New Provider Management and Enrollment System to Launch March 2020

Information posted March 28, 2019

The new Provider Management and Enrollment System (PMES) will consolidate and replace multiple enrollment processes and systems. The new system will benefit providers by reducing administrative burden and streamlining processes. The attached fact sheet includes a brief overview of PMES, its benefits, and an implementation timeline.

As the main users, it is essential HHSC works with providers to gain feedback throughout implementation, and encourages providers to submit initial input through the link below.
