Appendix G - EVV Standard System Reports

Version 3.0

Published Date: 01/02/2023

Effective Date: 08/01/2023

HHSC requires each EVV Vendor and Proprietary System Operator (PSO) to provide the On-Demand EVV Standard System Reports as listed in the HHSC EVV Business Rules unless specifically indicated. This document contains specifications for each report. The EVV System will generate some reports using a web service provided by MES service providers, as indicated in the Report Description, to maintain consistency with the EVV Portal since the CDS Employers do not have access to that system. Therefore, the EVV System will display these reports specifically for the CDS Employer. The Program Providers, Financial Management Services Agency (FMSA), HHSC and MCOs will view these reports through the EVV Portal. The EVV System will create other reports using data native to the EVV System. MES service providers will provide sample reports upon request. All standard system reports must comply with these report specifications at a minimum.

Report Name	Description	Report Source
EVV Alternative Device Order Status Report	The EVV System must produce this report for the System User to use when verifying Alternative Devices orders placed by the program provider, CDS Employer, or FMSA on behalf of the CDS Employer, and to track the status of those orders.
