When an Intellectual Disability and Related Conditions (ID/RC) 8578 Assessment is in Pending Medicaid Eligibility status, providers may see one of two response codes from HHSC’s Service Authorization System (SAS):

- **ME-0001**: The individual does not yet have the appropriate type of Medicaid for the program.
- **AI-0001**: The individual’s Medicaid type has been verified, but Applied Income needs to be calculated for the form to continue processing.

To locate forms that have Pending Medicaid Eligibility status, providers can do one of the following:

- Perform a Form Status Inquiry (FSI) search for an individual using Medicaid Number or CARE ID. **Note**: Vendor Number, From Date, and To Date must be selected. The submission date for the ID/RC 8578 Assessment must be within the From Date and To Date.

The SAS Response code will be visible in the far right column.

- Providers can also search for the ID/RC 8578 Assessment’s Document Locator Number (DLN) by using the FSI.
The SAS Response Code will be visible in the far right column.

For more information, call the Long Term Care Help Desk at 1-800-626-4117, Option 1.
