Clarification to “Reimbursement Rate Reductions Will Be Implemented for Some Texas Medicaid Provider Types”

Information posted August 19, 2011

This is a clarification to an article titled “Reimbursement Rate Reductions Will Be Implemented for Some Texas Medicaid Provider Types,” which was published on this website on July 29, 2011.

The table that includes Early Childhood Intervention (ECI) therapy services requires the following information for clarification:

Texas Medicaid reimburses ECI therapy services only for clients who are 3 years of age and younger.

**Reminder**: Rates are published to reflect reimbursement for services rendered to children (20 years of age and younger), adults (21 years of age and older), or clients of any age. The age ranges identified for rates may not reflect a specific age limitation that has been established that may limit services to a specific client age.
