

## **PPR and PPC Performance Reports for Hospitals Accessible July 31, 2014**

Information posted July 3, 2014

By July 31, 2014, hospital facilities that receive reductions based on their Potentially Preventable Readmissions (PPR) and Potentially Preventable Complications (PPC) performance will be able to access their hospital-level PPR and PPC reports delivered to their secure accounts on the TMHP web portal. The reports can be viewed and downloaded through the providers' secure portal mailboxes. PPR and PPC reports for hospitals that will not receive a reduction will also be available by the end of July 2014.

Providers that do not receive their reports by the end of July 2014 can email the Medicaid PPR and PPC mailbox at [MCD\\_PPR\\_PPC@hhsc.state.tx.us](mailto:MCD_PPR_PPC@hhsc.state.tx.us). Emails must include the full hospital name, name, phone number, hospital's National Provider Identifier (NPI), and the email address of the requestor.

Providers can refer to the following website for documents to help interpret the results identified in the reports: [www.hhsc.state.tx.us/hhsc\\_projects/ECI/Potentially-Preventable-Events.shtml](http://www.hhsc.state.tx.us/hhsc_projects/ECI/Potentially-Preventable-Events.shtml)

For more information, call the TMHP Contact Center at 1-800-925-9126 or the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413.
