Hyperlinks in History Trails Removed

Information posted September 24, 2014

Beginning September 26, 2014, the History trail in the Preadmission Screening and Resident Review (PASRR) Level 1 (PL1) Screening Form and the PASRR Evaluation (PE) submitted on the Long Term Care (LTC) Online Portal will no longer contain hyperlinks. The History trail in the Minimum Data Set (MDS) submitted on the LTC Online Portal will no longer contain hyperlinks for PL1’s and PE’s. The document locator number (DLN) will remain in the History trail, allowing Nursing Facilities to complete a form status inquiry (FSI) to search for these forms. Alerts for Nursing Facilities will also no longer have hyperlinks. This change will ensure that only the contracted Provider will have access to confidential information. All other hyperlinks currently displayed on the LTC Online Portal are unaffected by this change.

Contact TMHP at 1-800-626-4117, Option 1, for questions about this change, claim submissions, PL1 and PE submission error messages, or status questions.
