Correction to “Present on Admission Reporting Required on Hospital Claims Beginning September 1, 2010”

Information posted November 12, 2010

This is a correction to an article titled “Present on Admission Reporting Required on Hospital Claims Beginning September 1, 2010,” which was published on this website and in the September/October 2010 Texas Medicaid Bulletin, No. 231. The article incorrectly included “E” series diagnosis codes in the list of diagnosis codes that are exempt from present on admission (POA) reporting.

Providers should refer to the article titled “Additional Diagnosis Codes Exempt from Present-on-Admission Reporting” that was posted on October 29, 2010, for a complete, corrected list of all diagnosis codes that are exempt from the POA reporting requirement.

For more information, call the TMHP Contact Center at 1-800-925-9126.
