.

The client’s medical record must include a copy of the prior authorization request, all submitted documentation, and an assessment of the client’s ability to understand the risks and limitations of the test as well as the client’s informed choice to proceed with the genetic testing. The medical record is subject to retrospective review.

25.2.6 Cytopathology of Vaginal, Cervical, and Uterine Sites

Because of the technical nature of processing and interpreting a Pap smear or specimen for cytopathology, pathologists are the only physician specialty reimbursed with the following exception:

Exception: Other physician specialties equipped to perform Pap smears in their offices must have modifier SU on the claim form.

Procurement and handling of the Pap smear or specimen for cytopathology is considered part of the evaluation and management of the client and is not reimbursed separately.

A pathologist must report the place of service (POS) according to where the Pap smear is interpreted: office (POS 1), inpatient (POS 3), outpatient (POS 5), or independent laboratory (POS 6).

The following procedure codes are payable for gynecological cytopathology services and may be reimbursed only to pathologists and CLIA-certified laboratories whose directors providing technical supervision of cytopathology services are pathologists:

Procedure Codes				
88142	88143	88147	88148	88150
88152	88153	88154	88155	88164
88165	88166	88167	88174	88175

Procedure codes 88155 is an add-on code to be used in conjunction with the following cytopathology procedure codes:

Procedure Codes				
88142	88143	88147	88148	88150
88152	88153	88154	88164	88165
88166	88167	88174	88175	

The interpretation portion of any gynecological cytopathology test must be reported using only procedure code 88141 and type of service “I.” Reimbursement is restricted to laboratories and pathologists. The interpretation portion may be reimbursed in addition to the following cytopathology procedure codes:

Procedure Codes				
88142	88143	88147	88148	88150

Procedure Codes				
88152	88153	88154	88164	88165
88166	88167	88174	88175	

25.2.7 Cytopathology Studies Other Than Vaginal, Cervical, or Uterine

Procurement and handling of the specimen is not reimbursed separately for cytopathology of sites other than vaginal, cervical, or uterine and is considered part of the evaluation and management of the client. These procedures may be reimbursed according to the POS where the cytopathology smear is interpreted.

Procedure codes 88160, 88161, and 88162 are payable for the total component and technical component in the office (place of service [POS] 1), outpatient setting (POS 5), or independent laboratory (POS 6). Procedure codes 88160, 88161, and 88162 are payable for the interpretation in the inpatient (POS 3) or outpatient (POS 5) settings.

Procedure codes 88160, 88161, and 88162 are payable to a pathologist for the interpretation in the inpatient hospital (POS 3) and outpatient (POS 5) settings.

Procedure codes 88160 or 88161 total components and interpretations are denied as part of the total component and interpretation for procedure code 88162.

Procedure code 88160 total component and interpretation is denied as part of the total component and interpretation for procedure code 88161.

Reimbursement for the total component or interpretation and technical component for procedure codes 88160, 88161, and 88162 is limited to pathologists (doctor of medicine [MD] and doctor of osteopathy [DO]) and laboratories (CLIA-certified to provide pathology services).

25.2.8 Evocative and Suppression Testing

Evocative and suppression testing is a benefit when billed for the total component.

Providers must bill the following procedure codes for evocative suppression testing:

Procedure Codes							
80400	80402	80406	80408	80410	80412	80414	80415
80416	80417	80418	80420	80422	80424	80426	80428
80430	80432	80434	80435	80436	80438	80439	

25.2.9 Helicobacter pylori (H. pylori)

H. pylori testing is a benefit. Serology testing for H. pylori is a noninvasive diagnostic procedure preferred for initial diagnosis but is not indicated once a diagnosis is made.

H. pylori testing is not indicated or a benefit for any of the following:

- New onset uncomplicated dyspepsia
- New onset dyspepsia that is responsive to conservative treatment (e.g., withdrawal of nonsteroidal anti-inflammatory drugs [NSAIDs] or use of antisecretory agents) (If conservative treatment does not eliminate the symptoms, further testing may be indicated to determine the presence of H. pylori.)
- Screening for H. pylori in asymptomatic clients
- Dyspeptic clients who require endoscopy and biopsy
- A negative endoscopy in the previous 90 days
- A planned endoscopy

- New onset H. pylori that is still being treated

Serology testing is not indicated or a benefit for monitoring response to therapy.

The following procedure codes may be reimbursed by the CSHCN Services Program:

- Serology testing, procedure codes 83009 and 86677
- Stool testing, procedure code 87338
- Breath testing, procedure codes 78267, 78268, 83013, and 83014

These procedure codes are considered a clinical lab service and must be billed using type of service (TOS) 5. The interpretation/professional component TOS I is not separately reimbursed.

H. pylori testing may be indicated for symptomatic clients with a documented history of chronic or recurrent duodenal ulcers, gastric ulcers, or chronic gastritis. The history should delineate the failed conservative treatment for the condition.

Only one of the following procedure codes may be reimbursed once per lifetime when billed by any provider: 83009 or 86677. A second test may be considered on appeal with documentation submitted indicating the original test result was negative for H. pylori.

If a follow-up breath or stool test is used to document the eradication of H. pylori, the medical record should contain evidence of one of the following:

- The patient remains symptomatic after a treatment regimen for H. pylori.
- The patient is asymptomatic after H. pylori eradication therapy but has a history of hemorrhage, perforation, or outlet obstruction from peptic ulcer disease.
- The patient has a history of ulcer on chronic nonsteroidal anti-inflammatory drug (NSAID) or anticoagulant therapy.

Providers cannot be reimbursed for testing for the eradication of H. pylori, procedure codes 78267, 78268, 83013, 83014, and 87338 within 35 days of the initial test.

H. pylori testing will be denied if it is performed within 90 days of the following procedure codes:

Procedure Codes									
43200	43201	43202	43216	43217	43228	43231	43232	43234	43235
43236	43237	43238	43239	43241	43242	43250	43251	43257	43258
43259									

Procedure codes 78267, 78268, 83013, 83014, and 87338 may be reimbursed within 90 days of the procedure codes in the preceding table if the provider submits documentation that indicates the client was tested for eradication after treatment.

25.2.10 Hematology and Coagulation

The following hematology and coagulation procedure codes are benefits of the CSHCN Services Program:

Procedure Codes									
85002	85004	85007	85008	85009	85013	85014*	85018*	85025	85027
85032	85041	85044	85045	85046	85048	85049	85055	85060	85097
85130	85170	85175	85210	85220	85230	85240	85244	85245	85246
85247	85250	85260	85270	85280	85290	85291	85292	85293	85300
85301	85302	85303	85305	85306	85307	85335	85337	85345	85347

Procedure Codes									
85348	85360	85362	85366	85370	85378	85379	85380	85384	85385
85390	85396	85397	85400	85410	85415	85420	85421	85441	85445
85475	85520	85525	85530	85536	85540	85547	85549	85555	85557
85576*	85597	85598	85610*	85611	85612	85613	85635	85651	85652
85660	85670	85675	85705	85730	85732	85810	85999	G0306	G0307
* CLIA Waived test									

The following procedure codes may be reimbursed once per day by the same provider:

Procedure Codes						
85027	85347	85397	85520	85576	85610	85730

Procedure code 85027 will deny if billed on the same date of service by the same provider as procedure codes 85007 and 85009.

Procedure code 85660 may be reimbursed once per lifetime by any provider. An additional test may be considered on appeal with documentation indicating the provider was unaware the client was tested previously or was unable to obtain the client's medical records.

25.2.11 Microbiology

The following microbiology procedure codes are benefits of the CSHCN Services Program:

Procedure Codes									
86790	87003	87015	87040	87045	87046	87070	87071	87073	87075
87076	87077*	87081	87084	87086	87088	87101	87102	87103	87106
87107	87109	87110	87116	87118	87140	87143	87147	87149	87150
87152	87153	87158	87164	87166	87168	87169	87172	87176	87177

87624	87625	87631*	87632	87633	87640	87641	87650	87651*	87652
87653	87660	87661	87797	87798	87799	87800	87801	87802	87803
* CLIA Waived test									
+ Add-on code									

Procedure Codes									
87804*	87806*	87807*	87808*	87809*	87810	87850	87880*	87899*	87900
87901	87902	87903	87904+	87905*	87906	87910	87912	87999	G0499
* CLIA Waived test + Add-on code									

Note: The procedure codes above do not require prior authorization.

The following procedure codes may be reimbursed once per day by the same provider:

Procedure Codes									
86790	87015	87046	87071	87075	87076	87077	87081	87088	87101
87102	87106	87107	87140	87147	87149	87150	87152	87153	87181
87184	87185	87186	87188	87190	87206	87209	87210	87252	87254
87300	87798	87801	87809	87899	87904				

25.2.11.1 Zika Virus Testing

Zika virus testing (procedure codes 86790, 87798, or 87799) must be billed with modifier U4.

Important: To ensure laboratories are able to submit Zika virus testing claims correctly, the ordering provider must clearly indicate when a test is for Zika virus screening.

25.2.12 Human Immunodeficiency Virus (HIV) Drug Resistance Testing

Standard treatment regimens for HIV therapy require a combination of three or more drugs. Standard therapy continues if a reduction in viral load is achieved. Incomplete virus suppression favors the development of a drug resistance and jeopardizes the success of future therapy. Testing for drug resistance as a prerequisite to further therapy is indicated under such circumstances.

To ensure accurate testing results, the client must be on appropriate antiretroviral therapy at the same time of testing or have discontinued the drug regimen within the past four weeks.

Testing for antiretroviral drug resistance is indicated in certain clinical situations. These indications include any of the following:

- Individuals who have an initial (new onset) acute HIV infection, to determine if a drug-resistant viral strain was transmitted, and to plan a drug regimen accordingly; or
- Individuals who have virological failure during antiretroviral therapy, laboratory results showing HIV RNA levels greater than 500, and less than 1000 copies/ml.

Documentation must be maintained in the client's medical record to support medical necessity for drug-resistance testing. Specific documentation requirements are dependent upon testing rationale.

Documentation must include, but is not limited to, the date the drug regimen was initiated, the dosage and frequency of the prescribed medication, and laboratory tests which support all of the following:

- Acute HIV infection, with identification of the specific viral strain; and
- Virological failure during antiretroviral therapy with HIV RNA levels greater than 500 and less than 1000 copies/ml.

Drug resistance testing is not recommended if one of the following criteria is met:

- The drug regimen has been discontinued for more than four weeks; or
- The viral load is less than 500 copies/ml.

25.2.13 Organ or Disease-Oriented Panels

The following organ or disease-oriented panel procedure codes are benefits of the CSHCN Services Program:

Procedure Codes								
80047	80048	80050	80051	80053	80061	80069	80074	80076

For all procedure codes listed in the organ or disease-oriented panels table above, refer to the Current Procedural Terminology (CPT) manual for information regarding laboratory panels and appropriate modifiers.

Reimbursement for the complete panel procedure code represents the total payment for all automated laboratory tests that are covered under that panel combined with any other automated tests that are billed for the client for the same date of service. Reimbursement for the individual components of the complete laboratory panel will not exceed the automated test panel (ATP) fee for the total number of automated tests that are billed for the client for the same date of service.

When all of the components of the panel are performed, the complete panel procedure code must be billed. When only two or more components of the panel are performed, the individual procedure codes for each laboratory test performed may be billed.

25.2.14 Urinalysis and Chemistry

The following urinalysis and chemistry procedure codes are benefits of the CSHCN Services Program:

Procedure Codes									
Urinalysis									
81000	81001	81002	81003*	81005	81015	81020	81050	81099	
Chemistry

Molecular Testing									
83006									
Ophthalmology and Optometry									
83861*									
* CLIA Waived test + Add-on code									

Procedure codes 81099, 82105, 82107, 82803, 82805, 82948, 84703, and 84999 are limited to one per day when billed by any provider.

Procedure code 84583 will be denied if billed on the same day by the same provider as procedure codes 81000, 81001, 81002, 81003, 81005, or 81020.

Procedure code 82270 is limited to one per rolling year when billed by any provider.

Procedure code 83698 is limited to two per rolling year when billed by any provider. Claims submitted for procedure code 83698 that are in excess of two per year may be considered on appeal with documentation of any of the following:

- Medical necessity for the additional test.
- The provider was unable to obtain the previous records from a different provider.
- The provider was new to treating the client and was not aware the client had received the test.

Referto: Section 25.2.9, “*Helicobacter pylori* (H. pylori)” in this chapter for information about limitations on procedure codes 83009, 83013, and 83014.

25.2.15 Other Laboratory Services

Laboratory and interpretation procedure codes 86077, 86078, and 86079 should be used when blood bank physician services are needed.

The following procedure codes are denied for pathologists as noncovered for specialty type:

Procedure Codes				
Surgery				
36430	36440	36455		
Consultation				
99251	99252	99253	99254	99255

Payment may be considered on appeal if the pathologist can document the medical necessity of performing the procedures.

25.2.16 Repeated Procedures

25.2.16.1 Modifier 91

Modifier 91 must be used for clinical diagnostic laboratory tests performed more than one time per day as follows:

- Modifier 91 must not be used when billing the initial procedure. It must be used to indicate the repeated procedure.
- If more than two services are billed on the same day by the same provider regardless of the use of modifier 91, the claim or detail is denied.
- If a repeated procedure performed by the same provider on the same day is billed without modifier 91, it is denied as a duplicate procedure.
- If a claim is denied for a quantity more than two or as a duplicate procedure, the times of these procedures must be documented on the appeal.
- Modifier 91 is not required and must not be used when billing multiple quantities of a supply (for example, disposable diapers or sterile saline).

Certain procedure codes have been removed from modifier 91 auditing. These are procedure codes that have been identified as routinely being performed at the same time, more than twice per day for each analyte. Documentation of time is required. If no time documentation is received, the claim will be denied. Providers may appeal claims that have been denied for documentation of time. Most procedure codes initially requiring modifier 91 continue to be audited for modifier 91.

When appealing claims with modifier 91 for repeat procedures, providers must separate the details. One detail should be appealed without the modifier and one detail with the modifier including documentation of times for each repeated procedure.

Referto: Chapter 7, "Appeals and Administrative Review."

25.2.17 Receiving Labs and Lab Handling Fees

An independent laboratory may not bill for laboratory tests when the specimen is forwarded to another laboratory without performing any tests on that specimen. An independent laboratory may bill the CSHCN Services Program for tests referred to another laboratory (independent or hospital) only if the independent laboratory performs at least one test and forwards a portion of the same specimen to another laboratory (receiving laboratory) to have one or more tests performed. In this instance, the receiving laboratory may bill for tests it performs and all tests the receiving laboratory performs on the specimen. When billing, the *YES* box in Block 20 of the CMS-1500 paper claim form must be marked, the complete name, provider identifier, address, and ZIP code of the outside receiving laboratory where

the specimen was forwarded must be entered in Block 32, and the TPI of the receiving laboratory must be indicated in Block 24j next to each procedure to be performed by the receiving laboratory. Enter the TPI in the shaded area of the field. Enter the NPI in the unshaded area of the field.

Only one handling fee may be charged per day, per client, unless specimens are sent to two or more different laboratories.

In order to bill a handling fee, the receiving laboratory's name and address and unique TPI number must be included on the claim in Blocks 17 and 17B.

In both situations, if a specimen is collected by venipuncture or catheterization, an independent laboratory that forwards a specimen to another laboratory (independent or hospital) may bill a handling fee (procedure code 99001) for collecting and forwarding the specimen to the other laboratory.

When billing for laboratory services, providers should use the date the specimen is collected as the date of service. If the specimen is sent to a receiving laboratory and the client is an inpatient, the hospital is responsible for payment of these services to the receiving laboratory.

25.3 Claims Information

Independent laboratory services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills or itemized statements are not accepted as claim supplements.

Laboratory services providers must indicate the specific laboratory procedure codes that are being submitted for claims filing.

The Healthcare Common Procedure Coding System (HCPCS)/CPT codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [CMS NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

25.3.1 Modifiers To Use When Billing Laboratory Procedures

Providers may use an appropriate modifier to bill for laboratory procedures as needed.

Providers may refer to the CMS website at www.cms.gov for guidelines on which modifier to use when submitting claims for laboratory services.

25.4 Reimbursement

In compliance with state and federal law, the CSHCN Services Program reimburses laboratories for most services according to maximum fees established by federal law, Medicare, or HHSC. Clinical laboratory services may be reimbursed the lower of the national fee schedule amount, the billed amount, or the

amount allowed by Texas Medicaid. Some services (e.g., anatomical pathology) may be reimbursed according to the Texas Medicaid Reimbursement Methodology (TMRM). For automated lab tests, the fees that are paid are calculated by compiling the number of automated tests on the date of service and assigning an automated test panel payment code.

Physicians may be reimbursed for laboratory services the lower of the billed amount or the amount allowed by Texas Medicaid. Outpatient hospitals may be reimbursed for laboratory services at 72 percent of the rate equivalent to the hospital's Medicaid interim rate.

As the result of the *Tax Equity and Fiscal Responsibility Act* (TEFRA) of 1982, independent laboratories are not directly reimbursed by the CSHCN Services Program when providing tests to clients registered as hospital inpatients or hospital outpatients. Reimbursement must be obtained from the hospital. These services cannot be billed to the client.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

25.4.1 Clinical Laboratory Fee Schedule

The *Deficit Reduction Act* (DEFRA) of 1984 requires clinical diagnostic laboratory tests that are performed in a physician's office by an independent laboratory or a hospital laboratory for its outpatients be reimbursed on the basis of maximum fee schedules. The Texas Medicare carrier publishes the fee schedules on an annual basis. By federal law, the CSHCN Services Program payment *cannot* exceed that allowed by Medicare.

25.4.2 One-day Payment Window Reimbursement Guidelines

According to the one-day payment window reimbursement guidelines, most professional and outpatient diagnostic and nondiagnostic services that are rendered within 1 day of an inpatient hospital stay and are related to the inpatient hospital admission will not be reimbursed separately from the inpatient hospital stay if the services are rendered by the hospital or an entity that is wholly owned or operated by the hospital.

The one-day payment window reimbursement guidelines do not apply for professional services that are rendered in the inpatient hospital setting.

Referto: Section 24.3.7, "Payment Window Reimbursement Guidelines" in Chapter 24, "Hospital" for additional information about the one-day payment window reimbursement guidelines.

25.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

26.1 Enrollment

To enroll in the CSHCN Services Program, providers of medical nutrition services (medical foods, medical nutritional counseling services, medical nutritional products, and total parenteral nutrition) must meet the conditions outlined in the enrollment sections provided in this chapter.

Detailed information about CSHCN Services Program provider enrollment procedures for providers of medical foods are in Section 26.3.1, “Enrollment” in this chapter.

Detailed information about CSHCN Services Program provider enrollment procedures for providers of medical nutritional counseling services are in Section 26.4.1, “Enrollment” in this chapter.

Detailed information about CSHCN Services Program provider enrollment procedures for providers of medical nutrition products are in Section 26.5.1, “Enrollment” in this chapter.

Detailed information about CSHCN Services Program provider enrollment procedures for providers of total parenteral nutrition are in Section 26.6.1, “Enrollment” in this chapter.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

26.2 Vitamins and Minerals

26.2.1 Enrollment

Vitamins and minerals may be reimbursed to Durable Medical Equipment (DME) providers, home health providers, and Custom DME providers.

Referto: Section 17.1, “Enrollment” in Chapter 17, “Durable Medical Equipment (DME)” for more detailed information about CSHCN Services Program provider enrollment procedures for DME and Custom DME providers and Section 21.1, “Enrollment” in Chapter 21, “Home Health Services” for more detailed information about CSHCN Services Program provider enrollment procedures for home health providers

26.2.2 Benefits, Limitations, and Authorization Requirements

Vitamin and mineral supplements with a prescription are a benefit of the CSHCN Services Program. The client's diagnosis and a prescription for the requested vitamin(s) and mineral(s) is required to determine coverage.

The following procedure codes for vitamin and mineral products are manually priced, and are benefits when prior authorized and submitted with the corresponding procedure code and state modifier:

Vitamin or Mineral	Procedure Code	State Modifier
Beta-carotene	A9152	U1
Vitamin A (retinol)	A9152	
Biotin	A9152	U2
Boric acid	A9152	U3
Copper	A9152	
Iodine	A9152	
Phosphorous	A9152	
Zinc	A9152	
Calcium	A9152	
Chloride	A9152	U5
Iron	A9152	U6
Magnesium	A9152	U7
Vitamin B1 (thiamin)	A9152	U8
Vitamin B2 (riboflavin)	A9152	
Vitamin B3 (niacin)	A9152	
Vitamin B5 (panthothenic acid)	A9152	
Vitamin B6 (pyridoxine, pyridoxal 5-phosphate)	A9152	
Vitamin B9 (folic acid)	A9152	
Vitamin B12 (cyanocobalamin)	A9152	
Vitamin C (ascorbic acid)	A9152	
Vitamin D (ergocalciferol)	A9152	UA
Vitamin E (tocopherols)	A9152	UB
Vitamin K (phytonadione)	A9152	UC
Multi-minerals	A9153	U1
Multi-vitamins	A9153	U2
Trace elements	A9153	U3
Miscellaneous	A9152 or A9153	UD

Note: Claims for multivitamins with any combination of additives must be submitted with modifier U2.

Vitamin and mineral products may be indicated for, but are not limited to, treatment of the following conditions:

Vitamin or Mineral	Condition
Beta-carotene	<ul style="list-style-type: none"> • Vitamin A deficiency • Cystic fibrosis • Disorders of porphyrin metabolism • Intestinal malabsorption
Biotin	<ul style="list-style-type: none"> • Biotin deficiency • Biotinidase deficiency • Carnitine deficiency • Cystic fibrosis
Boric acid	<ul style="list-style-type: none"> • Recalcitrant vulvovaginitis
Calcium	<ul style="list-style-type: none"> • Calcium deficiency • Disorders of calcium metabolism • Chronic renal disease • Pituitary dwarfism, isolated growth hormone deficiency • Cystic fibrosis • Intestinal disaccharidase deficiencies and disaccharide malabsorption • Allergic gastroenteritis and colitis
Chloride	<ul style="list-style-type: none"> • Hypochloremia • Hypercapnia with mixed acid-base disorder
Copper	<ul style="list-style-type: none"> • Disorders of copper metabolism
Iodine	<ul style="list-style-type: none"> • Iodine deficiency • Simple and unspecified goiter and nontoxic nodular goiter • Cystic fibrosis
Iron	<ul style="list-style-type: none"> • Disorders of iron metabolism • Iron deficiency anemia • Cystic fibrosis
Magnesium	<ul style="list-style-type: none"> • Magnesium deficiency • Hypoparathyroidism • Cystic fibrosis
Phosphorous	<ul style="list-style-type: none"> • Disorders of phosphorous metabolism
Vitamin A (retinol)	<ul style="list-style-type: none"> • Vitamin A deficiency • Intestinal malabsorption • Disorders of the biliary tract • Cystic fibrosis

Vitamin or Mineral	Condition
Vitamin B1 (thiamin)	<ul style="list-style-type: none"> • Vitamin B1 deficiency • Disturbances of branched-chain amino-acid metabolism (e.g. maple syrup urine disease) • Disorders of mitochondrial metabolism • Wernicke-Korsakoff syndrome • Cystic fibrosis
Vitamin B2 (riboflavin)	<ul style="list-style-type: none"> • Vitamin B2 deficiency • Disorders of fatty acid oxidation • Riboflavin deficiency, ariboflavinosis • Disorders of mitochondrial metabolism • Cystic fibrosis
Vitamin B3 (niacin)	<ul style="list-style-type: none"> • Vitamin B3 deficiency • Disorders of lipid metabolism (e.g. pure hypercholesterolemia) • Cystic fibrosis
Vitamin B5 (pantothenic acid)	<ul style="list-style-type: none"> • Vitamin B5 deficiency
Vitamin B6 (pyridoxine, pyridoxal 5 phosphate)	<ul style="list-style-type: none"> • Vitamin B6 deficiency • Sideroblastic anemia • Cystic fibrosis
Vitamin B9 (folic acid)	<ul style="list-style-type: none"> • Vitamin B9 deficiency • Folate-deficiency anemia • Combined B12 and folate-deficiency anemia • Disorders of mitochondrial metabolism • Sickle-cell disease • Pernicious anemia • Cystic fibrosis
Vitamin B12 (cyanocobalamin)	<ul style="list-style-type: none"> • Vitamin B12 deficiency • Disturbances of sulphur-bearing amino-acid metabolism (e.g., homocystinuria and disturbances of metabolism of methionine) • Pernicious anemia • Combined B12 and folate-deficiency anemia • Cystic fibrosis
Vitamin C (ascorbic acid)	<ul style="list-style-type: none"> • Vitamin C deficiency • Anemia due to disorders of glutathione metabolism • Disorders of mitochondrial metabolism • Cystic fibrosis

Vitamin or Mineral	Condition
Vitamin D (ergocalciferol)	<ul style="list-style-type: none"> • Vitamin D deficiency • Galactosemia • Glycogenosis • Disorders of magnesium metabolism • Intestinal malabsorption • Chronic renal disease • Cystic fibrosis • Disorders of phosphorous metabolism • Hypocalcemia • Disorders of the biliary tract • Hypoparathyroidism • Intestinal disaccharidase deficiencies and disaccharide malabsorption • Allergic gastroenteritis and colitis
Vitamin E (tocopherols)	<ul style="list-style-type: none"> • Vitamin E deficiency • Inflammatory bowel disease (e.g. Crohn’s disease and ulcerative colitis) • Disorders of mitochondrial metabolism • Chronic liver disease • Intestinal malabsorption • Disorders of the biliary tract • Cystic fibrosis
Vitamin K (phytonadione)	<ul style="list-style-type: none"> • Vitamin K deficiency • Congenital deficiency of other clotting factors • Intestinal malabsorption • Acquired coagulation factor deficiency • Cystic fibrosis • Disorders of the biliary tract • Chronic liver disease
Zinc	<ul style="list-style-type: none"> • Zinc deficiency • Wilson’s disease • Acrodermatitis enteropathica • Cystic fibrosis
Multimineral	<ul style="list-style-type: none"> • Other and unspecified protein-calorie malnutrition
Multivitamins	<ul style="list-style-type: none"> • Cystic fibrosis • Other and unspecified protein-calorie malnutrition
Trace elements	<ul style="list-style-type: none"> • Mineral deficiency

26.2.3 Prior Authorization Requirements

Prior authorization for vitamin and mineral products must be requested using the [CSHCN Services Program Authorization and Prior Authorization Request Form](#) and be submitted on or before the date that the products are dispensed. Vitamin and mineral products that are dispensed before the date that the prior authorization request is received, or before the date of the physician’s order, will not be approved.

- A physician’s prescription with the name of the vitamin or mineral product, dosage, frequency, duration, and route of administration.
- The manufacturer’s suggested retail price (MSRP) or average wholesale price (AWP) (whichever is applicable) with the calculated price per dose or the providers’ documented invoice price.

Requests for additional vitamin and mineral products must be submitted before the current authorized period expires, but no more than 30 days before the expiration. Prior authorization of vitamin and mineral products may be considered for up to 6 months and for a quantity up to a 30-day supply.

Note: Liquid formulations of vitamin and mineral products may be considered for quantities that exceed the 30-day supply to allow for variance in container sizes.

If a client’s eligibility expires, all prior authorizations for the client become invalid and benefits may be denied. If eligibility is renewed, a new prior authorization request must be submitted.

The following sample tables taken from the [CSHCN Services Program Authorization and Prior Authorization Request Form](#), are examples of the information that is required to submit a request for vitamin and mineral products:

- Example 1: Vitamin D

Requested Procedure or Service Information	
Type of Request: _____ Authorization <input checked="" type="checkbox"/> Prior Authorization	
Procedure requested: A9152 UA (per CPT code)	Service requested: Vitamin D (ergocalciferol) 10 ml bottle (8000 units/ml)
Other: \$40.00/bottle	Diagnosis:
\$0.20/dose	
Additional information: (Refer to the appropriate manual section for specific authorization requirements): Dose: 400 units (0.05 ml), Route: PO, Frequency: QD	

- Example 2: Multivitamin Tables

Requested Procedure or Service Information	
Type of Request: _____ Authorization <input checked="" type="checkbox"/> Prior Authorization	
Procedure requested: A9153 U2 (per CPT code)	Service requested: Centrum Kids (80 tablets/ bottle)
Other: \$8.99/bottle	Diagnosis:
\$0.11/dose	
Additional information: (Refer to the appropriate manual section for specific authorization requirements): Dose: 1 tablet, Route: PO, Frequency: QD	

- Example 3: Poly-Vi-Sol Drops with Iron

Requested Procedure or Service Information	
Type of Request: _____ Authorization <input checked="" type="checkbox"/> Prior Authorization	

Requested Procedure or Service Information	
Procedure requested: A9153 U1 (per CPT code)	Service requested: Poly-Vi-Sol with Iron (50 ml bottle)
Other: \$10.05/bottle	Diagnosis:
\$0.20/dose	
Additional information: (Refer to the appropriate manual section for specific authorization requirements): Dose: 1 ml, Route: PO, Frequency: QD	

- Example 4: Fer-In-Sol Iron Supplement

Requested Procedure or Service Information	
Type of Request: _____ Authorization <input checked="" type="checkbox"/> Prior Authorization	
Procedure requested: A9153 U1 (per CPT code)	Service requested: Fer-In-Sol (50 ml bottle) 30 mg BID
Other: \$10.75/bottle	Diagnosis:
\$0.43/dose	
Additional information: (Refer to the appropriate manual section for specific authorization requirements): Dose: 2 ml (15 mg/ml), Route: PO, Frequency: BID	

Note: Vitamin and mineral supplements are not diagnosis restricted.

26.2.4 Claims Information

Claims for vitamin and mineral products must be submitted with procedure code A9152 or A9153, the appropriate modifier, and the corresponding National Drug Code (NDC). Units must be based on the quantity dispensed for up to a 30-day supply.

26.2.5 Reimbursement

The CSHCN Services Program reimburses vitamin and mineral products at the lesser of:

- The provider’s billed charges.
- The published fee determined by the Texas Health and Human Services Commission (HHSC).
- Manual price as determined by HHSC, which is based on one of the following:
 - MSRP less 18 percent or AWP less 10.5 percent with the calculated price per dose, whichever is applicable.
 - The provider’s documented invoice cost.

A maximum of \$100.00 per 30 days may be reimbursed for all vitamin and mineral products.

26.3 Medical Foods

26.3.1 Enrollment

To enroll in the CSHCN Services Program, providers of medical foods are not required to be actively enrolled in Texas Medicaid. However, they must have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. The Provider Agreement is part of the paper CSHCN Services Program enrollment application. If enrolling in the CSHCN Services Program online, the Provider Agreement must be printed and mailed in separately. The mailing address is available in Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities.” Out-of-state medical food providers may enroll and must meet all these conditions. The 50-mile within the Texas state border limitation does not apply to providers of medical foods.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures and the mailing address for the Provider Agreement if enrolling online.

26.3.2 Benefits, Limitations, and Authorization Requirements

Medical foods are a benefit of the CSHCN Services Program for clients with inborn errors of metabolism that prohibit them from eating a regular diet.

Medical foods are defined as:

- Lacking in the compounds which cause complications of the metabolic disorder.
- Not generally available in grocery stores, health food stores, or pharmacies.
- Not used as food by the general population.
- Not foods covered under the Food Stamps program.
- Approved products listed in enrolled provider’s catalogs.

The CSHCN Services Program only pays for foods with nutritional value.

Foods with minimal nutritional value, including, but not limited to the following, are not a benefit of the CSHCN Services Program:

Foods with Minimal Nutritional Value				
Cakes	Cake mixes	Candy	Candy covered items	Chips
Chocolate	Chocolate covered items	Cookies	Cookie dough	Dessert items
Gum	Onion rings	Pies		

Foods described as gluten-free are not a benefit of the CSHCN Services Program.

Claims for medical foods must be submitted with procedure code S9434 or S9435.

26.3.2.1 Prior Authorization Requirements

Authorization or prior authorization is not required if the client has one of the diagnoses listed below and the request is for covered items (i.e., foods with nutritional value):

Diagnosis Codes					
E7201	E7202	E7203	E7204	E700	E701
E7020	E7021	E7029	E7030	E70329	E70330
E70331	E70338	E70339	E7039	E705	E708
E709	E710	E7119	E7211	E7212	E7219
E7221	E7222	E7223	E7229	E724	E723
H3120					

Prior authorization and documentation of medical necessity is required for all other diagnoses, new products, or products not listed as approved.

Prior authorization requests for products, conditions, quantities, or dollar amounts beyond the limits described in this chapter will be considered with medical necessity on a case-by-case basis after review by the DSHS-CSHCN Medical Director or a designee.

Note: *Prior authorization requests that were approved before August 1, 2012, will remain valid until the authorized period expires; services must be billed as authorized.*

Providers must complete the [CSHCN Services Program Prior Authorization Request for Medical Foods](#) for medical foods prior authorization requests.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

26.3.3 Claims Information

For purposes of billing, one unit is equal to one dose. The total billable units are equal to the total doses requested on the prior authorization.

Services by providers of medical foods must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [Centers for Medicare & Medicaid Services \(CMS\) NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, “TMHP Electronic Data Interchange (EDI)” for information about electronic claims submissions.

Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for general information about claims filing.

Section 5.7.2.4, “CMS-1500 Paper Claim Form Instructions” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

The Texas Health and Human Services Commission Texas Medicaid/CHIP Vendor Drug Program website at www.txvendordrug.com for information about the VDP.

26.3.4 Reimbursement

Providers must dispense the most cost-effective product in accordance with a prescription from a licensed physician. Organic products will not be reimbursed unless medical documentation is provided to substantiate the need for that formulation.

The CSHCN Services Program implemented rate reductions for certain services. The Online Fee Lookup (OFL) includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

26.4 Medical Nutritional Counseling Services

26.4.1 Enrollment

To enroll in the CSHCN Services Program, providers of nutritional counseling services must be dietitians licensed by the Texas State Board of Examiners of Dietitians, actively enrolled in Texas Medicaid, and must be enrolled as licensed dietitians, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state medical nutritional counseling services providers must meet all of these conditions, and be located in the United States within 50 miles of the Texas state border.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

26.4.2 Benefits, Limitations, and Authorization Requirements

The CSHCN Services Program provides coverage for nutritional assessment and counseling to prevent, treat, or minimize the effects of illness, injury, or other impairments.

Medical nutritional counseling services are a benefit of the CSHCN Services Program when all of the following criteria are met:

- Prescribed by a physician
- Considered medically necessary or medically appropriate, as supported by documentation
- Completed by a CSHCN Services Program-enrolled dietitian licensed by the Texas State Board of Examiners of Dietitians
- Provided in the home, office, or in the outpatient hospital setting

Medical nutrition therapy (procedure codes 97802 and 97803) and medical nutritional counseling services, dietician visit (procedure code S9470) may be beneficial for disease states in which dietary adjustment has a therapeutic role. These include, but are not limited to, the following conditions:

- Abnormal weight gain
- Cardiovascular disease
- Diabetes or alterations in blood glucose
- Eating disorders
- Gastrointestinal disorders
- Hypertension
- Inherited metabolic disorders
- Kidney disease
- Lack of normal weight gain
- Nutritional deficiencies

Nutrition intervention for chronic fatigue syndrome, attention-deficit hyperactivity disorder, idiopathic environmental intolerances, and multiple food and chemical sensitivities is considered experimental and investigational and is not a benefit of the CSHCN Services Program.

Medical nutritional counseling service for the diagnosis of obesity without a comorbid condition is not a benefit of the CSHCN Services Program.

Nutrition counseling, dietitian visit (procedure code S9470) is a less comprehensive service and does not include an assessment or reassessment. This is limited to four nutritional counseling visits (procedure code S9470) per rolling year.

Procedure codes 97802, 97803, and S9470 are not restricted to clients 20 years of age or younger; they may be submitted for clients of any age. Services may be provided in the home, office, or outpatient hospital settings.

The CSHCN Services Program reimburses procedure codes 97802, 97803, and S9470. If procedure codes 97802 or 97803 are billed for the same date of service as S9470, procedure code 97802 or 97803 is paid and procedure code S9470 is denied.

26.4.2.1 Prior Authorization Requirements

Authorization or prior authorization is not required for the following nutritional counseling services:

- One hour (four units) for nutrition assessment, and intervention for procedure code 97802 per rolling year and three hours (12 units) per rolling year for nutrition reassessment and intervention for procedure code 97803
- Four nutritional counseling visits (procedure code S9470) per rolling year

Providers are responsible for maintaining documentation to support medical necessity of nutritional counseling services in the clinical record.

Prior authorization is required for additional visits. Requests for additional visits require medical review and must be submitted in writing on the [CSHCN Services Program Prior Authorization Request for Medical Nutritional Services Form](#) with documentation to support medical necessity or appropriateness.

Use procedure codes 97802, 97803, or S9470 when requesting prior authorization or submitting claims.

***Note:** Fax transmittal confirmations are not accepted as proof of timely authorization submission.*

***Referto:** Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.*

26.4.3 Claims Information

Medical nutritional counseling services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The HCPCS/CPT codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [CMS NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI MUE guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

26.4.4 Reimbursement

Nutritional assessment and counseling services may be reimbursed the lower of either the billed amount or the amount allowed by Texas Medicaid.

Providers must use the following codes when requesting prior authorization or submitting claims:

Procedure Code	Description
97802	Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with the patient, each 15 minutes
97803	Medical nutrition therapy; reassessment and intervention, individual, face-to-face with the patient, each 15 minutes
S9470	Nutritional counseling, dietitian visit

If either procedure code 97802 or 97803 is billed with procedure code S9470 for the same date of service, then either procedure code 97802 or 97803 is paid, and procedure code S9470 is denied. Procedure code 97803 is denied as part of another service when billed for the same date of service as procedure code 97802 by any provider.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

26.5 Medical Nutritional Products

26.5.1 Enrollment

To enroll in the CSHCN Services Program, providers of medical nutritional products must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state medical nutritional products providers may enroll and must meet all these conditions, and be approved by DSHS. The 50-mile within the Texas state border limitation does not apply to providers of medical nutritional products.

Referto: Section 2.1, "Provider Enrollment" in Chapter 2, "Provider Enrollment and Responsibilities" for more detailed information about CSHCN Services Program provider enrollment procedures.

26.5.2 Benefits, Limitations, and Authorization Requirements

Medical nutritional products including enteral formulas, food thickeners, and nutritional supplements are a benefit of the CSHCN Services Program when the client has a specialized nutritional requirement. Medical nutritional products are those nutritional products that serve as a therapeutic agent for life and health and are part of a treatment regimen. The CSHCN Services Program does not cover nutritional products for individuals who can be sustained on an age-appropriate diet.

The CSHCN Services Program does not cover the following:

- Nutritional products that are traditionally used for infant feeding
- Pudding products
- Nutritional bars

Oral electrolyte solutions are reimbursed through VDP and will not be approved or reimbursed by the CSHCN Services Program. Electrolyte solutions (e.g., Pedialyte) that are not covered under VDP may be considered with prior authorization.

Claims for medical nutritional products must be submitted with one of the procedure codes listed in the following table:

Procedure Codes									
B4100	B4149	B4150	B4152	B4100	B4153	B4154	B4155	B4157	B4158
B4159	B4160	B4161	B4162	B9002	B9998	T1999			

Note: Appropriate limitations for miscellaneous procedure code B9998 and T1999 are determined on a case-by-case basis through prior authorization and must be based on medical necessity.

The following limitations apply for the rental or purchase of an enteral nutrition infusion pump, any type (procedure code B9002):

- Rental may be reimbursed once per calendar month, same procedure, any provider.
- Purchase may be reimbursed once every five rolling years, same procedure, any provider.

26.5.2.1 Prior Authorization Requirements

Prior authorization is required for medical nutritional products.

Prior authorization is required every six months if the client has ONE of the following conditions that is expected to be permanent* or of indefinite duration. Prior authorization for other conditions must be reviewed by the CSHCN Services Program Medical Director or designee.

- Anatomical, physiological, or motility disorder of the gastrointestinal tract.
- Anatomical abnormality or disease of digestive system
- Malignancy
- Infantile cerebral palsy
- Cystic fibrosis
- Dysphagia
- Major trauma and burns
- Nutritional deficiencies (e.g., severe malnutrition, significant weight loss, low birth weight status)
- Inborn errors of amino acid metabolism
- Gastrostomy status or artificial opening of GI tract

- Metabolic disorder
- Immunity disorder

Note: *Permanent impairment does not require a determination that there is no possibility that the client's condition may improve in the future. If medical documentation substantiates that the impairment can reasonably be expected to exceed 3 months (90 days), the test of permanence is considered met. This is consistent with Center for Medicare and Medicaid Services (CMS) guidelines.*

Important: *For a client to qualify for medical nutritional products, a primary diagnosis of failure to thrive, failure to gain weight, or lack of growth is insufficient. The underlying cause of failure to thrive, gain weight, and lack of growth is required.*

Prior authorization requests for any indications other than those listed above or in Section 26.6.2, "Benefits, Limitations, and Authorization Requirements" in this chapter must be reviewed by the CSHCN Services Program Medical Director or designee.

Prior authorization requests must be submitted on the [CSHCN Services Program Prior Authorization Request for Medical Nutritional Services Form](#). The request must include the following information:

- The name of the product
- The appropriate procedure code
- Indication that part or all nutritional intake is via tube (e.g., nasogastric, gastrostomy, or jejunostomy)
- Identification or explanation of the medical condition that requires a special nutritional product. Documentation must include:
 - The client's height and weight.
 - The client's growth history, growth charts, or both.
 - Why the client cannot be maintained on an age-appropriate diet.
- Total caloric intake prescribed by a physician

All medical nutritional products are subject to retrospective review and recoupment.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

26.5.3 Claims Information

In order to be considered for reimbursement, providers should not submit claims for procedure code B9998 with modifiers U1 - U5.

The quantity billed should always be the number of cans, not units or calories.

Medical nutritional services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The HCPCS/CPT codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [CMS NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI MUE guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

26.5.4 Reimbursement

Reimbursement for medical nutritional products is determined by using the lesser of the following:

- The billed amount
- The amount allowed by the CSHCN Services Program

Reimbursement for prescribed products that are included in the current edition of the *Drug Reference* is the listed AWP, less 10.5 percent

Rembursement for prescribed products that are not included in the current edition is the AWP that is supplied by the manufacturer of the product, less 10.5 percent

Reimbursement for miscellaneous procedure codes B9998 and T1999 is determined by prior authorization limitations, based on the average wholesale price (AWP) less 10.5 percent.

A prior authorization request for pure amino acids, including, but not limited to, glycine, L-arginine, and L-orthinine, will be considered using procedure code B9998.

Enteral formula is reimbursed on the number of "units" of a specific formula provided to a client. A "unit" is defined as 100 calories of formula. The supplier must submit claims for reimbursement with "units" per day that are prescribed for the client and not the number of cans or cases used.

In the case of enteral formulas, the HCPCS code assignments and reimbursement rates are based on the composition and source of ingredients in each individual formula, as well as the intended therapeutic benefit of the formula.

Enteral formulas are reimbursed using the appropriate covered HCPCS code, which must be submitted in order to be reimbursed.

All claims for medical nutritional products may be subject to retrospective review and recoupment.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

26.6 Total Parenteral Nutrition (TPN)

26.6.1 Enrollment

To enroll in the CSHCN Services Program, a provider of TPN must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state TPN providers must be located in the United States, within 50 miles of the Texas state border, and approved by DSHS.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

26.6.2 Benefits, Limitations, and Authorization Requirements

TPN is a benefit of the CSHCN Services Program and is reimbursed at a global fee. Services included in the global fee include, but are not limited to, the following:

- Parenteral solutions and additives, with the exception of lipids (procedure code B4185).
- Supplies and equipment, including refrigeration if necessary.
- Education of the client or caregiver regarding the administration of the TPN. Education must include the use and maintenance of supplies and required equipment.
- Visits by a registered nurse appropriately trained in the administration of TPN. The nurse must visit the client at least one time each month to monitor the client’s status and to provide ongoing education.
- Customary and routine laboratory work required to monitor the client’s status.
- No more than a one-week supply of solutions and additives may be reimbursed even if the solutions and additives are shipped and not used. Any days that the client is an inpatient in a hospital or other medical facility or institution must be subtracted from the daily billing. Payment for partial months is prorated based on actual days of administration.

Lipids solution (procedure code B4185) will be considered for separate reimbursement when billed for the same date of service as any other TPN procedure code (S9364, S9365, S9366, S9367, or S9368) with a valid prior authorization.

Providers can use the following procedure codes to request prior authorization and submit claims:

Procedure Codes							
B4185	B9004	B9006	S9364	S9365	S9366	S9367	S9368

Procedure codes B9004 and B9006 are a benefit of the CSHCN Services Program when the item is purchased new or rented monthly. Procedure codes B9004 and B9006 will no longer be a benefit of the CSHCN Services Program when purchased as used durable medical equipment (DME).

Procedure codes B9004 and B9006 are denied as included in another procedure when they are submitted for the same date of service as related procedure codes S9364, S9365, S9366, S9367 or S9368 by any provider.

When purchased as new, procedure code B9004 will be limited to one service every five rolling years, any provider.

Note: Procedure codes B9004 and B9006 when purchased new or rented monthly require prior authorization.

The procedure codes in the above table are a benefit only in the home setting when provided by a home health DME provider, medical supplier (DME), or a medical supply company.

If the rental of a parenteral nutrition infusion pump is expected to exceed a period of 6 months, purchase of the equipment will be considered with prior authorization.

A client whose eligibility expires will no longer receive benefits for prior authorized services. If the client renews eligibility, the provider must submit a new prior authorization request in order to receive reimbursement for the services.

TPN contains all the nutrients needed to sustain the client's life development. The administration of intravenous fluids and electrolytes alone is not TPN.

26.6.2.1 Prior Authorization

Prior authorization is required for all TPN services, including lipids solution.

Providers must complete the [CSHCN Services Program Authorization and Prior Authorization Request Form](#) for TPN authorization requests. Documentation must include the following items:

- Diagnosis
- Start date of TPN
- Estimated time TPN is needed
- Documentation to support medical necessity of TPN. If lipids are medically necessary, the prior authorization request must also include documentation supporting the need for procedure code B4185.

Prior authorization will be considered for clients with one of the following conditions.

- Anatomical, physiological, or motility disorder of the gastrointestinal tract.
- Prolonged bowel rest
- Gastrointestinal fistula
- Malignancies
- Inborn errors of amino acid metabolism
- Cystic Fibrosis
- Major trauma and burns
- Severe malnutrition, significant weight loss and/or hypoproteinaemia when enteral therapy is not possible
- Other disease states or conditions in which oral or enteral feeding are not an option

TPN may be approved up to a six-month duration.

Note: *Prior authorization requests for clients with conditions other than those listed will be forwarded to the CSHCN Services Program Medical Director or designee for consideration.*

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

26.6.3 Claims Information

TPN services must be submitted to TMHP in an approved electronic format or on a CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The HCPCS/CPT codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [CMS NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI MUE guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

26.6.4 Reimbursement

TPN services may be reimbursed a global daily rate based on the lower of the amount billed or the fee allowed by Texas Medicaid. TPN is payable only once per day, per client.

For fee information, providers can refer to the OFL on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

26.7 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

27.5	TMHP-CSHCN Services Program Contact Center	25

27.1 Enrollment

To enroll in the CSHCN Services Program, providers of neurostimulators and neuromuscular stimulator devices and supplies must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services program enrollment process, and comply with all applicable state laws and requirements. Out-of-state providers of neurostimulator and neuromuscular stimulator devices and supplies must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border, and approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

27.2 Benefits, Limitations, and Authorization Requirements

As outlined in this chapter, neurostimulator procedures and the rental or purchase of devices and associated supplies, such as leads and form fitting garments, are a benefit of the CSHCN Services Program.

All procedures and related devices for the initial application or surgical implantation of neurostimulators and neuromuscular stimulators require prior authorization with documentation that supports medical necessity with one of the approved diagnoses listed in this section.

Prior authorization requests for neurostimulator and neuromuscular stimulator procedures and related devices may be considered for clients without one of the approved diagnoses and with documentation of medical conditions which will be reviewed by the Department of State Health Services (DSHS)-CSHCN Services Program Medical Director or a designee.

Neurostimulator and neuromuscular stimulator supplies, including leads and electrodes, do not require prior authorization.

Neurostimulator and neuromuscular stimulator supplies may be considered for reimbursement on appeal with documentation of a prior neurostimulator or neuromuscular stimulator procedure for clients with a history greater than five years or for those who did not receive a neurostimulator procedure through the CSHCN Services Program.

The revision or removal of implantable neurostimulators or neuromuscular stimulators does not require prior authorization; however, if the neurostimulator or neuromuscular stimulator device must be replaced, the device itself requires prior authorization with documentation that supports medical necessity with one of the approved diagnoses.

Prior authorization requests, including supporting documentation, must be submitted on the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#).

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

27.2.1 Dorsal Column Neurostimulation (DCN)

DCN (procedure codes 61783, 63650, 63655, and 63685) involves the surgical implantation of neurostimulator electrodes within the dura mater or the percutaneous insertion of electrodes in the epidural space. The neurostimulation system stimulates pain-inhibiting nerve fibers, masking the sensation of pain with a tingling sensation (paresthesia).

DCN electrode implantation and the purchase of devices may be a benefit of the CSHCN Services Program when medically necessary for the treatment of chronic intractable pain. Permanent implantation will be considered when criteria are met, including completion of a one-month trial period demonstrating that an implantable device is needed.

Prior authorization for the implantation and purchase of DCN or ICN devices may be considered with one of the medical conditions listed in the table below:

Diagnosis Code	Description
G129	Spinal muscular atrophy, unspecified
G20	Parkinson’s disease
G250	Essential tremor
G251	Drug-induced tremor
G252	Other specified forms of tremor
G500	Trigeminal neuralgia
G501	Atypical facial pain
G5771	Causalgia of right lower limb
G5772	Causalgia of left lower limb
G5773	Causalgia of bilateral lower limbs
G5783	Other specified mononeuropathies of bilateral lower limbs
G5793	Unspecified mononeuropathy of bilateral lower limbs
G8921	Chronic pain due to trauma
G8928	Other chronic postprocedural pain
G8929	Other chronic pain
G893	Neoplasm related pain (acute) (chronic)
M4321	Fusion of spine, occipito-atlanto-axial region
M4322	Fusion of spine, cervical region
M4323	Fusion of spine, cervicothoracic region
M4324	Fusion of spine, thoracic region
M4325	Fusion of spine, thoracolumbar region

Diagnosis Code	Description
M4326	Fusion of spine, lumbar region
M4327	Fusion of spine, lumbosacral region
M4328	Fusion of spine, sacral and sacrococcygeal region
M438X9	Other specified deforming dorsopathies, site unspecified
M4800	Spinal stenosis, site unspecified
M4801	Spinal stenosis, occipito-atlanto-axial region
M4802	Spinal stenosis, cervical region
M4803	Spinal stenosis, cervicothoracic region
M4804	Spinal stenosis, thoracic region
M4805	Spinal stenosis, thoracolumbar region
M4806	Spinal stenosis, lumbar region
M4807	Spinal stenosis, lumbosacral region
M4808	Spinal stenosis, sacral and sacrococcygeal region
M50020	Cervical disc disorder with myelopathy, mid-cervical region, unspecified level
M50021	Cervical disc disorder at C4-C5 level with myelopathy
M50022	Cervical disc disorder at C5-C6 level with myelopathy
M50023	Cervical disc disorder at C6-C7 level with myelopathy
M50120	Mid-cervical disc disorder, unspecified
M50121	Cervical disc disorder at C4-C5 level with radiculopathy
M50122	Cervical disc disorder at C5-C6 level with radiculopathy
M50123	Cervical disc disorder at C6-C7 level with radiculopathy
M5020	Other cervical disc displacement, unspecified cervical region
M5021	Other cervical disc displacement, occipito-atlanto-axial region
M50220	Other cervical disc displacement, mid-cervical region, unspecified level
M50221	Other cervical disc displacement at C4-C5 level
M50222	Other cervical disc displacement at C5-C6 level
M50223	Other cervical disc displacement at C6-C7 level
M5023	Other cervical disc displacement, cervicothoracic region
M5410	Radiculopathy, site unspecified
M792	Neuralgia and neuritis, unspecified

S98912S	Complete traumatic amputation of left foot, level unspecified, sequela
S98921S	Partial traumatic amputation of right foot, level unspecified, sequela
T879	Unspecified complications of amputation stump

Prior authorization for the implantation and purchase of DCN or ICN devices may be considered with a condition indicating chronic pain that is refractory to conventional therapy. Covered diagnosis codes are listed in the above table.

Documentation submitted with the request for permanent implantation and purchase of the DCN device must also demonstrate that:

- Other treatment modalities, including pharmacological, surgical, physical, and/or psychological therapies, have been tried and were shown to be unsatisfactory, unsuitable, or contraindicated for the client.
- The client has undergone careful screening, evaluation, and diagnosis by a multidisciplinary team prior to implantation.
- The facilities, equipment, and professional and support personnel required for the proper diagnosis, treatment, training, and follow-up of the client are available.
- There has been demonstrated evidence of pain relief during a trial period of DCN with a temporarily implanted electrode or electrodes preceding the permanent implantation. The trial period must be a minimum of 30 days in duration.

Note: The trial period including device and supplies is considered part of DCN procedure and will not be separately reimbursed.

Providers may request prior authorization for clients who do not meet the criteria listed for DCN or ICN in the table above. The provider must submit documentation of medical necessity with the request which will be reviewed by the DSHS-CSHCN Services Program Medical Director or a designee.

Only one similar device code may be reimbursed per date of service for any provider. The following procedure codes may be reimbursed for the purchase of a DCN device:

Procedure Codes				
E0740	L8681	L8682	L8683	L8684
L8685	L8686	L8687	L8688	L8689

27.2.2 Intracranial Neurostimulation (ICN)

ICN involves the stereotactic implantation of electrodes in the brain.

The surgical implantation, revision, and removal of intracranial deep-brain stimulators (DBS) are a benefit for the relief of chronic intractable pain when more conservative methods, such as TENS, PENS, or pharmacological management, have failed or were contraindicated.

ICN is also covered for the treatment of intractable tremors due to idiopathic Parkinson’s disease or essential tremors.

Prior authorization for the implantation and purchase of DCN or ICN devices may be considered with one of the medical conditions listed in the table below:

Diagnosis Code	Description
G129	Spinal muscular atrophy, unspecified
G20	Parkinson’s disease
G250	Essential tremor
G251	Drug-induced tremor
G252	Other specified forms of tremor
G500	Trigeminal neuralgia
G501	Atypical facial pain
G5771	Causalgia of right lower limb
G5772	Causalgia of left lower limb
G5773	Causalgia of bilateral lower limbs
G5783	Other specified mononeuropathies of bilateral lower limbs

Diagnosis Code	Description
G5793	Unspecified mononeuropathy of bilateral lower limbs
G8921	Chronic pain due to trauma
G8928	Other chronic postprocedural pain
G8929	Other chronic pain
G893	Neoplasm related pain (acute) (chronic)
M4321	Fusion of spine, occipito-atlanto-axial region
M4322	Fusion of spine, cervical region
M4323	Fusion of spine, cervicothoracic region
M4324	Fusion of spine, thoracic region
M4325	Fusion of spine, thoracolumbar region
M4326	Fusion of spine, lumbar region
M4327	Fusion of spine, lumbosacral region
M4328	Fusion of spine, sacral and sacrococcygeal region
M438X9	Other specified deforming dorsopathies, site unspecified
M4800	Spinal stenosis, site unspecified
M4801	Spinal stenosis, occipito-atlanto-axial region
M4802	Spinal stenosis, cervical region
M4803	Spinal stenosis, cervicothoracic region
M4804	Spinal stenosis, thoracic region
M4805	Spinal stenosis, thoracolumbar region
M4806	Spinal stenosis, lumbar region
M4807	Spinal stenosis, lumbosacral region
M4808	Spinal stenosis, sacral and sacrococcygeal region
M50020	Cervical disc disorder with myelopathy, mid-cervical region, unspecified level
M50021	Cervical disc disorder at C4-C5 level with myelopathy
M50022	Cervical disc disorder at C5-C6 level with myelopathy
M50023	Cervical disc disorder at C6-C7 level with myelopathy
M50120	Mid-cervical disc disorder, unspecified
M50121	Cervical disc disorder at C4-C5 level with radiculopathy
M50122	Cervical disc disorder at C5-C6 level with radiculopathy
M50123	Cervical disc disorder at C6-C7 level with radiculopathy
M5020	Other cervical disc displacement, unspecified cervical region
M5021	Other cervical disc displacement, occipito-atlanto-axial region
M50220	Other cervical disc displacement, mid-cervical region, unspecified level
M50221	Other cervical disc displacement at C4-C5 level
M50222	Other cervical disc displacement at C5-C6 level
M50223	Other cervical disc displacement at C6-C7 level
M5023	Other cervical disc displacement, cervicothoracic region
M5410	Radiculopathy, site unspecified

Diagnosis Code	Description
M792	Neuralgia and neuritis, unspecified
S48011S	Complete traumatic amputation at right shoulder joint, sequela

S68615S	Complete traumatic transphalangeal amputation of left ring finger, sequela
S68616S	Complete traumatic transphalangeal amputation of right little finger, sequela
S68617S	Complete traumatic transphalangeal amputation of left little finger, sequela
S68621S	Partial traumatic transphalangeal amputation of left index finger, sequela
S68622S	Partial traumatic transphalangeal amputation of right middle finger, sequela
S68623S	Partial traumatic transphalangeal amputation of left middle finger, sequela
S68624S	Partial traumatic transphalangeal amputation of right ring finger, sequela
S68625S	Partial traumatic transphalangeal amputation of left ring finger, sequela
S68626S	Partial traumatic transphalangeal amputation of right little finger, sequela
S68627S	Partial traumatic transphalangeal amputation of left little finger, sequela
S68712S	Complete traumatic transmetacarpal amputation of left hand, sequela
S68721S	Partial traumatic transmetacarpal amputation of right hand, sequela
S68722S	Partial traumatic transmetacarpal amputation of left hand, sequela
S78011S	Complete traumatic amputation at right hip joint, sequela
S78012S	Complete traumatic amputation at left hip joint, sequela
S78021S	Partial traumatic amputation at right hip joint, sequela
S78022S	Partial traumatic amputation at left hip joint, sequela
S78111S	Complete traumatic amputation at level between right hip and knee, sequela

Diagnosis Code	Description
S78112S	Complete traumatic amputation at level between left hip and knee, sequela
S78121S	Partial traumatic amputation at level between right hip and knee, sequela
S78122S	Partial traumatic amputation at level between left hip and knee, sequela
S78911S	Complete traumatic amputation of right hip and thigh, level unspecified, sequela
S78912S	Complete traumatic amputation of left hip and thigh, level unspecified, sequela
S78921S	Partial traumatic amputation of right hip and thigh, level unspecified, sequela
S78922S	Partial traumatic amputation of left hip and thigh, level unspecified, sequela
S78929S	Partial traumatic amputation of unspecified hip and thigh, level unspecified, sequela
S88011S	Complete traumatic amputation at knee level, right lower leg, sequela
S88012S	Complete traumatic amputation at knee level, left lower leg, sequela
S88021S	Partial traumatic amputation at knee level, right lower leg, sequela
S88022S	Partial traumatic amputation at knee level, left lower leg, sequela
S88111S	Complete traumatic amputation at level between knee and ankle, right lower leg, sequela
S88112S	Complete traumatic amputation at level between knee and ankle, left lower leg, sequela
S88121S	Partial traumatic amputation at level between knee and ankle, right lower leg, sequela
S88122S	Partial traumatic amputation at level between knee and ankle, left lower leg, sequela
S88911S	Complete traumatic amputation of right lower leg, level unspecified, sequela
S88912S	Complete traumatic amputation of left lower leg, level unspecified, sequela
S88921S	Partial traumatic amputation of right lower leg, level unspecified, sequela
S88922S	Partial traumatic amputation of left lower leg, level unspecified, sequela
S98011S	Complete traumatic amputation of right foot at ankle level, sequela
S98012S	Complete traumatic amputation of left foot at ankle level, sequela
S98021S	Partial traumatic amputation of right foot at ankle level, sequela
S98022S	Partial traumatic amputation of left foot at ankle level, sequela
S98111S	Complete traumatic amputation of right great toe, sequela
S98112S	Complete traumatic amputation of left great toe, sequela
S98121S	Partial traumatic amputation of right great toe, sequela
S98122S	Partial traumatic amputation of left great toe, sequela
S98131S	Complete traumatic amputation of one right lesser toe, sequela
S98132S	Complete traumatic amputation of one left lesser toe, sequela
S98141S	Partial traumatic amputation of one right lesser toe, sequela
S98211S	Complete traumatic amputation of two or more right lesser toes, sequela
S98221S	Partial traumatic amputation of two or more right lesser toes, sequela
S98222S	Partial traumatic amputation of two or more left lesser toes, sequela
S98311S	Complete traumatic amputation of right midfoot, sequela
S98312S	Complete traumatic amputation of left midfoot, sequela
S98321S	Partial traumatic amputation of right midfoot, sequela
S98322S	Partial traumatic amputation of left midfoot, sequela

Diagnosis Code	Description
S98911S	Complete traumatic amputation of right foot, level unspecified, sequela
S98912S	Complete traumatic amputation of left foot, level unspecified, sequela
S98921S	Partial traumatic amputation of right foot, level unspecified, sequela
T879	Unspecified complications of amputation stump

ICN procedures may be reimbursed using the following procedure codes:

Procedure Codes				
61781	61782	61783	61850	61860
61863	61864	61867	61868	61870
61885	61886			

Only one similar device code may be reimbursed per date of service for any provider. The following procedure codes may be reimbursed for the purchase of an ICN device:

Procedure Codes				
E0740	L8681	L8682	L8683	L8684
L8685	L8686	L8687	L8688	L8689

27.2.3 Neuromuscular Electrical Stimulation (NMES)

NMES (procedure codes 64550 and 64580) is used for the treatment of muscle atrophy or to enhance the functional activity of neurologically impaired clients as described in Section 27.2.3.1, “NMES for Muscle Atrophy” in this chapter and Section 27.2.3.2, “NMES for Walking in Clients with Spinal Cord Injury” in this chapter.

NMES requires prior authorization. The prior authorization request form must include documentation of a spinal cord injury or disuse atrophy that is refractory to conventional therapy.

The following procedure codes may be reimbursed for the rental or purchase of an NMES device:

Procedure Codes				
E0720	E0730	E0731	E0745	E0762
E0764				

The purchase of an NMES device is limited to once every 5 years.

27.2.3.1 NMES for Muscle Atrophy

NMES may be reimbursed when used to treat muscle disuse atrophy when brain, spinal cord, and peripheral nerve supply to the muscle is intact, as well as other non-neurological reasons. Examples of NMES treatment for non-neurological reasons include, but are not limited to, casting or splinting of a limb, contracture due to scarring of soft tissue as in burn lesions, and hip replacement surgery until orthotic training begins.

27.2.3.2 NMES for Walking in Clients with Spinal Cord Injury

The type of NMES used to enhance an SCI client’s ability to walk is commonly referred to as functional electrical stimulation (FES). These devices are surface units that use electrical impulses to activate paralyzed or weak muscles in precise sequence. Reimbursement for NMES and FES is limited to SCI clients who have completed a training program consisting of at least 32 physical therapy sessions with the device over a period of 3 months.

The trial period of physical therapy will enable the physician treating the client for SCI to properly evaluate the client's ability to use NMES and FES devices frequently and for the long term.

Physical therapy necessary to perform this training must be directly performed by the physical therapist as part of a one-on-one training program.

Note: The goal of physical therapy must be to train SCI clients on the use of NMES and FES devices to achieve walking, not to reverse or retard muscle atrophy.

NMES and FES used for walking is a benefit for clients with SCI who have all of the following characteristics:

- Intact lower motor unit (L1 and below; both muscle and peripheral nerve)
- Muscle and joint stability for weight bearing at upper and lower extremities, and the balance and control necessary to maintain an upright support posture independently
- Demonstrated brisk muscle contraction with NMES and have sensory perception electrical stimulation sufficient for muscle contraction
- High motivation, commitment, and cognitive ability necessary to use such devices for walking
- Ability to transfer independently and demonstrated independent standing tolerance for at least 3 minutes
- Demonstrated hand and finger function to manipulate controls
- At least 6-month recovery post spinal cord injury and restorative surgery
- Hip and knee degenerative disease and no history of long bone fracture secondary to osteoporosis
- Demonstrated a willingness to use the device in the long term

NMES and FES used for walking is not a benefit for clients with any of the following conditions:

- Cardiac pacemakers
- Severe scoliosis or severe osteoporosis
- Skin disease or cancer at area of stimulation
- Irreversible contracture
- Autonomic dysflexia

27.2.4 Percutaneous Electrical Nerve Stimulation (PENS)

Implantation of PENS and electrodes is a benefit of the CSHCN Services Program. PENS (procedure codes 64553, 64555, and 64590) is a diagnostic service and may be covered for a 1-month trial to determine if an implantable device is needed. The medical necessity for such diagnostic services which are furnished beyond the first month must be documented, including the rationale for not considering an implantable device.

Because PENS is an office or outpatient therapy, the rental or purchase of the PENS devices, accessories, and supplies is not a benefit of the CSHCN Services Program.

Providers may request prior authorization for clients who do not meet the criteria listed for PENS in the table below. The provider must submit documentation of medical necessity with the request which will be reviewed by the DSHS-CSHCN Services Program Medical Director of a designee.

- Treatment with TENS must have failed or have been contraindicated for the client.

- The client must have a diagnosis indicating chronic pain that is refractory to conventional therapy. The covered diagnosis codes include the following:

Diagnosis Code	Description
G129	Spinal muscular atrophy, unspecified
G20	Parkinson's disease
G250	Essential tremor
G251	Drug-induced tremor
G252	Other specified forms of tremor
G500	Trigeminal neuralgia
G501	Atypical facial pain
G5771	Causalgia of right lower limb
G5772	Causalgia of left lower limb
G5773	Causalgia of bilateral lower limbs
G5783	Other specified mononeuropathies of bilateral lower limbs
G5793	Unspecified mononeuropathy of bilateral lower limbs
G8921	Chronic pain due to trauma
G8928	Other chronic postprocedural pain
G8929	Other chronic pain
G893	Neoplasm related pain (acute) (chronic)
M4321	Fusion of spine, occipito-atlanto-axial region
M4322	Fusion of spine, cervical region
M4323	Fusion of spine, cervicothoracic region
M4324	Fusion of spine, thoracic region
M4325	Fusion of spine, thoracolumbar region
M4326	Fusion of spine, lumbar region
M4327	Fusion of spine, lumbosacral region
M4328	Fusion of spine, sacral and sacrococcygeal region
M438X9	Other specified deforming dorsopathies, site unspecified
M4800	Spinal stenosis, site unspecified
M4801	Spinal stenosis, occipito-atlanto-axial region
M4802	Spinal stenosis, cervical region
M4803	Spinal stenosis, cervicothoracic region
M4804	Spinal stenosis, thoracic region
M4805	Spinal stenosis, thoracolumbar region
M4806	Spinal stenosis, lumbar region
M4807	Spinal stenosis, lumbosacral region
M4808	Spinal stenosis, sacral and sacrococcygeal region
M50020	Cervical disc disorder with myelopathy, mid-cervical region, unspecified level
M50021	Cervical disc disorder at C4-C5 level with myelopathy
M50022	Cervical disc disorder at C5-C6 level with myelopathy
M50023	Cervical disc disorder at C6-C7 level with myelopathy

Diagnosis Code	Description
M50120	Mid-cervical disc disorder, unspecified
M50121	Cervical disc disorder at C4-C5 level with radiculopathy
M50122	Cervical disc disorder at C5-C6 level with radiculopathy
M50123	Cervical disc disorder at C6-C7 level with radiculopathy
M5020	Other cervical disc displacement, unspecified cervical region
M5021	Other cervical disc displacement, occipito-atlanto-axial region
M50220	Other cervical disc displacement, mid-cervical region, unspecified level
M50221	Other cervical disc displacement at C4-C5 level
M50222	Other cervical disc displacement at C5-C6 level
M50223	Other cervical disc displacement at C6-C7 level
M5023	Other cervical disc displacement, cervicothoracic region
M5410	Radiculopathy, site unspecified

T879	Unspecified complications of amputation stump

All equipment and supplies for PENS are considered part of the service and are not reimbursed separately.

27.2.5 Sacral Nerve Stimulation (SNS)

SNS (procedure codes 64561, 64581, and 64590) is a benefit of the CSHCN Services Program. Prior authorization for the implantation and purchase of SNS devices may be considered with one of the following medical conditions:

- Urinary incontinence secondary to urethral instability and/or detrusor muscle instability
- Chronic voiding dysfunction
- Non-obstructive urinary retention
- Fecal Incontinence

The client's medical record must include documentation of the following:

- The urinary retention, urinary frequency, and urinary/fecal incontinence are refractory to conventional therapy (documented behavioral, pharmacological, or surgical corrective therapy).
- The client is an appropriate surgical candidate such that implantation with anesthesia can occur.

Providers may request prior authorization for clients who do not meet the criteria listed above. The provider must submit documentation of medical necessity with the request that will be reviewed by the DSHS-CSHCN Services Program Medical Director or designee.

Only one similar device code may be reimbursed per date of service for any provider. The following procedure codes may be reimbursed for the purchase of an SNS device:

Procedure Codes				
L8681	L8682	L8683	L8684	L8685
L8686	L8687	L8688	L8689	

27.2.6 Transcutaneous Electrical Nerve Stimulation (TENS)

TENS (procedure codes 64550 and 64580) is a benefit of the CSHCN Services Program. Rental of the TENS device, accessories, and supplies is a benefit for the treatment of acute postoperative pain or to determine if TENS will benefit a client with chronic pain.

The following procedure codes may be reimbursed for the rental or purchase of a TENS device:

Procedure Codes				
E0720	E0730	E0731	E0745	E0762
E0764				

Once it has been determined that TENS should be continued for chronic pain and the client has been trained to use the stimulator, the CSHCN Services Program will no longer reimburse TENS therapy as an outpatient or office service.

27.2.6.1 TENS Rental

The rental of a TENS device may be considered for prior authorization with documentation of a condition that indicates acute postoperative pain or chronic pain that is refractory to conventional therapy.

The rental of a TENS may be considered before purchase and is limited to a trial period of 1 month. One additional month's rental of the TENS device may be considered with documentation of medical necessity. Supplies, such as lead wires and electrodes, are considered to be part of the rental and will not be reimbursed separately. Garments may be reimbursed during the rental period when medically necessary.

Rental reimbursement may not exceed the purchase price. Purchase is justified when the estimated duration of need multiplied by the rental rate exceeds the purchase price of the equipment.

27.2.6.2 TENS Purchase

The purchase of a TENS device, accessories, and supplies may be considered only after a 1-month trial period. In addition, the purchase of a TENS device will be considered for prior authorization with documentation of all of the following:

- Acute postoperative pain or chronic pain that is refractory to conventional therapy
- Successful test stimulation (during the rental or other therapeutic period) that shows improvement as measured by a demonstrated increase in range of motion
- Improved ability to complete activities of daily living or perform activities outside the home

The purchase of a TENS device is limited to once every 5 years.

27.2.7 Pelvic Floor Stimulation

Prior authorization is not required for the purchase of a pelvic floor stimulator (procedure code E0740) when the criteria listed below are met:

- Has a diagnosis of stress or urge incontinence.
- Has completed a six-month trial of conservative treatment with no significant clinical improvement, such as Kegel exercises, behavior management, bladder training or medication.

Providers may request prior authorization for clients who do not meet the criteria listed above. The provider must submit documentation of medical necessity with the request, which will be reviewed by the DSHS-CSHCN Services Program Medical Director or a designee.

27.2.8 Vagal Nerve Stimulation (VNS)

The implantation, revision, programming, and removal of the VNS device are a benefit of the CSHCN Services Program for clients with medically intractable seizures who are not candidates for surgical intervention. VNS (procedure codes 61885, 61886, 64553, 64568, 64569, and 64570) may be reimbursed only when the diagnosis reflects medically refractory partial-onset seizures.

Prior authorization is required for the implantation and purchase of VNS devices. Prior authorization for the implantation and purchase of VNS devices may be considered for clients with partial onset intractable seizures when there is failure, contraindication or intolerance to all suitable medical and pharmacological management.

VNS is not a benefit in the following cases:

- Treatment of clients with an absent left vagus nerve
- Treatment of clients with depression
- Treatment of clients with a progressively terminal illness or a medical disease that imparts a poor diagnosis

Prior Authorization is not required for procedure codes 64569 and 64570.

Incapacities that are due to intellectual disabilities (ID) or cerebral palsy may confound the assessment of benefits resulting from VNS. When a diagnosis of ID or cerebral palsy exists, the treating physician must document in the medical record how VNS will measurably benefit the client in spite of ID or cerebral palsy.

Providers may request prior authorization for clients who do not meet the criteria listed above. The provider must submit documentation of medical necessity with the request that will be reviewed by the DSHS-CSHCN Services Program Medical Director or designee.

Only one similar device code may be reimbursed per date of service for any provider. The following procedure codes may be reimbursed for the purchase of a VNS device:

Procedure Codes				
E0740	L8681	L8682	L8683	L8684
L8685	L8686	L8687	L8688	L8689

27.2.9 Electronic Analysis for Implantable Neurostimulators

The following procedure codes may be reimbursed for the electronic analysis of the implanted neurostimulator:

Procedure Codes				
95970	95971	95972	95974	95975
95978	95979			

27.2.10 Revision or Removal of Implantable Neurostimulators

The revision or removal of implantable neurostimulators (DCN, ICN, SNS, or VNS) may be reimbursed as a surgery or assistant surgery using the following procedure codes:

Device	Procedure Codes
DCN	61783, 63661, 63662, 63663, 63664, or 63688
ICN	61781, 61782, 61880 or 61888*
SNS	64585 or 64595
*Not a benefit for assistant surgery.	

Device	Procedure Codes
VNS	61888*, 64569 or 64570
*Not a benefit for assistant surgery.	

Ambulatory surgical centers may be reimbursed using the procedure codes listed in the table above, except for procedure codes 61781, 61782, and 61783. These procedure codes are not a benefit for ambulatory surgical centers.

Supplies for the implantable devices listed in this policy may be reimbursed for clients with a purchased device and a claims history of a prior neurostimulator or neuromuscular stimulator implantation within the last 5 years.

Note: *Providers must maintain documentation in the client’s medical record that a device has been purchased. Additional documentation such as the purchase date, serial number, and purchasing entity of the initial device may be required.*

Supplies for implantable devices as listed in this policy may be considered for reimbursement on appeal with documentation of a prior neurostimulator or neuromuscular stimulator implantation procedure for clients with a history greater than 5 years or for those who did not receive a neurostimulator procedure through CSHCN Services Program.

The revision or removal of a peripheral neurostimulator used in PENS therapy may be reimbursed using procedure code 64595.

27.2.11 Implantable Neurstimulators and Neuromuscular Stimulators

Implantable neurostimulator services may be reimbursed using procedure code 64575. Implantable supply (procedure codes A4290, L8680, and L8696) will be denied if they are not submitted for clients with a purchased device and a claims history within 5 years of related procedure code 64575 by any provider.

One of the following implantable neurostimulator device procedure codes must be billed on the same date of service as related procedure code 64575 by any provider.

Procedure Codes					
L8681	L8682	L8633	L8684	L8685	L8686
L8687	L8688	L8689			

Neurostimulator supplies, including leads and electrodes, may be benefits for clients with a purchased device and a claims history of a prior neurostimulator or neuromuscular stimulator procedure within the last five years.

Providers must maintain documentation in the client’s medical record that a device has been purchased. Additional documentation such as the purchase date, serial number, and purchasing entity of the initial device may be required.

27.2.11.1 NMES and TENS Garments

The prior authorization request form for the purchase of the NMES and TENS conductive garments must include supporting documentation that shows:

- The garment has been prescribed by a physician for use in delivering covered NMES and TENS treatment.
- The client has successfully completed a 1-month trial period.
- The conductive garment is necessary for one of the medical indications outlined below:

- The client cannot manage without the conductive garment because there is such a large area or so many sites to be stimulated and the stimulation would have to be delivered so frequently that it is not feasible to use conventional electrodes, adhesive tapes, and lead wires.
- The client cannot manage without the conductive garment for the treatment of chronic intractable pain because the areas or sites to be stimulated are inaccessible with the use of conventional electrodes, adhesive tapes, and lead wires.
- The client has a documented medical condition, such as a skin problem, that precludes the application of conventional electrodes, adhesive tapes, and lead wires.

The rental of the NMES and TENS garment is not a benefit during the trial rental period unless the client has a documented skin problem prior to the start of the trial period; and DSHS or its designee is satisfied that the use of such an item is medically necessary for the client.

27.2.11.2 NMES and TENS Supplies

NMES and TENS supplies may be reimbursed with procedure code A4556, A4557, or A4595.

Supplies for purchased devices are limited as follows:

- If additional electrodes are required, procedure code A4556 may be reimbursed at a maximum of 15 per month.
- If additional lead wires are required, procedure code A4557 may be reimbursed at a maximum of two per month.
- Procedure code A4595 is limited to one per month.

The physician or physical therapist providing the services may furnish the equipment necessary for assessment. When the physician or physical therapist advises the client to rent the TENS from a supplier during the trial period rather than supplying it, program payment may be made for the rental of the TENS as well as for the services of the physician or physical therapist who is evaluating its use. However, the combined program payment made for the physician's or physical therapist's services and rental of the stimulator from a supplier should not exceed the amount which would be a benefit for the total service, including the stimulator, furnished by the physician or physical therapist alone.

27.3 Claims Information

To avoid claim denials, providers billing as a group must use the performing provider identifier number on their claims.

Neurostimulator devices and supplies must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

All claims and authorization requests submitted by CSHCN Services Program home health durable medical equipment (DME) providers must be submitted with benefit code DM3.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

27.4 Reimbursement

Physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

Inpatient hospitals may be reimbursed at 80 percent of the All Patient Refined Diagnosis Related Groups (APR-DRG) payment for all CSHCN services.

Outpatient hospital services are reimbursed at 72 percent of the billed amount multiplied by the hospital's Medicaid interim rate.

DME suppliers may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

Advanced practice registered nurses (APRNs) and physician assistants (PAs) may be reimbursed the lower of the billed amount or 92 percent of the amount allowed by Texas Medicaid for the same service performed by a physician.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

27.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

28.1 Enrollment

To enroll in the CSHCN Services Program, an orthotics and prosthetics provider must be actively enrolled in Texas Medicaid as a durable medical equipment (DME) provider or as a licensed prosthetist and/or orthotist, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process by enrolling as an individual or as a group of performing providers, and comply with all applicable state laws and requirements. The CSHCN Services Program does not enroll orthotists and prosthetists as facilities. Out-of-state orthotics and prosthetics providers must meet all of these conditions, and be located in the United States, within 50 miles of the Texas state border, and approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

28.2 Benefits, Limitations, and Authorization Requirements

Orthoses, prostheses, and prescription shoes may be a benefit of the CSHCN Services Program. These benefits are solely for external orthoses and prostheses. Items must be prescribed by a licensed physician or podiatrist (for conditions below the ankle) and fitted by an orthotist or prosthetist enrolled in the CSHCN Services Program, even if the device is supplied by another enrolled provider type. Noncustom commercial products may be supplied through a physician’s office. Licensed occupational therapists may provide upper extremity splints and inhibitive casting, and licensed physical therapists may provide lower extremity inhibitive casts.

Training in the use of an orthotic or prosthetic device for a client who has not worn one previously, has not worn one for a prolonged time period, or is receiving a different type may be reimbursed when provided by a licensed PT or OT. Therapy for the purpose of training a client in the use of an orthotic or prosthetic device will be approved for up to five times a week for 1 month; then three times a week for 2 months. Additional request forms require documentation of medical necessity.

28.2.1 General Authorization Requirements

All orthoses and prostheses procedures addressed in this chapter require prior authorization. Requests for prior authorization must be in writing on a completed [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#) with all procedure codes included. Documentation that supports the medical necessity of the requested item must be included with the prior authorization request.

Modifications of orthotic and prosthetic systems, due to growth or a change in medical status, may be prior authorized. Repairs required due to normal wear may be prior authorized. Additional information may be requested to determine if repairs and modifications are cost-effective.

28.2.2 Orthoses and Prostheses (Not All-Inclusive)

The following listed conditions are a guide. Additional documentation of medical necessity must be provided if orthoses, prostheses (artificial limbs), or other orthopedic devices are requested for an unlisted condition:

Orthoses	Applicable Condition
Helmet	Neoplasms of the brain, subarachnoid hemorrhage, subdural hemorrhage, hemophilia, epilepsy, cerebral palsy
Spinal orthosis, collar, corset, body jacket (thoracic-lumbar-sacral orthoses [TLSO], lumbar-sacral orthoses [LSO], cervical thoracic-lumbar-sacral orthoses [CTLSO])	Scoliosis, spinal injuries, paraplegia, kyphosis, neurofibromatosis, cerebral palsy, spina bifida, spinal tumor
Hip orthosis (HO), Pavlik harness, Ilfeld, Craig	Dislocated hip, cerebral palsy, spina bifida, congenital deformities of hip
Thoracic-hip-knee-ankle orthosis (THKAO), parapodium (standing frame), swivel walker	Spina bifida, spinal injuries, spinal tumor, cerebral palsy, paraplegia
Hip-knee-ankle-foot orthosis (HKAFO), knee-ankle-foot orthosis (KAFO) (also known as a long leg brace), knee orthosis (KO), knee immobilizer	Spina bifida, cerebral palsy, paraplegia, late effects of CVA, spinal cord lesions, arthrogryposis, club foot, varus deformities of feet, genu varus and genu valgus if due to growth deformity, arthropathy associated with hematological disorders related to lower extremity conditions
Ankle foot orthosis (AFO)	Foot anomalies, cerebral palsy, hemiplegia, spina bifida, club foot, arthrogryposis, arthropathy associated with extremity conditions
Inhibitive casting	Cerebral palsy, increased muscle tone related to central nervous system lesions/disorders
Foot orthosis, Dennis Brown splint, counter-rotation system	Foot anomalies, tibial torsion, club foot, varus deformities of feet, cerebral palsy, spina bifida arthrogryposis, arthritic conditions (medical justification needed for valgus deformities of the feet)
Upper extremity orthosis, shoulder orthosis (SO), elbow orthosis (EO), wrist-hand-finger orthosis (WHFO), mobile arm support (MAS: shoulder-elbow-wrist-hand orthoses [SEWHO])	Cerebral palsy, spinal cord injury, brachial plexus lesions, nerve lesions, paralysis, juvenile rheumatoid arthritis, reduction of deformities
Static or Dynamic Mechanical Stretching Device	Cerebral palsy, increased muscle tone related to central nervous system lesions/disorders
University of California–Berkeley (UCB) shoe	Valgus deformity and significant congenital pes planus with pain, a structural problem that results in significant pes planus, acute plantar fasciitis, or a diagnosis of hemophilia

Orthoses	Applicable Condition
Reciprocating gait orthosis (RGO)	Spina bifida or similar functional disabilities
Partial foot, ankle, below knee, above knee, hip disarticulation, hemipelvectomy, immediate postsurgical	Congenital absence, surgical revision, or traumatic amputation of lower extremity or hip
Partial hand, wrist disarticulation, below elbow, above elbow, elbow disarticulation	Congenital absence, surgical revision, or traumatic amputation of upper extremity or shoulder
Myoelectric prostheses (powered limbs)	Congenital absence of limb, traumatic amputation limb, bilateral shoulder disarticulation

28.2.2.1 Repairs, Replacements, and Modifications to Orthoses and Prostheses

Repairs, replacements, and modifications to orthoses and prostheses are a benefit of the CSHCN Services Program when medically necessary criteria are met.

Repairs due to normal wear and modifications due to growth or change in medical status will be considered for prior authorization when the repair or modification is more cost-effective than the replacement of the device.

- Additional information from the provider may be requested to determine cost-effectiveness.
- Documentation supporting medical necessity must be provided when requesting prior authorization.

Replacement of orthotic or prosthetic devices will be considered for prior authorization with medical justification.

- Orthotic devices are anticipated to last a minimum of 6 months from the receipt of the initial system.
- Prosthetic devices are anticipated to last a minimum of one year from the receipt of the initial definitive/permanent system.
- Preparatory or temporary prostheses may be replaced in less than 12 months of their receipt, but they will undergo medical review if the permanent prosthesis is requested less than 6 months after provision of the preparatory or temporary prosthesis.
- Replacement of an orthosis or prosthesis will be considered when loss or irreparable damage has occurred due to a traumatic event such as a vehicle accident, a residential fire, or theft. A copy of the police or fire report is required when appropriate, along with the measures to be taken to prevent a repeat of similar loss.

Socket replacements will be considered for prior authorization with documentation of functional or physiological need, including, but not limited to, changes in the residual limb, functional need changes, or irreparable damage or wear due to excessive weight or prosthetic demands of very active amputees.

28.2.2.2 Mechanical Stretching Devices

Mechanical stretching devices are a benefit of the CSHCN Services Program. Mechanical stretching devices are not motorized and may be prefabricated or custom fabricated. The following are Classifications of Stretching Devices:

- Dynamic low-load prolonged-duration stretch (LLPS) devices
- Static progressive stretch (SPS) device
- Patient-actuated serial stretch (PASS) device

28.2.2.3 Orthoses and Prostheses Training

Training in the use of an orthosis or prosthesis for a client who has not worn one previously, has not worn one for a prolonged time period, or is receiving a different type is a benefit when the training is provided by a licensed physical or occupational therapist.

Therapy for the purpose of training a client in the use of an orthosis or prosthesis may be approved for up to 5 times per week for 1 month; then 3 times per week for 2 months. Additional requests will require medical review.

RGO and dynamic splints require medical review at the onset of training therapy.

28.3 Orthoses and Related Services

All requests for prior authorization must include documentation of medical necessity including documentation that the client meets one of the following general indications for the requested device:

- Reducing pain by restricting mobility of the affected body part
- Facilitating healing following injury or surgery to the affected body part
- Supporting weak muscles or a deformity of the affected body part

The provider must maintain written documentation in the client's medical record including the prescription for the device and accurate diagnostic information supporting the medical necessity for the requested device.

28.3.1 Prior Authorization and Documentation Requirements

Prior authorization is required for all orthoses and related services. All requests for prior authorization must include documentation of medical necessity including, but not limited to, documentation that the client meets all of the following general indications for the requested device.

Orthoses will be considered for prior authorization with documentation that the device is needed for one of the following indications:

- To reduce pain by restricting mobility of the affected body part.
- To facilitate healing following an injury to the affected body part or related soft tissue.
- To facilitate healing following a surgical procedure on the affected body part or related soft tissue.
- To support weak muscles and/or a deformity of the affected body part.

The provider must maintain the following written documentation in the client's medical record:

- The prescription for the device.
- Orthotic and devices must be prescribed by a physician (M.D., D.O.) or a podiatrist. A podiatrist prescription is valid for conditions of the ankle and foot.
- Accurate diagnostic information supporting the medical necessity for the requested device.
- The prior authorization is valid for a maximum period of six months from the prescription signature date. At the end of the six-month authorization period, a new prescription is required for prior authorization of additional services.
- Other orthopedic devices will be considered for prior authorization with documentation of medical necessity as outlined for the specific orthotic device.

28.3.2 Orthotic and Orthopedic Devices Procedure Codes

The following orthoses procedure codes may be reimbursed in the home setting to an orthotist, prosthetist, medical supplier (DME), and custom DME provider:

Orthoses Procedure Codes				
Protective Helmets				
A8000	A8001	A8002	A8003	A8004
Static and Dynamic Devices (Purchased and Rental)				
E1800	E1801	E1802	E1805	E1806

28.3.3 Noncovered Orthotic and Prosthetic Services

The following services are not a benefit of the CSHCN Services Program:

- Replacement or repair of an orthotic or prosthetic device due to confirmed misuse or abuse by the client, the client’s family, or the vendor

- Orthoses primarily used for athletic or recreational purposes

28.3.4 Spinal Orthoses

Spinal orthoses include, but are not limited to, cervical orthoses, thoracic rib belts, thoracic-lumbar-sacral orthoses (TLSO), sacroiliac orthoses, lumbar orthoses, lumbar-sacral orthoses (LSO), cervical-thoracic-lumbar-sacral orthoses (CTLSO), halo procedures, spinal corset orthoses, and spinal orthoses for scoliosis.

Spinal orthoses will be considered for prior authorization with documentation of one of the general indications in Section 28.3.1, “Prior Authorization and Documentation Requirements” in this chapter.

28.3.5 Thoracic-Hip-Knee-Ankle (THKA) Orthoses

THKA orthoses will be considered for prior authorization with documentation of one of the general indications outlined in Section 28.3.1, “Prior Authorization and Documentation Requirements” in this chapter.

28.3.6 Lower-Limb Orthoses

Lower-limb orthoses include, but are not limited to, hip orthoses (HO), Legg Perthes orthoses, knee orthoses (KO), ankle-foot orthoses (AFO), knee-ankle-foot orthoses (KAFO), hip-knee-ankle-foot orthoses (HKAFO), fracture orthoses, and reciprocating gait orthoses (RGO).

In addition to the general indication requirements, lower-limb orthoses will be considered for prior authorization with documentation of the following criteria for specific orthotic devices.

28.3.6.1 Ankle-Foot Orthoses (AFO)

AFOs used during ambulation will be considered for prior authorization for clients with documentation of all of the following:

- Weakness or deformity of the foot and ankle
- A need for stabilization for medical reasons
- Anticipated improvement in functioning during activities of daily living (ADLs) with use of the device

AFOs not used during ambulation (static AFO) will be considered for prior authorization for clients with documentation of one of the following conditions:

- Plantar fasciitis
- Plantar flexion contracture of the ankle, with additional documentation that includes all of the following:
 - Dorsiflexion on pretreatment passive range of motion testing is at least ten degrees.
 - The contracture is interfering or is expected to interfere significantly with the client’s functioning during ADLs.
 - The AFO will be used as a component of a physician-prescribed therapy plan care, which includes active stretching of the involved muscles or tendons.
 - There is reasonable expectation that the AFO will correct the contracture.

28.3.6.2 Reciprocating Gait Orthoses (RGO)

Reciprocating gait orthoses will be considered for prior authorization for clients with spina bifida or similar functional disabilities.

The prior authorization request must include a statement from the prescribing physician that indicates medical necessity for the RGO, the physical therapy treatment plan, and documentation that the client or family is willing to comply with the treatment plan.

28.3.7 Foot Orthoses

Foot orthoses include, but are not limited to, foot inserts, orthopedic shoes, wedges, and lifts.

Foot orthoses will be considered for prior authorization for clients with documentation of all the following:

- The client has symptoms associated with the particular foot condition.
- The client has failed to respond to a course of appropriate, conservative treatment, including physical therapy, injections, strapping, or anti-inflammatory medications.
- The client has at least one of the following:
 - Torsional conditions, such as metatarsus adductus, tibial torsion, or femoral torsion
 - Structural deformities
 - Hallux valgus deformities
 - In-toe or out-toe gait
 - Musculoskeletal weakness

In addition to the general indication requirements, foot orthoses will be considered for prior authorization with documentation of the following criteria for specific orthotic devices.

28.3.7.1 Foot Inserts

Removable foot inserts will be considered for prior authorization for clients with documentation of at least one of the following medical conditions:

- Diabetes mellitus
- History of amputation of the opposite foot or part of either foot
- History of foot ulceration or pre-ulcerative calluses of either foot
- Peripheral neuropathy with evidence of callus formation of either foot
- Deformity of either foot
- Poor circulation of either foot

The CSHCN Services Program may authorize removable foot inserts independently of orthopedic shoes with documentation that the client has appropriate footwear into which the insert can be placed.

A University of California–Berkeley (UCB) removable foot insert will be considered for prior authorization with documentation that the device is required to correct or treat at least one of the following conditions:

- A valgus deformity and significant congenital pes planus, which is symptomatic for pain
- A structural problem which results in significant pes planus
- Acute plantar fasciitis
- A diagnosis of hemophilia

Authorization requests for removable shoe insert must be submitted on the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#).

Referto: Section 4.2, “Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about authorization requirements.

28.3.7.2 Prescription Shoes

Prescription shoes (corrective or orthopedic shoes) must be prescribed by a licensed physician (M.D. or D.O.) or a podiatrist. An orthopedic shoe is used by clients whose feet, although impaired, are essentially intact. An orthopedic shoe differs from a prosthetic shoe, which is used by clients who are missing all or most of the forefoot.

Orthopedic shoes will be considered for prior authorization when at least one of the following criteria is met:

- The shoe is permanently attached to a brace.
- The shoe is custom modified by an orthotist or prosthetist/orthotist at the direction of the prescribing physician.
- The shoe is necessary to hold a surgical correction, postoperative casting, or serial or clubfoot.
- Casting (does not have to be attached to a brace). A prescription shoe may be prior authorized up to one year from the date of the surgical procedure.
- Documented by a physician as to specific medical rationale. Lifts for unequal leg length greater than one-half inch will be covered with documentation of medical need; the prescription shoe itself and the lift may be reimbursable.

Only one pair of prescription shoes will be prior authorized every three months. Two pairs of shoes may be purchased at the same time; in such situations, however, additional requests for shoes will not be considered for coverage for another six months.

If the primary diagnosis is valgus deformities of the feet, medical justification is required.

28.3.7.3 Noncovered Shoes or Shoe Inserts

The following are not considered a prescription shoe:

- A tennis shoe, even if prescribed by a physician and worn with a removable brace.
- A shoe insert when it is not a part of a modified shoe or when the shoe in which it is inserted is not attached to a brace (other than University of California–Berkeley-type, Healthcare Common Procedure Coding System [HCPCS] procedure code L3000).

28.3.7.4 Wedges and Lifts

Wedges and lifts must be prescribed by a licensed physician (M.D. or D.O.) or a podiatrist and must be for treatment of unequal leg length greater than one-half inch.

Prior authorization is required with justification of medical necessity for wedges and lifts.

28.3.8 Upper-Limb Orthoses

Upper-limb orthoses include, but are not limited to, shoulder orthoses (SO), elbow orthoses (EO), elbow-wrist-hand orthoses (EWHO), elbow-wrist-hand-finger orthoses (EWHFO), wrist-hand-finger orthoses (WHFO), wrist-hand orthoses (WHO), hand-finger orthoses (HFO), finger orthoses (FO), shoulder-elbow-wrist-hand orthoses (SEWHO), shoulder-elbow orthoses (SEO), and fracture orthoses.

In addition to the general indication requirements, upper-limb orthoses will be considered for prior authorization with documentation of one of the general indications outlined in Section 28.3.1, “Prior Authorization and Documentation Requirements” in this chapter.

28.3.9 Other Orthopedic Devices

28.3.9.1 Protective Helmets

Protective helmets used for conditions such as neoplasm of the brain, subarachnoid subdural hemorrhage, epilepsy, or cerebral palsy may be reimbursed by the CSHCN Services Program with prior authorization using the following procedure codes:

Procedure Codes				
A8000	A8001	A8002	A8003	A8004

Protective helmets will be considered for prior authorization for clients with a documented medical condition that makes the client susceptible to injury during ADLs. Covered medical conditions include the following:

- Neoplasm of the brain
- Subarachnoid hemorrhage
- Epilepsy
- Cerebral palsy

Requests for all conditions other than those listed above require submission of additional documentation that supports the medical necessity of the requested device.

28.3.9.2 Cranial Molding Orthosis

The CSHCN Services Program may cover cranial molding orthosis (procedure code S1040) for positional plagiocephaly with documentation supporting the use of the cranial molding orthosis to modify or prevent an associated functional impairment. Cranial molding orthosis may only be approved for children who are 3 through 18 months of age.

The CSHCN Services Program may cover cranial molding orthosis for use after surgery for cranial deformities, including craniosynostosis.

Studies indicate repositioning and physical therapy can be effective treatment for positional plagiocephaly. If detected early, repositioning combined with prone positioning while awake can correct the condition in the majority of children. For infants with a diagnosis of positional plagiocephaly who do not meet the criteria described in this chapter, the use of a cranial molding orthosis is considered cosmetic and, therefore, not medically necessary.

The effective use of cranial molding orthosis for the treatment of brachycephaly or a high cephalic index without cranial asymmetry has not been clearly documented, is not medically necessary, and, therefore, is not a benefit of the CSHCN Services Program.

28.3.9.2.1 Definitions of Plagiocephaly

Plagiocephaly is defined as an asymmetric skull deformity that is generally characterized by occipital flattening giving the head an oblique configuration.

Synostotic plagiocephaly occurs when there is a premature union of cranial sutures (coronal or lamboid). This pathological condition generally requires surgical intervention, with or without postoperative use of a cranial orthosis.

Positional plagiocephaly results from external pressure (molding) that causes the cranium, in which the premature union of the cranial sutures (coronal or lamboid) has not occurred, to become asymmetrical.

28.3.9.2.2 Authorization Requirements

Prior authorization is required for cranial molding orthosis which will be reviewed by the CSHCN medical director or designee.

Cranial molding orthosis may be considered for prior authorization when they are part of a treatment plan for shaping the skull in cases of post-operative synostotic plagiocephaly or positional plagiocephaly with an associated functional impairment. Documentation that the use of the cranial molding orthosis will modify or prevent the development of such impairment is required.

Documentation supporting medical necessity must include all of the following:

- Plan of treatment and/or follow up schedule
- The assessment and recommendations of the appropriate primary care physician, pediatric subspecialist, craniofacial team, or pediatric neurosurgeon
- A full description of the physical findings, precise diagnosis, age of onset and the etiology of the deformity
- Reports of any radiological procedures used in making the diagnosis
- Client is at least 3 months of age, but not greater than 18 months of age
- Anthropometric measurements documenting greater than 10 mm of cranial asymmetry

The written documentation of medical necessity must also include that aggressive repositioning interventions was attempted, with or without physical therapy, of at least three months' duration without improvement in cranial asymmetry. The attempted aggressive repositioning interventions may include, but is not limited to:

- Repositioning the client's head to the opposite side of the preferred position when the infant is either lying down, reclined, or sitting.
- Gently turning and stretching the client's neck at each diaper change.
- Repositioning the client's bed, thus encouraging the infant to look away from the flattened side to view other objects of interest.
- The trial of repositioning intervention has failed to improve the deformity and is judged to be unlikely to do so.

Repositioning may not be indicated for children who are over 6 months of age. Repositioning therapy for this age group may be waived with documentation of medical necessity.

Requests for clients with a comorbid diagnosis that prohibits repositioning will be evaluated on an individual basis.

Prior authorization requests for subsequent cranial molding orthosis must include documentation of medical necessity including new measurements.

Muscular torticollis (wry neck) characterized by tight or shortened neck muscles that result in a head tilt or turn, is often associated with the secondary development of positional plagiocephaly. Therefore, clients with muscular torticollis and positional plagiocephaly must have documentation of early, aggressive treatment (stretching, positioning and/or physiotherapy) prior to consideration of prior authorization for cranial orthosis.

28.3.9.3 Static and Dynamic Mechanical Stretching Devices

Static and dynamic mechanical stretching devices will be considered for prior authorization for a 3-month trial period when the request is submitted with the following documentation supporting medical necessity:

- Client's condition
- Client's current course of therapy
- Rationale for the use of the static or dynamic mechanical stretching device

- Agreement by the client or family that the client will comply with the prescribed use of the static or dynamic mechanical stretching device

Requests for purchase of the device must include documentation of successful completion of the 3-month trial period, with improvement in the client’s condition as measured by one of the following:

- Demonstrated increase in range of motion
- Demonstrated improvement in the ability to complete ADLs or perform activities outside the home

Note: *If the cost of the rental is expected to exceed the purchase price, purchase of the device should be considered.*

Authorization requests for static or dynamic mechanical stretching devices must be submitted on the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#).

Referto: Section 4.2, “Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about authorization requirements.

28.4 Prostheses and Related Services

28.4.1 Prior Authorization and Documentation Requirements

Prior authorization is required for all prostheses and related services. All requests for prior authorization must include a valid prescription for the prosthetic device that is prescribed by a physician (M.D., D.O.).

Note: *The prescription must be maintained in the client’s medical record, and is valid for a maximum period of 6 months. At the end of the 6-month prescription period, additional prior authorization is required for any repairs, replacements, or related services.*

Documentation of medical necessity must include, but is not limited to, documentation that the client meets the following general indications for the device:

- The prosthesis replaces all or part of the function of a permanently inoperative, absent, or malfunctioning part of the limb.
- The prosthesis is required for activities of daily living and/or for rehabilitation purposes.

The provider must maintain the following documentation in the client’s medical record:

- The prescription for the requested prosthetic device
- Written documentation of a rehabilitation program prescribed by the treating physician, including expected goals with the use of the prosthesis
- Written documentation that the client or client’s family/caregiver is willing to comply with the rehabilitation program

28.4.2 Prostheses Procedure Codes

The following prostheses procedure codes may be reimbursed in the home setting to an orthotist, prosthetist, medical supplier (DME), and custom DME provider:

Prostheses Procedure Codes				
Partial Foot, Ankle, and Knee Disarticulation Sockets				
L5000	L5010	L5020	L5050	L5060
L5100	L5105	L5150	L5160	
Above-Knee Short Prostheses				
L5200	L5210	L5220	L5230	
* Must be billed with the functional modifiers in Section 28.4.5, “Lower-Limb Prostheses” in this chapter.				

Prostheses Procedure Codes				
Hip and Knee Disarticulation Prostheses				
L5250	L5270	L5280	L5301	L5312
L5321	L5331	L5341		
Postsurgical Prostheses				
L5400	L5410	L5420	L5430	L5450

* Must be billed with the functional modifiers in Section 28.4.5, “Lower-Limb Prostheses” in this chapter.				

28.4.3 Preparatory or Temporary Prostheses

Preparatory or temporary prostheses are a benefit of the CSHCN Services Program.

A preparatory or temporary prosthesis allows for extensive gait training for lower-limb amputees and extensive functional training for upper-limb amputees. A preparatory prosthesis is intended as the final step before the permanent or definitive application. A client with a preparatory prosthesis does not need to be in the hospital, may be involved in chemotherapy or other medical or rehabilitative treatment that affects the size or healing of the residual limb, and may be undergoing changes to the residual limb that would preclude the fitting of the permanent or definitive prosthesis. A preparatory prosthesis is used by the client for varying time periods (4 to 12 months) before the permanent or definitive prosthesis needs to be ordered.

28.4.4 Upper-Limb Prostheses

Upper-limb prostheses will be considered for prior authorization with documentation of all of the indications defined in the Prostheses and Related Services section above. In addition, the following criteria apply for specific prosthetic devices.

28.4.4.1 Myoelectric Prostheses

Myoelectric upper extremity prostheses will be considered for prior authorization for clients with bilateral shoulder disarticulation.

Myoelectric hand prostheses will be considered for prior authorization for clients with traumatic or congenital absence of forearm(s) and hand(s).

28.4.5 Lower-Limb Prostheses

Lower-limb prostheses will be considered for prior authorization with documentation of all of the indications defined in Section 28.4.1, “Prior Authorization and Documentation Requirements” in this chapter. In addition, the following documentation is required for all lower-limb prostheses:

- Written documentation of the client’s current and potential functional levels. A functional level is defined as a measurement of the capacity and potential of individuals to accomplish their expected post-rehabilitation daily function. The potential functional ability is based on reasonable expectations of the treating physician and the prosthetist, and may include the following:
 - The client’s history, including prior use of a prosthesis, if applicable
 - The client’s current condition, including the status of the residual limb, and any co-existing medical conditions
 - The client’s desire to ambulate

The following functional modifiers and levels have been defined by the Centers for Medicare & Medicaid Services (CMS):

Functional Modifier	Functional Level	Description
K0	Level 0	Does not have the ability or potential to ambulate or transfer safely with or without assistance, and a prosthesis does not enhance quality of life or mobility.
K1	Level 1	Has the ability or potential to use a prosthesis for transfers or ambulation on level surfaces at fixed cadence. Typical of the limited and unlimited household ambulator.
K2	Level 2	Has the ability or potential for ambulation with the ability to traverse low level environmental barriers such as curbs, stairs, or uneven surfaces. Typical of the limited community ambulator.
K3	Level 3	Has the ability or potential for ambulation with variable cadence. Typical of the community ambulator who has the ability to traverse most environmental barriers and may have vocational, therapeutic, or exercise activity that demands prosthetic utilization beyond simple locomotion.
K4	Level 4	Has the ability or potential for prosthetic ambulation that exceeds basic ambulation skills, exhibiting high-impact, stress, or energy levels. Typical of the prosthetic demands of the child, active adult, or athlete.

A client whose functional level is zero is not a candidate for a prosthetic device; the device is not considered medically necessary. Advanced knee, ankle, or foot prostheses procedure codes must be submitted with the appropriate functional modifier in the table above.

28.4.5.1 Microprocessor-Controlled Lower-Limb Prostheses

Microprocessor-controlled lower-limb prostheses (e.g., Otto Bock C-Leg, Intelligent Prosthesis, or Ossur Rheo Knee) will be considered for prior authorization for clients who have a transfemoral amputation from a nonvascular cause, such as trauma or tumor, and a functional level of 3 or above.

The licensed prosthetist or orthotist who provides the device must be trained in the fitting and programming of the microprocessor-controlled prosthetic device.

28.4.5.2 Foot Prostheses

The following foot prostheses will be considered for prior authorization for clients whose documented functional level is 1 or above:

- A solid ankle-cushion heel (SACH) foot
- An external keel SACH foot or single axis ankle/foot

A flexible-keel foot or multi-axial ankle/foot will be considered for prior authorization for clients whose documented functional level is 2 or above.

A flex foot system, energy storing foot, multi-axial ankle/foot, dynamic response, or flex-walk system or equivalent will be considered for prior authorization for clients whose documented functional level is 3 or above.

A prosthetic shoe will be considered for prior authorization if it is an integral part of a prosthesis for clients with a partial foot amputation.

28.4.5.3 Knee Prosthesis

A single-axis, constant-friction knee or other basic knee systems will be considered for prior authorization for clients whose documented functional level is 1 or above.

A fluid, pneumatic, or electronic knee prosthesis will be considered for prior authorization for clients whose documented functional level is 3 or above.

A high-activity knee control frame will be considered for prior authorization for clients whose documented functional level is 4.

28.4.5.4 Ankle Prosthesis

An axial rotation unit will be considered for prior authorization for clients whose documented functional level is 2 or above.

28.4.5.5 Sockets

Prior authorization for test (diagnostic) sockets for an individual prosthesis is limited to a quantity of two test sockets.

Prior authorization for same-socket inserts for an individual prosthesis is also limited to a quantity of two.

Requests for test sockets or same-socket inserts beyond these limitations must include documentation of medical necessity that supports the need for the additional sockets.

28.4.5.6 Accessories

Accessories to prostheses, such as stump stockings and harnesses, will be considered for prior authorization when they are essential to the effective use of the artificial limb.

28.5 Repairs, Replacements, and Modifications to Orthoses and Prostheses

Repairs, replacements, and modifications to orthoses and prostheses are a benefit of the CSHCN Services Program when medically necessary criteria are met.

Repairs due to normal wear and modifications due to growth or change in medical status will be considered for prior authorization when the repair or modification is more cost-effective than the replacement of the device.

- Additional information from the provider may be requested to determine cost-effectiveness.

- Documentation supporting medical necessity must be provided when requesting prior authorization.
- Replacement of orthotic or prosthetic devices will be considered for prior authorization with medical justification.
- Orthotic devices are anticipated to last a minimum of 6 months from the receipt of the initial system.
- Prosthetic devices are anticipated to last a minimum of one year from the receipt of the initial definitive/permanent system.
- Preparatory or temporary prostheses may be replaced in less than 12 months of their receipt, but they will undergo medical review if the permanent prosthesis is requested less than 6 months after provision of the preparatory or temporary prosthesis.
- Replacement of an orthosis or prosthesis will be considered when loss or irreparable damage has occurred due to a traumatic event such as a vehicle accident, a residential fire, or theft. A copy of the police or fire report is required when appropriate, along with the measures to be taken to prevent a repeat of similar loss.

Socket replacements will be considered for prior authorization with documentation of functional or physiological need, including, but not limited to, changes in the residual limb, functional need changes, or irreparable damage or wear due to excessive weight or prosthetic demands of very active amputees.

28.5.1 Other Artificial Devices

A prosthesis is defined as “a custom-fabricated or fitted medical device that is not surgically implanted and is used to replace a missing limb, appendage, or other external human body part, including an artificial limb, hand, or foot.”

The term “prosthesis” does not include an artificial eye, ear, finger, or toe, a dental appliance, a cosmetic device, including an artificial breast, eyelash, or wig, or other device that does not have a significant impact on the musculoskeletal functions of the body.

Referto: Section 40.2.1.9, “Eye Prostheses” in Chapter 40, “Vision Services” for information about eye prostheses.

Section 31.2.39, “Diagnostic and Surgical/Reconstructive Breast Therapies” in Chapter 31, “Physician” and Chapter 17, “Durable Medical Equipment (DME)” for information about breast prostheses.

Chapter 14, “Dental” for information about dental services.

28.6 CSHCN Services Program Documentation of Receipt

The [CSHCN Services Program Documentation of Receipt form](#) is required and must be completed before reimbursement can be made for any DME delivered to a client. The certification form must include the name of the item, the date the client received the DME, and the signatures of the provider and the client or primary caregiver. Providers must retain individual delivery slips or invoices for each DOS that document the date of delivery for all supplies provided to a client and must disclose them to the CSHCN Services Program or its designee upon request.

The documentation of receipt form is available in both [English](#) and [Spanish](#).

Documentation of delivery must include one of the following:

- Delivery slip or invoice signed and dated by client/caregiver. The delivery slip or invoice must contain the client’s full name and address to which the supplies were delivered, the item description and the numerical quantities that were delivered to the client.

- A dated carrier tracking document with shipping date and delivery date. The dated carrier tracking document must be attached to the delivery slip or invoice. The dated delivery slip or invoice must include an itemized list of goods that includes the descriptions and numerical quantities of the supplies delivered to the client. This document could also include prices, shipping weights, shipping charges, and any other description.

28.7 Claims Information

Orthotic and prosthetic services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The HCPCS/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

28.8 Reimbursement

Orthotics and prosthetics services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

28.9 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

29.1 Enrollment

To enroll in the CSHCN Services Program, outpatient behavioral health providers are required to be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state outpatient behavioral health providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border.

The CSHCN Services Program enrolls the following types of providers of outpatient behavioral health services:

- Licensed marriage and family therapist (LMFT)
- Licensed clinical social worker (LCSW, formerly LMSW-ACP)
- Licensed professional counselor (LPC)
- Licensed psychologist or neuropsychologist (PhD)
- Psychiatrist (doctor of medicine [MD] or doctor of osteopathy [DO])

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

29.1.1 Provisionally Licensed Psychologist (PLP)

The Texas State Board of Examiners of Psychologist (TSBEP) requires the provisionally licensed psychologist (PLP) to work under the direct supervision of a licensed psychologist and does not allow a PLP to engage in independent practice. Therefore, a PLP will not be independently enrolled in the CSHCN Services Program and must provide services under the delegating psychologist’s provider identifier.

29.2 Benefits, Limitations, and Authorization Requirements

The CSHCN Services Program does not provide outpatient behavioral health services to clients who are also enrolled in Texas Medicaid, Comprehensive Care Program (CCP), or Children’s Health Insurance Program (CHIP).

Outpatient behavioral health services are limited to no more than 30 encounters by all practitioners per client, per calendar year. Benefits include, but are not limited to, psychological testing, neuropsychological testing, psychotherapy, and counseling.

Laboratory and radiology services do not count toward the 30 outpatient encounters per client, per calendar year limitation. Pharmacological management does not count toward the 30 encounters per client, per calendar year limitation.

Pharmacological management refers to the in-depth management of psychopharmacological agents, which are medications with potentially significant side effects. Pharmacological management represents a skilled aspect of client care and is intended for use by clients who are being managed primarily by psychotropics or other types of psychopharmacologic medications that are part of the billable E/M visit.

The focus of a pharmacological management encounter is the use of medication for relief of a client's signs and symptoms of mental illness. When the client continues to experience signs and symptoms of mental illness, which necessitates a discussion beyond minimal psychotherapy or counseling in a given day, the focus of the service is broader and is considered outpatient psychotherapy or counseling rather than pharmacological management.

Visits for the sole purpose of pharmacological management should be billed as a regular physician visit, not as a behavioral health visit using the appropriate E/M procedure code. Pharmacological management visits should be conducted on the basis of medical necessity.

29.2.1 Authorization Requirements

Authorization is not required for outpatient behavioral health services. The CSHCN Services Program may reimburse a maximum of 30 outpatient behavioral health services encounters by any practitioner per client, per calendar year.

29.2.2 Documentation Requirements

Services not supported by documentation in the client's medical record are subject to recoupment. All entries must be clear and concise, legible to individuals other than the author, and dated (month/date/year) and signed by the performing provider.

Documentation must include all of the following:

- Beginning and ending times for each counseling session or test administered
- Diagnosis
- Support for the medical necessity of the chosen treatment
- All pertinent information about the client's condition that substantiates the need for services, including, but not limited to, the following:
 - Reason for referral or the presenting problem
 - Prior history, including prior treatment
 - Other pertinent medical, social, and family history
 - Clinical observations and mental status examinations
 - The name of each test (e.g., WAIS-R, Rorschach, MMPI) administered
 - The scoring of the test
 - Narrative descriptions of the test findings
 - An explanation to substantiate the necessity of retesting, if testing is repeated
 - Background, symptoms, impression
 - Narrative description of the assessment

- Behavioral observations during the counseling session
- Narrative description of the counseling session
- Treatment plan and recommendations, including expected long-term and short-term benefits

The original testing material must be maintained by the provider and readily available for retrospective review by the Department of State Health Services (DSHS) or its designee.

29.2.3 Pharmacological Management Services Documentation

Documentation for pharmacological management services must include the following:

- Complete diagnosis
- Medication history
- Current psychiatric symptoms and problems (including the presenting mental status or physical symptoms) that indicate the client requires a medication adjustment
- Problems, reactions, and side effects (if any) to medications or ECT
- Description of optional minimal psychotherapeutic intervention (less than 20 minutes), if any
- Reasons for medication adjustments, changes, or continuation with anticipated outcomes
- Desired therapeutic drug levels, if applicable
- Current laboratory values, if applicable
- Treatment goals

29.2.4 Reimbursement—The 12-Hour System Limitation

The following provider types are limited to a maximum combined total of 12 hours per provider, per day for inpatient or outpatient behavioral health services:

- Psychologist
- Advanced practice registered nurse (APRN)
- Physician Assistant (PA)
- Licensed clinical social worker (LCSW)
- Licensed marriage and family therapist (LMFT)
- Licensed professional counselor (LPC)

Each hour of testing counts towards the 12 hour limit. Doctors of medicine (MDs) and doctors of osteopathy (DOs) are not subject to the 12-hour system limitation because they can delegate services and, as a result, may submit claims in excess of 12 hours per day.

Doctors of medicine (MDs) and doctors of osteopathy (DOs) are not subject to the 12-hour system limitation because they can delegate services, and, as a result, may submit claims in excess of 12 hours per day. Additionally, because a psychologist can delegate to multiple PLPs and may submit claims for PLP services in excess of 12 hours per day, PLPs are not subject to the 12-hour system limitation. PLPs who perform delegated psychology services under the delegating psychologist's CSHCN provider identifier are subject to retrospective review.

No single behavioral health services provider may be reimbursed for more than 12 hours of behavioral health services per day. As a result, all providers who are not subject to the 12-hour system limitation, and each provider to whom they delegate, are subject to retrospective review and recoupment.

29.2.5 Procedure Codes Included in the 12-Hour System Limitation

The following table lists the outpatient behavioral health procedure codes included in the system limitation. The table also includes the time increments that the system applies based on the billed procedure code. The system uses the “time applied” time increments to determine whether the 12-hour-per-day system limitation has been exceeded.

Procedure Code	Time Assigned by Procedure Code Description	Time Applied
90791	N/A	60 minutes
90792	N/A	60 minutes
90832	30 minutes	30 minutes
90833	30 minutes with an E/M service. (List separately in addition to the code for primary procedure.)	30 minutes
90834	45 minutes	45 minutes
90836	45 minutes with an E/M service. (List separately in addition to the code for primary procedure.)	45 minutes
90837	60 minutes	60 minutes
90838	60 minutes with an E/M service. (List separately in addition to the code for primary procedure.)	60 minutes
90846	N/A	50 minutes
90847	N/A	50 minutes
96101	60 minutes	60 minutes
96116	60 minutes	60 minutes
96118	60 minutes	60 minutes
N/A = Not Applicable		

Note: Procedure code 90853 is not included in the 12-hour system limitation, so it is not shown in the table.

LCSWs, LMFTs, or LPCs may use only the following procedure codes when filing claims:

Procedure Codes					
90832	90834	90837	90846	90847	90853

LMFT services require the U8 modifier.

Only psychiatrists, APRNs, and PAs may use the following procedure codes when filing claims:

Procedure Codes				
90791	90792	90833	90836	90838

Procedure codes 90833, 90836, and 90838 are add on codes and must be billed with a primary E/M code in order to be considered for reimbursement.

Psychiatrists and psychologists may use the following procedure codes when filing claims:

Procedure Codes				
90791	90832	90834	90837	90846
90847	90853	96101	96116	96118

Clinical psychologist services must be submitted with the AH modifier.

PLP services may be reimbursed using procedure code 90791 with modifier U9.

29.2.6 Psychological Testing, Neuropsychological Testing, and Neurobehavioral Status Exams

Psychological testing (procedure code 96101), neurobehavioral status exams (procedure code 96116), and neuropsychological testing (procedure code 96118) are limited to a total of 4 hours per day and 8 hours per calendar year, per client, for any provider. Claims submitted for an amount greater than 4 hours per day or 8 hours per year must be submitted with documentation of medical necessity. All supporting documentation must be maintained by the provider in the client's medical record.

Reimbursement of psychological testing, neurobehavioral status exams, and neuropsychological testing includes testing, scoring, and interpretation of results.

The number of units on the claim must reflect the time spent face-to-face testing with the client plus the time spent scoring and interpreting the results in one hour increments.

If the performance, interpretation, and reporting of the testing span more than one day, the date of service on the claim must reflect the date and the time spent for each service performed.

- Providers must submit only one claim for each psychological or neuropsychological testing or neurobehavioral status exam performed, even if the scoring and interpretation cannot be completed on the same date as the testing.
- A claim must not be submitted until testing is complete. Providers can submit one claim with multiple details on separate claims for each date of service.

Psychological testing, neurobehavioral status exams, and neuropsychological testing are not reimbursed to an APRN or physician assistant. Behavioral health testing and neurobehavioral status exams may be performed during an assessment by an APRN or physician assistant, but is not reimbursed separately. The most appropriate office encounter code must be used.

Psychological testing (procedure code 96101) and neuropsychological testing (procedure code 96118) may be reimbursed on the same date of service as a psychiatric diagnostic evaluation (procedure codes 90791 or 90792).

Testing procedure codes 96101, 96116, and 96118 count toward the 30 per calendar year limitation.

Psychological testing (procedure code 96101), neurobehavioral testing (procedure code 96116), and neuropsychological testing (procedure code 96118) will not be reimbursed on the same date of service when performed by the same provider.

29.2.7 Psychotherapy and Counseling

Reimbursement for outpatient psychotherapy or counseling is limited to no more than 4 hours per client, per day.

Providers must bill the units of each half hour of psychotherapy and indicate that number of units on the claim form.

When more than one type of session (individual, group, or family outpatient psychotherapy or counseling) is provided by any provider on the same date of service, each session type will be reimbursed individually. Services are reimbursed only for clients who are eligible for the CSHCN Services Program.

Only the LMFT, LCSW, LPC, APRN, or PA provider actually performing the behavioral health service may bill the CSHCN Services Program. These providers must not bill for services performed by individuals under their supervision. A psychiatrist may bill for services performed by individuals under their supervision.

A psychologist may also bill for services performed by a PLP under their direct supervision.

Interpretation and documentation time is not reimbursed separately for psychotherapy or counseling procedures.

Psychotherapy and counseling services count toward the 30 per calendar year limitation.

Psychotherapy services must not be continued if no longer beneficial to the client.

Professional services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid. Hospitals are reimbursed 80 percent of the rate allowed by the Tax Equity and Fiscal Responsibility Act (TEFRA) of 1982, which is equivalent to the hospital’s Medicaid interim rate.

29.2.7.1 Treatment for Alzheimer’s and Dementia

Treatment for CSHCN Services Program clients with Stage 1, 2, or 3 Alzheimer’s disease or dementia may be reimbursed with prior authorization as follows:

Stage 1- No impairment (normal function)

The person does not experience any memory problems. An interview with a medical professional does not show any evidence of symptoms of dementia

Stage 2- Very mild cognitive decline (may be normal age-related changes or earliest signs of Alzheimer’s disease)

The person may feel as if he or she is having memory lapses - forgetting familiar words or the location of everyday objects. But no symptoms of dementia can be detected during a medical examination or by friends, family or co-workers

Stage 3- Mild cognitive decline (early-stage Alzheimer’s can be diagnosed in some, but not all, individuals with these symptoms)

Friends, family or co-workers begin to notice difficulties. During a detailed medical interview, doctors may be able to detect problems in memory or concentration. Common stage 3 difficulties include:

- Noticeable problems coming up with the right word or name
- Trouble remembering names when introduced to new people
- Having noticeably greater difficulty performing tasks in social or work settings.
- Forgetting material that one has just read
- Losing or misplacing a valuable object
- Increasing trouble with planning or organizing

Psychotherapy services must not be continued if no longer beneficial to the client.

The following psychotherapy procedure codes for clients with Alzheimer’s disease or dementia may be reimbursed for clients who meet one of the stages listed above and are diagnosed with one of the diagnosis codes listed below:

Procedure Codes					
90832	90833	90834	90836	90837	90838
90846	90847	90853			

Diagnosis Code	Description
F0390	Unspecified dementia without behavioral disturbance
F0391	Unspecified dementia with behavioral disturbance
G3184	Mild cognitive impairment, so stated
R41841	Cognitive communication deficit

Documentation to support the treatment for Alzheimer's disease or dementia must be maintained in the client's medical record and may be subject to retrospective review. Psychotherapy services must not be continued if no longer beneficial to the client.

Supporting documentation (certification of need) must be documented in the individual client's record. This documentation must be maintained by each facility, as applicable to state and federal guidelines, and be available upon request.

29.2.8 Psychiatric Diagnostic Evaluations

Psychiatric diagnostic evaluations (procedure codes 90791 or 90792) are limited to once per day per client, any provider, regardless of the number of professionals involved in the interview.

Psychiatric diagnostic evaluations count toward the 30 per calendar year limitation.

29.2.9 Noncovered Services

The following behavioral health services are not benefits of the CSHCN Services Program:

- Services provided by a psychiatric nurse (registered nurse [RN] or licensed vocational nurse [LVN]), mental health worker, or licensed psychological associate (LPA)
- Thermogenic therapy
- Recreational therapy
- Psychiatric day care
- Psychiatric day treatment
- Psychiatric day hospital
- Partial hospitalization
- Neurofeedback including, but not limited to, electroencephalography (EEG) feedback
- Music therapy
- Dance therapy
- Hypnosis
- Services provided to clients residing in residential treatment centers
- Services provided to clients in an acute-care hospital
- Educationally related services provided in a school setting
- Multiple family group psychotherapy
- Narcosynthesis
- Psychoanalysis
- Unlisted psychiatric services or procedures
- "Adult activity" or "individual activity" (These services are payable only if guidelines for group therapy are met and termed "group therapy.")

The CSHCN Services Program does not reimburse procedure codes 90846 and 90849.

29.2.10 National Correct Coding Initiative (NCCI) Guidelines

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) [NCCI web page](#) for correct coding guidelines and

specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

29.3 Claims Information

Outpatient behavioral health services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

29.4 Reimbursement

Outpatient behavioral health services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

APRNs and PAs will be reimbursed the lesser of the billed amount or the amount allowed by Texas Medicaid. Reimbursement for services performed by APRNs is 92 percent of the physician's Texas Medicaid reimbursement for the same service. The reimbursement methodology for these services is contained in the specific policy for each service.

The PLP, LPC, and LMSW providers will be reimbursed the lesser of the billed amount or the amount allowed by Texas Medicaid. Reimbursement for PLP, LPC, and LMSW services is 70 percent of the physician's Texas Medicaid reimbursement for the same service.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

29.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

30.1 Enrollment

To enroll in the CSHCN Services Program, physical medicine and rehabilitation providers must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state physical medicine and rehabilitation providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border, and be approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

30.2 Benefits, Limitations, and Authorization Requirements

Physical therapy (PT) and occupational therapy (OT) services are benefits of the CSHCN Services Program for clients with an acute or chronic medical condition when documentation from the prescribing physician and the treating therapist shows there is or will be progress made toward goals.

Note: *An advanced practice registered nurse (APRN) or physician assistant (PA) may sign and date all documentation related to the provision of PT or OT services on behalf of the client’s physician when the client’s physician delegates this authority to the APRN or PA. The APRN or PA provider’s signature and license number must appear on the forms where the physician signature and license number are required.*

The CSHCN Services Program reimburses licensed physical or occupational therapists, physicians, home health agencies, hospitals, and outpatient facilities based on the procedure codes listed in this chapter. Therapy sessions include the time span the therapist is with the client, time spent preparing the client for the session, and the time spent completing documentation.

30.2.1 Osteopathic Manipulative Treatment (OMT)

OMT services provided by a licensed physician are benefits when they are performed with the expectation of restoring the client’s level of function that has been lost or reduced due to injury or illness.

Manipulations should be provided in accordance with an ongoing, written treatment plan that supports medical necessity. The treatment plan must be updated as the client's condition changes. Treatment plans must be maintained in the medical records and are subject to retrospective review.

OMT may be considered for reimbursement by the CSHCN Services Program in the following situations:

- Acute musculoskeletal condition
- Acute exacerbation of a chronic condition
- Acute treatment pre- or postsurgery that is directly related to the surgery

Procedure codes 98925, 98926, 98927, 98928, and 98929 must be used when billing for OMT.

30.2.2 Physical Therapy (PT), and Occupational Therapy (OT)

Therapy goals for an acute or chronic medical condition include, but are not limited to, improving, maintaining, and slowing the deterioration of function.

PT and OT evaluations and treatment must be ordered or prescribed by the client's physician, APRN, or PA and be based on medical necessity.

A client may receive any combination of physical, occupational, or speech therapy in the office, home, or outpatient setting, up to one hour per day for each type of therapy.

Therapy evaluations and re-evaluations are limited to 180 days, any provider. Therapy re-evaluations are a benefit when documentation supports one of the following:

- A change in the client's status
- A request for extension of services
- A change of provider

Additional therapy evaluations or re-evaluations that exceed these limits may be considered for reimbursement with documentation of one of the following:

- A change in the client's medical condition
- A change of provider letter that is signed and dated by the client, parent, or guardian that documents all of the following:
 - The date that the client ended therapy (effective date of change) with the previous provider
 - The names of the previous and new providers
 - An explanation of why providers were changed

An evaluation or re-evaluation will be denied when billed by any provider on the same date of service as therapy treatment from the same discipline.

An evaluation or re-evaluation performed on the same day as therapy treatment from a different therapy type must be performed at distinctly separate times to be considered for reimbursement.

Outpatient OT or PT treatment services will deny if billed on the same date of service as procedure codes G0152 or G0151, respectively.

PT and OT services must be rendered in accordance with the Executive Council of Physical Therapy and Occupational Therapy Examiners or performed by a physician within their scope of practice.

Note: *Therapy services provided by a licensed therapist assistant must be submitted by the licensed supervising provider.*

All documentation that is related to the therapy services that were prior authorized and provided, including medical necessity and the comprehensive treatment plan, must be maintained in the client’s medical record and made available upon request. Each therapy discipline provided must be of the level of complexity that requires the judgment, knowledge, and skill of a licensed physical or occupational therapist, or physician. The documentation that is maintained in the client’s medical record must identify the therapy provider’s name and include all of the following:

- Date of service
- Start time of therapy
- Stop time of therapy
- Total minutes of therapy
- Specific therapy performed
- Client’s response to therapy

Therapy sessions include the time the therapist is with the client, the time to prepare the client for the session, and the time the therapist uses to complete the documentation.

Providers must use the following procedure codes for claim submission when billing for physical and occupational therapy services:

Procedure Codes									
S8990	97012	97016	97018	97022	97024	97026	97028	97032	97033
97034	97035	97036	97039	97110	97112	97113	97116	97124	97139
97140	97150	97161	97162	97163	97164	97165	97166	97167	97168
97530	97535	97537	97542	97750	97755	97760	97761	97762	97799

Physical therapists must use procedure code 97161, 97162, and 97163 for evaluation and procedure code 97164 for re-evaluation. Occupational therapists must use procedure code 97165, 97166, and 97167 for evaluation and procedure code 97168 for re-evaluation. These codes do not require modifiers.

The following procedure codes are billed in 15-minute increments, and each are limited to one hour per date of service per discipline (four units). Providers should not bill for services performed less than 8 minutes:

Procedure Codes									
S8990	97032	97033	97039	97110	97112	97113	97116	97124	97139
97140	97530	97535	97537	97542	97750	97755	97760	97761	97762

Procedure codes 97034, 97035 and 97036 must be billed in 15-minute increments. Procedure codes 97034 and 97035 are limited to 30 minutes a quantity of two units per claim detail, per date of service, per therapy discipline. Procedure code 97036 is limited to 45 minutes a quantity of three units per claim detail, per date of service, per therapy discipline.

The following procedure codes are not payable in 15-minute increments. Each procedure code is limited to once per day, per distinct therapy type (physical or occupational) when billed by the same provider:

Procedure Codes								
97012	97016	97018	97022	97024	97026	97028	97150	97799

30.2.3 Method for Counting Minutes for Timed Procedure Codes in 15-Minute Units

All claims for reimbursement of these procedure codes are based on the actual amount of billable time associated with the service. For those services for which the unit of service is 15 minutes (1 unit=15 minutes), partial units should be rounded up or down to the nearest quarter hour.

To calculate billing units, count the total number of billable minutes for the calendar day for the client, and divide by 15 to convert to billable units of service.

If the total billable minutes are not divisible by 15 and are greater than seven, the minutes are converted to one (1) unit of service. If the total billable minutes are not divisible by 15 and are seven minutes or fewer, the minutes are converted to zero (0) units.

Example: 68 total billable minutes/15 = four units + eight minutes. Since eight minutes are more than seven minutes, those eight minutes are converted to one unit. Therefore, 68 total billable minutes equals five units of service.

Time intervals for one through eight units are as follows:

Units	Number of Minutes
0 units	0 minutes through 7 minutes
1 unit	8 minutes through 22 minutes
2 units	23 minutes through 37 minutes
3 units	38 minutes through 52 minutes
4 units	53 minutes through 67 minutes
5 units	68 minutes through 82 minutes
6 units	83 minutes through 97 minutes
7 units	98 minutes through 112 minutes
8 units	113 minutes through 127 minutes

30.2.4 Group Therapy

Group therapy consists of simultaneous treatment to two or more clients who may or may not be doing the same activities. If the therapist is dividing attention among the clients, providing only brief, intermittent personal contact, or giving the same instructions to two or more clients at the same time, the treatment is recognized as group therapy. The physician or therapist involved in group therapy services must be in constant attendance, but one-on-one client contact is not required.

30.2.4.1 Group Therapy Guidelines

In order to meet CSHCN Services Program criteria for group therapy, all of the following applies:

- Physician prescription for group therapy.
- Performance by or under the general supervision of a qualified licensed therapist as defined by licensure requirements.
- The licensed therapist involved in group therapy services must be in constant attendance (meaning in the same room) and active in the therapy.
- Each client participating in the group must have an individualized treatment plan for group treatment, including interventions, short- and long-term goals, and measurable outcomes.

Note: The CSHCN Services Program does not limit the number of clients who can participate in a group therapy session. Providers are subject to certification and licensure board standards regarding group therapy.

30.2.4.2 Group Therapy Documentation Requirements

The following documentation must be maintained in the client's medical record:

- Physician prescription for group therapy
- Individualized treatment plan that includes frequency and duration of the prescribed group therapy and individualized treatment goals

Documentation for each group therapy session must include the following:

- Name and signature of the licensed therapist providing supervision over the group therapy session
- Treatment goal addressed in the group
- Specific treatment technique(s) utilized during the group therapy session
- How the treatment technique will restore function
- Start and stop times for each session
- Group therapy setting or location
- Number of clients in the group

The client's medical record must be made available upon request.

Group therapy procedure code 97150 must be reported for each member of the group.

30.2.5 Noncovered Services

The following services are not a benefit of the CSHCN Services Program:

- Therapy services provided by the following:
 - Unlicensed physical therapy aides, orderlies, students, or technicians
 - Unlicensed occupational therapy aides, interns, orderlies, students, or technicians
- Unattended electrical stimulation, as unattended services are not covered
- Emotional support, adjustment to extended hospitalization or disability, and behavioral readjustment
- Treatment solely for the instruction of other agency or professional personnel in the client's physical or occupational therapy program
- Procedure code 98960
- Procedure code 97010 (This does not require special medical training)
- Training in nonessential tasks, such as homemaking, gardening, recreational activities, cooking, driving, assistance with finances, scheduling, or teaching a second language
- VitalStim therapy for dysphagia
- Services and procedures that are investigational or experimental

30.2.6 Authorization Requirements

PT and OT evaluations and re-evaluations do not require prior authorization. All other PT and OT services require prior authorization.

Prior authorization for therapy services will be considered when all of the following criteria are met:

- The client has an acute or chronic medical condition that results in a significant decrease in functional ability and will benefit from therapy services in an office or outpatient setting.

- Documentation supports treatment goals and outcomes for the specific therapy disciplines requested.
- Services do not duplicate those provided concurrently by any other therapy.
- Services are provided within the provider's scope of practice as defined by state law.

An initial prior authorization may be granted for a period not to exceed 180 days. Requests for extensions of ongoing treatment services may be granted up to an additional 180 days for chronic conditions with documentation of medical necessity.

PT and OT services that are billed in 15-minute units are limited to a combined maximum of 4 units (1 hour) per day per therapy type. Additional services may be considered with documentation that supports the medical necessity for exceeding the 1-hour-per-day limitation.

To complete the prior authorization process by paper, the provider must submit the prior authorization requirements documentation through fax or mail and must retain a copy of the prior authorization request and all submitted documentation in the client's medical record at the therapy provider's place of business.

To complete the prior authorization process electronically, the provider must submit the prior authorization requirements documentation through any approved method and must retain a copy of the prior authorization request and all submitted documentation in the client's medical record at the therapy provider's place of business.

To avoid unnecessary denials, the physician, APRN, or PA must submit correct and complete information including documentation of medical necessity for the service requested. The ordering practitioner must maintain documentation of medical necessity in the client's medical record. The requesting therapy provider may be asked for additional information to clarify or complete a request for therapy.

30.2.6.1 Initial Prior Authorization Requests

The initial request for prior authorization must be approved before therapy treatments are initiated. Requests that are received after therapy initiation will be denied for dates of service that occurred before the date that the request was approved.

Note: If medically necessary services are provided after hours or on a recognized holiday or weekend, services may be authorized when the request is submitted on the next business day.

The following medical necessity documentation is required when submitting a request for PT or OT therapy services:

- A completed [CSHCN Services Program Prior Authorization Request for Initial Outpatient Therapy \(TP1\) Form](#). The request form must be signed and dated by the ordering physician, APRN, or PA, and the therapy provider. A request form that is missing required information is considered incomplete.

Note: The ordering practitioner must sign and date the treatment plan and request form on or after the date the evaluation was performed.

- A current evaluation and comprehensive treatment plan with all of the following:
 - Date of evaluation
 - Diagnoses
 - Client's medical history and background
 - Client's current and prior functional level, to include current standardized assessment scores or criterion-referenced scores as appropriate for the client's condition
 - Date of onset of the illness, injury, or exacerbation requiring the therapy services

- Short- and long-term treatment goals for the therapy discipline, and associated disciplines, requested related to the client's individual needs
- A description of the specific treatment modalities being prescribed and the recommended amount, frequency and duration of services
- Prognosis for improvement
- Requested dates of service
- Date and signature of the licensed therapist

Note: A therapy evaluation is current when performed within 60 days before the initiation of therapy treatment services.

30.2.6.2 Extension of Services Requests

A prior authorization request for extension of ongoing treatment services must be received and approved no more than 30 days prior to the expiration of the current prior authorization period. Requests received after the current prior authorization expires will be denied for dates of service occurring before the request's approval date.

Prior authorization requests for extension of ongoing treatment services may be considered for increments up to 180 days for chronic conditions with documentation of medical necessity and includes all of the following:

- A completed [CSHCN Services Program Prior Authorization Request for Extension of Outpatient Therapy \(TP2\) Form](#) signed and dated by the ordering physician, APRN, or PA, and the therapy provider. A request form that is missing required information is considered incomplete.

Note: The ordering practitioner must sign and date the updated treatment plan and request form on or after the date the evaluation or re-evaluation was performed.

- A current therapy evaluation or re-evaluation, and updated treatment plan with all of the following:
 - Date of evaluation or re-evaluation
 - Diagnoses
 - Client's medical history and background
 - Client's current and prior functional level, to include current standardized assessment scores or criterion-referenced scores as appropriate for the client's condition
 - Date of onset of the illness, injury, or exacerbation that requires the therapy services
 - Prior and new short- and long-term treatment goals documenting the client's progress towards prior treatment goals
 - A description of the specific treatment modalities that are being prescribed and the recommended amount, frequency and duration of services
 - Prognosis for improvement
 - Requested date of service
 - Dated signature of licensed therapist

Note: A therapy evaluation or re-evaluation is current when performed within 30 days before the request for extension of ongoing services.

30.2.6.3 Discontinuation of Therapy or Change of Provider

If a provider or client discontinues therapy during an existing prior authorized period and the client requests services through a new provider, the new provider must submit evidence of the following, including all documentation required for an initial request for therapy services:

- A change-of-provider letter, which has been signed and dated by the client, parent, or guardian and documents the date that the client ended therapy (effective date of change) with the previous provider, the names of the previous and new providers, and an explanation of why providers were changed.

A change of provider during an existing authorization period will not extend the original authorization period approved to the previous provider. Regardless of the number of provider changes, clients may not receive therapy services beyond the limitations outlined above.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

[CSHCN Services Program Prior Authorization Request for Initial Outpatient Therapy \(TP1\) Form](#)

[CSHCN Services Program Prior Authorization Request for Extension of Outpatient Therapy \(TP2\) Form](#)

Note: Fax transmittal confirmations are not accepted as proof of timely authorization submission.

30.3 Coordination with the Public School System

Clients may receive therapy services from both the CSHCN Services Program and school districts only when the therapy provided by the CSHCN Services Program addresses different client needs. If the client is of school age, therapy provided through the CSHCN Services Program is not intended to duplicate, replace, or supplement services that are the legal responsibility of other entities or institutions.

The CSHCN Services Program encourages the private therapist to coordinate with other therapy providers to avoid treatment plans that might compromise the client’s ability to progress.

30.4 Claims Information

To be considered for reimbursement, claims must identify the specific therapy type. Claims for PT treatment services must include modifier GP, and claims for OT treatment services must include modifier GO. Evaluation and re-evaluation procedure codes do not require the modifiers.

Outpatient therapy services provided by a physical or occupational therapist or by an outpatient facility must be submitted to TMHP in an approved electronic format or on a CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) [NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Note: NCCI guidelines do not apply to therapy procedure codes if a valid prior authorization number is submitted on the claim.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

30.5 Reimbursement

PT or OT providers may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

Outpatient hospital services are reimbursed at 72 percent of the billed amount multiplied by the hospital's Medicaid interim rate.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

30.6 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

31.1 Enrollment

Physicians, podiatrists, physician groups, and podiatry groups may enroll as Children with Special Healthcare Needs (CSHCN) Services Program providers by completing the provider enrollment application available through the TMHP-CSHCN Services Program website at www.tmhp.com. Providers may also enroll or reenroll in the CSHCN Services Program online. For assistance with the application process, call the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413, Option 2.

In this section the term “physician” means a doctor of medicine (MD), doctor of osteopathy (DO), or doctor of podiatric medicine (DPM).

Physicians must be actively enrolled as a Medicaid provider before enrolling in the CSHCN Services Program. “Actively enrolled” physicians are those that have filed claims for clients of the CSHCN Services Program or Texas Medicaid within the past 24 months, and that do not have any type of payment holds on their enrollment status. Physicians must be licensed by the Texas licensing board. Out-of-state physicians must meet all these conditions and be located in the United States, within 50 miles of the Texas state border.

Requests for medical services provided by an out-of-state provider more than 50 miles from the Texas state border must be submitted for consideration to TMHP at the address in Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities.”

Referto: Section 2.1.9, “Out-of-State Providers” in Chapter 2, “Provider Enrollment and Responsibilities” for more information about out-of-state services.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC) Chapter 38, but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

Section 2.1.5.1, “Types of Providers” in Chapter 2, “Provider Enrollment and Responsibilities” for additional information.

Section 3.1.4, “Services Provided Outside of Texas” in Chapter 3, “Client Benefits and Eligibility” for more detailed information about services provided outside of Texas.

31.1.1 Group Practices

Provider groups that are enrolled in Texas Medicaid can enroll in the CSHCN Services Program by completing an enrollment application. The CSHCN Services Program application must include the Medicaid group provider identifier and performing provider identifiers for all physicians in the group.

31.1.2 Changes in Provider Enrollment

If additions or changes occur in the provider's enrollment information after the enrollment process is completed, the provider must notify TMHP of the changes.

Referto: Section 2.1.2, "Changes in Enrollment" in Chapter 2, "Provider Enrollment and Responsibilities" for additional information.

31.1.3 Substitute Physician

Physicians may bill for the services of a substitute physician who sees clients in the billing physician's practice under either a reciprocal or locum tenens arrangement.

A reciprocal arrangement is one in which a substitute physician covers for the billing physician on an occasional basis when the billing physician is unavailable to provide services. Reciprocal arrangements are limited to a continuous period no longer than 14 days and do not have to be in writing.

A *locum tenens* arrangement is one in which a substitute physician assumes the practice of a billing physician for a temporary period no longer than 90 days when the billing physician is absent for reasons such as illness, pregnancy, vacation, continuing medical education, or active duty in the Armed Forces. The locum tenens arrangement may be extended for a continuous period longer than 90 days if the billing physician's absence is due to being called or ordered to active duty as a member of a reserve component of the Armed Forces. *Locum tenens* arrangements must be in writing.

Substitute physicians are required to enroll with the CSHCN Services Program. Substitute physicians are also required to enroll with Texas Medicaid before enrolling in the CSHCN Services Program and cannot be on the Texas Medicaid provider exclusion list.

The billing provider's name, address, and national provider identifier must appear in Block 33 of the claim form. The name and mailing address of the substitute physician must be documented on the claim in Block 19, not Block 33. When a physician bills for a substitute physician, the modifier Q5 or Q6 must follow the procedure code in Block 24D for services provided by the substitute physician. The Q5 modifier is used to indicate a reciprocal arrangement and the Q6 modifier is used to indicate a *locum tenens* arrangement.

31.2 Benefits, Limitations, and Authorization Requirements

Physician and podiatrist services include reasonable and medically necessary services that are ordered and performed by a physician or under the personal supervision of a physician and that are within the scope of practice of his or her profession, as defined by state law. The physician must examine the client, make a diagnosis, establish a plan of care, and document these tasks on the appropriate client medical records before submitting claims. Payment may be recouped if the documentation is not in the client's medical record.

To be payable by the CSHCN Services Program, services must be personally performed by the physician or by a qualified person working under the personal supervision of the physician. Personal supervision means that the physician must be in the building of the office or facility when and where the service is provided. Direct supervision means the physician must be physically present in the room at the time the service is provided.

If an attending physician provides personal and identifiable direction to interns or residents who are participating in the care of a CSHCN Services Program client in a teaching setting through an approved and accredited training program by the appropriate accreditation agencies, the attending physician's services are a benefit. For major surgical procedures and other complex and dangerous procedures or

situations, the attending physician must be physically present during the procedure or situation to provide personal and identifiable direction. Payment for services may be recouped if personal and identifiable direction is not provided or is not appropriately documented.

To demonstrate that personal and identifiable direction was provided, the attending physician must have:

- Reviewed the client's history and physical examination and personally examined the client within a reasonable period after the client's admission and before the client's discharge.
- Confirmed or revised the client's diagnosis.
- Determined the course of treatment to be followed.
- Provided appropriate supervision of the interns or residents.
- Entered the appropriate daily documentation of the tasks identified above in the client's medical record before the claim is submitted.

31.2.1 Authorization and Prior Authorization Requirements

Some services, as specified throughout this chapter, require authorization or prior authorization as a condition for reimbursement. Authorization and prior authorization is not a guarantee of payment.

- Authorization must occur no later than 95 days after the date of service.
- Prior authorization must be obtained before the service is provided.

Authorization requests received after the authorization deadline are denied.

The 95-day filing deadline is for all services that require authorization (not *prior* authorization), including extensions and emergency situations.

Before submitting an authorization or prior authorization request, the provider must verify the client's eligibility. Any service provided while the client is not eligible cannot be reimbursed. Providers are responsible for knowing which services require authorization or prior authorization.

All requests for prior authorizations or authorizations must be submitted in writing on the CSHCN Services Program-approved authorization and prior authorization forms. Forms are located on the [Forms](#) page of the TMHP website. Providers may fax their authorization or prior authorization requests to the TMHP-CSHCN Services Program Authorization Department at 1-512-514-4222. This fax number is only for authorization or prior authorization requests.

Fax transmittal confirmations are not accepted as proof of timely authorization or prior authorization submission.

Requests to extend the authorization deadline are not considered except in cases involving retroactive eligibility.

Exception: *For clients that receive retroactive eligibility, the authorization and prior authorization requirement may be waived if the client's eligibility had not been determined by the time TMHP received the request. Claims for these services must be received within 95 days of the eligibility add date and must include a completed request for authorization/prior authorization, along with all other applicable documentation.*

Referto: Chapter 4, "Prior Authorizations and Authorizations" for additional information.

Section 4.2.1, "Services that Require Authorization" in Chapter 4, "Prior Authorizations and Authorizations" for a list of some of the services requiring authorization.

Section 4.3.1, "Services that Require Prior Authorization" in Chapter 4, "Prior Authorizations and Authorizations" for a list of some of the services requiring prior authorization.

31.2.2 Aerosol Treatments/Inhalation Therapy

Aerosol therapy is a benefit of the CSHCN Services Program. Continuous inhalation treatment with aerosol medication for acute airway obstruction (procedure codes 94644 and 94645) is a benefit of the CSHCN Services Program when billed with the following diagnosis codes:

Diagnosis Code	Description
A221	Pulmonary anthrax
A3701	Whooping cough due to Bordetella pertussis with pneumonia
A3711	Whooping cough due to Bordetella parapertussis with pneumonia
A3781	Whooping cough due to other Bordetella species with pneumonia
A3791	Whooping cough, unspecified species with pneumonia
A481	Legionnaires' disease
B20	Human immunodeficiency virus [HIV] disease
B250	Cytomegaloviral pneumonitis
B440	Invasive pulmonary aspergillosis
B4481	Allergic bronchopulmonary aspergillosis
B59	Pneumocystosis
B7781	Ascariasis pneumonia
D5701	Hb-SS disease with acute chest syndrome
D57211	Sickle-cell/Hb-C disease with acute chest syndrome
D57411	Sickle-cell thalassemia with acute chest syndrome
D57811	Other sickle-cell disorders with acute chest syndrome
E840	Cystic fibrosis with pulmonary manifestations
E8411	Meconium ileus in cystic fibrosis
E8419	Cystic fibrosis with other intestinal manifestations
E848	Cystic fibrosis with other manifestations
E849	Cystic fibrosis, unspecified
J040	Acute laryngitis
J0410	Acute tracheitis without obstruction
J0411	Acute tracheitis with obstruction
J042	Acute laryngotracheitis
J0430	Supraglottitis, unspecified, without obstruction
J0431	Supraglottitis, unspecified, with obstruction
J050	Acute obstructive laryngitis [croup]
J0510	Acute epiglottitis without obstruction
J0511	Acute epiglottitis with obstruction
J060	Acute laryngopharyngitis
J069	Acute upper respiratory infection, unspecified
J120	Adenoviral pneumonia
J121	Respiratory syncytial virus pneumonia
J122	Parainfluenza virus pneumonia
J123	Human metapneumovirus pneumonia

Diagnosis Code	Description
J1281	Pneumonia due to SARS-associated coronavirus
J1289	Other viral pneumonia
J129	Viral pneumonia, unspecified
J13	Pneumonia due to Streptococcus pneumoniae
J14	Pneumonia due to Hemophilus influenzae
J150	Pneumonia due to Klebsiella pneumoniae
J151	Pneumonia due to Pseudomonas
J1520	Pneumonia due to staphylococcus, unspecified
J15211	Pneumonia due to Methicillin susceptible Staphylococcus aureus
J15212	Pneumonia due to Methicillin resistant Staphylococcus aureus
J1529	Pneumonia due to other staphylococcus
J153	Pneumonia due to streptococcus, group B
J154	Pneumonia due to other streptococci
J155	Pneumonia due to Escherichia coli
J156	Pneumonia due to other aerobic Gram-negative bacteria
J157	Pneumonia due to Mycoplasma pneumoniae
J158	Pneumonia due to other specified bacteria
J159	Unspecified bacterial pneumonia
J160	Chlamydial pneumonia
J168	Pneumonia due to other specified infectious organisms
J17	Pneumonia in diseases classified elsewhere
J180	Bronchopneumonia, unspecified organism
J181	Lobar pneumonia, unspecified organism
J188	Other pneumonia, unspecified organism
J189	Pneumonia, unspecified organism
J200	Acute bronchitis due to Mycoplasma pneumoniae
J201	Acute bronchitis due to Hemophilus influenzae
J202	Acute bronchitis due to streptococcus
J203	Acute bronchitis due to coxsackievirus
J204	Acute bronchitis due to parainfluenza virus
J205	Acute bronchitis due to respiratory syncytial virus
J206	Acute bronchitis due to rhinovirus
J207	Acute bronchitis due to echovirus
J208	Acute bronchitis due to other specified organisms
J210	Acute bronchiolitis due to respiratory syncytial virus
J211	Acute bronchiolitis due to human metapneumovirus
J218	Acute bronchiolitis due to other specified organisms
J384	Edema of larynx
J385	Laryngeal spasm

Diagnosis Code	Description
J393	Upper respiratory tract hypersensitivity reaction, site unspecified
J40	Bronchitis, not specified as acute or chronic
J410	Simple chronic bronchitis
J411	Mucopurulent chronic bronchitis
J418	Mixed simple and mucopurulent chronic bronchitis
J42	Unspecified chronic bronchitis
J430	Unilateral pulmonary emphysema [MacLeod's syndrome]
J431	Panlobular emphysema
J432	Centrilobular emphysema
J438	Other emphysema
J439	Emphysema, unspecified
J440	Chronic obstructive pulmonary disease with acute lower respiratory infection
J441	Chronic obstructive pulmonary disease with (acute) exacerbation
J449	Chronic obstructive pulmonary disease, unspecified
J4520	Mild intermittent asthma, uncomplicated
J4521	Mild intermittent asthma with (acute) exacerbation
J4522	Mild intermittent asthma with status asthmaticus
J4530	Mild persistent asthma, uncomplicated
J4531	Mild persistent asthma with (acute) exacerbation
J4532	Mild persistent asthma with status asthmaticus
J4540	Moderate persistent asthma, uncomplicated
J4541	Moderate persistent asthma with (acute) exacerbation
J4542	Moderate persistent asthma with status asthmaticus
J4550	Severe persistent asthma, uncomplicated
J4551	Severe persistent asthma with (acute) exacerbation
J4552	Severe persistent asthma with status asthmaticus
J45901	Unspecified asthma with (acute) exacerbation
J45902	Unspecified asthma with status asthmaticus
J45909	Unspecified asthma, uncomplicated
J45990	Exercise induced bronchospasm
J45991	Cough variant asthma
J45998	Other asthma
J470	Bronchiectasis with acute lower respiratory infection
J471	Bronchiectasis with (acute) exacerbation
J479	Bronchiectasis, uncomplicated
J670	Farmer's lung
J671	Bagassosis
J672	Bird fancier's lung
J673	Suberosis

Diagnosis Code	Description
J674	Maltworker's lung
J675	Mushroom-worker's lung
J676	Maple-bark-stripper's lung
J677	Air conditioner and humidifier lung
J678	Hypersensitivity pneumonitis due to other organic dusts
J810	Acute pulmonary edema
J99	Respiratory disorders in diseases classified elsewhere

On physician claims, nebulizers and metered-dose inhaler treatments must be billed with procedure code 94640, which is a benefit when billed with the following diagnosis codes:

Diagnosis Code	Description
A481	Legionnaires' disease
B20	Human immunodeficiency virus [HIV] disease
B4481	Allergic bronchopulmonary aspergillosis
B59	Pneumocystosis
D5701	Hb-SS disease with acute chest syndrome
D57211	Sickle-cell/Hb-C disease with acute chest syndrome
D57411	Sickle-cell thalassemia with acute chest syndrome
D57811	Other sickle-cell disorders with acute chest syndrome
J040	Acute laryngitis
J0410	Acute tracheitis without obstruction
J0411	Acute tracheitis with obstruction
J042	Acute laryngotracheitis
J050	Acute obstructive laryngitis [croup]
J0510	Acute epiglottitis without obstruction
J0511	Acute epiglottitis with obstruction
J200	Acute bronchitis due to <i>Mycoplasma pneumoniae</i>
J201	Acute bronchitis due to <i>Hemophilus influenzae</i>
J202	Acute bronchitis due to streptococcus
J203	Acute bronchitis due to coxsackievirus
J204	Acute bronchitis due to parainfluenza virus
J205	Acute bronchitis due to respiratory syncytial virus
J206	Acute bronchitis due to rhinovirus
J207	Acute bronchitis due to echovirus
J208	Acute bronchitis due to other specified organisms
J210	Acute bronchiolitis due to respiratory syncytial virus
J211	Acute bronchiolitis due to human metapneumovirus
J218	Acute bronchiolitis due to other specified organisms
J384	Edema of larynx

Diagnosis Code	Description
J385	Laryngeal spasm
J393	Upper respiratory tract hypersensitivity reaction, site unspecified
J398	Other specified diseases of upper respiratory tract
J40	Bronchitis, not specified as acute or chronic
J410	Simple chronic bronchitis
J430	Unilateral pulmonary emphysema [MacLeod's syndrome]
J431	Panlobular emphysema
J432	Centrilobular emphysema
J438	Other emphysema
J439	Emphysema, unspecified
J440	Chronic obstructive pulmonary disease with acute lower respiratory infection
J441	Chronic obstructive pulmonary disease with (acute) exacerbation
J449	Chronic obstructive pulmonary disease, unspecified
J4520	Mild intermittent asthma, uncomplicated
J4521	Mild intermittent asthma with (acute) exacerbation
J4522	Mild intermittent asthma with status asthmaticus
J4530	Mild persistent asthma, uncomplicated
J4531	Mild persistent asthma with (acute) exacerbation
J4532	Mild persistent asthma with status asthmaticus
J4540	Moderate persistent asthma, uncomplicated
J4541	Moderate persistent asthma with (acute) exacerbation
J4542	Moderate persistent asthma with status asthmaticus
J4550	Severe persistent asthma, uncomplicated
J4551	Severe persistent asthma with (acute) exacerbation
J4552	Severe persistent asthma with status asthmaticus
J45901	Unspecified asthma with (acute) exacerbation
J45902	Unspecified asthma with status asthmaticus
J45909	Unspecified asthma, uncomplicated
J45990	Exercise induced bronchospasm
J45991	Cough variant asthma
J45998	Other asthma
J470	Bronchiectasis with acute lower respiratory infection
J471	Bronchiectasis with (acute) exacerbation
J479	Bronchiectasis, uncomplicated
J670	Farmer's lung
J671	Bagassosis
J672	Bird fancier's lung
J673	Suberosis
J674	Maltworker's lung

Diagnosis Code	Description
J675	Mushroom-worker's lung
J676	Maple-bark-stripper's lung
J677	Air conditioner and humidifier lung
J678	Hypersensitivity pneumonitis due to other organic dusts
J810	Acute pulmonary edema
J9801	Acute bronchospasm
J9809	Other diseases of bronchus, not elsewhere classified
J99	Respiratory disorders in diseases classified elsewhere
T50995A	Adverse effect of other drugs, medicaments and biological substances, initial encounter
T50995D	Adverse effect of other drugs, medicaments and biological substances, subsequent encounter
T50995S	Adverse effect of other drugs, medicaments and biological substances, sequela

Pentamidine aerosol treatment (procedure codes 94642 and J2545) is a benefit of the CSHCN Services Program for diagnosis code B20, human immunodeficiency virus (HIV) disease, for the treatment of pneumocystis carinii.

Procedure code J7605 may be reimbursed when billed with the following diagnosis codes:

Diagnosis Code	Description
A150	Tuberculosis of lung
E840	Cystic fibrosis with pulmonary manifestations
J09X1	Influenza due to identified novel influenza A virus with pneumonia
J09X2	Influenza due to identified novel influenza A virus with other respiratory manifestations
J09X9	Influenza due to identified novel influenza A virus with other manifestations
J1000	Influenza due to other identified influenza virus with unspecified type of pneumonia
J1001	Influenza due to other identified influenza virus with the same other identified influenza virus pneumonia
J1008	Influenza due to other identified influenza virus with other specified pneumonia
J101	Influenza due to other identified influenza virus with other respiratory manifestations
J1100	Influenza due to unidentified influenza virus with unspecified type of pneumonia
J1108	Influenza due to unidentified influenza virus with specified pneumonia
J111	Influenza due to unidentified influenza virus with other respiratory manifestations
J121	Respiratory syncytial virus pneumonia
J15212	Pneumonia due to Methicillin resistant Staphylococcus aureus
J188	Other pneumonia, unspecified organism
J189	Pneumonia, unspecified organism
J210	Acute bronchiolitis due to respiratory syncytial virus
J211	Acute bronchiolitis due to human metapneumovirus
J218	Acute bronchiolitis due to other specified organisms

Diagnosis Code	Description
J398	Other specified diseases of upper respiratory tract
J410	Simple chronic bronchitis
J411	Mucopurulent chronic bronchitis
J418	Mixed simple and mucopurulent chronic bronchitis
J42	Unspecified chronic bronchitis
J430	Unilateral pulmonary emphysema [MacLeod's syndrome]
J431	Panlobular emphysema
J432	Centrilobular emphysema
J438	Other emphysema
J439	Emphysema, unspecified
J440	Chronic obstructive pulmonary disease with acute lower respiratory infection
J441	Chronic obstructive pulmonary disease with (acute) exacerbation
J449	Chronic obstructive pulmonary disease, unspecified
J4520	Mild intermittent asthma, uncomplicated
J4521	Mild intermittent asthma with (acute) exacerbation
J4522	Mild intermittent asthma with status asthmaticus
J4530	Mild persistent asthma, uncomplicated
J4531	Mild persistent asthma with (acute) exacerbation
J4532	Mild persistent asthma with status asthmaticus
J4540	Moderate persistent asthma, uncomplicated
J4541	Moderate persistent asthma with (acute) exacerbation
J4542	Moderate persistent asthma with status asthmaticus
J4550	Severe persistent asthma, uncomplicated
J4551	Severe persistent asthma with (acute) exacerbation
J4552	Severe persistent asthma with status asthmaticus
J45901	Unspecified asthma with (acute) exacerbation
J45902	Unspecified asthma with status asthmaticus
J45909	Unspecified asthma, uncomplicated
J45990	Exercise induced bronchospasm
J45991	Cough variant asthma
J45998	Other asthma
J470	Bronchiectasis with acute lower respiratory infection
J471	Bronchiectasis with (acute) exacerbation
J479	Bronchiectasis, uncomplicated
J60	Coalworker's pneumoconiosis
J61	Pneumoconiosis due to asbestos and other mineral fibers
J620	Pneumoconiosis due to talc dust
J628	Pneumoconiosis due to other dust containing silica
J630	Aluminosis (of lung)

Diagnosis Code	Description
J631	Bauxite fibrosis (of lung)
J632	Berylliosis
J633	Graphite fibrosis (of lung)
J634	Siderosis
J635	Stannosis
J64	Unspecified pneumoconiosis
J660	Byssinosis
J661	Flax-dressers' disease
J662	Cannabinosis
J668	Airway disease due to other specific organic dusts
J670	Farmer's lung
J671	Bagassosis
J672	Bird fancier's lung
J673	Suberosis
J674	Maltworker's lung
J675	Mushroom-worker's lung
J676	Maple-bark-stripper's lung
J677	Air conditioner and humidifier lung
J678	Hypersensitivity pneumonitis due to other organic dusts
J679	Hypersensitivity pneumonitis due to unspecified organic dust
J680	Bronchitis and pneumonitis due to chemicals, gases, fumes and vapors
J681	Pulmonary edema due to chemicals, gases, fumes and vapors
J682	Upper respiratory inflammation due to chemicals, gases, fumes and vapors, not elsewhere classified
J683	Other acute and subacute respiratory conditions due to chemicals, gases, fumes and vapors
J684	Chronic respiratory conditions due to chemicals, gases, fumes and vapors
J689	Unspecified respiratory condition due to chemicals, gases, fumes and vapors
J690	Pneumonitis due to inhalation of food and vomit
J691	Pneumonitis due to inhalation of oils and essences
J698	Pneumonitis due to inhalation of other solids and liquids
J700	Acute pulmonary manifestations due to radiation
J701	Chronic and other pulmonary manifestations due to radiation
J705	Respiratory conditions due to smoke inhalation
J708	Respiratory conditions due to other specified external agents
J709	Respiratory conditions due to unspecified external agent
J9801	Acute bronchospasm
J9809	Other diseases of bronchus, not elsewhere classified
Q334	Congenital bronchiectasis

Procedure code J7608 may be reimbursed when billed with the following diagnosis codes:

Diagnosis Code	Description
A150	Tuberculosis of lung
E840	Cystic fibrosis with pulmonary manifestations
J09X1	Influenza due to identified novel influenza A virus with pneumonia
J09X2	Influenza due to identified novel influenza A virus with other respiratory manifestations
J09X9	Influenza due to identified novel influenza A virus with other manifestations
J1000	Influenza due to other identified influenza virus with unspecified type of pneumonia
J1001	Influenza due to other identified influenza virus with the same other identified influenza virus pneumonia
J1008	Influenza due to other identified influenza virus with other specified pneumonia
J101	Influenza due to other identified influenza virus with other respiratory manifestations
J1100	Influenza due to unidentified influenza virus with unspecified type of pneumonia

J673	Suberosis
J674	Maltworker's lung
J675	Mushroom-worker's lung
J676	Maple-bark-stripper's lung
J677	Air conditioner and humidifier lung

Diagnosis Code	Description
J678	Hypersensitivity pneumonitis due to other organic dusts
J679	Hypersensitivity pneumonitis due to unspecified organic dust
J680	Bronchitis and pneumonitis due to chemicals, gases, fumes and vapors
J681	Pulmonary edema due to chemicals, gases, fumes and vapors
J682	Upper respiratory inflammation due to chemicals, gases, fumes and vapors, not elsewhere classified
J683	Other acute and subacute respiratory conditions due to chemicals, gases, fumes and vapors
J684	Chronic respiratory conditions due to chemicals, gases, fumes and vapors
J689	Unspecified respiratory condition due to chemicals, gases, fumes and vapors
J690	Pneumonitis due to inhalation of food and vomit
J691	Pneumonitis due to inhalation of oils and essences
J698	Pneumonitis due to inhalation of other solids and liquids
J700	Acute pulmonary manifestations due to radiation
J701	Chronic and other pulmonary manifestations due to radiation
J708	Respiratory conditions due to other specified external agents
J709	Respiratory conditions due to unspecified external agent
J9801	Acute bronchospasm
J9809	Other diseases of bronchus, not elsewhere classified
Q334	Congenital bronchiectasis

Procedure codes J7622, J7631, J7639, J7644, and J7682 may be reimbursed when billed with the following diagnosis codes:

Diagnosis Code	Description
A150	Tuberculosis of lung
E840	Cystic fibrosis with pulmonary manifestations
J09X1	Influenza due to identified novel influenza A virus with pneumonia
J09X2	Influenza due to identified novel influenza A virus with other respiratory manifestations
J09X9	Influenza due to identified novel influenza A virus with other manifestations
J1000	Influenza due to other identified influenza virus with unspecified type of pneumonia
J1001	Influenza due to other identified influenza virus with the same other identified influenza virus pneumonia
J1008	Influenza due to other identified influenza virus with other specified pneumonia
J101	Influenza due to other identified influenza virus with other respiratory manifestations
J1100	Influenza due to unidentified influenza virus with unspecified type of pneumonia
J1108	Influenza due to unidentified influenza virus with specified pneumonia
J111	Influenza due to unidentified influenza virus with other respiratory manifestations
J121	Respiratory syncytial virus pneumonia
J15212	Pneumonia due to Methicillin resistant Staphylococcus aureus

Diagnosis Code	Description
J188	Other pneumonia, unspecified organism
J189	Pneumonia, unspecified organism
J210	Acute bronchiolitis due to respiratory syncytial virus
J211	Acute bronchiolitis due to human metapneumovirus
J218	Acute bronchiolitis due to other specified organisms
J398	Other specified diseases of upper respiratory tract
J410	Simple chronic bronchitis
J411	Mucopurulent chronic bronchitis
J418	Mixed simple and mucopurulent chronic bronchitis
J42	Unspecified chronic bronchitis
J430	Unilateral pulmonary emphysema [MacLeod's syndrome]
J431	Panlobular emphysema
J432	Centrilobular emphysema
J438	Other emphysema
J439	Emphysema, unspecified
J440	Chronic obstructive pulmonary disease with acute lower respiratory infection
J441	Chronic obstructive pulmonary disease with (acute) exacerbation
J449	Chronic obstructive pulmonary disease, unspecified
J4520	Mild intermittent asthma, uncomplicated
J4521	Mild intermittent asthma with (acute) exacerbation
J4522	Mild intermittent asthma with status asthmaticus
J4530	Mild persistent asthma, uncomplicated
J4531	Mild persistent asthma with (acute) exacerbation
J4532	Mild persistent asthma with status asthmaticus
J4540	Moderate persistent asthma, uncomplicated
J4541	Moderate persistent asthma with (acute) exacerbation
J4542	Moderate persistent asthma with status asthmaticus
J4550	Severe persistent asthma, uncomplicated
J4551	Severe persistent asthma with (acute) exacerbation
J4552	Severe persistent asthma with status asthmaticus
J45901	Unspecified asthma with (acute) exacerbation
J45902	Unspecified asthma with status asthmaticus
J45909	Unspecified asthma, uncomplicated
J45990	Exercise induced bronchospasm
J45991	Cough variant asthma
J45998	Other asthma
J470	Bronchiectasis with acute lower respiratory infection
J471	Bronchiectasis with (acute) exacerbation
J479	Bronchiectasis, uncomplicated

Diagnosis Code	Description
J60	Coalworker's pneumoconiosis
J61	Pneumoconiosis due to asbestos and other mineral fibers
J620	Pneumoconiosis due to talc dust
J628	Pneumoconiosis due to other dust containing silica
J630	Aluminosis (of lung)
J631	Bauxite fibrosis (of lung)
J632	Berylliosis
J633	Graphite fibrosis (of lung)
J634	Siderosis
J635	Stannosis
J64	Unspecified pneumoconiosis
J660	Byssinosis
J661	Flax-dressers' disease
J662	Cannabinosis
J668	Airway disease due to other specific organic dusts
J670	Farmer's lung
J671	Bagassosis
J672	Bird fancier's lung
J673	Suberosis
J674	Maltworker's lung
J675	Mushroom-worker's lung
J676	Maple-bark-stripper's lung
J677	Air conditioner and humidifier lung
J678	Hypersensitivity pneumonitis due to other organic dusts
J679	Hypersensitivity pneumonitis due to unspecified organic dust
J680	Bronchitis and pneumonitis due to chemicals, gases, fumes and vapors
J681	Pulmonary edema due to chemicals, gases, fumes and vapors
J682	Upper respiratory inflammation due to chemicals, gases, fumes and vapors, not elsewhere classified
J683	Other acute and subacute respiratory conditions due to chemicals, gases, fumes and vapors
J684	Chronic respiratory conditions due to chemicals, gases, fumes and vapors
J689	Unspecified respiratory condition due to chemicals, gases, fumes and vapors
J690	Pneumonitis due to inhalation of food and vomit
J691	Pneumonitis due to inhalation of oils and essences
J698	Pneumonitis due to inhalation of other solids and liquids
J700	Acute pulmonary manifestations due to radiation
J701	Chronic and other pulmonary manifestations due to radiation
J708	Respiratory conditions due to other specified external agents
J709	Respiratory conditions due to unspecified external agent

Diagnosis Code	Description
J9801	Acute bronchospasm
J9809	Other diseases of bronchus, not elsewhere classified
Q334	Congenital bronchiectasis

Procedure code J7626 may be reimbursed when billed with the following diagnosis codes:

Diagnosis Code	Description
A150	Tuberculosis of lung
E840	Cystic fibrosis with pulmonary manifestations
J09X1	Influenza due to identified novel influenza A virus with pneumonia
J09X2	Influenza due to identified novel influenza A virus with other respiratory manifestations
J09X9	Influenza due to identified novel influenza A virus with other manifestations
J1000	Influenza due to other identified influenza virus with unspecified type of pneumonia
J1001	Influenza due to other identified influenza virus with the same other identified influenza virus pneumonia
J1008	Influenza due to other identified influenza virus with other specified pneumonia
J101	Influenza due to other identified influenza virus with other respiratory manifestations
J1100	Influenza due to unidentified influenza virus with unspecified type of pneumonia
J1108	Influenza due to unidentified influenza virus with specified pneumonia
J111	Influenza due to unidentified influenza virus with other respiratory manifestations
J121	Respiratory syncytial virus pneumonia
J15212	Pneumonia due to Methicillin resistant Staphylococcus aureus
J188	Other pneumonia, unspecified organism
J189	Pneumonia, unspecified organism
J210	Acute bronchiolitis due to respiratory syncytial virus
J211	Acute bronchiolitis due to human metapneumovirus
J218	Acute bronchiolitis due to other specified organisms
J398	Other specified diseases of upper respiratory tract
J410	Simple chronic bronchitis
J411	Mucopurulent chronic bronchitis
J418	Mixed simple and mucopurulent chronic bronchitis
J42	Unspecified chronic bronchitis
J430	Unilateral pulmonary emphysema [MacLeod's syndrome]
J431	Panlobular emphysema
J432	Centrilobular emphysema
J438	Other emphysema
J439	Emphysema, unspecified
J440	Chronic obstructive pulmonary disease with acute lower respiratory infection
J441	Chronic obstructive pulmonary disease with (acute) exacerbation

Diagnosis Code	Description
J449	Chronic obstructive pulmonary disease, unspecified
J4520	Mild intermittent asthma, uncomplicated
J4521	Mild intermittent asthma with (acute) exacerbation
J4522	Mild intermittent asthma with status asthmaticus
J4530	Mild persistent asthma, uncomplicated
J4531	Mild persistent asthma with (acute) exacerbation
J4532	Mild persistent asthma with status asthmaticus
J4540	Moderate persistent asthma, uncomplicated
J4541	Moderate persistent asthma with (acute) exacerbation
J4542	Moderate persistent asthma with status asthmaticus
J4550	Severe persistent asthma, uncomplicated
J4551	Severe persistent asthma with (acute) exacerbation
J4552	Severe persistent asthma with status asthmaticus
J45901	Unspecified asthma with (acute) exacerbation
J45902	Unspecified asthma with status asthmaticus
J45909	Unspecified asthma, uncomplicated
J45990	Exercise induced bronchospasm
J45991	Cough variant asthma
J45998	Other asthma
J470	Bronchiectasis with acute lower respiratory infection
J471	Bronchiectasis with (acute) exacerbation
J479	Bronchiectasis, uncomplicated
J60	Coalworker's pneumoconiosis

J441	Chronic obstructive pulmonary disease with (acute) exacerbation
J449	Chronic obstructive pulmonary disease, unspecified
J4520	Mild intermittent asthma, uncomplicated
J4521	Mild intermittent asthma with (acute) exacerbation
J4522	Mild intermittent asthma with status asthmaticus
J4530	Mild persistent asthma, uncomplicated
J4531	Mild persistent asthma with (acute) exacerbation
J4532	Mild persistent asthma with status asthmaticus
J4540	Moderate persistent asthma, uncomplicated
J4541	Moderate persistent asthma with (acute) exacerbation
J4542	Moderate persistent asthma with status asthmaticus
J4550	Severe persistent asthma, uncomplicated
J4551	Severe persistent asthma with (acute) exacerbation
J4552	Severe persistent asthma with status asthmaticus
J45901	Unspecified asthma with (acute) exacerbation
J45902	Unspecified asthma with status asthmaticus
J45909	Unspecified asthma, uncomplicated
J45990	Exercise induced bronchospasm

Diagnosis Code	Description
J45991	Cough variant asthma
J45998	Other asthma
J470	Bronchiectasis with acute lower respiratory infection
J471	Bronchiectasis with (acute) exacerbation
J479	Bronchiectasis, uncomplicated
J60	Coalworker's pneumoconiosis
J61	Pneumoconiosis due to asbestos and other mineral fibers
J620	Pneumoconiosis due to talc dust
J628	Pneumoconiosis due to other dust containing silica
J630	Aluminosis (of lung)
J631	Bauxite fibrosis (of lung)
J632	Berylliosis
J633	Graphite fibrosis (of lung)
J634	Siderosis
J635	Stannosis
J64	Unspecified pneumoconiosis
J660	Byssinosis
J661	Flax-dressers' disease
J662	Cannabinosis
J668	Airway disease due to other specific organic dusts
J670	Farmer's lung
J671	Bagassosis
J672	Bird fancier's lung
J673	Suberosis
J674	Maltworker's lung
J675	Mushroom-worker's lung
J676	Maple-bark-stripper's lung
J677	Air conditioner and humidifier lung
J678	Hypersensitivity pneumonitis due to other organic dusts
J679	Hypersensitivity pneumonitis due to unspecified organic dust
J680	Bronchitis and pneumonitis due to chemicals, gases, fumes and vapors
J681	Pulmonary edema due to chemicals, gases, fumes and vapors
J682	Upper respiratory inflammation due to chemicals, gases, fumes and vapors, not elsewhere classified
J683	Other acute and subacute respiratory conditions due to chemicals, gases, fumes and vapors
J684	Chronic respiratory conditions due to chemicals, gases, fumes and vapors
J689	Unspecified respiratory condition due to chemicals, gases, fumes and vapors
J690	Pneumonitis due to inhalation of food and vomit
J691	Pneumonitis due to inhalation of oils and essences

Diagnosis Code	Description
J698	Pneumonitis due to inhalation of other solids and liquids
J700	Acute pulmonary manifestations due to radiation
J701	Chronic and other pulmonary manifestations due to radiation
J708	Respiratory conditions due to other specified external agents
J709	Respiratory conditions due to unspecified external agent
J9801	Acute bronchospasm
J9809	Other diseases of bronchus, not elsewhere classified
Q334	Congenital bronchiectasis

31.2.3 Allergy Services

Allergy testing and desensitization are benefits of the CSHCN Services Program.

Providers must use the following procedure codes to bill for allergy testing:

Procedure Codes				
86001	86003	86005	86486	95004
95017	95018	95024	95027	95028
95076	95180	95199		

Allergy blood testing (procedure codes 86001, 86003, and 86005) are a benefit of the CSHCN Services Program under the following circumstances:

- The client is unable to discontinue medications
- An allergy skin test is inappropriate for the client because of the following reasons:
 - The client is pediatric
 - The client is disabled
 - The client suffers from a skin condition such as dermatitis

Procedure code 86001 is limited to 20 allergens per rolling year, any provider. Procedure code 86003 is limited to 30 allergens per rolling year, any provider. Procedure code 86005 is limited to 4 screenings per rolling year, same provider.

Providers must indicate the number of allergens tested in the Units field in Block 24G of the CMS-1500 paper claim form. If the number of tests is not indicated in this field, payment is made for only one test.

31.2.3.1 Collagen Skin Tests

Collagen skin tests are a benefit of the CSHCN Services Program and may be reimbursed using procedure code Q3031.

Collagen skin tests are administered to detect a hypersensitivity to bovine collagen. This skin test is given four weeks prior to any type of surgical procedure which utilizes collagen.

31.2.3.2 Prior Authorization Requirements

Allergy services generally do not require prior authorization; however, prior authorization is required for unlisted procedure code 95199 and when benefit limitations are exceeded for procedure codes 86001, 86003, and 86005.

Every effort should be made to use the appropriate Healthcare Common Procedure Coding System (HCPCS) or Current Procedural terminology (CPT) procedure code which describes the procedure being performed. If a procedure code does not exist to describe the service performed, procedure code 95199 should be submitted with appropriate documentation to assist in determining coverage. The documentation submitted must include all of the following:

- The client's diagnosis
- Medical records indicating prior treatment for this diagnosis and the medical necessity of the requested procedure
- A clear, concise description of the procedure to be performed
- Reason for recommending the procedure
- A CPT or HCPCS procedure code that is comparable to the procedure being requested
- Documentation that the procedure is not investigational or experimental
- Place of service the procedure is to be performed
- The physician's intended fee for this procedure

Requests for prior authorization of procedure codes 86001, 86003, and 86005 must be submitted with documentation of medical necessity and include all of the following:

- Results of any previous treatment
- Documentation indicating that the client's treatment could not be completed within the policy limits for the requested procedures
- Client diagnosis and conditions that support the medical necessity for the additional procedures requested
- Explanation of client outcomes that the requested procedures will achieve

Prior authorization requests must be submitted using the [CSHCN Services Program Authorization and Prior Authorization Request Form](#).

31.2.4 Ambulatory Blood Pressure Monitoring

Ambulatory blood pressure monitoring is a benefit of the CSHCN Services Program when used as a diagnostic tool to assist a physician in diagnosing hypertension in individuals whose blood pressure is either elevated, or inconclusive when evaluated in the office alone.

Procedure codes 93784, 93786, 93788, and 93790 are a benefit for diagnostic purposes only and should not be used for maintenance monitoring. Ambulatory blood pressure monitoring is indicated for the evaluation of one of the following conditions:

- White coat hypertension, which includes all of the following:
 - A clinic or office blood pressure measurement greater than 140/90 mm Hg on at least three separate clinic or office visits with two separate measurements made at each visit
 - At least two documented separate blood pressure measurements taken outside the clinic or office, which are less than 140/90 mm Hg
 - No evidence of end-organ damage
- Resistant hypertension
- Evaluation of hypotensive symptoms as a response to hypertension medications
- Nocturnal angina
- Episodic hypertension

- Evaluation of syncope

Providers must document that the ambulatory blood pressure monitoring was performed for at least 24 hours.

Ambulatory blood pressure monitoring is limited to two services per lifetime, any provider. Claims that exceed the limitation of two services per lifetime may be considered for reimbursement when documentation of medical necessity is submitted with the claim.

31.2.5 Anesthesia Services

Anesthesia services are a benefit of the CSHCN Services Program and may be reimbursed to anesthesiologists, certified registered nurse anesthetists (CRNAs), anesthesiologist assistants (AA), and other qualified professionals.

Anesthesia must be administered by an anesthesia practitioner. An anesthesia practitioner is defined as the following:

- An anesthesiologist performing the anesthesia service alone
- A CRNA who is either medically directed or not medically directed
- An AA performing delegated services
- A qualified professional as identified by the Texas Medical Board performing delegated services

Authorization is not required for anesthesia services. Specific surgical procedures, however, may require prior authorization. Anesthesia may be reimbursed if prior authorization for the surgical procedure was not obtained, but services provided by the facility, surgeon, and assistant surgeon are denied.

For time-based anesthesiology procedure codes, anesthesia practitioners must document interruptions in anesthesia time in the client's medical record. Anesthesia time begins when the anesthesia practitioner begins to prepare the client for the induction of anesthesia in the operating room or the equivalent area and ends when the anesthesia practitioner is no longer in personal attendance (e.g., when the client may be safely placed under postoperative supervision).

The anesthesiologist who medically directs the CRNA, AA, or other qualified professional must document the same time that the CRNA, AA, or other qualified professional documents.

Time units are determined on the basis of one time unit for each 15 minutes of anesthesia. Providers must submit the total anesthesia time in minutes on the claim. The claims administrator will convert total minutes to time units.

Anesthesia services for obstetrical or family planning procedures are not a benefit of the CSHCN Services Program.

Local, regional, or general anesthesia provided by a surgeon is not a separately payable benefit of the CSHCN Services Program when performed by the operating surgeon. If anesthesia services are provided and modifier 47 is used, the services are included in the global fee for the surgical procedure.

31.2.5.1 Medical Direction

Personal medical direction of an anesthesia practitioner (CRNA, AA, or other qualified professional) by an anesthesiologist is a benefit of the CSHCN Services Program if the following criteria are met:

- No more than four anesthesia procedures are being performed concurrently.

Exception: *Anesthesiologists may simultaneously supervise more than a combination of four CRNAs, AAs, or other qualified professionals, as defined by the Texas Medical Board under emergency circumstances.*

- The anesthesiologist is physically present in the operating suite.

Medical direction is a covered service only if all of the following criteria are met:

- The anesthesiologist performs a preanesthetic examination and evaluation.
- The anesthesiologist prescribes the anesthesia plan.
- The anesthesiologist personally participates in the critical and key portions of the anesthesia plan, including induction and emergence, if applicable.
- The anesthesiologist must ensure that a qualified professional, including anesthesiologist assistants, can perform any procedures in the anesthesia plan that the anesthesiologist does not perform personally.
- The anesthesiologist monitors the course of anesthesia administration at frequent intervals.
- The anesthesiologist must provide direct supervision when medically directing an anesthesia procedure. Direct supervision means the anesthesiologist must be immediately available to furnish assistance and direction.
- The anesthesiologist provides indicated postanesthesia care.
- The anesthesiologist does not perform any other services (except as noted below) during the same time period. The anesthesiologist directing the administration of no more than four anesthesia procedures may provide the following without affecting the eligibility of the medical direction services:
 - Address an emergency of short duration in the immediate area.
 - Administer an epidural or caudal anesthetic to ease labor pain for a client who is not enrolled in the CSHCN Services Program.
 - Provide periodic, rather than continuous, monitoring of an obstetrical client who is not enrolled in the CSHCN Services Program.
 - Receive clients entering the operating suite for the next surgery.
 - Check or discharge clients in the recovery room.
 - Handle scheduling matters.

An anesthesiologist may medically direct up to four concurrent anesthesia procedures. Concurrent medical direction refers to involvement of the anesthesiologist in directing two, three, or four current anesthesia procedures.

Concurrency is defined as the maximum number of procedures that the anesthesiologist is medically directing within the context of a single procedure and whether those other procedures overlap each other. Concurrency is not dependent on each of the cases involving a CSHCN Services Program client. For example, if three procedures are medically directed but only two involve CSHCN Services Program clients, the CSHCN Services Program claims should be billed as concurrent medical direction of three procedures.

The following information must be available to the state upon request and is subject to retrospective review:

- The name of each CRNA, AA, and other qualified professional concurrently being medically directed or supervised and a description of the procedure that was performed must be documented and maintained on file.
- Signatures of the anesthesiologist, CRNAs, AAs, or other qualified professionals involved in administering anesthesia services must be documented in the client's medical record.
- For medical direction, the anesthesiologist must document in the client's medical record that he or she:
 - Performed the pre-anesthetic exam and evaluation.

- Provided the indicated post-anesthesia care.
- Was present during the critical and key portions of the anesthesia procedure including, if applicable, induction and emergence.
- Was present during the anesthesia procedure to monitor the client's status.

31.2.5.2 Monitored Anesthesia Care

Monitored anesthesia care may include any of the following:

- Intraoperative monitoring by an anesthesiologist or qualified professional under the medical direction of an anesthesiologist.
- Monitoring the client's vital physiological signs in anticipation of the need for general anesthesia.
- Monitoring the client to detect development of an adverse physiological reaction to a surgical procedure.

31.2.5.3 Anesthesia Modifiers

Each anesthesia procedure code must be submitted with the appropriate anesthesia modifier(s) whether billing as the sole provider or for the medical direction of CRNAs, AAs, or other qualified professionals.

When an anesthesia procedure is billed without the appropriate reimbursement modifiers, or is billed with modifier combinations other than those listed in this section, the claim is denied.

A claim billed with a modifier indicating that the anesthesia was not medically directed or medically supervised (modifier AD, QK, QX, or QY) is denied if a previous claim has been billed with a modifier indicating the service was personally performed (modifier AA or QZ) and is reimbursed for the same client, date of service, and procedure code.

A claim billed with a modifier indicating that the anesthesia was personally performed by an anesthesiologist (modifier AA) is denied if another claim has been paid indicating the service was personally performed by, and reimbursed to, a CRNA (modifier QZ) for the same client, date of service, and procedure code. The opposite is also true—a CRNA-administered procedure is denied if a previous claim was paid to an anesthesiologist for the same client, date of service, and procedure code. Denied claims may be appealed with supporting documentation of any unusual circumstances.

31.2.5.3.1 State-Defined Modifiers

Modifiers U1 (indicating one anesthesia claim is expected) and U2 (indicating two anesthesia claims are expected) are state-defined modifiers that may be billed by an anesthesiologist, CRNA, AA, or other qualified professional.

Modifier EP indicates that the anesthesia was performed with dental services.

Modifier U1 indicating that only one claim will be submitted, cannot be billed by two providers for the same procedure, client, and date of service. Modifier U2, indicating that two claims will be submitted, can only be billed by two providers for the same procedure, client, and date of service if one of the providers was medically directed by the other. Denied claims may be appealed with supporting documentation of any unusual circumstances.

Anesthesia providers must submit the modifier U1 or U2 in combination with an appropriate pricing modifier when billing for any payable anesthesia procedure codes.

31.2.5.3.2 Anesthesiologist Services and Modifier Combinations

When a single claim per client is billed by the anesthesiologist for personally performing the anesthesia service, the AA and U1 modifier combination must be billed together.

Anesthesiologists may be reimbursed for medical direction of anesthesia practitioners by using one of the following modifier combinations:

Modifier Combination		
Submitted by Anesthesiologist	When is it used?	Who will submit claims?
Anesthesiologist Providing Medical Direction or Medical Supervision to Other Qualified Professionals		
QY and U1	When a single claim per client is billed by the anesthesiologist for medically directing anesthesia services of an anesthesia procedure provided by one CRNA, AA, or other qualified professional	Only the anesthesiologist
QK and U1	When a single claim per client is billed by the anesthesiologist for medically directing anesthesia services of two, three, or four concurrent anesthesia procedures provided by CRNAs, AAs, or other qualified professionals.	Only the anesthesiologist
AD and U1 (emergency circumstances only)	When a single claim per client is billed by the anesthesiologist for medically supervising anesthesia services provided by more than four concurrent procedures that are provided by a CRNA, AA, or other qualified professional. The AD modifier must be used in emergency circumstances only and limited to 6 units (90 minutes maximum) per case for each occurrence requiring supervision of five or more concurrent procedures.	Only the anesthesiologist
Anesthesiologist Providing Medical Direction or Medical Supervision of CRNAs or AAs		
QY and U2	When two claims per client are billed, one by the medically directing anesthesiologist and one by the CRNA, AA, or other qualified professional.	Both the anesthesiologist and CRNA, AA, or other qualified professional
QK and U2	When two claims per client are billed for medically directing anesthesia services of two, three, or four concurrent anesthesia procedures provided by CRNA(s), AA(s), or other qualified professionals.	Both the anesthesiologist and CRNA(s), AA(s), or other qualified professional

Modifier Combination Submitted by Anesthesiologist	When is it used?	Who will submit claims?
AD and U2 (emergency circumstances only)	When two claims per client are billed for medically supervising more than four concurrent anesthesia procedures provided by CRNA(s), AA(s), or other qualified professionals. The AD modifier must be used in emergency circumstances only and limited to 6 units (90 minutes maximum) per case for each occurrence requiring supervision of five or more concurrent procedures.	Both the anesthesiologist and CRNA(s), AA(s), or other qualified professional

31.2.5.3.3 CRNA or AA Services and Modifier Combinations

Modifiers QZ and U1 must be submitted when a CRNA or AA has personally performed the anesthesia services, is not medically directed by the anesthesiologist, and is directed by the physician.

Modifiers QX and U2 must be submitted by a CRNA, AA, or other qualified professional who provided services under the medical direction of an anesthesiologist.

31.2.5.3.4 Monitored Anesthesia Care

Anesthesiologists, CRNAs, AAs, or other qualified professionals may use modifier QS to report monitored anesthesia care.

The QS modifier is an informational modifier, and must be billed with any combination of pricing modifiers for reimbursement.

31.2.5.4 Dental General Anesthesia

Procedure code 00170 with modifier EP should be used when billing for the appropriate reimbursement of dental general anesthesia.

Referto: Chapter 14, "Dental" for more information about dental services.

31.2.5.5 Reimbursement

To be reimbursed, providers of anesthesia services must include the following on submitted claims:

- Appropriate national anesthesia procedure codes
- Correct modifier(s)
- Name of the anesthesiologist, CRNA, or medically directed AA administering the anesthesia
- Exact amount of face-to-face time with the client

If procedure code 01996 is used, it must be reported as a medical service rather than an anesthesia service.

The anesthesiologist's reimbursement for medical direction of CRNAs, AAs, and other qualified professionals is 75 percent of the maximum allowable fee.

The CRNA's or AA's reimbursement for performing an anesthesia service when directed by a surgeon or anesthesiologist is 92 percent of the maximum allowable fee.

Referto: Chapter 12, "Certified Registered Nurse Anesthetist (CRNA)" for more information on CRNA services.

If multiple CRNAs, anesthesiologists, or anesthesiologist assistants under anesthesiologist supervision are providing anesthesia services for a client, only one CRNA or AA and one anesthesiologist may be reimbursed.

Procedure codes 99100, 99116, 99135, and 99140 are qualifying circumstances that impact the character of the anesthesia services provided. These procedures are not payable alone, but are payable in addition to the anesthesia service. Documentation supporting the medical necessity for use of these procedure codes may be subject to retrospective review.

31.2.5.6 Conversion Factor

A conversion factor is the multiplier that transforms relative value into payment amounts. There is a standard conversion factor for anesthesia services that can be obtained from the online fee lookup on the TMHP website at www.tmhp.com.

31.2.5.7 Time-Based Fees

Reimbursement of time-based anesthesia services is defined as [(Minutes/15) + Relative Value Units (RVUs)] x Conversion Factor = Anesthesia Reimbursement. It is derived from the following steps:

- 1) Divide the total anesthesia time in minutes (the time of all procedures performed, directed or supervised) by 15.

Add the RVUs for the procedure performed (use the procedure with the highest RVUs when multiple procedures are performed at the same time).

Multiply this sum by the appropriate conversion factor.

Reimbursement of time-based fees requires documentation of exact time in minutes of face-to-face time with the client.

If anesthesia services are performed for two surgical procedures at separate times during the same date of service, both may be reimbursed based on the documentation submitted with the claim.

31.2.6 Audiometry/Hearing Services

The CSHCN Services Program may reimburse appropriately-enrolled providers for audiometry and other hearing services.

Authorization is not required for hearing services provided by physicians.

Referto: Chapter 20, "Hearing Services" for more information about hearing services.

CSHCN Services Program clients who are 17 years of age or older, legal residents of the state of Texas, and are employable, may be eligible for assistance from the Department of Assistive and Rehabilitative Services (DARS). The CSHCN Services Program is the payer of last resort and may request that clients meeting these requirements apply to DARS.

31.2.7 Augmentative Communication Devices (ACDs)

The purchase, rental, replacement, modification, and repair of ACDs that function independently of any other technology (i.e., may not rely on a computer in any way) are benefits of the CSHCN Services Program when medically necessary.

Referto: Chapter 10, "Augmentative Communication Devices (ACDs)."

31.2.8 Biofeedback Services

Biofeedback is a form of therapy in which a physiologic activity is monitored, amplified, and conveyed by visual or acoustic signals. Procedure codes 90901 and 90911 may be benefits of the CSHCN Services Program for biofeedback services.

The CSHCN Services Program will cover biofeedback services with prior authorization for clients who are 4 years of age and older with the following conditions:

- Urinary incontinence (i.e., stress, urge, overflow, mixed)
- Fecal incontinence

Procedure codes 90901 and 90911 are limited to one procedure code for each date of service by any provider to include all modalities of the services performed during a specific session regardless of the number of modalities performed.

Any device used during a biofeedback session is considered part of the procedure and will not be reimbursed separately.

31.2.8.1 Medical Record Documentation

The physician must provide correct and complete information including documentation establishing medical necessity of the service requested, which must remain in the client's medical record and maintain the record of the performing staff member(s) certification. Claims may be subject to retrospective review.

31.2.8.2 Provider Certification

Biofeedback services must be performed by a staff member who is certified by Biofeedback Certification International Alliance (BCIA). The accepted certification types are:

Certification Type	Description
General biofeedback certification (BCB)	Professionals certified in general biofeedback covering all modalities such as SEMG, Thermal, GSR, HRV, and an overview of neurofeedback.
Pelvic muscle dysfunction biofeedback certification (BCB-PMD)	Professionals certified to use SEMG biofeedback to treat elimination disorders including incontinence and pelvic pain.

31.2.8.3 Authorization Requirements

Prior authorization is required for biofeedback services.

The number of sessions prior authorized will not exceed a total of 12 sessions and will not exceed a total duration of 12 weeks. The following documentation must be submitted for consideration of prior authorization:

- Failure of pharmacotherapy and behavioral training
- Evidence of dyssynergic or non-relaxing detrusor/voluntary sphincter activity based on urodynamic evaluation to include urinary flow testing and complex cystometry
- The client has agreed to actively participate in the biofeedback sessions
- Diagnosis of fecal, stress, urge, overflow, or a mix of stress and urge incontinence
- Medical records indicate that the physician has excluded any underlying medical conditions that could be causing the problem
- For clients who are 21 years of age or older with a diagnosis of stress, urge, overflow, or a mix of stress and urge incontinence, the medical records must indicate failed pelvic muscle exercise (PME) service

Note: A failed trial of PME training is defined as no clinically significant improvement in urinary incontinence after completing 4 weeks of PME exercises.

After completion of the initial biofeedback treatment course, prior authorization may be considered for a total of 6 follow-up sessions not to exceed 3 sessions per week and total duration not to exceed 8 weeks. Prior authorization documentation submitted must be for the same condition as the original request, must include each original symptom, and how the symptom has objectively improved. The documentation may include, but is not limited to:

- For urinary incontinence, the biofeedback therapy should result in improvement of continence scores. There should be a decrease in high-grade stress incontinence, nocturnal enuresis, and loss of urine during activity. For clients who are 21 years of age and older, the pelvic floor muscle contraction strength should improve with the ability to hold the contractions longer and to increase repetitions.
- For fecal incontinence, the biofeedback therapy should result in improvement of continence scores. Squeeze and anal pressures, squeeze duration, and for clients who are 21 years of age and older, pelvic floor muscle contraction strength should show improvement.

Total authorized sessions for any combination of procedure codes 90901 and 90911, including the 12 initial sessions and 6 follow-up sessions, will not exceed 18 sessions for urinary or fecal incontinence conditions.

31.2.8.4 Noncovered Services

Neurofeedback (i.e., EEG biofeedback) is not a benefit of the CSHCN Services Program.

31.2.9 Blood Factor Products

Blood factor products are benefits of the CSHCN Services Program.

When submitting claims, products must be identified by the National Drug Code (NDC), and the following procedure codes must be used:

Procedure Codes									
C9140	J7175	J7179	J7180	J7181	J7183	J7185	J7186	J7187	J7188
J7189	J7190	J7192	J7193	J7194	J7195	J7198	J7200	J7201	J7202
J7205	J7207	J7209							

Procedure codes J7201, J7202, and J7205 are a benefit with diagnosis codes D66, D682, D688, and D689.

Procedure codes J7175, J7180, J7181, and J7200 are a benefit with diagnosis codes D682, D688, and D689.

Procedure code J7183 is a benefit with diagnosis code D680.

Procedure codes J7186, J7187, and J7179 are a benefit with diagnosis codes D66 and D680.

Procedure code J7189 is a benefit with diagnosis codes D66, D67, D682, D68311, D684, D688, D689, and Z140.

Procedure codes C9140, J7185, J7188, J7190, J7192, J7198, J7207, and J7209 are benefits with diagnosis codes D66, D67, D681, D682, D68311, D688, and D689.

Procedure codes J7193, J7194, and J7195 are benefits with diagnosis code D67.

The following table lists the descriptions for the above mentioned diagnosis codes:

Diagnosis Code	Description
D66	Hereditary factor VIII deficiency
D67	Hereditary factor IX deficiency

Diagnosis Code	Description
D680	Von Willebrand's disease
D681	Hereditary factor XI deficiency
D682	Hereditary deficiency of other clotting factors
D68311	Acquired hemophilia
D684	Acquired coagulation factor deficiency
D688	Other specified coagulation defects
D689	Coagulation defect, unspecified
Z1402	Symptomatic hemophilia A carrier

Medical review is required for approval of blood factor products for any diagnosis other than those listed above. Requests must be submitted on the [CSHCN Services Program Authorization and Prior Authorization Request for Hemophilia Blood Factor Products form](#).

Claims must be submitted with the quantity and number of units of blood factor products that were provided.

- On electronic claims, enter the following information:
 - Quantity Billed field --Enter a quantity of 1 for the blood factor product procedure code.
 - NDC QTY field --Indicate the number of units provided.
- On paper claim forms, enter the number of blood factor units provided in Block 24G.

Reimbursement of professional services for blood factor products is the lower of the billed amount or 70 percent of the rate allowed by Texas Medicaid.

31.2.10 Bone Growth Stimulators

Internal (implanted) or external (not implanted) bone growth (osteogenic) stimulators are a benefit of the CSHCN Services Program.

Electromagnetic bone growth stimulators promote healthy bone growth and repair by low intensity electrical stimulation. Electrical stimulation is provided by implanting low-voltage electrodes within the tissue surrounding the bone (internal) or by external placement of a device which transmits low-voltage currents through the soft tissue to the bone (external).

Ultrasonic bone growth stimulators promote healthy bone growth and repair through low-intensity pulsed ultrasound waves.

Bone growth stimulators are a benefit for skeletally mature individuals only.

Bone growth stimulation (procedure codes 20974, 20975, and 20979) is limited to one service every six months. Bone growth stimulation for a second fracture that occurs during the six-month limitation period may be considered on appeal with documentation of medical necessity that supports that the criteria have been met for the second fracture.

Referto: Section 31.2.10.1, "Prior Authorization Requirements for Bone Growth Stimulators" in this chapter for information about prior authorization requirements for procedure codes 20974, 20975, and 20979.

Due to the short life of the equipment, osteogenic stimulators are purchased.

An ultrasonic bone growth stimulator may not be reimbursed concurrently with other noninvasive bone growth stimulation devices.

Monitoring the effectiveness of bone growth stimulation treatment should be billed as the appropriate evaluation and management (E/M) code.

Physician services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

Durable medical equipment (DME) may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

31.2.10.1 Prior Authorization Requirements for Bone Growth Stimulators

Prior authorization is required for bone growth stimulator devices. Inpatient admissions require prior authorization. Ambulatory or day surgery requires authorization.

Prior authorization requests for bone stimulator devices must be submitted on the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#).

A completed [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#) prescribing the DME or medical supplies must be signed and dated by the prescribing physician familiar with the client prior to requesting authorization. All signatures must be current, stamped signatures will not be accepted. The completed [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form](#) must be maintained by the requesting provider and the prescribing physician.

To avoid unnecessary authorization denials, the physician must provide correct and complete information, including documentation for medical necessity of the DME or supplies requested. The physician must maintain documentation of medical necessity in the client's medical record. The requesting provider may be asked for additional information to clarify or complete a request for the bone growth stimulator.

Documentation that supports medical necessity for a bone growth stimulator device must be maintained by the ordering physician and requesting provider in the client's medical record and is subject to retrospective review.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

The manufacturer will replace the bone growth stimulator device during the course of treatment should the device become nonfunctional. Repairs to purchased equipment will not be prior authorized. All repairs are considered part of the purchase price.

A new bone growth stimulator may be considered for prior authorization with documentation that supports treatment of a different fracture site when the criteria listed in the following sections are met.

31.2.10.1.1 Low-Intensity Ultrasound Bone Growth Stimulators

Documentation of the following is required for prior authorization of the external, low-intensity ultrasound bone growth stimulator device (procedure code E0760):

- Nonunion of a fracture other than the skull or vertebrae in a skeletally mature person, documented by a minimum of two sets of radiographs obtained prior to starting treatment with the osteogenesis stimulator, separated by a minimum of 90 days each, including multiple views of the fracture site, and with a written interpretation by a physician stating that there has been no clinically significant evidence of fracture healing between the two sets of radiographs
- The fracture is not tumor-related
- The fracture is not fresh (less than 7 days), closed or grade I open, tibial diaphyseal fractures, or closed fractures of the distal radius (Colles fracture)

31.2.10.1.2 Non-Invasive Bone Growth Stimulators

Documentation of the following is required for prior authorization of the external, electromagnetic bone stimulator device (procedure code E0747):

- At least one of the following conditions:
 - Nonunions, failed fusions, and congenital pseudarthrosis where there is no evidence of progression of healing for 3 months or longer despite appropriate fracture care.
 - Delayed unions of fractures of failed arthrodesis at high-risk sites (i.e., open or segmental tibial fractures, carpal navicular fractures).
- Serial radiographs have confirmed that no progressive signs of healing have occurred.
- The fractured gap is 1 cm or less.
- The individual can be adequately immobilized and is likely to comply with nonweight bearing restrictions.

Documentation of one of the following is required for prior authorization of the external, electromagnetic bone stimulator device for spinal application (procedure code E0748):

- One or more failed fusions
- Grade II or worse spondylolisthesis
- A multiple level fusion with extensive bone grafting is required
- Other risk factors for fusion failure are present, including gross obesity, degenerative osteoarthritis, severe spondylolisthesis, current smoking, previous fusion surgery, previous disc surgery, or gross instability

31.2.10.1.3 Invasive Bone Growth Stimulators

Documentation of one of the following is required for prior authorization of the surgically implanted osteogenesis stimulator device (procedure code E0749):

- Nonunion of long bone fractures (i.e., clavicle, humerus, radius, ulna, femur, tibia, fibula, and metacarpal, metatarsal, carpal, and tarsal bones). Nonunion of long bone fractures is considered to exist only when serial radiographs have confirmed that fracture healing has ceased for three or more months prior to starting treatment with the bone growth stimulator. Serial radiographs must include a minimum of 2 sets of radiographs separated by a minimum of 90 days. Each set of radiographs must include multiple views of the fracture site.
- Failed fusion of a joint other than the spine when a minimum of three months has elapsed since the joint fusion was performed.
- Congenital pseudoarthrosis.
- An adjunct to spinal fusion surgery for patients at high risk for pseudoarthrosis due to previously failed spinal fusion at the same site.
- An adjunct to multiple-level fusion. A multiple level fusion involves three or more vertebrae (e.g., L3-L5, L4-S1, etc.).

31.2.10.2 Authorization Requirements for Bone Growth Stimulation

Authorization is required for bone growth stimulation professional services (procedure codes 20974, 20975, and 20979). Providers must submit documentation of medical necessity, which includes the appropriate clinical indications for a low-intensity ultrasound, non-invasive, or invasive device, as defined in section Section 31.2.10.1, “Prior Authorization Requirements for Bone Growth Stimulators” in this chapter.

Authorization requests for bone growth stimulation must be submitted on the [CSHCN Services Program Authorization and Prior Authorization Request Form](#).

Referto: Section 4.2, “Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about authorization requirements.

31.2.11 Casting

The CSHCN Services Program may reimburse the application of casts, splinting, and strapping in addition to an E/M procedure code when no surgery is performed. If casting, splinting, strapping, or traction is billed the same day as surgery, it is considered part of the surgical procedure.

Supplies used for casting, splinting, and strapping are not reimbursed separately.

Procedure codes 29450 and 29750 are benefits for the following diagnosis codes:

Diagnosis Code	Description
M21541	Acquired clubfoot, right foot
M21542	Acquired clubfoot, left foot
M21549	Acquired clubfoot, unspecified foot
Q660	Congenital talipes equinovarus
Q661	Congenital talipes calcaneovarus
Q662	Congenital metatarsus (primus) varus
Q663	Other congenital varus deformities of feet
Q664	Congenital talipes calcaneovalgus
Q6651	Congenital pes planus, right foot
Q6652	Congenital pes planus, left foot
Q666	Other congenital valgus deformities of feet
Q667	Congenital pes cavus
Q6681	Congenital vertical talus deformity, right foot
Q6682	Congenital vertical talus deformity, left foot
Q6689	Other specified congenital deformities of feet

The following procedure codes may be reimbursed for surgery when billing for casting, splinting, or strapping services:

Procedure Codes				
Body and upper extremity casts				
29000	29010	29015	29035	29040
29044	29046	29049	29055	29058
29065	29075	29085	29086	
Body and upper extremity splints				
29105	29125	29126	29130	29131
Body and upper extremity strapping				
29200	29220	29240	29260	29280
Lower extremity casts				
29305	29325	29345	29355	29358
29365	29405	29425	29435	29440

Procedure Codes				
29445				
Lower extremity splints				
29505	29515			
Lower extremity strapping				
29520	29530	29540	29550	
Cast removal or repair				
29700	29705	29710	29720	29730
29740				

31.2.12 Chemotherapy

Chemotherapy services are a benefit of the CSHCN Services Program when they are provided by a physician or under the supervision of a physician.

Note: Authorization is not required for administration of chemotherapy.

Providers billing for chemotherapy administration may be reimbursed by using the appropriate procedure codes shown in the following table:

Procedure Codes				
95991	96401	96402	96405	96406
96409	96411	96413	96415	96416
96417	96420	96422	96423	96425
96440	96446	96450	96521	96522
96523	96542	96549		

For the first 15 minutes through the first hour of chemotherapy infusion, procedure code 96409 or 96413 must be used for a single or initial chemotherapeutic medication. Procedure code 96411 must be used for each additional chemotherapeutic medication given and must be billed with procedure code 96409 or 96413.

Procedure code 96415 must be used for each additional hour beyond the initial hour and must be used in conjunction with procedure code 96413.

Procedure code 96417 must be used for each subsequent infusion up to 1 hour and must be used in conjunction with procedure code 96413. Procedure code 96415 must be used for each additional hour.

Procedure codes 96416 and 96425 must be used when initiating an infusion that will take more than 8 hours and requires using an implanted pump or a portable pump.

Procedure code 96422 must be used for the first hour of intra-arterial push administration. Procedure code 96423 must be used for each additional hour in conjunction with procedure code 96422.

The chemotherapy administration procedure codes listed above include charges for intravenous (IV) solutions (such as saline, dextrose and water, Ringer's solution, etc.) and IV equipment (administration sets, needles, extension tubing, etc.).

The chemotherapy administration procedure codes 96440 and 96450 include payment for the surgical procedure. Separate reimbursement for the surgical codes will not be allowed.

The appropriate E/M procedure code may be billed by a physician for a face-to-face visit with the client to review chemotherapy options.

Chemotherapeutic drugs and other injections given in the course of chemotherapy may be reimbursed using the appropriate procedure code. The chemotherapeutic agents should be billed separately, including the name of the drug and actual amount administered for correct reimbursement.

Physicians providing a chemotherapy administration service as an inpatient service on the same day as an E/M service must bill using modifier 25 except for procedure code 99211. A different diagnosis is not required.

When a significant, separately identifiable E/M service is performed, the appropriate E/M code must be submitted with modifier 25 and the chemotherapy procedure code. A different diagnosis is not required for an E/M service provided on the same day. Documentation that supports a significant, separately identifiable E/M service must be maintained in the client's medical record and made available to the CSHCN Services Program upon request.

Modifier 25 must be used to describe circumstances in which an office visit was provided at the same time as other separately identifiable services. This modifier may be appended to the E/M code when the services are rendered. Both services must be documented as distinct and documentation must be maintained in the client's medical record and made available upon request by the CSHCN Services Program.

Chemotherapy planning program (procedure code 99213, 99214, or 99215) may be reimbursed.

Inpatient and outpatient hospitals must use revenue code 636 for reimbursement of the technical component. The appropriate chemotherapy procedure code must be listed on the claim.

Physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

31.2.13 Clinician-Directed Care Coordination Services

Clinician (physician or APRN)-directed care coordination services are a benefit of the CSHCN Services Program.

Clinician-directed care coordination services are a benefit only when provided by a primary care clinician, specialist, or subspecialist who attests that he or she is providing the medical home for the client.

The medical home is defined as:

- A partnership between the child, the child's family, and the primary care provider (or place where the child receives care).
- A care delivery model that is accessible, family-centered, continuous, comprehensive, coordinated, compassionate, and culturally competent.

In providing a medical home for the client, the primary care clinician directs care coordination together with the child or youth and family. Care coordination is a family-centered process that links children or youths with special health needs and their families to services and resources in a coordinated effort to maximize the potential of the children and provide them with optimal health care.

Clinician-directed care coordination services (face-to-face and non-face-to-face) must include the following activities, with permission of the client or family:

- Supervising the development and revision of a client's written care plan (a formal document or contained in the client's progress notes) in partnership with the client, family, and other agreed-upon contributors and sharing of this care plan with other providers, agencies, and organizations involved in the care of the client
- Coordinating care among multiple providers
- Maintaining a central record or database that contains all pertinent client medical information, including hospitalizations and specialty care

- Assisting the client and family in communicating clinical issues when a client is referred for a consultation or additional care
- Evaluating, interpreting, and managing consultant recommendations for the client and family in partnership and collaboration with consultants, other providers, the client, and the family

Clinician-directed care coordination services should also include supervision of development and revision of the client's emergency medical plan in partnership with the client, the family, and other providers to be used by emergency medical services (EMS) personnel, utility service companies, schools, other community agencies, and caregivers.

31.2.13.1 Face-to-Face Clinician-Directed Care Coordination Services

Face-to-face care coordination services are encompassed within the various levels of E/M services and prolonged services.

Providers should use the most appropriate face-to-face E/M procedure codes to bill for care coordination services.

When counseling or care coordination requires more than 50 percent of the client or family encounter (face-to-face time in the office or other outpatient setting, or floor or unit time in the hospital), then time may be considered the key or controlling factor to qualify for a particular level of E/M service.

Counseling is discussion with the client or family, concerning diagnostic studies or results, prognosis, risks and benefits, management options, importance of adhering to the treatment regimen, and client and family education.

An E/M procedure code for a face-to-face problem-focused care coordination visit may be billed on the same day as a preventive medicine visit. Modifiers must be used as appropriate for billing.

Any face-to-face inpatient or outpatient E/M procedure code that is a benefit of the CSHCN Services Program may be billed on the same day as any non-face-to-face clinician-directed care coordination (procedure codes 99339, 99340, 99358, 99359, 99367, 99374, 99375, 99377, and 99378), when the client requires significant, separately identifiable E/M service by the same physician on the same day. Modifiers must be used for appropriate billing.

31.2.13.2 Non-Face-to-Face Clinician-Directed Care Coordination Services

Non-face-to-face care coordination services include:

- Prolonged services (procedure codes 99358 and 99359)
- Medical team conferences (procedure code 99367)
- Care plan oversight/supervision (procedure codes 99339, 99340, 99374, 99375, 99377, and 99378)

Non-face-to-face specialist or subspecialist telephone consultations (procedure code 99499 with modifier U9) are a benefit for a specialist or subspecialist when the clinician providing the medical home contacts the specialist for advice or a referral and the consultation is at least 15 minutes in duration.

Telephone consultations are defined by the CSHCN Services Program as the process where the specialist or subspecialist receives a telephone call from the clinician providing the medical home. During the telephone call, the specialist or subspecialist assesses and manages the client's condition by providing advice or referral to a more appropriate provider.

Specifically, non-face-to-face clinician supervision of the development or revision of a client's care plan (care plan oversight services) may include the following activities. These services do not have to be contiguous:

- Review of charts, reports, treatment plans, or lab or study results, except for the initial interpretation or review of lab or study results ordered during or associated with a face-to-face encounter

- Telephone calls with other clinicians (not employed in the same practice), including specialists or subspecialists involved in the care of the client
- Telephone or face-to-face discussions with a pharmacist about pharmacological therapies (not just ordering a prescription)
- Medical decision making
- Activities to coordinate services (if the coordination activities require the skill of a clinician)
- Documentation of the services provided, including writing a note in the client chart describing services provided, decision making performed, and amount of time spent performing the countable services, including time spent by the physician working on the care plan after the nurse has conveyed pertinent information from agencies or facilities to the physician, including the start and stop times

The following activities are not covered as non-face-to-face clinician oversight/supervision of the development or revision of the client's care plan (care plan oversight services):

- Time that staff spends getting or filing charts, calling the home health agencies, clients, etc.
- Clinician telephone calls to a client or family, except when necessary to discuss changes in client's care plan
- Clinician time spent telephoning prescriptions to the pharmacist (not a physician service; does not require a physician to perform)
- Clinician time getting or filing the chart, dialing the telephone, or time on hold (these activities do not require clinician work or meaningfully contribute to the treatment of the illness or injury)
- Travel time
- Time spent preparing claims and for claims processing
- Initial interpretation or review of lab or study results that were ordered during, or associated with, a face-to-face encounter
- Services included as part of other E/M service
- Consults with health professionals not involved in the client's case

These services may be reimbursed for the clinician time involved in this coordination. The clinician billing the services must personally perform the services. Care coordination services delegated to or performed by others do not count towards care coordination reimbursement.

Clinician-directed care coordination services must be documented in the client's medical record. Documentation must support the services being billed and must include a record of the clinician's time spent performing specific care coordination activities, including start and stop times. The documentation should include a formal care plan and emergency services plan.

The supporting documentation maintained in the client's medical records must be dated and include the following components and requirements:

- A current medical summary containing key information about the client's health (e.g., conditions, complexity, medications, allergies, past surgical procedures, etc.)
- A current list of the main concerns, key strengths and assets, and the related current clinical information
- Planned actions or interventions to address the concerns and to sustain or build strength, with the expected outcomes
- Persons responsible

- Timeframes and due dates

The supporting documentation must be reviewed and updated every 6 months, or more frequently, as needed.

Client medical records are subject to retrospective review.

Payment is made for care coordination to a clinician providing postsurgical care during the postoperative period only if the care coordination is documented to be unrelated to the surgery.

31.2.13.2.1 Care Plan Oversight

Clinician-directed care plan oversight services may be billed with one of the procedure codes listed in the following table.

Clinician supervision of a client in the home or domiciliary or under the care of a home health agency or hospice (care plan oversight) may be billed with the following procedure codes:

Procedure Codes				
99339	99340	99374	99375	99377
99378				

The clinician who bills for the care plan oversight must be the same clinician who signed the plan of care for the home or domiciliary (procedure codes 99339 and 99340), home health agency (procedure codes 99374 and 99375) or hospice (procedure codes 99377 and 99378).

Care plan oversight may be reimbursed for the clinician time involved in the coordination. The clinician billing the services must personally perform the services. Care coordination services delegated to or performed by others do not count towards care coordination reimbursement.

The following end-stage renal disease procedure codes apply to a full or partial month of services and are inclusive of all the clinicians supervision services described in care plan oversight (procedure codes 99339, 99340, 99374, 99375, 99377, and 99378):

Procedure Codes				
90951	90952	90953	90954	90955
90956	90957	90958	90959	90960
90961	90962	90963	90964	90965
90966	90967	90968	90969	90970

Care plan oversight may not be reimbursed to the same clinician during the same month as end-stage renal disease services.

The clinician may not have a significant financial or contractual relationship with the home health agency as defined in 42 *Code of Federal Regulations* (CFR) 424.

The clinician may not be the medical director or employee of the hospice and may not furnish services under arrangements with the hospice (including volunteering).

31.2.13.2.2 Medical Team Conference

Medical conferences may be billed with procedure code 99367.

One medical team conference (procedure code 99367) may be reimbursed every 6 months when the coordinating clinician attests that he or she is providing the medical home for the client. The coordinating clinician may be the client’s primary care physician or a specialist.

The medical team conference time must be documented in the client’s record.

31.2.13.2.3 Non-Face-to-Face Specialist or Subspecialist Telephone Consultations

Non-face-to-face specialist or subspecialist telephone consultations may be billed with procedure code 99499 and modifier U9.

A specialist or subspecialist telephone consultation is limited to two every 6 months by the same provider.

The clinician providing the medical home must maintain the following documentation in the client's medical record:

- The start and stop times indicating the consultation lasted at least 15 minutes
- The reason for the call
- The specialist's or subspecialist's medical opinion
- The recommended treatment or laboratory services
- The name of the consulted specialist or subspecialist

The specialist or subspecialist must maintain documentation of the telephone consultation using the [CSHCN Services Program Specialist or Subspecialist Telephone Consultation Form for Non-Face-to-Face Clinician-Directed Care Coordination Services](#) or similar clinical record documentation. These records are subject to retrospective review. The supporting documentation must include, but is not limited to, the following:

- The client's name, date of birth, and CSHCN Services Program identification number
- The start and stop times indicating the consultation lasted at least 15 minutes
- The reason for the call
- The specialist's or subspecialist's medical opinion
- The recommended treatment or laboratory services
- The name and telephone number of the referring clinician providing the medical home
- The specialist's or subspecialist's and referring clinician's identifier information

31.2.13.2.4 Non-Face-to-Face Prolonged Services

Non-face-to-face prolonged services may be billed with procedure codes 99358 and 99359.

The client must be an established client and must have had a face-to-face encounter at least once during the 6 months immediately preceding provision of the first non-face-to-face prolonged service.

Non-face-to-face prolonged services (procedure code 99358 or 99359) are limited to a maximum of 90 minutes, once per client, for the same provider.

Procedure code 99358 must be used to report the first hour of prolonged services and must be billed with the appropriate physician E/M procedure code by the same provider.

Prolonged service of less than 30 minutes total duration on a given date is not separately reported.

Procedure code 99359 is used to report each additional 30 minutes beyond the first hour. It may also be used to report the final 15 to 30 minutes.

Prolonged service of less than 15 minutes beyond the first hour or less than 15 minutes beyond the final 30 minutes is not reported separately.

Procedure code 99359 must be billed for the same date of service by the same provider as procedure code 99358 or it will be denied.

31.2.13.2.5 Authorization for Non-Face-to-Face Clinician-Directed Care Coordination Services

Authorization is required for non-face-to-face clinician-directed care coordination services. A [CSHCN Services Program Authorization Request for Non-Face-to-Face Clinician-Directed Care Coordination Services form](#), and the required documentation must be submitted.

Authorization of initial non-face-to-face clinician-directed care coordination services requires at least 1 covered face-to-face inpatient or outpatient E/M visit by the clinician directing the care coordination during the 6 months preceding the provision of the first non-face-to-face care coordination service.

Authorization for subsequent non-face-to-face clinician-directed care coordination services requires at least 1 covered face-to-face inpatient or outpatient E/M visit by the clinician directing the care coordination during the previous 12 months, or more frequently as indicated by the client's condition.

Authorization of medical team conferences (procedure code 99367) is limited to once every 6 months. Additional medical team conferences may be considered with documentation of a change in the client's medical home.

Authorization of non-face-to-face prolonged services (procedure codes 99358 and 99359) is limited to a maximum of 90 minutes once per client, per provider. Additional prolonged non-face-to-face services may be authorized (with documentation) if there is one of the following significant changes in the client's clinical condition:

- The client will soon be, or has recently been, discharged from a prolonged and complicated hospitalization requiring coordination of complex care with multiple providers in order for the client to be adequately cared for in the home.
- Documentation of recent trauma resulting in new medical complications that require complex interdisciplinary care.
- The client has a new diagnosis of a medically complex condition requiring additional interdisciplinary care with additional specialists.

Authorization of care plan oversight or supervision (procedure codes 99339, 99340, 99374, 99375, 99377, and 99378) is limited to one service a month in a 6-month authorization period.

In order for authorization to be considered, the client must require complex and multidisciplinary care modalities involving regular clinician development or revision of care plans, review of subsequent reports of client status, and review of related laboratory and other studies, such as:

- Medically complex health care: Health care provided by a clinician that requires coordination of various treatment modalities or a multidisciplinary approach due to the client's moderate or severe health condition, physical or functional limitations, or health risk factors.
- Multidisciplinary health care: The coordination of clinician-ordered medically necessary health care that requires the collaboration of two or more medical, educational, social, developmental, or other professionals in order to properly devise and implement the clinician-developed plan of medical care. For CSHCN Services Program coverage, multidisciplinary health care must include medically necessary services provided by program-enrolled clinical providers. Development and implementation of the plan of medical care may, in addition, need to take into account other related care provided by nonclinical providers as required to address the overall health needs of a client.

Documentation of the following components must be submitted with the authorization form to obtain an initial authorization or renewal:

- A current medical summary, containing key information about the client's health (e.g., conditions, complexity, medications, allergies, past surgical procedures)
- A current list of the main concerns as well as key strengths and assets, and the related current clinical information

- Planned action steps or interventions to address the concerns and to sustain or build strengths, with the expected outcomes
- Persons responsible
- Timeframes or due dates

The supporting documentation can be in the form of the following:

- Formal written care plan
- Progress note detailing the care coordination planning
- Letter of medical necessity detailing the care plan oversight and care coordination

Authorization is limited to a maximum of 6 months. Subsequent periods of authorization require submission of a new request with documentation supporting medical necessity for ongoing services.

Non-face-to-face specialist or subspecialist telephone consultations do not require authorization.

31.2.14 Cochlear Implants

Cochlear implants and auditory rehabilitation are benefits for CSHCN Services Program clients.

Referto: Section 20.3.2, “Cochlear Implants” in Chapter 20, “Hearing Services” for more information about cochlear implants.

31.2.15 Colorectal Cancer Screening

Procedure codes 74263, 82270, G0104, G0105, G0106, G0120, G0121, G0122, and G0328 are benefits of the CSHCN Services Program. Only one procedure code will be allowed per rolling year by any provider. An additional screening may be considered on appeal with documentation that indicates the provider was unable to obtain the previous screening results from a different provider or the provider was new to treating the client and was not aware the client had already received colorectal cancer screening.

Referto: Chapter 25, “Enrollment” for additional information about laboratory cancer screening or pathology procedures.

Colorectal cancer screening is recommended once every 2 years for individuals at high risk for colorectal cancer. High-risk individuals include clients with one or more of the following factors:

- A close relative who has had colorectal cancer or an adenomatous polyp

Note: “Relative” means close blood relatives, including first-degree male or female relatives (parents, siblings, or children), second-degree relatives (aunts, uncles, grandparents, nieces, nephews), and third-degree relatives (first cousins, great grandparents) who are on the same side of the family as the client.

- Family history of familial adenomatous polyposis
- Family history of hereditary nonpolyposis colorectal cancer
- Personal history of colorectal cancer
- Personal history of adenomatous polyps

A screening barium enema may be substituted for a screening flexible sigmoidoscopy or a screening colonoscopy if the effectiveness has been established by the physician for substitution. Procedure code G0106 may be used as an alternative to procedure code G0104, and procedure code G0120 may be used as an alternative to procedure code G0105.

During the course of a screening flexible sigmoidoscopy, if a lesion or growth is detected that results in a biopsy or removal of the growth, an appropriate diagnostic procedure classified as a flexible sigmoidoscopy with biopsy or removal should be reported instead of procedure code G0104 or G0106.

During the course of a screening colonoscopy, if a lesion or growth is detected that results in a biopsy or removal of the growth, the procedure code for a colonoscopy with biopsy or removal of lesion should be reported instead of procedure code G0105 or G0121.

31.2.16 Critical Care Services

Critical care is a benefit of the CSHCN Services Program. Authorization is not required for these services.

Critical care is the care of a critically ill client who requires constant physician attention. Critical care involves high-complexity decision making to access, manipulate, and support vital system functions. If the physician is not at bedside, he or she must be immediately available to the client. The physician must devote his or her full attention to the client and therefore, cannot render E/M services to any other client during the same period of time. Critical care is usually given in a critical care area, such as a coronary care unit, respiratory care unit, intensive care unit, pediatric intensive care unit, neonatal intensive care unit, or emergency department care facility.

Noncritical intensive care is a benefit for infants who are very low birth weight, low birth weight, or normal weight and do not meet the definition of critically ill but continue to require intensive observation, frequent interventions, and other intensive services only available in the intensive care setting.

Neonatal critical care is the comprehensive care of the critically ill neonate. The neonatal period is defined as the period from birth through the 28th day of life. Neonatal critical care codes are comprehensive per diem (daily) care codes for providers personally delivering or supervising the delivery of care of the critically ill neonate as an inpatient.

Newborn resuscitation is a benefit for high-risk newborns who require resuscitation.

Physician standby service requiring prolonged physician attendance, each 30 minutes (procedure code 99360), is not a benefit of the CSHCN Services Program.

In accordance with CPT, critical care may be provided on multiple days, even if no changes are made in the treatment rendered to the client, provided that the client's condition continues to require the level of physician attention as described above.

31.2.16.1 General Limitations

Services for a client who is not, or is no longer, critically ill but happens to be in a critical care unit are reported using other appropriate E/M codes, such as continuing intensive care (procedure codes 99478, 99479, and 99480) or subsequent hospital care (procedure codes 99231, 99232, and 99233).

Neonatal critical care (procedure codes 99468 and 99469), pediatric critical care (procedure codes 99471, 99472, 99475, and 99476), and the initial critical care (procedure code 99291) are limited to once per day for the same provider. Subsequent critical care (procedure code 99292) is each additional 30 minutes beyond the first 74 minutes of critical care, and is limited to a quantity of 6 units (3 hours) per day.

Neonatal and pediatric critical care (procedure codes 99468, 99469, 99471, 99472, 99475, and 99476) and continuing intensive care services (procedure codes 99478, 99479, and 99480) are inpatient, per-day charges and only billable once per day by any provider. No other inpatient E/M services may be reimbursed on the same day when billed by the same provider.

When the present body weight of a neonate exceeds 5,000 grams, a subsequent hospital care service (procedure code 99231, 99232, or 99233) should be used.

If the same physician provides critical care for a neonatal or pediatric client in both the outpatient and inpatient settings on the same day, the provider should report only the appropriate inpatient neonatal or pediatric critical care service (procedure codes 99468, 99469, 99471, 99472, 99475, and 99476).

E/M services provided on the same day by the same provider as surgical procedures that meet the definition of separately identifiable and above and beyond usual preoperative and postoperative care may be billed with modifier 25. Documentation that supports the provision of a significant, separately-identifiable E/M service must be maintained in the client's medical record and made available to the CSHCN Services Program upon request.

Critical care (procedure codes 99291, 99292, 99468, 99469, 99471, 99472, 99475, and 99476) is only billable by the provider rendering the critical care service while the client is critically ill. While providers from various specialties (e.g., cardiology or neurology) may be consulted to render an opinion or assist in the management of a particular portion of the care, only the provider managing the care of the critically ill client during a life threatening crisis may bill the critical care.

If a second physician provides critical care services on the same day at a separate and distinct time, the physician should report the appropriate time-based critical care service (procedure code 99291 or 99292).

Critical care totaling less than 30 minutes in duration on a given date should be reported with the appropriate E/M procedure code.

Actual time spent with the individual client should be recorded in the client's record and reflect the time billed on the claim. The time that can be reported as critical care is the time spent engaged in work directly related to the individual client's care whether that time was spent at the immediate bedside or elsewhere on the floor or unit.

The time spent in the following activities may not be included in the time reported as critical care:

- Activities that occur outside of the unit or off the floor because the physician is not immediately available to the client
- Activities that do not directly contribute to the treatment of the client even if they are performed in the critical care unit
- Performing separately reportable procedures or services

Physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

APRNs, physician assistants, and CRNAs may be reimbursed the lower of the billed amount or 92 percent of the amount allowed by Texas Medicaid for physicians for the same service.

31.2.16.2 Critical Care Services

Procedure codes 99291 and 99292 are used to identify critical care services provided to clients who are 6 years of age or older.

Procedure code 99291 should be used per day for the first 30 to 74 minutes of critical care even if the time spent by the physician is not continuous on that day.

Critical care procedure codes 99291 and 99292 are used to report the total duration of time spent by a physician providing critical care services to a critically ill or critically injured client, even if the time spent by the physician on that date is not continuous.

Critical care provided to a neonatal, pediatric, or adult client in an outpatient setting (e.g., emergency room) which does not result in admission, must be billed using procedure codes 99291 and 99292.

If outpatient critical care (procedure codes 99291 and 99292) is provided to a client at a distinctly separate time than another outpatient E/M service by the same provider, both services may be reimbursed with supporting medical record documentation.

If critical care (procedure code 99291) is provided by different physicians that meet the initial 30-minute time requirement, and the care is provided at separate distinct times, the initial provider's claim may be reimbursed. The second provider's claim will be denied but may be considered on appeal. The time spent by each physician cannot overlap (i.e., two physicians cannot bill critical care for care delivered at the

same time). Supporting medical record documentation must be provided by the second physician that includes the time in which the critical care was rendered. In addition, a statement must be submitted indicating the physician was the only provider managing the care of the critically ill client during the life-threatening crisis.

If the provider's time exceeds the 74-minute time threshold for procedure code 99291, procedure code 99292 may be billed in addition to procedure code 99291 for each additional 30 minutes.

Procedure code 99292 must be billed by the same performing provider or by a member of the same performing provider's group practice.

Procedure code 99292 is limited to six units per day (3 hours), any provider. If the number of units is not stated on the claim, only a quantity of one will be allowed.

Retrospective review may be performed to ensure the documentation supports the medical necessity of the service and any modifier used when billing the claim.

31.2.16.3 Pediatric Critical Care

Procedure codes 99471, 99472, 99475, and 99476 are used to identify pediatric critical care services provided to clients who are 29 days through 24 months of age.

Pediatric critical care services are comprehensive per diem (daily) care procedure codes for providers personally delivering or supervising the delivery of care of the critically ill infant or child.

Inpatient pediatric critical care (procedure codes 99471, 99472, 99475, and 99476) is a per-day charge.

31.2.16.4 Neonatal Critical Care

Procedure codes 99468 and 99469 are used to identify neonatal critical care services provided to clients who are 28 days of age or younger.

Procedure code 99468 is used for the first day of admission for a critically ill neonate, 28 days of age or younger, and may be reimbursed once per day, any provider.

Procedure code 99468 must be billed for the initial day of neonatal critical care irrespective of the time that the provider spends with the client.

Procedure code 99469 must be billed for subsequent neonatal critical care per day, irrespective of the time that the provider spends directing the care of the critically ill neonate or infant that is 28 days of age or younger.

Procedure code 99469 may be reimbursed once per day, any provider.

After the neonate is no longer considered critically ill, the E/M procedure codes for subsequent hospital care (procedure codes 99231, 99232, and 99233) or subsequent intensive care (procedure codes 99478, 99479, and 99480) must be used.

If the infant remains in critical care after the 28th day of age, on the 29th day of age, the provider must bill pediatric critical care codes (procedure codes 99471 and 99472).

Neonatal intensive or critical care procedure codes 99468, 99469, 99477, 99478, 99479, and 99480 are inpatient, per day charges and only billable once per day by any provider.

31.2.16.5 Intensive Care (Noncritical) Services

Initial hospital care provided to neonates who require intensive observation, frequent interventions, and other intensive services may be billed using procedure code 99477. Subsequent intensive care provided to very low birth weight, low birth weight, and normal weight infants who do not meet the definition of critically ill but continue to require intensive observation, frequent interventions, and other intensive services only available in the intensive care setting, may be billed using procedure codes 99478, 99479, and 99480.

31.2.16.6 Newborn Resuscitation

Newborn resuscitation may be billed using procedure code 99465.

Procedure code 99465 may be reimbursed for clients birth through 28 days of age. For cardiopulmonary resuscitation performed on clients 29 days of age or older, providers must bill procedure code 92950. Procedure code 92950 may be billed on the same day as critical care (procedure codes 99291, 99292, 99468, 99469, 99471, 99472, 99475, and 99476) when reported as a separately identifiable procedure.

Procedure code 99465 must be used by the provider who performs the resuscitation.

31.2.17 Echoencephalography

Procedure code 76506 is a benefit of the CSHCN Services Program with the following diagnosis codes:

Diagnosis Code	Description
A066	Amebic brain abscess
A170	Tuberculous meningitis
A171	Meningeal tuberculoma
A1781	Tuberculoma of brain and spinal cord
A1782	Tuberculous meningoencephalitis
A1789	Other tuberculosis of nervous system
C410	Malignant neoplasm of bones of skull and face
C6961	Malignant neoplasm of right orbit
C6962	Malignant neoplasm of left orbit
C700	Malignant neoplasm of cerebral meninges
C710	Malignant neoplasm of cerebrum, except lobes and ventricles
C711	Malignant neoplasm of frontal lobe
C712	Malignant neoplasm of temporal lobe
C713	Malignant neoplasm of parietal lobe
C714	Malignant neoplasm of occipital lobe
C715	Malignant neoplasm of cerebral ventricle
C716	Malignant neoplasm of cerebellum
C717	Malignant neoplasm of brain stem
C718	Malignant neoplasm of overlapping sites of brain
C719	Malignant neoplasm of brain, unspecified
C7221	Malignant neoplasm of right olfactory nerve
C7222	Malignant neoplasm of left olfactory nerve
C7231	Malignant neoplasm of right optic nerve
C7232	Malignant neoplasm of left optic nerve
C7241	Malignant neoplasm of right acoustic nerve
C7242	Malignant neoplasm of left acoustic nerve
C7259	Malignant neoplasm of other cranial nerves
C729	Malignant neoplasm of central nervous system, unspecified
C751	Malignant neoplasm of pituitary gland
C752	Malignant neoplasm of craniopharyngeal duct

Diagnosis Code	Description
C768	Malignant neoplasm of other specified ill-defined sites
C7931	Secondary malignant neoplasm of brain
C7932	Secondary malignant neoplasm of cerebral meninges
C7940	Secondary malignant neoplasm of unspecified part of nervous system
C7949	Secondary malignant neoplasm of other parts of nervous system
C7951	Secondary malignant neoplasm of bone
C7952	Secondary malignant neoplasm of bone marrow
C7989	Secondary malignant neoplasm of other specified sites
D075	Carcinoma in situ of prostate
D098	Carcinoma in situ of other specified sites
D164	Benign neoplasm of bones of skull and face
D3161	Benign neoplasm of unspecified site of right orbit
D3162	Benign neoplasm of unspecified site of left orbit
D320	Benign neoplasm of cerebral meninges
D329	Benign neoplasm of meninges, unspecified
D330	Benign neoplasm of brain, supratentorial
D331	Benign neoplasm of brain, infratentorial
D332	Benign neoplasm of brain, unspecified
D333	Benign neoplasm of cranial nerves
D3500	Benign neoplasm of unspecified adrenal gland
D3501	Benign neoplasm of right adrenal gland
D3502	Benign neoplasm of left adrenal gland
D420	Neoplasm of uncertain behavior of cerebral meninges
D421	Neoplasm of uncertain behavior of spinal meninges
D429	Neoplasm of uncertain behavior of meninges, unspecified
D432	Neoplasm of uncertain behavior of brain, unspecified
D433	Neoplasm of uncertain behavior of cranial nerves
D434	Neoplasm of uncertain behavior of spinal cord
D438	Neoplasm of uncertain behavior of other specified parts of central nervous system
D439	Neoplasm of uncertain behavior of central nervous system, unspecified
D47Z1	Post-transplant lymphoproliferative disorder (PTLD)
D47Z2	Castleman disease
D480	Neoplasm of uncertain behavior of bone and articular cartilage
D487	Neoplasm of uncertain behavior of other specified sites
D492	Neoplasm of unspecified behavior of bone, soft tissue, and skin
D496	Neoplasm of unspecified behavior of brain
D497	Neoplasm of unspecified behavior of endocrine glands and other parts of nervous system
F0390	Unspecified dementia without behavioral disturbance
G060	Intracranial abscess and granuloma

Diagnosis Code	Description
G062	Extradural and subdural abscess, unspecified
G07	Intracranial and intraspinal abscess and granuloma in diseases classified elsewhere
G08	Intracranial and intraspinal phlebitis and thrombophlebitis
G132	Systemic atrophy primarily affecting the central nervous system in myxedema
G138	Systemic atrophy primarily affecting central nervous system in other diseases classified elsewhere
G232	Striatonigral degeneration
G300	Alzheimer's disease with early onset
G301	Alzheimer's disease with late onset
G308	Other Alzheimer's disease
G309	Alzheimer's disease, unspecified
G3101	Pick's disease
G3109	Other frontotemporal dementia
G311	Senile degeneration of brain, not elsewhere classified
G312	Degeneration of nervous system due to alcohol
G3183	Dementia with Lewy bodies
G3184	Mild cognitive impairment, so stated
G3185	Corticobasal degeneration
G3189	Other specified degenerative diseases of nervous system
G319	Degenerative disease of nervous system, unspecified
G910	Communicating hydrocephalus
G911	Obstructive hydrocephalus
G912	(Idiopathic) normal pressure hydrocephalus
G930	Cerebral cysts
G932	Benign intracranial hypertension
G9340	Encephalopathy, unspecified
G9341	Metabolic encephalopathy
G9349	Other encephalopathy
G935	Compression of brain
G936	Cerebral edema
G937	Reye's syndrome
G9381	Temporal sclerosis
G9389	Other specified disorders of brain
G939	Disorder of brain, unspecified
G94	Other disorders of brain in diseases classified elsewhere
G988	Other disorders of nervous system
G998	Other specified disorders of nervous system in diseases classified elsewhere
H35361	Drusen (degenerative) of macula, right eye
H4600	Optic papillitis, unspecified eye
H4601	Optic papillitis, right eye

Diagnosis Code	Description
H4602	Optic papillitis, left eye
H4603	Optic papillitis, bilateral
H4610	Retrobulbar neuritis, unspecified eye
H4611	Retrobulbar neuritis, right eye
H4612	Retrobulbar neuritis, left eye
H4613	Retrobulbar neuritis, bilateral
H462	Nutritional optic neuropathy
H463	Toxic optic neuropathy
H468	Other optic neuritis
H469	Unspecified optic neuritis
H47011	Ischemic optic neuropathy, right eye
H47012	Ischemic optic neuropathy, left eye
H47013	Ischemic optic neuropathy, bilateral
H47019	Ischemic optic neuropathy, unspecified eye
H47021	Hemorrhage in optic nerve sheath, right eye
H47022	Hemorrhage in optic nerve sheath, left eye
H47023	Hemorrhage in optic nerve sheath, bilateral
H47029	Hemorrhage in optic nerve sheath, unspecified eye
H47031	Optic nerve hypoplasia, right eye
H47032	Optic nerve hypoplasia, left eye
H47033	Optic nerve hypoplasia, bilateral
H47039	Optic nerve hypoplasia, unspecified eye
H47091	Other disorders of optic nerve, not elsewhere classified, right eye
H47092	Other disorders of optic nerve, not elsewhere classified, left eye
H47093	Other disorders of optic nerve, not elsewhere classified, bilateral
H47099	Other disorders of optic nerve, not elsewhere classified, unspecified eye
H4710	Unspecified papilledema
H4711	Papilledema associated with increased intracranial pressure
H4712	Papilledema associated with decreased ocular pressure
H4713	Papilledema associated with retinal disorder
H47141	Foster-Kennedy syndrome, right eye
H47142	Foster-Kennedy syndrome, left eye
H47143	Foster-Kennedy syndrome, bilateral
H47149	Foster-Kennedy syndrome, unspecified eye
H4720	Unspecified optic atrophy
H47211	Primary optic atrophy, right eye
H47212	Primary optic atrophy, left eye
H47213	Primary optic atrophy, bilateral
H47219	Primary optic atrophy, unspecified eye

Diagnosis Code	Description
H4722	Hereditary optic atrophy
H47231	Glaucomatous optic atrophy, right eye
H47232	Glaucomatous optic atrophy, left eye
H47233	Glaucomatous optic atrophy, bilateral
H47239	Glaucomatous optic atrophy, unspecified eye
H47291	Other optic atrophy, right eye
H47292	Other optic atrophy, left eye
H47293	Other optic atrophy, bilateral
H47299	Other optic atrophy, unspecified eye
H47311	Coloboma of optic disc, right eye
H47312	Coloboma of optic disc, left eye
H47313	Coloboma of optic disc, bilateral
H47319	Coloboma of optic disc, unspecified eye
H47321	Drusen of optic disc, right eye
H47322	Drusen of optic disc, left eye
H47323	Drusen of optic disc, bilateral
H47329	Drusen of optic disc, unspecified eye
H47331	Pseudopapilledema of optic disc, right eye
H47332	Pseudopapilledema of optic disc, left eye
H47333	Pseudopapilledema of optic disc, bilateral
H47339	Pseudopapilledema of optic disc, unspecified eye
H47391	Other disorders of optic disc, right eye
H47392	Other disorders of optic disc, left eye
H47393	Other disorders of optic disc, bilateral
H47399	Other disorders of optic disc, unspecified eye
H4741	Disorders of optic chiasm in (due to) inflammatory disorders
H4742	Disorders of optic chiasm in (due to) neoplasm
H4743	Disorders of optic chiasm in (due to) vascular disorders
H4749	Disorders of optic chiasm in (due to) other disorders
H47511	Disorders of visual pathways in (due to) inflammatory disorders, right side
H47512	Disorders of visual pathways in (due to) inflammatory disorders, left side
H47519	Disorders of visual pathways in (due to) inflammatory disorders, unspecified side
H47521	Disorders of visual pathways in (due to) neoplasm, right side
H47522	Disorders of visual pathways in (due to) neoplasm, left side
H47529	Disorders of visual pathways in (due to) neoplasm, unspecified side
H47531	Disorders of visual pathways in (due to) vascular disorders, right side
H47532	Disorders of visual pathways in (due to) vascular disorders, left side
H47539	Disorders of visual pathways in (due to) vascular disorders, unspecified side
H47611	Cortical blindness, right side of brain

Diagnosis Code	Description
H47612	Cortical blindness, left side of brain
H47619	Cortical blindness, unspecified side of brain
H47621	Disorders of visual cortex in (due to) inflammatory disorders, right side of brain
H47622	Disorders of visual cortex in (due to) inflammatory disorders, left side of brain
H47629	Disorders of visual cortex in (due to) inflammatory disorders, unspecified side of brain
H47631	Disorders of visual cortex in (due to) neoplasm, right side of brain
H47632	Disorders of visual cortex in (due to) neoplasm, left side of brain
H47639	Disorders of visual cortex in (due to) neoplasm, unspecified side of brain
H47641	Disorders of visual cortex in (due to) vascular disorders, right side of brain
H47642	Disorders of visual cortex in (due to) vascular disorders, left side of brain
H47649	Disorders of visual cortex in (due to) vascular disorders, unspecified side of brain
I6000	Nontraumatic subarachnoid hemorrhage from unspecified carotid siphon and bifurcation
I6001	Nontraumatic subarachnoid hemorrhage from right carotid siphon and bifurcation
I6002	Nontraumatic subarachnoid hemorrhage from left carotid siphon and bifurcation
I6010	Nontraumatic subarachnoid hemorrhage from unspecified middle cerebral artery
I6011	Nontraumatic subarachnoid hemorrhage from right middle cerebral artery
I6012	Nontraumatic subarachnoid hemorrhage from left middle cerebral artery
I602	Nontraumatic subarachnoid hemorrhage from anterior communicating artery
I6030	Nontraumatic subarachnoid hemorrhage from unspecified posterior communicating artery
I6031	Nontraumatic subarachnoid hemorrhage from right posterior communicating artery
I6032	Nontraumatic subarachnoid hemorrhage from left posterior communicating artery
I604	Nontraumatic subarachnoid hemorrhage from basilar artery
I6050	Nontraumatic subarachnoid hemorrhage from unspecified vertebral artery
I6051	Nontraumatic subarachnoid hemorrhage from right vertebral artery
I6052	Nontraumatic subarachnoid hemorrhage from left vertebral artery
I606	Nontraumatic subarachnoid hemorrhage from other intracranial arteries
I607	Nontraumatic subarachnoid hemorrhage from unspecified intracranial artery
I608	Other nontraumatic subarachnoid hemorrhage
I609	Nontraumatic subarachnoid hemorrhage, unspecified
I610	Nontraumatic intracerebral hemorrhage in hemisphere, subcortical
I611	Nontraumatic intracerebral hemorrhage in hemisphere, cortical
I612	Nontraumatic intracerebral hemorrhage in hemisphere, unspecified
I613	Nontraumatic intracerebral hemorrhage in brain stem
I614	Nontraumatic intracerebral hemorrhage in cerebellum
I615	Nontraumatic intracerebral hemorrhage, intraventricular
I616	Nontraumatic intracerebral hemorrhage, multiple localized
I618	Other nontraumatic intracerebral hemorrhage
I619	Nontraumatic intracerebral hemorrhage, unspecified

Diagnosis Code	Description
I6200	Nontraumatic subdural hemorrhage, unspecified
I6201	Nontraumatic acute subdural hemorrhage
I6202	Nontraumatic subacute subdural hemorrhage
I6203	Nontraumatic chronic subdural hemorrhage
I621	Nontraumatic extradural hemorrhage
I629	Nontraumatic intracranial hemorrhage, unspecified
I6330	Cerebral infarction due to thrombosis of unspecified cerebral artery
I63311	Cerebral infarction due to thrombosis of right middle cerebral artery
I63312	Cerebral infarction due to thrombosis of left middle cerebral artery
I63319	Cerebral infarction due to thrombosis of unspecified middle cerebral artery
I63321	Cerebral infarction due to thrombosis of right anterior cerebral artery
I63322	Cerebral infarction due to thrombosis of left anterior cerebral artery
I63329	Cerebral infarction due to thrombosis of unspecified anterior cerebral artery
I63331	Cerebral infarction due to thrombosis of right posterior cerebral artery
I63332	Cerebral infarction due to thrombosis of left posterior cerebral artery
I63339	Cerebral infarction due to thrombosis of unspecified posterior cerebral artery
I6339	Cerebral infarction due to thrombosis of other cerebral artery
I6340	Cerebral infarction due to embolism of unspecified cerebral artery
I63411	Cerebral infarction due to embolism of right middle cerebral artery
I63412	Cerebral infarction due to embolism of left middle cerebral artery
I63419	Cerebral infarction due to embolism of unspecified middle cerebral artery
I63421	Cerebral infarction due to embolism of right anterior cerebral artery
I63422	Cerebral infarction due to embolism of left anterior cerebral artery
I63429	Cerebral infarction due to embolism of unspecified anterior cerebral artery
I63431	Cerebral infarction due to embolism of right posterior cerebral artery
I63432	Cerebral infarction due to embolism of left posterior cerebral artery
I63439	Cerebral infarction due to embolism of unspecified posterior cerebral artery
I6349	Cerebral infarction due to embolism of other cerebral artery
I6350	Cerebral infarction due to unspecified occlusion or stenosis of unspecified cerebral artery
I63511	Cerebral infarction due to unspecified occlusion or stenosis of right middle cerebral artery
I63512	Cerebral infarction due to unspecified occlusion or stenosis of left middle cerebral artery
I63519	Cerebral infarction due to unspecified occlusion or stenosis of unspecified middle cerebral artery
I63521	Cerebral infarction due to unspecified occlusion or stenosis of right anterior cerebral artery
I63522	Cerebral infarction due to unspecified occlusion or stenosis of left anterior cerebral artery
I63523	Cerebral infarction due to unspecified occlusion or stenosis of bilateral anterior arteries

Diagnosis Code	Description
I63529	Cerebral infarction due to unspecified occlusion or stenosis of unspecified anterior cerebral artery
I63531	Cerebral infarction due to unspecified occlusion or stenosis of right posterior cerebral artery
I63532	Cerebral infarction due to unspecified occlusion or stenosis of left posterior cerebral artery
I63533	Cerebral infarction due to unspecified occlusion or stenosis of bilateral posterior arteries
I63539	Cerebral infarction due to unspecified occlusion or stenosis of unspecified posterior cerebral artery
I63543	Cerebral infarction due to unspecified occlusion or stenosis of bilateral cerebellar arteries
I6601	Occlusion and stenosis of right middle cerebral artery
I6602	Occlusion and stenosis of left middle cerebral artery
I6603	Occlusion and stenosis of bilateral middle cerebral arteries
I6609	Occlusion and stenosis of unspecified middle cerebral artery
I6611	Occlusion and stenosis of right anterior cerebral artery
I6612	Occlusion and stenosis of left anterior cerebral artery
I6613	Occlusion and stenosis of bilateral anterior cerebral arteries
I6619	Occlusion and stenosis of unspecified anterior cerebral artery
I6621	Occlusion and stenosis of right posterior cerebral artery
I6622	Occlusion and stenosis of left posterior cerebral artery
I6623	Occlusion and stenosis of bilateral posterior cerebral arteries
I6629	Occlusion and stenosis of unspecified posterior cerebral artery
I668	Occlusion and stenosis of other cerebral arteries
I669	Occlusion and stenosis of unspecified cerebral artery
I671	Cerebral aneurysm, nonruptured
I6781	Acute cerebrovascular insufficiency
I6782	Cerebral ischemia
I6783	Posterior reversible encephalopathy syndrome
I6789	Other cerebrovascular disease
I680	Cerebral amyloid angiopathy
I69098	Other sequelae following nontraumatic subarachnoid hemorrhage
I6921	Cognitive deficits following other nontraumatic intracranial hemorrhage
I69210	Attention and concentration deficit following other nontraumatic intracranial hemorrhage
I69211	Memory deficit following other nontraumatic intracranial hemorrhage
I69212	Visuospatial deficit and spatial neglect following other nontraumatic intracranial hemorrhage
I69213	Psychomotor deficit following other nontraumatic intracranial hemorrhage
I69214	Frontal lobe and executive function deficit following other nontraumatic intracranial hemorrhage

Diagnosis Code	Description
I69215	Cognitive social or emotional deficit following other nontraumatic intracranial hemorrhage
I69218	Other symptoms and signs involving cognitive function following other nontraumatic intracranial hemorrhage
I69219	Unspecified symptom and signs involving cognitive functions following other nontraumatic intracranial hemorrhage
I69220	Aphasia following other nontraumatic intracranial hemorrhage
I69221	Dysphasia following other nontraumatic intracranial hemorrhage
I69222	Dysarthria following other nontraumatic intracranial hemorrhage
I69223	Fluency disorder following other nontraumatic intracranial hemorrhage
I69269	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting unspecified side
I69290	Apraxia following other nontraumatic intracranial hemorrhage
I69291	Dysphagia following other nontraumatic intracranial hemorrhage
I69292	Facial weakness following other nontraumatic intracranial hemorrhage
I69293	Ataxia following other nontraumatic intracranial hemorrhage
I69298	Other sequelae of other nontraumatic intracranial hemorrhage
O99411	Diseases of the circulatory system complicating pregnancy, first trimester
O99412	Diseases of the circulatory system complicating pregnancy, second trimester
O99413	Diseases of the circulatory system complicating pregnancy, third trimester
O99419	Diseases of the circulatory system complicating pregnancy, unspecified trimester
O9942	Diseases of the circulatory system complicating childbirth
O9943	Diseases of the circulatory system complicating the puerperium
P0700	Extremely low birth weight newborn, unspecified weight
P0701	Extremely low birth weight newborn, less than 500 grams
P0702	Extremely low birth weight newborn, 500-749 grams
P0703	Extremely low birth weight newborn, 750-999 grams
P0710	Other low birth weight newborn, unspecified weight
P0714	Other low birth weight newborn, 1000-1249 grams
P0715	Other low birth weight newborn, 1250-1499 grams
P0716	Other low birth weight newborn, 1500-1749 grams
P0717	Other low birth weight newborn, 1750-1999 grams
P100	Subdural hemorrhage due to birth injury
P101	Cerebral hemorrhage due to birth injury
P102	Intraventricular hemorrhage due to birth injury
P103	Subarachnoid hemorrhage due to birth injury
P104	Tentorial tear due to birth injury
P108	Other intracranial lacerations and hemorrhages due to birth injury
P109	Unspecified intracranial laceration and hemorrhage due to birth injury
P112	Unspecified brain damage due to birth injury
P119	Birth injury to central nervous system, unspecified

Diagnosis Code	Description
P120	Cephalhematoma due to birth injury
P121	Chignon (from vacuum extraction) due to birth injury
P122	Epicranial subaponeurotic hemorrhage due to birth injury
P123	Bruising of scalp due to birth injury
P124	Injury of scalp of newborn due to monitoring equipment
P1281	Caput succedaneum
P1289	Other birth injuries to scalp
P129	Birth injury to scalp, unspecified
P150	Birth injury to liver
P151	Birth injury to spleen
P152	Sternomastoid injury due to birth injury
P153	Birth injury to eye
P154	Birth injury to face
P155	Birth injury to external genitalia
P156	Subcutaneous fat necrosis due to birth injury
P158	Other specified birth injuries
P352	Congenital herpesviral [herpes simplex] infection
P370	Congenital tuberculosis
P371	Congenital toxoplasmosis
P372	Neonatal (disseminated) listeriosis
P373	Congenital falciparum malaria
P374	Other congenital malaria
P378	Other specified congenital infectious and parasitic diseases
P520	Intraventricular (nontraumatic) hemorrhage, grade 1, of newborn
P521	Intraventricular (nontraumatic) hemorrhage, grade 2, of newborn
P5221	Intraventricular (nontraumatic) hemorrhage, grade 3, of newborn
P5222	Intraventricular (nontraumatic) hemorrhage, grade 4, of newborn
P523	Unspecified intraventricular (nontraumatic) hemorrhage of newborn
P524	Intracerebral (nontraumatic) hemorrhage of newborn
P525	Subarachnoid (nontraumatic) hemorrhage of newborn
P526	Cerebellar (nontraumatic) and posterior fossa hemorrhage of newborn
P528	Other intracranial (nontraumatic) hemorrhages of newborn
P529	Intracranial (nontraumatic) hemorrhage of newborn, unspecified
P90	Convulsions of newborn
P912	Neonatal cerebral leukomalacia
Q010	Frontal encephalocele
Q011	Nasofrontal encephalocele
Q012	Occipital encephalocele
Q018	Encephalocele of other sites

Diagnosis Code	Description
Q02	Microcephaly
Q030	Malformations of aqueduct of Sylvius
Q031	Atresia of foramina of Magendie and Luschka
Q038	Other congenital hydrocephalus
Q040	Congenital malformations of corpus callosum
Q041	Arhinencephaly
Q042	Holoprosencephaly
Q045	Megalencephaly
Q046	Congenital cerebral cysts
Q048	Other specified congenital malformations of brain
Q050	Cervical spina bifida with hydrocephalus
Q051	Thoracic spina bifida with hydrocephalus
Q052	Lumbar spina bifida with hydrocephalus
Q054	Unspecified spina bifida with hydrocephalus
Q0701	Arnold-Chiari syndrome with spina bifida
Q0702	Arnold-Chiari syndrome with hydrocephalus
Q0703	Arnold-Chiari syndrome with spina bifida and hydrocephalus
Q282	Arteriovenous malformation of cerebral vessels
Q283	Other malformations of cerebral vessels
R220	Localized swelling, mass and lump, head
R221	Localized swelling, mass and lump, neck
R5600	Simple febrile convulsions
R569	Unspecified convulsions
S0190XA	Unspecified open wound of unspecified part of head, initial encounter
S0190XD	Unspecified open wound of unspecified part of head, subsequent encounter
S0190XS	Unspecified open wound of unspecified part of head, sequela
S060X0A	Concussion without loss of consciousness, initial encounter
S060X0D	Concussion without loss of consciousness, subsequent encounter
S060X0S	Concussion without loss of consciousness, sequela
S060X1A	Concussion with loss of consciousness of 30 minutes or less, initial encounter
S060X1D	Concussion with loss of consciousness of 30 minutes or less, subsequent encounter
S060X1S	Concussion with loss of consciousness of 30 minutes or less, sequela
S060X9A	Concussion with loss of consciousness of unspecified duration, initial encounter
S060X9D	Concussion with loss of consciousness of unspecified duration, subsequent encounter
S060X9S	Concussion with loss of consciousness of unspecified duration, sequela
S061X0A	Traumatic cerebral edema without loss of consciousness, initial encounter
S061X0D	Traumatic cerebral edema without loss of consciousness, subsequent encounter
S061X0S	Traumatic cerebral edema without loss of consciousness, sequela
S061X1A	Traumatic cerebral edema with loss of consciousness of 30 minutes or less, initial encounter

Diagnosis Code	Description
S061X1D	Traumatic cerebral edema with loss of consciousness of 30 minutes or less, subsequent encounter
S061X1S	Traumatic cerebral edema with loss of consciousness of 30 minutes or less, sequela
S061X2A	Traumatic cerebral edema with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S061X2D	Traumatic cerebral edema with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S061X2S	Traumatic cerebral edema with loss of consciousness of 31 minutes to 59 minutes, sequela
S061X3A	Traumatic cerebral edema with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S061X3D	Traumatic cerebral edema with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S061X3S	Traumatic cerebral edema with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela
S061X4A	Traumatic cerebral edema with loss of consciousness of 6 hours to 24 hours, initial encounter
S061X4D	Traumatic cerebral edema with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S061X4S	Traumatic cerebral edema with loss of consciousness of 6 hours to 24 hours, sequela
S061X5A	Traumatic cerebral edema with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S061X5D	Traumatic cerebral edema with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S061X5S	Traumatic cerebral edema with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S061X6A	Traumatic cerebral edema with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S061X6D	Traumatic cerebral edema with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S061X6S	Traumatic cerebral edema with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S061X7A	Traumatic cerebral edema with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S061X7D	Traumatic cerebral edema with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S061X7S	Traumatic cerebral edema with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S061X8A	Traumatic cerebral edema with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S061X8D	Traumatic cerebral edema with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S061X8S	Traumatic cerebral edema with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S061X9A	Traumatic cerebral edema with loss of consciousness of unspecified duration, initial encounter

Diagnosis Code	Description
S061X9D	Traumatic cerebral edema with loss of consciousness of unspecified duration, subsequent encounter
S061X9S	Traumatic cerebral edema with loss of consciousness of unspecified duration, sequela
S06305A	Unspecified focal traumatic brain injury with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S06305D	Unspecified focal traumatic brain injury with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S06305S	Unspecified focal traumatic brain injury with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S06306A	Unspecified focal traumatic brain injury with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S06306D	Unspecified focal traumatic brain injury with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06306S	Unspecified focal traumatic brain injury with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06307A	Unspecified focal traumatic brain injury with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06307D	Unspecified focal traumatic brain injury with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S06307S	Unspecified focal traumatic brain injury with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S06308A	Unspecified focal traumatic brain injury with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06308D	Unspecified focal traumatic brain injury with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S06308S	Unspecified focal traumatic brain injury with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06310A	Contusion and laceration of right cerebrum without loss of consciousness, initial encounter
S06310D	Contusion and laceration of right cerebrum without loss of consciousness, subsequent encounter
S06310S	Contusion and laceration of right cerebrum without loss of consciousness, sequela
S06311A	Contusion and laceration of right cerebrum with loss of consciousness of 30 minutes or less, initial encounter
S06311D	Contusion and laceration of right cerebrum with loss of consciousness of 30 minutes or less, subsequent encounter
S06311S	Contusion and laceration of right cerebrum with loss of consciousness of 30 minutes or less, sequela
S06312A	Contusion and laceration of right cerebrum with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S06312D	Contusion and laceration of right cerebrum with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S06312S	Contusion and laceration of right cerebrum with loss of consciousness of 31 minutes to 59 minutes, sequela

Diagnosis Code	Description
S06313A	Contusion and laceration of right cerebrum with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S06313D	Contusion and laceration of right cerebrum with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S06313S	Contusion and laceration of right cerebrum with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela
S06314A	Contusion and laceration of right cerebrum with loss of consciousness of 6 hours to 24 hours, initial encounter
S06314D	Contusion and laceration of right cerebrum with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S06314S	Contusion and laceration of right cerebrum with loss of consciousness of 6 hours to 24 hours, sequela
S06315A	Contusion and laceration of right cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S06315D	Contusion and laceration of right cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S06315S	Contusion and laceration of right cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S06316A	Contusion and laceration of right cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S06316D	Contusion and laceration of right cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06316S	Contusion and laceration of right cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06317A	Contusion and laceration of right cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06317D	Contusion and laceration of right cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S06317S	Contusion and laceration of right cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S06318A	Contusion and laceration of right cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06318D	Contusion and laceration of right cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S06318S	Contusion and laceration of right cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06319A	Contusion and laceration of right cerebrum with loss of consciousness of unspecified duration, initial encounter
S06319D	Contusion and laceration of right cerebrum with loss of consciousness of unspecified duration, subsequent encounter
S06319S	Contusion and laceration of right cerebrum with loss of consciousness of unspecified duration, sequela
S06320A	Contusion and laceration of left cerebrum without loss of consciousness, initial encounter

Diagnosis Code	Description
S06320D	Contusion and laceration of left cerebrum without loss of consciousness, subsequent encounter
S06320S	Contusion and laceration of left cerebrum without loss of consciousness, sequela
S06321A	Contusion and laceration of left cerebrum with loss of consciousness of 30 minutes or less, initial encounter
S06321D	Contusion and laceration of left cerebrum with loss of consciousness of 30 minutes or less, subsequent encounter
S06321S	Contusion and laceration of left cerebrum with loss of consciousness of 30 minutes or less, sequela
S06322A	Contusion and laceration of left cerebrum with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S06322D	Contusion and laceration of left cerebrum with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S06322S	Contusion and laceration of left cerebrum with loss of consciousness of 31 minutes to 59 minutes, sequela
S06323A	Contusion and laceration of left cerebrum with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S06323D	Contusion and laceration of left cerebrum with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S06323S	Contusion and laceration of left cerebrum with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela
S06324A	Contusion and laceration of left cerebrum with loss of consciousness of 6 hours to 24 hours, initial encounter
S06324D	Contusion and laceration of left cerebrum with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S06324S	Contusion and laceration of left cerebrum with loss of consciousness of 6 hours to 24 hours, sequela
S06325A	Contusion and laceration of left cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S06325D	Contusion and laceration of left cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S06325S	Contusion and laceration of left cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S06326A	Contusion and laceration of left cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S06326D	Contusion and laceration of left cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06326S	Contusion and laceration of left cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06327A	Contusion and laceration of left cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06327D	Contusion and laceration of left cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S06327S	Contusion and laceration of left cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela

Diagnosis Code	Description
S06328A	Contusion and laceration of left cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06328D	Contusion and laceration of left cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S06328S	Contusion and laceration of left cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06329A	Contusion and laceration of left cerebrum with loss of consciousness of unspecified duration, initial encounter
S06329D	Contusion and laceration of left cerebrum with loss of consciousness of unspecified duration, subsequent encounter
S06329S	Contusion and laceration of left cerebrum with loss of consciousness of unspecified duration, sequela
S06330A	Contusion and laceration of cerebrum, unspecified, without loss of consciousness, initial encounter
S06330D	Contusion and laceration of cerebrum, unspecified, without loss of consciousness, subsequent encounter
S06330S	Contusion and laceration of cerebrum, unspecified, without loss of consciousness, sequela
S06331A	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 30 minutes or less, initial encounter
S06331D	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 30 minutes or less, subsequent encounter
S06331S	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 30 minutes or less, sequela
S06332A	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S06332D	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S06332S	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 31 minutes to 59 minutes, sequela
S06333A	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S06333D	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S06333S	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela
S06334A	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 6 hours to 24 hours, initial encounter
S06334D	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S06334S	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of 6 hours to 24 hours, sequela
S06335A	Contusion and laceration of cerebrum, unspecified, with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S06335D	Contusion and laceration of cerebrum, unspecified, with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter

Diagnosis Code	Description
S06335S	Contusion and laceration of cerebrum, unspecified, with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S06336A	Contusion and laceration of cerebrum, unspecified, with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S06336D	Contusion and laceration of cerebrum, unspecified, with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06336S	Contusion and laceration of cerebrum, unspecified, with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06337A	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06337D	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S06337S	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S06338A	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06338D	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S06338S	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06339A	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of unspecified duration, initial encounter
S06339D	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of unspecified duration, subsequent encounter
S06339S	Contusion and laceration of cerebrum, unspecified, with loss of consciousness of unspecified duration, sequela
S06340A	Traumatic hemorrhage of right cerebrum without loss of consciousness, initial encounter
S06340D	Traumatic hemorrhage of right cerebrum without loss of consciousness, subsequent encounter
S06340S	Traumatic hemorrhage of right cerebrum without loss of consciousness, sequela
S06341A	Traumatic hemorrhage of right cerebrum with loss of consciousness of 30 minutes or less, initial encounter
S06341D	Traumatic hemorrhage of right cerebrum with loss of consciousness of 30 minutes or less, subsequent encounter
S06341S	Traumatic hemorrhage of right cerebrum with loss of consciousness of 30 minutes or less, sequela
S06342A	Traumatic hemorrhage of right cerebrum with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S06342D	Traumatic hemorrhage of right cerebrum with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter

Diagnosis Code	Description
S06342S	Traumatic hemorrhage of right cerebrum with loss of consciousness of 31 minutes to 59 minutes, sequela
S06343A	Traumatic hemorrhage of right cerebrum with loss of consciousness of 1 hours to 5 hours 59 minutes, initial encounter
S06343D	Traumatic hemorrhage of right cerebrum with loss of consciousness of 1 hours to 5 hours 59 minutes, subsequent encounter
S06343S	Traumatic hemorrhage of right cerebrum with loss of consciousness of 1 hours to 5 hours 59 minutes, sequela
S06344A	Traumatic hemorrhage of right cerebrum with loss of consciousness of 6 hours to 24 hours, initial encounter
S06344D	Traumatic hemorrhage of right cerebrum with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S06344S	Traumatic hemorrhage of right cerebrum with loss of consciousness of 6 hours to 24 hours, sequela
S06345A	Traumatic hemorrhage of right cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S06345D	Traumatic hemorrhage of right cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S06345S	Traumatic hemorrhage of right cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S06346A	Traumatic hemorrhage of right cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S06346D	Traumatic hemorrhage of right cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06346S	Traumatic hemorrhage of right cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06347A	Traumatic hemorrhage of right cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06347D	Traumatic hemorrhage of right cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S06347S	Traumatic hemorrhage of right cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S06348A	Traumatic hemorrhage of right cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06348D	Traumatic hemorrhage of right cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S06348S	Traumatic hemorrhage of right cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06349A	Traumatic hemorrhage of right cerebrum with loss of consciousness of unspecified duration, initial encounter
S06349D	Traumatic hemorrhage of right cerebrum with loss of consciousness of unspecified duration, subsequent encounter
S06349S	Traumatic hemorrhage of right cerebrum with loss of consciousness of unspecified duration, sequela

Diagnosis Code	Description
S06350A	Traumatic hemorrhage of left cerebrum without loss of consciousness, initial encounter
S06350D	Traumatic hemorrhage of left cerebrum without loss of consciousness, subsequent encounter
S06350S	Traumatic hemorrhage of left cerebrum without loss of consciousness, sequela
S06351A	Traumatic hemorrhage of left cerebrum with loss of consciousness of 30 minutes or less, initial encounter
S06351D	Traumatic hemorrhage of left cerebrum with loss of consciousness of 30 minutes or less, subsequent encounter
S06351S	Traumatic hemorrhage of left cerebrum with loss of consciousness of 30 minutes or less, sequela
S06352A	Traumatic hemorrhage of left cerebrum with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S06352D	Traumatic hemorrhage of left cerebrum with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S06352S	Traumatic hemorrhage of left cerebrum with loss of consciousness of 31 minutes to 59 minutes, sequela
S06353A	Traumatic hemorrhage of left cerebrum with loss of consciousness of 1 hours to 5 hours 59 minutes, initial encounter
S06353D	Traumatic hemorrhage of left cerebrum with loss of consciousness of 1 hours to 5 hours 59 minutes, subsequent encounter
S06353S	Traumatic hemorrhage of left cerebrum with loss of consciousness of 1 hours to 5 hours 59 minutes, sequela
S06354A	Traumatic hemorrhage of left cerebrum with loss of consciousness of 6 hours to 24 hours, initial encounter
S06354D	Traumatic hemorrhage of left cerebrum with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S06354S	Traumatic hemorrhage of left cerebrum with loss of consciousness of 6 hours to 24 hours, sequela
S06355A	Traumatic hemorrhage of left cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S06355D	Traumatic hemorrhage of left cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S06355S	Traumatic hemorrhage of left cerebrum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S06356A	Traumatic hemorrhage of left cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S06356D	Traumatic hemorrhage of left cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06356S	Traumatic hemorrhage of left cerebrum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06357A	Traumatic hemorrhage of left cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06357D	Traumatic hemorrhage of left cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter

Diagnosis Code	Description
S06357S	Traumatic hemorrhage of left cerebrum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S06358A	Traumatic hemorrhage of left cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06358D	Traumatic hemorrhage of left cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S06358S	Traumatic hemorrhage of left cerebrum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06359A	Traumatic hemorrhage of left cerebrum with loss of consciousness of unspecified duration, initial encounter
S06359D	Traumatic hemorrhage of left cerebrum with loss of consciousness of unspecified duration, subsequent encounter
S06359S	Traumatic hemorrhage of left cerebrum with loss of consciousness of unspecified duration, sequela
S06360A	Traumatic hemorrhage of cerebrum, unspecified, without loss of consciousness, initial encounter
S06360D	Traumatic hemorrhage of cerebrum, unspecified, without loss of consciousness, subsequent encounter
S06360S	Traumatic hemorrhage of cerebrum, unspecified, without loss of consciousness, sequela
S06361A	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 30 minutes or less, initial encounter
S06361D	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 30 minutes or less, subsequent encounter
S06361S	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 30 minutes or less, sequela
S06362A	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S06362D	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S06362S	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 31 minutes to 59 minutes, sequela
S06363A	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 1 hours to 5 hours 59 minutes, initial encounter
S06363D	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 1 hours to 5 hours 59 minutes, subsequent encounter
S06363S	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 1 hours to 5 hours 59 minutes, sequela
S06364A	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 6 hours to 24 hours, initial encounter
S06364D	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S06364S	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of 6 hours to 24 hours, sequela
S06365A	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter

Diagnosis Code	Description
S06365D	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S06365S	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S06366A	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S06366D	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06366S	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06367A	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06367D	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S06367S	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S06368A	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06368D	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S06368S	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06369A	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of unspecified duration, initial encounter
S06369D	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of unspecified duration, subsequent encounter
S06369S	Traumatic hemorrhage of cerebrum, unspecified, with loss of consciousness of unspecified duration, sequela
S06370A	Contusion, laceration, and hemorrhage of cerebellum without loss of consciousness, initial encounter
S06370D	Contusion, laceration, and hemorrhage of cerebellum without loss of consciousness, subsequent encounter
S06370S	Contusion, laceration, and hemorrhage of cerebellum without loss of consciousness, sequela
S06371A	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 30 minutes or less, initial encounter
S06371D	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 30 minutes or less, subsequent encounter
S06371S	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 30 minutes or less, sequela

Diagnosis Code	Description
S06372A	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S06372D	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S06372S	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 31 minutes to 59 minutes, sequela
S06373A	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S06373D	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S06373S	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela
S06374A	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 6 hours to 24 hours, initial encounter
S06374D	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S06374S	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of 6 hours to 24 hours, sequela
S06375A	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S06375D	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S06375S	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S06376A	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S06376D	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06376S	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06377A	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06377D	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S06377S	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S06378A	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06378D	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter

Diagnosis Code	Description
S06378S	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06379A	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of unspecified duration, initial encounter
S06379D	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of unspecified duration, subsequent encounter
S06379S	Contusion, laceration, and hemorrhage of cerebellum with loss of consciousness of unspecified duration, sequela
S06380A	Contusion, laceration, and hemorrhage of brainstem without loss of consciousness, initial encounter
S06380D	Contusion, laceration, and hemorrhage of brainstem without loss of consciousness, subsequent encounter
S06380S	Contusion, laceration, and hemorrhage of brainstem without loss of consciousness, sequela
S06381A	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 30 minutes or less, initial encounter
S06381D	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 30 minutes or less, subsequent encounter
S06381S	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 30 minutes or less, sequela
S06382A	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S06382D	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S06382S	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 31 minutes to 59 minutes, sequela
S06383A	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S06383D	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S06383S	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela
S06384A	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 6 hours to 24 hours, initial encounter
S06384D	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S06384S	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of 6 hours to 24 hours, sequela
S06385A	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S06385D	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S06385S	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S06386A	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter

Diagnosis Code	Description
S06386D	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06386S	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06387A	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06387D	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S06387S	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S06388A	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06388D	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S06388S	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06389A	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of unspecified duration, initial encounter
S06389D	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of unspecified duration, subsequent encounter
S06389S	Contusion, laceration, and hemorrhage of brainstem with loss of consciousness of unspecified duration, sequela
S064X0A	Epidural hemorrhage without loss of consciousness, initial encounter
S064X0D	Epidural hemorrhage without loss of consciousness, subsequent encounter
S064X0S	Epidural hemorrhage without loss of consciousness, sequela
S064X1A	Epidural hemorrhage with loss of consciousness of 30 minutes or less, initial encounter
S064X1D	Epidural hemorrhage with loss of consciousness of 30 minutes or less, subsequent encounter
S064X1S	Epidural hemorrhage with loss of consciousness of 30 minutes or less, sequela
S064X2A	Epidural hemorrhage with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S064X2D	Epidural hemorrhage with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S064X2S	Epidural hemorrhage with loss of consciousness of 31 minutes to 59 minutes, sequela
S064X3A	Epidural hemorrhage with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S064X3D	Epidural hemorrhage with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S064X3S	Epidural hemorrhage with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela

Diagnosis Code	Description
S064X4A	Epidural hemorrhage with loss of consciousness of 6 hours to 24 hours, initial encounter
S064X4D	Epidural hemorrhage with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S064X4S	Epidural hemorrhage with loss of consciousness of 6 hours to 24 hours, sequela
S064X5A	Epidural hemorrhage with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S064X5D	Epidural hemorrhage with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S064X5S	Epidural hemorrhage with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S064X6A	Epidural hemorrhage with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S064X6D	Epidural hemorrhage with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S064X6S	Epidural hemorrhage with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S064X7A	Epidural hemorrhage with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S064X7D	Epidural hemorrhage with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S064X7S	Epidural hemorrhage with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S064X8A	Epidural hemorrhage with loss of consciousness of any duration with death due to other causes prior to regaining consciousness, initial encounter
S064X8D	Epidural hemorrhage with loss of consciousness of any duration with death due to other causes prior to regaining consciousness, subsequent encounter
S064X8S	Epidural hemorrhage with loss of consciousness of any duration with death due to other causes prior to regaining consciousness, sequela
S064X9A	Epidural hemorrhage with loss of consciousness of unspecified duration, initial encounter
S064X9D	Epidural hemorrhage with loss of consciousness of unspecified duration, subsequent encounter
S064X9S	Epidural hemorrhage with loss of consciousness of unspecified duration, sequela
S065X0A	Traumatic subdural hemorrhage without loss of consciousness, initial encounter
S065X0D	Traumatic subdural hemorrhage without loss of consciousness, subsequent encounter
S065X0S	Traumatic subdural hemorrhage without loss of consciousness, sequela
S065X1A	Traumatic subdural hemorrhage with loss of consciousness of 30 minutes or less, initial encounter
S065X1D	Traumatic subdural hemorrhage with loss of consciousness of 30 minutes or less, subsequent encounter
S065X1S	Traumatic subdural hemorrhage with loss of consciousness of 30 minutes or less, sequela
S065X2A	Traumatic subdural hemorrhage with loss of consciousness of 31 minutes to 59 minutes, initial encounter

Diagnosis Code	Description
S065X2D	Traumatic subdural hemorrhage with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S065X2S	Traumatic subdural hemorrhage with loss of consciousness of 31 minutes to 59 minutes, sequela
S065X3A	Traumatic subdural hemorrhage with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S065X3D	Traumatic subdural hemorrhage with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S065X3S	Traumatic subdural hemorrhage with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela
S065X4A	Traumatic subdural hemorrhage with loss of consciousness of 6 hours to 24 hours, initial encounter
S065X4D	Traumatic subdural hemorrhage with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S065X4S	Traumatic subdural hemorrhage with loss of consciousness of 6 hours to 24 hours, sequela
S065X5A	Traumatic subdural hemorrhage with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S065X5D	Traumatic subdural hemorrhage with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S065X5S	Traumatic subdural hemorrhage with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S065X6A	Traumatic subdural hemorrhage with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S065X6D	Traumatic subdural hemorrhage with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S065X6S	Traumatic subdural hemorrhage with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S065X7A	Traumatic subdural hemorrhage with loss of consciousness of any duration with death due to brain injury before regaining consciousness, initial encounter
S065X7D	Traumatic subdural hemorrhage with loss of consciousness of any duration with death due to brain injury before regaining consciousness, subsequent encounter
S065X7S	Traumatic subdural hemorrhage with loss of consciousness of any duration with death due to brain injury before regaining consciousness, sequela
S065X8A	Traumatic subdural hemorrhage with loss of consciousness of any duration with death due to other cause before regaining consciousness, initial encounter
S065X8D	Traumatic subdural hemorrhage with loss of consciousness of any duration with death due to other cause before regaining consciousness, subsequent encounter
S065X8S	Traumatic subdural hemorrhage with loss of consciousness of any duration with death due to other cause before regaining consciousness, sequela
S065X9A	Traumatic subdural hemorrhage with loss of consciousness of unspecified duration, initial encounter
S065X9D	Traumatic subdural hemorrhage with loss of consciousness of unspecified duration, subsequent encounter
S065X9S	Traumatic subdural hemorrhage with loss of consciousness of unspecified duration, sequela

Diagnosis Code	Description
S066X0A	Traumatic subarachnoid hemorrhage without loss of consciousness, initial encounter
S066X0D	Traumatic subarachnoid hemorrhage without loss of consciousness, subsequent encounter
S066X0S	Traumatic subarachnoid hemorrhage without loss of consciousness, sequela
S066X1A	Traumatic subarachnoid hemorrhage with loss of consciousness of 30 minutes or less, initial encounter
S066X1D	Traumatic subarachnoid hemorrhage with loss of consciousness of 30 minutes or less, subsequent encounter
S066X1S	Traumatic subarachnoid hemorrhage with loss of consciousness of 30 minutes or less, sequela
S066X2A	Traumatic subarachnoid hemorrhage with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S066X2D	Traumatic subarachnoid hemorrhage with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S066X2S	Traumatic subarachnoid hemorrhage with loss of consciousness of 31 minutes to 59 minutes, sequela
S066X3A	Traumatic subarachnoid hemorrhage with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S066X3D	Traumatic subarachnoid hemorrhage with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S066X3S	Traumatic subarachnoid hemorrhage with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela
S066X4A	Traumatic subarachnoid hemorrhage with loss of consciousness of 6 hours to 24 hours, initial encounter
S066X4D	Traumatic subarachnoid hemorrhage with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S066X4S	Traumatic subarachnoid hemorrhage with loss of consciousness of 6 hours to 24 hours, sequela
S066X5A	Traumatic subarachnoid hemorrhage with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S066X5D	Traumatic subarachnoid hemorrhage with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S066X5S	Traumatic subarachnoid hemorrhage with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S066X6A	Traumatic subarachnoid hemorrhage with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S066X6D	Traumatic subarachnoid hemorrhage with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S066X6S	Traumatic subarachnoid hemorrhage with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S066X7A	Traumatic subarachnoid hemorrhage with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S066X7D	Traumatic subarachnoid hemorrhage with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S066X7S	Traumatic subarachnoid hemorrhage with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela

Diagnosis Code	Description
S066X8A	Traumatic subarachnoid hemorrhage with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S066X8D	Traumatic subarachnoid hemorrhage with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S066X8S	Traumatic subarachnoid hemorrhage with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S066X9A	Traumatic subarachnoid hemorrhage with loss of consciousness of unspecified duration, initial encounter
S066X9D	Traumatic subarachnoid hemorrhage with loss of consciousness of unspecified duration, subsequent encounter
S066X9S	Traumatic subarachnoid hemorrhage with loss of consciousness of unspecified duration, sequela
S06890A	Other specified intracranial injury without loss of consciousness, initial encounter
S06890D	Other specified intracranial injury without loss of consciousness, subsequent encounter
S06890S	Other specified intracranial injury without loss of consciousness, sequela
S06891A	Other specified intracranial injury with loss of consciousness of 30 minutes or less, initial encounter
S06891D	Other specified intracranial injury with loss of consciousness of 30 minutes or less, subsequent encounter
S06891S	Other specified intracranial injury with loss of consciousness of 30 minutes or less, sequela
S06892A	Other specified intracranial injury with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S06892D	Other specified intracranial injury with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S06892S	Other specified intracranial injury with loss of consciousness of 31 minutes to 59 minutes, sequela
S06893A	Other specified intracranial injury with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S06893D	Other specified intracranial injury with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S06893S	Other specified intracranial injury with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela
S06894A	Other specified intracranial injury with loss of consciousness of 6 hours to 24 hours, initial encounter
S06894D	Other specified intracranial injury with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S06894S	Other specified intracranial injury with loss of consciousness of 6 hours to 24 hours, sequela
S06895A	Other specified intracranial injury with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S06895D	Other specified intracranial injury with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S06895S	Other specified intracranial injury with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela

Diagnosis Code	Description
S06896A	Other specified intracranial injury with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S06896D	Other specified intracranial injury with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S06896S	Other specified intracranial injury with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S06897A	Other specified intracranial injury with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S06897D	Other specified intracranial injury with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S06897S	Other specified intracranial injury with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S06898A	Other specified intracranial injury with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S06898D	Other specified intracranial injury with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S06898S	Other specified intracranial injury with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S06899A	Other specified intracranial injury with loss of consciousness of unspecified duration, initial encounter
S06899D	Other specified intracranial injury with loss of consciousness of unspecified duration, subsequent encounter
S06899S	Other specified intracranial injury with loss of consciousness of unspecified duration, sequela
S069X0A	Unspecified intracranial injury without loss of consciousness, initial encounter
S069X0D	Unspecified intracranial injury without loss of consciousness, subsequent encounter
S069X0S	Unspecified intracranial injury without loss of consciousness, sequela
S069X1A	Unspecified intracranial injury with loss of consciousness of 30 minutes or less, initial encounter
S069X1D	Unspecified intracranial injury with loss of consciousness of 30 minutes or less, subsequent encounter
S069X1S	Unspecified intracranial injury with loss of consciousness of 30 minutes or less, sequela
S069X2A	Unspecified intracranial injury with loss of consciousness of 31 minutes to 59 minutes, initial encounter
S069X2D	Unspecified intracranial injury with loss of consciousness of 31 minutes to 59 minutes, subsequent encounter
S069X2S	Unspecified intracranial injury with loss of consciousness of 31 minutes to 59 minutes, sequela
S069X3A	Unspecified intracranial injury with loss of consciousness of 1 hour to 5 hours 59 minutes, initial encounter
S069X3D	Unspecified intracranial injury with loss of consciousness of 1 hour to 5 hours 59 minutes, subsequent encounter
S069X3S	Unspecified intracranial injury with loss of consciousness of 1 hour to 5 hours 59 minutes, sequela

Diagnosis Code	Description
S069X4A	Unspecified intracranial injury with loss of consciousness of 6 hours to 24 hours, initial encounter
S069X4D	Unspecified intracranial injury with loss of consciousness of 6 hours to 24 hours, subsequent encounter
S069X4S	Unspecified intracranial injury with loss of consciousness of 6 hours to 24 hours, sequela
S069X5A	Unspecified intracranial injury with loss of consciousness greater than 24 hours with return to pre-existing conscious level, initial encounter
S069X5D	Unspecified intracranial injury with loss of consciousness greater than 24 hours with return to pre-existing conscious level, subsequent encounter
S069X5S	Unspecified intracranial injury with loss of consciousness greater than 24 hours with return to pre-existing conscious level, sequela
S069X6A	Unspecified intracranial injury with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, initial encounter
S069X6D	Unspecified intracranial injury with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, subsequent encounter
S069X6S	Unspecified intracranial injury with loss of consciousness greater than 24 hours without return to pre-existing conscious level with patient surviving, sequela
S069X7A	Unspecified intracranial injury with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, initial encounter
S069X7D	Unspecified intracranial injury with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, subsequent encounter
S069X7S	Unspecified intracranial injury with loss of consciousness of any duration with death due to brain injury prior to regaining consciousness, sequela
S069X8A	Unspecified intracranial injury with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, initial encounter
S069X8D	Unspecified intracranial injury with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, subsequent encounter
S069X8S	Unspecified intracranial injury with loss of consciousness of any duration with death due to other cause prior to regaining consciousness, sequela
S069X9A	Unspecified intracranial injury with loss of consciousness of unspecified duration, initial encounter
S069X9D	Unspecified intracranial injury with loss of consciousness of unspecified duration, subsequent encounter
S069X9S	Unspecified intracranial injury with loss of consciousness of unspecified duration, sequela
S0990xA	Unspecified injury of head, initial encounter
S0990xD	Unspecified injury of head, subsequent encounter
S0990xS	Unspecified injury of head, sequela

31.2.17.1 Ambulatory Electroencephalogram

Ambulatory electroencephalographic monitoring is a benefit of the CSHCN Services Program with the following diagnosis codes:

Diagnosis Code	Description
F05	Delirium due to known physiological condition
F060	Psychotic disorder with hallucinations due to known physiological condition
F068	Other specified mental disorders due to known physiological condition
G253	Myoclonus
G40001	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, not intractable, with status epilepticus
G40009	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of
G40011	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, intractable, with status epilepticus
G40019	Localization-related (focal) (partial) idiopathic epilepsy and epileptic syndromes with seizures of localized onset, intractable, without status epilepticus
G40101	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial
G40109	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, not intractable, without status epilepticus
G40111	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, intractable, with status epilepticus
G40119	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with simple partial seizures, intractable, without status epilepticus
G40201	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, not intractable, with status epilepticus
G40209	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, not intractable, without status epilepticus
G40211	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable, with status epilepticus
G40219	Localization-related (focal) (partial) symptomatic epilepsy and epileptic syndromes with complex partial seizures, intractable, without status epilepticus
G40301	Generalized idiopathic epilepsy and epileptic syndromes, not intractable, with status epilepticus
G40309	Generalized idiopathic epilepsy and epileptic syndromes, not intractable, without status epilepticus
G40311	Generalized idiopathic epilepsy and epileptic syndromes, intractable, with status epilepticus
G40319	Generalized idiopathic epilepsy and epileptic syndromes, intractable, without status epilepticus
G40401	Other generalized epilepsy and epileptic syndromes, not intractable, with status epilepticus
G40409	Other generalized epilepsy and epileptic syndromes, not intractable, without status epilepticus
G40411	Other generalized epilepsy and epileptic syndromes, intractable, with status epilepticus

Diagnosis Code	Description
G40419	Other generalized epilepsy and epileptic syndromes, intractable, without status epilepticus
G40501	Epileptic seizures related to external causes, not intractable, with status epilepticus
G40509	Epileptic seizures related to external causes, not intractable, without status epilepticus
G40801	Other epilepsy, not intractable, with status epilepticus
G40802	Other epilepsy, not intractable, without status epilepticus
G40803	Other epilepsy, intractable, with status epilepticus
G40804	Other epilepsy, intractable, without status epilepticus
G40811	Lennox-Gastaut syndrome, not intractable, with status epilepticus
G40812	Lennox-Gastaut syndrome, not intractable, without status epilepticus
G40813	Lennox-Gastaut syndrome, intractable, with status epilepticus
G40814	Lennox-Gastaut syndrome, intractable, without status epilepticus
G4089	Other seizures
G40901	Epilepsy, unspecified, not intractable, with status epilepticus
G40909	Epilepsy, unspecified, not intractable, without status epilepticus
G40911	Epilepsy, unspecified, intractable, with status epilepticus
G40919	Epilepsy, unspecified, intractable, without status epilepticus
G40A11	Absence epileptic syndrome, intractable, with status epilepticus
G40A19	Absence epileptic syndrome, intractable, without status epilepticus
G40B01	Juvenile myoclonic epilepsy, not intractable, with status epilepticus
G40B09	Juvenile myoclonic epilepsy, not intractable, without status epilepticus
G40B11	Juvenile myoclonic epilepsy, intractable, with status epilepticus
G40B19	Juvenile myoclonic epilepsy, intractable, without status epilepticus
G912	(Idiopathic) normal pressure hydrocephalus
G9381	Temporal sclerosis
G9389	Other specified disorders of brain
P912	Neonatal cerebral leukomalacia
R569	Unspecified convulsions
Z85020	Personal history of malignant carcinoid tumor of stomach
Z85030	Personal history of malignant carcinoid tumor of large intestine
Z85040	Personal history of malignant carcinoid tumor of rectum
Z85060	Personal history of malignant carcinoid tumor of small intestine
Z85110	Personal history of malignant carcinoid tumor of bronchus and lung
Z85230	Personal history of malignant carcinoid tumor of thymus
Z85520	Personal history of malignant carcinoid tumor of kidney
Z85821	Personal history of Merkel cell carcinoma
Z85841	Personal history of malignant neoplasm of brain
Z85848	Personal history of malignant neoplasm of other parts of nervous tissue
Z86011	Personal history of benign neoplasm of the brain
Z8669	Personal history of other diseases of the nervous system and sense organs

Diagnosis Code	Description
Z87728	Personal history of other specified (corrected) congenital malformations of nervous system and
Z87798	Personal history of other (corrected) congenital malformations

Procedure code 95950, 95951, 95953, 95956, or 95957 must be used when billing for ambulatory electroencephalograms. Authorization is not required for the diagnoses listed above. All other diagnoses require authorization and documentation of medical necessity. Documentation should include the diagnosis and the specific rationale for the request. Claims for ambulatory electroencephalographic monitoring are considered for payment on appeal for diagnoses other than those listed above or if the frequency of testing exceeds the limitation.

Ambulatory electroencephalograms are limited to three every 6 months, per client, same provider. Physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid for the procedure.

31.2.18 Evaluation and Management (E/M) Services

E/M services are benefits of the CSHCN Services Program. When selecting the level of service provided, providers must follow either the 1995 or 1997 Documentation Guidelines for Evaluation and Management Services published by CMS.

Covered professional services provided by physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid. This manual may not list all E/M procedure codes that may be reimbursed by the CSHCN Services Program.

31.2.18.1 New or Established Patient Visits

New patient visits will be allowed every 3 years for physician E/M services, per client, per provider.

A new patient is defined by the American Medical Association (AMA) as one who has not received any professional services from a physician or physician within the same group practice, of the same specialty, within the past 3 years. An established patient is one who has received professional services from a physician or physician within the same group practice, of the same specialty, within the last 3 years.

Providers may use procedure codes 99201, 99202, 99203, 99204, and 99205 when billing for new patient services provided in the office, or in an outpatient or other ambulatory facility.

Providers may use procedure codes 99211, 99212, 99213, 99214, and 99215 when billing for established patient services provided in the office, outpatient, or other ambulatory facility during regularly scheduled evening, weekend, holiday, or standard office hours.

Providers may use procedure codes 99341, 99342, 99343, 99344, and 99345 when billing for new patient services provided in the home.

Providers may use procedure codes 99347, 99348, 99349, and 99350 when billing for established patient services provided in the home.

If an established patient visit is billed on the same day as a new patient visit in any setting by the same provider for any diagnosis, the established patient visit will be denied as part of another procedure on the same day. New or established patient care visits are limited to one per day for the same provider regardless of diagnosis.

Office visits (procedure codes 99201, 99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, and 99215) provided on the same day as a planned procedure (minor or extensive), are included in the cost of the procedure and are not separately reimbursed.

Modifier 25 may be used to identify a significant, separately identifiable E/M service by the same physician on the same day of the procedure or other service. Documentation that supports the provision of a significant, separately identifiable E/M service must be maintained in the client's medical record and made available to the CSHCN Services Program upon request. The documentation must clearly indicate what the significant problem/abnormality was, including the important, distinct correlation with signs and symptoms to demonstrate a distinctly different problem that required additional work and must support that the requirements for the level of service billed were met or exceeded. The date and time of both services performed must be outlined in the medical record and the time of the second service must be different than the time of the first service, although a different diagnosis is not required.

31.2.18.2 Inpatient Professional Services

31.2.18.2.1 Initial and Subsequent Hospital Care (Nonintensive Care)

Initial or subsequent hospital visits (procedure codes 99221, 99222, 99223, 99231, 99232, and 99233), observation (procedure codes 99234, 99235, and 99236), and discharge (procedure codes 99238 and 99239) are limited to one per day for the same provider.

If a subsequent hospital visit (99231, 99232, and 99233) following admission is billed on the same day by the same provider as an emergency department visit (99281, 99282, 99283, 99284, and 99285), an office visit (procedure codes 99201, 99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, and 99215), or an outpatient consultation (procedure codes 99241, 99242, 99243, 99244, and 99245), the subsequent hospital visit will be paid and the other visits will be denied.

Only one initial hospital care visit may be paid to the same provider within a 30-day period regardless of diagnosis. Subsequent care visits may be considered for reimbursement during this time period.

A subsequent hospital visit (procedure codes 99231, 99232, and 99233) may be reimbursed on the same day to the same provider when critical care services (procedure codes 99291 and 99292) are billed.

E/M services provided in a hospital setting following a major procedure, provided by the same provider or in direct follow-up for postsurgical care, are included in the surgeon's global surgical fee and are denied as included in another procedure.

A physician who did not perform the surgery and provides postoperative surgical care in the time frame that is included in the global surgical fee must bill with modifier 55. This may only be done when the surgeon submits a charge for surgical care only and there is an agreement between the physicians and the surgeon to split the care of the client.

31.2.18.2.2 Hospital Discharge Day Management

Discharge management (procedure codes 99238 and 99239) billed on the same date of service as the admission by the same provider will be denied.

Discharge management (procedure codes 99238 and 99239) billed on the same date of service as an emergency room visit by the same provider is denied, but may be considered for reimbursement upon appeal, if provided at a separate time.

Only one discharge management service will be considered for reimbursement per day. Subsequent hospital visits billed on the same day as discharge management, by the same provider, will be denied.

Initial or subsequent hospital visit codes (procedure codes 99221, 99222, and 99223) billed on the same day as hospital discharge day management (procedure code 99238) is denied as part of another procedure billed on the same day.

31.2.18.2.3 Concurrent Inpatient Care

Concurrent care exists when services are provided to a client by more than one physician on the same day during a period of hospitalization in the inpatient hospital setting. Concurrent care is appropriate when the level of care and the documented clinical circumstances require the skills of different specialties to successfully manage the client in accordance with accepted standards of good medical practice.

Concurrent care will not be paid to providers of the same specialty for the same or related diagnoses. Diagnoses are considered to be related when up to six digits of the primary diagnosis codes match. Denied concurrent care may be considered on an appeal basis when accompanied by documentation of medical necessity.

Concurrent care may be considered for reimbursement to providers of different specialties when providing services for unrelated diagnoses involving different organ systems.

31.2.18.3 Emergency Services

An emergency medical condition is defined as a medical condition that manifests itself by acute symptoms of sufficient severity (including severe pain) that if not immediately treated must reasonably be expected to result in one of the following outcomes:

- Placing the client's health in serious jeopardy
- Serious impairment to bodily functions
- Serious dysfunction of any bodily organ or part

An emergency department is defined as an organized hospital-based facility for the provision of unscheduled episodic services to clients who require immediate medical attention. The facility must be available to provide services 24 hours a day, 7 days a week.

31.2.18.3.1 Hospital-Based Emergency Department Professional Services

Physicians may use procedure codes 99281, 99282, 99283, 99284, and 99285 to bill for services provided in the hospital-based emergency department. Office-based physicians may also use procedure codes 99201, 99202, 99203, 99204, and 99205 for new patients or procedure codes 99211, 99212, 99213, 99214, and 99215 for established patients, to bill for services provided in the office or in a hospital-based emergency department. These procedure codes are also appropriate for a physician who is attending a client in an outpatient observation room setting for less than 6 hours. Document the time for multiple visits in Block 24K of the CMS-1500 paper claim form.

Emergency department visits include the components of a diagnostic examination such as a pelvic or rectal examination. These components should not be billed with an unlisted procedure code in addition to the procedure code for the visit. These components are considered part of the examination and no separate reimbursement may be provided.

Multiple emergency department visits on the same day and billed by the same provider must have the times for each visit documented on the claim form. More than one visit on the same day can also be indicated by adding the appropriate modifier to the claim form. Medical documentation is required to support this charge.

Emergency department visits may be paid to different providers on the same day, when medically necessary, regardless of specialty and diagnosis.

Separate charges are allowed for emergency department treatment room and minor surgery or diagnostic procedures billed on the same day. Use the appropriate procedure code from the CPT manual.

Payment for an additional emergency department visit by an anesthesiologist following a surgical procedure is denied as part of the global anesthesia payment (base plus time). A distinct and separate diagnosis beyond the diagnosis for which the global anesthesia services were provided should be documented in order for payment to be considered on an appeal basis.

If an emergency department visit (procedure codes 99281, 99282, 99283, 99284, and 99285) is billed on the same day, by the same provider, as an office visit (procedure codes 99201, 99202, 99203, 99204, 99205, 99211, 99212, 99213, 99214, and 99215), or outpatient consultation (procedure codes 99241, 99242, 99243, 99244, and 99245), the emergency department visit may be considered for reimbursement and the office or consultation visit is denied.

Emergency department visits (procedure codes 99281, 99282, 99283, 99284, and 99285) are denied when billed on the same day as an observation service (procedure code 99217) by the same provider.

Critical care provided on the same day as an emergency room visit may be billed when the services are rendered during a separate encounter. Medical documentation is required to support this charge.

Binocular microscopy (procedure code 92504) and noninvasive ear or pulse oximetry for oxygen (procedure code 94760) will be denied when billed on the same day, by the same provider, as emergency department visit (procedure code 99281, 99282, 99283, 99284, or 99285).

31.2.18.4 Consultations

A consultation is an E/M service provided at the request of another provider for the evaluation of a specific condition or illness. To be billed as such, a consultation must consist of the following:

- There must be a request from the referring provider for the evaluation of a particular condition or illness.
- There must be correspondence from the consulting provider back to the referring provider indicating the medical findings.

During a consultation, the consulting provider may initiate diagnostic and therapeutic services if necessary. If treatment is initiated and the client returns for follow up care, an established patient visit should be billed. If the purpose of the referral is to transfer care, a consultation may not be billed.

The medical records maintained by both the referring and consulting providers must identify their counterpart and reason for consultation.

Consultations may be billed using the following procedure codes:

Procedure Codes				
99241	99242	99243	99244	99245
99251	99252	99253	99254	99255

31.2.18.5 Services Outside of Business Hours

The CSHCN Services Program limits reimbursement for after hours charges (procedure codes 99050, 99056, and 99060) to office-based providers rendering services after routine office hours or on an emergency basis.

An office-based provider may bill an after hours charge in addition to a visit for providing services after routine office hours. After hours charges may be billed when the provider’s clinical judgment deems it medically necessary to interrupt the routine schedule to care for a client with an emergent condition. A provider’s routine office hours are those hours posted at the physician’s office as the usual office hours. The CSHCN Services Program may reimburse office-based physicians when any of the following exists:

- The physician leaves the office or home to see a client in the emergency room.
- The physician leaves the home and returns to the office to see a client after the physician’s routine office hours.

- The physician is interrupted from routine office hours to attend to another client’s emergency outside of the office.

Procedure codes 99050, 99056, and 99060 are not reimbursed separately to emergency department-based physicians or emergency department-based groups.

31.2.18.6 Prolonged Physician Services

Prolonged services (procedure codes 99354, 99355, 99356, and 99357) may be provided in an office, outpatient, or inpatient setting and involves direct (face-to-face) client contact that is beyond the usual service and exceeds the time threshold of the E/M procedure code (listed in the table below) being billed on that day:

Procedure Codes						
99201	99202	99203	99204	99205	99211	99212
99213	99214	99215	99221	99222	99223	99231
99232	99233	99241	99242	99243	99244	99245
99251	99252	99253	99254	99255	99341	99342
99343	99344	99345	99347	99348	99349	99350

Procedure codes 99354 and 99356 should be used in conjunction with the E/M code to report the first hour of prolonged service and are limited to one per day.

Procedure codes 99355 and 99357 should be used to report each additional 30 minutes and are limited to a quantity of three units or 1 ½ hours per day.

Prolonged services of less than 30 minutes duration should not be reported separately.

Prolonged services in the inpatient setting may be considered for reimbursement on the same day as an initial hospital visit (procedure codes 99221, 99222, 99223, 99251, 99252, 99253, 99254, or 99255) or a subsequent hospital visit (procedure codes 99231, 99232, 99233, 99251, 99252, 99253, 99254, or 99255).

Prolonged physician services are not reimbursed in addition to critical care and/or emergency room visits billed on the same day.

Procedure code 99360 is not a benefit of the CSHCN Services Program.

31.2.18.7 Observation Room Services

Physician outpatient hospital observation room services (procedure codes 99217, 99218, 99219, 99220, 99224, 99225, and 99226) are for professional services for a period of more than 6 hours, but less than 24 hours, regardless of the hour of the initial contact, whether or not the client remains under physician care past midnight. Observation may take place in any client care area of the hospital or outpatient setting.

When a client’s status changes from observation to inpatient, the date of inpatient admission is the date the client was admitted to the hospital as an inpatient. Charges are to be billed as specified in Section 24.4, “Outpatient Services” in Chapter 24, “Hospital.”

Observation care discharge day management (procedure code 99217) may be used to report services provided to a client upon discharge from “observation status” if the discharge occurs on a day other than the initial date of admission.

The following limitations apply to these procedure codes:

- Only one observation (procedure code 99217, 99218, 99219, or 99220) may be reimbursed if billed on the same day by the same provider.
- Procedure codes 99211, 99212, 99213, 99214, 99215, 99218, 99219, and 99220 are denied if billed on the same day as procedure code 99217 by the same provider.

- If a physician observation visit (procedure codes 99217, 99218, 99219, 99220, 99234, 99235, and 99236) is billed on the same day as prolonged services (procedure codes 99354 and 99355) by the same provider, the prolonged services are denied as part of another procedure on the same day.
- After-hours and out-of-office services (procedure code 99050, 99056, and 99060) are denied if they are billed the same day as physician outpatient hospital observation room services (procedure codes 99217, 99218, 99219, and 99220) by the same provider.
- If procedure codes 99234, 99235, and 99236 are billed on the same day as a subsequent hospital visit (procedure codes 99231, 99232, and 99233) by the same provider, the subsequent visit is denied.
- If procedure codes 99234, 99235, and 99236 are billed on the same day as a consultation by the same provider, the consultation is paid and the physician inpatient hospital observation is denied.
- If a chemotherapy planning program (procedure codes 99213, 99214, or 99215) and physician outpatient hospital observation are billed on the same day by the same provider, the chemotherapy planning is paid and the physician outpatient hospital observation will be denied.
- Procedure codes 99234, 99235, and 99236 are not payable on the same day as procedure codes 99238 and 99239.
- Procedure codes 99234, 99235, and 99236 are subject to the global surgical fee pre-/postcare days assigned to certain surgical procedures.
- E/M services provided at any place of service (POS) other than an inpatient hospital and billed on the same day as a physician observation visit by the same provider are denied.
- If dialysis treatment and physician observation visits are billed the same day by the same provider, same specialty (other than nephrology and internal medicine specialists), the dialysis treatment may be paid and the physician observation visit is denied.

31.2.18.8 Preventive Care Services

The CSHCN Services Program may reimburse for preventive health-care services. Providers should submit claims with the following E/M procedure codes and include the appropriate diagnosis code. Diagnosis code Z00121 (encounter for routine child health examination with abnormal findings) or Z00129 (encounter for routine child health examination without abnormal findings) should be used for children’s preventive care medical checkups. Diagnosis code Z0000 (encounter for general adult medical examination without abnormal findings) or Z0001 (encounter for general adult medical examination with abnormal findings) should be used for an adult preventive care medical checkup.

Procedure Codes				
99381	99382	99383	99384	99385
99386	99387	99391	99392	99393
99394	99395	99396	99397	

Providers may be reimbursed for an acute care visit on the same day as a preventive care visit. The acute care visit should be billed as an established patient visit. Modifier 25 must be used to describe circumstances in which a visit was provided at the same time as other separately identifiable services (e.g., preventive visits, minor procedure). Both services must be documented as distinct, and documentation that supports the provision of a significant, separately identifiable E/M service must be maintained in the client’s medical record and made available to the CSHCN Services Program upon request. This modifier must be appended to the evaluation procedure code when the services rendered are distinct, provided for different diagnosis, or are performed for different reasons.

When the client visit is only for immunization, a preventive care visit will not be reimbursed. The administration fee and any vaccine or toxoid not obtained through Texas Vaccines for Children (TVFC) may be reimbursed when diagnosis code Z23 (encounter for immunization) and the appropriate procedure code referencing an immunization is submitted with the claim.

Vaccinations, vaccine administration procedure codes, and laboratory services may be billed in addition to the preventive care E/M procedure code. Providers must append modifier 25 to one of the preventive care E/M procedure codes listed in the table above to identify a significant, separately identifiable E/M service that was rendered by the same provider on the same day as the vaccine administration.

The CSHCN Services Program reimburses for only one preventive health visit per day per client for any provider. The program does not cover family planning services and inpatient newborn examinations.

Preventive care medical checkups are not a benefit of a telemedicine or telehealth service.

31.2.18.9 Preventive Care Medical Checkups and Developmental Testing

When a new patient acute care E/M visit is billed for the same date of service as a new patient preventive care medical checkup, both new patient services may be reimbursed when billed by the same provider if that provider has not billed other acute care E/M visits or preventive care medical checkups for the client in the preceding 3 years.

Modifier 25 must be used to describe circumstances in which an acute care E/M visit was provided at the same time as a preventive care medical checkup. This modifier must be appended to the E/M procedure code when the services are distinct and provided for a different diagnosis. An appropriate level E/M procedure code must be billed with the diagnosis supporting the acute care claim.

If the provider or provider group has billed for a new patient preventive care medical checkup within the past 3 years, subsequent preventive care medical checkups and acute care visits billed as new patient services will be denied when billed by the same provider. Another new checkup will only be allowed when the client has not received any professional services from the same provider or another provider who belongs to the same group practice in the past 3 years, because subsequent acute care visits after the initial new patient preventive care medical checkup continue the established relationship with the provider. Subsequent preventive care medical checkups and acute care visits after the initial new patient preventive care medical checkup continue the established relationship with the provider.

31.2.18.9.1 Laboratory Tests

Documented laboratory results obtained prior to the current medical checkup may be used as follows to complete the laboratory testing requirement:

- Results obtained within 30 days before the current medical checkup for clients who are 2 years of age and younger
- Results obtained within 90 days before the current medical checkup for clients who are 3 years of age and older

Documentation must include the date of service and one of the following:

- A clear reference to the previous visit by the same provider
- Results obtained from a different provider

31.2.18.9.2 Medical Checkup Follow-up Visit

A follow-up checkup is a visit that is scheduled to complete checkup components that could not be completed at the original medical checkup due to circumstances beyond the provider's control. If the parent or guardian did not give consent for a missing component, a follow-up visit is not necessary. The most appropriate procedure code for the follow-up visit will be determined by the components that could not be completed during the original medical checkup.

Procedure code 99211 may be submitted for a follow-up visit that includes a separately identifiable evaluation and management (E/M) component. When the follow-up visit does not include a separately identifiable E/M component, the following procedure codes must be used instead of procedure code 99211:

- Developmental testing (procedure code 96110) and autism screening (procedure code 96110 with modifier U6)
- Hearing screening (procedure code 92551)
- Immunization administration (procedure codes 90460 and 90461)

If a separately identifiable E/M component is required before completing one of the above checkup components, claims for the follow-up visit (procedure code 99211) and the checkup component may be submitted.

31.2.18.9.3 Denied Medical Checkups

Providers may be reimbursed for denied medical checkups through the appeal process when all of the following criteria are met for clients who are birth through 3 years of age:

- The client changed to a new provider in a new practice.
- The previous provider billed the maximum number of checkups in the procedure code age range for that client.
- The new provider's claim was denied for exceeding periodicity.

Note: *In addition to the criteria listed above, at least 1 year must have elapsed since the last checkup for clients who are 3 years of age or older.*

31.2.18.9.4 Developmental Screening and Testing

Developmental screening and testing may be a benefit when the services are provided during a preventive care medical checkup in accordance with accepted guidelines or when a parent expresses concern with a client's developmental progress. If the developmental screening was not completed during a previous checkup, or if the provider is seeing the client for the first time at a checkup for birth through 6 years of age, a standardized developmental screening must be completed.

Standardized developmental screening and testing may also be a benefit when they are performed outside of a preventive care medical checkup.

Clients with abnormal screening results must be referred to an appropriate provider for further testing. Clients who are birth through 35 months of age with suspected developmental delay must be referred to Texas Early Childhood Intervention (ECI) as soon as possible, but no longer than 7 days after identification, even if the client is referred to an appropriate provider for further testing.

31.2.18.9.5 Developmental Screening

Developmental screening (procedure code 96110) is a required component of each checkup for clients who are birth through 6 years of age. Procedure code 96110 is a benefit when performed by an APRN or physician in the office, home, or outpatient hospital setting.

Providers must submit modifier U6 with procedure code 96110 to bill for autism screening. Autism screening is required at 18 and 24 months of age.

If the provider administers a standardized developmental screening at an additional checkup, the provider must document the rationale for the additional screen(s), which may be due to provider or parental concern. Retrospective review may be performed to ensure documentation supports medical necessity.

Additional parental or guardian consent may be required if online or web-based screening tools are used, which could result in client data being stored electronically in an outside database other than the provider’s electronic medical record system, or if the data is used for purposes other than CSHCN Services Program screening. The provider should seek legal advice regarding the need for this consent.

Procedure code 96110, with or without modifier U6, must be billed with the appropriate E/M procedure code. Providers must use a standardized tool to complete the developmental screening. The CSHCN Services Program recognizes the following standardized tools:

- The Ages and Stages Questionnaire (ASQ), Ages and Stages Questionnaire: Social - Emotional (ASQ:SE)
- Parents’ Evaluation of Developmental Status (PEDS)
- The Modified Checklist for Autism in Toddlers (M-CHAT)
- The Modified Checklist for Autism in Toddlers, Revised with Follow-up (M-CHAT - R/F)

A provider who chooses a standardized developmental screening tool different from those listed above must provide medical documentation that supports the use of the tool.

Procedure codes 96110 and 96110 with modifier U6 are each limited to once per day, per provider. Providers may be reimbursed for both procedures on the same day.

Developmental screening, which is not expected to last longer than 30 minutes, is included in the limitation of 12 hours of behavioral health services per day, per provider. Physicians are not limited to the 12-hour limitation since they can delegate services and may submit claims in excess of 12 hours per day. The individuals delegated by a physician to perform these services are subject to the 12-hour limitation.

A Mini Mental State Examination is considered part of any E/M service and is not separately reimbursed.

31.2.18.9.6 Developmental Testing

Procedure code 96111, which consists of an extended evaluation, requires the use of a standardized tool and is limited to clients who are birth through 20 years of age. Procedure code 96111 will be a benefit when performed by an APRN, physician, or psychologist in the office, home, or outpatient hospital setting. Developmental testing is medically necessary when there is suspected developmental delay that is supported by the following clinical evidence:

- Suspected developmental delay or atypical development when the diagnosis cannot be clearly identified through clinical interview or standardized screening tools alone
- Retesting of a client to evaluate a change in developmental status that results in a change of treatment plan

The following procedure codes will be denied when billed on the same day as procedure code 96111:

Procedure Codes				
99201	99202	99203	99204	99205
99211	99212	99213	99214	99215
99217	99218	99219	99220	

Developmental testing, which is not expected to last longer than 60 minutes, is included in the limitation of 12 hours of behavioral health services per day, per provider. Retrospective review may be performed on billed hours and total hours worked per day since providers who perform developmental testing may possibly bill in excess of 12 hours per day. Providers must maintain clinical documentation in the client’s medical record to support medical necessity.

Developmental testing that is performed when a development delay or change in the client's developmental status is not suspected would constitute developmental screening and is not covered. Providers may not bill clients for developmental testing that is considered developmental screening.

31.2.18.10 Preventive Care Medical Checkup Components

Referral to Establish a Dental Home

The American Academy of Pediatric Dentistry's (AAPD) definition of a dental home, the CSHCN Services Program defines a dental home as the dental provider who supports an ongoing relationship with the client that is inclusive of all aspects of oral health care delivered in a comprehensive, continuously accessible, coordinated, and family-centered way. In Texas, establishment of a client's dental home begins at 6 months of age but no later than 12 months of age and includes referral to dental specialists when appropriate.

The provider must refer clients to establish a dental home beginning at 6 months of age or earlier if trauma or early childhood caries are identified. For established clients after the six-month medical checkup visit, the provider must confirm whether a dental home has been established and is on-going. If a dental home has not been established, the provider must make additional referrals at subsequent medical checkup visits until the parent or guardian confirms that a dental home has been established for the client. A parent or guardian of the client may self-refer for dental care at any age, including 12 months of age or younger.

31.2.18.10.1 Oral Evaluation and Fluoride Varnish in the Medical Home (OEFV)

An intermediate oral evaluation with fluoride varnish application (procedure code 99429) is a benefit for clients 6 months of age through 35 months of age. Procedure code 99429 must be submitted with modifier U5, and diagnosis code Z00121 or Z00129.

The intermediate oral evaluation with fluoride varnish application must be billed on the same date of service as a medical checkup or an exception to the periodicity visit (procedure codes 99381, 99382, 99391, or 99392) and is limited to six services per lifetime by any provider.

An intermediate oral evaluation with fluoride varnish application is limited to preventive care medical checkup providers who have completed the required benefit education and who are certified by the DSHS Oral Health Program to perform an intermediate oral evaluation with fluoride varnish application.

The intermediate oral evaluation with fluoride varnish application add-on includes the following component:

- Intermediate oral evaluation
- Fluoride varnish application
- Dental anticipatory dental guidance to include:
 - The need for thorough daily oral hygiene practices
 - Education in potential gingival manifestations for clients with diabetes and clients under long-term medication therapy
 - Diet, nutrition, and food choices
 - Fluoride needs
 - Injury prevention
 - Antimicrobials, medications, and oral health
- Referral to a dentist to establish a dental home

- Additional dental anticipatory guidance if the client has no erupted teeth

Note: The provider must complete the intermediate oral evaluation but can delegate all other components.

31.2.18.10.2 Mental Health Screening

Mental health screening is a benefit at each preventive care medical checkup when it is provided in accordance with accepted guidelines or when a parent expresses concern about the client's mental health.

Mental health screening using one of the following validated, standardized mental health screening tools recognized by the CSHCN Services Program is required once, for all clients who are 12 through 18 years of age:

- Pediatric Symptom Checklist (PSC-35)
- Pediatric Symptom Checklist for Youth (Y-PSC)
- Patient Health Questionnaire (PHQ-9)
- Pediatric Symptom Checklist-17 (PSC-17)

Providers may be reimbursed separately when using one of the required screening tools during a preventive care medical checkup.

Procedure code 96160 or 96161 must be submitted for the required mental health screening. Procedure codes 96160 and 96161 are a benefit for clients who are 12 through 18 years of age.

Mental health screening at other medical checkups does not require the use of a validated, standardized mental health screening tool.

Procedure code 96160 or 96161 must be submitted on the same date of service and by the same provider as procedure code 99384, 99385, 99394, or 99395. Procedure codes 96160 and 96161 are limited to once per lifetime.

Procedure codes 96160 and 96161 will not be reimbursed for the same client for any date of service.

The client's medical record must include documentation identifying the tool that was used, the screening results, and any referrals.

31.2.18.10.3 Sensory Screening

Providers may use test results from a different provider or a school vision and hearing screening program to replace the required visual acuity or hearing screening that requires the use of calibrated electronic equipment as long as the previous screening was performed within 12 months preceding the current medical checkup.

Procedure code 92551 may be reimbursed separately for a hearing screening (for hearing loss) with pure tone audiometric testing that is performed with the use of calibrated electronic equipment.

31.2.18.11 Teaching Physicians

Teaching physicians who provide E/M services may bill the CSHCN Services Program for lower- and mid-level E/M services (procedure codes 99201, 99202, 99203, 99211, 99212, and 99213) that are provided by residents if they meet the primary care exception under Medicare.

31.2.19 Evoked Response Tests and Neuromuscular Procedures

The following services are a benefit of the CSHCN Services Program:

- Autonomic function test (AFT)
- Electromyography (EMG)

- Nerve conduction studies (NCS)
- Evoked potential (EP) procedures
- Motion analysis (MA) studies

All procedures must be medically indicated and testing must be performed using appropriate equipment that provides assessment of all parameters of the recorded signals. Studies performed with devices designed only for screening, rather than diagnosis, are not benefits of the CSHCN Services Program.

Client medical records must clearly document the medical necessity for all procedures and must reflect the actual results of specific procedures. All client medical records are subject to retrospective review.

31.2.19.1 Autonomic Function Tests

AFTs are a benefit of the CSHCN Services Program when submitted with procedure codes 95921, 95922, 95923, 95924, and 95943.

Procedure codes 95921, 95922, 95923, 95924, and 95943 are limited to once per date of service, by the same provider.

Autonomic disorders may be congenital or acquired (primary or secondary). Some of the conditions under which autonomic function testing may be appropriate include, but are not limited to, the following:

- Amyloid neuropathy
- Diabetic autonomic neuropathy
- Distal small fiber neuropathy
- Excessive sweating
- Gastrointestinal dysfunction
- Idiopathic neuropathy
- Irregular heart rate
- Multiple system atrophy
- Orthostatic symptoms
- Pure autonomic failure
- Reflex sympathetic dystrophy or causalgia (sympathetically maintained pain)
- Sjogren’s syndrome

31.2.19.2 Electromyography and Nerve Conduction Studies

EMG and NCS are a benefit of the CSHCN Services Program when billed with the following procedure codes:

EMG Procedure Codes				
51784	51785	95860	95861	95863
95864	95865	95866	95867	95868
95869	95870	95872	95875	

NCS Procedure Codes				
95885	95886	95887	95905	95907
95908	95909	95910	95911	95912
95913	95933	95937		

Surface or macro-EMG testing is considered experimental and is not a benefit of the CSHCN Services Program.

EMG and NCS are restricted to the following diagnosis codes:

Diagnosis Code	Description
C701	Malignant neoplasm of spinal meninges
C720	Malignant neoplasm of spinal cord
C721	Malignant neoplasm of cauda equina
E0842	Diabetes mellitus due to underlying condition with diabetic polyneuropathy
E0942	Drug or chemical induced diabetes mellitus with neurological complications with diabetic
E1041	Type 1 diabetes mellitus with diabetic mononeuropathy
E1042	Type 1 diabetes mellitus with diabetic polyneuropathy
E10610	Type 1 diabetes mellitus with diabetic neuropathic arthropathy
E1141	Type 2 diabetes mellitus with diabetic mononeuropathy
E1142	Type 2 diabetes mellitus with diabetic polyneuropathy
E1144	Type 2 diabetes mellitus with diabetic amyotrophy
E11610	Type 2 diabetes mellitus with diabetic neuropathic arthropathy
E1342	Other specified diabetes mellitus with diabetic polyneuropathy
E5111	Dry beriberi
E5112	Wet beriberi
E512	Wernicke's encephalopathy
E518	Other manifestations of thiamine deficiency
E519	Thiamine deficiency, unspecified
E560	Deficiency of vitamin E
E568	Deficiency of other vitamins
E786	Lipoprotein deficiency
E851	Neuropathic hereditary amyloidosis
E852	Hereditary amyloidosis, unspecified
E853	Secondary systemic amyloidosis
E858	Other amyloidosis
E859	Amyloidosis, unspecified
G120	Infantile spinal muscular atrophy, type I [Werdnig-Hoffman]
G121	Other inherited spinal muscular atrophy
G1221	Amyotrophic lateral sclerosis
G1222	Progressive bulbar palsy
G1229	Other motor neuron disease
G128	Other spinal muscular atrophies and related syndromes
G129	Spinal muscular atrophy, unspecified
G130	Paraneoplastic neuromyopathy and neuropathy
G243	Spasmodic torticollis
G2589	Other specified extrapyramidal and movement disorders

Diagnosis Code	Description
G26	Extrapyramidal and movement disorders in diseases classified elsewhere
G320	Subacute combined degeneration of spinal cord in diseases classified elsewhere
G360	Neuromyelitis optica [Device]
G370	Diffuse sclerosis of central nervous system
G375	Concentric sclerosis [Balo] of central nervous system
G501	Atypical facial pain
G510	Bell's palsy
G511	Geniculate ganglionitis
G512	Melkersson's syndrome
G513	Clonic hemifacial spasm
G514	Facial myokymia
G518	Other disorders of facial nerve
G519	Disorder of facial nerve, unspecified
G522	Disorders of vagus nerve
G523	Disorders of hypoglossal nerve
G527	Disorders of multiple cranial nerves
G528	Disorders of other specified cranial nerves
G540	Brachial plexus disorders
G541	Lumbosacral plexus disorders
G542	Cervical root disorders, not elsewhere classified
G543	Thoracic root disorders, not elsewhere classified
G544	Lumbosacral root disorders, not elsewhere classified
G545	Neuralgic amyotrophy
G548	Other nerve root and plexus disorders
G549	Nerve root and plexus disorder, unspecified
G5601	Carpal tunnel syndrome, right upper limb
G5602	Carpal tunnel syndrome, left upper limb
G5603	Carpal tunnel syndrome, bilateral upper limbs
G5611	Other lesions of median nerve, right upper limb
G5612	Other lesions of median nerve, left upper limb
G5613	Other lesions of median nerve, bilateral upper limbs
G5621	Lesion of ulnar nerve, right upper limb
G5622	Lesion of ulnar nerve, left upper limb
G5623	Lesion of ulnar nerve, bilateral upper limbs
G5631	Lesion of radial nerve, right upper limb
G5632	Lesion of radial nerve, left upper limb
G5633	Lesion of radial nerve, bilateral upper limbs
G5641	Causalgia of right upper limb
G5642	Causalgia of left upper limb
G5643	Causalgia of bilateral upper limbs

Diagnosis Code	Description
G5681	Other specified mononeuropathies of right upper limb
G5682	Other specified mononeuropathies of left upper limb
G5683	Other specified mononeuropathies of bilateral upper limbs
G5691	Unspecified mononeuropathy of right upper limb
G5692	Unspecified mononeuropathy of left upper limb
G5693	Unspecified mononeuropathy of bilateral upper limbs
G5701	Lesion of sciatic nerve, right lower limb
G5702	Lesion of sciatic nerve, left lower limb
G5703	Lesion of sciatic nerve, bilateral lower limbs
G5711	Meralgia paresthetica, right lower limb
G5712	Meralgia paresthetica, left lower limb
G5713	Meralgia paresthetica, bilateral lower limbs
G5721	Lesion of femoral nerve, right lower limb
G5722	Lesion of femoral nerve, left lower limb
G5723	Lesion of femoral nerve, bilateral lower limbs
G5731	Lesion of lateral popliteal nerve, right lower limb
G5732	Lesion of lateral popliteal nerve, left lower limb
G5733	Lesion of lateral popliteal nerve, bilateral lower limbs
G5741	Lesion of medial popliteal nerve, right lower limb
G5742	Lesion of medial popliteal nerve, left lower limb
G5743	Lesion of medial popliteal nerve, bilateral lower limbs
G5751	Tarsal tunnel syndrome, right lower limb
G5752	Tarsal tunnel syndrome, left lower limb
G5753	Tarsal tunnel syndrome, bilateral lower limbs
G5761	Lesion of plantar nerve, right lower limb
G5762	Lesion of plantar nerve, left lower limb
G5763	Lesion of plantar nerve, bilateral lower limbs
G5771	Causalgia of right lower limb
G5772	Causalgia of left lower limb
G5773	Causalgia of bilateral lower limbs
G5781	Other specified mononeuropathies of right lower limb
G5782	Other specified mononeuropathies of left lower limb
G5783	Other specified mononeuropathies of bilateral lower limbs
G5791	Unspecified mononeuropathy of right lower limb
G5792	Unspecified mononeuropathy of left lower limb
G5793	Unspecified mononeuropathy of bilateral lower limbs
G587	Mononeuritis multiplex
G588	Other specified mononeuropathies
G589	Mononeuropathy, unspecified
G59	Mononeuropathy in diseases classified elsewhere

Diagnosis Code	Description
G600	Hereditary motor and sensory neuropathy
G601	Refsum's disease
G602	Neuropathy in association with hereditary ataxia
G603	Idiopathic progressive neuropathy
G608	Other hereditary and idiopathic neuropathies
G609	Hereditary and idiopathic neuropathy, unspecified
G610	Guillain-Barre syndrome
G6181	Chronic inflammatory demyelinating polyneuritis
G6182	Multifocal motor neuropathy
G6189	Other inflammatory polyneuropathies
G619	Inflammatory polyneuropathy, unspecified
G620	Drug-induced polyneuropathy
G621	Alcoholic polyneuropathy
G622	Polyneuropathy due to other toxic agents
G6281	Critical illness polyneuropathy
G6282	Radiation-induced polyneuropathy
G629	Polyneuropathy, unspecified
G63	Polyneuropathy in diseases classified elsewhere
G650	Sequelae of Guillain-Barre syndrome
G651	Sequelae of other inflammatory polyneuropathy
G652	Sequelae of toxic polyneuropathy
G7000	Myasthenia gravis without (acute) exacerbation
G7001	Myasthenia gravis with (acute) exacerbation
G701	Toxic myoneural disorders
G702	Congenital and developmental myasthenia
G7081	Lambert-Eaton syndrome in disease classified elsewhere
G7089	Other specified myoneural disorders
G709	Myoneural disorder, unspecified
G710	Muscular dystrophy
G7111	Myotonic muscular dystrophy
G7112	Myotonia congenita
G7113	Myotonic chondrodystrophy
G7114	Drug induced myotonia
G7119	Other specified myotonic disorders
G712	Congenital myopathies
G713	Mitochondrial myopathy, not elsewhere classified
G718	Other primary disorders of muscles
G719	Primary disorder of muscle, unspecified
G721	Alcoholic myopathy
G722	Myopathy due to other toxic agents

Diagnosis Code	Description
G723	Periodic paralysis
G7241	Inclusion body myositis [IBM]
G7249	Other inflammatory and immune myopathies, not elsewhere classified
G7281	Critical illness myopathy
G7289	Other specified myopathies
G729	Myopathy, unspecified
G731	Lambert-Eaton syndrome in neoplastic disease
G733	Myasthenic syndromes in other diseases classified elsewhere
G737	Myopathy in diseases classified elsewhere
G834	Cauda equina syndrome
G8381	Brown-Sequard syndrome
G8382	Anterior cord syndrome
G8383	Posterior cord syndrome
G8384	Todd's paralysis (postepileptic)
G8389	Other specified paralytic syndromes
G839	Paralytic syndrome, unspecified
G9009	Other idiopathic peripheral autonomic neuropathy
G902	Horner's syndrome
G904	Autonomic dysreflexia
G9050	Complex regional pain syndrome I, unspecified
G90511	Complex regional pain syndrome I of right upper limb
G90512	Complex regional pain syndrome I of left upper limb
G90513	Complex regional pain syndrome I of upper limb, bilateral
G90519	Complex regional pain syndrome I of unspecified upper limb
G90521	Complex regional pain syndrome I of right lower limb
G90522	Complex regional pain syndrome I of left lower limb
G90523	Complex regional pain syndrome I of lower limb, bilateral
G90529	Complex regional pain syndrome I of unspecified lower limb
G9059	Complex regional pain syndrome I of other specified site
G909	Disorder of the autonomic nervous system, unspecified
G950	Syringomyelia and syringobulbia
G9511	Acute infarction of spinal cord (embolic) (nonembolic)
G9519	Other vascular myelopathies
G9520	Unspecified cord compression
G9529	Other cord compression
G9581	Conus medullaris syndrome
G9589	Other specified diseases of spinal cord
G959	Disease of spinal cord, unspecified
G990	Autonomic neuropathy in diseases classified elsewhere
G992	Myelopathy in diseases classified elsewhere

Diagnosis Code	Description
I776	Arteritis, unspecified
I951	Orthostatic hypotension
J3800	Paralysis of vocal cords and larynx, unspecified
J3801	Paralysis of vocal cords and larynx, unilateral
J3802	Paralysis of vocal cords and larynx, bilateral
K5902	Outlet dysfunction constipation
K5903	Drug induced constipation
K5904	Chronic idiopathic constipation
K5909	Other constipation
K592	Neurogenic bowel, not elsewhere classified
K594	Anal spasm
K624	Stenosis of anus and rectum
K6289	Other specified diseases of anus and rectum
M05411	Rheumatoid myopathy with rheumatoid arthritis of right shoulder
M05412	Rheumatoid myopathy with rheumatoid arthritis of left shoulder
M05421	Rheumatoid myopathy with rheumatoid arthritis of right elbow
M05422	Rheumatoid myopathy with rheumatoid arthritis of left elbow
M05431	Rheumatoid myopathy with rheumatoid arthritis of right wrist
M05432	Rheumatoid myopathy with rheumatoid arthritis of left wrist
M05441	Rheumatoid myopathy with rheumatoid arthritis of right hand
M05442	Rheumatoid myopathy with rheumatoid arthritis of left hand
M05451	Rheumatoid myopathy with rheumatoid arthritis of right hip
M05452	Rheumatoid myopathy with rheumatoid arthritis of left hip
M05461	Rheumatoid myopathy with rheumatoid arthritis of right knee
M05462	Rheumatoid myopathy with rheumatoid arthritis of left knee
M05471	Rheumatoid myopathy with rheumatoid arthritis of right ankle and foot
M05472	Rheumatoid myopathy with rheumatoid arthritis of left ankle and foot
M0549	Rheumatoid myopathy with rheumatoid arthritis of multiple sites
M05511	Rheumatoid polyneuropathy with rheumatoid arthritis of right shoulder
M05512	Rheumatoid polyneuropathy with rheumatoid arthritis of left shoulder
M05521	Rheumatoid polyneuropathy with rheumatoid arthritis of right elbow
M05522	Rheumatoid polyneuropathy with rheumatoid arthritis of left elbow
M05531	Rheumatoid polyneuropathy with rheumatoid arthritis of right wrist
M05532	Rheumatoid polyneuropathy with rheumatoid arthritis of left wrist
M05541	Rheumatoid polyneuropathy with rheumatoid arthritis of right hand
M05542	Rheumatoid polyneuropathy with rheumatoid arthritis of left hand
M05551	Rheumatoid polyneuropathy with rheumatoid arthritis of right hip
M05552	Rheumatoid polyneuropathy with rheumatoid arthritis of left hip
M05561	Rheumatoid polyneuropathy with rheumatoid arthritis of right knee
M05562	Rheumatoid polyneuropathy with rheumatoid arthritis of left knee

Diagnosis Code	Description
M05571	Rheumatoid polyneuropathy with rheumatoid arthritis of right ankle and foot
M05572	Rheumatoid polyneuropathy with rheumatoid arthritis of left ankle and foot
M0559	Rheumatoid polyneuropathy with rheumatoid arthritis of multiple sites
M05711	Rheumatoid arthritis with rheumatoid factor of right shoulder without organ or systems involvement
M05712	Rheumatoid arthritis with rheumatoid factor of left shoulder without organ or systems involvement
M05721	Rheumatoid arthritis with rheumatoid factor of right elbow without organ or systems involvement
M05722	Rheumatoid arthritis with rheumatoid factor of left elbow without organ or systems involvement
M05731	Rheumatoid arthritis with rheumatoid factor of right wrist without organ or systems involvement
M05732	Rheumatoid arthritis with rheumatoid factor of left wrist without organ or systems involvement
M05741	Rheumatoid arthritis with rheumatoid factor of right hand without organ or systems involvement
M05742	Rheumatoid arthritis with rheumatoid factor of left hand without organ or systems involvement
M05751	Rheumatoid arthritis with rheumatoid factor of right hip without organ or systems involvement
M05752	Rheumatoid arthritis with rheumatoid factor of left hip without organ or systems involvement
M05761	Rheumatoid arthritis with rheumatoid factor of right knee without organ or systems involvement
M05762	Rheumatoid arthritis with rheumatoid factor of left knee without organ or systems involvement
M05769	Rheumatoid arthritis with rheumatoid factor of unspecified knee without organ or systems involvement
M05771	Rheumatoid arthritis with rheumatoid factor of right ankle and foot without organ or systems involvement
M05772	Rheumatoid arthritis with rheumatoid factor of left ankle and foot without organ or systems involvement
M05779	Rheumatoid arthritis with rheumatoid factor of unspecified ankle and foot without organ or systems involvement
M0579	Rheumatoid arthritis with rheumatoid factor of multiple sites without organ or systems involvement
M05811	Other rheumatoid arthritis with rheumatoid factor of right shoulder
M05812	Other rheumatoid arthritis with rheumatoid factor of left shoulder
M05821	Other rheumatoid arthritis with rheumatoid factor of right elbow
M05822	Other rheumatoid arthritis with rheumatoid factor of left elbow
M05831	Other rheumatoid arthritis with rheumatoid factor of right wrist
M05832	Other rheumatoid arthritis with rheumatoid factor of left wrist
M05841	Other rheumatoid arthritis with rheumatoid factor of right hand
M05842	Other rheumatoid arthritis with rheumatoid factor of left hand

Diagnosis Code	Description
M05851	Other rheumatoid arthritis with rheumatoid factor of right hip
M05852	Other rheumatoid arthritis with rheumatoid factor of left hip
M05861	Other rheumatoid arthritis with rheumatoid factor of right knee
M05862	Other rheumatoid arthritis with rheumatoid factor of left knee
M05871	Other rheumatoid arthritis with rheumatoid factor of right ankle and foot
M05872	Other rheumatoid arthritis with rheumatoid factor of left ankle and foot
M0589	Other rheumatoid arthritis with rheumatoid factor of multiple sites
M06011	Rheumatoid arthritis without rheumatoid factor, right shoulder
M06012	Rheumatoid arthritis without rheumatoid factor, left shoulder
M06021	Rheumatoid arthritis without rheumatoid factor, right elbow
M06022	Rheumatoid arthritis without rheumatoid factor, left elbow
M06031	Rheumatoid arthritis without rheumatoid factor, right wrist
M06032	Rheumatoid arthritis without rheumatoid factor, left wrist
M06041	Rheumatoid arthritis without rheumatoid factor, right hand
M06042	Rheumatoid arthritis without rheumatoid factor, left hand
M06051	Rheumatoid arthritis without rheumatoid factor, right hip
M06052	Rheumatoid arthritis without rheumatoid factor, left hip
M06061	Rheumatoid arthritis without rheumatoid factor, right knee
M06062	Rheumatoid arthritis without rheumatoid factor, left knee
M06071	Rheumatoid arthritis without rheumatoid factor, right ankle and foot
M06072	Rheumatoid arthritis without rheumatoid factor, left ankle and foot
M0608	Rheumatoid arthritis without rheumatoid factor, vertebrae
M0609	Rheumatoid arthritis without rheumatoid factor, multiple sites
M06811	Other specified rheumatoid arthritis, right shoulder
M06812	Other specified rheumatoid arthritis, left shoulder
M06821	Other specified rheumatoid arthritis, right elbow
M06822	Other specified rheumatoid arthritis, left elbow
M06831	Other specified rheumatoid arthritis, right wrist
M06832	Other specified rheumatoid arthritis, left wrist
M06841	Other specified rheumatoid arthritis, right hand
M06842	Other specified rheumatoid arthritis, left hand
M06852	Other specified rheumatoid arthritis, left hip
M06861	Other specified rheumatoid arthritis, right knee
M06862	Other specified rheumatoid arthritis, left knee
M06871	Other specified rheumatoid arthritis, right ankle and foot
M06872	Other specified rheumatoid arthritis, left ankle and foot
M0688	Other specified rheumatoid arthritis, vertebrae
M0689	Other specified rheumatoid arthritis, multiple sites
M069	Rheumatoid arthritis, unspecified
M21271	Flexion deformity, right ankle and toes

Diagnosis Code	Description
M21272	Flexion deformity, left ankle and toes
M21331	Wrist drop, right wrist
M21332	Wrist drop, left wrist
M21511	Acquired clawhand, right hand
M21512	Acquired clawhand, left hand
M216X1	Other acquired deformities of right foot
M216X2	Other acquired deformities of left foot
M21831	Other specified acquired deformities of right forearm
M21832	Other specified acquired deformities of left forearm
M21931	Unspecified acquired deformity of right forearm
M21932	Unspecified acquired deformity of left forearm
M320	Drug-induced systemic lupus erythematosus
M3210	Systemic lupus erythematosus, organ or system involvement unspecified
M3211	Endocarditis in systemic lupus erythematosus
M3212	Pericarditis in systemic lupus erythematosus
M3213	Lung involvement in systemic lupus erythematosus
M3214	Glomerular disease in systemic lupus erythematosus
M3215	Tubulo-interstitial nephropathy in systemic lupus erythematosus
M3219	Other organ or system involvement in systemic lupus erythematosus
M328	Other forms of systemic lupus erythematosus
M329	Systemic lupus erythematosus, unspecified
M3300	Juvenile dermatomyositis, organ involvement unspecified
M3301	Juvenile dermatomyositis with respiratory involvement
M3302	Juvenile dermatomyositis with myopathy
M3309	Juvenile dermatomyositis with other organ involvement
M3310	Other dermatomyositis, organ involvement unspecified
M3311	Other dermatomyositis with respiratory involvement
M3312	Other dermatomyositis with myopathy
M3319	Other dermatomyositis with other organ involvement
M3320	Polymyositis, organ involvement unspecified
M3321	Polymyositis with respiratory involvement
M3322	Polymyositis with myopathy
M3329	Polymyositis with other organ involvement
M3390	Dermatomyositis, unspecified, organ involvement unspecified
M3391	Dermatomyositis, unspecified with respiratory involvement
M3392	Dermatomyositis, unspecified with myopathy
M3399	Dermatomyositis, unspecified with other organ involvement
M340	Progressive systemic sclerosis
M341	CR(E)ST syndrome
M342	Systemic sclerosis induced by drug and chemical

Diagnosis Code	Description
M3481	Systemic sclerosis with lung involvement
M3482	Systemic sclerosis with myopathy
M3483	Systemic sclerosis with polyneuropathy
M3489	Other systemic sclerosis
M358	Other specified systemic involvement of connective tissue
M360	Dermato(poly)myositis in neoplastic disease
M4321	Fusion of spine, occipito-atlanto-axial region
M4322	Fusion of spine, cervical region
M4323	Fusion of spine, cervicothoracic region
M4324	Fusion of spine, thoracic region
M4325	Fusion of spine, thoracolumbar region
M4326	Fusion of spine, lumbar region
M4327	Fusion of spine, lumbosacral region
M4328	Fusion of spine, sacral and sacrococcygeal region
M436	Torticollis
M438X9	Other specified deforming dorsopathies, site unspecified
M4644	Discitis, unspecified, thoracic region
M4645	Discitis, unspecified, thoracolumbar region
M4646	Discitis, unspecified, lumbar region
M4647	Discitis, unspecified, lumbosacral region
M4711	Other spondylosis with myelopathy, occipito-atlanto-axial region
M4712	Other spondylosis with myelopathy, cervical region
M4713	Other spondylosis with myelopathy, cervicothoracic region
M4714	Other spondylosis with myelopathy, thoracic region
M4715	Other spondylosis with myelopathy, thoracolumbar region
M4716	Other spondylosis with myelopathy, lumbar region
M4721	Other spondylosis with radiculopathy, occipito-atlanto-axial region
M4722	Other spondylosis with radiculopathy, cervical region
M4723	Other spondylosis with radiculopathy, cervicothoracic region
M4724	Other spondylosis with radiculopathy, thoracic region
M4725	Other spondylosis with radiculopathy, thoracolumbar region
M4726	Other spondylosis with radiculopathy, lumbar region
M4727	Other spondylosis with radiculopathy, lumbosacral region
M4728	Other spondylosis with radiculopathy, sacral and sacrococcygeal region
M47811	Spondylosis without myelopathy or radiculopathy, occipito-atlanto-axial region
M47812	Spondylosis without myelopathy or radiculopathy, cervical region
M47813	Spondylosis without myelopathy or radiculopathy, cervicothoracic region
M47814	Spondylosis without myelopathy or radiculopathy, thoracic region
M47815	Spondylosis without myelopathy or radiculopathy, thoracolumbar region
M47816	Spondylosis without myelopathy or radiculopathy, lumbar region

Diagnosis Code	Description
M47817	Spondylosis without myelopathy or radiculopathy, lumbosacral region
M47818	Spondylosis without myelopathy or radiculopathy, sacral and sacrococcygeal region
M47891	Other spondylosis, occipito-atlanto-axial region
M47892	Other spondylosis, cervical region
M47893	Other spondylosis, cervicothoracic region
M47894	Other spondylosis, thoracic region
M47895	Other spondylosis, thoracolumbar region
M47896	Other spondylosis, lumbar region
M47897	Other spondylosis, lumbosacral region
M47898	Other spondylosis, sacral and sacrococcygeal region
M4801	Spinal stenosis, occipito-atlanto-axial region
M4802	Spinal stenosis, cervical region
M4803	Spinal stenosis, cervicothoracic region
M4804	Spinal stenosis, thoracic region
M4805	Spinal stenosis, thoracolumbar region
M4806	Spinal stenosis, lumbar region
M4807	Spinal stenosis, lumbosacral region
M4808	Spinal stenosis, sacral and sacrococcygeal region
M5000	Cervical disc disorder with myelopathy, unspecified cervical region
M5001	Cervical disc disorder with myelopathy, high cervical region
M50020	Cervical disc disorder with myelopathy, mid-cervical region, unspecified level
M50021	Cervical disc disorder at C4-C5 level with myelopathy
M50022	Cervical disc disorder at C5-C6 level with myelopathy
M50023	Cervical disc disorder at C6-C7 level with myelopathy
M5003	Cervical disc disorder with myelopathy, cervicothoracic region
M5011	Cervical disc disorder with radiculopathy, high cervical region
M50120	Mid-cervical disc disorder, unspecified
M50121	Cervical disc disorder at C4-C5 level with radiculopathy
M50122	Cervical disc disorder at C5-C6 level with radiculopathy
M50123	Cervical disc disorder at C6-C7 level with radiculopathy
M5013	Cervical disc disorder with radiculopathy, cervicothoracic region
M5020	Other cervical disc displacement, unspecified cervical region
M5021	Other cervical disc displacement, high cervical region
M50220	Other cervical disc displacement, mid-cervical region, unspecified level
M50221	Other cervical disc displacement at C4-C5 level
M50222	Other cervical disc displacement at C5-C6 level
M50223	Other cervical disc displacement at C6-C7 level
M5023	Other cervical disc displacement, cervicothoracic region
M5030	Other cervical disc degeneration, unspecified cervical region

Diagnosis Code	Description
M5031	Other cervical disc degeneration, high cervical region
M50320	Other cervical disc degeneration, mid-cervical region, unspecified level
M50321	Other cervical disc degeneration at C4-C5 level
M50322	Other cervical disc degeneration at C5-C6 level
M50323	Other cervical disc degeneration at C6-C7 level
M5033	Other cervical disc degeneration, cervicothoracic region
M5080	Other cervical disc disorders, unspecified cervical region
M5081	Other cervical disc disorders, high cervical region
M50820	Other cervical disc disorders, mid-cervical region, unspecified level
M50821	Other cervical disc disorders at C4-C5 level
M50822	Other cervical disc disorders at C5-C6 level
M50823	Other cervical disc disorders at C6-C7 level
M5083	Other cervical disc disorders, cervicothoracic region
M5091	Cervical disc disorder, unspecified, high cervical region
M50920	Unspecified cervical disc disorder, mid-cervical region, unspecified level
M50921	Unspecified cervical disc disorder at C4-C5 level
M50922	Unspecified cervical disc disorder at C5-C6 level
M50923	Unspecified cervical disc disorder at C6-C7 level
M5093	Cervical disc disorder, unspecified, cervicothoracic region
M5104	Intervertebral disc disorders with myelopathy, thoracic region
M5105	Intervertebral disc disorders with myelopathy, thoracolumbar region
M5106	Intervertebral disc disorders with myelopathy, lumbar region
M5124	Other intervertebral disc displacement, thoracic region
M5125	Other intervertebral disc displacement, thoracolumbar region
M5126	Other intervertebral disc displacement, lumbar region
M5127	Other intervertebral disc displacement, lumbosacral region
M5134	Other intervertebral disc degeneration, thoracic region
M5135	Other intervertebral disc degeneration, thoracolumbar region
M5136	Other intervertebral disc degeneration, lumbar region
M5137	Other intervertebral disc degeneration, lumbosacral region
M5184	Other intervertebral disc disorders, thoracic region
M5185	Other intervertebral disc disorders, thoracolumbar region
M5186	Other intervertebral disc disorders, lumbar region
M5187	Other intervertebral disc disorders, lumbosacral region
M5410	Radiculopathy, site unspecified
M5411	Radiculopathy, occipito-atlanto-axial region
M5412	Radiculopathy, cervical region
M5413	Radiculopathy, cervicothoracic region
M5414	Radiculopathy, thoracic region
M5415	Radiculopathy, thoracolumbar region

Diagnosis Code	Description
M5416	Radiculopathy, lumbar region
M5417	Radiculopathy, lumbosacral region
M5431	Sciatica, right side
M5432	Sciatica, left side
M545	Low back pain
M546	Pain in thoracic spine
M5489	Other dorsalgia
M60011	Infective myositis, right shoulder
M60012	Infective myositis, left shoulder
M60021	Infective myositis, right upper arm
M60022	Infective myositis, left upper arm
M60031	Infective myositis, right forearm
M60032	Infective myositis, left forearm
M60041	Infective myositis, right hand
M60042	Infective myositis, left hand
M60044	Infective myositis, right finger(s)
M60045	Infective myositis, left finger(s)
M60046	Infective myositis, unspecified finger(s)
M60051	Infective myositis, right thigh
M60052	Infective myositis, left thigh
M60061	Infective myositis, right lower leg
M60062	Infective myositis, left lower leg
M60070	Infective myositis, right ankle
M60071	Infective myositis, left ankle
M60073	Infective myositis, right foot
M60074	Infective myositis, left foot
M60076	Infective myositis, right toe(s)
M60077	Infective myositis, left toe(s)
M6008	Infective myositis, other site
M6009	Infective myositis, multiple sites
M60111	Interstitial myositis, right shoulder
M60112	Interstitial myositis, left shoulder
M60121	Interstitial myositis, right upper arm
M60122	Interstitial myositis, left upper arm
M60131	Interstitial myositis, right forearm
M60132	Interstitial myositis, left forearm
M60141	Interstitial myositis, right hand
M60142	Interstitial myositis, left hand
M60151	Interstitial myositis, right thigh
M60152	Interstitial myositis, left thigh

Diagnosis Code	Description
M60161	Interstitial myositis, right lower leg
M60162	Interstitial myositis, left lower leg
M60171	Interstitial myositis, right ankle and foot
M60172	Interstitial myositis, left ankle and foot
M6018	Interstitial myositis, other site
M6019	Interstitial myositis, multiple sites
M609	Myositis, unspecified
M6250	Muscle wasting and atrophy, not elsewhere classified, unspecified site
M62511	Muscle wasting and atrophy, not elsewhere classified, right shoulder
M62512	Muscle wasting and atrophy, not elsewhere classified, left shoulder
M62519	Muscle wasting and atrophy, not elsewhere classified, unspecified shoulder
M62521	Muscle wasting and atrophy, not elsewhere classified, right upper arm
M62522	Muscle wasting and atrophy, not elsewhere classified, left upper arm
M62529	Muscle wasting and atrophy, not elsewhere classified, unspecified upper arm
M62531	Muscle wasting and atrophy, not elsewhere classified, right forearm
M62532	Muscle wasting and atrophy, not elsewhere classified, left forearm
M62539	Muscle wasting and atrophy, not elsewhere classified, unspecified forearm
M62541	Muscle wasting and atrophy, not elsewhere classified, right hand
M62542	Muscle wasting and atrophy, not elsewhere classified, left hand
M62549	Muscle wasting and atrophy, not elsewhere classified, unspecified hand
M62551	Muscle wasting and atrophy, not elsewhere classified, right thigh
M62552	Muscle wasting and atrophy, not elsewhere classified, left thigh
M62559	Muscle wasting and atrophy, not elsewhere classified, unspecified thigh
M62561	Muscle wasting and atrophy, not elsewhere classified, right lower leg
M62562	Muscle wasting and atrophy, not elsewhere classified, left lower leg
M62569	Muscle wasting and atrophy, not elsewhere classified, unspecified lower leg
M62571	Muscle wasting and atrophy, not elsewhere classified, right ankle and foot
M62572	Muscle wasting and atrophy, not elsewhere classified, left ankle and foot
M62579	Muscle wasting and atrophy, not elsewhere classified, unspecified ankle and foot
M6258	Muscle wasting and atrophy, not elsewhere classified, other site
M6259	Muscle wasting and atrophy, not elsewhere classified, multiple sites
M6281	Muscle weakness (generalized)
M6284	Sarcopenia
M629	Disorder of muscle, unspecified
M791	Myalgia
M792	Neuralgia and neuritis, unspecified
M79601	Pain in right arm
M79602	Pain in left arm
M79604	Pain in right leg
M79605	Pain in left leg

Diagnosis Code	Description
M79621	Pain in right upper arm
M79622	Pain in left upper arm
M79631	Pain in right forearm
M79632	Pain in left forearm
M79641	Pain in right hand
M79642	Pain in left hand
M79651	Pain in right thigh
M79652	Pain in left thigh
M79661	Pain in right lower leg
M79662	Pain in left lower leg
M79671	Pain in right foot
M79672	Pain in left foot
M797	Fibromyalgia
M961	Postlaminectomy syndrome, not elsewhere classified
N393	Stress incontinence (female) (male)
N3941	Urge incontinence
N3942	Incontinence without sensory awareness
N3943	Post-void dribbling
N3944	Nocturnal enuresis
N3945	Continuous leakage
N3946	Mixed incontinence
N39490	Overflow incontinence
N39492	Postural (urinary) incontinence
N39498	Other specified urinary incontinence
N94819	Vulvodynia, unspecified
R150	Incomplete defecation
R151	Fecal smearing
R152	Fecal urgency
R159	Full incontinence of feces
R200	Anesthesia of skin
R201	Hypoesthesia of skin
R202	Paresthesia of skin
R203	Hyperesthesia
R208	Other disturbances of skin sensation
R209	Unspecified disturbances of skin sensation
R260	Ataxic gait
R261	Paralytic gait
R2681	Unsteadiness on feet
R2689	Other abnormalities of gait and mobility
R269	Unspecified abnormalities of gait and mobility

Diagnosis Code	Description
R290	Tetany
R295	Transient paralysis

R29735	NIHSS score 35
R29736	NIHSS score 36
R29737	NIHSS score 37
R29738	NIHSS score 38

Diagnosis Code	Description
R29739	NIHSS score 39
R29740	NIHSS score 40
R29741	NIHSS score 41
R29742	NIHSS score 42
R32	Unspecified urinary incontinence
R3914	Feeling of incomplete bladder emptying
R39191	Need to immediately re-void
R39192	Position dependent micturition
R39198	Other difficulties with micturition
R4702	Dysphasia
R471	Dysarthria and anarthria
R4781	Slurred speech
R4789	Other speech disturbances
R498	Other voice and resonance disorders
R6884	Jaw pain
S14101A	Unspecified injury at C1 level of cervical spinal cord, initial encounter
S14101D	Unspecified injury at C1 level of cervical spinal cord, subsequent encounter
S14101S	Unspecified injury at C1 level of cervical spinal cord, sequela
S14102A	Unspecified injury at C2 level of cervical spinal cord, initial encounter
S14102D	Unspecified injury at C2 level of cervical spinal cord, subsequent encounter
S14102S	Unspecified injury at C2 level of cervical spinal cord, sequela
S14103A	Unspecified injury at C3 level of cervical spinal cord, initial encounter
S14103D	Unspecified injury at C3 level of cervical spinal cord, subsequent encounter
S14103S	Unspecified injury at C3 level of cervical spinal cord, sequela
S14104A	Unspecified injury at C4 level of cervical spinal cord, initial encounter
S14104D	Unspecified injury at C4 level of cervical spinal cord, subsequent encounter
S14104S	Unspecified injury at C4 level of cervical spinal cord, sequela
S14105A	Unspecified injury at C5 level of cervical spinal cord, initial encounter
S14105D	Unspecified injury at C5 level of cervical spinal cord, subsequent encounter
S14105S	Unspecified injury at C5 level of cervical spinal cord, sequela
S14106A	Unspecified injury at C6 level of cervical spinal cord, initial encounter
S14106D	Unspecified injury at C6 level of cervical spinal cord, subsequent encounter
S14106S	Unspecified injury at C6 level of cervical spinal cord, sequela
S14107A	Unspecified injury at C7 level of cervical spinal cord, initial encounter
S14107D	Unspecified injury at C7 level of cervical spinal cord, subsequent encounter
S14107S	Unspecified injury at C7 level of cervical spinal cord, sequela
S14108A	Unspecified injury at C8 level of cervical spinal cord, initial encounter
S14108D	Unspecified injury at C8 level of cervical spinal cord, subsequent encounter
S14108S	Unspecified injury at C8 level of cervical spinal cord, sequela
S14109A	Unspecified injury at unspecified level of cervical spinal cord, initial encounter

Diagnosis Code	Description
S14109D	Unspecified injury at unspecified level of cervical spinal cord, subsequent encounter
S14109S	Unspecified injury at unspecified level of cervical spinal cord, sequela
S14111A	Complete lesion at C1 level of cervical spinal cord, initial encounter
S14111D	Complete lesion at C1 level of cervical spinal cord, subsequent encounter
S14111S	Complete lesion at C1 level of cervical spinal cord, sequela
S14112A	Complete lesion at C2 level of cervical spinal cord, initial encounter
S14112D	Complete lesion at C2 level of cervical spinal cord, subsequent encounter
S14112S	Complete lesion at C2 level of cervical spinal cord, sequela
S14113A	Complete lesion at C3 level of cervical spinal cord, initial encounter
S14113D	Complete lesion at C3 level of cervical spinal cord, subsequent encounter
S14113S	Complete lesion at C3 level of cervical spinal cord, sequela
S14114A	Complete lesion at C4 level of cervical spinal cord, initial encounter
S14114D	Complete lesion at C4 level of cervical spinal cord, subsequent encounter
S14114S	Complete lesion at C4 level of cervical spinal cord, sequela
S14115A	Complete lesion at C5 level of cervical spinal cord, initial encounter
S14115D	Complete lesion at C5 level of cervical spinal cord, subsequent encounter
S14115S	Complete lesion at C5 level of cervical spinal cord, sequela
S14116A	Complete lesion at C6 level of cervical spinal cord, initial encounter
S14116D	Complete lesion at C6 level of cervical spinal cord, subsequent encounter
S14116S	Complete lesion at C6 level of cervical spinal cord, sequela
S14117A	Complete lesion at C7 level of cervical spinal cord, initial encounter
S14117D	Complete lesion at C7 level of cervical spinal cord, subsequent encounter
S14117S	Complete lesion at C7 level of cervical spinal cord, sequela
S14118A	Complete lesion at C8 level of cervical spinal cord, initial encounter
S14118D	Complete lesion at C8 level of cervical spinal cord, subsequent encounter
S14118S	Complete lesion at C8 level of cervical spinal cord, sequela
S14121A	Central cord syndrome at C1 level of cervical spinal cord, initial encounter
S14121D	Central cord syndrome at C1 level of cervical spinal cord, subsequent encounter
S14121S	Central cord syndrome at C1 level of cervical spinal cord, sequela
S14122A	Central cord syndrome at C2 level of cervical spinal cord, initial encounter
S14122D	Central cord syndrome at C2 level of cervical spinal cord, subsequent encounter
S14122S	Central cord syndrome at C2 level of cervical spinal cord, sequela
S14123A	Central cord syndrome at C3 level of cervical spinal cord, initial encounter
S14123D	Central cord syndrome at C3 level of cervical spinal cord, subsequent encounter
S14123S	Central cord syndrome at C3 level of cervical spinal cord, sequela
S14124A	Central cord syndrome at C4 level of cervical spinal cord, initial encounter
S14124D	Central cord syndrome at C4 level of cervical spinal cord, subsequent encounter
S14124S	Central cord syndrome at C4 level of cervical spinal cord, sequela
S14125A	Central cord syndrome at C5 level of cervical spinal cord, initial encounter

Diagnosis Code	Description
S14125D	Central cord syndrome at C5 level of cervical spinal cord, subsequent encounter
S14125S	Central cord syndrome at C5 level of cervical spinal cord, sequela
S14126A	Central cord syndrome at C6 level of cervical spinal cord, initial encounter
S14126D	Central cord syndrome at C6 level of cervical spinal cord, subsequent encounter
S14126S	Central cord syndrome at C6 level of cervical spinal cord, sequela
S14127A	Central cord syndrome at C7 level of cervical spinal cord, initial encounter
S14127D	Central cord syndrome at C7 level of cervical spinal cord, subsequent encounter
S14127S	Central cord syndrome at C7 level of cervical spinal cord, sequela
S14128A	Central cord syndrome at C8 level of cervical spinal cord, initial encounter
S14128D	Central cord syndrome at C8 level of cervical spinal cord, subsequent encounter
S14128S	Central cord syndrome at C8 level of cervical spinal cord, sequela
S14131A	Anterior cord syndrome at C1 level of cervical spinal cord, initial encounter
S14131D	Anterior cord syndrome at C1 level of cervical spinal cord, subsequent encounter
S14131S	Anterior cord syndrome at C1 level of cervical spinal cord, sequela
S14132A	Anterior cord syndrome at C2 level of cervical spinal cord, initial encounter
S14132D	Anterior cord syndrome at C2 level of cervical spinal cord, subsequent encounter
S14132S	Anterior cord syndrome at C2 level of cervical spinal cord, sequela
S14133A	Anterior cord syndrome at C3 level of cervical spinal cord, initial encounter
S14133D	Anterior cord syndrome at C3 level of cervical spinal cord, subsequent encounter
S14133S	Anterior cord syndrome at C3 level of cervical spinal cord, sequela
S14134A	Anterior cord syndrome at C4 level of cervical spinal cord, initial encounter
S14134D	Anterior cord syndrome at C4 level of cervical spinal cord, subsequent encounter
S14134S	Anterior cord syndrome at C4 level of cervical spinal cord, sequela
S14135A	Anterior cord syndrome at C5 level of cervical spinal cord, initial encounter
S14135D	Anterior cord syndrome at C5 level of cervical spinal cord, subsequent encounter
S14135S	Anterior cord syndrome at C5 level of cervical spinal cord, sequela
S14136A	Anterior cord syndrome at C6 level of cervical spinal cord, initial encounter
S14136D	Anterior cord syndrome at C6 level of cervical spinal cord, subsequent encounter
S14136S	Anterior cord syndrome at C6 level of cervical spinal cord, sequela
S14137A	Anterior cord syndrome at C7 level of cervical spinal cord, initial encounter
S14137D	Anterior cord syndrome at C7 level of cervical spinal cord, subsequent encounter
S14137S	Anterior cord syndrome at C7 level of cervical spinal cord, sequela
S14138A	Anterior cord syndrome at C8 level of cervical spinal cord, initial encounter
S14138D	Anterior cord syndrome at C8 level of cervical spinal cord, subsequent encounter
S14138S	Anterior cord syndrome at C8 level of cervical spinal cord, sequela
S14141A	Brown-Sequard syndrome at C1 level of cervical spinal cord, initial encounter
S14141D	Brown-Sequard syndrome at C1 level of cervical spinal cord, subsequent encounter
S14141S	Brown-Sequard syndrome at C1 level of cervical spinal cord, sequela
S14142A	Brown-Sequard syndrome at C2 level of cervical spinal cord, initial encounter

Diagnosis Code	Description
S14142D	Brown-Sequard syndrome at C2 level of cervical spinal cord, subsequent encounter
S14142S	Brown-Sequard syndrome at C2 level of cervical spinal cord, sequela
S14143A	Brown-Sequard syndrome at C3 level of cervical spinal cord, initial encounter
S14143D	Brown-Sequard syndrome at C3 level of cervical spinal cord, subsequent encounter
S14143S	Brown-Sequard syndrome at C3 level of cervical spinal cord, sequela
S14144A	Brown-Sequard syndrome at C4 level of cervical spinal cord, initial encounter
S14144D	Brown-Sequard syndrome at C4 level of cervical spinal cord, subsequent encounter
S14144S	Brown-Sequard syndrome at C4 level of cervical spinal cord, sequela
S14145A	Brown-Sequard syndrome at C5 level of cervical spinal cord, initial encounter
S14145D	Brown-Sequard syndrome at C5 level of cervical spinal cord, subsequent encounter
S14145S	Brown-Sequard syndrome at C5 level of cervical spinal cord, sequela
S14146A	Brown-Sequard syndrome at C6 level of cervical spinal cord, initial encounter
S14146D	Brown-Sequard syndrome at C6 level of cervical spinal cord, subsequent encounter
S14146S	Brown-Sequard syndrome at C6 level of cervical spinal cord, sequela
S14147A	Brown-Sequard syndrome at C7 level of cervical spinal cord, initial encounter
S14147D	Brown-Sequard syndrome at C7 level of cervical spinal cord, subsequent encounter
S14147S	Brown-Sequard syndrome at C7 level of cervical spinal cord, sequela
S14148A	Brown-Sequard syndrome at C8 level of cervical spinal cord, initial encounter
S14148D	Brown-Sequard syndrome at C8 level of cervical spinal cord, subsequent encounter
S14148S	Brown-Sequard syndrome at C8 level of cervical spinal cord, sequela
S14151A	Other incomplete lesion at C1 level of cervical spinal cord, initial encounter
S14151D	Other incomplete lesion at C1 level of cervical spinal cord, subsequent encounter
S14151S	Other incomplete lesion at C1 level of cervical spinal cord, sequela
S14152A	Other incomplete lesion at C2 level of cervical spinal cord, initial encounter
S14152D	Other incomplete lesion at C2 level of cervical spinal cord, subsequent encounter
S14152S	Other incomplete lesion at C2 level of cervical spinal cord, sequela
S14153A	Other incomplete lesion at C3 level of cervical spinal cord, initial encounter
S14153D	Other incomplete lesion at C3 level of cervical spinal cord, subsequent encounter
S14153S	Other incomplete lesion at C3 level of cervical spinal cord, sequela
S14154A	Other incomplete lesion at C4 level of cervical spinal cord, initial encounter
S14154D	Other incomplete lesion at C4 level of cervical spinal cord, subsequent encounter
S14154S	Other incomplete lesion at C4 level of cervical spinal cord, sequela
S14155A	Other incomplete lesion at C5 level of cervical spinal cord, initial encounter
S14155D	Other incomplete lesion at C5 level of cervical spinal cord, subsequent encounter
S14155S	Other incomplete lesion at C5 level of cervical spinal cord, sequela

Diagnosis Code	Description
S14156A	Other incomplete lesion at C6 level of cervical spinal cord, initial encounter
S14156D	Other incomplete lesion at C6 level of cervical spinal cord, subsequent encounter
S14156S	Other incomplete lesion at C6 level of cervical spinal cord, sequela
S14157A	Other incomplete lesion at C7 level of cervical spinal cord, initial encounter
S14157D	Other incomplete lesion at C7 level of cervical spinal cord, subsequent encounter
S14157S	Other incomplete lesion at C7 level of cervical spinal cord, sequela
S14158A	Other incomplete lesion at C8 level of cervical spinal cord, initial encounter
S14158D	Other incomplete lesion at C8 level of cervical spinal cord, subsequent encounter
S14158S	Other incomplete lesion at C8 level of cervical spinal cord, sequela
S142XXA	Injury of nerve root of cervical spine, initial encounter
S142XXD	Injury of nerve root of cervical spine, subsequent encounter
S142XXS	Injury of nerve root of cervical spine, sequela
S143XXA	Injury of brachial plexus, initial encounter
S143XXD	Injury of brachial plexus, subsequent encounter
S143XXS	Injury of brachial plexus, sequela
S144XXA	Injury of peripheral nerves of neck, initial encounter
S144XXD	Injury of peripheral nerves of neck, subsequent encounter
S144XXS	Injury of peripheral nerves of neck, sequela
S145XXA	Injury of cervical sympathetic nerves, initial encounter
S145XXD	Injury of cervical sympathetic nerves, subsequent encounter
S145XXS	Injury of cervical sympathetic nerves, sequela
S148XXA	Injury of other specified nerves of neck, initial encounter
S148XXD	Injury of other specified nerves of neck, subsequent encounter
S148XXS	Injury of other specified nerves of neck, sequela
S149XXA	Injury of unspecified nerves of neck, initial encounter
S149XXD	Injury of unspecified nerves of neck, subsequent encounter
S149XXS	Injury of unspecified nerves of neck, sequela
S24101A	Unspecified injury at T1 level of thoracic spinal cord, initial encounter
S24101D	Unspecified injury at T1 level of thoracic spinal cord, subsequent encounter
S24101S	Unspecified injury at T1 level of thoracic spinal cord, sequela
S24102A	Unspecified injury at T2-T6 level of thoracic spinal cord, initial encounter
S24102D	Unspecified injury at T2-T6 level of thoracic spinal cord, subsequent encounter
S24102S	Unspecified injury at T2-T6 level of thoracic spinal cord, sequela
S24103A	Unspecified injury at T7-T10 level of thoracic spinal cord, initial encounter
S24103D	Unspecified injury at T7-T10 level of thoracic spinal cord, subsequent encounter
S24103S	Unspecified injury at T7-T10 level of thoracic spinal cord, sequela
S24104A	Unspecified injury at T11-T12 level of thoracic spinal cord, initial encounter
S24104D	Unspecified injury at T11-T12 level of thoracic spinal cord, subsequent encounter
S24104S	Unspecified injury at T11-T12 level of thoracic spinal cord, sequela

Diagnosis Code	Description
S24109A	Unspecified injury at unspecified level of thoracic spinal cord, initial encounter
S24109D	Unspecified injury at unspecified level of thoracic spinal cord, subsequent encounter
S24109S	Unspecified injury at unspecified level of thoracic spinal cord, sequela
S24111A	Complete lesion at T1 level of thoracic spinal cord, initial encounter
S24111D	Complete lesion at T1 level of thoracic spinal cord, subsequent encounter
S24111S	Complete lesion at T1 level of thoracic spinal cord, sequela
S24112A	Complete lesion at T2-T6 level of thoracic spinal cord, initial encounter
S24112D	Complete lesion at T2-T6 level of thoracic spinal cord, subsequent encounter
S24112S	Complete lesion at T2-T6 level of thoracic spinal cord, sequela
S24113A	Complete lesion at T7-T10 level of thoracic spinal cord, initial encounter
S24113D	Complete lesion at T7-T10 level of thoracic spinal cord, subsequent encounter
S24113S	Complete lesion at T7-T10 level of thoracic spinal cord, sequela
S24114A	Complete lesion at T11-T12 level of thoracic spinal cord, initial encounter
S24114D	Complete lesion at T11-T12 level of thoracic spinal cord, subsequent encounter
S24114S	Complete lesion at T11-T12 level of thoracic spinal cord, sequela
S24131A	Anterior cord syndrome at T1 level of thoracic spinal cord, initial encounter
S24131D	Anterior cord syndrome at T1 level of thoracic spinal cord, subsequent encounter
S24131S	Anterior cord syndrome at T1 level of thoracic spinal cord, sequela
S24132A	Anterior cord syndrome at T2-T6 level of thoracic spinal cord, initial encounter
S24132D	Anterior cord syndrome at T2-T6 level of thoracic spinal cord, subsequent encounter
S24132S	Anterior cord syndrome at T2-T6 level of thoracic spinal cord, sequela
S24133A	Anterior cord syndrome at T7-T10 level of thoracic spinal cord, initial encounter
S24133D	Anterior cord syndrome at T7-T10 level of thoracic spinal cord, subsequent encounter
S24133S	Anterior cord syndrome at T7-T10 level of thoracic spinal cord, sequela
S24134A	Anterior cord syndrome at T11-T12 level of thoracic spinal cord, initial encounter
S24134D	Anterior cord syndrome at T11-T12 level of thoracic spinal cord, subsequent encounter
S24134S	Anterior cord syndrome at T11-T12 level of thoracic spinal cord, sequela
S24141A	Brown-Sequard syndrome at T1 level of thoracic spinal cord, initial encounter
S24141D	Brown-Sequard syndrome at T1 level of thoracic spinal cord, subsequent encounter
S24141S	Brown-Sequard syndrome at T1 level of thoracic spinal cord, sequela
S24142A	Brown-Sequard syndrome at T2-T6 level of thoracic spinal cord, initial encounter
S24142D	Brown-Sequard syndrome at T2-T6 level of thoracic spinal cord, subsequent encounter
S24142S	Brown-Sequard syndrome at T2-T6 level of thoracic spinal cord, sequela

Diagnosis Code	Description
S24143A	Brown-Sequard syndrome at T7-T10 level of thoracic spinal cord, initial encounter
S24143D	Brown-Sequard syndrome at T7-T10 level of thoracic spinal cord, subsequent encounter
S24143S	Brown-Sequard syndrome at T7-T10 level of thoracic spinal cord, sequela
S24144A	Brown-Sequard syndrome at T11-T12 level of thoracic spinal cord, initial encounter
S24144D	Brown-Sequard syndrome at T11-T12 level of thoracic spinal cord, subsequent encounter
S24144S	Brown-Sequard syndrome at T11-T12 level of thoracic spinal cord, sequela
S24151A	Other incomplete lesion at T1 level of thoracic spinal cord, initial encounter
S24151D	Other incomplete lesion at T1 level of thoracic spinal cord, subsequent encounter
S24151S	Other incomplete lesion at T1 level of thoracic spinal cord, sequela
S24152A	Other incomplete lesion at T2-T6 level of thoracic spinal cord, initial encounter
S24152D	Other incomplete lesion at T2-T6 level of thoracic spinal cord, subsequent encounter
S24152S	Other incomplete lesion at T2-T6 level of thoracic spinal cord, sequela
S24153A	Other incomplete lesion at T7-T10 level of thoracic spinal cord, initial encounter
S24153D	Other incomplete lesion at T7-T10 level of thoracic spinal cord, subsequent encounter
S24153S	Other incomplete lesion at T7-T10 level of thoracic spinal cord, sequela
S24154A	Other incomplete lesion at T11-T12 level of thoracic spinal cord, initial encounter
S24154D	Other incomplete lesion at T11-T12 level of thoracic spinal cord, subsequent encounter
S24154S	Other incomplete lesion at T11-T12 level of thoracic spinal cord, sequela
S242XXA	Injury of nerve root of thoracic spine, initial encounter
S242XXD	Injury of nerve root of thoracic spine, subsequent encounter
S242XXS	Injury of nerve root of thoracic spine, sequela
S243XXA	Injury of peripheral nerves of thorax, initial encounter
S243XXD	Injury of peripheral nerves of thorax, subsequent encounter
S243XXS	Injury of peripheral nerves of thorax, sequela
S244XXA	Injury of thoracic sympathetic nervous system, initial encounter
S244XXD	Injury of thoracic sympathetic nervous system, subsequent encounter
S244XXS	Injury of thoracic sympathetic nervous system, sequela
S248XXA	Injury of other specified nerves of thorax, initial encounter
S248XXD	Injury of other specified nerves of thorax, subsequent encounter
S248XXS	Injury of other specified nerves of thorax, sequela
S249XXA	Injury of unspecified nerve of thorax, initial encounter
S34109A	Unspecified injury to unspecified level of lumbar spinal cord, initial encounter
S34109D	Unspecified injury to unspecified level of lumbar spinal cord, subsequent encounter
S34111A	Complete lesion of L1 level of lumbar spinal cord, initial encounter

Diagnosis Code	Description
S34111D	Complete lesion of L1 level of lumbar spinal cord, subsequent encounter
S34111S	Complete lesion of L1 level of lumbar spinal cord, sequela
S34112A	Complete lesion of L2 level of lumbar spinal cord, initial encounter
S34112D	Complete lesion of L2 level of lumbar spinal cord, subsequent encounter
S34112S	Complete lesion of L2 level of lumbar spinal cord, sequela
S34113A	Complete lesion of L3 level of lumbar spinal cord, initial encounter
S34113D	Complete lesion of L3 level of lumbar spinal cord, subsequent encounter
S34113S	Complete lesion of L3 level of lumbar spinal cord, sequela
S34114A	Complete lesion of L4 level of lumbar spinal cord, initial encounter
S34114D	Complete lesion of L4 level of lumbar spinal cord, subsequent encounter
S34114S	Complete lesion of L4 level of lumbar spinal cord, sequela
S34115A	Complete lesion of L5 level of lumbar spinal cord, initial encounter
S34115D	Complete lesion of L5 level of lumbar spinal cord, subsequent encounter
S34115S	Complete lesion of L5 level of lumbar spinal cord, sequela
S34121A	Incomplete lesion of L1 level of lumbar spinal cord, initial encounter
S34121D	Incomplete lesion of L1 level of lumbar spinal cord, subsequent encounter
S34121S	Incomplete lesion of L1 level of lumbar spinal cord, sequela
S34122A	Incomplete lesion of L2 level of lumbar spinal cord, initial encounter
S34122D	Incomplete lesion of L2 level of lumbar spinal cord, subsequent encounter
S34122S	Incomplete lesion of L2 level of lumbar spinal cord, sequela
S34123A	Incomplete lesion of L3 level of lumbar spinal cord, initial encounter
S34123D	Incomplete lesion of L3 level of lumbar spinal cord, subsequent encounter
S34123S	Incomplete lesion of L3 level of lumbar spinal cord, sequela
S34124A	Incomplete lesion of L4 level of lumbar spinal cord, initial encounter
S34124D	Incomplete lesion of L4 level of lumbar spinal cord, subsequent encounter
S34124S	Incomplete lesion of L4 level of lumbar spinal cord, sequela
S34125A	Incomplete lesion of L5 level of lumbar spinal cord, initial encounter
S34125D	Incomplete lesion of L5 level of lumbar spinal cord, subsequent encounter
S34125S	Incomplete lesion of L5 level of lumbar spinal cord, sequela
S34131A	Complete lesion of sacral spinal cord, initial encounter
S34131D	Complete lesion of sacral spinal cord, subsequent encounter
S34131S	Complete lesion of sacral spinal cord, sequela
S34132A	Incomplete lesion of sacral spinal cord, initial encounter
S34132D	Incomplete lesion of sacral spinal cord, subsequent encounter
S34132S	Incomplete lesion of sacral spinal cord, sequela
S34139A	Unspecified injury to sacral spinal cord, initial encounter
S34139D	Unspecified injury to sacral spinal cord, subsequent encounter
S34139S	Unspecified injury to sacral spinal cord, sequela
S3421XA	Injury of nerve root of lumbar spine, initial encounter
S3421XD	Injury of nerve root of lumbar spine, subsequent encounter

Diagnosis Code	Description
S3421XS	Injury of nerve root of lumbar spine, sequela
S3422XA	Injury of nerve root of sacral spine, initial encounter
S3422XD	Injury of nerve root of sacral spine, subsequent encounter
S3422XS	Injury of nerve root of sacral spine, sequela
S343XXA	Injury of cauda equina, initial encounter
S343XXD	Injury of cauda equina, subsequent encounter
S343XXS	Injury of cauda equina, sequela
S344XXA	Injury of lumbosacral plexus, initial encounter
S344XXD	Injury of lumbosacral plexus, subsequent encounter
S344XXS	Injury of lumbosacral plexus, sequela
S345XXA	Injury of lumbar, sacral and pelvic sympathetic nerves, initial encounter
S345XXD	Injury of lumbar, sacral and pelvic sympathetic nerves, subsequent encounter
S345XXS	Injury of lumbar, sacral and pelvic sympathetic nerves, sequela
S4400XA	Injury of ulnar nerve at upper arm level, unspecified arm, initial encounter
S4400XD	Injury of ulnar nerve at upper arm level, unspecified arm, subsequent encounter
S4400XS	Injury of ulnar nerve at upper arm level, unspecified arm, sequela
S4401XA	Injury of ulnar nerve at upper arm level, right arm, initial encounter
S4401XD	Injury of ulnar nerve at upper arm level, right arm, subsequent encounter
S4401XS	Injury of ulnar nerve at upper arm level, right arm, sequela
S4402XA	Injury of ulnar nerve at upper arm level, left arm, initial encounter
S4402XD	Injury of ulnar nerve at upper arm level, left arm, subsequent encounter
S4402XS	Injury of ulnar nerve at upper arm level, left arm, sequela
S4410XA	Injury of median nerve at upper arm level, unspecified arm, initial encounter
S4410XD	Injury of median nerve at upper arm level, unspecified arm, subsequent encounter
S4410XS	Injury of median nerve at upper arm level, unspecified arm, sequela
S4411XA	Injury of median nerve at upper arm level, right arm, initial encounter
S4411XD	Injury of median nerve at upper arm level, right arm, subsequent encounter
S4411XS	Injury of median nerve at upper arm level, right arm, sequela
S4412XA	Injury of median nerve at upper arm level, left arm, initial encounter
S4412XD	Injury of median nerve at upper arm level, left arm, subsequent encounter
S4412XS	Injury of median nerve at upper arm level, left arm, sequela
S4420XA	Injury of radial nerve at upper arm level, unspecified arm, initial encounter
S4420XD	Injury of radial nerve at upper arm level, unspecified arm, subsequent encounter
S4420XS	Injury of radial nerve at upper arm level, unspecified arm, sequela
S4421XA	Injury of radial nerve at upper arm level, right arm, initial encounter
S4421XD	Injury of radial nerve at upper arm level, right arm, subsequent encounter
S4421XS	Injury of radial nerve at upper arm level, right arm, sequela
S4422XA	Injury of radial nerve at upper arm level, left arm, initial encounter
S4422XD	Injury of radial nerve at upper arm level, left arm, subsequent encounter

Diagnosis Code	Description
S4422XS	Injury of radial nerve at upper arm level, left arm, sequela
S4430XA	Injury of axillary nerve, unspecified arm, initial encounter
S4430XD	Injury of axillary nerve, unspecified arm, subsequent encounter
S4430XS	Injury of axillary nerve, unspecified arm, sequela
S4431XA	Injury of axillary nerve, right arm, initial encounter
S4431XD	Injury of axillary nerve, right arm, subsequent encounter
S4431XS	Injury of axillary nerve, right arm, sequela
S4432XA	Injury of axillary nerve, left arm, initial encounter
S4432XD	Injury of axillary nerve, left arm, subsequent encounter
S4432XS	Injury of axillary nerve, left arm, sequela
S4440XA	Injury of musculocutaneous nerve, unspecified arm, initial encounter
S4440XD	Injury of musculocutaneous nerve, unspecified arm, subsequent encounter
S4440XS	Injury of musculocutaneous nerve, unspecified arm, sequela
S4441XA	Injury of musculocutaneous nerve, right arm, initial encounter
S4441XD	Injury of musculocutaneous nerve, right arm, subsequent encounter
S4441XS	Injury of musculocutaneous nerve, right arm, sequela
S4442XA	Injury of musculocutaneous nerve, left arm, initial encounter
S4442XD	Injury of musculocutaneous nerve, left arm, subsequent encounter
S4442XS	Injury of musculocutaneous nerve, left arm, sequela
S4450XA	Injury of cutaneous sensory nerve at shoulder and upper arm level, unspecified arm, initial encounter
S4450XD	Injury of cutaneous sensory nerve at shoulder and upper arm level, unspecified arm, subsequent encounter
S4450XS	Injury of cutaneous sensory nerve at shoulder and upper arm level, unspecified arm, sequela
S4451XA	Injury of cutaneous sensory nerve at shoulder and upper arm level, right arm, initial encounter
S4451XD	Injury of cutaneous sensory nerve at shoulder and upper arm level, right arm, subsequent encounter
S4451XS	Injury of cutaneous sensory nerve at shoulder and upper arm level, right arm, sequela
S4452XA	Injury of cutaneous sensory nerve at shoulder and upper arm level, left arm, initial encounter
S4452XD	Injury of cutaneous sensory nerve at shoulder and upper arm level, left arm, subsequent encounter
S4452XS	Injury of cutaneous sensory nerve at shoulder and upper arm level, left arm, sequela
S448X1A	Injury of other nerves at shoulder and upper arm level, right arm, initial encounter
S448X1D	Injury of other nerves at shoulder and upper arm level, right arm, subsequent encounter
S448X1S	Injury of other nerves at shoulder and upper arm level, right arm, sequela
S448X2A	Injury of other nerves at shoulder and upper arm level, left arm, initial encounter

Diagnosis Code	Description
S448X2D	Injury of other nerves at shoulder and upper arm level, left arm, subsequent encounter
S448X2S	Injury of other nerves at shoulder and upper arm level, left arm, sequela
S448X9A	Injury of other nerves at shoulder and upper arm level, unspecified arm, initial encounter
S448X9D	Injury of other nerves at shoulder and upper arm level, unspecified arm, subsequent encounter
S448X9S	Injury of other nerves at shoulder and upper arm level, unspecified arm, sequela
S4491XA	Injury of unspecified nerve at shoulder and upper arm level, right arm, initial encounter
S4491XD	Injury of unspecified nerve at shoulder and upper arm level, right arm, subsequent encounter
S4491XS	Injury of unspecified nerve at shoulder and upper arm level, right arm, sequela
S4492XA	Injury of unspecified nerve at shoulder and upper arm level, left arm, initial encounter
S4492XD	Injury of unspecified nerve at shoulder and upper arm level, left arm, subsequent encounter
S4492XS	Injury of unspecified nerve at shoulder and upper arm level, left arm, sequela
S5400XA	Injury of ulnar nerve at forearm level, unspecified arm, initial encounter
S5400XD	Injury of ulnar nerve at forearm level, unspecified arm, subsequent encounter
S5400XS	Injury of ulnar nerve at forearm level, unspecified arm, sequela
S5401XA	Injury of ulnar nerve at forearm level, right arm, initial encounter
S5401XD	Injury of ulnar nerve at forearm level, right arm, subsequent encounter
S5401XS	Injury of ulnar nerve at forearm level, right arm, sequela
S5402XA	Injury of ulnar nerve at forearm level, left arm, initial encounter
S5402XD	Injury of ulnar nerve at forearm level, left arm, subsequent encounter
S5402XS	Injury of ulnar nerve at forearm level, left arm, sequela
S5410XA	Injury of median nerve at forearm level, unspecified arm, initial encounter
S5410XD	Injury of median nerve at forearm level, unspecified arm, subsequent encounter
S5410XS	Injury of median nerve at forearm level, unspecified arm, sequela
S5411XA	Injury of median nerve at forearm level, right arm, initial encounter
S5411XD	Injury of median nerve at forearm level, right arm, subsequent encounter
S5411XS	Injury of median nerve at forearm level, right arm, sequela
S5412XA	Injury of median nerve at forearm level, left arm, initial encounter
S5412XD	Injury of median nerve at forearm level, left arm, subsequent encounter
S5412XS	Injury of median nerve at forearm level, left arm, sequela
S5420XA	Injury of radial nerve at forearm level, unspecified arm, initial encounter
S5420XD	Injury of radial nerve at forearm level, unspecified arm, subsequent encounter
S5420XS	Injury of radial nerve at forearm level, unspecified arm, sequela
S5421XA	Injury of radial nerve at forearm level, right arm, initial encounter
S5421XD	Injury of radial nerve at forearm level, right arm, subsequent encounter
S5421XS	Injury of radial nerve at forearm level, right arm, sequela

Diagnosis Code	Description
S5422XA	Injury of radial nerve at forearm level, left arm, initial encounter
S5422XD	Injury of radial nerve at forearm level, left arm, subsequent encounter
S5422XS	Injury of radial nerve at forearm level, left arm, sequela
S5430XA	Injury of cutaneous sensory nerve at forearm level, unspecified arm, initial encounter
S5430XD	Injury of cutaneous sensory nerve at forearm level, unspecified arm, subsequent encounter
S5430XS	Injury of cutaneous sensory nerve at forearm level, unspecified arm, sequela
S5431XA	Injury of cutaneous sensory nerve at forearm level, right arm, initial encounter
S5431XD	Injury of cutaneous sensory nerve at forearm level, right arm, subsequent encounter
S5431XS	Injury of cutaneous sensory nerve at forearm level, right arm, sequela
S5432XA	Injury of cutaneous sensory nerve at forearm level, left arm, initial encounter
S5432XD	Injury of cutaneous sensory nerve at forearm level, left arm, subsequent encounter
S5432XS	Injury of cutaneous sensory nerve at forearm level, left arm, sequela
S5490XA	Injury of unspecified nerve at forearm level, unspecified arm, initial encounter
S5490XD	Injury of unspecified nerve at forearm level, unspecified arm, subsequent encounter
S5490XS	Injury of unspecified nerve at forearm level, unspecified arm, sequela
S5491XA	Injury of unspecified nerve at forearm level, right arm, initial encounter
S5491XD	Injury of unspecified nerve at forearm level, right arm, subsequent encounter
S5491XS	Injury of unspecified nerve at forearm level, right arm, sequela
S5492XA	Injury of unspecified nerve at forearm level, left arm, initial encounter
S5492XD	Injury of unspecified nerve at forearm level, left arm, subsequent encounter
S5492XS	Injury of unspecified nerve at forearm level, left arm, sequela
S6400XA	Injury of ulnar nerve at wrist and hand level of unspecified arm, initial encounter
S6400XD	Injury of ulnar nerve at wrist and hand level of unspecified arm, subsequent encounter
S6400XS	Injury of ulnar nerve at wrist and hand level of unspecified arm, sequela
S6401XA	Injury of ulnar nerve at wrist and hand level of right arm, initial encounter
S6401XD	Injury of ulnar nerve at wrist and hand level of right arm, subsequent encounter
S6401XS	Injury of ulnar nerve at wrist and hand level of right arm, sequela
S6402XA	Injury of ulnar nerve at wrist and hand level of left arm, initial encounter
S6402XD	Injury of ulnar nerve at wrist and hand level of left arm, subsequent encounter
S6402XS	Injury of ulnar nerve at wrist and hand level of left arm, sequela
S6410XA	Injury of median nerve at wrist and hand level of unspecified arm, initial encounter
S6410XD	Injury of median nerve at wrist and hand level of unspecified arm, subsequent encounter
S6410XS	Injury of median nerve at wrist and hand level of unspecified arm, sequela
S6411XA	Injury of median nerve at wrist and hand level of right arm, initial encounter

Diagnosis Code	Description
S6411XD	Injury of median nerve at wrist and hand level of right arm, subsequent encounter
S6411XS	Injury of median nerve at wrist and hand level of right arm, sequela
S6412XA	Injury of median nerve at wrist and hand level of left arm, initial encounter
S6412XD	Injury of median nerve at wrist and hand level of left arm, subsequent encounter
S6412XS	Injury of median nerve at wrist and hand level of left arm, sequela
S6420XA	Injury of radial nerve at wrist and hand level of unspecified arm, initial encounter
S6420XD	Injury of radial nerve at wrist and hand level of unspecified arm, subsequent encounter
S6420XS	Injury of radial nerve at wrist and hand level of unspecified arm, sequela
S6421XA	Injury of radial nerve at wrist and hand level of right arm, initial encounter
S6421XD	Injury of radial nerve at wrist and hand level of right arm, subsequent encounter
S6421XS	Injury of radial nerve at wrist and hand level of right arm, sequela
S6422XA	Injury of radial nerve at wrist and hand level of left arm, initial encounter
S6422XD	Injury of radial nerve at wrist and hand level of left arm, subsequent encounter
S6422XS	Injury of radial nerve at wrist and hand level of left arm, sequela
S6430XA	Injury of digital nerve of unspecified thumb, initial encounter
S6430XD	Injury of digital nerve of unspecified thumb, subsequent encounter
S6430XS	Injury of digital nerve of unspecified thumb, sequela
S6431XA	Injury of digital nerve of right thumb, initial encounter
S6431XD	Injury of digital nerve of right thumb, subsequent encounter
S6431XS	Injury of digital nerve of right thumb, sequela
S6432XA	Injury of digital nerve of left thumb, initial encounter
S6432XD	Injury of digital nerve of left thumb, subsequent encounter
S6432XS	Injury of digital nerve of left thumb, sequela
S64490A	Injury of digital nerve of right index finger, initial encounter
S64490D	Injury of digital nerve of right index finger, subsequent encounter
S64490S	Injury of digital nerve of right index finger, sequela
S64491A	Injury of digital nerve of left index finger, initial encounter
S64491D	Injury of digital nerve of left index finger, subsequent encounter
S64491S	Injury of digital nerve of left index finger, sequela
S64492A	Injury of digital nerve of right middle finger, initial encounter
S64492D	Injury of digital nerve of right middle finger, subsequent encounter
S64492S	Injury of digital nerve of right middle finger, sequela
S64493A	Injury of digital nerve of left middle finger, initial encounter
S64493D	Injury of digital nerve of left middle finger, subsequent encounter
S64493S	Injury of digital nerve of left middle finger, sequela
S64494A	Injury of digital nerve of right ring finger, initial encounter
S64494D	Injury of digital nerve of right ring finger, subsequent encounter
S64494S	Injury of digital nerve of right ring finger, sequela
S64495A	Injury of digital nerve of left ring finger, initial encounter

Diagnosis Code	Description
S64495D	Injury of digital nerve of left ring finger, subsequent encounter
S64495S	Injury of digital nerve of left ring finger, sequela
S64496A	Injury of digital nerve of right little finger, initial encounter
S64496D	Injury of digital nerve of right little finger, subsequent encounter
S64496S	Injury of digital nerve of right little finger, sequela
S64497A	Injury of digital nerve of left little finger, initial encounter
S64497D	Injury of digital nerve of left little finger, subsequent encounter
S64497S	Injury of digital nerve of left little finger, sequela
S64498A	Injury of digital nerve of other finger, initial encounter
S64498D	Injury of digital nerve of other finger, subsequent encounter
S64498S	Injury of digital nerve of other finger, sequela
S648X1A	Injury of other nerves at wrist and hand level of right arm, initial encounter
S648X1D	Injury of other nerves at wrist and hand level of right arm, subsequent encounter
S648X1S	Injury of other nerves at wrist and hand level of right arm, sequela
S648X2A	Injury of other nerves at wrist and hand level of left arm, initial encounter
S648X2D	Injury of other nerves at wrist and hand level of left arm, subsequent encounter
S648X2S	Injury of other nerves at wrist and hand level of left arm, sequela
S648X9A	Injury of other nerves at wrist and hand level of unspecified arm, initial encounter
S648X9D	Injury of other nerves at wrist and hand level of unspecified arm, subsequent encounter
S648X9S	Injury of other nerves at wrist and hand level of unspecified arm, sequela
S6490XA	Injury of unspecified nerve at wrist and hand level of unspecified arm, initial encounter
S6490XD	Injury of unspecified nerve at wrist and hand level of unspecified arm, subsequent encounter
S6490XS	Injury of unspecified nerve at wrist and hand level of unspecified arm, sequela
S6491XA	Injury of unspecified nerve at wrist and hand level of right arm, initial encounter
S6491XD	Injury of unspecified nerve at wrist and hand level of right arm, subsequent encounter
S6491XS	Injury of unspecified nerve at wrist and hand level of right arm, sequela
S6492XA	Injury of unspecified nerve at wrist and hand level of left arm, initial encounter
S7401XA	Injury of sciatic nerve at hip and thigh level, right leg, initial encounter
S7401XD	Injury of sciatic nerve at hip and thigh level, right leg, subsequent encounter
S7401XS	Injury of sciatic nerve at hip and thigh level, right leg, sequela
S7402XA	Injury of sciatic nerve at hip and thigh level, left leg, initial encounter
S7402XD	Injury of sciatic nerve at hip and thigh level, left leg, subsequent encounter
S7402XS	Injury of sciatic nerve at hip and thigh level, left leg, sequela
S7411XA	Injury of femoral nerve at hip and thigh level, right leg, initial encounter
S7411XD	Injury of femoral nerve at hip and thigh level, right leg, subsequent encounter
S7411XS	Injury of femoral nerve at hip and thigh level, right leg, sequela
S7412XA	Injury of femoral nerve at hip and thigh level, left leg, initial encounter

Diagnosis Code	Description
S7412XD	Injury of femoral nerve at hip and thigh level, left leg, subsequent encounter
S7412XS	Injury of femoral nerve at hip and thigh level, left leg, sequela
S7421XA	Injury of cutaneous sensory nerve at hip and high level, right leg, initial encounter
S7421XD	Injury of cutaneous sensory nerve at hip and high level, right leg, subsequent encounter
S7421XS	Injury of cutaneous sensory nerve at hip and high level, right leg, sequela
S7422XA	Injury of cutaneous sensory nerve at hip and thigh level, left leg, initial encounter
S7422XD	Injury of cutaneous sensory nerve at hip and thigh level, left leg, subsequent encounter
S7422XS	Injury of cutaneous sensory nerve at hip and thigh level, left leg, sequela
S748X1A	Injury of other nerves at hip and thigh level, right leg, initial encounter
S748X1D	Injury of other nerves at hip and thigh level, right leg, subsequent encounter
S748X1S	Injury of other nerves at hip and thigh level, right leg, sequela
S748X2A	Injury of other nerves at hip and thigh level, left leg, initial encounter
S748X2D	Injury of other nerves at hip and thigh level, left leg, subsequent encounter
S748X2S	Injury of other nerves at hip and thigh level, left leg, sequela
S7491XA	Injury of unspecified nerve at hip and thigh level, right leg, initial encounter
S7491XD	Injury of unspecified nerve at hip and thigh level, right leg, subsequent encounter
S7491XS	Injury of unspecified nerve at hip and thigh level, right leg, sequela
S7492XA	Injury of unspecified nerve at hip and thigh level, left leg, initial encounter
S7492XD	Injury of unspecified nerve at hip and thigh level, left leg, subsequent encounter
S7492XS	Injury of unspecified nerve at hip and thigh level, left leg, sequela
S8401XA	Injury of tibial nerve at lower leg level, right leg, initial encounter
S8401XD	Injury of tibial nerve at lower leg level, right leg, subsequent encounter
S8401XS	Injury of tibial nerve at lower leg level, right leg, sequela
S8402XA	Injury of tibial nerve at lower leg level, left leg, initial encounter
S8402XD	Injury of tibial nerve at lower leg level, left leg, subsequent encounter
S8402XS	Injury of tibial nerve at lower leg level, left leg, sequela
S8411XA	Injury of peroneal nerve at lower leg level, right leg, initial encounter
S8411XD	Injury of peroneal nerve at lower leg level, right leg, subsequent encounter
S8411XS	Injury of peroneal nerve at lower leg level, right leg, sequela
S8412XA	Injury of peroneal nerve at lower leg level, left leg, initial encounter
S8412XD	Injury of peroneal nerve at lower leg level, left leg, subsequent encounter
S8412XS	Injury of peroneal nerve at lower leg level, left leg, sequela
S8421XA	Injury of cutaneous sensory nerve at lower leg level, right leg, initial encounter
S8421XD	Injury of cutaneous sensory nerve at lower leg level, right leg, subsequent encounter
S8421XS	Injury of cutaneous sensory nerve at lower leg level, right leg, sequela
S8422XA	Injury of cutaneous sensory nerve at lower leg level, left leg, initial encounter
S8422XD	Injury of cutaneous sensory nerve at lower leg level, left leg, subsequent encounter

Diagnosis Code	Description
S8422XS	Injury of cutaneous sensory nerve at lower leg level, left leg, sequela
S84801A	Injury of other nerves at lower leg level, right leg, initial encounter
S84801D	Injury of other nerves at lower leg level, right leg, subsequent encounter
S84801S	Injury of other nerves at lower leg level, right leg, sequela
S84802A	Injury of other nerves at lower leg level, left leg, initial encounter
S84802D	Injury of other nerves at lower leg level, left leg, subsequent encounter
S84802S	Injury of other nerves at lower leg level, left leg, sequela
S8491XA	Injury of unspecified nerve at lower leg level, right leg, initial encounter
S8491XD	Injury of unspecified nerve at lower leg level, right leg, subsequent encounter
S8491XS	Injury of unspecified nerve at lower leg level, right leg, sequela
S8492XA	Injury of unspecified nerve at lower leg level, left leg, initial encounter
S8492XD	Injury of unspecified nerve at lower leg level, left leg, subsequent encounter
S8492XS	Injury of unspecified nerve at lower leg level, left leg, sequela
S9421XA	Injury of deep peroneal nerve at ankle and foot level, right leg, initial encounter
S9421XD	Injury of deep peroneal nerve at ankle and foot level, right leg, subsequent encounter
S9421XS	Injury of deep peroneal nerve at ankle and foot level, right leg, sequela
S9422XA	Injury of deep peroneal nerve at ankle and foot level, left leg, initial encounter
S9422XD	Injury of deep peroneal nerve at ankle and foot level, left leg, subsequent encounter
S9422XS	Injury of deep peroneal nerve at ankle and foot level, left leg, sequela
S9431XA	Injury of cutaneous sensory nerve at ankle and foot level, right leg, initial encounter
S9431XD	Injury of cutaneous sensory nerve at ankle and foot level, right leg, subsequent encounter
S9431XS	Injury of cutaneous sensory nerve at ankle and foot level, right leg, sequela
S9432XA	Injury of cutaneous sensory nerve at ankle and foot level, left leg, initial encounter
S9432XD	Injury of cutaneous sensory nerve at ankle and foot level, left leg, subsequent encounter
S9432XS	Injury of cutaneous sensory nerve at ankle and foot level, left leg, sequela
S948X1A	Injury of other nerves at ankle and foot level, right leg, initial encounter
S948X1D	Injury of other nerves at ankle and foot level, right leg, subsequent encounter
S948X1S	Injury of other nerves at ankle and foot level, right leg, sequela
S948X2A	Injury of other nerves at ankle and foot level, left leg, initial encounter
S948X2D	Injury of other nerves at ankle and foot level, left leg, subsequent encounter
S948X2S	Injury of other nerves at ankle and foot level, left leg, sequela
S948X9D	Injury of other nerves at ankle and foot level, unspecified leg, subsequent encounter
S948X9S	Injury of other nerves at ankle and foot level, unspecified leg, sequela
S9490XD	Injury of unspecified nerve at ankle and foot level, unspecified leg, subsequent encounter
S9491XA	Injury of unspecified nerve at ankle and foot level, right leg, initial encounter

Diagnosis Code	Description
S9491XS	Injury of unspecified nerve at ankle and foot level, right leg, sequela
S9492XA	Injury of unspecified nerve at ankle and foot level, left leg, initial encounter
S9492XD	Injury of unspecified nerve at ankle and foot level, left leg, subsequent encounter
S9492XS	Injury of unspecified nerve at ankle and foot level, left leg, sequela
T85840A	Pain due to nervous system prosthetic devices, implants and grafts, initial encounter
T85840D	Pain due to nervous system prosthetic devices, implants and grafts, subsequent encounter
T85840S	Pain due to nervous system prosthetic devices, implants and grafts, sequela

The electrodiagnostic testing must be guided by accepted practice parameters and physician guidelines. The number of studies performed is expected to be tailored to the clinical findings of the individual client.

Any electrodiagnostic testing procedures may be reimbursed up to four distinct dates of service per calendar year by the same provider.

Any evaluation and management service will be denied as part of another service when billed for the same date of service as EMG or NCS service by the same provider.

31.2.19.2.1 EMG

The needle EMG examination must be performed by a physician specially trained in electrodiagnostic medicine.

The following procedure codes may be reimbursed for one service per day for each procedure by the same provider:

Procedure Codes				
51784	51785	95860	95861	95863
95864	95865	95867	95868	95869
95872	95875			

Procedure code 95866 may be reimbursed up to two services per day, same provider.

Procedure code 95870 may be reimbursed in multiple quantities of up to four services per day, if specific muscles are documented.

31.2.19.2.2 NCS

NCS must be performed by a physician or a trained individual under the direct supervision of a physician. Direct supervision means that the physician is in close physical proximity to the electrodiagnostic laboratory while testing is underway, immediately available to provide the trained individual with assistance and direction, and responsible for selecting the appropriate NCS to be performed.

When the same studies are performed on unique sites by the same provider for the same date of service, studies for the first site must be billed without a modifier and studies for each additional site must be billed with modifier XE, XP, XS, XU, or 59. Modifier 59 should be used only when modifier XE, XP, XS, or XU is not appropriate.

Procedure codes 95907, 95908, 95909, 95910, 95911, 95912, and 95913 may be reimbursed only once when multiple sites on the same nerve are stimulated or recorded.

Procedure codes 95885 and 95886 may be reimbursed once per extremity up to 4 units, any combination of procedure codes, per day, by any provider.

Procedure codes 95885, 95886, and 95887 must be billed with one of the primary procedure codes 95907, 95908, 95909, 95910, 95911, 95912, or 95913.

Prior authorization is required for NCS for any diagnosis other than those listed above or when the anticipated number of studies planned for an evaluation exceeds the maximum number of studies, per date of service, by the same provider:

NCS Procedure Code	Studies Allowed per Date of Service
95937	3

Claims for nerve conduction studies that are denied for exceeding the maximum number of studies allowed per day may be appealed with documentation of medical necessity.

Requests must include documentation supporting medical necessity for the number of studies requested, and they must be received on or before the requested DOS.

Medical record documentation must establish medical necessity for any additional studies, including one or more of the following:

- Other diagnoses in the differential requires consideration. The provider must identify both of the additional diagnoses considered and the clinical signs, symptoms, or electrodiagnostic findings that necessitated the inclusion.
- Multiple diagnoses are established by NCS, and the limitations listed above for a single diagnostic category do not apply. Providers must document all diagnoses established as a result of electrodiagnostic testing.
- Testing of an asymptomatic contralateral limb to establish normative values for an individual client (particularly the elderly, diabetic, and clients with a history of ethyl alcohol usage) has been conducted.
- Comorbid clinical conditions are identified. The clinical condition must be one that may cause sensory or motor symptoms. Some examples include underlying metabolic disease (e.g., thyroid condition or diabetes mellitus), nutritional deficiency (alcoholism), malignant disease, or inflammatory disorder (including, but not limited to, lupus, sarcoidosis, or Sjögren's syndrome).

NCS prior authorization requests must be submitted by the ordering provider on the [CSHCN Services Program Authorization and Prior Authorization Request Form](#). The form must be signed and dated by the ordering provider.

Note: *An APRN or a physician assistant (PA) may sign all documentation related to the provision of evoked response tests and neuromuscular procedures on behalf of the client's physician when the physician delegates this authority to the APRN or PA. The APRN or PA provider's signature and license number must appear on the forms where the physician signature and license number blocks are required.*

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

31.2.19.3 Evoked Potential Procedures

Evoked potential (EP) procedures are a benefit of the CSHCN Services Program. The most common EP procedures are:

- Brainstem auditory evoked potentials (BAEPs)
- Motor evoked potentials (MEPs)
- Somatosensory evoked potentials (SEPs)
- Visual evoked potentials (VEPs)

Each EP test (procedure codes 92585, 92586, 95925, 95926, 95927, 95928, 95929, 95930, 95938, or 95939) is considered a bilateral procedure and is limited to once per date of service any provider regardless of modifiers that indicate multiple sites were tested.

EP tests may be reimbursed up to four services per rolling year, any combination of services by any provider. Claims that exceed the limitation of four services per rolling year may be considered for reimbursement on appeal with documentation that supports the medical necessity.

31.2.19.3.1 Intraoperative Neurophysiology Monitoring

Intraoperative neurophysiology monitoring (procedure codes 95940 and 95941) are a benefit when performed in addition to each evoked potential test on the same day.

The documentation for the intraoperative neurophysiology testing must include the time for which each test is performed.

Procedure code 95940 and 95941 are limited to a maximum of two hours per date of service, per client, any provider.

Procedure code 95940 and 95941 must be billed in conjunction with one of the following procedure codes or the service will be denied:

Procedure Codes				
92585	95822	95860	95861	95863
95864	95865	95866	95867	95868
95869	95870	95907	95908	95909
95910	95911	95912	95913	95925
95926	95927	95928	95929	95930
95933	95937	95938	95939	

Procedure codes 95940 and 95941 cannot be reported by the surgeon or anesthesiologist.

31.2.19.4 Motion Analysis Studies

MA studies (procedure codes 96000, 96001, 96002, and 96003) will be considered for reimbursement through the CSHCN Services Program with prior authorization for clients who are 3 through 20 years of age and have a diagnosis of, but not limited to, cerebral palsy.

Prior authorization requests for MA studies must include documentation with the following information that indicates the client meets all the requirements for MA studies:

- Diagnosis of cerebral palsy
- Ambulatory for a minimum of ten consecutive steps, with or without assistive devices
- Client is 3 through 20 years of age
- Physically able to tolerate up to three hours of testing
- Clear documentation that indicates the study is performed as part of a preoperative or postoperative assessment based on the surgical plan of the client

Procedure codes 96000, 96001, 96002, and 96003 are limited to one per date of service by the same provider and two per year, any provider.

Prior authorization requests for a diagnosis other than cerebral palsy or for more than two MA studies per year must be referred for medical review by the CSHCN Services Program Medical Director or designee for consideration.

Providers must complete the [CSHCN Services Program Authorization and Prior Authorization Request Form](#) for MA studies prior authorization requests.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

31.2.19.5 Prior Authorization for Unlisted Procedure Code 95999

Prior authorization is required for unlisted neurological procedure code 95999; the following information is required to determine coverage:

- The client’s diagnosis
- A clear description of the neurological procedure that will be performed
- Documentation that indicates medical necessity of the neurological procedure
- Place of service where the neurological procedure is to be performed
- The physician’s intended fee for the neurological procedure being requested or a CPT or HCPCS procedure code that is comparable to the procedure.

Providers must complete the [CSHCN Services Program Authorization and Prior Authorization Request Form](#) for prior authorization requests.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

31.2.20 Extracorporeal Shock Wave Lithotripsy (ESWL)

Procedure code 50590 is a benefit for the following diagnosis codes:

Diagnosis Code	Description
N131	Hydronephrosis with ureteral stricture, not elsewhere classified
N132	Hydronephrosis with renal and ureteral calculous obstruction
N1330	Unspecified hydronephrosis
N1339	Other hydronephrosis
N200	Calculus of kidney
N201	Calculus of ureter
N202	Calculus of kidney with calculus of ureter
N209	Urinary calculus, unspecified
N219	Calculus of lower urinary tract, unspecified
N22	Calculus of urinary tract in diseases classified elsewhere

All claims received for ESWL must include one of these diagnoses.

31.2.21 Gastrostomy Devices

Low-profile gastrostomy devices are a benefit of the CSHCN Services Program when prescribed by a physician. Authorization is required.

Physicians may be reimbursed for nonobturated and obturated gastrostomy devices.

Referto: Section 18.2.4.1, “Gastrostomy Devices” in Chapter 18, “Expendable Medical Supplies” for more information about documentation requirements, limitations, and additional devices.

Chapter 18, "Expendable Medical Supplies" for more information about related supplies and equipment.

Section 4.2, “Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about authorization requirements.

31.2.22 Genetics

Genetic services are a benefit of the CSHCN Services Program.

Genetic services may be used to diagnose a condition, optimize disease treatment, predict future disease risk, and prevent adverse drug response.

Genetic services may be provided by a physician and typically include one or more of the following:

- Comprehensive physical exams
- Diagnosis, management, and treatment for clients with genetically-related health problems
- Evaluation of family histories for the client and the client’s family members
- Genetic risk assessment
- Interpretation and evaluation of laboratory test results
- Education and counseling of clients, their families, and other medical professionals on the causes of genetic disorders
- Consultation with other medical professionals to provide treatment

The following procedure codes may be reimbursed for geneticists when provided in the office, inpatient hospital, or outpatient hospital setting:

Procedure Codes				
96040	99213	99214	99215	99244
99245	99254	99255	99402	99404

Consultation, procedure codes 99244, 99245, and 99404, are limited to once every 3 years. One office consultation (procedure codes 99244 or 99245) may be reimbursed if an office/outpatient/inpatient consultation has not been reimbursed in the previous 3 years.

Inpatient consultations (procedure codes 99254 and 99255) may be reimbursed once every 3 years regardless of whether an office consultation was reimbursed in the previous 3 years.

A comprehensive follow up visit (procedure code 99215) is limited to once per year.

No authorization is required for genetic services that are a benefit of the CSHCN Services Program.

31.2.22.1 Family History

It is important for primary care providers to recognize potential genetic risk factors in a client so that they can make appropriate referrals to a genetic specialist.

Obtaining an accurate family history is an important part of clinical evaluations, even when genetic abnormalities are not suspected. Knowing the family history may help health-care providers identify single-gene disorders or chromosomal abnormalities that occur in multiple family members or through multiple generations. Some genetic disorders that can be traced through an accurate family history include diabetes, hypertension, certain forms of cancer, and cystic fibrosis. Early identification of the client’s risk for one of these diseases can lead to early intervention and preventive measures that can delay onset or improve health conditions.

Using a genetics-specific questionnaire helps to obtain the information needed to identify possible genetic patterns or disorders. The most commonly used questionnaires are provided by the American Medical Association and include the “Prenatal Screening Questionnaire,” the “Pediatric Clinical Genetics Questionnaire,” and the “Adult History Form.”

31.2.22.2 Genetic Tests

Diagnostic tests to check for genetic abnormalities must be performed only if the test results will affect treatment decisions or provide prognostic information. Tests for conditions that are treated symptomatically are not appropriate since the treatment would not change. Providers who are uncertain whether a test is appropriate are encouraged to contact a geneticist or other specialist to discuss the client’s needs.

Any genetic testing and screening procedure must be accompanied by appropriate nondirective counseling, both before and after the procedure. Information must be provided to the client and family (if appropriate) about the possible risks and purpose and nature of the tests being performed.

Providers who are uncertain whether a test is appropriate are encouraged to contact a geneticist or other specialist to confer about the client and his or her needs.

The interpretation of certain tests, such as nuchal translucency, requires additional education and experience. The CSHCN Services Program supports national certification standards when available.

31.2.22.3 Laboratory Practices

For many heritable diseases and conditions, test performance and interpretation of test results require information about client race and ethnicity, family history, and other pertinent clinical and laboratory information. To facilitate test requests and ensure prompt initiation of appropriate testing procedures and accurate interpretation of test results, the requesting provider must be aware of the specific client information needed by the laboratory before tests are ordered.

To help providers make appropriate test selections and requests, handle and submit specimens, and provide clinical care, laboratories that perform molecular genetic testing for heritable diseases and conditions must educate providers that request services about the molecular genetic tests that the laboratory performs. For each molecular genetic test, the laboratory must provide the following information:

- Indications for testing
- Relevant clinical and laboratory information
- Client race and ethnicity
- Family history
- Pedigree

Testing performed on a client to provide genetic information for a family member, and testing performed on a non-CSHCN Services Program client to provide genetic information for a CSHCN Services Program client are not benefits of the CSHCN Services Program.

31.2.22.4 Genetic Counselors

Genetic counselor services may be billed by a physician when the genetic counselor is an employee of the physician. Services provided by independent genetic counselors are not a benefit of the CSHCN Services Program.

Referto: Section 25.2.5.2, “Cytogenetics Testing” in Chapter 25, “Laboratory Services” for more information on cytogenetic testing.

31.2.23 Hyperbaric Oxygen Therapy (HBOT)

Hyperbaric oxygen therapy is a type of treatment that increases the environmental oxygen pressure to promote the movement of oxygen from the environment into the client's body tissues. HBOT is a benefit when it is performed in specially constructed hyperbaric chambers, pressurized to 1.4 atmospheric absolute (atm.abs) or higher, that may hold one or several clients.

The CSHCN Services Program recognizes the following indications for HBOT, as approved by the Undersea & Hyperbaric Medical Society (UHMS):

- Air or gas embolism
- Carbon monoxide poisoning
- Central retinal artery occlusion
- Compromised skin grafts and flaps
- Crush injuries, compartment syndrome, and other acute traumatic ischemias
- Decompression sickness
- Diabetic foot ulcer
- Severe anemia
- Clostridial myositis and myonecrosis (gas gangrene)
- Necrotizing soft tissue infections
- Delayed radiation injury (soft tissue and bony necrosis)
- Refractory osteomyelitis
- Acute thermal burn injury
- Intracranial abscess

CSHCN Services Program considers HBOT experimental and investigational for any indications other than the ones approved by UHMS and outlined in this section. Non-covered indications, include, but are not limited to, autism and traumatic brain injury.

Oxygen administered outside of a hyperbaric chamber, by any means, is not considered hyperbaric treatment.

HBOT services must be provided in facilities that have experience in HBOT treatment of pediatric clients. The physician must be in constant attendance of hyperbaric oxygen therapy during compression and decompression of the chamber, and may not delegate this service.

Both the facility's medical record and the client's medical record must contain documentation to support that there was a physician in attendance who provided supervision of the compression and decompression phases of the HBOT treatment. All documentation pertaining to HBOT is subject to retrospective review.

Physicians who bill for the professional component of HBOT must use procedure code 99183.

Hospital providers who bill for the chamber time must use procedure code G0277 with revenue code 413.

31.2.23.1 Prior Authorization Requirements

HBOT procedure codes 99183 and G0277 require prior authorization. When requesting prior authorization, providers should use the [CSHCN Services Program Authorization and Prior Authorization Request Form](#).

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

The prior authorization request must include documentation that supports medical necessity and is specific to each appropriate covered indication as listed in the following table:

Covered Indication	Total Number of 30 Minute Intervals Allowed for Procedure Code G0277	Total Number of Professional Sessions Allowed for Procedure Code 99183	Medical Necessity Documentation of the Following is Required
Air or gas embolism	6	2	Evidence that gas bubbles are detectable by ultrasound, Doppler or other diagnostics
Carbon monoxide poisoning - initial authorization	15	5	Persistent neurological dysfunction secondary to carbon monoxide inhalation
Carbon monoxide poisoning - one subsequent authorization	9	3	Evidence of continuing improvement in cognitive functioning
Central retinal artery occlusion	36	6	Evidence of central retinal artery occlusion with treatment initiated within 24 hours of the occlusion
Compromised skin grafts and flaps - initial authorization	80	10	Evidence the flap or graft is failing because tissue is/has been compromised by irradiation or there is decreased perfusion or hypoxia
Compromised skin grafts and flaps - one subsequent authorization	40	5	Evidence of stabilization of graft or flap
Crush injury, compartment syndrome and other acute traumatic ischemias	36	12	Adjunct to standard medical and surgical interventions
Decompression sickness	28	1	Diagnosis based on signs and/or symptoms of decompression sickness after a dive or altitude exposure
Diabetic foot ulcer -initial authorization	60	30	After at least 30 days of standard medical wound therapy, with a wound pO ₂ less than 40 mmHg AND wound classified as Wagner grade 3 or higher. *
Diabetic foot ulcer - two subsequent authorizations	60	20	Evidence of continuing healing and wound pO ₂ less than 40 mmHg
<p>*Note: The following Wagner wound classification grades apply only to the diabetic foot ulcer indications:</p> <ul style="list-style-type: none"> • Grade 1: Superficial diabetic ulcer • Grade 2: Ulcer extension - involves ligament, tendon, joint capsule or fascia (No abscess or osteomyelitis) • Grade 3: Deep ulcer with abscess or osteomyelitis • Grade 4: Gangrene to portion of forefoot • Grade 5: Extensive gangrene of foot 			

Covered Indication	Total Number of 30 Minute Intervals Allowed for Procedure Code G0277	Total Number of Professional Sessions Allowed for Procedure Code 99183	Medical Necessity Documentation of the Following is Required
Severe anemia	50	10	Hgb less than 6.0 sustained secondary to hemorrhage, hemolysis, or aplasia, when the client is unable to be cross matched or refuses transfusion because of religious beliefs
Clostridial myositis and myonecrosis (gas gangrene)	39	13	Evidence of unsuccessful medical and/or surgical wound treatment and positive Gram-stained smear of the wound fluid
Necrotizing soft tissue infections – initial authorization	36	12	Evidence of unsatisfactory response to standard medical and surgical treatment and advancement of dying tissue
Necrotizing soft tissue infections - two subsequent authorizations	15	5	Evidence that advancement of dying tissue has slowed
Delayed radiation injury (soft tissue and bony necrosis) - initial authorization	40	10	Evidence of unsatisfactory response to conventional treatment
Delayed radiation injury - one subsequent authorization	40	10	Evidence of improvement demonstrated by clinical response
Refractory osteomyelitis - initial authorization	40	10	Evidence of unsatisfactory clinical response to conventional multidisciplinary treatment
Refractory osteomyelitis - one subsequent authorization	15	5	Evidence of improvement demonstrated by clinical response
Acute thermal burn injury - initial authorization	45	15	Partial or full thickness burns covering greater than 20% of total body surface area OR with involvement of the hands, face, feet or perineum
Acute thermal burn injury – three subsequent authorizations	30	10	Evidence of continuing improvement demonstrated by clinical response
<p>*Note: The following Wagner wound classification grades apply only to the diabetic foot ulcer indications:</p> <ul style="list-style-type: none"> • Grade 1: Superficial diabetic ulcer • Grade 2: Ulcer extension - involves ligament, tendon, joint capsule or fascia (No abscess or osteomyelitis) • Grade 3: Deep ulcer with abscess or osteomyelitis • Grade 4: Gangrene to portion of forefoot • Grade 5: Extensive gangrene of foot 			

Covered Indication	Total Number of 30 Minute Intervals Allowed for Procedure Code G0277	Total Number of Professional Sessions Allowed for Procedure Code 99183	Medical Necessity Documentation of the Following is Required
Intracranial abscess - initial authorization	15	5	Adjunct to standard medical and surgical interventions when one or more of the following conditions exist: <ul style="list-style-type: none"> • Multiple abscesses • Abscesses in a deep or dominant location • Compromised host • Surgery contraindicated or client is a poor surgical risk
Intracranial abscess - one subsequent authorization	15	5	Evidence of improvement demonstrated by clinical response and radiological findings
<p>*Note: The following Wagner wound classification grades apply only to the diabetic foot ulcer indications:</p> <ul style="list-style-type: none"> • Grade 1: Superficial diabetic ulcer • Grade 2: Ulcer extension - involves ligament, tendon, joint capsule or fascia (No abscess or osteomyelitis) • Grade 3: Deep ulcer with abscess or osteomyelitis • Grade 4: Gangrene to portion of forefoot • Grade 5: Extensive gangrene of foot 			

Procedure code 99183 is authorized according to the number of professional sessions (total HBOT treatments), and procedure code G0277 is authorized according to the number of 30-minute intervals of chamber time. The units in the columns for procedure codes 99183 and G0277 represent the maximum number of sessions and intervals that are allowed for that procedure code per authorization

Example: In accordance with recommended protocols, a client with an air/gas embolus may receive up to 6 units (180 minutes) of HBOT over two treatments.

- One prior authorization number may be issued for a quantity of 6 units for procedure code G0277 for the facility and 2 professional sessions for procedure code 99183.
- The 6 units of chamber time for procedure code G0277 may be divided in any manner across the two professional sessions. For procedure code 99183, the usual protocol is two 90-minute treatments.
- The facility bills 90 consecutive minutes (3 units) per HBOT treatment for procedure code G0277. The physician bills per treatment, which in this case would be 2 professional sessions for procedure code 99183.

Limitations beyond those listed in the table above are considered experimental and investigational.

31.2.24 Immunizations (Vaccines and Toxoids)

The CSHCN Services Program may reimburse for immunizations administered to program-eligible clients and encourages all providers to appropriately immunize clients. Immunizations must be provided in accordance with the routine immunization schedules developed by the Advisory Committee on Immunization Practices (ACIP) and approved by the Centers for Disease Control and Prevention (CDC). All routine immunizations, pneumococcal vaccines, influenza vaccines, and selected other vaccines and toxoids are benefits of the CSHCN Services Program. Providers may refer to the CDC website at www.cdc.gov/vaccines/default.htm for additional information.

31.2.24.1 Texas Vaccines for Children (TVFC) Program

Providers can enroll in the TVFC Program to obtain vaccines and toxoids at no charge. The CSHCN Services Program encourages providers to participate in the TVFC Program, but it is not a requirement. Providers interested in obtaining current immunization information or enrollment information for the TVFC Program may call the Department of State Health Services (DSHS) Immunizations Branch at 1-800-252-9152 or access the TVFC website at www.dshs.texas.gov/immunize/tvfc/.

If the provider is enrolled in TVFC, the provider is responsible for screening the client, determining if the client is TVFC eligible, and, if indicated, immunizing the client using vaccine obtained by TVFC.

31.2.24.2 Reporting

31.2.24.2.1 DSHS

All administered vaccines and toxoids must be reported to DSHS by all providers and payers. DSHS submits all vaccines and toxoids reported with parental consent to a centralized repository of immunization histories for children 17 years of age or younger. This repository is known in Texas as ImmTrac.

31.2.24.2.2 Vaccine Adverse Event Reporting System (VAERS)

The *National Childhood Vaccine Injury Act* (NCVIA) requires health-care providers to report any reaction listed by the vaccine manufacturer as a contraindication to subsequent doses of the vaccine as well as any reaction listed in the Reportable Events Table that occurs within the specified time period after vaccination.

A copy of the Reportable Events Table can be obtained by calling VAERS at 1-800-822-7967 or by downloading it from <http://vaers.hhs.gov/resources/vaersmaterialspublications>.

Clinically-significant adverse events should be reported even if it is unclear whether a vaccine caused the event.

Documentation of the injection site is recommended, but not required. For additional information regarding documentation, providers can refer to www.vaers.hhs.gov/esub/index and www.cdc.gov/vaccinesafety/.

31.2.24.3 Assessment

All providers must assess the immunization status of the client at every encounter and administer any medically indicated immunizations unless they are medically contraindicated or because of a parent's reason of conscience, including a religious belief. The reason that the indicated vaccine or toxoid was not administered must be documented in the client's medical record.

31.2.24.4 Vaccine Information Statement

Providers must provide clients the appropriate vaccine information statements (VISs) produced by the CDC. VISs explain the benefits and risks of the vaccine or toxoid. Providers must document the following information in the client's medical record:

- The vaccine or toxoid given
- The date of the vaccine or toxoid administration (day, month, year)
- The name of the vaccine or toxoid manufacturer and the vaccine or toxoid lot number
- The signature and title of the person who administered the vaccine or toxoid
- The provider's organization name and the address of the clinic location
- The publication date of the VIS issued to the client, parent, or guardian

The client's medical records are subject to retrospective review to determine whether the utilization and reimbursement of this service was appropriate.

31.2.24.5 Authorization Requirements

Authorization is not required for any vaccine, toxoid, or its associated administration fee.

31.2.24.6 Immunizations During an Office Visit

When a client is immunized during an initial or follow-up office visit for a medical condition, the office visit may be reimbursed in addition to any vaccine or toxoid not obtained through TVFC and its administration fee. An appropriate medical diagnosis must be submitted with the claim.

When the client visit is only for immunization, the office visit will not be reimbursed. The administration fee and any vaccine or toxoid not obtained through TVFC (identified by modifier U4) may be reimbursed when diagnosis code Z23 (encounter for immunization) and the appropriate procedure code referencing an immunization is submitted with the claim.

31.2.24.7 Administration Fee

Vaccine and toxoid administration fees may be reimbursed based on the following:

- If counseling was provided for the immunization
- The age of the client
- The number of components identified in the immunization

The administration fee may be reimbursed even if the vaccine or toxoid is distributed through TVFC. Providers are expected to follow the ACIP recommendations for the administration of vaccines and toxoids.

Procedure codes 90460 and 90461 are benefits for services rendered to clients who are 18 years of age and younger when counseling is provided for the immunization administered.

Procedure codes 90471, 90472, 90473, and 90474 are benefits for services rendered to clients of any age when counseling is not provided for the immunization administered.

31.2.24.8 Administration Fee Billing Examples

Each vaccine or toxoid and its administration must be submitted on the claim in the following sequence: the vaccine procedure code immediately followed by the applicable immunization administration procedure code(s). All of the immunization administration procedure codes that correspond to a single vaccine or toxoid procedure code must be submitted on the same claim as the vaccine or toxoid procedure code.

Each vaccine or toxoid procedure code must be submitted with the appropriate “administration with counseling” procedure code(s) (procedure codes 90460 and 90461) or the most appropriate “administration without counseling” procedure code (procedure code 90471, 90472, 90473, or 90474). If an “administration with counseling” procedure code is submitted with an “administration without counseling” procedure code for the same vaccine or toxoid, the second administration of the vaccine or toxoid will be denied, based on the claim order.

***Note:** If a claim includes both “with counseling” and “without counseling” administration procedure codes, providers should follow National Correct Coding Initiative (NCCI) guidelines to determine which administration procedure codes to submit.*

31.2.24.8.1 Administration With Counseling

Providers must submit claims for immunization administration procedure codes 90460 or 90461 based on the number of components per vaccine. Providers must specify the number of components per vaccine by billing 90460 and 90461 as defined by the procedure code descriptions:

- Procedure code 90460 is submitted for the administration of the 1st component.
- Procedure code 90461 is submitted for the administration of each additional component identified in the vaccine.

Procedure code 90461 will be denied if procedure code 90460 has not been submitted on the same claim for the same vaccine or toxoid.

The necessary counseling that is conducted by a physician or other qualified health-care professional must be documented in the client's medical record.

The following is an example of how to submit claims for immunization administration procedure codes when counseling is provided:

Procedure Code	Quantity Billed
Vaccine or toxoid procedure code with 1 component	1
90460 (1st component)	1
Vaccine or toxoid procedure code with 3 components	1
90460 (1st component)	1
90461 (2nd and 3rd components)	2
Vaccine or toxoid procedure code with 2 components	1
90460 (1st component)	1
90461 (2nd component)	1
Vaccine or toxoid procedure code with 4 components	1
90460 (1st component)	1
90461 (2nd, 3rd, and 4th components)	3
Vaccine or toxoid procedure code with 5 components	1
90460 (1st component)	1
90461 (2nd, 3rd, 4th, and 5th components)	4

Note: The term "components" refers to the number of antigens that prevent disease(s) caused by one organism. Combination vaccines are those that contain multiple vaccine components.

31.2.24.8.2 Administration Without Counseling

Procedure codes 90471, 90472, 90473, and 90474 may be reimbursed per vaccine based on the rout of administration.

The following is an example of how to submit claims for injection administration procedure codes when counseling is not provided:

Procedure Code	Quantity Billed
Vaccine or toxoid procedure code	1
90471 (Injection administration)	1
Vaccine or toxoid procedure code	1
90472 (Injection administration)	1
Vaccine or toxoid procedure code	1
90472 (Injection administration)	1

The following is an example of how to submit claims for oral or nasal administration procedure codes when counseling is not provided:

Procedure Code	Quantity Billed
Vaccine or toxoid procedure code	1
90473 (Oral/nasal administration)	1

Procedure Code	Quantity Billed
Vaccine or toxoid procedure code	1
90474 (Oral/nasal administration)	1

31.2.24.9 Vaccine and Toxoid Procedure Codes

The vaccines and toxoids listed in the following table are benefits of the CSHCN Services Program:

Procedure Code	Number of Components**	Procedure Code	Number of Components**
90620*	1	90681*	1
90621*	1	90685*	1
90630	1	90686*	1
90632	1	90687*	1
90633*	1	90688*	1
90636	2	90696*	4
90644	2	90698*	5
90647*	1	90700*	3
90648*	1	90702*	2
90649*	1	90707*	3
90650*	1	90710*	4
90651*	1	90713*	1
90654	1	90714*	2
90655*	1	90715*	3
90656*	1	90716*	1
90657*	1	90723*	5
90658*	1	90732*	1
90660*	1	90733	1
90661	1	90734*	1
90662	1	90736	1
90670*	1	90743	1
90672*	1	90744*	1
90673	1	90746	1
90674	1	90748*	2
90680*	1	90749	1

* Distributed through TVFC.

** The number of components applies if counseling is provided and procedure codes 90460 and 90461 are submitted

Claims must be submitted with the appropriate vaccine and toxoid procedure code and the appropriate administration procedure code(s). All immunizations must be reported with diagnosis code Z23 (encounter for immunization). The type of immunization given will be identified by the procedure code.

If the vaccine or toxoid is obtained from TVFC, the appropriate diagnosis codes, administration procedure codes, and the vaccine or toxoid procedure code(s) must be billed, but only the administration fee may be reimbursed.

Vaccines and toxoids that are purchased by a provider may be reimbursed if modifier U4 is billed with the vaccine or toxoid and one of the following conditions is met:

- The provider is not enrolled in TVFC.
- The client does not meet the TVFC criteria.
- TVFC resolutions do not match the ACIP's general usage recommendations.
- The provider purchases an ACIP-recommended vaccine that is not distributed by TVFC.

The following immunizations are not a benefit of the CSHCN Services Program:

- Cholera vaccine, injectable
- Plague vaccine, intramuscular (IM)
- Typhoid vaccines
- Yellow fever vaccine, subcutaneous (SC)

31.2.24.10 Reimbursement for Vaccines and Toxoids

Vaccines and toxoids and their administration may be reimbursed if they have been recommended by the ACIP and approved by the Health and Human Services Commission (HHSC).

Providers purchasing vaccines and toxoids may be reimbursed the lower of the billed amount for the vaccine, the amount allowed by Texas Medicaid, or the maximum fee established by the CSHCN Services Program. The maximum fee is determined from the least average wholesale price (AWP) per vaccine dose according to the current edition of the *Red Book*, published by Thomson Reuters. An online version of the *Red Book* is available at <http://redbook.solutions.aap.org/redbook.aspx/>.

31.2.24.11 Bacille Calmette-Guerin (BCG) Vaccine

BCG vaccine (procedure code 90585) is a benefit of the CSHCN Services Program for diagnosis code Z23.

31.2.24.12 Botulinum Antitoxin

Procedure code 90287 is a benefit of the CSHCN Services Program for diagnosis code A051 (botulism food poisoning), A4851 (infant botulism), A4852 (wound botulism), or one of the following diagnosis codes for botulinum overdose or misinjection:

Diagnosis Code	Description
T50901A	Poisoning by unspecified drugs, medicaments and biological substances, accidental (unintentional), initial encounter
T50901D	Poisoning by unspecified drugs, medicaments and biological substances, accidental (unintentional), subsequent encounter
T50901S	Poisoning by unspecified drugs, medicaments and biological substances, accidental (unintentional), sequela
T50902A	Poisoning by unspecified drugs, medicaments and biological substances, intentional self-harm, initial encounter
T50902D	Poisoning by unspecified drugs, medicaments and biological substances, intentional self-harm, subsequent encounter
T50902S	Poisoning by unspecified drugs, medicaments and biological substances, intentional self-harm, sequela
T50903A	Poisoning by unspecified drugs, medicaments and biological substances, assault, initial encounter

Diagnosis Code	Description
T50903D	Poisoning by unspecified drugs, medicaments and biological substances, assault, subsequent encounter
T50903S	Poisoning by unspecified drugs, medicaments and biological substances, assault, sequela
T50904A	Poisoning by unspecified drugs, medicaments and biological substances, undetermined, initial encounter
T50904D	Poisoning by unspecified drugs, medicaments and biological substances, undetermined, subsequent encounter
T50904S	Poisoning by unspecified drugs, medicaments and biological substances, undetermined, sequela
T50991A	Poisoning by other drugs, medicaments and biological substances, accidental (unintentional), initial encounter
T50991D	Poisoning by other drugs, medicaments and biological substances, accidental (unintentional), subsequent encounter
T50991S	Poisoning by other drugs, medicaments and biological substances, accidental (unintentional), sequela
T50992A	Poisoning by other drugs, medicaments and biological substances, intentional self-harm, initial encounter
T50992D	Poisoning by other drugs, medicaments and biological substances, intentional self-harm, subsequent encounter
T50992S	Poisoning by other drugs, medicaments and biological substances, intentional self-harm, sequela
T50993A	Poisoning by other drugs, medicaments and biological substances, assault, initial encounter
T50993D	Poisoning by other drugs, medicaments and biological substances, assault, subsequent encounter
T50993S	Poisoning by other drugs, medicaments and biological substances, assault, sequela
T50994A	Poisoning by other drugs, medicaments and biological substances, undetermined, initial encounter
T50994D	Poisoning by other drugs, medicaments and biological substances, undetermined, subsequent encounter
T50994S	Poisoning by other drugs, medicaments and biological substances, undetermined, sequela
T50Z91A	Poisoning by other vaccines and biological substances, accidental (unintentional), initial encounter
T50Z91D	Poisoning by other vaccines and biological substances, accidental (unintentional), subsequent encounter
T50Z91S	Poisoning by other vaccines and biological substances, accidental (unintentional), sequela
T50Z92A	Poisoning by other vaccines and biological substances, intentional self-harm, initial encounter
T50Z92D	Poisoning by other vaccines and biological substances, intentional self-harm, subsequent encounter
T50Z92S	Poisoning by other vaccines and biological substances, intentional self-harm, sequela
T50Z93A	Poisoning by other vaccines and biological substances, assault, initial encounter
T50Z93D	Poisoning by other vaccines and biological substances, assault, subsequent encounter

Diagnosis Code	Description
T50Z93S	Poisoning by other vaccines and biological substances, assault, sequela
T50Z94A	Poisoning by other vaccines and biological substances, undetermined, initial encounter
T50Z94D	Poisoning by other vaccines and biological substances, undetermined, subsequent encounter
T50Z94S	Poisoning by other vaccines and biological substances, undetermined, sequela

31.2.24.13 Hepatitis B Vaccine

Procedure codes 90740 and 90747 are not considered routine vaccines and must be billed using administration procedure code 96372 or 96374.

31.2.24.14 Rabies Postexposure Prophylaxis

Postexposure prophylaxis for rabies (procedure codes 90375, 90376, and 90675) is a benefit of the CSHCN Services Program.

An exposed person who has never received a complete pre- or postexposure rabies vaccine series will first receive a dose of rabies immune globulin (HRIG). This is a blood product that contains antibodies against rabies and gives immediate, short-term protection. The recommended dose of HRIG is 20 IU/kg body weight. This formula is applicable to all age groups, including children. The injection should be given in or near the wound area.

The postexposure treatment will also include 5 doses of rabies vaccine (1.0 ml. intramuscular). The first dose should be given as soon as possible after the exposure (day 0). Additional doses should be given on days 3, 7, 14, and 28 after the first shot. For an exposed person who has previously been vaccinated with a complete pre- or postexposure vaccine series, 2 doses of rabies vaccine should be given, one on day 0 and one on day 3.

HRIG that is not administered when vaccination begins can be administered up to 7 days after the administration of the first dose of vaccine. Beyond the seventh day, HRIG is not recommended since an antibody response to the vaccine is presumed to have occurred, and HRIG may inhibit the immune response to the vaccine.

Reimbursement for postexposure rabies vaccine is limited to 1 per client, per day, by any provider, not to exceed a total of 5 per 90 rolling days.

Animal bites to people must be reported as soon as possible to the local rabies control authority. Postexposure prophylaxis for rabies is not necessary following exposure to an animal that tests negative for the rabies virus. Health-care providers who determine that their client requires the preventive rabies vaccination series after valid rabies exposure may obtain the biologicals directly from the manufacturer or through one of the DSHS depots around the state. The physician must maintain documentation of the exposure in the client's medical record.

Postexposure rabies treatment is limited to clients with diagnosis code Z203.

Injection administration is a benefit for administration of postexposure rabies vaccine.

31.2.24.15 Respiratory Syncytial Virus (RSV) Prophylaxis

The RSV prophylaxis drug palivizumab (Synagis) must be obtained through the Texas Vendor Drug Program (VDP). Providers must obtain prior authorization through the CSHCN Services Program using the [CSHCN Synagis® Request Form](#).

Providers may refer to the Texas Health and Human Services Commission Texas Vendor Drug Program website at www.txvendordrug.com/pa/rsv for a copy of the prior authorization form and more information about obtaining palivizumab for CSHCN Services Program clients.

31.2.25 Injections and Oral Medications

Oral medication must be used in preference to injectable medication in the office and outpatient hospital unless one of the following circumstances applies:

- No acceptable oral equivalent is available.
- Injectable medication is the standard treatment of choice.
- The oral route is contraindicated.
- The client has a temperature over 102°F (documented on the claim and in the medical record) and a high blood level of antibiotic is needed quickly.
- The client has demonstrated noncompliance with orally prescribed medication (documented on the claim and in the medical record).
- Previously attempted oral medication regimens have proven ineffective and are supported by the medical record.
- An emergency situation occurs.

Claims submitted for antibiotic or steroid injections billed in a physician's office or in the outpatient hospital setting must include modifiers AT, ET, or KX.

Providers dispensing physician-administered drugs in an outpatient setting may utilize an optional delivery method referred to as "white bagging," in which the treating provider submits prescriptions to pharmacies and the prescription is shipped or mailed to the provider's office. Providers must use the following steps for this delivery method:

- 1) The treating provider identifies a CSHCN Services Program-enrolled client.
- 2) The treating provider or treating provider's agent sends a single prescription with no additional refills to a CSHCN Services Program-enrolled pharmacy and obtains any necessary prior authorizations. (The provider must write a new prescription for any additional refills.)
- 3) Once approved, the dispensing pharmacy fills the prescription and overnight ships an individual dose of the medication, in the name of the CSHCN Services Program client, directly to the treating provider. These medications must not be used on any other patient and cannot be returned to the pharmacy for credit.
- 4) The treating provider administers the medication to the CSHCN Services Program client in the office setting. The treating provider bills for an administration fee and any medically necessary service provided at time of administration. The treating provider must not bill the CSHCN Services Program for the drug.

Note: *Providers may perform other services in addition to any evaluation and management during the client's white bagging medication administration visit, such as: administering other medications or immunizations maintained in the office, administering treatments, X-rays, or labs.*

31.2.25.1 Injection Administration Billed by a Physician

Injection administration billed by a physician may be reimbursed separately from the medication. Injection administration must be billed using procedure code 96372. Procedure code 96372 is limited to one per day unless documentation clearly indicates that the medications must not be mixed. Procedure code 96372 may be reimbursed in addition to an E/M or consultation visit. This ensures that each injection receives one administration fee regardless of the dosage.

Most injectable medications may be reimbursed the average wholesale price (AWP) minus 10.5 percent. However, the CSHCN Services Program reserves the option to use other data services when the AWP results have been determined as unreasonable or inefficient.

31.2.25.2 Unit Calculations for Billing Drugs

Providers must calculate the number of units to be billed on the claim based on the number of units indicated in the procedure code description and the amount of the drug actually administered. Providers should refer to the procedure code description for the unit amount to calculate the number of units to be billed.

The formula to calculate the appropriate quantity of units to bill is the amount administered divided by the units indicated in the procedure code description. For example:

Units Indicated in the Description	Amount Administered by the Provider	Calculation	Quantity to Bill on the Claim
50 mg	100 mg	$100/50 = 2$	2 units
per unit	20 units	$20/1 = 20$	20 units
per 100 units	2500 units	$2500/100 = 25$	25 units
per 50 mg	250 mg	$250/50 = 5$	5 units

Claims submitted with incorrect unit calculations may cause delayed or incorrect payment.

The specific National Drug Code (NDC) of the drug actually dispensed should be entered on the claim form.

Referto: Section 5.6.2.4, “National Drug Codes (NDC)” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for more information.

Section 5.6.2.5, “Drug Rebate Program” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for information about the reimbursement of clinician-administered drugs and biologicals

Additional information about NDC code requirements is also available on the NDC page of the TMHP website at www.tmhp.com.

31.2.25.3 Injection Procedure Codes

The following injections are benefits of the CSHCN Services Program and are subject to the indicated limitations:

Name of Injection	Procedure Code(s)	Limitation(s)
Alglucosidase alfa	J0220	Diagnosis limitation: E7400, E7401, E7402, E7403, E7404, E7409
Antithrombin	J7197	Diagnosis limitation: D6851, D6852, D6859, D6861, D6862, D6869
Azacitidine (Vidaza)	J9025	Benefit for clients 13 years of age or older Diagnosis limitations: C9202, C9210, C9212, C9220, C9222, C9232, C9242, C9252, C9262, C9290, C9292, C92A2, C92Z0, C92Z2, C9310, C9312, C9330, C9332, C9502, C9510, C9512, C9592, D460, D461, D4621, D4622, D469, D46A, D46B, D46C, D640, D641, D642, D643 Must be submitted with an 11-digit NDC
Cidofovir	J0740	N/A
(Diagnosis limitations) The procedure code must be billed with one of the codes listed.		

Name of Injection	Procedure Code(s)	Limitation(s)
Clofarabine (Clorar)	J9027	Prior authorization is required using the CSHCN Services Program Authorization and Prior Authorization Request Form . Documentation of the following must be submitted with the prior authorization request form: <ul style="list-style-type: none"> • Refractory or relapsed acute lymphoblastic leukemia (diagnosis code C9100 or C9102) • At least 2 prior failed regimens
Dalteparin sodium	J1645	N/A
Eculizumab	J1300	Diagnosis limitations: D588, D591, D593, D594, D595, D596, D598
Enoxaparin sodium	J1650	N/A
Epoprostenol	J1325	Diagnosis limitation: I270 (primary pulmonary hypertension)
Fondaparinux sodium	J1652	N/A
Granisetron hydrochloride	J1626	Diagnosis limitations: Z510, Z5111, Z5112 The quantity used must appear on the claim.
Ibutilide fumarate	J1742	Diagnosis limitations: I480, I481, I482, I483, I484, I4891
Ixabepilone	J9207	Diagnosis limitations: C50011, C50012, C50019, C50111, C50112, C50119, C50211, C50212, C50219, C50311, C50312, C50319, C50411, C50412, C50419, C50511, C50512, C50519, C50611, C50612, C50619, C50811, C50812, C50819, C50911, C50912, C50919, D0500, D0501, D0502, D0510, D0511, D0512, D0580, D0581, D0582, D0590, D0591, D0592
Lioresal	J0475 J0476	Separate payment for the device is not a benefit for the physician or the hospital.
Natalizumab injection	J2323	Diagnosis limitations: G35, K5000, K50011, K50012, K50013, K50014, K50018, K5010, K50111, K50112, K50113, K50114, K50118, K5080, K50811, K50812, K50813, K50814, K50818, K5090, K50911, K50912, K50913, K50914, K50918, K50919
Porfimer sodium	J9600	Diagnosis limitations: C153, C154, C155, C158, C159, C787, C7880, C7889
Rituximab	J9310	N/A
(Diagnosis limitations) The procedure code must be billed with one of the codes listed.		

Name of Injection	Procedure Code(s)	Limitation(s)
Sumatriptan succinate	J3030	Limited to treatment of classical migraines Diagnosis limitation: G43001, G43011, G43101, G43109, G43111, G43119, G43401, G43409, G43411, G43419, G43501, G43509, G43511, G43519, G43601, G43609, G43611, G43619, G43701, G43709, G43711, G43719, G43801, G43809, G43811, G43819, G43821, G43829, G43831, G43839, G43901, G43909, G43911, G43919, G43A0, G43A1, G43B0, G43B1, G43C0, G43C1, G43D0, G43D1
Valrubicin	J9357	Diagnosis limitation: D090 (Carcinoma in situ of bladder)

(Diagnosis limitations) The procedure code must be billed with one of the codes listed.

In addition to the injections listed in the above table, the following sections indicate additional injections that may be reimbursed by the CSHCN Services Program and the applicable limitations.

31.2.25.4 Adalimumab

Adalimumab (procedure code J0135) is a benefit of the CSHCN Services Program with the following diagnosis limitations:

Diagnosis Codes					
K5000	K50011	K50012	K50013	K50014	K50018
K5010	K50111	K50112	K50113	K50114	K50118

C50911	C50912	C50919	C50921	C50922	C50929

Documentation must support the administration of Ado-trastuzumab emtansine and include all of the following:

- Evidence of HER2 positive breast cancer as evidenced by an immunochemistry (IHC) test or fluorescent in situ hybridization (FISH) test
- Evidence of metastatic breast cancer
- Evidence of prior treatment for HER2 positive metastatic breast cancer with trastuzumab and a taxane oncology agent given separately or in combination
- Evidence demonstrating receipt of prior therapy for HER2 positive metastatic breast cancer or recurrent disease, including previous treatment protocol, within six months of completing adjuvant therapy.

All documentation must be maintained in the client's medical record and is subject to retrospective review.

31.2.25.6 Bevacizumab

Bevacizumab (procedure code J9035) is a benefit of the CSHCN Services Program with the following diagnosis limitations:

Diagnosis Code	Description
C180	Malignant neoplasm of cecum

Diagnosis Code	Description
C181	Malignant neoplasm of appendix
C182	Malignant neoplasm of ascending colon
C183	Malignant neoplasm of hepatic flexure
C184	Malignant neoplasm of transverse colon
C185	Malignant neoplasm of splenic flexure
C186	Malignant neoplasm of descending colon
C187	Malignant neoplasm of sigmoid colon
C188	Malignant neoplasm of overlapping sites of colon
C189	Malignant neoplasm of colon, unspecified
C19	Malignant neoplasm of rectosigmoid junction
C20	Malignant neoplasm of rectum
C210	Malignant neoplasm of anus, unspecified
C211	Malignant neoplasm of anal canal
C218	Malignant neoplasm of overlapping sites of rectum, anus and anal canal
C3400	Malignant neoplasm of unspecified main bronchus
C3401	Malignant neoplasm of right main bronchus
C3402	Malignant neoplasm of left main bronchus
C3410	Malignant neoplasm of upper lobe, unspecified bronchus or lung
C3411	Malignant neoplasm of upper lobe, right bronchus or lung
C3412	Malignant neoplasm of upper lobe, left bronchus or lung
C342	Malignant neoplasm of middle lobe, bronchus or lung
C3430	Malignant neoplasm of lower lobe, unspecified bronchus or lung
C3431	Malignant neoplasm of lower lobe, right bronchus or lung
C3432	Malignant neoplasm of lower lobe, left bronchus or lung
C3480	Malignant neoplasm of overlapping sites of unspecified bronchus and lung
C3481	Malignant neoplasm of overlapping sites of right bronchus and lung
C3482	Malignant neoplasm of overlapping sites of left bronchus and lung
C3490	Malignant neoplasm of unspecified part of unspecified bronchus or lung
C3491	Malignant neoplasm of unspecified part of right bronchus or lung
C3492	Malignant neoplasm of unspecified part of left bronchus or lung
C538	Malignant neoplasm of overlapping sites of cervix uteri
C539	Malignant neoplasm of cervix uteri, unspecified
C641	Malignant neoplasm of right kidney, except renal pelvis
C642	Malignant neoplasm of left kidney, except renal pelvis
C649	Malignant neoplasm of unspecified kidney, except renal pelvis
C711	Malignant neoplasm of frontal lobe
C712	Malignant neoplasm of temporal lobe
C713	Malignant neoplasm of parietal lobe
C714	Malignant neoplasm of occipital lobe

Diagnosis Code	Description
C715	Malignant neoplasm of cerebral ventricle
C716	Malignant neoplasm of cerebellum
C717	Malignant neoplasm of brain stem
C718	Malignant neoplasm of overlapping sites of brain
C719	Malignant neoplasm of brain, unspecified
C7800	Secondary malignant neoplasm of unspecified lung
C7801	Secondary malignant neoplasm of right lung
C7802	Secondary malignant neoplasm of left lung
C7931	Secondary malignant neoplasm of brain
Z85038	Personal history of other malignant neoplasm of large intestine
Z85048	Personal history of other malignant neoplasm of rectum, rectosigmoid junction, and anus
Z85118	Personal history of other malignant neoplasm of bronchus and lung
Z853	Personal history of malignant neoplasm of breast

31.2.25.7 Botulinum Toxin (Type A and Type B)

The CSHCN Services Program may reimburse botulinum toxin, types A and B, for clients with specific diagnoses. Botulinum toxin, type A procedure code J0585 is payable when billed with the following diagnosis codes:

Diagnosis Code	Description
G114	Hereditary spastic paraplegia
G2401	Drug induced subacute dyskinesia
G2402	Drug induced acute dystonia
G241	Genetic torsion dystonia
G243	Spasmodic torticollis
G244	Idiopathic orofacial dystonia
G245	Blepharospasm
G248	Other dystonia
G250	Essential tremor
G251	Drug-induced tremor
G252	Other specified forms of tremor
G253	Myoclonus
G35	Multiple sclerosis
G360	Neuromyelitis optical [Device]
G370	Diffuse sclerosis of central nervous system
G371	Central demyelination of corpus callosum
G372	Central pontine myelinolysis
G373	Acute transverse myelitis in demyelinating disease of central nervous system
G374	Subacute necrotizing myelitis of central nervous system
G375	Concentric sclerosis [Balo] of central nervous system

Diagnosis Code	Description
G378	Other specified demyelinating diseases of central nervous system
G379	Demyelinating disease of central nervous system, unspecified
G43701	Chronic migraine without aura, not intractable, with status migrainosus
G43709	Chronic migraine without aura, not intractable, without status migrainosus
G43711	Chronic migraine without aura, intractable, with status migrainosus
G43719	Chronic migraine without aura, intractable, without status migrainosus
G513	Clonic hemifacial spasm
G800	Spastic quadriplegic cerebral palsy
G801	Spastic diplegic cerebral palsy
G802	Spastic hemiplegic cerebral palsy
G803	Athetoid cerebral palsy
G804	Ataxic cerebral palsy
G808	Other cerebral palsy
G809	Cerebral palsy, unspecified
G8110	Spastic hemiplegia affecting unspecified side
G8111	Spastic hemiplegia affecting right dominant side
G8112	Spastic hemiplegia affecting left dominant side
G8113	Spastic hemiplegia affecting right nondominant side
G8114	Spastic hemiplegia affecting left nondominant side
G8191	Hemiplegia, unspecified affecting right dominant side
G8192	Hemiplegia, unspecified affecting left dominant side
G8193	Hemiplegia, unspecified affecting right nondominant side
G8194	Hemiplegia, unspecified affecting left nondominant side
G8220	Paraplegia, unspecified
G8221	Paraplegia, complete
G8222	Paraplegia, incomplete
G8250	Quadriplegia, unspecified
G8251	Quadriplegia, C1-C4 complete
G8252	Quadriplegia, C1-C4 incomplete
G8253	Quadriplegia, C5-C7 complete
G8254	Quadriplegia, C5-C7 incomplete
G830	Diplegia of upper limbs
G8310	Monoplegia of lower limb affecting unspecified side
G8311	Monoplegia of lower limb affecting right dominant side
G8312	Monoplegia of lower limb affecting left dominant side
G8313	Monoplegia of lower limb affecting right nondominant side
G8314	Monoplegia of lower limb affecting left nondominant side
G8320	Monoplegia of upper limb affecting unspecified side
G8321	Monoplegia of upper limb affecting right dominant side
G8322	Monoplegia of upper limb affecting left dominant side

Diagnosis Code	Description
G8323	Monoplegia of upper limb affecting right nondominant side
G8324	Monoplegia of upper limb affecting left nondominant side
G8330	Monoplegia, unspecified affecting unspecified side
G8331	Monoplegia, unspecified affecting right dominant side
G8332	Monoplegia, unspecified affecting left dominant side
G8333	Monoplegia, unspecified affecting right nondominant side
G8334	Monoplegia, unspecified affecting left nondominant side
G834	Cauda equina syndrome
G8921	Chronic pain due to trauma
H4901	Third [oculomotor] nerve palsy, right eye
H4902	Third [oculomotor] nerve palsy, left eye
H4903	Third [oculomotor] nerve palsy, bilateral
H4911	Fourth [trochlear] nerve palsy, right eye
H4912	Fourth [trochlear] nerve palsy, left eye
H4913	Fourth [trochlear] nerve palsy, bilateral
H4921	Sixth [abducent] nerve palsy, right eye
H4922	Sixth [abducent] nerve palsy, left eye
H4923	Sixth [abducent] nerve palsy, bilateral
H4931	Total (external) ophthalmoplegia, right eye
H4932	Total (external) ophthalmoplegia, left eye
H4933	Total (external) ophthalmoplegia, bilateral
H4941	Progressive external ophthalmoplegia, right eye
H4942	Progressive external ophthalmoplegia, left eye
H4943	Progressive external ophthalmoplegia, bilateral
H499	Unspecified paralytic strabismus
H5000	Unspecified esotropia
H50011	Monocular esotropia, right eye
H50012	Monocular esotropia, left eye
H50021	Monocular esotropia with A pattern, right eye
H50022	Monocular esotropia with A pattern, left eye
H50031	Monocular esotropia with V pattern, right eye
H50032	Monocular esotropia with V pattern, left eye
H50041	Monocular esotropia with other noncomitancies, right eye
H50042	Monocular esotropia with other noncomitancies, left eye
H5005	Alternating esotropia
H5006	Alternating esotropia with A pattern
H5007	Alternating esotropia with V pattern
H5008	Alternating esotropia with other noncomitancies
H5010	Unspecified exotropia
H50111	Monocular exotropia, right eye

Diagnosis Code	Description
H50112	Monocular exotropia, left eye
H50121	Monocular exotropia with A pattern, right eye
H50122	Monocular exotropia with A pattern, left eye
H50131	Monocular exotropia with V pattern, right eye
H50132	Monocular exotropia with V pattern, left eye
H50141	Monocular exotropia with other noncomitancies, right eye
H50142	Monocular exotropia with other noncomitancies, left eye
H5015	Alternating exotropia
H5016	Alternating exotropia with A pattern
H5017	Alternating exotropia with V pattern
H5018	Alternating exotropia with other noncomitancies
H5021	Vertical strabismus, right eye
H5022	Vertical strabismus, left eye
H5030	Unspecified intermittent heterotropia
H50311	Intermittent monocular esotropia, right eye
H50312	Intermittent monocular esotropia, left eye
H5032	Intermittent alternating esotropia
H50331	Intermittent monocular exotropia, right eye
H50332	Intermittent monocular exotropia, left eye
H5034	Intermittent alternating exotropia
H5040	Unspecified heterotropia
H50411	Cyclotropia, right eye
H50412	Cyclotropia, left eye
H5042	Monofixation syndrome
H5043	Accommodative component in esotropia
H5050	Unspecified heterophoria
H5051	Esophoria
H5052	Exophoria
H5053	Vertical heterophoria
H5054	Cyclophoria
H5055	Alternating heterophoria
H5060	Mechanical strabismus, unspecified
H50611	Brown's sheath syndrome, right eye
H50612	Brown's sheath syndrome, left eye
H5069	Other mechanical strabismus
H50811	Duane's syndrome, right eye
H50812	Duane's syndrome, left eye
H5089	Other specified strabismus
H510	Palsy (spasm) of conjugate gaze
H5111	Convergence insufficiency

Diagnosis Code	Description
H5112	Convergence excess
H5121	Internuclear ophthalmoplegia, right eye
H5122	Internuclear ophthalmoplegia, left eye
H5123	Internuclear ophthalmoplegia, bilateral
H518	Other specified disorders of binocular movement
H519	Unspecified disorder of binocular movement
I69031	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69032	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69033	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69034	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69041	Monoplegia of lower limb following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69042	Monoplegia of lower limb following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69043	Monoplegia of lower limb following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69044	Monoplegia of lower limb following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69051	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69052	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69053	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69054	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69061	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69062	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69063	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69064	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69065	Other paralytic syndrome following nontraumatic subarachnoid hemorrhage, bilateral
I69098	Other sequelae following nontraumatic subarachnoid hemorrhage
I69131	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting right dominant side
I69132	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting left dominant side

Diagnosis Code	Description
I69133	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69134	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69141	Monoplegia of lower limb following nontraumatic intracerebral hemorrhage affecting right dominant side
I69142	Monoplegia of lower limb following nontraumatic intracerebral hemorrhage affecting left dominant side
I69143	Monoplegia of lower limb following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69144	Monoplegia of lower limb following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69151	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting right dominant side
I69152	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting left dominant side
I69153	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69154	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69161	Other paralytic syndrome following nontraumatic intracerebral hemorrhage affecting right dominant side
I69162	Other paralytic syndrome following nontraumatic intracerebral hemorrhage affecting left dominant side
I69163	Other paralytic syndrome following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69164	Other paralytic syndrome following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69165	Other paralytic syndrome following nontraumatic intracerebral hemorrhage, bilateral
I69198	Other sequelae of nontraumatic intracerebral hemorrhage
I69231	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting right dominant side
I69232	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting left dominant side
I69233	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69234	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69241	Monoplegia of lower limb following other nontraumatic intracranial hemorrhage affecting right dominant side
I69242	Monoplegia of lower limb following other nontraumatic intracranial hemorrhage affecting left dominant side
I69243	Monoplegia of lower limb following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69244	Monoplegia of lower limb following other nontraumatic intracranial hemorrhage affecting left non-dominant side

Diagnosis Code	Description
I69251	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting right dominant side
I69252	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting left dominant side
I69253	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69254	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69261	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting right dominant side
I69262	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting left dominant side
I69263	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69264	Other paralytic syndrome following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69265	Other paralytic syndrome following other nontraumatic intracranial hemorrhage, bilateral
I69298	Other sequelae of other nontraumatic intracranial hemorrhage
I69331	Monoplegia of upper limb following cerebral infarction affecting right dominant side
I69332	Monoplegia of upper limb following cerebral infarction affecting left dominant side
I69333	Monoplegia of upper limb following cerebral infarction affecting right non-dominant side
I69334	Monoplegia of upper limb following cerebral infarction affecting left non-dominant side
I69341	Monoplegia of lower limb following cerebral infarction affecting right dominant side
I69342	Monoplegia of lower limb following cerebral infarction affecting left dominant side
I69343	Monoplegia of lower limb following cerebral infarction affecting right non-dominant side
I69344	Monoplegia of lower limb following cerebral infarction affecting left non-dominant side
I69351	Hemiplegia and hemiparesis following cerebral infarction affecting right dominant side
I69352	Hemiplegia and hemiparesis following cerebral infarction affecting left dominant side
I69353	Hemiplegia and hemiparesis following cerebral infarction affecting right non-dominant side
I69354	Hemiplegia and hemiparesis following cerebral infarction affecting left non-dominant side
I69361	Other paralytic syndrome following cerebral infarction affecting right dominant side
I69362	Other paralytic syndrome following cerebral infarction affecting left dominant side

Diagnosis Code	Description
I69363	Other paralytic syndrome following cerebral infarction affecting right non-dominant side
I69364	Other paralytic syndrome following cerebral infarction affecting left non-dominant side
I69365	Other paralytic syndrome following cerebral infarction, bilateral
I69398	Other sequelae of cerebral infarction
I69831	Monoplegia of upper limb following other cerebrovascular disease affecting right dominant side
I69832	Monoplegia of upper limb following other cerebrovascular disease affecting left dominant side
I69833	Monoplegia of upper limb following other cerebrovascular disease affecting right non-dominant side
I69834	Monoplegia of upper limb following other cerebrovascular disease affecting left non-dominant side
I69841	Monoplegia of lower limb following other cerebrovascular disease affecting right dominant side
I69842	Monoplegia of lower limb following other cerebrovascular disease affecting left dominant side
I69843	Monoplegia of lower limb following other cerebrovascular disease affecting right non-dominant side
I69844	Monoplegia of lower limb following other cerebrovascular disease affecting left non-dominant side
I69851	Hemiplegia and hemiparesis following other cerebrovascular disease affecting right dominant side
I69852	Hemiplegia and hemiparesis following other cerebrovascular disease affecting left dominant side
I69853	Hemiplegia and hemiparesis following other cerebrovascular disease affecting right non-dominant side
I69854	Hemiplegia and hemiparesis following other cerebrovascular disease affecting left non-dominant side
I69861	Other paralytic syndrome following other cerebrovascular disease affecting right dominant side
I69862	Other paralytic syndrome following other cerebrovascular disease affecting left dominant side
I69863	Other paralytic syndrome following other cerebrovascular disease affecting right non-dominant side
I69864	Other paralytic syndrome following other cerebrovascular disease affecting left non-dominant side
I69865	Other paralytic syndrome following other cerebrovascular disease, bilateral
I69898	Other sequelae of other cerebrovascular disease
J385	Laryngeal spasm
K117	Disturbances of salivary secretion
K220	Achalasia of cardia
K594	Anal spasm
K600	Acute anal fissure
K601	Chronic anal fissure

Diagnosis Code	Description
K602	Anal fissure, unspecified
M436	Torticollis
M62838	Other muscle spasm
M722	Plantar fascial fibromatosis
N310	Uninhibited neuropathic bladder, not elsewhere classified
N311	Reflex neuropathic bladder, not elsewhere classified
N312	Flaccid neuropathic bladder, not elsewhere classified
N318	Other neuromuscular dysfunction of bladder
N319	Neuromuscular dysfunction of bladder, not elsewhere classified
N3281	Overactive bladder
N3644	Muscular disorders of urethra
R490	Dysphonia
R498	Other voice and resonance disorders
R532	Functional quadriplegia

Procedure code J0586 is payable when billed with the following diagnosis codes:

Diagnosis Code	Description
G114	Hereditary spastic paraplegia
G2401	Drug induced subacute dyskinesia
G2402	Drug induced acute dystonia
G241	Genetic torsion dystonia
G243	Spasmodic torticollis
G244	Idiopathic orofacial dystonia
G245	Blepharospasm
G248	Other dystonia
G35	Multiple sclerosis
G360	Neuromyelitis optical [Device]
G370	Diffuse sclerosis of central nervous system
G371	Central demyelination of corpus callosum
G372	Central pontine myelinolysis
G373	Acute transverse myelitis in demyelinating disease of central nervous system
G374	Subacute necrotizing myelitis of central nervous system
G375	Concentric sclerosis [Balo] of central nervous system
G378	Other specified demyelinating diseases of central nervous system
G379	Demyelinating disease of central nervous system, unspecified
G800	Spastic quadriplegic cerebral palsy
G801	Spastic diplegic cerebral palsy
G802	Spastic hemiplegic cerebral palsy
G803	Athetoid cerebral palsy
G804	Ataxic cerebral palsy

Diagnosis Code	Description
G808	Other cerebral palsy
G809	Cerebral palsy, unspecified
G8110	Spastic hemiplegia affecting unspecified side
G8111	Spastic hemiplegia affecting right dominant side
G8112	Spastic hemiplegia affecting left dominant side
G8113	Spastic hemiplegia affecting right nondominant side
G8114	Spastic hemiplegia affecting left nondominant side
G8191	Hemiplegia, unspecified affecting right dominant side
G8192	Hemiplegia, unspecified affecting left dominant side
G8193	Hemiplegia, unspecified affecting right nondominant side
G8194	Hemiplegia, unspecified affecting left nondominant side
G8253	Quadriplegia, C5-C7 complete
G8254	Quadriplegia, C5-C7 incomplete
G830	Diplegia of upper limbs
G8320	Monoplegia of upper limb affecting unspecified side
G8321	Monoplegia of upper limb affecting right dominant side
G8322	Monoplegia of upper limb affecting left dominant side
G8323	Monoplegia of upper limb affecting right nondominant side
G8324	Monoplegia of upper limb affecting left nondominant side
I69059	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting unspecified side
I69259	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting unspecified side
I69359	Hemiplegia and hemiparesis following cerebral infarction affecting unspecified side
I69859	Hemiplegia and hemiparesis following other cerebrovascular disease affecting unspecified side
I69959	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting unspecified side
I69051	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69052	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69151	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting right dominant side
I69152	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting left dominant side
I69251	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting right dominant side
I69252	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting left dominant side
I69351	Hemiplegia and hemiparesis following cerebral infarction affecting right dominant side

Diagnosis Code	Description
I69352	Hemiplegia and hemiparesis following cerebral infarction affecting left dominant side
I69851	Hemiplegia and hemiparesis following other cerebrovascular disease affecting right dominant side
I69852	Hemiplegia and hemiparesis following other cerebrovascular disease affecting left dominant side
I69951	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting right dominant side
I69952	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting left dominant side
I69053	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69054	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69153	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69154	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69253	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69254	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69353	Hemiplegia and hemiparesis following cerebral infarction affecting right non-dominant side
I69354	Hemiplegia and hemiparesis following cerebral infarction affecting left non-dominant side
I69853	Hemiplegia and hemiparesis following other cerebrovascular disease affecting right non-dominant side
I69854	Hemiplegia and hemiparesis following other cerebrovascular disease affecting left non-dominant side
I69953	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting right non-dominant side
I69954	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting left non-dominant side
I69039	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting unspecified side
I69139	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting unspecified side
I69239	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting unspecified side
I69339	Monoplegia of upper limb following cerebral infarction affecting unspecified side
I69839	Monoplegia of upper limb following other cerebrovascular disease affecting unspecified side
I69939	Monoplegia of upper limb following unspecified cerebrovascular disease affecting unspecified side
I69031	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting right dominant side

Diagnosis Code	Description
I69032	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69131	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting right dominant side
I69132	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting left dominant side
I69231	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting right dominant side
I69232	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting left dominant side
I69331	Monoplegia of upper limb following cerebral infarction affecting right dominant side
I69332	Monoplegia of upper limb following cerebral infarction affecting left dominant side
I69831	Monoplegia of upper limb following other cerebrovascular disease affecting right dominant side
I69832	Monoplegia of upper limb following other cerebrovascular disease affecting left dominant side
I69931	Monoplegia of upper limb following unspecified cerebrovascular disease affecting right dominant side
I69932	Monoplegia of upper limb following unspecified cerebrovascular disease affecting left dominant side
I69033	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69034	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69133	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69134	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69233	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69234	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69333	Monoplegia of upper limb following cerebral infarction affecting right non-dominant side
I69334	Monoplegia of upper limb following cerebral infarction affecting left non-dominant side
I69833	Monoplegia of upper limb following other cerebrovascular disease affecting right non-dominant side
I69834	Monoplegia of upper limb following other cerebrovascular disease affecting left non-dominant side
I69933	Monoplegia of upper limb following unspecified cerebrovascular disease affecting right non-dominant side
I69934	Monoplegia of upper limb following unspecified cerebrovascular disease affecting left non-dominant side
J385	Laryngeal spasm

Diagnosis Code	Description
M436	Torticollis
M62838	Other muscle spasm
M722	Plantar fascial fibromatosis
R532	Functional quadriplegia

The chemodenervation procedure codes in the following table are a benefit in addition to botulinum toxin type A:

Procedure Codes									
64600	64605	64610	64611	64612	64615	64616	64617	64620	64630
64632	64633	64634	64635	64636	64640	64642	64643	64644	64645
64646	64647	64680	64681	67345					

The chemodenervation procedure codes listed in the table above require prior authorization. Add-on procedure codes 95873 and 95874 will be reimbursed only when billed with the appropriate primary procedure code.

Procedure code J0588 is a benefit and is limited to the following diagnosis codes:

Diagnosis Code	Description
G243	Spasmodic torticollis
G245	Blepharospasm
G800	Spastic quadriplegic cerebral palsy
G801	Spastic diplegic cerebral palsy
G802	Spastic hemiplegic cerebral palsy
G8110	Spastic hemiplegia affecting unspecified side
G8111	Spastic hemiplegia affecting right dominant side
G8112	Spastic hemiplegia affecting left dominant side
G8113	Spastic hemiplegia affecting right nondominant side
G8114	Spastic hemiplegia affecting left nondominant side
G8253	Quadriplegia, C5-C7 complete
G8254	Quadriplegia, C5-C7 incomplete
G830	Diplegia of upper limbs
G8320	Monoplegia of upper limb affecting unspecified side
G8321	Monoplegia of upper limb affecting right dominant side
G8322	Monoplegia of upper limb affecting left dominant side
G8323	Monoplegia of upper limb affecting right nondominant side
G8324	Monoplegia of upper limb affecting left nondominant side
I69031	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69032	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69033	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting right non-dominant side

Diagnosis Code	Description
I69034	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69039	Monoplegia of upper limb following nontraumatic subarachnoid hemorrhage affecting unspecified side
I69051	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting right dominant side
I69052	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting left dominant side
I69053	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting right non-dominant side
I69054	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting left non-dominant side
I69059	Hemiplegia and hemiparesis following nontraumatic subarachnoid hemorrhage affecting unspecified side
I69131	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting right dominant side
I69132	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting left dominant side
I69133	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69134	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69139	Monoplegia of upper limb following nontraumatic intracerebral hemorrhage affecting unspecified side
I69151	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting right dominant side
I69152	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting left dominant side
I69153	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting right non-dominant side
I69154	Hemiplegia and hemiparesis following nontraumatic intracerebral hemorrhage affecting left non-dominant side
I69231	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting right dominant side
I69232	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting left dominant side
I69233	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69234	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69239	Monoplegia of upper limb following other nontraumatic intracranial hemorrhage affecting unspecified side
I69251	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting right dominant side
I69252	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting left dominant side

Diagnosis Code	Description
I69253	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting right non-dominant side
I69254	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting left non-dominant side
I69259	Hemiplegia and hemiparesis following other nontraumatic intracranial
I69331	Monoplegia of upper limb following cerebral infarction affecting right dominant side
I69332	Monoplegia of upper limb following cerebral infarction affecting left dominant side
I69333	Monoplegia of upper limb following cerebral infarction affecting right non-dominant side
I69334	Monoplegia of upper limb following cerebral infarction affecting left non-dominant side
I69339	Monoplegia of upper limb following cerebral infarction affecting unspecified side
I69351	Hemiplegia and hemiparesis following cerebral infarction affecting right dominant side
I69352	Hemiplegia and hemiparesis following other nontraumatic intracranial hemorrhage affecting left dominant side
I69353	Hemiplegia and hemiparesis following cerebral infarction affecting right non-dominant side
I69354	Hemiplegia and hemiparesis following cerebral infarction affecting left non-dominant side
I69359	Hemiplegia and hemiparesis following cerebral infarction affecting unspecified side
I69831	Monoplegia of upper limb following other cerebrovascular disease affecting right dominant side
I69832	Monoplegia of upper limb following other cerebrovascular disease affecting left dominant side
I69833	Monoplegia of upper limb following other cerebrovascular disease affecting right non-dominant side
I69834	Monoplegia of upper limb following other cerebrovascular disease affecting left non-dominant side
I69839	Monoplegia of upper limb following other cerebrovascular disease affecting unspecified side
I69851	Hemiplegia and hemiparesis following other cerebrovascular disease affecting right dominant side
I69852	Hemiplegia and hemiparesis following other cerebrovascular disease affecting left dominant side
I69853	Hemiplegia and hemiparesis following other cerebrovascular disease affecting right non-dominant side
I69854	Hemiplegia and hemiparesis following other cerebrovascular disease affecting left non-dominant side
I69859	Hemiplegia and hemiparesis following other cerebrovascular disease affecting unspecified side
I69931	Monoplegia of upper limb following unspecified cerebrovascular disease affecting right dominant side
I69932	Monoplegia of upper limb following unspecified cerebrovascular disease affecting left dominant side

Diagnosis Code	Description
I69933	Monoplegia of upper limb following unspecified cerebrovascular disease affecting right non-dominant side
I69934	Monoplegia of upper limb following unspecified cerebrovascular disease affecting left non-dominant side
I69939	Monoplegia of upper limb following unspecified cerebrovascular disease affecting unspecified side
I69951	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting right dominant side
I69952	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting left dominant side
I69953	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting right non-dominant side
I69954	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting left non-dominant side
I69959	Hemiplegia and hemiparesis following unspecified cerebrovascular disease affecting unspecified side

Procedure code J0587 must be submitted for reimbursement of the type B botulinum toxin (per 100 units) and is limited to the following diagnosis codes:

Diagnosis Code	Description
G243	Spasmodic torticollis
G8921	Chronic pain due to trauma
K117	Disturbances of salivary secretion

Procedure code J0587 is limited to a billed quantity of 100 units. Any claim billed in excess of 100 billing units will be denied.

The CSHCN Services Program requires a trial of type A botulinum toxin prior to the use of type B botulinum toxin.

Injections of either toxin are limited to no more than once every three months. Supplies used to administer the toxins will not be reimbursed separately.

Medications other than botulinum toxins may be used for chemodenervation procedures.

Claims for Botulinum Toxin Type A and B must indicate the number of units used. Providers should bill the amount of injections per units used for Botulinum Toxin. If the units are not specified, the claim may be reimbursed as a quantity of one.

Procedure Codes	Quantity Limitations of Medication	Billing Units
J0585	400 units	One billing unit is equal to 1 unit of medication. <i>Example: A provider that administers 400 units of medication would submit a claim for a quantity of 400.</i>

Procedure Codes	Quantity Limitations of Medication	Billing Units
J0586	1,000 units	One billing unit is equal to 5 units of medication. <i>Example:</i> A provider that administers 1,000 units of medication would submit a claim for a quantity of 200.
J0587	10,000 units	One billing unit is equal to 100 units of medication. <i>Example:</i> A provider that administers 10,000 units of medication would submit a claim for a quantity of 100.
J0588	400 units	One billing unit is equal to 1 unit of medication. <i>Example:</i> A provider that administers 400 units of medication would submit a claim for a quantity of 400.

Procedure codes J0586, J0587, and J0588 will be denied when billed on the same date of service, by any provider with procedure code J0585.

Procedure codes J0587 and J0588 will be denied when billed on the same date of service, by any provider with procedure code J0586.

Procedure code J0587 will be denied when billed on the same date of service, by any provider with procedure code J0588.

Providers may not bill for an office visit if botulinum injections are the only reason for the visit.

31.2.25.7.1 Prior Authorization Requirements

Prior authorization is required for quantities of medication greater than the defined limitations for botulinum toxins. Documentation of medical need for exceeding the limit must be submitted with the request for prior authorization.

Prior authorization and medical review is required for diagnoses other than those listed above. Documentation for consideration of other diagnoses must include the diagnosis, clinical course, clinical history, and other treatments with an explanation of ineffective results. This documentation to support medical necessity must be submitted to the TMHP-CSHCN Services Program Authorization Department with the [CSHCN Services Program Authorization and Prior Authorization Request Form](#). Prior authorization requests may be approved for a 12-month period. All extension requests must include diagnosis, clinical course, and result of previous botulinum toxin therapy and expected length of treatment.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for more information about authorization and prior authorization requirements.

Procedures incidental to the administration of botulinum toxin, such as EMGs, do not require authorization and may be reimbursed in the quantity billed.

APRNs and physician assistants administering botulinum toxin therapy must be supervised by a physician who is board eligible or board certified in the physician’s specialty. Documentation of the APRN’s and physician assistant’s training must be kept in the supervising physician’s records and be available for review on request by the CSHCN Services Program or its designee.

31.2.25.7.2 Reimbursement

Botulinum toxin may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

31.2.25.8 Denileukin Diftitox

Denileukin diftitox (procedure code J9160) is a benefit of the CSHCN Services Program with the following diagnosis limitations:

31.2.25.10 Erythropoietin Alfa (EPO) and Darbepoetin

EPO and darbepoietin (procedure codes J0881 and J0885) are benefits of the CSHCN Services Program for the following diagnosis codes:

Diagnosis Code	Description
B20	Human immunodeficiency virus [HIV] disease
C880	Waldenstrom macroglobulinemia
C9000	Multiple myeloma not having achieved remission
C9001	Multiple myeloma in remission
C9002	Multiple myeloma in relapse
D500	Iron deficiency anemia secondary to blood loss (chronic)
D501	Sideropenic dysphagia
D508	Other iron deficiency anemias
D509	Iron deficiency anemia, unspecified
D510	Vitamin B12 deficiency anemia due to intrinsic factor deficiency
D511	Vitamin B12 deficiency anemia due to selective vitamin B12 malabsorption with proteinuria
D512	Transcobalamin II deficiency
D513	Other dietary vitamin B12 deficiency anemia
D518	Other vitamin B12 deficiency anemias
D519	Vitamin B12 deficiency anemia, unspecified
D520	Dietary folate deficiency anemia
D521	Drug-induced folate deficiency anemia
D528	Other folate deficiency anemias
D529	Folate deficiency anemia, unspecified
D530	Protein deficiency anemia
D531	Other megaloblastic anemias, not elsewhere classified
D532	Scorbutic anemia
D538	Other specified nutritional anemias
D539	Nutritional anemia, unspecified
D550	Anemia due to glucose-6-phosphate dehydrogenase [G6PD] deficiency
D551	Anemia due to other disorders of glutathione metabolism
D552	Anemia due to disorders of glycolytic enzymes
D553	Anemia due to disorders of nucleotide metabolism
D558	Other anemias due to enzyme disorders
D560	Alpha thalassemia
D561	Beta thalassemia
D562	Delta-beta thalassemia
D563	Thalassemia minor

Diagnosis Code	Description
D564	Hereditary persistence of fetal hemoglobin [HPFH]
D565	Hemoglobin E-beta thalassemia
D568	Other thalassemias
D569	Thalassemia, unspecified
D5701	Hb-SS disease with acute chest syndrome
D5702	Hb-SS disease with splenic sequestration
D571	Sickle-cell disease without crisis
D5720	Sickle-cell/Hb-C disease without crisis
D57211	Sickle-cell/Hb-C disease with acute chest syndrome
D57212	Sickle-cell/Hb-C disease with splenic sequestration
D573	Sickle-cell trait
D5740	Sickle-cell thalassemia without crisis
D57411	Sickle-cell thalassemia with acute chest syndrome
D57412	Sickle-cell thalassemia with splenic sequestration
D5780	Other sickle-cell disorders without crisis
D57811	Other sickle-cell disorders with acute chest syndrome
D57812	Other sickle-cell disorders with splenic sequestration
D580	Hereditary spherocytosis
D581	Hereditary elliptocytosis
D582	Other hemoglobinopathies
D588	Other specified hereditary hemolytic anemias
D590	Drug-induced autoimmune hemolytic anemia
D591	Other autoimmune hemolytic anemias
D592	Drug-induced nonautoimmune hemolytic anemia
D593	Hemolytic-uremic syndrome
D594	Other nonautoimmune hemolytic anemias
D595	Paroxysmal nocturnal hemoglobinuria [Marchiafava-Micheli]
D596	Hemoglobinuria due to hemolysis from other external causes
D598	Other acquired hemolytic anemias
D600	Chronic acquired pure red cell aplasia
D601	Transient acquired pure red cell aplasia
D608	Other acquired pure red cell aplasias
D6101	Constitutional (pure) red blood cell aplasia
D6109	Other constitutional aplastic anemia
D611	Drug-induced aplastic anemia
D612	Aplastic anemia due to other external agents
D613	Idiopathic aplastic anemia
D61810	Antineoplastic chemotherapy induced pancytopenia
D61811	Other drug-induced pancytopenia

Diagnosis Code	Description
D61818	Other pancytopenia
D6182	Myelophthisis
D6189	Other specified aplastic anemias and other bone marrow failure syndromes
D619	Aplastic anemia, unspecified
D62	Acute posthemorrhagic anemia
D630	Anemia in neoplastic disease
D631	Anemia in chronic kidney disease
D638	Anemia in other chronic diseases classified elsewhere
D640	Hereditary sideroblastic anemia
D641	Secondary sideroblastic anemia due to disease
D642	Secondary sideroblastic anemia due to drugs and toxins
D643	Other sideroblastic anemias
D644	Congenital dyserythropoietic anemia
D6481	Anemia due to antineoplastic chemotherapy
D6489	Other specified anemias
D649	Anemia, unspecified
D7801	Intraoperative hemorrhage and hematoma of the spleen complicating a procedure on the spleen
D7802	Intraoperative hemorrhage and hematoma of the spleen complicating other procedure
D7821	Postprocedural hemorrhage and hematoma of the spleen following a procedure on the spleen
D7822	Postprocedural hemorrhage and hematoma of the spleen following other procedure
E3601	Intraoperative hemorrhage and hematoma of an endocrine system organ or structure complicating an endocrine system procedure
E3602	Intraoperative hemorrhage and hematoma of an endocrine system organ or structure complicating other procedure
G9731	Intraoperative hemorrhage and hematoma of a nervous system organ or structure complicating a nervous system procedure
G9732	Intraoperative hemorrhage and hematoma of a nervous system organ or structure complicating other procedure
G9751	Postprocedural hemorrhage and hematoma of a nervous system organ or structure following a nervous system procedure
G9752	Postprocedural hemorrhage and hematoma of a nervous system organ or structure following other procedure
H59111	Intraoperative hemorrhage and hematoma of right eye and adnexa complicating an ophthalmic procedure
H59112	Intraoperative hemorrhage and hematoma of left eye and adnexa complicating an ophthalmic procedure
H59113	Intraoperative hemorrhage and hematoma of eye and adnexa complicating an ophthalmic procedure, bilateral
H59119	Intraoperative hemorrhage and hematoma of unspecified eye and adnexa complicating an ophthalmic procedure

Diagnosis Code	Description
H59121	Intraoperative hemorrhage and hematoma of right eye and adnexa complicating other procedure
H59122	Intraoperative hemorrhage and hematoma of left eye and adnexa complicating other procedure
H59123	Intraoperative hemorrhage and hematoma of eye and adnexa complicating other procedure, bilateral
H59129	Intraoperative hemorrhage and hematoma of unspecified eye and adnexa complicating other procedure
H59311	Postprocedural hemorrhage and hematoma of right eye and adnexa following an ophthalmic procedure
H59312	Postprocedural hemorrhage and hematoma of left eye and adnexa following an ophthalmic procedure
H59313	Postprocedural hemorrhage and hematoma of eye and adnexa following an ophthalmic procedure, bilateral
H59319	Postprocedural hemorrhage and hematoma of unspecified eye and adnexa following an ophthalmic procedure
H59321	Postprocedural hemorrhage and hematoma of right eye and adnexa following other procedure
H59322	Postprocedural hemorrhage and hematoma of left eye and adnexa following other procedure
H59323	Postprocedural hemorrhage and hematoma of eye and adnexa following other procedure, bilateral
H59329	Postprocedural hemorrhage and hematoma of unspecified eye and adnexa following other procedure
H9521	Intraoperative hemorrhage and hematoma of ear and mastoid process complicating a procedure on the ear and mastoid process
H9522	Intraoperative hemorrhage and hematoma of ear and mastoid process complicating other procedure
H9541	Postprocedural hemorrhage and hematoma of ear and mastoid process following a procedure on the ear and mastoid process
H9542	Postprocedural hemorrhage and hematoma of ear and mastoid process following other procedure
I120	Hypertensive chronic kidney disease with stage 5 chronic kidney disease or end stage renal disease
I129	Hypertensive chronic kidney disease with stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease
I130	Hypertensive heart and chronic kidney disease with heart failure and stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease
I1310	Hypertensive heart and chronic kidney disease without heart failure, with stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease
I1311	Hypertensive heart and chronic kidney disease without heart failure, with stage 5 chronic kidney disease, or end stage renal disease
I132	Hypertensive heart and chronic kidney disease with heart failure and with stage 5 chronic kidney disease, or end stage renal disease
I97410	Intraoperative hemorrhage and hematoma of a circulatory system organ or structure complicating a cardiac catheterization

Diagnosis Code	Description
I97411	Intraoperative hemorrhage and hematoma of a circulatory system organ or structure complicating a cardiac bypass
I97418	Intraoperative hemorrhage and hematoma of a circulatory system organ or structure complicating other circulatory system procedure
I9742	Intraoperative hemorrhage and hematoma of a circulatory system organ or structure complicating other procedure
I97610	Postprocedural hemorrhage and hematoma of a circulatory system organ or structure following a cardiac catheterization
I97611	Postprocedural hemorrhage and hematoma of a circulatory system organ or structure following cardiac bypass
I97618	Postprocedural hemorrhage and hematoma of a circulatory system organ or structure following other circulatory system procedure
I9762	Postprocedural hemorrhage and hematoma of a circulatory system organ or structure following other procedure
J9561	Intraoperative hemorrhage and hematoma of a respiratory system organ or structure complicating a respiratory system procedure
J9562	Intraoperative hemorrhage and hematoma of a respiratory system organ or structure complicating other procedure
J95830	Postprocedural hemorrhage and hematoma of a respiratory system organ or structure following a respiratory system procedure
J95831	Postprocedural hemorrhage and hematoma of a respiratory system organ or structure following other procedure
K9161	Intraoperative hemorrhage and hematoma of a digestive system organ or structure complicating a digestive system procedure
K9162	Intraoperative hemorrhage and hematoma of a digestive system organ or structure complicating other procedure
K91840	Postprocedural hemorrhage and hematoma of a digestive system organ or structure following a digestive system procedure
K91841	Postprocedural hemorrhage and hematoma of a digestive system organ or structure following other procedure
L7601	Intraoperative hemorrhage and hematoma of skin and subcutaneous tissue complicating a dermatologic procedure
L7602	Intraoperative hemorrhage and hematoma of skin and subcutaneous tissue complicating other procedure
L7621	Postprocedural hemorrhage and hematoma of skin and subcutaneous tissue following a dermatologic procedure
L7622	Postprocedural hemorrhage and hematoma of skin and subcutaneous tissue following other procedure
M0540	Rheumatoid myopathy with rheumatoid arthritis of unspecified site
M05411	Rheumatoid myopathy with rheumatoid arthritis of right shoulder
M05412	Rheumatoid myopathy with rheumatoid arthritis of left shoulder
M05419	Rheumatoid myopathy with rheumatoid arthritis of unspecified shoulder
M05421	Rheumatoid myopathy with rheumatoid arthritis of right elbow
M05422	Rheumatoid myopathy with rheumatoid arthritis of left elbow
M05429	Rheumatoid myopathy with rheumatoid arthritis of unspecified elbow

Diagnosis Code	Description
M05431	Rheumatoid myopathy with rheumatoid arthritis of right wrist
M05432	Rheumatoid myopathy with rheumatoid arthritis of left wrist
M05439	Rheumatoid myopathy with rheumatoid arthritis of unspecified wrist
M05441	Rheumatoid myopathy with rheumatoid arthritis of right hand
M05442	Rheumatoid myopathy with rheumatoid arthritis of left hand
M05449	Rheumatoid myopathy with rheumatoid arthritis of unspecified hand
M05451	Rheumatoid myopathy with rheumatoid arthritis of right hip
M05452	Rheumatoid myopathy with rheumatoid arthritis of left hip
M05459	Rheumatoid myopathy with rheumatoid arthritis of unspecified hip
M05461	Rheumatoid myopathy with rheumatoid arthritis of right knee
M05462	Rheumatoid myopathy with rheumatoid arthritis of left knee
M05469	Rheumatoid myopathy with rheumatoid arthritis of unspecified knee
M05471	Rheumatoid myopathy with rheumatoid arthritis of right ankle and foot
M05472	Rheumatoid myopathy with rheumatoid arthritis of left ankle and foot
M05479	Rheumatoid myopathy with rheumatoid arthritis of unspecified ankle and foot
M0549	Rheumatoid myopathy with rheumatoid arthritis of multiple sites
M0550	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified site
M05511	Rheumatoid polyneuropathy with rheumatoid arthritis of right shoulder
M05512	Rheumatoid polyneuropathy with rheumatoid arthritis of left shoulder
M05519	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified shoulder
M05521	Rheumatoid polyneuropathy with rheumatoid arthritis of right elbow
M05522	Rheumatoid polyneuropathy with rheumatoid arthritis of left elbow
M05529	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified elbow
M05531	Rheumatoid polyneuropathy with rheumatoid arthritis of right wrist
M05532	Rheumatoid polyneuropathy with rheumatoid arthritis of left wrist
M05539	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified wrist
M05541	Rheumatoid polyneuropathy with rheumatoid arthritis of right hand
M05542	Rheumatoid polyneuropathy with rheumatoid arthritis of left hand
M05549	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified hand
M05551	Rheumatoid polyneuropathy with rheumatoid arthritis of right hip
M05552	Rheumatoid polyneuropathy with rheumatoid arthritis of left hip
M05559	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified hip
M05561	Rheumatoid polyneuropathy with rheumatoid arthritis of right knee
M05562	Rheumatoid polyneuropathy with rheumatoid arthritis of left knee
M05569	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified knee
M05571	Rheumatoid polyneuropathy with rheumatoid arthritis of right ankle and foot
M05572	Rheumatoid polyneuropathy with rheumatoid arthritis of left ankle and foot
M05579	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified ankle and foot
M0559	Rheumatoid polyneuropathy with rheumatoid arthritis of multiple sites

Diagnosis Code	Description
M0570	Rheumatoid arthritis with rheumatoid factor of unspecified site without organ or systems involvement
M05711	Rheumatoid arthritis with rheumatoid factor of right shoulder without organ or systems involvement
M05712	Rheumatoid arthritis with rheumatoid factor of left shoulder without organ or systems involvement
M05719	Rheumatoid arthritis with rheumatoid factor of unspecified shoulder without organ or systems involvement
M05721	Rheumatoid arthritis with rheumatoid factor of right elbow without organ or systems involvement
M05722	Rheumatoid arthritis with rheumatoid factor of left elbow without organ or systems involvement
M05729	Rheumatoid arthritis with rheumatoid factor of unspecified elbow without organ or systems involvement
M05731	Rheumatoid arthritis with rheumatoid factor of right wrist without organ or systems involvement
M05732	Rheumatoid arthritis with rheumatoid factor of left wrist without organ or systems involvement

M05749	Rheumatoid arthritis with rheumatoid factor of unspecified hand without organ or systems involvement
M05751	Rheumatoid arthritis with rheumatoid factor of right hip without organ or systems involvement
M05752	Rheumatoid arthritis with rheumatoid factor of left hip without organ or systems involvement
M05759	Rheumatoid arthritis with rheumatoid factor of unspecified hip without organ or systems involvement
M05761	Rheumatoid arthritis with rheumatoid factor of right knee without organ or systems involvement
M05762	Rheumatoid arthritis with rheumatoid factor of left knee without organ or systems involvement
M05769	Rheumatoid arthritis with rheumatoid factor of unspecified knee without organ or systems involvement
M05771	Rheumatoid arthritis with rheumatoid factor of right ankle and foot without organ or systems involvement
M05772	Rheumatoid arthritis with rheumatoid factor of left ankle and foot without organ or systems involvement
M05779	Rheumatoid arthritis with rheumatoid factor of unspecified ankle and foot without organ or systems involvement
M0579	Rheumatoid arthritis with rheumatoid factor of multiple sites without organ or systems involvement
M0580	Other rheumatoid arthritis with rheumatoid factor of unspecified site

Diagnosis Code	Description
M05811	Other rheumatoid arthritis with rheumatoid factor of right shoulder
M05812	Other rheumatoid arthritis with rheumatoid factor of left shoulder
M05819	Other rheumatoid arthritis with rheumatoid factor of unspecified shoulder
M05821	Other rheumatoid arthritis with rheumatoid factor of right elbow
M05822	Other rheumatoid arthritis with rheumatoid factor of left elbow
M05829	Other rheumatoid arthritis with rheumatoid factor of unspecified elbow
M05831	Other rheumatoid arthritis with rheumatoid factor of right wrist
M05832	Other rheumatoid arthritis with rheumatoid factor of left wrist
M05839	Other rheumatoid arthritis with rheumatoid factor of unspecified wrist
M05841	Other rheumatoid arthritis with rheumatoid factor of right hand
M05842	Other rheumatoid arthritis with rheumatoid factor of left hand
M05849	Other rheumatoid arthritis with rheumatoid factor of unspecified hand
M05851	Other rheumatoid arthritis with rheumatoid factor of right hip
M05852	Other rheumatoid arthritis with rheumatoid factor of left hip
M05859	Other rheumatoid arthritis with rheumatoid factor of unspecified hip
M05861	Other rheumatoid arthritis with rheumatoid factor of right knee
M05862	Other rheumatoid arthritis with rheumatoid factor of left knee
M05869	Other rheumatoid arthritis with rheumatoid factor of unspecified knee
M05871	Other rheumatoid arthritis with rheumatoid factor of right ankle and foot
M05872	Other rheumatoid arthritis with rheumatoid factor of left ankle and foot
M05879	Other rheumatoid arthritis with rheumatoid factor of unspecified ankle and foot
M0589	Other rheumatoid arthritis with rheumatoid factor of multiple sites
M059	Rheumatoid arthritis with rheumatoid factor, unspecified
M0600	Rheumatoid arthritis without rheumatoid factor, unspecified site
M06011	Rheumatoid arthritis without rheumatoid factor, right shoulder
M06012	Rheumatoid arthritis without rheumatoid factor, left shoulder
M06019	Rheumatoid arthritis without rheumatoid factor, unspecified shoulder
M06021	Rheumatoid arthritis without rheumatoid factor, right elbow
M06022	Rheumatoid arthritis without rheumatoid factor, left elbow
M06029	Rheumatoid arthritis without rheumatoid factor, unspecified elbow
M06031	Rheumatoid arthritis without rheumatoid factor, right wrist
M06032	Rheumatoid arthritis without rheumatoid factor, left wrist
M06039	Rheumatoid arthritis without rheumatoid factor, unspecified wrist
M06041	Rheumatoid arthritis without rheumatoid factor, right hand
M06042	Rheumatoid arthritis without rheumatoid factor, left hand
M06049	Rheumatoid arthritis without rheumatoid factor, unspecified hand
M06051	Rheumatoid arthritis without rheumatoid factor, right hip
M06052	Rheumatoid arthritis without rheumatoid factor, left hip
M06059	Rheumatoid arthritis without rheumatoid factor, unspecified hip

Diagnosis Code	Description
M06061	Rheumatoid arthritis without rheumatoid factor, right knee
M06062	Rheumatoid arthritis without rheumatoid factor, left knee
M06069	Rheumatoid arthritis without rheumatoid factor, unspecified knee
M06071	Rheumatoid arthritis without rheumatoid factor, right ankle and foot
M06072	Rheumatoid arthritis without rheumatoid factor, left ankle and foot
M06079	Rheumatoid arthritis without rheumatoid factor, unspecified ankle and foot
M0608	Rheumatoid arthritis without rheumatoid factor, vertebrae
M0609	Rheumatoid arthritis without rheumatoid factor, multiple sites
M0620	Rheumatoid bursitis, unspecified site
M06211	Rheumatoid bursitis, right shoulder
M06212	Rheumatoid bursitis, left shoulder
M06219	Rheumatoid bursitis, unspecified shoulder
M06221	Rheumatoid bursitis, right elbow
M06222	Rheumatoid bursitis, left elbow
M06229	Rheumatoid bursitis, unspecified elbow
M06231	Rheumatoid bursitis, right wrist
M06232	Rheumatoid bursitis, left wrist
M06239	Rheumatoid bursitis, unspecified wrist
M06241	Rheumatoid bursitis, right hand
M06242	Rheumatoid bursitis, left hand
M06249	Rheumatoid bursitis, unspecified hand
M06251	Rheumatoid bursitis, right hip
M06252	Rheumatoid bursitis, left hip
M06259	Rheumatoid bursitis, unspecified hip
M06261	Rheumatoid bursitis, right knee
M06262	Rheumatoid bursitis, left knee
M06269	Rheumatoid bursitis, unspecified knee
M06271	Rheumatoid bursitis, right ankle and foot
M06272	Rheumatoid bursitis, left ankle and foot
M06279	Rheumatoid bursitis, unspecified ankle and foot
M0628	Rheumatoid bursitis, vertebrae
M0629	Rheumatoid bursitis, multiple sites
M0630	Rheumatoid nodule, unspecified site
M06311	Rheumatoid nodule, right shoulder
M06312	Rheumatoid nodule, left shoulder
M06319	Rheumatoid nodule, unspecified shoulder
M06321	Rheumatoid nodule, right elbow
M06322	Rheumatoid nodule, left elbow
M06329	Rheumatoid nodule, unspecified elbow

Diagnosis Code	Description
M06331	Rheumatoid nodule, right wrist
M06332	Rheumatoid nodule, left wrist
M06339	Rheumatoid nodule, unspecified wrist
M06341	Rheumatoid nodule, right hand
M06342	Rheumatoid nodule, left hand
M06349	Rheumatoid nodule, unspecified hand
M06351	Rheumatoid nodule, right hip
M06352	Rheumatoid nodule, left hip
M06359	Rheumatoid nodule, unspecified hip
M06361	Rheumatoid nodule, right knee
M06362	Rheumatoid nodule, left knee
M06369	Rheumatoid nodule, unspecified knee
M06371	Rheumatoid nodule, right ankle and foot
M06372	Rheumatoid nodule, left ankle and foot
M06379	Rheumatoid nodule, unspecified ankle and foot
M0638	Rheumatoid nodule, vertebrae
M0639	Rheumatoid nodule, multiple sites
M0680	Other specified rheumatoid arthritis, unspecified site
M06811	Other specified rheumatoid arthritis, right shoulder
M06812	Other specified rheumatoid arthritis, left shoulder
M06819	Other specified rheumatoid arthritis, unspecified shoulder
M06821	Other specified rheumatoid arthritis, right elbow
M06822	Other specified rheumatoid arthritis, left elbow
M06829	Other specified rheumatoid arthritis, unspecified elbow
M06831	Other specified rheumatoid arthritis, right wrist
M06832	Other specified rheumatoid arthritis, left wrist
M06839	Other specified rheumatoid arthritis, unspecified wrist
M06841	Other specified rheumatoid arthritis, right hand
M06842	Other specified rheumatoid arthritis, left hand
M06849	Other specified rheumatoid arthritis, unspecified hand
M06851	Other specified rheumatoid arthritis, right hip
M06852	Other specified rheumatoid arthritis, left hip
M06859	Other specified rheumatoid arthritis, unspecified hip
M06861	Other specified rheumatoid arthritis, right knee
M06862	Other specified rheumatoid arthritis, left knee
M06869	Other specified rheumatoid arthritis, unspecified knee
M06871	Other specified rheumatoid arthritis, right ankle and foot
M06872	Other specified rheumatoid arthritis, left ankle and foot
M06879	Other specified rheumatoid arthritis, unspecified ankle and foot

Diagnosis Code	Description
M0688	Other specified rheumatoid arthritis, vertebrae
M0689	Other specified rheumatoid arthritis, multiple sites
M069	Rheumatoid arthritis, unspecified
M96810	Intraoperative hemorrhage and hematoma of a musculoskeletal structure complicating a musculoskeletal system procedure
M96811	Intraoperative hemorrhage and hematoma of a musculoskeletal structure complicating other procedure
M96830	Postprocedural hemorrhage and hematoma of a musculoskeletal structure following a musculoskeletal system procedure
M96831	Postprocedural hemorrhage and hematoma of a musculoskeletal structure following other procedure
N19	Unspecified kidney failure
N2589	Other disorders resulting from impaired renal tubular function
N9961	Intraoperative hemorrhage and hematoma of a genitourinary system organ or structure complicating a genitourinary system procedure
N9962	Intraoperative hemorrhage and hematoma of a genitourinary system organ or structure complicating other procedure
N99820	Postprocedural hemorrhage and hematoma of a genitourinary system organ or structure following a genitourinary system procedure
N99821	Postprocedural hemorrhage and hematoma of a genitourinary system organ or structure following other procedure
Z48298	Encounter for aftercare following other organ transplant
Z5111	Encounter for antineoplastic chemotherapy
Z5112	Encounter for antineoplastic immunotherapy
Z7682	Awaiting organ transplant status

In addition to the diagnosis codes listed above, procedure code J0885 may also be considered for reimbursement with the following diagnosis codes:

Diagnosis Code	Description
N181	Chronic kidney disease, stage 1
N182	Chronic kidney disease, stage 2 (mild)
N183	Chronic kidney disease, stage 3 (moderate)
N184	Chronic kidney disease, stage 4 (severe)
N185	Chronic kidney disease, stage 5
N186	End stage renal disease
N189	Chronic kidney disease, unspecified

Procedure code J0882 is a benefit of the CSHCN Services Program for the following diagnosis codes:

Diagnosis Code	Description
B20	Human immunodeficiency virus [HIV] disease
C880	Waldenstrom macroglobulinemia

Diagnosis Code	Description
C9000	Multiple myeloma not having achieved remission
C9001	Multiple myeloma in remission
C9002	Multiple myeloma in relapse
D500	Iron deficiency anemia secondary to blood loss (chronic)
D501	Sideropenic dysphagia
D508	Other iron deficiency anemias
D509	Iron deficiency anemia, unspecified
D510	Vitamin B12 deficiency anemia due to intrinsic factor deficiency
D511	Vitamin B12 deficiency anemia due to selective vitamin B12 malabsorption with proteinuria
D512	Transcobalamin II deficiency
D513	Other dietary vitamin B12 deficiency anemia
D518	Other vitamin B12 deficiency anemias
D519	Vitamin B12 deficiency anemia, unspecified
D520	Dietary folate deficiency anemia
D521	Drug-induced folate deficiency anemia
D528	Other folate deficiency anemias
D529	Folate deficiency anemia, unspecified
D530	Protein deficiency anemia
D531	Other megaloblastic anemias, not elsewhere classified
D532	Scorbutic anemia
D538	Other specified nutritional anemias
D539	Nutritional anemia, unspecified
D550	Anemia due to glucose-6-phosphate dehydrogenase [G6PD] deficiency
D551	Anemia due to other disorders of glutathione metabolism
D552	Anemia due to disorders of glycolytic enzymes
D553	Anemia due to disorders of nucleotide metabolism
D558	Other anemias due to enzyme disorders
D560	Alpha thalassemia
D561	Beta thalassemia
D562	Delta-beta thalassemia
D563	Thalassemia minor
D564	Hereditary persistence of fetal hemoglobin [HPFH]
D565	Hemoglobin E-beta thalassemia
D568	Other thalassemias
D569	Thalassemia, unspecified
D5701	Hb-SS disease with acute chest syndrome
D5702	Hb-SS disease with splenic sequestration
D571	Sickle-cell disease without crisis
D5720	Sickle-cell/Hb-C disease without crisis

Diagnosis Code	Description
D57211	Sickle-cell/Hb-C disease with acute chest syndrome
D57212	Sickle-cell/Hb-C disease with splenic sequestration
D573	Sickle-cell trait
D5740	Sickle-cell thalassemia without crisis
D57411	Sickle-cell thalassemia with acute chest syndrome
D57412	Sickle-cell thalassemia with splenic sequestration
D5780	Other sickle-cell disorders without crisis
D57811	Other sickle-cell disorders with acute chest syndrome
D57812	Other sickle-cell disorders with splenic sequestration
D580	Hereditary spherocytosis
D581	Hereditary elliptocytosis
D582	Other hemoglobinopathies
D588	Other specified hereditary hemolytic anemias
D590	Drug-induced autoimmune hemolytic anemia
D591	Other autoimmune hemolytic anemias
D592	Drug-induced nonautoimmune hemolytic anemia
D593	Hemolytic-uremic syndrome
D594	Other nonautoimmune hemolytic anemias
D595	Paroxysmal nocturnal hemoglobinuria [Marchiafava-Micheli]
D596	Hemoglobinuria due to hemolysis from other external causes
D598	Other acquired hemolytic anemias
D600	Chronic acquired pure red cell aplasia
D601	Transient acquired pure red cell aplasia
D608	Other acquired pure red cell aplasias
D6101	Constitutional (pure) red blood cell aplasia
D6109	Other constitutional aplastic anemia
D611	Drug-induced aplastic anemia
D612	Aplastic anemia due to other external agents
D613	Idiopathic aplastic anemia
D61810	Antineoplastic chemotherapy induced pancytopenia
D61811	Other drug-induced pancytopenia
D61818	Other pancytopenia
D6182	Myelophthisis
D6189	Other specified aplastic anemias and other bone marrow failure syndromes
D619	Aplastic anemia, unspecified
D62	Acute posthemorrhagic anemia
D630	Anemia in neoplastic disease
D631	Anemia in chronic kidney disease
D638	Anemia in other chronic diseases classified elsewhere

Diagnosis Code	Description
D640	Hereditary sideroblastic anemia
D641	Secondary sideroblastic anemia due to disease
D642	Secondary sideroblastic anemia due to drugs and toxins
D643	Other sideroblastic anemias
D644	Congenital dyserythropoietic anemia
D6481	Anemia due to antineoplastic chemotherapy
D6489	Other specified anemias
D649	Anemia, unspecified
D7801	Intraoperative hemorrhage and hematoma of the spleen complicating a procedure on the spleen
D7802	Intraoperative hemorrhage and hematoma of the spleen complicating other procedure
D7821	Postprocedural hemorrhage and hematoma of the spleen following a procedure on the spleen
D7822	Postprocedural hemorrhage and hematoma of the spleen following other procedure
E3601	Intraoperative hemorrhage and hematoma of an endocrine system organ or structure complicating an endocrine system procedure
E3602	Intraoperative hemorrhage and hematoma of an endocrine system organ or structure complicating other procedure
G9731	Intraoperative hemorrhage and hematoma of a nervous system organ or structure complicating a nervous system procedure
G9732	Intraoperative hemorrhage and hematoma of a nervous system organ or structure complicating other procedure
G9751	Postprocedural hemorrhage and hematoma of a nervous system organ or structure following a nervous system procedure
G9752	Postprocedural hemorrhage and hematoma of a nervous system organ or structure following other procedure
H59111	Intraoperative hemorrhage and hematoma of right eye and adnexa complicating an ophthalmic procedure
H59112	Intraoperative hemorrhage and hematoma of left eye and adnexa complicating an ophthalmic procedure
H59113	Intraoperative hemorrhage and hematoma of eye and adnexa complicating an ophthalmic procedure, bilateral
H59119	Intraoperative hemorrhage and hematoma of unspecified eye and adnexa complicating an ophthalmic procedure
H59121	Intraoperative hemorrhage and hematoma of right eye and adnexa complicating other procedure
H59122	Intraoperative hemorrhage and hematoma of left eye and adnexa complicating other procedure
H59123	Intraoperative hemorrhage and hematoma of eye and adnexa complicating other procedure, bilateral
H59129	Intraoperative hemorrhage and hematoma of unspecified eye and adnexa complicating other procedure
H59311	Postprocedural hemorrhage and hematoma of right eye and adnexa following an ophthalmic procedure

Diagnosis Code	Description
H59312	Postprocedural hemorrhage and hematoma of left eye and adnexa following an ophthalmic procedure
H59313	Postprocedural hemorrhage and hematoma of eye and adnexa following an ophthalmic procedure, bilateral
H59319	Postprocedural hemorrhage and hematoma of unspecified eye and adnexa following an ophthalmic procedure
H59321	Postprocedural hemorrhage and hematoma of right eye and adnexa following other procedure
H59322	Postprocedural hemorrhage and hematoma of left eye and adnexa following other procedure
H59323	Postprocedural hemorrhage and hematoma of eye and adnexa following other procedure, bilateral
H59329	Postprocedural hemorrhage and hematoma of unspecified eye and adnexa following other procedure
H9521	Intraoperative hemorrhage and hematoma of ear and mastoid process complicating a procedure on the ear and mastoid process
H9522	Intraoperative hemorrhage and hematoma of ear and mastoid process complicating other procedure
H9541	Postprocedural hemorrhage and hematoma of ear and mastoid process following a procedure on the ear and mastoid process
H9542	Postprocedural hemorrhage and hematoma of ear and mastoid process following other procedure
I120	Hypertensive chronic kidney disease with stage 5 chronic kidney disease or end stage renal disease
I129	Hypertensive chronic kidney disease with stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease
I130	Hypertensive heart and chronic kidney disease with heart failure and stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease
I1310	Hypertensive heart and chronic kidney disease without heart failure, with stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease
I1311	Hypertensive heart and chronic kidney disease without heart failure, with stage 5 chronic kidney disease, or end stage renal disease
I132	Hypertensive heart and chronic kidney disease with heart failure and with stage 5 chronic kidney disease, or end stage renal disease
I97410	Intraoperative hemorrhage and hematoma of a circulatory system organ or structure complicating a cardiac catheterization
I97411	Intraoperative hemorrhage and hematoma of a circulatory system organ or structure complicating a cardiac bypass
I97418	Intraoperative hemorrhage and hematoma of a circulatory system organ or structure complicating other circulatory system procedure
I9742	Intraoperative hemorrhage and hematoma of a circulatory system organ or structure complicating other procedure
I97610	Postprocedural hemorrhage and hematoma of a circulatory system organ or structure following a cardiac catheterization
I97611	Postprocedural hemorrhage and hematoma of a circulatory system organ or structure following cardiac bypass

Diagnosis Code	Description
I97618	Postprocedural hemorrhage and hematoma of a circulatory system organ or structure following other circulatory system procedure
I9762	Postprocedural hemorrhage and hematoma of a circulatory system organ or structure following other procedure
J9561	Intraoperative hemorrhage and hematoma of a respiratory system organ or structure complicating a respiratory system procedure
J9562	Intraoperative hemorrhage and hematoma of a respiratory system organ or structure complicating other procedure
J95830	Postprocedural hemorrhage and hematoma of a respiratory system organ or structure following a respiratory system procedure
J95831	Postprocedural hemorrhage and hematoma of a respiratory system organ or structure following other procedure
K9161	Intraoperative hemorrhage and hematoma of a digestive system organ or structure complicating a digestive system procedure
K9162	Intraoperative hemorrhage and hematoma of a digestive system organ or structure complicating other procedure
K91840	Postprocedural hemorrhage and hematoma of a digestive system organ or structure following a digestive system procedure
K91841	Postprocedural hemorrhage and hematoma of a digestive system organ or structure following other procedure
L7601	Intraoperative hemorrhage and hematoma of skin and subcutaneous tissue complicating a dermatologic procedure
L7602	Intraoperative hemorrhage and hematoma of skin and subcutaneous tissue complicating other procedure
L7621	Postprocedural hemorrhage and hematoma of skin and subcutaneous tissue following a dermatologic procedure
L7622	Postprocedural hemorrhage and hematoma of skin and subcutaneous tissue following other procedure
M0540	Rheumatoid myopathy with rheumatoid arthritis of unspecified site
M05411	Rheumatoid myopathy with rheumatoid arthritis of right shoulder
M05412	Rheumatoid myopathy with rheumatoid arthritis of left shoulder
M05419	Rheumatoid myopathy with rheumatoid arthritis of unspecified shoulder
M05421	Rheumatoid myopathy with rheumatoid arthritis of right elbow
M05422	Rheumatoid myopathy with rheumatoid arthritis of left elbow
M05429	Rheumatoid myopathy with rheumatoid arthritis of unspecified elbow
M05431	Rheumatoid myopathy with rheumatoid arthritis of right wrist
M05432	Rheumatoid myopathy with rheumatoid arthritis of left wrist
M05439	Rheumatoid myopathy with rheumatoid arthritis of unspecified wrist
M05441	Rheumatoid myopathy with rheumatoid arthritis of right hand
M05442	Rheumatoid myopathy with rheumatoid arthritis of left hand
M05449	Rheumatoid myopathy with rheumatoid arthritis of unspecified hand
M05451	Rheumatoid myopathy with rheumatoid arthritis of right hip
M05452	Rheumatoid myopathy with rheumatoid arthritis of left hip
M05459	Rheumatoid myopathy with rheumatoid arthritis of unspecified hip

Diagnosis Code	Description
M05461	Rheumatoid myopathy with rheumatoid arthritis of right knee
M05462	Rheumatoid myopathy with rheumatoid arthritis of left knee
M05469	Rheumatoid myopathy with rheumatoid arthritis of unspecified knee
M05471	Rheumatoid myopathy with rheumatoid arthritis of right ankle and foot
M05472	Rheumatoid myopathy with rheumatoid arthritis of left ankle and foot
M05479	Rheumatoid myopathy with rheumatoid arthritis of unspecified ankle and foot
M0549	Rheumatoid myopathy with rheumatoid arthritis of multiple sites
M0550	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified site
M05511	Rheumatoid polyneuropathy with rheumatoid arthritis of right shoulder
M05512	Rheumatoid polyneuropathy with rheumatoid arthritis of left shoulder
M05519	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified shoulder
M05521	Rheumatoid polyneuropathy with rheumatoid arthritis of right elbow
M05522	Rheumatoid polyneuropathy with rheumatoid arthritis of left elbow
M05529	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified elbow
M05531	Rheumatoid polyneuropathy with rheumatoid arthritis of right wrist
M05532	Rheumatoid polyneuropathy with rheumatoid arthritis of left wrist
M05539	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified wrist
M05541	Rheumatoid polyneuropathy with rheumatoid arthritis of right hand
M05542	Rheumatoid polyneuropathy with rheumatoid arthritis of left hand
M05549	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified hand
M05551	Rheumatoid polyneuropathy with rheumatoid arthritis of right hip
M05552	Rheumatoid polyneuropathy with rheumatoid arthritis of left hip
M05559	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified hip
M05561	Rheumatoid polyneuropathy with rheumatoid arthritis of right knee
M05562	Rheumatoid polyneuropathy with rheumatoid arthritis of left knee
M05569	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified knee
M05571	Rheumatoid polyneuropathy with rheumatoid arthritis of right ankle and foot
M05572	Rheumatoid polyneuropathy with rheumatoid arthritis of left ankle and foot
M05579	Rheumatoid polyneuropathy with rheumatoid arthritis of unspecified ankle and foot
M0559	Rheumatoid polyneuropathy with rheumatoid arthritis of multiple sites
M0570	Rheumatoid arthritis with rheumatoid factor of unspecified site without organ or systems involvement
M05711	Rheumatoid arthritis with rheumatoid factor of right shoulder without organ or systems involvement
M05712	Rheumatoid arthritis with rheumatoid factor of left shoulder without organ or systems involvement
M05719	Rheumatoid arthritis with rheumatoid factor of unspecified shoulder without organ or systems involvement
M05721	Rheumatoid arthritis with rheumatoid factor of right elbow without organ or systems involvement

Diagnosis Code	Description
M05722	Rheumatoid arthritis with rheumatoid factor of left elbow without organ or systems involvement
M05729	Rheumatoid arthritis with rheumatoid factor of unspecified elbow without organ or systems involvement
M05731	Rheumatoid arthritis with rheumatoid factor of right wrist without organ or systems involvement
M05732	Rheumatoid arthritis with rheumatoid factor of left wrist without organ or systems involvement
M05739	Rheumatoid arthritis with rheumatoid factor of unspecified wrist without organ or systems involvement
M05741	Rheumatoid arthritis with rheumatoid factor of right hand without organ or systems involvement
M05742	Rheumatoid arthritis with rheumatoid factor of left hand without organ or systems involvement
M05749	Rheumatoid arthritis with rheumatoid factor of unspecified hand without organ or systems involvement
M05751	Rheumatoid arthritis with rheumatoid factor of right hip without organ or systems involvement
M05752	Rheumatoid arthritis with rheumatoid factor of left hip without organ or systems involvement
M05759	Rheumatoid arthritis with rheumatoid factor of unspecified hip without organ or systems involvement
M05761	Rheumatoid arthritis with rheumatoid factor of right knee without organ or systems involvement
M05762	Rheumatoid arthritis with rheumatoid factor of left knee without organ or systems involvement
M05769	Rheumatoid arthritis with rheumatoid factor of unspecified knee without organ or systems involvement
M05771	Rheumatoid arthritis with rheumatoid factor of right ankle and foot without organ or systems involvement
M05772	Rheumatoid arthritis with rheumatoid factor of left ankle and foot without organ or systems involvement
M05779	Rheumatoid arthritis with rheumatoid factor of unspecified ankle and foot without organ or systems involvement
M0579	Rheumatoid arthritis with rheumatoid factor of multiple sites without organ or systems involvement
M0580	Other rheumatoid arthritis with rheumatoid factor of unspecified site
M05811	Other rheumatoid arthritis with rheumatoid factor of right shoulder
M05812	Other rheumatoid arthritis with rheumatoid factor of left shoulder
M05819	Other rheumatoid arthritis with rheumatoid factor of unspecified shoulder
M05821	Other rheumatoid arthritis with rheumatoid factor of right elbow
M05822	Other rheumatoid arthritis with rheumatoid factor of left elbow
M05829	Other rheumatoid arthritis with rheumatoid factor of unspecified elbow
M05831	Other rheumatoid arthritis with rheumatoid factor of right wrist
M05832	Other rheumatoid arthritis with rheumatoid factor of left wrist

Diagnosis Code	Description
M05839	Other rheumatoid arthritis with rheumatoid factor of unspecified wrist
M05841	Other rheumatoid arthritis with rheumatoid factor of right hand
M05842	Other rheumatoid arthritis with rheumatoid factor of left hand
M05849	Other rheumatoid arthritis with rheumatoid factor of unspecified hand
M05851	Other rheumatoid arthritis with rheumatoid factor of right hip
M05852	Other rheumatoid arthritis with rheumatoid factor of left hip
M05859	Other rheumatoid arthritis with rheumatoid factor of unspecified hip
M05861	Other rheumatoid arthritis with rheumatoid factor of right knee
M05862	Other rheumatoid arthritis with rheumatoid factor of left knee
M05869	Other rheumatoid arthritis with rheumatoid factor of unspecified knee
M05871	Other rheumatoid arthritis with rheumatoid factor of right ankle and foot
M05872	Other rheumatoid arthritis with rheumatoid factor of left ankle and foot
M05879	Other rheumatoid arthritis with rheumatoid factor of unspecified ankle and foot
M0589	Other rheumatoid arthritis with rheumatoid factor of multiple sites
M059	Rheumatoid arthritis with rheumatoid factor, unspecified
M0600	Rheumatoid arthritis without rheumatoid factor, unspecified site
M06011	Rheumatoid arthritis without rheumatoid factor, right shoulder
M06012	Rheumatoid arthritis without rheumatoid factor, left shoulder
M06019	Rheumatoid arthritis without rheumatoid factor, unspecified shoulder
M06021	Rheumatoid arthritis without rheumatoid factor, right elbow
M06022	Rheumatoid arthritis without rheumatoid factor, left elbow
M06029	Rheumatoid arthritis without rheumatoid factor, unspecified elbow
M06031	Rheumatoid arthritis without rheumatoid factor, right wrist
M06032	Rheumatoid arthritis without rheumatoid factor, left wrist
M06039	Rheumatoid arthritis without rheumatoid factor, unspecified wrist
M06041	Rheumatoid arthritis without rheumatoid factor, right hand
M06042	Rheumatoid arthritis without rheumatoid factor, left hand
M06049	Rheumatoid arthritis without rheumatoid factor, unspecified hand
M06051	Rheumatoid arthritis without rheumatoid factor, right hip
M06052	Rheumatoid arthritis without rheumatoid factor, left hip
M06059	Rheumatoid arthritis without rheumatoid factor, unspecified hip
M06061	Rheumatoid arthritis without rheumatoid factor, right knee
M06062	Rheumatoid arthritis without rheumatoid factor, left knee
M06069	Rheumatoid arthritis without rheumatoid factor, unspecified knee
M06071	Rheumatoid arthritis without rheumatoid factor, right ankle and foot
M06072	Rheumatoid arthritis without rheumatoid factor, left ankle and foot
M06079	Rheumatoid arthritis without rheumatoid factor, unspecified ankle and foot
M0608	Rheumatoid arthritis without rheumatoid factor, vertebrae
M0609	Rheumatoid arthritis without rheumatoid factor, multiple sites

Diagnosis Code	Description
M0620	Rheumatoid bursitis, unspecified site
M06211	Rheumatoid bursitis, right shoulder
M06212	Rheumatoid bursitis, left shoulder
M06219	Rheumatoid bursitis, unspecified shoulder
M06221	Rheumatoid bursitis, right elbow
M06222	Rheumatoid bursitis, left elbow
M06229	Rheumatoid bursitis, unspecified elbow
M06231	Rheumatoid bursitis, right wrist
M06232	Rheumatoid bursitis, left wrist
M06239	Rheumatoid bursitis, unspecified wrist
M06241	Rheumatoid bursitis, right hand
M06242	Rheumatoid bursitis, left hand
M06249	Rheumatoid bursitis, unspecified hand
M06251	Rheumatoid bursitis, right hip
M06252	Rheumatoid bursitis, left hip
M06259	Rheumatoid bursitis, unspecified hip
M06261	Rheumatoid bursitis, right knee
M06262	Rheumatoid bursitis, left knee
M06269	Rheumatoid bursitis, unspecified knee
M06271	Rheumatoid bursitis, right ankle and foot
M06272	Rheumatoid bursitis, left ankle and foot
M06279	Rheumatoid bursitis, unspecified ankle and foot
M0628	Rheumatoid bursitis, vertebrae
M0629	Rheumatoid bursitis, multiple sites
M0630	Rheumatoid nodule, unspecified site
M06311	Rheumatoid nodule, right shoulder
M06312	Rheumatoid nodule, left shoulder
M06319	Rheumatoid nodule, unspecified shoulder
M06321	Rheumatoid nodule, right elbow
M06322	Rheumatoid nodule, left elbow
M06329	Rheumatoid nodule, unspecified elbow
M06331	Rheumatoid nodule, right wrist
M06332	Rheumatoid nodule, left wrist
M06339	Rheumatoid nodule, unspecified wrist
M06341	Rheumatoid nodule, right hand
M06342	Rheumatoid nodule, left hand
M06349	Rheumatoid nodule, unspecified hand
M06351	Rheumatoid nodule, right hip
M06352	Rheumatoid nodule, left hip

Diagnosis Code	Description
M06359	Rheumatoid nodule, unspecified hip
M06361	Rheumatoid nodule, right knee
M06362	Rheumatoid nodule, left knee
M06369	Rheumatoid nodule, unspecified knee
M06371	Rheumatoid nodule, right ankle and foot
M06372	Rheumatoid nodule, left ankle and foot
M06379	Rheumatoid nodule, unspecified ankle and foot
M0638	Rheumatoid nodule, vertebrae
M0639	Rheumatoid nodule, multiple sites
M0680	Other specified rheumatoid arthritis, unspecified site
M06811	Other specified rheumatoid arthritis, right shoulder
M06812	Other specified rheumatoid arthritis, left shoulder
M06819	Other specified rheumatoid arthritis, unspecified shoulder
M06821	Other specified rheumatoid arthritis, right elbow
M06822	Other specified rheumatoid arthritis, left elbow
M06829	Other specified rheumatoid arthritis, unspecified elbow
M06831	Other specified rheumatoid arthritis, right wrist
M06832	Other specified rheumatoid arthritis, left wrist
M06839	Other specified rheumatoid arthritis, unspecified wrist
M06841	Other specified rheumatoid arthritis, right hand
M06842	Other specified rheumatoid arthritis, left hand
M06849	Other specified rheumatoid arthritis, unspecified hand
M06851	Other specified rheumatoid arthritis, right hip
M06852	Other specified rheumatoid arthritis, left hip
M06859	Other specified rheumatoid arthritis, unspecified hip
M06861	Other specified rheumatoid arthritis, right knee
M06862	Other specified rheumatoid arthritis, left knee
M06869	Other specified rheumatoid arthritis, unspecified knee
M06871	Other specified rheumatoid arthritis, right ankle and foot
M06872	Other specified rheumatoid arthritis, left ankle and foot
M06879	Other specified rheumatoid arthritis, unspecified ankle and foot
M0688	Other specified rheumatoid arthritis, vertebrae
M0689	Other specified rheumatoid arthritis, multiple sites
M069	Rheumatoid arthritis, unspecified
M96810	Intraoperative hemorrhage and hematoma of a musculoskeletal structure complicating a musculoskeletal system procedure
M96811	Intraoperative hemorrhage and hematoma of a musculoskeletal structure complicating other procedure
M96830	Postprocedural hemorrhage and hematoma of a musculoskeletal structure following a musculoskeletal system procedure

Diagnosis Code	Description
M96831	Postprocedural hemorrhage and hematoma of a musculoskeletal structure following other procedure
N19	Unspecified kidney failure
N2589	Other disorders resulting from impaired renal tubular function
N9961	Intraoperative hemorrhage and hematoma of a genitourinary system organ or structure complicating a genitourinary system procedure
N9962	Intraoperative hemorrhage and hematoma of a genitourinary system organ or structure complicating other procedure
N99820	Postprocedural hemorrhage and hematoma of a genitourinary system organ or structure following a genitourinary system procedure
N99821	Postprocedural hemorrhage and hematoma of a genitourinary system organ or structure following other procedure
Z48298	Encounter for aftercare following other organ transplant
Z5111	Encounter for antineoplastic chemotherapy
Z5112	Encounter for antineoplastic immunotherapy
Z7682	Awaiting organ transplant status

EPO is limited to three injections per calendar week (Sunday through Saturday). Procedure code J0885 must be submitted with an 11-digit NDC.

31.2.25.11 Growth Hormone

The Vendor Drug Program (VDP) reimburses growth hormone (hGH) injections for CSHCN Services Program clients for any of the following conditions:

- Chronic kidney disease
- Pituitary gland insufficiency
- Prader-Willi syndrome
- Turner syndrome
- Other specified disorders resulting from impaired renal function

Pharmacies must submit claims to the VDP. Pharmacies are reimbursed the same drug costs and dispensing fees allowed by the Texas Medicaid VDP.

Providers may refer to the Texas Health and Human Services Commission Texas Medicaid/CHIP Vendor Drug Program website at www.txvendordrug.com/dur/prior-approval.shtml for more information about the VDP, including available drugs.

31.2.25.11.1 Prior Authorization Requirements

Requests for prior approval of the medical criteria for growth hormone therapy must be submitted to the Texas Medicaid VDP by a program-approved endocrinologist using the "Growth Hormone Approval Request Form." The following criteria must be met:

- Normal thyroid function or may be corrected with medication
- Normal pituitary function studies or may be corrected with medication
- Documentation of open epiphyses (done in last 12 months)
- Evidence of deficient growth hormone (GH) production on two pharmacological provocative tests (GH peak less than 10 ng/ml)

- Physical stature less than the 3rd percentile
- Growth velocity 4cm or less per year
- Below normal somatomedin C level or insulin-like growth factor binding protein 3 (IGF/BP3)

Nutropin® is the only product approved for the treatment of chronic renal failure, and Genotropin® is the only product approved for the treatment of Prader-Willi syndrome.

Note: *Clients with Turner’s syndrome or Prader-Willi syndrome may be approved without evidence of deficient growth hormone production on provocative testing if other criteria are met.*

Initial approval is for a 6-month period. Requests for extensions may be granted for an additional 12 months at a time. Approval for continued growth hormone therapy may be granted if the following criteria are met:

- Growth chart documents growth equal to a minimum of 4cm per year and documents a significant increase from pretreatment levels
- Epiphyses must be open
- Bone age must be documented annually after a boy has reached a chronological age of 16 years and a girl has reached a chronological age of 14 years.

If an initial or extension request cannot be approved based on the above criteria, the approval request may be sent for medical review and reconsideration to the CSHCN Services Program.

Referto: Section 3.1.1, “Prescription Drug Benefits” in Chapter 3, “Client Benefits and Eligibility” for more information about the VDP.

31.2.25.12 Immune Globulins

Immune globulins may be indicated for treatment of certain immune disorders and states of immunodeficiency.

Immune and gamma globulins and the administration of immune and gamma globulins are benefits of the CSHCN Services Program.

Providers are responsible for administering immune globulins based on the Food and Drug Administration (FDA)-approved guidelines. In the absence of FDA indications, a drug must meet the following criteria for consideration of coverage:

- The drug is recognized by the American Hospital Formulary Service Drug Information, the U.S. Pharmacopoeia Dispensing Information, Vol. I., or two articles from major peer-reviewed journals that have validated data supporting the proposed use for the specific medical condition is safe and effective.
- It is medically necessary to treat the specific medical condition, including life-threatening conditions or chronic debilitating conditions.
- The drug is not experimental or investigational.

The following procedure codes may be used to submit claims for immune and gamma globulin injections:

Procedure Codes							
90281	90283	90284	90291	90371	90389	90396	90399
J0850	J1459	J1460	J1556	J1557	J1560	J1561	J1566
J1568	J1569	J1571	J1572	J1573	J1575	J1670	J2788
J2791	J2792						

The following conditions apply when billing immune globulin procedure codes:

- If procedure codes 90389 and J1670 are billed with the same date of service by any provider, only one is considered for reimbursement.
- If procedure codes J1571 and 90371 are billed with the same date of service by any provider, only one may be reimbursed.

Administration procedure codes 96369, 96370, 96372, and 96374 may be billed with the immune globulins listed in this section.

Procedure code 96370 must be billed with the same date of service as procedure code 96369.

Reimbursement for the following procedure codes will be based on the lowest AWP, minus 10.5 percent, according to the prices in the current edition of the *Red Book*, published by Thomson Healthcare, on file with the CSHCN Services Program.

Procedure Codes						
90281	90283	90291	90371	90389	90396	J1560

All other procedure codes for immune and gamma globulins may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

Retrospective review may be performed to ensure that the documentation supports the medical necessity of the service submitted on the claim.

31.2.25.12.1 Authorization Requirements

Unlisted procedure code 90399 may be considered for reimbursement with prior authorization. The requesting provider must submit the following documentation with the authorization request:

- The client’s diagnosis
- Medical records that indicate any prior treatments for this diagnosis
- A clear, concise description of the medical necessity of the immune globulin and the rationale for the recommendation of this particular immune globulin
- A procedure code that is comparable to the immune globulin being requested
- Documentation that this immune globulin is not investigational or experimental
- The place of service at which the immune globulin is to be administered
- The provider’s intended fee for this immune globulin

31.2.25.13 Infiximab

Infiximab (procedure code J1745) is a benefit of the CSHCN Services Program with the following diagnosis limitations:

Diagnosis Codes					
H2013	K5000	K50011	K50012	K50013	K50014

31.2.25.14 Leuprolide Acetate Injection

Procedure code J9217 is allowed for use in monthly, 3-month, 4-month, and 6-month doses. Providers must bill the following dosage increments:

Dose Period	Dose Quantity	Quantity Billed	Limitation
Monthly	7.5 mg	1	Once per month
3-month	22.5 mg	3	Once every 3 months
4-month	30 mg	4	Once every 4 months
6-month	45 mg	6	Once every 6 months

31.2.25.15 Monoclonal Antibodies - Asthma and Chronic Idiopathic Urticaria

31.2.25.15.1 Omalizumab

Omalizumab (procedure code J2357) is a benefit of the CSHCN Services Program when medically necessary and must be prior authorized.

Omalizumab is FDA approved for the treatment of clients who are 6 years of age and older with moderate to severe asthma. Omalizumab is also approved for the treatment of clients who are 12 years of age and older with chronic idiopathic urticaria, who remain symptomatic despite H1 antihistamine treatment. Clients who are younger than the FDA-approved age will be considered on a case-by-case basis by the CSHCN Services Program Medical Director or designee.

31.2.25.15.2 Mepolizumab

Mepolizumab (procedure code J2182) is a benefit of the CSHCN Services Program when prior authorized.

Mepolizumab is an injectable drug that is approved by the U.S. Food and Drug Administration (FDA) for the treatment of clients who are 12 years of age and older and have severe asthma with an eosinophilic phenotype. Clients who are younger than the FDA-approved age will be considered on a case-by-case basis by the CSHCN Services Program medical director or designee.

Treatment with mepolizumab may not occur concurrently with omalizumab or any other interleukin-5 antagonist.

Procedure code J2182 will be denied when submitted on the same date of service as procedure code J2357, by any provider.

Providers may not bill for an office visit if the only reason for the visit is an omalizumab, mepolizumab, or reslizumab injection.

31.2.25.15.3 Reslizumab

Reslizumab (procedure code J2786) is a benefit of the CSHCN Services Program when prior authorized.

Reslizumab is an injectable drug that is FDA-approved and indicated for the treatment of clients who are 18 years of age and older and have severe asthma with an eosinophilic phenotype. Clients who are younger than the FDA-approved age will be considered on a case-by-case basis by the CSHCN Services Program medical director or designee.

Reslizumab may only be initiated after a six-month trial of omalizumab therapy that has resulted in inadequate response. Criteria is detailed below in the mepolizumab section.

Treatment of mepolizumab or reslizumab may not be used concurrently with omalizumab or any other interleukin-5 antagonist.

Procedure codes J2182, J2786 and J2357 may not be billed in any combination for the same date of services by any provider.

31.2.25.15.4 Prior Authorization Requirements

Omalizumab (procedure code J2357), mepolizumab (procedure code J2182), or reslizumab (procedure code J2786) must be used to request prior authorization and the exact dosage must be indicated on the [CSHCN Services Program Request for Authorization and Prior Authorization Request Form](#).

Prior authorization of omalizumab may be approved for clients who are 6 years of age or older with moderate to severe asthma (as defined by the National Heart, Lung, and Blood Institute's Guidelines for the Diagnosis and Management of Asthma).

Prior authorization of mepolizumab may be approved for clients who are 12 years of age or older with severe asthma (as defined by the National Heart, Lung, and Blood Institute's Guidelines for the Diagnosis and Management of Asthma).

Prior authorization of reslizumab may be approved for clients who are 18 years of age or older with severe asthma (as defined by the National Heart, Lung, and Blood Institute's Guidelines for the Diagnosis and Management of Asthma).

Prior authorizations for omalizumab, mepolizumab, or reslizumab are for intervals of six months at a time. Clients must be compliant with their mepolizumab regimen in order to qualify for additional authorizations. The provider must submit a statement documenting compliance with the requests for each renewal.

31.2.25.15.5 Chronic Idiopathic Urticaria

Prior authorization for omalizumab will be considered for clients who are 12 years of age or older with chronic idiopathic urticaria (CIU).

Documentation supporting medical necessity for treatment of CIU with omalizumab must be submitted with the request and include all of the following:

- Documented failure of, or contraindication to, antihistamine and leukotriene inhibitor therapies.
- Evidence of an evaluation that excludes other medical diagnoses associated with chronic urticaria.

31.2.25.15.6 Asthma Moderate to Severe (Omalizumab) and Severe (Mepolizumab and Reslizumab)

Documentation supporting medical necessity for treatment of asthma with omalizumab, mepolizumab, or reslizumab must be submitted with the request and must indicate the following:

- Symptoms are inadequately controlled with use of one of the following combination therapies:

- 12 months of high-dose inhaled corticosteroid (ICS) given in combination with a minimum of 3 months of controller medication (either a long-acting beta2-agonist [LABA], leukotriene receptor antagonist [LTRA], or theophylline), unless the individual is intolerant of, or has a medical contraindication to these agents
- 6 months of ICS with daily oral glucocorticoids given in combination with a minimum of 3 months of controller medication (a LABA, LTRA, or theophylline), unless the individual is intolerant of, or has a medical contraindication to these agents

Note: *Exceptions to the criteria above will be considered on a case-by-case basis, which will require a letter from the prescribing provider stating the medical necessity for omalizumab, mepolizumab, or reslizumab, the client's asthma severity level, and the duration of current and past therapies and lack of asthma control. Consideration for these exceptions will be reviewed by the CSHCN Services Program Medical Director or designee.*

- Pulmonary function tests must have been performed within a three-month period and be documented for all clients.

Note: *Exceptions may be considered with documentation of medical reasons explaining why pulmonary function tests cannot be performed.*

- Client is not currently smoking.
- When requesting prior authorization, the exact dosage must be included with the request.

31.2.25.15.7 Reslizumab

Additional documentation of the following must also be submitted for treatment with reslizumab:

- Has an eosinophilic phenotype as determined by blood eosinophils of 400 cells/microliter or higher to initiation of therapy (within 3-4 weeks of dosing).

Note: *1 microliter (9ul) is equal to 1 cubic millimeter (mm³).*

- Prior authorization for an initial request for reslizumab will be considered when the client has had an inadequate response after being compliant for 6 months of treatment with omalizumab and meets the criteria for reslizumab. Failure to respond to omalizumab must be documented in a letter, signed and dated by the prescribing provider and submitted with the request.

Note: *Exceptions may be considered for clients who meet the requirements for treatment with reslizumab, but who do not meet the criteria for omalizumab. Supporting documentation (IgE level falls outside of required range and/or negative skin test/RAST to a perennial aeroallergen) must be submitted along with the documentation for treatment with reslizumab as described above.*

- When requesting prior authorization, the exact dosage must be included with the request.

31.2.25.15.8 Omalizumab

Additional documentation of the following must also be submitted for treatment with omalizumab:

- A positive skin test or RAST to a perennial (not seasonal) aeroallergen within the past 36 months
- Total IgE level greater than 30 IU/ml but less than 1300 IU/ml within the past 12 months

31.2.25.15.9 Mepolizumab

Additional documentation of the following must also be submitted for treatment with mepolizumab:

- One of the following blood eosinophil counts in the absence of other potential causes of eosinophilia, including hypereosinophilic syndromes, neoplastic disease, and known or suspected parasitic infection:
 - Greater than or equal to 150 cells/microliter at initiation of therapy

- Greater than or equal to 300 cells/microliter within 12 months prior to initiation of therapy

Note: 1 microliter (ul) is equal to 1 cubic millimeter (mm³)

Prior authorization for an initial request for mepolizumab will be considered when the client has had an inadequate response after being compliant for 6 months of treatment with omalizumab. Failure to respond to omalizumab must be documented in a letter, signed and dated by the prescribing provider and submitted with the request.

Note: Exceptions may be considered for clients who meet the criteria for treatment with mepolizumab but do not meet the criteria for omalizumab. Supporting documentation, such as an IgE level fall outside of the required range or a negative skin test/RAST to a perennial aeroallergen, must be submitted along with the documentation for treatment with mepolizumab, as described above.

31.2.25.15.10 Requirements for Continuation of Therapy

For continuation of therapy with omalizumab, mepolizumab, or reslizumab after 6 continuous months, the requesting provider must submit the following documentation of the client’s compliance and satisfactory clinical response to omalizumab, mepolizumab, or reslizumab:

- Documentation of clinical improvement must include one or more of the following:
 - Decreased utilization of rescue medications
 - Increase in predicted FEV1 (forced expiratory volume) from pretreatment baseline
 - Reduction in reported asthma-related symptoms, as evidenced by decreases in frequency or magnitude of one or more of the following symptoms:
 - Asthma attacks
 - Chest tightness or heaviness
 - Coughing or clearing throat
 - Difficulty taking deep breath or difficulty breathing out
 - Shortness of breath
 - Sleep disturbance, night waking, or symptoms upon awakening
 - Tiredness
 - Wheezing/heavy breathing/fighting for air
- Client has not exhibited symptoms of hypersensitivity or anaphylaxis (bronchospasm, hypotension, syncope, urticaria, and/or angioedema) after administration of omalizumab, mepolizumab, or reslizumab.

After lapses in treatment of 3 months or greater, prior authorization requests submitted with documentation will be reviewed by the CSHCN Services Program Medical Director or designee.

Requests for clients who do not meet the above criteria will be reviewed for medical necessity by the CSHCN Services Program Medical Director or designee.

31.2.25.16 Trastuzumab

Trastuzumab (procedure code J9355) is a benefit of the CSHCN Services Program as part of a treatment regimen containing doxorubicin, cyclophosphamide, and paclitaxel for the adjuvant treatment of clients with HER2 overexpressing, node positive breast cancer. Procedure code J9355 is payable when billed with the following diagnosis codes:

Diagnosis Codes					
C50011	C50012	C50019	C50021	C50022	C50029

Diagnosis Codes					
C50111	C50112	C50119	C50121	C50122	C50129

C50911	C50912	C50919	C50921	C50922	C50929

31.2.26 Intracranial Pressure Monitoring

Intracranial pressure monitoring is a benefit of the CSHCN Services Program.

Authorization is not required for intracranial pressure monitoring and is not limited to specific diagnoses. Physicians should use procedure code 61210 to submit a claim for intracranial pressure monitoring. Physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

31.2.27 Laboratory Services

31.2.27.1 Clinical Pathology Services and Pathology Consultations

Clinical pathology consultations (procedure codes 80500 and 80502) are a benefit when they are performed by a clinical pathologist or geneticist. A geneticist may submit claims for procedure codes 80500 and 80502 using their physician provider identifier.

Routine conversations between a consultant and an attending physician about test orders or results are not considered consultations.

The service does not qualify as a consultation if the information could ordinarily be furnished by a non-physician laboratory specialist.

Claims for clinical pathology consultations must be submitted with the following documentation:

- The name and address, or the CSHCN Services Program provider identifier for the physician requesting the consultation, must be included on the claim. The national provider identifier (NPI) of the physician requesting the consultation should also be included, if known.
- A copy of the written narrative report describing the consultation findings.
- Documented interaction that clearly outlines that the consultant interpreted the test results and made specific recommendations to the ordering physician.

If the claim does not include all of this information, the clinical pathology consultation will be denied.

31.2.27.2 Claims Filing for Laboratory Tests

Physicians may only be reimbursed for the total component of laboratory tests that are actually performed in their office laboratories.

Interpretation of laboratory tests is considered part of a physician's professional services (hospital, office, or emergency room visits) and must not be billed separately.

The claim must indicate the specific type of laboratory procedure performed. Providers who perform only the technical service must bill for the technical component.

31.2.27.3 Reimbursement

Clinical laboratory services performed in a physician’s office may be reimbursed 60 percent of the prevailing charge levels.

Referto: Chapter 25, "Enrollment" for additional information concerning coding and reimbursement for laboratory procedures.

31.2.27.4 Cytopathology Studies (Gynecological, Pap Smears)

Pap smears for early detection of cancer are a benefit of the CSHCN Services Program.

Procurement and handling of the Pap smears are considered part of the E/M of the client and will not be reimbursed separately. Physicians interpreting a cytopathology specimen (Pap smears) must report the place of service according to where the cytopathology specimen is interpreted (office, inpatient hospital, outpatient hospital, or independent lab).

Because of the technical nature of processing and interpreting Pap smears or specimens for cytopathology, pathologists are the only physician specialty that may be reimbursed for these services.

Referto: Section 25.2.5.3, “Genetic Testing for Colorectal Cancer” in Chapter 25, “Laboratory Services” for additional information concerning coding and reimbursement for gynecological cytopathology studies.

31.2.27.5 Cytogenetics Testing

Clinical evidence supports the significance of cytogenetics evaluation in the diagnosis, prognosis, and treatment of acute leukemias, lymphomas, and other tumors, especially in children. The detection of the well-defined, recurring, genetic abnormalities often enables a correct diagnosis along with important prognostic information affecting the treatment protocol. Cytogenetics testing may be a part of an evaluation for unusual physical features or learning difficulties.

Referto: Section 25.2.5.2, “Cytogenetics Testing” in Chapter 25, “Laboratory Services” for additional information about reimbursement for cytogenetics testing.

31.2.27.6 Helicobacter pylori (H. pylori)

The following procedure codes are benefits for physicians in the office setting.

Procedure Codes						
78267	78268	83009	83013	83014	86677	87338

Referto: Section 25.2.9, “Helicobacter pylori (H. pylori)” in Chapter 25, “Laboratory Services” for additional information about reimbursement for H. pylori testing.

31.2.27.7 CLIA Requirement

Referto: Section 2.1.5.6, “Clinical Laboratory Improvement Amendments (CLIA) of 1988” in Chapter 2, “Provider Enrollment and Responsibilities.”

Section 25.1.1, “Clinical Laboratory Improvement Amendments (CLIA) of 1988” in Chapter 25, “Laboratory Services” for additional information regarding CLIA regulations.

31.2.28 Magnetoencephalography (MEG)

MEG is a benefit of the CSHCN Services Program when used in pre-surgical planning for clients with intractable focal epilepsy, brain tumors, or vascular malformations.

MEG procedure codes 95965, 95966, and 95967 must be used by physicians for services that are provided in the inpatient hospital and outpatient hospital settings. Procedure code 95967 must be submitted along with primary procedure code 95966.

Physicians are reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

31.2.28.1 Authorization Requirements

Prior authorization is required for MEG procedures and must be obtained prior to the date of service. Requests for MEG must be submitted on the [CSHCN Services Program Request for Authorization and Prior Authorization Request Form](#) to the TMHP CSHCN Services Program Authorization Department.

The provider must complete and submit a prior authorization request, which should include all required documentation through any CSHCN approved method. A copy of the prior authorization request and all submitted documentation must be maintained in the client's medical record.

Note: All prior authorization requests must be submitted with the ordering practitioner's signature.

To facilitate a determination of medical necessity and avoid unnecessary denials, the physician must provide correct and complete information, including documentation of medical necessity for the service(s) requested.

Documentation must support the medical need of pre-surgical planning for clients with intractable focal epilepsy, brain tumors, or vascular malformations, and must include the following, as applicable:

- Evidence of intractable focal epilepsy, neoplasm, or arterial venous malformations (AVMs), and
- Evidence of prior treatment failures with antiepileptic drugs, if applicable, and
- Evidence demonstrating failure of previous brain surgery or failure of more traditional testing to locate the epileptic foci, and
- Evidence of current and past diagnostic studies indicating the need for MEG.

Note: Requests for repeat MEG scans must include the date of the previous MEG and documentation supporting the medical necessity for the repeat scan.

If the service is medically necessary, provided after hours or on a recognized holiday or weekend, the service may be authorized when the request is submitted on the next business day. A completed CSHCN Services Program Request for Authorization and Prior Authorization Request Form and supporting documentation must be received within these deadlines for prior authorization to be considered. Extensions to these deadlines are not given by the CSHCN Services Program for providers to correct incomplete PA requests.

Prior authorization and medical review is required for all other indications. Documentation for consideration must include diagnosis, clinical course, clinical history, and other treatments with an explanation of ineffective results. This documentation to support medical necessity must be submitted to the CSHCN Services Program Medical Director or designee.

31.2.28.2 Documentation Requirements

All services are subject to retrospective review to ensure that the documentation in the client's medical record supports the medical necessity of the service(s) provided. Documentation in the client's medical record must be maintained by the physician and support the medical necessity for the services provided. Services not supported by documentation are subject to recoupment.

Providers may be asked to provide additional documentation to clarify a prior authorization request or to clarify medical necessity of the client.

31.2.28.3 Exclusions

MEG is not a stand-alone test, and is not the first order test after clinical and routine EEG diagnosis of epilepsy, and cannot replace, but may guide, the placement of intracranial EEG.

Services and procedures that are investigational or experimental are not benefits of the CSHCN Services Program.

31.2.29 Neurostimulator Devices and Supplies

Neurostimulator devices and supplies are benefits of the CSHCN Services Program.

Referto: Chapter 27, "Neurostimulators and Neuromuscular Stimulators" for information about benefits for neurostimulator devices and supplies.

31.2.30 Ophthalmological Services

Ophthalmological services are benefits of the CSHCN Services Program.

Referto: Chapter 40, "Vision Services" for additional information about reimbursement for ophthalmology.

31.2.30.1 Intraocular Lenses (IOL)

An ophthalmologist who performs cataract extractions and IOL implants in the office may be reimbursed for the lens. The provider must submit a copy of the manufacturer’s invoice for the IOL with the claim. Reimbursement for the lens is limited to the actual acquisition cost for the lens (minus any discount) plus a handling fee not to exceed 5 percent of the actual acquisition cost.

Note: *The CSHCN Services Program does not reimburse physicians who supply IOLs to ASCs or HASCs. Payment for the IOL is included in the facility fee.*

31.2.30.2 Vitrasert Ganciclovir Implant

Procedure code 67027 is a benefit with diagnosis code B251, B258, B259, H3090, H3091, H3092, or H3093. If a provider bills vitrectomy and implantation of intravitreal drug delivery system with the same date of service, the insertion code may be reimbursed and the vitrectomy code payment is denied as part of the other service.

31.2.31 Osteopathic Manipulative Treatment (OMT)

OMT, performed by a physician, is a benefit for acute musculoskeletal conditions, acute exacerbations of a chronic condition, and acute pre or postsurgery treatments when they are directly related to surgery.

Referto: Chapter 30, "Physical Medicine and Rehabilitation" for more information about OMT services.

31.2.32 Physical Medicine and Physical Therapy (PT) Services

PT performed by a physician or physical therapist is a benefit of the CSHCN Services Program.

Referto: Chapter 30, "Physical Medicine and Rehabilitation" for more information about PT services.

The CSHCN Services Program may reimburse physicians for therapy services performed in their offices. The following procedure codes may be used for physical medicine and rehabilitation services:

Procedure Codes									
97012	97016	97018	97022	97024	97026	97028	97032	97033	97034
97035	97036	97039	97110	97112	97113	97116	97124	97139	97140
97150	97161	97162	97163	97164	97165	97166	97167	97168	97530
97535	97537	97542	97750	97755	97760	97761	97762	97799	S8990

Physical therapy services must be billed with the GP modifier.

31.2.33 Podiatry

Services provided by a licensed podiatrist (DPM) are a benefit of the CSHCN Services Program. Podiatry services may be reimbursed when provided by a physician (MD or DO).

Surgery procedure codes 11055, 11056, 11057, 11719, and G0127 are limited to one service every 6 months per client.

Supportive devices such as molds, inlays, shoes, or supports and all services connected with the fitting or application of these devices must meet the CSHCN Services Program requirements for foot orthotics.

Referto: Section 28.2.2, “Orthoses and Prostheses (Not All-Inclusive)” in Chapter 28, “Orthotic and Prosthetic Devices” and Section 28.3.7.2, “Prescription Shoes” in Chapter 28, “Orthotic and Prosthetic Devices” for additional information about foot orthotics.

Podiatrists may be reimbursed for medically necessary laboratory services and radiological procedures that include the foot, ankle, toes, or heel.

Podiatrists may prescribe medications, supplies, braces, and prosthetic devices for conditions of the foot and ankle.

Authorization and prior authorization requirements applied to services provided by physicians also apply to services provided by a podiatrist. All CSHCN Services Program requirements concerning reimbursement for surgical procedures, such as the global fee concept, apply to podiatrists.

Podiatrists may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for detailed information about authorization and prior authorization requirements.

31.2.34 Psychological Testing

Procedure codes 96101, 96116, and 96118 are benefits of the CSHCN Services Program. Providers must bill the units of each half hour of testing and indicate that number of units on the claim form. Procedure codes 96101, 96116, and 96118 may be reimbursed up to 4 hours per day and 8 hours per calendar year, per client, for any provider. Submissions for over 4 hours per day and 8 hours per calendar year must include documentation of medical necessity.

Reimbursement of psychological testing, neuropsychological testing, and neurobehavioral status exams include testing scoring and interpretation of results. The number of units on the claim must reflect the time spent face-to-face testing with the client, as well as the time spent scoring and interpreting the results in one hour increments.

If the performance, interpretation, and reporting of the testing are performed on different dates of service, then the date of service on the claim must reflect the date and time spent for each service performed. Even if scoring and interpretation are completed on a different date from the testing, providers must submit only one claim for each psychological or neuropsychological test or neurobehavioral status exam performed. If necessary, providers can submit the claim with multiple details for each date of service. A claim must not be submitted until performance, interpretation, and reporting of the testing is complete.

Behavioral health testing and neurobehavioral status exams may be performed during an assessment by an APRN or physician assistant but will not be reimbursed separately.

Psychological testing, neuropsychological testing, and neurobehavioral status exams may be reimbursed on the same date of service as procedure code 90791 or procedure code 90792.

Testing procedure codes 96101, 96116, and 96118 count towards the 30 per calendar year limitation. Psychological testing (procedure code 96101) and neuropsychological testing (procedure code 96118) will not be reimbursed on the same date of service by the same provider.

Referto: Section 24.3.1.3, “Inpatient Behavioral Health” in Chapter 24, “Hospital” for additional information about behavioral health services.

Chapter 29, "Outpatient Behavioral Health" for additional information about behavioral health services.

31.2.35 Sign Language Interpreting Services

Sign language interpreting services are available to CSHCN Services Program clients who are deaf or hard of hearing or to a parent or guardian of a person receiving CSHCN Services Program benefits, who is deaf or hard of hearing.

The sign language interpreting services must be requested by a physician and provided by a qualified interpreter. A physician's determination of the need for sign language interpreting services must give primary consideration to the needs of the individual who is deaf or hard of hearing.

Sign language interpreting services are benefits of the CSHCN Services Program. Providers must use procedure code T1013 with modifier U1 for the first hour of service, and modifier UA for each additional 15 minutes of service. Procedure code T1013 billed with modifier U1 is limited to once per day, per provider, and procedure code T1013 billed with modifier UA is limited to a quantity of 28 per day.

Physicians in private or group practices with fewer than 15 employees may be reimbursed for this service. The physician will be responsible for arranging and paying for the sign language interpreting services to facilitate the medical services being provided. The physician will then seek reimbursement from the CSHCN Services Program for providing this service.

Sign language interpreting services must be provided by an interpreter who possesses one of the following certification levels (i.e., levels a through h) issued by either the Department of Assistive and Rehabilitative Services (DARS), the Office for Deaf and Hard of Hearing Services, the Board for Evaluation of Interpreters (BEI), or the National Registry of Interpreters for the Deaf (RID):

- a) BEI Level I/Ii and BEI OC: B (Oral Certificate: Basic).
- b) BEI Basic and RID NIC (National Interpreter Certificate) Certified.
- c) BEI Level II/IIi, RID CI (Certificate of Interpretation), RID CT (Certificate of Transliteration), RID IC (Interpretation Certificate), and RID TC (Transliteration Certificate).
- d) BEI Level III/IIIi, BEI OC: C (Oral Certificate: Comprehensive), BEI OC: V (Oral Certificate: Visible), RID CSC (Comprehensive Skills Certificate), RID IC/TC, RID CI/CT, RID RSC (Reverse Skills Certificate), and RID CDI (Certified Deaf Interpreter).
- e) BEI Advanced and RID NIC Advanced.
- f) BEI IV/IVi, RID MCSC (Master Comprehensive Skills Certificate), and RID SC: L (Specialist Certificate: Legal).
- g) EI V/VI.
- h) BEI Master; and RID NIC Master.

Interpreting services include the provision of voice-to-sign, sign-to-voice, gestural-to-sign, sign-to-gestural, voice-to-visual, visual-to-voice, sign-to-visual, or visual-to-sign services for communication access provided by a certified interpreter.

The physician requesting interpreting services must maintain documentation verifying the provision of interpreting services. Documentation of the service must be included in the client's medical record and must include the name of the sign language interpreter and the interpreter's certification level. Documentation must be made available if requested by the CSHCN Services Program or its designee.

31.2.36 Skin Therapy

Procedure codes 96900, 96910, 96912, and 96913 are benefits of the CSHCN Services Program for the following diagnosis codes:

Diagnosis Code	Description
A672	Late lesions of pinta
B070	Plantar wart
B081	Molluscum contagiosum
B550	Visceral leishmaniasis
B551	Cutaneous leishmaniasis
B552	Mucocutaneous leishmaniasis
B559	Leishmaniasis, unspecified
C8401	Mycosis fungoides, lymph nodes of head, face, and neck
C8402	Mycosis fungoides, intrathoracic lymph nodes
C8403	Mycosis fungoides, intra-abdominal lymph nodes
C8404	Mycosis fungoides, lymph nodes of axilla and upper limb
C8405	Mycosis fungoides, lymph nodes of inguinal region and lower limb
C8406	Mycosis fungoides, intrapelvic lymph nodes
C8407	Mycosis fungoides, spleen
C8408	Mycosis fungoides, lymph nodes of multiple sites
C8409	Mycosis fungoides, extranodal and solid organ sites
H02731	Vitiligo of right upper eyelid and periocular area
H02732	Vitiligo of right lower eyelid and periocular area
H02734	Vitiligo of left upper eyelid and periocular area
H02735	Vitiligo of left lower eyelid and periocular area
L100	Pemphigus vulgaris
L101	Pemphigus vegetans
L102	Pemphigus foliaceus
L103	Brazilian pemphigus [fogo selvagem]
L104	Pemphigus erythematosus
L105	Drug-induced pemphigus
L1081	Paraneoplastic pemphigus
L1089	Other pemphigus
L120	Bullous pemphigoid
L121	Cicatricial pemphigoid
L122	Chronic bullous disease of childhood
L128	Other pemphigoid
L130	Dermatitis herpetiformis
L131	Subcorneal pustular dermatitis
L138	Other specified bullous disorders
L139	Bullous disorder, unspecified

Diagnosis Code	Description
L14	Bullous disorders in diseases classified elsewhere
L200	Besnier's prurigo
L2081	Atopic neurodermatitis
L2082	Flexural eczema
L2084	Intrinsic (allergic) eczema
L2089	Other atopic dermatitis
L209	Atopic dermatitis, unspecified
L210	Seborrhea capitis
L211	Seborrheic infantile dermatitis
L218	Other seborrheic dermatitis
L219	Seborrheic dermatitis, unspecified
L22	Diaper dermatitis
L230	Allergic contact dermatitis due to metals
L231	Allergic contact dermatitis due to adhesives
L232	Allergic contact dermatitis due to cosmetics
L233	Allergic contact dermatitis due to drugs in contact with skin
L234	Allergic contact dermatitis due to dyes
L235	Allergic contact dermatitis due to other chemical products
L236	Allergic contact dermatitis due to food in contact with the skin
L237	Allergic contact dermatitis due to plants, except food
L2381	Allergic contact dermatitis due to animal (cat) (dog) dander
L2389	Allergic contact dermatitis due to other agents
L239	Allergic contact dermatitis, unspecified cause
L240	Irritant contact dermatitis due to detergents
L241	Irritant contact dermatitis due to oils and greases
L242	Irritant contact dermatitis due to solvents
L243	Irritant contact dermatitis due to cosmetics
L244	Irritant contact dermatitis due to drugs in contact with skin
L245	Irritant contact dermatitis due to other chemical products
L246	Irritant contact dermatitis due to food in contact with skin
L247	Irritant contact dermatitis due to plants, except food
L2481	Irritant contact dermatitis due to metals
L2489	Irritant contact dermatitis due to other agents
L249	Irritant contact dermatitis, unspecified cause
L250	Unspecified contact dermatitis due to cosmetics
L252	Unspecified contact dermatitis due to dyes
L258	Unspecified contact dermatitis due to other agents
L259	Unspecified contact dermatitis, unspecified cause
L270	Generalized skin eruption due to drugs and medicaments taken internally

Diagnosis Code	Description
L271	Localized skin eruption due to drugs and medicaments taken internally
L272	Dermatitis due to ingested food
L278	Dermatitis due to other substances taken internally
L279	Dermatitis due to unspecified substance taken internally
L300	Nummular dermatitis
L302	Cutaneous autosensitization
L308	Other specified dermatitis
L309	Dermatitis, unspecified
L401	Generalized pustular psoriasis
L560	Drug phototoxic response
L561	Drug photoallergic response
L562	Photocontact dermatitis [berloque dermatitis]
L563	Solar urticaria
L564	Polymorphous light eruption
L565	Disseminated superficial actinic porokeratosis (DSAP)
L570	Actinic keratosis
L571	Actinic reticuloid
L572	Cutis rhomboidalis nuchae
L573	Poikiloderma of Civatte
L574	Cutis laxa senilis
L575	Actinic granuloma
L580	Acute radiodermatitis
L581	Chronic radiodermatitis
L589	Radiodermatitis, unspecified
L598	Other specified disorders of the skin and subcutaneous tissue related to radiation
L599	Disorder of the skin and subcutaneous tissue related to radiation, unspecified
L700	Acne vulgaris
L701	Acne conglobata
L702	Acne varioliformis
L703	Acne tropica
L704	Infantile acne
L705	Acne excooriee des jeunes filles
L708	Other acne
L730	Acne keloid
L80	Vitiligo
L811	Chloasma
L812	Freckles
L813	Cafe au lait spots
L815	Leukoderma, not elsewhere classified

Diagnosis Code	Description
L816	Other disorders of diminished melanin formation
L818	Other specified disorders of pigmentation

31.2.37 Sleep Studies

Polysomnography, multiple sleep latency tests, and pediatric pneumograms are benefits of the CSHCN Services Program.

Sleep facilities that perform services for CSHCN Services Program clients must be accredited with the American Academy of Sleep Medicine (AASM) or the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). Documentation of accreditation must be maintained in the facility and be available for review. Sleep facilities must also follow current AASM practice parameters and clinical guidelines. Providers may refer to the AASM website at www.aasmnet.org for AASM facility certification requirements or to the JCAHO website at www.jointcommission.org for JCAHO facility accreditation information.

Sleep facility technicians and technologists must demonstrate that they have the skills, competencies, education, and experience that are set forth by their certifying agencies and AASM as necessary for advancement in the profession.

The sleep facility must have one or more supervision physicians who are responsible for the direct and ongoing oversight of the quality of the testing performed, the proper operation and calibration of the equipment used to perform the tests, and the qualifications of the non-physician staff who use the equipment.

31.2.37.1 Polysomnography

Polysomnography is the recording, analysis, and interpretation of the multiple simultaneous physiological measurements of sleep for 6 or more hours. The studies are performed to diagnose a variety of sleep disorders, such as sleep apnea, and are considered part of the clinical workup performed before the surgical procedure uvulopalatopharyngoplasty.

Polysomnography is distinguished from sleep studies by the inclusion of sleep staging which includes a 1-4 lead electroencephalogram (EEG), electro-oculogram (EOG), and a submental electromyogram (EMG).

Additional parameters of sleep include, but are not limited to:

- Airflow.
- Body positions.
- Continuous blood pressure monitoring.
- Electrocardiogram (ECG).
- Extended EEG monitoring.
- Extremity/motor activity movement.
- Gas exchange by oximetry.
- Gastroesophageal reflux.
- Penile tumescence.
- Snoring.
- Ventilation and respiratory effort.

For a study to be reported as polysomnography, sleep must be recorded and staged.

Polysomnographic technologists, technicians, and trainees must meet the following supervision requirements:

- A polysomnographic trainee provides basic polysomnographic testing and associated interventions under the direct supervision of a polysomnographic technician, polysomnographic technologist or physician.

Note: *Direct supervision means that the supervising licensed/certified professional must be present in the office suite or building and immediately available to furnish assistance and direction throughout the performance of the service. It does not mean that the supervising professional must be present in the room while the service is being provided.*

- A polysomnographic technologist provides comprehensive evaluation and treatment of sleep disorders under the general supervision of the clinical director (M.D. or D.O.).
- A polysomnographic technician provides comprehensive polysomnographic testing and analysis, and associated interventions under the general supervision of a polysomnographic technologist or clinical director (M.D. or D.O.).

Note: *The supervising physician must be readily available to the performing technologist throughout the duration of the study but is not required to be in the building.*

Services provided without the required level of supervision are not considered medically appropriate and will be recouped upon retrospective record review.

Polysomnography (procedure codes 95782, 95783, 95808, 95810, and 95811) is restricted to the following diagnosis codes:

Diagnosis Code	Description
E662	Morbid (severe) obesity with alveolar hypoventilation
F5101	Primary insomnia
F5102	Adjustment insomnia
F5103	Paradoxical insomnia
F5104	Psychophysiologic insomnia
F5109	Other insomnia not due to a substance or known physiological condition
F5111	Primary hypersomnia
F5112	Insufficient sleep syndrome
F5113	Hypersomnia due to other mental disorder
F5119	Other hypersomnia not due to a substance or known physiological condition
F513	Sleepwalking [somnambulism]
F514	Sleep terrors [night terrors]
F515	Nightmare disorder
F518	Other sleep disorders not due to a substance or known physiological condition
F519	Sleep disorder not due to a substance or known physiological condition, unspecified
F984	Stereotyped movement disorders
G253	Myoclonus
G2589	Other specified extrapyramidal and movement disorders
G259	Extrapyramidal and movement disorder, unspecified
G26	Extrapyramidal and movement disorders in diseases classified elsewhere
G4700	Insomnia, unspecified

Diagnosis Code	Description
G4701	Insomnia due to medical condition
G4710	Hypersomnia, unspecified
G4711	Idiopathic hypersomnia with long sleep time
G4712	Idiopathic hypersomnia without long sleep time
G4713	Recurrent hypersomnia
G4714	Hypersomnia due to medical condition
G4719	Other hypersomnia
G4720	Circadian rhythm sleep disorder, unspecified type
G4721	Circadian rhythm sleep disorder, delayed sleep phase type
G4722	Circadian rhythm sleep disorder, advanced sleep phase type
G4723	Circadian rhythm sleep disorder, irregular sleep wake type
G4724	Circadian rhythm sleep disorder, free running type
G4725	Circadian rhythm sleep disorder, jet lag type
G4726	Circadian rhythm sleep disorder, shift work type
G4727	Circadian rhythm sleep disorder in conditions classified elsewhere
G4729	Other circadian rhythm sleep disorder
G4730	Sleep apnea, unspecified
G4731	Primary central sleep apnea
G4733	Obstructive sleep apnea (adult) (pediatric)
G4734	Idiopathic sleep related nonobstructive alveolar hypoventilation
G4735	Congenital central alveolar hypoventilation syndrome
G4736	Sleep related hypoventilation in conditions classified elsewhere
G4737	Central sleep apnea in conditions classified elsewhere
G4739	Other sleep apnea
G47411	Narcolepsy with cataplexy
G47419	Narcolepsy without cataplexy
G47421	Narcolepsy in conditions classified elsewhere with cataplexy
G47429	Narcolepsy in conditions classified elsewhere without cataplexy
G4750	Parasomnia, unspecified
G4751	Confusional arousals
G4752	REM sleep behavior disorder
G4753	Recurrent isolated sleep paralysis
G4754	Parasomnia in conditions classified elsewhere
G4759	Other parasomnia
G4761	Periodic limb movement disorder
G4769	Other sleep related movement disorders
G478	Other sleep disorders
G479	Sleep disorder, unspecified
J9610	Chronic respiratory failure, unspecified whether with hypoxia or hypercapnia

Diagnosis Code	Description
J9611	Chronic respiratory failure with hypoxia
J9612	Chronic respiratory failure with hypercapnia
R0600	Dyspnea, unspecified
R0609	Other forms of dyspnea
R063	Periodic breathing
R0683	Snoring
R0689	Other abnormalities of breathing
R069	Unspecified abnormalities of breathing
R0901	Asphyxia

Polysomnography is payable to physicians in outpatient hospital and office settings. Procedure codes 95782, 95783, 95808, 95810, and 95811 are limited to one per day by any provider. When multiple procedure codes are billed on the same day, the most inclusive code is paid and all other codes are denied.

31.2.37.2 Multiple Sleep Latency Test

Multiple sleep latency tests involve the client being given a chance to sleep every 2 hours during normal wake time. Observations are made of the time taken to reach stages of sleep. This test measures the degree of daytime sleepiness and how soon rapid eye movement (REM) sleep begins. This test is a benefit for diagnosing narcolepsy.

Multiple sleep latency tests (procedure code 95805) are restricted to the following diagnosis codes:

Diagnosis Code	Description
E662	Morbid (severe) obesity with alveolar hypoventilation
G4700	Insomnia, unspecified
G4710	Hypersomnia, unspecified
G4711	Idiopathic hypersomnia with long sleep time
G4712	Idiopathic hypersomnia without long sleep time
G4720	Circadian rhythm sleep disorder, unspecified type
G4733	Obstructive sleep apnea (adult) (pediatric)
G47411	Narcolepsy with cataplexy
G47419	Narcolepsy without cataplexy
G47421	Narcolepsy in conditions classified elsewhere with cataplexy
G47429	Narcolepsy in conditions classified elsewhere without cataplexy
G478	Other sleep disorders
G479	Sleep disorder, unspecified

Multiple sleep latency tests are payable to physicians in outpatient hospital and office settings. Procedure code 95805 is limited to one per day by any provider. Sleep study procedure codes 95806 and 95807 are not a benefit of the CSHCN Services Program.

31.2.37.3 Pediatric Pneumogram

A pneumogram is a 12- to 24-hour recording of breathing effort, heart rate, oxygen level, and airflow to the lungs during sleep. The study is useful in identifying abnormal breathing patterns, with or without bradycardia, especially in premature infants.

Procedure code 94772 is a benefit for CSHCN Services Program clients from birth through 12 months of age with one of the following diagnosis codes:

Diagnosis Code	Description
K208	Other esophagitis
K209	Esophagitis, unspecified
K210	Gastro-esophageal reflux disease with esophagitis
K219	Gastro-esophageal reflux disease without esophagitis
K220	Achalasia of cardia
P220	Respiratory distress syndrome of newborn
P228	Other respiratory distress of newborn
P229	Respiratory distress of newborn, unspecified
P270	Wilson-Mikity syndrome
P271	Bronchopulmonary dysplasia originating in the perinatal period
P278	Other chronic respiratory diseases originating in the perinatal period
P279	Unspecified chronic respiratory disease originating in the perinatal period
P282	Cyanotic attacks of newborn
P283	Primary sleep apnea of newborn
P284	Other apnea of newborn
P285	Respiratory failure of newborn
P2881	Respiratory arrest of newborn
P2889	Other specified respiratory conditions of newborn
P84	Other problems with newborn
R0600	Dyspnea, unspecified
R0609	Other forms of dyspnea
R062	Wheezing
R063	Periodic breathing
R0681	Apnea, not elsewhere classified
R0682	Tachypnea, not elsewhere classified
R0683	Snoring
R0689	Other abnormalities of breathing
R069	Unspecified abnormalities of breathing
R6813	Apparent life threatening event in infant (ALTE)

Pediatric pneumograms are payable to physicians in office, inpatient hospital, and outpatient hospital settings. A pediatric pneumogram is limited to two services without authorization based on the diagnoses listed above. Authorization is required for more than two pneumograms.

EMGs, polysomnography, EEGs, and ECGs are denied when billed on the same day as a pediatric pneumogram.

Pediatric pneumograms may be reimbursed on the same date of service as an apnea monitor (rented monthly) if documentation supports the medical necessity.

Pneumogram supplies are considered part of the technical component of the reimbursement and are denied if billed separately.

31.2.37.4 Home Sleep Study Test

Home sleep study tests are unattended studies that are performed in the client's home using a portable monitoring device. The portable monitoring device must meet AASM practice parameters and clinical guidelines.

Home sleep study testing is a benefit of the CSHCN Services Program only when performed in conjunction with a comprehensive sleep evaluation that has been performed by a physician who is board-certified or board-eligible, as outlined in the AASM guidelines. Documentation of the comprehensive sleep evaluation must be kept in the client's medical record. The evaluation must indicate probability of moderate to severe obstructive sleep apnea to support medical necessity for home sleep study testing.

Procedure codes G0398, G0399, and G0400 are a benefit for CSHCN Services Program clients who are 18 years of age and older with suspected or proven simple, uncomplicated obstructive sleep apnea. Procedure codes G0398, G0399, and G0400 are restricted to diagnosis code G4733, Obstructive sleep apnea (adult) (pediatric).

Home sleep study tests are payable to physicians in the office setting. Procedure codes G0398, G0399, and G0400 are limited to one per day and a combined total of two tests per rolling year, with any provider. If a client needs more than two tests in a rolling year, subsequent tests must be performed in a sleep facility.

31.2.38 Surgery

Surgical services, including surgical procedures involving an assistant surgeon or cosurgeon, are a benefit of the CSHCN Services Program.

Authorization of cosurgeon and assistant surgeon services is not required; however, all other authorization requirements associated with the surgical procedure must be met.

Reminder: *An authorization request can be submitted up to 95 days after the date of service. The completed authorization form can be attached to the paper claim.*

Specific surgical procedures, as specified throughout this section, require prior authorization. If a prior authorization is not obtained for the procedure, the facility's services, the surgeon's services, and the assistant surgeon's services are denied; however, anesthesia services may be paid.

Prior authorization must be obtained for procedures that are completed by a specialty team or in a specialty center. Criteria unique to specific surgical procedures must be satisfied as indicated in the appropriate sections below.

Unless otherwise stated, no additional reimbursement is provided to physicians who elect to use special instruments or advanced technology to accomplish a surgical procedure.

Surgical procedures may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

31.2.38.1 Anesthesia Administered by Surgeon

If the physician submits a surgical procedure and anesthesia for the same surgery for reimbursement, the anesthesia procedure code is denied as part of the surgical procedure.

31.2.38.2 Primary Surgeons

The primary surgeon is the lead surgeon who participates and directs the technical aspects of a surgical case.

Physicians cannot provide services as a surgeon and assistant surgeon, or as a surgeon and anesthesiologist during the same surgical procedure. A physician may bill as a surgeon and assistant surgeon on the same client, if two separate procedures are performed. Full payment is allowed for surgery, and the assistant surgical procedure may be reimbursed half of the reimbursement amount for an assistant surgery.

If the physician is an anesthesiologist who is billing for general anesthesia and a surgical procedure which is considered part of the anesthesia, the surgical procedure is not reimbursed.

31.2.38.3 Assistant Surgeons

An assistant surgeon assists the primary surgeon during a complex surgical procedure that warrants an assistant to safely and effectively accomplish the procedure.

Assistant surgeons may be reimbursed 16 percent of the prevailing fee for the surgical procedure performed.

The CSHCN Services Program follows the *Tax Equity and Fiscal Responsibility Act (TEFRA)* of 1982 regulation for assistant surgeons in teaching hospitals.

An assistant surgeon is not paid in a hospital classified by Medicare as a teaching facility with an approved graduate training program in the performing physician's specialty. These claims are paid only if modifiers 82 or 80 (assistant surgeon) and KX (documentation on file) are present on the claim. These modifiers should be used in the following situations:

- There are exceptional medical circumstances, such as emergency or life-threatening situations that require immediate attention.
- The primary surgeon has a policy of never, without exception, involving a resident in the preoperative, operative, or postoperative care of their clients.
- The surgical procedure is complex and qualifies for more than one physician.
- Use modifier 82 when no qualified resident was available to assist with the surgery.

If the physician seeks an exception to the TEFRA regulation based on unavailability of a qualified resident, the following certification statement must appear on or be attached to the claim form:

“I understand that Section 1842(b)(6)(D) of the *Social Security Act* generally prohibits reasonable charge payment for the services of assistants at surgery in teaching hospitals when qualified residents are available to furnish such services. I certify that the services for which payment is claimed were medically necessary, and that no qualified residents were available to perform the services. I further understand that these services are subject to postpayment review by TMHP-CSHCN.”

Payment to an assistant surgeon for multiple surgical procedures follows the same guidelines as payment to the primary surgeon.

If an assistant surgeon bills separate charges for local or regional anesthesia and assistant surgery on the same day, the anesthesia is included as part of the surgical procedure and not reimbursed separately.

31.2.38.4 Cosurgery

Cosurgery is a benefit of the CSHCN Services Program if the CMS fee schedule indicates that the procedure allows for cosurgeons.

When billing for cosurgery, each surgeon must bill the same procedure codes and modifier 62 (cosurgeon).

Cosurgery occurs when two surgeons, usually with different specialties or skills, work together as primary surgeons performing distinct parts of a single reportable procedure. Neither surgeon is acting as an assistant surgeon; both have comparable roles in the procedure. When two surgeons work together as primary surgeons performing distinct parts of the procedure, each surgeon should report their distinct operative work by adding modifier 62 to the procedure code and any associated add-on codes for that procedure, as long as both surgeons continue to work together as primary surgeons. Each surgeon should report the cosurgery once using the same procedure codes. If additional procedures (including add-on procedures) are performed during the same surgical session, separate codes may be reported without modifier 62 added.

Authorization is not specifically required for procedures using cosurgeons, although all other authorization requirements must be met. Prior authorization must be obtained for those procedures completed by a specialty team or in a specialty center. Criteria unique to specific surgical procedures must be satisfied as indicated in Section 31.2.38.11, “Cleft/Craniofacial Procedures” in this chapter and Section 31.2.41.2, “Transplants - Nonsolid Organ” in this chapter.

If a cosurgeon acts as an assistant in the performance of additional procedures during the same surgical session, those services can be reported using separate procedure codes with the modifier 80 or 81 (minimum assistant surgeon) added, as appropriate.

Each surgeon receives 62.5 percent of the amount allowed for the intraoperative portion of the surgical procedure’s fee. Additional payment is not made for an assistant surgeon on the same procedure being reimbursed as cosurgery.

Claims submitted without the cosurgery modifier 62 are not considered cosurgery. Reimbursement for these claims is determined by other surgery reimbursement methodology.

Note: Each surgeon that performs cosurgery must bill only the appropriate procedure code for the specific surgery performed.

The CSHCN Services Program does not reimburse for team surgery. Surgeons and assistant surgeons participating in a team surgery should bill for procedures they personally completed, and may be reimbursed based on the multiple surgery guidelines.

31.2.38.5 Bilateral Procedures

When a bilateral procedure is performed and an appropriate bilateral procedure code is not available, a unilateral procedure code must be used. The unilateral procedure code must be billed twice with a quantity of one for each procedure code. For all procedures, modifiers LT (left side), and RT (right side) must be used as appropriate.

Bilateral procedures performed on separate limbs are paid the full allowance for the major procedure and half the allowance for subsequent procedures performed on the same day, when medically justified.

31.2.38.6 Global Fees

The CSHCN Services Program uses global surgical periods to determine reimbursement for surgical procedures. The following services are included in the global surgical period:

- Preoperative care, including history and physical
- Hospital admission work-up
- Anesthesia (when administered and monitored by the primary surgeon)
- Surgical procedure (intraoperative)
- Postoperative follow-up and related services
- Complications following the surgical procedure that do not require return trips to the operating room

The CSHCN Services Program will adhere to a global fee concept for minor and major surgeries and invasive diagnostic procedures. Global surgical periods are defined as follows:

- 0-day Global Period—Reimbursement includes the surgical procedure and all associated services that are provided on the same day.
- 10-day Global Period—Reimbursement includes the surgical procedure and all associated services provided on the day of the surgery through 10 days after the surgical procedure.
- 90-day Global Period—Reimbursement includes the surgical procedure, preoperative services that are provided on the day before the surgical procedure, and all associated services that are provided on the day of the surgery through 90 days after the surgical procedure.

Procedure codes that are designated as "Carrier Discretion" will have their global periods determined by the CSHCN Services Program.

The global surgical fee period applies to both emergency and nonemergency surgical procedures. Physicians who are in the same group practice and specialty must bill, and are reimbursed, as if they were a single provider.

Radiology and laboratory services related to the surgical procedure are not subject to the global period and are reimbursed separately.

31.2.38.6.1 Modifiers

To align with CMS, the CSHCN Services Program will add certain modifiers that are related to surgical services. For services that are rendered in the preoperative, intraoperative, or postoperative period to be correctly reimbursed, providers must use the appropriate modifiers from the following table. Failure to use the appropriate modifier may result in recoupment.

Modifiers Related to Surgical Fees				
24	25	54	55	56
57	58	62	76	77
78	79			

For services that are billed with modifier 54, 55, or 56, medical record documentation must be maintained by both the surgeon and the provider performing preoperative or postoperative care. Reimbursement for claims associated with modifiers 54, 55, and 56 is limited to the same total amount as would have been paid if only one physician provided all of the care, regardless of the number of physicians who actually provide the care.

If a physician provided all of the preoperative, intraoperative, and postoperative care, claims may be considered for reimbursement when they are submitted without a modifier.

31.2.38.6.2 Documentation Requirements

For services that are billed with any of the listed modifiers to be considered for reimbursement, providers must maintain documentation in the client’s medical record that supports the medical necessity of the services. Acceptable documentation includes, but is not limited to:

- Progress notes.
- Operative reports.
- Laboratory reports.
- Hospital records.

On a case-by-case basis, providers may be required to submit additional documentation that supports the medical necessity of services before the claim will be reimbursed.

Note: Retrospective review may be performed to ensure documentation supports the medical necessity of the surgical procedure and any modifier used to bill the claim.

31.2.38.6.3 Preoperative Services

Preoperative physician E/M services (such as office or hospital visits) that are directly related to the planned surgical procedure and provided during the preoperative limitation period will be denied if they are billed by the surgeon or anesthesiologist who was involved in the surgical procedure.

Reimbursement will be considered when the E/M services are performed for distinct reasons that are unrelated to the procedure. E/M services that meet the definition of a separately identifiable service and are above and beyond the usual preoperative and postoperative care, may be billed with modifier 25 if they are provided on the same day by the same provider as the surgical procedure.

Modifier 25 is not used to report an E/M service that results in a decision to perform a surgical procedure. Documentation that supports the provision of a significant, separately identifiable E/M service must be maintained in the client's medical record and made available to the CSHCN Services Program upon request. If the decision to perform a minor procedure is made during an E/M visit immediately before the surgical procedure, the E/M visit is considered a routine preoperative service and is not separately billable.

Physicians who provide only preoperative services for surgical procedures with a 10- or 90-day global period may submit claims using the surgical procedure code with identifying modifier 56. Reimbursement will be limited to a percentage of the fee for the surgical procedure.

E/M services that are provided during the preoperative period (one day before or the same day) of a major surgical procedure (90-day global period) and result in the initial decision to perform the surgical procedure may be considered for reimbursement when they are billed with modifier 57. The client's medical record should clearly indicate when the initial decision to perform the procedure was made.

31.2.38.6.4 Intraoperative Services

Physicians who perform a surgical procedure with a 10- or 90-day global period but do not render postoperative services must bill the surgical procedure code with modifier 54. Documentation in the medical record must support the transfer of care and must indicate that an agreement has been made with another physician to provide the postoperative management.

31.2.38.6.5 Postoperative Services

Postoperative services that are directly related to the surgical procedure are included in the global surgical fee and are not reimbursed separately. Postoperative services include, but are not limited to, all of the following:

- Follow-up visits (any place of service)
- Pain management
- Miscellaneous services, including:
 - Dressing changes
 - Local incision care
 - Platelet gel
 - Removal of operative packs
 - Removal of cutaneous sutures, staples, lines, wires, drains, casts, or splints
 - Replacement of vascular access lines

- Insertion, irrigation, and removal of urinary catheters, routine peripheral intravenous lines, nasogastric tubes, and rectal tubes
- Changes or removal of tracheostomy tubes

Note: *Removal of postoperative dressings or anesthetic devices is not eligible for separate reimbursement as the removal is considered part of the allowance for the primary surgical procedure.*

If the surgeon provides the surgery and only the postoperative care for a procedure that has a 10- or 90-day global period, the surgeon must include the following details on the claim form:

- The surgical procedure, date of surgery, and modifier 54, which indicates that he or she was the surgeon
- The surgical procedure, date of service, and modifier 55 to denote the postoperative care

Note: *Providers must not submit a claim for a procedure until after the client has been seen during a face-to-face follow-up visit.*

When transfer of care occurs for postoperative care for procedures that have a 10- or 90-day global period, the following conditions apply:

- When transfer of care occurs immediately after surgery, the surgeon or other provider who assumes in-hospital postoperative care must bill subsequent care procedure code 99231, 99232, or 99233.
- The surgeon or other provider who provides postdischarge care must bill the appropriate surgical code with modifier 55. Reimbursement will be limited to a percentage of the allowable fee for the surgical procedure.
- Documentation in the medical record must include all of the following:
 - A copy of the written transfer agreement
 - The dates the care was assumed and relinquished
- The claim must indicate in the comments field of the claim form the dates on which care was assumed and relinquished, and the units field must reflect the total number of postoperative care days provided. Claims that are submitted on the CMS-1500 paper claim form must include the date of surgery in Block 14 and the dates on which care was assumed and relinquished in Block 19.

When a transfer of postoperative care occurs, the receiving physician cannot bill for any part of the global services until at least one service has been provided.

Staged or related surgical procedures or services that are performed during the postoperative period may be reimbursed when they are billed with modifier 58. A postoperative period will be assigned to the subsequent procedure. Documentation must indicate that the subsequent procedure or service was not the result of a complication and was one of the following:

- It was planned at the time of the initial surgical procedure
- It is more extensive than the initial surgical procedure
- It is for therapy following an invasive diagnostic surgical procedure

Note: *Modifier 58 does not apply to procedure codes that are already defined as staged or sessioned services in the Current Procedural Terminology (CPT) Manual (e.g., 65855 or 66821).*

Hospital visits by the surgeon during the same hospitalization as the surgery are considered to be related to the surgery and, as a result, not separately billable; however, separate payment for such visits can be allowed if any of the following conditions apply:

- Immunotherapy management is provided by the transplant surgeon. Immunosuppressant therapy following transplant surgery is covered separately from other postoperative services, so postoperative immunosuppressant therapy is not part of the global fee allowance for the transplant surgery. This coverage applies regardless of the setting.
- Critical care is provided by the surgeon for a burn or trauma patient.
- The hospital visit is for a diagnosis that is unrelated to the original surgery.

E/M services that are provided by the same provider for reasons that are unrelated to the operative surgical procedure may be considered for reimbursement if they are billed with modifier 24. Documentation must substantiate the reasons for providing E/M services.

- Modifier 24 may be billed with modifier 25 if a significant, separately identifiable E/M service that was performed on the day of a procedure falls within the postoperative period of another unrelated procedure.
- Modifier 24 may be billed with modifier 57 if an E/M service that was performed within the postoperative period of another unrelated procedure results in the decision to perform major surgery.

31.2.38.6.6 Return Trips to the Operating Room

Return trips to the operating room for a repeat surgical procedure may be considered for reimbursement when billed with modifiers 76 and 77. Billing with modifiers 76 and 77 initiates the beginning of a new global period. Medical record documentation must support the need for a repeat procedure.

All surgical procedure codes with a predefined limitation (e.g., once per lifetime, one every 5 years) must not be submitted with modifier 76 or 77.

For modifiers 76 and 77, the repeated procedure must be the same as the initial surgical procedure. The repeat procedure should be billed with the appropriate modifier. The reason for the repeat surgical procedure should be entered in the narrative field on the claim form.

Return trips to the operating room for surgical procedures that are related to the initial surgery (i.e., complications) may be considered for reimbursement when they are billed with modifier 78 by the same provider.

- When a surgical procedure has a 0-day global period, the full value of the surgical procedure will be reimbursed; when the procedure has a 10- or 90-day global period, only the intraoperative portion will be reimbursed.
- When an unlisted procedure is billed because no code exists to describe the treatment for the complications, reimbursement is a maximum of 50 percent of the value of the intraoperative services that were originally performed.

Reimbursement for the postoperative period of the first surgical procedure includes follow-up services from both surgical procedures, and no additional postoperative reimbursement is allotted. The global period will be based on the first surgical procedure.

Billing with modifier 78 does not begin a new global period.

Surgical procedures that are performed by the same provider during the postoperative period may be considered for reimbursement when they are billed with modifier 79 for any of the following:

- When the same procedure is performed with a different diagnosis
- When the same procedure is performed on the left and right side of the body in different operative sessions and that procedure is billed with the RT or LT modifier
- When a different procedure is performed with the same diagnosis
- When a different procedure is performed with a different diagnosis

Billing with modifier 79 initiates a new global surgical period.

31.2.38.7 Multiple Surgeries

The CSHCN Services Program payment for multiple surgeries is based on the following guidelines:

- When two surgical procedures are performed on the same day, the major procedure (e.g., the highest paying procedure) is paid at the full amount allowed by Texas Medicaid. Secondary procedures performed on the same day are paid at half of the amount allowed by Texas Medicaid when medically justified.
- When a surgical procedure and a biopsy on the same organ or structure are performed on the same day, the procedures are reviewed and only the service with the higher of the allowed amounts may be reimbursed.

31.2.38.8 Second Opinions

CSHCN Services Program benefits include payment to physicians when a CSHCN Services Program client requests a second opinion regarding surgery. The claim must be coded with the appropriate office or hospital visit procedure code, and the notation “Client Initiated Second Opinion” must be noted in Block 24D of the CMS-1500 paper claim form.

31.2.38.9 Unlisted Surgical Procedure Code Considerations

Unlisted surgical procedure codes are commonly used when a matching description of a procedure performed *cannot* be found within HCPCS. These unlisted procedure codes always end with 99 (e.g., procedure code 37799).

Providers may use the procedure code that best matches the surgery performed. If an unlisted procedure code is used, the following must be included with the claim:

- A complete description of all procedures performed
- An operative report of procedures

Providers must verify whether a procedure requires authorization. Filing a claim correctly the first time helps ensure that the claim is processed in a timely manner.

Referto: Section 31.2.1, “Authorization and Prior Authorization Requirements” in this chapter for specific information on procedures that must be performed by an approved specialty team/center.

Section 31.2.38.11, “Cleft/Craniofacial Procedures” in this chapter for specific information on procedures that must be performed by an approved specialty team/center.

Section 31.2.41.2, “Transplants - Nonsolid Organ” in this chapter for specific information on procedures that must be performed by an approved specialty team/center.

31.2.38.10 Circumcision

Circumcision (procedure codes 54150, 54160, and 54161) is a benefit of the CSHCN Services Program when medically necessary.

Conditions that may require circumcision include, but are not limited to, the following:

- Congenital obstructive urinary tract anomalies
- Neurogenic bladder
- Spina bifida
- History of recurrent urinary tract infections
- Vesicoureteral reflux of at least a Grade III

- Paraphimosis
- Phimosis causing urinary obstruction

Elective circumcision of a newborn male for cosmetic, routine, or ritual purposes is not a benefit of the CSHCN Services Program. The newborn period is defined as the first 28 days of life. Circumcision of a female of any age is not a benefit of the CSHCN Services Program.

Authorization is required for a circumcision. Documentation should include the diagnosis and the specific medical necessity for the circumcision.

Referto: Section 4.2, “Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about authorization requirements.

Procedure codes 54162 and 54163 are also a benefit of the CSHCN Services Program when medically necessary and do not require authorization.

When anesthesia or analgesia stronger than topical analgesia is used during the procedure, providers must follow applicable modifier guidelines and bill their usual and customary charges.

If a circumcision is billed in addition to a hypospadias or epispadias repair, the circumcision is denied as part of another procedure. A circumcision billed in addition to other surgical procedures on the male genital or urinary system is paid according to multiple surgery reimbursement guidelines. Physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid. Claims submitted by an assistant surgeon for a circumcision are denied.

31.2.38.11 Cleft/Craniofacial Procedures

Cleft and craniofacial services provided by a cleft and craniofacial (C/C) team or through a coordinated multidisciplinary team, including surgical interventions required to treat cleft lip, cleft palate, and craniofacial anomalies, are benefits of the CSHCN Services Program.

The CSHCN Services Program recognizes the standard of care needed to appropriately address the repair of C/C anomalies, as outlined in the guidelines prepared by the American Cleft Palate-Craniofacial Association (www.acpa-cpf.org).

A comprehensive, multidisciplinary approach is medically necessary to meet all of the needs of clients who have complex medical conditions that require treatment by a broad range of medical specialists. The standard of care for the comprehensive repair or reconstruction of craniofacial anomalies for CSHCN Services Program clients requires a team approach by either a C/C team or an equivalent coordinated multidisciplinary team. The following exceptions to this requirement may be considered:

- A C/C or equivalent multidisciplinary team is not available in the area and the client is unable to travel. Medical record documentation must explain the reasons for which the client is unable to travel.
- A C/C or equivalent multidisciplinary team is not available in the area and the team approach cannot be coordinated over multiple locations. Medical record documentation must describe the attempts that were made to coordinate a team approach.
- A C/C or equivalent multidisciplinary team is available but the client or the client’s parent or guardian refuses care from the team. Medical record documentation must document the reason that the client or the client’s parent or guardian gave for refusing care from the team.

The C/C or equivalent coordinated multidisciplinary team must have surgical and medical specialists, including, but not limited to the following:

- Operating surgeon
- Orthodontist
- Speech-language pathologist

- At least one of the following specialists:
 - Otolaryngologist
 - Audiologist
 - Pediatrician
 - Geneticist
 - Social worker
 - Psychologist
 - General pediatric or prosthetic dentist

Each C/C or equivalent coordinated multidisciplinary team must identify the following:

- An administrator who is responsible for coordinating and maintaining C/C team records and ensuring that the C/C team adheres to CSHCN Services Program rules and regulations
- A team care coordinator to ensure that the focus of the service is client and family oriented, and that the client, family, and C/C team jointly develop a comprehensive treatment plan for the client

The comprehensive treatment plan must be maintained in the client's medical record and must be provided to the client and family, the referring physician, other collaborating providers, and the Department of State Health Services (DSHS) regional social worker upon request.

The plan will include the specific services that will be provided by the members of the C/C team, action steps, persons responsible, and time-frame objectives for meeting treatment outcomes.

Documentation of medical necessity must be kept in the client's medical record if the requested surgical procedure is being performed because of injury or other trauma that is not associated with the repair or reconstruction of cleft lip, cleft palate, or craniofacial anomalies.

The following procedure codes must be prior authorized:

Surgery and Assistant Surgery Procedure Codes				
20902	21120	21121	21122	21123
21125	21127	21137	21138	21139
21141	21142	21143	21145	21146
21147	21150	21151	21154	21155
21159	21160	21172	21175	21179
21180	21181	21182	21183	21184

42226	42227	42235	42260	42280
42281	67950	67961	67966	67971
67973	67974	67975		

Documentation of medical necessity must be submitted with the prior authorization request form if the surgical procedure is to be performed for reasons unrelated to the repair or reconstruction of cleft lip, cleft palate, or craniofacial anomalies.

Prior authorization is also required for orthodontic services that are performed in conjunction with C/C services.

Referto: [CSHCN Services Program Prior Authorization Request for Inpatient Surgery—For Surgeons Only](#)

[CSHCN Services Program Prior Authorization and Authorization Request for Outpatient Surgery—For Outpatient Facilities and Surgeons](#)

31.2.39 Diagnostic and Surgical/Reconstructive Breast Therapies

The following services are benefits of the CSHCN Services Program:

- Breast therapies
 - Diagnostic
 - Surgical
 - Reconstructive
 - Treatment of complications of breast reconstruction
 - External breast prostheses
- Corrective procedures

Surgical, reconstructive, and corrective procedures must be medically necessary.

Only new, unused durable medical equipment will be purchased for CSHCN clients.

Diagnostic and surgical/reconstructive breast therapies and corrective procedures include:

- Diagnostic procedures for the breast
- Mastectomy for the treatment of breast cancer

- Prophylactic mastectomy
- Mastectomy for gynecomastia
- Reconstructive procedures
- Treatment of complications of breast reconstruction
- External breast prostheses
- Corrective procedures

The following provider types, services and settings apply:

- Diagnostic and surgical/reconstructive breast therapies may be provided by physicians, physician assistants, and advanced practice registered nurses, in the office, outpatient and inpatient hospital settings.
- Corrective procedures may be provided by physicians, dentists, podiatrists, physician assistants, and advanced practice registered nurses, in office, inpatient and outpatient hospital settings.
- Breast prostheses which are considered DME and may be provided by DME providers in the home setting.

To be considered for reimbursement, a LT or RT modifier must be appropriately appended to the procedure codes submitted for diagnostic and surgical/reconstructive breast therapies, external breast prostheses, or corrective procedures.

31.2.39.1 Breast Therapies

31.2.39.1.1 Diagnostic Breast Procedures

Diagnostic breast procedures are a benefit of the CSHCN Services Program for a diagnosis of a condition or malignancy of the breast.

Diagnostic procedures may include:

- Puncture aspiration
- Mastotomy
- Injection procedure for ductogram or galactogram
- Percutaneous biopsy, with or without imaging guidance
- Incisional biopsy
- Nipple exploration

Excision of the following:

- Lactiferous duct fistula
- Benign or malignant breast lesion
- Chest wall tumor

The following procedure codes may be reimbursed for diagnostic procedures:

Procedure Codes				
19000	19001	19020	19030	19081
19082	19083	19084	19085	19086
19100	19101	19110	19112	19120
19125	19126	19260	19271	19272*

*Procedure code 19272 is limited to one procedure per lifetime.

Procedure Codes				
19281	19282	19283	19284	19285
19286	19287	19288		
*Procedure code 19272 is limited to one procedure per lifetime.				

31.2.39.2 Surgical Breast Procedures

31.2.39.2.1 Mastectomy

Mastectomy and partial mastectomy (e.g., lumpectomy, tylectomy, quadrantectomy, or segmentectomy) is a benefit of the CSHCN Services Program when it is medically necessary to remove a breast or portion of a breast for conditions including, but not limited to:

- Developmental abnormality
- Congenital defect
- Trauma or injury to chest wall
- Primary or secondary malignancy of the breast
- Carcinoma in situ of the breast

The following mastectomy procedure codes are benefits of the CSHCN Services Program for male and female clients of all ages:

Procedure Codes	Limitations
Partial Mastectomy	
19301, 19302	One left breast per lifetime One right breast per lifetime
Simple, Subcutaneous, Radical, and Modified Radical Mastectomy	
19303, 19304, 19305, 19306, 19307	One left breast per lifetime One right breast per lifetime

31.2.39.2.2 Prophylactic Mastectomy

Prophylactic mastectomy is a benefit of the CSHCN Services Program and is limited to clients who are at moderate or high-risk for the development of breast cancer and have one or more of the following conditions:

- Personal history
 - Current or previous history of breast cancer
 - Lobular carcinoma in situ (LCIS)
 - Radiation therapy to the chest before the age of 30
- Family history of breast or ovarian cancer in mother, sister, or daughter
- Presence of any of the following genetic mutations:
 - Breast cancer gene 1 (BRCA1)
 - Breast cancer gene 2 (BRCA2)
 - Tumor protein 53 (TP 53)

- Phosphatase and tensin homolog (PTEN)

Note: *The above risk factors are identified by the National Cancer Institute and the National Comprehensive Cancer Network.*

Documentation that supports medical necessity for the procedure must be maintained in the client's medical record and must indicate the following:

- The client is moderate-to-high risk, as previously defined
- As a candidate for prophylactic mastectomy, the client has undergone counseling from a health professional other than the operating surgeon. The counseling must include assessment of the following:
 - The client's ability to understand the risks and long-term implications of the surgical procedure
 - The client's informed choice to proceed with the surgical procedure

31.2.39.2.3 Mastectomy for Gynecomastia

Surgery to correct gynecomastia is a benefit of the CSHCN Services Program for males who are 20 years of age or younger, when the criteria is met.

Procedure code 19300 may be reimbursed when billing for a mastectomy for pubertal gynecomastia.

31.2.39.2.4 Breast Reconstruction

Breast reconstruction is a benefit of the CSHCN Services Program when performed to correct or repair abnormal structures of the breast caused by one or more of the following:

- Mastectomy or a history of complications of mastectomy
- Tumor or disease (e.g., following a primary mastectomy procedure in order to establish symmetry with a contralateral breast or following bilateral mastectomy)
- Congenital defect
- Developmental abnormality
- Infection
- Trauma or injury to the chest wall

Breast reconstruction may be performed using one of the following:

- Implants (saline or silicone)
- Tissue transfers, including, but not limited to:
 - Latissimus dorsi flap
 - Transverse rectus abdominis myocutaneous (TRAM) flap
 - Deep inferior epigastric perforator (DIEP) flap
 - Superficial inferior epigastric artery (SIEA) flap
- Nipple or areola reconstruction
- Reduction mammoplasty
- Mastopexy
- Tattooing to correct color defects of the skin
- Treatment for complications of breast reconstruction

Breast reconstruction may be performed as single or multiple, staged procedures (e.g., tissue expansion followed by implants, nipple or areola reconstruction). Nipple-areola pigmentation, commonly known as medical tattooing, is the final stage of breast reconstruction surgery. All of the following criteria must be met for breast reconstruction following a medically necessary mastectomy.

- The client is eligible for CSHCN Services Program at the time of the breast reconstruction.
- The client has a documented history of a mastectomy.
- The client meets age and gender criteria for the requested procedure.

Procedure code 15777 is an add-on code, and must be used with the appropriate procedure codes.

The following procedure codes may be reimbursed for breast reconstruction:

Procedure Code	Client Gender and Ages	Limitation
11920	Male and female clients	Two procedures per lifetime
11921	Male and female clients	Two procedures per lifetime
11922	Male and female clients	Two procedures per lifetime
11970	Male and female clients	
11971	Male and female clients	
19316	Female clients	
19318	Female clients	
19324	Female clients	
19325	Female clients	
19340	Female clients	
19342	Female clients	
19350	Male and female clients	
19355	Male and female clients	
19357	Female clients	
19361	Male and female clients	
19364	Male and female clients	
19366	Male and female clients	
19367	Male and female clients	
19368	Male and female clients	
19369	Female clients	
19396	Female clients	
S2068	Male and female clients	

Tattooing (procedure codes 11920, 11921, and 11922) is limited to clients with a documented history of a breast reconstruction performed while the client was eligible for the CSHCN Services Program.

Denied claims for tattooing may be appealed with supporting documentation stating the date of breast reconstruction.

Denied claims for breast reconstruction may be appealed with supporting documentation which includes the date of mastectomy.

31.2.39.2.5 Excision or Destruction of Benign Lesions

The client must have a documented history of mastectomy or a history of complications of mastectomy performed while eligible for the CSHCN Services Program.

Documentation supporting medical necessity for treatment of a benign lesion, cyst, or lipoma must be maintained in the client’s medical record and identify that the lesion requiring treatment is one or more of the following:

- Inflamed
- Infected
- Irritated
- Bleeding
- Increasing in size
- Obstructing vision
- Interfering with oral function
- Located in an area that could affect motion or function

When a lesion is suspicious for malignancy, documentation supporting medical necessity for excision or destruction of the lesion must be maintained in the client’s medical record.

For blepharoplasty procedures (procedure codes 15820, 15821, 15822, and 15823) additional documentation of medical necessity must be submitted with both of the following:

- Photographs of the eyelid problem
- Visual field measurements

Excision or destruction of multiple lesions, cysts, or lipomas are reimbursed according to the multiple surgery payment guidelines. Initial or follow-up visits billed in addition to a lesion excision and/or destruction for the same diagnosis are subject to global surgery payment criteria.

Referto: Section 31.2.38.6, “Global Fees” in this chapter and Section Section 31.2.38.7, “Multiple Surgeries” in this chapter for additional information about global surgery and multiple surgery fees.

31.2.39.2.6 Treatment for Complications of Breast Reconstruction

The following procedure codes are benefits of the CSHCN Services Program for the treatment of complications of breast reconstruction:

Procedure Codes				
19328*	19330*	19370*	19371*	19380
* A benefit for female clients only				

Regardless of the client’s eligibility at the time of the original breast reconstruction, the treatment of complications is considered for reimbursement when medical criteria are met.

31.2.39.2.7 Reduction Mammoplasty

Procedure code 19318 may be reimbursed with prior authorization for reduction mammoplasty. This procedure is limited to two per lifetime.

31.2.39.2.8 External Breast Prostheses

External breast prostheses must be provided by a durable medical equipment (DME) provider to a female client with a history of a medically necessary mastectomy procedure.

External breast prostheses may be reimbursed if the client has a documented history of breast surgery in the past.

Referto: Chapter 17, "Durable Medical Equipment (DME)" for breast prosthesis benefits and limitations.

31.2.39.3 Prior Authorization and Authorization Requirements

All prior authorization and authorization requests must be submitted with documentation of medical necessity.

Prior authorization requests must be submitted using a [CSHCN Services Program Authorization and Prior Authorization Request form](#). Prior authorization requests that do not contain required information are considered incomplete and will be denied. The requesting provider may be asked for additional information to clarify or support the authorization request.

Prior authorization requests for external breast prostheses must be submitted using the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form and Instructions](#).

Requests must include the physician’s original signature and the date signed. Stamped signatures and dates will not be accepted. Requests will be considered incomplete without this information.

Requests for DME quantities exceeding limitations must be prior authorized by the CSHCN medical director and must be submitted with documentation of medical necessity.

Procedure code 15828 requires prior authorization. All requests must be reviewed by the CSHCN Services Program Medical Director or designee.

31.2.39.4 Prior Authorization and Authorization Requirements for Mastectomy, Breast Reconstruction, and External Prostheses

Prior authorization is not required when:

- The client is 18 years of age or older, meets gender criteria and the procedure is a mastectomy or breast reconstruction, or
- The client is 18 years of age or older, meets gender criteria, and the request is for one of the following external breast prosthesis procedure codes:

Procedure Codes						
L8000	L8001	L8002	L8010	L8015	L8020	L8030

- Partial mastectomy, procedure codes 19301 and 19302 are exceptions. Procedure codes 19301 and 19302 are eligible for reimbursement regardless of the client’s age, and therefore they do not require prior authorization.

Prior authorization is required for the following:

- Mastectomy or breast reconstruction when the client does not meet criteria
- Mastectomy for pubertal gynecomastia
- Unlisted breast procedure code 19499
- Tattooing for clients without an established history of breast reconstruction during eligibility for the CSHCN Services Program
- External breast prosthesis procedure codes L8035 and L8039

31.2.39.4.1 Mastectomy and Breast Reconstruction

Prior authorization for mastectomy, prophylactic mastectomy, or breast reconstruction is required for one or more of the following:

- The client is 17 years of age or younger, or

- The client does not meet the gender criteria for the requested procedure, as required by the CSHCN Services Program, or
- The client does not have an established history of related services while eligible for the CSHCN Services Program.

Documentation for a mastectomy must be submitted for conditions, including but not limited to:

- Developmental abnormality
- Congenital defect
- Trauma or injury to chest wall
- Primary or secondary malignancy of the breast
- Carcinoma in situ of the breast

31.2.39.4.2 Breast Reconstruction

Documentation must be submitted which identifies one or more of the following:

- Mastectomy or a history of complications of mastectomy
- Tumor or disease (e.g., following a primary mastectomy procedure in order to establish symmetry with a contralateral breast or following bilateral mastectomy)
- Congenital defect
- Developmental abnormality
- Infection
- Trauma or injury to the chest wall

31.2.39.4.3 Mastectomy for Gynecomastia

Prior authorization is required for procedure code 19300, which indicates mastectomy for pubertal gynecomastia. The following documentation must be submitted with all prior authorization requests:

- Gynecomastia is classified as Grade II, III or IV per the American Society of Plastic Surgeons classification.
- Puberty is at or near completion, as evidenced by documentation of the following:
 - 95 percent of adult height based on bone age, and
 - Tanner stage V
- Glandular breast tissue confirming true gynecomastia is documented on physical examination or mammography.
- Hormonal causes, including hyperthyroidism, estrogen excess, prolactinomas and hypogonadism, have been excluded by appropriate laboratory testing. If present, hormonal causes must have been treated for at least one year and are resolved, as supported by appropriate laboratory test results.
- Medical documentation must be submitted with a prior authorization request for a client that has used gynecomastia inducing drugs or other substances, when identified as the cause of gynecomastia. The documentation must indicate that the client has been off the drugs or other substances for a minimum of one year and must include the dates that the client has been off such substances.
- Psychological and psycho-social effects which were identified in the pre-surgical history and physical.
- Identification of left breast, right breast or both breasts, which require mastectomy.

31.2.39.4.4 Reduction Mammoplasty

Prior authorization is required for procedure code 19318, which indicates reduction mammoplasty.

When requesting prior authorization for procedure code 19318, the following documentation must be submitted with all prior authorization requests:

- Surgeons are required to include the following information documenting medical necessity when requesting prior authorization:
 - Client's name and CSHCN Services Program client number,
 - Complete history and physical, including height, weight, and breast size
 - Description of functional debility caused by the condition
 - Preoperative photographs (both front and side views)
 - Description of past treatments and outcomes
 - Number of grams of tissue to be removed from each side
 - Requesting surgeon's provider identifier, and
 - Name and address of facility where services are to be performed and CSHCN Services Program provider identifier.

31.2.39.4.5 Unlisted Procedure

Prior authorization is required for procedure code 19499, which indicates an unlisted breast procedure.

When requesting a prior authorization for procedure code 19499, the following documentation must be submitted to determine coverage:

- A clear, concise description of the procedure to be performed
- Reason for recommending this particular procedure
- A CPT or HCPCS procedure code, which is comparable to the procedure being requested
- Documentation this procedure is not investigational or experimental
- Place of service the procedure is to be performed, and
- The provider's intended fee for this procedure.

Prior authorization requests must be submitted using a [CSHCN Services Program Authorization and Prior Authorization Request form](#).

Prior authorization requests that do not contain the required information are considered incomplete and will be denied.

31.2.39.4.6 Breast Prostheses

Prior authorization requests for external breast prostheses must be submitted using the [CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form and Instructions](#).

External breast prostheses of the same type will be considered for coverage at any time, through the prior authorization process, if it is lost, stolen, or irreparably damaged.

An external breast prosthesis that is a replacement or a different type will be considered for coverage at any time, through the prior authorization process, if the prosthesis is needed due to a change in the client's medical condition.

Prior authorization is required for procedure codes L8035 and L8039 when the request is for new or replacement external breast prosthesis. The following documentation of medical necessity must be submitted with the prior authorization request:

- The client's diagnosis
- Prior treatment for this diagnosis, and
- Medical necessity of the requested prosthesis.

When requesting a prior authorization for procedure code L8039, the following additional information must also be submitted in order to determine coverage:

- A clear, concise description of the prosthesis which is requested
- Reason for recommending this particular prosthesis
- A CPT or HCPCS procedure code, which is comparable to the prosthesis requested
- Documentation that this prosthesis is not investigational or experimental
- Provider's place of service, and
- The provider's intended fee for this prosthesis.

31.2.39.5 Documentation Requirements

In addition to documentation requirements outlined in the Prior Authorization and Authorization Requirements section, the following requirements apply:

- All services are subject to retrospective review to ensure that the documentation in the client's medical record supports the medical necessity of the service(s) provided, and
- Services not supported by documentation are subject to recoupment.

31.2.39.6 Reconstructive and Corrective Procedures (Not Related to Breast Therapies)

Reconstructive and corrective procedures are performed on structures of the body for any of the following purposes:

- Improving or restoring bodily functions
- Correcting significant deformity resulting from:
 - Disease
 - Trauma
 - Previous surgical procedure
 - Congenital or developmental anomalies

Excision or destruction of a benign lesion, cyst, or lipoma is a benefit only when the lesion is:

- Inflamed
- Infected
- Irritated
- Bleeding
- Increasing in size
- Obstructing vision
- Interfering with oral function
- Located in an area that could affect motion or function

Excision or destruction of a lesion may be a benefit when there is suspicion of malignancy.

The following procedure codes may be reimbursed for corrective procedures:

Procedure Codes							
10040	11200	11201	11300	11301	11302	11303	11305
11306	11307	11308	11310	13111	11312	11313	11400
11401	11402	11403	11404	11406	11420	11421	11422
11423	11424	11426	11440	11441	11442	11443	11444
11446	11760	11762	11960	15780	15781	15782	15783
15786	15787	15788	15789	15792	15793	15820	15821
15822	15823	15830	15847	17000	17003	17004	17106
17107	17108	17110	17111	17311	17312	17313	17314
17315	21555	21740	21742	21743	21930	21931	22900
22901	22902	22903	23071	23073	23075	23076	23077
23078	24071	24073	24075	24076	24077	24079	25075
26115	27043	27045	27047	27048	27049	27327	27328
27337	27339	27618	27619	27634	28039	28041	28043
28045	28313	40818	54660				

31.2.39.7 Prior Authorization and Authorization for Corrective Procedures

31.2.39.7.1 Oral Procedures

Procedures that are performed as part of cleft-craniofacial surgery require prior authorization.

Referto: Section 31.2.38.11, “Cleft/Craniofacial Procedures” in this chapter for information about CSHCN Services Program cleft-craniofacial benefits and limitations.

31.2.39.7.2 Dermatological and Blepharoplasty Procedures

Acne surgeries, dermabrasion, and chemical peel, and blepharoplasty procedures (procedure codes 10040, 15780, 15781, 15782, 15783, 15788, 15789, 15792, 15793, 15820, 15821, 15822, and 15823) require prior authorization, and must meet one of the following criteria:

- Correction or repair of severe disfigurement due to disease or accidental injury (photographic documentation is required), or
- Restoration of physical function resulting from disease or accidental injury (specific function must be detailed in prior authorization request).

31.2.39.7.3 Panniculectomy and Abdominoplasty

Procedure codes 15830 and 15847 are benefits for panniculectomy and abdominoplasty procedures.

Panniculectomy and abdominoplasty procedure codes 15830 and 15847 require prior authorization. The following documentation supporting medical necessity must be submitted with all prior authorization requests:

- Photographic documentation that the panniculus hangs below the level of the pubis,
- The panniculus is the result of weight loss of at least 75 pounds that has been sustained for over one year, and
- Documentation of one or more of the following conditions which directly impairs physical function:

- Interference with ambulation, urination or other activities of daily living, or
- Recurring persistent fungal and bacterial panniculitis that is refractory to good personal hygiene and documented optimal medical management including topical anti-infectives, and at least three systemic medication treatments.

31.2.39.7.4 Noncovered Services

The following services are not a benefit of the CSHCN Services Program:

- Alteration of a natural, undamaged, or unimpaired body part, except as specifically outlined in this chapter.

The following cosmetic procedures are not a benefit of the CSHCN Services Program:

- Rhytidectomies (procedure codes 15824, 15825, 15826, and 15829)
- Excisions of excessive skin and subcutaneous tissue (includes lipectomy) (procedure codes 15832, 15833, 15834, 15835, 15836, 15837, and 15839)
- Suction assisted lipectomies (procedure codes 15877, 15878, and 15879)
- Cryotherapy for acne (procedure code 17340)
- Chemical exfoliation (procedure code 17360)
- Electrolysis epilation (procedure code 17380)

31.2.39.8 Rhizotomy

Rhizotomy for clients with spastic cerebral palsy is a benefit of the CSHCN Services Program.

Rhizotomies (procedure codes 63185 and 63190) must be prior authorized.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

[CSHCN Services Program Prior Authorization Request for Inpatient Surgery—For Surgeons Only Form.](#)

Rhizotomies are a benefit when submitted for reimbursement with one of the following diagnosis codes:

Diagnosis Code	Description
G800	Spastic quadriplegic cerebral palsy
G801	Spastic diplegic cerebral palsy
G802	Spastic hemiplegic cerebral palsy
G808	Other cerebral palsy
G809	Cerebral palsy, unspecified
G835	Locked-in state
G8389	Other specified paralytic syndromes

Documentation of whether or not the client has spastic cerebral palsy with no athetosis or fluctuations in muscle tone, but does have underlying muscle strength, must be included with the prior authorization request form.

Either electromyography or intraoperative neurophysiology testing is paid, but not both during the same procedure, when performed on the same day.

PT and occupational therapy (OT) are benefits up to three times a week (each) for a period of 1 year postoperatively.

31.2.39.9 Septoplasty

Septoplasty (procedure code 30520) that is not related to the repair or reconstruction of a cleft lip, cleft palate, or craniofacial anomaly may be prior authorized with documentation to support medical necessity.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

[CSHCN Services Program Prior Authorization Request for Inpatient Surgery—For Surgeons Only](#)

[CSHCN Services Program Prior Authorization and Authorization Request for Outpatient Surgery—For Outpatient Facilities and Surgeons](#)

31.2.40 Therapeutic Apheresis

Therapeutic apheresis does not require authorization.

Reimbursement for procedure codes 36511, 36512, 36513, 36514, 36515, and 36516 is limited to the following diagnosis codes:

Diagnosis Code	Description
C880	Waldenstrom macroglobulinemia
C882	Heavy chain disease
C883	Immunoproliferative small intestinal disease
C888	Other malignant immunoproliferative diseases
C9000	Multiple myeloma not having achieved remission
C9002	Multiple myeloma in relapse
C9010	Plasma cell leukemia not having achieved remission
C9012	Plasma cell leukemia in relapse
C9020	Extramedullary plasmacytoma not having achieved remission
C9022	Extramedullary plasmacytoma in relapse
C9030	Solitary plasmacytoma not having achieved remission
C9032	Solitary plasmacytoma in relapse
C9100	Acute lymphoblastic leukemia not having achieved remission
C9102	Acute lymphoblastic leukemia, in relapse
C9110	Chronic lymphocytic leukemia of B-cell type not having achieved remission
C9112	Chronic lymphocytic leukemia of B-cell type in relapse
C9130	Prolymphocytic leukemia of B-cell type not having achieved remission
C9132	Prolymphocytic leukemia of B-cell type, in relapse
C9140	Hairy cell leukemia not having achieved remission
C9142	Hairy cell leukemia, in relapse
C9150	Adult T-cell lymphoma/leukemia (HTLV-1-associated) not having achieved remission
C9152	Adult T-cell lymphoma/leukemia (HTLV-1-associated), in relapse
C9160	Prolymphocytic leukemia of T-cell type not having achieved remission
C9162	Prolymphocytic leukemia of T-cell type, in relapse
C9190	Lymphoid leukemia, unspecified not having achieved remission

Diagnosis Code	Description
C9192	Lymphoid leukemia, unspecified, in relapse
C91A0	Mature B-cell leukemia Burkitt-type not having achieved remission
C91A2	Mature B-cell leukemia Burkitt-type, in relapse
C91Z0	Other lymphoid leukemia not having achieved remission
C91Z2	Other lymphoid leukemia, in relapse
C9200	Acute myeloblastic leukemia, not having achieved remission
C9202	Acute myeloblastic leukemia, in relapse
C9210	Chronic myeloid leukemia, BCR/ABL-positive, not having achieved remission
C9220	Atypical chronic myeloid leukemia, BCR/ABL-negative, not having achieved remission
C9230	Myeloid sarcoma, not having achieved remission
C9232	Myeloid sarcoma, in relapse
C9240	Acute promyelocytic leukemia, not having achieved remission
C9242	Acute promyelocytic leukemia, in relapse
C9250	Acute myelomonocytic leukemia, not having achieved remission
C9252	Acute myelomonocytic leukemia, in relapse
C9260	Acute myeloid leukemia with 11q23-abnormality not having achieved remission
C9262	Acute myeloid leukemia with 11q23-abnormality in relapse
C9290	Myeloid leukemia, unspecified, not having achieved remission
C9292	Myeloid leukemia, unspecified in relapse
C92A0	Acute myeloid leukemia with multilineage dysplasia, not having achieved remission
C92A2	Acute myeloid leukemia with multilineage dysplasia, in relapse
C92Z0	Other myeloid leukemia not having achieved remission
C92Z2	Other myeloid leukemia, in relapse
C9300	Acute monoblastic/monocytic leukemia, not having achieved remission
C9302	Acute monoblastic/monocytic leukemia, in relapse
C9310	Chronic myelomonocytic leukemia not having achieved remission
C9312	Chronic myelomonocytic leukemia, in relapse
C9330	Juvenile myelomonocytic leukemia, not having achieved remission
C9332	Juvenile myelomonocytic leukemia, in relapse
C9390	Monocytic leukemia, unspecified, not having achieved remission
C9392	Monocytic leukemia, unspecified in relapse
C93Z0	Other monocytic leukemia, not having achieved remission
C93Z2	Other monocytic leukemia, in relapse
C9400	Acute erythroid leukemia, not having achieved remission
C9402	Acute erythroid leukemia, in relapse
C9420	Acute megakaryoblastic leukemia not having achieved remission
C9422	Acute megakaryoblastic leukemia, in relapse
C9430	Mast cell leukemia not having achieved remission
C9432	Mast cell leukemia, in relapse

Diagnosis Code	Description
C9440	Acute panmyelosis with myelofibrosis not having achieved remission
C9442	Acute panmyelosis with myelofibrosis, in relapse
C9480	Other specified leukemias not having achieved remission
C9482	Other specified leukemias, in relapse
C9500	Acute leukemia of unspecified cell type not having achieved remission
C9502	Acute leukemia of unspecified cell type, in relapse
C9510	Chronic leukemia of unspecified cell type not having achieved remission
C9512	Chronic leukemia of unspecified cell type, in relapse
C9590	Leukemia, unspecified not having achieved remission
C9592	Leukemia, unspecified, in relapse
D45	Polycythemia vera
D472	Monoclonal gammopathy
D473	Essential (hemorrhagic) thrombocythemia
D474	Osteomyelofibrosis
D5700	Hb-SS disease with crisis, unspecified
D5701	Hb-SS disease with acute chest syndrome
D5702	Hb-SS disease with splenic sequestration
D571	Sickle-cell disease without crisis
D5720	Sickle-cell/Hb-C disease without crisis
D57211	Sickle-cell/Hb-C disease with acute chest syndrome
D57212	Sickle-cell/Hb-C disease with splenic sequestration
D57219	Sickle-cell/Hb-C disease with crisis, unspecified
D5780	Other sickle-cell disorders without crisis
D57811	Other sickle-cell disorders with acute chest syndrome
D57812	Other sickle-cell disorders with splenic sequestration
D57819	Other sickle-cell disorders with crisis, unspecified
D588	Other specified hereditary hemolytic anemias
D589	Hereditary hemolytic anemia, unspecified
D590	Drug-induced autoimmune hemolytic anemia
D591	Other autoimmune hemolytic anemias
D592	Drug-induced nonautoimmune hemolytic anemia
D593	Hemolytic-uremic syndrome
D594	Other nonautoimmune hemolytic anemias
D599	Acquired hemolytic anemia, unspecified
D6182	Myelophthisis
D65	Disseminated intravascular coagulation [defibrination syndrome]
D682	Hereditary deficiency of other clotting factors
D68311	Acquired hemophilia
D688	Other specified coagulation defects

Diagnosis Code	Description
D690	Allergic purpura
D691	Qualitative platelet defects
D692	Other nonthrombocytopenic purpura
D693	Immune thrombocytopenic purpura
D6941	Evans syndrome
D6942	Congenital and hereditary thrombocytopenia purpura
D6949	Other primary thrombocytopenia
D696	Thrombocytopenia, unspecified
D698	Other specified hemorrhagic conditions
D699	Hemorrhagic condition, unspecified
D72828	Other elevated white blood cell count
D740	Congenital methemoglobinemia
D748	Other methemoglobinemias

N047	Nephrotic syndrome with diffuse crescentic glomerulonephritis
N048	Nephrotic syndrome with other morphologic changes
N049	Nephrotic syndrome with unspecified morphologic changes

Diagnosis Code	Description
N052	Unspecified nephritic syndrome with diffuse membranous glomerulonephritis
N053	Unspecified nephritic syndrome with diffuse mesangial proliferative glomerulonephritis
N054	Unspecified nephritic syndrome with diffuse endocapillary proliferative glomerulonephritis
N055	Unspecified nephritic syndrome with diffuse mesangiocapillary glomerulonephritis
N056	Unspecified nephritic syndrome with dense deposit disease
N058	Unspecified nephritic syndrome with other morphologic changes
N059	Unspecified nephritic syndrome with unspecified morphologic changes
N08	Glomerular disorders in diseases classified elsewhere
N171	Acute kidney failure with acute cortical necrosis
N172	Acute kidney failure with medullary necrosis
T8690	Unspecified complication of unspecified transplanted organ and tissue
T8691	Unspecified transplanted organ and tissue rejection
T8692	Unspecified transplanted organ and tissue failure
T8699	Other complications of unspecified transplanted organ and tissue

Other diagnoses may be considered upon appeal with documentation of medical necessity.

Therapeutic apheresis with extracorporeal affinity column adsorption and plasma reinfusion may be considered for reimbursement when billed for the low density lipoprotein (LDL) apheresis (such as Liposorber® LA 15) or the protein A immunoadsorption columns (such as Prosorba®).

Claims for apheresis services must be submitted with procedure codes 36511, 36512, 36513, 36514, 36515, and 36516, as appropriate.

Therapeutic apheresis requires direct supervision by a physician.

Procedure codes for therapeutic apheresis may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

31.2.41 Transplants

31.2.41.1 Renal (Kidney) Transplant

Renal transplants are a benefit for CSHCN Services Program clients when the projected costs of the transplant and follow-up care are less than the cost of continuing dialysis treatments. The estimated cost of the renal transplant over a 1-year period versus the cost of renal dialysis for 1 year at the requesting facility must be both documented and reviewed.

Clients who have not previously applied for Medicare and Kidney Health Care coverage and are anticipating the need for a renal transplant must apply for Medicare and Kidney Health Care coverage.

Renal transplants may only be considered for reimbursement when performed in a Medicaid-approved, CSHCN Services Program-enrolled transplant center facility, certified by the United Network of Organ Sharing (UNOS).

Referto: Section 2.1.7, “Transplant Specialty Centers” in Chapter 2, “Provider Enrollment and Responsibilities.”

For any client who is 18 years of age or older, the transplant team must also provide a plan of care to be implemented after the client reaches 21 years of age and is no longer eligible for services through the CSHCN Services Program.

Renal transplants must be prior authorized, and approval is subject to the availability of funds. Only an initial and one subsequent renal transplant may be reimbursed for a client as a lifetime benefit.

Documentation supporting the prior authorization request must include the following:

- The [CSHCN Services Program Prior Authorization Request for Stem Cell or Renal Transplant](#) form
- A recent and complete history and physical
- A statement of the client’s status including why a transplant is being recommended at this time
- Documentation of the cost effectiveness of the transplant versus continued dialysis

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

Nationally, hospital stays for renal transplants are 5 to 10 days followed by outpatient follow-up; therefore, no additional hospital days beyond the 60 per year allowed by the CSHCN Services Program may be authorized without an appeal documenting medical necessity.

If the transplant is not prior authorized, services directly related to the transplant within 3 days preoperative and during the 6 weeks postoperative period are denied for the surgeon, assistant surgeon, or facility. The anesthesiologist may be reimbursed.

The following procedure codes must be used to bill for physician services related to the renal transplant:

Surgery and Assistant Surgery Procedure Codes				
50300	50320	50323	50325	50327
50328	50329	50340	50360	50365
50370	50380	50547		

Anesthesia Procedure Code
00868

Radiology Procedure Code
76776

Procedure codes 50323, 50325, 50327, 50328, and 50329 are payable under the organ recipient, and may only be reimbursed when procedure code 50360 or 50365 has been paid for the same date of service.

Physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

Reimbursement for renal transplants includes the cost of the transplant services and one of the following:

- The cost of procuring a cadaveric organ and services associated with procurement from an organ procurement organization (OPO) designated by the Secretary of Health and Human Services. Documentation validating the organ’s source must accompany the claim.
- Donor costs for living donors. Donor costs must be included on the client’s inpatient hospital claim and may only be reimbursed if another source of payment is not available. Donor costs for CSHCN Services Program clients who also have Medicaid will not be reimbursed.

A maximum amount of \$200,000 per client may be reimbursed for a transplant hospitalization. All hospital charges for patient care (inpatient hospital only) during the time of the hospital stay are applied to the \$200,000 limit. Donor costs are included in this \$200,000 limit.

Renal transplant recipients are eligible for follow-up care (outside the \$200,000 limit) immediately following hospital discharge.

31.2.41.2 Transplants - Nonsolid Organ

Stem cell transplants and post-transplantation cellular infusions must be performed in a Texas facility that is a designated children's hospital or a facility in compliance with the criteria set forth by the Organ Procurement and Transplantation Network (OPTN), UNOS, or the National Marrow Donor Program (NMDP). TMHP maintains a current list of approved centers.

Referto: Section 2.1.7, "Transplant Specialty Centers" in Chapter 2, "Provider Enrollment and Responsibilities."

The following surgery procedure codes should be used to submit claims for reimbursement of transplantation and post-transplantation cellular infusion procedures:

Procedure Codes				
38205	38206	38230	38232	38240
38241	38242	38243	38999	S2142

Stem cell transplants and post-transplantation cellular infusions must be prior authorized. Prior authorization must be obtained by both the facility and the physician.

Providers may fax prior authorization requests to 1-512-514-4222.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

[CSHCN Services Program Prior Authorization Request for Stem Cell or Renal Transplant Form and Instructions.](#)

The CSHCN Services Program does not authorize the following:

- Experimental or investigational services, supplies, or procedures
- Human leukocyte antigen (HLA)-typing of possible donors

The CSHCN Services Program may cover post-transplantation cellular infusions and only autologous and matched related and matched nonrelated allogeneic transplants.

The CSHCN Services Program will recognize the following covered indications for allogeneic stem cell transplants:

- Bone marrow disorders
- Hemoglobinopathies
- Immunodeficiency disorders
- Inherited metabolic disorders
- Leukemias
- Lymphomas
- Multiple myeloma/plasma cell disorders
- Platelet function disorder

The CSHCN Services Program will recognize the following covered indications for autologous stem cell transplants:

- Brain tumors
- Germ cell tumors
- Leukemias

- Lymphomas
- Multiple myeloma/plasma cell disorders
- Small round blue cell tumors of childhood

Indications for post-transplantation cellular infusions include the following:

- Stem cell infusion for failure to graft (autologous)
- Donor leukocyte infusion for persistent or relapsed malignant disease (allogenic)
- Donor hematopoietic progenitor cell (HPC) boost infusion for relapse and post-transplantation cytopenias (allogenic)

Post-transplantation cellular infusions must be prior authorized separately with evidence of previous stem cell transplantation.

Stem cell transplants and post-transplantation cellular infusions may be considered for other conditions if documentation provides clinical evidence of the efficacy for the condition.

Coverage is limited to an initial transplant and one subsequent transplant, for a total of two transplants per lifetime regardless of payer. Indications for re-transplantation include the following:

- Relapse of disease
- Failure to engraft or poor graft function
- Graft rejection

The subsequent transplant must be prior authorized separately from the initial transplant.

31.2.41.2.1 Physician Reimbursement

Physicians may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

If approved, a letter with the authorization number is sent to the physician (when applicable) and to the hospital where the procedure is to be performed. This authorization number must be placed in Block 23 of the CMS-1500 paper claim form.

***Note:** A benefit of up to 60 inpatient days may be granted to a client, to begin the date of an approved stem cell transplant. Any days remaining from the standard 60 inpatient day limit may be added to the 60 days for the transplant if the \$200,000 limit for the transplant maximum amount has not been exceeded. Donor costs must be included on the client's inpatient hospital claim for the transplant and are included in the \$200,000 limit for the transplant maximum amount. If prior authorization is received for a second stem cell transplant after a client has already received an initial transplant, an additional benefit of up to 60 inpatient days may be reimbursed for an additional maximum amount of \$200,000, beginning with the actual first day of the second transplant.*

31.2.42 Wound Care Management

Wound care management includes first- and second-line therapies.

The following services are not a benefit of the CSHCN Services Program:

- Infrared therapy
- Ultraviolet therapy
- Topical hyperbaric oxygen therapy
- Low-energy ultrasound wound cleanser (MIST therapy)

- Services that are submitted as debridement but do not include the removal of devitalized tissue. Examples include removal of non-tissue integrated fibrin exudates, crusts, biofilms, or other materials from a wound, without the removal of tissue.
- Electrical stimulation and electromagnetic therapy
- Whirlpool therapy for wound care (procedure code 97602)

31.2.42.1 First-Line Wound Care Therapy

First-line wound care therapy includes the following:

- Compression
- Debridement

31.2.42.1.1 Compression

Compression therapy is an important component in the standard of care for treatment of venous ulcers. An Unna boot may be used as part of compression therapy to promote healing, control edema, increase blood return to the heart, and reduce infection. Compression performed as part of wound care management may be reimbursed when billed with procedure code 29580.

31.2.42.1.2 Debridement

Selective debridement consists of the following:

- Conservative sharp debridement
- High-pressure lavage to selected areas

Non-selective debridement consists of the following:

- Autolytic debridement
- Blunt debridement
- Enzymatic debridement
- Hydrotherapy and wound immersion
- Mechanical debridement

The following procedure codes are a benefit for wound debridement:

Procedure Codes									
11000	11001	11042	11043	11044	16020	16025	16030	97597	97598

The procedure code submitted on the claim must reflect the level of debrided tissue, e.g., partial-thickness skin, full-thickness skin, subcutaneous tissue, muscle, and/or bone, and not the extent, depth, or grade of the ulcer or wound.

Wound debridement procedure codes 11042, 11043, and 11044 are not appropriate and will not be approved for the following:

- Washing bacteria or fungal debris from the feet
- Paring or cutting of corns or calluses
- Incision and drainage of an abscess
- Trimming or debridement of nails, or avulsion of nail plates
- Acne surgery
- Destruction of warts

- Burn debridement

31.2.42.2 Second-Line Wound Care Therapy

Second-line wound care therapy includes the following:

- Metabolically active skin equivalents/skin substitutes
- Pulsatile jet irrigation

31.2.42.2.1 Metabolically Active Skin Equivalents/Skin Substitutes

Metabolically active skin equivalents/skin substitutes will be a benefit when they are provided in accordance with the material's Food and Drug Administration (FDA)-approved package label and applied according to the manufacturer's instructions for use. Skin substitutes are used for partial- or full-thickness wounds that do not involve tendon, muscle, joint capsule, or exposed bone or sinus tracts and are applied to wounds that have demonstrated failed or insufficient response to conservative wound care measures.

The following procedure codes are a benefit for metabolically active skin equivalents provided in the office setting:

Procedure Codes

Q4126	Q4127	Q4128	Q4130	Q4131	Q4134	Q4135	Q4136	Q4137	Q4138
Q4140	Q4142	Q4143	Q4146	Q4147	Q4148	Q4149			

The client's medical record must include documentation that wound treatments with metabolically active skin equivalents or skins substitutes are accompanied by appropriate adjunctive measures, and must identify the adjunctive therapies being provided to the client as part of the wound treatment regimen.

Prior authorization is required for unspecified skin substitute procedure code Q4100. When requesting prior authorization for procedure code Q4100, providers must submit the CSHCN Services Program Authorization and Prior Authorization Request form and the following information with the request:

- The client's diagnosis
- Characteristics of the wound, including:
 - Location
 - Dimensions (diameter and depth)
 - Drainage (amount and type)
 - Related signs and symptoms (swelling, pain, inflammation)
 - Presence of necrotic tissue/slough
- Medical records that indicate prior treatment for the diagnosis, the medical necessity of the requested skin substitute, and the wound care treatment plan
- A clear, concise description of the skin substitute to be applied and the reason for recommending this particular item
- A CPT or HCPCS procedure code that is comparable to the requested procedure
- Documentation that demonstrates that the requested procedure is not investigational or experimental
- The place of service in which the requested procedure will be performed

- The physician's intended fee for the requested procedure

31.2.42.2.2 Pulsatile-Jet Irrigation

Pulsatile-jet irrigation is a benefit for the treatment of Stage III or IV wounds when other forms of treatment have failed. To cleanse a wound bed, pulsatile-jet irrigation uses lavage, which increases impaired circulation and removal of waste from the lymphatic system. Removal of devitalized tissue using pulsatile-jet irrigation may be reimbursed when claims are submitted for procedure code 97597 or 97598.

Professional services for selective wound debridement (procedure codes 97597 and 97598) may also be reimbursed to a licensed physical therapist or physical therapy group when the service is determined to be within the provider's scope of practice and the service is prescribed by a supervising physician or qualified non-physician provider who is enrolled in the CSHCN Services Program.

31.2.42.3 Documentation Requirements

For all wound care management services, documentation that supports the medical necessity of the service must be maintained in the client's medical records, including the following information:

- Accurate diagnostic information that pertains to the underlying diagnosis and condition as well as any other medical diagnoses and conditions, which include the client's overall health status.
- Appropriate medical history related to the current wound, including the following:
 - Wound measurements, which includes length, width, and depth, any tunneling and/or undermining
 - Wound color, drainage (type and amount), and odor, if present
 - The prescribed wound care regimen, which includes frequency, duration, and supplies needed
 - Treatment for infection, if present
 - All previous wound care therapy regimens, if appropriate
 - The client's use of a pressure reducing support surface, mattress, and/or cushion, when appropriate

Documentation maintained in the client's medical record must support the level of debridement service provided.

Fewer than five surgical debridements that involve removal of muscle or bone are typically required for management of most wounds. Documentation that is maintained in the client's medical record must support the number of debridements involving muscle or bone that are performed.

All wound care management services are subject to retrospective review.

31.3 Claims Information

To avoid claim denials, providers billing as a group *must* use the performing provider identifier number on their claims.

Physician services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Physicians who submit a claim using the physician’s own provider identifier for services provided by an APRN or physician assistant must submit one of the following modifiers on each claim detail if the physician does not make a decision regarding the client’s care or treatment on the same date of service as the billable medical visit:

- SA - Services were provided by an APRN
- U7 - Services were provided by a physician assistant

The HCPCS/CPT codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [CMS NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

31.3.1 General Medical Record Documentation Requirements

The CSHCN Services Program routinely performs a retrospective review of all providers. This review may include comparing services billed to the client’s medical record. The provider must document the following information in the client’s medical record:

- Service
- Date the service was rendered
- Any pertinent information about the client’s condition that supports the need for the service
- Care provided

Note: *If a provider bills for an office visit, the client’s medical record must contain documentation for that date of service about the client’s complaint, physician’s findings, and any physician orders. If the visit is a follow-up office visit, the client’s progress relating to the previous condition must be documented for the date of service billed. If billing for a hospital visit, whether it is a routine hospital visit or other type of hospital visit, documentation of that visit must be part of the client’s medical record and must be written in the physician’s orders or the client’s progress notes.*

The following are general requirements for all providers. Mandatory requirements not present in the client’s medical record subject the associated services to recoupment.

Note: *This list is not all-inclusive. Additional and more specific requirements may apply to special services areas.*

Requirement	Mandatory/Desirable
All entries are legible to individuals other than the author, dated (month, day, and year), and signed by the performing provider.	Mandatory
Each page of the medical record documents the client’s name and CSHCN Services Program identification number.	Mandatory
Allergies and adverse reactions (including immunization reactions) are prominently noted in the record.	Mandatory

Requirement	Mandatory/Desirable
The selection of E/M codes (levels of service) is supported by the client's clinical record documentation. The AMA's CPT descriptors of key/contributory components with level of service descriptions are used to evaluate the selection of levels of service.	Mandatory
Necessary follow-up visits specify the time of return by at least the week or month.	Mandatory
The history and physical documents the presenting complaint with appropriate subjective and objective information, e.g., medical and surgical history, current medications and supplements, family history, social history, diet, pertinent physical examination measurements and findings, etc.	Mandatory
The services provided are clearly documented in the medical record with all pertinent information about the client's condition to substantiate the need for the services.	Mandatory
Medically necessary diagnostic lab and X-ray results are included in the medical record and abnormal findings have an explicit notation of follow-up plans.	Mandatory
Unresolved problems are noted in the record.	Mandatory
Immunizations are noted in the record as complete or up-to-date.	Mandatory
Personal data includes address, employer, home/work telephone numbers, sex, marital status, and emergency contacts.	Desirable

31.4 Reimbursement

Physicians may be reimbursed for most physician services according to the Texas Medicaid Reimbursement Methodology (TMRM).

Physicians may be reimbursed 92 percent of the established reimbursement rate for services provided by an APRN or physician assistant if the physician does not make a decision regarding the client's care or treatment on the same date of service as the billable medical visit. The 92 percent reimbursement rate will not apply to laboratory services, radiology services, and injections provided by an APRN or physician assistant.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

Referto: Section 31.2.5, "Anesthesia Services" in this chapter for more information about anesthesia services that may be reimbursed according to relative value units (RVUs).

31.4.1 Physician Services in Outpatient Hospital Setting

31.4.1.1 Reimbursement Reduction

Nonemergent and nonurgent services provided by physician providers in an outpatient setting (POS 5) may be reimbursed at 60 percent of the allowed amount. The 40 percent reduction in reimbursement will be based upon the emergency department service that is submitted on the claim.

Note: Rural hospital outpatient imaging services may be reimbursed at 65 percent of the allowed amount for nonemergent services provided by physician providers in an outpatient setting (POS 5).

31.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

PHYSICIAN ASSISTANT (PA)

PHYSICIAN ASSISTANT (PA)

Table of Contents

- 32.1 Enrollment3**
- 32.2 Benefits, Limitations, and Authorization Requirements.....3**
 - 32.2.1 Authorization Requirements 4
- 32.3 Claims Information.....4**
- 32.4 Reimbursement.....4**
- 32.5 TMHP-CSHCN Services Program Contact Center5**

32.1 Enrollment

To enroll in the CSHCN Services Program, a physician assistant (PA) must be actively enrolled in Texas Medicaid, licensed as a physician assistant, and recognized as a PA by the Texas Physician Assistant Board. PAs may enroll as a CSHCN Services Program provider by completing the provider enrollment application available through the TMHP-CSHCN Services Program. Out-of-state PAs must meet all these conditions and be located in the United States within 50 miles of the Texas state border.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program enrollment procedures.

32.2 Benefits, Limitations, and Authorization Requirements

Services provided by PAs are benefits if the services are:

- Within the scope of practice for PAs, as defined by Texas state law.
- Consistent with rules and regulations promulgated by the Texas Medical Board or other appropriate state licensing authority.
- Benefits of the CSHCN Services Program when provided by a licensed physician (doctor of medicine [MD] or doctor of osteopathy [DO]).
- Reasonable and medically necessary as determined by DSHS or its designee.

PAs who are employed or paid by a physician, hospital, facility, or other provider must not bill the CSHCN Services Program for their services, if the billing results in duplicate payment for the same services.

Physicians who submit a claim using the physician’s own provider identifier for services provided by a PA must submit modifier U7 on each claim detail if the physician does not make a decision regarding the client’s care or treatment on the same date of service as the billable medical visit.

All limitations applicable to physicians for the same service will also be applied to the PA.

32.2.1 Authorization Requirements

Authorization and prior authorization requirements are listed in individual sections of this manual. Authorization requirements applied to services provided by physicians (MD or DO) also apply to services provided by PAs.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for detailed information about authorization and prior authorization requirements.

Section 31.2.13, "Clinician-Directed Care Coordination Services" in Chapter 31, "Physician" for information and prior authorization requirements for clinician-directed care coordination services.

32.3 Claims Information

PA services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicare.gov/Medicare-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

32.4 Reimbursement

PAs may be reimbursed the lower of the billed amount or 92 percent of the amount allowed by Texas Medicaid for the same service provided by a physician. Physicians may be reimbursed 92 percent of the established reimbursement rate for services provided by a PA if the physician does not make a decision regarding the client's care or treatment on the same date of service as the billable medical visit.

Exceptions to the 92 percent reimbursement methodology for PAs and physicians include injections, laboratory services, radiology services, and immunizations.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

32.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

33.1 Enrollment

To enroll in the CSHCN Services Program, PPECC providers must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the TMHP-CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. The provider must be licensed as a PPECC facility by the Texas Department of Aging and Disability Services (DADS). Providers cannot be enrolled if their license is due to expire within 30 days.

Out-of-state PPECC providers must meet all applicable enrollment requirements, and be located in the United States, within 50 miles of the Texas state border.

PPECCs may enroll as Children with Special Healthcare Needs (CSHCN) Services Program providers by completing the provider enrollment application available through the TMHP-CSHCN Services Program website at www.tmhp.com. Providers may also enroll or reenroll in the CSHCN Services Program online. For assistance with the application process, call the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413, Option 2.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are responsible not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), Part 1, Chapter 38, but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

33.2 Benefits, Limitations, and Authorization Requirements

Prescribed Pediatric Extended Care Center (PPECC) services are a benefit of the Children with Special Health Care (CSHCN) Services Program for medically fragile clients who are 20 years of age and younger who have a chronic medically complex or fragile condition or disability that requires extended and complex skilled nursing interventions and monitoring beyond the level of Home Health skilled nursing and Home Health aide services and require the routine use of a medical device or assistive technology to compensate for the loss of a body function needed to participate in activities of daily living.

Chronic medically fragile conditions include, but are not limited to:

- Cerebral palsy
- Cystic fibrosis
- Muscular dystrophy, or

- Other diagnoses which may be considered on a case by case basis

Medically dependent and medically fragile clients live with an ongoing risk of deterioration of their clinical condition, loss of function, risk to health status due to medical fragility and/or death.

PPECCs provide nonresidential facility based care as an alternative to extended skilled nursing services for individuals who require ongoing technology based skilled nursing care to avert death or further disability and who require the routine use of a medical device to compensate for a deficit in a life sustaining body function.

Stable, controlled, or occasional medical conditions that do not require ongoing skilled nursing services do not meet the medical necessity requirements for PPECC services.

Note: *PPECC clients require ongoing skilled nursing services for treatment of chronic conditions which are not expected to resolve in 60 calendar days or less and who require the routine use of a medical device or assistive technology.*

A PPECC offers physician prescribed services that meet the client's medical, nursing, psychosocial, therapeutic, and developmental needs.

PPECC services include the following:

- Skilled nursing services
- Personal care services to assist with activities of daily living
- Functional developmental services
- Nutritional and dietary services including nutritional counseling
- Psychosocial services
- Transportation services needed by a client to access PPECC services (as applicable)
- Caregiver training
- Therapies, i.e., speech, physical, occupational, and certified respiratory care practitioner services

Note: *Physical Therapy (PT), Occupational Therapy (OT), Speech Therapy (ST), Certified Respiratory Care Practitioner services (CRCP), and hospice services that are provided at the PPECC must be billed separately by CSHCN enrolled service providers.*

Note: *Nonemergency ambulance transports are not reimbursed when the physician prescribes transportation services to and from the PPECC. The client must be able to utilize transportation services provided by the PPECC. A Registered Nurse (RN) or Licensed Vocational Nurse (LVN) employed by the PPECC will be on board the transport vehicle.*

Note: *A client may decline PPECC transportation and choose to be transported by other means including transportation by the client's responsible adult to and from the PPECC.*

PPECC services are limited to 12 hours in a 24 hour period and are limited to 400 hours per calendar year.

CSHCN clients who meet PPECC medical necessity criteria must be stable for outpatient medical services and not present significant risk to other clients or personnel at the center.

PPECC services must be furnished in a manner not primarily intended for the convenience of the client, the client's responsible adult, or the provider.

The CSHCN Services Program will not authorize services that duplicate services that are the legal responsibility of the school districts.

- Referto:** Chapter 21, "Home Health Services" for additional information about home health services.
- Chapter 22, "Home Health (Skilled Nursing) Care" for additional information about home health skilled nursing care services.
- Chapter 13, "Certified Respiratory Care Practitioner (CRCP)" for additional information about CRCP services.
- Chapter 37, "Speech-Language Pathology (SLP) Services" for additional information about SLP services.
- Chapter 30, "Physical Medicine and Rehabilitation" for additional information about physical and occupational therapy services.
- Chapter 23, "Hospice" for additional information about hospice services.

33.2.1 Prior Authorization and Authorization Requirements

Prior authorization is required for PPECC. Prior authorization requests must be submitted on the CSHCN Services Program Prior Authorization Request for Prescribed Pediatric Extended Care Centers form to the TMHP CSHCN Services Program Prior Authorization Department.

Medical necessity documentation must be submitted with the request. To avoid unnecessary denials, the PPECC and the ordering/prescribing physician must submit correct and complete information. Providers may be asked to provide additional documentation to clarify a prior authorization request or to clarify medical necessity of the client as outlined in the Documentation Requirements section of this chapter. All prior authorization requests will be reviewed by the CSHCN Services Program.

Note: *A separate prior authorization is required for therapy, respiratory care, and hospice services.*

Verbal orders are not accepted. The prior authorization form must be signed and dated by the ordering/prescribing physician and the PPECC provider. All signatures must be current, unaltered, original, and handwritten.

To complete the prior authorization process electronically, the ordering/prescribing physician and the PPECC provider must complete and submit the prior authorization requirements documentation through any approved electronic method.

To complete the prior authorization process by paper, the ordering/prescribing physician and the PPECC provider must complete and submit the prior authorization requirements documentation through fax or mail.

33.2.1.1 Initial Prior Authorization Requests

Initial prior authorization requests may be authorized for a maximum of 90 calendar days.

Prior authorization must be obtained before the delivery date or start of care (SOC) of the service.

If the service is medically necessary, provided after hours or on a recognized holiday or weekend, the service may be authorized when the request is submitted on the next business day. A completed CSHCN Services Program Prior Authorization Request for Prescribed Pediatric Extended Care Centers form, a PPECC Plan of Care, and a PPECC nursing assessment must be received within these deadlines for prior authorization to be considered. Extensions to these deadlines are not given by the CSHCN Services Program to correct incomplete prior authorization requests.

Note: *PPECC providers may submit a form developed by the PPECC for the POC and the nursing assessment. The forms must contain all criteria specified in this chapter.*

PPECC services will not be authorized when the client is receiving Home Health skilled nursing services or Home Health aide services billed with procedure codes G0299, G0300, and G0156.

Services of a clinical social worker billed with G0155 will not be reimbursed when the client is receiving PPECC services.

Medical nutritional therapy procedure codes 97802 and 97803 and nutritional counseling procedure code S9470 will not be reimbursed when the client is receiving PPECC services.

Note: *The request for services (as noted above) with language to deny authorization or reimbursement must be reviewed by the CSHCN Services Program before a denial is issued.*

Services must be provided according to an individualized written Plan of Care (POC) which is reviewed, signed, and dated by the ordering/prescribing physician who will provide ongoing supervision of the client and the POC.

The ordering/prescribing physician must be familiar with the client and the client's medical condition(s) and must have examined the client within 30 days prior to initiation of PPECC services.

Physician orders must be submitted on the CSHCN Services Program Prior Authorization Request for Prescribed Pediatric Extended Care Service form and include the following:

- Client name, date of birth, gender, and CSHCN Services Program identification number
- Ordering/prescribing physician name, address, contact information, NPI and TPI numbers
- Date client last seen by the ordering/prescribing physician
- Diagnoses and description of current medical condition(s) and documentation of medical necessity that the client requires ongoing extended skilled nursing services beyond the level of Home Health skilled nursing and Home Health aide services, and the client has a chronic medically complex or fragile condition, which requires the routine use of medical device or assistive technology.
- Attestation that the client's medical condition is stable and will allow for safe delivery of PPECC services in accordance with the PPECC POC.
- Nursing Services required
- Medication administration, if applicable
- Dietary and nutritional needs
- Permitted activities
- Therapies, if applicable
- Transportation authorization, if applicable
- Other services as needed

The POC must be developed in conjunction with the client and/or the client's responsible adult. A signed and dated copy of the POC must be submitted with the Prior Authorization request. The POC must be signed before the SOC date by the ordering/prescribing physician who ordered PPECC services. The SOC date must be documented in the POC. Providers are required to deliver the requested services from the SOC date agreed to by the ordering/prescribing physician, the PPECC, the client, and/or the client's responsible adult.

An initial nursing assessment that is signed and dated by a PPECC RN must be completed no earlier than three business days before the client's SOC at the PPECC and must be submitted with the PA request. The initial nursing assessment is used to establish the POC and must support medical necessity for the client to receive ongoing skilled nursing care.

The assessment must include but is not limited to the following:

- Complexity and intensity of the client's condition.
- Frequency of the client's need for skilled nursing care.
- Stability and predictability of the client's condition.
- Description of the client's wounds if present.

- Comprehension level of the client and the client's responsible adult.
- Receptivity to training and ability level of the client and the client's responsible adult.
- The client's equipment needs and if the PPECC is adequate to accommodate use of the equipment.
- Identified medical, nursing, psychosocial, therapeutic, nutritional/dietary, functional/developmental, and educational needs and goals and any training needs for the client's caregiver or the client's responsible adult.

The POC must be initiated and signed and dated by a qualified individual, e.g., RN, APRN, PA, or physician employed by the PPECC in coordination with the interdisciplinary team, the client, and/or the client's responsible adult prior to the SOC and include all of the following:

- The client's name, date of birth, gender, CSHCN number, the ordering/prescribing physician's license number, and the PPECC provider's CSHCN Services Program Texas Provider Identifier (TPI), and National Provider Identifier (NPI)
- Date the PPECC nursing assessment was completed
- The name, title, credentials, and signature of the team member preparing the POC
- Date the client was last seen by the ordering/prescribing physician
- The SOC date for PPECC services, including scheduled days, and hours of attendance
- All diagnoses and known allergies
- Prognosis
- Nursing Services to be provided including amount, duration, and frequency
- The client's mental status
- The types of therapies requested including amount, duration, and frequency including how the therapies are accessed and who will provide the service.
- Equipment and supplies needed
- Rehabilitation potential
- Prior and current functional limitations
- Activities permitted
- Nutritional requirements including type, method of administration, and frequency
- Medications including dose, route, and frequency
- Treatments including amount and frequency
- Wound care orders and measurements
- Individualized client goals and objectives
- Safety measures to protect against injury
- Method of transportation to the PPECC
- Discharge Plan
- Responsible adult training needs

The PPECC must ensure the requested services are supported by the client assessment, the POC, and the ordering/prescribing physician orders, and the PPECC must maintain the following in the client's medical record:

- A signed consent by the client or the client's responsible adult for PPECC services.

- Emergency contact information.
- A contingency plan for client emergencies and a plan when PPECC services are not available which has been signed by the client or the client's responsible adult.
- List of services the client receives in the home and in the school setting.
- Documentation of interdisciplinary team meetings at least every 90 calendar days or more frequently if there is a change in the client's condition or needs.

Note: *The PPECC must convene an interdisciplinary conference for the initial development of the POC as well as for any reauthorizations and when the POC is changed.*

- Documentation of the client's and/or the client's responsible adult's participation in the interdisciplinary team meetings.
- Documentation that the client and/or the client's responsible adult has reviewed and agrees with the PPECC POC.
- Transportation needs of the client.

Note: *If a client or PPECC provider discontinues services during an existing PPECC prior authorization period and the client requests services through a new PPECC provider, the ordering/prescribing physician and the new PPECC provider must submit a new prior authorization form, POC, nursing assessment, and all required documentation as specified under the Initial Prior Authorization section of this chapter before the client's SOC. A change of provider letter is required documenting the date the client ended PPECC services with the previous provider, the name of the new provider, and an explanation why providers were changed. The letter must be signed and dated by the client or the client's responsible adult. A change of provider is treated as a request for initial prior authorization.*

33.2.1.2 Revisions to the POC

The PPECC provider may request a revision to the POC at any time during the prior authorization period due to a change in the client's condition or due to a change in the schedule of the client or the client's responsible adult that affects the amount and duration of PPECC services.

Note: *A prior authorization request for a revision to the POC must fall within the current authorization period. All revision requests will be reviewed by the CSHCN Services Program.*

A nursing reassessment (completed by a PPECC RN) is required when changes in the client's condition occur during the course of the prior authorization period that impact the amount and duration of PPECC services.

Revision requests must be submitted on a new CSHCN Services Program Prescribed Pediatric Extended Care (PPECC) Services Prior Authorization Request Form for PPECC Services along with a revised POC and a revised nursing assessment.

The revised POC, nursing reassessment, and new prior authorization request form must be submitted to the TMHP CSHCN Prior Authorization Department as soon as the need is identified but no later than three business days from the date of the revision.

The ordering physician must sign and date the revised POC and prior authorization request form prior to submission to TMHP.

A nursing reassessment, revised POC, and a new prior authorization request form is also required when there is an unexpected change in the client or the responsible adult's schedule even if there is no change in the client's condition. A reason for the revision request must be provided, and medical necessity to

support continued PPECC services must be documented on a new CSHCN Services Program Prescribed Pediatric Extended Care (PPECC) Services Prior Authorization Request Form for PPECC services as soon as the need is identified but no later than three business days from the date of the revision request.

Note: Requests received after the three business days allowed will be denied for dates of service that occurred before the revision is approved.

The ordering physician must sign and date the new prior authorization request form prior to submission to TMHP.

Note: Schedule changes that affect previously ordered medical services to the client and a disruption of clinical services provided to the client such as nursing services or therapy services require updated medical orders addressing the client's needs which must be submitted along with the revision request.

33.2.1.3 Extension of PPECC Services

Requests to extend PPECC services must be submitted on a new CSHCN Services Program Prescribed Pediatric Extended Care (PPECC) Services Prior Authorization Request Form for PPECC Services. Extension requests will be reviewed by the CSHCN Services Program.

A current signed and dated copy of the POC and a current nursing assessment must be submitted with the extension request.

Extensions may be granted for up to a maximum of 180 days.

PPECC services must not exceed 400 hours per calendar year.

Extension requests must be received before the end of the current prior authorization period but no sooner than 30 days before and no less than 7 days before the current prior authorization expires.

Note: Extension requests that are received after the current prior authorization expires will be denied for dates of service that occur before the extension request is approved.

The ordering/prescribing physician must sign and date the extension request and the POC.

If there is no change in the client's condition the POC must document medical necessity as defined in the Statement of Benefits to support continuing PPECC services.

33.3 Documentation Requirements

In addition to the documentation requirements outlined in the Prior Authorization and Authorization Requirements section the following requirements apply:

- All services outlined in this chapter are subject to retrospective review to ensure that the documentation in the client's medical record supports the medical necessity of the service(s) provided.
- Services not supported by documentation are subject to recoupment.
- The ordering/prescribing physician must retain a copy of all signed orders, the POC, and the nursing assessment in the client's medical record.
- The PPECC must retain a copy of all signed orders, the POC, and the nursing assessment in the client's medical record.
- If the client utilizes PPECC transportation the responsible adult must sign, date, and indicate the time that the client was put on the vehicle and must also sign, date, and indicate the time when the client was returned to the responsible adult's care.
- The PPECC must sign, date, and indicate the arrival time of the client at the PPECC and must also sign, date, and indicate the time when the client is put on the vehicle to return the client to their place of residence.

- If a responsible adult provides the transportation, the responsible adult must sign and indicate the date and time that the client is dropped off and picked up from a PPECC. The PPECC provider must document and retain arrival and departure times from the PPECC.

Note: The PPECC provider may use any reliable method to record times, dates, and signatures provided that is accurate and allows for an auditable review of the records, including electronic census, timestamp, scanning, and signature records.

- The PPECC must maintain documentation in the client's medical record of the notification provided to the client and/or the client's responsible adult of an intent to transfer or discharge the client as follows:
 - A copy of the written notification provided.
 - Documentation of the personal contact with the client and/or the client's responsible adult.
 - Documentation that the client's prescribing physician was notified of the date of transfer or discharge.

Documentation must be maintained in the client's medical record that a written one page summary of services provided to the client has been provided to the client's responsible adult for each day the client is at the PPECC.

Documentation must be maintained in the client's medical record of all discrepancies between approved weekly service hours scheduled and the service hours provided, (e.g., the PPECC was closed for a day, the client is hospitalized, or the responsible adult's schedule changed).

33.4 Coordination of Services

A PPECC must ensure appropriate coordination of services between the client and providers rendering services to the client (if known by the PPECC) including, but not limited to, Home Health extended skilled nursing, PT, OT, ST, CRCP, and Hospice providers not employed or contracted by the PPECC.

Documentation must be maintained in the client's medical record that reflects coordination of services that includes the effective exchange of information, reporting, and coordination of the client's services.

The PPECC may not duplicate or provide services that conflict with a client's plan of care, or service plan with another provider.

The PPECC and the provider must have a written agreement for the provision of services that will be provided by a Home Health Agency therapist or independent therapist at the PPECC. The written agreement must address how the providers will coordinate care related to the client's POC, (e.g., participation in the client's interdisciplinary team meetings and inclusion in planning activities for the client).

The PPECC, client, and or the client's responsible adult must agree that the provision of services by the provider is appropriate.

The written agreement must include the provider's compliance with PPECC policies and procedures.

33.5 Exclusions

Examples of services not covered under PPECC reimbursement include, but are not limited to, the following:

- Services that have not been prior authorized
- Services that have been requested for the sole purpose of the responsible adult's training needs
- Routine baby food or formula
- PPECC services for clients related to the PPECC owner by blood, marriage, or adoption

- Skilled home health nursing and home health aide services for medical conditions expected to resolve within 60 days or less will not be authorized at the same time PPECC services are authorized.
- Dietary and nutritional counseling services will not be authorized at the same time PPECC services are authorized.
- Services intended to provide respite care or child care
- Services covered separately by the CSHCN Services Program such as:
 - Occupational, speech, physical and certified respiratory care practitioner services
 - Behavioral health services
 - Durable medical equipment (DME), medical supplies, nutritional products provided to the client by a CSHCN DME and/or medical supply providers

33.6 Reimbursement

PPECC services may be reimbursed when billed with procedure codes T1026 and T2002.

Procedure code T1026 is limited to 12 hours per day and to 400 hours per calendar year.

A minimum of 15 minutes of service is required to round up to a full hour for procedure code T1026 after the first hour of service.

T2002 is reimbursed once per day when the PPECC transports the client.

PT, OT, ST, CRCP services and hospice services require separate prior authorization subject to the prior authorization requirements of CSHCN therapy, certified respiratory care practitioner services and hospice policies. These services may be rendered at a PPECC but are not included in the reimbursement rate for T1026.

***Note:** Therapy and respiratory care services and hospice services may be provided by CSHCN-enrolled providers contracted with or employed by a PPECC or by CSHCN enrolled providers not employed or contracted with a PPECC.*

All therapy, respiratory care services and hospice services must meet prior authorization and policy requirements as specified by the CSHCN Services Program.

Transportation and the time the client spends in transit to and from the PPECC are billed with procedure code T2002 when the client utilizes PPECC transportation.

Transportation time does not count towards the 400 hour per year limitation.

***Note:** A nonemergency ambulance may not be billed and will not be reimbursed to transport a client to and from home to a PPECC.*

Services begin when the client is boarded onto PPECC transportation or when the client is brought to the PPECC by the client's responsible adult.

Extended skilled nursing procedure codes S9123 and S9124 may be billed on the same date of service but not at the same time as PPECC services.

33.7 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

34.1 Enrollment

To enroll and be reimbursed for services in the CSHCN Services Program, radiation therapy services providers must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state and federal laws and requirements. Out-of-state radiation therapy services providers must meet all the above conditions and be located in the United States within 50 miles of the Texas state border.

Physicians, hospitals, and free-standing radiation treatment centers are eligible to enroll in Texas Medicaid and to receive reimbursement for CSHCN Services Program radiation therapy services.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

34.2 Benefits, Limitations, and Authorization Requirements

The CSHCN Services Program may reimburse radiation therapy services performed by physicians, radiation treatment centers, and inpatient and outpatient hospitals.

Radiation therapy services include, but are not limited to, the following:

- Clinical brachytherapy
- Clinical treatment planning
- Intensity modulated radiation therapy (IMRT) (prior authorization required)
- Medical radiation physics, dosimetry, and treatment devices
- Proton- or neutron-beam therapy (prior authorization required)
- Radiation treatment management and delivery
- Stereotactic radiation therapies

All drugs given during the course of radiation therapy should be billed separately for appropriate reimbursement.

All inpatient radiation therapy services must be billed with the appropriate procedure code(s) in addition to the revenue code (333).

Note: *Outpatient hospital services include those services performed in the emergency room or clinic setting of a hospital. In instances of sudden illness or injury, the client may receive treatment in the emergency room and be discharged, admitted for observation, or admitted for further care as an inpatient. If the client is admitted as an inpatient within 24 hours of treatment in the emergency room or clinic, the emergency room or clinic charges must be submitted as ancillary charges.*

Referto: Chapter 24, "Hospital" for more information about inpatient, outpatient, ER, and observation services.

Normal follow-up care by the same physician on the same day as any therapeutic radiology service will be denied. Any other E/M office visit will not be reimbursed when billed with the same date of service by the same provider as the radiation treatment or a radiation treatment complication. If complications occur on the same day as a therapeutic radiology service, or if medical visits are necessary for services unrelated to the radiation treatment, additional care may be reimbursed on appeal with documentation of medical necessity.

Providers may use modifier 25 to indicate the additional visit was for a separate, distinct service unrelated to the radiation treatment or radiation treatment complication. Documentation that supports the provision of a significant, separately-identifiable E/M service must be maintained in the client’s medical record and made available to the CSHCN Services Program upon request.

Note: *Each provider is responsible for verifying client eligibility. Any services that are provided outside of the client’s eligibility period or beyond the limitations of the CSHCN Services Program are not considered for reimbursement.*

34.2.1 Prior Authorization Requirements

Prior authorization is required for stereotactic radiation therapies, proton- or neutron-beam treatment delivery, and IMRT. Prior authorization is not required for all other radiation therapy services. Prior authorization must be obtained before submitting claims for the services rendered. Prior authorization is a condition for reimbursement; it is not a guarantee of payment. Prior authorization is given only if the client is eligible for CSHCN Services Program benefits when TMHP receives the request.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for more information about authorizations and prior authorizations.

34.2.2 Clinical Brachytherapy

The following surgical procedure codes for brachytherapy may be reimbursed:

Surgery Procedure Codes									
10035	10036	19296	19297	19298	31626	31643	32553*	49327*	49411
49412	55860	55862*	55865*	55875	55876	57156	58346	61770	92974
*Assistant surgeons also may be reimbursed for procedure codes 32553, 49327, 55862, and 55865.									

The following radiation therapy procedure codes may be reimbursed:

Radiation Therapy Procedure Codes									
77321	77470	77750*	77761*	77762*	77763*	77767	77768	77770	77771
77772	77778*	77789	77799						
*Total component only.									

Clinical brachytherapy services include admission to the hospital, daily care, and same-day office visits. Initial and subsequent hospital care and same-day office visits will be denied when billed with the same date of service as clinical brachytherapy services.

34.2.3 Clinical Treatment Planning

The following radiation therapy procedure codes must be used to bill clinical treatment planning services:

Procedure Codes								
77261	77262	77263	77280	77285	77290	77293	77295	77299

Therapeutic radiology field setting procedure code 77295 is limited to once per day.

An office visit performed on the same day by the same provider as clinical treatment planning is included in the therapeutic radiology procedure.

Clinical treatment planning includes interpretation of special testing, tumor localization, treatment volume determination, treatment time/dosage determination, choice of treatment modality, determination of number and size of treatment ports, selection of appropriate treatment devices, and other procedures.

The following procedure codes will not be reimbursed by the CSHCN Services Program:

Procedure Codes								
77331	77336	77370	77600	77605	77610	77615	77620	77790

34.2.4 Intensity Modulated Radiation Therapy (IMRT)

IMRT (procedure codes 77385 and 77386) must be prior-authorized and may be considered after review of documentation of medical necessity along with a review of current literature supporting the requested use.

34.2.5 Medical Radiation Physics, Dosimetry, Treatment Devices, and Special Services

The following procedure codes may be reimbursed for medical radiation physics, dosimetry, treatment devices, and special services:

Procedure Codes									
77300	77301	77306	77307	77316	77317	77318	77332	77333	77334
77338	77399								

34.2.6 Proton-Beam and Neutron-Beam Delivery

The following procedure codes may be used to bill proton-beam and neutron-beam treatment delivery services:

Procedure Codes				
Proton-Beam				
77520	77522	77523	77525	S8030
Neutron-Beam				
77422	77423			

34.2.6.1 Prior Authorization Requirements

Prior authorization requirements for proton-beam and neutron-beam treatment delivery may include, but are not limited to, diagnoses indicating one of the following medical conditions:

34.2.6.1.1 Proton-Beam Treatment Delivery

- Melanoma of the uveal tract (iris, choroid, ciliary body)
- Postoperative treatment for chordomas or low grade chondrosarcomas of the skull or cervical spine
- Prostate cancer
- Pituitary neoplasms
- Other central nervous system tumors located near vital structures

34.2.6.1.2 Neutron-Beam Treatment Delivery

- Malignant neoplasms of the salivary glands

Other diagnoses may be considered for proton-beam and neutron-beam treatment delivery after a review of medical necessity documentation along with a review of current literature supporting the use of the requested therapy.

Providers must use the [CSHCN Services Program Authorization and Prior Authorization Request form](#) to submit requests for prior authorization.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for more information about authorizations and prior authorizations.

34.2.7 Radiation Treatment Management and Delivery

The total radiation therapy component for the following procedure codes may be reimbursed for radiation treatment management services:

Radiation Treatment Management Procedure Codes				
77427	77431	77432	77435	77499

The following procedure codes may be reimbursed for radiation treatment delivery services:

Radiation Treatment Delivery/Port Films									
77385*	77386*	77387	77401**	77417**	77422*	77423*	G6002*	G6003*	G6004*
G6005*	G6006*	G6007*	G6008*	G6009*	G6010*	G6011*	G6012*	G6013*	G6014*
G6015*	G6016*	G6017*							
*Total component only.									
**Technical component only.									

Radiation treatment delivery/port films procedure codes may be billed in addition to procedure codes 77427 and 77431 when provided in the office setting.

34.2.7.1 Radioisotope Therapy

The CSHCN Services Program may reimburse therapeutic radioisotopes separately.

Diagnostic radioisotopes are considered part of the diagnostic service and will not be reimbursed separately.

34.2.8 Stereotactic Radiosurgery

The surgical component of the following procedure codes may be reimbursed for stereotactic radiosurgery services (SRS) and stereotactic body radiation therapy (SBRT):

Surgery Procedure Codes									
32701	61781	61782	61783	61796	61797	61798	61799	61800	63620
63621									

The total radiation therapy component of the following procedure codes may be reimbursed for SRS and SBRT:

Radiation Therapy Procedure Codes				
77371	77372	77373	G0339	G0340
G6002				

The benefit and limitation information listed in the following table applies to the procedure codes indicated:

Procedure Code	Benefits and Limitations
61796	Services will not be reimbursed more than once per course of treatment. Procedure codes 61796 and 61798
61797	Procedure code 61797 must be billed with procedure code 61796 or 61798. Procedure code 61797 will not be reimbursed more than once per lesion. Procedure code 61797 may be reimbursed up to four times for the entire course of treatment regardless of the number of lesions treated.
61798	Procedure code 69718 will be denied if it is billed with procedure code 61796.
61799	Procedure code 61799 must be billed with procedure code 61798. Procedure code 61799 will not be reimbursed more than once per lesion. Procedure code 61799 may be reimbursed up to four times for the entire course of treatment regardless of the number of lesions treated.
61800	Procedure code 61800 must be billed with procedure code 61796 or 61798.
63620	Procedure code 63620 may be reimbursed once per course of treatment. Procedure code 63620 will not be reimbursed for services rendered on the same date of service by the same provider as radiation treatment management procedure code 77435.
63621	Procedure code 63621 must be billed with procedure code 63620. Procedure code 63621 may be reimbursed two times for the entire course of treatment, regardless of the number of lesions treated. Procedure code 63621 will not be reimbursed for services rendered on the same date of service by the same provider as radiation treatment management procedure code 77435.

34.2.8.1 Prior Authorization Requirements

Prior authorization will be considered for SRS and SBRT procedure codes with a diagnosis indicating one of the following medical conditions:

- Benign and malignant tumors of the central nervous system
- Vascular malformations
- Soft tissue tumors in the chest, abdomen, and pelvis
- Trigeminal neuralgia refractory to medical management

Note: SRS and SBRT are considered investigational and not a benefit of the CSHCN Services Program for all other indications including, but not limited to, epilepsy, chronic pain, and pancreatic adenocarcinoma.

Providers must use the [CSHCN Services Program Authorization and Prior Authorization Request form](#) to submit requests for prior authorization.

Documentation that supports the provision of special procedures must be maintained in the client's medical record and made available to the CSHCN Services Program upon request.

Referto: Chapter 4, "Prior Authorizations and Authorizations" for more information about authorizations and prior authorizations.

34.2.9 Strontium-89

Strontium-89 is a benefit of the CSHCN Services Program. Procedure code A9600 may be reimbursed once every 90 days by any provider.

Procedure code A9600 must be submitted with one of the following diagnosis codes to be considered for reimbursement:

Diagnosis Code	Description
C50011	Malignant neoplasm of nipple and areola, right female breast
C50012	Malignant neoplasm of nipple and areola, left female breast
C50019	Malignant neoplasm of nipple and areola, unspecified female breast
C50021	Malignant neoplasm of nipple and areola, right male breast
C50022	Malignant neoplasm of nipple and areola, left male breast
C50029	Malignant neoplasm of nipple and areola, unspecified male breast
C50111	Malignant neoplasm of central portion of right female breast
C50112	Malignant neoplasm of central portion of left female breast
C50119	Malignant neoplasm of central portion of unspecified female breast
C50121	Malignant neoplasm of central portion of right male breast
C50122	Malignant neoplasm of central portion of left male breast
C50129	Malignant neoplasm of central portion of unspecified male breast
C50211	Malignant neoplasm of upper-inner quadrant of right female breast
C50212	Malignant neoplasm of upper-inner quadrant of left female breast
C50219	Malignant neoplasm of upper-inner quadrant of unspecified female breast
C50221	Malignant neoplasm of upper-inner quadrant of right male breast
C50222	Malignant neoplasm of upper-inner quadrant of left male breast
C50229	Malignant neoplasm of upper-inner quadrant of unspecified male breast
C50311	Malignant neoplasm of lower-inner quadrant of right female breast
C50312	Malignant neoplasm of lower-inner quadrant of left female breast
C50319	Malignant neoplasm of lower-inner quadrant of unspecified female breast
C50321	Malignant neoplasm of lower-inner quadrant of right male breast
C50322	Malignant neoplasm of lower-inner quadrant of left male breast
C50329	Malignant neoplasm of lower-inner quadrant of unspecified male breast
C50411	Malignant neoplasm of upper-outer quadrant of right female breast
C50412	Malignant neoplasm of upper-outer quadrant of left female breast
C50419	Malignant neoplasm of upper-outer quadrant of unspecified female breast
C50421	Malignant neoplasm of upper-outer quadrant of right male breast
C50422	Malignant neoplasm of upper-outer quadrant of left male breast
C50429	Malignant neoplasm of upper-outer quadrant of unspecified male breast

Diagnosis Code	Description
C50511	Malignant neoplasm of lower-outer quadrant of right female breast
C50512	Malignant neoplasm of lower-outer quadrant of left female breast
C50519	Malignant neoplasm of lower-outer quadrant of unspecified female breast
C50521	Malignant neoplasm of lower-outer quadrant of right male breast
C50522	Malignant neoplasm of lower-outer quadrant of left male breast
C50529	Malignant neoplasm of lower-outer quadrant of unspecified male breast
C50611	Malignant neoplasm of axillary tail of right female breast
C50612	Malignant neoplasm of axillary tail of left female breast
C50619	Malignant neoplasm of axillary tail of unspecified female breast
C50621	Malignant neoplasm of axillary tail of right male breast
C50622	Malignant neoplasm of axillary tail of left male breast
C50629	Malignant neoplasm of axillary tail of unspecified male breast
C50811	Malignant neoplasm of overlapping sites of right female breast
C50812	Malignant neoplasm of overlapping sites of left female breast
C50819	Malignant neoplasm of overlapping sites of unspecified female breast
C50821	Malignant neoplasm of overlapping sites of right male breast
C50822	Malignant neoplasm of overlapping sites of left male breast
C50829	Malignant neoplasm of overlapping sites of unspecified male breast
C50911	Malignant neoplasm of unspecified site of right female breast
C50912	Malignant neoplasm of unspecified site of left female breast
C50919	Malignant neoplasm of unspecified site of unspecified female breast
C50921	Malignant neoplasm of unspecified site of right male breast
C50922	Malignant neoplasm of unspecified site of left male breast
C50929	Malignant neoplasm of unspecified site of unspecified male breast
C61	Malignant neoplasm of prostate
C7951	Secondary malignant neoplasm of bone
C7952	Secondary malignant neoplasm of bone marrow

34.2.10 Technetium TC 99M Tetrofosmin

Procedure codes A9500 and A9502 are limited to a quantity of three each per day when billed by the same provider.

34.3 Claims Information

Claims for radiation therapy services must include the following:

- *The referring provider.* Radiologists are required to identify the referring provider by full name and address or CSHCN Services Program provider identifier in Block 17 of the CMS-1500 paper claim form. Baseline screening or comparison studies are not benefits.
- *Authorization and prior authorization number (as appropriate).* All claims must meet all authorization and prior authorization requirements and claim filing and authorization deadlines. Details are given in the description of the services and in more detail in association with services described in this chapter and in Chapter 4, "Prior Authorizations and Authorizations."

Radiation therapy services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form or the UB-04 CMS-1450 paper claim form. Providers may purchase CMS-1500 paper claim forms or UB-04 CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form or a UB-04 CMS-1450 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) [NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Chapter 5, "CMS-1500 Paper Claim Form Instructions" and Section 5.7.2.7, "Instructions for Completing the UB-04 CMS-1450 Paper Claim Form" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

Inpatient and outpatient hospitals must use the UB-04 CMS-1450 paper claim form to submit charges for covered services. If the client is admitted as an inpatient within 24 hours of treatment in the emergency room or clinic, the emergency room or clinic charges must be submitted on the UB-04 CMS-1450 paper claim form as an ancillary charge.

34.4 Reimbursement

Physicians and radiation treatment centers may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

Inpatient hospitals may be reimbursed at 80 percent of the All Patient Refund Diagnosis Groups (APR-DRG) payment for CSHCN Services. Outpatient hospital may be reimbursed at 72 percent of the billed amount multiplied by the hospital's Medicaid interim rate.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

34.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

35.1 Enrollment

To enroll in the CSHCN Services Program, renal dialysis facilities must be licensed by the state of Texas as an end-stage renal disease (ESRD) facility, and be certified by Medicare. Home health agencies must be licensed by the state of Texas as home and community support services agencies designated to provide home dialysis services. The facilities must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state renal dialysis facility providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in Title 1 of the TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

35.2 Client Eligibility

Clients needing renal dialysis must also apply for Medicare coverage, unless the referring provider attests that the client is not eligible for Medicare. If the client is not eligible for Medicare coverage, the CSHCN Services Program may reimburse dialysis services as long as the services are needed. CSHCN Services Program coverage of renal dialysis begins with the client’s initial date of eligibility or the first dialysis treatment, whichever is later.

35.3 Benefits, Limitations, and Authorization Requirements

The following types of dialysis are a benefit of the CSHCN Services Program in an inpatient or outpatient hospital, renal dialysis facility, or the client’s home:

- Hemodialysis
- Continuous ambulatory peritoneal dialysis (CAPD)
- Continuous cycling peritoneal dialysis (CCPD)
- Intermittent peritoneal dialysis (IPD)

Dialysis services may be provided to dialysis clients by one of the following two methods:

- **Method I:** In-facility services and facility-supported home dialysis. The dialysis facility provides all necessary services, equipment, and support to the dialysis client either in the facility or in the client's home.
- **Method II:** Home dialysis by working directly with a dialysis supplier and receiving support services from a dialysis facility. A separate supplier provides services and equipment to the dialysis client in the client's home. The client also receives support services from a dialysis facility with whom the supplier maintains a written agreement to provide backup and support services.

Renal dialysis services must be submitted with the most appropriate diagnosis code that indicates one of the following acute or chronic clinical indications.

Acute indications for dialysis are:

- Metabolic acidosis
- Electrolyte imbalance
- Drug overdose with dialysable toxin
- Fluid overload
- Complications of uremia

Chronic indications for dialysis are:

- Symptomatic renal failure
- Low glomerular filtration rate (GFR)
- Difficulty in controlling fluid overload or electrolyte imbalance

Procedure code G0257 may be reimbursed for services rendered to clients with stage V chronic kidney disease and end-stage renal disease (ESRD).

The following additional services related to renal dialysis are benefits of the CSHCN Services Program:

- Ultrafiltration
- Dialysis training not to exceed 18 days of hemodialysis or peritoneal (IPD, CAPD, or CCPD) training

Note: The facility charge for dialysis services is denied as part of the dialysis training when billed with the same date of service as the dialysis training.

- Related physician services
- Dialysis support services

The installation and repair of home hemodialysis machines is not a benefit.

35.3.1 In-Facility Services and Method I Home Dialysis Services

Outpatient dialysis is furnished on an outpatient basis at a renal dialysis center or facility.

Allowable outpatient dialysis services include:

- Staff-assisted dialysis performed by the center's or facility's staff.
- Self-dialysis performed by a client with little or no professional assistance, provided that the client has completed an appropriate course of training.
- In-home dialysis performed by an appropriately trained client or an appropriately trained caregiver.
- Dialysis services provided in an approved renal dialysis facility on an outpatient basis.

The facility's composite rate is a comprehensive daily payment for all in-facility and Method I home dialysis. The cost of an item or service is included under this rate unless specifically excluded, such as physician's professional services, lab work that is designated as separately billable, and drugs designated as separately billable. Providers should bill the following revenue codes for Method I services performed on a daily basis:

Revenue Code	Description
821	Hemodialysis (outpatient/home) - composite or other rate
831	Peritoneal dialysis (outpatient/home) - composite or other rate
841	CAPD (outpatient/home) - composite or other rate
851	CCPD (outpatient/home) - composite or other rate

The composite rate includes all necessary equipment, supplies, and services for the client receiving dialysis whether in the home or in a facility. The composite rate will be denied as part of dialysis training (revenue code 829, 839, 849, or 859) when billed for the same date of service.

Referto: Section 35.5, "Reimbursement" in Chapter 35, "Renal Dialysis" for additional information about the Method I composite rate.

Examples of services that are not separately payable include, but are not limited to:

- Dialysate (procedure codes A4720, A4722, A4723, A4724, A4725, A4726, and A4765)
- Cardiac monitoring (procedure codes 93040 and 93041)
- Catheter changes (procedure codes 36000 and 49421)
- Suture removal or dressing changes
- Crash cart usage for cardiac arrest
- Declotting of shunt performed by facility staff for hemodialysis (procedure code 36593)
- Oxygen (procedure codes E0424, E0431, E0434, E0435, E0439, E0440, E0441, E0442, E0443, and E0444)
- Staff time to administer blood, separately billable drugs, and blood collection for laboratory tests (procedure codes 36430 and 36591)
- Routine laboratory services for dialysis (listed in the table below) are included in the composite rate and not billed separately
- When additional in-facility laboratory testing is medically necessary beyond the routine frequencies identified below, providers must bill using Current Procedural Terminology (CPT) modifier 91. Documentation supporting medical necessity must be maintained in the client's medical record by the client's physician and the renal dialysis center.

Modifier 91 is used to indicate that a test was performed more than once on the same day, for the same client, only when it is necessary to obtain multiple results in the course of the treatment. This modifier may not be used when tests are re-run to confirm initial results; due to testing problems with specimens or equipment; or for any other reason when a normal one-time, reportable result is all that is required. This modifier may not be used when there are standard Healthcare Common Procedure Coding System (HCPCS) codes available that describe the series of results (e.g., glucose tolerance tests, evocative/suppression. testing, etc.). This modifier may only be used for laboratory tests paid under the clinical diagnostic laboratory fee schedule.

Referto: The CMS website at [www.cms.gov/CLIA/10 Categorization of Tests.asp](http://www.cms.gov/CLIA/10%20Categorization%20of%20Tests.asp) for information about procedure codes and modifier QW requirements. The CSHCN Services program follows the Medicare categorization of tests for CLIA certificate-holders.

Procedure Codes	Limitation
80069	Every 6 months
81050	Every 6 months
82040	Monthly
82310	Monthly
82374	Monthly
82435	Monthly
82565	Weekly
83615	Monthly
84075	Monthly
84100	Monthly
84132	Monthly
84155	Monthly
84295	Monthly for CAPD
84450	Monthly
84520	Weekly
85004	Every 3 months
85014	Once per dialysis
85018	Once per dialysis
85025	Monthly
85027	Monthly
85041	Every 3 months
85049	Every 3 months
85345	Per treatment
85347	Per treatment
85610	Weekly

In addition to the services listed above, certain drugs such as those to elevate or decrease blood pressure, antiarrhythmics, blood thinners or expanders, antihistamines, or antibiotics to treat catheter site infections or peritonitis, are included in the composite rate. Examples include, but are not limited to:

- Dextrose (procedure codes J7042, J7060, and J7070)
- Digoxin (procedure code J1160)
- Diphenhydramine (procedure code J1200)
- Dopamine (procedure code J1265)
- Glucose
- Heparin (procedure codes J1642 and J1644)
- Hydralazine (*Apresoline*, procedure code J0360)
- Hydrocortisone sodium succinate (procedure code J1720)
- Insulin
- Lidocaine, bupivacaine (procedure code J2001)

- Mannitol (procedure code J2150)
- Norepinephrine bitartrate (*Levophed*)
- Procaine
- Propranolol (procedure code J1800)
- Protamine (procedure code J2720)
- Saline (procedure codes A4216, A4217, A4218, J7030, J7040, and J7042)
- Verapamil

Other drugs that are not included in the composite rate, but that may be medically necessary, are separately payable when furnished by and administered in the dialysis facility by the facility staff. However, staff time and supplies used to administer the drugs are included in the composite rate. Examples include, but are not limited to:

- Antibiotics, except when prescribed for clients to treat infections or peritonitis related to peritoneal dialysis
- Hematinics
- Anabolics
- Muscle relaxants
- Analgesics
- Sedatives
- Tranquilizers
- Thrombolytics used to declot central venous catheters
- Erythropoietin
- Intravenous levocarnitine, for ESRD clients who have been on dialysis for a minimum of 3 months for one of the following indications:
 - Carnitine deficiency, defined as a plasma-free carnitine level less than 40 micromoles per liter.
 - Signs and symptoms of erythropoietin-resistant anemia that has not responded to standard erythropoietin with iron replacement, and for which other causes have been investigated and adequately treated.
 - Hypotension on hemodialysis that interferes with delivery of the intended dialysis despite application of usual measures deemed appropriate (e.g., fluid management). Such episodes of hypotension must have occurred during at least 2 dialysis treatments in a 30-day period.
 - All other indications for levocarnitine are noncovered.

Note: *Continued use of levocarnitine is not a benefit if improvement has not been demonstrated within 6 months of initiation of treatment. The ordering physician must maintain documentation supporting medical necessity in the client's medical record. Procedure code J1955 is not age restricted.*

35.3.2 Method II Home Dialysis (Dealing Direct)

If the client is working directly with a single supplier to obtain supplies and equipment for home dialysis, the supplier must submit the appropriate procedure codes for the equipment and supplies provided to the client for the home dialysis. The selected supplier cannot be a dialysis facility but must maintain a written agreement with a support dialysis facility to provide backup and support services.

The support facility must bill for services using the following revenue codes:

Revenue Code	Description	Limitation*
845	CAPD (outpatient/home) - support services	Monthly
855	CCPD (outpatient/home) - support services	Monthly
* Medically necessary support services denied as exceeding the limitation may be appealed with documentation of medical necessity.		

Examples of dialysis support services covered in the reimbursement for revenue code 845 and 855 include, but are not limited to:

- Changing the connecting tube (administration set).
- Observing the client or caregiver performing dialysis and validating that they are correctly performing the procedure.
- Documenting past or present peritonitis events requiring hospitalization or physician intervention.
- Inspecting the catheter site for infection and patency.
- Emergency home visits by ESRD facility staff as needed.
- ESRD-related laboratory tests that are included in the composite rate.
- Assuring that the water supply is of the appropriate quality.
- Testing and appropriate treatment of water used in dialysis.
- Monitoring the functioning of dialysis equipment.

The routine laboratory services listed in the table in Section 35.3.1, “In-Facility Services and Method I Home Dialysis Services” in this chapter are included in the Method II support services and are not considered separately for reimbursement. When one of these laboratory tests is required more frequently than the limitation indicated in the table, renal dialysis facility providers should bill the appropriate procedure code with modifier 91 for separate reimbursement as outlined in Section 35.3.1, “In-Facility Services and Method I Home Dialysis Services” in this chapter.

The supply company must bill the appropriate procedure code(s) for the dialysis supplies. The following supplies may be reimbursed:

Procedure Codes									
36000	36430	36591	36593	49421	93040	93041	A4651	A4652	A4653
A4657	A4660	A4663	A4670	A4671	A4672	A4673	A4674	A4680	A4690
A4706	A4707	A4708	A4709	A4714	A4719	A4720	A4721	A4722	A4723
A4724	A4725	A4726	A4730	A4736	A4737	A4740	A4750	A4755	A4760
A4765	A4766	A4772	A4773	A4774	A4802	A4860	A4911	A4913	A4918
A4927	A4928	A4929	A4930	A4931	A4932	E0424	E0431	E0434	E0435
E0439	E0440	E0441	E0442	E0443	E0444	E1510	E1520	E1530	E1540
E1550	E1560	E1570	E1580	E1590	E1592	E1594	E1600	E1620	E1632
E1635	E1630	E1634	E1637	E1639	E1699	J1955	Q4081		

Supplies, equipment, and support services for clients working with a single supplier to obtain supplies and equipment for home dialysis may be reimbursed separately up to the total monthly allowable amount.

If more than one claim for support services is received per month, the additional claims are denied. The denied claims may be appealed with documentation of medical necessity.

35.3.3 Maintenance Hemodialysis

If a client is admitted for hospitalization only to receive maintenance renal dialysis, the dialysis services are considered outpatient services.

Referto: Section 35.3.1, “In-Facility Services and Method I Home Dialysis Services” in this chapter for more information about outpatient dialysis services.

35.3.4 Dialysis Training

Dialysis training is a benefit for CSHCN Services Program clients or their caregivers using the following revenue codes:

Revenue Code	Description
829	Hemodialysis training
839	Peritoneal dialysis training
849	CAPD training
859	CCPD training

These revenue codes include the following:

- Personnel services
- Parenteral items routinely used in dialysis
- Training manuals and materials
- Routine laboratory tests listed in the table in Section 35.3.1, “In-Facility Services and Method I Home Dialysis Services” in this chapter. The frequency of routine laboratory tests during training are not limited, as these tests are commonly given during each day of training. These laboratory tests are not to be billed separately and may only be billed once a day.

A maximum of 18 days of training may be provided to the client or their caregiver(s). If additional days of training are medically necessary, the denied claims for the additional days may be appealed for consideration of reimbursement. Documentation of medical necessity supporting the need for additional training sessions must be attached to the appealed claim for reimbursement to be considered.

Referto: Section 7.1, “Appeals” in Chapter 7, “Appeals and Administrative Review” for information about appealing a claim.

Dialysis training provided in an inpatient setting may be reimbursed the same rate as the facility’s outpatient training rate.

Revenue codes 821, 831, 841, and 851 are denied if billed with the same date of service as dialysis training (revenue codes 829, 839, 849, and 859).

35.3.5 Unscheduled or Emergency Dialysis in a Non-Certified ESRD Facility

The CSHCN Services Program will reimburse an unscheduled or emergency dialysis treatment furnished to ESRD clients in the outpatient department of a hospital that does not have a certified ESRD facility.

Reimbursement for procedure code G0257 is limited to the same services included in the Method 1 composite. Providers will not be reimbursed for individual services related to dialysis. (Refer to Appendix for list of bundled services).

Reimbursement of other outpatient hospital services are only reimbursed when medically necessary and when they are not related to an unscheduled or emergency dialysis services. Providers must submit documentation of unrelated services.

Repeated billing of this service by the same provider for the same clients may indicate routine dialysis treatments are being performed and providers will be subject to recoupment upon medical record review.

Procedure code G0257 is limited to one service a day, any provider.

Procedure code G0257 must be billed with revenue code 880 on the same claim. If procedure code G0257 is not on the same claim as revenue code 880, it will be denied.

Erythropoietin (procedure code Q4081) may be billed separately and must be billed with revenue code 634 or 635 on the same claim.

35.3.6 Ultrafiltration

Ultrafiltration of the client’s blood is part of a hemodialysis treatment and is included in the reimbursement for the hemodialysis treatment. Ultrafiltration is not a substitute for dialysis.

Medical complications may occur if the client retains excess fluid following a regular dialysis treatment. When an additional treatment is required to remove the excess fluid, the facility must provide documentation indicating the medical necessity of this additional treatment and must submit the claim for the ultrafiltration procedure using revenue code 881.

35.3.7 Evaluation and Management

Physician evaluation procedure codes 90935, 90937, 90945, and 90947 are a benefit in an inpatient setting for ERSD or non-ERSD services only when provided by a physician. The physician must be physically present and involved during the course of the dialysis.

Procedure codes 90935, 90937, 90945, and 90947 are also a benefit in an office or outpatient setting for non-ESRD services that are provided by a physician, physician assistant, or advanced practice registered nurse (APRN).

Only one evaluation procedure code may be reimbursed per day for any provider, regardless of setting. Hospital visits cannot be billed for the same date of service as an evaluation code.

If the physician only sees the patient when they are not dialyzing, the physician should bill the appropriate hospital visit procedure code. The inpatient dialysis procedure code should not be submitted for payment.

Outpatient dialysis services for non-ESRD clients may be reimbursed with procedure codes 90935, 90937, 90945, and 90947.

Reimbursement for physician supervision of outpatient ESRD dialysis includes services provided by the attending physician in the course of office visits where any of the following occur:

- The routine monitoring of dialysis
- The treatment or follow-up of complications of dialysis, including:
 - The evaluation of related diagnostic tests and procedures
 - Services involved in prescribing therapy for illnesses unrelated to renal disease, if the treatment occurs without increasing the number of physician-client contacts

The following procedure codes may be reimbursed for physician supervision of ESRD dialysis services:

Procedure Codes									
90951	90952	90953	90954	90955	90956	90957	90958	90959	90960
90961	90962	90963	90964	90965	90966	90967	90969	90970	

In circumstances where the client is not on home dialysis, has had a complete assessment visit during the calendar month, and a full month of ESRD-related services are provided, one of the following procedure codes must be used:

Procedure Codes									
90951	90952	90953	90954	90955	90956	90957	90958	90959	90960
90961	90962								

The procedure code will be determined by the number of face-to-face visits the physician has had with the client during the month and by the client's age.

When a full calendar month of ESRD-related services are reported for clients on home dialysis, procedure code 90963, 90964, 90965, or 90966 must be used. The appropriate procedure code will be determined by the client's age.

Procedure codes 90967, 90968, 90969, or 90970 should be billed per day when ESRD-related services are provided for less than a full month under the following conditions:

- Partial month during which the client, not on home dialysis, received one or more face-to-face visits but did not receive a complete assessment
- Client on home dialysis received less than a full month of services
- Transient client
- Client was hospitalized during a month of services before a complete assessment could be performed
- Dialysis was stopped due to recovery or death of client
- Client received a kidney transplant

Procedure codes 90967, 90968, 90969, and 90970 are limited to one per day by any provider. When billing these procedure codes, the dates of service must indicate each day that supervision was provided.

Procedure codes 90967, 90968, 90969, and 90970 will be denied when billed during the same calendar month by any provider as the procedure codes in the following table. Only one of the procedure codes in the following table will be reimbursed per calendar month to any provider:

Procedure Codes									
90951	90952	90953	90954	90955	90956	90957	90958	90959	90960
90961	90962	90963	90964	90965	90966				

Physician services beyond those that are related to the treatment of the client's renal condition that cause the number of physician-client contacts to increase are considered nonroutine, and may be separately reimbursed. Physicians may bill on a fee-for-service basis if they supply documentation on the claim that the illness is not related to the renal condition and that additional visits are required.

35.3.8 Renal Transplants

Renal transplants are a benefit of the CSHCN Services Program with documentation of end-stage renal disease (ESRD).

Referto: Section 24.3.1.5, "Renal (Kidney) Transplants" in Chapter 24, "Hospital" and Section 31.2.41.1, "Renal (Kidney) Transplant" in Chapter 31, "Physician" for detailed information about renal transplants.

35.3.9 Prior Authorization Requirements

Prior authorization is required for renal dialysis. Providers must submit the [CSHCN Services Program Prior Authorization Request for Renal Dialysis Treatment form](#) to the CSHCN Services Program or its designee.

An initial prior authorization of 3 months is given to clients seeking eligibility with Medicare. An additional 3 months may be prior authorized on a case-by-case basis if clients have applied for, but have not yet received, a determination from Medicare at the end of the initial prior authorization.

If a denial for Medicare is received or if the referring provider attests that the client is ineligible for Medicare, an open-ended prior authorization may be granted.

Referto: Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

35.4 Claims Information

Renal dialysis facilities must submit claims to TMHP in an approved electronic format or on the UB-04 CMS-1450 paper claim form. Claims for separately billable drugs and laboratory fees must be submitted to TMHP in an approved electronic format or on the appropriate paper claim form. Hospitals and renal dialysis facilities must use the UB-04 CMS-1450 paper claim form and may include these separately billable items on the same UB-04 CMS-1450 form as the dialysis services. Physicians must use the CMS-1500 paper claim form. Providers may purchase both claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing claim forms, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Home health DME providers must use benefit code DM3 on all claims and authorization requests. All other providers must use benefit code CSN on all claims and authorization requests.

The HCPCS/CPT codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Data-and-Systems/National-Correct-Coding-Initiative.html for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, “TMHP Electronic Data Interchange (EDI)” for information about electronic claims submissions.

Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for general information about claims filing.

Section 5.7.2.4, “CMS-1500 Paper Claim Form Instructions” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” and Section 5.7.2.7, “Instructions for Completing the UB-04 CMS-1450 Paper Claim Form” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

35.5 Reimbursement

The CSHCN Services Program may reimburse dialysis services using one of the following methods as defined by CMS:

- **Method I: Composite Rate.** The composite rate is paid to the dialysis facility as a comprehensive payment for all in-facility and Method I home dialysis. The cost of an item or service is included in this rate unless specifically excluded as separately billable. Separately billable services would include the physician's professional services, lab work that is designated as separately billable, and drugs that are designated as separately billable. The reimbursement rates associated with revenue codes (composite rates) are available in the Static Fee Schedules, Renal Dialysis Facility Insert, on the TMHP website at www.tmhp.com. CSHCN providers are reimbursed at the same rate as Medicaid providers.

Referto: Section 35.3.1, "In-Facility Services and Method I Home Dialysis Services" in this chapter for benefits and limitations concerning Method I billing.

- **Method II: Direct Dealing.** With direct dealing, the client works with a single supplier such as a durable medical equipment (DME) or other medical supplier (not a dialysis facility) to obtain supplies and equipment to dialyze at home. The supplier will bill the CSHCN Services Program for the services provided. Reimbursement for supplies and services is limited to a maximum amount of \$1,974.45 per client, per calendar year.

Referto: Section 35.3.2, "Method II Home Dialysis (Dealing Direct)" in this chapter for benefits and limitations concerning Method II billing.

Physicians, laboratories, and medical suppliers may be reimbursed for renal dialysis services the lower of the billed amount or the amount allowed by Texas Medicaid.

Outpatient hospitals may be reimbursed for renal dialysis services at 72 percent of the billed amount multiplied by the hospital's Medicaid interim rate.

Advanced practice registered nurses (APRNs) and physician assistants may be reimbursed for renal dialysis services the lower of the billed amount or 92 percent of the amount allowed by Texas Medicaid for the same service provided by a physician.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

35.6 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

36.5 TMHP-CSHCN Services Program Contact Center.....30

36.1 Enrollment

Durable medical equipment (DME) providers must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state respiratory equipment providers must meet all of these conditions and be located in the United States, within 50 miles of the Texas state border, and approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

36.2 Benefits, Limitations, and Authorization Requirements

The CSHCN Services Program may reimburse the rental or purchase of medically necessary and appropriate respiratory equipment. The item must be prescribed by a licensed physician and be a benefit of the CSHCN Services Program.

Equipment may be rented or purchased depending on the cost-effectiveness of the action requested. In general, equipment is purchased if it is needed for more than 6 months. Only new, unused equipment will be rented or purchased for clients. The reimbursement of rented equipment includes all supplies, accessories, adjustments, repairs, and replacement parts needed during the rental period. Supplies needed for use with client owned equipment may be considered for purchase.

Respiratory supplies are a benefit when medically necessary and are available without prior authorization up to the stated quantity limitation unless otherwise stated. Prior authorization is required for quantities exceeding the limitation.

Sterile respiratory supplies are a benefit with prior authorization when medically necessary and documentation shows that the client’s medical needs cannot be met with non-sterile (clean) supplies.

Exception: *Ventilators, oxygen concentrators, and cough stimulating devices are rented, not purchased, because of high maintenance costs and the frequency of required repairs.*

Repairs are considered if the item was purchased by the CSHCN Services Program or is an item on the CSHCN Services Program-approved list that was obtained from another source. The repair must be more cost-effective than the cost of replacement. Repairs may be reimbursed at the list price of parts plus labor time. Providers must use procedure code E1340 when requesting authorization and submitting claims for repairs.

The CSHCN Services Program considers requests for coverage of the following types of respiratory equipment:

- Rental or purchase of:
 - Suction equipment
 - Electric percussors for chest physiotherapy
 - High frequency chest wall oscillation systems (HFCWO)
 - Medical grade or “heavy duty” air compressors
 - Continuous positive airway pressure (CPAP) or bi-level positive airway pressure (BiPAP) machines (BiPAP machines will only be provided to clients who have documented treatment failure of CPAP)
 - Immersion heaters
 - Nebulizers
 - Pulse oximeters
 - Ventilators and supplies (ventilators may be a benefit for lease only)
 - Controlled dose inhalation drug delivery system
 - Cardiorespiratory (apnea) monitors (only nonrecording apnea monitors will be authorized for ventilator dependent clients)
- Rental of:
 - Stationary gaseous oxygen cylinders or liquid oxygen systems
 - Portable gaseous oxygen system
 - Note: Stands, carts, regulators, oxygen conservers, and carrying cases are included in the rental reimbursement for stationary gaseous oxygen cylinders, liquid oxygen systems, and portable gaseous oxygen systems.*
 - Oxygen concentrators (a back up cylinder of gaseous oxygen is included in the rental reimbursement)
 - Cough stimulating devices (Cofflator)
- Purchase of:
 - Liquid or gaseous oxygen contents or refills for client-owned equipment
 - Oxygen humidification devices (e.g., Cascade device)
 - Ambu bag
 - Tracheostomy tubes and supplies
 - Incentive spirometer
 - Mucus clearance valve
 - Note: Rental of substitute equipment is not covered when a purchased item that is under warranty is being repaired.*

The CSHCN Services Program will cover only one of the following per client:

- A cough stimulating device
- An HFCWO

The CSHCN Services Program will consider the following two situations with documentation of medical necessity:

- Requests for the rental or purchase of duplicate items that will be used in two different locations. The CSHCN Services Program will not pay for the rental or purchase of items when the provision of the items are the legal responsibility of a school district or the Texas Department of Assistive and Rehabilitative Services (DARS).
- Requests to replace items purchased within the last 2 years.

The CSHCN Services Program may cover items under the Family Support Services (FSS) benefit within annual coverage limits. Type of items include, but are not limited to:

- Room air vaporizers or humidifiers
- Air filtering systems
- Specialized vacuum cleaners
- Heaters
- Air conditioners
- Dehumidifiers

Contact the CSHCN Services Program at 1-800-252-8023 for additional information about the FSS benefit.

The following equipment is not a benefit of the CSHCN Services Program:

- Intrapulmonary percussive ventilation (IPV) system
- Vaporizers
- Room air humidifiers

Providers must have the client or the client's representative complete the [CSHCN Services Program Documentation of Receipt form](#) when DME is delivered to the client. The date of delivery on the documentation of receipt form is the date of service that should appear on the claim. The provider should retain this form; do not submit it with the claim.

The documentation of receipt form is available in both [English](#) and [Spanish](#).

The following table is a list of respiratory equipment and supplies and their limitations.

Procedure Code	Maximum Limitation	Procedure Code	Maximum Limitation	Procedure Code	Maximum Limitation

36.2.1 General Authorization Requirements

Requirements for authorization and prior authorization vary with the type of equipment requested. Refer to the types of equipment listed below for authorization and prior authorization requirements. Authorization and prior authorization request forms must be submitted in writing and must include documentation of medical necessity.

Referto: Chapter 4, "Prior Authorizations and Authorizations."

[CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment \(DME\) Form.](#)

Note: Fax transmittal confirmations are not accepted as proof of timely authorization submission.

36.2.2 Noninvasive Positive Pressure Ventilation (NPPV)

Prior authorization is required for rental or purchase of NPPV devices, including CPAP and respiratory assist devices (RADS) which include Bi-Level PAP with or without a set backup respiratory rate when medically necessary primarily for clients requiring treatment of obstructive sleep apnea, restrictive thoracic disorders, severe chronic obstructive pulmonary disease, central sleep apnea, complex sleep apnea, and hypoventilation syndrome. Prior authorization must be submitted on a completed CSHCN Services Program Prior Authorization Request for Continuous Positive Airway Pressure (CPAP) or Respiratory Assist Device (RAD) Form that has been signed and dated by the prescribing physician.

Note: Other conditions may be considered with prior authorization of medical necessity.

RADS with a set backup rate are available for rental only when medically necessary.

For client owned devices, proof of ownership of the NPPV device is required when requesting prior authorization for purchase of the associated supplies. A claims history of the purchase of an NPPV device or the associated supplies will meet this requirement. A statement from the ordering physician providing the make and model of the client-owned device will meet this requirement if claims history is not available.

Humidification devices used with continuous positive airway pressure (CPAP), or respiratory assist devices (RAD) such as a bi-level PAP with or without a set backup respiratory rate require prior authorization. Documentation of medical necessity including the diagnosis and expected outcome must be submitted with the request for prior authorization. Prior authorization for heated humidification must include documentation of a medical reason requiring heated humidification.

Tubing and filters are considered part of the rental and will not be reimbursed separately.

Headgear, masks, and other client interfaces may be prior authorized separately when requested for the rental of NPPV with documentation of medical necessity.

36.2.2.1 Continuous Positive Airway Pressure (CPAP) System

A CPAP device (procedure code E0601) is used primarily for the treatment of obstructive sleep apnea. Other conditions may be considered based on medical necessity.

The CPAP device may be prior authorized for rental or purchase based on the physician's predicted length of treatment.

The CPAP device may be approved for an initial 3-month rental period based on documentation that supports the medical necessity and appropriateness of the device along with documentation of a sleep study lasting a minimum of 2 hours and when at least one of the following conditions are met for clients who are 18 years of age and older:

- The Sleep Study Respiratory Disturbance Index (RDI) or Apnea/Hypopnea Index (AHI) is greater than or equal to 15 events per hour
- The Sleep Study RDI or AHI is greater than 5 events per hour and at least one of the following is true:
 - Excessive daytime sleepiness (documented by either an Epworth Sleepiness Scale 10 or greater or a Multiple Sleep Latency Test less than six)
 - Documented symptoms of impaired cognition, mood disorders, or insomnia
 - Documented hypertension (systolic blood pressure greater than 140 mm Hg and/or diastolic blood pressure greater than 90 mm Hg)
 - Documented ischemic heart disease or previous myocardial infarction
 - Documented history of stroke
 - Greater than 20 episodes of oxygen desaturation less than 85 percent during a full night sleep study
 - Any one episode of oxygen desaturation less than 70 percent
 - Documented pulmonary hypertension

Polysomnography documentation of AHI greater than one event per hour may be used to establish medical necessity for clients who are 17 years of age and younger.

CPAP may be medically necessary for the treatment of obstructive sleep apnea (OSA) in clients who are younger than 18 years of age when one of the following criteria are met:

- Adenoidectomy or tonsillectomy is contraindicated
- Adenoidectomy or tonsillectomy is delayed
- Adenoidectomy or tonsillectomy has been unsuccessful in relieving symptoms of OSA

Note: American Academy of Sleep Medicine guidelines indicate that it is clinically appropriate to treat clients who are 18 through 20 years of age using the adult criteria.

Prior authorization for purchase after a maximum three-month rental period may be granted if the client is continuing to use the equipment at a minimum of four hours in a 24 hour period and symptoms are improved as documented by a physician. This documentation of compliance and effectiveness must be provided with a new completed CSHCN Services Program Prior Authorization Request for Continuous Positive Airway Pressure (CPAP) or Respiratory Assist Device (RAD) Form signed and dated by a physician.

36.2.2.2 Respiratory Assist Devices (RADs), including BiPAP

A RAD with or without a set backup rate may be considered for prior authorization when the client has one of the following conditions as documented by a sleep study and meets criteria for medical necessity for the specific medical condition:

- OSA
- Restrictive thoracic disorders i.e., neuromuscular diseases or severe thoracic cage abnormalities
- Severe chronic obstructive pulmonary disease (COPD)
- Central sleep apnea (CSA)
- Complex sleep apnea (CompSA)
- Hypoventilation syndrome
- Meets criteria for the specific medical condition noted below

36.2.2.2.1 RAD for Treatment of Obstructive Sleep Apnea (OSA)

A RAD without backup may be considered for an initial three month trial period with prior authorization for treatment of OSA when all of the following criteria are met:

- All of the required documentation listed in the CPAP section is submitted with the prior authorization request
- The client meets the criteria for the initial CPAP three month trial
- Documentation supports that CPAP has been tried with documentation of one of the following:
 - The treating practitioner verifies that a CPAP trial failed to be effective in treating the client's OSA
 - CPAP was found to be ineffective during the initial facility based or sleep laboratory titration trial

If a CPAP device is tried and is not effective during an initial facility based titration or home trial; substitution of a RAD does not require a new face to face clinical evaluation or a new sleep test.

36.2.2.2.2 RAD for Treatment of Restrictive Thoracic Medical Conditions

A RAD without a set backup rate may be considered for treatment of thoracic medical conditions with prior authorization when all of the following are met:

- The client is diagnosed with a neuromuscular disorder, (e.g., Duchenne muscular dystrophy, ALS, spinal cord injuries) or has a diagnosis of a severe thoracic cage abnormality, (e.g., severe chest wall deformities) negatively impacting the client's respiratory effort.
- Medical necessity documentation indicates significant respiratory insufficiency documented by one of the following:
 - An arterial blood gas (ABG) PaCO₂ > 45mm Hg, obtained while awake and breathing the client's routinely prescribed FIO₂
 - Sleep oximetry demonstrates oxygen saturation < 88% for > 5 minutes of continuous nocturnal recording time (minimum recording time of 2 hours), done while the client is breathing their routinely prescribed FIO₂

For clients who have been diagnosed with a neuromuscular disorder only, documentation must support one of the following:

- Maximal inspiratory pressure is < 60 cm H₂
- Forced vital capacity is < 50% of predicted

A RAD with a set back-up rate requires prior authorization and may be considered for the treatment of thoracic medical conditions when all of the following are met:

- The client meets the criteria for use of the RAD without a back-up rate for treatment of a thoracic medical condition

- The ordering physician verifies the following:
 - Client has tried a RAD without a backup rate for at least 60 Days
 - Client was compliant in use of the device using on average 4 or more hrs in a 24 hr day
 - The desired therapeutic respiratory response was not achieved with the RAD without a set backup rate

36.2.2.2.3 RAD for Treatment of Severe COPD

A RAD without a set backup rate may be considered for the treatment of severe COPD with prior authorization when all of the following criteria are met:

- The client's arterial blood gas PaCO₂ is less than 52 mm Hg, obtained while awake and when the client is using their routinely prescribed FIO₂ or 2LPM of oxygen. The blood gas should be obtained while the client is using whichever concentration of oxygen is the higher of the two.
- Sleep oximetry demonstrates oxygen saturation < 88% for 5 minutes or longer of continuous nocturnal recording time (minimum recording time of 2 hours), done while breathing oxygen at 2LPM or the client's prescribed FIO₂ (whichever is higher).
- Prior to initiating therapy, documentation of sleep apnea and that treatment with a CPAP has been considered with an explanation of why it has been ruled out.

To rule out the use of a CPAP, formal sleep testing is not required if there is sufficient information in the client's medical record submitted with the request that demonstrates the client does not have some form of OSA, CSA, or CompSA as the predominant cause of awake hypercapnia or nocturnal arterial oxygen desaturation.

A RAD with a backup feature will be considered with prior authorization for severe COPD when all of the following criteria are met:

- The client meets the criteria for use of the RAD without a backup rate for COPD
- The ordering practitioner verifies that:
 - The client has tried the RAD without a backup rate for at least 60 days.
 - The client was compliant in the use of the device using on average 4 or more hours in a 24 hour day.
 - The desired therapeutic respiratory response was not achieved with the RAD without a set backup rate.

36.2.2.2.4 RAD for Treatment of Central sleep Apnea (CSA) or Complex Sleep apnea (CompSA)

A RAD without a set backup rate will be considered with prior authorization for the treatment of CSA or CompSA when a facility based polysomnogram indicates all of the following:

- The client has a diagnosis of CSA or CompSA
- The sleep study documents one of the following:
 - The sum total of central hypopneas plus central apneas is greater than 50% of the total apneas and hypopneas rate
 - A central hypopnea/apnea rate index greater than 5 events per hour and significant improvement of the sleep associated hypoventilation while breathing the client's prescribed FiO₂
 - Documentation ruling out CPAP as effective therapy if either OSA or CSA is a component of the initially observed sleep associated hypoventilation

A RAD with a backup rate will be considered with prior authorization for the treatment of CSA or CompSA when all of the following are met:

- The client meets the criteria for use of the RAD without a backup rate for the treatment of CSA or CompSA
- The ordering practitioner verifies that all of the following are met:
 - Client has tried a RAD without a backup rate for at least 60 days
 - Client was compliant in the use of the device using on average 4 or more hours in a 24 hour day
 - The desired therapeutic response was not achieved with the RAD without a set backup rate

36.2.2.2.5 RAD for Treatment of Hypoventilation Syndrome

A RAD without a set backup rate may be considered for treatment of hypoventilation syndrome with prior authorization when all of the following criteria are met:

- An initial arterial blood gas PaCO₂ is > 45 mm Hg while awake breathing routinely prescribed FIO₂
- A spirometry shows a forced expired volume in 1 sec (FEV₁) or the forced vital capacity (FVC) is > 70%.
- A facility based polysomnogram demonstrates an oxygen saturation < 88% for 5 minutes or longer of continuous nocturnal recording time (minimum recording time of 2 hrs) not caused by obstructive upper airway events

A RAD with a set backup respiratory rate may be considered with prior authorization for the treatment of hypoventilation syndrome when one of the following are met:

- The client has hypoventilation syndrome as determined by a facility based polysomnogram that demonstrates the desired respiratory therapeutic effects were not achieved with a RAD without a backup rate
- The client meets the criteria for RAD without a backup rate for hypoventilation syndrome and the physician documents the desired respiratory therapeutic effects were not achieved with the RAD without a backup rate

36.2.2.2.6 Extension Request for RAD With or Without a Set Backup Rate

Prior authorization is required for an extension of a RAD with or without a set backup rate.

Purchase of a RAD without a set backup rate or continued rental of a RAD with or without a set backup rate (after the initial rental) may be considered with prior authorization and all of the following:

- The client has completed an initial three month rental period
- Submission of a new CSHCN Services Program Prior Authorization Request for Continuous Positive Airway Pressure (CPAP) or Respiratory Assist Device (RAD) Form that has been signed and dated by the ordering practitioner
- Submission of medical necessity documentation that the client is continuing to use the equipment a minimum of four hours in a 24 hour period
- Medical necessity documentation indicates that client symptoms are improved

When requesting an extension for a RAD with or without a set backup rate documentation of a capillary blood gas (CBG) demonstrating a PaCO₂ greater than or equal to 45 mm Hg, obtained while awake and breathing the client's routinely prescribed FIO₂ may be submitted in lieu of an ABG.

36.2.3 Controlled Dose Inhalation Drug Delivery System

Prior authorization is required for purchase of a controlled dose inhalation drug delivery system (procedure code K0730) and requires documentation of medical necessity for the following conditions:

Conditions
Pulmonary artery hypertension
Chronic pulmonary heart disease
Other chronic pulmonary heart diseases

Other conditions may be considered with prior authorization and documentation of medical necessity.

Note: The pulmonary hypertension may not be secondary to pulmonary venous hypertension or disorders of the respiratory system.

36.2.4 Secretion and Mucus Clearance Devices

Secretion and mucus clearing devices are a benefit when medically necessary and are typically needed by clients diagnosed with cystic fibrosis (CF), chronic bronchitis, bronchiectasis, ciliary dyskinesia syndromes, some forms of asthma, neuromuscular degenerative disorders, post-operative atelectasis, or thoracic wall defects.

Secretion and mucus clearing devices may be considered when documentation clearly shows the client has one of the following indications for this form of therapy as described by the American Association for Respiratory Care (AARC) in the Clinical Practices Guidelines for Postural Drainage Therapy (I) (199-1):

- Evidence retained secretions
- Evidence that the client is having difficulty with the secretion clearance
- Presence of atelectasis caused by mucus plugging

The following therapies and devices do not require prior authorization when requested within the benefit limitations:

- Incentive spirometers
- Manual percussion
- Mucus clearance valved chamber (Oscillating Positive Expiratory Pressure (PEP) - Flutter Valve)
- Moisture exchangers (procedure code A4483) for use only when used for mechanically ventilated clients who own their own equipment

These following therapies and devices require prior authorization:

- Insufflation-exsufflation devices, (e.g., Cough Assist, Cofflator)
- Electrical percussors
- High frequency chest wall oscillation (HFCWO) system
- Percussion cup
- Intermittent positive pressure breathing (IPPB) devices

Prior authorization requests for rental or purchase of secretion and mucus clearance devices must be submitted on the CSHCN Services Program Prior Authorization Request for Secretion and Mucus Clearance Devices Form signed and dated by a physician.

Note: Clients requiring more than one secretion and mucus clearance device must have a pulmonologist as the prescribing physician who submits a signed and dated letter of medical necessity for the need of two devices.

36.2.4.1 Cough Augmentation Device (Insufflation Devices or Cough Assist Machine)

A cough augmentation device may be considered for prior authorization for rental only for those clients who have chronic pulmonary disease or neuromuscular disorders (including spinal cord injury) that affect the respiratory musculature, causing a weak, ineffectual or absent cough.

Prior authorization for a cough augmentation device may be considered for an initial three-month rental period with all of the following documentation completed, signed, and dated by the client's treating physician:

- Diagnosis and background history including recent illnesses, complications, medications used, history of recent hospitalizations, results of pulmonary function studies (if applicable); due to diagnosis-related complications.
- History of school, work, or extracurricular activity or absences or other clinical evidence supporting deterioration to the level of requiring the use of a cough augmentation device to clear the airways, such as a weak, ineffective cough as demonstrated by pulmonary function studies (PFTs).
- Medical reasons why the client, parent, guardian, or caregiver cannot do chest physiotherapy, or why such therapies were previously ineffective.

Requests for prior authorization recertification must include documentation by the client's treating physician that the client is compliant with the use of the equipment and that the treatment is effective.

36.2.4.2 Electrical Percussors

An electrical percussor may be considered for rental or purchase with documentation of medical necessity on the CSHCN Services Program Prior Authorization Request for Secretion and Mucus Clearance Devices Form including a description of all previous courses of therapy (such as manual percussion and postural drainage (P&PD) and valved devices) and why they did not adequately assist the client in airway mucus clearance.

Note: Rental period may be considered for a maximum of nine months.

36.2.4.3 High Frequency Chest Wall Oscillation (HFCWO) System

Prior authorization of a HFCWO system may be considered for clients with one of the following conditions:

- Bronchiectasis when it is confirmed by CT scan and characterized by either a continuous daily productive cough for 6 months or frequent exacerbations of pulmonary infections (i.e., more than 2 times per year) requiring antibiotic therapy
- Cystic Fibrosis or other documented chronic suppurative endobronchitis
- Chronic neuromuscular disorder affecting the ability to cough or clear respiratory secretions

A HFCWO system may be considered for prior authorization with documentation of all the following:

- Medical necessity including submission of the CSHCN Services Program Prior Authorization Request for Secretion and Mucus Clearance Devices Form
- Other mechanical devices or chest physiotherapy modalities used by a client, parent, guardian, or caregiver
- Reason why other modalities have not been effective
- If previously used, the device use has not resulted in aspiration, exacerbation of any gastrointestinal or pulmonary issues, nor caused an exacerbations of seizure activity

An initial three-month rental may be prior authorized for the HFCWO system. If the HFCWO system is documented to be effective, at the end of the initial three-month rental, purchase of the system may be prior authorized. If at the end of the initial three-month rental, a determination of purchase cannot be made, an additional three-month rental may be given.

Prior authorization for the initial three-month rental of an HFCWO system generator and vest may be considered with all of the following information:

- Documentation that the client has one of the medical conditions listed above and has used a cough augmentation device for a minimum of three months prior to the request and that this therapy has been ineffective
- Client has a chronic respiratory illness or with exacerbation or change in baseline respiratory condition in the past 6 months (provide additional information in narrative section)
- Client or family unable to do chest physiotherapy or chest physiotherapy is contraindicated (provide medical reasons in narrative section)
- Client has tried other appropriate (age, ability, skill) modes of chest physiotherapy, such as the use of electrical percussor therapy or oscillating positive expiratory pressure valve for a minimum of four months prior to the request and why the therapy has been ineffective (provide information on other therapies and why they are ineffective in narrative section)

Prior authorization for an additional three-month rental may be considered with the above documentation and documentation of compliance with the ordered therapy.

Prior authorization for the purchase of an HFCWO system may be considered based on the outcome of the rental period(s) and the following required documentation:

- Documentation of vest tolerance and positive outcomes or results of therapy, including physician's statement of a trial of the HFCWO in a clinic, hospital, or the home setting documenting the effectiveness and tolerance of the system
- Physician's description and assessment of the effectiveness including:
 - Decreased medication use
 - Shorter hospital length of stay
 - Decreased hospitalizations
 - Fewer school, work, or extracurricular activity absences due to diagnosis-related complications
 - The frequency and compliance graphs from the device for the 6-month period showing use of the system at least 50 percent or 3 months of the maximum time prescribed by the physician for each day
- Diagnosis and background history including:
 - Complications
 - Medications used
 - IV antibiotic therapy with dosage, frequency and duration
 - Recent hospitalizations
 - School, work, and extracurricular activity absences due to diagnosis-related complications
- Evidence of clinical improvement other than pulmonary function tests, including improved work or school attendance or ability to participate in extracurricular activities
- Documentation that the previous use of the HFCWO device has not resulted in aspiration, exacerbation of a gastrointestinal or pulmonary issue, or exacerbation of seizure activity

A HFCWO system purchase will be reimbursed only once per lifetime, due to the lifetime warranty provided by the manufacturer.

Note: Requests for a vest replacement due to growth or is no longer functional will be considered for prior authorization with appropriate documentation and submission of the CSHCN Services Program Prior Authorization Request for Secretion and Mucus Clearance Devices Form.

36.2.4.4 Percussion Cup

Requests for purchase of a percussion cup for chest physiotherapy requires submission of the CSHCN Services Program Prior Authorization Request for Secretion and Mucus Clearance Devices Form and documentation of medical necessity. Requests for percussion cups should be requested with the miscellaneous DME procedure code E1399.

36.2.4.5 Intermittent Positive Pressure Breathing (IPPB) Devices

Prior authorization is required for rental or purchase of an IPPB (procedure code E0500) with documentation of ineffective response with use of other modalities (e.g. treatment with a cough assist device) and there is a need to improve lung expansion due to:

- The presence of clinically significant pulmonary atelectasis when other forms of therapy have been unsuccessful or the client is unable to cooperate with the treatment
- Inability to clear secretions due to pathology that severely limits the client's ability to ventilate or cough effectively and failure to respond to other modes of treatment including but not limited to:
 - Neuromuscular disorders or kyphoscoliosis with decreases in lung volume
 - Presence of acute severe bronchospasm or exacerbated COPD that fails to respond to other therapy
 - The need to deliver aerosol medication
- The need to deliver aerosol medications when other methods of delivery have been unsuccessful including but not limited to:
 - Clients with fatigue as a result of ventilary muscle weakness such as neuromuscular disease, kyphoscoliosis or spinal cord injury
 - Clients with severe hyperinflation where IPPB may decrease dyspnea and discomfort during nebulized therapy

Rental of the IPPB device includes all supplies (e.g. humidification and tubing).

36.2.5 Nebulizers

A nebulizer may be rented or purchased for clients when:

- The equipment is prescribed by a physician for an approved diagnosis.
- The documentation submitted with the claim, the authorization, or prior authorization request supports medical necessity and appropriateness.

The purchase of nebulizers may be reimbursed with the anticipation that the equipment will last a minimum of 2 years with continuous use and up to 5 years with intermittent use.

The following procedure codes may be reimbursed for nebulizers and supplies:

Procedure Codes				
Small Volume Nebulizer and Supplies				
A7003	A7004	A7005	A7006	E0565
Large Volume Nebulizer and Supplies				
A7007	A7008	E0585		
Filtered Volume Nebulizer and Supplies				
A7006	E0565			
Ultrasonic Volume Nebulizer and Supplies				
E0574	E0575			

Note: Prescribed medications for use with aerosol delivery by SVN may be considered under the Vendor Drug Program.

36.2.5.1 Medications Small Volume Nebulizer

Prior authorization is not required for purchase of a medication small volume nebulizer (SVN) and related supplies for the conditions listed below.

Conditions
Bronchiectasis - any type
Cystic Fibrosis with pulmonary manifestations
Pneumonia - any type
Influenza
Bronchitis - any type
Emphysema - any type
Asthma - any type
COPD - any type
Pneumoconiosis - any type
Acute, Sub-acute or Chronic respiratory conditions
Respiratory conditions due to radiation, smoke, unspecified and specified external agents
Abnormal sputum
Other diseases of the trachea and bronchus
Tracheostomy Status
Attention to tracheostomy
HIV with pulmonary manifestations
Pneumocystis
Complications of a specified or unspecified transplanted organ, bone marrow, or stem cells
Primary Pulmonary Hypertension
Other Chronic Pulmonary Heart Disease

Note: Prescribed medications for use with aerosol delivery by SVN may be considered under the Vendor Drug Program.

SVNs for conditions not listed above require prior authorization with documentation of medical necessity.

Sterile water, saline, and dextrose, diluent/flush 10 ml does not require prior authorization when requested within the limitations within this chapter.

Documentation for prior authorization must include frequency and duration of need for the nebulizer treatments ordered.

36.2.5.2 Large Volume Nebulizer

Prior authorization is not required for large volume nebulizers (procedure codes A7007 and A7017) used with compressors in humidification systems and may be considered for purchase when medically necessary. Prior authorization with documentation of medical necessity is required for large volume nebulizers that exceed the limitations in this chapter.

If heat is required, a heating element, such as an immersion element, may be added.

The autoclave nebulizer (procedure code E0580) for use with a regulator or flow meter may be considered with prior authorization and documentation of medical necessity.

36.2.5.3 Compressors and other DME used with Large Volume Nebulizers

Prior authorization is required for rental or purchase of compressors (procedure code E0565), nebulizer compressors and heaters (procedure code E0585), or large volume ultrasonic nebulizers (procedure code E0575) when the following criteria is met:

- The client has thick, tenacious secretions
- The client has one of the following medical conditions:
 - Cystic fibrosis
 - Bronchitis
 - A tracheostomy
 - A tracheobronchial stent

Equipment used with a large volume nebulizer to create a humidification system may be considered with prior authorization and documentation of medical necessity.

Procedure code E0565 may be considered when all of the following criteria are met:

- The compressor is needed for the administration of pentamide using a filtered nebulizer
- The client has one of the following medical conditions:
 - HIV with pulmonary complications
 - Pneumocystosis
 - Complications of organ transplants

36.2.5.4 Filtered Nebulizer

Prior authorization is required for the administration set with small volume filtered pneumatic nebulizers (procedure code A7006) and must include documentation of medical necessity of one of the following conditions:

- HIV
- Complications of organ transplants, unspecified site

The administration set may be considered for other immunodeficiency conditions with prior authorization and documentation of medical necessity.

36.2.5.5 Ultrasonic Nebulizers

Prior authorization with documentation of medical necessity is required for purchase of ultrasonic nebulizers (procedure code E0574) used for the administration of bronchodilators and other select medication for clients who meet the criteria for a standard nebulizer.

Note: Speed, convenience, or ease of use is not considered medically necessary.

The prior authorization request must provide documentation that:

- The client did not have clinical improvement with treatment using a medication small volume nebulizer
- The client was compliant with other nebulizer treatment and medication therapy
- Use of a standard nebulizer has failed to control the client's disease process resulting in emergency room use or hospitalizations

36.2.6 Oxygen Therapy

All oxygen therapy supplies and related equipment requires prior authorization.

Devices used for in-home oxygen therapy including stationary oxygen concentrators, portable compressed gas cylinders, or liquid oxygen reservoir oxygen systems are a benefit when medically necessary and require prior authorization.

Prior authorization may be considered for monthly rental only and must be requested on a completed CSHCN Services Program Prior Authorization Request for Oxygen Therapy Form signed and dated by the client's ordering practitioner. Medical necessity documentation must be submitted with the request.

Oxygen system rental includes, but is not be limited to:

- Oxygen concentrator or oxygen tanks
- Regulator
- Flow meter
- Humidifier
- Cannula or mask
- Tubing

Devices used for in-home oxygen therapy may be considered for the treatment of chronic hypoxemia which may be the result of, but not limited to:

- Bronchopulmonary dysplasia or other respiratory diagnoses due to prematurity.
- Respiratory failure or insufficiency; musculoskeletal weakness, such as that caused by Duchenne's muscular dystrophy or spinal muscle atrophy.
- Diagnosis of cluster headaches.
- Severe lung disease, such as chronic obstructive pulmonary disease (COPD), diffuses interstitial lung disease, cystic fibrosis, bronchiectasis, or widespread pulmonary neoplasm.

Stationary oxygen concentrators are the preferred oxygen therapy home delivery system. If other types of oxygen therapy home delivery systems are required, documentation of medical necessity to support an exception must be provided. The other types of delivery systems include:

- Compressed gas cylinder systems (nonportable tanks).
- Liquid oxygen reservoir systems.

Multiple oxygen types (e.g., liquid and gas) will not be prior authorized concurrently.

Extensive supplemental humidification systems (procedure code E0550) may be prior authorized separately for monthly rental of oxygen equipment with documentation of medical necessity. The documentation must include all of the following:

- The client has a tracheostomy or tracheobronchial stent
- The client has thick tenacious secretions not responsive to normal levels of humidification provided with routine humidifiers used with regulators or flow meters.
- The client is not currently renting a ventilator
- The client is not currently renting a compressor for the delivery of humidification

All other humidification systems are included in the oxygen monthly rental and will not be prior authorized separately.

Supplies and refills (procedure codes E0441, E0442, E0443, and E0444) may be prior authorized for those clients who own their own oxygen systems.

Prior authorization of home oxygen therapy for an initial three-month rental period may be considered when a CSHCN Services Program Prior Authorization Request for Oxygen Therapy Form is submitted along with medical necessity documentation that meets one of the oxygen coverage categories below:

- Evidence from the client's treating physician of a determination that the client has severe lung disease or hypoxia-related symptoms that are expected to improve with oxygen therapy.
 - The client's medical diagnosis requiring oxygen therapy
 - The oxygen flow rate
 - An estimate of the frequency, duration of use (e.g., 2 liters per minute, 15 minutes per hour, 12 hours per day) and duration of need (e.g., 3 months)
- A qualifying blood gas assessment may be supported by the results of either pulse oximetry or an arterial blood gas and includes all of the following:
 - Date of testing
 - Results of testing
 - If the blood gas assessment occurred during the client's inpatient hospital stay, a blood gas performed no more than two days before discharge is acceptable
 - If a blood gas is obtained while the client is at home, the assessment must be performed while the client is in a stable chronic state (i.e., not during a period of acute illness or an exacerbation of their underlying disease) within the 30-day period prior to the request for service

Oxygen therapy is available for clients with an eligible condition as outlined below.

Prior authorization may be considered for clients of any age with significant hypoxemia with documentation of any of the following:

- An arterial pO₂ (partial pressure of oxygen) equal to or less than 55 mm Hg or an arterial oxygen saturation equal to or less than 88 percent, taken at rest, breathing room air
- An arterial pO₂ equal to or less than 55 mm Hg or arterial oxygen saturation at or below 88 percent, taken during sleep and lasting for at least 5 continuous minutes for clients who have a pO₂ at or above 56 mm Hg or an arterial oxygen saturation at or above 89 percent while awake
- A decrease in arterial pO₂ more than 10 mm Hg, or a decrease in arterial oxygen saturation of more than 5 percent, for at least 5 continuous minutes taken during sleep with symptoms or signs reasonably attributable to hypoxemia (e.g., impairment of cognitive processes and nocturnal restlessness or insomnia)

- An arterial pO₂ equal to or less than 55 mm Hg or an arterial oxygen saturation at or below 88 percent, taken during exercise for a member who demonstrates a pO₂ at or above 56 mm Hg or an arterial oxygen saturation at or above 89 percent during the day while at rest. In this case, supplemental oxygen may be provided for use during exercise if there is evidence the use of oxygen improves the hypoxemia that was demonstrated during exercise when the client was breathing room air

Prior authorization may be considered for clients who are 20 years of age and younger when evidenced by any of the above or the following documentation:

- A neonate, and premature infant of any age who have not reached their 40th week of gestational maturity with an arterial pO₂ of less than 60 mmHg or an arterial oxygen saturation level is less than 92 percent
- An infant with chronic neonatal lung disease with an arterial oxygen saturation equal to or less than 92 percent
- Other medical conditions that may be considered on a case by case basis with supporting documentation from the treating physician supporting the need for oxygen therapy. These requests will be reviewed by the CSHCN Services Program Medical Director or designee. Examples include, but are not limited to:
 - Infants with bronchopulmonary dysplasia
 - Infants with apnea of prematurity or recurrent cyanotic apneic episodes
 - Children with severe pulmonary hypotension
 - Children who have sickle cell anemia with respiratory conditions
 - Infants or children who have idiopathic pulmonary hypertension with sleep associated desaturations or a documented need for an emergent use of oxygen

Coverage for clients of any age whose arterial pO₂ is 56-59 Hg or whose arterial blood oxygen saturation is 89 percent with documentation of any of the following:

- Dependent edema suggesting congestive heart failure (CHF)
- Cor Pulmonale (pulmonary hypertension)
- Erythrocythemia with a hematocrit greater than 56 percent

Coverage for clients with a diagnosis of cluster headaches with documentation of all of the following:

- Neurological evaluation with diagnosis of cluster headache
- Documentation of failed medical therapy

For clients whose only diagnosis is Obstructive Sleep Apnea (OSA), documentation must support that the client's oxygen sleep desaturation was not corrected by CPAP or RADs.

For clients not meeting the above blood gas assessment criteria, a request for oxygen therapy may be submitted with the required documentation along with evidenced based documentation supporting the benefits of oxygen therapy for the client's condition, and a letter of medical necessity from the treating practitioner. Submission of the request and the required documentation does not guarantee approval. These requests will be reviewed by the CSHCN Services Program Medical Director or designee.

Prior authorization of oxygen therapy after an initial three-month rental period may be considered for periods of six months a time with the submission of all of the following documentation:

- A new CSHCN Services Program Prior Authorization Request for Oxygen Therapy Form
- Documentation of a continued need for oxygen therapy

- Documentation of the client's compliance with the oxygen therapy by the ordering practitioner

Documentation (date of test and results) of a new blood gas assessment using pulse oximetry or arterial blood gas documentation that the client meets the criteria of any of the above defined oxygen category requirements.

For clients not meeting the above criteria, a request for oxygen therapy renewal may be submitted with all of the required medical necessity documentation along with evidenced based documentation demonstrating the benefit of oxygen therapy for the client's condition. These requests will be reviewed on a case by case basis by the CSHCN Services Program Medical Director or designee.

***Note:** The initial CSHCN Services Program Prior Authorization Request for Oxygen Therapy Form cannot be used to request oxygen therapy renewal or extension. A new prior authorization form must be submitted for each request.*

36.2.6.1 Stationary Oxygen Systems

Rental of a stationary oxygen system includes, but is not limited to, the nasal cannula or mask, tubing, and a basic bubble humidification system. These supplies will not be prior authorized separately.

The types of covered stationary oxygen delivery systems include:

- Oxygen concentrators
- Compressed oxygen gas cylinder systems
- Liquid oxygen cylinder systems

36.2.6.2 Portable Oxygen Systems

Portable oxygen therapy may be considered for prior authorization when medical necessity documentation indicates that the client requires the use of oxygen in the home and would benefit from the use of a portable oxygen system when traveling outside of the home environment.

Portable oxygen systems will not be considered for prior authorization for travel outside of the home environment for clients who qualify for oxygen usage based solely on oxygen saturation levels during sleep.

The types of covered portable oxygen and portable oxygen related delivery systems include:

- Portable tanks for compressed oxygen gas cylinder systems
- Portable tanks for liquid oxygen cylinder systems
- Home compressor attachment used on an oxygen compressor to fill oxygen tanks
- Portable gaseous oxygen system home compressor
- Portable concentrator systems

36.2.7 Pulse Oximeters

Pulse oximeters may be considered for short or long term rental or purchase with prior authorization when medically necessary for continuous overnight monitoring. A completed CSHCN Services Program Prior Authorization Request for Pulse Oximeter Form must be submitted with documentation of medical necessity.

A pulse oximeter (procedure code E0445 without modifier U4) required for short-term use, defined as equipment rented up to one per six calendar months, may be a benefit when medically necessary and does not require prior authorization for clients with one of the following conditions:

- When the client is stable and is able to wean from home oxygen or ventilator
- When a change in the client's condition requires an adjustment in the liter flow of their home oxygen treatment

- To determine the client's appropriate home oxygen liter flow for ambulation, exercise, or sleep
- To determine the client's appropriate home oxygen liter flow for those who have neuromuscular disease involving the respiratory muscles, with chronic lung disease, or with severe cardiopulmonary disease

Pulse oximetry for use as a continuous client vital signs monitor or for routine spot checks is not a benefit.

Short-term pulse oximetry that is medically necessary more frequently than once every six months requires prior authorization and documentation of all medical necessity will be considered on a case by case basis. Requests must be submitted on the CSHCN Services Program Prior Authorization Request for Pulse Oximeter Form and include documentation why earlier weaning attempts were unsuccessful and changes in the client's condition since the failed weaning attempt.

A pulse oximeter required for long-term use (procedure code E0445 with modifier U4), defined as periods longer than one calendar month in a six month period, may be a benefit for rental or purchase with documentation of medical necessity. The request must be submitted on a completed CSHCN Services Program Prior Authorization Request for Pulse Oximeter Form.

A long-term pulse oximeter may be prior authorized for monthly rental up to a maximum of six months. Recertification for an additional three-month period may be considered for a maximum of nine months.

Documentation of medical of necessity must include a caregiver or health care provider present who has been trained in use of the oximeter and how to respond to readings in a medically safe and appropriate manner, and the client meets one of the following criteria:

- Client is oxygen or ventilator dependent, is not stable, and therefore has frequent need for changes in oxygen or ventilator settings
- Client frequently experiences respiratory complications and requires equipment that has oxygen saturation monitoring capabilities

Pulse oximeter related supplies are included in the pulse oximeter rental, do not require prior authorization within the defined limits for client-owned equipment, and are limited as follows:

- Disposable pulse oximeter probes (procedure code A4606) are limited to four per month
- Reusable pulse oximeter sensor probes (procedure code A4606 with modifier U5) are limited to one every six months

Pulse oximeter probes (procedure codes A4606 and A4606 with modifier U5) are included in the pulse oximeter equipment rental. Pulse oximeter probes will be denied if billed with pulse oximeter equipment (procedure codes E0445 and E0445 with modifier U4) in the same month of service by any provider.

Prior authorization for purchase of the pulse oximeter at the end of the nine months of rental may be considered, if the continuation of pulse oximeter use is documented to be medically necessary by a physician.

A pulse oximeter may be prior authorized for purchase when a purchase is determined to be more cost effective than leasing the device with supplies.

Pulse oximetry equipment that has been purchased is anticipated to last a minimum of five years. Replacement of equipment may also be considered for prior authorization when loss or irreparable damage has occurred outside the warranty terms, conditions, and limitations. A copy of the police or fire report, when appropriate, and the measures to be taken to prevent reoccurrence must be submitted with the prior authorization request.

36.2.8 Tracheostomy Tubes and Related Supplies

Tracheostomy tubes and related supplies may be a benefit when medically necessary for clients with a tracheostomy.

Tracheostomy supplies, including inner cannulas, are available for purchase when medically necessary without prior authorization within the benefit limits.

A tracheostomy speaking valve (procedure code L8501) is considered a medically necessary accessory that enhances the function of the tracheostomy and is available for purchase without prior authorization when requested within the benefit limits.

Tracheostomy tubes (procedure codes A7520, A7521, and A7522) are medically necessary for clients with a tracheostomy and are available for purchase with prior authorization.

For the initial tracheostomy tube request, two tubes may be considered for prior authorization in the first month of service (two the same size and one smaller for emergencies).

For the remainder of the initial prior authorization period and for subsequent requests, one tracheostomy tube will be prior authorized per month.

More than one tracheostomy tube per month may be considered on a case-by-case basis with medical documentation supporting why the tracheostomy tube must be changed more frequently in order to meet the client's medical needs.

When requesting prior authorization for non-customized or non-specialized tracheostomy tubes without specialized functions, providers must submit the most appropriate procedure code, no modifier is required.

When requesting prior authorization for specialized, but non-customized tracheostomy tubes with specialized functions, providers submit the request with modifier U1.

When requesting prior authorization for customized tracheostomy tubes, providers must submit the request with modifier U2.

With the use of either modifier U1 or U2, the following documentation is required:

- The manufacturer's retail or invoice pricing information
- A physician statement of the reason the client cannot use a standard tracheostomy tube
- The manufacturer's information on the specialized functions of the tracheostomy tube or the order form describing the customization of the tracheostomy tube

A non-in-line humidification system is acceptable for clients using a tracheostomy collar.

Suction machines, suction canisters, suction tubing, tracheal suction tubes, and oropharyngeal suction catheters are a benefit with documentation of medical necessity to have oral, nasopharyngeal, or tracheal suctioning performed.

36.2.8.1 Tracheostomy Tube Inner Cannula

Clients with a tracheostomy tube with a reusable inner cannula (procedure code A4623) are allowed one reusable inner cannula per month without prior authorization.

Reusable inner cannulas are included in the prior authorization for any custom tracheostomy tube that is approved.

Requests for more than one reusable inner cannula per month require prior authorization and medical documentation from the client's physician to support the need for more than one reusable inner cannula per month.

Clients with a tracheostomy tube with a disposable inner cannula (procedure code A4623 with modifier U3) are allowed 31 disposable inner cannulas per month without prior authorization.

If more than 31 disposable inner cannulas per month are needed, prior authorization is required and documentation from the client's ordering practitioner must support the medical need.

A tracheostomy speaking valve (procedure code L8501) is considered a medically necessary accessory that enhances the function of the tracheostomy and is limited to one per six months without prior authorization.

36.2.9 Cardiorespiratory Monitor (CRM)

A cardiorespiratory monitor (CRM) is a benefit when medically necessary and may be considered for clients who require moment to moment cardiac and respiratory monitoring due to the potential for sudden unexpected deterioration. Rental of equipment includes all necessary accessories, supplies, adjustments, repairs, and replacement parts.

A CRM with recording feature (procedure code E0619) may be considered for rental without prior authorization for clients who are four months of age and younger for a maximum of two months with documentation of one of the following conditions:

- Central apnea (respiratory control disorders)
- Cardiac rhythm issues

If a two-month rental has expired for clients who are four months of age and younger, continuation may be considered with prior authorization which must include all of the following:

- The client has on-going, documented cardiorespiratory episodes (e.g., apnea or dysrhythmia)
- A physician interpretation, signed and dated by the physician, of the most recent two month's
- CRM data recorded downloads
- A completed CSHCN Services Program Authorization and Prior Authorization Request for Cardiorespiratory Monitor (CRM) Form must be submitted with documentation of medical necessity

A CRM with or without recording feature (procedure codes E0618 or E0619) may be considered for prior authorization for rental or purchase for clients who are five months of age and older with one of the following conditions:

- An episode of apparent life-threatening event (ALTE) in an infant birth through 12 months of age
- Symptomatic central apnea
- Technology dependence such as:
 - Mechanical ventilation
 - Tracheostomy with a critical airway obstruction
 - Assisted ventilation dependence
 - Cardiac dysrhythmia with significant risk of morbidity or mortality

A CRM may be prior authorized initially for monthly rental up to a maximum of six months. Extension for an additional three month rental may be considered for a maximum total of nine months.

Prior authorization for purchase of the CRM at the end of the nine month rental may be considered if the continued use of the pulse oximeter is documented to be medically necessary by a physician.

Leads and electrodes for use with a CRM owned by the client must be prior authorized. A physician statement must be submitted with the claim confirming that the client owns the monitor.

36.2.10 Mechanical Ventilation

Positive and negative pressure ventilators and related equipment may be considered for rental only with prior authorization and documentation of medical necessity. All requests must include the ventilator settings. Requests for prior authorization must be completed by the ordering practitioner and submitted on the CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME) Form with documentation of medical necessity.

All ventilators (pressure support with or without invasive interface), related equipment and supplies require prior authorization.

Documentation must support why heated or non-heated humidification (when requested) is medically necessary for use with the mechanical ventilation including the expected outcome.

Mechanical ventilation may be considered for treatment of, but not limited to the following:

- Neuromuscular and/or musculoskeletal diseases and conditions affecting the respiratory muscles
- Thoracic restrictive disease
- Chronic respiratory failure

For rented or client owned ventilators, when heated or non-heated humidification is requested, documentation submitted must support why it is medically necessary for the use with the ventilation.

36.2.11 Negative Pressure Ventilators

Mechanical ventilation may be considered for the treatment of, but not limited to:

- Neuromuscular or musculoskeletal diseases and conditions affecting the respiratory muscles
- Thoracic restrictive diseases
- Chronic respiratory failure

The following table lists covered mechanical ventilation services and benefit limitations for clients who require assisted mechanical ventilation. All items must be requested by the client's treating physician and require prior authorization for rental only:

Service	Rental Limitation
Chest Shell (cuirass or "clam shell" (procedure code E0457)	1 per month
Chest wrap (procedure code E0459)	1 per month
Invasive home ventilator for clients with a tracheostomy (procedure code E0465)	1 per month
Noninvasive positive pressure or volume control ventilator- for clients without a tracheostomy (procedure code E0466)	1 per month

Rental of a chest shell and chest wrap is limited to once per month for a total of up to six months. Consideration for each additional six months requires prior authorization with documentation of continued medical necessity, client compliance, and maintenance of the client's respiratory status.

A chest shell may be prior authorized for purchase following the initial three-month rental period of the non-invasive negative pressure ventilator depending on the physician's predicted length of treatment and the client's compliance.

A ventilator may be considered for an initial three-month rental period. Following the initial three-month rental period, if the ventilator was effective, it may be considered for ongoing six-month rental periods. A new prior authorization form must be submitted with each request.

The DME provider is responsible for ensuring that there is a contingency plan to manage interruptions in the use of equipment such as emergency situations and mechanical failures that would be life threatening for the client. The contingency plan should include input from the client's physician that takes into account the severity of the client's condition and time restraints in providing emergency support. Backup ventilators are not paid separately from the primary ventilator in use and are considered to be a part of the primary ventilator DME rental agreement.

36.2.12 Home Ventilators (any type) with or without Invasive Interface

A home ventilator using an invasive interface (procedure code E0465) or using a non-invasive interface (procedure code E0466) may be prior authorized for a rental of an initial period of three months for clients who require assisted mechanical ventilation.

Requests must be submitted on the CSHCN Services Program Prior Authorization and Authorization Request for Durable Medical Equipment (DME) Form and must be completed by the ordering practitioner and submitted with documentation of medical necessity.

Following the initial rental period of three months, additional requests may be considered for six month intervals at a time with prior authorization, documentation of medical necessity, and documentation of client compliance and effectiveness. A new prior authorization form must be submitted for each request.

The monthly ventilator rental includes all ventilator equipment and related supplies regardless of the client's duration of use, whether 24 hours per day or less including but not limited to:

- Internal filters
- External filters
- Ventilator circuits with an exhalation valve
- High and low pressure alarms
- Humidification systems including supplies and solutions, (e.g., sterile or distilled water)
- Compressors and supplies
- Tracheostomy tube filters and humidification devices, such as heat moisture exchangers (HME)
- Humidification device
- Resuscitation bag
- Back up ventilator

Note: Oxygen rental is not considered a ventilator supply and may be considered for separate prior authorization.

The DME provider is responsible for ensuring that there is a contingency plan to manage interruptions in the use of equipment such as emergency situations and mechanical failures that would be life threatening for the client. The contingency plan should include input from the client's physician that takes into account the severity of the client's condition and time restraints in providing emergency support. Back-up ventilators are not paid separately from the primary ventilator in use and are considered to be a part of the primary ventilator DME rental agreement.

36.2.13 Repair to Client -Owned Equipment

Repairs to client-owned equipment may be prior authorized as needed with documentation of medical necessity.

Note: Technician fees are considered part of the cost of the repair.

The CSHCN Services Program or its designee reserves the right to request additional documentation about the need for repairs when there is evidence of abuse or neglect to equipment by the client, client's family, or caregiver. When there is documented proof of abuse or neglect, requests for repairs will not be authorized.

Providers are responsible for maintaining documentation in the client's medical record specifying the repairs and supporting medical necessity.

Documentation must include all the following:

- The date of purchase

- The serial number of the current equipment (as applicable)
- The cause of the damage or need for repairs
- What steps the client or caregiver will take to prevent further damage if repairs are due to an accident
- The cost of purchasing new equipment as opposed to repairing current equipment

Temporary replacement of client owned equipment during the repair may be considered for prior authorization for one month using procedure code K0462.

Labor for repair of client owned equipment may be considered for prior authorization using procedure code K0739 up to a maximum of two hours per day (maximum quantity of 8 units).

Note: Routine maintenance of rental equipment is the provider's responsibility.

36.2.14 Aerosol Treatments

Outpatient nebulized aerosol treatments may be a benefit when medically necessary for worsening of an acute or chronic respiratory condition and evidence that the client's breathing is compromised when billed with revenue code B-412 with one following procedure codes in addition to the code for the primary procedure:

Procedure Codes		
94640	94644	94645

Documentation must be maintained in the client's medical record that supports the need for outpatient aerosol treatment for worsening of the client's respiratory condition and is subject to retrospective review and recoupment.

36.2.15 Diagnostic Testing

Nitric oxide expired gas determination (FeNO) measurement (procedure code 95012) may be a benefit when medically necessary to diagnose or assess asthma and/or to evaluate the client's response to anti-inflammatory therapy. Procedure code 95012 is limited to once per day and must be billed with procedure codes 94010 or 94060.

Revenue code B-419 is a benefit for the hospital when billed with procedure code 95012.

Exhaled NO measurement may be reimbursed when it is utilized to determine responsiveness to anti-inflammatory steroid treatment for clients with chronic respiratory symptoms possibly due to eosinophilic airway inflammation as follows:

- To assist in assessing the etiology of respiratory symptoms
- To help identify the eosinophilic asthma phenotype
- To assess potential response or failure to respond to anti-inflammatory agents, particularly inhaled corticosteroids (ICS)
- To establish a baseline FeNO during non-exacerbations for subsequent monitoring of chronic persistent asthma
- To guide changes in dosing of anti-inflammatory medications: step down dosing, step-up dosing, or discontinuation of anti-inflammatory medications
- To assist in evaluation of compliance with use of anti-inflammatory medications
- To assess whether airway inflammation is contributing to respiratory symptoms

If expired NO determination is measure during an office visit and additional evaluation and management (E&M) components are billed, a separate E&M procedure code may be reimbursed using modifier 25.

Note: Procedure code 95012 is reimbursed as a global service and cannot be separated into technical and professional components because the instrument produces an exhaled NO value requiring little interpretation.

36.2.16 Other Equipment

All other respiratory equipment must be authorized. Documentation of medical necessity for the item must accompany the claim.

36.3 Claims Information

DME services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Modifier RR must be used for DME rental equipment, and modifier NU must be used for the purchase of new DME equipment.

Home health DME providers must use benefit code DM3 on all claims and authorization requests. All other providers must use benefit code CSN on all claims and authorization requests.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [CMS NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing and may be left blank.

36.4 Reimbursement

Respiratory equipment may be reimbursed the lower of either the billed amount or the amount allowed by Texas Medicaid.

Reimbursement of rented equipment includes all of the supplies, accessories, adjustments, repairs, and replacement parts needed during the rental period.

Respiratory equipment that has been purchase is anticipated to last a minimum of five years and may be considered for replacement when five years have passed or the equipment is no longer repairable.

Replacement of equipment may also be considered when loss or irreparable damage has occurred. A copy of the police or fire report, when appropriate, and measures to be taken to prevent reoccurrence must be submitted with the request.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

36.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

37.1 Enrollment

To enroll in the Children with Special Health Care Needs (CSHCN) Services Program, speech-language pathology (SLP) providers must be actively enrolled in Texas Medicaid, have completed the CSHCN Services Program enrollment process, have a valid Provider Agreement with the CSHCN Services Program, and comply with all applicable state laws and requirements. Out-of-state SLP providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border, and be approved by the Department of State Health Services (DSHS).

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

37.2 Benefits, Limitations, and Authorization Requirements

SLP services are benefits of the CSHCN Services Program for clients with acute or chronic medical conditions when documentation from the prescribing physician and the treating therapist shows there is or will be progress made towards goals.

Note: *An advanced practice registered nurse (APRN) or physician assistant (PA) may sign and date all documentation related to the provision of SLP services on behalf of the client’s physician when the physician delegates this authority to the APRN or PA. The APRN or PA provider’s signature and license number must appear on the forms where the physician signature and license number are required.*

Speech therapy services must be rendered in accordance with the State Board of Examiners for Speech-Language Pathology and Audiology or performed by a physician within their scope of practice.

The CSHCN Services Program may reimburse licensed speech-language pathologists, physicians, home health agencies, hospitals, and outpatient facilities based on the procedure codes listed in this chapter.

Note: *Therapy services provided by a licensed intern or assistant must be billed by the licensed supervising provider.*

Therapy goals for acute or chronic medical conditions include, but are not limited to:

- Improving function

- Maintaining function
- Slowing the deterioration of function

Speech therapy evaluations and treatments must be ordered or prescribed by the client's physician, APRN, or PA and based on medical necessity.

A client may receive any combination of physical, occupational, or speech therapy in the office, home, or outpatient setting, up to one hour per day for each type of therapy.

Therapy evaluations and re-evaluations are a benefit once per 180 days, any provider. Speech therapy re-evaluations are a benefit when documentation supports one of the following:

- A change in the client's status
- A request for extension of services
- A change of provider

Additional therapy evaluations or re-evaluations that exceed these limits may be considered for reimbursement with documentation of one of the following:

- A change in the client's medical condition
- A change of provider letter that is signed and dated by the client, parent, or guardian that documents all of the following:
 - The date that the client ended therapy (effective date of change) with the previous provider
 - The names of the previous and new providers
 - An explanation of why providers were changed

All documentation, including the medical necessity and comprehensive treatment plan related to the therapy services prior authorized and provided, must be maintained in the client's medical record and made available upon request.

Each therapy discipline provided must be of the level of complexity that requires the judgment, knowledge, and skill of a licensed speech-language pathologist, or physician within their scope of practice, to perform or directly supervise.

The documentation maintained in the client's medical record must identify the therapy provider's name and credentials, and must include all of the following:

- Date of service
- Start time of the therapy
- Stop time of the therapy
- Total minutes of the therapy
- Specific therapy performed
- Client's response to therapy

Therapy sessions include the time the therapist is with the client, the time to prepare the client for the session, and the time the therapist uses to complete the documentation.

37.2.1 Speech Therapy Limitations

Treatment procedure codes are limited to one hour of speech language pathology on the same day, any provider with the GN modifier.

Providers should use the following procedure codes for speech therapy services:

Procedure Codes								
92507	92521	92522	92523	92524	92526	92610	97535	S9152

Speech therapy treatment procedure codes should be billed with the GN modifier.

SLP evaluations and re-evaluations (procedure codes 92521, 92522, 92523, 92524, 92610, and S9152) do not require a modifier.

Re-evaluations of oral and pharyngeal swallowing functions (procedure code 92610) require the U2 modifier.

If an initial evaluation and a re-evaluation from the same therapy discipline are billed for the same date of service by any provider, the re-evaluation will be denied.

If a therapy evaluation or re-evaluation procedure code and therapy treatment procedure code(s) from the same discipline are billed for the same date of service by any provider, the evaluation or re-evaluation will be denied.

An evaluation or re-evaluation performed on the same day as therapy treatment from a different therapy type must be performed at distinctly separate times to be considered for reimbursement.

Outpatient speech therapy treatments will deny if billed on the same date of service by any provider as procedure code G0153.

37.2.2 Authorization Requirements

Speech therapy evaluations and re-evaluations do not require prior authorization.

All other speech therapy services require prior authorization. These services may be prior authorized in 15-minute unit increments and will be limited to a combined maximum of four units (1 hour) per day, per therapy type. Additional services to exceed the four units (1 hour) per day limit may be considered with documentation of medical necessity supporting the rationale for exceeding the limitation.

Note: If medically necessary services are provided after hours or on a recognized holiday or weekend, services may be authorized when the request is submitted on the next business day.

Prior authorization for therapy services will be considered when all of the following are met:

- The client has acute or chronic medical conditions resulting in a significant decrease in functional ability that will benefit from therapy services in an office, home, or outpatient setting.
- Documentation must support treatment goals and outcomes for the specific therapy disciplines requested.
- Services do not duplicate those provided concurrently by any other therapy.
- Services are provided within the provider's scope of practice as defined by state law.

37.2.2.1 Paper and Electronic Prior Authorization Documentation

To complete the prior authorization process by paper, the provider must complete and submit the prior authorization request and required documentation through fax or mail.

A copy of the prior authorization request and all submitted documentation must be maintained in the client's medical record at the therapy provider's place of business.

Note: All prior authorization requests must be submitted with the ordering practitioner's signature.

To complete the prior authorization process electronically, the provider must complete and submit the prior authorization request and required documentation through any approved method, and must maintain a copy of the prior authorization request and all submitted documentation in the client's medical record at the therapy provider's place of business.

To avoid unnecessary denials, the physician, APRN or PA must provide correct and complete information, including documentation of medical necessity for the service(s) requested. The ordering practitioner must maintain documentation of medical necessity in the client's medical record. The requesting therapy provider may be asked for additional information to clarify or complete a request.

37.2.2.2 Initial Prior Authorization Request for Therapy Services

The initial request for prior authorization must be approved before the initiation of therapy treatment services. Requests received after therapy treatments start will be denied for dates of service that occurred before the date the request was approved.

Initial prior authorization may be given for a service period not to exceed 180 days. Requests for extensions of ongoing treatment services may be granted up to an additional 180 days for chronic conditions with documentation of medical necessity. Prior authorizations may be approved for a time period less than the established maximum.

37.2.2.2.1 Supporting Documentation

Documentation supporting the medical need for SLP services include all of the following:

- A completed [CSHCN Services Program Prior Authorization Request for Initial Outpatient Therapy \(TP1\) Form](#). The request form must be signed and dated by the ordering physician, APRN, or PA and therapy providers.

Note: A request form that is missing required information is considered incomplete.

- A current evaluation for each therapy service requested and comprehensive treatment plan with the following:
 - Date of the evaluation
 - Diagnosis(es)
 - Client's medical history and background
 - Client's current and prior functional level, to include current standardized assessment scores or criterion-referenced scores as appropriate for the client's condition
 - Date of onset of the illness, injury, or exacerbation requiring the therapy services
 - Short- and long-term treatment goals for the therapy discipline, and associated disciplines, requested related to the client's individual needs
 - A description of the specific treatment modalities being prescribed and the recommended amount, frequency and duration of services
 - Prognosis for improvement
 - Requested dates of service
 - Date and signature of the licensed therapist

Note: A therapy evaluation is current when performed within 60 rolling days before the initiation of therapy treatment services. The ordering practitioner must sign and date the treatment plan and request form on or after the date the evaluation was performed.

37.2.2.3 Prior Authorization Request for Extension of Therapy Services

A prior authorization request for extension of ongoing treatment services must be received and approved no more than 30 days before the current authorization expires. Prior authorization requests received after the current authorization expires will be denied for dates of service that occurred before the date the submitted request was approved.

Prior authorization requests for extensions of services may be considered in increments up to 180 days for chronic conditions with documentation supporting medical necessity.

37.2.2.3.1 Supporting Documentation

Documentation supporting medical necessity of the extension of services must include all of the following:

- A new [CSHCN Services Program Prior Authorization Request for Extension of Outpatient Therapy \(TP2\) Form](#). The request form must be signed and dated by the ordering physician, APRN, or PA and therapy provider(s).

Note: A request form that is missing required information is considered incomplete.

- A current therapy evaluation or re-evaluation for each therapy discipline requested and an updated treatment plan containing the following:
 - Date of the evaluation or re-evaluation
 - Diagnosis(es)
 - Client's medical history and background
 - Client's current and prior functional level, to include current standardized assessment scores or criterion-referenced scores as appropriate for the client's condition
 - Date of onset of the illness, injury, or exacerbation requiring the therapy services
 - Prior and new short- and long-term treatment goals documenting the client's progress towards prior treatment goals
 - A description of the specific treatment modalities being prescribed and the recommended amount, frequency and duration of services
 - Prognosis for improvement
 - Requested dates of service
 - Date and signature of the licensed therapist

Note: A therapy evaluation or re-evaluation is current when performed within 30 days before the request for extension of ongoing services. The ordering practitioner must sign and date the updated treatment plan and request form on or after the date that the evaluation or re-evaluation was performed.

37.2.2.3.2 Discontinuation of Therapy or Change of Provider

If a provider or client discontinues therapy during an existing prior authorized period and the client requests services through a new provider the new provider must submit evidence of the following, including all documentation required for an initial request for therapy services:

- A change of provider letter signed and dated by the client, parent, or guardian documenting:
 - The date the client ended therapy with the previous provider (effective date of change)
 - The names of the previous and new providers
 - An explanation why providers were changed

A change of provider during an existing authorization period will not extend the original authorization period approved to the previous provider. Regardless of the number of provider changes, clients may not receive therapy services beyond limitations.

Referto: Section 4.2, “Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about authorization requirements.

Chapter 10, "Augmentative Communication Devices (ACDs)."

[CSHCN Services Program Prior Authorization Request for Initial Outpatient Therapy \(TP1\) Form](#)

[CSHCN Services Program Prior Authorization Request for Extension of Outpatient Therapy \(TP2\) Form](#)

Note: Fax transmittal confirmations are not accepted as proof of timely authorization submission.

37.2.3 Services That Are Not a Benefit

The following speech therapy services are not a benefit of the CSHCN Services Program:

- Group therapy for SLP services (procedure code 92508)
- Services provided by unlicensed SLP aides, orderlies, students, or technicians
- Separate reimbursement for VitalStim therapy for dysphagia
- Unattended electrical stimulation
- Treatment solely for the instruction of other agency or professional personnel in the client’s physical, occupational, or speech therapy program
- Training in nonessential tasks, such as homemaking, gardening, recreational activities, cooking, driving, assistance with finances, scheduling, or teaching a second language
- Emotional support, adjustment to extended hospitalization or disability and behavioral readjustment
- Services and procedures that are investigational or experimental

37.3 Coordination with the Public School System

Clients may receive therapy services from both the CSHCN Services Program and school districts only when the therapy provided by the CSHCN Services Program addresses different client needs. If the client is of school age, therapy provided through the CSHCN Services Program is not intended to duplicate, replace, or supplement services that are the legal responsibility of other entities or institutions.

The CSHCN Services Program encourages the private therapist to coordinate with other therapy providers to avoid treatment plans that might compromise the client’s ability to progress.

37.4 Claims Information

Claims for SLP treatment services must include modifier GN. Outpatient therapy services provided by outpatient facilities and SLP providers must be submitted to TMHP in an approved electronic format or on a CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) [NCCI web](#)

[page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Note: *NCCI guidelines do not apply to therapy procedure codes if a valid prior authorization number is submitted on the claim.*

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

37.4.1 Method for Counting Minutes for Timed Procedure Codes in 15-Minute Units

Procedure codes 92507, 92526, and 97535 must be billed in 15-minute increments. All claims for reimbursement of these procedure codes are based on the actual amount of billable time associated with the service. For those services for which the unit of service is 15 minutes (1 unit=15 minutes), partial units should be rounded up or down to the nearest quarter hour.

To calculate billing units, count the total number of billable minutes for the calendar day for the client, and divide by 15 to convert to billable units of service.

If the total billable minutes are not divisible by 15 and are greater than seven, the minutes are converted to one (1) unit of service. If the total billable minutes are not divisible by 15 and are seven minutes or fewer, the minutes are converted to zero (0) units.

Example: 68 total billable minutes/15 = four units + eight minutes. Since eight minutes are more than seven minutes, those eight minutes are converted to one unit. Therefore, 68 total billable minutes equals five units of service.

Time intervals for one through eight units are as follows:

Units	Number of Minutes
0 units	0 minutes through 7 minutes
1 units	8 minutes through 22 minutes
2 units	23 minutes through 37 minutes
3 units	38 minutes through 52 minutes
4 units	53 minutes through 67 minutes
5 units	68 minutes through 82 minutes
6 units	83 minutes through 97 minutes
7 units	98 minutes through 112 minutes
8 units	113 minutes through 127 minutes

Time-based speech therapy treatment procedure codes that may be billed in multiple quantities of 15 minutes each are limited to one hour per date of service.

37.5 Reimbursement

The CSHCN Services Program may reimburse therapy providers at the lesser of the billed amount or the amount allowed by Texas Medicaid. Therapy sessions include the time the therapist is with the client, the time to prepare the client for the session, and the time the therapist uses to complete the documentation.

Outpatient hospital services are reimbursed at 72 percent of the billed amount multiplied by the hospital's Medicaid interim rate.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

37.6 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

38.1 Enrollment

To enroll in the CSHCN Services Program, telecommunication providers must be actively enrolled in Texas Medicaid, have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border, and be approved by the Department of State Health Services (DSHS).

Home health agency and hospital providers who wish to provide telemonitoring services must notify TMHP as follows:

- Current providers must use the Provider Information Management System (PIMS) to indicate that they provide telemonitoring services.
- Newly enrolling or re-enrolling home health agency or outpatient hospital providers will indicate whether they provide telemonitoring services during the enrollment process.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC), but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

38.2 Benefits, Limitations, and Authorization Requirements

Authorization is not required for telemedicine or telehealth services, however prior authorization may be required for the individual procedure codes billed.

Telemedicine and telehealth services must be provided in compliance with standards established by the respective licensing or certifying board of the professional providing the services.

Only those services that involve direct face-to-face interactive video communication between the client and the distant-site provider constitute a telemedicine or telehealth service. No separate reimbursement will be made for the cost of telemedicine and telehealth hardware or equipment, electronic documen-

tation, and transmissions. Telephone conversations, chart reviews, electronic mail messages, and fax transmissions alone do not constitute a telemedicine or telehealth interactive video service and will not be reimbursed as telemedicine or telehealth services.

Emergency room care, critical care, home care, preventive care, newborn care, and care provided in a nursing home, skilled nursing facility, or client's home, are not approved telemedicine or telehealth services. Consultative, but not routine, inpatient care, is included as a telemedicine or telehealth service.

Documentation for a service provided via telemedicine or telehealth must be the same as for a comparable in-person service.

The audio and visual fidelity and clarity, and field of view of the telemedicine or telehealth service must be functionally equivalent to an evaluation performed on a client when the provider and client are both at the same physical location or the client is at an established medical site.

More than one medically necessary telemedicine or telehealth service may be reimbursed for the same date and same place of service if the services are billed by providers of different specialties.

38.2.1 Patient Health Information Security

All video and data transmissions between the patient site provider and the distant site provider must comply with the Health Insurance Portability and Accountability Act (HIPAA) and the United States Health and Human Services (HHS) rules implementing HIPAA.

Distant and patient site providers should refer to the National Institute of Standards and Technology (NIST) for additional information about HIPAA-compliant health data storage and encryption technologies.

The software system used by both the distant and patient site providers must allow secure authentication of the distant site provider and the client.

The physical environments of the client and the distant site provider must ensure that the client's protected health information remains confidential. A parent or responsible adult may be physically located in the patient site or distant site environment during a telemedicine or telehealth visit with a child.

A parent or responsible adult must provide written or verbal consent to the distant site provider to allow any other individual, other than the distant site provider, the patient site presenter, or a representative of the distant site provider or patient site presenter, to be physically present in the distant or patient site environment during the visit with a child.

An adult client must also provide written or verbal consent to the distant site provider to allow any other individual, other than the distant site provider, the patient site presenter, or a representative of the distant site provider or patient site presenter, to be physically present in the distant or patient site environment during the visit.

Documentation of the written or verbal consent must be maintained in the client's medical record.

38.2.2 Telemedicine Services

Telemedicine is defined as a health-care service that is either initiated by a physician who is licensed to practice medicine in Texas or provided by a health professional who is acting under physician delegation and supervision. Telemedicine is provided for the purpose of the following:

- Client assessment by a health professional
- Diagnosis, consultation, or treatment by a physician
- Transfer of medical data that requires the use of advanced telecommunications technology, other than telephone or facsimile technology, including the following:
 - Compressed digital interactive video, audio, or data transmission.

- Clinical data transmission using computer imaging by way of still-image capture and store-and-forward.
- Other technology that facilitates access to health-care services or medical specialty expertise.

38.2.2.1 Distant Site

A distant site is the location of the provider rendering the service. Distant-site benefits include services that are performed by the following providers, who must be enrolled as a CSHCN Services Program provider:

- Physician
- Advanced Practice Registered Nurse (APRN)
- Physician assistant (PA)

Distant site providers that communicate with clients through email or other electronic methods must provide clients with written notification of their privacy practices prior to evaluation and treatment. A good faith effort must be made to obtain the client’s written acknowledgment of the notice, which must be maintained in the client’s medical record.

Before providing services, distant site providers who use telemedicine medical services must give their clients notice regarding telemedicine medical services, including the risks and benefits of being treated via telemedicine, how to receive follow-up care or assistance in the event of an emergency or adverse event, or in the event of a technology or equipment failure.

Procedure codes that indicate remote (telemedicine or telehealth) delivery in their description do not need to be billed with the 95 modifier. The following procedure codes, when billed with the 95 modifier, are a benefit for distant-site providers:

Procedure Codes									
90791	90792	90832	90833	90834	90836	90837	90838	90951	90952
90954	90955	90957	90958	90960	90961	99201	99202	99203	99204
99205	99211	99212	99213	99214	99215	99241	99242	99243	99244
99245	99251	99252	99253	99254	99255	99354	99355	99356	99357
G0406*	G0407*	G0408*	G0425	G0426	G0427	G0459			

***Procedure codes are limited to one service per day.**
Note: Procedure codes for behavioral health services are subject to the benefits and limitations outlined in Chapter 29, “Outpatient Behavioral Health.” Procedure codes 90833, 90836, and 90838 are add-on codes and must be billed with a primary E/M procedure code in order to be reimbursed.

Electronic documentation of the telemedicine consultation must be kept on file at the distant site location and must be available for review upon request by DSHS or its designee.

Referto: Section 19.2.3, “Telecommunication Services” in Chapter 19, “Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC)” for information about billing telemedicine services by FQHC providers.

38.2.2.2 Other Patient Site

For telemedicine medical services provided at a site other than an established medical site for a client's previously diagnosed condition, the following will apply:

- Patient-site presenters are not required for pre-existing conditions previously diagnosed by a physician through a face-to-face visit
- All clients must be seen by a physician for an in-person evaluation at least once a year
- Telemedicine medical services may not be used to treat chronic pain with scheduled drugs at a site other than a medical practice site

- A distant site provider may treat an established client's new symptoms that are unrelated to the client's pre-existing condition. The client must be advised to see a physician in a face-to-face visit within 72 hours. A distant site provider may not provide continuing telemedicine medical services for these new symptoms if the client has not seen a physician within 72 hours. If the client's symptoms are resolved within 72 hours, and continuing treatment for the acute symptoms is no longer necessary, then a follow-up face-to-face visit is not required.

A distant site provider who provides telemedicine services at a site other than an established medical site for a previously diagnosed condition must do one of the following:

- See the client one time in a face-to-face visit before providing telemedicine medical care
- See the client without a face-to-face visit, as long as the client has received an in-person evaluation by another physician who has referred the client for additional care and the referral is documented in the medical record

38.2.2.3 Patient Site

A patient site is where the client is physically located while the service is rendered. The patient-site must be one of the following:

- *Established medical site* - A location where clients will present to seek medical care. There must be a patient-site presenter and sufficient technology and medical equipment to allow for an adequate physical evaluation, as appropriate for the client's presenting complaint. A defined physician-client relationship is required. A client's private home is not considered an established medical site.
- *Established health site* - A location where clients will present to seek a health service. There must be a patient-site presenter and sufficient technology and medical equipment to allow for an adequate physical evaluation or assessment, as appropriate for the client's presenting complaint. A defined health provider-client relationship is required. A client's private home is not considered an established health site.

Telemedicine services provided at an established medical site require a defined physician-client relationship. The following communications do not meet the defined physician-client relationship requirement:

- An online questionnaire
- Questions and answers exchanged through email, electronic text, or chat
- Telephonic evaluation or consultation with a client

Patient-site providers enrolled in the CSHCN Services Program may only be reimbursed for the facility fee using procedure code Q3014. Procedure code Q3014 is payable to advanced practice registered nurses, physician assistants, and physicians in the office and outpatient hospital settings and to hospitals in the outpatient hospital setting. Charges for other services that are performed at the patient site may be submitted separately.

All patient sites must maintain documentation for each service, including:

- The date of the service.
- The name of the client.
- The name of the distant-site provider.
- The name of the patient-site presenter.

A patient-site presenter must introduce the client to the distant-site provider for examination and must perform any tasks and activities that are delegated by the distant-site provider. A patient-site provider must be one of the following:

- An individual who is licensed or certified in Texas to perform health-care services and who presents or is delegated tasks and activities only within the scope of the individual's licensure or certification
- A qualified mental health professional-community services (QMHP-CS) as defined in Title 25 *Texas Administrative Code* (TAC) 412.303

For new conditions, the patient site presenter must be readily available onsite at the established medical site to assist with care.

Note: *Readily available means the patient site presenter is in the same room as the client or at the discretion of the licensed or certified professional providing the service, is not in the same room as the client but within the proximity determined by the licensed or certified professional providing the telemedicine service.*

A distant site provider delegating tasks to a patient site presenter must ensure that the patient site presenter is properly supervised when the tasks or activities are delegated.

For follow-up evaluations or treatment of a previously diagnosed condition, the distant site physician will determine if a patient site presenter is necessary.

A client's home may be considered an established medical site when the services provided in the home are limited to mental health services.

If the only services provided are related to mental health services, a patient site presenter is not required, except in cases of behavioral emergencies.

For medical services other than mental health services to be provided in the client's home, the following requirements must be met:

- A patient site presenter is present
- There is a defined physician-client relationship
- The patient site presenter has sufficient communication and remote medical diagnostic technology to allow the physician to carry out an adequate physical examination for the client's presenting condition, while seeing and hearing the client in real time. The physical examination will be held to the same standard of acceptable medical practices as those in traditional clinical settings.

Procedure code Q3014 is not a benefit if the patient site is the client's home.

The patient-site presenter must maintain the records created at the distant site unless the distant site provider maintains the records in an electronic-health-record format.

38.2.3 Telehealth Services

Telehealth is defined as health services, other than telemedicine, that:

- Are delivered by licensed or certified health professionals who are acting within the scope of their license or certification.
- Require the use of advanced telecommunications technology, other than telephone or facsimile technology, including the following:
 - Compressed digital interactive video, audio, or data transmission.
 - Clinical data transmission using computer imaging by way of still-image capture and store-and-forward.
 - Other technology that facilitates access to health care services or medical specialty expertise.

Before receiving a telehealth service, the client must receive an in-person evaluation for the same diagnosis or condition. An in-person evaluation is a client evaluation that is conducted by a provider who is at the same physical location as the client.

Exception: *Clients who have a mental health diagnosis or condition may receive a telehealth service without an in-person evaluation if the purpose of the initial telehealth appointment is to screen and refer the client for additional services. The referral must be documented in the medical record.*

To continue receiving telehealth services, the client must have had an in-person evaluation by a person who is qualified to determine a continued need for services at least once in the 12 months before the telehealth service.

Written policies and procedures must be maintained and evaluated at least annually by both the distant-site provider and the patient-site presenter and must address all of the following:

- Client privacy, to assure confidentiality and integrity of client telehealth services
- Archival and retrieval of client service records
- Quality oversight mechanisms

38.2.3.1 Distant Site

A distant site is the location of the provider rendering the service. Distant-site benefits include services that are performed by the following providers, who must be enrolled as a CSHCN Services Program provider:

- Licensed professional counselor
- Licensed marriage and family therapist
- Licensed clinical social worker
- Psychologist
- Licensed dietician

The following procedure codes, when billed with the 95 modifier, are a benefit for distant-site providers:

Procedure Codes						
90791	90832	90834	90837	97802	97803	S9470
*Procedure codes are limited to one service per day.						

Note: *Procedure codes for behavioral health services are subject to the benefits and limitations outlined in Chapter 29, "Outpatient Behavioral Health."*

Procedure codes 90833, 90836, and 90838 are add-on codes and must be billed with a primary E/M procedure code in order to be reimbursed.

Electronic documentation of the telehealth consultation must be kept on file at the distant site location and must be available for review upon request by DSHS or its designee.

38.2.3.2 Patient Site

A patient site is where the client is physically located while the service is rendered. The patient-site must be one of the following:

- *Established medical site* - A location where clients will present to seek medical care. There must be a patient-site presenter and sufficient technology and medical equipment to allow for an adequate physical evaluation, as appropriate for the client's presenting complaint. A defined physician-client relationship is required. A client's private home is not considered an established medical site.

- *Established health site* - A location where clients will present to seek a health service. There must be a patient-site presenter and sufficient technology and medical equipment to allow for an adequate physical evaluation or assessment, as appropriate for the client's presenting complaint. A defined health provider-client relationship is required. A client's private home is not considered an established health site.

Telehealth services provided at an established medical site require a defined physician-client relationship. The following communications do not meet the defined physician-client relationship requirement:

- An online questionnaire
- Questions and answers exchanged through email, electronic text, or chat
- Telephonic evaluation or consultation with a client

The facility fee (procedure code Q3014) is not a benefit for telehealth services. Charges for other services that are performed at the patient site may be submitted separately.

All patient sites must maintain documentation for each service, including:

- The date of the service.
- The name of the client.
- The name of the distant-site provider.
- The name of the patient-site presenter.

A patient-site presenter must introduce the client to the distant-site provider for examination and must perform any tasks and activities that are delegated by the distant-site provider. A patient-site provider must be one of the following:

- An individual who is licensed or certified in Texas to perform health-care services and who presents or is delegated tasks and activities only within the scope of the individual's licensure or certification
- A qualified mental health professional-community services (QMHP-CS) as defined in Title 25 *Texas Administrative Code* (TAC) 412.303

For telehealth services, the patient-site presenter must be readily available.

Note: Readily available means in the same room or (at the discretion of the licensed or certified professional that is providing the service) not in the same room as the client but within a proximity determined by the licensed or certified professional who is providing the telehealth service.

If the telehealth services relate only to mental health, a patient-site presenter does not have to be readily available unless the client is a danger to the client or to others (e.g., behavioral health emergency).

The patient-site presenter must maintain the records created at the distant site unless the distant site provider maintains the records in an electronic-health-record format.

38.2.4 Telemonitoring Services

Home telemonitoring services are a benefit of the CSHCN Services Program.

Home telemonitoring is a health service that requires scheduled remote monitoring of data related to a client's health, and transmission of the data from the client's home to a licensed home health agency or a hospital. The data transmission must comply with standards set by the *Health Insurance Portability and Accountability Act* (HIPAA).

Data parameters are established as ordered by a physician's plan of care. Data must be reviewed by a registered nurse (RN), APRN, or PA, who is responsible for reporting data to the prescribing physician in the event of a measurement outside the established parameters.

Online evaluation for home telemonitoring services (procedure code 99444) is a benefit in the office or outpatient hospital setting when services are provided by an APRN, PA, or physician provider. Procedure code 99444 is limited to once per seven days and will be denied if submitted within the postoperative period of a previously completed procedure or within seven days of a related evaluation and management service by the same provider.

Scheduled periodic transmission of the client data to the physician is required, even when there have been no readings outside the parameters established in the physician's orders. Telemonitoring providers must be available 24 hours a day, 7 days a week. Although transmissions are generally at scheduled times, they can occur any time of the day or day of the week, according to the client's plan of care.

The physician who orders home telemonitoring services has a responsibility to ensure that the client has the right to discontinue home telemonitoring services at any time.

Although the CSHCN Services Program supports the use of home telemonitoring, clients are not required to use this service.

38.2.4.1 Facility Services

The provision and maintenance of home telemonitoring equipment is the responsibility of the home health agency or the hospital. The initial setup and installation (procedure code 99090) of the equipment in the client's home is a benefit when services are provided by a home health agency or an outpatient hospital. Hospital providers must submit revenue code 780 or 789 with procedure code 99090.

Procedure code 99090 is limited to once per episode of care even if monitoring parameters are added after initial setup and installation. A claim for a subsequent set up and installation will not be reimbursed unless there is a documented new episode of care.

Daily home monitoring (procedure code 99090 with modifier GQ) is a benefit when services are provided by a home health agency or an outpatient hospital. The home health agency or hospital may submit a claim for the daily rate each day the telemonitoring equipment is used to monitor and manage the client's care. Hospital providers must submit revenue code 780 or 789 with the procedure code for daily home monitoring.

Procedure code 99090 with modifier GQ is limited to once per day, regardless of the number of transmissions, for the length of the prior authorization period.

38.2.4.2 Prior Authorization Guidelines

Procedure codes 99090 and 99090 with modifier GQ require prior authorization. Home telemonitoring services may be approved for up to 60 days per prior authorization request. If additional home telemonitoring services are needed, the home health agency or hospital must request prior authorization before the current prior authorization period ends.

Home telemonitoring services are a benefit only for clients who are diagnosed with diabetes or hypertension. Clients must exhibit two or more of the following risk factors:

- Two or more hospitalizations in the previous 12-month period
- Frequent or recurrent emergency department visits
- A documented history of poor adherence to ordered medication regimens
- Documented history of falls in the previous six-month period
- Limited or absent informal support systems
- Living alone or being home alone for extended periods of time
- A documented history of care access challenges

Documentation that supports the prior authorization request must be maintained in the client's medical record.

A completed Home Telemonitoring Services Prior Authorization Request form must be submitted to request home telemonitoring services. The request must include all of the following:

- An order for telemonitoring services, signed and dated by the prescribing physician who is familiar with the client
- A plan of care, signed and dated by the prescribing physician, that includes home telemonitoring transmission frequency
- The client's diagnoses and risk factors that qualify the client for home telemonitoring services

Providers can also request prior authorization online through the secure TMHP provider portal.

The home health agency or hospital must attest to all of the following on the prior authorization request:

- The telemonitoring equipment meets all the following requirements:
 - Capable of monitoring any data parameters included in the plan of care
 - Food and Drug Administration Class II hospital-grade medical device
 - Capable of measuring and transmitting client blood glucose or blood pressure data
- The provider's staff is qualified to install the needed telemonitoring equipment and to monitor the client data transmitted according to the client's care plan.
- Clinical data will be provided to the prescribing physician or his/her designee.
- Services are not duplicated under the disease management programs described in Texas Human Resources Code, Section 32.057.
- Monitoring of the client's clinical data is not duplicated by any other provider.
- Written protocols, policies and procedures on the provision of home telemonitoring services are available to the Department of State Health Services (DSHS) or its designee upon request. Written protocols must address all of the following:
 - Authentication and authorization of users
 - Authentication of the origin of client data transmitted
 - Prevention of unauthorized access to the system or information
 - System security, including the integrity of information that is collected, program integrity, and system integrity
 - Maintenance of documentation about system and information usage
 - Information storage, maintenance, and transmission
 - Synchronization and verification of patient profile data

The client's prescribing physician must attest to all of the following on the prior authorization request:

- The client is sufficiently cognitively intact and able to operate the equipment or has a willing and able person to assist in completing electronic transmission of data. (Not required if the equipment does not require active participation from the recipient.)
- The client is not currently receiving duplicate services via disease management services.
- Monitoring of the client's clinical data is not duplicated by any other provider.

Referto: Refer to: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

[Home Telemonitoring Services Prior Authorization Request Form](#)

38.3 Claims Information

Telecommunication services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form or the UB-04 CMS-1450 paper claim form. Providers may purchase CMS-1500 paper claim forms or UB-04 CMS-1450 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form or a UB-04 CMS-1450 paper claim form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT) codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) [NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" and Section 5.7.2.7, "Instructions for Completing the UB-04 CMS-1450 Paper Claim Form" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

38.4 Reimbursement

Telecommunication services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

38.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

TRANSPORTATION OF DECEASED CLIENTS

- 39.3 Claims Information.....3**
- 39.4 Reimbursement.....4**
- 39.5 TMHP-CSHCN Services Program Contact Center4**

39.1 Enrollment

Funeral home providers are not required to be actively enrolled in Texas Medicaid or the CSHCN Services Program.

39.2 Benefits, Limitations, and Authorization Requirements

The CSHCN Services Program provides coverage for the costs of transporting a deceased client who expires in a CSHCN Services Program-approved facility (including non-billing facilities such as MD Anderson, Shriner's Hospital, Scottish Rite) while receiving CSHCN Services Program health-care benefits, if client is not in the family's city of residence.

The program may also pay the transportation cost of a parent or other person accompanying the remains from the facility to the place of burial in Texas that is designated by the parent or other person legally responsible for interment.

If the program prior authorized a treatment out-of-state and the client expires, the program may pay the costs of transporting the client's remains, and the transportation cost of a parent or other person accompanying the remains from the facility to the place of burial in Texas that is designated by the parent or other person legally responsible for interment.

The CSHCN Services Program considers the following services for reimbursement:

- *First Call Charge.* This includes the removal of the body by the funeral home from the facility in which the client expired.
- *Air Transportation.* Transportation costs of moving the deceased from the funeral home to the airport, cost of an air tray provided by the funeral home, and cost of airline transportation for the body and an accompanying parent or other responsible person may all be paid.
- *Land Transportation.* If the body is transported over land, one-way mileage is paid based on the State Mileage Guide. Funeral homes or mortuary services use standard air-conditioned vehicles to transport bodies. It is common for the body to be transported on a cot; however, the CSHCN Services Program may pay for a container or coffin (not a casket) if one is used. It is legal in Texas for the family to transport the body themselves. If the family chooses to do this, the CSHCN Services Program may reimburse the family or a third party on the family's behalf at the standard CSHCN Services Program mileage rate for a one-way trip.
- *Rail Transportation.* If the body is transported by rail, the CSHCN Services Program may pay the cost of transportation of moving the deceased from the funeral home to the station and the cost of a container provided by the funeral home. The cost of rail transportation for the body and an accompanying parent or other responsible person may also be paid.
- *Bus Transportation.* It is not common practice for bodies to be transported by bus.
- *Embalming.* State law requires that a body be refrigerated between 34° to 40°F, or the body must be embalmed within 24 hours after death. Airlines and rail systems require embalming. Depending on the distance, a body may be transported over land without being embalmed.

Note: The CSHCN Services Program does not pay for cremation or transporting the ashes of a deceased client.

39.2.1 Authorization Requirements

Authorization is not required for the transportation of deceased clients.

39.3 Claims Information

Claims for the transportation of a deceased client must be submitted to TMHP on the approved [CSHCN Services Program Reimbursement Request for Transportation of the Remains of Deceased Clients form](#).

39.4 Reimbursement

Costs associated with the transportation of the remains of a deceased client are reimbursed the lower of the amount billed or the amount listed:

Service	Reimbursement
First call	\$150
Embalming	\$100
Container	\$150
Mileage billed by funeral home	\$1.00 per mile
Air Freight	Billed amount

39.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

40.1 Enrollment

To enroll in the CSHCN Services Program, ophthalmologists, optometrists, and opticians are required to be actively enrolled in Texas Medicaid. They must have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Optometrists, ophthalmologists, and opticians may enroll either as an individual or as a group with performing providers. Opticians may also enroll as a facility. Out-of-state ophthalmologist, optometrists, and optician providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border.

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC) Chapter 38, but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

40.2 Benefits, Limitations, and Authorization Requirements

Vision related services are a benefit of the CSHCN Services Program. The CSHCN Services Program may consider the following services for reimbursement:

- Vision eye exams with refraction
- Other eye exams for medical reasons
- Medical eye treatments
- Frames
- Lenses
- Contact lenses
- High-power lenses
- Scleral lenses
- Repair and replacement of frames and lenses
- Other medically necessary vision services

The following services are not benefits of the CSHCN Services Program:

- Eyeglasses that do not significantly improve visual acuity or that do not impede the progression of visual problems
- Plano sunglasses
- Optional eyeglass features that are requested by the client but that do not increase visual acuity, such as tinting, decorative accessories or lettering, or eyeglass cases
- Polarization of lenses
- Extended color vision examination
- Dark adaptation examination
- Vision screening
- Contact lenses that correct color vision deficiency
- Services and procedures that are investigational or experimental
- Low vision aids

Note: Clients in need of low vision aids may be referred to the Texas Department of Assistive and Rehabilitative Services (DARS) Division for Blind Services (DBS) for consideration of coverage.

Vision services are a benefit when provided by ophthalmologists, optometrists, and opticians practicing according to standards established by their licensing boards and the state laws of Texas.

40.2.1 Frames, Lenses, and Contact Lenses

40.2.1.1 Frames

Providers must offer frames that meet the following criteria:

- A choice of at least three styles that are appropriate to the client's age or gender
- Frames in sizes that are appropriate to the client's needs
- A choice of at least three colors

Dispensing of eyeglasses includes the design, verification, fitting, adjustment, sale, and delivery to the client of fabricated and finished spectacle lenses, frames, or other ophthalmic devices prescribed by and dispensed in accordance with a prescription from a licensed physician or optometrist.

Frames must be composed of all zylonite components, meet statutory quality standards, and be made of new materials. Clients or families may only choose frames that are metal or a combination of zylonite and metal if they are willing to pay the difference between the CSHCN Services Program's reimbursement for frames and the cost of metal or metal and zylonite frames.

Providers may submit procedure codes V2020 and V2025 for the reimbursement of eyeglass frames.

40.2.1.2 Eyeglass Lenses

Lenses must meet the American National Standards Institute (ANSI) specifications (see www.ansi.org) for first quality prescription ophthalmic lenses, including, but not limited to, the following:

- Lenses must be made of clear glass or plastic.
- Lenses must be composed of new materials.
- Bifocals must be flat-tops or an equivalent style with a near segment of at least 25 mm width.
- Trifocals must be flat-tops or an equivalent style with an intermediate segment of at least 7 X 25 mm.

Providers may submit the following procedure codes for the reimbursement of eyeglass lenses. Providers must bill with a quantity of two when billing for bilateral lenses with the same prescription.

Single Vision Lenses Procedure Codes								
V2100	V2101	V2103	V2104	V2107	V2108	V2115	V2118	V2121

Bifocal Lenses Procedure Codes									
V2200	V2201	V2203	V2204	V2207	V2208	V2215	V2218	V2219	V2220
V2221									

Trifocal Lenses Procedure Codes									
V2300	V2301	V2303	V2304	V2307	V2308	V2315	V2318	V2319	V2320
V2321									

40.2.1.3 Special Eyeglass Lenses

Special lenses, such as high-index, polycarbonate, and high-powered lenses, are a benefit of the CSHCN Services Program if they are ordered by the treating physician because they are medically necessary and not solely because of a client's preference.

- High-power lenses have a sphere greater than 7.00 diopters or a cylinder greater than 4.00 diopters.
- High-index lenses allow lighter-weight lenses for clients who have unusually heavy lenses.
- Polycarbonate lenses are considered the standard for children's eyewear because polycarbonate provides extra strength, flexibility, and inherent UV protection.

Ophthalmologists, optometrists, and opticians may submit the following procedure codes for the reimbursement of special eyeglass lenses:

High-Power Lenses Procedure Codes									
V2102	V2105	V2106	V2109	V2110	V2111	V2112	V2113	V2114	V2202
V2205	V2206	V2209	V2210	V2211	V2212	V2213	V2214	V2302	V2305
V2306	V2309	V2310	V2311	V2312	V2313	V2314			

The following procedure codes will not be reimbursed unless billed with the appropriate lens procedure code by the same provider for the same date of service:

Procedure Codes for Add-On Lenses				
V2410	V2430	V2715	V2755	V2784

Procedure codes V2410, V2430, V2715, V2755, and V2784 will not be reimbursed unless they are billed with the appropriate lens procedure code by the same provider for the same date of service.

Ultraviolet (UV) lenses (procedure code V2755) may be reimbursed when billed with a diagnosis of aphakia. UV lenses will be denied when billed for the same date of service as polycarbonate lenses (procedure code V2784).

40.2.1.4 Contact Lenses

Dispensing of contact lenses includes the fabrication, ordering, adjustment, dispensing, sale, and delivery to the client of the contact lenses prescribed by and dispensed in accordance with a prescription from a licensed physician or optometrist.

Contact lenses that are made of hydrophilic and rigid materials are a benefit of the CSHCN Services Program.

- Hydrophilic contact lenses that have been reviewed by the U.S. Food and Drug Administration (FDA) and released for sale in the U.S. will be considered for reimbursement only for those uses for which they have been reviewed.
- Hard and gas permeable lenses must conform to the ANSI requirements for first quality contact lenses.

Examinations for contact lens prescriptions and fittings include:

- The specific optical and physical characteristics of the contact lens including power, size, curvature, flexibility, and gas-permeability.
- Medically necessary tests including multiple ophthalmometry, measurement of tear flow, measurement of ocular adnexa, and initial tolerance evaluation.
- The instruction and training of the client and incidental revision during the training period.
- Follow-up care for a period of six months.

Fitting and modification of contact lenses may be reimbursed to providers using the following procedure codes:

Contact Lens Fitting Exam Procedure Codes									
92310	92311	92312	92313	92314	92315	92316	92317	92325	92326

Providers may submit the following procedure codes with a quantity of two for the reimbursement of a pair of contact lenses:

Contact Lens Procedure Codes									
V2500	V2501	V2502	V2510	V2511	V2512	V2513	V2520	V2521	V2522
V2523	V2530	V2531	V2599						

Contact lenses and their prescription and fitting are limited to the following diagnosis codes:

Diagnosis Code	Description
H18601	Keratoconus, unspecified, right eye
H18602	Keratoconus, unspecified, left eye
H18603	Keratoconus, unspecified, bilateral
H18611	Keratoconus, stable, right eye
H18612	Keratoconus, stable, left eye
H18613	Keratoconus, stable, bilateral
H18621	Keratoconus, unstable, right eye
H18622	Keratoconus, unstable, left eye
H18623	Keratoconus, unstable, bilateral
H2701	Aphakia, right eye
H2702	Aphakia, left eye
H2703	Aphakia, bilateral
H27111	Subluxation of lens, right eye
H27112	Subluxation of lens, left eye
H27113	Subluxation of lens, bilateral
H27121	Anterior dislocation of lens, right eye

Diagnosis Code	Description
H27122	Anterior dislocation of lens, left eye
H27123	Anterior dislocation of lens, bilateral
H27131	Posterior dislocation of lens, right eye
H27132	Posterior dislocation of lens, left eye
H27133	Posterior dislocation of lens, bilateral
H35101	Retinopathy of prematurity, unspecified, right eye
H35102	Retinopathy of prematurity, unspecified, left eye
H35103	Retinopathy of prematurity, unspecified, bilateral
H35141	Retinopathy of prematurity, stage 3, right eye
H35142	Retinopathy of prematurity, stage 3, left eye
H35143	Retinopathy of prematurity, stage 3, bilateral
H35151	Retinopathy of prematurity, stage 4, right eye
H35152	Retinopathy of prematurity, stage 4, left eye
H35153	Retinopathy of prematurity, stage 4, bilateral
H35161	Retinopathy of prematurity, stage 5, right eye
H35162	Retinopathy of prematurity, stage 5, left eye
H35163	Retinopathy of prematurity, stage 5, bilateral
H35171	Retrolental fibroplasia, right eye
H35172	Retrolental fibroplasia, left eye
H35173	Retrolental fibroplasia, bilateral
H4421	Degenerative myopia, right eye
H4422	Degenerative myopia, left eye
H4423	Degenerative myopia, bilateral
H5201	Hypermetropia, right eye
H5202	Hypermetropia, left eye
H5203	Hypermetropia, bilateral
H5211	Myopia, right eye
H5212	Myopia, left eye
H5213	Myopia, bilateral
H52201	Unspecified astigmatism, right eye
H52202	Unspecified astigmatism, left eye
H52203	Unspecified astigmatism, bilateral
H52211	Irregular astigmatism, right eye
H52212	Irregular astigmatism, left eye
H52213	Irregular astigmatism, bilateral
H52221	Regular astigmatism, right eye
H52222	Regular astigmatism, left eye
H52223	Regular astigmatism, bilateral
H5231	Anisometropia

Diagnosis Code	Description
H5232	Aniseikonia
H524	Presbyopia
H53001	Unspecified amblyopia, right eye
H53002	Unspecified amblyopia, left eye
H53003	Unspecified amblyopia, bilateral
H53011	Deprivation amblyopia, right eye
H53012	Deprivation amblyopia, left eye
H53013	Deprivation amblyopia, bilateral
H53021	Refractive amblyopia, right eye
H53022	Refractive amblyopia, left eye
H53023	Refractive amblyopia, bilateral
H53031	Strabismic amblyopia, right eye
H53032	Strabismic amblyopia, left eye
H53033	Strabismic amblyopia, bilateral
H53041	Amblyopia suspect, right eye
H53042	Amblyopia suspect, left eye
H53043	Amblyopia suspect, bilateral
H53049	Amblyopia suspect, unspecified eye
Q123	Congenital aphakia
Q134	Other congenital corneal malformations
Z961	Presence of intraocular lens

Scleral lenses that are prescribed as a liquid bandage must be billed using procedure code S0515. Scleral lenses that are used therapeutically in other ways should be billed using procedure code V2530 or V2531. Reimbursement for scleral lenses requires authorization.

Referto: Section 40.2.1.6.2, “Scleral Lenses and Liquid Bandages” in this chapter for detailed information on prior authorization requirements

Providers may bill for the replacement of contact lenses under current prescription due to damage or loss using procedure code 92326 with one of the diagnosis codes above.

If disposable contact lenses are deemed medically necessary and are prior-authorized, procedure code V2599 must be used to bill for their reimbursement.

40.2.1.4.1 Contact Fitting for Corneal Bandage Lens

The fitting of contact lenses for corneal bandages may be reimbursed using procedure codes 92071 and 92072. Only one procedure code, 92071 or 92072, may be reimbursed per day, per provider.

Procedure code 92071 may be reimbursed for one service per day, each eye, any provider and must be billed with modifier LT or RT. If both eyes are billed for the same date of service, one procedure may be reimbursed at the full rate and the second procedure may be reimbursed at half rate.

Procedure code 92072 may be reimbursed for one service per day when billed by the same provider when one or both eyes are fitted for keratoconus lenses.

Note: Follow-up visits should be billed separately using the most appropriate office visit code.

40.2.1.5 Eye Wear

The CSHCN Services Program will consider one form of eyewear for reimbursement per calendar year.

If a client wants frames or lenses that exceed the benefit limitations, the client must pay the difference between the amount allowed by the CSHCN Services Program and the actual cost. CSHCN Services Program clients or their parents or guardians must acknowledge that their choice exceeds the program requirements by signing the [CSHCN Services Program Vision Care Eyeglass Client Certification Form](#). A copy of this form is available in both [English](#) and [Spanish](#). Providers must maintain a copy of this signed form in the client's medical record. The provider may withhold the noncovered eyewear until the client pays the difference. If the client fails to pay for the noncovered items within three months, the provider may return any reusable items to stock. Any payment made by the CSHCN Services Program must be refunded to the CSHCN Services Program.

More than one pair of eyeglasses may be authorized if there is a change in lens power that is generally equal to or greater than 0.5 diopters in either eye (e.g., progressive myopia, cataract development).

Providers may be reimbursed for custom-made eyewear based on the services that were performed and the materials that were used until the time the provider received a notice of cancellation for the eyewear (because the client has died or because the prescription changed before the eyewear was completed and delivered). This applies only to custom items. Items not made to order for a specific client will be denied.

One pair of contact lenses and one contact lens prescription and fitting may be covered in a calendar year for a payable diagnosis listed in the table above in Section 40.2.1.4, "Contact Lenses" in this chapter. Additional contact lenses and contact lens prescriptions and fittings within the same calendar year may be prior authorized with proof of medical necessity.

Contact lenses may require more frequent replacement than one new pair per calendar year, depending on the style and the prescribed use. More frequent replacement must be medically necessary and prior authorization must be obtained.

The repair of lost or destroyed eyeglass frames, eyeglass lenses, or contact lenses outside of their normal replacement schedule will be allowed only if modifier RB is submitted with the appropriate procedure codes.

40.2.1.6 Services Requiring Authorization

40.2.1.6.1 Contact Lenses, Prescriptions, and Fittings

Authorization is required for medically necessary contact lenses and their prescriptions and fittings for diagnoses that are not listed in the diagnosis table above in Section 40.2.1.4, "Contact Lenses" in this chapter. Requests for authorization must be submitted using a [CSHCN Services Program Authorization and Prior Authorization Request form](#) with documentation of the following:

- The medical diagnosis of the cause of the disorder of refraction
- For an established patient, current and new prescriptions that show a change of 0.5d or more in the sphere, cylinder, or prism measurements from a previous exam
- For a new patient, the new prescription including prescriptive measurements
- Which eyes are being treated: left, right, or both
- The specific procedure codes for which the authorization is being requested
- The medical necessity of contact lenses for the correction of the client's vision or for the treatment of the client's medical condition, and why eyeglasses are inappropriate or contraindicated in this case

40.2.1.6.2 Scleral Lenses and Liquid Bandages

Authorization is required for scleral lenses (procedure codes V2530 and V2531) and scleral lenses used as liquid bandage devices (procedure code S0515). Providers must submit the [CSHCN Services Program Authorization and Prior Authorization Request form](#). Claims must be submitted with documentation of all of the following:

- The client has a condition that requires a scleral lens or a liquid bandage and is refractive to conservative treatment.
- The client has a condition that indicates a severe ocular surface disease, including, but not limited to, the following conditions:
 - Corneal ectasia such as keratoconus, pellucid marginal degeneration, keratoglobus (The use of scleral lenses does not achieve precise vision correction for high-order aberrations related to these diagnoses.)
 - Post keratoplasty astigmatism (Scleral lenses generally provide excellent visual acuity for the treatment of this condition and should be considered in lieu of wedge resections, relaxing incisions, and laser ablations.)
 - Terrien’s marginal degeneration
 - Corneal surface irregularities that are due to ocular surface disease, anterior corneal dystrophies, scars, and other causes
 - Aphakia, high myopia or astigmatism
 - Corneal stem cell deficiencies that are a result of Stevens-Johnson syndrome and toxic epidermal necrosis (TEN), chemical and thermal injuries, ocular pemphigoid, aniridia, and other causes
 - Keratitis sicca that is a result of disorders of the lacrimal gland such as Sjogren’s syndrome, graft vs. host disease, irradiation, surgery, and meibomian gland deficiency
 - Neurotrophic corneas resulting from herpes simplex or zoster keratitis, congenital corneal anesthesia (dysautonomia), diabetes, acoustic neuroma surgery, trigeminal ganglionectomy, trigeminal rhizotomy, and other causes
 - Persistent noninfectious corneal ulcers and epithelial defects that are associated with stem cell-deficient and neurotrophic corneas

40.2.1.7 Services Not Requiring Authorization

Authorization is not required for the following:

- One annual vision exam with refraction
- One medically necessary pair of prescription eyewear per calendar year
- One medically necessary pair of contact lenses per calendar year
- Eye exams and eye treatments for medical reasons (Medical eye exams and treatments may also include special vision services and ocular viewing and diagnostic procedures.)

Referto: Section 4.2, “Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information on prior authorization requirements.

40.2.1.8 Services Requiring Prior Authorization

A separate prior authorization request must be submitted for all contact lens replacements and for additional prescriptions and fittings of contact lenses within the calendar year. Requests must be submitted using a [CSHCN Services Program Authorization and Prior Authorization Request form](#) with documentation of the following:

- The medical diagnosis of the cause of the disorder of refraction

- Which eyes are being treated: left, right, or both
- The procedure codes for which the prior authorization is being requested
- The medical necessity of either the replacement of the contact lenses or of an additional contact lens prescription and fitting within the calendar year

If a pattern of contact lens replacement is requested, the medical necessity of the pattern of replacement (e.g., monthly, every three months, or any other frequency) for the correction of a client's vision or for the treatment of a client's medical condition must be established. If the request for replacement is because of a change in prescription during the calendar year, the provider must include current and new prescriptions that show:

- A change of 0.50 diopters or more in any corresponding meridian
- A cylinder axis change of at least 20 degrees for a cylinder power of 0.50-0.62 diopters
- A cylinder axis change of at least 15 degrees for a cylinder power of 0.75-0.87 diopters
- A cylinder axis change of at least 10 degrees for a cylinder power of 1.00-1.87 diopters
- A cylinder axis change of at least 5 degrees for a cylinder power of 2.00 diopters or greater.

Note: A cylinder power of 0.12-0.37 diopters with a change in axis does not warrant replacement glasses.

Providers must submit an invoice that shows the manufacturer's suggested retail price (MSRP) of the prescribed contact lenses with the prior authorization request.

Procedure code 76999 requires prior authorization. The provider must submit the following documentation with their request:

- The client's diagnosis
- A clear, concise description of the ophthalmic ultrasound being performed
- A CPT or HCPCS procedure code which is comparable to the ophthalmic ultrasound being requested
- The physician's intended fee for this procedure
- Reason for recommending this particular procedure

Note: Services and procedures that are investigational or experimental are not a benefit of the CSHCN Services Program.

Referto: Section 4.3, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information on prior authorization requirements.

40.2.1.9 Eye Protheses

Eye protheses may be authorized when prescribed by the treating physician and when there is documentation of medical necessity and appropriateness.

There are no specific time limitations on replacement of eye protheses. A child's eye socket may change size at variable times because of differences in bone growth rate and soft tissue change.

40.2.2 Eye and Vision Examinations

Vision services that are medically necessary for the treatment of a client include, but are not limited to, the following:

- Eye examinations and the treatment of the eye for medical reasons (i.e., aphakia diagnoses, diseases of the eye, or as a result of eye surgery or an injury to the eye). Eye examinations that are performed for medical reasons may be reimbursed as medically necessary.

- One vision examination with refraction per calendar year to obtain a prescription for eyewear for disorders of refraction and accommodation. More frequent vision exams may be reimbursed if they are recommended by a school nurse, teacher, or parent.
- One pair of nonprosthetic eyewear per calendar year.

A client who experiences vision-related difficulty with activities of daily living (ADLs) or with employment may be referred to DARS DBS for evaluation and appropriate resources.

Special vision services, ocular viewing, and diagnostic testing include, but are not limited to, the following:

- Examination and evaluation with general anesthesia
- Ophthalmic ultrasound
- Corneal topography
- Sensorimotor examination
- Orthoptic or pleoptic training
- Ophthalmoscopy

40.2.2.1 Vision Examinations with Refraction

Vision examinations with refraction to obtain a prescription for eyewear (procedure code S0620 or S0621) may be reimbursed once per calendar year when billed with diagnosis codes Z0100 or Z0101.

Procedure codes S0620 and S0621 will deny if billed on the same date of service as procedure code 92020.

40.2.2.2 Medical Eye Examinations

Medical eye examinations performed for medical reasons may be reimbursed to providers using procedure codes 92002, 92004, 92012, 92014, and 92015. These examinations may be reimbursed as medically necessary with a valid diagnosis code that describes the medical reason for the eye examination.

A new patient is one who has not received any professional services within the past three years from the provider or another provider of the same specialty who belongs to the same group practice. Providers must use procedure codes 92002, 92004, or S0620 to bill for new patient ophthalmological eye exams provided in the office, or in an outpatient or other ambulatory facility.

An established patient is one who has received professional services from the provider or another provider of the same specialty who belongs to the same group practice within the past three years. Providers must use procedure codes 92012, 92014, or S0621 to bill for established patient ophthalmological eye exams that were provided in the office, or in an outpatient or other ambulatory facility.

Routine vision examinations, with refraction (procedure codes S0620 and S0621) will be denied as part of another service if they are billed with the same date of service as an ophthalmological medical exam (procedure codes 92002, 92004, 92012, and 92014).

A refractive state (procedure code 92015) will be denied as part of another service when billed with the same date of service by the same provider as a routine vision examination, with refraction (procedure codes S0620 or S0621).

A refractive state (procedure code 92015) may be reimbursed in addition to procedure codes 92002, 92004, 92012, and 92014.

40.2.2.3 Services Requiring Authorization

Authorization is required if a school nurse, teacher, or parent recommends an additional eye examination with refraction within a calendar year. If a new pair of eyeglasses is required as a result of the exam, an authorization is required. Requests for either authorization must be submitted using a [CSHCN Services Program Authorization and Prior Authorization Request form](#) with documentation of the following:

- The medical diagnosis of the cause of the disorder of refraction
- The new prescription that shows at least one of the following:
 - A change of 0.50 diopters or more in any corresponding meridian
 - A cylinder axis change of at least 20 degrees for a cylinder power of 0.50-0.62 diopters
 - A cylinder axis change of at least 15 degrees for a cylinder power of 0.75-0.87 diopters
 - A cylinder axis change of at least 10 degrees for a cylinder power of 1.00-1.87 diopters
 - A cylinder axis change of at least 5 degrees for a cylinder power of 2.00 diopters or greater.

Note: A cylinder power of 0.12-0.37 diopters with a change in axis does not warrant replacement glasses.

- The specific procedure codes for which the authorization is being requested

40.2.3 Special Vision Services

40.2.3.1 Ophthalmological Examination and Evaluation with General Anesthesia

Ophthalmological examination and evaluation with general anesthesia (procedure codes 92018 and 92019) may be reimbursed to ophthalmologists if a client has significant injury or cannot otherwise tolerate the procedure while conscious. Ophthalmological examination and evaluation with general anesthesia is limited to one service per day by any provider.

40.2.3.2 Ophthalmic Ultrasound

Ophthalmic ultrasound may be reimbursed to providers using the following procedure codes:

Procedure Codes								
76510	76511	76512	76513	76514	76516	76519	76529	76999

Ophthalmic ultrasounds may be reimbursed on the same date of service by the same provider as an eye examination visit or consultation.

Ophthalmic ultrasounds professional components may be reimbursed for services rendered in the office, outpatient, and inpatient hospital settings. The technical component of ophthalmic ultrasounds may be reimbursed for services rendered in the office setting.

Procedure codes 76514, 76516, and 76519 are limited to one service per day, any provider. Procedure codes 76510, 76511, 76512, 76513, 76514, 76516, and 76519 are limited to two services per calendar year by any provider.

Procedure code 76519 may be reimbursed as follows:

- The professional component must be billed with modifier LT or RT to identify the eye on which the service was performed.
- The technical component may be reimbursed once when one or both eyes are performed on the same date of service by any provider.
- The total component may be reimbursed with an additional professional service when both eyes are performed on the same date of service by any provider.

40.2.3.3 Corneal Topography

Corneal topography (procedure code 92025) may be reimbursed to providers and is limited to one service per day, and two services per calendar year by any provider. Corneal topography is limited to the following diagnosis codes:

Diagnosis Code	Description
H10211	Acute toxic conjunctivitis, right eye
H10212	Acute toxic conjunctivitis, left eye
H10213	Acute toxic conjunctivitis, bilateral
H10811	Pingueculitis, right eye
H10812	Pingueculitis, left eye
H10813	Pingueculitis, bilateral
H11001	Unspecified pterygium of right eye
H11002	Unspecified pterygium of left eye
H11003	Unspecified pterygium of eye, bilateral
H11011	Amyloid pterygium of right eye
H11012	Amyloid pterygium of left eye
H11013	Amyloid pterygium of eye, bilateral
H11021	Central pterygium of right eye
H11022	Central pterygium of left eye
H11023	Central pterygium of eye, bilateral
H11031	Double pterygium of right eye
H11032	Double pterygium of left eye
H11033	Double pterygium of eye, bilateral
H11041	Peripheral pterygium, stationary, right eye
H11042	Peripheral pterygium, stationary, left eye
H11043	Peripheral pterygium, stationary, bilateral
H11051	Peripheral pterygium, progressive, right eye
H11052	Peripheral pterygium, progressive, left eye
H11053	Peripheral pterygium, progressive, bilateral
H11061	Recurrent pterygium of right eye
H11062	Recurrent pterygium of left eye
H11063	Recurrent pterygium of eye, bilateral
H1189	Other specified disorders of conjunctiva
H16001	Unspecified corneal ulcer, right eye
H16002	Unspecified corneal ulcer, left eye
H16003	Unspecified corneal ulcer, bilateral
H16011	Central corneal ulcer, right eye
H16012	Central corneal ulcer, left eye
H16013	Central corneal ulcer, bilateral
H16021	Ring corneal ulcer, right eye
H16022	Ring corneal ulcer, left eye

Diagnosis Code	Description
H16023	Ring corneal ulcer, bilateral
H16031	Corneal ulcer with hypopyon, right eye
H16032	Corneal ulcer with hypopyon, left eye
H16033	Corneal ulcer with hypopyon, bilateral
H16041	Marginal corneal ulcer, right eye
H16042	Marginal corneal ulcer, left eye
H16043	Marginal corneal ulcer, bilateral
H16051	Mooren's corneal ulcer, right eye
H16052	Mooren's corneal ulcer, left eye
H16053	Mooren's corneal ulcer, bilateral
H16061	Mycotic corneal ulcer, right eye
H16062	Mycotic corneal ulcer, left eye
H16063	Mycotic corneal ulcer, bilateral
H16071	Perforated corneal ulcer, right eye
H16072	Perforated corneal ulcer, left eye
H16073	Perforated corneal ulcer, bilateral
H16101	Unspecified superficial keratitis, right eye
H16102	Unspecified superficial keratitis, left eye
H16103	Unspecified superficial keratitis, bilateral
H16111	Macular keratitis, right eye
H16112	Macular keratitis, left eye
H16113	Macular keratitis, bilateral
H16121	Filamentary keratitis, right eye
H16122	Filamentary keratitis, left eye
H16123	Filamentary keratitis, bilateral
H16131	Photokeratitis, right eye
H16132	Photokeratitis, left eye
H16133	Photokeratitis, bilateral
H16141	Punctate keratitis, right eye
H16142	Punctate keratitis, left eye
H16143	Punctate keratitis, bilateral
H16201	Unspecified keratoconjunctivitis, right eye
H16202	Unspecified keratoconjunctivitis, left eye
H16203	Unspecified keratoconjunctivitis, bilateral
H16211	Exposure keratoconjunctivitis, right eye
H16212	Exposure keratoconjunctivitis, left eye
H16213	Exposure keratoconjunctivitis, bilateral
H16221	Keratoconjunctivitis sicca, not specified as Sjogren's, right eye
H16222	Keratoconjunctivitis sicca, not specified as Sjogren's, left eye

Diagnosis Code	Description
H16223	Keratoconjunctivitis sicca, not specified as Sjogren's, bilateral
H16231	Neurotrophic keratoconjunctivitis, right eye
H16232	Neurotrophic keratoconjunctivitis, left eye

H18733	Descemetocoele, bilateral
H18791	Other corneal deformities, right eye
H18792	Other corneal deformities, left eye
H18793	Other corneal deformities, bilateral
H18831	Recurrent erosion of cornea, right eye
H18832	Recurrent erosion of cornea, left eye
H18833	Recurrent erosion of cornea, bilateral
H52201	Unspecified astigmatism, right eye
H52202	Unspecified astigmatism, left eye
H52203	Unspecified astigmatism, bilateral
H52211	Irregular astigmatism, right eye
H52212	Irregular astigmatism, left eye
H52213	Irregular astigmatism, bilateral
L511	Stevens-Johnson syndrome
L512	Toxic epidermal necrolysis [Lyell]

Diagnosis Code	Description
L513	Stevens-Johnson syndrome-toxic epidermal necrolysis overlap syndrome
Q134	Other congenital corneal malformations
S0521XA	Ocular laceration and rupture with prolapse or loss of intraocular tissue, right eye, initial encounter
S0521XD	Ocular laceration and rupture with prolapse or loss of intraocular tissue, right eye, subsequent encounter
S0521XS	Ocular laceration and rupture with prolapse or loss of intraocular tissue, right eye, sequela
S0522XA	Ocular laceration and rupture with prolapse or loss of intraocular tissue, left eye, initial encounter
S0522XD	Ocular laceration and rupture with prolapse or loss of intraocular tissue, left eye, subsequent encounter
S0522XS	Ocular laceration and rupture with prolapse or loss of intraocular tissue, left eye, sequela
S0531XA	Ocular laceration without prolapse or loss of intraocular tissue, right eye, initial encounter
S0531XD	Ocular laceration without prolapse or loss of intraocular tissue, right eye, subsequent encounter
S0531XS	Ocular laceration without prolapse or loss of intraocular tissue, right eye, sequela
S0532XA	Ocular laceration without prolapse or loss of intraocular tissue, left eye, initial encounter
S0532XD	Ocular laceration without prolapse or loss of intraocular tissue, left eye, subsequent encounter
S0532XS	Ocular laceration without prolapse or loss of intraocular tissue, left eye, sequela
T2611XA	Burn of cornea and conjunctival sac, right eye, initial encounter
T2611XD	Burn of cornea and conjunctival sac, right eye, subsequent encounter
T2611XS	Burn of cornea and conjunctival sac, right eye, sequela
T2612XA	Burn of cornea and conjunctival sac, left eye, initial encounter
T2612XD	Burn of cornea and conjunctival sac, left eye, subsequent encounter
T2612XS	Burn of cornea and conjunctival sac, left eye, sequela
T2661XA	Corrosion of cornea and conjunctival sac, right eye, initial encounter
T2661XD	Corrosion of cornea and conjunctival sac, right eye, subsequent encounter
T2661XS	Corrosion of cornea and conjunctival sac, right eye, sequela
T2662XA	Corrosion of cornea and conjunctival sac, left eye, initial encounter
T2662XD	Corrosion of cornea and conjunctival sac, left eye, subsequent encounter
T2662XS	Corrosion of cornea and conjunctival sac, left eye, sequela
T85310A	Breakdown (mechanical) of prosthetic orbit of right eye, initial encounter
T85310D	Breakdown (mechanical) of prosthetic orbit of right eye, subsequent encounter
T85310S	Breakdown (mechanical) of prosthetic orbit of right eye, sequela
T85311A	Breakdown (mechanical) of prosthetic orbit of left eye, initial encounter
T85311D	Breakdown (mechanical) of prosthetic orbit of left eye, subsequent encounter
T85311S	Breakdown (mechanical) of prosthetic orbit of left eye, sequela

Diagnosis Code	Description
T85318A	Breakdown (mechanical) of other ocular prosthetic devices, implants and grafts, initial encounter
T85318D	Breakdown (mechanical) of other ocular prosthetic devices, implants and grafts, subsequent encounter
T85318S	Breakdown (mechanical) of other ocular prosthetic devices, implants and grafts, sequela
T85320A	Displacement of prosthetic orbit of right eye, initial encounter
T85320D	Displacement of prosthetic orbit of right eye, subsequent encounter
T85320S	Displacement of prosthetic orbit of right eye, sequela
T85321A	Displacement of prosthetic orbit of left eye, initial encounter
T85321D	Displacement of prosthetic orbit of left eye, subsequent encounter
T85321S	Displacement of prosthetic orbit of left eye, sequela
T85328A	Displacement of other ocular prosthetic devices, implants and grafts, initial encounter
T85328D	Displacement of other ocular prosthetic devices, implants and grafts, subsequent encounter
T85328S	Displacement of other ocular prosthetic devices, implants and grafts, sequela
T85390A	Other mechanical complication of prosthetic orbit of right eye, initial encounter
T85390D	Other mechanical complication of prosthetic orbit of right eye, subsequent encounter
T85390S	Other mechanical complication of prosthetic orbit of right eye, sequela
T85391A	Other mechanical complication of prosthetic orbit of left eye, initial encounter
T85391D	Other mechanical complication of prosthetic orbit of left eye, subsequent encounter
T85391S	Other mechanical complication of prosthetic orbit of left eye, sequela
T85398A	Other mechanical complication of other ocular prosthetic devices, implants and grafts, initial encounter
T85398D	Other mechanical complication of other ocular prosthetic devices, implants and grafts, subsequent encounter
T85398S	Other mechanical complication of other ocular prosthetic devices, implants and grafts, sequela
Z48810	Encounter for surgical aftercare following surgery on the sense organs
Z947	Corneal transplant status
Z9841	Cataract extraction status, right eye
Z9842	Cataract extraction status, left eye
Z9849	Cataract extraction status, unspecified eye
Z9883	Filtering (vitreous) bleb after glaucoma surgery status

Corneal topography may be reimbursed on the same date of service by the same provider as a medical eye exam or simple refraction (procedure codes 92002, 92004, 92012, 92014, or 92015).

40.2.3.4 Sensorimotor Examination

Sensorimotor examinations (procedure code 92060) may be reimbursed in addition to a medical eye examination or simple refraction.

Sensorimotor examination is limited to once per day and two per calendar year by any provider.

40.2.3.5 Orthoptic or Pleoptic Training

Orthoptic or pleoptic training (procedure code 92065) may be reimbursed in addition to a medical eye examination visit.

Orthoptic or pleoptic training is limited to once per day and 36 per year by any provider.

40.2.3.6 Ophthalmoscopy

Ophthalmoscopy may be reimbursed to providers using the following procedure codes:

Procedure Codes							
92225	92226	92230	92235	92240	92242	92250	92260

Ophthalmoscopy, fluorescein angiography, indocyanin-green angiography, and fluorescein angiography (procedure codes 92225, 92226, 92230, 92235, 92240, and 92242) may be reimbursed for a quantity of two if both the left and right eyes are evaluated. Modifiers LT and RT must be included on the claim to identify the eye on which the service was performed.

Ophthalmoscopy, fluorescein angiography, indocyanin-green angiography, and fluorescein angiography (procedure codes 92225, 92226, 92230, 92235, 92240, and 92242) are limited to one service per eye per day and two services per eye per calendar year by any provider.

Fundus photography (procedure code 92250) and ophthalmodynamometry (procedure code 92260) are limited to one service per day and two services per calendar year by any provider.

40.2.3.7 Ocular Viewing and Diagnostic Testing Procedures

Ophthalmologists and optometrists may submit the following procedure codes for the reimbursement of ocular viewing and diagnostic testing:

Ocular Viewing and Diagnostic Testing Procedure Codes									
92020	92081	92082	92083	92100	92132	92133	92134	92136	92227
92228	92265	92270	92275	92285	92286	92287			

Gonioscopy (procedure code 92020) is limited to two services per calendar year by any provider.

Visual field examinations (procedure codes 92081, 92082, 92083), serial tonometry (procedure code 92100), scanning computerized ophthalmic diagnostic imaging (procedure codes 92132, 92133, and 92134) are limited to one service per day and two services per calendar year by any provider.

Ophthalmic biometry (procedure code 92136) is limited to two services per eye per calendar year by any provider.

Procedure code 92136 may be reimbursed as follows:

- The professional component must be billed with modifier LT or RT to identify the eye on which the service was performed.
- The technical component may be reimbursed when one or both eyes are performed on the same date of service by any provider.
- The total component may be reimbursed with an additional professional service when both eyes are performed on the same date of service by any provider.

Procedure codes 92227 and 92228 are limited to two services per calendar year by any provider.

Procedure codes 92265, 92270, 92275, 92285, 92286, and 92287 are limited to one service per day and two services per calendar year when billed by any provider.

40.3 Claims Information

The repair or replacement of lost or destroyed eyeglass frames, eyeglass lenses, or contact lenses outside of their normal replacement schedule will be allowed only if the RB modifier is submitted with the appropriate procedure codes.

Eyewear for a diagnosis of aphakia must be billed with modifier VP.

The MSRP must be submitted for the consideration of the purchase of high-powered and aphakic lenses with the appropriate procedure codes.

Opticians enrolled as a facility must submit claims with their provider identifier in both the billing provider field (Block 33 on a paper claim or the electronic equivalent) and in the performing provider field (Block 24J on a paper claim or the electronic equivalent.)

Vision services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.

The HCPCS/CPT codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the [Centers for Medicare & Medicaid Services \(CMS\) NCCI web page](#) for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, "TMHP Electronic Data Interchange (EDI)" for information about electronic claims submissions.

Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for general information about claims filing.

Section 5.7.2.4, "CMS-1500 Paper Claim Form Instructions" in Chapter 5, "Claims Filing, Third-Party Resources, and Reimbursement" for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

40.4 Reimbursement

Contact lenses, frames, and eyeglass lenses, except for high-power and aphakic lenses, may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid. High-powered lenses and lenses for aphakia are manually priced. Manually-priced items are reimbursed at the retail price minus a discount as determined by the CSHCN Services Program rule. An invoice that shows the actual MSRP must be filed with every claim of this type.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled "Adjusted Fee" to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/pages/topics/rates.aspx.

Note: *Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.*

40.5 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

41.1 TMHP EDI Overview

Providers can submit claims and other requests using paper forms or faster electronic methods. Providers are encouraged to submit claims and other requests electronically. Providers can participate in the most efficient and effective method of submitting requests to TMHP by submitting through the TMHP EDI Gateway. TMHP uses the *Health Insurance Portability and Accountability Act* (HIPAA)-compliant American National Standards Institute or ANSI X12 5010 (if provider has passed 5010 testing) file format through secure socket layer (SSL) and virtual private networking (VPN) connections for maximum security. Providers can access TMHP's electronic services through the TMHP website.

41.2 Advantages of Electronic Services

It's fast. No more waiting by the mailbox or making telephone inquiries; know what's happening to claims in less than 24 hours and receive reimbursement for approved claims within a week. TexMedConnect users can submit individual requests interactively and receive a response immediately.

It's free. All electronic services offered by TMHP are free, including TexMedConnect and its technical support and training.

It's easy. TMHP offers computer-based training (CBT) for TexMedConnect, CSHCN Services Program, and many other topics, as well as a large library of reference materials and manuals on the TMHP website at www.tmhp.com.

It's safe. TMHP EDI services use VPN and SSL connections, just like the U.S. government, banks, and other financial institutions, for maximum security.

It's accurate. TexMedConnect and most third-party vendor software have features that let providers know when they've made a mistake, which means fewer rejected and denied claims. Rejected claims are returned with messages that explain what's wrong, so the claim can be corrected and resubmitted right away. Denied claims appear on the provider's Remittance and Status (R&S) Report along with paid and pending claims.

It's there when it's needed. Electronic services are available day and night; from home, the office, or anywhere in the world.

It makes record keeping and research easy. Not only can TexMedConnect be used to send and receive claims, it can retrieve Electronic Remittance and Status (ER&S) reports, perform claim status inquiries, verify client eligibility, and archive claims. TexMedConnect can generate and print reports on everything it sends, receives, and archives.

41.2.1 Getting Help

Contact the TMHP EDI Help Desk at 1-888-863-3638, which is available Monday through Friday, from 7 a.m. to 7 p.m., Central Time, or visit the TMHP website at www.tmhp.com for more information about EDI services.

The TMHP EDI Help Desk does not provide training or help with billing questions. Providers should contact the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 for billing and training questions. Information about provider education opportunities is available on the TMHP website at www.tmhp.com/Pages/Education/Ed_Home.aspx.

41.2.2 Electronic Services Available

The services available through EDI are:

- Eligibility verification (EV)
- Claims submission
- Claim status inquiry (CSI)
- ER&S reports

- Appeals (also known as correction and resubmission)

41.3 Electronic Billing

Providers that want to transition from paper billing to electronic billing should decide how they will submit their claims to TMHP. Providers can use TexMedConnect or vendor software to submit files directly to TMHP or they may use a billing agent (i.e., billing companies or clearinghouses) that submits files on the provider's behalf.

The previously announced dual strategy for EDI claims submissions is now in effect.

Trading partners that have passed ANSI X12 version 5010 testing may submit ANSI X12 version 5010 files.

TMHP no longer accepts ANSI X12 version 4010 files. Effective April 1, 2012, electronic claims that are submitted by providers that are not both compliant and certified will not be accepted by TMHP, and, as a result, will not be adjudicated or paid by the CSHCN Services Program.

It is the responsibility of providers to ensure that their method of submitting electronic claims is both EDI compliant and certified by TMHP.

Note: All CSHCN Services Program electronic claims must include the appropriate benefit code as follows:

- DM3 for CSHCN Services Program home health durable medical equipment (DME) services
- CSN for all other CSHCN Services Program services

TexMedConnect provides a drop-down box that allows the submitter to choose the appropriate combination of provider numbers and benefit code. For CSHCN Services Program submissions, providers must choose the appropriate combination that includes either the CSN or DM3 benefit code.

Providers that use other vendor software must add the appropriate CSHCN Services Program benefit code (i.e., CSN or DM3) in the appropriate field as designated by the software.

41.3.1 Step 1—Choose How Claims Are Submitted

41.3.1.1 TexMedConnect

TexMedConnect is a free, web-based, claims submission application provided by TMHP. Technical support and training for TexMedConnect are also available free from TMHP. Providers can submit claims, eligibility requests, claim status inquiries, appeals, and download ER&S reports (in either PDF or ANSI 835 formats) using TexMedConnect. TexMedConnect can interactively submit individual claims that are processed in seconds. To use TexMedConnect, providers must have Internet access and one of the following Internet browsers:

- Microsoft® Internet Explorer®
- Google Chrome®
- Mozilla Firefox®

Although many TexMedConnect features will work with earlier versions of Microsoft Internet Explorer, TMHP only offers technical support for TexMedConnect when used with Microsoft Internet Explorer 11. A broadband connection is recommended but not required. Providers that use TexMedConnect can find the online instruction manual on the homepage and on the EDI page of the TMHP website at www.tmhp.com.

41.3.1.2 Vendor Software

Providers that do not use TexMedConnect must use vendor software to create, submit, and retrieve data files. Providers can use software from any vendor listed in the [Completed Testing](#) link, which is located on the EDI page of the TMHP website at www.tmhp.com. There are hundreds of software vendors with

a wide assortment of services that have been approved to submit electronic files to TMHP. Providers that plan to access TMHP's electronic services with vendor software should contact the vendor for the details of their software requirements. TMHP does not make vendor recommendations or provide any assistance for vendor software. Not all vendor software offers the same features or levels of support. Providers are encouraged to research their software thoroughly to make certain that it meets their needs and that it has completed testing and have been certified by TMHP.

Note: Software vendors should refer to Section 41.6, "Third-Party Vendor Implementation" in this chapter

41.3.1.3 Third-Party Billing Agents

Billing agents are companies or individuals that submit electronic files to TMHP on behalf of the provider. Generally, this means that the provider uses a product that sends billing or other information to the billing agent that processes it and then transmits it to TMHP and other institutions. TMHP has no information on the software or other requirements of billing agents. Providers should contact the billing agent to obtain information about their products and processes. A complete list of billing agents that have completed the testing process and been certified by TMHP can be found on the [Completed Testing](#) link, which is located on the EDI page of the TMHP website at www.tmhp.com. TMHP does not make billing agent recommendations or provide any assistance for billing agent's software or services.

41.3.1.4 Automated Maintenance Process for All Electronic Submitters

All electronic submitters are responsible for the maintenance of their submitter folders. Folders are limited to 7,500 files and cannot contain files older than 30 days. Files that exceed these limits are systematically archived on a daily basis. Providers should review, retrieve, and backup their electronic response files regularly.

Providers must pay a fee for transmission reports that are produced after the 30-day period or as a result of the systematic archive of files over the 7,500 limit. File submitted using EDI version 5010 are limited to a maximum 5,000 transactions per file. Files that have more than 5,000 files will be rejected.

Referto: Section 41.4, "Request for Electronic Transmission Reports" in this chapter.

41.3.2 Step 2—Gaining Access

Providers must setup their software or billing agent services to access the TMHP EDI Gateway. Providers that use billing agents or software vendors should contact those organizations for information on installation, settings, maintenance, and their processes and procedures for exchanging electronic data.

Providers that download the ANSI 835 file through TexMedConnect and providers that use vendor software must request a submitter ID. A submitter ID is necessary for vendor software to access TMHP's electronic services. It serves as an electronic mailbox for the provider and TMHP to exchange data files. To order a submitter ID, providers must call the EDI Help Desk at 1-888-863-3638, which is available Monday through Friday, from 7 a.m. to 7 p.m., Central Time. Providers that use a billing agent do not need a submitter ID. Providers that use TexMedConnect can access the online instruction manual on the EDI webpage of the TMHP website at www.tmhp.com.

41.3.3 Step 3—Training

Providers should contact the TMHP-CSHCN Contact Center at 1-800-568-2413 for assistance with resolving billing issues. Information about training opportunities is available on the TMHP website at www.tmhp.com/Pages/Education/Ed_Home.aspx. Providers may also use the many reference materials available on the website in the reference materials section.

Referto: Section 1.2.1, "Publications" in Chapter 1, "TMHP and HHSC Contact Information."

The TMHP EDI Help Desk provides technical assistance, but does not provide training.

41.4 Request for Electronic Transmission Reports

Providers are required to retain all claim and electronic file transmission records. Providers must verify that all claims submitted to the CSHCN Services Program or its agent are received and accepted. Providers must also track claims submissions against their claims payments to detect and correct all claim errors.

Referto: Section 2.3, “Provider Responsibilities” in Chapter 2, “Provider Enrollment and Responsibilities” for more information about provider responsibilities and electronic submissions.

When an electronic file transmission record is missing, providers can request copies of the transmission report by contacting the TMHP EDI Help Desk at 1-888-863-3638 and requesting that the electronic transmission report file be reset. The TMHP EDI Help Desk will then reset the file for the production submitter ID provided. Requests for transmission reports that were produced in the previous 30 days are provided at no cost to providers. Requests for transmission reports that were produced more than 30 days before the request cost \$500 plus the 8.25 percent sales tax of \$41.25, which is a total of \$541.25. Providers that hold a tax-exempt certificate are not assessed sales tax. This cost is per transmission report.

41.5 Provider Check Amounts Available Online

Acute care providers can search, view, and print all payment amounts that were issued during the previous year by going to the TMHP website at www.tmhp.com.

The features of the online check amount include:

- The ability to search information up to 1 year before the date of the search.
- All results are displayed on a single screen.
- All results can be printed on a single report.

The 52 weeks of reimbursement payment information includes the:

- Payment date
- Payee name
- Payment amount
- Program for which payment was issued
- Hold amount
- Payment status

Providers must have or must create a Provider Administrator account to view their payment amounts online. Providers can then grant “View Payment Amounts” security permission to the office staff of their choice. Providers can access their check amounts by clicking **My Account** and then **View Payment Amounts**.

Provider check amounts will continue to be available through the Automated Inquiry System (AIS) telephone line and on Electronic Remittance and Status (ER&S) Reports.

41.6 Third-Party Vendor Implementation

TMHP requires all software vendors and billing agents to complete EDI testing before granting access to the production server. Vendors that wish to begin testing may either call the EDI Help Desk at 1-888-863-3638 or visit the EDIFECs testing site at <https://editesting.tmhp.com> and use the *TMHP Support* link. An EDIFECs account is created for the vendor to begin testing EDI formats. After the successful completion of EDIFECs testing and the submission of a Trading Partner Agreement, vendors must complete end-to-end testing on the TMHP test server. Software vendors and billing agents must

be partnered with at least one Texas provider before a test submitter ID can be issued. When end-to-end testing has been completed, the billing organization or agent is added to the EDI Submitter List. Providers and billing agents may then order production submitter IDs for use with the vendor software.

41.6.1 EDI Version 5010 Claims Response and Electronic Remittance & Status (R&S) Files

41.6.1.1 Batch ID Included in Filename for 227CA Claims Response File

The Batch ID (BID) is located in the file name of the returned 227CA response. The 227CA claims response file does not include the batch ID within the file.

Note: When calling the EDI helpdesk for assistance, providers should have the 227CA filename available so the EDI Helpdesk can provide assistance.

41.6.1.2 Setting up the 835 File (ER&S)

After completing the EDI 5010 testing and certification process, providers need to submit a request to establish their ER&S report for their new submitter ID. Acute care providers must submit the Electronic Remittance and Status (ER&S) Agreement, which is available on the TMHP website at www.tmhp.com. Providers should fax the completed forms to (512) 506-7808. The process for setting up the ER&S report for EDI 5010 depends upon the designated recipient.

41.6.1.3 Trading Partners Who Submit 837 Files and Receive 835 Files

The trading partner must complete the appropriate 835 form and submit it to TMHP.

The 835 form must contain the trading partner’s EDI 5010 submitter ID and Texas Provider Identifier (TPI).

41.6.1.4 Trading Partners Who Have a Clearinghouse or Third Party Submit Their Claims but Receive Their Own 835 Files

Each provider that uses a clearinghouse or third-party biller to submit claims must submit their own updated 835 form. A clearinghouse or third-party biller may not submit 835 forms on behalf of the trading partners for which it submits claims.

To be able to receive 835 files directly, providers must first request an EDI 5010 submitter ID to be used for accessing their 835 files. After the EDI 5010 submitter ID is received, providers must complete the appropriate 835 form and submit it to TMHP.

The 835 form must contain the provider’s EDI 5010 submitter ID and TPI.

41.6.1.5 Clearinghouses or Third-Party Billers That Submit Transactions and Receive the 835 Files on Behalf of Trading Partners

Each provider that uses a clearinghouse or third-party biller to submit claims must submit their own updated 835 form. Even if a clearinghouse or third-party biller receives 835 files for its trading partners, it may not submit 835 forms on behalf of the trading partner for which it submits claims.

The 835 form must contain the clearinghouse or third-party biller’s EDI 5010 submitter ID and the provider’s TPI.

41.7 Supported File Types

TMHP EDI supports the following electronic HIPAA-compliant ANSI ASC X12 5010 transaction types:

Electronic Transaction Types	
270	Eligibility request
271	Eligibility response

Electronic Transaction Types	
276	Claim status inquiry
277	Claim status inquiry response
835	ER&S report
837D	Dental claims
837I	Institutional claims
837P	Professional claims

41.8 Forms

The following forms are available on the TMHP website:

- [Claim Status Inquiry \(CSI\) Authorization](#)
- [Electronic Funds Transfer \(EFT\) Notification](#)

Note: Photocopy these forms and retain the originals for reuse. Forms are also available at www.tmhp.com.

Referto: Section 5.8, “Reimbursement” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement.”

41.9 TMHP-CSHCN Services Program Contact Center

The TMHP-CSHCN Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.

APPENDIX A: ACRONYMS AND INITIALISMS DICTIONARY

CSHCN SERVICES PROGRAM PROVIDER MANUAL

JULY 2017

A.1 Acronym Dictionary

Term	Definition
A/R	Accounts Receivable
AAP	American Academy of Pediatrics
ACA	Affordable Care Act of 2010
ACD	Augmentative Communication Device
ACIP	Advisory Committee on Immunization Practices
ACSW	Academy of Certified Social Workers
AFP	Abdominal Flat Plates
AIDS	Acquired Immunodeficiency Syndrome
AIS	Automated Inquiry System
ALL	Acute Lymphoblastic Leukemia
AMA	American Medical Association
ANSI	American National Standards Institute
APN	Advanced Practice Nurse (former name for APRN)
APRN	Advanced Practice Registered Nurse
ASA	American Society of Anesthesiologists
ASBMT	American Society for Blood and Marrow Transplantation
ASC	Ambulatory Surgical Center
ATP	Assistive Technology Professional
AWP	Average Wholesale Price
BCBS	Blue Cross Blue Shield
BCG	Bacille Calmette-Guérin
BiPAP	Bi-level Positive Airway Pressure
BON	(Texas) Board of Nursing
BSSW	Bachelor of Science in Social Work
CAPD	Continuous Ambulatory Peritoneal Dialysis
CBC	Complete Blood Count
C/C	Cleft/Craniofacial
CCP	Comprehensive Care Program
CCPD	Continuous Cycling Peritoneal Dialysis
CDT	Current Dental Terminology
CHIP	Children's Health Insurance Program
CLIA	<i>Clinical Laboratory Improvement Amendments</i>
CML	Chronic Myelogenous Leukemia
CMS	Centers for Medicare & Medicaid Services (formerly HCFA)
CNS	Clinical Nurse Specialist
CPAP	Continuous Positive Airway Pressure
CPR	Cardiopulmonary Resuscitation
CPT	Current Procedural Terminology
CRCP	Certified Respiratory Care Practitioner

Term	Definition
CRNA	Certified Registered Nurse Anesthetist
CSHCN	Children with Special Health Care Needs
CSI	Claim Status Inquiry
CT	Computed Tomography
CVA	Cerebrovascular Accident
DARS	Department of Assistive and Rehabilitative Services
DDS	Doctor of Dental Surgery
DEFRA	<i>Deficit Reduction Act of 1984</i>
DMD	Doctor of Dental Medicine
DME	Durable Medical Equipment
DO	Doctor of Osteopathy
DOB	Date of Birth
DOS	Date of Service
DPM	Doctor of Podiatric Medicine
DRG	Diagnosis-Related Group
DSHS	Department of State Health Services
DSM-IV-TR	<i>Diagnostic and Statistical Manual of Mental Disorders, Fourth Edition, Text Revision</i>
E/M	Evaluation and Management (Services)
ECG	Electrocardiogram
EDI	Electronic Data Interchange
EEG	Electroencephalogram
EFT	Electronic Funds Transfer
EMG	Electromyography
EMTALA	<i>Emergency Medical Treatment and Labor Act</i>
EOB	Explanation of Benefits
EOG	Electro-oculogram
EOPS	Explanation of Pending Status
EPO	Erythropoietin Alfa
EPSDT	Early Periodic Screening, Diagnosis, and Treatment
ER&S	Electronic Remittance and Status report
ESWL	Extracorporeal Shock Wave Lithotripsy
EV	Eligibility Verification
fMRI	Functional Magnetic Resonance Imaging
FNP	Family Nurse Practitioner
FQHC	Federally Qualified Health Center
FSS	Family Support Services
FYE	Fiscal Year End
HASC	Hospital-based Ambulatory Surgical Center
HBOT	Hyperbaric Oxygen Therapy
HCPCS	Healthcare Common Procedure Coding System

Term	Definition
HCSSA	Home and Community Services Support Agency
HFCWCS	High Frequency Chest Wall Compression Systems
HHA	Home Health Agency
HHS	Health and Human Services
HHSC	Health and Human Services Commission
HIPAA	<i>Health Insurance Portability and Accountability Act</i>
HIV	Human Immunodeficiency Virus
HKAFO	Hip-Knee-Ankle-Foot Orthotics
HLA	Human Leukocyte Antigen
HMO	Health Maintenance Organization
HO	Hip Orthotics
ICD-9-CM	<i>International Classification of Diseases, Ninth Revision, Clinical Modification</i>
ICD-10-CM	<i>International Classification of Diseases, Tenth Revision, Clinical Modification</i>
ICD-10-PCS	<i>International Classification of Diseases, Tenth Revision, Procedure Coding System</i>
ICF	Intermediate Care Facility (refer to <i>also SNF</i>)
ICF/IID	Intermediate Care Facility for Individuals with Intellectual Disabilities
ICN	Internal Control Number (as in, 24-digit ICN) assigned to a specific claim
ID	Intradermal
IM	Intramuscular
iMRI	Intraoperative Magnetic Resonance Imaging
IOL	Intraocular Lens
IPD	Intermittent Peritoneal Dialysis
IPPA	Insurance Premium Payment Assistance
IPPB	Intermittent Positive Pressure Breathing
IPV	Intrapulmonary Percussive Ventilation
IRS	Internal Revenue Service
IV	Intravenous
JRA	Juvenile Rheumatoid Arthritis
KAFO	Knee-Ankle-Foot Orthotics
KO	Knee Orthotics
KUB	Kidneys, Ureters, and Bladder
LBSW	Licensed Baccalaureate Social Worker
LCSW	Licensed Clinical Social Worker
LDL	Low Density Lipoprotein
LMFT	Licensed Marriage and Family Therapist
LMSW	Licensed Master Social Worker
LMSW-AP	Licensed Master Social Worker-Advanced Practitioner
LPC	Licensed Professional Counselor
LVN	Licensed Vocational Nurse
MD	Doctor of Medicine

Term	Definition
MMIS	Medicaid Management Information System
MNC	Medically Needy Clearinghouse
MNP	Medically Needy Program
MPH	Master of Public Health
MRA	Magnetic Resonance Angiography
MRI	Magnetic Resonance Imaging
MSRP	Manufacturers Suggested Retail Price
MSSW	Master of Science in Social Work
MSUD	Maple Syrup Urine Disease (also called branched-chain ketoaciduria)
MSW	Master of Social Work
MTP	Medical Transportation Program
NCCI	National Correct Coding Initiative
NDC	National Drug Code
NOS	Not Otherwise Specified
NP	Nurse Practitioner
NPI	National Provider Identifier
OI	Other Insurance
OMT	Osteopathic Manipulation Treatment
OT	Occupational Therapy, Occupational Therapist
PACT	Program for Amplification for Children of Texas (Hearing Aids/Services)
PAF	Physician/Dentist Assessment Form
PAN	Prior Authorization Number
PCN	Patient Control Number
PDA	Personal Digital Assistant
PDF	Portable Document Format
PET	Positron Emission Tomography (PET scan)
PKU	Phenylketonuria
PNP	Pediatric Nurse Practitioner
POC	Plan of Care
POS	Place of Service
PPMP	Physician-Performed Microscopy Procedures
PPO	Preferred Provider Organization
PT	Physical Therapy, Physical Therapist
RAST	Radioallergosorbent Test
RBRVS	Resource-Based Relative Value Scale
RESNA	Rehabilitation Engineering and Assistive Technology Society of North America
RGO	Reciprocating Gait Orthosis
RHC	Rural Health Clinic
RN	Registered Nurse
RSV	Respiratory Syncytial Virus

Term	Definition
RVU	Relative Value Unit
SC	Subcutaneous
SID	Surface Identification
SLP	Speech-Language Pathology/Speech-Language Pathologist
SNF	Skilled Nursing Facility (refer to <i>also</i> ICF)
SO	Spinal Orthotics
SSL	Secure Socket Layer
TAC	<i>Texas Administrative Code</i>
TANF	Temporary Assistance to Needy Families (formerly AFDC)
TEFRA	<i>Tax Equity and Fiscal Responsibility Act of 1982</i>
TENS	Transcutaneous Electric Nerve Stimulator
THKAO	Thoracic-Hip-Knee-Ankle Orthotics
THSteps	Texas Health Steps (Texas name for EPSDT)
THSteps-CCP	Texas Health Steps Comprehensive Care Program (Texas name for EPSDT-CCP) (now called CCP)
TMHP	Texas Medicaid & Healthcare Partnership
TMRM	Texas Medicaid Reimbursement Methodology
TOB	Type of Bill
TOS	Type of Service
TPI	Texas Provider Identifier
TPN	Total Parenteral Nutrition (i.e., Hyperalimentation)
TPR	Third-Party Resource
TSBDE	Texas State Board of Dental Examiners
TVFC	Texas Vaccines for Children
UB-04	Uniform Bill 04 CMS-1450
UCB	University of California at Berkeley
VDP	Vendor Drug Program
VIPS	Voice Inquiry Processing System
VPN	Virtual Private Networking
