Submit Your LAR Recommendations by November 22nd

Information Posted October 14, 2019

While the 87th Regular Session of the Texas Legislature is more than a year away, the Health and Human Services Commission is already working on formulating its next Legislative Appropriations Request (LAR). This request outlines the agency’s funding needs for the next two years and must be submitted to the Legislature by September 1st each year prior to Session.

Let HHSC know what should be in the 2022-2023 LAR by submitting your ideas and recommendations to CFOStakeholderFeedback@hhsc.state.tx.us. Stakeholder input is a critical element of this process.

Include the following in your email:

- Your name or the name of your organization and a contact person.
- A clear, concise description of the recommendation.
- What need would be addressed by this recommendation and the expected impact or benefit to the state or the people we serve.

The deadline for submitting recommendations is November 22nd. HHSC will review and consider all submissions as it develops the LAR.
