PASRR Level 1 (PL1) Screenings Converted from Previous Screenings and Assessments

Information posted September 6, 2013

Beginning August 30, 2013, Preadmission Screening and Resident Review (PASRR) PL1 Screenings that were converted from PASARR Screenings and applicable Minimum Data Set (MDS) assessments will be available in the LTC Online Portal system.

This second conversion includes all Nursing Facility (NF) residents’ PASARR Screenings and applicable Minimum Data Set (MDS) assessments which failed to convert to a PL1 in the first conversion group created 06/17/2013. No individuals included in this conversion group were included in the initial conversion group, so there should be no duplicate PL1s.

Providers will be able to find these PL1s by using Form Status Inquiry (FSI) and searching for PL1s with a status of either Individual Placed in NF (which indicates a Positive PASRR screening for an individual in the NF) or Negative PASRR Eligibility (which indicates an individual in the NF who did not meet the criteria for Positive PASRR screening). All converted Screenings will have a Date of Assessment before August 29, 2013, and a system-generated note in the History trail that states “The PASRR Level 1 Screening has been created from an MDS Assessment (or PASRR Screening) on file that has the following DLN: XXXXXXXXXXX mm/dd/yyyy h:mm:ss.”

Local Authorities (LAs) will have a six-month grace period to complete PASRR Evaluations (PEs) for these individuals whose PL1 is in status Individual Place in NF. PE’s are not required for PL1’s in status of Negative PASRR Eligibility. The six-month time period begins on the PL1’s creation date. DADS PASRR unit will provide oversight and monitoring of this process for IDD and MI PE completion, including negotiation of completion timelines as needed.

Information about FSI and submitting a PE can be found in the Long Term Care Local Authorities Preadmission Screening and Resident Review (PASRR) Workshop User Guide, which is available on this website. Providers can also review the training workshop video on the Learning Management System (LMS) at http://learn.tmhp.com.

Contact TMHP 1-800-626-4117 for questions about claim submissions, PL1 and PE submission error messages, or status questions.
