Texas Medicaid & Healthcare Partnership (TMHP) is currently performing ICD-9 diagnosis code validation on all LTC Online Portal forms requiring diagnosis codes including, but not limited to, Minimum Data Set (MDS), Medical Necessity and Level of Care (MN/LOC), Preadmission Screening and Resident Review (PASRR) Evaluation, Hospice 3071, and 8578.

It is important that providers verify all ICD-9 codes before submitting forms to the LTC Online Portal. This includes forms created from a template, forms saved as drafts, and forms previously submitted.

For more information, contact the LTC Help Desk at 1-800-626-4117, Option 1.
