40.1 Enrollment

To enroll in the CSHCN Services Program, ophthalmologists, optometrists, and opticians are required to be actively enrolled in Texas Medicaid. They must have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Optometrists, ophthalmologists, and opticians may enroll either as an individual or as a group with performing providers. Opticians may also enroll as a facility. Out-of-state ophthalmologist, optometrists, and optician providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border.

Important: CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in Title 25 Texas Administrative Code (TAC) Chapter 38, but also with knowledge of the adopted Medicaid agency rules published in 1 TAC, Part 15, and specifically including the fraud and abuse provisions contained in Chapter 371.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 25 TAC §38.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his/her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Refer to: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

40.2 Benefits, Limitations, and Authorization Requirements

Vision related services are a benefit of the CSHCN Services Program. The CSHCN Services Program may consider the following services for reimbursement:

- Vision eye exams with refraction
- Other eye exams for medical reasons
- Medical eye treatments
- Frames
- Lenses
- Contact lenses
- High-power lenses
- Scleral lenses
- Repair and replacement of frames and lenses
- Other medically necessary vision services
The following services are not benefits of the CSHCN Services Program:

- Eyeglasses that do not significantly improve visual acuity or that do not impede the progression of visual problems
- Plano sunglasses
- Optional eyeglass features that are requested by the client but that do not increase visual acuity, such as tinting, decorative accessories or lettering, or eyeglass cases
- Polarization of lenses
- Extended color vision examination
- Dark adaptation examination
- Vision screening
- Contact lenses that correct color vision deficiency
- Services and procedures that are investigational or experimental
- Low vision aids

Note: Clients in need of low vision aids may be referred to the Texas Health and Human Services Commission (HHSC) Division for Blind Services (DBS) for consideration of coverage.

Vision services are a benefit when provided by ophthalmologists, optometrists, and opticians practicing according to standards established by their licensing boards and the state laws of Texas.

40.2.1 Frames, Lenses, and Contact Lenses

40.2.1.1 Frames

Providers must offer frames that meet the following criteria:

- A choice of at least three styles that are appropriate to the client’s age or gender
- Frames in sizes that are appropriate to the client’s needs
- A choice of at least three colors

Dispensing of eyeglasses includes the design, verification, fitting, adjustment, sale, and delivery to the client of fabricated and finished spectacle lenses, frames, or other ophthalmic devices prescribed by and dispensed in accordance with a prescription from a licensed physician or optometrist.

Frames must be composed of all zylonite components, meet statutory quality standards, and be made of new materials. Clients or families may only choose frames that are metal or a combination of zylonite and metal if they are willing to pay the difference between the CSHCN Services Program’s reimbursement for frames and the cost of metal or metal and zylonite frames.

Providers may submit procedure codes V2020 and V2025 for the reimbursement of eyeglass frames.

40.2.1.2 Eyeglass Lenses

Lenses must meet the American National Standards Institute (ANSI) specifications (see www.ansi.org) for first quality prescription ophthalmic lenses, including, but not limited to, the following:

- Lenses must be made of clear glass or plastic.
- Lenses must be composed of new materials.
- Bifocals must be flat-tops or an equivalent style with a near segment of at least 25 mm width.
- Trifocals must be flat-tops or an equivalent style with an intermediate segment of at least 7 X 25 mm.
Providers may submit the following procedure codes for the reimbursement of eyeglass lenses. Providers must bill with a quantity of two when billing for bilateral lenses with the same prescription.

### Single Vision Lenses Procedure Codes

<table>

#### 40.2.1.3 Special Eyeglass Lenses

Special lenses, such as high-index, polycarbonate, and high-powered lenses, are a benefit of the CSHCN Services Program if they are ordered by the treating physician because they are medically necessary and not solely because of a client’s preference.

- High-power lenses have a sphere greater than 7.00 diopters or a cylinder greater than 4.00 diopters.
- High-index lenses allow lighter-weight lenses for clients who have unusually heavy lenses.
- Polycarbonate lenses are considered the standard for children’s eyewear because polycarbonate provides extra strength, flexibility, and inherent UV protection.

Ophthalmologists, optometrists, and opticians may submit the following procedure codes for the reimbursement of special eyeglass lenses:

### High-Power Lenses Procedure Codes

<table>
<thead>
<tr>
<th>V2102</th>
<th>V2105</th>
<th>V2106</th>
<th>V2109</th>
<th>V2110</th>
<th>V2111</th>
<th>V2112</th>
<th>V2113</th>
<th>V2114</th>
<th>V2202</th>
</tr>
</thead>
<tbody>
<tr>
<td>V2205</td>
<td>V2206</td>
<td>V2209</td>
<td>V2210</td>
<td>V2211</td>
<td>V2212</td>

<td>V2311</td>
<td>V2312</td>
<td>V2313</td>
<td>V2314</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The following procedure codes will not be reimbursed unless billed with the appropriate lens procedure code by the same provider for the same date of service:

### Procedure Codes for Add-On Lenses

<table>
<thead>
<tr>
<th>V2410</th>
<th>V2430</th>
<th>V2715</th>
<th>V2755</th>
<th>V2784</th>
</tr>
</thead>
</table>

Procedure codes V2410, V2430, V2715, V2755, and V2784 will not be reimbursed unless they are billed with the appropriate lens procedure code by the same provider for the same date of service.

Ultraviolet (UV) lenses (procedure code V2755) may be reimbursed when billed with a diagnosis of aphakia. UV lenses will be denied when billed for the same date of service as polycarbonate lenses (procedure code V2784).

#### 40.2.1.4 Contact Lenses

Dispensing of contact lenses includes the fabrication, ordering, adjustment, dispensing, sale, and delivery to the client of the contact lenses prescribed by and dispensed in accordance with a prescription from a licensed physician or optometrist.
Contact lenses that are made of hydrophilic and rigid materials are a benefit of the CSHCN Services Program.

- Hydrophilic contact lenses that have been reviewed by the U.S. Food and Drug Administration (FDA) and released for sale in the U.S. will be considered for reimbursement only for those uses for which they have been reviewed.
- Hard and gas permeable lenses must conform to the ANSI requirements for first quality contact lenses.

Examinations for contact lens prescriptions and fittings include:

- The specific optical and physical characteristics of the contact lens including power, size, curvature, flexibility, and gas-permeability.
- Medically necessary tests including multiple ophthalmometry, measurement of tear flow, measurement of ocular adnexa, and initial tolerance evaluation.
- The instruction and training of the client and incidental revision during the training period.
- Follow-up care for a period of six months.

Fitting and modification of contact lenses may be reimbursed to providers using the following procedure codes:

Contact Lens Fitting Exam Procedure Codes

<table>
<thead>

</tbody>
</table>

Scleral lenses that are prescribed as a liquid bandage must be billed using procedure code S0515. Scleral lenses that are used therapeutically in other ways should be billed using procedure code V2530 or V2531. Reimbursement for scleral lenses requires authorization.
**Referto:** Section 40.2.1.6.2, “Scleral Lenses and Liquid Bandages” in this chapter for detailed information on prior authorization requirements

Providers may bill for the replacement of contact lenses under current prescription due to damage or loss using procedure code 92326 with one of the diagnosis codes above.

If disposable contact lenses are deemed medically necessary and are prior-authorized, procedure code V2599 must be used to bill for their reimbursement.

### 40.2.1.4.1 Contact Fitting for Corneal Bandage Lens

The fitting of contact lenses for corneal bandages may be reimbursed using procedure codes 92071 and 92072.

Procedure code 92071 may be reimbursed for one service per day, each eye, any provider and must be billed with modifier LT or RT. If both eyes are billed for the same date of service, one procedure may be reimbursed at the full rate and the second procedure may be reimbursed at half rate.

Procedure code 92072 may be reimbursed for one service per day when billed by the same provider when one or both eyes are fitted for keratoconus lenses.

**Note:** Follow-up visits should be billed separately using the most appropriate office visit code.

### 40.2.1.5 Eye Wear

The CSHCN Services Program will consider one form of eyewear for reimbursement per calendar year.

If a client wants frames or lenses that exceed the benefit limitations, the client must pay the difference between the amount allowed by the CSHCN Services Program and the actual cost. CSHCN Services Program clients or their parents or guardians must acknowledge that their choice exceeds the program requirements by signing the CSHCN Services Program Vision Care Eyeglass Client Certification Form.

**Referto:** Vision Care Eyeglass Client Certificate Form (English) on the TMHP website at www.tmhp.com.

**Referto:** Vision Care Eyeglass Client Certificate Form (Spanish) on the TMHP website at www.tmhp.com.

Providers must maintain a copy of this signed form in the client’s medical record. The provider may withhold the noncovered eyewear until the client pays the difference. If the client fails to pay for the noncovered items within three months, the provider may return any reusable items to stock. Any payment made by the CSHCN Services Program must be refunded to the CSHCN Services Program.

More than one pair of eyeglasses may be authorized if there is a change in lens power that is generally equal to or greater than 0.5 diopters in either eye (e.g., progressive myopia, cataract development).

Providers may be reimbursed for custom-made eyewear based on the services that were performed and the materials that were used until the time the provider received a notice of cancellation for the eyewear (because the client has died or because the prescription changed before the eyewear was completed and delivered). This applies only to custom items. Items not made to order for a specific client will be denied.

One pair of contact lenses and one contact lens prescription and fitting may be covered in a calendar year for a payable diagnosis listed in the table above in Section 40.2.1.4, “Contact Lenses” in this chapter. Additional contact lenses and contact lens prescriptions and fittings within the same calendar year may be prior authorized with proof of medical necessity.

Contact lenses may require more frequent replacement than one new pair per calendar year, depending on the style and the prescribed use. More frequent replacement must be medically necessary and prior authorization must be obtained.
The repair of lost or destroyed eyeglass frames, eyeglass lenses, or contact lenses outside of their normal replacement schedule will be allowed only if modifier RB is submitted with the appropriate procedure codes.

40.2.1.6 Services Requiring Authorization

40.2.1.6.1 Contact Lenses, Prescriptions, and Fittings

Authorization is required for medically necessary contact lenses and their prescriptions and fittings for diagnoses that are not listed in the diagnosis table above in Section 40.2.1.4, “Contact Lenses” in this chapter. Requests for authorization must be submitted using a CSHCN Services Program Authorization and Prior Authorization Request form with documentation of the following:

- The medical diagnosis of the cause of the disorder of refraction
- For an established patient, current and new prescriptions that show a change of 0.5d or more in the sphere, cylinder, or prism measurements from a previous exam
- For a new patient, the new prescription including prescriptive measurements
- Which eyes are being treated: left, right, or both
- The specific procedure codes for which the authorization is being requested
- The medical necessity of contact lenses for the correction of the client’s vision or for the treatment of the client’s medical condition, and why eyeglasses are inappropriate or contraindicated in this case

40.2.1.6.2 Scleral Lenses and Liquid Bandages

Authorization is required for scleral lenses (procedure codes V2530 and V2531) and scleral lenses used as liquid bandage devices (procedure code S0515). Providers must submit the CSHCN Services Program Authorization and Prior Authorization Request form. Claims must be submitted with documentation of all of the following:

- The client has a condition that requires a scleral lens or a liquid bandage and is refractive to conservative treatment.
- The client has a condition that indicates a severe ocular surface disease, including, but not limited to, the following conditions:
  - Corneal ectasia such as keratoconus, pellucid marginal degeneration, keratoglobus (The use of scleral lenses does not achieve precise vision correction for high-order aberrations related to these diagnoses.)
  - Post keratoplasty astigmatism (Scleral lenses generally provide excellent visual acuity for the treatment of this condition and should be considered in lieu of wedge resections, relaxing incisions, and laser ablations.)
  - Terrien’s marginal degeneration
  - Corneal surface irregularities that are due to ocular surface disease, anterior corneal dystrophies, scars, and other causes
  - Aphakia, high myopia or astigmatism
  - Corneal stem cell deficiencies that are a result of Stevens-Johnson syndrome and toxic epidermal necrosis (TEN), chemical and thermal injuries, ocular pemphigoid, aniridia, and other causes
  - Keratitis sicca that is a result of disorders of the lacrimal gland such as Sjogren’s syndrome, graft vs. host disease, irradiation, surgery, and meibomian gland deficiency
• Neurotrophic corneas resulting from herpes simplex or zoster keratitis, congenital corneal anesthesia (dysautonomia), diabetes, acoustic neuroma surgery, trigeminal ganglionectomy, trigeminal rhyzotomy, and other causes

• Persistent noninfectious corneal ulcers and epithelial defects that are associated with stem cell-deficient and neurotrophic corneas

### 40.2.1.7 Services Not Requiring Authorization

Authorization is not required for the following:

- One annual vision exam with refraction
- One medically necessary pair of prescription eyewear per calendar year
- One medically necessary pair of contact lenses per calendar year
- Eye exams and eye treatments for medical reasons (Medical eye exams and treatments may also include special vision services and ocular viewing and diagnostic procedures.)

Refer to: Section 4.2, "Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information on prior authorization requirements.

### 40.2.1.8 Services Requiring Prior Authorization

A separate prior authorization request must be submitted for all contact lens replacements and for additional prescriptions and fittings of contact lenses within the calendar year. Requests must be submitted using a CSHCN Services Program Authorization and Prior Authorization Request form with documentation of the following:

- The medical diagnosis of the cause of the disorder of refraction
- Which eyes are being treated: left, right, or both
- The procedure codes for which the prior authorization is being requested
- The medical necessity of either the replacement of the contact lenses or of an additional contact lens prescription and fitting within the calendar year

If a pattern of contact lens replacement is requested, the medical necessity of the pattern of replacement (e.g., monthly, every three months, or any other frequency) for the correction of a client’s vision or for the treatment of a client’s medical condition must be established. If the request for replacement is because of a change in prescription during the calendar year, the provider must include current and new prescriptions that show:

- A change of 0.50 diopters or more in any corresponding meridian
- A cylinder axis change of at least 20 degrees for a cylinder power of 0.50-0.62 diopters
- A cylinder axis change of at least 15 degrees for a cylinder power of 0.75-0.87 diopters
- A cylinder axis change of at least 10 degrees for a cylinder power of 1.00-1.87 diopters
- A cylinder axis change of at least 5 degrees for a cylinder power of 2.00 diopters or greater.

**Note:** A cylinder power of 0.12-0.37 diopters with a change in axis does not warrant replacement glasses.

Providers must submit an invoice that shows the manufacturer’s suggested retail price (MSRP) of the prescribed contact lenses with the prior authorization request.

Procedure code 76999 requires prior authorization. The provider must submit the following documentation with their request:

- The client’s diagnosis
• A clear, concise description of the ophthalmic ultrasound being performed
• A CPT or HCPCS procedure code which is comparable to the ophthalmic ultrasound being requested
• The physician’s intended fee for this procedure
• Reason for recommending this particular procedure

**Note:** Services and procedures that are investigational or experimental are not a benefit of the CSHCN Services Program.

**Refer to:** Section 4.3, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information on prior authorization requirements.

### 40.2.1.9 Eye Prostheses
Eye prostheses may be authorized when prescribed by the treating physician and when there is documentation of medical necessity and appropriateness.

There are no specific time limitations on replacement of eye prostheses. A child’s eye socket may change size at variable times because of differences in bone growth rate and soft tissue change.

### 40.2.2 Eye and Vision Examinations
Vision services that are medically necessary for the treatment of a client include, but are not limited to, the following:

• Eye examinations and the treatment of the eye for medical reasons (i.e., aphakia diagnoses, diseases of the eye, or as a result of eye surgery or an injury to the eye). Eye examinations that are performed for medical reasons may be reimbursed as medically necessary.

• One vision examination with refraction per calendar year to obtain a prescription for eyewear for disorders of refraction and accommodation. More frequent vision exams may be reimbursed if they are recommended by a school nurse, teacher, or parent.

• One pair of nonprosthetic eyewear per calendar year.

A client who experiences vision-related difficulty with activities of daily living (ADLs) or with employment may be referred to HHSC DBS for evaluation and appropriate resources.

Special vision services, ocular viewing, and diagnostic testing include, but are not limited to, the following:

• Examination and evaluation with general anesthesia
• Ophthalmic ultrasound
• Corneal topography
• Sensorimotor examination
• Orthoptic or pleoptic training
• Ophthalmoscopy

### 40.2.2.1 Vision Examinations with Refraction
Vision examinations with refraction to obtain a prescription for eyewear (procedure code S0620 or S0621) may be reimbursed once per calendar year when billed with diagnosis codes Z0100 or Z0101.

Procedure codes S0620 and S0621 will deny if billed on the same date of service as procedure code 92020, 92273, and 92274.
40.2.2 Medical Eye Examinations
Medical eye examinations performed for medical reasons may be reimbursed to providers using procedure codes 92002, 92004, 92012, 92014, and 92015. These examinations may be reimbursed as medically necessary with a valid diagnosis code that describes the medical reason for the eye examination.

A new patient is one who has not received any professional services within the past three years from the provider or another provider of the same specialty who belongs to the same group practice. Providers must use procedure codes 92002, 92004, or S0620 to bill for new patient ophthalmological eye exams provided in the office, or in an outpatient or other ambulatory facility.

An established patient is one who has received professional services from the provider or another provider of the same specialty who belongs to the same group practice within the past three years. Providers must use procedure codes 92012, 92014, or S0621 to bill for established patient ophthalmological eye exams that were provided in the office, or in an outpatient or other ambulatory facility.

Routine vision examinations, with refraction (procedure codes S0620 and S0621) will be denied as part of another service if they are billed with the same date of service as an ophthalmological medical exam (procedure codes 92002, 92004, 92012, and 92014).

A refractive state (procedure code 92015) will be denied as part of another service when billed with the same date of service by the same provider as a routine vision examination, with refraction (procedure codes S0620 or S0621).

40.2.3 Services Requiring Authorization
Authorization is required if a school nurse, teacher, or parent recommends an additional eye examination with refraction within a calendar year. If a new pair of eyeglasses is required as a result of the exam, an authorization is required. Requests for either authorization must be submitted using a CSHCN Services Program Authorization and Prior Authorization Request form with documentation of the following:

- The medical diagnosis of the cause of the disorder of refraction
- The new prescription that shows at least one of the following:
  - A change of 0.50 diopters or more in any corresponding meridian
  - A cylinder axis change of at least 20 degrees for a cylinder power of 0.50-0.62 diopters
  - A cylinder axis change of at least 15 degrees for a cylinder power of 0.75-0.87 diopters
  - A cylinder axis change of at least 10 degrees for a cylinder power of 1.00-1.87 diopters
  - A cylinder axis change of at least 5 degrees for a cylinder power of 2.00 diopters or greater.

  Note: A cylinder power of 0.12-0.37 diopters with a change in axis does not warrant replacement glasses.
- The specific procedure codes for which the authorization is being requested

40.2.3 Special Vision Services
40.2.3.1 Ophthalmological Examination and Evaluation with General Anesthesia
Ophthalmological examination and evaluation with general anesthesia (procedure codes 92018 and 92019) may be reimbursed to ophthalmologists if a client has significant injury or cannot otherwise tolerate the procedure while conscious. Ophthalmological examination and evaluation with general anesthesia is limited to one service per day by any provider.
40.2.3.2 Ophthalmic Ultrasound

Ophthalmic ultrasound may be reimbursed to providers using the following procedure codes:

<table>
<thead>
<tr>
<th>Procedure Codes</th>
</tr>
</thead>
<tbody>
<tr>
<td>76510</td>
</tr>
</tbody>
</table>

Ophthalmic ultrasounds may be reimbursed on the same date of service by the same provider as an eye examination visit or consultation.

Ophthalmic ultrasounds professional components may be reimbursed for services rendered in the office, outpatient, and inpatient hospital settings. The technical component of ophthalmic ultrasounds may be reimbursed for services rendered in the office setting.

Procedure codes 76514, 76516, and 76519 are limited to one service per day, any provider. Procedure codes 76510, 76511, 76512, 76513, 76514, 76516, and 76519 are limited to two services per calendar year by any provider.

Procedure code 76519 may be reimbursed as follows:

- The professional component must be billed with modifier LT or RT to identify the eye on which the service was performed.
- The technical component may be reimbursed once when one or both eyes are performed on the same date of service by any provider.
- The total component may be reimbursed with an additional professional service when both eyes are performed on the same date of service by any provider.

40.2.3.3 Corneal Topography

Corneal topography (procedure code 92025) may be reimbursed to providers and is limited to one service per day, and two services per calendar year by any provider. Corneal topography is limited to the following diagnosis codes:

<table>

Corneal topography may be reimbursed on the same date of service by the same provider as a medical eye exam or simple refraction (procedure codes 92002, 92004, 92012, 92014, or 92015).

**40.2.3.4 Sensorimotor Examination**

Sensorimotor examinations (procedure code 92060) may be reimbursed in addition to a medical eye examination or simple refraction. Sensorimotor examination is limited to once per day and two per calendar year by any provider.

**40.2.3.5 Orthoptic or Pleoptic Training**

Orthoptic or pleoptic training (procedure code 92065) may be reimbursed in addition to a medical eye examination visit. Orthoptic or pleoptic training is limited to once per day and 36 per year by any provider.

**40.2.3.6 Ophthalmoscopy**

Ophthalmoscopy may be reimbursed to providers using the following procedure codes:

<table>
<thead>
<tr>
<th>Procedure Codes</th>

<td>92201</td>
</tr>
</tbody>
</table>

[Revised] Ophthalmoscopy, fluorescein angiography, indocyanin-green angiography, and fluorescein angiography (procedure codes 92230, 92235, 92240, and 92242) may be reimbursed for a quantity of two if both the left and right eyes are evaluated. Modifiers LT and RT must be included on the claim to identify the eye on which the service was performed.

[Revised] Ophthalmoscopy, fluorescein angiography, indocyanin-green angiography, and fluorescein angiography (procedure codes 92230, 92235, 92240, and 92242) are limited to one service per eye per day and two services per eye per calendar year by any provider.

[Revised] Ophthalmoscopy, extended (procedure codes 92201 and 92202) are limited to one service per day and two services per calendar year by any provider.
Fundus photography (procedure code 92250) and opthamodynamometry (procedure code 92260) are limited to one service per day and two services per calendar year by any provider.

**40.2.3.7 Ocular Viewing and Diagnostic Testing Procedures**

Ophthalmologists and optometrists may submit the following procedure codes for the reimbursement of ocular viewing and diagnostic testing:

<table>
<thead>
<tr>
<th>Ocular Viewing and Diagnostic Testing Procedure Codes</th>

</thead>
<tbody>
<tr>
<td>92020</td>
</tr>
<tr>
<td>92228</td>
</tr>
</tbody>
</table>

Gonioscopy (procedure code 92020) is limited to two services per calendar year by any provider.

Visual field examinations (procedure codes 92081, 92082, 92083), serial tonometry (procedure code 92100), scanning computerized ophthalmic diagnostic imaging (procedure codes 92132, 92133, and 92134) are limited to one service per day and two services per calendar year by any provider.

Ophthalmic biometry (procedure code 92136) is limited to two services per eye per calendar year by any provider.

Procedure code 92136 may be reimbursed as follows:

- The professional component must be billed with modifier LT or RT to identify the eye on which the service was performed.
- The technical component may be reimbursed when one or both eyes are performed on the same date of service by any provider.
- The total component may be reimbursed with an additional professional service when both eyes are performed on the same date of service by any provider.

Procedure codes 92227 and 92228 are limited to two services per calendar year by any provider.

Procedure codes 92265, 92270, 92273, 92274, 92285, 92286, and 92287 are limited to one service per day and two services per calendar year when billed by any provider.

**40.3 Claims Information**

The repair or replacement of lost or destroyed eyeglass frames, eyeglass lenses, or contact lenses outside of their normal replacement schedule will be allowed only if the RB modifier is submitted with the appropriate procedure codes.

Eyewear for a diagnosis of aphakia must be billed with modifier VP.

The MSRP must be submitted for the consideration of the purchase of high-powered and aphakic lenses with the appropriate procedure codes.

Opticians enrolled as a facility must submit claims with their provider identifier in both the billing provider field (Block 33 on a paper claim or the electronic equivalent) and in the performing provider field (Block 24J on a paper claim or the electronic equivalent.)

Vision services must be submitted to TMHP in an approved electronic format or on the CMS-1500 paper claim form. Providers may purchase CMS-1500 paper claim forms from the vendor of their choice. TMHP does not supply the forms.

When completing a CMS-1500 paper claim form, all required information must be included on the claim, as TMHP does not key any information from claim attachments. Superbills, or itemized statements, are not accepted as claim supplements.
The HCPCS/CPT codes included in policy are subject to NCCI relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page for correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Refer to: Chapter 41, “TMHP Electronic Data Interchange (EDI)” for information about electronic claims submissions.

Section 5.7.2.4, “CMS-1500 Paper Claim Form Instructions” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for instructions on completing paper claims. Blocks that are not referenced are not required for processing by TMHP and may be left blank.

### 40.4 Reimbursement

Contact lenses, frames, and eyeglass lenses, except for high-power and aphakic lenses, may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid. High-powered lenses and lenses for aphakia are manually priced. Manually-priced items are reimbursed at the retail price minus a discount as determined by the CSHCN Services Program rule. An invoice that shows the actual MSRP must be filed with every claim of this type.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at [www.tmhp.com](http://www.tmhp.com).

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at [www.tmhp.com/pages/topics/rates.aspx](http://www.tmhp.com/pages/topics/rates.aspx).

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.

### 40.5 TMHP-CSHCP Services Program Contact Center

The TMHP-CSHCP Services Program Contact Center at 1-800-568-2413 is available Monday through Friday from 7 a.m. to 7 p.m., Central Time, and is the main point of contact for the CSHCN Services Program provider community.
