4010 835 Electronic Remittance and Status Reports Will Be Generated Through July 31, 2012

Information posted July 2, 2012

Providers that have not submitted the appropriate Electronic Remittance and Status (ER&S) report linking forms in order to retrieve the 5010 version of the 835 EDI transactions may continue to receive the 4010 version of the 835 transaction through July 31, 2012.

After July 31, 2012, EDI version 4010 ER&S reports will not be generated for providers under any circumstances.

1.1.1 Reminder

Providers must be compliant with EDI version 5010 by July 1, 2012, to submit EDI 837 claims, 270 eligibility, and 276 claims status inquiry transactions to TMHP, and providers must complete the EDI 5010 testing and certification process to receive the EDI 5010 835 transaction.

Note: Providers can set up a TexMedConnect account to retrieve the PDF version of the R&S report. TexMedConnect is version 5010 compliant, and using TexMedConnect does not require testing or the creation of a new submitter ID.

Providers can refer to “Reminder: Providers That Complete EDI 5010 Testing Must Set up ER&S for New Submitter ID by June 30, 2012”, for information on requesting a submitter ID.

Note: No other 4010 transactions will be accepted from providers or produced as a response transaction after July 1, 2012.
