Updated Long-Term Care (LTC) TexMedConnect Computer-Based Training Now Available

Information Posted February 3, 2020

An updated Long-Term Care (LTC) TexMedConnect computer-based training (CBT) is now available. This CBT is designed to assist nursing facility and hospice providers with accessing, understanding, and using the TexMedConnect online claims submission portal.

Providers can access this new CBT on TMHP’s Learning Management System (LMS) as follows:

2. When the LMS appears in a new window, log into an existing account or create a new account. New visitors to the LMS can access materials and take courses immediately after they register.

3. From the LMS home page, select the Computer Based Training icon. Scroll down and select the Long-Term Care (LTC) TexMedConnect link.

4. Click the Get Started button to launch the CBT.

Providers can access computer-based training and additional and supplemental training materials on the LMS at any time.

For LMS login or access issues, email TMHP Learning Management System support at [TMHPTrainingSupport@tmhp.com](mailto:TMHPTrainingSupport@tmhp.com).
