DADS Launches Medicaid Re-enrollment Website

Information posted September 4, 2015

DADS Medicaid providers that render services either through Medicaid managed care organizations or traditional fee-for-service Medicaid are required to revalidate their information every 3-5 years. In Texas, the deadline for the next re-enrollment is March 24, 2016.

To help providers better understand this process, DADS has created a Texas Medicaid LTSS Provider Re-enrollment website at www.dads.state.tx.us/providers/mpre. The site includes a mailbox to submit questions and an enrollment FAQ. An application fee schedule, provider risk matrix, and the reenrollment application will be added to the site as they become available.

Questions can be emailed to Texas.Medicaid.Enrollment@dads.state.tx.us.
