UPDATE: Submit Phase V Music & Memory Certification
Nominations for NFs Now

Information posted July 25, 2018

HHSC is expanding the Music & Memory program initiative to an additional 200 nursing homes through 2019.

- Phase V includes a research project conducted by The University of Texas at Austin School of Nursing.
- The study measures the effectiveness of the program in reducing the use of antipsychotic medications in NF residents with dementia.
- Facilities participating in Phase V must agree to participate in the research project, and to complete specific tasks as outlined in the nomination survey.
- The nationally recognized Music & Memory initiative builds on research showing the positive effects of familiar music on brain activity.
- Since 2015, 485 facilities across Texas have participated in the HHSC Music & Memory program. This innovative program will have affected over 10,000 nursing home residents by the end of 2018.

Nominate your facility for Phase V of the program by completing this survey. We will choose fifty facilities for Phase V. Nominations will close on August 8, 2018. Email questions to QMP@hhsc.state.tx.us.
