

Providers Can Enter EVV Information into New EVV Provider Facing Portal, Effective August 29, 2016

Information posted July 27, 2016

Effective August 29, 2016, TMHP will launch an Electronic Visit Verification (EVV) provider-facing portal.

Providers will have the option to enter Provider Selection Form (PSF) data that was previously faxed or emailed for EVV purposes directly into the new portal. This information will be associated with the user's login credentials, for which the user has administrative rights. Providers will be able to update the stored data in the portal as needed, which includes adding comments, after the information is submitted and validated.

Providers who would like to use the EVV provider facing portal must create a portal account. Providers who currently have a portal account can log in using their administrator information currently on file. Providers who do not wish to create a portal account can continue to fax or email the PSF data to TMHP.

The purpose of the change is to promote the use of the portal.

For more information, call the TMHP Contact Center at 1-800-925-9126.
