14.1 Enrollment

To enroll in the CSHCN Services Program, dental providers must be actively enrolled in Texas Medicaid, maintain an active license status with the Texas State Board of Dental Examiners (TSBDE) (see Title 22 *Texas Administrative Code* (TAC), §§110.1–110.18), have a valid Provider Agreement with the CSHCN Services Program, have completed the CSHCN Services Program enrollment process, and comply with all applicable state laws and requirements. Out-of-state dental providers must meet all these conditions, and be located in the United States, within 50 miles of the Texas state border.

To be eligible to receive reimbursement for dental anesthesia providers must have the following information on file with TMHP:

- Current anesthesia permit level issued by the TSBDE (applies to all dental providers)
- Proof of an anesthesiology residency recognized by the American Dental Board of Anesthesiology (required to be reimbursed at the enhanced rate for procedure codes D9222 and D9223), if applicable

Important: *CSHCN Services Program providers are responsible for knowing, understanding, and complying with the laws, administrative rules, and policies of the CSHCN Services Program and Texas Medicaid.*

By enrolling in the CSHCN Services Program, providers are charged not only with knowledge of the adopted CSHCN Services Program agency rules published in 26 TAC, but also with knowledge of the adopted Medicaid agency rules published in 1 TAC §§351.1–351.883 and specifically including the fraud and abuse provisions contained in 1 TAC §§371.1–371.1719.

CSHCN Services Program providers also are required to comply with all applicable laws, administrative rules, and policies that apply to their professions or to their facilities. Specifically, it is a violation of program rules when a provider fails to provide health-care services or items to recipients in accordance with accepted medical community standards and standards that govern occupations, as explained in 1 TAC §371.1659 for Medicaid providers, which also applies to CSHCN Services Program providers as set forth in 26 TAC §351.6(b)(1). Accordingly, CSHCN Services Program providers can be subject to sanctions for failure to deliver, at all times, health-care items and services to recipients in full accordance with all applicable licensure and certification requirements. These include, without limitation, requirements related to documentation and record maintenance, such that a CSHCN Services Program provider can be subject to sanctions for failure to create and maintain all records required by his or her profession, as well as those required by the CSHCN Services Program and Texas Medicaid.

Referto: Section 2.1, “Provider Enrollment” in Chapter 2, “Provider Enrollment and Responsibilities” for more detailed information about CSHCN Services Program provider enrollment procedures.

14.2 Benefits, Limitations, and Authorization Requirements

Diagnostic, therapeutic, and preventive dental services are a benefit of the CSHCN Services Program. Orthodontic services, medically necessary dental rehabilitation and restoration services, care of dental emergencies, and medically necessary services provided by doctors of dental surgery (DDS) or doctors of dental medicine (DMD) including, but not limited to, cleft-craniofacial surgery are also a benefit of the CSHCN Services Program.

14.2.1 Prior Authorization Requirements

Prior authorization is required for all orthodontia services and selected dental services.

All requests for prior authorization must be submitted using the [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#). The TMHP-CSHCN Services Program may require the submission of X-rays, models, etc., for specific prior-authorized services. All prior authori-

zation requests must include specific rationale for the requested service, including documentation of medical necessity and appropriateness of the recommended treatment. Additional documentation, including current periapical radiographs, must be maintained in the client's medical or dental record and submitted to the CSHCN Services Program on request.

Authorization and prior authorization request forms submitted to TMHP must be signed and dated by the dental provider treating the client. If indicated on the form, an authorized representative's signature is acceptable. All signatures and dates must be current. Stamped signatures are not permitted. Alterations to dates and signatures, such as cross-outs or white-outs, are not allowed. Submitted forms without an original hand-written signature and date will be rejected. Providers must keep the original, signed forms in the client's medical record as documentation.

Important: *Refer to each individual section under Benefits and Limitations for specific information about prior authorization requirements.*

Referto: Section 4.4, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

Tip: *Photocopy this form and retain the original for future use.*

Note: *Fax transmittal confirmations are not accepted as proof of timely prior authorization submission.*

14.2.2 Substitute Dentist

The following are conditions for reimbursement of services rendered by a substitute dentist:

- Dentists who take a leave of absence for no more than 90 days may bill for the services of a substitute dentist who renders services on an occasional basis when the primary dentist is unavailable to provide services. Services must be rendered at the practice location of the dentist who has taken the leave of absence. A locum tenens arrangement is not allowed for dentists.
- This arrangement will be limited to no more than 90 consecutive days. Under this temporary basis, the primary dentist (who is the billing agent dentist) may not submit a claim for services furnished by a substitute dentist to address long-term vacancies in a dental practice. The billing agent dentist may submit claims for the services of a substitute dentist for longer than 90 consecutive days if the dentist has been called or ordered to active duty as a member of a reserve component of the Armed Forces. CSHCN accept claims from the billing agent dentist for services provided by the substitute dentist for the duration of the billing agent dentist's active duty as a member of a reserve component of the Armed Forces.
- Providers billing for services provided by a substitute dentist must bill with modifier U5 in Block 19 of the American Dental Association (ADA) claim form.
- The billing agent dentist may recover no more than the actual administrative cost of submitting the claim on behalf of the substitute dentist. This cost is not reimbursable by CSHCN.
- The billing agent dentist must bill substitute dentist services on a different claim form from his or her own services. The billing agent dentist services cannot be billed on the same claim form as substitute dentist services.
- The substitute dentist must be licensed to practice in the state of Texas, must be enrolled in Texas Medicaid before enrolling in the CSHCN Services Program and must not be on the Texas Medicaid provider exclusion list.
- The dentist who is temporarily absent from the practice must be indicated on the claim as the billing agent dentist, and his or her name, address, and National Provider Identifier (NPI) must appear in Blocks 53, 54, and 56 of the ADA claim form.

- The substitute dentist's NPI number must be documented in Block 35 of the ADA claim form. Electronic submissions do not require a provider signature.

Dentists must familiarize themselves with these requirements and document accordingly. Those services not supported by the required documentation, as detailed above, will be subject to recoupment.

Note: Dental services must be filed on the ADA claim form.

14.2.3 Diagnostic Services

The CSHCN Services Program may reimburse the following diagnostic dental services for CSHCN Services Program eligible clients:

- Clinical oral evaluations
- Radiographs or diagnostic imaging
- Tests or examinations, including oral pathology procedures

Based on the American Academy of Pediatric Dentistry's (AAPD) definition of a dental home, the CSHCN Services Program defines a dental home as the dental provider who supports an ongoing relationship with the client that is inclusive of all aspects of oral health care delivered in a comprehensive, continuously accessible, coordinated, compassionate, culturally competent, and family-centered way. Establishment of a client's dental home begins no later than 12 months of age and includes referral to dental specialists when appropriate.

In providing a dental home for a client, the dentist enhances the ability to assist children and their parents in the quest for optimum oral health care. A First Dental Home (FDH) visit can be initiated as early as 6 months of age and is billed using procedure code D0145. The FDH visit includes, but is not limited to:

- Oral examination.
- Oral hygiene instruction.
- Dental prophylaxis, if appropriate.
- Topical fluoride application using fluoride varnish, if appropriate.
- Caries risk assessment.
- Dental anticipatory guidance.

Diagnostic services should be performed for all clients, preferably starting within the first 6 months of the eruption of the first primary tooth, but no later than 1 year of age. Dental home providers should record the oral and physical health history, perform a caries assessment, develop an appropriate preventive oral health regimen, and communicate with and counsel the client's parent, legal guardian, or primary caregiver.

Caries susceptibility tests (procedure code D0425) are used to analyze the acidic level of the oral cavity using acid or alkali sensitive materials to ascertain the client's likelihood of developing caries. Caries susceptibility tests are considered part of all other dental procedures and are not separately reimbursed.

Requesting providers must retain in the client's medical record all documentation to support the diagnosis and treatment of trauma.

14.2.3.1 Prior Authorization Requirements

Prior authorization is required for cone-beam imaging (procedure code D0367) and for diagnostic services not adequately described by more specific procedure codes where an unspecified procedure code (D0999) is necessary.

To obtain prior authorization, a [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#) must be submitted along with documentation supporting medical necessity and appropriateness. Documentation required includes, but is not limited to:

- Presenting condition(s).
- Medical necessity.
- The status of the client’s treatment.

Prior authorization is not required for any other diagnostic service.

Referto: Section 4.4, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

Section 14.2.3.3, “Cone-Beam Imaging” in this chapter.

14.2.3.2 Clinical Oral Evaluations

Documentation supporting medical necessity for procedure codes D0140, D0160, D0170, and D0180 must be maintained by the provider in the client’s medical record and must include:

- The client complaint supporting medical necessity for the examination.
- The area of the mouth that was examined or the tooth involved.
- A description of what was done during the treatment.
- Supporting documentation of medical necessity, including, but not limited to, radiographs or photographs.

The following clinical oral evaluation procedure codes may be considered for reimbursement:

| Procedure Code | Comments and Limitations |
|----------------|---|
| D0120 | <ul style="list-style-type: none"> • Used for periodic and comprehensive oral evaluations • Limited to once every 6 months by the same provider • Procedure code D8660 will deny when billed for the same date of service by the same provider • Age limitation = NA |
| D0140 | <ul style="list-style-type: none"> • Used only for the initial emergency examination of a specific tooth or area of the mouth • Limited to once per day by the same provider and twice per day for any provider • Provider must document the medical necessity and the specific tooth or area of the mouth on the claim • Denied when billed with procedure code D0160 for the same date of service by the same provider • May be paid in addition to a comprehensive oral examination (procedure code D0150) or a periodic oral examination (procedure code D0120) when billed within a 6-month period • Age limitation = NA |
| D0145 | <ul style="list-style-type: none"> • Age limitation = 6 months through 35 months of age |

| Procedure Code | Comments and Limitations |
|----------------|---|
| D0150 | <ul style="list-style-type: none"> • Used for a comprehensive oral evaluation; limited to one service every three years by the same provider; procedure code D8660 will deny when billed for the same date of service by the same provider • Age limitation = NA |
| D0160 | <ul style="list-style-type: none"> • Used for a problem-focused, detailed, and extensive oral evaluation; provider must document the medical necessity and the specific tooth or area of the mouth on the claim • May be paid in addition to a comprehensive oral examination (procedure code D0150) or a periodic oral examination (procedure code D0120) when billed within a 6-month period • Limited to once per day by the same provider • Age limitation = 1 year of age or older |
| D0170 | <ul style="list-style-type: none"> • Used as a follow up to a problem-focused evaluation; provider must document the medical necessity and the specific tooth or area of the mouth on the claim • Denied when billed with procedure code D0140 or D0160 on the same date of service by the same provider • Limited to once per day by any provider • Age limitation = NA |
| D0180 | <ul style="list-style-type: none"> • Used for extensive periodontal evaluation of pain or problems • Denied when billed on the same date of service as procedure code D0120, D0140, D0145, D0150, D0160, or D0170 by the same provider • May be paid in addition to a comprehensive oral examination (procedure code D0150) or a periodic oral examination (procedure code D0120) when billed within a 6-month period • Age limitation = 13 years of age or older |

A caries risk assessment procedure code (D0601, D0602, or D0603) will be required on the same claim, for the same date of service, by the same provider when dental examination procedure code D0120, D0145, or D0150 is submitted for reimbursement. The client's dental condition(s) that justifies the risk assessment classification submitted with the claim must be clearly documented and maintained by the provider in the client's medical record.

Professionally developed caries risk assessment tools are available at:

- American Dental Association (ADA)
- American Academy of Pediatric Dentistry (AAPD)
- Department of State Health Services (DSHS), Oral Health Program

14.2.3.3 Cone-Beam Imaging

Cone-beam imaging is used to determine the best course of treatment for cleft palate repair, skeletal anomalies, post-trauma, implanted or fixed prosthodontics, and orthodontic or orthognathic procedures. Cone-beam imaging is limited to initial treatment planning, surgery, and post-surgical follow-up.

Procedure code D0367 must be prior authorized by the TMHP Dental Director.

Procedure code D0367 is limited to a combined maximum of three services per calendar year. Additional services may be considered by the TMHP Dental Director with documentation of medical necessity.

14.2.3.4 First Dental Home

Based on the American Academy of Pediatric Dentistry's definition, the CSHCN Services Program defines a dental home as the dental provider who supports an ongoing relationship with the client that includes all aspects of oral health care delivered in a comprehensive, continuously accessible, coordinated, and family-centered way.

In providing a dental home for a client, the dental provider enhances the ability to assist clients and their parents in obtaining optimum oral health care. The first dental home visit can be initiated as early as 6 months of age and must include, but is not limited to, the following:

- Comprehensive oral examination
- Oral hygiene instruction with primary caregiver
- Dental prophylaxis, if appropriate
- Topical fluoride varnish application when teeth are present
- Caries risk assessment
- Dental anticipatory guidance

The dental home provider must keep supporting documentation for procedure code D0145 in the client's medical record. The supporting documentation must include, but is not limited to, the following:

- Oral and physical health history review
- Dental history review
- Primary caregiver's oral health
- Oral evaluation
- An appropriate preventive oral health regimen
- Caries risk assessment
- Dental prophylaxis, which may include a toothbrush prophylaxis
- Oral hygiene instruction with parent or caregiver
- Anticipatory guidance communicated to the client's parent, legal guardian, or primary caregiver, to include the following:
 - Oral health and home care
 - Oral health of primary caregiver or other family members
 - Development of mouth and teeth
 - Oral habits
 - Diet, nutrition, and food choices
 - Fluoride needs
 - Injury prevention
 - Medications and oral health
 - Fluoride varnish application
 - Any referrals, including dental specialist's name

Procedure codes D0120, D0150, D0160, D0170, D0180, D1120, D1206, D1208, and D8660 will be denied when billed on the same date of service, for any provider as D0145.

A First Dental Home examination is limited to ten services per client lifetime with at least 60 days between visits by any provider.

Reimbursement for procedure code D0145 is limited to dentists certified by the Texas Department of State Health Services (DSHS). Providers can complete a free continuing education course online or attend classroom training to be certified to provide First Dental Home services. For information about training, refer to the Department of State Health Services (DSHS) Oral Health Program web page at hhs.texas.gov/doing-business-hhs/provider-portals/health-services-providers/texas-health-steps/dental-providers/first-dental-home.

14.2.3.5 Radiographs or Diagnostic Imaging

The number of radiograph films required for a complete intraoral series is dependent on the age of the client. An intraoral series requires at least eight films. Adults and children older than 12 years of age require 12 to 20 films to be considered an intraoral series. A panoramic radiographic image (procedure code D0330) plus a minimum of four bitewing radiographic images (procedure code D0274) may be considered equivalent to a complete intraoral series including radiographic images (procedure code D0210).

Supporting documentation must be kept in the client's dental record when medical necessity is not evident on radiographs.

The following radiographs or diagnostic imaging procedure codes may be considered for reimbursement:

| Procedure Code | Limitations |
|----------------|---|
| D0210 | <ul style="list-style-type: none"> Limited to one service every three years by the same provider Denied when submitted on an emergency claim Age limitation = 2 years or older |

14.2.3.6 * Tests and Oral Pathology Procedures

The following procedure codes may be considered for reimbursement and are limited to clients who are 1 year of age or older:

| Procedure Codes | | | |
|-----------------|-------|-------|-------|
| D0415 | D0460 | D0470 | D0502 |

Procedure code D0460:

- Includes multiple teeth and contralateral comparisons based on medical necessity.
- Is considered part of any endodontic procedure and is not separately reimbursed when billed on the same date of service as any endodontic procedure.
- Is not payable when billed for primary teeth.
- Is limited to one service per day by the same provider.

Referto: Section 14.2.6, “Therapeutic Services” in this chapter for additional information about endodontic procedures.

When billing for diagnostic procedures not adequately described by other procedure codes, providers should use procedure code D0999.

[Revised] Procedure code D0470 is limited to once per lifetime, any provider.

Only one emergency or trauma claim per client, per day may be submitted. Separate services may be submitted for the same client on the same date of service, one for emergency or trauma and one for nonemergency or routine care.

When billing electronically for emergency or trauma-related dental services, use the ET modifier to indicate emergency.

14.2.4 Orthodontia Services

Orthodontia services are benefits of the CSHCN Services Program for clients with prior authorization and an appropriate diagnosis code that indicates cleft lip, cleft palate, congenital anomalies of skull and face bones, dentofacial functional abnormalities, or major anomalies of jaw size.

Orthodontia for cosmetic purposes only is not a benefit of the CSHCN Services Program. All removable or fixed orthodontic appliances must be billed with procedure codes D8210 or D8220.

14.2.4.1 * Prior Authorization Requirements

Prior authorization is required for all orthodontic services except for the initial orthodontic visit. Prior authorization is only approved for a complete orthodontic treatment plan, and all active orthodontic treatments must be completed within 36 months. Prior authorization is not transferable to another dentist. The new provider must request prior authorization to complete the orthodontic treatment initiated by the previous provider.

[Revised] Extensions on allowed time frames may be considered no sooner than 60 days before the authorization expires. Extra monthly adjustments (procedure code D8670) will not be prior authorized, but the time frame may be considered for extension not to exceed 36 months of actual treatment.

Referto: Section 4.4, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

14.2.4.2 Required Documentation

To obtain prior authorization, the provider must submit the [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#).

The following documentation must accompany the form, and must include the date of service the documentation was obtained:

- A complete orthodontia treatment plan including all the procedures required to complete full treatment such as:
 - Extractions
 - Orthognathic surgery
 - Upper and lower appliances
 - Monthly adjustments
 - Appliance removal (if needed)
 - Special appliances
- All diagnostic models
- A cephalometric radiograph with tracing

- Facial photographs
- A full series of radiographs or a panoramic radiograph

Note: *Diagnostic models, radiographs, and any other paper diagnostic tools submitted to TMHP will be returned to the submitting provider. Requests submitted with damaged diagnostic models will be returned to the provider as an incomplete request.*

A prior authorization request for orthodontia services must include one of the following indications:

- Cleft lip
- Cleft palate
- Congenital anomalies of skull and face bones
- Dentofacial functional abnormalities
- Major anomalies of jaw size

A prior authorization request for comprehensive orthodontic treatment or crossbite therapy submitted without the [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#), diagnostic model, radiographs (X-rays), and any other necessary supporting documentation will not be considered and will be returned to the provider as incomplete.

The following information must be provided in the case of a transfer of care from one provider to another:

- A request for prior authorization as outlined above
- Explanation of why the client left the previous provider
- Explanation of the client's treatment status

14.2.4.3 * Submitting Local Codes for Orthodontic Procedures

To ensure appropriate claims processing, the local code reflecting the specific service is required on the claim.

For electronic submissions other than TexMedConnect submissions, providers must follow the steps below to ensure the correct local code is accurately applied to the appropriate claim detail:

- 1) Submit the DPC prefix in the first three bytes of NTE02 at the 2400 loop. Submit the DPC prefix only once.
- 2) Submit the remark code (local code) in bytes 4–8, based on the order of the claim detail. Do not enter any spaces or punctuation between remark codes, unless to designate that the detail is not billed with D8210 or D8220.

Example: *For a claim with three details, where details 1 and 3 are submitted with procedure code W-D8210 and detail 2 is not, enter the following information in the NTE02 at the 2400 loop:*

DPC1014D 1046D
(The space shows that detail 2 needs no local code.)

Example: *If all three details require a local code, enter DPC and the appropriate local codes in sequence without any spaces between the codes:*

DPC1024D1055D1056D
(The absence of spaces indicates that local codes are needed for all three details.)

To submit using TexMedConnect, enter the local code into the Remarks Code field, located under the Details header. The Remarks Code field is the field following the Procedure Code field. TexMedConnect submitters are not required to enter the DPC prefix, because it is automatically placed in the appropriate field on the TexMedConnect electronic claim.

For paper claim submissions, providers must enter the local code in the Remarks section of the claim form.

Failure to follow the above steps does not cause the claim to deny; however, manual intervention is required to process the claim and a delay of payment may be the result.

Orthodontic procedure codes that were local codes used for prior authorization and reimbursement have been converted to Current Dental Terminology (CDT) (national) procedure codes.

The following procedures are not included in comprehensive treatment:

| CDT Procedure Code | Remarks Code | Description |
|---|--------------|---------------------------------------|
| D8660 | Z2009 | Initial orthodontic visit |
| D8670 | Z2013 | Orthodontic adjustments, per month |

14.2.5 Preventive Services

The following dental preventive services are benefits of the CSHCN Services Program:

- Oral hygiene instruction
- Dental prophylaxis and topical fluoride treatment
- Dental sealants
- Space maintainers, including recementation and removal

14.2.5.1 Authorization Requirements

Authorization or prior authorization is not required for preventive dental services.

14.2.5.2 * Oral Hygiene Instruction

Procedure code D1330 may be considered for reimbursement for clients who are 1 year of age or older when the services are above and beyond the routine brushing and flossing instructions included in the prophylaxis procedure codes and when additional time and expertise is directed toward the client's care. Procedure code D1330 is limited to once per year by any provider and is denied when billed on the same day as procedure codes D1110, D1120, D1206, or D1208 by any provider.

[Revised] Procedure code D1330 is not reimbursed to orthodontists or oral maxillofacial surgeons. These providers may be reimbursed by the CSHCN Services Program as a dentist or dentistry group provider type by using the appropriate NPI when billing claims.

14.2.5.3 * Dental Prophylaxis and Topical Fluoride Treatment

When performing fluoride treatments, procedure code D1120 and D1208 or procedure code D1110 and D1208 must be billed on the same date of service.

Procedure codes D1110 and D1120 include oral health instructions, and are limited to one prophylaxis per 6 calendar months, by any provider. Procedure codes D1110 and D1120 will be denied when submitted on an emergency claim.

The following procedure codes may be considered for reimbursement but are not payable on the same date of service as any D4000 series (periodontal) procedure codes:

| Procedure Code | Age Limitation |
|----------------|----------------------------------|
| D1110 | 13 years of age or older |
| D1120 | 6 months through 12 years of age |

14.2.5.4 * Dental Sealants

Dental sealants may be considered for reimbursement when applied to the deciduous (baby or primary) teeth or permanent teeth for clients who are 1 year of age or older. Dental sealants may be applied by a dentist or dental hygienist.

Sealants may be applied to the occlusal, buccal, and lingual pits and fissures of any tooth. The tooth must be at risk for dental decay and be free of proximal caries and restorations on the surface to be sealed. Each tooth must be billed separately using procedure code D1351. Reimbursement is on a per tooth basis, regardless of the number of surfaces sealed. Tooth numbers and surfaces must be indicated on the claim form.

Dental sealants and replacement sealants are limited to one every 3 years, per tooth, for the same provider. Procedure code D1351 is not payable on the same date of service as any of D4000 series (periodontal) procedure codes. During claims processing or retrospective review, if the claim, narrative, documentation, or charting by a provider includes language, terms, or acronyms indicating a preventative resin was applied, the procedure will be reimbursed as a dental sealant, not as a restorative procedure.

[Revised] Procedure code D1351 is not reimbursed to orthodontists or oral maxillofacial surgeons. These providers may be reimbursed by the CSHCN Services Program as a dentist or dentistry group provider type by using the appropriate NPI when billing claims.

Procedure code D1352 may be reimbursed for posterior permanent teeth only to clients who are 5 years of age or older.

Procedure code D1352 will be denied if a caries risk assessment (procedure code D0602 or D0603) has not been submitted, by any provider, within 180 days prior to procedure code D1352.

14.2.5.5 * Space Maintainers

One space maintainer per tooth ID may be reimbursed per lifetime, per client. Replacement space maintainers may be considered on appeal with documentation supporting medical or dental necessity.

Space maintainers may be reimbursed with procedure codes D1510, D1516, D1517, D1520, D1526, D1527, and D1575.

Procedure codes D1551, D1552, D1553, D1556, D1557, and D1558 may be reimbursed to clients who are 1 through 20 years of age. Removal of a space maintainer (procedure code D1556, D1557, or D1558) is not payable to the provider or dental group practice that originally placed the device. Procedure codes D1553 and D1556 are limited to once per quadrant, per day, same provider.

When procedure codes D1510, D1516, or D1517 have been previously reimbursed, the reinsertion of space maintainers may be considered for reimbursement to either the same or a different CSHCN Services Program dental provider when billed with procedure codes D1551, D1552, or D1553.

[Revised] Procedure codes D1510, D1516, D1517, D1520, D1526, and D1527 may be reimbursed for clients who are 1 year of age or older. These procedure codes are not reimbursed to orthodontists or oral maxillofacial surgeons. These providers may be reimbursed by the CSHCN Services Program as a dentist or dentistry group provider type by using the appropriate NPI when billing claims.

Space maintainers are designed to prevent tooth movement and are a benefit in the following situations:

- After premature loss of a deciduous (primary) tooth, first or second molars (tooth identification) (TID): A, B, I, and J for clients who are 1 through 12 years of age.

Space maintainers submitted with procedure code D1575 are limited to one per tooth ID, per client.

To obtain prior authorization, the following must be submitted:

- The [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#)
- Provider documentation supporting the medical necessity and appropriateness of the recommended treatment

Each distinct dental procedure code to be performed that requires prior authorization must be listed on the CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services Form. Repetitive dental procedure codes must be listed to indicate the total quantity to be performed.

Additional documentation, including current periapical radiographs, must be maintained in the client's medical record and submitted to the CSHCN Services Program on request.

Referto: Section 4.4, “Prior Authorizations” in Chapter 4, “Prior Authorizations and Authorizations” for detailed information about prior authorization requirements.

14.2.6.2 Anesthesia Requirements for Clients who are Six Years of Age or Younger

For clients who are six years of age or younger, the following will apply:

- All Level 4 sedation/general anesthesia services provided by a dentist (procedure codes D9222 and D9223), and any anesthesia services provided by an anesthesiologist (M.D./D.O.) or certified registered nurse anesthetist (CRNA) (procedure code 00170 with modifier U3) provided in conjunction with dental therapeutic services must be prior authorized.
- The dentist performing the therapeutic dental procedure is responsible for obtaining prior authorization and is also responsible for providing the anesthesia prior authorization information to the anesthesiology provider.
- The current process of scoring 22 points on the Criteria for Dental Therapy Under General Anesthesia form does not guarantee authorization or reimbursement for clients who are six years of age and younger.

Procedure code 00170 with modifier U3, and procedure codes D9222 and D9223 is limited to once per six calendar months by any provider.

Requests for prior authorization must include, but is not limited to, the following client-specific documents and information:

- The location of where the procedure(s) will be performed (office, inpatient hospital, or outpatient hospital)
- Name of the group providing the Level 4 anesthesia services
- A narrative unique to the client, detailing the reasons for the proposed level of sedation (indicate procedure code D9222, D9223, or 00170 with modifier U3). The narrative must include a history of prior treatment, information about failed attempts at other levels of sedation, behavior in the dental chair, proposed restorative treatment (tooth ID and surfaces), urgent need to provide comprehensive dental treatment based on extent of diagnosed dental caries, and any relevant medical condition(s).
- Diagnostic quality radiographs or photographs
 - When appropriate radiographs or photographs cannot be taken prior to general anesthesia. The narrative must support the reasons for an inability to perform diagnostic services. For special cases that receive authorization, diagnostic quality radiographs or photographs will be required for payment and will be reviewed by the TMHP dental director.

Note: *In cases of an emergency medical condition, accident, or trauma, prior authorization is not necessary. However, a narrative and appropriate pre- and post-treatment radiographs or photographs must be submitted with the claim, which will be reviewed by the TMHP dental director.*

14.2.6.3 Interrupted Treatment Plan

Prior authorization for an incomplete treatment plan is not transferable to the new provider. The new provider must obtain prior authorization to complete the treatment plan initiated by the original provider.

14.2.6.4 Restorations

Restorations do not require prior authorization except for onlays and crowns. Procedure code D2999 requires prior authorization.

Consideration of restoration reimbursement is contingent on compliance with the following limitations:

- Restorations on primary teeth and permanent posterior teeth may be reimbursed on the basis of the surface or surfaces restored and are paid as a total maximum fee per tooth.
- More than one restoration on a single surface is considered a single restoration. A multiple surface restoration cannot be billed as two or more separate one-surface restorations.
- The restorations must show definite crossing of the plane of each surface listed for primary and permanent tooth restoration completed to be considered for reimbursement as a multiple surface restoration.
- All reimbursement for tooth restorations include local anesthesia and pulp protection media, where indicated, without additional charges. These services will deny as part of another service if billed separately.
- The CSHCN Services Program may reimburse restorations and therapeutic care based on medical necessity. Therapeutic procedures are not reimbursed for preventive purposes.

Inlay or onlay restorations and crowns—single restorations only may be reimbursed a maximum fee when performed on permanent teeth. This fee includes the actual inlay or onlay or crown, any provisional crown, and any preparatory work before the seating of the permanent crown.

Reimbursement for crowns and onlay restorations are payable once per client, per tooth every ten years. Additional crowns and onlays may be considered with prior authorization and documentation of medical necessity.

Reimbursement for crowns and onlay restorations require submission of post-operative bitewing radiograph(s) (for posterior teeth) or post-operative periapical radiograph(s) (for anterior teeth) with the claim to verify that the restoration meets the standard of care.

Single restoration only crown procedure codes are limited to CSHCN Services Program clients who are 13 years of age or older.

Procedure code D2799 is denied as part of the global fee for a crown.

14.2.6.4.1 Direct Restorations and Other Restorative Services

Direct restoration of a primary tooth with the use of a prefabricated crown will be considered as a once in a lifetime restoration, same TID, any provider. Exceptions may be considered when pre-treatment X-ray images, intra-oral photos, and narrative documentation clearly support the medical necessity for the replacement of the prefabricated crown procedure codes D2930, D2932, D2933, and D2934 during pre-payment review.

Procedure code D2930 will be denied if the following procedure codes have been billed within a rolling year, for the same TID, by the same provider:

| Procedure Codes | | | | | | | | | |
|-----------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| D2140 | D2150 | D2160 | D2161 | D2330 | D2331 | D2332 | D2335 | D2390 | D2391 |
| D2392 | D2393 | D2394 | | | | | | | |

Procedure codes D2933 and D2934 will be denied if the following procedure codes have been billed within a rolling year, for the same TID, by the same provider:

14.2.6.5 Endodontics

The following procedures are limited to four permanent teeth without prior authorization:

- Initial endodontic therapy (procedure codes D3310, D3320, and D3330)
- Retreatment of previous root canal therapy (procedure codes D3346, D3347, and D3348)

Procedure code D3221 is considered part of all endodontic procedures and will not be reimbursed separately.

14.2.6.5.1 Prior Authorization

Prior authorization is required for root canal therapy and retreatment of previous root canal therapy (procedure codes D3346, D3347, and D3348) in excess of four root canals. To obtain prior authorization, the [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#) must be submitted with documentation of medical necessity.

Documentation supporting medical necessity must be maintained in the client's dental record and include the following:

- The medical necessity before treatment, during treatment, and post treatment
- Periapical radiographs
- The final size of the file to which the canal was enlarged and the type of filling material used
- Any reason that the root canal may appear radiographically unacceptable must be documented in the client's dental record

Prior authorization is required for procedure code D3460. Documentation of medical necessity must include the following:

- The client is 16 years of age or older.
- Regular treatment failed.
- The client's anatomy is such that no other fixed or removable prosthodontic alternatives are available, including, but not limited to anodontia, a result of trauma, or birth defect.

Prior authorization is required for an unspecified endodontic procedure, procedure code D3999.

Referto: Section 14.2.6.1, "Prior Authorization Requirements" in this chapter for more information about prior authorization requirements.

Section 4.4, "Prior Authorizations" in Chapter 4, "Prior Authorizations and Authorizations" for detailed information about prior authorization requirements.

14.2.6.5.2 Pulp Caps and Pulpotomy

| D3110 | A = 1 year and older |
| D3120 | A = 1 year and older |
| D3220 | <ul style="list-style-type: none"> • A = NA. • Limited to once per lifetime, per primary tooth (TID A through T) • Will be denied when performed within 6 months of pulpal therapy (procedure codes D3230 and D3240) on the same primary TID, by the same provider • Will be denied when performed within 6 months of root canal therapy (procedure codes D3310, D3320, and D3330) on the same permanent TID by the same provider |
| D3230 | A = 1 year and older |

Procedure code D3221 is considered part of all endodontic procedures and will not be reimbursed separately.

14.2.6.5.3 Root Canals

Root canals may only be reimbursed when performed on permanent teeth.

Reimbursement for endodontic therapy (procedure codes D3310, D3320, and D3330), or retreatment of a previous root canal (procedure codes D3346, D3347, and D3348) includes all appointments, radiographs, and procedures necessary to complete the treatment, including, but not limited to:

- Pulpotomy
- Radiographs performed pre-, intra-, and postoperatively

Re-treatment claims for an incomplete pulpotomy performed by a dentist not associated with the original treating dentist or dental group will be considered for reimbursement upon appeal.

Documentation of medical necessity and the incomplete initial pulpotomy must be submitted with the appeal. The appeal must also include a written narrative and pre- and post-treatment X-rays, which will be reviewed by a Texas licensed dentist.

Note: *The identified, original treating dentist or dental group will not be considered for reimbursement.*

The following services are not considered part of the endodontic therapy procedures or the retreatment procedures of a previous root canal and may be reimbursed separately:

- Diagnostic evaluation
- Radiographs performed at the initial, periodic, or emergency service visits

Root canal therapy not carried to completion with a final filling should not be billed using a root canal therapy procedure code. It must be billed using procedure code D3999. Providers must file the claim with a narrative description of the procedures that were completed.

The date of service for a root canal is the date when the service was initiated.

Procedure codes D3220, D3351, D3352, and D3353 performed on a tooth within the 6 months preceding a root canal is considered part of the root canal. The total amount reimbursed will not exceed the total dollar amount allowed for procedure codes D3310, D3320, and D3330, or D3346, D3347, and D3348.

Apicoectomy (procedure codes D3410, D3421, D3425, and D3426) billed after root canal therapy or retreatment of a previous root canal may be reimbursed separately.

14.2.6.7.3 Fixed Prosthodontics

Prior authorization is required for fixed prosthodontics. Fixed prosthodontics are limited to CSHCN Services Program clients who are 16 years of age or older, as the client must be old enough to have mature teeth and minimal jaw growth remaining.

Required documentation for prior authorization includes, but is not limited to:

- The [CSHCN Services Program Prior Authorization Request for Dental or Orthodontia Services form](#).
- Documentation of medical necessity for the requested procedure includes, but is not limited to:
 - Documentation supporting that the mouth is free of disease; no untreated periodontal, endodontic disease, or rampant caries.
 - Documentation supporting only one virgin abutment tooth; at least one tooth must require a crown, except when a Maryland bridge is placed.
 - Tooth Identification (TID) System noting only permanent teeth.
 - Documentation supporting that a removable partial is not a viable option to fill the space between the teeth.
 - Appropriate pretreatment radiographs of each involved tooth, such as periapical views must be maintained in the client’s medical record and submitted to the CSHCN Services Program on request. Panoramic films are inadequate to detect caries or tooth structure necessary to evaluate the request.

Prior authorization will not be given when:

- Films show two good abutment teeth, except when a Maryland bridge will be replaced.
- There is untreated periodontal or the presence of endodontic disease, or rampant caries which would contraindicate the treatment.

Referto: Section 14.2.6.1, “Prior Authorization Requirements” in this chapter.

The following fixed prosthetics (pontics, retainers, and abutments), may be reimbursed with a maximum fee and include any preparatory work before placement of the fixed prosthetic.

| D6780 | D6781 | D6782 | D6783 | D6790 | D6791 | D6792 | | | |

Each abutment and each pontic constitutes a unit in a fixed partial-denture bridge (bridgework).

The following procedure codes are considered part of any other service and are not reimbursed separately:

| Procedure Codes | | | | | | | | | |
|-----------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|

14.2.6.9.1 Emergency Dental Treatment Services

Procedure code D9110 is an emergency service only. The type of treatment rendered and tooth identification must be indicated. It must be for a service other than a prescription or topical medication. The reason for the emergency and a narrative of the procedure actually performed must be documented and the appropriate block for emergency must be checked on the claim form.

Procedure code D9110 is a benefit for the following:

- Sedative or periodontal dressing
- Starting root canal procedure; (i.e., open and drain tooth or re-medication of previously opened tooth)
- Smoothing fractured tooth that is cutting lips or cheek
- Debridement or curettage of wound
- Excision of operculum over an erupting tooth
- Limited gingivectomy
- Suture removal by dentist other than the dentist who placed suture(s)

- Placement of a temporary crown by other than the patient's regular dentist and one who is not in the process, has not previously, or does not in the future intend to perform an acrylic, polycarbonate, stainless steel or cast crown on this same tooth
- Tissue conditioning of a full or partial denture
- Removal of spontaneously or post-surgically sequestered bone spicule
- Spot or limited scaling and root planing
- Procedures necessary to treat a dry socket
- Procedures necessary to control bleeding
- Non-surgical reduction of TMJ dislocation
- Procedures necessary to relieve pain associated with pericoronitis, particularly third molars

Procedure code D9110 is not a benefit for the following:

- Prescription written
- Medication given or administered
- Application of topical medication to teeth or gums
- Occlusal adjustments
- Oral hygiene instructions

14.2.6.10 Dental Anesthesia

All dental providers must comply with the American Academy of Pediatric Dentistry (AAPD) guidelines and TSBDE rules and regulations, including the standards for documentation and record maintenance for dental anesthesia.

Providers must have a level 4 permit and an anesthesiology residency recognized by the American Dental Board of Anesthesiology to receive an enhanced rate for procedure codes D9222 and D9223.

All levels of sedation must have clinical documentation and a narrative in the client's dental record to support medical necessity of the service. The client's dental record must be available for review by representatives of HHSC or its designee.

14.2.6.10.1 Anesthesia Permit Levels

The following table shows the levels of anesthesia permits that are issued by the TSBDE:

| Permit Level | Description of Level | Permit Privileges |
|--|----------------------------------|--|
| Nitrous oxide/oxygen inhalation conscious sedation | | Stand-alone permit |
| Level 1 | Minimal sedation | Stand-alone permit |
| Level 2 | Moderate enteral | Automatically qualifies for Level 1 and Level 2 permit privileges |
| Level 3 | Moderate parenteral | Automatically qualifies for Level 1, Level 2, and Level 3 permit privileges |
| Level 4 | Deep sedation/general anesthesia | Automatically qualifies for Level 1, Level 2, Level 3, and Level 4 permit privileges |

Providers will be reimbursed only for those procedure codes that are covered by their anesthesia permit level. The following procedure codes may be used to bill dental anesthesia and indicates the minimum anesthesia permit level to be reimbursed for these procedure codes:

| Procedure Codes | Level of Sedation |
|-----------------|-------------------|
| D9211 | Level 3 |
| D9212 | Level 3 |
| D9222 | Level 4 |
| D9223 | Level 4 |
| D9230 | Level 1 |
| D9239 | Level 3 |
| D9243 | Level 3 |
| D9248 | Level 2 |

Dental anesthesia is not age-restricted.

Local anesthesia in conjunction with operative or surgical services (procedure code D9215) is all inclusive with any other dental service and is not reimbursed separately.

Procedure codes D9239 is limited to 15 minutes (1 unit) per day. Procedure code D9243 is limited to 1 hour and 15 minutes per day (5 units).

Reimbursement of procedure code D9248 is limited to one service per client per day. Procedure code D9248 is limited to two times per year, per client.

If more than two nonintravenous (IV) conscious sedation services are required by the same provider in a 12 month period, prior authorization is required.

Any dentist providing nonintravenous (IV) conscious sedation must comply with all TSBDE Rules and American Academy of Pediatric Dentistry (AAPD) Guidelines, including maintaining a current permit to provide non-IV conscious sedation. Claims must include a provider statement indicating that the procedure was provided in full compliance with these guidelines. Documentation supporting medical necessity and appropriateness for the use of non-IV conscious sedation must be maintained in the client's records and is subject to retrospective review.

Supporting documentation includes, but is not limited to the following:

- Narrative addressing the reason non-IV conscious sedation was necessary
- Medications used to provide the non-IV conscious sedation
- The duration of the non-IV conscious sedation, including the start and end times
- Monitored statistics, such as vital signs and oxygen saturation levels
- Any resuscitative measures that may have been necessary

The following procedure codes are denied when billed for the same date of service as procedure code D9248:

| Procedure Codes | | | | | | |
|-----------------|-------|-------|-------|-------|-------|-------|
| D9210 | D9211 | D9212 | D9222 | D9230 | D9239 | D9920 |

Referto: Section 14.2.7.3, “Dental General Anesthesia Provided in the Inpatient or Outpatient Setting (Medically Necessary Dental Rehabilitation or Restoration Services)” in this chapter.

14.2.6.10.2 Method for Counting Minutes for Timed Procedure Codes

All claims for reimbursement of procedure codes paid in 15-minute increments are based on the actual amount of billable time associated with the service. For those services for which the unit of service is 15 minutes (1 unit = 15 minutes), partial units should be rounded up or down to the nearest quarter hour.

Time intervals for 1 through 12 units are as follows:

| Units | Number of Minutes |
|----------|---------------------------------|
| 0 units | 0 minutes through 7 minutes |
| 1 unit | 8 minutes through 22 minutes |
| 2 units | 23 minutes through 37 minutes |
| 3 units | 38 minutes through 52 minutes |
| 4 units | 53 minutes through 67 minutes |
| 5 units | 68 minutes through 82 minutes |
| 6 units | 83 minutes through 97 minutes |
| 7 units | 98 minutes through 112 minutes |
| 8 units | 113 minutes through 127 minutes |
| 9 units | 128 minutes through 142 minutes |
| 10 units | 143 minutes through 157 minutes |
| 11 units | 158 minutes through 172 minutes |
| 12 units | 173 minutes through 187 minutes |

All levels of sedation must have clinical documentation and a narrative in the client's dental record to support the necessity of the service. Documentation must include the sedation record that indicates sedation start and end times in accordance with the American Academy of Pediatric Dentistry (AAPD) guidelines. The client's dental record must be available for review by representatives of HHSC or its designee.

14.2.6.11 Dental Behavior Management

Procedure code D9920 is considered for prior authorization in addition to therapeutic procedures when provided in the office and when the client has a diagnosis of an intellectual disability described as mild, moderate, severe, profound, or unspecified.

Documentation supporting the medical necessity and appropriateness of dental behavior management must be retained in the client's chart and is subject to retrospective review.

Supporting documentation includes, but is not limited to, the following:

- A current physician statement addressing the intellectual disability, signed and dated within 1 year before the dental behavior management
- The client's diagnosis of intellectual disability
- A description of the service performed, including the specific problem and the behavior management technique applied
- Personnel and supplies required to provide the behavioral management
- The duration of the behavior management, including the start and end times

Dental behavior management is not reimbursed with an evaluation, prophylactic treatment, or radiographic procedure.

Except for those procedures requiring prior authorization, admission to an outpatient or freestanding ambulatory surgical center (ASC) for the purpose of performing dentistry services must be authorized.

Referto: Section 24.5.1 *, “Benefits, Limitations, and Authorization Requirements” in Chapter 24, “Hospital” for more information about prior authorization in an ASC.

14.2.6.12 Internal Bleaching of Discolored Tooth

Internal bleaching of a discolored tooth is an accepted endodontic treatment for clients who are 13 years of age or older. It is intended to remove and change the organic material in the enamel of an infected or traumatized tooth. It is considered medically necessary when chemical change of the contents in the interior of the tooth is judged necessary to complete an endodontic treatment to the tooth for therapeutic, not cosmetic purposes. Prior authorization is not required. Procedure code D9974 may be considered for reimbursement when the claim is filed with documentation supporting medical necessity. Claims that are filed without documentation supporting medical necessity are denied as incomplete.

14.2.6.13 Noncovered Services

The following therapeutic services are not benefits of the CSHCN Services Program.

| Procedure Codes | | | | | | | | | |
|-----------------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| D3331 | D3332 | D3333 | D6058 | D6059 | D6060 | D6061 | D6062 | D6063 | D6064 |
| D6065 | D6066 | D6067 | D6068 | D6069 | D6070 | D6071 | D6072 | D6073 | D6074 |

14.2.7 Dental Treatment in Hospitals and ASCs

Dental rehabilitation and restoration services requiring general anesthesia may be performed in the inpatient or outpatient setting.

14.2.7.1 Dental Hospital Calls

Dental hospital calls may be reimbursed for clients of any age that require medically necessary general anesthesia or dental treatment in the inpatient or outpatient hospital setting. Providers may bill procedure code D9420 in addition to the dental services performed in the inpatient or outpatient setting. Documentation supporting the medical necessity of the dental hospital call must be retained in the client’s dental record and is subject to retrospective review. Procedure code D9420 is limited to twice per rolling year, per client, any provider.

Referto: Chapter 24, “Hospital” for more information about requirements for inpatient and outpatient services.

14.2.7.2 Authorization and Prior Authorization Requirements

All inpatient hospital admissions for dental services require prior authorization. Except for those specific procedures that require prior authorization, admission to freestanding ASCs or outpatient hospital ambulatory surgical centers (HASCs) for the purpose of performing dentistry services require authorization.

The [CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia](#) must be submitted to the TMHP-CSHCN Services Program with supporting documentation of medical necessity.

Referto: Chapter 4, “Prior Authorizations and Authorizations” for additional information.
Chapter 24, “Hospital.”

14.2.7.3 Dental General Anesthesia Provided in the Inpatient or Outpatient Setting (Medically Necessary Dental Rehabilitation or Restoration Services)

Dental rehabilitation or restoration services requiring general anesthesia may be performed in the inpatient or outpatient setting.

CSHCN Services Program dental services should be billed using the following Current Procedural Terminology (CPT) procedure codes and modifier where appropriate:

- Anesthesia services for general dental anesthesia, procedure code 00170 with modifier U3
- ASC or HASC dental rehabilitation or restoration, procedure code 41899 with modifier U3
- Physical examinations before dental restorations under anesthesia, procedure codes 99202, 99222, and 99282
- Restorations under anesthesia, procedure codes 99222 and 99282

Supporting documentation must be retained in the client's chart and must reflect compliance with the CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia and the CSHCN Services Program Policy About the Criteria for Dental Therapy Under General Anesthesia, Attachment 1. Dental general anesthesia may be reimbursed once every 6 months per client any provider.

All supporting documentation must be maintained in the client's medical record. The client's record must be available for review by representatives of the CSHCN Services Program, the Department of State Health Services (DSHS), the CSHCN Services Program claims contractor, and HHSC. The dental provider is required to maintain the following documentation in the client's dental record:

- The medical evaluation justifying the need for anesthesia
- Description of relevant behavior and reference scale
- Other relevant narrative justifying the need for general anesthesia
- Client's demographics, including date of birth
- Relevant dental and medical history
- Dental radiographs, intraora or perioral photography, or diagram of dental pathology
- Proposed dental plan of care
- Consent signed by parent or guardian giving permission for the proposed dental treatment and acknowledging that the reason for the use of IV sedation or general anesthesia for dental care has been explained
- Completed [CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia form](#)
- The parent or guardian dated signature on the Criteria for Dental Therapy Under General Anesthesia form attesting that the parent or guardian understands and agrees with the dentist's assessment of their child's behavior
- Dentist's attestation statement and signature, which is put on the bottom of the CSHCN Services Program Criteria for Dental Therapy Under General Anesthesia form or included in the client's dental record as a separate form

Hospital and outpatient facility admissions are subject to medical necessity review.

14.2.8 Doctor of Dentistry Services as a Limited Physician

The CSHCN Services Program covers services provided by a DDS or DMD if the services are a benefit and furnished within the dentist's scope of practice as defined by Texas state law. To participate in the CSHCN Services Program as a dentist practicing as a limited physician, a dentist (DDS or DMD) must be enrolled separately as a dentist practicing as a limited physician.

The CSHCN Services Program recognizes the standards of care needed to appropriately address the repair of cleft and craniofacial anomalies as outlined in the guidelines prepared by the American Cleft Palate - Craniofacial Association (acpa-cpf.org).

A comprehensive, multidisciplinary approach is medically necessary to meet all of the needs of clients with complex medical conditions who require treatment by a broad range of medical specialists. Standard of care for the comprehensive repair or reconstruction of craniofacial anomalies for CSHCN Services Program clients requires a team approach either by a C/C team or by an equivalent coordinated multidisciplinary team. The following exceptions may be considered to this requirement:

- A C/C or equivalent multidisciplinary team is not available in the area and the client is unable to travel. (Medical record documentation must explain the reasons the client is unable to travel.)
- A C/C or equivalent multidisciplinary team is not available in the area, or the team approach cannot be coordinated over multiple locations. (Medical record documentation must describe attempts to coordinate a team approach.)
- A C/C or equivalent multidisciplinary team is available but the client or the client's parent/ guardian refuses to receive care from the team. (Medical record documentation must explain the reason for the refusal of the care offered by the team.)

Referto: Section 31.2.39.11, "Cleft/Craniofacial Procedures" in Chapter 31, "Physician" for more detailed information.

If a client has third-party insurance coverage available that requires reconstructive facial surgery involving the bony skeleton of the face (including midface osteotomies and cleft lip and palate repairs performed by a physician), the CSHCN Services Program cannot consider a claim for payment unless all third-party payer requirements are met.

14.2.8.1 Authorization Requirements

The following procedure codes require prior authorization and may be considered with medical review of documentation of medical necessity. These procedures may be considered cosmetic and are not a benefit except when the procedure is performed as a result of trauma or injury to reconstruct tissues or body structures, or to repair damaged tissues.

14.3 * Claims Information

Dental services must be submitted to TMHP in an approved electronic format or on a paper ADA Dental Claim Form. Providers can obtain copies of this form by contacting the ADA at 1-800-947-4746 or ordering online from the ADA website at www.ada.org. TMHP does not supply the forms. Any paper dental claim submitted using any other version of the dental claim form is not processed and is returned to the submitter.

When completing a paper ADA Dental Claim Form, all required information must be included on the claim, as information is not keyed from attachments. Superbills, or itemized statements, are not accepted as claim supplements.

Providers billing electronically must submit dental claims in American National Standards Institute (ANSI) ASC X12 837D format. Specifications are available to providers developing in-house systems, software developers, and vendors. Because each software package is different, field locations may vary. Providers should contact the software developer or vendor for information about their software. Providers or software vendors may direct questions about development requirements to the TMHP EDI Help Desk at 1-888-863-3638.

[Revised] Claims must contain the billing provider’s full name, address, and NPI. The billing provider’s full name and address must be entered in Block 48 of the paper ADA Dental Claim Form, and the ten-digit NPI must be entered in Block 49. A claim without a provider name, address, and NPI cannot be processed.

The Healthcare Common Procedure Coding System (HCPCS)/CPT codes included in policy are subject to National Correct Coding Initiative (NCCI) relationships. Exceptions to NCCI code relationships that may be noted in CSHCN Services Program medical policy are no longer valid. Providers should refer to the Centers for Medicare & Medicaid Services (CMS) NCCI web page at www.cms.gov/medicare/coding/ncci-coding-edits or correct coding guidelines and specific applicable code combinations. In instances when CSHCN Services Program medical policy quantity limitations are more restrictive than NCCI Medically Unlikely Edits (MUE) guidance, medical policy prevails.

Referto: Chapter 41, “TMHP Electronic Data Interchange (EDI)” for information on electronic claims submissions.

Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for general information about claims filing.

Section 5.7.2.13, “Instructions for Completing the Paper ADA Dental Claim Form” in Chapter 5, “Claims Filing, Third-Party Resources, and Reimbursement” for instructions on completing paper claims. Blocks that are not referenced are not required for processing and may be left blank.

14.3.1 Dental Emergency Claims

The Emergency Indicator field has been removed from the HIPAA-approved 837D electronic transaction. Dental providers submitting electronic claims in the 837D format must use modifier *ET* to report emergency services. Modifier *ET* must be placed in the SVC01 section of the 837D format.

Additionally, the Comments field should be used to document the specific nature of the emergency. The Comments field in the HIPAA-approved 837D electronic transaction is 80 bytes long.

To indicate a dental emergency on a paper claim submission (ADA Dental Claim Form), check Block 45, Treatment Resulting From (check the applicable box), and check the Other Accident box for emergency claim reimbursement. If the Other Accident box is checked, information about the emergency must be provided in Block 35, Remarks.

Only one emergency or trauma claim per client, per day may be submitted. Separate services (one for emergency or trauma and one for nonemergency or routine) may be submitted for the same client on the same day, any provider, for separate services and procedure codes.

14.3.2 Tooth Identification (TID) and Surface Identification (SID) Systems

Claims are denied if the procedure code is not compatible with TID or SID. Use the alpha characters to describe tooth surfaces or any combination of surfaces. Anterior teeth have facial and incisal surfaces only. Posterior teeth have buccal and occlusal surfaces only.

14.4 Reimbursement

Dental services may be reimbursed the lower of the billed amount or the amount allowed by Texas Medicaid.

For fee information, providers can refer to the Online Fee Lookup (OFL) on the TMHP website at www.tmhp.com.

The CSHCN Services Program implemented rate reductions for certain services. The OFL includes a column titled “Adjusted Fee” to display the individual fees with all percentage reductions applied. Additional information about rate changes is available on the TMHP website at www.tmhp.com/resources/rate-and-code-updates/rate-changes.

Note: Certain rate reductions including, but not limited to, reductions by place of service, client type program, or provider specialty may not be reflected in the Adjusted Fee column.
