Nursing Facility Responsibilities with the Preadmission Screening and Resident Review

Information posted May 17, 2013

Effective May 27, 2013, Nursing Facility providers must begin submitting PASRR Level 1 (PL1) Screening Forms for Expedited Admissions and Exempted Hospital Discharges on the Long Term Care Online Portal.

Activities the Nursing Facility will be responsible for include:

- Completing and submitting the PL1 Screening Form if they are the Referring Entity for new admissions.
- Checking the LTC Online Portal for completed PASRR Evaluations (PEs) to determine if their facility can provide the services the individual will require, and documenting the determination on the PL1.
- Convening an Interdisciplinary Team (IDT) meeting that includes collaboration with the Local Authority (LA) to develop the individual’s comprehensive care plan.

Only Local Authorities are permitted to submit the PASRR Evaluation.

The PASRR Level 1 Screening Form and PASRR Level 1 Screening Form Instructions are available on the TMHP website at the following link: www.tmhp.com/Pages/LTC/ltc_forms.aspx. These instructions will also be available on the LTC Online Portal as of May 27, 2013, by clicking the Help link in the blue navigational bar.

Nursing Facilities will no longer have the capability to submit PASARR Screenings. Previously submitted PASARR Screenings will be available on the LTC Online Portal for seven years.

Nursing Facility providers are encouraged to read the Long Term Care Nursing Facility/Hospice Workshop User Guide, which will be available June 4, 2013, on this website.

Contact TMHP at 1-800-626-4117 for questions about claim submissions, PL1 and PE submission error messages, or status questions.

If you have any questions or need additional information, contact the PASRR Unit by telephone at 1-855-435-7180, by email at pasrr@dads.state.tx.us, or visit www.dads.state.tx.us/providers/pasrr/redesign/index.html for additional information regarding the PASRR Redesign process.
