SSAS Implementation Update
Information posted November 16, 2012

This is to notify Intermediate Care Facility/Facilities for Individuals with an Intellectual Disability or Related Conditions (ICF/IID) providers that the Single Service Authorization System (SSAS) deployment for your program has been postponed to February 18, 2013 to allow for more testing of the applications, and to insure a quality product is implemented.

The ICF/IID SSAS workshops have been recorded for those who could not attend the workshops and as a reminder to those who attended. The workshops and the associated materials will be posted on the Texas Medicaid & Healthcare Partnership (TMHP) website, effective November 19, 2012.

ICF/IID Providers should not activate an account on the TMHP Long Term Care (LTC) Online Portal until January 30, 2013. Portal passwords expire every 30 days; therefore, if ICF/IID providers activate an account on the TMHP LTC Portal before January 30th, the password will have to be reset.

Please access the DADS SSAS website for the information on the recorded workshops, latest SSAS dates, news and information:  http://www.dads.state.tx.us/providers/ssas/index.html.
