Training for Nurses in the LTC Setting in Beaumont

Information posted May 14, 2019

Long Term Care Regulatory providers are invited to attend the *Transition to Practice for Nurses in the Long-term Care Setting* training at the end of May. This two-day course is for registered professional nurses who provide direct client services, and monitor or evaluate the care of older people with disabilities.

May 21 - 22, 2019
8:30 a.m. – 4:30 p.m.
Edison Plaza
350 Pine St Rm 9036 B & C
Beaumont, TX 77701
[Register Now](#)

The course provides participants with valuable resources. It supports their transition and prepares them to offer the highest level of care to nursing facility residents. Participants are provided with a toolkit including evidence-based best practice information on topics such as:

- Medication administration
- Abuse, neglect, and exploitation
- Documentation, transition to practice, and time management
- Alzheimer's disease and dementia
- Retention, success in the workplace, and ethics

Registered nurses earn 8.5 contact hours upon successful completion of this activity. Class size is limited. [Register now](#). For questions, contact Camille Johnson at [jointed.services@hhsc.state.tx.us](mailto:jointed.services@hhsc.state.tx.us).
