

## **Diabetic Equipment and Supplies Procedure Codes K0604 and K0605 are now Benefits of the CSHCN Services Program as of January 1, 2015**

Information posted February 20, 2015

Effective for dates of service on or after January 1, 2015, diabetic equipment and supplies procedure codes K0604 and K0605 are now benefits of the Children with Special Health Care Needs (CSHCN) Services Program.

Procedure codes K0604 and K0605 (replacement battery for external infusion pump owned by patient) are covered services for home health durable medical equipment (DME), medical DME suppliers and custom DME providers within the home setting.

*Note: Procedure codes K0604 and K0605 will be limited to one unit every six months for CSHCN Services Program clients of any age.*

For more information, call the TMHP-CSHCN Services Program Contact Center at 1-800-568-2413.
