LTC Online Portal Form Processing Delays
Information posted July 19, 2011

An issue has been identified with the DADS processing systems which is causing delays in processing the forms submitted through the TMHP LTC Online Portal. This delay occurs after the form is submitted on the LTC Online Portal, so it does not affect the facility’s ability to complete the forms timely. The delay can be indicated by statuses ranging from “Form Submitted” to “SAS Request Pending.” DADS is working to resolve the issue and apologizes for any inconvenience the delay may cause.
